- Gonocrinites** angulosus, fenestratus, giganteus, striatus.
- Gonodactylus** chiragra, edwardsi, ensiger, graphurus, japonicus, scyllarus, setimanus, styliiferus.
- Gonodon** quadridens, quinquedentata, seductilis, tridens.
- Gonodonta** bidens, fulvangula, lincus, nutrix, sicheas, thalicta, uncina.
- Gonodontis** ancetaria, celiaria, dentaria, peplaria.
- Gonogenia** tabida.
- Gonogenius** brevipes, vulgaris.
- Gonoleptes** chilensis, spinipes.
- Gonomyia** antarctica, gracillipes, variegata.
- Gonopera** rugosa.
- Gonophora** (Col.) haemorrhoidalis, orientalis.
- Gonophora** (Lep.) derasa, derosa.
- Gonoplax** angulatus, bispinosa, emarginata, impressa, incerta, incisa, latreillei, longimanus, maracoani, masearone, rhomboidalis, rhomboides, sexdentatus, vocans.
- Gonopsis** denticulata.
- Gonopteris** pergaea.
- Gonopteryx** cleopatra, rhamnii.
- Gonopus** cordicollis, puncticollis, sulcatus.
- Gonorhynchus** abbreviatus, bimaculatus, brachypterus, brevis, caudatus, fimbriatus, gobioides, gohama, gonorhynchus, gotyla, greyi, gronovii, lamta, macrosomus, mclellandi, petrophilus, rupiculus, stenorhynchus.
- Gonosoma** modestum, viridis.
- Gonospileia** munita, triquetra.
- Gonostoma** (G.) angigra, clausa, diodonta, holoserica, obvoluta, personata.
- Gonostoma** (P.) denudata.
- Gonostomus** acanthurus, ovatus, poweriae.
- Gonotus** viridis.
- Gonyechis** cerastes.
- Gonyleptes** acanthopus, acanthurus, acantops, aculeatus, armatus, asper, asperatus, bicornis, bicuspidatus, curvipes, curvispina, elegans, flavipalpis, horridus, modestus, muticus, ornatum, pectinatus, planiceps, polyacanthoides, polyacanthus, scaber, spinipes, subsimilis.
- Gonyocephalus** belli, chameleontina, dilophus, giganteus.
- Gonyodactylus** annulatus, cypricus, platurus, pulchellus, scaber, spinulosus.
- Gonyodipsas** irregularis.
- Gonyodiscus** perspectiva.
- Gonyosoma** oxycephalus, viride.
- Gonyostomus** centriquadus, concolor, gonyostoma, multicolor.
- Gonyo**→ *Vide et Gonio*→.
- Gonypes** albitarsis, audouini, bicolor, fuscus, geniculatus, pumilus, tipuloides.
- Gonypus** breviventris, clavistilus, nitidus.
- Goodallia** crenulata, minutissima, pygmaea, triangularis.
- Gordia** marina.
- Gordius** aceti, acuminatus, annulatus, argillaceus, capsularia, chilensis, clauxensis, coronatus, crassus, glutinis, gracilis, linea, locustarum, macula, milvi, monocolorum, papillosa, pusillus, rissetensis, rugulosus, subbifurcus, terrestris, tolosanus, tolosanus.
- Gorgo** ceto, medusa, oeme, prodea.
- Gorgon** fasciatus.
- Gorgone** orphna.
- Gorgonia** alba, amaranthoides, anceps, anguiculus, anticorum, antiqua, apiculata, arenata, aspera, assimilis, bacillaris, bertoloni, bouchardi, cancellata, capillaris, carinata, clavata, coccinea, cribrum, dilatata, dubia, ehrenbergi, fastuosa, flabelliformis, flavida, flexuosa, florida, fucata, fucosa, furcata, fusco-purpurea, gallardi, gemmata, goldfussiana, gracilis, graminea, granifera, granulosa, heteropora, humilis, infundibuliformis, jacksoni, keuperi, laxa, laxispica, leucostoma, lima, lonsdaleana, madrepora, mammosa, membranacea, moniliformis, multicauda, myura, nivea, nodulifera, ochrostoma, olivacea, olivieri, orphna, ortilia, penna, perantiqua, planta-

ginea, pluma, proava, pseudoantipathes, pustulosa, quercus folium, quincuncialis, ramulosa, regularis, reteformis, retellum, reticulum, retiformis, richardi, ripisteria, rissi, rissuana, rizomorpha, rosea, sageria, sanguinea, sepulta, siluriana, spicifera, spinosa, stenobrochis, striata, stricta, suffruticosa, sulcifera, sulphurea, targionii, thomasiensis, tortuosa, trichostemma, umbella, undulata, venusta, vermiculata, virgulata, ziczac.

Gorgonida prototypus.

Gorgonocephalus arborescens, areticus, asper, costosus, muricatus, palmifer, verrucosus.

Gorgopsis humuli, libania.

Gorgus bispinosus, hoplites, lentiginosus.

Gortyna boreli, cervago, flavago, leucostigma, lunata, luteago, micacea, morio, vindelicia, xanthenes, zeae.

Gorytes affinis, arenarius, arpactus, belgicus, bicinctus, bipunctatus, brasiliensis, campestris, carceli, cinctus, coarctatus, concinnus, croceipes, dissectus, fargei, formosus, laevis, laticeinctus, latifrons, phaleratus, punctulatus, quadris-fasciatus, quinquecinctus, quinquefasciatus, ruficornis.

Gouania piger.

Gouldia (A.) conversi, langsdorffi, popelairi.

Gouldia (L.) cerina, parva.

Goura carunculata, coronata, cruenta, cyanocephala, erythrothorax, hottentotta, jamaicensis, leucotis, martinica, minuta, montana, nicobarica, passerina, picui, steursi, talpacoti.

Gracalus chalconotus, cirrhatus, punctatus, tenuirostris.

Gracilaria falconipennella, frackella, limosella, oneratella, ononides, pavoniella, picipennella, populetorum, quadrisignella, quadruplella, scariella, simploniella, suberinnella, venerostomella. *Vide et Gracillaria.*

Gracilia fusca, manca, pygmaea, timida, vini.

Gracillaria anastomosis, ardeae pennella, begrandella, bruneorubella, cinerea, coracipennella, cylindrea, elongella, eximia, fagetella, fueslii, guttea, hemidactyla, hemidactylella, hilaripennella, laticella, leucapennella, lusciniapennella, meleagri-pennella, merianae, merulaepennella, nebulea, nigroscriptella, ochracea, plumbella, praeangusta, purpurea, roscipennella, roscipennis, rufipennella, semifascia, signipennis, sorbiella, stigmatella, sturnipennella, substriga, syringella, taxella, testacella, thunbergella, thunbergi, trigona, turdipennella, upupaepennella, V-flava, versicolor, violacea. *Vide et Gracillaria.*

Gracillaroides clerkella, kollarella, quercitella.

Gracula abyssinica, coronata, cucullata, cyanotis, dumonti, ferruginea, gallinacea, glauca, intermedius, javanus, larvata, leucocephala, leverianus, martinus, melanocephala, melano-leuca, musica, nigricollis, nudicollis, ochrocephalus, pagodarum, picata, picoides, ptilogynus, rosea, sericeus, viridis.

Graculus africanus, albidus, albigula, bicristatus, brasiliensis, brevirostris, capensis, carboides, cinnatus, cirrhatus, cristatus, desmaresti, dilophus, eremita, fuscus, gaimardi, leucogaster, linnaei, lucidus, magellanicus, medius, melanogaster, melano-leucus, minor, mystacalis, novae hollandiae, penicillatus, purpurascens, pygmaeus, sarmientonus, sinensis, sulcirostris, torquatus, urile, varius, violaceus, viridis.

Gracupica melano-leuca.

Grallaria brevicauda, fusca, fuscata, guatimalensis, imperator, macularia, marginatus, monticola, nana, ochroleuca, olivacea, quitensis, rex, ruficapilla, rufula, squamigera, tinensis, varia.

Grallina australis, bicolor, cyano-leuca, melancleuca, picata.

Grallipeza unimaculata.

Grallomya osculati, tarsata.

Grallo-poda albinana, annulata.

Grammatophora angulifera, cristata, decresi, gainardi, maculata, muricata, ornata, reticulata.

Grammesia bilinea, trilinea.

Grammicosum flavofasciatum.

Grammicus chilensis.

Grammistes acuminatus, annularis, bivittatus, cabrilla, chrysurus, decinalis, digramma, forsteri, furcatus, ghanam, hepatus, japonicus, juba, kasinira, lineatus, macrophthalmus, mauritii, melanurus, orientalis, pictus, punctatus, purpureus, quadrivittatus, quinquevittatus, rhomboides, sector, servus, striatus, thunbergi, trivittata, unimaculatus, variegatus, vittatus.

Grammobotrys africana.

Grammognatha euphratica.

Grammoptera analis, capitata, elegans, femorata, laevis, lurida, praeusta, quadriguttata, ruficornis, spinulosa, suturalis.

Grammostomum angustum, areolatum, attenuatum, confluent, cordatum, coronatum, coscinopleurum, cribrum, denticulatum, depressum, divergens, gracile, laeve, laterale, lingua, maculatum, megastigma, plica, plicatum, polyporum, polystigma, porosum, rotundatum, semiporosum, seriatum, sphaerostigma, strophoconus, sulcatum, tenue, tumens.

Grammotaulius atomarius, interrogationis, lineola.

Grammysia hamiltonensis.

Grampus cuvieri, heavysidei, intermedius, obscurus, richardsoni, rissoanus, sakamata.

Granaria avena, bigorensis, frumentum, hordeum, moricandi, polyodon, secale, variabilis.

Granatellus venustus.

Granatocrinites cidariformis.

Grandala costicolor, schistacea.

Grantea areolata.

Grantia albens, botryoides, ciliata, compressa, coriacea, fistulosa, lacunosa, nivea, pulverulenta.

Graphinotus ornatus.

Graphiphora albimacula, augur, baja, brunnea, C nigrum, candelisequa, carnea, dahli, dipuncta, ditrapezium, festiva, gothica, I-intactum, latens, lunulina, musiva, plecta, polygona, punicea, pyrophila, ravida, renigera, rhomboidea, rubi, sigma, subrosea, triangulum, tristigma.

Graphipterus ancora, arcuatus, barthelemyi, bivittatus, cicindeloides, cordiger, elegantulus, exclamationis, femoratus, frontalis, goryi, hamatus, hoppei, incanus, lateralis, limbatus, lineatus, luctuosus, lutescens, macrocephalus, minutus, multiguttata, obscurus, obsoletus, obtusus, parvicollis, peleteri, plagiatus, quadrilineatus, rectilineatus, rotundatus, rotundipennis, rouxi, salinae, senegalensis, sennariensis, trilineatus, trivittatus, variegatus, velutinus, vestitus, vittatus, vittipennis, wahlbergi, westwoodi.

Graphiurus capensis, elegans, typicus.

Graphoderus brunnipennis, petiti.

Grapholita aspidiscana, decolorana, dorsana, ephippiana, gundiana, hohenwarthiana, hypericana, lunulana, nisana, trauniana, zachana.

Grapholitha abiegana, absinthiana, acuminatana, aemulana, agilana, alpinana, amygdalana, arcigera, argyran, augustana, aurantiana, aureolana, bi-cinctana, blockiana, caecimacula, caliginosana, campoliliana, capparidana, clitellana, consequana, cosmophorana, costana, cuphana, curvana, cytisana, dalecarliana, decorana, distortana, dormoyana, dorsana, duplicana, fackiana, freyeriana, funebrana, gallicolana, gemellana, geminana, gemmiferana, germana, germarana, gimmerthaliana, gundiana, heegerana, ibiceana, immundana, incana, incursana, jungiana, kochiana, lacteana, lathryana, leguminana, lerneana, ligulana, lithoxylana, loderana, messingiana, minutana, mitterpacheriana, montana, nebritana, nemorivaga, oblitana, ochsenheimeriana, orobana, ovulana, padana, petiveriana, petrana, pierretana, pinicolana, plumbagana, plumbatana, pudicana, quadratana, remyana, rhediana, selenana, siliceana, stragulana, strobilana, succedana, suspectana, tenebrosana, triquetana, tristana, ulmariana, ustulana, vacciniana, vermiculana, weirana, wimmerana.

Graphomya americana, maculata, media, minor, vulpina.

Graphomyzina elegans.

Graphorhinus operculatus, vadosus.

Graphosoma affinis, albolineata, flavolineata, interruptum, lineata, nigro lineata, rubro lineata, semipunctata, strigata, subspinosa, trilineata, trimaculata, wilsoni.

Graphularia wetherelli.

- Graphyurus** elegans.
- Graptolithus** priodon, spiralis.
- Grapsillus** dentatus, maculatus, subinteger.
- Grapsus** affinis, albo lineatus, bidens, cinereus, crenulatus, cruentatus, dentipes, depressus, diris, dubius, erythrocheles, fluvialis, fluvicola, gaimardi, guttatus, haematocheir, hirtus, huzardi, intermedius, japonicus, latifrons, limosus, litteratus, lividus, longipes, maurus, messor, minutus, mytilorum, pelagicus, penicillatus, penicilliger, personatus, pictus, plicatus, quadratus, reticulatus, ruricola, sanguineus, sexdentatus, speciosus, squammosus, strigilatus, strigosus, tessellatus, testudinum, tetragonon, thukuhar, transversus, tuberculatus, variegatus, varius.
- Grapta** argenteum, C=album, C=aureum, comma, egea, hartwegi, interrogationis, progne.
- Graptodera** californica, costata, cuprea, ignita, kalmiae, plicata, plicipennis.
- Graptolepis** ornatus.
- Graptolites** amplexicaula, clintonensis, dentatus, griestoniensis, latus, laxus, lobiferus, millepeda, taenia, venosus.
- Graptolitha** rizolitha.
- Graptolithus** becki, bicornis, bohemicus, chimaera, colonus, convolutus, dentatus, distans, distichum, foliaceus, furcatus, geminus, gracilis, halli, laevis, lapidea, ludensis, mucronatus, munchisoni, nilssoni, nuntius, ovatus, palmeus, pristis, proteus, ramosus, roemeri, secalinus, sedgwicki, serratulus, serratus, sextans, tectus, teretiusculus, testis, turriculatus, virgulatus.
- Graptomyza** brevirostris, interrupta, longirostris, ventralis.
- Graptus** tri-guttatus.
- Grateloupea** cuneata, hydrana, irregularis.
- Grateloupia** moulinsi.
- Gratelupia** donaciformis, moulinsi.
- Graucalis** swainsoni.
- Graucalus** atriceps, auritus, bicolor, caledonicus, carbo, carboides, carunculatus, cirrhatus, desgrazi, dussumieri, fasciata, fimbriatus, flavirostris, hypoleucos, javensis, larvata, leucopygius, lineatus, macei, maculosus, magnirostris, melanops, melanotis, mentalis, nipalensis, novae guineae, papuensis, parvirostris, pectoralis, personata, phasianellus, punctatus, robustus, temmincki, tricolor, varius.
- Gravenhorstia** picta.
- Gregarina** amarae, balani, brevirostra, caudata, clavata, clavellinae, conica, cuneata*, curvata, dytiscorum, elongata, elongata*, enchytraei, globosa, heeri, hyalocephala, julii, larvata, longissima, mystacidarum, nemertes, oblonga, oblongata, oligacantha, ovata, pellucida, phallusiae, polymorpha, rubecula, saenuridis, scolopendrae, sieboldi, sipunculi, soror, sphaerulosa, spionis, tenuis, terebellae, tipulae.
- Gresslya** abductus, anglica, cardioides, concentrica, coniformis, cordiformis, donaciforme, erycina, gregaria, latior, latirostris, lunulata, major, ovata, pinguis, rostrata, rotundatum, striata, striato-punctata, sulcosa, truncata, ventricosa, zonata.
- Griffithides** calcaratus, globiceps, granuliferus, longiceps, longispinus, meso-tuberculatus, obsoletus, platyceps.
- Grillivora** longicauda. *Vide et Gryllivora.*
- Grillotalpa** oblita. *Vide et Gryllotalpa.*
- Grillus** pipiens. *Vide et Gryllus.*
- Grimmotaea** gregaria.
- Grisonia** vittata.
- Gristes** peeli.
- Gromia** fluvialis, hyalina.
- Gromphas** dichroa, lacordairei.
- Gronops** costatus, elevatus, inaequalis, lunatus, proletarius, punctirostris, squalidus, sulcatus.
- Grundulus** bogotensis.
- Grus** americana, antigone, australasianus, canadensis, capensis, carunculata, cineracea, cinerea, collaris, fusca, gigantea, grus, leucachen, mexicana, monacha, paradisea, pavonina, poliophaea, poliensis, regulorum, stanleyana, struthio, torquata, vipio, virgo, viridirostris, vulgaris.

Gryllacris ambulans, charpentieri, dubia, frontalis, lineolata, maculicollis, oceanica, pallidula, personata, rubrinervosa, ruiceps, signatiformis, signifera, tibialis, translucens, ungeri, verticalis.

Grylle carbo, grylle, mandti, scapularis.

Gryllites dubius.

Gryllivora brevirostra, intermedia, magnirostra, rosea, saularis. *l'ide et Grillivora.*

Gryllomyia italica.

Gryllotalpa africana, australis, borealis, brevipennis, campbelli, didactyla, gracilis, gryllotalpa, hexadactyla, hirsuta, mexicana, minuta, nitidula, orientalis, oxydactyla, parvipennis, tetradactyla, variegata, vulgaris. *Vide et Gryllotalpa.*

Gryllus abbreviata, abruptus, achatina, achatinus, aegyptius, aeruginosus, affinis, alliaceus, alpinus, americanus, angustata, annulatus, annulipes, aqueus, arcuatus, aridifolia, assimilis, aurantifolia, aureolus, australasiae, axillaris, azurea, azurescens, bicolor, bidens, biguttatus, bimaculatus, binotatus, bisignatus, bivittatus, bordigalensis, brachelytrus, brachypterus, brunneus, bucephalus, bucklandi, capensis, carbonarius, carinicolis, centurio, cerisyi, ceylanicus, charopus, chinensis, chloropus, cicindeloides, cinereus, cingulatus, collaris, columbinus, concinnus, conspersus, coriaceus, crassipes, crenulatus, cruciatus, crucifer, crucigerus, cucullatus, cyaneus, cyanopterus, cylindricus, cymbiformis, deustus, didymus, dilutus, dimidiatus, discolor, donovani, dorsalis, dorsatus, dubius, elegans, elephas, ephippium, equalis, erosa, erythrocephalus, erythrophthalmus, erythropus, eucera, euceros, fasciata, fasciatus, fenestrata, fenestratus, fimbriatus, flavovirens, foliatus, formosus, frenatus, frigidus, frontalis, fuliginosus, fuscatus, fusco vittatus, fuscus, geminus, genei, gracilis, grandis, guttatus, haemorrhoidalis, hemelytrus, hirtipes, hispanicus, humeralis, hypericifolia, hystrix, incarnatus, japonicus, laevis, leprosus, leucogaster, leucosticus, leucostomus, lineatus, lineolatus, littoralis, lividus, longicauda, longipennis, luctuosus, lugubris, lutescens, macrocephalus, maculatus, marginalis, marmoratus, maroccanus, megacephalus, melanocephalus, melas, microcephalus, miniatus, minimus, mitratus, mollis, monoceros, montanus, monticollis, mutabilis, myrmecophilus, myrtifolius, nana, nerifolia, niger, nigricans, nigrofasciata, nitens, notatus, novae guineae, nubecula, nubilus, obliquus, obscurata, occidentalis, occipitalis, oceanicus, ochracea, oicophylla, oicophylla, oleifolia, opacus, orientalis, ornatus, pallasi, pallens, parallelus, parapleurus, patuelis, pattersoni, pectinicolis, pennicornis, pictus, pilicornis, pillosus, pilosus, platypterus, platyxyphus, plorans, prasinus, pulicarius, pullus, pumilus, punctatus, purpureus, purpureus, pusillus, quadratus, radiatus, ranaceus, regulus, rhodoptilus, rubecula, rufescens, rufipes, rugosus, sanguineus, scaber, scabiosus, scutatus, serialis, serrulatus, signifera, speciosus, sphaerocephalus, sphingiformis, splendens, sponsa, squalidus, squarrosus, stigmaticus, stolli, subcoerulipennis, sulcatus, sylvestris, tataricus, taurus, tenellus, tergestinus, tessellatus, thaelephorus, transversus, trapeziformis, tricolor, trifasciatus, tristis, variolosus, vastator, ventralis, verrucosus, verticalis, vexillatus, villosus, vinaceus, violaceus, virens, virescens, virgo, viridissimus, vitreipennis, vittatus, vorax, xanthochlorus. *Vide et Gryllus.*

Gryon matuta, misellum, nanno, phlias.

Gryphaea affinis, africana, americana, angulata, angusta, angustata, arcta, arcuata, auceula, auricularis, auriformis, avicularis, bicarinata, bilobata, bisulcata, brongniarti, bulla, bullata, canaliculata, carinata, cenomana, chamaeformis, columba, complanata, concava, conica, controversa, convexa, cornu-arietis, corrugata, couloni, cymbiola, cymbium, cymbula, darwini, decussata, defrancei, depressa, difformis, digitata, dilatata, distans, dumerilli, elongata, eversa, expansa, gaederopus, gigantea, globosa, halioidea, harpa, incurva, inhaerens, lacinata, laevigata, laeviuscula, latissima, lituola, lunata, maccullochi, mima, minuta, mosquensis, mutabilis, nana, navicularis, obliquata, orientalis, phillipsi, pitcheri, planospirites, plicata, plicatella, plicatula, polymorpha, primordialis, prisca, recurvata, reniformis, rustica, scapha, secunda, signata, silicea, similis, sinuata, spiralis, stomatoidea, subnodosa, suborbiculata, suilla, terebratuloidea, truncata, undata, uniplicata, vesiculosa, virgula, vomer.

Gryphea aquila, duforenyi, forata, ovalis, sulcata.

Gryphinus lateralis, piceus.

- Gryphites** aculeatus, chamaeformis, cimbrium, dilatatus, gigas, laevis, politus, ratis-bonensis, rugosus, speluncarius, spiratus, suillus, truncatus, ungulatus.
- Gryphochiton** nervicanus.
- Gryphoea** plicifera.
- Gryphus** (L.) vitreus.
- Gryphus** (M.) antiquitatus.
- Gryphus** (R.) communis, intermedius, platyodon, tenuirostris.
- Grypidius** brunnirostris, equiseti, gibbifer.
- Gryporhynchus** pusillus.
- Gryptes** brisbanii.
- Grypus** (A.) naevius, rufo-collis, vieilloti.
- Grypus** (Col.) equiseti.
- Grystes** fasciatus, macquariensis, salmoides.
- Gryza** porcellus.
- Guaia** ornata, punctata.
- Gualtieria** orbignyana.
- Guarica** cardinalis.
- Guarouba** lutea.
- Gubernatrix** cristatella.
- Gubernetes** cunninghami, forficatus, vetula, yetapa.
- Guenea** lacteella, pinguinella, segetella.
- Guepar** jubatus.
- Gueparda** jubata.
- Guepardus** flavus, fulvus.
- Guerinia** festiva, gagatea, musca, nana, vivax, winthemi.
- Guettardia** expansa, infundibuliformis, stellata, thiolati.
- Guettardicrinus** dilatatus.
- Guildfordia** heliophorus, triumphans.
- Guillinomys** chilensis.
- Guinetta** hypoleuca.
- Guiopeus** griseus.
- Guira** pirigua.
- Guiraca** abeillei, caerulea, ludoviciana, magnirostris, melanocephala, regulus, tricolor.
- Guiraca** acronica, ampla, auricularia, baethica, cerasum, crystallina, hartmanni, lacustris, lagotis, lessoni, monnardi, ovata, peregra, thermalis, vulgaris.
- Gulo** arcticus, barbara, barbatus, borealis, canescens, capensis, castaneus, diaphorus, ferrugineus, gulo, lanatus, larvatus, leira, luscus, mapurito, mellivora, nipalensis, orientalis, quintessis, quitensis, ratel, spelaeus, suffocans, urva, vittatus, voracissimus, vulgaris, wolverene, yzquiepatl.
- Gundlachia** ancyloformis.
- Gunellus** affinis, crassispina, nebulosus.
- Gunenotophorus** globularis.
- Gunnellus** anguillaris, apos, dolichogaster, fabricii, fasciatus, ingens, islandicus, macrocephalus, mucronatus, polyactocephalus, punctatus, roseus, ruberrimus, stroemi, taenia, viviparus, vulgaris.
- Guttera** cristata.
- Guttulina** austriaca, crassatina, cretacea, dilatata, globulosa, laevis, plancii, pulchella, spicaeformis, vitrea.
- Gyges** bipartitus, cystula, enchelioides, lithuatus, niger, sanguineus, viridis.
- Gygis** candida.
- Gymnaetis** carbonaria.
- Gymnaetron** consuetus, intaminatus, kerhaleti, longirostris, pelliceus.
- Gymnancyla** canella.
- Gymnapistes** australis, barbatus, belangeri, marmoratus, niger.
- Gymnarchus** niloticus.
- Gymnasteria** inermis, spinosa.
- Gymnelis** lineolatus.
- Gymneter** hawkeni.

Gymnomystax *mexicanus*.

Gymnonotus *aequilabiatus*, *electricus*, *putaol*.

Gymnopa *aenea*, *albipennis*, *glabra*, *nigra*, *nitida*, *ruftarsis*, *subsultana*.

Gymnopeza *denudata*.

Gymnophora *arcuata*.

Gymnophthalmus *lineata*, *quadrilineatus*, *scincoides*.

Gymnopleurus aenescens, anthracinus, asperatus, atratulus, atratus, bicolor, bidentatus, carlatus, caeruleus, cantharus, clypeolatus, conflagratus, confusus, convexiusculus, cribellatus, cyaneus, cyaneus, dejeani, dorsalis, elegans, exanthema, flagellatus, fulgidus, geotroyi, glabriusculus, granulatus, hylaris, impressus, indicus, indigaeus, indistinctus, janthinus, koenigi, lacunosus, laetus, laevicollis, laevifrons, laeviusculus, latreillei, macleay, miliaris, mopsus, mundus, olivieri, opacus, pilularius, profanus, pumilus, regulosus, rutilans, sericatus, serratus, sinuatus, sisypheus, sturmi, suturalis, tristis, tuberculatus, variolosus, virens.

Gymnopoda tomentosa.

Gymnopodus aegyptiacus.

Gymnops aquilinus, atterrinnus, calva, corniculatus, cyanotis, dumonti, fasciatus, monachus, strigilatus.

Gymnopus (A.) gangeticus, indicus.

Gymnopus (R.) cartilaginea, duvauceli, euphraticus, javanicus, lineatus, ocellatus, spiniferus, subplanus.

Gymnorhina anaphonensis, leucomota, organicum, tibicen.

Gymnorhinus cyanocephalus.

Gymnorhynchus hornius, raii, reptans.

Gymnoris flavicollis, flavirostris, superciliaris, xanthosterna.

Gymnosoma atra, aurantiaca, costata, dispar, fuliginosa, globosa, latreillei, microcera, minuta, nitens, obliqua, occidua, par, rotundata.

Gymnostomus anisurus, ariza, bicolor, boggut, dembensis, fulungee, kawrus, limnophilus, lischynchus, mullia, wattanah.

Gymnostylia anahs, cilipes, depressa, fasciata, scutellaris, setosa.

Gymnota populi, tremulae.

Gymnothorax anulatus, brasiliensis, caeca, fasciatus, favagineus, funebris, helena, myraena, nebulosus, ocellatus, pius, punctatus, rostratus, scriptus, wilsoni.

Gymnotus aequilabius, macrourus.

Gymnura ratilesi.

Gymnurus cyaneus, vestitus.

Gymnusa brevicollis, dubia, laticollis, sinuata, variegata.

Gymphrys torquatus.

Gynacantha bifida, bispina, ferox, furcata, nervosa, quadrifida, subinterrupta, trifida.

Gynaecia dirce.

Gynaephora antiqua, netrix, recens, selenitica, socrus.

Gynandromorphus etruscus.

Gynandrophthalma affinis, agilis, amabilis, anisogramma, atripennis, aurita, aviculus, basipennis, bioculata, bisquadripunctata, chrysomeloides, collaris, concolor, coptocephaloides, cyanea, delesserti, deleta, dorsalis, elegantula, erythrotis, ferulae, flavicollis, forcipis, gallencoides, gratiosa, haematochlora, hemicephala, hoemorrhoidalis, hypocrita, immaculata, labiata, leucognatha, limbata, lineella, luteicollis, menetriesi, nigratarsi, nigropunctata, nitidiceps, nucatrix, ornata, placida, porosa, quadripartita, rufinana, salicis, sanguinicollis, scitula, signaticollis, spectabilis, terminata, thoracica, trispilota, ventralis, venustula, viridana, vittigera, xanthaspis.

Gynandropus americanus, brasiliensis, elongatus.

Gynandrotarsus harpaloides.

Gynaotocera adalifa, affinis, aliris, azim, canadava, distincta, macularia, marginata, nannum, papiliaria, phalaenaria, sexpunctata, zelica, zenotia, zuleika.

Gynoplistia subfasciata.

Gynoplistes nervosa, variegata.

Gynoplistia annulata, bella, cyanea, flavitarsis, punctipennis, variegata, vilis.

Gypaeos barbatus, hemachalanus, leucocephalus, melanocephalus, meridionalis, nudipes, occidentalis, subalpinus, urigurap.

Gypagus gryffus, eryphus, papa, vulturinus.

Gyparchus papa.

Gyphidia aylesfordi, borealis, knighti, psittacea.

Gypidium aylesfordi, conchidium, galeatum, knighti, laevis, oblongum.

Gypogeranus africanus, capensis, gambiensis, philippensis, reptilivorus, serpentarius.

- Gypohierax** angolensis.
Gypoictinia melanosternum.
Gypona alboguttata, aurulenta, cana, chalcopetra, equestris, glauca, histrio, lineata, montana, pallens, prasina, quadripunctata, striata, thoracica, trisignata.
Gyps bengalensis, fulvus, indicus, kolbi, occidentalis, tenuirostris, vulgaris.
Gypsochroa illibata, niveata, renitidata.
Gyracanthus alnwicensis, formosus, obliquus, ornatus, tuberculatus.
Gyrator croceus, leucophræus, littoralis, suboviformis, vittata.
Gyratix hermaphroditus.
Gyraulus deformis, duplocarinatus, lemniscatus, regularis, saltatrix, simpsoni, subcarinatus, vertigo.
Gyretes aeneus, bidens, cinctus, discus, leionotus, morio, vulneratus.
Gyrfalco candicans.
Gyrina maculata.
Gyrineum bufonium, caudatum, echinatum, muricatum, natator, rana, scrobiculator, verrucosum.
Gyrinus abdominalis, acneus, aeratus, aereus, affinis, amoenulus, analis, angustatus, bicolor, bluneri, borealis, buqueti, caffer, caspius, celox, cercurus, chalybeus, chiliensis, ciliatus, cinctus, circumnans, colymbus, compressus, concinnus, crassus, dejeani, dentipennis, depressus, dichrus, dimidiatus, distinctus, dorsalis, duplicatus, ellipticus, elongatus, emarginatus, excisus, festivus, flavipes, gangeticus, gayi, gibbus, gigas, glaucus, graecus, grandis, guayaquilensis, hastatus, impatiens, impressicollis, indicus, iridis, kirbyi, kollmanni, laevigatus, lateralis, leathesi, lembus, levis, libanus, limbatus, lineatus, longimanus, longiusculus, madagascariensis, marginalis, marginatus, marius, marinatorius, melanarius, mergus, modeeri, natans, obliquatus, oblongus, obtusus, opacus, ovatus, parvus, patruelis, picipes, politus, praemorsus, pulcher, revolvens, rivularis, rufipes, sayi, semi-villosus, sericeus, sinuatus, speciosus, splendens, splendidulus, strigipennis, strigosus, striolatus, suaveolens, sublineatus, subspinosus, substriatus, sulcatus, unidentatus, urinator, variabilis, ventralis, vicinus, vittatus.
Gyriodera babioides, circumducta, clitellata, cruciata, lugubris.
Gyriosomus bridgesi, curvilineatus, decoratus, elegans, elongatus, hoppei, impressus, laevigatus, lineatus, luczoti, variegatus, whitei.
Gyroceras aigoceros, armatus, cancellatus, convolvens, cornutes, costatum, depressus, eifelensis, goldfussi, marginalis, meyerianum, nautiloides, ornatus, reticulatus, serratum, tetragonum, undulatus.
Gyroceratites gracilis.
Gyrocotyle rugosa.
Gyrodactylus auriculatus, dujardinianus, elegans.
Gyrodroma aterrima, ornata, phaeoptera.
Gyrodus analis, angustus, circularis, conicus, cretaceus, cuvieri, frontatus, gibbosus, gracilis, jurassicus, laevior, laticauda, macrophthalmus, macropterus, mammillaris, mantelli, meandrinus, minor, muensteri, multidens, munchisoni, perlatus, platurus, punctatissimus, punctatus, quadratus, radiatus, rhomboidalis, rugosus, rugulosus, runcinatus, schusteri, trigonus, umbilicus.
Gyrophypnus affinis, analis, angustatus, apicalis, assimilis, batychnus, consentaneus, cruentatus, diaphanus, flavipennis, fulgidus, godeti, linearis, longiceps, longicollis, macrocephalus, meridionalis, nigriceps, ochraceus, ochropterus, parumpunctatus, procerulus, punctulatus, pusillus, pyropterus, quadratus, quadrisulcus, rotundicollis, semistriatus, sulcifrons, tenuicornis, tricolor.
Gyroidina caracolla, carinata, conoides, contacta, flavescens, kalemburgensis, laevigata, laevis, lenticularis, umbilicata, orbicularis, soldanii, umbilicata. *Vide et Giroidina.*
Gyrolepis alberti, asper, biplicatus, giganteus, maximus, rankini, tenuistriatus.
Gyronchus oblongus.
Gyronotus subaeneus.
Gyrophæna affinis, amanda, bellula, boleti, complicans, congrua, corruscula, dispar, dissimilis, exigua, flaveola, flavicornis, gentilis, glacialis, laevigata, lateralis, lucidula, manca, minima, nana, nitidula, pilosa, polita, pulchella, rufa, socia, splendidula, strictula, vinula.
Gyrophyllia bisinuosa, vetusta.

Gyroleurus cupratus, obscurus.

Gyropristis obliquus.

Gyroptychius angustus, diplopteroides.

Gyropus gracilis, hispidus, lagoti, longicollis, ovalis.

Gyrorbis cornu-ammonis, minutus, planorbis, spirorbis.

Gyroteus mirabilis.

Gyrostoma ovoidea.

Gyrostris mirabilis.

Gyrotoma pyramidata.

Habrocebus diadema, lanatus.

Habrocerus capillaricornis.

Habrocoma helvina. *Vide et* *Abrocoma*.

Habrodactylus bistrispunctatus, quadrimaculatus.

Habrophora lateralis, varia.

Habropyga larvata, margaritata.

Habrosoma antiqua.

Habrosyne derasa.

Hadena abjecta, achates, actinobola, adusta, aeruginea, alpicola, amentata, amethystina, amica, aquilonaris, arctica, assimilis, baltica, behenis, bombycina, borealis, brassicae, cana, cancellata, capsicola, carpophaga, chardingi, chenopodii, commelinae, contigua, convergens, cucubali, dentigera, dentina, dianthi, distans, empyrea, extricata, exulis, fatidica, feisthameli, freyeri, frigida, gelata, gemina, genistae, glauca, groenlandica, hilaris, hispida, hyperborea, ilicis, implicata, iris, labecula, laetabilis, lappo, latenai, leucodon, leucophaea, leucostigma, ligustri, littoralis, longina, lucipara, lutulenta, maillardi, marmorata, marmorosa, mauritia, meticulosa, mioleuca, nigricula, obesa, oblitterata, oblonga, obscura, ochracea, ochrostigma, ongspergeri, optabilis, pancratii, peregrina, pernix, perplexa, picticollis, popularis, praedita, protea, proxima, pteridis, puncticosta, quadripes, remissa, repanda, retina, richardsoni, roboris, saponariae, satura, scita, sociabilis, solieri, sommeri, submissa, thalassina, trisignata, typica, vitalba, vittalba, vulturina.

Hadroceras spinosa.

Hadrocerus castaneipennis.

Hadromerus atomarius, aureus, brachispinosus, dejeani, gemmifera, hilaris, nobilitatus, porosus, sagittarius, tuberculifer.

Hadrophylum orbigny.

Hadropus albiceris, albinus, nubiculosus.

Hadrorhinus lepidopterus.

Hadrotoma marginata, nigripes.

Hadrus chalybeus, cyanea, lepidotus.

Haemalastor longirostris.

Haemalea delotaria.

Haemaphysalis cinnabarina, concinna, rosea, sanguinolenta.

Haemasson minutus.

Haemastoma serratum.

Haematera pyramus.

Haematia phoenicealis.

Haematobia ferox, geniculata, irritans, serrata, stimulans, tibialis.

Haematococcus mucosus, vesiculosus.

Haematodes bicolor.

Haematopinus acanthopus, asini, bicolor, caballi, cameli, cervi, cervicaprae, euryopternus, lyriocephalus, phocae, piliferous, serratus, sphaerocephalus, spiniger, spinulosus, suis, ventricosus, vituli.

Haematopis saniaria, sentinaria.

Haematopota bivittata, cana, cingulata, coarctata, centralis, crassicornis, crassipes, curvipes, equorum, extincta, globulifera, gymnonota, hirsuta, javana, imbrum,

imbricata, impertusa, incisa, interrupta, jaenensis, janus, japonica, kaintschatkana, lamellosa, latilabris, lauta, mariae, marmorata, monilifera, multiperforata, nebulata, neglecta, nodosa, oblonga, ovata, papulata, parma, 'pertusa, philberti, philberti, phyanotis, phymotis, planilirata, planulata, ponderosa, prisca, pustulata, reticulata, roedingi, roei, rosacea, rotundata, ruber, rubiginosa, rufescens, rugosa, rugosoplicata, sanguinea, scabricosta, scutulum, semiplicata, semistriata, sepiculata, sieboldi, sinuata, spadicea, speciosa, spiculata, splendens, squamata, squamosa, stomatiæformis, sulcifera, sulcosa, tayloriana, tricastalis, tricastata, tubifera, unilateralis, venusta, virginia, viridis, volhynica, zealandica, ziczac. *Vide et Halyotis.*

Halipaedisca americana.

Haliplana fuliginosa.

Haliplus aequatus, affinis, americanus, analis, ater, badius, bi-estriolatus, borealis, brevis, caesus, cinereus, confinis, cribrarius, dorsalis, duodecimpunctatus, elevatus, emarginatus, exculptus, fasciatus, ferrugineus, flavicollis, fluviatilis, fulvicollis, fulvus, glabratus, gravidus, guttatus, immaculicollis, impressus, limbatus, lineato-collis, lineatus, lineolatus, longulus, maculatus, marginepunctatus, melanocephalus, mucronatus, nilicola, nitens, obliquus, pantherinus, parallelus, pictus, quadrimaculatus, rotundatus, rubicundus, ruficollis, signatus, sinensis, subnubilus, trimaculatus, triopsis, variegatus, varius.

Haliplus lineato-collis, marginepunctatus.

Halisarca dujardini.

Halisidota alsus, catenula, tessellaris.

Halspingtonia cinerea, infundibuliformis, parasitica, sanguinea, suberica.

Haliplus aculeata, aurata, hystrix, sericea.

Haliplus beaumonti, cristoli, fossile, guettardi, serici.

Haliplus auricollis, flavipennis, nigricornis, poecilus.

Halia insignis.

Hallirhoa agariciformis, brevicostata, costata, lycoperdoides, myrtilites, tessoni.

Hallomenus anaspoides, axillaris, bifasciatus, castaneus, dimidiatus, fasciatus, fuscus, gracilis, humeralis, luridus, melanocephalus, minutus, mordellinus, niger, pallens, quadrimaculatus, quadripustulatus, scapularis, umbrinus, undatus.

Halmaturus agilis, albigularis, albogularis, albus, antilopinus, asiaticus, bennetti, billardieri, binoe, brachyotis, brachytarsus, brachyurus, bruni, concinna, conspiciatus, dama, derbianus, dorsalis, elegans, eugenii, fasciatus, fraenatus, fruticus, fuliginosus, gigantea, greyi, houthmanni, inornatus, irma, isabellinus, kingi, lanciger, leporides, leptonyx, lessoni, lunatus, manicatus, melanops, nalabatus, nemoralis, nuchalis, parma, parryi, penicillatus, robustus, ruficollis, rufiventer, rufogriseus, rutilans, rutilus, tasmanei, thetidis, thetis, ualabatus, unguifer.

Halobates albinervus, flaviventris, micans, pictus, sericeus, streathfieldana.

Halobia lommeli, salinarum.

Halocrinites elongatus, mattiaca, pyramidalis, schlottheimi.

Halodactylus diaphanus, parasiticum, velum.

Halodroma minatrix.

Halohippus glacialis.

Halomitra pileus.

Halophila johnstonae.

Haloseris lactuca.

Halosydna balanoidea.

Halsydna pontoppidiani.

Halteria grandinella.

Haltica abbreviata, abdominalis, acroleuca, acuminata, advena, aemula, aenea, aeneo-fusca, aequinoctialis, aerata, aerea, aestuans, affinis, albicollis, albifasciata, albifemorata, alternata, amethystina, amicta, amoena, analis, anchusae, annularis, antennata, apicalis, areata, aridella, aridula, armoricana, aspera, assimilis, atricapilla, atriceps, atrocaerulea, atrovirens, attenuata, aulica, azurea, badia, ballota, bicolor, bifasciata, biguttata, bilineata, biloba, binotata, bipustulata, bisquadrimaculata, bistriguttata, bistrimaculata, bivittata, borealis, brunnea, brunnicornis, brunripes, calcarata, calida, campanulae, capensis, capitata, cardui, carinata, caroliniana,

castanea, centaureae, chalcomera, chalybea, chlorophana, chloroptera, chrysanthemi, chrysopygis, cicatrix, cincta, cinctella, circumdata, circumflexa, civilis, coccinea, coccinellina, coerulea, collaris, collata, colorata, compressa, concinna, conducta, confinis, conglomerata, conjugata, conjuncta, consobrina, consuta, contracta, copalina, copulata, corrusca, crassicornis, cruciata, cryptocephala, cucullata, cucumeris, cuprea, cupreata, cyanea, cyanella, cyanescens, cyanipennis, cyanoptera, cynoglossi, cyparissiae, decemguttata, decemmaculata, decempustulata, decipiens, denticulata, dentipes, depressiuscula, didyma, dilatata, dilecta, dimidiata, dipus, discoidea, dispar, divaricata, divisa, dorsalis, dulcamare, duponti, eburata, echii, elongata, emarginata, ephippium, episcopalis, equestris, erichsoni, eryngii, erythroptera, exaltans, excellens, excisa, exoleta, externa, famelica, fasciata, femoralis, femorata, fenestra, festiva, filiformis, fimbriata, fischeri, flava, flavicornis, flexa, forticornis, foveolata, frontalis, fulvicollis, fulvicornis, fulvipennis, fulvipes, funerea, fuscescens, fuscicollis, fuscodorsalis, fusiformis, gagathina, galapagoensis, gaudens, gemella, geminata, geniculata, gibba, gilvipes, glabra, glabrata, glabella, globosa, gomesi, graecizans, grisea, grossa, hectica, hederiae, hellwigi, helveola, hemisphaerica, hilaris, honesta, hudsonius, humeralis, humilis, ianthina, ignita, impressa, indica, indigacea, inermis, infulata, intermedia, interrupta, jaculus, javanica, kirbyi, labialis, laeta, laevigata, laevis, lateralis, lateritia, lens, lepida, libentina, limaei, limbata, linea, lineata, liturata, lunata, lurida, lusca, lutea, lutescens, macropus, macula, malvacearum, malvae, mannerheimi, marcida, marginalis, marginella, marginula, marinoarea, melaena, melaleuca, melanocephala, melanophthalma, melanostoma, mercurialis, metallica, miniata, miniaticollis, minima, monacha, monilis, muscorum, nana, napi, nasturtii, nigerrima, nigra, nigricans, nigriceps, nigricollis, nigricornis, nigradorsis, nigratarsis, nigrutula, nigroaenea, nigrofusca, nigromaculata, nitida, nobilitata, nucea, obesa, oblongiuscula, obscura, obscurella, obsidiana, obsoleta, obtusata, occultans, ocellata, ochroleuca, octoguttata, octomaculata, oculata, olivacea, opima, orbiculata, ornata, ovata, ovulum, pallens, palliata, pallidicornis, palustris, parvula, paupera, pennsylvanica, personata, petaurista, phthisica, picea, picicornis, picina, picipes, picta, pilaris, pilosa, plebeja, polita, porrecta, praticola, procera, prolixa, propinqua, propugnaculum, pseudacori, ptinoides, pubescens, pulchella, pulcherrima, pulex, pumila, puncticollis, punctulata, purpurascens, pusilla, pyritosa, quadrifasciata, quadriguttata, quadrinotata, quadri-punctata, quadripustulata, quadrisignata, quadrivittata, quercata, quinquelineata, quinquepunctata, rapae, relicta, restituta, rhois, rosea, rubi, rubra, rubricata, rubricollis, rufa, rufilabris, rufina, rufipes, rufiventris, rufofasciata, rufopicea, rutila, sahlbergi, stercoris, salicariae, saliciens, saltitans, sanguinea, schillingi, schueppeli, scissa, scutellata, sellata, semicaerulea, semicincta, seriata, serpili, sesquilunata, sexguttata, sexmaculata, sexnotata, siebersi, signata, silacea, similis, sinuata, sordida, spadicea, spartii, spergulae, spreta, stictica, stolidia, striata, striatula, striolata, subcyanea, subimpressa, substriata, suturalis, suturella, tamaricis, terminalis, thapsi, thoracica, tibialis, timida, tricolor, trieruciata, trifasciata, tripudians, tripunctata, truncata, umbratica, unicolor, varia, varicornis, variegata, ventralis, verbasci, vibex, vicina, violacea, virens, viridipennis, viridissima, vittata, vittula, volkameriae, vulnerata, westermanni, xanthomela, zebrata, zigzag. *Vide et Altica.*

Halticella bispinosa.

Haltichella armata, aterrima, bifasciata, bispinosa, dargelasi, mitys, nigripes, pusilla, rufipes, sanguinipes, sepyra, unicolor.

Halticoptera annularis, bimaculatus, chrysochloria, coccorum, cupreola, flavicornis, hortensis, laeta, minuta, rotundata, umbraculata, varians.

Halticus mutabilis, ochrocephalus, pallicornis, pteridis, rufescens, rufifrons, saltians.

Halysotis australis, tessellata. *Vide et Haliotis.*

Halys alternans, amygdali, annulata, apicalis, armata, assimilis, australasiae, carolinensis, cincta, clavata, concinna, dentata, dentipes, depressa, erosa, exsculpta, flavolineatus, flavopunctata, frondosa, furcata, gravis, hellenica, humeralis, insubida, jaculus, lata, latipes, latispina, lineata, lineolata, lusitanica, mucorea, nebulosa, nigricollis, nubila, obscura, oculata, parvula, plana, punctulata, pupillata, quadripustulatus, reticulata, rufescens, serrata, serricollis, serrisera, spinosula, strigata, timorensis, variegata, variolosa, versicolor, winthemi.

Halysis alcae, anatis, anseris, bacillaris, candelabraria, caprina, caryocatactes, cernuae, charadrii, columbae, cornicis, corollata, crassiceps, crateriformis, crenata, cuneiceps, dendritica, ellyptica, erynacei, farciminosa, filamentosa, filum, flagellum, fulcarum, galbulae, gasterostei, genettae, glandarii, globifera, gracilis, hirundinis, infundibuliformis, laevis, lanceolata, lanceolato-lobata, lata, laticeps, liguloides, linea, lineata, litterata, longicollis, loxiae, maculata, malleus, marginata, martis, membranacea, mustelae, nodoso-lanceolata, nymphaea, obvoluta, octolobata, omphalodes, ovina, pari, passeris, pectinata, percae, perfoliata, perlata, plicata, psittaci, pusilla, putorii, ralli, rostellata, scorpii, serpentulus, serrata, setigera, silicula, siluri, sinuosa, solium, straminea, suis, tordae, torquata, torulosa, transverse-lineata, trilineata, turdorum, undula, vanelii, venusta, vespertilionis, villosa.

Halysites agglomerata, attenuata, catenulata, dichotoma, dissimilis, escharoides, jacovicki, labyrinthica, macrostoma, parryi, stenostoma.

Halysia pallasi, perroudi, sedecim-guttata, straminea.

Hama aliena, basilinea, connexa, furva, sordida, testaceus, ypsilon.

Hamadryas (Lep.) almana, amphinome, assaricus, astina, calliroe, carye, evarete, feronia, jatrophae, jo, jucunda, lemonias, odius, zoilus.

Hamadryas (M.) chaeropithecus, porcaria.

Hamadryas (R.) hannah, ophiophagus, reinwardti.

Hamalia delotaria, parallela.

Hamanumida actoria, alector, allica, lusca, lusia, meleagris, sturnula, thase, veronica.

Hamathicherus atropos, lacordairei.

Hamathicherus batus, bellata, bellator, cantori, cerdo, friulanus, glabricollis, heros, pilosicollis, plicatus, procerus, puncticollis, spinipennis, suturalis, tomentosus, velutinus, viridipennis, wetensi. *Vide et Hamma*→.

Hamaxobium haemorrhoum.

Hamearis abarissa, epule, lucina.

Hamiltonia ovata.

Haminaea cuvieri, dilatata, elegans.

Haminoea hydatis.

Hamirostra montana.

Hamites aculeatus, adpressus, alternans, alternatus, alterno-tuberculatus, angustus, annulatus, annulifer, arcuatus, arculus, armatus, attenuatus, babeli, baculoides, beani, bicarinatus, biplicatus, bouchardianus, canterius, capricornu, carolinus, charpentieri, chloritea, columna, compressus, consobrinus, costatus, cylindraceus, cylindricus, decurrens, degenhardti, desorianus, dissimilis, elatior, elegans, ellipticus, emericianus, essensis, evans, favrinus, flexuosus, funatus, geinitzi, gibbosus, gigas, glossidens, gracilis, grandis, haani, hampeanus, hamus, hillsi, incertus, incurvatus, indicus, inflexus, intermedius, ixyon, labati, large-sulcatus, lyellii, mantelli, maximus, molae, nereis, nodosus, obliquatus, obliquecostatus, orbignyana, parallelus, parkinsoni, phillipsi, plicatilis, punctatus, raricostatus, raulinianus, rectus, reussianus, roemerii, rotundus, royerianus, rugatus, sablieri, saussureanus, semicinctus, seminodosus, sexnodosus, simplex, spiniger, spinulosus, spiralis, strangulatus, stöderianus, subcompressus, subnodosus, tenuis, tenuisulcatus, torquatus, trabeatus, trinodosus, tuberculatus, turgidus, undulatus, venetianus, virgulatus.

Hammacerus conspiciaris.

Hammathicherus auripennis, carinatus, dux, fucatus, indutus, intricatus, marmoratus, mauritanicus, micans, miles, mirbecki, nerii, nodicornis, nodulosus, orientalis, paludivagus, picipennis, ruficornis, spinicornis, tataricus, thirki, turbinaticornis, wetensi. *Vide et Hama*→.

Hammatocerus (Col.) heros, pictus.

Hammatocerus (Hem.) conspiciaris, furcis, nychthemerus, purcis.

Hammatodactylus nodosus.

Hammatophora bucephala.

Hammerschmidtia vittata.

Hammonia brevicornis, dubia, latreillei, melanocephala.

Hamotus bryaxoides, humeralis, latericius.

Hampala macrolepidota.

Harpagmotherium canadense.

Harpagodon maximus.

Harpagopus dubius, giganteus, hudsonius.

Harpagus (A.) bidentatus, diodoti.

Harpagus (Lep.) albigrigella, bidentatus, cinctella.

Harpale argentea, bicolor, chrysopyga, labiata, leonina, leucocephalus, melanurus, nigra, oedipus, penicillatus, ursula.

Harpalis amoretti, davidis, doris, major, nobilis.

Harpalus abdominalis, acuminatus, acutipennis, adamsi, aeneipennis, aeneopiceus, aeneus, aequicollis, aequilatus, aereus, aethiops, affinis, agilis, agnatus, agricola, agrorum, ahenus, albionius, albipes, alpestris, alpinus, alternans, amoenus, amari-formis, amaroides, amethystinus, amoenus, ampicollis, amputatus, angusticollis, angustipennis, annulicornis, anthracinus, anxius, apicalis, apicarius, arcticus, armeniacus, assinilis, ater, aterrimus, atratus, atricornis, atrocaeruleus, attenuatus, aulicus, aurichalceus, australasiae, australis, azureus, badius, baldimorensis, baltimoriensis, barthelemissis, basalis, basilaris, bicolor, bifoveolatus, bifrons, binotatus, bogemanni, bonariensis, borealis, borysthenicus, brachypus, brevicollis, brevicornis, brevicornis, brevis, brevithorax, breviusculus, brunneipennis, brunneus, brunnicornis, brunneipennis, brunripes, bucephalis, bungi, caenus, caffer, calathoides, calceatus, calcitrapus, caliginosus, calydonius, capicola, carbonarius, caspicus, castaneus, cautus, celioides, cephalotes, cervicis, chalceus, chalybeipennis, chalybeus, chevieri, chilensis, chlaenioides, chloropennis, chloropterus, chloroticus, chrysocephalus, cinctus, circumfusus, circumpunctatus, cisteloides, clamorgami, clavipes, clorophanus, coarctatus, coeruleipennis, coeruleus, cognatus, collaris, columbinus, comis, communis, compar, complanatus, concinaus, confinis, conformis, confusus, congener, consentaneus, consimilis, contemptus, convexicollis, convexus, coracinus, cordatus, cordicollis, corruscus, corsicus, corvus, crassipes, cribricollis, cribripennis, crinipes, cristatus, croesus, cuniculinus, cupreomicans, cupreonitens, cupreus, cupripennis, curtus, cyanescens, cyaneus, cyclogonus, dahl, decipiens, dejeani, dentatus, dentipes, depressus, despectus, deuschi, dichrous, difficilis, diffinis, diffusus, dilatatus, dimidiatopunctatus, dimidiatus, discoideus, discopunctatus, dispar, distinctus, distinguendus, ditomoides, diversus, dolens, dorsalis, drescheri, dubius, duftschmidi, dulcicollis, dusaulti, egenus, elatus, elegantulus, ellipsis, emarginatus, ephippiger, ephippium, episcopus, erosus, erraticus, erratus, erythropus, eschscholtzi, etruscus, eucloratus, eurynotus, excavatus, excisus, exiguus, faber, familiaris, fasciatopunctatus, fastiditus, fastuosus, faunus, femoralis, femoratus, ferrugineus, fimetarius, flavicornis, flavilabris, flavipes, flavitarsis, flaviventris, foerstromi, fossulatus, foveicollis, frigidus, froelichi, fugax, fulgens, fulgicollis, fuliginosus, fulvescens, fulvicornis, fulvipennis, fulpichi, fulvipes, fulvitaris, fulvus, funestus, furvus, fuscicornis, fuscipalpis, fuscipennis, fuscoaeus, fuscus, fuvipes, gagates, geniculatus, germanus, gibbus, gilvipes, glabellus, glabricollis, goryi, goudoti, gracilis, grandicollis, grimmii, griseus, haemorrhous, helopioides, herbivagus, heros, hirsutulus, hirsutus, hirtipes, hispanus, hollbergi,

holosericeus, honestus, hospes, hottentotta, hybridus, hylaxis, hyperboreus, hypocrita, ignavus, impiger, impressifrons, impressipennis, impressus, impunctus, incertus, incisus, incrassatus, ineditus, infimus, ingenuus, inornatus, instabilis, interpunctatus, inunctus, irinus, iripennis, kirgisicus, kuntzi, laetus, laeviceps, laevicollis, laevigatus, laevipes, laevis, laevistriatus, lapponicus, lateralis, laticeps, laticollis, latus, leiroides, lentus, lepidus, leucophthalmus, leucops, limbaris, limbatus, lineato-punctatus, litigiosus, littoralis, livens, longicollis, longior, lucidicollis, lucidulus, lucidus, luctuosus, lugubris, lumbaris, lunatus, luridipennis, luteicornis, luxatus, lyratus, maculicornis, maculifrons, madagascariensis, malidus, marginatus, marginellus, marginepunctatus, mauritanicus, maxillosus, megacephalus, megerlei, melampus, melanaris, melanarius, melancholicus, melanocephalus, melanopus, melleti, mendax, meridianus, meridionalis, merula, metallicus, metallinus, mexicanus, micans, microp-terus, minor, minutus, modestus, moestus, monilicornis, montanus, monticola, morio, multi-punctatus, nanus, natalensis, nebrioides, neesi, neglectus, nemoralis, nemorensis, nemoriphaqus, niger, nigerrimus, nigricornis, nigrius, nigripalpis, nigripennis, nigripes, nigrita, nigritarsis, nigroaeruleus, nitens, nitidulus, nitidus, nivalis, nobilis, nobilitatus, notatus, nubilus, obesus, oblitus, oblongisculus, oblongo punctatus, oblongus, obscuricornis, obscuripennis, obsoletus, obtusangulus, ochropterus, ochropus, ocreatus, octopunctatus, opacus, optabilis, orientalis, ovatus, palliatus, pallidicornis, pallidus, pallipes, paradoxus, parallelus, parum-punctatus, parvulus, pastor, pastus, patuelis, pelidnus, pensylvanicus, perplexus, peruvianus, petiñ, pexus, piceus, picicornis, picilabris, picipennis, picipes, piger, placidus, planicollis, planirostris, plebejus, pleuriticus, poeciloides, politus, posticus, praeternissus, prasinus, proletarius, promptus, promtus, proximus, pubescens, pubiger, pubipennis, pulcher, pullus, pulvinatus, pumicatus, pumilio, pumilus, punctatellus, punctatipennis, punctatostratus, punctatulus, puncticollis, punctilabris, punctobasis, punctulatus, purpurascens, putridus, pygmaeus, quadratus, quadricollis, quadripunctatus, quenseli, rajah, regularis, rosalia, roseri, rotundatus, rotundicollis, rubripes, rufescens, ruficornis, ruficruris, ruficus, rufilabris, rufimanus, rufipalpis, rufipes, rufitarsis, rufithorax, rufocinctus, rufus, rugulosus, rupicola, rusticus, sabulicola, sabulosus, sahlbergi, salinus, saromaticus, satyrus, saxicola, scaritides, schreibersi, segnis, semipunctatus, semiviolaceus, seriatus, sericeus, seriepunctatus, serripes, servus, sexpunctatus, sculus, signatus, silenus, silipes, similatus, similis, sinicus, sinis, sinuatus, smaragdulus, sobrinus, solieri, solitaris, somnulentus, spadiceus, spiniger, spoliatus, spretus, spurcaticornis, stephensi, steveni, stigmosus, strenuus, striola, sturmi, stygius, sub-aeneus, subcaeruleus, subcordatus, subcostatus, subcyanus, subcylindricus, subquadratus, subsimilis, subsinuatus, subtruncatus, subvirens, sulcatulus, sulcicollis, sulphuripes, syriacus, tabidus, taciturnus, tardus, tarsalis, tarsatus, tenebrosus, terminatus, terricola, testaceus, thoracicus, thunbergi, tibialis, torridus, tragositoides, trechoides, tricolor, tridentatus, tristis, trivialis, truncatus, tucumanensis, tucumanus, turmalinus, unicolor, ustulatus, vaporarium, varians, varicornis, velutinus, venator, ventralis, vernalis, versutum, verticalis, vespertinus, vestigialis, vestitus, vicinus, viduus, violaceus, virescens, viridanus, viridi-aeneus, viridi-cupreus, viridis, viridulus, vividus, vulgaris, vulpeculus, wellensi, wetterhalli, wilkensi, xanthorhaphus, zabroides.

Harpalyce amoenata, berberata, biangulata, caesaria, centum-notata, chenopodiaria, commanotata, concinnata, corylata, derivata, elutaria, flavicinctaria, fulvaria, fulvata, galiaria, galiata, immanaria, immanata, impluviaria, marmoraria, marmorata, miaria, miata, ocellaria, ocellata, perfusata, picaria, picata, popularia, psittacaria, psittacata, pyraliaria, quadriannulata, rubidata, ruptata, sagittaria, saturata, sicariella, silacearia, silaceata, sinuata, subtristata, suffumaria, suffumata, sylvaticata, tristata, unangulata, unilobata.

Harpatites scalaris.

Harpax cornutus, decolor, discifera, gemmata, lobatus, nana, ocellatus, parkinsoni, pictipennis, spinocula, tricolor, urbanus, virescens.

Harpe caeruleo-aureus.

Harpedactylus concameratus, gracilis, rectus.

Harpella ambiguellus, proboscideella.

Harpephora brachyptera, fusca.

- Harpes** carinatus, concavus, convexus, crassifrons, doranni, flanaganni, gracilis, macrocephalus, megalops, montagnei, orbignyianus, rediviva, reflexus, reticulatus, ruderalis, sculptus, speciosus, tenuipunctatus, ungula, venulosus, wilkensi.
- Harpidella** megalops.
- Harpides** hospes.
- Harpina** vittigera.
- Harpiocephalus** rufus, tristis.
- Harpiprion** cajennensis, carunculatus, hagedasch, nudifrons, plumbeus.
- Harpipterix** falcella, forficella, hamella, harpella, scabrella.
- Harpipteryx** chilonella, cultrella, dentellus, horridella, humerella, leucophaea, leucophaeella, subfalcatella.
- Harpocera** burmeisteri.
- Harpochirus** longimanus, punctatus.
- Harpognathus** robynsi.
- Harpolestes** longirostris.
- Harpophynchus** curvirostris, longirostris, rufus, vetulus.
- Harposcielis** paradoxus.
- Harpula** bullata, carneolata, concinna, costata, fulminata, fulva, guiniaca, harpa, hebraea, laevigata, lapponica, lyriformis, mitraeformis, musica, nigricans, nodulosa, nucleus, polyzonalis, sulcata, thiarella, vexillum.
- Harpurus** fasciata, guttatus, inermis, lineatus, lituratus, monoceros, paroticus.
- Harpya** banksiae.
- Harpyhaliaetus** coronatus.
- Harpyia** (A.) braccata, coronata, cristatus, destructor, ferox, harpyia, imperialis, maxima.
- Harpyia** (Lep.) arctica, bicuspis, bifida, erminea, fagi, forficula, furcula, mulhauseri, phantoma, ulmi, vinula.
- Harpyia** (M.) cephalotes.
- Harpyias** bicuspis, bifida, furcula.
- Harpyja** plicata.
- Harrisia** aenea, brasiliensis, idiotica, pagana, scutellaris.
- Harrovia** albolineata.
- Hastatis** septemmaculata.
- Hathlia** lacteola, lineella, melanocephala, quadrilineata.
- Hatlia** leucocincta.
- Hatteria** punctata.
- Hauerina** compressa.
- Hauastator** gallicus.
- Haustellaria** erythrostoma, umbraculata.
- Haustellum** carinatum, clavatum, laeve, nobile.
- Haustrum** dentex, pictum, striatum, tuberculatum, zealandicum.
- Hazis** agorius, malayanus, mars, menouxi, militaris, poeyi, tasmaniae.
- Hebascus** analis, helvolus, hirtellus, testaceus.
- Hebe** punctata.
- Hebecerus** persicus.
- Hebestola** annulicornis, nebulosa, operaria.
- Hebia** flavipes, peliolata.
- Hebomoia** glaucippe, leucippe.
- Hebotomus** minutus, molestus.
- Hebrus** pusilla, pygmaeus, walkeri.
- Hecabolus** sulcatus.
- Hecaerge** (Ar.) maculata.
- Hecaerge** (Lep.) carinenta, celtis, motya, myrrha.
- Hecalis** hypopolius.
- Hecamede** albicans.
- Hecatesia** fenestrata, thyridion.
- Heccaedecabostrycha** blossevillei.
- Hectarthrum** bistriatum, brevifossum, curtipes, gemelliparum, gigas, heros, rufipenne, semifusum, trigeminum.

Hectocotyla tremoctopodis.

Hectocotylus argonautae, octopodis, tremoctopodis.

Hectorides agavus*, ascanius, lysithous, proneus.

Hecuba lamellaris, rosea.

Hedessa sieboldi.

Hedobia humeralis, imperialis, pubescens, regalis, vulpes.

Hedruris androphora.

Hedya amoenana, cynosbatana, festivana, incarnatana, salicana.

Hedybius bimaculatus, clypeolus, collaris, coriaceus, elongatus, erosus, oculatus, plagiocephalus, smaragdulus.

Hedychrium sinuosum.

Hedychrum aeneum, asperum, auratum, bidentulum, caeruleum, coelestinum, cupreum, cyaneum, eximium, fastuosum, felmanni, fervidum, imperiale, integrum, intermedium, janus, lucidula, maculatum, mauritanicum, micans, minimum, minutum, nitidum, numidicum, obsoletum, politum, pusillum, regium, roseum, speculum, violaceum, viride, zelleri, zimmermanni.

Hedycrum alterum, bidentulum, caerulescens, dimidiatum, lucidum, spina, ventralis.

Hedydipna metallica, platyura.

Hedyphanes besseri, caerulescens, chalybeus, dejeani, desertus, foveolatus-striatus, hegeteroides, helopioides, impressicollis, laticollis, mannerheimi, menetriesi, nycterioides, quadraticollis, tagenoides, tentyrioides, upioides.

Heegerius typus.

Hefriga serrata, subserrata.

Hegemon caceus, druryi, goliathus, princeps, regius.

Hegemona resplendens.

Hegeter abbreviatus, amaroides, angustatus, aterrimus, atratus, brevicollis, caraboides, eribricollis, elongata, fuscipes, impressus, indicus, lateralis, opacus, pedinoides, politus, punctatus, rugifrons, spretus, striatus, tagenioides, tenuipunctatus, transversus, unicolor, webbians.

Heilipus acatium, acutissimus, adpersus, affinis, ahrensi, alternans, anguliferus, annuliger, apiatus, ascius, asperulus, audouini, baiulus, balteatus, bartelsi, bellicosus, bidentatus, bimaculatus, bi-notatus, bioculatus, biplagiatus, bipunctatus, bi-signatus, bohemani, bonellii, brunneus, buqueti, cadivus, callosus, carinirostris, catagraphus, caudatus, cauterius, celus, cestatus, chevrolati, choicus, clavipes, colon, commaculatus, comtus, conspersus, contaminatus, coronatus, corruptor, costalis, costirostris, crassirostris, crispus, croceipelmus, cruciatus, cultripes, cuvieri, cymba, dahlboni, decipiens, decussatus, destructor, difficilis, dimidiatus, discoides, dorsalis, dorsosulcatus, dorsualis, draco, echinatus, egenus, elegans, erythropus, erythrorhynchus, erythrocephalus, esmarki, faldermanni, fallax, famulus, fasciculatus, flammiger, fohraei, freyreissi, friesi, gayi, gecri, germari, globulicollis, granellus, granicostatus, granosus, granulifer, guttatus, gyllenbali, honestus, hopei, hummeli, hylobioides, illigeri, inaequalis, ineptus, integellus, interstinctus, intricatus, jocosus, lacordairei, lactarius, laevicollis, laqueatus, lateralis, latro, lauri, lembunculus, leoninus, leopardus, letabilis, leucomelanostigma, lituratus, loricatus, maculosus, margaritifer, marklini, marmoreus, medioximus, melanopus, meles, menetriesi, mixtus, moestius, multiguttatus, multi-ignatus, muricatus, myops, naevulus, nisseri, nodifer, norrisi, nubilosus, obliquus, ocellatus, ochrifer, okenii, onychinus, orbignyi, paleoliferus, panzeri, parvus, pardus, parvulus, pepul-, perturbatus, pertyi, picturatus, pictus, pissodeoides, plagiatus, planiusculus, polycoccus, polymitus, prodigalis, prolixus, punctatoscabratus, punctatus, pupillatus, pusio, querulus, reichenbachi, retusus, roeseli, rufescens, rufipes, rufirostris, rugicollis, rusticanus, rusticus, sahlbergi, saxosus, scabripennis, scalaris, scapha, schmidti, schoenherri, scrobicollis, scrobiculatus, semiamictus, semivittatus, sinuatus, spatulatus, spinosus, squamosus, stellifer, stellimicans, stigma, stratioticus, strator, subcostatus, submaculatus, subpartitus, taciturnus, tomentosus, trachypterus, tricarinatus, tricolor, troglodytes, tuberculatus, tuberculosus, tugusti, undabundus, unguiculatus, ustulatus, variegatus, velamen, verrucosus, viduus, westringi, wiedemannii, zetterstedti, zieglerei, zonatus, zoubkoffi.

Hela oblonga, speciosa.

Helaeotrechus claphroides.

Helaeus bremeri, browni, colossus, contractus, echidna, echinata, hopei, intermedius, kirbyi, macleayi, marginellus, ovatus, perforatus, perroni, piceus, princeps, simplex, spencei, spinolae, tarsalis, testudineus, tuberculatus.

Helamis cafer, capensis.

Helarctos euryaspilus, malayanus, tibetanus.

Helarctus malayanus.

Helcion ancyloides, angulata, angulosus, angustus, appendiculata, arsinoe, aubentonensis, baugieri, campanaeformis, campanulata, capulina, cingulata, clypeola, conica, corallina, corrugata, costaria, costulata, coxalis, cuppula, curvata, dimidiata, disciformis, discoidea, discoides, disculus, duclosi, dunkeri, elliptica, elongatus, gaultina, glabra, granulata, hebertiana, inflata, kopinckii, laevigata, laevis, lamellosa, lata, lateralis, latissima, lineata, luciensis, mamillaris, martinianus, minuta, mucronata, muensteri, nana, neptuni, nitida, normanniana, nuda, orbiculatus, orbis, ovata, papyracea, patelliformis, pectinata, primogenia, retrorsa, reussi, rugosa, rupellensis, ryckholtiana, saturni, schmidtii, semistriata, sinuosa, striatula, striatus, subaciculata, subcentralis, sublaevis, submucronata, subquadrata, subradiata, subrugosa, subtenuicosta, sulcata, tentorium, tenuistriata, tessoni.

Helcomyza ustulata.

Helcon aequator, ambiguus, angustator, annulicornis, carinator, carinatus, caudatus, chlorophthalmus, claviventris, collaris, cylindricus, dentator, dentipes, fasciatus, flavipes, fulvipes, indultor, infirmus, lepidus, lignator, linearis, macrocephalus, marginator, obscurator, obscurellus, obscurus, oleraceus, pallipes, pectoralis, picipes, puber, ruspator, saltator, semirugosus, semistriatus, speculator, spinator, striatulus, tardator, testaceator, thoracicus, tibialis.

Helcura littoralis.

Helea cornuta, hispida, limbata, sexcostata, tricostalis.

Heleionomus variegatus.

Heleioporus albopunctatus.

Helena spinola.

Helenis spatosa.

Heleodromia bipunctata, bistigma, fontinalis, immaculata, stagnalis, unicolor.

Heleodytes griseus, minor.

Heleomyza centropunctata, lacustris, pulchella, quinquepunctata, ustulata.

Heleona fenestrata, militaris, papilionaris.

Heleornis nipalensis.

Helia bibitrix, calligramma, compotrix.

Heliaca arbuti, jocosus, purpuralis.

Heliactin cora, cornutus, dilophus, exilis, langsdorffi.

Heliacus heberti.

Heliangelus amethysticollis, clarisse, mavors, parzudakii, spencei, strophianus.

Helianthea bonapartei, eos, lutetiae, violifer.

Heliaptex arcticus.

Helias phalaenoides.

Helias analis, axillaris, caeruleus, cinerascens, crasma, frenatus, insolatus, lepisurus, limbatus, notatus, reticulatus.

Heliazes marginatus.

Helicarion cassida.

Helicella albula, algira, alliaria, arborea, castor, cellaria, chalicophila, comatula, concolor, corticata, crystallina, diaphana, draparnaldi, eurythmia, fasciata, ferruginea, filicum, filimargo, fruticola, glabra, glaphyra, hieroglyphica, hispida, hispidula, imperforata, isodomos, krynicki, latilabris, limbata, livescens, lucida, lunulata, maesta, mamillata, morkiana, nitida, nitidosa, nitidula, obvia, omalomorpha, orbicula, picta, pintadina, plebeja, plebejum, prevostiana, quadrizonia, radiatus, rastellum, resplendens, revelata, rotundata, saxatilis, semicostulata, solarium, sphaerita, succinea, tenuis, thiaraeformis, thymorum, trochilionoides, varians, viridula.

Helicerus fugiensis.

Helichus lithophilus

Helicina acuta, acutissima, adamsiana, adpersa, affinis, agglutinans, alata, albolabris, ambieliana, amoena, amphata, antillarum, antoni, arenicola, aurantia, aureola, belladonna, beryllina, besckei, biangulata, brazilensis, bronniana, browni, campanula, caracolla, carinata, castanea, ceres, citrina, coccinostoma, columbiana, compressa, concentrica, conica, consanguinea, constellata, constricta, convexa, cornea, costata, craniofabris, crassa, crassilabris, cuningiana, dentigera, depressa, dubia, dubiosa, dysoni, elegans, elongata, exigua, expansa, exumbilicata, fasciata, festiva, flammea, flava, flavida, fulgora, fulva, funcki, globosa, globulosa, gonistostoma, gonochila, gossesi, guadaloupensis, guildingiana, haematostoma, hanleyana, hirsuta, hispida, hollandi, hornbecki, inconspicua, jamaicensis, josephinae, kieneri, kuesteriana, laciniosa, lamareck, lanieriana, lazarus, leana, lens, lenticularis, lindeni, lineata, lineolata, linguifera, lirata, lutea, macilenta, maculata, major, margaritacea, marmorata, maugeriae, maxima, megastoma, menkeana, microstoma, minima, minuta, moreletiana, multicolor, musiva, neritella, nicobarica, nitida, nobilis, occidentalis, occulta, orbiculata, orbigny, oresigena, oweniana, oxystoma, oxytropis, palliata, pallida, pannucea, parva, pellucida, pettiana, pisum, plicatula, polita, pulchella, pulcherrima, purpureo-flava, pusilla, pyramidella, pyrrhostoma, reeveana, regina, rhodostoma, rohri, rotella, rotellaris, rotelloidea, rotunda, rubella, rubra, rugosa, rupestris, rustica, rusticella, sagraiana, sandwichiensis, sanguinea, scitula, scopulorum, semilirata, silacea, similis, sinuosa, sloani, solarioides, solidula, solitaria, sordida, sowerbiana, striata, striatula, subfusca, submarginata, substriata, succinea, swainsoni, sylvatica, taeniata, tamsiana, tankervillei, tenuilabris, tenuis, tilei, trochiformis, trochlea, trochulina, trossula, turbinata, uberta, unidentata, unifasciata, variabilis, variegata, vernalis, versicolor, vestita, villosa, virginea, viridis, zephyrina, zonata.

Helicites aequilaterus, agricolus, ampullacius, arietinus, auricularis, buccinatiformis, catenularis, catenulatus, catillus, corneus, cruentatus, cylindricus, delphinularis, delphinuloides, deperditus, dionysii, ellipticus, fulvicornis, girans, glabratus, globositicus, gregarius, gyrans, helicinaeformis, obvallatus, paludinaris, palustris, perforatus, planorbiformis, priscus, propinquus, pseudoammonius, pseudopomarius, pusillus, putrinus, qualiteriatus, radiatus, roncanus, rotundatus, spurius, supraangularatus, sylvestrinus, trochilinus, turbilinus, turbinatus, utricularis, viviparinus, viviparoides.

Helicoceras annulatus, armatus, astierianus, depressus, elegans, gracilis, interruptus, moutonianus, obliquatus, plicatilis, polyplocus, rotundus, teilleuxi, tuberculatus, undulatum, varusensis.

Helicocryptus pusillus, radiatus.

Helicodonta sculpturata.

Helicogena affinis, alabastrites, alonensis, arvensis, atrolabiata, austriaca, baltea, carseolana, circumornata, codringtoni, cyclica, desertorum, globularis, grohemanni, guttata, hortensis, hybrida, imperfecta, lactea, libellula, marmorata, mazzullii, media, melitensis, muralis, nemoralis, nicoeensis, olivacea, planiuscula, platychela, praetexta, radiata, sarcostoma, serpentina, signata, sphaeroides, splendida, sylvatica, taurica, vermiculata, zepherina.

Helicogona ferussaci, tigrina.

Helicolimax annularis, audebardi, australasia, brevis, elongata, fasciolata, lamarecki, major, pellucida, pyrenaica, vitrea.

Heliconia bomplandi.

Heliconia aegle, anactoria, andremona, antiocha, aeode, apseudes, aristonia, assarica, astrea, astydemia, atthis, braselis, burneyi, callicopis, calliope, celia, charitonia, claudina, cleobaea, clysonyma, clytia, cornalie, cotytto, cybele, cydno, cyrbia, cyrene, daeta, diaphana, dorimena, doris, egena, egeria, elimaea, elisa, endema, epiphyllis, equicola, erato, ergatis, eroxena, erythraea, ethilla, ethra, euclea, eucoma, eucrate, eurimedia, euterpe, eva, flora, gazoria, hecale, hortense, humboldti, hyas, ilione, irene, isabella, ismenia, lamyra, langsdorffi, lansdorffi, leprieuri, leuce, lucia, lysimene, marinetta, megara, melanida, melphis, melpomene, metharne, mneme, narcaea, nerina, nisea, numata, pasithoe, petiverana, phaena, phlegia, phyllis, polymnia, psidii, rhea, ricini, rosalia, sapho, sara, susanna, sylphis, sylvana, telchinia, telesiphe, thales, thalestris, thallo, thelxiope, vesta, victorine, zellie, zerbinetta.

- Heliconius** anthioca, clysonymus, cynisca, cyrene, diaphanus, dicaeus, duvali, humboldti, ismenius, lanirus, stratonice.
- Heliconoides** bulinoides, inflata, lesueuri, rangi, trochiformis.
- Helicophanta** amphibulimea, brevipes, eques, falconeri, langi, polizonalis.
- Helicophlegma** candei, keraudreni.
- Helicopsis** cicilia, cupida, endymion, gnidus, pais.
- Helicops** abacurus, aspera, caronicaudus, erythrogrammus, plicatilis.
- Helicopsis** glandula, major, orbis, pais, striata, vitrinella.
- Helicoptera** cincticeps, dilloni.
- Helicostyla** alauda, avellana, galactites, pudibunda, purpuragula, royssiana, smaragdus, strobilus.
- Helicteres** byronensis, decorata, decorus, leucozonalis, lividus, loratus, lugubris, spirizona, sulphuratus, textilis, turritellus, ventulus, vulpinus.
- Helictes** erythrostoma, impurator, varius.
- Helictis** fusca, moschata, nipalensis, orientalis, personata.
- Heligmus** longicirrus.
- Helina** (Dipt.) aricioidea, bipunctata, claripennis, euphemioidea, nigripes, rustica, tibialis.
- Helina** (Lep.) flammella.
- Helinaia** bachmani, carbonata, chrysoptera, peregrina, protonotarius, rubricapilla, swainsoni, vermivora.
- Helinaria** celata, solitaria.
- Heliochera** rubro-cristata.
- Heliochlaena** leucosia.
- Helicidaris** chlorotica, eurythrogramma, margaritacea, mexicana, mirabilis, omalostoma, paucituberculata, variolaris.
- Heliocopris** diana.
- Heliocrinites** balticus, radiatus.
- Heliodes** arbuti, rupicola.
- Heliodoxa** jacula, leadbeateri, rubinia, rubinoides.
- Heliodromia** longipes.
- Heliodromus** angulatus, rotundatus, wiedemanni.
- Heliofugus** arenosus, impressus, sulcatus.
- Heliolites** porosa.
- Heliomanes** binaculatus, corni, minor, obscurus, sidus, umbellatarum.
- Heliomaster** angelae, longirostris, mesoleucus, rubineus, rubinoides.
- Helioptes** altaicus, hypolithus, picipes, rugipennis, sibiricus.
- Heliopathes** latiusculus, pusillus.
- Heliophanus** auratus, chalibeus, cupreus, dubius, flavipes, metallicus, micans, nitens, tricinctus, truncorum.
- Heliophila** pallens.
- Heliophilus** (Col.) agrestis, convexus, crenulatus, damascenus, gibbulus, gibbus, hispanicus, hybridus, hypolithus, iners, laticollis, latimanus, lusitanicus, marshami, meridianus, obesus, obsoletus, pedatus, punctatus, punctulatus, tardus, tenebrioides, tibialis, vertagus.
- Heliophilus** (Dipt.) sylvarum.
- Heliophobius** argento-cinereus.
- Heliophobus** dumerili, graminis, hirta, hispidus, leucophaeus, popularis, saponariae.
- Heliophorus** belemus.
- Heliopora** angulosa, blainvilleana, caerulea, deformis, dubia, elegans, furcata, irregularis, panicea, plana, pyriformis, subdigitata, sulcata, supergiana.
- Helioporus** albo punctatus.
- Heliornis** fulica, senegalensis, surinamensis.
- Helioscopus** uralensis.
- Helioseris** cucullata, olivieri.
- Heliosteres** arenosus.
- Heliothis** apricans, armigera, cardui, cognata, cora, dipsacea, dos, friwaldski, incarnata, marginata, ononis, peltigera, pulchra, purpurites, scutosa, victorina, viola.

- Heliolithisa** appendiculata, cordigera, cymbalariae, delphinii, funebris, heliaca, melaleuca, myrtilli, opalina, rupicola, solaris, titania, vidua.
- Heliothrips** adonidium, haemorrhoidalis.
- Heliothrix** auriculatus, barroti, nigrotes.
- Heliothryx** auritus, petasophorus, scutatus.
- Heliotis** calino, decorata, frivaldszkyi, midas, peltigera, treitschkei.
- Heliotrix** nigrotis, poucheti.
- Helisigna** fragilis, sanctae helenae.
- Helisoma** bicarinata.
- Helison** scytale.
- Helius** perforatus.
- Helix** aberrata, abjecta, abyssorum, achates, achatina, acicula, acieformis, acies, acina, actinophora, aceducta, aculeata, acuminata, acuta, acutangula, acutinargo, acutissima, acutula, adamsi, adansoniae, addita, adjuncta, adpersa, adusta, adustus, advena, aedilis, aenea, aequalis, aetha, amnis, amlieta, africana, agnata, alabaster, alabastrina, alabastrites, alauda, alba, albanoensis, albanica, albata, albella, albescens, albicans, albida, albilabris, albocincta, albolabris, albula, alepa, alexandri, alexandrina, algira, aliena, alliacea, alliana, alligans, allognota, alloiodes, alonensis, alpestris, alpina, alsa, alleniana, alternata, alveare, alvearia, alveus, amabilis, amanda, ambigua, ambiguosa, ammonia, ammoniformis, amoena, amphibia, amphora, ampulla, anceps, anconostoma, andicola, angigrya, angistoma, anguina, angularis, angulata, angulatilis, angulosa, angustata, angustispira, annexa, annulata, annulatus, anomala, anthonia, antiperversa, antipoda, antiqua, antoni, apex, apicina, apiculus, apodemetes, aponina, appressa, approximata, aprica, aquensis, aquosa, arabica, aradasi, arata, arborea, arboreoides, arboretorum, arboreus, arbustorum, archiaci, arcta, aretispira, arcuata, ardouini, arenaria, arenarius, arenosa, areolata, argilacea, argillacea, argonautula, ariadnae, arietina, aristata, armeniaca, arnoldi, arnoudi, arridens, arroidensis, aspera, asperella, aspersa, asperula, assarinensis, associata, astieri, atralabiata, atrolineata, atropos, atrotubra, atrovirens, auberi, audouini, auklandica, aulacospira, aurantia, aurata, aurea, aureola, auricoma, auricula bovina, auriculata, auriculina, auridens, auris bovinus, auris caprinus, auris cervina, auris leporis, auris malchi, auris muris, auris sileni, auris vulpina, aurita, australis, austriaca, avara, avellana, avellanea, avena, babel, baconi, bacterionides, bactriana, badia, badiocincta, badiosa, baeticata, bahamensis, bahiensis, bainbridgii, bajadera, balasteriana, baldensis, balearica, balmei, balteata, banatica, barbadensis, barbara, barbata, barbula, barclayana, barclayi, bartlettiana, baskervillei, batanica, bataviana, baudini, beaumonti, beckiana, belangeri, belcheri, bengalensis, bensoni, berlandieriana, bermudensis, bertheloti, berytensis, besckei, bessarabica, beticata, biangulata, biblis, bicanaliculata, bicarinata, bicincta, bicolor, bicostata, bidens, bidentalis, bidentata, bidentifera, bifasciata, bifrons, bifurcata, biguetiana, bilabiata, bilamellata, bilineata, binneyana, bipartita, biplicata, bizona, bizonalis, blainvillei, blainvilliana, blanchetiana, blandiana, blandingiana, blainvilliana, blauneri, bohloensis, boissieri, boissyi, boivini, bolivari, bombayana, bona, bonplandi, bontia, boothiana, borbonica, borneensis, borni, bosciana, botundata, boubetiana, bouilleti, bounoboenia, brachyodon, brachysoma, bracteola, brasiliana, brasiliensis, brauni, brenoensis, brephoides, brevidens, brevipes, brevipila, brevis, brevispira, brocchii, broderipi, brongnardi, brouni, brookei, browni, bruguierius, bruguieri, bruguieriana, brunnea, buccinata, buccinum, bucculenta, bufoonia, bulbina, bulbos, bulla, bullaoides, bullula, bulveri, bulveriana, buphtalmus, bursatella, busbyi, buschi, butleri, buvinieri, byroni, cactorum, cacuminifera, caduca, caelata, caerulea, caespitum, cafra, cailliaudi, calamechroa, calathiscus, calcarae, calcareae, californiensis, caliginosa, callifera, calliostoma, callosa, calomorpha, calva, cambia, campanula, campayoni, campbelli, campesina, campestris, canaliculata, canalifera, canalis, cancellata, candaharica, cande, candescens, candida, candidissima, candidula, canescens, canigonensis, canini, cantagallana, cantheriata, cantiana, capensis, caperata, capillacea, capillata, capitum, cara, carabinata, carae, carascalensis, carbonaria, carduelis, caribaeorum, caricea, carina, carinata, carinatus, carinula, cariosa, cariosula, carmelita, carnea, carnicola, carnina, carocolla, caroliniensis, caroni, carseolana, carsoliana, carteriensis, carthusiana, carthusianella, cassida,

proxima, prunum, pseudo conspurcata, pseudoglobosa, pseudo-parilis, pseudo-succinea, pterididea, ptychodes, pubescens, puella, pulchella, pulcherrima, pulchra, pullata, pulula, pumilio, punctata, punctatissima, punctifera, punctigera, punctulata, punctura, pupa, pupiformis, pupoides, pupula, pura, purpuragula, purpurea, pur-purostoma, pusilla, pusillus, pusio, pustula, putris, pygmaea, pyramidalis, pyramidata, pyramidatoides, pyramidea, pyramidella, pyramis, pyrenaica, pyrostoma, pyrrhae, pyrrhozona, pyxis, quadrata, quadridens, quadridentata, quadrifasciata, quaesita, quartzoza, quinperiana, quinciensis, quinquefasciata, quoyi, radama, radiata, radiatula, radicola, radiella, radiosa, radula, rafinesquea, rafinesquia, rahiti, ramondi, ramouis, rangi, rangiana, ranzani, rapa, rara, rareguttata, rariplicata, raspaili, raverigiensis, ravidia, rawacensis, raymondi, rebouli, recedens, reclusiana, reclusiana, rectangula, redfieldiana, reeveana, reevei, reflexiuscula, refuga, regalis, regina, reginae, reinga, resplendens, resupinata, retifera, retirugis, retrorsa, retusa, revelata, reversa, rhodinostoma, rhodospira, rhodostoma, rhombea, rhomboidea, rhombostoma, rhytiphora, richardi, riisi, rillysensis, ringens, ringicula, rissoana, rivolii, rivularis, rizzae, roayana, roemer, roissyana, rosacea, rosarium, rosata, rosea, roseo-tincta, rossiana, rossmaessleri, rostrata, rota, rotatoria, rotellaris, rotellina, rotula, rotunda, rotundata, rozeti, rubella, rubicunda, rubiginosa, rubra, rubricata, rubroflava, ruderalites, rudrata, rudis, rudiuscula, rufa, rufescens, ruina, rufogaster, rufovirens, rufula, ruginosa, rugosa, rugosiuscula, rugulosa, ruida, rumelica, rumpii, rupestris, rysa, sabaea, sabulosa, sadleriana, sagemon, sagittifera, sagraiana, salleana, salomonis, samarensis, samoa, sandviensis, sansaniensis, santa cruzi, sanziana, sarcinosa, sarcocheila, sarcostoma, sardiniensis, sardoa, saturnia, satyrus, saulcyi, sauliae, savignyana, saxatilis, saxicola, sayi, scabra, scabrella, scabriuscula, scabrosa, scalaris, scalprum, scarburgensis, scheepmakeri, schmidt, schmidtzi, schrenki, schroeteri, schroeteriana, schuberti, schumacheriana, schwarzenbachii, scitula, scobinata, scorpio, scrobiculata, secale, seckendorffiana, sectilis, secunda, securiformis, seetzeni, segestana, selenina, semen-lini, semicastanea, semifusca, semiglobosa, semigranosa, semilimax, semilineata, seminiger, seminula, semipartita, semirugata, senegalensis, separanda, septemvolva, septenaria, sepulchralis, sepulta, sericatura, sericea, serpens, serpentina, serpentinites, serpularia, serpuloides, serrula, serrulata, setiger, setigera, setipila, setosa, setubalensis, setulosa, sexgyra, sexlamellata, sicana, sicula, siculina, sidoniensis, sieboldiana, sigiensis, signata, silis, simia, similis, simplex, simplicula, simulans, simulata, sinaitensis, sincera, sinclairi, sinistrorsa, sinuata, sinuosa, sione-stana, siquijorensis, sirena, skiaphila, sloanii, smaragdina, smimensis, smironensis, smyrnensis, sobrina, solaria, solarium, solata, solida, solitaria, soluta, somershamiensis, sordida, sordidus, soror, sorora, souleyetiana, sowerbyana, spadae, speciosa, spectabilis, spengleriana, sphaerica, sphaerion, sphaerita, sphaeroidea, sphinctostoma, spinolae, spinosa, spiralis, spiriplana, spirorbis, spirozona, spirula, spirulata, spixi, spixiana, splendens, splendida, splendidula, sporadica, sportella, spratti, spurca, squalus, squamosa, stabilis, steinheimensis, stellula, stenomphala, stenostoma, stenotrema, stenzii, stephanophora, stigmatica, stolephora, straminea, strangeri, strangulata, striata, striatella, striatula, striatus, strigatus, strigella, strigilata, strigilis, strigillata, strigosa, striolata, strobilus, stuartiae, studeriana, stylodon, subalbida, subangulosa, subcarinata, subcastanea, subcellaria, subconica, subcylindrica, subdentata, sub-disjuncta, subfallax, subfusca, subglobosa, subgranosa, submarginalis, submaritima, submeris, subnodulosa, subpersonata, sub-plana, subplicata, subpyramidalis, sub-rostrata, subrufescens, subrutilla, subsequa, subsulcosa, subterranea, subtilis, subtilissima, subula, subulata, subuliformis, subvirescens, subviridis, succinea, succinulata, sudensis, sudetica, sulcata, sulculata, sulculosa, sulfurea, sulphurea, sulphurea, sultana, sultanus, superba, superflua, supertexta, suppressa, sutilosa, suturalis, swainseni, sybrica, sylvatica, sylvestrina, syrensis, syriaca, taeiata, talcosa, tamsiana, tapeina, taranti, tasmaniensis, taunaisii, taurica, tayloriana, tecta, tectiformis, telonensis, tenera, tenerrima, tennesiensis, tentoriolum, tenuicostata, tenuilabris, tenuiradiata, tenuis, tephritis, tephrodes, terebella, terebellata, terebra, terebraster, teres, teresae, ternatana, terrestris, terveri, tervariana, tessellata, tetrazona, texasiana, textilis, thais, thalassina, thamnoica, theodori, thersites, thymorum, thyroidus, tiara, tiarella, ticaonica, tichostoma, tigrina, tilii, timida, tomigera, tomi-

geroides, tongana, tophicola, toralli, tornatella, torrefacta, torresiana, torsa, torticollis, tortilabia, tortuosa, torulus, torus, tourannensis, tournefortia, tournefortiana, townsendiana, trachelodes, tranquebarica, tranquelleonis, translucens, translucida, triaria, tricarinata, trichodes, trichotropis, tricolor, tridens, tridentata, tridentina, trifasciata, trigonostoma, trigrammephora, trilineata, triodonta, triplicata, tripolitana, triquetra, tristiani, tristis, tritica, tritoniensis, trizona, trizonalis, troberti, trochiformis, trochilioneides, trochlea, trochoides, trochus, troglodytes, troilus, tropidophora, trocheli, trotteriana, trumbulli, truncata, tuckeri, tudiculata, tufteti, tulipa, tumens, tumida, tumulorum, tumulus, tunetana, tunicata, tupacii, turbida, turbinata, turbiniformis, turbinoides, turbo, turcica, turgens, turgida, turgidula, turonensis, turricula, turriculata, turriplanata, turritella, turtoni, typinsana, uitenhagensis, umbilicalis, umbilicaria, umbilicata, umbrarium, umbratica, umbrosa, undata, undulata, unguicula, unguis, unguina, unica, unicolor, unidens, unidentata, unifasciata, unilamellata, uniplicata, unispiralis, unizonalis, urceus, urvillei, usticensis, ustulata, uva, valenciennesi, valida, valtoni, valvulus, vancouverensis, vanikorensis, vargasiana, variabilis, varians, variegata, varronis, velata, vellicata, velutina, velutinohispida, velutinoides, ventricosa, ventriculosa, ventrosula, ventrosus, ventulus, vermicularia, vermiculata, vermiculites, vermiculosa, vermivora, vernicosa, verruca, vesicular, versipolis, vertex, verticilloides, verticillus, vesica, vesicalis, vesicula, vestalis, vexillum, vialai, vianellii, vibex, vicina, vieta, villae, villiersi, villosa, villosella, villosula, viminea, vineta, vindobonensis, virginalis, virginea, virgo, virgulata, viridis, virido-striata, viridula, vitellina, vitellus, vitracea, vitrea, vitrina, vitrinoidea, vitrinoides, vitrinosa, vittata, volhyniensis, voltzii, volvox, vorticialis, vulgaris, vulpina, vultuosa, wagneri, walkeri, wardiana, webbiana, winteriana, wittmanni, woodiana, xanthippe, xanthodon, xanthostoma, xanthotricha, xartatii, xystera, yucatanica, zaleta, zaffarina, zaleta, zebra, zebrina, zebriola, zebrula, zebuensis, zelandiae, zeus, ziezac, zieglerei, zodiaca, zodiacus, zographica, zonalis, zonaria, zonata, zonifera, zonites, zonula, zonulata.

Helixarion cuvieri, freycineti.

Hellotis hopei.

Helluo (Col.) agathyrnus, anthracinus, astericus, atratus, attelaboides, biguttatus, bimaculatus, biplagiatus, brasiliensis, brevicollis, brunneus, carinatus, cayennensis, clairvillei, costatus, cruciatus, dispar, distractus, dorsalis, erythropus, femoratus, ferox, ferrugineus, grandis, heros, hirtus, impictus, labiosus, labrosus, lacordairei, laticornis, longicollis, nigerrimus, nigripennis, opacus, pilosus, praeustus, pubescens, pygmaeus, quadrimaculatus, rufipes, sanguinolentus, sparsus, tripustulatus, tristis, unicolor.

Helluo (Verm.) bioculatus, octoculatus.

Helluodes taprobanae.

Helluomorpha bellicosa, clairvillei, coracina, heros, laticornis, macroptera, melanaria, nigripennis, praeusta, pygmaeus.

Hellus biguttatus, longipennis, pacea, prisma, quadriguttatus, sexguttatus, sexpunctatus, similis.

Hellwigia elegans, obscura.

Helmichthys diaphanus.

Helmictus punctatus.

Helminthochiton concentricus, eburonicus, gemmatus, griffithi, legiacus, mem piscus, mosensis, nervicanus, priscus, sluseanus, turnaciensis, viseticola.

Helminthoida crassa*, irregularis*.

Helminthonema defractum.

Helminthophaga chrysoptera, peregrina, protonotarius, rubricapilla, solitaria.

Helmitheros blanda, carbonata, celata, chrysoptera, migratorius, peregrina, protonotarius, rubricapilla, swainsoni.

Helobia aethiops, brevicollis, castanipes, gyllenhali, impressa, lata, marshallana, varicornis.

Helochares maculicollis.

Heloderma horridum.

Helodes campestris, distincta, elongata, lepturoides, obsoleta, porrecta, quadrilineata, trivittata, vicina, violacea, vittata.

Helodimorpha aenea, atra, viridis.

Helodrilus oculatus.

Helodus appendiculatus, didymus, gibberulus, laevisimus, mammillaris, mitratus, planus, rudis, simplex, subteres, turgidus.

Helomyza affinis, arenaria, arenarum, bistrigata, caesia, canescens, circumfusa, cuniculorum, domestica, fasciata, fenestralis, ferruginea, flava, flavifrons, flavo-testacea, fuscana, fuscinervis, fuscipennis, geniculata, gibba, gigantea, griseola, halterata, hilaris, histrio, humeralis, humilis, iners, inscripta, interjecta, interspersus, kaltenbachi, laeta, lateralis, lineata, longiseta, macrostyla, microphthalma, microps, minuta, modesta, myopina, nemorum, nigricans, nigricornis, nigriventris, notata, obscura, obscuriventris, olens, pallescens, pallida, pantherina, penicillata, picta, praecusta, quadrimaculata, quinquevittata, rufa, ruicauda, ruiceps, ruficornis, rufiventris, scutellaris, serrata, simplex, subterranea, suffusa, testacea, tibialis, tigrina, tincta, trifasciata, tuberivora, ustulata, villosa.

Helonotus tuberculatus.

Helophilus (Col.) lividus, primarius.

Helophilus (Dipt.) aesculus, affinis, agerinus, albiceps, anasis, annulipes, arcticus, bengalensis, bigoti, bilineatus, bothnicus, camporum, capensis, chilensis, chiliensis, crassipes, curviger, cyanescens, fasciatus, formalis, frutetorum, glacialis, griseus, groenlandicus, hilaris, hybridus, ineptus, lapponicus, latro, lineatus, longus, lunulatus, melanophthalmus, mexicanus, modestus, notabilis, novae scotiae, pendulus, peregrinus, pulchripes, quadrivittatus, rostratus, ruddi, scutellaris, sejunctus, senegalensis, similis, stipatus, transfugus, trilineatus, trivittatus, versicolor.

Helophorus affinis, alpinus, alternans, apicalis, aquatica, arcuatus, arvernensis, borealis, brevis, dorsalis, fennicus, granularis, griseus, intermedius, lacustris, marinus, minimus, nitidus, nubilus, oblongus, obscurus, pumilio, pygmaeus, scaber, stagnalis, tuberculatus, villosus, viridicollis.

Helopinus costatus.

Helops abdominalis, aemulus, aeneicollis, aeneo-niger, aeneus, aerarius, aeratus, aereus, aethiops, afer, ahenus, alpinus, alternans, amaroides, americanus, analis, angulatus, angustatus, angusticollis, anthracinus, aratus, arboreus, arcuatus, asper, asphaltinus, assimilis, aterrimus, aulicus, aurato-triatus, aurichalceus, auricollis, auridorsus, aurilineis, auripennis, aurivittis, azureus, badius, barbata, beniniensis, bicinctus, bifasciatus, borealis, breviollis, brevis, brunneus, brunripes, caeruleus, californicus, carbo, carbonarius, cariosus, carolinensis, castaneus, castaneipes, cicatricosus, cisteloides, coerules, columbinus, convexicollis, convexus, cordatus, coriaceus, corvinus, crassicollis, crenatus, cribripennis, cuprarius, cupreoides, cupreus, curvipes, cyanescens, cyanicollis, cyanipes, cylindricus, dama, damacinus, dentatus, diaperis, distinguendus, eheninus, ecofeta, episcopal, erotiloides, erythrocephalus, exaratus, excavatus, faldermanni, fastuosus, femoratus, fennicus, festivus, flavicrus, flavus, fragilis, friulicus, fulei, fulvipes, fuscicornis, fuscipes, gagatinus, genei, geniculatus, geometricus, germari, gibbicollis, gibbulus, gilvipes, gisteli, gloriosus, gracilis, graniger, griseus, harpaloides, heteromorpha, hieroglyphicus, impressicollis, impressus, incurvus, indutus, inflatus, insignis, interpunctatus, interstitialis, iris, janthinus, javanus, juncorum, laceratus, lacertosus, laetus, laevigatus, laevipennis, lapidicola, laticollis, latipennis, lepidus, leprosus, limbatus, lineatus, longipennis, luridus, luteicornis, macrops, maculatus, maculipennis, marginatus, marginellus, marloysi, maurus, meissneri, melanarius, melas, memnonius, metallicus, minutus, modestus, morbillosus, mori, nanus, niger, nigricornis, nigratarsis, nigroaeneus, nigropiceus, nitidicollis, nitidipennis, nitidus, nobilis, obesus, oblongus, obscurus, obsoletus, obtusangulus, opacus, ophonoides, ovatus, pallidus, pallipes, parvulus, peronatus, perplexus, piceus, picinus, picipes, planipennis, plebejus, plicipennis, politus, pubescens, pullus, punctatissimus, punctatus, puncticollis, punctipennis, purpureus, pygmaeus, quadraticollis, quadratus, quadrimaculatus, quadripustulatus, repandus, rossi, rotundicollis, rubidus, rubripes, rufopictus, rugosus, saperdoides, schmidianus, schmidti, sericeus, siculus, sinuatus, sphaericollis, splendidus, stellatus, steveri, striatopunctatus, subaeneus, subcrenatus, subrugosus, sulcato-punctatus, sulcatus, sulcicollis, sulcipennis, suturalis, taeniatus, taenoides, tantillus, tarsatus, tenebri-

cosus, tenebrioides, tenuicollis, terreni, testaceus, testudinarius, tibialis, tigrinus, tomentosus, transversus, tuberculipennis, tumidicollis, tumidus, variabilis, varicolor, variegatus, varipes, varius, venustus, vestitus, villiger, villipes, villosipennis, villosus, violaceus, virescens, viridis, zabroides.

Helopus caspius.

Helorus anomalipes, ater.

Helostoma temminckii.

Helota guerini, mellii, servillei, thibetana, vigorsi.

Helotarsus ecaudatus, typicus.

Helotes octolineatus, sexlineatus.

Helyster bosci.

Hemachatus vulgaris.

Hemaris bombylifomis, fuciformis, stellatarum.

Hemerobioides giganteus, higginsii.

Hemerobites antiquus.

Hemerobius affinis, angulatus, apicalis, brevicollis, cancellatus, concinnus, confinis, conformis, conspersus, corticum, crispus, cylindripes, dipterus, elegans, erythrocephalus, fimbriatus, flaviceps, fuscus, genei, higginsii, hybridus, intricatus, irroratus, lateralis, leptaleus, limbatellus, limbatus, maculatus, margaritinus, marginatus, marshamii, mauricianus, nebulosus, nevrodes, obscurus, obsoletus, ochraceus, pallens, pallidus, paucinervis, perelegans, pini, prasinus, proximus, punctatus, quadrimaculatus, semblinus, stigma, strigosus, subfasciatus, subnebulosus, validus, vittatus.

Hemeroblemma amethystea, amethystina, areopagita, dolon, dolosa, lienaris.

Hemerocoetes acanthorhynchus.

Hemerodromia albicornis, alipes, albiseta, bipunctata, brevipes, ephippiata, flavella, frigeli, immaculata, irrorata, lineata, mantispa, meigeniana, melanocephala, monostigma, nivalis, obsecratoria, oratoria, praecatoria, raptoria, stagnalis, superstitiosa, supplicatoria, trapezina, unilineata, vocatoria.

Hemerophila abruptaria, albertiana, pariana.

Hemeroplanes oculus, pan, plutonius, pyralis, pyraloides, triptolemus.

Hemesthocera flavilinea.

Hemiaetus strophiatius.

Hemiargus antibubastus, bubastus, celaeus, enipeus, hanno, isarchus, larydas, ubaldus.

Hemiaster acuminatus, aequifissus, affinis, alarici, altissimus, amplus, anticus, birostratus, brevisulcatus, bucardium, bucklandi, bufo, complanatus, cor, cosoni, cubicus, edwardsi, elatus, expansus, fourneli, foveatus, globosus, grateloupi, inaequalis, inflatus, latisulcatus, latus, leymeriei, major, minima, nasutulus, nucleus, nucula, obesus, orbicularis, parastatus, passysianus, phrynus, pisum, ponum, prunella, pusillus, rana, stella, stellatus, subalpinus, subcubicus, subglobosus, suborbicularis, texanus, tumidus, verneuli, verticalis.

Hemicardium aviculare, cardissa, fragrum, laevum, retusum, telluris, tuberculatum, unedo.

Hemicellaria ramosa.

Hemicera arcuata, splendens.

Hemiceratites angulatus, compressus.

Hemicercus canente.

Hemichelidon ferrugineus, fuliginosa, latirostris.

Hemichroa alni, rufa, stigma.

Hemicidaris admeto, alpina, angularis, buccalis, confluens, crenularis, depressa, diademata, graciosa, granulata, guerini, hoffmanni, icaunensis, inermis, intermedia, koenigi, laevis, lamarki, linearis, luciensis, lybica, mammosa, meryaca, minor, mitra, ovifera, patella, purbeckensis, pustulosa, radians, regularis, stramonium, thurmanni, undulata.

Hemicircus brunneus, concretus, cordatus, melanogaster, rubiginosus.

Hemicnemis ciliaris, senegalensis.

Hemicordylus capensis.

Hemicosmites extraneus, oblongus, porosus, pyriformis, squamosus.

Hemicrepidius ruficollis, thomasi.

Hemicrinus astierianus.

- Hemipterura** rasoumowskii.
Hemiteina gracilis.
Hemicyclia albicans.
Hemicyclus grandis, metallicus.
Hemidactylum scutata.
Hemidactylus argyropis, belli, bojeri, brooki, capensis, caudiverbera, coctaei, depressus, fasciatus, flaviviridis, frenatus, garnoti, gelatinosus, granosus, leschenaulti, maculatus, mercatorius, mutilatus, nanus, nattereri, orbignyi, peroni, peruvianus, robustus, sebae, servus, tuberculosus, variegatus, vittatus.
Hemidiadema rugosum.
Hemidictya frondosa.
Hemifusus canaria, cochlidium, colossus, coronatus, morio, pyrulaceus.
Hemigalea hardwicki, zebra.
Hemigaster fasciatus.
Hemigeometra conjuga, fraxini, maura, notha, nupta, parthenias, promissa, sponsa.
Hemignathus lucidus, obscurus, olivaceus.
Hemigyps ponticerianus.
Hemilampira australis.
Hemilepidotus hemilepidotus, tilesii, trachurus.
Hemiloma ovata.
Hemilopas mentzeli.
Hemilophus (A.) fulvus, hodgsoni, javensis, leucogaster, lichtensteini, mackloti, muelleri, pulverulentus, validus.
Hemilophus (Col.) albicollis, dimidiaticornis, leuconotus, luctuosus, nigriceps, spectabilis, triangularis.
Hemimactra gigantea, grandis.
Hemimene amplanata, argyranata, dorsana, ephippiana, gundianana, jacquiniana, lathyrana, lunulana, montana, permixtana, sequana.
Hemimitra retusa.
Hemiodon areolata, purpurascens, undulatus.
Hemiodus crenidens, notatus, unimaculatus.
Hemiops chinensis, flava, luteus, plana.
Hemipalama auduboni, himantopus, minor, multistriata, semipalmata.
Hemipalma himantopus.
Hemiparus strigula.
Hemipecten forbesianus.
Hemipepsis capensis, flava, ustulata.
Hemipharis brunoni, insularis.
Hemiphraetus scutata, spixi.
Hemipipo chlorion, chloris.
Hemiplacuna rozieri.
Hemiplus lacustris.
Hemipneustes africanus, radiatus.
Hemipodius andalusicus, atrogularis, bengalensis, castanotus, dussumieri, fasciatus, hottentottus, joudera, lepurana, lunatus, luzoniensis, maculosus, melanogaster, melanotus, nanus, nigricollis, nigrifrons, nigripes, nivosus, pugnax, pyrrhothorax, scintillans, tachydromus, taigour, taigur, thoracicus, varius, velox.
Hemipristis paucidens, serra.
Hemiprocne acuta, collaris, comatus, fuciphagus, fucivora, longipennis, mystacea, salangana, torquatus.
Hemipronites aequalis, alata, alta, brevis, circularis, elongata, expansa, globosa, lata, latissima, maxima, obtusa, orbicularis, peralta, perlata, plana, prominens, rotunda, sphaerica, transversa, tumida.
Hemipsilus trichodes.
Hemiptarsenus fulvicollis, waterhousei.
Hemipteron nipalense.
Hemipteronotus gmelini, quinquemaculatus.
Hemipteryx pallida, tatrix.

- Hemiulus** auratus, guttatus, melapterus, vittatus.
Hemixus flavula.
Hemizonus albomarginatus.
Hemizoster tubulosus.
Hemorrhoids hippocrepis.
Hemulon chrysopteron, flavomaculatum, formosum.
Hemydra aurata.
Henestaris genei, hispanus, spinolae.
Henia devia.
Heniarthes annulatus, erythromerus.
Henicocichla major, noveboracensis.
Henicops chilensis, emarginata.
Henicus stollii.
Heniocha appollonia, grimmia.
Heniochus acuminatus, argus, chryso-tonus, cornutus, macrolepidotus, monoceros, orbis, permutatus.
Henopomus muticus, tricornis.
Henops apicalis, gibbosus, globulus, leucomelas, limbatus, marginatus, nigripes, orbiculus, rotundatus, waxelli.
Henricia oculata, rosea.
Heodes virgaurea.
Heornus roseus.
Hepa neptuni.
Hepathus calappoides.
Hepatoxylon squali.
Hepatus angustata, chiliensis, decorus, fasciatus, perlatus.
Hephaestion macer, ocreatus.
Hepheboerus boops, nanus.
Hepialus aesculi, angulum, arcticus, carnus, cora, cossus, crassus, flina, fuscus, hamma, hectus, horta, ligniperda, ligniveren, lignivorus, mappa, nebulosus, pyrenaicus, terebra, velleda, virescens.
Hepiolus ganna, humuli, lupulinus, socordis, sylvinus, uredo.
Hepioplumus eudoxus, leucostigmus, variegatorius.
Hepoona cooki.
Heptabanchus burnetti.
Heptalasmis warwicki.
Heptanchus indicus.
Heptatoma bimaculata, italicus.
Heptatrema cirratum.
Heptaulacus nivalis, sus, testudinarius.
Heptodonta analis, hopei.
Heptoglena digitata.
Heptomera metallica.
Heptostomum hirudinum.
Heptranchias cinereus.
Heraclia dominula, euphemia, placentia, vetula.
Heraclides andraemon, asclepius, crisphontes, lycophron, menestheus, oxilus, pelaus, phorcas, thoas.
Heraea carpini.
Heramya nebulosa, populicola.
Herbina liliorum, narcissi, rubetra, suillioidea.
Herbstia condyliata, edwardsi, parvifrons.
Herbstium stellatum.
Hercoles radicans.
Hercyna albulalis, alpestralis, ambigualis, centonalis, chlamitulis, chlamydulalis, cicatricalis, clathrata, cristulalis, dubitalis, gutturalis, holosericalis, lineolalis, macularia, manualis, mendaculalis, palliolalis, phrygialis, pyrenaealis, quadrimaculata, ramalis, rufocrintalis, rupicolalis, scabralis, sericalis, strigulalis, togatulalis.

- Herega** subrotundata.
- Herentia** biforis, hyndinanni, insignis, linearis.
- Heresaster** papillosa.
- Heriades** breviuscula, campanularum, cincta, maxillosa, nigricornis, punctatissima, pusilla, rapunculi, robusta, sinuata, truncorum.
- Heribeia** clerckella, cognatella, forsterella, haworthana, haworthella, humerella, nivella, punctaurella, semiaurella, semiplicella, unipunctella.
- Herina** annulata, calcarata, fasciata, lacustris, limbata, liturata, longicornis, luctuosa, marginata, mexicana, palustris, quadrifasciata, rufipes, rufitarsis, saltatoria, scutellaris, sinensis, splendens, syngenesiae, thoracica, vicina, violacea, violascens, viridis.
- Herinia** capensis.
- Herion** rostratus.
- Hermæa** biida, dendritica, venosa.
- Hermella** alveolata, chrysocephala, crassissima, rissoi, savignyi.
- Hermerius** impar.
- Hermes** nussatellus.
- Hermetia** albitarsis, apicalis, bimaculata, cingularis, coarctata, flavipes, illucens, marginata, pectoralis, planifrons, pulchra, rufitarsis, rufiventris, sexmaculata.
- Hermia** glandulosa.
- Herminia** aspergillus, barbalis, calvarialis, cribralis, crinalis, derivalis, emortualis, ericata, grisealis, modestalis, nodosalis, proboscidalis, rectalis, rostralis, rostratus, sagittalis, tarsicrinalis, tarsiplumalis, tentaculalis, ventilabris.
- Herminierus** guadelupensis, infaustus.
- Hermione** hystrix.
- Hermochares** appendiculatus.
- Hermoneura** punctata.
- Hermya** afra, hottentota.
- Herodias** affinis, alba, caerulea, candida, candidissima, egretta, flavirostris, garzetta, greyi, gularis, jubata, jugularis, leucogaster, matook, modesta, novae hollandiae, orientalis, pannosus, picata, pileata, plumiferus, rufescens, schistacea, symmatophorus, virescens.
- Herona** marathus.
- Heros** coryphaenoides, coryphaeus, deppei, efasciatus, festivus, friedrichsthalii, insignis, modestus, montezuma, niger, psittacus, severus, spurius.
- Herpa** limacina.
- Herpestes** aegyptius, apiculatus, atilax, auropunctata, badius, bagdadensis, bennetti, brachyurus, cafra, edwardsi, exilis, fasciatus, flavidens, frederici, fusca, galera, gambiaus, gracilis, griseus, ichneumon, javanicus, lefebvrei, leucurus, major, melanurus, mungo, muttigella, nems, nepalensis, numicus, ochraceus, pallidus, parvulus, penicillatus, pharaonis, psilodactylus, punctulatus, ruber, rubiginosus, sanguineus, semitorquatus, smithi, vitticollis, widdringtoni, zebra.
- Herpestomus** ardeicollis, brunnicornis, facialis, furunculus, intermedius, nasutus, phaeocerus, pudibundus.
- Herpetheres** cachinnans. *Err. pro Herpetotheres.*
- Herpetichnus** bucklandi, sauroplesius.
- Herpetodryas** aestivus, boddaerti, carinatus, cursor, dendrophis, dipsas, geminatus, getulus, goudoti, helena, lineatus, margaritiferus, olfersi, oxycephalus, prionotus, psammophis, punctifer, rhodogaster, serra, tricolor, viridissimus.
- Herpetodrys** bicarinatus, carinatus, pyrrhopogon, sexcarinata.
- Herpetolithus** crassus, strictus.
- Herpetotheres** cachinans, sociabilis.
- Herpetotragus** nasuta.
- Herpiscius** sommeri, spinolae.
- Herpistichus** laesicollis.
- Herpolitha** ehrenbergi, foliosa, interrupta, limacina, rueppelli, stellaris.
- Herpsilochmus** axillaris, pileatus, rufomarginatus.
- Herpyllus** alarius, ater, auratus, bicolor, bilineatus, crocatus, cruciger, descriptus, dubius, ecclesiasticus, longipalpus, marmoratus, ornatus, parvus, pygmaeus, ramulosus, trilineatus, variegatus, vespa, zonarius.

Herpystezoum marshi, minutum.

Herse (A.) ariel, bicolor, cyanoleuca, erythrocephala, euchrisea, fulva, hyperythra, leucaptera, leucorrhoea, maculosa, melanoleuca, nigricans, patazonica, tabitica, thalassina.

Herse (Cr.) neubergi.

Herse (Lep.) convolvuli, ligustri, pinaestri.

Hersilia (Ar.) caudata.

Hersilia (Col.) edwardsi, indica, oranensis, savignyi.

Hersilia (Cr.) apodiformis.

Hertha mystica.

Hesiconia burneyi.

Hesione festiva, pantherina, sicula, splendida.

Hesperia abebalus, acteon, aetna, altheae, alveolus, alveus, andracne, antipodes*, antoninus, aracinthus, arcas, arsalte, assaricus, ausonius, avitus, basoches, benjamini, bifasciata, bouffilius, borbonica, brebisson, cacaliae, caecus, cardui, carlinae, carthami, catillus, cebrenus, celus, cephalus, cervantes, chlorocephala, chromus, cinarae, cingula, cirsii, claudianus, clavus, cleantes, coelus, comma, coras, cornelius, coroller, cramer, creteus, cribellum, criniscus, critomedia*, cyanea, cynisca, dalman, dara, disu, drury, dumeril, eacus, erythrus, ethlius, eucrate, eurycles, fatih, feisthameli, fischer, flavovittata, floccifera, godart, havei, havel, haworthiana, helops, iphinous, iphis, ischys, itea, jaera, julianus, justinianus, lafrenaye, lepeletier, lesueuri, leucocera, lherminieri, lineola, lucretius, lycidas, malvarum, marchalli, marrubii, melander, melotus, menestries, mesogramma, metopis, minos, myrmidon, nearchus, octomaculata, onopordi, ophion, orbifera, orion, ornata, oxynthes, papinianus, papirio, parmenides, peckius, peleus, peron, pertinax, phlomidis*, phocion, phulaeus, picta, polygius, polyzona, pompeius, poulieri, proto, punilio, raiffesia, ramusis, salatis, santhilarus, sao, savignyi, schoenherri, seneca, senegalensis, sericea, serratulae, sertorius, silius, silvicola, sinon, sophia, steropes, tale, taras, tesselloides*, tessellum, themistocles, therapne, tristis, tryxus, unicolor, versicolor, viridis, westermanni, xanthopogon.

Hesperinus brevifrons.

Hesperiphona abellei, icteroides, melanura, personatus, speculigerus, vespertina.

Hesperomys anguya, arenicola, arviculoides, auritus, bimaculatus, boliviensis, brachyurus, callosus, canescens, caniventris, cephalotes, concolor, darwini, destructor, elegans, eliurus, flavescens, fuliginosus, galapagoensis, gracilipes, griseo-flavus, laucha, leucodactylus, leucogaster, leucopus, longicaudatus, longipilis, longitarsus, magellanicus, maniculatus, megalonyx, melanostoma, micropus, nasutus, nigripes, nigrita, obscurus, orobinus, palustris, physodes, pygmaeus, pyrrhorhinus, renggeri, rostellatus, rufus, russatus, squampipes, subflavus, tomentosus, tumidus, xanthopygus, xanthorhinus.

Hesperophanes affinis, fasciculatus, griseus, guttaticollis, nebulosus, olidus, pallidus, pulverulentus, rotundicollis, sericeus, tomentosus.

Hesperophilus arenarius, divisus, fracticornis, haemopterus, talpa.

Hesthis bizonatus, cingulatus, ferrugineus, ornata, variegatus.

Hestia assimilis, bella, corythoe, daos, ephyre, hyblaea, hypermnestra, iasonia, idea, ismare, juvena, lyncea, similis, thoe.

Hesycha syninx.

Hesychia fausta, faustina, hilaris, laeta.

Hesyquillia lugubris, seminationis.

Hetaera astyocha, dyndimene, lena, nereis.

Hetaerius quadratus.

Hetaerornis atra, blythi, corythaix, crinita, cristatella, docilis, fusca, ginginiana, malabarica, pagodarum.

Heteracantha depressa.

Heteracanthia ruficornis.

Heteracanthus pedatus, sagittatus.

Heterachthes ebenus, quadrimaculatum.

Heterakis dispar, praecinctus, vesicularis.

Heterarthron bicarinatum, truncatus.

- Heterarthrus** ochropoda.
- Heteraulacus** acuminatus, adriaticus, fuscus, monas.
- Heteritos** punctatus*.
- Heteroblemma** peropaea.
- Heterobranchia** gainardi.
- Heterobranchus** anguillar, bidorsalis, geoffroyi, longiilis, senegalensis, sextentaculatus.
- Heterocampa** astarte.
- Heterocentrotus** trigonarius.
- Heterocephalus** glaber.
- Heteroceras** americanus, angulatus, apicalis, arragonicus, bifasciatus, brunneus, cinctus, crinitus, euphraticus, femoralis, flavidus, flexuosus, fossor, fuscus, gravidus, hamifer, hispidulus, intermedius, limbatus, lituratus, marginatus, maritimus, marmota, marshami, minimus, minutissimus, minutus, murinus, nanus, obliterated, obsoletus, pallidus, parallelus, polyplocus.
- Heterocerus** pulchella, pusillus, sericans, undatus, varius, ventralis.
- Heterocheilus** tunicatus.
- Heterochelus** acanthopus, analis, anomalus, armatus, arthriticus, aurantiacus, bidentatus, bimaculatus, binotatus, bisignatus, bivittatus, capicola, castaneipennis, chiragricus, coccineus, connatus, denticeps, dentifrons, dentipes, detritus, forcipatus, furoninus, gonager, holosericeus, hybridus, laticollis, lituratus, longipes, longulus, lugens, miserabilis, mucronatus, multidentatus, murinus, nitidissimus, nubilus, ochraceus, oreopygus, pachyglutis, pachymerus, pallidipennis, platynotus, podagricus, pulverosus, ruimanus, senex, serripes, sexlineatus, simplicipes, sobrinus, soricinus, spretus, striatus, subvittatus, testaceipennis, uncinatus, unguiculatus, villosus, viridicollis, vittatus, vittiferus, vulpecula, vulpinus.
- Heterochilus** citrinus.
- Heterochroa** abia, abyta, alala, arecosa, aricia, basilea, bredowi, cestus, cocala, collina, corcyra, cytherea, donysa, elea, epione, erotia, fessonia, gelania, hyas, iphicla, irminta, isis, lara, lerna, leucophthalma, marse, melona, mesenteria, mythra, nea, phliassa, plessaure, serpe, syma, thoasa, zea, zebra.
- Heteroclita** haworthi, raeuperi.
- Heteroclitus** tartaricus.
- Heterocoenia** conferta, crasso-lamellata, exiguis, humilis, minima, provincialis.
- Heterocrates** coracinus.
- Heterocrinus** gracilis, heterodactylus, simplex.
- Heterocyathus** aequicostatus, cochlea, eupsamimides, hemisphaerica, roussaeana.
- Heterodactyla** hemprichi.
- Heterodactylus** (Col.) nebridioides.
- Heterodactylus** (R.) imbricatus.
- Heteroderes** fuscus.
- Heteroderma** loysianum.
- Heterodes** longipes, servillei, spinulosus. *Vide et Heterodes.*
- Heterodisca** conica, heterostrophia, lucida, minuta, reversa.
- Heterodon** (M.) anarnacum, chemnitzianum, dalei, epidodon, hunteri, hyperoodon, sowerbyi, urocera.
- Heterodon** (R.) annulatus, coccineus, guianensis, heterodon, niger, platirrhinus, rhinostoma, sinus, tigrinus, vipera.
- Heterodonta** argentina.
- Heterodontus** philippi.
- Heterodromia** velox.
- Heterogamia** aegyptiaca, antiqua, ursina.
- Heterogaster** (Col.) bicolor, coronillae, semipunctatus, waitli.
- Heterogaster** (Dipt.) fascipennis.
- Heterogaster** (Hem.) affinis, artemisiae, basalis, claviculus, costatus, ericae, fasciatus, jacobaeae, laticeps, lineolatus, pictus, punctipennis, pusillus, resedae, reticulatus, rufescens, salviae, schillingi, senecionis, thymi, urticae.
- Heterogenea** asellana, asellus, testudinana.
- Heterognatha** chilensis, margaritacea.

- Heterognathodon** bifasciatus, macrurus, xanthopleura.
- Heterogomphus** achilles, aidoneus, amphitryon, astyanax, bispinosus, chevrolati, dilatipennis, duponti, eteocles, hopei, julus, morbillosus, pauson, schoenherri, thoas, ulysses.
- Heterograpsus** sexdentatus.
- Heterogynis** amnis, erotica, paradoxa.
- Heterolepis** (Hym.) nigra.
- Heterolepis** (R.) capensis, poensis.
- Heteromeles** mauritanicus.
- Heterometopia** argentea, rufipalpis.
- Heteromita** angusta, granulum, ovata.
- Heteromorpha** (A.) ruficeps.
- Heteromorpha** (Lep.) caeruleocephala, excrucians*, unicolor.
- Heteromyia** fasciata.
- Heteromys** anomalus, thompsoni.
- Heteromyza** atricornis, bicolor, buccata, cinerella, eriphides, flava, flaveola, flavipes, fusca, bilarella, humilis, laeta, laterella, nigricornis, oculata, orientalis, rufipes, scutellata, tarsalis.
- Heteronema** marina.
- Heteronemia** mexicana.
- Heteronereis** arctica, assimilis, fucicola, paradoxa, viridis.
- Heteroneura** albimana, geomyzina, muscaria, nubila, ruficollis, scatophagina, scotica, spurca.
- Heteronota** binaei, braccata, hirta, kendalli.
- Heteronotus** abbreviatus, armatus, bescki, flaveolineatus, fuscus, inermis, nigricans, nodosus, quadrinodosus, signatus, spinosus, tridens, vulnerans.
- Heteronutarsus** aegyptiacus.
- Heteronychus** appius, arator, claudius, fossator, fossor, glabricollis, globosus, humilis, javanus, licas, minutus, morator, parumpunctatus, parvus, pauper, piceus, plebejus, rusticus, scarabaeinus, tumulosus.
- Heteronyx** aphodioides, australis, elongatus, holomelaena, laticollis, nigrita, oblongus, obscurus, ovatus, piceus, pilosellus, pilosus, rotundiceps, rubescens, rubriceps, rufo-marginatus, striatipennis, unicolor.
- Heteropalpus** pretiosus.
- Heteropelma** calcator.
- Heteropeza** pygmaea.
- Heterophaga** mauritanica.
- Heterophana** villosula.
- Heterophasia** cuculopsis.
- Heterophthalmus** ocularis.
- Heterophyllia** grandis, macroreina, ornata.
- Heterophylus** chrysomelinus.
- Heteroplia** distinguenda, emortualis, rugipennis, testacea.
- Heteropneustes** fossilis.
- Heteropoda** mauri.
- Heteropora** abrotanoides, anomalopora, appressa, arborea, cervicornis, concinna, conifera, corymbosa, crassa, cryptopora, decurrens, dichotoma, digitata, dumetosa, echidnaea, ficulina, flabellum, forskaeli, hemprichi, imbricata, intricata, laxa, microclados, millipora, palmata, poecillifera, prolifera, pyriformis, ramosa, regalis, rugosa, septosa, seriata, spongiodes, squarrosa, stellulata, stipitata, subconcinna, surculacea, tortilis, tuberosa, tubulosa, tylostoma, undulata, verrucosa.
- Heterops** cristatus.
- Heteropsammia** muelhni.
- Heteropsis** drepana.
- Heteroptera** pusilla.
- Heteropterion** macula.
- Heteropteryx** dilatata.
- Heteropus** (A.) perniger.
- Heteropus** (Ar.) ventricosus.

- Heteropus (Col.)** africanus, crocipes, holosericeus, picipes, ventralis.
Heteropus (Hem.) lefebvrei.
Heteropus (M.) albogularis.
Heteropus (Orth.) africanus.
Heteropus (R.) fuscus, peroni.
Heterorhina algoensis, amoena, anthracina, bengalensis, bicornis, bicostata, biguttata, bimacula, childreni, confusa, cuvera, decora, dives, elegans, flavipennis, glaberrimus, hopei, induta, jucunda, laeta, mac leayi, nigratarsis, olivacea, ornata, peteli, porphyretica, punctatissima, sinuatocollis, smaragdina, suavis, swanzyana, tibialis.
Heterorhynchus olivaceus.
Heterornis dauricus, elegans, malabaricus, melanoptera, nipalensis, ruficollis, senex.
Heterosaurus neocomiensis.
Heteroscelis dentipes, parallelus, reticulatus, schroetteri, servillei.
Heteroschoinus albovarius.
Heterosoma collata.
Heterospilus imperator, striatellus.
Heterostegina antillarum, costata, depressa, reticulata, simplex, suborbicularis.
Heterosternus buprestoides.
Heterostoma (G.) semitecta.
Heterostoma (Myr.) cribrifera, elegans, fasciata, flava, fulvipes, megacephala, platycephala, rapax, scabriventris, spinosa, spinulosa, squalidens, sulcicornis, sulcidens, trigonopoda.
Heterostoma (Verm.) echinatum.
Heterostomis analis, lacordairei.
Heterostomum helicis asperae, helicis pomatiae, limacis, limnaei, ovatum.
Heterostylum flavum.
Heterotarsus tenebrioides.
Heterothops binotatus, bissimilis, holmensis, kirbiellus, limbatus, praevious, quadripunctatus.
Heterothrops exilis, nitens.
Heterotis adansonii, ehrenbergi, niloticus.
Heterotoma (Hem.) cinctus, crinicornis, oblongus, pulverulenta, spissicornis.
Heterotoma (Thys.) acinaciformis, chlorata, cincta, cristallina, flavescens, grisea, livida, musci, pulchricornis, quadripunctata, septemguttata, vaga, villosissima.
Heterotomus atricornis, magnicornis, spissicornis.
Heterotricha hirta.
Heterotriton ingens.
Heterotropis equestris, horrida, marmoratus.
Heteroura androphora*.
Heterura sylvana.
Heterusia aedea, conduplicaria, edocla, quadruplicaria, risa.
Hetoemis juglandis.
Hetrodes abortiva, guyoni, horridus, militaris, pupa, spinulosus. *Vide et Heterodes.*
Hetroxys aponius, dimidiatus, fuscescens, invenustus, macromerus, praepileus, scenicus, stenogaster.
Heusimene fimbriana.
Hexabanchus (Nud.) adamsi, laciniatus, marginalis, praetextus, sandwichensis, sanguineus, sanguinolentus.
Hexabanchus (P.) lichtensteini.
Hexacantha clavipes, sexdentata.
Hexacanthus macrocephalus.
Hexacentrus horridus, plantaris, unicolor.
Hexacotyla lapridis, ocellatum.
Hexacrinus depressus, macrotatus, melo, pentangularis.
Hexagonia apicalis, kirbyi, terminata.
Hexagrammus asper, stelleri.
Hexamera arenicola.
Hexamita inflata, intestinalis, nodulosa.

- Hexanchus** griseus.
Hexaphyllum aequinoxiale, brasiliensis.
Hexaphyllus pontbrianti.
Hexaplex anatomica, foliacea, fusca, ovata, punctuata, tenuis.
Hexaprotodon anisiperus, dissimilis, megagnathus, platyrhynchus, sivalensis.
Hexapus sexpes.
Hexarthrus buquetti, parreyi, rhinoceros.
Hexathiridium integerrimum.
Hexathyridium affine.
Hexatoma (Dipt.) bimaculata, nigra.
Hexatoma (Hem.) marginalis.
Hexeterus punctatus.
Hexodon hopei, kirbyi, montandoni.
Hexona parasitica.
Hexuropteris cupidina, endymiaena.
Heza binotata.
Hians capensis, indicus, pondiceriana.
Hiatella arctica, biaperta, interlineata, lancea, minuta, monoperta, oblonga, rugosa, striata.
Hiaticula annulata, azarae, bicincta, bifasciata, cantiana, curonica, falklandica, geoffroyi, innotata, marginata, meloda, minor, monacha, mongola, nigrifrons, novaseelandiae, ruficapilla, semipalmata, subrufina, torquata, tricoloris, trifasciatus, vocifera, wilsoni.
Hiatula lamari, maculosa, pallida, striata.
Hibernia aceraria, aescularia, aurantiaria, bajaria, capreolaria, connectaria, defoliaria, leucophaearia, progemmaria, prosapiaria, rupicapraria.
Hibernula caput medusae.
Hibolithes hastatus.
Hiella orbigny.
Hieraetus pennata.
Hieraconyx abbreviatus.
Hierax caerulescens, eulmus, erythrogenys, fringillarius, malayensis.
Hierococcyx leucolophus, poliocephalus, sparveroides, vagans.
Hierofalco candicans, cinereus, groenlandicus, islandicus, sacer.
Hieroptera abradonensis.
Higina fasciata.
Hilara abdominalis, aethiops, algira, anomala, bares, bistriata, brevivittata, canescens, chorica, cilipes, cinerea, clypeata, fasciata, femorella, flavipes, fulvipes, fuscipes, gallica, globulipes, griseola, hirtula, infaus, infusca, interstincta, litorea, longirostris, longivittata, lugubris, lurida, manicata, matrona, melanocephala, migrata, minuta, modesta, nana, nigrina, nigratarsis, nitidula, niveipennis, obscura, pilipes, pilosa, pinetorum, pruinosa, quadrivittata, rufipes, scotica, spinimana, spinipes, squalens, sturni, sublineata, tenella, tenuinervis, thoracica, transfuga, trigramma, univittata.
Hilarianus anguliceps, concolor, ovalis, punctaticollis, rufinus, suboblongus, suturalis, uniformis.
Hiletus versutus.
Himantarium fusatum, gabrielis, laevipes, rugulosum.
Himantidium parallelum.
Himantolophus groenlandicus.
Himantophorus charon.
Himantopoda truncata, vulgaris.
Himantopterus fuscinervis.
Himantopus albicollis, asiaticus, atropiterus, brasiliensis, grillarius, larus, leucocephalus, leucurus, longipes, melanopterus, melanurus, melas, meridionalis, mexicanus, minor, nigricollis, novae zelandiae, palmatus, podura, rufipes, viridis, vulgaris.
Himatidium aeneum, aereum, albidum, argus, armatum, assimile, atrocoeruleum, aurimaculatum, barbatum, basale, bicolor, bicornae, bidens, bipustulatum, bis-trinotatum, brunneum, carbonarium, castaneum, chalybeum, cicatricosum, coeruleum, comptum, concolor, cribratum, cupreum, cyaneum, cyanipenne, decempustulatum,

decorum, denudatum, discoideum, flavicorne, flavoguttatum, foveolatum, fulvum, gibbosum, gibbum, humerale, immaculatum, impressum, impurum, inaequale, irroratum, lanciferum, laterale, laticolle, lunatum, marginatum, marginemaculatum, marginicolle, metallicum, multipunctatum, nervosum, nigricolle, nigricorne, nigripenne, nigromaculatum, nigropunctatum, nimbatum, obcordatum, oblongum, obsoletum, octomaculatum, oculatum, oxydatum, pallipes, pellucidum, platynodum, porosum, pugnatum, punctatissimum, punctulatum, quinquepunctatum, resplendens, rubrum, ruiventre, rufomarginatum, rufo-punctatum, rufo-reticulatum, rufum, rugosum, sex-pustulatum, spinarum, spinifex, strigatum, subreticulatum, suturale, testudinarium, thalassinum, tigrinum, triodon, triste, truncatum, turritum, variabile, variegatum, venustum, violaceum. *Vide et Imatidium.*

Himatione chloris, maculata, sanguinea.

Himatismus mandibularis.

Himera pennaria.

Hinda designata.

Hinea mollis.

Hinia laevigata, minuta, reticulata.

Hinnita gigantea, nuttalli, poulsoni.

Hinnites blainvillei, brussoni, comta, corallinus, coralliphagus, cortesianus, cortesyi, crispus, defrancei, deshayesi, dubuissoni, dujardini, giganteus, heliodora, inaequistriatus, irregularis, laeviuscula, latus, leufroyi, leymeriei, ostreiformis, pamphilus, paniscus, planatus, psyche, pusio, schlottheimi, sepultus, sinuosus, sublevatus, sulcatus, tenuistriatus, tuberculosus, velatus.

Hinnus proboscidea.

Hinulia australis, dussumieri, elegans, essingtoni, fasciata, gerrardi, greyi, inornata, labillardieri, naevia, ornata, reevesi, richardsoni, sancta, taeniolata, tenuis, whitei.

Hiodon chrysopsis, clodulus, tergus.

Hipio constantia, leda.

Hipistes fasciatus.

Hipocrita abrupta, abscissa, auxo, caricae, catenulata, jacobaeae, ligula, megaera, monilis, mononeura, pylotis.

Hipogymna morio.

Hipolimnas alcmene, alimena, antigone, antilope, eriphile, iphigenia, manila, perimele, pipileis, porphyria, velleda.

Hiponix panormitana.

Hiposcritia pandione.

Hippa achiria, adactyla, asiatica, caerulea, emerita, eremitus, talpoida, testudinaria.

Hippagus acuticostatus, cardiiformis, isocardioides, novemcostatus, rudis.

Hippalectryo indicus.

Hippalimius acuta, astrophorus, bronni, capitatus, clavatululus, clavatus, conicus, conoideus, corallinus, cornutus, cylindricus, cymosus, elegans, flabellatus, fungoides, furcata, infundibuliformis, intermedius, latecostatus, mamilliferus, marginatus, micropora, milleporaceus, moreanus, mosensis, multidigitata, neocomiensis, neptuni, normaniana, oceani, pilula, pisiformis, proliferus, radiciformis, ricordeanus, roissyi, rugosus, socialis, subcaespitosus, submarginatus, tetragonus, tombeckianus, tuberosus, verrucosus. *Vide et Hyppalimius.*

Hipparchia abeona, actaea, adrasta, aegeria, aello, afer, alcyone, alecta, allionia, amalthea, amarillis, andromacha, andromeda, anthe, anthelea, arachne, arcana, arcanoides, arete, arethusa, arge, aristaeus, asterope, banksi, beroe, blandina, bootes, bore, briseis, bryce, bubastis, cassiope, ceto, circe, clotho, cluena, clymene, cordula, corinna, crambis, cyclopius, davus, dejanira, demophile, disa, discoidalis, dorus, egeria, embla, epiphron, epistygae, eriphyle, eudora, eumea, eumenis, euryale, eversmanni*, evias, fatua, fauna, fidia, galathea, goante, gorge, gyaea, hampstediensis, hermione, hero, herta, hiera, hippodice, hippolyte, hippomedura*, hippomedusa*, hyperanthus, ianira, ida, ines, iphis, janira, jolaus, lachesis, larissa, leander, leda, lefebvrei, ligea, lyllus, maera, makuta, manto, mastor, medea, medura, medusa, megaera, melampus, melas, meone, mnestra, neomyris, neoridas, nephele, nereis, nerine, norna, oedipus, oeme, oenus, orpheus, pamphilus, pasiphae, pelopea, phaedra, pharte, philea, phorcys,

- phryne, pilosellae, pisidice, podarce, polydama, pontica, pronoe, proserpina, prunata, psodea, pyrrha, rhamnusia, rossi, roxelana, rumina, satyrion, sedakovi, semele, semidea, statilinus, stellera, stygne, styx, subhyalina, sunbecca, syllius, tarpei, telmessa, thelephassa, thyriss, titea, tithonus, tyndarus, urda, vernarius, virbius, zangis.
- Hipparchus** clorarius, cythisarius, papilionaria, viridatus.
- Hipparion** diplostylum, mesostylum, prostylum.
- Hipparionix** consimilis, proximus, similis.
- Hippasteria** abbensis, cornuta, equestris, europaea, johnstoni, plana.
- Hippeutis** lenticularis.
- Hippichthys** heptagonus.
- Hippobdella** lacertina, luctuosa, sanguisuga.
- Hippobosca** antilopes, australasiae, bipartita, camelina, capensis, egyptiaca, fossulata, francilloni, longipennis, maculata, metallica, moschi, nigra, orientalis, rufipes, sitiens, variegata, vespertilionis, viridis.
- Hippocampus** abdominalis, antiquorum, antiquus, brevirostris, comes, coronatus, foliaceus*, foliatus, fuscus, gracilissimus, heptagonus, hippocampus, hudsonius, mannulus, ramulosus, rosaceus, tetragonus, trimaculatus, vulgaris.
- Hippocardia** hibernica.
- Hippocephalus** decagonus, quadricornis, superciliosus.
- Hippoehenes** macropterus.
- Hippocrene** brittanica, bugainvillei.
- Hippocrenes** bonellii, columbata, fissurella, fortisi.
- Hippodamia** connexa, convergens, extensa, glacialis, lecontei, lunatomaculata, parenthesis, quindecim-maculata, quinquesignata, scalaris, septem-maculata, signata, sinuata, tredecim-punctata, vittigera.
- Hippoglossoides** limanda.
- Hippoglossus** arnoglossus, bosci, brasiliensis, citharus, dentex, goniographicus, hippoglossus, intermedius, kingi, limandoides, maximus, olivaceus, orthorhynchus, ponticus, septentrionalis, vulgaris.
- Hippolais** alticeps, elaica, icterina, italica, media, olivetorum, planiceps, salicaria, swainsoni.
- Hippolite** aculeata, affinis, armata, borealis, cornuta, layi, palpator, polaris.
- Hippoloetes** rufa.
- Hippolyte** carneus, costata, cranchi, crassicornis, ensiferus, fabricii, gaimardi, gibba, gibberosus, gibbosus, gracilipes, inermis, leachi, lentiginosus, loveni, lygdamis, macandreae, macilenta, macrocheles, marmoratus, mauritanicus, melis, microceras, moori, mutila, paludosa, pandaliformis, phippi, polaris, prideauxiana, pusiola, quoyanus, recurvirostris, retzii, rubra, serratus, smaragdina, sowerbyi, spinicaudus, spinifrons, spinus, subula, tenuirostris, thompsoni, turgida, varians, ventricosus, virescens, viridis, vittata, wurdemanni. *l'ide et Hippolyte.*
- Hippolytes** variegatus.
- Hippolytus** brullei.
- Hipponix** acuta, australis, cornucopia, elegans, favaniella, foliacea, imbricata, interrupta, listeri, radiata, subrufa, suturalis, ticaonica.
- Hipponee** gaudichaudi.
- Hipponyx** barbata, borealis, cornucopia, dilatata, dunkeriana, granulata, interrupta, mitrata, mitrula, opercularis, parasiticus, pygmaea, radiata, sowerbyi, squamiformis.
- Hippopodium** angustatum, bajocense, corallinum, cottaldinum, gibbosum, luciensis, ponderosum.
- Hippopodius** luteus.
- Hippopotamus** abyssinicus, africanus, anisoperus, antiquus, australis, capensis, dissimilis, dubius, hyodon, iravaticus, liberiensis, macrodon, magnus, major, maximus, medius, megagnathus, minimus, minor, ninus, minutus, namadicus, palaeindicus, platyrhynchus, senegalensis, sivalensis, typus.
- Hippopsis** camuripes, dasycera, filum, limniscatus, lineolatus, pradiieri.
- Hippopus** brassica, cymbularis, maculatus, pennicornis.
- Hipporhinus** abruptecostatus, albicans, albicinctus, albipes, albolineatus, appendiculatus, binodis, bituberculatus, bulbifer, caffer, callidus, calvus, capensis, capicola, capistratus,

carinirostris, clavus, condecoratus, conirostris, constrictus, contortus, corpulentus, costatus, curtus, delectans, dregeri, duponti, eckloni, ferus, frontalis, globifer, granatus, granicollis, granulatus, granulosus, gyllenhali, herii, infacetus, laciniosus, longulus, mammillatus, misumensis, muricatus, nivosus, nodulosus, obesus, partitus, pastillarius, perfunctorius, pilularius, pollinarius, porculus, punctirostris, pygmaeus, quadridens, quadrilineatus, quadrinodis, quadrispinosus, recurvus, rhampastus, rubifer, rubrospinosus, rugirostris, seriatus, seriegranosus, serienodosus, seriespinosus, setiferus, setulosus, severus, sexvittatus, sparmani, spectrum, spiculosus, spinicollis, spinifer, squalidus, subcordatus, sublineatus, subvittatus, thoracicus, tribulus, tuberifer, tuberosus, turpis, vafer, verrucosus, verrucosus, wahlbergi.

Hipporhynchus annulatus, equestris.

Hipposideros apiculatus, armiger, ater, atratus, bicolor, deformis, diadema, elongatus, fulvus, galeritus, insignis, lankadiva, larvatus, murinus, nobilis, penicillatus, pygmaeus, speoris, templetoni, tridens, vulgaris.

Hippotherium gracile, nanum.

Hippothoa cassiterides, catenularia, dentata, divaricata, elliotae, lanceolata, sica, smithi, tuberculum.

Hippotigris antiquorum, burchelli, campestris, isabellinus, quacha, zebra.

Hippotion celerio, ocys.

Hippotragus equina.

Hippurites agariciformis, amplexus, austiniensis, basaltes, bioculata, blumenbachi, brevis, canaliculata, chilensis, contortus, coralloides, cornucopia, cornu pastoris, cornu vaccinum, costulatus, curva, cyathus, cynthiformis, dentata, depressa, dilatatus, ellipticus, espallaciana, falcatus, fistulae, fitoloides, fortisi, galloprovincialis, germari, gratelupi, hoeninghausi, inaequicostatus, jouanneti, lapeirousei, lata, mortoni, moulini, organisans, pusillus, radiosa, raphanister, renovatus, requieniana, resecta, rugosa, sabinae, semicostellata, striata, subdilatata, sublaevis, sulcata, texana, toucasiana, tumidus, turgida, turricula, turriculatus, undulatus. *Vide et Hypurites.*

Hipudaeus torquatus. *Vide et Hupudaeus et Hypudaeus.*

Hiranetis membranacea.

Hiria linogrisea.

Hirmoneura atra, brevisrostris, chilensis, exotica, longirostris, maculipennis, nigripes, nigriventris, novae hollandiae, obscura, rosea.

Hirsuta fritillella.

Hirtaea livida.

Hirtea albipennis, clavipes, collaris, ehippium, ferruginata, festinans, fulvicollis, fulvipes, funebris, hyalina, johannis, lacteipennis, leucoptera, marci, nigriventris, praecox, ruipes, umbellatarum, varipes, venosa, vernalis.

Hirudella angusta, tenuis.

Hirudinaria alba*.

Hirudo aegyptiaca, albo-punctata, alpina, arcuata, ardeae, areolata, astaci, atterima, atomaria, blochi, cephalota, circularis, coccinea, decora, fasciata, fasciolaris, fusca, galearia, granulosa, gulo, japonica, lacertina, laevis, lateralis, limbata, luctuosa, manillensis, marginata, marmorata, martinicensis, mysomelas, nigra, ohienis, oniscus, oscillatoria, paludosa, papillosa, parasita, parasitica, provincialis, scabra, senegalensis, spinulosa, stagnorum, swampina, tricolor, trioculata, trochati, troctina, tuba, unicolor, venaesector, verbana, verrucata, viridis, vittata, vorax.

Hirunda phenicephala.

Hirundapus nudipes.

Hirundella hirundinalis, quadricuspis.

Hirundinea bellicosa.

Hirundo abyssinica, agrestis, albicollis, albigularis, albiventer, albiventris, alpestris, japonica, americana, andecola, aonalaskensis, ariel, atra, atrocaerulea, bicolor, boissonneaui, brevicaudata, brevisrostris, caerulea, cabirica, caprimulgus, caudacuta, chalybaea, chilensis, chinensis, ciris, clivicola, collaris, concolor, coronata, cristata, cyanoleuca, cyanopyrra, dimidiata, domestica, domicola, erythropygia, euechrysea, fenestra, filicaudata, filifera, flavigastra, fossilis, frontalis, fucata, fuciphaga, fulgula, fulva, fusca, gouldi, griseopyga, gularis, holomelas, hortensis, hyemalis, hyperythra,

inornata, jewan, jugularis, klecho, korthalsi, lagopoda, leucogaster, leucopyga, leucorhoa, leucorrhoea, leucosoma, leucosternus, longipennis, ludoviciana, lunifrons, maculosa, martinica, melanopyga, melanocrissus, melanogaster, melanoleuca, minuta, modesta, moxena, mystacea, nigra, nigricans, nigrita, nipalensis, opifex, oxyura, pacifica, paludicola, palustris, pascuum, patagonica, pelagica, philippensis, platensis, poeciloma, prasina, pristopecta, pyrrholaema, pyrrhonota, republicana, riocouri, robine, rufa, ruficeps, ruficollis, rufifrons, rufocollaris, rupicola, rutila, savignyi, scapularis, semirufa, serripennis, smithi, spilodera, subocata, taitensis, thalassinus, unicolor, vanikorensis, velox, versicolor, virescens, viridis, zonaris.

Hispia acanthina, aculeata, aenea, affinis, albipennis, algeriana, aptera, ariadne, armata, armigera, atra, atricornis, arundinis, augustula, axillaris, bacchus, baucis, bellicosa, bicolor, bigeneris, bipartita, calcarata, capitata, carinata, castaneae, centetes, cincta, cinnamomeus, cladophora, coccinea, collaris, compressicornis, cornuta, coronata, cruenta, cyanea, cyanipennis, cyanipes, dilatata, dimidiata, dubia, echidna, echinata, elevata, erebus, erinaceus, excavata, fabricii, fasciata, flava, flavipes, fulvicollis, geminata, haemorrhoidalis, hastata, hecate, humeralis, hystrix, inaequalis, inermis, integra, jaenea, lateralis, leseleurtii, lineata, lineatocollis, marginata, marginicollis, maura, melas, metallica, minuta, monoceros, morio, mucronata, multispinosa, nigra, nigrita, nigritula, nigrofasciata, notata, numida, obsoleta, occator, pallens, pallida, pallipes, pectinata, perroteti, petiti, philemon, plicatula, pluto, porcata, porosa, porrecta, praesta, pulchella, pulchra, quadrata, radula, ramosa, rosea, rotundata, rubella, rubra, rubricollis, ruficollis, rufogaster, saltatrix, scabra, scapularis, scutellaris, sericea, serratula, serripennis, speciosa, spinigera, spinosa, spinulosa, subspinosa, sulcicollis, suturalis, thoracica, trilineata, trimaculata, truncata, variegata, viridiaenea, viridis, vittata, xanthomela, xerene.

Hispalis dilatatus, mauritanica, viridulus.

Hispomorphia horrida.

Holoptychus hibberti.

Holopus rangi.

Holopyga amoenula, italica, nitidula.

Holoscelis goryi, laevigatus.

Holoscolia forticella.

Holoscytus atra.

Holosteus esocinus.

Holostoma (Polyz.) contingens.

Holostomis altaica. *Vide et Olostomis.*

Holostomum alatum, auritum, brevicaudatum, coniferum, cornutum, cuticola, denticulatum, erraticum, excavatum, exiguum, gracile, isostomum, longicolle, macrocephalum, microstomum, patagiatum, pileatum, podomorphum, serpens, spathaceum, spatulata, spatulatum, sphaerocephalum, sphaerula, tenuicolle, urnigerum, variabile.

Holothalassis papilionaria.

Holothrips aculeata.

Holothuria aethiops, amnis, agglutinata, albifasciata, ananas, appendiculata, atra, aurea, brevis, briareus, brunnea, catanensis, cavolinii, chrysacanthophora, columnae, crocea, cucumer, depressa, digitale, dissimilis, doliolum, drummondi, dubia, eaouari, edulis, fasciata, fasciola, flammea, flava, forskalii, fucicola, fuliginosa, fulva, fuscocinerea, fuscopunctata, fusiformis, glaberrima, glutinosa, grandis, guamensis, hilla, hydriformis, hyndmani, intestinalis, lactea, lapidifera, hilla, lineolata, littoralis, lucifuga, lutea, maculata, mamillata, mammata, mauritiana, millaris, monacaria, monotuberculata, montagui, neilli, nigra, obscura, oceanica, ophidiana, ovata, pellucida, pentagona, peruviana, petagnae, planciiana, poli, punctata, purpurea, pusilla, quadrangularis, radackensis, radiosa, reciprocan, rezahis, sanctori, scabra, sordida, spinosa, squamosa,

- stellati, subrubra, tentaculata, tetraquetra, tigris, timama, triquetra, tuberculosa, umbrina, viridis.
- Holothuridium** papillosum.
- Holothyus** coccinella.
- Holotricha** plumbea, sinensis.
- Holotrichia** consanguinea, coromandeliana, longipennis, perotteti, puberina, reynaudi, sculpticollis, serrata, sinae.
- Holotrichius** lividus, tenebrosus, testaceus.
- Holotrichus** cyrilli.
- Holotrochus** crassicollis, cylindrus, volvulus.
- Holotropis** herminieri, microlophus.
- Holozoa** cylindrica.
- Homacanthus** arcuatus, macrodus, microdus.
- Homaeocerus** bicolor, insubidus, nigricornis, plagiat. *Vide et Homoeocerus.*
- Homaeogryllus** xanthographus.
- Homaeosolen** ramulosus.
- Homaeosoma** eluviella. *Vide et Homoeosoma.*
- Homala** polita.
- Homalenotus** monoceros, quadridentatum.
- Homalinotus** colossus, deplanatus, indus.
- Homalirhinus** rufostris.
- Homalisus** abdominalis, affinis, angusticollis, apicalis, aurora, axillaris, bicolor, bifasciatus, blattinus, cinnamomeus, collaris, crenatus, diaphanus, dilatatus, discicollis, fasciatus, flavicornis, flavifrons, grandis, humeralis, laevigatus, laticornis, limbatus, macrocerus, marginalis, marginellus, minutus, moestus, nervosus, picipennis, platycerus, reticulatus, rubens, sanguineus, scissiventris, scutellatus, strigatus, telephorinus, tenellus, textilis, unifasciatus, ustulatus.
- Homalocaris** varia.
- Homalocephala** albitarsis.
- Homalocerus** acuminatus, lyciformis, nigripennis.
- Homalochilus** niger, punctatostriatus.
- Homalomorpha** castanea.
- Homalonotus** (Col.) ahrendi, conspergatus, coriaceus, cyanicollis, humeralis, hystrix, jamaicensis, platynotus, porosus, squamulosus, validus.
- Homalonotus** (Cr.) armatus, atlas, bisulcatus, crassicauda, decaji, delphinocephalus, giganteus, gigas, greeni, herculeanus, herschelli, knighti, ludensis, obtusus, ophioccephalus, pradoanus, punctatus.
- Homalonotus** (R.) gaimardi.
- Homaloplia** alternata, pruinosa, substriata.
- Homalops** festivus, fuscipes, maximus, mongolicus, obscuricollis, punctatus, vittatus.
- Homalopsis** aeneus, aer, angulatus, australis, buccatus, carinicaudus, cerberus, decussata, elapiformis, enhydria, erythrogrammus, hardwicki, herpeton, horridus, hydrina, jara, leopardina, leucobalia, martii, moluroides, molurus, monilis, obtusatus, olivaceus, perlatus, plicatilis, plumbea, pytha, reinwardti, rhinchops, rufotaeniatus, schneideri, sieboldi.
- Homaloptera** fasciata, javanica.
- Homalopteris** heteroproctus, tristis.
- Homalorhinus** lutosus, squamosus, tristis.
- Homalosoma** arctiventris, punctatus.
- Homalota** aegra, aemula, aequata, alpestris, alternata, ambigua, analis, anceps, angularis, angustata, angustula, annularis, arcana, aterrima, atramentaria, atratula, atricapilla, atricilla, attenuata, autumnalis, bicolor, biguttula, bisulcata, boleti, borealis, brevicollis, brevicornis, brunnea, caesula, callicera, carbonaria, castanea, cauta, celata, cinctella, cingulata, cinnamomea, circellaris, clancula, clavifer, clientula, concolor, conformis, confusa, contemta, crassicornis, curticollis, debilicornis, debilis, decipula, depressa, dichroa, didyma, dimidiatus, discors, divisa, dubitans, elongatula, erythro-cera, eucera, excavata, exilis, femoralis, fervidula, festinans, flaveola, flavicans, flavipennis, flavipes, forticornis, fossigera, fracticornis, fulvicollis, fulvipennis, fungi,

fusca, fuscipes, gagatina, gemina, gracilenta, gracilicornis, graminicola, grandis, granigera, granosa, granulata, gregaria, haemorrhoea, haemorrhoidalis, hepatica, hirta, hirtella, hospita, hypnorum, illota, immersa, importuna, impressa, impressifrons, incana, inconspicua, indigena, indocilis, inquinula, intrusa, labilis, laesicollis, laevigata, languida, laticollis, linearis, livida, lividipennis, longicornis, longipennis, longula, lugens, lunata, lurida, luridipennis, luteicornis, luteipes, luteola, macella, maculenta, major, mannerheimi, marcida, maritima, melanocephala, melanura, minutissima, modesta, morio, morosa, myops, nigerrima, nigrella, nigriceps, nigrifrons, nigrina, nigripennis, nivalis, notha, obfusca, oblita, oblonga, obscura, obsoleta, occulta, ochracea, orbata, orphana, pagana, pallens, pallescens, pallidula, pallipes, parva, pedicularia, pertyi, picipennis, picta, plana, planata, planaticollis, planiuscula, polita, pressa, procidia, propinqua, pubescens, pulicaria, pulla, quisquiliarum, ravilla, recondita, reyi, rigidicornis, ripicola, rubicula, rubicollis, rubicornis, rufoipes, rufula, rugulosa, scapularis, sculpta, semilutea, seminigra, semirufa, sericans, silacea, socialis, sodalis, sordidula, spelaea, stigma, stricta, subida, subrugosa, subsinuata, tabida, taeniata, talpa, tenella, tenera, tenuis, terminata, testaceipes, testudinea, tibialis, torrentium, trimaculata, umbonata, ustulata, vaga, validicornis, varia, velata, venustula, vernacula, vestigialis, vestita, viduata, vilis.

Homalotrichus fuscus, impressicollis, luteipes, obscurus, striatus.

Homalura flava, grisea, maculipennis, plumbella, tarsata, vittata.

Homarus americanus, blainvilliei, bosci, capensis, cottaldi, cuvieri, desmaresti, edwardsi, fabricii, gammarus, guerini, herbsti, lamarcki, latreillei, linnei, lucasi, michelini, orbigny, sowerbyi, vulgaris.

Homea banksi.

Homelys major, minor.

Homeosaurus neptunus. *l'ide et Homoeosaurus.*

Homethes elegans.

Homo aethiopicus, americanus, arabicus, australasicus, bifstichius, cafer, caucasicus, colombicus, gallicus, germanicus, hottentotus, hyperboreus, indicus, japeticus, melaninus, monstrosus, neptunianus, patagonus, pelagius, scythicus, sinicus, slavonicus, yacanaeus.

Homochroa aenealis, furvalis, margaritalis, mitralis.

Homocyrtus dromedarius.

Homodactylus africana.

Homodon cephalus, georgianus, truttaceus.

Homoeocerus angulatus, biguttatus, diversicornis, magnicornis, minimus, nigripes, puncticornis, rufipennis. *l'ide et Homaeocerus.*

Homoeogamia mexicana.

Homoeomorphus rufipes.

Homoeosaurus maximiliani, neptunius.

Homoeosoma genuina, vagella. *l'ide et Homaeosoma.*

Homoeotelus terminalis.

Homola barbata, cuvieri, spinifrons, spinipes, spinosa.

Homolus auduini.

Homomya alsatica, angulata, compressa, gibbosa, gracilis, hirtulana, obtusa, ventricosa.

Homonoa aliena, bilinea, fornicata, longimana, pannosa, patrona, praecisa.

Homonota guidichaudi.

Homonotus (Hym.) algiericus, fusciventris.

Homonotus (P.) dorsalis.

Homonyx chalcus, cupreus, planicostatus.

Homophoeta abbreviata, albicollis, clerica, curialis, fulcrata, inaequalis.

Homophron limbatus.

Homopneusis frondosus.

Homopterus westermanni.

Homoptilura sabini, undulata.

Homopus (Ar.) hypudaei, sciurinus.

Homopus (R.) areolatus, signatus.

Homosaurus maximiliani.

Homothés guttifer, micans.

Homothorax flemingi.

Homotoma ficus.

Hoplacephala tessellata.

Hoplegnathus maculosus.

Hoplia adpersa, ambigua, argentea, argyria, arthritica, atomaria, aulica, aureola, bicallosa, bi-lineata, bi-signata, brunnipes, capicola, caucasica, coerulea, crassipes, cribrella, debilis, defforata, dentipes, duodecimpunctata, elegantula, eversmanni, farinosa, fasciculata, ferrugata, festiva, flavipes, formosa, fulva, gemmata, glauca, glaucescens, graminicola, grisea, helvola, hungarica, irrorata, italica, kunzi, lepidota, limbata, lineata, luctuosa, margaritacea, marmorea, micans, minuta, modesta, monticola, moria, mucorea, nigrescens, nigripes, nodipennis, nuda, oblonga, ochracea, palustris, parvula, paupera, peroni, philanthus, pilosa, picolor, pollinosa, praticola, prunaria, pubicollis, pulverosa, pulverulenta, pulvisera, punila, puncticollis, quadriguttata, regia, retusa, rorrida, rufo-lutea, rupicola, sedecimpunctata, sedicolor, sesquilineata, sibirica, singularis, smaragdula, sordida, squamacea, squamifera, squamigera, squamosa, squarrosa, sublutea, sulphurea, trifasiata, tristis, tuberculata, variegata, viridula, vittata.

Hoplichnus quadrupedans.

Hoplichthys langsdorfi.

Hoplioderes spinipennis.

Hoplionota armigera, badia, bispinosa, echinata, erythrocatata, gemmata, horrida, luctuosa, marginata, ochracea, ochroleuca, pallens, pallescens, paradoxa, parallela, plicata, pulchella, quadricornis, quadrituberculata, semiviridis, serricosta, taeniata.

Hopliopsis fulvovestitus.

Hopliophora velutina.

Hoplismenus albifrons, albinus, bidentatus, cothurnatus, dimidiatus, errabundus, infastus, leucopygus, luteus, moestus, orbitatus, perniciosus, pictus, terrificus, unguatus, uniguttatus.

Hoplisoma punctata.

Hoplistes bispinosa, hortulanus, pomaceus.

Hoplistocerus refulgens.

Hoplistodera testacea.

Hoplistomerus serripes.

Hoplissus albidulus, arenarius, behni, cayennensis, ferrugineus, lacordairei, laticinctus, latifrons, punctuosus, quadrifasciatus, quinquecinctus, scutellaris, seminiger.

Hoplites adunca, gorgus.

Hoplitis meone, terrifica.

Hoplitopales lineatus, obliquatus.

Hoplitotrachelus reticulatus, spinifer.

Hoplitis fulvus, impressus, obliquus.

Hoplocercus spinosus.

Hoplochelus rhizotrogoides.

Hoploclerus biaculeatus.

Hoplocneme cinnamomea, hookeri.

Hoplodactylus duvaucelli, leachianus.

Hoplognathus maculatus, orientalis. *Vide et Oplognathus.*

Hoplonotus laminatus.

Hoploparia belli, gammaroides, longimana, prismatica.

Hoploparoxus pardalis.

Hoplophora (Ar.) ardua, carinata, crinita, decumana, ferruginea, globosa, laevigata, lentula, longula, lucida, pertusa, straminea, stricula, testudinea.

Hoplophora (Col.) cinerea, corrossa, cribrum, gigantea, granadensis, lineata, ornata, punctum, sanguinosa, tuberculata, variegata, vicina, vitrata.

Hoplophora (Hem.) monogramma, pertusa, quadrilineata, rectinata, sagittata, sordida, triangulum, truncaticornis, turrita, valida, venosa.

Hoplophorus (M.) clauseni, euphractus, minor, selioi.

Hoplopodion cocteau, garnoti, platyurum, rueppelli.

- Hoplopterix** antiquus.
Hoplopterus armatus, cayanus, coronatus, inornatus, malabaricus, myops, persicus, ruficollis, speciosus, spinosus, spixi, tectus, tricolor, ventralis.
Hoplopteryx denticulatus.
Hoplopus atriplicis.
Hoplopygus binneyi.
Hoploscelis armata, auriventris, crassipes, fuliginosus, grossipes, hylax, lucanoides, mutica.
Hoplosternus laevipennis, nepalensis, nitidicollis.
Hoplostethus cornutus, mediterraneus.
Hoplostomus cribosus, fuliginosus.
Hoplothrips aculeata*, corticis*, flavipes, statices.
Hoporina croceago.
Horama pretus.
Horatoma parvulum.
Horeites brunnifrons, pollicaris, schistillatus.
Horia apicalis, maxillosa, rufa, sanguinipennis, senegalensis.
Horiola ferruginea, lineolata, picta.
Horisme aemulata, tersata.
Horismenus elinus.
Hormetica laevigata, monticollis, scrobiculata, tuberculata, ventralis.
Hormius dimidiatus, moniliatus, piciventris, rubiginosus.
Hormocerus reticulatus.
Hormopeza oblitterata.
Hormotrophus aureomixtus.
Hornera affinis, americana, andegavensis, biloba, biseriata, carinata, crassa, crispa, decipiens, edwardsi, elegans, fragilis, frondiculata, gracilis, hippolithus, laevis, lateralis, oculata, opuntia, radians, radiata, reteporacea, seriatopora, serrata, striata, subannulata, tubulosa, verrucosa, versipalma.
Horonotus daedalus.
Horornis flaviventris, fortipes, fulgiventis, fulviventris.
Hortholus americanus.
Hortolus biddulphi, convolvans, giganteus, ibex, perfectus.
Hortulanus glacialis, montanus.
Hortulia natalensis, regia, sebae.
Hosia flavescens, spinulosa.
Hostilina praecox.
Hotea triangulum.
Hotinus candelarius.
Hotrichus denudatus.
Houbara macqueeni, undulata.
Houlema obscura.
Hubneria acronita, alacris, apicalis, arvicola, caesia, campestris, cruceti, cuculliae, distincta, diversa, duponcheli, festiva, fuscipennis, gagatea, hilaris, nigripalpis, nigripes, nigrita, nitida, pallipes, plusiae, rustica, subaenea, velox, vivida.
Huechys crocea, incarnata, octonotata, phaenicura, philaemata, sanguinea, splendidula, testacea, trabeata.
Huenia dehaani, frontalis, proteus.
Hughea calendula, carailbeorum, hemprichi, savignyi.
Huhua nipalensis, pectoralis.
Humatrix clunipes.
Humilis damouri, heberti, legalli, martinsi, viquesneli.
Hupudaeus borealis, gregarius, paludosus, terrestris. *Vide et Hipudaeus et Hypudaeus.*
Huro barbatus, nigricans.
Huronia bigsbyi, obliqua, portlocki, spheroidalis, stokesi, turbinata, vertebralis.
Hurria bilineata, carinata, pseudoboiga, schneideriana.
Hurriah sanguiniventer.
Huso ichthyocolla.

Hyades indra, javius.

Hyadina guttata, scutellata.

Hyaena arvernensis, brevivirostris, brucei, brunnea, capensis, crocuta, cuvieri, fossilis, fusca, gigantea, hipparionum, hyaena, intermedia, maculata, neogaea, odorifera, orientalis, picta, prisca, varicolor, rufa, spelaea, unicolor, varicolor, villosa, vulgaris. *Vide et Hyena.*

Hyaenarctos sivalensis.

Hyaenodon brachyrhynchus, leptorhynchus, minor, parisiensis, requieni.

Hyalaea aciculata, affinis, aquensis, australis, balantium, caudata, cornea, corniformis, cuspidata, depressa, ecaudata, elongata, flava, forskahli, gibbosa, globulosa, inflexa, labiata, laevigata, laevis, lanceolata, limbata, longirostra, longirostris, mucronata, papilionacea, peroni, pyramidata, quadridentata, retusa, rostrata, rugosa, striata, subula, taurinensis, teniobranchea, tricuspidata, tridentata, trispinosa, truncata, uncinata, virgula.

Hyale orbignyi, pontica, tridentata.

Hyalea cornea, gibbosa, gibbosa [Benoit (*non* Rang), Farfalletta, I. 1842 (1843), 171], melly, orbignyi, rangi, tridentata, vaginella.

Hyalina pelucida.

Hyalinus ventralis.

Hyalonima aegyptium, anaticum, devium, dromedarii, excavatum, fabricii, forskaoli, grossum, hispanum, impressum, latum, lusitanicum, marginatum, rufipes, syriacum, truncatum.

Hyalomya albipennis, atra-purpurea, basalis, carbonaria, corinna, hamata, hyalipennis, nebulosa, obesa, pusilla, semi-cinerea.

Hyalomyia cinerea, fasciata, fuscipennis, obesa, pusilla, violacea.

Hyalonema sieboldi.

Hyalophora cecropia, promethea.

Hyalopteryx rufipennis.

Hyalosiphon verticillatus.

Hyalurga fenestrigera.

Hyalymenus dentatus, vespiformis.

Hyas (Col.) denticornis, flabellata, guttata.

Hyas (Cr.) aculeata, araneus, bufonias, coarctatus, serratus.

Hyas (R.) arborea, edwardsi.

Hyastenus sebae.

Hyatella carbonaria.

Hybalus dorcas.

Hybauchenia nodulosa.

Hybernia tiliaria.

Hyboclypus canaliculatus, elatus, gibberulus, marcou, stellatus.

Hybodus acutus, aduncus, angulatus, angustus, apicalis, appendiculatus, attenuatus, bassanus, bmarginatus, bronni, carbonarius, carinatus, concinnus, crassispinus, crassus, cristatus, curtus, cuspidatus, delabechei, dimidiatus, dispar, dorsalis, dubius, ensatus, fittoni, formosus, gracilis, grossiconus, grossispinis, hexagonus, homoprius, incurvus, inflatus, keuperi, laeviusculus, lawsoni, leptodus, longiconus, major, marginalis, medius, minor, mougeoti, obliquus, obtusus, ornatissimus, ornatus, orthoconus, pachyprius, pleiodus, plicatilis, polycyphus, polyprion, polyptychus, pusillus, pyramidalis, radix, raricostatus, regularis, reticulatus, rugosus, serratus, simplex, striatulus, strictus, subcarinatus, sublaevis, sulcatus, tenuis, tenuissimus, undulatus, vicinalis.

Hyboma (Col.) aequinoctialis, arrogans, brasiliensis, carinata, chalcea, cupreicollis, dromedarius, elevatum, erythroptera, furcatum, gibbosa, hyphena, lacordairei, laeve, orbignyi, rubripennis, submetallicum.

Hyboma (Lep.) strigosa, unicornis.

Hybonotus camelus, dromedarius, femoralis, globosus.

Hybos brunnipes, crassipes, dentipes, duplex, ferrugineus, flavipes, fumipennis, funebris, infuscatus, lechianus, luteus, marshamianus, muscarius, nervosus, piceus, pilipes, purpureus, quadricinctus, reversus, subjectus, thoracicus, triplex, vitripennis.

Hybosorus arator, brasiliensis, carolinus, discus, fossator, gibbus, hopei, humeralis, niger, orientalis, pinguis, rufulus, thoracicus.

Hybothorax graffii.

Hybris javanus.

Hybrizon latebricola, pubicornis.

Hycca macroptera.

Hycleus argentata, decemguttatus, distinctus, duodecimpunctatus, impunctata, mylabroides, ocellatus.

Hydargira limi. *Vide et Hydrargira & Hydrargyra.*

Hydastes lubricus.

Hydaticus apicalis, austriacus, bihamatus, bilineatus, bivittatus, brunnipennis, caffer, capicola, chevrolati, cinctipennis, cinereus, congestus, consanguineus, decorus, definitus, dejeani, discoidalis, dorsiger, dregeri, exclamationis, fasciatus, fascicollis, festivus, flavocinctus, flavolineatus, flavomaculatus, fulvicollis, galla, goryi, grammicus, havaniensis, hybneri, incaustus, insularis, isabeli, jucundus, lateralis, leander, liberus, lineolatus, luzonicus, luzonicus, madagascariensis, marmoratus, mathesoni, meridionalis, myriophylli, pacificus, pallistus, petiti, rimosus, rufulus, servilleanus, signatipennis, smithi, sobrinus, stagnalis, subfasciatus, transversalis, variegatus, verrucifer, vittatus, zonatus.

Hydatigena hepatis murini.

Hydatigera cellulosa, fasciolaris, fistularis.

Hydatina (G.) filosa.

Hydatina (Rot.) bovina, brachydactyla, caprina, cerebralis, delphini, erratica, gibba, globosa, granulata, lanceolata, laticauda, leptocerca, senta, terminalis.

Hydatis pisiformis, simplex, umana, varia.

Hydatula albopunctata, orbicularis, pisiformis, socialis, varia.

Hydera acuminata, picipes.

Hyderodes schuckardi.

Hydiatina laticauda.

Hydnobius punctatissimus, punctatus, strigosus, tarsalis.

Hydnocera aegra, attenuatus, azurea, basalis, bicarinata, brevipennis, cincta, conferta, cruciata, curtipennis, cyanescens, difficilis, flavo-lineata, flavo-varia, humeralis, limbata, lineatocollis, livida, longicollis, malthinus, nitens, pallipennis, pectoralis, picta, pubescens, punctata, rufipes, serrata, sub-aenea, tabida, tasmanica, tenella, tricondylae, unifasciata, verticalis.

Hydnophora aspera, bourgueti, conferta, conico-lobata, cuveri, cuvieri, demidovi, ehrenbergi, esperi, exesa, freieslebeni, guettardi, gyrosa, henningi, humboldti, knorri, lobata, meandrinoides, microconos, pallasi, polygonata, radula, sternbergi, styriana.

Hydnopora cyclostoma.

Hydra brunnea, clavata, conica, coronata, corynaria, littoralis, longimana, lutea, octogona, strobila, tuba, verrucosa, verticillata.

Hydrachna agilis, boops, chilensis, chrysis, clavipalpis, coccinea, concharum, cruciata, cyanipes, equestris, erythrina, filipes, formosa, gibba, globosa, glomerata, hermanni, hexapoda, histrionica, holoserica, inaequalis, mendax, miniata, mutabilis, naica, nebulosa, ovalis, ovata, punica, pyriformis, quinqueundata, retusa, rostrata, runica, scabra, scapularis, scripta, sternomelaena, T-flavum, tabulator, tomentosa, triangularis, uliginosa, ustulata, varipes.

Hydrachne abstergens.

Hydracna aquatica.

Hydractinia carnea, echinata, grisea, lactea, minuticornis, neapolitana, rosea.

Hydraecia leucostigma, petasitis.

Hydraena angulosa, angustata, carbonaria, concolor, curta, dentipes, elegans, elongata, flavipes, fulvipes, gracilis, intermedia, lapidicola, lata, longipalpis, marginicollis, margipallens, melanocephala, minima, minutissima, morio, nigrita, nigropicea, palustris, pennsylvanica, planata, polita, pulchella, pusilla, pygmaea, riparia, rufipes, rugosa, sicala, sieboldi, tenuis, testacea, testudo.

Hydralector cristata, gallinacea.

Hydrarachna erythrophthalma, fuscata, globulus, longipalpis, lutescens.

Hydrarchos harlani, sillimani.

Hydrargira atricada, diaphana, formosa, limi, multifaciata, nigrofaciata, ornata, swampina.

Hydrargyra fusca, hispanica, majalis, trifasciata, vernalis. *Vide et Hydrargira.*

Hydraspis adansonii, australis, barbatula, bitentaculata, cayennensis, constricta, depressa, dumeriliana, expansa, galeata, gaudichaudi, geoffroana, gibba, hilairi, lata, lessoni, longicollis, macquarri, maximiliani, nasuta, olivacea, planiceps, planitia, radiolata, rufipes, serpentina, spixi, subrufa, tracaxa, victorae, viridis, wagleri.

Hydrellia argentula, blomeri, sylvata, unca.

Hydrellia affinis, albicans, albiceps, albifrons, albilabris, alboguttatus, amoena, annulata, apicalis, argyria, aurifacies, bicolor, brunifacies, cardamines, chrysella, chrysina, chrysostoma, cinerascens, cochleariae, communis, compta, erythrostoma, flaveola, flaviceps, flavipes, flaviventris, fuliginosa, fulvipes, glabricula, griseola, hydrocotyles, lepida, leucostoma, lineata, litorella, lucida, maritima, maura, nigella, nigriceps, nigrina, nigripenis, nigripes, nitida, opaca, pallipes, polita, porphyrops, posticata, pulchella, ranunculi, ruficeps, ruficornis, rufipes, rufitarsis, thoracica, tristis, viridescens, viridis, viridula.

Hydria undulata.

Hydrias cornigera.

Hydrichla cinclus.

Hydrilla caliginosa, oblitterata, palustris, uliginosa.

Hydrina aurata, cardaminis, maculipennis, nigricuris, nitida, vernalis, viridula.

Hydriomena aqueata, elutata, impluviata,

Hydrium laevigatum.

Hydrobaenus lugubris.

Hydrobata albicollis, asiatica, cinclus, leucocephala, melanogaster, pallasi, unicolor.

Hydrobates (A.) faeroensis, leachi, lobatus, pelagica.

Hydrobates (Hem.) linearis.

Hydrobia abbreviata, acuta, astieri, bicarinata, brevis, bulinoidea, cebennensis, conoidea, diaphana, ferussina, gibba, marginata, minuta, moulini, parvula, perrisi, reyniesi, saxatilis, similis, simoniana, subumbilicata, thermarum, viridis, vitrea.

Hydrobius aeneus, affinis, arcadius, assimilis, atricapillus, bipunctatus, bipustulatus, chalconotus, colon, cribratus, dilutus, ferrugineus, foveolatus, frontalis, fulvus, fuscipes, globulus, lacustris, laevigatus, limbatus, lividus, longicollis, luridus, lutescens, marginellus, marginicollis, melanocephalus, minutus, nebulosus, neglectus, nigrita, nitidus, oblongus, ochraceus, orbicularis, perplexus, picipes, politus, punctato-striatus, punctulatus, pygmaeus, seminulum, striatulus, subrotundus, substriatus, testaceus, torquatus.

Hydrocampa abifacialis, albifascialis, algiralis, lemnae, magnificalis, nivalis, nymphaealis, nymphaea, obscuralis, potamogalis, potamogata, ramburialis, rivulalis, stratiotalis.

Hydrocampe aquabilis.

Hydrocanthus atripennis, buqueti, grandis, guttula, harrisi, iricolor, laevigatus, luctuosus, nigrinus, notula, socius.

Hydrocecropis macroura.

Hydrocena belangeri, cattaroensis, dubia, erosa, hieroglyphica, oparica, rubens, sirki.

Hydrocephalus carens, saturnoides.

Hydrocera minutissima.

Hydrochaerus capybara, cobaya, sulcidens.

Hydrochelidon albobristata, fissipes, fluviatilis, fuliginosa, grisea, hybrida, indica, javanica, leucoparvia, leucoptera leucourus, marginata, melanogaster, nigra, nigricans, obscura, pallescens, plumbea, similis.

Hydrochoreutes bilobus, cruciger, ephippiatus, filipes, globulus, palpalis, unguatus.

Hydrochus (Col.) brevis, carinatus, costatus, crenatus, elongatus, gemellatus, gibbosus, nitidicollis, parumoculatus, rufipes, rugosus, scabratus, subcupreus.

Hydrochus (Dipt.) laticornis, longicornis, nasutus, tarsatus.

Hydrocicca melanops.

Hydrocissa exaratus, galeritus, malayanus, monoceros, pica, violaceus.

Hydrocoleus minutus, plumbiceps.

Hydrocopsichus turdoides.

Hydrocorax africanus, carbo, carunculatus, cirratus, cristatus, dilophus, fuscescens, graculus, leucogaster, magellanicus, melanoleucos, niger, pygmaeus, sinensis, urile, varius, vigua, violacea.

Hylaia rubricollis.

Hylanthropus troglodytes.

Hylarana erythrea.

Hylaria variegata.

Hylastes ater.

Hylax bicinctus.

Hylebates golok, molock, varius. *Vide et Hylobates.*

Hylecaetus americanus, brasiliensis, cylindricus, javanicus.

Hylecoetus dermestoides, flabellicornis, gamoelopus, lugubris, marci, minor, morio, proboscideus.

Hylecthrus quercus, rubi.

Hylemya agrestis, arvensis, autumnalis, flavipennis, flavoptera, florea, hyemalis, liturata, luteipes, nigripes, plebeia, rustica, silvicola, strenua, tibialis, vivida.

Hylemyia aequalis, albiceps, albolineata, albula, allotalla, amabilis, ancilla, angelicae, asella, assimilis, caesia, cardui, cinerella, clara, coarctata, compta, confinis, conica, conjuncta, crassirostris, didyma, discoidea, dispar, distincta, divisa, duplicata, facilis, favillacea, flavescens, fumosa, fuscata, geniculata, grisea, hilaris, honesta, hortensis, impuncta, inconspicua, innoxia, intermedia, linogrisea, longula, maculata, maculosa, modesta, munda, mystica, nigricans, nigrimana, nigrita, nitida, notata, ocypterata, omissa, operosa, pacifica, pagana, pallida, pallipes, partita, pertusa, posticata, potamogeti, praepotens, puella, quadrum, quatuor maculata, regens, rufa, ruiventris, ruralis, sagittariae, semicincta, separata, sericata, sociata, strenua, strigosa, suillorum, tessellata, testacea, testastigma, tibialis, uliginosa, urbana, variata, vespertina, villica, virginea, xanthopus.

Hyles euphorbiae, galii, hippophaes, nicea, opheltes, zygophylli.

Hylesia boarmia, canitia, orassa, phadima.

Hylesinities electrinus.

Hylesinus abietinus, aculeatus, adpersus*, aeneipennis, angustatus, ater, attenuatus, bicolor, brevicollis, brevipes, brunneus, canaliculatus, chloropus, coadunatus, corticiperda, crenatus, crenulatus, cunicularius, decumanus, fasciatus, flavus, faxinini, furcatus, fuscus, gibbus, grandis, graphus, haemorrhoidalis, hederae, hispidus, ligniperda, linearis, luridus, maculatus, marginatus, melanocephalus, minimus, minor, minutus, niger, obscurus, oleae, oleiperda, opacus, palliatus, paykulli, picipennis, pictus, pilula, piniperda, porculus, prestae, pubescens, pygmaeus, rhododactylus, scaber, scabricollis, scolytus, sericeus, serraticornis, simson, sordidus, sparti, suturalis, tenebrosus, tenerrimus, testaceus, varius, vicinus, villosus, vittatus, volvulus.

Hylina felix, simplex.

Hyliota flavigaster.

Hylithus distinctus, humilis, tentyrioides.

Hyllus alternans, giganteus, mordax, nobilis, pugnax, solennis, strenuus.

Hylobates agilis, albinus, aropterus, choromandus, concolor, entelloides, funereus, fuscus, lar, leuciscus, leucogenys, rafflesii, syndactylus, unko, variegatus. *Vide et*

Hylebates.

Hylobius abietis, adpersus, albopunctatus, albosparsus, alutaceus, arcticus, assimilis, capra, capreolatus, confusus, erythrorhynchus, fatuus, faunus, gebleri, grandis, guttatus, heros, lateralis, macilentus, maculatus, oblongus, pales, perlatus, pertusus, picivorus, pinastri, pineti, pollinosus, pulverulentus, rugicollis, rugulosus, signatus, stupidus, subfasciatus, sulcipennis, tristis, verrucipennis.

Hylocharis cruentatus, lanieri, unicolor.

Hylocharis albirostris, alina, angustipennis, atala, aureliae, avocetta, azarae, bicolor, caerulea, caniveti, caroli, chrysogaster, cupreoventris, cyanea, cyanocephala, cyano-genys, cyanotropus, cyanus, derbyi, doubledayi, elegans, fannyi, feliciana, fuscicaudata, gigas, grayi, guimeti, isaacsoni, juliae, lactea, latirostris, lazulus, lessoni, leucotes,

luciani, lumachellus, mariae, melasinus, mosquera, nigra, orbignyi, ourissa, pamela, portmanni, prasina, procerulus, recurvirostris, ricordi, sapphirinus, simila, similis, superba, versicolor, vestita, viridigaster, wagleri.

Hylocharis bicolor.

Hylodes gravenhorsti, gryllus, lineatus, maculatus, nigricans, ocularis, oxyrhynchus, pickeringi, ranoides, ricordi.

Hylogale murina.

Hylogalea ferruginea, javanica, murina, tana.

Hyloicus coniferarum, dynaeus, hasdrubal, hylaeus, menephron, pamphilius, pinastri.

Hylomanes monotula, platyrhynchus.

Hylomys suillus.

Hylophila (Hem.) affinis, bipunctata, campestris, cursitans, exilis, minutus, nemorum, pygmaeus, serratae, sylvestris.

Hylophila (Lep.) prasinana, quercana.

Hylophilus caeruleus, cinerascens, cyanoleucus, flaveolus, flavipes, frontalis, guira, leucophrys, melanoxyanthus, olivaceus, pileatus, pinus, poecilotis, ruficeps, semi-brunneus, speculifera, thoracicus, vermivorus.

Hylophis laevicollis.

Hylorina sylvatica.

Hylosaurus mantelli.

Hylostoma humeralis.

Hyloterpe philomela.

Hylotoma abdominalis, aethiops, affinis, albicollis, albicruris, americana, amethystina, analis, angelicae, anglica, annulata, annulipes, assimilis, atrata, atripennis, atrocoerulea, australis, basalis, berberidis, bicolorata, bifida, bifurca, biramosa, brasiliana, brevicornis, calcarata, capensis, carbonaria, cerasi, ciliaris, cineracea, cingulata, clavicornis, coccinea, coerulea, coerulescens, collaris, compressicornis, concinna, costalis, costata, cyanella, cyaneo-crocea, difformis, dimidiata, dorsalis, dorsata, dulciana, elegans, eleganteriae, enodis, ephippiata, ephippium, erythrosoma, expansa, fasciata, femoralis, ferruginea, filicornis, flaviventris, formosa, frutetorum, fulcrata, furcata, fusca, fuscipennis, fuscipes, gastrica, geminata, geniculata, gibba, gonagra, gracilicornis, helvola, hirticornis, hypoleuca, infusca, intercus, interrupta, janthina, juniperi, klugi, leachi, lepida, leucocephala, livida, lobata, lugubris, lurida, macleari, maculata, maculipes, martini, mediata, melanaria, melanicta, frutetorum, fulcrata, melanopyga, melanura, mesomela, metallica, miniata, morio, nemorata, nemorum, nigripes, nigrita, nigriraris, notata, offeri, ovalis, ovata, pagana, pallipes, pectoralis, piceiventris, pilicornis, pini, pleuritica, plumicornis, plumigera, poecila, praecox, procer, pubicornis, punctata, rosae, rosarum, rubiginosum, rubra, rubricollis, rufa, rufescens, sanguinea, scapularis, scutellaris, scutellata, segmentaria, semiflava, serva, simplex, speciosa, spinarum, stephensi, stictica, stigmaticollis, sugillata, surinamensis, taeniata, tarda, terminalis, testacea, thoracica, trigonina, ustulata, vagans, ventralis, versicolor, violacea, virescens, vitis, xanthomela, xanthospila, xanthothorax.

Hylotorus bucephalus.

Hylotrupes bajulus, lividus.

Hylurgus abietiperda, affinis, angustatus, ater, crassicornis, cylindricus, dentatus, elongatus, frontalis, fuscescens, fuscus, glabratus, helferi, ligniperda, longulus, micans, obesus, opacus, palliatus, piniperda, pumilus, rufescens, rufipennis, rufipes, rugipennis, scabrifrons, sericeus, subcostatus, trifolii.

Hymenarcys aeruginosa, perpunctata.

Hymenia dinascialis, perspectalis.

Hymeniphora crucifer.

Hymenitis diaphana, morgani, phono, sao, sylvo.

Hymenolaimus malacorrhynchus.

Hymenontia strigosa.

Hymenophora crucifer.

Hymenoplia aeterna, bifrons, chevrolati, cinctipennis, fulvipennis, hungarica, lineolata, lugdunensis, ochroptera, sicula, strigosa.

Hymenopus coronatus.

- Hymenosoma** gaudichaudi, leachi, mathaci, orbiculare.
Hymenotes triangularis.
Hymetes javana, platycorys, rhombea, sagrai.
Hynnis gorensis, rosea.
Hynobius nebulosus.
Hyodon amphiodon, heterurus, lacustre, targisus, vernalis.
Hylithes acutus.
Hyopotamus bovinus, crispus, vectianus, velaunus.
Hyops depressifrons.
Hyopteryx reichenbachii.
Hyotherium medium, meissneri, sidero-jurassicum, soemmerringi.
Hypacantus aculeatus, vadigo.
Hypagyrtis adoptivaria, pastularia, pustularia.
Hypanartia demonica, hippocla, hippomene, tecmesia.
Hypanis anvatara, cora, plicata, vitrea.
Hypanthocrinites caelatus, decorus, granulatus.
Hyparpax aurora.
Hypatima asinella, conscriptella, inspersella, mouffetella, tenebrella.
Hypaulacus nervosus.
Hypera acuminalis, angulatus, antiqualis, crassalis, decumalis, falsalis, lividalis, obesalis, obliquialis, obsitalis, palpalis, palpatus, proboscidalis, ravalis, rostralis, rusticalis, salicalis, terriaculatus, trigonalis, turfosalis.
Hypencha apicalis, flavolineatus.
Hypeneus vittatus.
Hyphenites barbatus.
Hyphenodes humidalis.
Hyptelium macropterum.
Hypepirritis impurata, modicata.
Hypera acetosae, alternans, amoenus, arundinis, auriflua, austriaca, bipunctata, borealis, budensis, canescens, comata, constans, contaminata, crinita, croatica, cyrta, dauci, dissimilis, dorsalis, elegans, elongata, fascicularis, fasciculata, flavicans, fulvipes, fumipes, globosa, gravida, grisea, helwigi, hispidula, idriensis, kunzi, lineatus, lineola, litigiosa, lurida, maculipennis, maculosa, mehadiensis, melarhyncha, meles, meridionalis, micans, miles, mixta, murina, mutabilis, nebulosus, nigrirostris, okeni, oxalis, pallida, palumbaria, palustris, parallela, pedestris, phaeopa, philanthus, picicornis, picipes, pimpinellae, plantaginis, pollux, polygoni, postica, punctata, punctulata, pyrrhodactylus, repanda, rufipes, rumicis, scania, signata, straminea, striata, sublineata, suspiciosa, tamarisci, taraxaci, tessellata, tigrina, timida, trifolii, tristis, tumida, variabilis, viciae, vicina, vidua, viennensis, villosula.
Hyperantha menetriesi, sanguinosa, stigmaticollis, trigonalis, trinotata, vittaticollis.
Hyperasis decempustulata, fimbriolata, leucopsis, maculifera, praetextatus.
Hyperaspis bicrucata, C-nigrum, campestris, centralis, cleida, connectens, delicatula, disco-notata, elegans, exclamationis, fabricii, felixi, femorata, festiva, flavo-guttata, floridana, girodoni, guexi, guttata, hottentota, illecebrosa, inedita, kunzi, lateralis, lunulata, marginella, mercki, moerens, motschulskyi, peregrina, proba, pumila, quadrilla, quadrimaculata, quadrioculata, recordata, regularis, reppensis, rufo-marginata, sexpustulata, signata, sphaeridioides, trilineata, trimaculata, venustula, vittifera.
Hypercallia christiannana, christiannini.
Hyperchiria io, jo, nausica.
Hypercompa dominula, hera, sybaris.
Hypercompe caja, eridane.
Hyperhomala virescens.
Hyperia cornigera, cyaneae, galba, gaudichaudi, latreillei, monoculoides, oblivia, pedestris, pelagica.
Hyperion schroteri.
Hyperis eversmanni.
Hypermercia augustana, viminana.

- Hyperodon** retusus.
Hyperolius horstocki, marmoratus, tuberinguis, verrucosus.
Hyperomala virescens.
Hyperoodon butskopf, desmaresti, diodon, doumeti, honfloriensis, latifrons, rostratus.
Hyperops coromandelensis, parvus, pygmaeus, tagenioides, unicolor.
Hyperplatys aspersa, femoralis, maculata.
Hypexodon mystax.
Hyphaerion reflexus.
Hyphalia festivaria, philyraria.
Hyphantes evonymella.
Hyphanthus granicollis.
Hyphantornis aurantia, aureoflava, aurifrons, aurocapilla, badius, brachyptera, capensis, capitalis, castaneofusca, chrysogastra, collaris, cucullata, erythrocephalus, flavigula, flavocapilla, flavoviridis, galbula, grandis, guerini, gutturalis, intermedia, isabellina, larvata, mariquensis, melanotis, modestus, ocellaria, personata, rubiginosa, spilonota, subaurea, textor, velata, vitellina.
Hyphantria punctatissima, textor.
Hyphantus baccifer, dasypus, sulcifrons, verrucifer.
Hypharpax lateralis.
Hypherpes amethystina, brunneus, castaneus, chalybeipennis.
Hyphidrus distinctus, doubledayi, gibbus, globosus, guineensis, humeralis, maculatus, philippinarum, punctatus, quadristriatus, scriptus, variegatus. *Vide et Hyphydrus.*
Hyphilare albipuncta, lithargyrea.
Hyphilaria nica.
Hyphoraia aulica, civica.
Hyphydrus alpinus, alternans, assimilis, bidentatus, borealis, caffer, cayennensis, consobrinus, costatus, cuspidatus, decoratus, deplanatus, dorsalis, duodecimpustulatus, fabricii, ferrugineus, figuratus, frater, gibba, grandis, griseo-striatus, halensis, hamulatus, holosericeus, hyperboreus, impressus, lapponum, lepidus, lineellus, lyratus, marginatus, marklini, melanocephalus, minor, nigrolineatus, ovalis, ovata, picipes, pictus, pubescens, quinque-lineatus, riparius, rivalis, rubicornis, rubifrons, sanmarki, scripta, senegalensis, septentrionalis, sexpustulatus, striola, suturalis, umbrinus. *Vide et Hyphydrus.*
Hypna clytemnestra.
Hypnale hypnale.
Hypnoidus agricola, dermestoides, pulchellus, quadripustulatus, riparius, rivularis.
Hypobletis pecoris.
Hypoborus ficus.
Hypobranchaea fusca.
Hypobranchiaea depressa.
Hypocaelus attenuatus.
Hypocalis lineata.
Hypocephalus armatus.
Hypocheilichia aenealis, ahenalis, sanguinariella.
Hypocheira musica, nitens, ultramarina.
Hypochloereus atriceps.
Hypochthon anguinus, carrarae, chrysostictus, freyeri, haidingeri, laurenti, pisciformis, schreibersi, xanthostictus, zoisii.
Hypochthonius pallidulus, rufulus.
Hypocnemis tintinnabulata.
Hypocnemus poecilnota.
Hypocoelus sibiricus.
Hypocelius ampelinus.
Hypocolobus anaglypticus, caesus, corniculatus, denticollis, dregei, eckloni, fallax, fictus, fraudulentus, impressifrons, saxosus, scoparius, scrobifrons, squalidus, surdus, tutulus, unicornis, variegatus, vermicularis, zeyheri.
Hypocoprus latridioides.
Hypocrita dichroa, melaxantha.

- Hypocyphtus** laeviusculus.
Hypocyphtus discoideus, longicornis, ovulum, picipes, pulicarius, seminulum.
Hypodaea nivicola.
Hypoderma bovis, equi, heteroptera, loiseti, moluccense.
Hypodesis sericea.
Hypodon desmaresti, sowerbyi.
Hypogaeon hirtum.
Hypogastrura agaricina, aquatica, fusco-viridis, murorum.
Hypogomphus rugosus.
Hypogymna dispar, monacha.
Hypolais languida, luscinioides, natalensis, obscura.
Hypolepia adscella, costella, fissella, leucophaella, pusiella, vitella.
Hypolimnas coesia, pipleis.
Hypolithus aciculatus, attenuatus, bicolor, caffer, calathoides, capensis, chlaenioides, congener, consobrinus, escheri, exiguus, fletifer, fuscus, glaber, harpaloides, holosericeus, interstitialis, iridescens, javanus, juvenis, littoralis, luridus, marginicollis, melancholicus, minutissimus, musculus, nocturnus, olivaceus, paganus, planatus, puberulus, pulchellus, puncticollis, quadripustulatus, quadrum, riparius, rivularius, rufilabris, saponarius, sephen, tomentosus, venustus, vicinus.
Hypomeces curtus, marginellus, pauper, pollinosus, rusticus, sparsus, squamosus, suturalis, umbrosaria.
Hypomecus albitarsis.
Hypomelus bicolor, grandis, inaequalis, obliquatus, oblitteratus, rugosus, sabulosus, villosocostatus.
Hypomeneuta rufimitrellus. *Vide et Yponomeuta.*
Hypomochlius obscurus.
Hypomorphnus anthracinus, buson, leucurus, rutilans, uncinatus, urubitinga.
Yponomeuta malinellus, padi, variabilis, vigintipunctatus. *Vide et Yponomeuta.*
Hypophlaeus angustus, bicolor, dendrophilus, minutus, suberis.
Hypophloeus boros, brunneus, castaneus, japonicus, longulus, minutus, nigellus, niger, nitidus, parallelus, rufipes, rufulus, teres, testaceus, thoracicus.
Hypopholis sommeri, vittata.
Hypophthalmus edentatus, goongwaree, longifolis, marginata, niloticus, nuchalis, spixi, taakree.
Hypophylla zeurippa.
Hypoplatea celer, fasciata.
Hypoplectis adpersaria, pertextaria.
Hypoprepia fucosa.
Hypopsis nematocerus.
Hypopta ambigua, caestrum, thrips, tristis, ziliante.
Hypopus alicola, feroniarum, filicum, granulatus, julorum, laevis, muscarum, nitida, opaca, sapromyzarum, setipes, spinipes, spinitarsus, vulpis.
Hypopyrrhus pyrrhogaster.
Hyporyssus telluris.
Hyposaurus rogersi.
Hyposcotis glaucinaria, mucidaria.
Hypostena procera.
Hypostoma (G.) boysi.
Hypostoma (P.) barbatus, etentaculatum, punctatum, squalinum.
Hypostomum viride.
Hypostomus (Cr.) parasiticus.
Hypostomus (P.) barbatus, bufonius, calamita, cirrhosus, commersoni, duodecimalis, emarginatus, erinaceus, granosus, guacharote, guarcari, guttatus, itacua, multi-radiatus, nudiceps, plecostomus, punctatus, robini, serratus, temmincki, verres, watwata.
Hypotelus praecox, pusillus.
Hypothalmus dawalla.
Hypothlypis iridina, velia.

- Hypothymis** albicaudata, azurea, caerulea, caesia, cantatrix, chrysorrhoea, concreta, cyanomelana, indigo, manadensis, melanops, thalassina.
- Hypothyris** (Br.) borealis, psittacea, semisulcata.
- Hypothyris** (Lep.) ninonia.
- Hypotriorchis** aequalon, arcadicus, ardesiacus, aurantiacus, chicquera, columbarius, concolor, deiroleucus, eleoroniae, femoralis, frontatus, minutus, novae zealandiae, regulus, rufigularis, semitorquatus, severus, soloensis, subbuteo, tibialis.
- Hypotropis** jukesi.
- Hypoxys** quadridens.
- Hyppa** rectilinea.
- Hyppalimus** cottaldinus, flabellatus, icaunensis, moniliferus, neocomiensis, riordeanus, tombeckianus. *Vide et Hippalimus.*
- Hyppolyte** desmaresti. *Vide et Hippolyte.*
- Hyppurites** areolatus, comprimatus, elongatus, mitratus, patellarius, renovatus, rotula, turbinata, turbinolatus. *Vide et Hippurites.*
- Hyproctomus** trigonus.
- Hypsa** heliconia, monycha, silvandri.
- Hypsauchenia** ballista, clavaria, guerini, hardwicki, mirabilis, spatulata, westwoodi.
- Hypselogenia** albopunctata, concava.
- Hypselomus** cristatus, crudus, egens, globifer.
- Hypselonotus** annulatus, bilineatus, centrolineatus, dimidiatus, interruptus, pulchellus, scriptus, sphacelatus, striatulus, subterpunctatus, trigonus.
- Hypselopus** cinctiventris, gigas, incarnatus, spinosus.
- Hypselura** senilis.
- Hypselus** ater.
- Hypsepetes** neilgherriensis.
- Hypserina** hardwicki.
- Hypsibates** himantopus.
- Hypsibatus** bilineatus, boiei, catenatus, margaritaceus, picta, plica, punctatus, superciliosus, umbra.
- Hypsibemon** ruficapillus, rufulus.
- Hypsibius** hemprichi, oberhauseri.
- Hypsiboas** albomarginata, cinerascens, crepitans, dominicensis, faber, geographica, langsdorffii, palmata, reinwardti, venulosa, zonata.
- Hypsicebus** bancanus.
- Hypsilophus** ater, cornutus, cristatus, demarlii, fasciatus, iguana, nudicollis, rircordi.
- Hypsilopus** maculiventris.
- Hypsioma** gemmata, gibbera, murina.
- Hypsiophthalmus** buphthalmus, luciferus.
- Hypsipetes** ganesa, gracilis, maclellandi, malaccensis, olivacea, philippensis, psaroides, viridis.
- Hypsiprymnus** campestris, cuniculus, formosus, gaimardi, gilberti, grau, melanotis, micropus, murinus, myosurus, ogilbyi, penicillatus, peroni, philippi, platyops, rufescens, setosus, spelaeus, ursinus, whitei.
- Hypsipsopterus** xerophyllum.
- Hypsirhina** aer, bennetti, bilineata, chinensis, furcata, hardwicki, maura, plumbea, trilineata.
- Hypsiscopterus** plumbea.
- Hypsodon** lewesiensis, oblongus, sauroides, toliapicus.
- Hypsolopha** antennella, asperella, horridella, persicella.
- Hypsolophus** lemniscellus, limosellus.
- Hypsomus** lembunculus, scapha.
- Hypsonotus** albolineatus, albomaculatus, alternatus, apicalis, auritus, aurosus, binotatus, caliginosus, camelus, canephorus, cathetoplateus, chevrolati, chrysendetus, cilipes, cinctipes, cingulatus, claricus, clavulus, compressus, comprimatus, costatus, costipennis, curtisi, dalmani, designatus, dives, dorsalis, elegans, fahraei, faldermanni, fasciatus, gibbicollis, gyllenhali, hirtipes, imbricatus, incanus, irrigatus, isabelline-

marginatus, lateralis, leucostictus, lineatus, loculosus, magnificus, marginellus, marginatus, molitor, murinus, navicularis, notatus, nubilosus, picturatus, plumipes, politus, principalis, punctatus, rotundicollis, ruficollis, sahlbergi, scenicus, scrobiculatus, sculpturatus, squamosus, stanneus, subfasciatus, umbrosus, viridilineatus, viridimarginatus.

Hypopygia costalis, cuprealis, egregialis, farinalis, fimbrialis, lucidalis, nitidalis, regalis, rubidalis.

Hypsoropha horma, hormos, monilis.

Hypterus appendiculatus, erythrogaster.

Hyptia petiolata.

Hyptiam ruficeps, thoracicum.

Hyptiopus lophotes.

Hypudacus hercynicus.

Hypudaeus agrestis, albicaudatus, albicaudus, alliarius, alpinus, amphibius, arvalis, blumenbachii, borealis, brecciensis, bucklandi, cinerascens, cyanus, dasytrichos, destructor, ferrugineus, fulvus, gapperi, glareolus, gregalis, groenlandicus, guiara, helvolus, hudsonius, lagurus, laniger, lemmus, leucogaster, major, maullinus, micrurus, migratorius, minimus, monticola, nageri, neglectus, niloticus, nivicolor, novoboracensis, obscurus, ochrogaster, oeconomus, pennsylvanicus, pinetorum, ratticeps, riparius, roylei, rubricatus, rufescente fuscus, rufocanus, rutilus, savii, saxatilis, scolopsides, socialis, spelaeus, subterraneus, syriacus, terrestris, torquatus, trimucronatus, variegatus, xanthognathus. *Vide et Hipudaeus et Hupudaeus.*

Hypulus biflexuosus, dubius, pictus, quadrifasciatus, simulator, trifasciatus.

Hyracotherium cuniculus, leporinum.

Hyrax arboreus, capensis, dongalanus, habessinicus, ruficeps, sinaiticus.

Hyracinia typica.

Hyreus (A.) abyssinicus.

Hyreus (Lep.) lingeus, misenes, palemon, thius.

Hyria (L.) avicularis, browniana, cordata, corrugata, cyrmatophora, elongata, humeralis, intermedia, matoni, rosea.

Hyria (Lep.) auroralis, auroraria.

Hyridella australis.

Hyris corrugata.

Hysaplesia achatina, borbonica, luteola, nigerrima, punctata, tinctoria, trivittata.

Hysia endomycina.

Hysterolites hystericus, paradoxus, vulvarius.

Hysterolithes prominulus.

Hysteropterum immaculatum.

Hysteropop novae hollandiae.

Hysterotherium quediaburgense.

Hystricephala nigra.

Hystrichis tricolor.

Hystrichopus angusticollis, femoralis, rufipennis.

Hystricia amaena, flavipalpis, flavitarsis, immaculata, nigriventris, palpina, testacea.

Hystrignathus rigidus.

Hystrix africana, alophus, brevispinosa, couyi, cuandu, fasciculata, hirsutirostris, hudsonius, indica, insidiosa, javanica, leucurus, nipalensis, nycthemera, pilosus, pollicaris, rutila, spinosa, subspinosa, tortilis, villosa, volubilis.

Iacchus albicollis, penicillatus, pygmaeus. *Vide et Jacchus.*

Iaera coenobita. *Vide et Jaera (Cr.).*

Iania rubens.

Ianthia rufilatus.

Ianthina (A.) flavolivacea, hyperythra.

Ianthina (G.) bicolor, globosa, nitens, pallida, planispirata, striolata, subsinuosa. *Vide et Ianthina.*

- Ianthocincla** albogularis, caerulatum*, chrysoptera, erythrocephala, gularis, leucolophus, lugubris, lunaris, mitrata, ocellata, ocellatum, palliata, pectoralis, phoenicea, ruficollis, rufogularis, squamata, subunicolor, variegata.
- Iasis** cylindrica.
- Iassa** falcatus. *Vide et Jassa.*
- Iassus** annulipes, atratus, biguttatus, binotatus, bipustulatus, brunneus, diadema, dorsiger, fenestratus, ferrugineus, festivus, flavicollis, frontalis, fulgidus, fumatus, geminus, gemmatus, griseus, hyalinus, ignitus, incarnatus, lactipennis, lineatus, lineolatus, maculatus, maculicollis, margarita, marmoratus, mixtus, nervosus, nigripes, ornatus, ossalbum, personatus, populi, pulchellus, quadriverrucatus, reticulatus, rosae, triangularis, variegatus. *Vide et Jassus.*
- Iatrobella** carnea, granulosa, interrupta, medicinalis, nigra, obscura, officinalis, provincialis, tessellata, troctina, verbana.
- Ibachus** novemdentatus.
- Ibacus** antarcticus, ciliatus, parrae, peroni.
- Ibalia** anceps, cultellator, maculipennis, scalpellator.
- Ibec** cebennarum.
- Iberus** acutus, gualterianus, lamarcki, lapicidus, oresignus, ornata, pacciniana, scabriuscula, segestana, selinuntina, solarium.
- Ibex** alpinus, cebennarum, nubianus, pyrenaicus.
- Ibidion** amoenum, armatum, bituberculatum, conatum, ebenum, fusiferum, musivum, pictum, quadrimaculatum, sexguttatum, signatum.
- Ibidium** aculeatum, albocinctum, luridum.
- Ibidorhyncha** struthersi.
- Ibis** addidas, aeneipennis, aethiopicus, aimolene, albicollis, albus, bengala, brevisrostris, caeruleus, calvus, candidus, carunculata, castaneus, cayenensis, chalcoptera, coco, comatus, cristatus, cuprea, denticrostris, erythrorhyncha, falcinellus, fascinelus, fuscata, fuscus, gonocephalus, griseus, guarana, hagedash, hemprichi, ibis, ignea, infusata, lamellicollis, leucon, leucopygus, loculator, longirostris, macei, manillensis, melanocephalus, melanopus, mexicana, minutus, molucca, nandapoa, niger, nippon, nudifrons, olivacea, ordi, oxycercus, papillata, papillosa, plumbeus, religiosa, ruber, rubra, sacra, spinicollis, strictipennis, sylvatica, viridis, vocifera.
- Ibla** cuvieriana.
- Ibycter** americanus, aquilinus, ater, fasciatus, gymnocephalus, leucogaster.
- Icarus** gravesi.
- Icelia** brasiliensis, flavescens.
- Icelus** (Ar.) honestus, notabilis.
- Icelus** (P.) hamatus, uncinatus.
- Ichla** rosea.
- Ichnea** aterrima, dimidiatipennis, enoplioides, laticornis, lycoides, suturalis.
- Ichnestoma** albo-marginata, heteroclyta.
- Ichneumia** albescens, gracilis.
- Ichneumon** (Hym.) abominator, abruptorius, acutus, adpressorius, adpersor, aethiops, affectator, affinator, affinis, affirmator, affirmatorius, aggressor, alacer, albator, albicaudatus, albicillus, albicinctus, albisfrons, albiger, albiguttatus, albilavatus, albilineatus, albimanus, albinotatus, albinus, albipectus, albipictus, albosignatus, alterator, alticola, alveariformis, alvearius, alveator, ambulator, ambustor, amictorius, ammonius, amputatorius, analis, angustatus, angustorius, annulator, anodon, anonymus, antennatorius, aphidator, aphidiphagus, apicalis, apricus, arcuatorius, areator, armator, armillatorius, armillatus, arridens, arundinator, asilatorius, associator, atomator, atramentarius, atrator, atratus, atricapillus, atripes, atropos, attentorius, attenuator, aulicus, auricular, auriculatus, australis, austriacus, autumnalis, axillatorius, balteatus, balticus, barbarus, barbatus, bellator, bellipes, bellus, biannulatorius, biannulatus, bicinetorius, bicingulatus, bicolo, bifasciator, bifasciatus, biguttator, biguttorius, bilineator, bilunulatus, bimaculator, bimaculatorius, binarius, binotor, binotatus, bipunctator, bipunctatus, bipunctorius, bisignatus, bispinatorius, bonellii, brachiacanthos, brachigaster, brachipterus, brevior, breviorius, brevicinctus, brevicornis, brunnicornis, bruniventris,

buccator, bucculentus, bulimorius, cadomensis, caecus, caedator, caeruleator, cagnatus, calcatorius, calceator, calceatorius, callicerus, caloscelis, calumniator, canaliculatus, candidatus, capellator, capensis, capitator, captorius, carbonator, carduorum, carpinellae, castaneus, castaniventris, castanopyga, catenator, cayennator, cecisor, celerator, censor, centrator, ceparum, cerasi, cerinthus, certator, cespitator, chalybeatus, chermetus, chionomus, chirothecator, chrysodes, chrysostomus, cinctorius, cinctulus, cinctus, cingulatorius, cingulipes, circulator, citator, clarigator, clavator, clericus, clypeator, coalitorius, coccinellae, coeruleator, cognator, cognatus, collector, colonator, compactor, compressus, comptus, concinnatorius, concinnus, condecoratus, confector, confiscator, confusor, coniunctor, conopsator, consignatorius, consimilis, conspurcatus, constrictor, contaminatus, coqueberti, cornutus, coronator, coronatus, costator, cothurnatus, crassator, crassipes, creditor, crenator, cretatus, cribrator, croceipes, cryptator, cryptorius, cubitorius, culpator, culpatorius, cultellator, cultriformis, curator, cursor, cursorius, curtus, curvus, cyanator, cyanops, dealbator, debitor, decimator, decorius, decurtatus, defectivus, delator, deletus, delicator, delictor, demidator, dentator, dentatorius, denticularius, denticulator, depexus, depressorius, derivator, derogator, desinatorius, desjardinsi, despector, detestator, detritus, deustor, devinctor, dictator, didymator, didymus, digestor, digitator, digrammus, dilatator, dilatatorius, dilector, dimidiatus, dimidius, diminutor, dipsacana, dipsaci, director, discolor, discrepator, dissector, dissectorius, dissectus, dissimilis, distensor, distichor, distinctor, diversorius, divisorius, dolorosus, dorsator, dorsatorius, drewseni, dromicus, dubitator, ductor, dumeticola, duplicator, duplicatorius, duplicatus, eclipsorius, edwardsi, egregius, elegans, elegantiorius, elevator, emancipator, emarginatorius, ensator, eremitatorius, erratorius, erythraeus, erythrocerus, erythrogaster, erythronotus, erythropygus, erytostoma, esenbecki, euephalus, eunymis, euridator, exaltatorius, examinador, exornatus, expansor, expectator, expulsor, extenuator, extinctus, extremator, exulans, fabricator, fabricii, facialis, faciador, fallax, falsificus, farctor, fasciatus, faunus, femorator, femoratorius, fenestrator, ferreus, ferrugator, ferruginator, festinatorius, festinator, filator, filicornis, fimbriator, fimetarius, fissura, flavarius, flavatorius, flavifrontator, flaviniger, flavoguttatus, flavolimbatus, flavolineatus, flavomaculatus, flexorius, floricator, foersteri, foliator, formicator, formosus, fortipes, fragrasorius, fraternarius, frequentarius, frictorius, frischi, frontalis, frontator, frontorius, fugator, fugatorius, fugitivus, fulgens, fuligator, fulvator, fulvatorius, fulvicornis, fulvipes, fulvoscutellatus, fumigator, fumipennis, fundator, funereus, furcator, fuscocastaneus, fusicornis, gagates, gallicanus, gasterator, gastritor, gelitorius, gemellitorius, gemellus, geminatorius, generator, geniculator, geniculatorius, geoffroi, gestator, gesticulator, gibbator, giberius, gigantor, glabrator, gladiator, globator, globosus, globulator, glomerator, gloriator, goedarti, gracilentus, gracilicornis, gracilis, gradarius, gradatorius, graminellae, grandis, grassator, graciosus, gravenhorsti, gravipes, gravis, grossulariatae, guttatorius, guttiger, guttulator, guttulatorius, gvianor, gyrator, gyratorius, haemorrhoidalis, haemorrhoidarius, haesitator, harpurus, hartigi, hartmanni, hassicus, hector, hemipterator, hiator, bilaris, hoffmannsegi, hordei, horridator, hortorius, hostilis, humeralis, ignotus, illuminatorius, imitatorius, immaturus, imperatorius, impressor, inpressus, impugnator, inanis, incertorius, incrassatus, incurvator, indagator, indefessus, indicus, infernalis, infestor, infestorius, infidus, ingratorius, inimicus, inquinatus, inquisitor, insidiator, insidiosus, insulator, interruptor, interruptorius, interruptus, intratorius, intricatorius, invisor, iocerus, iridipennis, ischioleucus, ischiomelinus, ischioxanthus, iactator, jejunator, jocularis, jucundus, jugatus, junctor, junior, labiatorius, labiatus, laborator, lacrymator, lacteator, laedator, vinctus, vindicator, vinulatorius, violentus, virginalis, vitellae, vittatorius, vocator, vulnerator, vulneratorius, vulpinus, walkeri, wienkeri, wurtembergicus, xanthius, xanthoceros, xanthogastrus, xanthops, xanthorrhæus, xanthozosmus, zonalis, zonarius.

Ichneumon (Mamm.) aegyptiae, aegyptius, albicauda, albicaudis, arctiventris, caffer, canni, galera, griseus, javanicus, major, mungo, pharaonis, ratlamouchi, ruber, taenianotus, tetradactylus, urinator.

Ichneutes brevis, extensor, fulvipes, levis, major, mensurator, nigripennis, nigripes, reunitor, scotia.

Ichnosceros purgator.

Ichthelis aurita, cyanella, enythrops, macrochira, megalotis, melanops.

Ichthidion minimum.

Ichthierax frontalis.

Ichthyobdella cichlae, fasciata, linearis, marginata, marina, sepiolae, stellata, tessellata, versipellis, vittata.

Ichthyaetus bicolor, leucogaster. *Vide et Ichthyaetus et Ichthyaetus.*

Ichthyapus acutirostris.

Ichthyacallus trimaculatus, umbrostygma. *Vide et Ichthyacallus.*

Ichthyidium podura.

Ichthyaetus bicolor, hucarius, leucogaster, plumbeus. *Vide et Ichthyaetus.*

Ichthyobdella geometra, percae. *Vide et Ichthyobdella.*

Ichthyococcus ovatus, poweriae.

Ichthyocoris basiliscus, cagnota, crinitus, frater, galerita, lupulus, montagui, pollini, rubriceps, verus.

Ichthyocrinus arthriticus, capillaris, goniodactylus, laevis, pyriformis, tesseracodactylus.

Ichthyodes biguttula.

Ichthyodorulites heddingtonensis, purbecensis.

Ichthyokrates petromyzonis.

Ichthyolithus clackmannensis, esociformis, luciiformis.

Ichthyophaga javana.

Ichthyophilus orbigny.

Ichthyophis (P.) pantherinus, tigrinus, vittatus.

Ichthyophis (R.) glutinosus, hasselti.

Ichthyorachis anceps, bipinnata, dubia, geinitzi, newenhami.

Ichthyosarcolites obliqua, triangularis.

Ichthyosaura tritonius.

Ichthyosaurus acutirostris, campylodon, chiroligostinus, chiroparemekestinus, chiropolyostinus, chirostrongulostinus, commuui, coniformis, grandipes, immanis, intermedius, latifrons, latimanus, lonchiodon, luenevillensis, macrorachis, macrospondylus, missouriensis, platensis, platyodon, problematicus, tenuirostris, thyreospondylus, trigonus.

Ichthyoscopus inermis, cirrhosus, forsteri, laevis.

Ichthyoterus fischeri.

Ichthyura anachoreta, anastomosis, curtula, inclusa, reclusa.

Ichthyurus basalis, costatus, discoidalis, lateralis.

Ichthyobdella sanguinea. *Vide et Ichthyobdella.*

Icteria auricollis, dumicola, velasquezi, viridis.

Icterus abeillei, aeneus, agripennis, annulatus, anticus, atrogularis, atro-olivaceus, auduboni, auratus, auricapillus, badius, baltimore, barita, bonana, brevirostris, bullocki, caffer, calliorhynchus, capensis, cayanensis, cayanus, chopi, chrysocephalus, chrysopterus, chrysostictus, citrinus, cristatus, croconotus, cucullatus, cyanocephalus, diadematus, dispar, ferrugineus, flavigaster, fringillarius, gargueti, giraudi, gradual-cauda, gubernator, guianensis, gularis, guttulata, haemorrhous, hudsonicus, humeralis, icterocephalus, inca, japacani, labradorus, larvatus, leucopteryx, longirostris, ludovicianus, maculatus, maculialatus, maxillaris, melanicterus, melanocephalus, melano-chrysura, melanopterus, mentalis, militaris, minor, muscus, novae hispaniae, novae zealandiae*, noveboracensis, oriolus, parisorum, pecoris, pectoralis, persicus, personatus, picus, pustulatus, pyrrhopterus, quianensis, quiscula, ruficapillus, rufusater, scandens, sericeus, spurius, sulcirostris, tanagrinus, thillius, tibialis, tricolor, trupial, unicolor, violaceus, virescens, xanthocephalus, yapon.

Ichthyætes cultrunguis, horsfieldi, nanus. Vide et Ichthyætes.

Ichthyallus auromaculatus, bivittatus, chloropterus, cyanocephalus, decussatus, dimidiatus, geoffroyi, julis, macrolepidatus, ornatus, semidecoratus, semipunctatus. Vide et Ichthyallus.

Icticyon major, venaticus.

Ictides albifrons.

Ictinaetus malaiensis.

Ictinia mississippiensis, ophiophaga, plumbea.

Ictinoætes pondicerianus.

Ictinus (Col.) latro, praeustus, tenebroides.

Ictinus (Neur.) ferox, praedator, vorax.

Ictis cocksi, vulgaris.

Ictonyx capensis, frenata.*

Idaea albidata, aureolaria, aversata, bellata, bisetata, calabraria, commutata, congruata, contiguaria, contiguata, culminaria, dealbata, decoraria, decorata, decussata, degenerata, dilutaria, duplicaria, exornata, flaveolaria, fractilineata, humifuscaria, hyalinata, immutaria, immutata, incantaria, incantata, laevigaria, laevigata, luridata, monilata, monilata, mutata, nitidulata, ornata, ornataria, pinguedinata, politata, pravaria, remutaria, remutata, reversata, rufo-costata, scutularia, scutulata, subangularia, submutata, sutusata, vibicaria, vinctaria, vincularia. Vide et Idea.

Idaides codrus, nitens.

Idalia Col. alpina, bipunctata, bothnica, inquinata, livida, undecimnotata.

Idalia (Lep.) cines, pudoraria, regina.

Idalia (Nud.) aspersa, cirrigera, crocea, dubia, elegans, frondosa, inaequalis, laciniata, leucosa, lessoni, maculata, neapolitana, plumosa, quadricornis, ramosa.

Idalla caudata.

Idarnes atre.

Idea abeger, agelia, aza, bicolor, blanchardi, daos, exalbata, gaura, idea, leuconoe, lyncea, manuja. Vide et Idea.

Idgia fulvicollis, terminata.

Idia (Coel.) macrostoma, pristis.

Idia (Dipt.) aenea, albitarsis, americana, anhora, apicalis, australis, bengalensis, chryssippe, cinerea, condiana, cyaneus, discolor, fasciata, felina, flavipennis, flavipes, limbipennis, lineata, mandarina, melastoma, metallica, nigricornis, obsoleta, procula, punctulata, rostrata, speciosa, subapicalis, syrphioidea, testacea, urvillei, viridis, xanthogaster, xanthogastera.

Idia (Lep.) aemula, bombycalis, retusalis.

Idiocephala albolinea, atra, byncei, cyanipennis, darwini, elegans, flaviventris, marginicollis, pulchella, rosea, rufosa, semibrunnea, snails, tatarica.

Idioceris maculicollis.

Idiocerus aeneus, fulgens, maculicollis, maculipennis, stigmaticus, sulphureus, unicolor.

Idiochelys fitzingeri, wagneri, wagnerorum.

Idiocnema sulcipennis.

Idiococcyx chlorocephalus.

Idiomorphus gnerini.

Idiops fusca.

Idioptera fasciata, maculata, marmorata.

Idmais arne, calais, chrysonome, dynamene, fausta, phisadia, vesta.

Idmonea aculeata, alternans, ammonitorum, atlantica, biinda, baseriata, cancellata, carnata, commensalis, complanata, compressa, comptoniana, contortilis, coronopus, crassa, cretacea, depressa, dimidiata, discrepans, disticha, divancata, divergens, dixoniana, dorsuata, elegans, elegantula, fasciculata, frondosa, gracilis, gradata, hagenowi, hybrida, irregularis, lineata, maculata, maculenta, maxillaris, milneana, pertusa, petri, pinnata, polytreta, radialis, radiolatum, semicylindrica, serpulaeformis, striata, sulcata, teres, tetragona, toucasiana, transversa, trapezoides, triquetra, truncata, tubulipora, virescens, ziczac.

Idolomorpha gracilis, lateralis.

Idomene forficata.

Idotea annulata, argentea, brevicauda.

Idotea acuminata, affinis, algerica, angustata, appendiculata, atrata, baffini, basteri, bicuspidata, brevicornis, caeca, capito, carinata, chelipes, compacta, distincta, edwardsi, entomon, excisa, fasciata, filiformis, fusiformis, gonura, guadeloupensis, hectica, hirtipes, indica, irrorata, lanciformis, latreillei, lichtensteini, marina, metallica, oestrum, pelagica, peloponesiaca, penicillata, peroni, prismatica, rugosa, tricuspidata, tridentata, triloba, unguolata, variegata, viridissima, vittata.

Idothea basteroti, brevicornis, entomon, granulosa, nodulosa, perforata, robusta, sabini, sexlineata.

Iduna caligata, salicaria.

Idus adbarus, idus, jeses, miniatus, neglectus, orfus.

Idya (Coel.) borealis, capensis, cucumis, dentata, elongatus, forskahli, gilva, infundibulum, islandica, macrostoma, mertensi, ovale, ovata, pencillata, peroni.

Idya (Cr.) barbigera, triloba.

Iera pyriformis.

Ieracidea berigora, novae seelandiae, occidentalis.

Ierax bengalensis, caerulescens, entolmus, erythrogenys, fringillarius, malayensis, melanoleucus, sericeus.

Ierea cupula, excavata, multioculata, nuciformis, oligostoma, pistillum, punctata, pyriformis, tubulifera, turonensis. *Vide et Jerea.*

Ifonyx orientalis, typicus.

Iguana acanthura, armata, ater, belli, bellicosa, bilineata, bimaculata, binoculata, carinata, coerulea, cornuta, cyclura, cycluroides, decreseiensis, emarginata, fasciata, harlani, haueri, iguana, lanceolata, lineata, lophyroides, nebulata, nubila, nudicollis, rhinolophus, sapidissima, similis, squamosa, teres, violacea, viridis.

Iguanodon anglicum, mantelli.

Ilarches orbis.

Ilarus echii, implexa, ochroleuca, piniperda, porphyrea.

Ileomus distinguendus, longulus, mucoreus, pactitus, peruanus, pulverulentus, roreus.

Ilerda androcles, cadma, epicles.

Ilia armata, levigata, nucleus, ornata, rugulosa.

Iliades agenor, ancaeus, emathion, laomedon, memnon, mestor, polymnestor, protenor.

Iliastus grandis.

Iliornis stagnatilis.

Iliithia carneus.

Illaena exilis.

Illaenus arcturus, asaphoides, attenuatus, bowinani, bowmanni, centaurus, crassicauda, davisi, dubius, giganteus, glaberrimus, hisingeri, laticeps, latidorsata, latus, limbatus, lusitanicus, minutus, murchisoni, ocularis, perovalis, portlocki, quadrato-caudatus, rosenbergi, rudolphi, subtriangularis, tauricornis, trentonensis, triacanthus, wahlenbergi.

Illigera ruficeps.

Illigeria atra, minor.

Ilops corniculatus.

Ilotis rotalitatus.

Iluanthos scoticus.

Ilucoetes fimbriatus.

Ilybius angustior, ater, biguttulus, confusus, fenestratus, fuliginosus, guttiger, meridionalis, pleuriticus, prescotti, quadriguttatus, quadrimaculatus, sexdentatus, subaeneus.

Ilysia familiaris, scytale.

Ilythea spilota.

Ilythia anella, argyrella, carnella, colonella, cruentella, pudorella, sociella, vinetella.

Imantocera plumosa.

Imatidium albicolle, annulum, bicornis, cinctum, corallinum, cornutum, cyaneum, fasciatum, leayanum, lineola, quattuordecimmaculatum, rubricatum, sanguineum, semicircularis, septemdecimpunctata, thoracicum, trimaculatum. *Vide et Himatidium.*

Imatisma analis, orientalis, posticata.

Imatismus fasciculatus.

Imbrasia epimethea.

Imbricaria carbonacea, conica, conovula, marmorata.

Imhoffia nigra.

Imisia bisulcata.

Imperata nodosa.

Imperator aureolatus, cooki, heliotropium, inaequalis, nobilis.

Impeyanus refulgens.

Inachis jo.

Inachoides microrhynchus.

Inachus (Cr.) affinis, arabicus, aranea, australis, bifidus, catilloides, cocco, communissimus, corallinus, dorsettensis, hirticornis, inflexus, japonicus, kaempferi, lamarcki, leptochirus, levigatus, lorina, mauritanicus, mitis, musivus, pervetus, sulcatus, thoracicus, tomentosus, undatus.

Inachus (G.) angulatus, costatus.

Inca (A.) mysticahs.

Inca (Col.) bescki, bonplandi, burmeisteri, fabricii, hastata, irrorata, lineola, pulverulentus, rufipennis, sommeri, tapujo.

Incilaria bilineata.

Incubus aphidum.

Incurvaria argillella, bipunctella, capitella, flavi-mitrella, masculine, minutella, multipunctella, muscula, oehlmanni, oehlmanniella, oppositella, pectinea, pectinella, spuria, trimaculella, tripunctella.

Indicator albrostris, apivorus, archipelagus, buphagoides, diadematus, flavicollis, indicator, leucotis, le vaillanti, maculatus, maculicollis, major, minimus, minor, proditor, sparmanni, variegatus, xanthonotus.

Indopicus delesserti, goensis, indri, laniger, longicaudatus, strictus, sultaneus.

Indusia tubulosa.

Infundibulum apertum, carinatum, centralis, clypeum, concentricum, costarium, crepidulare, cretaceum, depressum, echinulatum, gyrinum, laevigatum, lamellosum, manillare, obliquum, perarmatum, radians, rectum, rotundum, sinense, spinulosum, squamulatum, subsquamosum, suessoniensis, supra cretacea, trochiforme, tuberculatus, typus, urticosum.

Inia boliviensis, canadensis, geoffroyi.

Iniopachus pyrenaicus.

Ino (Ar.) aprica, gracilis, picta, piscina, pubescens, stagnalis, terebrata, tigrina.

Ino (Lep.) globulariae, statica.

Inocellia crassicornis.

Inoceramus acutus, alatus, alveatus, amygdaloides, angulosus, annulatus, arquatus, auriculatus, barabini, brechowi*, brongniarti, cancellatus, cardissoides, chemungensis, cinctus, concentricus, confertim-annulatus, contortus, coquandianus, cor, cordiformis, cranium, crispus, cuneiformis, cuvieri, decheni, depressus, digitatus, dubius, ellipticus, eocenus, giganteus, goldfussianus, gryphaeoides, gryphoides, gryphus, hamiltoni, impressus, intermedius, inversus, involutus, laevigatus, laevissimus, lamarcki, latus, lingua, lobatus, lunatus, mitchelli, mytilimeris, mytilloides, neocomiensis, nobilis, obovatus, orbicularis, oviformis, pernoides, pictus, planus, plicatus, problematicus, propinquus, ramosus, regularis, requieni, retrorsus, rostratus, rugosus, salomoni, semiobicularis, semistriatus, siliqua, striatus, substriatus, sulcatus, tegulatus, tenuis, transversus, trigonus, undulato-plicatus, undulatus, ventricosus, vetustus, websteri.

Inopus despectus.

Inostemma areolata, atinas, bosci, boter, braesia, europus, favo, hispo, lycon, mecrida, melicerta, menippus, ocelea, quinda, scrutator.

Inostemmus festus.

Intricaria bajocensis, reticulata, straminea.

Inuus aretoides, aureus, cynomolgus, ecaudatus, erythraeus, muus, nemestrinus, niger, pithecius, radiatus, rhesus, silenus, silvanus, sinicus, speciosus.

Inversaria ramosa.

- Io** fusiformis, spinosa, tenebrosa.

- Ismene** albistria, clematella, curvella, helios, mendicella, ocella, oedipoda, ossea, pelusia, pruniella, semifusca, semipurpurella, semitestacella, tetrapodella.
- Ismenia** pectunculus.
- Isosarca** alpina, bajocensis, costata, decussata, globulosa, obesa, speciosa, stotteri, subspirata, supracretacea, texata, transversa.
- Isobates** semisulcatus.
- Isocardia** abrupta, angulata, antiqua, arietina, astartiformis, ataxensis, axiniformis, bajocensis, bicarinata, blumi, brevis, buchi, burdigalensis, campaniensis, carantonensis, carinata, cingulata, concentrica, cor, corculum, cordata, cordiformis, corniani, cornuta, corrugata, costulata, crassa, crassicornis, cretacea, cryptoceras, deperdita, dicerata, dorsata, elea, elegans, elongata, exaltata, excentrica, extensa, fraterna, galiciana, gibbosa, globosa, goldfussiana, granulo-rugosa, harpa, hemicardium, hibernica, humboldti, incerta, inflata, inversa, lamarcki, lamellosa, laticostata, leporina, lineata, longirostris, lunulata, mandelslohi, markoei, minima, minuta, modiolus, molkiana, molkianoides, multicostrata, neocomiensis, nitida, nucleus, nuculaeformis, obliqua, oblonga, obovata, orbicularis, orbignyana, ornata, orthocera, ovata, parisiensis, paritschi, parvula, pictaviensis, plana, plicata, praelonga, pumila, pygmaea, pyrenaica, renauxiana, reticulata, rhomboidalis, rimosa, roncana, rostrata, rotundata, rupellensis, semiglabra, semipunctata, semiradiata, semisulcata, similis, striata, subcarinata, subconcentrica, sublunata, subquadrata, subrimosa, subsinuata, subspirata, substriata, sulcata, tanaïs, tener, tenuistriata, tetragona, texata, transversa, triangularis, trigona, truncata, tumida, turgida, unioniformis, valencienni, ventricosa, vetusta, villersensis, vulgaris, wurtembergensis.
- Isocardium** bucardites, corculum, dubium, sulcatum.
- Isocephalus** boga, breviceps, cirrhosus, curmuca, dero, dussumieri, falcata, hamiltoni, mrigala, pausio, plumbea, reba, rubriplanis.
- Isocerus** brunneus, ferrugineus, purpurascens.
- Isocondylus** elongatus.
- Isocrinites** brevidactylus, longidactylus, pendulus, quinquangularis.
- Isocrinus** andreae.
- Isotomesa** emarginata.
- Isocyrtus** collaris, laetus.
- Isodera** villosa.
- Isodermus** planus.
- Isodon** (Col.) australasiae, curtus, laevigatus, laticollis.
- Isodon** (M.) pilorides.
- Isodora** brochi.
- Isodus** leptognathus, sulcatus.
- Isogenus** bicaudata, clio, drymo, frontalis, infuscatus, ligea, microcephalus, nubecula.
- Isognoma** lignea, perna, rigida.
- Isognomon** brevirostre.
- Isognomostoma** personatum.
- Isolus** pilosus.
- Isomalus** apicipennis, bicolor, complanatus, humilis, interruptus, testaceus.
- Isomerinthus** albolineatus, dives, gibbus, granosus, irroratus, opulentus, scabratus, waltoni.
- Isomys** testicularis.
- Isonotus** castaneus.
- Isonychus** albofasciatus, arbusticola, catharinae, cervinus, cinereus, concolor, crinitus, denudatus, elegans, fasciolatus, fulvescens, fuscescens, fuscipennis, gracilipes, griseus, lineola, lituratus, marmoratus, murinus, obsoletus, ochraceus, ovinus, paganus, pavoni, phlaeopterus, soricinus, squamifer, sulphureus, suturalis, unicolor, varians, villosus, vittiger.
- Isoodon** musei.
- Isoples** alecto, eson, neoptolemus, theylia.
- Isopleurus** hyperboreus, mac leayi, nitidus, septentrionalis, terrestris.
- Isopteron** australe, opatroides.
- Isora** anceps.

Isorhipis lepaigei.

Isorhynchus pudicus.

Isosceles demissa, macilenta, seminigra.

Isosoma (Col.) elateroide.

Isosoma (Hym.) angustatum, angustipenne, atrum, attenuatum, breve, brevicolle, brevicorne, brevipenne, breviventre, cornutum, crassicorne, depressum, dissimile, egesta, elongatum, flavicollis, fulvicollis, fumipenne, hordei, hyalipenne, laothoe, lineare, longicorne, longulum, maderae, minor, nepe, olbus, oritias, petiolata, pusillum, ravola, simile, tenuicorne, vacillans, verticillata, volux.

Isotelus athenis, angustifrons, arcuatus, canalis, crassicauda, cyclops, dilatatus, expansus, extenuatus, gigas, intermedius, laeviceps, lichtensteini, megalops, megistos, ovatus, palpebrosus, planus, powisi, rectifrons, stegops, weissii.

Isotrix bistriata, crassicauda, pachyura, pagurus.

Isotoma annulata, arborea, bifasciata, caerulea, chlorata, cinerea, cursitans, cylindrica, desmaresti, ebriosa, emarginatocollis, foenestrarum, fulvo-maculata, fusca, fusiformis, gervaisi, glacialis, nitida, nivalis, pulex, riparia, rubricauda, spilosoma, stagnorum, tigrina, trifasciata, viatica, villosa, violacea, virescens, viridis.

Ispida bicincta, gigantea, rudis.

Ispidula ispidula.

Issoria antelia, egipta, lathonia.

Issus albiger, algericus, analis, apterus, bicornis, bifasciatus, biforis, bonneti, carinatus, cinereus, coccinelloides, coleopratus, compressus, conspurcatus, coriaceus, cristatus, difformis, dilatatus, discolor, dissimilis, dufouri, ellipticus, flavescens, gibbosus, grylloides, herbaceus, immaculatus, lauri, liliimacula, longipennis, muscarius, nasutus, niger, nodipennis, pectinipennis, pedestris, praeustus, prasinus, punctulatus, rubro-costatus, sanguinipes, servillei, simplex, smyrnensis, spinosus, tendinosus, tomentosus, undatus.

Isticus polyspondylus.

Istieus gracilis, grandis, macrocephalus, microcephalus.

Istiophora flavescens.

Istiophorus (M.) cirrhosus, flavescens, soricinus.

Istiophorus (P.) gladiifer.

Istiurus amboinensis, cochinchinensis, lesueurii, physignathus, pustulatus.

Isturgia conspicua.

Isurus macrurus, oxyrinchus, spallanzani.

Itame vincularia, wauaria.

Itamus (Col.) castaneus.

Itamus (Dipt.) cyanurus.

Itea crassicornis, laevis, mengei, nana, riparia, rosea, vivida.

Iteaphila macquarti, nitidula.

Ithaginis cruentatus, cruentus, gardneri, lunulatus, madagascariensis, northiae.

Ithobalus belus, crassus, erymanthus, hyperion, lycidas, numitor, polydamas, protodamas, xenodamas.

Ithomia abrota, acacallis, acte, aegimia, agna, agnodia, agnosia, alissa, andronisca, anyta, aricia, astraia, atia, atilla, barsene, battis, calchinia, charillo, chloris, cisseis, clanis, clio, clusia, coenina, coeno, comnena, cymo, cymothoe, daeta*, dercetis, diaphana, doto, drymo, epimethes, erinna, eso, eurimedia, euritea, falcidia, flora, hersilia, hippodamia, hyalina, hymenaea, ildica, illice, indola, iphianessa, laphria, laranda, leprieuri, lethaea, melissa, melphis, mylitta, myrse, neis, neobula, neronia, nesis, neso, ninonia, nise, nydia, obscurata, ocalea, olympusa, pania, peroe, phemonoe, pheronis, plancina, polydora, sao, selene, sena, telesto, theodora, tiphysa, tissa, vipsania.

Ithone fusca.

Ithycerus curculionoides.

Ithyporus albescens, albosignum, capensis, cerapterus, fasciatus, inquinatus, labrami, madagascariensis, odiosus, senegalensis.

Ithysia pravaria, zonaria.

Itieria cabaneti.

Itomia lignaris.

- Itonia** lignaris.
Itrium sociale.
Ituna ilione, lamyra, phenarete.
Itys torquatus.
Iulus ascensionis, caudimacula, gibbifrons, rosea, trimaculata, vanikorensis. *Vide et* **Julis**.
Iulus affinis, albo-lineatus, americanus, annulatus, antipodarum, beauvoisi, berardi, bmarginatus, bioculatus, bipulvillatus, botta, boveanus, bungi, canadensis, caudatus, celebensis, chilensis, corallinus, corticalis, curvicaudatus, decaisneus, distinctus, doryanus, erythropareius, eydoux, fragariarum, fusco-unilineatus, gracilipes, granulatus, gaudichaudi, haitensis, kochi, lapidarius, leprieuri, leucopus, lucifugus, maculatus, madagascariensis, malabaricus, meridionalis, microsticticus, muscorum, newporti, nigerrimus, nigrolabratus, obtusus, olivaceus, oporothecarum, palmiger, parvipis, philippensis, pilipes, pilosus, plicatus, pulvillatus, punctilabrum, quadricollis, roseus, rubripes, ruficollis, sandvicensis, sayi, seychellarum, simillimus, spinicaudus, stigmatosus, striolatus, sublaevis, sumatrensis, trimarginatus, unciger, vermiformis, verreauxi, vittatus. *Vide et* **Julis**.
Ixa cylindricus, inermis, megaspis, tuberculata.
Ixalus aurifasciatus, concolor, probaton.
Ixias aenippe, anexibia, bebyce, mariane, pyrene.
Ixobrychus minutus, stellaris.
Ixocincla olivacea, virescens.
Ixodes aegyptius, americanus, annulatus, arenicola, aureolatus, auricularis, aurifer, australasiae, autumnalis, bibroni, bimaculatus, bipunctatus, brunneus, cajennensis, camelinus, canisuga, caspius, cinctus, cinereolus, columbae, coxalis, crenatus, crenulatus, dugesi, elegans, elephantinus, erinacei, erraticus, exilipes, fabricii, flavidus, flavo-maculatus, fluvipes, forskaeli, frontalis, fuscipes, fusco-lineatus, fuscus, gervaisi, gracilentus, hexagonus, hippopotamensis, hispanus, histrio, holsatus, humanus, hydrosauri, iguanae, indus, lacertae, lagotis, leachi, lineatus, linnaei, lipsiensis, lividus, luteus, marginalis, marginatus, marmoratus, megathyreus, mellinus, molestus, nigua, obliquus, obscurus, ophiophilus, orbiculatus, ornithorhynchi, pallens, pallipes, paripictus, pilosus, plumbeus, poortinani, pulchellus, punctulatus, pygmaeus, reticulatus, rhinocerinus, rhinocerotis, ricinus, rufipes, rufus, sanguineus, sanguisugus, savignyi, scapularis, sciuri, sexpunctatus, sulcatus, sylvaticus, thoracicus, trabeatus, transversalis, trilineatus, tristis, tristriatus, undatus, variabilis, variegatus, vegetans, vespertilioes, vibrans, viperarum, vulgaris, walckenaeri.
Ixodia cyaniventris.
Ixops nipalensis.
Ixos analis, atriceps, aurigaster, azureus, bimaculatus, brunneus, cafer, capensis, chalccephalus, dispar, emeria, erythrotis, familiaris, finlaysoni, fisquetii, flavescens, flavicollis, flavirictus, gularis, haemorrhous, inornatus, jocosus, leucogenys, leucogrammicus, leucopygius, leucotis, levallanti, melanocephalus, metallicus, monticola, nigricans, nigripileus, obscurus, orientalis, phaeocephalus, phoenicopterus, plebejus, plumigerus, plumosus, pseudocafer, psidii, pusillus, pygaeus, sinensis, squamatus, tympanistrigus, virescens.
Ixulus flavicollis.
Ixus xanthopygos.
Iynx aequatorialis. *Vide et* **Jynx et Yunx**.

- Jacamaralcyon** brasiliensis, lugubris, tridactyla.
Jacamaralcyonides leucotis.
Jacamerops boersii, grandis, isidori.
Jacana brasiliensis, chirurgus, nigra, variabilis, viridis.
Jacare fissipes, sclerops.
Jacaretinga moschifer, punctulatus.
Jacchus argentatus, auritus, bicolor, chrysomelas, chrysopygus, grandis, humeralifer,

labiatus, leoninus, leucocephalus, leucomerus, melanurus, midas, oedipus, penicillatus, rosalia, rufimanus, rufiventer, tamarin, ursulus, vulgaris. *Vide et Iacchus.*

Jaculus labradorius.

Jaera (Cr.) baltica, curvicornis, gigantea, kroyeri, longicornis, nivalis, trilobita. *Vide et Iaera.*

Jaera (Lep.) afra, crithea, opis.

Jaeridina nordmanni.

Jalla bidens, custos, dumosa, herrichi.

Jalmenus evagoras, venulius.

Jalodis clouei, fascicularis, hirsuta, hirta, variolaris.

Jamaicia anomalum.

Jamides bochus, ethemon, evippus.

Jaminia alba, annae, bidentata, denticulata, edentula, exigua, granum, heptodonta, heterostropha, hyalina, insculpta, interstincta, longiuscula, marginata, marionae, multidentata, muscorum, niso, oblonga, obtusa, plicata, plicatula, producta, pullus, quinquedens, quinquelamellata, scalaris, secale, seminuda, septemdentata, sulculata, tridens, trimillata, unidentata.

Janassa angulata, arcuatus, dietea, humboldti.

Janeia biarmica, phillipsiana, primaeva.

Janella bitentaculatus, terebellata.

Janerea fimbriata.

Janessa thoracica.

Jania adhaerens, antiqua, bacillaria, caespitosa, compressa, continua, corniculata, crassa, gibbosa, lesueurii, micrarthrodia, pedunculata, pumila, pygmaea, rubens, sagittata, verrucosa.

Janira (Acal.) cucumis, elliptica, hexagona, nordmanni, octoptera, periculosa, quoyi.

Janira (L.) aequicostata, alata, albensis, alpina, atava, carantonensis, cometa, craticula, decemcostata, dentata, deshayesiana, digitalis, dilatata, dufrenoyi, duteplei, fleuriausiana, geinitzi, hispanica, intermedia, laevigata, longicauda, maculosa, makovii, maxima, mortoni, neocomiensis, notabilis, phaseola, podolica, poulsoni, quadri-costata, quinquecostata, royeriana, sexangularis, simbirskensis, striato-costata, substriato-costata, truellei.

Janthina alba, bicolor, bifida, communis, exigua, fragilis, glabrata, globosa, helicoides, incisa, issedon, lutea, ovoidea, patula, penicephala, prolongata, rosea, turrita. *Vide et Ianthina.*

Janus (Ar.) gibberosus, melanocephalus, spinolae.

Janus (Hym.) connectens, femoratus.

Jasia athama, australis.

Jasoniades alexanor, machaon, turnus, xuthus.

Jaspidia celsia, spoliaticula.

Jassa falcata, pelagica. *Vide et Iassa.*

Jassus abdominalis, acutus, albiger, alni, argentatus, assimilis, atomarius, attenuatus, aureolus, brevis, cephalotes, cercus, clitellaria, conspersus, corixoides, cornutus, costatus, crenatus, croceus, crucisignatus, distigma, fenestratus, flavicollis, flavovarius, frenatus, fruticola, fumipennis, fuscinervis, gramineus, gyllenhalii, histrionicus, immitis, impurus, inimicus, interstitialis, intricatus, irroratus, knoblocki, lanio, leucogaster, lituratus, nassatus, nigrutilus, novellus, obliquus, obsoletus, ocellatus, octopunctatus, olitarius, paradoxus, pectoralis, perlatus, pinetellus, populi, prasinus, procerus, proteus, puerpera, puncticeps, puncticollis, punctifrons, quadripunctatus, quadrum, reticulatus, rivularis, rostratus, rubi, sanctus, scurra, scutellatus, seminudus, serratae, sexnotatus, sexpunctatus, signatus, simplex, striatus, strigatus, striolata, subbifasciatus, subfasciatus, subrusticus, tenuis, testudinarius, tiliac, tremulae, trifasciatus, varipennis, varius, venosus, verticis, virescens, vittatus. *Vide et Iassus.*

Jaxea nocturna.

Jeffreysia diaphana, globularis, opalina.

Jerea arborescens, caespitosa, desnoyersi, elongata, excavata, gregaria, pastinaca, tuberosa. *Vide et Ierea.*

Kirbya (Dipt.) hiemalis, vernalis.
Kirbya (Hym.) chrysura, tricincta.
Kitta albirostris, buccoides, holosericea, ornatus, speciosus, thalassina, venatorius, virescens.
Kittacincla macrourus, melanoleucia.
Kleidocerys capitatus, caricus, centralis, communis, costalis, crassicornis, magnicornis, pubescens, resedae.
Kleidotoma psiloides, pubescens.
Klepsitromis melolonthae. *Vide et Clepsitromis*.
Kleptes legumen. *Vide et Cleptes*.
Klytia leachi, mandelslohi, ventrosa. *Vide et Clytia*.
Knipolegus comatus, cyaneirostris, lophotes.
Koala subiens.
Kobus adansoni, defassa, ellipsiprymnus, leche, senegalensis.
Kogia breviceps.
Koleoceras balli, pseudo-regularis, pseudo-speciosum.
Kölga curvirostris, dubia, gibba, laevirostris, quadridens, quindens, septidens, tridens.
Kollaria insignis.
Kolpoda abrupta, aculeata, adaucta, adunca, albida, amorpha, anserina, auriculata, avicularis, bibullata, bifalcata, bilabiata, bipunctata, bivalvis, bombina, calcarata, cigneae, colymbus, constricta, convoluta, cornigera, cosmopolita, cosmopolitana, crenulata, cultrata, cuspidata, dilatata, divaricata, dolabriformis, dupla, duplella, echinata, erosa, exasperata, fasciata, fasciolaris, ficoidea, fimbriata, flammea, gigas, hirudinacea, hirundinoides, incisa, lacrimiformis, lenter, limacina, lobulosa, lunaris, matronalis, monoculus, obtusangula, ocellata, ornata, paonia, passerina, planairiformis, polygona, pullastrum, pyramidalis, rectangula, repanda, ringens, saccata, scutiformis, serrata, serratula, solea, spinifex, subcaudata, substrata, succisa, tabellaris, ternata, torquilla, trapetioides, triangulata, trigona, truncata, variegata, versuta, virescens, zigaena. *Vide et Colpoda*.
Kolus sing sing.
Kondyliostoma lagenula, limacina, patens.
Koninckia fragilis.
Kowala albella, lauta, thoracata.
Krohnus filamentosus.
Krusensterna verrucosa.
Krynckia melanocephala.
Ktinorhynchus strepera.
Kunzea nigriceps.

Kurtus cornutus, macrolepidotus, palpebratus. *Vide et Curtus.*

Kurukuru clementinae, dupetit-thouarsi, mercieri, nebouxii, purpuratus, roseicapilla, samoensis, superbus, swainsoni, taitensis, temminckii, xanthogaster.

Kyphosus bigibbus.

Kytorhynchus biguttatus, bistriatus, coryphae, flavicornis, karasini, serraticornis.

L— mauricus.

Labasiella varipennis.

Labeo (Hym.) excisus, vitripennis.

Labeo (P.) cephalus, coubie, curchius, cursa, cursis, cyprinus, diplostomus, dussumieri, elegans, erythropterus, esopus, falcifer, fimbriatus, forskali, gibbosus, hispidus, horie, malacostomus, microlepidotus, niloticus, oblongus, reynauldi, ricnorhynchus, rostratus, rufescens, senegalensis, sparoides, varicorhinus, vulgaris.

Labeobarbus kotschyi, leptocheilus, macrolepis, nedgia, progeneius. *Vide et Labiobarbus.*

Labia minor.

Labicerus elegans.

Labidigaster agilis, algira, forcipata.

Labidognatha caeruleans.

Labidomera germari, suturella.

Labidomyia albipuncta, bipunctata, brunipes, costalis, nemorosa.

Labidostomus armeniaca, axillaris, bipunctata, distinguenda, ghiliani, guerini, hebraea, hispanica, hordei, humeralis, limbata, lineola, longimana, lucida, pilicollis, quadrimaculata, rufo, sibirica, steveni, sulcicollis, taxicornis, tibialis, tridentata, uralensis.

Labidostomus asiaticus, brevipennis, centromaculata, croceopennis, decipiens, meridionalis, notata, pallidipennis, propinqua.

Labidura gigantea.

Labidus burchelli, curtisi, erichsoni, esenbecki, fargreavii, fonscolombeii, gravenhorsti, guerini, halidayi, hartigi, hopei, illigeri, jurinei, kirbyi, klugi, latreillei, orbignyi, pertyi, romandi, servillei, spinolae, swainsoni, thwaitesi, walkeri, westwoodi.

Labigastera agilis, forcipata.

Labio cingulatus, fagaroides, striolatus, tessellatus, zelandicus.

Labiobarbus lipocheilus. *Vide et Labeobarbus.*

Labium bicolor.

Labocephalus striata.

Labops diopsis.

Labrax agrammus, albidus, decagrammus, hexagrammus, japonicus, lagocephalus, lepidotus, lineatus, lupus, major, monopterygius, mucronatus, multilineatus, nigricans, notatus, octogrammus, pallidus, rufus, schizurus, stelleri, superciliosus, waigensis.

Labrisomus capillatus, delalandei, elegans, geniguttatus, gobio, latipennis, linearis, littoreus, microcirrhus, pectinifer, peruvianus, variolosus.

Labristoma flavivertex, olivacea.

Labroides asellinus*.

Labrophagus esocinus.

Labrus aeruginosus, agassizii, agon, albidus, albovittatus, americanus, aneus, angulosus, annulatus, aper, appendix, arago, argentatus, argus, aristatus, armatus, ascanii, auratus, aureo-maculatus, auritus, axillaris, baccatus, badis, balanus, ballan, ballanus, bergsnylstrus, bicolor, bidens, bilunulatus, bobba, bohar, botryocosmos, brunellus, burgall, caeruleo-vittatus, caeruleus, caliopthalmus, calopthalmus*, calops, capistratus, cappa, capulensis, carinatus, carolinus, carutta, catenula, celidotus, centiquadrus, cettii, chlorocephalus, chloropthalmus, chogset, chrysostoma, ciavolus, ciliaris, cinerascens, cinereus, cingulum, comber, commersoni, cook, coquus, cornubiensis, coromandelicus, crassus, cruentatus, cupreus, cyanodus, cyanopterus, dario, diana, digramma, doliatus, donovani, donzelli, dubius, enneacanthus, eothinus, ephippium, favrectus, festivus, filamentosus, flavescens, foetidus, formosus, fraenatus, fucicola, fucii, fuliginosus, fulvo-maculatus, furca, furcatus, fusco-vittatus, fuscus, fusiformis, garitius, gayi, gibbosus, gibbus, giofredi, goldsinny, gouani, gouldi,

grunniens, guttulatus, gymnocephalus, hassek, hebraicus, hiatula, hirsutus, hololepidotus, hortulanus, iagonensis, ibbetsoni, imperialis, inscriptus, irideus, jaculatrix, javensis, kasmira, keslik, laevis, lappanoides, lappanus, laticlavus, latovittatus, leo, leopardus, lepisma, leucosticticus, leucurus, limbatus, lineolatus, longirostris, luculentus, lutiolus, luvarus, macrocephalus, macrodontus, macrogaster, macropterus, macrostomus, macrourus, malapteronotus, margaritiferus, maridola, marmoratus, melanotus, mendosella, mesothorax, microdon, miles, mixtys, mola, nebulosus, nellus, nereus, neustriae, niger, nigrescens, norvegicus, notatus, nubilus, obliquus, octovittatus, oculus, ornatus, ossiphagus, palladus, pallidus, papagalus, parvulus, pentacanthus, perditio, perspicillatus, pictus, pincus, pinnulatus, pirca, pitimoides, pittima, plumieri, poecilopleura, polychrous, polyodon, porcus, prasostictes, psittaculus, punctulatus, purpurescens, pusillus, quadrilineatus, quadrimaculatus, quindecimaculeatus, rectifrons, reticulatus, rubiginosus, rubrolineatus, rufus, salmoides, sanguineus, saxatilis, saxorum, scrofa, semidiscus, semi-lunatus, semiruber, serpentinus, sexfasciatus, simus, snillus, sparoides, sperga, spilonotus, spinosus, squeteague, syriacus, taeniourus, tancoides, tautoga, tetracanthus, tetraodon, tetricus, thunberg, tufus, trilobatus, undulatus, unicolor, valenciennesi, variabilis, verdolidus, verdutius, verres, versicolor, violaceus, virescens, xantherythrus, zittoides, zittus.

Labyrinthodon bucklandi, fuerstenbergianus, jaegeri, lanarius, leptognathus, ocella, pachygnathus, salamandroides, scutulatus, ventricosus.

Labyrinthus otis, plicatus, quadridentata.

Laccifer lacca.

Laccobius globosus, marshami, minutus, punctatus, sinuatus.

Laccometopus clavicornis, kollari.

Laccophilus adpersus, aquaticus, bicolor, biguttatus, cayennensis, fasciatus, flexuosus, hyalinus, interruptus, irroratus, lineatus, maculosus, marmoreus, mexicanus, minutus, orientalis, ornatus, parvulus, pictus, poecilus, posticus, proximus, punctatus, quadrignatus, quadrivittatus, rivulosus, rufus, testaceus, undatus, variegatus, yvietae.
Vide et Laccophilus.

Laccoproctus acalloides.

Lacerta acanthura, acrolampra, alligator, anguiformis, aquatica, arenaria, arenicola, argulus, argus, arguta, aspera, atra, bilineata, bistriata, boskiana, brevicula, brongniardi, caeruleocephala, capensis, carinata, caudivolvula, chalybea, chersonensis, chloronota, chrysogaster, coccinea, crassa, crateronyx, crocea, crocea*, crotaphomelas, ctenodactylus, cuvieri, cyanea, cyanescens, decemlineatus, depressa, dubia, dugesi, dumeril, dumetorum, duplisquamata, edwardsiana, elegans, erythrocephala, erythrura, europaea, exigua, fallax, fasciata, fitzingeri, furcifrons, fusca, galeata, galloti, gecko, gracilis, grammica, grandoculis, graphica, guerini, guttata, guttulata, gutturosa, hieroglyphica, hispaniolica, histriata, hyacinthina, ignea, interrupto-lineata, intertexta, jamaicensis, knoxi, laevis, lalandei, lateralis, laurenti, lepida, lepidopus, leschenaulti, leucosticta, litterata, livida, lobata, longicauda, longicaudata, lophura, lugubris, lumbricoides, maculata, maderensis, margaritata, melanura, merremia, microcephala, mollis, monodactyla, montana, moreotica, muricata, neptunia, nigra, nigro-punctata, nitida, occidua, occitanica, ocellata, oedya, olivacea, olivieri, oxycephala, pardalis, peloponnesiaca, perfoliata, perspicillata, pipiens, poeciloderma, prasina, praticola, ptychodes, puccina, pulcherrima, pustulata, pyrrhogaster, quinque-lineata, quinquevittata, rhombica, riparia, rubra, rubropunctata, rudis, rufescens, sanguinolenta, savignyi, saxicola, schneideriana, schreibersiana, scutellata, senegalensis, sepium, sericea, serpa, sicula, smaragdina, sparmanniana, squatida, stirpium, strigata, subviolacea, sylvicola, tachydromoides, taeniata, taeniolata, taurica, tessellata, teyou, tiliguerta, tiligugu, tjitja, tristata, undata, undulata, unicolor, variabilis, variegata, viridis, viridissima, viridula, vittata, vivipara, whitii.

Lachenus impunctipennis.

Lachesilla fatidicum.

Lachesis (Ar.) perversa.

Lachesis (G.) mamillata, minima.

Lachesis (R.) aleto, ater, crotalinus, mutus, picta, rhombeata, taeniata.

Lachnabothra hopei.

- Lachnaea** cylindrica, hirta, longipes, macrodactyla, nigrofasciata, palmata, paradoxa, tripunctata, tristigina, variolosa, vicina.
- Lachnaeus** crinitus.
- Lachnaia** longipes, puncticollis, tripunctata, variolosa.
- Lachneis** catax.
- Lachnia** parallela, subcineta.
- Lachnogyia** squamosus.
- Lachnolaimus** aigula, caninus, cyanodus, dux, gouldi, psittacus, suillus.
- Lachnophorus** bipunctatus, elegantulus, impressus, laevicollis, maculatus, niger, notatus, pallidipennis, pallipes, pilosus, pubescens, rugosus, signatipennis.
- Lachnoptera** iole.
- Lachnopus** acuticollis, aereus, albomaculatus, argus, atramentarius, aulicus, campechianus, canescens, chirographus, chlorophanes, distortus, granicollis, hispidus, inconditus, memnonius, mercator, mundus, planifrons, plebejus, pollinarius, proteus, pruinosis, splendidus, spretus, villosipes.
- Lachnosterna** anxius, consimilis, fervida, futilis, quercina.
- Lachnus** agilis, fagi, fasciatus, grossus, juglandicola, juglandis, juniperi, lapidarius, padi, pineti, pini, pinicola, platani, pruinosis, punctatus, quercus, roboris.
- Laciniaria** plicata.
- Lacinularia** melicerta, socialis.
- Lacma** peruana, vicinana.
- Lacon** atomarius, brachychaetus, caliginosus, costipennis, crenatus, crenicollis, cribratum, fasciatus, humilis, irroratus, kokeili, murinus, mustelius, muticus, ovalis, primordialis, terrenus, turbidus, varius, vestitus.
- Lacophilus** bifasciatus, undulatus, variegatus. *Vide et Laccophilus.*
- Lacrimatoria** acus, delphiniformis, epistomium, olor, sagitta, stricta.
- Lacrymaria** gutta, olor, proteus, rugosa, tornatilis, versatilis, viridis.
- Lactarius** delicatulus.
- Lactica** melaleuca.
- Lactistes** rastellus, vericulatus.
- Lactophrys** bicaudalis, camelinus, cornutus, de rhami, quadricornis, trigonus, yalei.
- Lacuna** albella, antiqua, bifasciata, canalis, carinata, cornea, crassior, fasciata, frigida, glacialis, gracilior, labiosa, montacuti, montagui, neritoidea, pallidula, pertusa, puteolus, quadrifasciatus, reticulata, retusa, solidula, striata, sulcata, vineta, vinctus.
- Ladas** keraudreni, planorboides.
- Ladoria** disarmata.
- Ladridius** quadricollis.
- Laelaps** agilis, festinus, hilaris, miris, pachypus.
- Laelia** coenosa.
- Laemactus** auratus, endlicheri, fitzingeri, gracilis, longipes, obtusirostris, undulatus, vautieri, wiegmanni.
- Laemargus** muricatus.
- Laemobothrium** giganteum, hasticeps, lathrobium, laticolle, nigrum.
- Laemophlaeus** dufouri, elongatus, nigricollis, ruipes.
- Laemophloeus** alternans, ater, biguttatus, bimaculatus, brevis, castaneus, clematidis, corticinus, duplicatus, fasciatus, ferrugineus, fractipennis, infuscatus, longicornis, monilis, muticus, pusillus, stepensis, suberis, testaceus.
- Laemosaccus** affaber, australis, chevrolati, germari, plagiatus, pustulatus, quadripustulatus, rufus, silbermanni, subsignatus, truncidatus.
- Laena** caucasica, ferruginea, pimelia, pubella, pulchella, viennensis.
- Laertias** brutus, cressus, cyrus, diomedes, oxynius, pammon, philenor, regulus, ulysses.
- Laesthia** vespertina.
- Laestris** fuscipes, opacus, rugosus.
- Laevicardium** aeolicum, citrinum, europaeum, flavum, oblongum.
- Laeviraja** bramante, macrorhynchus.
- Laevirajia** oxyrhynchus.
- Lafaea** cornuta.
- Lafresnaya** gayi, lafreslayi, saulae.

Lafystius sturionis.

Lagana decagona, lagana, laganum, occitana, orbicularis, oxalis, rogersi, tenuissima.

Laganum attenuatum, bifore, cingulatum, colombianum, *decagonum, depressum, ellipticum, elongatum, latissimum, lesuenri, marginale, marmonti, orbiculare, peroni, petalodes, reflexum, rostratum, stellatum, tenuissimum, tonganense.

Lagarus vernalis.

Lagena (G.) chlorostoma, crassa.

Lagena (Rh.) gracilis, laevis, oblongum, striata, substriata.

Lagenella acuminata, euchlora, repens.

Lagenoderus gnomoides.

Lagenorhynchus acutus, albirostris, asia, clanculus, electra, leucopleurus, thicola.

Lagenula (Inf.) euchlora.

Lagenula (Rh.) flosculosa, globosa, laevis, marginata, perlucida, reticulata, squamosa, striata, urna.

Lagidium cuvieri, pallipes, peruanum, peruvianum.

Lagoa opercularis.

Lagocephalus pennanti, stellatus.

Lagocheirus araneiformis, incei.

Lagochile aenea, collaris, trigona.

Lagochirus plantaris.

Lagomys alpinus, ater, hodgsoni, meyeri, nipalensis, oeningensis, ogotona, princeps, pusillus, roylei, rufescens, sardus, spelaesus.

Lagonebrax javanicus.

Lagopezus tenuicornis.

Lagopus albus, alpina, americanus, brachydactylus, britannicus, cinereus, ferrugineus, islandorum, lapponicus, leucurus, montanus, muctus, persicus, rupestris, saliceti, scoticus, subalpina, vulgaris.

Lagorchestes albigilis, conspicillatus, fasciatus, hirsutus, leporoides.

Lagostoma nodosa, perlata.

Lagostomus (Col.) australis, caescicollis, circulus, costatus, granulatus, ineptus, paganus, subfasciatus, tuberculatus, turritus, vermiculatus.

Lagostomus (M.) aureus, brasiliensis, chinchilla, laniger, trichodactylus, viscacha.

Lagothrix canus, cappar, castelnaui, humboldti, infumatus, olivacea.

Lagotis cuvieri, pallipes.

Lagria adusta, aenea, aerea, affinis, albobirta, anisocera, aureopilosa, basalis, bicolor, brevicollis, brunnea, caeruleus, castanea, clavifera, coerulescens, confusa, exsculpta, fabricii, flexuosa, fulvicollis, fusca, geniculata, grandis, hirta, ionoptera, laeta, lata, longicollis, lurida, melanaria, metallonotus, micans, moesta, morbillosa, nepalensis, nigricollis, nitidula, pallida, pallipes, praeusta, profunda, pruinosa, pulchella, punctatissima, quadrimaculata, resplendens, revestita, rufescens, ruficollis, rugosa, spadicea, striatella, testacea, tristis, unisocera, variabilis, variolosa, vestita, violacea, virescens, viridi-aenea, viridis.

Laguncula elongata, pulchella.

Lagurus migratorius.

Lagynodes rufus.

Lahria erythrura.

Laimodon bidentatus, bifrenatus, dubius, hirsutus, leucomelas, nigrothorax, salti, undatus, unidentatus, vieilloti.

Lairus affinis, marmoratus, sulcatus.

Laiscopus alpinus.

Laius balteatus, bifasciatus, biguttulus, cyaneus, pictus, quadriguttatus, trisignatus, venustus.

Lalage aurea, humeralis, karu, leucomela, orientalis, sykesi, timorensis.

Lalagetes setosus, squamulatus, subfasciatus, variegatus.

Lalaria longitarsis.

Lama arucana, chili-huque, glama, guanaco, huanacus, moromoro, paco, peruviana, vicugna, vulgaris. *Vide et Llama.*

Lambidium oniscus.

Lambis fasciata, flammea, marginata, miniata, obliquata, reticulata.

Lambrus anguilifrons, carenatus, contrarius, crenatus, diacantha, echinatus, harpax, hoplonotus, icaunensis, lamellifrons, lamelliger, longimanus, lupoides, massena, mediterraneus, montgrandis, pelagicus, pisoides, prensor, rapax, segnis, serratus, turiger, validus.

Lamellaria (G.) adansonii, neritoidea, perspicua, plumula, tentaculata.

Lamellaria (Nud.) glacialis, membranacea, nigra, ophione, prodita.

Lamellina aequiangulata, imperfecta, linearis, monadea, quadrata.

Lamellopore infundibularia.

Lamia (Col.) acromii, aculeicornis, aculifera, acuminata, adspersa, adusta, aedilis, aegrota, aenea, aequilatera, aestuans, afer, affinis, ahenea, albella, albisparsa, alborrorata, alpha, alternans, amabilis, amoena, angolator, annularis, annulata, annulicornis, antennator, araneiformis, arator, armata, armiger, aspersa, asphodeli, aulica, auriga, aurocincta, axillaris, balteata, bella, belli, betulina, bicolor, bicuspis, biidator, bilineata, bimaculata, bipunctata, bispinator, blanda, bohemanni, boisduvali, boariensis, brevis, brunicornis, caeruleus, calanus, caliginosa, cana, cancriformis, canteriator, capra, carceli, carcharias, cardui, chrysopras, cincta, clavator, comes, compressa, concreta, conspersa, crassa, crassipes, cretifera, critica, crocata, croceocincta, crux, crux nigra, crypta, curculionoides, cylindrator, cylindricus, dasycerus, daviesi, decipiens, decorator, dentator, dentifer, dentipes, depressa, diana, dorsalis, downesi, ducalis, elliptica, elongata, eremita, erythrocephala, faceta, farinosa, fasciata, fascicularis, fasciolata, fennica, ferreti, ferruginea, ferruginescens, fistulator, flava, flavimacula, flavipes, flavocincta, fragifera, fronticornis, fusca, fusco-nebulosa, galloprovincialis, gentilis, germari, gibba, gibbera, gladiator, glaucina, globifera, globosa, graciosa, granata, granulosa, gratiosa, grisea, guttata, hector, hercules, heteromorpha, hexacantha, hirsuta, holotephra, horridula, horsfieldi, humilis, imperialis, impluviata, inaequalis, inermis, intonsa, irrorata, jaculus, jaspidea, jucunda, lactator, lateritia, lepidula, linearis, lineator, lineola, lineolata, liturata, longicollis, longimanus, longipes, lucia, ludicra, lunigera, lunulata, lynx, M nigrum, macula, maculata, maculator, maculatrix, maculifera, maculosa, mammillata, manuelata, marinorata, miliaris, miniata, minuta, mirabilis, modesta, moesta, morbillosa, mucida, multiguttata, mutilata, mutilaria, myops, niveisparsa, nodifera, nodosa, nodulosa, norrisi, nubifer, nubila, obesa, obliqua, obliquator, obscurator, obsoleta, obsoletoguttata, ocellator, oculata, omoplate, orbignyi, ornata, ovalis, palini, papulosa, pardalis, parryi, pelio, penicillata, penicillicornis, perlata, perpulchra, petechizans, petrorhiza, picta, pictor, pigra, pilifera, pini, pistator, plumicornis, populnea, porphyrea, porus, praetoria, praeusta, princeps, principalis, pruniosa, pubescens, pulchella, pulchellator, pulchra, pulverulens, pulverulenta, pumilio, punctata, punctatissima, punctulatus, pustulata, quadri-punctata, quadritaeniator, quattuor-decimguttata, quinque-tuberculata, radiata, roylei, rubra, rugicollis, rugosula, rusticator, saga, sannaio, saperdoides, scabra, scabricollis, scalaris, scapularis, scitula, scopifera, scorioides, scrupulosa, scutigera, seniculus, serraticornis, serricornis, setosa, sexguttata, sexnotata, sordida, sparsa, speculifera, spinipes, spinolae, spinosa, stellulata, sterilis, stigma, striata, subfasciata, suturalis, swainsoni, taciturna, targavei, testacea, thomae, tigris, transversa, tredecim-punctata, tremula, tricineta, tridentata, trifasciata, trinodosa, troglodyta, tuberosa, tumulosa, ulcerosa, umbrina, umbrosa, unifasciata, urussovii, V-notata, varicolor, varipes, venditaria, verecunda, vermicularia, vermicularis, verrucata, verrucosa, vicina, vidua, villosa, violacea, virescens, vittigera, vomica, wallichi.

Lamia (P.) cornubicus.

Lamictis carcharias.

Laminopora contorta.

Lamna ackneri, acuminata, acutissima, appendiculata, bronni, carbonaria, caudata, cavdens, complanata, compressa, contortidens, cornubicus, crassidens, cuspidata, denticulata, depressa, dubia, duplex, elegans, elongata, gracilis, hastalis, haueri, hirta, hopei, longidens, mantelli, minima, minuta, monensis, obliqua, pennanti, phillipsi, plana, plicata, plicatella, pygmaea, quadrans, reversa, raphiodon, serrata, sigmoides, speciosa, subulata, terrae-novae, texana, trigonodus, undulata, verticalis, xiphodon.

- Lamnodus** biporcatus, hastatus, panderi, porcatus, sulcatus.
Lampanyctus bonaparti, crocodilus, resplendens.
Lampas (G.) lians.
Lampas (Rh.) trithemus.
Lampetia connectaria, croceago, defoliaria, polymita, progemmaria, prosapiaria.
Lampetis cacica, chalybeata, chloris, coerulea, curvipes, famula, fastigiata, galamensis, monilis, perspicillaris.
Lampetra branchialis, fluviatilis, marina, planeri.
Lampides aratus, archius, baalliston, balliston, boeticus, celerio, helius, nemerius, plato, zethus.
Lampornis amethystinus, antoniae, aurescens, bufoni, caeruleigaster, cyanopectus, dominicus, elegans, floresi, mango, margaritaceus, niger, pella, prevosti, rhami, viridis.
Lampra fimbria.
Lampretatus cyrnus, habis, salemus, trypherus.
Lampria aenea, auribarbis, claripennis, clavipes, mexicana.
Lamprias chlorocephalus, cyanocephalus, nigritarsis, ruficeps, rufipes.
Lamprius aeneus, aurea, cultridens, cupraea, fulgida, humboldti, latreillei, purpurascens, pygmaea, rutilans, splendens, viridis.
Lamprina micardi, nigricollis, subrugosa, sumptuosa, tasmaniae.
Lamprinus laserrei.
Lampris lauta, luna.
Lamprocera blattina, flavofasciata, flavoquadrata, grandis.
Lamprocolius aeneus, auratus, chloropterus, chrysogaster, chrysotis, corusca, cyanogenys, cyanotis, ignita, melanogaster, morio, nabouroup, nitens, phaenicopterus, ptilo-rhynchus, splendens, superba.
Lamprodoma olivella, volutella.
Lamprodon primigenius.
Lamprogaster bicolor, flavipennis, maculipennis.
Lamproglena hemprichi, lichiae, pulchella.
Lamprolepis smaragdina.
Lamprometopia cafra.
Lampromiya funebris.
Lampromorpha amethystina, chalcoepepla.
Lampromya funebris.
Lampromyia canariensis, pallida.
Lampronessa galericulata, sponsa.
Lampronia ammanella, amoenella, atrella, auropurpurella, bistrigella, calthella, capitella, concinnella, corticella, flavipunctella, formosella, helwigella, luzella, marginepunctella, melanella, praelatella, purpurella, rubroaurella, rupella, sanguinella, semipurpurella, seppella, subpurpurella.
Lampronota accusator, agnata, bellator, catenator, crenicornis, cylindrator, denticornis, fracticornis, hortorum, impressor, maculator, murina, pectoralis, perspicillator, segmentator, setosus, suborbitalis, sulphurifera, verberans.
Lampropeltis getulus.
Lamprophis aurora, rufulus.
Lampropholis guichenoti.
Lamprophonus musicus, pilaris, turdus, variegatus, viscivorus.
Lampropsar dives, guianensis.
Lamproptera capra, capreolus, muscaria, pygmaea, scutellata, vacca.
Lampropteryx badiata, piceata, suffumata.
Lamproptila grandis.
Lampropus latitarsis.
Lampros ambiguellus, bracteella, capitella, christiannella, chrysozonella, denisella, faganella, lobella, majorella, monastricella, similella, sulphurella, turbatella, westermannella.
Lamproscapha elongata, ensiformis, pygmaea, siliquosum.
Lamprosema lunulalis.
Lamprosia amatrix, electa, pacta.

Lamprosilus genus.

Lamprosoma aeneum, aenigmaticum, amabile, amethystinum, annectens, approximans, auriceps, aurichalceum, auricollis, aurosum, azureum, benignum, bicolor, cavifrons, cavisternum, cerasinus, chameleon, chrysocyaneum, chrysogaster, chrysomelinum, chrysonotum, chrysopygium, chrysosoma, coeruleum, concolor, consimile, contractum, cornuta, coruscum, cupricolle, cyanea, cyaneum, dichroum, dives, dorsale, elegans, festivum, fornicatum, fulgida, gemmans, gibbosum, gratum, ignicaudatum, ignita, ignitum, insigne, janthinum, laticolle, lepidum, longifrons, marginicollis, nitidum, oblongum, obscurum, olivaceum, omoplatum, opaca, opulentum, pediculus, phyllochroum, prasinum, pretiosum, punctatum, puncticeps, purpurea, refulgens, satrapa, sciintillans, semiopaeum, seraphicum, smaragdinum, speciosum, sphaeroideum, splendidum, sulcifrons, testudineum, triste, tristis, trochilus, unicolor, uva, vagans, viride, viridipes, vittigerum.

Lamprosticta culta.

Lamprostoma maculata.

Lamprotatus acarnas, acilius, aeneus, alcander, amulius, annularis, antennatus, apicalis, babilus, bato, bisaltes, bolgius, brevis, brises, caecina, chrysochlorus, ciron, cleta, contiguus, convexus, coretas, costalis, cyaneus, damia, diaeus, dioxippe, dissimilis, elegans, eleus, femoratus, filicornis, fuscipennis, fuscipes, gibbus, hages, hecataeus, helenos, hortensis, icelos, labaris, lesches, leucon, linearis, lucidus, maculatus, maculipes, mallius, mazoeus, methymna, myeon, naevolus, natta, nelo, nicon, nitidipes, notatus, numitus, obscuripennis, obscurus, oebares, orobia, ovatus, philochortoides, phlegias, phylander, pycnos, rubrius, rufipes, scaea, scoticus, semiauratus, splendens, tarsalis, theria, tristis, tubero, tumidus, venilia, viridis, zipoetes.

Lamprotes (A.) albocristata, loricatus, rubrigularis, ruficollis, viridis.

Lamprotes (Hym.) tauriformis.

Lamprothornis corvina.

Lamprotila platyrhyncha.

Lamprotornis aenea, affinis, albirostris, albiventris, atrata, atrifusca, auratus, bicolor, brevirostris, burchelli, cantor, capensis, chalcura, chalybaeus, chloropterus, chrysogaster, chrysonotis, chrysotis, columbianus, columbinus, corvina, cyanotis, dominicanus, erythrophris, fulvipennis, fusca, gularis, ignita, leucogaster, longicauda, lucida, mauritanicus, mauritanus, melanogaster, metallicus, morio, nigroviridis, nitens, obscurus, ornatus, philippensis, phoenicopterus, porphyroplevion, ptilonorhynchus, purpuroptera, pyrrhogenys, rabouroup, rufiventris, spilopterus, splendens, splendidus, spreo, superbus, tenuirostris, vigorsi, violaceus, zelandicus.

Lampselis rosea.

Lampsilis argyratus, cardium, diploderma, fasciola, fulgens, ovata, rosea, vittata.

Lampugus fasciculatus, immaculatus, neapolitanus, pelagicus, punctulatus, sicularis.

Lampusia pilaris, tritonis.

Lampyrus affinis, albicollis, albi-latera, albomaculata, albo-marginata, analis, angulata, angustilunba, antica, antiqua, apicalis, appendiculata, arcuata, atrata, auricollis, australis, autumnalis, bardeli, bicolor, bifaria, biguttata, bimaculata, bisignata, borealis, bremeri, caiennensis, capicola, carnea, centrata, cincta, circumdata, compressicornis, concolor, concoloripennis, conspicua, corrusca, cossypina, crassicornis, cribricollis, decemmaculata, decipiens, denticornis, deplanata, depressicornis, diaphana, dilatata, dimidiata, discicollis, discoidea, dorsalis, erythrocephala, exigua, farinesi, femorata, fenestralis, fenestrata, festiva, filicornis, flavescens, flavicollis, flavifrons, fuliginosus, fulvipes, fusca, fuscata, fuscipennis, germanica, germari, gracilis, guttata, guttula, guyanensis, haemorrhoidalis, hectica, helvola, hyalinomarginata, ictérica, illigeri, illyrica, inaequalis, incerta, infuscata, intermedia, klugi, lacordairei, laeta, lamellicornis, laportei, lateralis, laticornis, latreillei, leucopsis, libani, limbata, linearis, lineata, lineola, lucifera, luna, lunifera, lunulata, lusitanica, maculosa, madagascariensis, marginella, marginipennis, maxima, mehadiensis, mingrelica, minor, mixta, moesta, morio, mulsanti, nepalensis, nigra, nigricans, oblonga, obsoleta, orientalis, ornatocollis, ovalis, ovata, pallidicollis, pallipes, panzeri, parallela, parva, pedemontana, peducida, pennata, pennicornis, phyllocera, plagiata, planicornis, plumbicornis, praesta, pubescens, pyrostigma, quadratifera, quadrimaculata, quadrisignata,

reticulata, rosata, roseicollis, roseimaculata, ruficollis, rufomarginatus, savignyi, scintillans, scutellaris, sencki, serraticornis, sibirica, signata, signaticollis, signifera, sobrina, splendidissima, striata, submarginata, surinamensis, suturalis, sylvatica, telephorina, terminata, thoracica, tibialis, trilineata, tristis, truncata, uliginosa, variegata, vicina, virescens, vitellinothorax, vittigera, zenkeri.

Lamyris *bohemani*.

Laodicea crucigera.

Laogona hypopocla, hypselis.

Laomedea antipathes, articulata, calycina, dichotoma, elegans, flemingi, fruticosa, gelatinosa, geniculata, gracilis, lairii, muricata, obliqua, reptans, sauvagei, simplex, spinosa, variabilis, viridis.

Laomedea astacina.

Laothoe ocellata, populi, quercus, tiliae.

Laparocerus canariensis, morio, piceus.

Laparus alticeps.

Lapenus curtus, hardwicki, toreatus.

Laphria aetatus, aenea, affinis, albibarbis, albimaculata, albitibialis, albolineata, alcanor, alebas, alternans, amandus, amarus, analis, annulata, antaea, anthrax, antica, appendiculata, atra, aureus, auribarbis, aurifacies, aurifera, barbipes, bengalensis, bicolor, bomboides, breoni, brevicornis, brevipennis, caeruleus, cajennensis, calida, chrysocephala, chrysocosmia, cincta, clausicella, clavipes, coarctata, colorata, contusa, crassipes, croceiventris, cyanea, cyaneogaster, dasypus, dentipes, dichroa, dimidiata, dioctraeformis, dives, dizonias, dorei, dorsata, dymes, echemon, ephippium, erythrogaster, erythropygga, erythrura, fasciata, fascipennis, femorata, fimbriata, flavescens, flavicincta, flavicollis, flavifacies, flavifemorata, flavipennis, flavipes, flavipila, flavus, fulgida, fulva, fulvicauda, fulvipes, fulvithorax, geniculata, georgina, gibbosus, gigas, gilvus, glabrata, glauca, gracilis, haemorrhoea, heteronevra, hirsuta, hirticornis, hirtipes, ignea, javana, labiata, lanigera, lapponica, lasipes, lateralis, laterispunctata, leptogastra, leucocephala, leucoprocta, leucospila, limbata, lineata, longicornis, luctuosa, lutea, luteipennis, macilentia, macquarti, macrocera, maculipennis, marginatus, maroccana, megacera, melanogaster, melanopogon, melanoptera, melanura, mellipes, mesoxantha, minuta, nigra, nigripennis, nitidula, niveifacies, notabilis, olbus, ornata, ornatipennis, pallidipennis, pedemontana, pilipes, pleuritica, podagrica, postica, posticata, praepotens, proboscidea, puella, pusilla, pygmaea, pyrrhacra, pyrrhopygga, reinwardti, reticulata, robusta, rubriventris, rubibarbis, rubicauda, runfemorata, rufipennis, rufipes, sacrator, sadales, saffrana, saniosa, scapularis, scoriacea, scutellaris, scutellata, senomera, senopeza, sericea, serripes, shalumus, spectabilis, spinipes, spindens, splendidissima, submetallica, taphius, tectamus, telecles, tergissae, testacea, thoracica, tibialis, tidius, tolmides, tridentata, ufens, unguata, varipes, venezuelensis, viduata, violaceus, vulcanus, vulpina, xanthocnema, xanthoptera, xanthopus, xylocopiformis.

Laphystia sabulicola.

Laplisis viridis.

Laplysia alba, camelus, punctata, viridis.

Lappida proboscidea.

Lapton femoralis.

Lara jurinei.

Larella piscis.

Larentia absinthiata, abstersata, albulata, alienata, angulata, annexata, annosata, aquata, arceuthata, austerata, bilineata, bipunctaria, bistrigaria, boreata, brulleata, brullei, brumata, caesiaria, caesiata, caliginata, calligraphata, capitaria, capitata, cassiata, cauchiata, centaureata, certata, cervinaria, chenopodiata, collata, confixaria, consignata, conterminata, coraciata, corollaria, coronata, culmaria, cuprearia, cupreata, cyanata, cydoniata, debiliata, debilitata, decolorata, decrepitata, denotata, denticulata, dilutata, dimidiata, disparata, dissimilata, dubitata, elutata, ericeata, exigua, exoletata, exsoletaria, ferraria, ferrata, filigrammaria, flavicinctata, frustata, gemmaria, gemmata, graphata, hospitata, immundata, impluviata, improbata, impurata, incultaria, innotata, intricata, intrusata, inturbata, irriguata, isogramminata, lariciata, ligaminata, liguata, ligustigata, linariata, lucrata, melanoparia, mensuraria, minutata, modificata, mollicularia, molluginata, montivagata, multistrigaria, muscosata, nanata, nebulata, neglectata, obsoletata, oxycedrata, oxydata, paludata, phoeniceata, pimpinellata, plagiata, podevinaria, polata, polygrammata, prolongata, psittacata, pusillata, pygmaea, quaerendaria, radiata, rectangularata, residuata, rhamnata, riguata, rupestraria, rupestrata, sabaudiata, satyrata, scabiosata, scopariata, scrip-

turata, sericeata, sertata, simpliciata, sinuosaria, sobrinata, sororiata, sparsata, spissilineata, strobilata, subaerata, subnotata, subumbrata, succenturiata, sylvata, taeniolata, tamarisciata, tarsata, temperata, tempestivata, tenuiata, thulearia, tophaceata, tritomata, undata, undulata, valerianata, venosata, vetulata, viretata, viridulata, vitalbata.

Largus bicolor, cinctus, fasciatus, globicolis, humilis, incisus, interruptus, lineola, lunulatus, marginellus, pallidicornis, sexguttatus.

Laria abietis, anastomosis, anchoreta, antiqua, auriflua, begga, caenosa, candida, chrysorrhoea, coryli, curtula, detrita, dispar, fascelina, gonostigma, monacha, morio, nivosa, pubibunda, pudibunda, reclusa, rossi, rubea, selenitica, Vnigrum.

Laricobius erichsoni.

Larimus auritus, breviceps.

Larinus acanthiae, adpersus, afer, albarius, albicans, bardes, bardus, bicolor, biguttatus, bombycinus, brevis, buccinator, byrrhinus, canescens, cardopatii, cardui, carinifer, carinirostris, carlinae, carthami, centaurii, chevrolati, cirsii, conspersus, costirostris, criniger, crinitus, cuniculus, cynarae, ferrugatus, flavescens, foveicollis, genei, glabrirostris, glaucus, granicollis, gravidus, grisescens, guttifer, hedenborgi, hercyniae, hirtus, hispanicus, hololeucus, idoneus, immitis, impressus, inquinatus, jaceae, lineatocollis, lineatus, longirostris, lynx, maculatus, maculosus, maurus, minutus, modestus, morio, mucoreus, murinus, nanus, nubeculosus, obtusus, ocelliger, ochreatus, odontalgicus, onopordinis, ornatus, pilosus, planus, pollinis, reconditus, roreus, ruber, rugicollis, rusticus, scabirostris, scolyi, scrobicollis, senilis, sibiricus, sculus, squallidus, stellaris, sturnus, subcostatus, sulphuratus, sulphurifer, syriacus, teretirostris, timidus, tubicen, turbinatus, unguatus, ursus, villosus, virescens, vitellinus, vulpes.

Lariosaurus balsami.

Larissa clarkiata, imbutata, petrata, plagiata, praeformata.

Laroides americanus, argentaceus, argentatoides, argentatus, argenteus, canescens, canus, fuscus, glaucoides, harengorum, leucopterus, major, melanotos, minor, procellosus, rissa, subleucopterus, tridactylus.

Laropsis anglica.

Larra abdominalis, analis, anathema, annulata, antennata, apicalis, argentata, atrata, aurata, aurulenta, bicolor, bizonata, citrina, continua, dichroa, dimidiata, distinguenda, dubia, etrusca, extrema, flavipes, fuliginosa, gibba, infusata, jokischiana, lepida, lunata, micans, nigra, pectinipes, pensylvanica, picta, pinguis, pompiliformis, pubescens, quinquedactylus, ruficornis, sexmaculata, sphegiformis, spinosa, spuria, succinea, syriaca, tarsata, tenella, tricolor, tumida, unicolor, zonata.

Lars empedoclaris, leilaria, sambucaria.

Larunda orithearia.

Larus albipennis, albus, antipodus, arcticus, argentatoides, argentatus, argenteus, audouini, bathyrhynchus, belcheri, bonapartei, brachyrhynchus, brachytarsus, bridgesi, brunnicephalus, cachinnans, canescens, canus*, capistratus, ceti, cinereus, cirrocephalus, crassirostris, cuspidatus, cyanorhynchus, delawarensis, dominicanus, eburneus*, erythrorhynchus, fabricii, flavipes, forcipata, franklini, frontalis, fuliginosus, furcatus, gavia, gelastes, genei, georgii, glacialis, glaucodes, glaucopterus, glaucus*, griseus, haematorhynchus, hutchinsi, hybernus, islandicus, jacksoni, jamesoni, leucereutes, leucomelas, leucophthalmus, leucopterus, maculipennis, maximus, medius, melanocephalus, melanopterus, melanorhynchus, melanurus, minor, minutus, modestus, molke, muelleri, nigrotis, novae hollandiae, occidentalis, orbigny, pacificus, parasiticus, patraudei, pipixcan, plumbiceps, poiocephalus, priscus, procellosus, pulocondar, rossi, sabini, scopulinus, scoresbyi, serranus, subcaeruleus, subleucopterus, tenuirostris, tetradactylus, toliapicus, torquatus, zonorhynchus.

Larva histrio.

Larvaria encrinula, fragilis, limbata, reticulata.

Larvivora brunnea, cruralis, cyana, cyanea, homochroa.

Laryngodus australiae.

Lasaea rubra.

Lasia (Col.) auricoma, colchica, corvina, flavitarsis, globosa, impunctata, meridionalis, ocelligera, rufipes.

Lasia (Dipt.) amethystina, splendens.

Lasiocala fulvoshirta.

Lasiocampa bibula, callunae, capensis, castrensis, catax, crataegi, dumeti, franconica, geographica, guerini, hirta, ilicifolia, lanestris, lobulina, medicaginis, neustria, otus, pini, potatoria, proboscidea, pruni, quercifolium, quercus, rimicola, roboris, rubi, strigina, taraxaci, trifolii.

Lasiocera gracilis, nitidula, orientalis.

Lasiodactylus brunneus.

Lasiodera erichsoni, kirbyi.

Lasioderma squalidum, testacea.

Lasiodora klugi, reichei, rosea, ursina, versicolor.

Lasioglossum tricingulum.

Lasiomumata achanta, aegeria, banksia, clymenus, dejanira, maera, megaera, merope, roxalana, singa, tigelius, xiphia.

Lasionota quadrifasciata.

Lasiopa peleteria.

Lasiopalpus flavitarsis.

Lasiops apicalis, cunctans, hirticeps, occulta.

Lasiopsis hemingi.

Lasioptera albipennis, annulata, argentata, argyrosticta, auricincta, berberina, cerris, chrysanthemi, eryngii, fusca, juniperina, minuta, obfuscata, obtusa, parva, picta, pulchra, pusilla, stygia, ventralis.

Lasiopteryx confinis, elegantissima, inops, obfuscata, pusilla.

Lasiophticus gemellarii, pyrastris.

Lasiopus cilipes.

Lasiopyga ecaudata, ecaudis, naemeus, nemaea, nictitans, sifac.

Lasiostola heterogena, hirta, minima, pubescens, variolaris.

Lasiostoma fulvum.

Lasiurus pruinosus, rufus.

Lasius (Col.) nobilis.

Lasius (Hym.) acervorum, aestivalis, albipennis, albiventris, antennata, bicincta, bimaculata, cingulata, circulata, conicus, cornuta, difformis, dumetorum, emarginatus, exulans, furcata, hirtipes, hispanica, lanipes, leporina, longicornis, melanocephalus, niger, pallipes, parietina, quadrimaculata, rotundata, saccharivorus, salviae, sericeus, versicolor, virescens, vulpina.

Lasmigona ponderosa, rugosa, sulcata, viridis.

Lasmocyathus aranea.

Lasmogyra occitanica.

Lasmonos fragilis.

Lasmophyllia corniculum, dichotoma, dilatata, dispar, moreausiaca, pateriforme, patula, radisensis, retorta, subcylindrica, subexcavata, subtruncata, truncata, venustum.

Lasmosmilia bajocina, gracilis, icaunensis, lobata, meandra.

Laspeyresia cinerana, corollana, stagnana.

Laspeyria flexula.

Lastena digonota, lata, obiensis.

Latagia aesculi.

Latax lataxina, marina, mollis, stelleri.

Latepora alba.

Lateranus burmeisteri.

Latericia globosa.

Lates calcarifer, gibbus, gracilis, heptadactylus, macrurus, niloticus, nobilis, notaeus, partschi, pusillus.

Lathamus azureus, concinnus, discolor, pusillus, rubrifrons, sparmani.

Lathiphronus cupreus.

Lathira granulata, puschi.

Lathria cinerea.

Lathridius alternans, anatolicus, angulatus, anthracinus, assimilis, attenuatus, brasiliensis, carbonarius, carinulatus, caucasicus, clathratus, collaris, concinnus, consimilis,

dubius, foveola, gemellatus, incisus, lapponum, limbatus, mannerheimi, monticola, nanulus, nervosus, parallelocollis, parallelus, planatus, reflexus, ruficollis, rugipeanis, scitus, tantillus, testaceus, umbilicatus, variolosus, volgensis.

Lathrimaeum atrocephalum, canaliculatum, fusculum, luteum, melanocephalum, sordidum.

Lathrinus rostratus.

Lathrium convexicolle.

Lathrobium agile, albipes, alpestre, anale, angustatum, angusticolle, armatum, atriceps, axillare, badius, bicolor, biguttulum, bi-punctatum, brevicorne, brunneum, brunripes, caffer, castaneipenne, castaneum, cephalotes, chalcodactylus, cinctum, collare, concolor, confluentum, cordatum*, crassicorne, dentatum, depressum, dilutum, dimidiatum, discolor, dividiuum, dubium, elongatum, erythrocephalum, ferrugineum, filiforme, flavipes, foveulum, fracticorne, fulvipenne, fulvipes, fulvum, furcaticornis, fuscum, gracile, gravenhorsti, haemorrhoidalis, humile, impressum, labile, laevigatum, laevipenne, latipes, lineare, longicorne, longiusculum, longulum, lusitanicum, mega-cephalum, millepunctatum, minimum, minutum, multipunctatum, multipunctum, nanum, nigriceps, nigrum, nitidum, obsoletum, ochraceum, pallidum, pallipes, pectorale, picipes, pilosum, planicolle, politum, pumilum, punctato-striatum, punctatum, puncticolle, punctulatum, pusillum, quadratum, rufescens, ruficorne, rufipenne, rufipes, rufiventre, scabricolle, scutellare, senegalense, simile, similipenne, spadiceum, sphaericolle, stilicium, striatopunctatum, striatum, terminatum, testaceum, zimmermanni.

Lathropus sepicola.

Latia neritoides.

Latiaxis mawae.

Latilus argentatus, chrysops, doliatus, jugularis, princeps.

Latipalpis acuminata, alni, aurolimbata, berolinensis, bioculata, conspersa, corrosa, cuprea, decaisnei, festiva, galamensis, lugubris, oenea, pisana, praestans, rutilans.

Latirus aurantiacum, lineatus, nussatellus, polygonus.

Latona albifrons.

Latomeandra alpina, ataceana, corrugata, edwardsi, plicata, ramosa, raulini, soem-merringi.

Latometus pubescens.

Latomus lapicida.

Latona (Col.) erichsoni, spinolae.

Latona (Cr.) setifera.

Latona (L.) variabilis.

Latonix seyfriedi.

Latreillia (Cr.) elegans, phalangium, valida.

Latreillia (Dipt.) albifrons, bifasciata, campestris, cuculliae, hirta, lalandei, minor, silvestris, testacea, unifasciata.

Latridium impressum, minutum, transversa.

Latridius acuminatus, angustatus, angusticollis, antipodum, bidentatus, brunneus, carinatus, coarctatus, constrictus, cordaticollis, cordicollis, costatus, crassicornis, crenulatus, dentatus, denticulatus, depressus, distinguendus, elegans, elevatus, elongatus, exaratus, exilis, fenestralis, fenestratus, ferrugatus, ferrugineus, filiformis, filum, formicetorum, foveolatus, fulvipes, fulvus, fungorum, fuscus, genei, gibbosus, gracilis, hirsutus, hirtus, hispidus, impressus, lapponicus, lardarius, liliputanus, linearis, longicollis, maculatus, marginatus, molitor, musaeorum, niger, nigriceps, nigricollis, nodifer, oblongus, octodentatus, ovatus, parallelus, parvulus, protensicollis, pubescens, pulcarius, pusillus, quadridentatus, rubricollis, ruficollis, rufipennis, rufipes, rufulus, rufus, rugicollis, scabratus, sculpilis, sculptipennis, serratus, similatus, sinuaticollis, solidus, sulcatus, testaceus, transversalis, transversus, unicolor.

Latris ciliaris, hecateia.

Latroductus argus, conglobatus, dotatus, erebus, formidabilis, geometricus, hispidus, intersector, limacida, lugubris, mactans, malmignatus, martius, oculus, ornatus, perfidus, quadri-guttatus, quinqueguttatus, schuchi, spinipes, thoracicus, tredecim-guttatus, variegatus, variolus, venator.

Latrunculus areolatus, spiratum.

Latusastrea alveolaris.

Laudakia tuberculata.

Laurida conirostra, foetans, intermedia, mediterranea, microps, minuta, semifasciata, truncata, tumbel.

Lauromus araneiformis.

Lauxania aenea, aeneiventris, albipes, albitarsis, amica, apicalis, argyrostoma, atrimana, atripes, basalis, bivittata, costalis, cyanea, cylindricornis, diadema, elevata, elisae, fasciata, flavida, flavipennis, geniculata, glabrata, grisea, holosericea, humilis, hyalinata, imbuta, longipennis, lupulina, lutea, metallica, nigripes, pallida, peregrina, pulehra, rufitarsis, rufiventris, scutellata, seticornis, simplex, sordida, vitripennis.

Laverna atra, marmorea, ochraceella, sarcitella.

Lavia frons.

Lavigno calcinella, lactea, reaumuriana.

Lavignon clementina, coarctata, lamellosa, lineata, mactroides, minuta, mutica, ovalis, papyracea, phaseolina, rhomboidalis, rugosa, subphaseolina, subrugosa, tethys, trigonularis.

Lavignonus calcinella, cottardi, papyraceus.

Laxenecera albibarbis, andrenoides, flavibarbis.

Leachia (Ceph.) cyclura.

Leachia (Cr.) gracilis, intermedia, nodosa.

Leachia (G.) cornea, lineolata, viridescens, vitrea.

Leachium orbicula.

Leacia lacertosa.

Leadbeatera grata, jacula, leadbeateri.

Leander erraticus.

Lebasiella erythrodera.

Lebia abdominalis, acutipennis, aenea, aerata, affinis, africana, agilis, albomarginata, amethystina, analis, anchora, angulata, angulicollis, angusticollis, annulata, annulipennis, anthophora, apicalis, arctica, atra, atricapillus, atriventris, axillaris, azurea, bembidioides, benefica, bicincta, bicolor, bifasciata, biguttata, bimaculata, binotata, bipunctata, bitaeniata, bonellii, borea, boysi, brachinoides, brunnea, C-nigrum, caeca, caerulea, callida, calycophora, capensis, centromaculata, chalybaeipennis, chlorocephala, chloptera, chlorotica, circularis, circumdata, civica, coerulea, collaris, concinna, conjungens, contaminata, corticalis, crux-minor, cumanensis, cupripennis, cuvieri, cyanea, cyanipennis, cyanocephalus, cyanoptera, cyathigera, delineatus, divisa, dorsalis, dubia, duodecimpunctata, duponti, elegans, elevata, elongatula, erythrocephala, fallax, fasciata, fasciolata, femoralis, fenestrata, festiva, flavofasciata, flavomaculata, flavovittata, formosa, foveola, fulvicollis, furcata, fuscata, gaudichaudi, geniculata, gerardi, glabrata, grammica, granaria, grandis, guttata, haemorrhoidalis, hastata, heydeni, homagrica, humeralis, hyperici, immaculata, irrita, janthinipennis, lebasi, lepida, leprieuri, linearis, lineata, lineola, longipennis, longithorax, luctuosa, lunaris, lutos, macularia, maculicollis, maculicornis, madagascariensis, marginalis, marginata, marginella, marginellus, marginicollis, melanura, miliaris, minarum, modesta, moesta, mollis, morio, myops, nigricollis, nigripennis, nigripes, nigri-ventris, nigro-fasciata, nigrolineata, nigro-maculata, nitidula, nobilis, notata, numidica, obliquata, obscura, guttata, olivacea, ornata, paekiloptera, pallipes, pendula, picta, plagiata, plana, platicollis, pleuritica, posticalis, pubipennis, puella, pulchella, pumila, punctata, punctatella, punctato-striata, pusilla, pyrenaea, quadricolor, quadriguttata, quadrillum, quadrimaculatus, quadrinotata, quadrisignata, quadrivittata, reflexicollis, rollei, rotundipennis, rufa, rufescens, ruficollis, rufipes, rufula, rugiceps, rugifrons, russata, sanguinea, scapularis, scutellata, sellata, semi-vittata, sexmaculata, sigma, signatipennis, sinuata, smaragdinipennis, smaragdula, solea, splendidula, striata, striaticollis, succincta, sulcata, tau, testacea, thoracica, triangularis, triangulifera, tricolor, trimaculata, trisignata, trivittata, truncatellus, tuberculata, turcica, undulata, unifasciata, variegata, velox, venustiola, venustula, viard, viridana, viridipennis, viridis, vittata, vitticollis, vittigera, X-nigrum, zonata.

Lebias cephalotes, crassicaudus, crystallodon, cypris, dispar, ellipsoidea, fasciata, gobio,

ibera, lineata, lineo-punctata, mento, meyeri, multidentata, ovinus, perpusillus, punctatus, rhomboidalis, sarda, sophiae.

Lebiasina bimaculata.

Lebina resinata.

Lebioderus goryi.

Lecane luna, orbis.

Lecania femorata, rufipes.

Lecanium aceris, bromeliae, complanatum, coryli, epidendri, hesperidum, ilicis, juglandis, persicae, quercus, tiliae.

Lecanoccephalus spinulosus.

Lecanomerus insidiosus.

Lechriops sciurus.

Lecquereusia jurassica.

Lecythia brevicornis.

Leda acasta, acuminata, aequilateralis, ahrendi, alpina, amygdaloides, anglica, angulata, astieriana, axiniformis, bellatula, birostrata, brevirostris, caudata, chuva, clavata, claviformis, complanata, compressa, corallina, cpris, crenifera, cuneata, cyrena, delila, delta, deshayesiana, diana, doris, eastnor, eburnea, elenensis, elliptica, elongata, excavata, faba, falcata, fornicata, forsteri, galatea, galeottiana, gibbosa, gigantea, glaberrima, grandaeva, gregaria, inflata, inflexa, intermedia, iugleri, kasanensis, krachtae, lacryma, latissima, leiorrhynchus, levata, lineata, lineolata, lingulata, longirostris, macilenta, mariae, minuta, montagui, moreana, mucronata, murichisoni, nuda, ornata, ovata, ovum, palmae, parunculus, parvula, patagonica, plana, porrecta, praeacuta, producta, pulchella, pulchra, pygmaea, rosalia, rostralis, rostrata, rowyana, scapha, securiformis, semilunaris, serrulata, siliqua, solea, solenoides, sowerbyana, speciosa, speluncaria, stilla, striata, striatula, subaequalis, subcarinata, subclaviformis, sublineata, subovalis, subrecurva, sulcellata, tellinula, tenuirostris, undata, undulata, verneuili, vibrayeana, vintii, zelima, zietenii.

Ledra aurita, gladiata, marmorata, mutica, perdita, planata, viridipennis.

Ledropsis cancruma.

Leggada booduga, platythrix.

Legia brandti.

Legitimus bigsbyi, fasciatus, succinctus.

Legnotus bicolor.

Legriocinclus mexicanus.

Leguminaria costata, floridana, moreana, nereis, papyracea, truncatula.

Leia (Col.) bisulcata, bivittata.

Leia (Dipt.) analis, annulata, basalis, bilunula, bimaculata, consobrina, crassicornis, crucigera, dimidiata, fasciola, fascipennis, flavicornis, humeralis, marklini, nasuta, nemoralis, nigra, nitidicollis, nubilipennis, octomaculata, picta, pubescens, pulchella, terminalis, trifasciata, trivittata, unicolor, varia, ventralis, winthemi.

Leiacanthus falcatus, opatowitzanus, tarnowitzanus.

Leichenum impictum, mucronatum, pictum, pingue, pulchellum, variegatum, verrucosum.

Leiestes montana, seminigra.

Leilus braziliensis, occidentalis, orientalis, surinamensis.

Leimacis rufula.

Leimadophis almadensis.

Leimonia (Ar.) paludicola.

Leimonia (Lep.) cespitalis, floralis, scutellalis, sordidalis.

Leimonioptra pratensis.

Leimonites temmincki.

Leiobatus aquila, britannicus, cruciatus, panduratus, sloani.

Leiobanchus modestus.

Leiobunum bicolor, ovale, roseum, rotundum, rupestre.

Leiocampa dictaeae, dictaeoides.

Leiocephalus carinatus, grayi, herminieri, macleayi, microlepis, ornatus, schreibersi.

Leiochiton arcticus, readi.

Leiocinclu plumosa.

Leistus analis, angusticollis, caeruleus, femoralis, ferrugineus, fulvibarbis, fulvus, indentatus, janus, montanus, niger, nigricans, nitidus, rhaeticus, rufescens, rufibarbis, rufipes, rufo-marginatus, spinibarbis, spinilabris, terminatus.

Leiuperus marmoratus, salarius, viridis.

Leiurus (P.) aculeatus, brachycentrus, macrophthalmus, pungitius, radiatus, russelli, spinulosus.

Leiurus (R.) ornatus.

Leiurus (Verm.) leptcephalus.

Leja angusticollis, apicalis, assimilis, bifasciata, biguttata, cayennensis, celer, chalcopetra, daurica, difformis, doris, elevata, frequens, fuscipes, guttula, laticollis, lineolata, maculata, maotica, minuta, normanna, pygmaea, semistriata, sturmi, sub-fenestrata, terminata, tristis, venustula.

Lejopyge laevigata.

Lelaps avicula, pulchricornis, sadales.

Lema abbreviata, abdominalis, abrupta, adjuncta, aenea, aeraria, albicornis, albinus, alcyonea, alpina, alternata, angelica, annulipes, antica, apicalis, apicipennis, arcuata, armata, atrata, atricornis, aulica, australis, azurea, azureipennis, bajula, basalis, basipennis, bicincta, bicolor, bicolora, bicrucata, bifida, bilineata, binotata, bipartita, biplagiata, bi-taeniata, bivittata, brunnea, brunnicollis, caerulea, caeruleipennis, calcarata, calceata, campestris, cephalotes, chalcopetra, chalybeipennis, cherubini, cincla, circulus, circumdata, coelestina, collaris, compta, concinna, confusa, conjuncta, conspicua, conspurcata, cornuta, coromandelica, coxalgica, crassicornis, crassipes, cruciata, crucigera, cruentata, cruralis, cuprea, cyanella, cyanipennis, cyanoptera, cylindrica, cylindricollis, decemmaculata, decempunctata, dejeani, dichroa, dichromocera, didyma, dodecostigma, dolosa, dorsalis, doryia, dregeri, dubia, ducalis, elaphrina, elocata, ephippium, equestris, erubescens, erythrodera, erythroptera, exanthematica, exclamationis, exsanguis, fallax, fasciata, femorata, ferrugata, festiva, flavicollis, flavipes, foraminosa, fulvicollis, fulvina, fulvula, fuscicornis, germari, gilveola, glyptodera, goryi, goudoti, gracilis, grammica, grandis, grata, haematodera, haematomelas, hamata, helvola, hexastigma, hilarii, hilaris, histrionica, hoffmanseggii, hottentota, humeralis, immaculicollis, impotens, impura, indica, infima, inquinata, insignis, intermedia, interrupta, iolofa, ioptera, janthina, javana, jocosa, jucunda, klugi, lacertina, laeta, lateritia, lepida, limbata, lineaticollis, livida, longicornis, lucublanda, macei, maculicollis, maculipes, maculiventris, malayana, mannerheimi, marginata, marginella, melanocephala, melanocera, melanogaster, melanopa, melanophthalma, melanoptera, microcephala, moritzi, munda, mystica, nigricpes, nigrita, nigritarsis, nigrovittata, nitidula, notatipes, novemmaculata, nupta, obcordata, obliquata, obscura, octomaculata, olivieri, orbigny, ornata, palpalis, papuana, paracanthesis, parcellina, peplophora, perizonata, picturata, placida, plebeja, plumbea, popularis, poeyi, polita, porosa, postica, praetextata, pubescens, pudens, pulex, punctata, punctatofasciata, pusilla, quadrata, quadricolor, quadri-maculata, quadripartita, quadripunctata, quadrisignata, quinque-maculata, quinquepunctata, risoria, robusta, ropunctata, rubida, rubricollis, rubripennis, rufa, rufo, rufipennis, rufula, rugicollis, russula, sagittifera, sanguinicollis, saphirea, scalaris, scapularis, sellata, seminigra, semipunctata, semisepta, septemmaculata, septempunctata, serena, sexnotata, sex-punctata, signaticollis, signaticornis, similis, simplex, sinuata, soror, splendidula, stenosoma, stercoraria, stolidula, strangulata, striata, suffriani, suturalis, suturata, tenella, terminalis, terminata, tetrastigma, texta, thoracica, tibialis, togata, torulosa, tricolor, trifasciata, trifurcata, tri-lineata, trivirgata, trivittata, troberti, unicincta, unipunctata, ustulata, varia, variabilis, variegata, varipes, verecunda, verticalis, vidua, violacea, violaceipennis, virgata, viridiaenea, viridis, vittata, vittigera, xanthopa.

Lembadion bullinum.

Lembodes solitarius.

Lembulus deltoideus, minutus, rossianum, rostratus, sulcatulus.

Lemidia inanis, nitens.

Lemintina cuvieri.

Lemmatophila alienella, alternella, antiquella, atomella, avellana, fagella, gelatella, hyemella, punctulella, salicella, steinkellnerella.

Lemmomys talpinus.

Lemmus albivittatus, amphibius, aquaticus, arvalis, aspalax, astrachanensis, borealis, cyanus, dasytrichus, ferrugineus, floridanus, gregalis, groenlandicus, hispidus, insularis, laniger, lenensis, medius, micruos, migratorius, norvegicus, noveboracensis, obensis, oeconomus, phryganella, pratensis, riparius, rubidus, rufocanus, rutilus, saxatilis, schermaus, sumatrensis, syriacus, talpinus, talpoides, terrestris, vittatus, xanthognathus, zibeticus, zokar.

Lemnia biplagiata, circumvelata, desolata, dissecta, fraudulenta, melanota, moesta, oculata, saucia.

Lemniscus marginatus.

Lemnisoma thyrsitoides.

Lemmus gregarius, niloticus.

Lemonia taraxaci.

Lemonias crispus, epulus, luciana, maturna, phlegia, ulphaea, zygia.

Lemphoeus ater.

Lemphus fulcratus, mancus.

Lemtopeza flavipes.

Lemur (Lep.) maura.

Lemur (M.) albifrons, albinus, anjuanensis, brissoni, bruneus, chrysampyx, collaris, commersoni, coronatus, crassicaudatus, curvirostris, diadema, flaviventer, frederici, furcifer, galago, gracilis, griseus, houssardi, lanatus, leucopsis, macao, major, medius, minor, minutus, niger, nigrifrons, ocularis, psilodactylus, pumilus, ruber, rubriventer, rufifrons, sciurus, variegatus, varius.

Lencus fuscus, glaucus, marinus.

Lenita patellaris.

Lenites faba.

Lenticula lapicida.

Lenticulina araneosa, calcar, costata, cucullatus, cultrata, diaphanea, erythraea, gualtieri, incrassata, indigena, libyca, margaritacea, nitida, orientalis, querulans, rostrata, tenerrima, trithemus.

Lenticulites antiquus, complanata, comptoni, cristatella, cristella, denarius, discorbinus, ehippium, globulatus, mammillaris, nautiloides, orbiculata, phaciticus, planulata, rotulata, scabrosus, variolaria.

Lentidium maculatum.

Lentillaria punctata.

Lentiphora flaveola.

Leo africanus, asiaticus, barbarus, gambianus, goojrattensis, melanochaitus, vulgaris.

Leocaeta alopec.

Leodice antennata, eritrocephala, fasciata, gallica, gigantea, grunwaldi, hispanica, norvegica, opalina, pinnata, punctata, sanguinea, triantennata, tubicola.

Leoides humeralis.

Leonia mammillaris.

Leonte achillaena, achilleja, aega, anaxibia, deidamia, epistrophis, hecuba, menelae, nestira, portis, telemache.

Leontopithecus ater, fuscus, marikina.

Leopardus chinensis, concolor, ellioti, griseus, himalayanus, horsfieldi, javanensis, macrotis, macrourus, marmoratus, megalotis, mitis, moormensis, neglecta, onca, panthera, pardalis, pictus, reevesi, serval, sumatranus, temminckii, tigrinoides, tigrinus, uncia, variegatus, varius, viverrinus, yagourondi.

Leopoldius diadematus, crostratus.

Lepadella emarginata, glumiformis, lamellaris, lunaris, ovalis, plicatilis, salpina, triptera.

Lepadites anatifera, anatiferaeformis, avirostris, lineatus, plicatus, radiatus, sulcatus, tintinabuliformis.

Lepadogaster adhaerens, balbis, biciliatus, bimaculatus, browni, candollei, cephalus, ciliatus, cornubiensis, defontani, dentex, desfontani, elegans, govani, jussieui, latirostris, lineatus, listellus, maculatus, minutus, mirbeli, natata, nitidus, norvegicus, nudus, ocellatus, olivaceus, piger, pinnulatus, punctatus, puniceus, rafinesquei, raninus, reticulatus, rostratus, ruber, testar, urifasciatus, ventricosus, webbianus, willdenowi, zebrinus.

Lepas aculeata, alcyonii, antiquata, aperta, bifurcata, borealis, cancellata, candidus, capa fissa, clavatus, convexula, cornucopia, cornu copiae, cornuta, coronata, costata, cuvieri, dentata, dilata, dorsalis, fascicularis, fucorum, hemisphaericus, homei, incurvata, intertexta, laevis, laeviuscula, lyoni, marmorata, membranacea, montagui, nauta, pellucens, perforata, peroni, polita, porcata, pulchra, punctata, purpurascens, pyrgoma, quinquevalvis, radiata, rhomboidalis, rugosa, scotica, serrata, signata, smythi, stellaris, striata, subdivisa, sulcata, sulcatus, tracheaeiformis, trachealis, turris, verruca, villosa, vitrea, vittata.

Lepemiurus bilineatus, fasciolatus.

Lepeophtheirus hippoglossi, nordmanni, obscurus, pectoralis, stromi, thompsoni.

Leperina squamulata.

Lepibema chrysops.

Lepidactylis dytiscus.

Lepidaster grayi.

Lepidia stellifera.

Lepidion moro, rissoi, rubescens.

Lepidiota impluviata, luctuosa, punctatissima, punctum, rugosipennis, savagei, sticticoptera, stigma.

Lepidocera birdella, chenopodiella, mediopectinella, setella, taurella.

Lepidochelys olivacea.

Lepidocyrtus aeneus, agilis, albinos, argentatus, capucinus, curvicollis, gibbulus, lignorum, parvulus, pusillus, rivularis.

Lepidodactylus lugubris.

Lepidodes chalcodi, rotundicollis.

Lepidogenys subcristatus.

Lepidoleprus australis, caelorhinus, norvegicus, trachyrincus, trachyrynchus.

Lepidonereis annulligera, caeca, clava, flava, maculata, stellifera, viridis.

Lepidonote assimilis, cirrata, impar, laevis, punctata, scabra.

Lepidonotus clavatus, rossi.

Lepidophora aegeriiformis, culciciformis.

Lepidophorus lineaticollis.

Lepidopides brevispondylus, dubius, leptospondylus.

Lepidopleura albus, carinatus, punctulatus, sulcatus.

Lepidopleurus corallinus, gayetanus.

Lepidopsyche graminella.

Lepidopteryx squamosa.

Lepidopus argenteus, argyreus, caudatus, ensiformis, gouani, leptospondylus, lusitanicus, pellucidus, peroni, sulcatus, tetrads.

Lepidorhinus squamosus.

Lepidorhynchus denticulatus.

Lepidosiren annectens, paradoxa.

Lepidosternon hemprichi, macrocephalus, phocaena, scutigerum.

Lepidosteus dentosus, fimbriatus, gracilis, grayi, osseus, semiradiatus. *Vide et Lepisosteus.*

Lepidostoma sericeum, squamulosum, villosum.

Lepidotes frondosus, gigas, ornatus.

Lepidotes acutirostris, agassizi, catalonicus, cotta, fimbriatus, fittoni, frondosus, gigas, laevis, latimanus, latissimus, lemnurus, macrochirus, mantelli, maximiliani, maximus, minor, notopterus, oblongus, ornatus, palliatus, parvulus, pectinatus, punctatus, punctulatus, pusillus, radiatus, roemerii, rugosus, semiserratus, serratulus, serrulatus, similis, speciosus, spinifer, striatus, subdenticulatus, subundatus, sulcatus, temnurus, trotti, tuberculatus, umbonatus, undatus, unguiculatus, virleti.

Lepimphis hippuroides, ruber.

Lepinotus inquilinus.

Lepipterus corvina, fetula, francisca.

Lepisacanthus japonicus.

Lepiselaga albitarsis, lepidota.

Lepisia ornatissima.

- Lepisma** aegyptiaca, alba, annulseta, audouini, aurea, bifida, brachyura, chlorosoma, ciliata, collaris, fuliginosa, gyreniformis, horrens, mauritanica, monema, myrmecophila, nicoleti, niveofasciata, parisiensis, petiti, pilifera, quadrilineata, savignyi, saxatilis, subvittata.
- Lepismina** audouini, aurea, savignyi.
- Lepisoma** cirrhosum.
- Lepisosteus** albus, bison, ferox, fittoni, gavia, nuronensis, indicus, lineatus, longirostris, osseus, oxyurus, platostomus, platyrhincus, robolo, spatula. *Vide et Lepidosteus.*

- Lepsia** tuberculosa.
- Leptacanthus** juncus, longissimus, priscus, semistriatus, serratus, tenuispinus.
- Leptacinus** angustatus, angusticollis, apicalis, basal, batychrus, brevicornis, clavicornis, debilis, filarius, fornicetorum, linearis, nothus, parumpunctatus, pubipennis, subtilis, tenellus, tenuicornis.
- Leptaena** aculeata, aculeatus, acutiradiata, alternata, alternistriata, ambigua, analoga, anomala, antiquata, aquila, arachnoidea, areostriata, arcuata, armata, asella, aurita, bechei, bifurcata, bilobata, bohemica, bouchardi, bouei, caduca, cailliaudi, calcar, calva, camerata, caperata, colombarii, comata, comiodes, complanata, concinna, consobrina, convexa, convoluta, corrugata, costata, costatula, costellata, crassistria, crenistria, cuspidata, decepta, deflecta, depressa, devonica, distorta, duplicata, dutertrei, duvali, echinata, edelburgensis, elegans, enigma, euglypha, eunoe, exclamatoria, eximia, expansa, explanata, fasciata, filitexta, filosa, fimbriata, fischeri, flemingi, fletcheri, flexistria, fragaria, fugax, funiculata, gaultieri, geometrica, gibberula, gigantea, grandis, granulosa, grayi, hardrensis, haueri, hemisphaerica, heraldica, humboldti, humerosus, imbrex, inaequistriata, inconstans, incrassata, indenta, inflexa, interrupta, interstitialis, irregularis, kellyi, laevigata, laevissima, lata, latissima, laxispina, lepis, lepisma, lewisi, lirata, lobatus, longispina, longisulcata, loveni, macroptera, maestreana, margaritacea, martini, maxima, membranacea, mesoloba, minima, miranda, moorei, mucronata, multidentata, multirugata, murchisoni, muricata, naranjoana, nebulosa, nervosa, neutra, nodulosa, oblonga, obtusa, ornata, ouralensis, ovalis, papilionacea, papyracea, patricia, pearcei, pectinacea, pectinoidea, penthica, perlata, personata, phillipsi, plana, planoconvexa, planumbona, plicata, plicatilis, plicifera, praelonga, profunda, protensa, pseudo-loricata, pugilis, punctatus,

punctulifera, pustulosa, radialis, recta, reticularis, reticulatus, rugosa, sarcinulata, scabiosa, scabricula, scotica, sedgwicki, semicircularis, semiluna, semiradiata, semi-sulcata, sericea, serrata, setosa, solitaria, sordida, sowerbyi, sp. ind., spinosa, spinulosa, squamula, stephani, strogonowi, subpecten, subplana, subtenta, sulcata, sulivani, tenera, tenuilineata, tenuis, tenuistriata, thecaria, thisbe, trama, transversa, transversalis, triangularis, tuberculata, tubulifera, tumida, variabilis, variolata, verneuili, vespertilio, vicina, volva, waltoni. *Vide et Leptoena.*

Leptaenalosia morrisiana.

Leptagona multirugata.

Leptagonia analoga, depressa, nodulosa, plicatilis, plicotus, rugosa, semivalvis, tenuistriata.

Leptaleus chaudoiri, delicatulus, klugi, rodriguei, triguttatus.

Leptalis amphione, astyocha, atthis, casta, crisia, critomedia, cydno, cyra, dilis, eumelia, eunoe, isodrita, jethys, kollari, laia, medora, melia, melite, methymna, nehemia, nemesia, orise, penthica, phronima, praxinoe, psamathe, spio, thermesia, theuchaula, theugenis, vocula.

Leptarthrus brevirostris.

Leptastrea ehrenbergiana, roissyana.

Lepterothis flavirostris.

Lepterus fetula.

Leptetrum praenubilum, quadrimacutum.

Leptia (Col.) polystigma.

Leptia (Lep.) lanceolata.

Leptidea brevipennis, minuta.

Leptinaria lacryma, shorgum, soluta, succinea, unilamellata.

Leptinotarsa conspicua, heydeni.

Leptinus caucasicus, testaceus.

Leptipalpus brasiliensis.

Leptis aequalis, affinis, albicornis, annulata, apicalis, ardea, atrata, aurata, auricollis, basilaris, bicolor, bosci, caduca, calidris, capnoptera, cinerea, cinereo-fasciata, conjungens, cylindracea, diadema, distigma, ephippium, fasciata, ferruginosa, flaveola, flavicornis, flavipes, fumipennis, funebris, fusca, fuscipennis, geminata, gracilis, griseola, helvola, hyaloptera, ibis, immaculata, lineola, luteola, maculata, mystacea, nebulosa, nigra, notata, nubecula, obscura, oculata, ornata, par, plumbea, propinqua, proxima, punctata, punctipennis, quadrata, reflexa, rufithorax, scolopaceus, servillei, similima, simplex, splendida, stigma, stigmatica, strigosa, striola, thoracica, tringaria, tristis, unicolor, vanellus, vermileo, vertebrata, vitripennis, vittata.

Leptobatus degener, rufipes, ziegleri.

Leptoboa dussumieri.

Leptobranchia leptopus.

Leptobranchium hasselti.

Leptocephalus candidissimus, dentex, gracilis, gussoni, medius, morrisoni, pellucidus, spallanzanii, taenia, trichiurus.

Leptocera beaumonti, bilineata, graphica, humeralis, meierei, scripta, vittifera.

Leptocerus (Col.) adpersus, aulacus, auriventris, basilicus, bipes, curialis, hypocrita, illotus, leucophilus, longimanus, loripes, octopunctatus, pithecius, roborosus, sitonoides, stauropterus, xanthographus.

Leptocerus (Neur.) affinis, annulatus, annulicornis, assimilis, ater, aterrimus, attenuatus, aureus, autumnalis, bicolor, bilineatus, bimaculatus, caliginosus, capucinus, cinereus, dapsilis, dissimilis, elongatus, filiosus, grossus, interruptus, leucogaster, longicornis, niger, nigricans, obtusus, ochraceus, par, perfusus, quadrifasciatus, rufogriseus, rufus, seminigra, subannulatus, tarsalis, testaceus, tineiformis.

Leptocheirus pilosus.

Leptocheles anglicus.

Leptochelia minuta.

Leptochirus bispinus, brevicornis, brunnea niger, cayennensis, conversus, ebeninus, javanicus, laevis, laticeps, maxillosus, mexicanus, minutus, scoriceus, unicolor.

Leptochiton cajetanus, cinereus, hanleyi.

- Leptocircus** curius, meges.
Leptoclinum asperum, clavatum, durum, fulgens, gelatinosum, listerianum, lividum, maculosum, punctatum.
Leptocnema sulphurea.
Leptocnemus sulphureus.
Leptocoma hasselti, sperata, zeylonica.
Leptoconus amadis, australis, duplicatus, grandis, nigra.
Leptocoris amictus, coturnix, haematicus, haematoloma, rufus.
Leptocoris apicalis, bengalensis, crudelis, flava, furcifera, linearis, tipuloides, varicornis.
Leptocranius longirostris.
Leptocyathus elegans.
Leptodactyla apicalis.
Leptodactylus (R.) mystaceus, sibilatrix, typhonia.
Leptodeira annulata.
Leptodera (Orth.) ornatipennis.
Leptodera (Verm.) flexilis.
Leptodes boisduali, siculus, sloani.
Leptodirus hohenwarti, hohenwarti.
Leptodomus (Col.) obliquatus.
Leptodomus (L.) fragilis, senilis.
Leptodon cayannensis, palliatus.
Leptoena corrugata, eximia, pecten, punctulifera, radiata, striata. *Vide et Leptaena.*
Leptogaster annulatus, cylindricus, datis, fervens, fuscus, glabratus, gracilis, guttiventris, belli, hi-panicus, histrio, intermedius, marion, niger, nigricornis, nitidus, pallasi, palparis, pedanius, pedunculatus, proculus, pubicornis, rubidus, subtilis, tipuloides, variegatus, vittatus.
Leptoglossus (A.) cucullatus.
Leptoglossus (Col.) dilaticollis.
Leptognathus (Col.) latreillianus.
Leptognathus (P.) oxyrhynchus.
Leptogramma aspersana, biidana, cerusana, fulvomixtana, gnomana, irrorana, literana, liturana, parisiana, scabrana, squamana, subtripunctulana, tricolorana, tripunctana.
Leptographa conviridaria, scriptaria.
Leptolepis brodiei, bronni, caudalis, concentricus, contractus, crassus, dubius, filipennis, jaegeri, knorri, latus, longus, macrolepidotus, macrophthalmus, nanus, paucispondylus, polyspondylus, pusillus, sprattiformis, tenellus, voithi.
Leptolimnea elongata.
Leptolophus auricomis.
Leptoma immaculata, lunaris, obscuripennis, vitripennis.
Leptomera pedata, rubra, ventricosa.
Leptomeris albella, flaveola, pallidella, rufeola.
Leptomeris (Hem.) picta.
Leptomeris (Lep.) dilutaria, exanthemaria, inconspicuaria, lacernaria, mediaria, ossearia, ossularia, pallidaria, rufaria, sulcaria, sylvestraria, turbidaria, umbellaria, virgularia.
Leptomorpha chinensis, filiformis.
Leptomorphus elongatus, walkeri.
Leptomyza fontalis, gracilis, grisea.
Lepton (Hym.) attenuator.
Lepton (L.) convexium, fabagella, mactroides, nitidum, squamosum.
Leptonema pallida.
Leptonemus filicornis.
Leptonurus chrysostigma.
Leptonychus erodioides, maillei.
Leptonyx (A.) albicollis, macropus, melanotis, paradoxus, rubecula, tarni.
Leptonyx (M.) barang, leopardinus, monachus, rossi, serridens, weddelli.
Leptopa filiformis.
Leptoperla beroe.
Leptopeza borealis, flavimana, nigripes, ruficollis, tibialis.

- Leptopezina** gracilipes.
- Leptophis** aestivus, abaeutulla, cauda lineatus, gracilis, kirtlandi, mancas, ornatus, pictus, punctulatus, purpurascens, saurita, spilotus, viridis.
- Leptophlebia** vespertina.
- Leptophryne** cruentatus.
- Leptophthirium** longicorne.
- Leptophyllus** strachani.
- Leptoplana** arcta, atomata, cartilaginea, drobachensis, elongata, fallax, flexilis, formosa, hyalina, laevigata, lichenoides, lutea, modesta, nigripunctata, pallida, pellucida, subauriculata, tigrina, tremellaris.
- Leptopodia** calcarata, lanceolata, ornata, phalangium, sagittaria, seticornis, tenuirostris.
- Leptopodus** niger, nigrita.
- Leptopogon** angustirostris, bivittata, cinereus, gaimardi, modesta, olivacea, stramineiventris, superciliaris, ventralis, viridiflava.
- Leptopoma** atricapillum, goniostoma, immaculatum, multilabris, nitidum, novae hiberniae, pileus.
- Leptopora** elegans.
- Leptops** (Col.) angustior, crenatus, dumosus, hopei, humeralis, hystricosus, quadratuberculatus, robustus, spencei, spineus, spiniger, spinipennis, squalidus, tuberculatus.
- Leptopsammia** stokesiana.
- Leptopterix** hirsutella, viciella.
- Leptopteryx** (A.) albovittatus, cinereus, cruenta, leucocephalus, leucogaster, leuco-rhynchos, melaleuca, minor, rufiventer, viridis.
- Leptopteryx** (Dipt.) nivalis.
- Leptoptilos** argali, crumenifera, javanica.
- Leptoptilus** cristatus, nudifrons.
- Leptopus** (A.) mitchelli.
- Leptopus** (Cr.) longipes.
- Leptopus** (Dipt.) contristans, echinops, gracilis, hispanus, lanosus, longufus, tipularius, wiedemanni.
- Leptopus** (Hem.) littoralis, preyssleri.
- Leptopus** (Hym.) hypogastricus.
- Leptopus** (P.) peregrinus.
- Leptopus** (R.) asterodactylus*, boiei*, oxydactylus.
- Leptorhina** bicolor, flava.
- Leptorhynchus** (A.) pectoralis, ruficaudus.
- Leptorhynchus** (Col.) angustatus, guttatus, striolatus.
- Leptorhynchus** (P.) capensis.
- Leptorhynchus** (R.) cliffi.
- Leptoria** (Cor.) antiqua, gracilis, pachyphylla, phrygia, tenuis.
- Leptoria** (Lep.) candida.
- Leptosaurus** neptunius.
- Leptoscarus** vargiensis.
- Leptosceles** exoleta, guttata, irrorata.
- Leptoscelis** (A.) mitchelli.
- Leptoscelis** (Col.) phalangodes, prolixus, strigosus.
- Leptoscelis** (Hem.) balteatus, haemorrhoidalis, haemorrhous, lunatus, pictus, rubro-picta, tricolor.
- Leptoschoinus** maculatus.
- Leptoseris** fragilis.
- Leptosia** aenea, alcesta, brephos, chlorographa, dardouini, inamoena, jucunda, lathyri, mendaculalis, polygramma, regularis, sanctaeflorentis, suava, velox.
- Leptosmia** angulosa, costulata, gaimardi, glabrescens, gracilis, ramosa, rugosa, striata.
- Leptosoma** (A.) afer.
- Leptosoma** (Cr.) appendiculata, capito, lanceolata.
- Leptosoma** (Lep.) agagles, annulatum, artemis, baulus, eres, insulare.
- Leptosoma** (P.) ater.

Leptosoma (R.) bougainvillei.

Leptosomus (A.) afer, crombus, viridis.

Leptosomus (Col.) acuminatus.

Leptostoma longicauda.

Leptotarsis eytoni.

Leptotarsus macquarti.

Leptotena cervi.

Leptotherium majus, monus.

Leptotheuthis gigas.

Leptotila rufaxilla.

Leptotrachelus brasiliensis, dorsalis, fulvicollis, marginatus, riedeli, suturalis, testaceus.

Leptotyphlops nigricans.

Leptoxis crassa, crenata, fusca, littorina, pisum, rapaeformis, solidula, turgida.

Leptoxyda testacea.

Leptoxys serpentina.

Leptura abbreviata, abdominalis, affinis, allecta, alpina, altaica, americana, anachoreta, anatis, annularis, annulata, apicalis, armata, atrata, attelaboides, aurigera, auripilis, badia, bicolor, bicolorata, bifasciata, biforis, binaculata, binotata, bi-signata, bivittata, brevicauda, brevis, capitata, carolina, castaneae, castanipennis, ceramboides, chalibaea, chamomillae, chrysocoma, chrysogaster, cincta, cinnamoptera, circumdata, clavipes, coerulea, collaris, constricta, cruciata, cuprea, cursor, cyanea, cyaneus, cylindricollis, daurica, decemguttata, dentipes, deusta, dimidiatus, directa, discolor, dissecta, distans, distigma, dorsalis, erratica, erythroptera, erythropus, exclamationis, exigua, extensa, fabricii, fasciculata, fasciolata, fastigiata, festucae, fischeri, fontenayi, fuscicornis, fuscipes, fusciventris, glabrata, gracilis, gulosa, haematites, haemorrhoidalis, holosericea, hydrocharis, imberbis, indagatrix, indirecta, insitiva, interrupta, jaegeri, labiata, lateralis, linearis, lineola, longiceps, longicornis, luctuosa, lugubris, lunata, luteicornis, luteipes, maculata, malachiticus, melanocephala, melanota, melas, micans, minuta, monticola, mordax, mutabilis, nana, necydaloidea, nigra, nigrella, nigripes, nigrolineata, nobilis, nymphaeae, oblongomaculata, occipitalis, octoguttata, octonotata, pallens, pallipes, paupercula, plebeja, proteus, proxima, pubera, puella, puncto-maculata, quadricollis, quadrifasciata, quadrimaculata, quadri-punctata, quadri-vittata, quagga, quinque-notata, renardi, rubrica, rubripennis, rubrotestacea, rufa, rufescens, ruficollis, rufipennis, rufipes, rufiventris, rufula, sagittariae, salicis, sanguinosa, scalaris, scapularis, scrutator, scutellum album, semi-cincta, semi-marginata, semivittata, septempunctata, silbermanni, similis, simplex, sinuata, sphaericollis, steveni, stictica, stragulata, strepens, striolata, subargentata, subhamata, sublineata, subpubescens, suturata, tenuicollis, tenuicornis, tenuior, tessera, thoracica, tibialis, ustulata, vagans, variabilis, varians, varicornis, variegata, varipes, verticalis, vibex, villa, vittata, vittigera, zebrata.

Lepturus fulviceps, galeatus, ruficeps.

Leptus aranei, autumnalis, bidentatus, bipunctatus, cornutus, hispidus, insectorum, latirostris, oribatus, sexdentatus, undentatus.

Leptynoderes varicosus.

Leptynoderus tuberculatus.

Lepus aegyptius, aethiopicus, africanus, albus, altaicus, angorensis, aquaticus, arabicus, arcticus, arenarius, artemesia, artemesiacus, aryabertensis, bachmani, borealis, brachyurus, brasiliensis, californica, callotis, campestris, canescens, caspicus, crassicaudatus, denilippi, diluvianus, diostolus, douglasi, flavigularis, fumigatus, glacialis, habessinicus, hibernicus, hispidus, hurgosa, hyperboreus, isabellinus, kurgosa, longicaudatus, loxodus, macrotus, magellanicus, mediterraneus, medius, melanurus, mexicanus, montanus, nigricaudatus, nigricollis, nuttalli, ochropus, oistolus, orientalis, pallipes, palustris, princeps, richardsoni, ruficaudatus, ruficaudus, rufinucha, rupestris, russatus, saxatilis, slavonicus, sinensis, sylvaticus, syriacus, texiana, tibetanus, townsendi, vernicula, versicolor, virginianus.

Lepyrolobus recurvatus.

Lepyronia coleoptrata, obscurata, subfasciata.

Letis specularis.

Leto venus.

Leucania albilinea, alopecuri, andereggi, arcuata, bathyerga, cannae, caricis, comma, congrua, cyperi, ectypa, elymi, extrema, flava, fluxa, furcata, geminipuncta, heilmanni, hesperica, impura, L. album, lineata, litoralis, loreyi, lutosa, maculata, montium, nervosa, neurica, obsoleta, ochracea, pallens, pallida, phragmitidis, pudorina, punctilinea, punctina, punctosa, punctum, pygmina, rufescens, scirpi, sicala, spargani, straminea, suffusa, typhae, unipuncta, unipunctata, velutina, venosa, verecunda, zeae.

Leucifer reynaudi, typus.

Leucippa ensenadae, pentagona.

Leucippus fallax, turneri.

Leucisca squatina.

Leuciscus acinaces, acutus, aeneus, aerogaster, affinis, agassii, albidus, albiensis, albuioides, alburnus, albus, alfredianus*, amarus, americanus, aphyia, apiatus, argenteus, argyrotaenia, aspius, atramaculatus, atronasus, baldneri, ballerus, bambusa, barbatus, belangeri, bibie, bipunctatus, bisarre, bosci, brachiatus, bramula, branchiatus, brevis, brutius, buggenhagi, burdigalensis, cabeda, caeruleus, callensis, catla, cavedanus, caveri, cephalon, cephalus, chalcoides, chedra, chevanella, chitul, chrysops, chrysopteris, clupeoides, coeca, colei, comes, commersoni, cordilla, corensis, cornutus, corporalis, croceus, cultellus, cultratus, cupreus, curriculum, cyanoaenia, dandia, daniconius, decipiens, diplemia, dobula, dolobratus, dorsalis, dusonensis, dussumieri*, duvauceli, dystomus, elingulatus, elongatus, erythrogaster, erythrophthalmus, falcatus, filamentosus, fintella, flavus, frigidus, frisi, frontalis, fucini, gardoneus, gatenis, genei, gibbosus, gille, gracilis, grislagine, harengula, hartmanni, heckeli, hemistictus, heterurus, homospilotus, hudsonius, idella, idus, iris, jaculum, jesella, jeses, kentuckiensis, lacustris, lancastriensis, lascha, lateralis, latiusculus, lavaretoides, leptus, lividus, machaeroides, macrochirus, macropus, macrurus, mahecola, majalis, malabaricus, margarodes, marrochius, maxillaris, medius, melettina, mento, microcephalus, microlepis, minor, mola, molitorella, molitrix, morar, muticellus, nasus, nasutus, neglectus, nesogallicus, niloticus, nitidus, obesus, oeningensis, orfus, oxygaster, pagellus, papyraceus, parvulus, parvus, pauperum, pausingeri, pellucidus, peloponensis, phoxinus, piceus, pigus, plagyrrus, platypus, plenus, prasinus, presbyter, productus, prolixus, pulchellus, pusillus, pygmaeus, rasobora, recurviceps, rhomboidalis, risson, rivularis, rodens, rosetta, roseus, rostratus, rotengulus, rubella, rubulo, rubripes, rutiloides, rutilus, ryzela, sahnoneus, saltator, sandkhol, sardella, sardnella, savignyi, scapellus, scardafa, scardinus, scarpetta, selysi, sieboldi, sopa, soutna, spirilingulus, squalus, squalus, stephani, stigma, storeri, storerianus, stymphalicus, sulphureus, temmincki, tenellus, thebensis, thermalis, tincella, trasimenicus, turskyi, ukliva, uncirostris, uranoscopus, vandella, vandoisulus, variegatus, versicolor, vittatus, vulgaris, vulturius, xanthogramme, xanthurus, zeylonicus.

Leucocelis adpersa, amabilis, cinctella, eustalacta, graeca, guttiifera, haemorrhoidalis, marginalis, nitidula, petiti, rubra, rufo-femorata, stictica, thoracica.

Leucocerca decempustulata.

Leucocerca lessoni, melanura, rhombifer.

Leucochloridium paradoxum.

Leucochroa albella, candidissima, cariosa, cariosula, cinae, compar, delphinula, filimargo gargotta, limbata, listeri, leucocirca, rugosa, tectiformis, tripolitana, turcica.

Leucocirca albo-frontata, fuscoventris, laticauda, pectoralis.

Leucocora centaureata, extremata, irriguata, sucenturiata.

Leucodore ciliatus.

Leucodorum coecum, muticum.

Leucoma auriflua, salicis.

Leucon deformis, emarginatus, nasica.

Leuconerpes albolarvatus, candidus, dominicanus.

- Leuconia** compressa*, nivea, vau-nigra.
Leuconoe otus.
Leucophasia lathyri, sinapis, sylvicola.
Leucopholis irrorata, jacquinoti, lepidophora, niveosquamosa, plagiata, sommeri.
Leucophora cinerea, floralis, gagatea, grisea, sericea.
Leucophra echinoides, fissulata, horrida, hydrocampa, jobloti, larius, lumbrici, pupella.
Leucophrys (A.) pileatus.
Leucophrys (Inf.) carniun, fluida, nodulata, patula, striatys.
Leucophrys (Verm.) clavata, pyriformis, sanguinea, spathula.
Leucophthalmia ocellaria, omicronaria, orbicularia.
Leucophthalmus strangwaysi.
Leucopis albipennis, annulipes, aphidiperda, aphidipora, aphidivora, argentea, argenti-collis, bursaria, ciuerella, griseola, hirta, hyalipennis, lusoria, misaphida, obscura, picea, puncticornis.
Leucops leucops.
Leucopsis costae, intermedia, nigricornis.
Leucopsunis circe, collaris, glaucopis.
Leucoptera auritella, cerusella, spartifoliella.
Leucopternis albicollis, giesbrechti, kuhli, lacernulatus, melanops, paecilnotus, polionotus.
Leucopygia ruficollis.
Leucorrhynchus leucodon, lineatus.
Leucos adpersus, aula, basak, cenisophius, cisalpinus, fucini, henlei, pagellus, pauperum, prasinus, rubella, rubellus, rubilio, rutiloides, scardinus, selysi, trasimenicus.
Leucosarcia picata.
Leucosia anas, anatum, bispinosa, cancellus, craniolaris, cranium, cumingi, dentata, globulosa, haematosticta, hestia, leachi, longicarpa, longifrons, marmorea, mediterranea, novemspinosa, obscura, obtusifrons, orbiculus, pacifica, phyllocheira, prevostiana, residuus, rhomboidalis, subrhomboidalis, tuberosa, tunefactus, undentata, urania.
Leucosoma chinensis, reevesi.
Leucosomus argenteus, chrysoleucus, gracilis, laevigatus.
Leucospis aculeata, affinis, assimilis, basalis, bifasciata, biguetina, brevicauda, cayennensis, clavata, dispar, druriei, dubia, elegans, fabricii, fraterna, frenata, fuesslini, gibba, grandis, grohmanni, guzeratensis, hopei, incarnata, integra, klugi, ligustica, minuta, obsoleta, ornata, pediculata, poeyi, rufo-notata, scutellata, shuckardi, sicelis, spinolae, subnotata, surinamensis, unipunctata, varia, vicina.
Leucospiza candicans.
Leucosticte arctous, brandti, brunneinucha, griseinucha, griseogenys.
Leucostoma aenescens, brevicornis, carbonaria, exigua, floralis, gagatina, lepida, maculata, nervosa, obscuripennis, simplex, terminalis, venosa.
Leucothea formosa.
Leucothoe articulosa, clypeata, furina, glacialis.
Leucothyreus anachoreta, antennatus, capitatus, cavifrons, chalcus, costatus, cribratipennis, cyanescens, dispar, dorsalis, elongatus, erraticus, femoralis, femoratus, fulvus, fuscens, fuscicollis, guadulpiensis, humilis, kirbyanus, laticollis, limbatus, lividus, marginaticollis, metallescens, metallicus, microcephalus, modestus, nitidicollis, niveicollis, pallens, pallidipes, pilosellus, politus, pruinosus, punctulatus, rufipes, rugipennis, splendidus, spurius, subcupreus, suturalis, umbrinus, variipes, vittipennis.
Leucotis cancellatus.
Leucozonia nassa.
Leuctra abdominalis, fusca, fusciventris, geniculata, pilicornis.
Leuretra pectoralis.
Levathan missouri.
Levenia coarctatum.
Leviathan missuriensis.
Lexias aeropus.
Lia albo-sinuata, comma, decempunctata, dorsalis, fasciata, multipunctata.

- Liagora** albicans, articulata, aurantiaca, ceranoides, distenta, farinosa, marginata, physcioides, versicolor.
- Lialis** bicatenata, burtonis, punctulata.
- Liasis** amethystinus, childreii, mackloti, olivacea.
- Libella** bimaculata.
- Libellago** lineata.
- Libellula** abbreviata, abdominalis, abjecta, acuta, aenea, affinis, albifrons, albipuncta, albistyla, ambigua, ampullacea, analis, anceps, angulata, angustipennis, angustiventris, annulata, antiqua, apicalis, arteriosa, attenuata, auripennis, aurora, axilena, azurea, baetica, barbara, basalis, basilaris, biguttata, bimaculata, biotata, bivittata, bottoni, brachialis, bramina, breinii, brevipennis, brunnea, caeruleans, caerulea, caesia, caffra, calypso, camilla, cardinalis, castanea, caudalis, cayana, chlora, chryso-stigma, clathrata, coarctata, coccinea, cognata, communimacula, communis, concinna, congener, conjuncta, connata, contracta, costalis, cynos, cynosura, denticulata, deplanata, depressiuscula, discolor, dislocata, disparata, distincta, distinguenda, doris, dorsalis, dubia, edwardsi, elegans, erratica, erythraea, erythroneura, eurynome, exusta, fallax, famula, fasciolata, fastigiata, fenestrina, feralis, ferrugaria, fervida, festiva, flaveola, flavicans, flavidus, flavistyla, flavomaculata, fonscolombeii, frontalis, fuchsiana, fusca, fuscofasciata, geminata, genei, graphiptera, guttata, haematina, haematodes, haematogastra, hellmanni, hemichlora, hopei, hova, hudsonica, hybrida, hymenaea, imbuta, immaculata, incerta, incompta, infumata, infusca, inquinata, insignis, intermedia, lais, lateralis, leda, lefebvrei, leptura, leucosticta, limbata, lineolata, longialata, longipennis, lucilla, luctuosa, macrocephala, macrostigma, maculata, maculiventris, madagascariensis, manadensis, marchali, mauriciana, melanostigma, melobasis, meridionalis, metallica, migratoria, minuscula, morio, murcis, neglecta, nigra, nigricans, nigricula, nigripes, nitens, nitidivervis, nubecula, oblita, obsoleta, ochracea, oeningensis, olympia, opalina, ornata, pallida, pallidastigma, panorpoides, pectoralis, pedemontana, perse, peruviana, phryne, platyptra, plebeia, plebeja, pleurosticta, polysticta, praenubila, pruinosa, pulchella, pulla, pullata, quadrupla, ramburi, roeseli, rubella, rubicundula, rubrinervis, rubriventris, rufa, ruficollis, rufo-nervis, ruralis, sanguinea, sanguinolenta, sardoa, scotica, semiaquea, semicincta, semifasciata, semi-hyalina, semivitra, separata, sicula, signata, similata, simplex, simplicicollis, sobrina, socia, soror, sparshalli, splendida, stemmalis, stictica, striolata, stylata, subfasciata, taeniolata, tenebrosa, tenera, tenuicincta, terminalis, ternaria, tessellata, testacea, tetra, thetis, thoe, transversa, tricolora, trinacria, tripartita, trivialis, truncatula, unimaculata, venosa, veronensis, vilis, virginia, vittata, vulgata, zonata.
- Libidoclaea** granaria.
- Libinia** affinis, canaliculata, dubia, emarginata, lunulata, nuttalli, rostrata.
- Libitina** bicarinata.
- Libys** polypterus.
- Libythea** atalanta, calliope, cardui, carinenta, celtis, cuvieri, fulgurata, geoffroyi, io, myrrha, narina, terena, urticae.
- Lichanotus** avahi, brevicaudatus, diadema, indri, laniger, niger.
- Lichas** (Cr.) angusta, barrandei, bottoni, cicatricosa, coniceps, grayi, haueri, heberti, hibernica, hirsutus, laxata, palmata, parvus, propinqua, pumila, salteri, scabra, simplex, tricuspidata, verrucosus.
- Lichas** (L.) antiquus.
- Lichenepora** miocenica, papiracea, tuberosa.
- Lichenoides** priscus.
- Lichenopora** armorica, cenomana, conjuncta, cretacea, cribrosa, crispa, cumulata, defranciana, glomerata, mediterranea, spongioides, turbinata.
- Lichenops** erythropterus, perspicillatus.
- Lichia** aculeatus, albacora, amia, analis, calcar, carolina, fitzinger, forsteri, glaucus, glaycos, lysan, lyzan, pisca, quebra, rhomboides, saliens, tetracantha, vadigo, vulgaris.
- Lichnanthe** vulpina.
- Lichnia** immarginata, limbata.

Licina evoluta, labea, labeo.

Licinetis tenuirostris.

Licinia amphione, crisia, melite.

Licinus aegyptiacus, aequatus, affinis, agricola, angustus, asiaticus, bipustulatus, brevicollis, cassideus, cossyphoides, dalmatinus, depressus, emarginatus, granulatus, hoifmanssegi, humeralis, latreillei, nebrioides, oblongus, peltoides, punctatosulcatus, sculus, silphoides.

Licmetis nasicus, pastinator.

Licoperdina grimmeri.

Licornia jollaisi.

Licosa hellenica, vultuosa. *l'ide et Lycosa.*

Licus niphon.

Ligia (Cr.) brandti, cajennensis, coriacea, dilatata, ehrenbergi, glabrata, grandis, granulata, hypnorum, melanocephala, offersi, oniscides, oniscoides, pallasi, scopulorum.

Ligia (Lep.) argentaria, caliginearia, ciliaria, jourdanaria, opacaria, similaria.

Ligidium persooni.

Lignicola destructor.

Ligniperda tenebrans.

Lignus tenuis.

Lignyodes bicolor, enucleator, triophori.

Ligula (L.) alba, boyssi, compressa, declivis, distorta, donaciformis, edulis, nodulosa, oblonga, polymorpha, praetenuis, prismatica, profundissima, pubescens, substriata, tenuis, truncata, variegata.

Ligula (Verm.) abdominalis, acuminata, alburni, alternans, avium, bramae, carassii, carpinis, cingulum, cobitidis, colymbi, constringens, contortrix, crista, gobionis, interrupta, leucisci, mergorum, monogramma, nodosa, reptans, salmonis, simplicissimus, soricis, sparsa, sparta, tineae, tritonis, uniserialis, vimbae, wartmanni.

Ligumia recta.

Ligurinus cannabinus, chloris, ciris.

Liguus alabaster, virgineus.

Lima abdominalis, abrupta, aciculata, acuta, acuticostata, aequicostata, affinis, alata, albensis, alternans, alternata, ambergensis, amygdaloides, angulata, annulata, anti-quata, aperta, arcuata, armata, asperula, astieriana, basilanica, baugasiana, bellardi, bellula, bisulcata, bolina, bourgeoisiana, brightoniensis, bronni, bullata, bulloides, calypso, canalifera, capillata, cardiiformis, carinata, carolina, carteroniana, cenomanensis, clypeiformis, coarctata, comata, communis, concentrica, concinna, coniacensis, consobrina, corallum, cordiformis, costata, costulata, cottaldina, crassa, crenulicosta, crinita, cumingi, cuneata, cyanesthis, decalvata, decorata, decussata, dehiscens, densepunctata, dentata, denticulata, depressa, dichotoma, difficilis, dilatata, dispar, divaricata, dujardini, dumosa, dunkeri, dupiniana, duplicata, dutempleana, echo, edula, egaea, elea, electra, elegans, elegantula, elongata, eolis, erato, erina, erosne, eryx, eucharis, eudora, exarata, excavata, exilis, expansa, fasciata, fimbriata, fittoni, flabelloides, flexuosa, forchhammeri, fragilis, frondosa, galathea, gallieniana, galloprovincialis, geinitzi, gibbosa, gibbosaeformis, gigantea, glaber, glabra, glacialis, goldfussi, goodalli, goupili, gracilis, grandis, granosa, granulata, gueuxi, harpax, hausmanni, helica, hermanni, hians, hille, hippia, hoperi, imbricata, inaequistriata, inflata, intercostata, intermedia, interstincta, interstriata, janassa, juncta, lacertosa, laevigata, laevissima, laeviuscula, laticosta, ligeris, lineata, lingua, linguatula, lirata, longa, loscombei, luciensis, lunaris, macroptera, mantelli, margine-plicata, marrotiana, marticensis, massiliensis, maxima, minuta, minutissima, mio-cenica, mitis, moreana, moutoniana, muensteriana, multicostata, muricata, mutica, nais, natans, neocomiensis, nerina, nilsoni, nivea, nodosa, notata, obliqua, obliquata, obliquistriata, oblonga, oblongata, obscura, obsoleta, orbignyana, orientalis, ornata, ovalis, pacifica, papyria, parallela, paucicostata, paupera, pectinata, pectiniformis, pectinoides, pelagica, pellucida, pennata, pentagona, permiana, philipsi, plana, planicosta, plicata, plicatilis, plicatula, prisca, proboscidea, pseudocardium, pulchella, punctata, punctatilla, pusilla, pygmaea, radiata, rapa, raricosta, rauliniana, rectangularis, regularis, reichenbachii, renauxiana, resecta, reticulata, reussi, rhodeniana,

rbotomagensis, rigida, rigidula, robinaldina, rotundata, royerana, rudis, rugaestriata, rupellensis, rustica, santonensis, scabra, scabrosa, semicircularis, semicostata, semilunaris, semiornata, semisulcata, septemcostata, shlotheimi, simplex, solida, sowerbyi, spatulata, spinosa, squamifera, squammatinus, squammicosta, squamosa, staminea, streitbergensis, striata, striatopunctata, striatula, stricta, strigillata, subabrupta, subaequilateralis, subantiquata, subauriculata, subconsobrina, subgibbosa, suborbicularis, subovalis, subplana, subplicata, subpunctata, subrigida, subsemilunaris, substriata, succincta, sulcata, tecta, tegulata, tenera, tenuistriata, tombeckiana, toucasiana, trabayensis, transversa, truncata, truncatifrons, tumescens, tumida, turgida, undata, undulata, uniauriculata, variegatus, varusensis, ventricosa, vitrea, vitrina, wacoensis.

Limacella lactiformis.

Limacina (G.) annularis, elongata, pellucida, retroversa.

Limacina (Pter.) antarctica, arctica, australis, balea, bulimoides, clathrata, helicalis, inflata, jeffreysi, keraudreni, le sueuri, macandrei, rotunda, rotundata, trochiformis, turricula, ventricosa.

Limacites discus.

Limacodes arenacea, asellus, bufo, delphini, graciosa, hilaris, testudo.

Limaeus grayanus.

Limanda limandoides, oceanica, pontica, vulgaris.

Limanomia gibba, grayiana.

Limapontia caerulea, nigra.

Limaria (L.) asperula, inflata, mitis, vulgaris.

Limaria (Cor.) angularis, clathrata, escharoides, fruticosa, lonsdalei, punctata.

Limatula ovata, subauriculata.

Limax aequinoctialis, affinis, alpinus, andecolus, anguiformis, antiquorum, arborum, ascensionis, aterrimus, bilobatus, bitentaculatus, brunneus, campestris, canariensis, capensis, carenata, carinatus, carolinianus, caroliniensis, cereus, cinereus, niger, coccineus, fasciatus, gagates, geographicus, glaucus, gracilis, laevigatus, lamarcki, lanceolaris, larteti, limbatus, lineolatus, livonicus, lombricoides, maculatus, marmoratus, maurus, megalodonta, megaspidus, melanocephalus, melanostictus, moreleti, nebulosus, nigricans, nitidus, noctilucus, oxyurus, pallidus, perlucidus, rustica, salixium, sandwichiensis, schultzei, serotinus, sexcornis, sowerbyi, subfuscus, sylvaticus, togata, tunicata, umbrosus, valentianus, variegatus, virescens, viridis.

Limex acuticostata, duplicata, sacki, sarsi, strigilata.

Limecola solidula.

Limenitis aceris, alankara, arthemis, brebissoni, camilla, coenobita, columella, consimilis, crithia, daraxa, dichroa, disippus, dudu, dumetorum, eurynome, ismene, kikideli, lucilla, martha, melaleuca, niavius, opalina, populi, praslini, procris, saclava, sankara, selenophora, sibylla, ursula, venilia, zayla, zulema.

Limerodes arctiventris, ophioneiventris.

Limicola indiana, platyrhyncha, pygmaea.

Limicolarius babel, exaratus, flammeus, flammiger, kambeul, striatulus, strigatus, tenuis.

Limicula fedoa, grisea, hudsonica, lapponica, marmorata, melanura, meyeri, terek.

Limicularia flammea.

Limma inundana, mygindana.

Limnadia borysthénica, coriacea, hermanni, mauritiana, tetracera.

Limnaea affinis, bactriana, burnetti, canalis, conoidea, decollata, fragilis, geisericola, glacialis, gracilis, lacustris, lineata, mucronata, obtusissima, pallida, peregrina, petiti, plebeia, pulchella, socialis, striata, subglobosa, subovata, tenuistriata, timoriensis, truncata, truncatula, tumida, turricula, umbilicata, velutina, ventricosa. *Vide et Limnaeus, Limnea, Limneus, Lymn*→, etc.

Limnaetes wiegmanni.

Limnaetus caligatus, horsfieldi, unicolor.

Limnaeus ampullaceus, amygdalum, bullatus, candidus, cerasum, cinctus, cretaceus, cubensis, delicatus, diaphanus, dilatatus, ecaudis, excerptus, filograna, flavescens, forensis, fuscus, gebleri, gibilmannicus, glaber, henei, impurus, kamtschaticus, kirri, lacunosus, limbatus, limosus, longulus, membranaceus, minimus, minor, natalensis,

nucleus, orbiculatus, pachygaster, papyracea, partschi, patulus, pereger, pharaonum, politus, prunum, pullus, rivularis, roseus, sandwichensis, separandus, sericatus, silesiacus, solidus, speciosus, subpalustris, succineiformis, sulcatulus, turricula, vulgaris, ziegléri. *Vide et Limnaea, Limnea, Limneus, Lymn*→, etc.

Limnas abydis, agria, alphonsus, athemon, caricae, chrisippus, chrysippus, cora, ebusa, genutia, halimede, idea, laeris, leucosia, limniace, lycea, lycista, melander, midamis, molpe, navia, nemertes, nyx, pais, pharea, pixe, plexippe, vincetoxici.

Limnatis nilotica.

Limnea acutalis, ampla, ampullaria, brevis, calostoma, columellaris, detrita, dubia, expansa, ferruginea, fossaria, glutinosa, gothalanica, intermedia, lanceata, lepida, lessoni, limosa, linsleyi, lutea, marginata, maxima, octona, ovalis, palustris, rufescens, subulata, succinea, thermalis, vitrea. *Vide et Limnaea, Limnaeus, Limnea, Lymn*→, etc.

Limnebius affinis, ater, atomus, lutosus, marginalis, minutissimus, mollis, nigricans, nitidus, papposus, picinus, piscinus, truncatellus.

Limnephila aspersa, chrysota, discolora, flavida, fulva, fuscata, fuscicornis, guttata, impura, nebulosa, nigrita, obscura, obsoleta, pellucida, radiata, rufescens, scabripennis, striolata, submaculata, tessellata, variegata, vitrea. *Vide et Limno*→.

Limnephilus abdominalis, affinis, albobittatus, angulatus, apicalis, assimilis, auricula, basalis, bimaculatus, binotatus, bipartitus, bipunctatus, brevipennis, brevis, caenosus, caliginosus, centralis, coenosus, cognatus, confluent, consobrinus, costalis, diaphanus, discoidalis, dorsalis, elegans, elongatus, emarginatus, femoralis, fenestralis, flavicornis, flavus, fuliginosus, fuscatus, fuscus, geninus, glaucopterus, griseus, hieroglyphicus, hirsutus, incisus, interruptus, irroratus, latipennis, lunatus, luniger, luridus, marginalis, marmoratus, nebulosus, nervosus, nigrivittatus, notatus, nubilus, obliquus, obscurus, ochraceus, ornatus, pallens, pellucidula, pictus, praeustus, punctatissimus, punctatus, punctulatus, quadrimaculatus, radiatus, rhombica, signatus, sparsus, stellatus, stigma, strigonis, strigosa, striola, subnebulosus, substrigosus, tenebricus, tenebrosus, terminalis, tessellatus, testaceus, ustulatus, variabilis, versicolor, vibex, villosus, vinculum, vittatus. *Vide et Limno*→.

Limnesia affinis, albella, attalica, calcarea, cyanipes, fenestrata, fulgida, fuscata, longipalpis, maculata, minutissima, modesta, oblonga, phoenicea, rutilata, sacra, tigrina, undulata, venustula, vitellina.

Limnesius affinis, brunneus, caricis, schoenherri, spargani, typhae.

Limnetis wahlbergi.

Limneus acronicus, acuminatus, acutus, adelina, auricularius, communis, corneus, detritus, elongatus, enflatus, fabulum, fontinalis, fossarum, fragilis, glutinosus, hartmanni, inflatus, involutus, lacustris, longiscatus, major, minuta, ovatus, ovum, palustris, pereger, scaturiginum, stagnalis, strigosus, subulatus, tinctus, truncatulus, umbrosus, ventricosus, vulgaris. *Vide et Limnaea, Limnaeus, Limnea, Lymn*→, etc.

Limnia claripennis, dejeani, limbata, marginalis, marginata.

Limnias ceratophylli, ingenta, melicerta.

Limnichus australis, pygmaeus, riparius, sericeus, versicolor.

Limnius aeneus, angustatus, araneolus, canaliculatus, cupreus, fastiditus, nitens, obscurus, opacus, orichalceus, parallelepipedus, pygmaeus, tuberculatus, volkmari.

Limnobates major, stagnorum.

Limnobia aberrans, acrostacta, adjuncta, adpersa, aegle, affinis, albifrons, albipennis, amoena, analis, angulata, angustipennis, annulus, antarctica, apicalis, apparens, aprica, arctica, argentea, argentifrons, argus, armillaris, atra, attenuata, badia, barbipes, basilaris, bibula, bicolor, bifasciata, bifurcata, bimaculata, binotata, bituberculata, brunnipennis, caminaria, cana, capensis, chorea, ciliaris, cinctipes, cinerascens, cinerea, cingulata, collaris, congrua, consimilis, conspersa, conveniens, costalis, cothurnata, debilis, decasbila, decora, demissa, diana, didyma, discicollis, disjuncta, dispar, distinctissima, diuturna, divisa, dumetorum, elegans, errans, erythrocephala, excisa, exclusa, fasciapennis, fasciata, fasciolaris, ferruginea, fimbriata, finitima, flava, flavescens, flaviceps, flavipes, flavithorax, flavo-limbata, formosa, fulvescens, fulvonervosa, fusca, fuscescens, fuscipennis, geniculata, glabrata, glabricula, globata, gracilipes, gracilis, grisea, hieroglyphica, hirsutipes, hirtipes, humeralis, humilis, ignota, immaculata, inclusa, intermedia, inusta, irrorata, laevigata, latipennis,

- leucocephala, leucophaea, lineola, littoralis, livida, longicollis, longicornis, longimana, longipennis, longirostris, lucorum, lutea, macrocera, macroptera, macrostigma, maculata, maculipennis, manifesta, marginata, marmorata, melanacra, melanocephala, meridiana, mesopyrrha, mitis, modesta, morio, multipunctata, nebulosa, nemoralis, nervosa, nigra, nigricans, nigricollis, nigrina, nigropunctata, nigrorostis, nitidicollis, nova, nubeculosa, nubilata, nudicollis, obscura, obsoleta, occulta, ocellaris, ochracea, ornata, pabulina, pallida, pavidata, petrarum, phaeostigma, picta, pictipennis, pilipes, pilosa, placida, platyptera, plebeia, praeusta, pratorum, pulchella, pulla, punctata, punctatissima, punctipennis, punctum, pygmaea, quadra, quadrimaculata, quadri-notata, reciproca, remota, reperta, replicata, rivosata, rivulorum, rostrata, ruicornis, ruithorax, ruralis, schistacea, senilis, separata, sera, sericea, sessilis, sexguttata, sex maculata, sex notata, sexpunctata, similis, simplex, simulans, sorbillans, squalens, stictica, stigma, stigmatella, stigmatica, straminea, striata, substituta, sumatrensis, sylvatica, sylvicola, taenioptera, tarda, tempestiva, tenella, tenuipes, tenuis, transversa, trentepohli, trimaculata, trinotata, tripunctata, tristis, trisulcata, trivittata, umbripennis, unicolor, unimaculata, vagans, varia, variegata, venezuelensis, ventralis, vetusta, vicaria, vicina, viridipennis, vitripennis, xanthoptera, xanthura.
- Limnobiaorhynchus** brasiliensis, canadensis.
- Limnochares** aquaticus, extendens, flaccida, holosericeus.
- Limnocharis** fuscus.
- Limnodromus** noveboracensis.
- Limnodynastes** peroni.
- Limnodytes** chalconotus, erythraeus, waigensis.
- Limnoea** nouletiana, trencalaensis. *Vide et Limnaea.*
- Limnomedusa** macroglossus.
- Limnometes** kuhli.
- Limnophila** abdominalis, angustipennis, barbipes, bicolor, carbonaria, discicollis, dispar, elegans, ferruginea, guttata, immaculata, lineola, lucorum, nemoralis, nigricollis, picta, pictipennis, platyptera, pruinosa, punctata, scutellata, sessilis, stigmosa, trentepohli, unicolor. *Vide et Limne*→.
- Limnophilus** (Neur.) atomarius, digitatus, flavescens, flavicornis, flavus, fuscus, gracilis, lunaris, pantherinus, pellicidus, pusillus, rhombicus, rubricollis, striatus, striola, vittatus. *Vide et Limne*→.
- Limnophilus** (R.) mascareniensis.
- Limnophora** aestivalis, analis, aquatica, atra, bengalensis, brunica, buccata, cinerea, coenosa, elegans, fluviatilis, frontalis, gentilis, hamata, interrupta, littoralis, liturata, macei, meridionalis, nitida, obscura, palustris, polystigma, punctatella, rivularis, soror, trapae, triangula, vicina.
- Limnophylax** marmorata.
- Limnophysa** catascopium, chilensis, desidiosa, diaphana, elodes, elongata, emarginata, gingivata, holbolli, humilis, impura, minuta, mölleri, palustris, pingeli, reflexa, senegalensis, sicula, truncatula, vahli, viator, wormskjoldi.
- Limnorea** astroites, hieroglyphica, hybrida, involuta, milleporata, sulcata.
- Limnoria** gibbosa.
- Limnornis** canifrons, cinnamomea, curvirostris, rectirostris, unirufus.
- Limobius** dissimilis.
- Limonia** barbipes, bicolor, didyma, dumetorum, flavescens, flavipes, fusca, hiemalis, hybrida, immaculata, lineola, littoralis, lutea, maculata, nubeculosa, ochracea, picta, punctata, quatuormaculata, replicata, rivosata, rivularis, sexpunctata, transversa, tripunctata, xanthoptera.
- Limonius** araratensis, bipustulatus, bructeri, crenulatus, cylindricus, definitus, lythrodus, metallescens, minutus, nigripes, optabilis, parvulus, posticus, sericeus, serraticornis, substriatus, tenuicornis.
- Limonotus** flavida, marmorata.
- Limopsis** auriculata, aurita, auritoides, complanata, deltoidea, gaudryna, granulata, guerangeri, inaequalateralis, lima, lorieriana, minima, minuta, modiola, moreausiana, oblonga, oolithica, petschorae, pygmaea, radiata, reinwardti, rhomboidalis, sacheri, subgranulatus, trigonella.

- Limosa** aegocephala, alba, australasiana, australis, barge, brevipes, calidris, candida, cinerea, edwardsi, fedoa, ferruginea, foxi, fusca, glottis, hardwicki, himantopus, horsfieldi, hudsonica, islandica, lapponica, leucophaea, marmorata, melanura, melanuroides, meyeri, novae zealandiae, recurvirostra, rufa, scolopacea, terek, uropygialis, varia, vulgaris.
- Limosia** agrestis, albida, albidula, alismatis, brunipes, campestris, cinerea, fuliginosa, hydrocotylis, immaculata, juncorum, limpidipennis, littoralis, nigrifacies, nigripes, nitens, nitidula, obscura, pallidipes, paludosa, palustris, picea, riparia, ripicola, rubripes, scirporum, stagnalis.
- Limosina** acutangula, arcuata, clunipes, crassimana, erratica, fenestralis, flaviceps, flavipes, fontinalis, fulvipes, fungicola, fuscipennis, geniculata, glabra, heteroneura, humida, impressa, leucoptera, limosa, lugubrina, lugubris, melania, minima, minutissima, nigerrima, nivalis, ochripes, payeni, pedestris, pullula, pumilio, pusio, pygmaea, quisquilia, rufipes, sacra, scutellaris, scutellata, setulosa, silvatica, spinipennis, tristis, vagans, vitripennis, zosteriae.
- Limulus** agnotus, albus, americanus, anthrax, australis, cancriformis, giganteus, heterodactylus, latreillei, longispina, macleayi, moluccanus, noctilucus, oculus, orientalis, priscus, productus, rotundatus, rotundicauda, sericeaudus, sowerbyi, steinlae, tridentatus, trilobitoides, virescens, walchi.
- Lina** consanguinea, discicollis, inflexa, populeti.
- Linaria** agrorum, alnorum, amandava, analis, anatoides, angolensis, argentoratensis, atrogularis, bengalus, betularum, borealis, canaria, canescens, caniceps, cannabina, citrinella, coccinea, fera saxatilis, flammea, flavivestris, granatina, gularis, holboellii, inornata, lepida, linaria, minor, montana, monticum, montium, nitens, phoenicoptera, pinus, rubra, rufescens, senegalla, serinus, spinus, tephrocotis, tristis.
- Linarius** cannabinus, ruber, serinus, spinus.
- Linckia** bifascialis, browni, columbiae, crassa, erythraea, guildingi, intermedia, leachi, milleporella, pacifica, pulchella, unifascialis, variolata.
- Lindenia** tetraphylla.
- Lindenius** albilabris, apicalis, argentatus, armatus, brevis, curtus, panzeri, pygmaeus, subaeneus, venustus.
- Lindia** torulosa.
- Lineola** obtusocaudata, rosea, sieboldi.
- Lineolaria** costata.
- Lineus** gracilis, longissimus.
- Linguatula** armillata, clavata, crotali, denticulata, diesingi, ferox, integerrima, pingui-cola, toenoides, venarum.
- Linguella** elforti.
- Lingula** acuminata, acutangula, acutirostra, aequalis, albida, anatifera, anatina, anatina-formis, angusta, antiqua, attenuata, audebardi, beani, bicarinata, birugata, brevis, brimonti, calcaria, cancellata, compressa, concentrica, conrecta, cornea, crassa, credneri, crumena, cuneata, curta, dubia, dumortieri, elliptica, elongata, exunguis, flaveola, fusca, granulata, hawkei, hians, iowensis, keuperea, lamellata, lata, lesueuri, lewisi, longissima, marginata, meyeri, minima, muensteri, mytilloides, oblata, oblonga, obtusa, ovalis, ovata, oxfordiana, parallela, planulata, quadrata, rauliniana, rectilateralis, riciniformis, scutiformis, semen, spatulata, squamiformis, striata, sub-elliptica, submarginata, suboblonga, tenuis, tenuissima, transversa, trentonensis, truncata, tumidula, verrucosa, viridis.
- Lingulina** alata, bohemica, carinata, costata, crepidularis, cuneata, ensiformis, mutabilis, obliqua, oblonga, ovata, rotundata, soldanii.
- Liniscus** exilis.
- Linkia** franciscus, oculata, rosea, typus, variolosa.
- Linnaemya** aestivalis, analis, borealis, distincta, heraclea, longipes, oenanthis, silvestris, sophia, vulpina.
- Linneopicus** herminieri.
- Linocerus** gracilis.
- Linophaga** canescens, linaria, montium, rubra.
- Linopodes** ambustus, decoloratus, flavipes, flexuosus, longipes, lutescens, maculatus, melaleucus, obsoletus, rarus, riparius, rubiginosus.

- Linota** borealis, canescens, cannabina, fringillirostris, fusca, hornemanni, linaria, montium, saturata.
- Linotaenia** crassipes, nemorensis, rosulans, subtilis.
- Linotoma** linearis.
- Linsang** gracilis, pardicolor.
- Linthuris** cassidatus.
- Linthurus** cassis.
- Linuche** unguiculata.
- Linuparus** trigonus.
- Linyphia** alticeps, annulipes, argyrobapta, argyroda, aurlenta, autumnalis, bicolor, bucculenta, cauta, cellulanus, cincta, circumflexa, clathrata, claytoniae, clercki, coccinea, communis, concolor, conferta, coronaria, costata, crocea, crypticoleus, degeeri, delicatula, deplanata, distincta, domestica, dorsalis, elegans, emphana, fastuosa, frenata, frondosa, frutetorum, fuliginea, furcula, furva, gibbosa, globosa, gracilis, graminicola, hortensis, incerta, insignis, lemniscata, leucosternon, longidens, longipalpis, luctuosa, lugubris, luteola, manducula, marginata, marmorata, maxillosa, minuta, montana, multiguttata, multipunctata, nebulosa, neophita, nigella, obscura, pallipes, pascuensis, peltata, phrygiana, picta, pratensis, pulchella, pusilla, pyramitela, quadrata, radiata, resupina, reticulata, rubea, rubra, rufa, scripta, sepium, signata, socialis, sylvatica, tardipes, tenebricola, tenuipes, terricola, textrix, thoracica, tigrina, triangularis, tristriata, vivax, zonata. *Vide et Lynphia.*
- Linza** flosculosa, hippocrepis, pruniformis, stentorea.
- Liocheles** australasiae.
- Liodes** theleproctos.
- Liogaster** obtusa.
- Liogastra** bicolor.
- LioGENYS** castaneus, concolor, denticeps, fulvescens, fuscus, gayanus, obscurus, pallens, pallidicornis, parvus, quadridentatus, santaecrucis.
- Liolaemus** conspersus, cyanogaster, elegans, hieroglyphicus, lemniscatus, lineatus, marmoratus, modestus, multimaculatus, olivaceus, pectinatus, pictus, tenuis, unicolor.
- Lioniscus** glaber.
- Lionychus** aeneipennis, americanus, cinctus, holosericeus, latens, marginellus, quadrillum, subsulcatus.
- Liopae** tentaculata.
- Liopeltis** tricolor.
- Liophis** cobella, doliatus, muliaris, poecilogyrius, reginae, taeniurus.
- Liophloeus** canus, chrysoperus, geminatus, gibbus, herbsti, lentus, maurus, nubiculosus, nubilus, obsequiosus, pulverulentus, schmidtii.
- Liopholis** moniligera.
- Liopola** fasciata, gracilis.
- Lioptena** phyllostomatis.
- Liopteron** compressum.
- Lioptilus** nigricapillus.
- Liopus** coenobita, conspicillaris, emeritus, floccidus, implexus, polymitis, remissus, serpentinus, strigilis, superstes.
- Liorhynchus** denticulatus, graciliscens, inermis, pulmonalis, truncata, tubifera, vulpis.
- Liosoma** microlepis, sitchaense.
- Liostephania** magnifica, rotula.
- LioStoma** coccineum.
- Liostraca** bina, jota.
- Liotheum** atrum, carduelis, cimicoides, citrinellae, conspurcatum, cucullare, eury sternum, flavescens, fregili, fulvo-cinctum, fulvo-maculatum, giganteum, gilvum, haliaetis, hasticeps, icterum, importunum, inaequale, irascens, laticolle, lituratum, luridum, malleus, mesoleucum, minutum, nigro-pleurum, nitidissimum, nyctarde, ochraceum, pallidum, percnopteri, perdicis, phanerostigmaton, piceum, pici, pulicare, punctatum, quadripustulatum, ridibundi, scopulicorne, semi-luctus, sinuatum, stramineum, strepsilae, subaequale, sulphureum, transversum, tridens, trochioxum, troglodyta, turbinatum, umbrinum, zebra.

- Liotia** *atfinis*, *duplicata*, *granulosa*, *krausi*, *nodulosa*, *pulcherrima*.
Liotropis *ernesti*.

- Lissa* (Dipt.) carbonaria, cornuta, dolium, fissirostra, loxocerina, rufipes, varipes.
Lissauchenius rufifemoratus.
Lissocarcinus polyboides.
Lissocardia magna, silesiaca.
Lissodelphis peroni.
Lissodema heyana.
Lissogenius planicollis.
Lissomus bicolor, biloccosus, bimaculatus, bisignatus, cribratus, ebeninus, flavipennis, foveolatus, hirticollis, lacordairei, nitidus, punctulatus, sanguineus, signatipennis.
Lissonota accusator, agnata, annulata, apicalis, argiola, arvicola, bellator, bicornis, bifasciata, bilineata, bivittata, brachycentra, caligata, catenator, conflagrata, cylindrator, decimator, defectiva, deversor, dorsalis, elector, flavipes, grisea, hortorum, impressor, insignata, irrisoria, lateralis, leucogona, linearis, lineata, maculatoria, marginella, murina, occupator, pallipes, parallela, pectoralis, perspicillator, petiolaris, picta, polyzonias, quadrinotata, rufescens, ruficornis, segmentator, setosa, striata, suborbitalis, sulphurifera, thoracica, tomentosa, verberans.
Lissonotus abdominalis, asphaltinus, aterrimus, basalis, bicolor, biguttatus, busignatus, carbonarius, cinctus, corallinus, cruciatus, culiciformis, equestris, flabellicornis, flavocinctus, multifasciatus, nigrita, obsoletus, regalis, rotundipennis, scutellatus, spadiceus.
Lissopterus quadrinotatus.
Lissorhinus eryx.
Lissotarsus canaliculatus, depressus, reticulatus.
Lissotis melanogaster.
Lissotriton alpestris, palmatus, palmipes, punctatus.
Listera compressa, papyracea, pinnata, piperata.
Listriodon larteti, splendens.
Listrion rostrum.
Listrochelus laportaei.
Listroderes apicalis, appendiculatus, bimaculatus, caudatus, costirostris, delumbis, distinguendus, fulvipes, griseus, humilis, immundus, inaequalipennis, latiusculus, lineatulus, nodifer, obliquus, ovatus, pilosus, porcellus, robustus, solutus, sordidus, sparsus, spurius, squalidus, squamiger, subcinctus, subcostatus, vittatus.
Listroderus comatus, humilis, margaritaceus, placidus.
Listrodromus nycthemerus.
Listronychus aeneus, femoralis, splendens.
Listronyx faminaei, nigriceps.
Listroptera tenebrosa.
Listroscelis armata, gracilis, longispina, pectinata, viridis.
Lita acanthella, acrella, affiniella, alacella, albiapicella, albicipella, albiflavidella, albocingulella, alburnella, anthyllidella, apicistrigella, artemisiella, atripicella, betulinella, bifractella, biguttella, bisulcella, caliginosella, carchariella, cariosella, cervinella, cinctella, cinerella, conturbatella, coronilcella, cuspidella, cytisella, dimidiella, dissimilella, distinctella, dolosella, electella, elegantella, favillaticeella, fischerella, flavicomella, flavigutella, friesella, fugacella, fugitivella, funestella, fuscella, gallinella, hauerella, heroldella, histrionella, humeralella, kingerella, lentiginosella, leucateella, lineatella, lineolella, luctuella, luctuosella, lunatella, stipella, marmoripennella, miscella, monachella, mouffetella, murinella, naeviferella, nanella, nevroptereella, nigricostella, nigrofasciella, nigrovitella, notatella, obsoletella, peliella, proximella, pullatella, purpurella, rhombella, roseella, scintillella, scopolella, scriptella, senectella, senicuteella, signatella, simplella, sisymbrella, spodiella, stipella, subericinella, subequella, terella, tesserella, tricinctella, triguttella, triparella, tristella, umbrosella, unicolorella, velocella, vigeliella, vorticella, vulgella, zebrella.
Litamera typus.
Litargus arcuatus, bifasciatus.
Lithacodia bellicula.
Lithactinia novae hyberniae.
Litharaea heberti, websteri.
Litharoea rouyana.

Lithidion sulcatum.

Lithina arenacea, petrata.

Lithinus ludiosus, superciliosus.

Lithiphus arcuatus, difformis, helacinus.

Lithobius agilis, alpinus, americanus, argus, brevicornis, calcaratus, castaneus, communis, curtipes, dentatus, elongatus, emarginatus, erythrocephalus, fasciatus, forficatus, glabratus, grossipes, hardwickei, impressus, laevilabrum, leachi, longicornis, lucasi, melanops, mexicanus, minutus, monilicornis, montanus, multidentatus, muticus, nudicornis, oetops, pilicornis, planus, platensis, platypus, pleonops, punctulatus, pusillus, quadridentatus, rubriceps, sloanei, spinipes, variegatus, varius, vulgaris.

Lithobotrys denticulata, galea, quadriloba, triloba.

Lithocampe aculeata, acuminata, antarctica, aurita, hirundo, lineata, punctata, radícula, solitaria, stilligera.

Lithocaris brevicollis.

Lithocharis angularis, biseriata, brunnea, castanea, cinnamomea, collaris, confluent, corticina, curtula, debilis, depressa, diluta, dorsalis, exilis, ferruginea, fumata, hepatica, humilis, infuscata, limbata, macularis, melanocephala, minuta, nigritula, nitida, oblita, obscurella, obsoleta, posticata, rufiventris, sordida.

Lithocolletis abrasella, acaciella, agilella, alniella, alnifoliella, amyotella, betulæ, cavella, comparella, conexella, delitella, distentella, elatella, fagifoliella, fraxinella, fritillella, froelichiella, heegeriella, heydeni, ilicifoliella, insignitella, junoniella, kleemannella, kuhlweiniella, lautella, leucographella, locupletella, manni, messaniella, muelleriella, parisiella, pastorella, pomonella, populifoliella, rafella, roboris, salicella, saportella, satirella, scopariella, suberifoliella, tenella, tremulae, ulmiella.

Lithodendron affine, angulosum, annulatum, articulatum, caespitosum, capitatum, cariosum, coarctatum, compressum, concameratum, costatum, cristatum, dianthus, dichotomum, edwardsi, elegans, eunomia, exiguum, fasciatum, fasciculatum, fastigiatum, flabellum, flexuosum, funiculus, furca, fusinieri, gemmans, gibbosum, gracile, granulosum, hippurinum, humile, intricatum, irregulare, laeve, laviforme, lineatus, longiconicum, manipulatum, moreausiacum, multicaule, multostellatum, nanum, parasiticum, parasitum, pauciradialis, plicatum, proliferum, pseudoflabellum, pseudostylina, rameum, ramulosum, rauracum, secundum, sexdecimale, sociale, stellariaeforme, subarctum, subdichotomum, sublaeve, trichotomum, vermiculare, verticillatum, virgineum.

Lithoderma cuneus.

Lithodes antarctica, arctica, brevipes, camtschaticus, histrix, japonica, maja, spinosissimus.

Lithodomus aequalis, aglae, alsus, amygdaloides, archiaci, argenteus, aristatus, attenuatus, avellana, canaliferus, carantonensis, caudigerus, clabornensis, contortus, corallinus, cordata, crassus, cyprius, dactyloides, dactylus, deshayesi, discrepans, elatior, ermanianus, faba, fabella, faujasi, fuscus, inca, inclusus, inflatus, intermedius, irregularis, laevigatus, lithophagus, luciensis, oblongus, obtusus, orbiculatus, papyraceus, parasiticus, patagonicus, peruvianus, pistilliformis, plicatus, plumula, politus, praelongus, pyriformis, radiatus, rostratus, rugosus, rupellensis, socialis, sowerbyi, striatus, subintermedius, toucasiana, truncatus. *Vide et Lithodomus.*

Lithodytes lineatus.

Lithoglyphus eburneus, fuscus, lapidum, piscinus.

Lithoglypter naticoides.

Lithognathus capensis.

Litholepis adamantinus, dorsalis.

Litholophius bolcanus.

Lithomoia rectilinea, solidaginis.

Lithomys parvulus.

Lithophaga crenulata.

Lithophagus antiquus, caperatus, caudatus, communis.

Lithophane conspicularis, divisa, petroliginea, pulla, sagittifera.

Lithophilus (Col.) connatus, cordicollis, osculati, ruficollis.

Lithophilus (R.) bicolor, inornatus.

Lithopoma tuber.

Lithornis *vulturinus*.

sulcata, muricatus, muricoides, naua, naticoides, neglecta, neritiformis, neritoides, nigrolineata, nodosa, nodulosus, novae hiberniae, obesa, obscura, ornatus, pallescens, palliata, pallidula, patula, perdix, peruviana, petraea, phasianelloides, picta, planaxis, plena, plicatilis, porcata, prevostina, pulchra, punctata, punctura, pusilla, pyramidalis, radiata, roissy, rotundatus, rudis, rudissima, saxatilis, sayi, scabra, sculptus, scutulata, semicostata, serialis, sieboldi, sitkana, solida, squalida, stigma, striata, striatella, striatulus, submuricata, suboperta, subtenebrosa, sulcata, sulciosa, tenebrata, tenebrosa, tenuis, tigrina, tricostralis, trochoides, tuberculata, tunstallensis, ulvae, umbilicata, undulata, unifasciata, varia, variegata, ventricosus, ziczac, zigzag, zonaria. *Vide et Littorina.*

Lituaria phalloides.

Lituina spirula.

Lituities articulatus, biddulphi, breynei, convolvans, cornuarietis, eidiensis, ellipticus, falcatus, giganteus, gracilis, hisingeri, ibex, lamellosus, lateralis, liasinus, lituus, odini, perfectus, sowerbyanus, sulcatus, tortuosus, undatus, undosus.

Lituola aequalis, deformis, nautiloides, rugosa.

Lituolites difformis, nautiloidea.

Liturgus irrasus.

Litus cynipseus.

Lituus brevis, laevis, prototypus, vulgaris.

Lius deplanatus.

Livella ulicis.

Livia juncorum.

Livoneca desmaresti, indica, rafinesquei, raynaudi, redmani.

Lixus abdominalis, aberratus, acicularis, aciculatirostris, acuminatus, acupictus, acutus, adpersus, aeneus, aethiops, affinis, albidus, alboguttatus, albonarginatus, albotriatus, algitus, alternans, amphora, anguiculus, anguinus, angustatus, angusticollis, angustus, antilope, appendiculatus, arabs, arundinis, ascanii, ascanioides, atriplicis, attenuatus, augurius, auricillatus, auriculatus, auritus, australis, bambalio, barbarus, barbiostris, bardanae, basilaris, bicolor, bidentatus, biimpressus, bimaculatus, binodulus, binotatus, blondina, brachyrhinus, brasiliensis, brevicaudatus, brevicaudis, brevirostris, brunneus, buccinator, caffer, calandroides, californicus, caliginosus, callonis, canaliculatus, candidus, canescens, canus, cardui, carinatus, carinellus, carinerostris, carinicollis, carlinae, carthami, cenobita, centauri, chevrolati, cinerascens, cinereus, cinnabarinus, circumcinctus, circumdatus, clatratus, clavipes, coarctatus, coarcticollis, concavus, conformis, conicirostris, conicollis, conicus, connivens, consenesens, constrictus, costalis, crassipes, cribricollis, cuniculus, cylindraceus, cylindricus, cylindroides, cynarae, declivis, dentipes, denudatus, depressus, desertorum, diloris, discolor, dorsalis, dregei, dubius, duponti, elegans, elegantulus, elongatus, emarginatus, eschscholtzi, eversmanni, exaratus, excavaticollis, fallax, farinosus, fasciatus, fasciculatus, faunus, favens, ferrugatus, ferrugineus, filiformis, fimbriolatus, flaveolus, flavescens, flavicornis, foveolatus, furcatus, gages, gazella, geminatus, gemmellatus, germari, gibbus, glaucus, gracilis, grammicus, granulatus, gravidus, guttatus, guttiventris, haematoceras, haerens, helvolus, hieroglyphicus, hirticaudis, hirticollis, hottentottus, impressicollis, impressus, incanescens, incarnatus, inops, inquinatus, iridis, irsectus, irroratus, jaceae, junci, karelini, kolenati, lateralis, latirostris, lefebvrei, limbatus, linearis, lineatus, lineola, lividus, longulus, loratus, lycophocus, lymexylon, macilentus, madidus, marginalis, marginatus, marmoratus, maurus, melanocephalus, meles, mesopotamicus, mexicanus, miagri, mimosae, mixtus, modestus, morbillosus, morosus, motacilla, mucronatus, musculus, myagri, nanus, nebulosus, neglectus, nigratarsis, nordmanni, notatus, nubilosus, nycterophorus, obliquus, ochraceus, ochreateus, octoguttatus, octolineatus, odontalgicus, onopordi, ophthalmicus, orbitalis, orientalis, pacificus, pallens, palmatus, palpebratus, palumbus, parallelus, paraplecticus, pardalis, peregrinus, pica, pistrinarius, plicatus, pollinosus, porcatus, porculus, poricollis, praepotens, productus, pulverulentus, pulvinatus, pulvisculosus, punctatus, punctirostris, punctiventris, pyrrhocnemis, quadripustulatus, ravicularis, recurvus, reticulatus, rhomboidalis, roreus, roridus, rosenschoeldi, rubellus, rubicundus, rubiginosus, ruficornis, rufulus, rugicollis, salentinus, sanguineus,

- sardinicus, scabricollis, scolopax, scolymi, scoparii, scrobicollis, segnis, semipunctatus, seniculus, senilis, sericatus, seriesignatus, sculus, simplex, sinuatus, sita, spartii, spectabilis, spinimanus, striatellus, stupor, sturmi, subacutus, subangustatus, subcaudatus, subfasciatus, submaculatus, subtilis, subulipennis, suetus, sulcirostris, sulphuratus, superciliosus, sylvius, tabidus, tasmanicus, tenuicollis, tenuirostris, teretiusculus, tibialis, tigrinus, torvus, tricolor, tricostralis, trilineatus, trilobus, tristis, truncatulus, turbatus, umbellatarum, uniformis, ursus, varicolor, venustus, vestitus, vibex, vicinus, vilis, virens, vittiger, volvulus, vulneratus, vulpes, wagneri, wahlbergi, zoubkoffi.
- Lizzia** octopunctata.
- Llama** guanaco, pacos. *Vide et Lama.*
- Lobaria** (G.) bullata, coriacea, membranacea, striata.
- Lobaria** (L.) rosea.
- Lobatula** concamerata, pulchella, vulgaris.
- Lobesia** bicincta, botrana, lugdunana, reliquana, servilleana.
- Lobetorus** verecundus.
- Lobiger** philippii.
- Lobilabrum** ostrearium.
- Lobiopa** cimbina, contaminata, decumana, dimidiata, grandis, pectoidea, praecox, rotundata, scrobiculata, setulosa, undulata.
- Lobiopoda** ludens.
- Lobipes** (A.) antarcticus, cinereus, fimbriatus, hyperborea, incanus, rufescens, wilsoni.
- Lobipes** (R.) palmata.
- Lobivanelius** albicapillus, albiceps, cinereus, cucullatus, dominica, gallinaceus, goensis, inornatus, lateralis, lobatus, ludovicianus, melanocephalus, personatus, senegalus, tricolor.
- Lobocephalus** heterolobus.
- Lobocheilus** falcifer.
- Lobocoenia** corallina, obeliscus, sublaevis.
- Loboderes** citriventris, flavicornis.
- Lobodes** rubricornis.
- Lobodon** carcinophaga.
- Lobodontus** trisignatus.
- Loboederus** monilicornis.
- Lobophora** (Ech.) aurita, biissa, bifora, bisperforata, elliptica, tenuissima, truncata.
- Lobophora** (Lep.) costaestrigata, dentistrigata, hexapteraria, hexapterata, lobularia, polychomaria, polychomnata, rupestrata, sexualisaria, sexualisata, viretata.
- Lobophora** (Orth.) ruftarsis.
- Lobophyllia** angulosa, aspera, aurantiaca, aurea, bertolina, buvigneri, calyculata, carduus, contorta, corymbosa, cristata, cylindrica, daniana, depressa, deshayesiaca, echinata, eydouxi, fastigiata, fistulosa, flabellum, flexuosa, formosissima, glabrescens, grandis, granulosa, gregaria, hiberna, incubans, jouvencensis, labyrinthica, lacinians, leucasiana, lobata, martiniana, meandrinoides, micheliniana, multilobata, occitanica, parisiensis, pseudo-rochettina, pseudoturbiniolia, pulchella, requieni, ringens, rudis, semisulcata, sinensis, sinuosa, striata, succincta, tenuidentata, trichotoma, turbinata.
- Lobophyllum** konincki.
- Lobopoda** brunnea, contracta, dircaeoides.
- Lobopora** solanderi.
- Lobops** setosus.
- Lobopsammia** cariosa, parisiensis.
- Loborhynchus** adpersus, aeneopunctatus, alutaceus, armadillo, aureolus, auricapillus, auricomus, aurifer, auropunctatus, bannaticus, bisulcatus, brunnipes, carbonarius, carinatus, carinthiacus, carmagnoiae, catenulatus, caudatus, centropunctatus, chlorophanus, chrysonus, cinifer, coecus, cribricollis, crispatus, croaticus, cuprifer, dalmatinus, depressus, dumensis, egenus, erythropus, flabellipes, flavipes, fraxini, friulicus, fuscipes, gallicus, gemmatus, gemmellatus, geniculatus, giraffa, globithorax, grozensis, grandineus, granicollis, granulatus, griseus, hirtipes, hungaricus, industus, infernalis, istriensis, italicus, laevigatus, lavandus, ligustici, lugubris, maculatus,

marginalis, maurus, maxillosus, maxtix, meridionalis, monticola, multipunctatus, nebulosus, niger, nobilis, orbicularis, ovatus, pertusus, picipes, piperatus, planatus, plumipes, pruinosis, pulverulentus, punctatissimus, raucus, regularis, rhacuensis, rufipes, rugifrons, sabulosus, septentrionalis, setiger, sibiricus, squamiger, styriacus, subplanatus, sulcatus, sulcicollis, sulphurifer, tenebricosus, tereticollis, terricola, unctuosus, unicolor, velutinus, ventricosus, zebra.

Lobostoma (Hem.) giganteum.

Lobostoma (M.) cinnamomeum, quadridens.

Lobotes citrinus, erate, farkharrii, hexazona, incurvus, ocellatus, somnolentus, surinamensis.

Lobotrachelus conicollis, egenus, histrio, ineptus, litigiosus, pusius, subsignatus, vestitus.

Lobularia aequinoctialis, arbestina, brachionerythra, brachyclados, capitata, conoidea, coriacea, digitata, leptoclados, manus diaboli, palmata, pauciflora, polydactyla, sphaerophora, spinulosa, vesiculosa.

Lobuloma inequalis.

Lochmaeus manteo.

Lochmia squamulata.

Lochmias hilairii, nematura, squamulata.

Locusta abortiva, acanthoceras, adusta, aequalis, affinis, alberti, amboinensis, ampullacea, aprica, aquilinus, arcuifolia, armadillo, autumnalis, bicolor, bicordata, biguttula, bisulca, borneoensis, brevicauda, brevifolia, brevipennis, buergeri, caeruleus, calliptera*, cantans, caricifolia, carinata, carolina, cassinaefolia, caudata, cavicola, celebica, centurio, chabrieri, chloris, christii, coerules, consobrina, conspersa, corallina, crassiceps, crassifolia, crenifolia, crenulata, crucigera, cubensis, curtispennis, diluta, dorsalis, dorsata, dux, elegans, ensis, erythropoda*, erythrosoma, eucrata, extincta, flavipes, forsteni, fumigata, fuscus, gavarniensis, gracilis, grisea, grossa, haemorrhoidalis, hastata, hordeifolia, imperialis, infusca, japonica, lanceolata, laticeps, latipennis, laurifolia, lepida, leucotoma, lilifolia, lineata, lineatus, lobifolia, loboensis, lolifolia, longicauda, longipennis, longipes, macassariensis, maculata, mandibularis, marginata, maritima, marmorata, megacephala, melaena, miles, miniata, minuta, mollis, monstrosa, montana, mucro, musarum, nebulosa, nigrostome, niponensis, nitidifolia, novae guineae, novae hollandiae, obscura, ochropa, octoseriata, parallela, parumpunctata, phryganoides, pilipes, planispina, podocausta, praefolia, prisca, punctata, quinque-nervis, radiata, retifolia, rhomboidea, roeseli, rosea, rubicunda, rubromarginata, rubroviridata, rufipes, rugosa, salicifolia, savignyi, scalaris, serrulata, servillei, setigera, speciosa, squarrosus, striata, stridula, sulphurea, sumatrana, tartarica, tessellata, thoracica, tricarinata, triopis, trilineata, triticifolia, unicolor, variegata, varipes, venosus, verruculata, viennensis, vigentissima, viridifasciata, viridifolia, viridula, vittata, vorax, xiphias.

Locustella avicula, certhiola, locustella, naevia, rubescens, sibilans, sibilaria, sibilatrix.

Locustites maculata.

Loddigesia mirabilis.

Loemphloeus bisignatus, monilis. *Vide et Laemo*→.

Lohita grandis.

Lolidia leuconotis.

Loliginites bollensis, giganteus, sagittatus, schuebleri, simplex, subcostatus.

Loligo aalensis, aequipoda, affinis, alessandrini, angulatus, australis, banksi, bartlingi, bartrami, bergi, bertheloti, bianconii, bollensis, brasiliensis, brevipinna, brevis, brevitentaculata, brongniarti, caraibaea, cardioptera, caribaea, carunculata, chinensis, coindetii, corolliflora, cranchi, cylindracea, duvauceli, eblanae, emmatina, fabricii, felina, gahi, gigas, gronovii, hardwickei, harpax, hexapodia, illecebrosa, laevis, lamar-mora, lanceolata, laticeps, leachi, leptura, longaevis, magna, marmorata, maxima, media, meneghinii, mentzeli, minima, neglecta, odagadium, oualaniensis, parva, pealei, pelagica, peroni, pironneau, piscatorum, plagiopoda, pleii, priscus, pulchra, punctata, sagitta, schuebleri, sepiacea, sepioidea, smithi, smythi, spiralis, subalata, subsagittata, sumatrensis, todarus, touchardi, tricarinata, tunicata, uncinata, vanikoriensis, vitreus.

- Loligopsis** bomplandi, chrysophthalmus, cyclurus, dubia, ellipsoptera, guttata, pavo, peroni, veranyi, vermicolaris, zygaena.
- Lomanotus** genei, marmoratus.
- Lomaptera** bivittata, cupripes, ebena, fasciata, latreille, nigro-aenea, nitens, papua, schauini, urvillei, valida, viridi-aenea.
- Lomaspilis** marginaria, marginata, naevaria, pollutaria.
- Lomastoma** terebrina.
- Lomatia** alecto, appendiculata, belzebub, caloptera, elongata, hecate, lateralis, sabaea.
- Lomatoceras** distichum, priodon.
- Lombrineris** latreille, orbigny, pectinifera. *Vide et Lumbri*→.
- Lomechusa** bipunctata, dentata, emarginata, inflata, intermedia, paradoxa, siberica, strumosa.
- Lomedea** gracilis.
- Lomelia** epimethea.
- Lomis** dentata, hirta.
- Lomographa** laevigaria, permutataria, renularia, taminaria.
- Lomvia** brunnichi, ringvia, troile.
- Lonchaea** aenea, albitarsis, caerulea, chalybea, chorea, crepidaria, dasyops, deutsch, ensifer, flavipennis, glaberrima, hirticeps, hyalipennis, laticornis, latifrons, leucostoma, metallica, nigra, nigrimana, palposa, parvicornis, punila, pusilla, tarsata, vaginalis, viridana. *Vide et Lonchoea*.
- Loncheres** albispinis, anomala, atricola, armata, blainvillei, brachyura, cabirinus, cayennensis, chrysuros, cristata, dactylina, elegans, fuliginosa, grandis, hispida, inermis, laticeps, macrura, myosuros, nigrispina, obscura, paleacea, picta, rufa, semivillosa, setosa, unicolor.
- Lonchodes** brevipes, geniculatus, pterodactylus.
- Lonchoea** claripennis, nigritaris, obscura, polita. *Vide et Lonchaea*.
- Lonchophorus** (Col.) hastifer, iasius, obliquus, parasita. *Vide et Lonco*→.
- Lonchophorus** (M.) fossilis.
- Lonchoptera** cinerella, cingulata, cingulatae, flavicauda, grisea, impicta, lacustris, lutea nigrimana, palustris, punctum, riparia, rivalis, thoracica, trilineata, tristis.
- Lonchopteryx** leachi.
- Lonchotus** crassus, lentus, muticus.
- Lonchura** cheet, leuconota, melanocephala, nisoria.
- Lonchurus** aencylodon, arcuatus, depressus, dianema, nasus.
- Loncoma** incurva.
- Loncophorus** chevrolati, humeralis, petiminosus. *Vide et Loncho*→.
- Loncosilla** solenoides.
- Londra** calandra.
- Longaeva** turrita.
- Longina** abdominalis, halimenoides, wiedemanni.
- Longirostra** grisea.
- Longitarsus** analis, consociatus, fusco-aeneus.
- Lonsdaleia** crassicornis, duplicata, rugosa, stylastraeiformis. *Vide et Lousdalia*.
- Lonsdalia** inordinata.
- Lontra** brasiliensis, canadensis. *Vide et Lutra*.
- Lopadorrhynchus** brevis.
- Lopas** apiciana, combustana, divisana, falsana, radiana, rufana, sericana, umbrana.
- Lopha** articulata, assimilis, bifasciata, clarkii, doris, glabra, haemorrhoidalis, lateralis, minima, nana, nigra, poecila, poecilia, pulchella, pulicaria, pusilla, quadriguttata, quadri-maculata, quadri-pustulata, sibirica, spencei, subglobosa.
- Lophalector** ignitus, vieilloti.
- Lophaon** lophotes.
- Lophelia** anthophyllites, prolifera, subcostata.
- Lopherpes** dicyanelis.
- Lophias** punicea.
- Lophidius** brevicollis, laticollis, testaceus.
- Lophinus** palmatus, punctatus.

Lophiodon anthracoidum, aurelianense, buxovillanum, cesserasicum, commune, eocaenus, giganteum, goldfussi, isselanum, issellense, leptognatum, magnum, medium, minimum, minus, minutum, monspessulanum, muliere-dentatus, occitanum, occitanicum, occitanum, parisiense, sibiricus, tapiroides, tapirotherium.

Lophiotherium cervulum.

Lophius aculeatus, americanus, barbatulus, brachysomus, budegassa, bufo, calico, cocinsinensis, cornubicus, cubifrons, europaeus, eurypterus, foliatus, geographicus, gibbus, hirsutus, hispidus, histrio, laevis, muricatus, nostratus, pacanah, radiatus, raninus, rostratus, sandvicensis, upsicephalus, viviparus, vomerinus.

Lophobasis aeneicollis, hieroglyphica, subelathrata.

Lophocampa caryae, maculata, tessellaris.

Lophocephala (Hem.) guerini, incerta.

Lophocephala (Verm.) edwardsi.

Lophocercus sieboldi.

Lophocerus galeata.

Lophocharis rostrata.

Lophocheilus collaris, distinctus, villosus.

Lophocitta ardesiaca, galericula, galericulatus, histrionica.

Lophocomus anaitis.

Lophocorythus gubernatrix.

Lophoderus ministranus, subfascianus.

Lophodes nodipennis.

Lophofera impyana.

Lophognathus gilberti.

Lopholaemus antarcticus.

Lopholithodes mandti.

Lophoma punctata.

Lophonocerus barbicornis, bicornis, hirticornis, strigonus.

Lophonota audouini.

Lophonotus (Dipt.) albibarbis, albisetosus, americanus, auribarbis, breoni, brevipennis, flavibarbis, forcipatus, geniculatus, heteronevrus, incisuralis, punctipennis, rufus, suillus, tibialis.

Lophonotus (Lep.) fasciculellus.

Lophophanes galeatus, wollweberi.

Lophophorus cuvieri, gardneri, impeyanus, leucomelanos, leucomelas, nigelli, refulgens, wallichi.

Lophops servillei.

Lophopteryx camelina, carmelita, cuculla, cucullina.

Lophoptilus staintoni.

Lophopus (Polyz.) bakeri, campanulatus, crystallinus.

Lophopus (R.) marmorata.

Lophorhynchus antarcticus, saurophagus. *Vide et Lophorynchus.*

Lophorina aurantia, respublica, superba.

Lophornis auratus, chalybeus, helenae, magnificus, reginae.

Lophorrhina quinquelineata.

Lophortyx californica, douglasi, elegans, gambeli.

Lophorynchus dilophus. *Vide et Lophorhynchus.*

Lophoseris boletiformis, divaricata.

Lophosia fasciata.

Lophosmia cenomana, rotundifolia.

Lophospiza cristata, cruenta, griseocristata, pileata.

Lophosternus buqueti, hopei.

Lophostoma sylvicola, sylvicolum.

Lophostrix cristata, griseata.

Lophotes (A.) cepedianus*, indicus.

Lophotes (P.) capellei, sculus.

Lophotetrax macrolophus.

Lophotis (A.) ruferista.

- Lophotus (Col.)** eschscholtzi, fasciatus, nodipennis, phaleratus, reticulatus, superciliosus vitulus.
- Lophotus (M.)** longipes, wurmbi.
- Lophotus (P.)** lacepede.
- Lophura (A.)** ignita.
- Lophura (Moll.)** inca, isabella, islandica, pellis serpentis, tehuelcha.
- Lophura (R.)** amboinensis, concinna, cuvieri, lesueuri, lophura, pustulata, shawi.
- Lophyrus (A.)** araucanus, coronatus, indicus, victoria.
- Lophyrus (Hem.)** meyeri, rufus, sexguttatus.
- Lophyrus (Hym.)** abboti, abdominalis, abietis, americana, compar, difformis, dorsalis, elongatulus, fabricii, frutetorum, hercyniae, hercynicus, interruptus, juniperi, laricis, melanopterus, minor, nemorum, obscuratus, pallida, piceae, pineti, pini, politus, polytomus, pulchricornis, similis, socius, variegatus, virens.
- Lophyrus (R.)** agamoides, albomaxillaris, armatus, aureonitens, belli, dilophus, furcatus, gigas, kuhli, margaritaceus, ochrocollaris, panthera, rhombifer, scutatus, superciliosus, tigrinus, xiphosurus.
- Lopus** albomarginatus, carinatus, chrysanthemi, crucialis, dolabratus, ferrugatus, gothus, hieracei, rubrostriatus.
- Lora** viridula.
- Lorax** arcuatus.
- Lordatia** cadaverina, coprina, merdarum, necrophaga, stercoraria.
- Lordites** caliginosus, inquinatus, procerus, testudinarius.
- Lordops** albuguttatus, aurosus, biacutus, cinctus, circumdatus, festivus, guttatus, gyllenhalii, infacetus, insignis, jucundus, lacrimosus, lateralis, navicularis, parvus, principalis, schoenherri, sommeri, viridulus.
- Lori** tardigradus.
- Loricaria (P.)** accipenser, acuta, anus, brunnea, dentata, flava, laeviuscula, nudiventris, platyura, rostrata, setifera, setigera, vetula.
- Loricaria (Polyz.)** aegyptiaca, americana, europaea.
- Loricatus** flavimanus, hybridus, maticus, niger, pichiy, tatouay, villosus.
- Loricera** aenea, decimpunctata, pilicornis, rufilabris, semipunctata.
- Loricerus** crux, violaceus.
- Loricula** pselaphiformis, pulchella, ruficeps.
- Loriculus** asiaticus, galgulus, vernalis.
- Loripes** balaustina, densa, digitaria, eburnea, elevata, flexuosa, lacteus, leucoma, parilis, radula, reticulata, rubiginosa, tigerinus, turgida, undatus, undularia.
- Loris** bengalensis, ceylonicus.
- Lorius** borneus, caeruleatus, cardinalis, coccineus, cucullatus, cyanurus, domicella, fringillaceus, garrulus, grandis, guebiensis, incarnatus, isidori, kuhli, novae guineae, ornatus, papuensis, phigy, ruber, superbus, tricolor, unicolor, vini.
- Lota** abyssorum, argenteola, bacchus, breviuscula, brosmiana, fluviatilis, inornata, lota, maculosus, molua, molva, phycis, raptor, rhacina, vulgaris.
- Lotis** confucii, guttata, neglecta.
- Lotor** vulgaris.
- Lotorium** lotor.
- Lotria** binaevella, nebulella, nimbella, sinuella.
- Lotta** elongata, joptera, lepidion.
- Lottia** alveus, antillarum, conoidea, costata, cymbiola, elongata, flammea, fragilis, orbicularis, pallida, parvula, pileopsis, pintadina, pulchella, punctata, radians, rugosa, septiformis, squamosa, stellaris, striata, testudinalis, testudinaria, unicolor, variabilis.
- Lousdalia** inordinata. *Vide et Lonsdaleia.*
- Lovenia** hystrix.
- Lowenia** pinnata, setacea, tetrasticha.
- Loxia** albiventris, albugularis, americana, atricapilla, baglafecht, bella, bicolor, bifasciata, bonapartei, brevirostris, capsicum, chrysocephala, ciris, cristata, crucirostra, cucullata, curvirostra, rubrifasciata, cyanoptera, cyanopus, elaeathorax, europaea, fascinans, ferruginosa, flabellicauda, flavicollis, fraterculus, fulgens, fusca, fuscata, fusciventer, gambiensis, gregaria, gularis, guttata, haematina, haitii, hemalayana, himalayana,

himalayensis, hudsonica, ignicolor, ignobilis, javanensis, lathamii, leucocephala, leucoptera, leucopterygia, leucotis, maculosa, majan, major, melaleuca, murina, nasuta, nigro-aurantia, nitida, novae hispaniae, nubilosa, ostrina, petiti, pinetorum, platycephala, plebeja, prasipteron, pyrrhula, pytiopsittacus, quinticolor, regulus, rosea, rubiginosa, rufobarbata, scandens, semitorquata, serevan, sumatrana, taeniotera, turdus, variegata, virescens, viridis, vulgaris.

Loxocephala aeruginosa, pulchra.

Loxocera aristata, confusa, cylindrica, elongata, fulviventris, hoffmannseggii, ichneumoneus, intermedia, nigrifrons, sylvatica.

Loxocrepis ruficeps.

Loxodes bursaria, cithara, cucullatus, cucullio, cucullulus, dentatus, marinus, plicatus, reticulatus, rostrum.

Loxodon macrorhinus.

Loxodonta africana.

Loxomerus nebridioides.

Loxonema absoluta, acuminata, acuti-striata, acutum, adpressa, altenburgensis, anglica, antiqua, arcuata, biangulata, boydi, brevis, brongniarti, cancellata, compressa, conica, constricta, cytherea, deperdita, dunkeri, elongata, falcifera, fasciata, formosa, fusiformis, geinitziana, gracilis, gregaria, hebe, hehli, hennahi, hennahiana, imbricatum, impendens, impressa, kaupi, laevigata, laevissima, late-scalata, lebruni, lefebvrei, lincta, lineata, megaspira, minima, murchisoniana, neglectus, nereis, nexilis, nuda, obscura, obsoleta, parvula, phillipsi, plieningeri, polygyra, ponti, potosensis, praeterita, primordialis, prisca, pulcherrima, pupa, reticulata, rugifera, similis, sinuosa, stotteri, strigillata, subangulata, subcancellatus, subelongata, subfusiformis, subobsoleta, subulata, sulcata, sulciosa, swedenborgiana, tenuicarinata, tenuiplicata, tenuistriata, teres, tornata, trochiformis, trochleata, tumida, turrita, turritelliformis, ventricosa, vittata, zeuschneri, zietenii.

Loxonevra decora.

Loxophyllum meleagris, ochrea.

Loxoprosopus ceramboides.

Loxops coccinea.

Loxopyga bicolor.

Loxorynchus albipennis, cruvirostris, curvirostris.

Loxosceles citigrada.

Loxostega aeruginalis, clathralis, desertalis, olivialis.

Loxostoma auriscalpium, cancellata, denticulus, punctulata, tereticosta, undata.

Loxostomus mancus.

Loxotaenia rosaceana.

Loxura alcides, atymnus, pita.

Lozogamma petraria, virgata.

Lozopera alternana, badiana, baumanniana, dubrisana, fabriciana, francillana, marmoratana, smeathmanniana, straminea.

Lozotaenia acerana, avellana, biustulana, biustulata, branderiana, carpiniana, cerasana, cinerana, cinnamomeana, corylana, costana, crataegana, croceana, forsterana, fulvaria, fuscana, grossulariana, grotiana, heparana, holmiana, juliana, laevigana, modeeriana, nebulana, neglectana, obliquana, operana, oxyacanthana, ribeana, roborana, rosana, schreberiana, sorbiana, subocellana, trifasciana, viburnana, xylosteana.

Lucanus acuminatus, aeneus, aequalis, aeratus, americanus, angulatus, antilope, asper, astacoides, atratus, bacchus, barbarossa, bengalensis, bicolor, bidens, brahminus, brevis, briareus, bubalus, bucephalus, buddha, bulbosus, buquetti, burmeisteri, caelatus, caniculus, cantori, capitatus, castaneus, castanopterus, cavifrons, chelifer, chevrolati, cicatricosus, cinnamomeus, confucius, cucullatus, cumingi, curtulus, curvidens, curvipes, dalmanni, dehaani, delesserti, distinctus, dorsalis, downesi, dubius, dux, eschscholtzi, externepunctatus, falciger, falco, fauicolor, forsteri, foveatus, foveolatus, fraternus, frontosus, fulvipes, funereus, glabratus, goliath, grandis, gypaetus, hydrophiloides, ibericus, ibex, impressus, incertus, inermis, inquinatus, jenkinsi, lama, lateralis, laticollis, latipennis, latus, lineatopunctatus, longipennis, lunatus, lunifer, lusitanicus, maclellandi, macleayi, macrognathus,

maculatus, malabaricus, manillarum, martini, maxillaris, mearesi, melanarius, metallifer, microcephalus, moloschus, multidentatus, muticus, nebulosus, nepalensis, nigripes, novae zealandiae, oblongus, occipitalis, omissus, opacus, oweni, parallelus, parryi, parvulus, parvus, passaloides, picipennis, placidus, platycephalus, platycerus, platynotus, polyodontus, prinseppi, punctatus, punctiger, quadridens, quercicola, quercus, rafflesi, rangifer, reticulatus, rubripes, rubro-vittatus, rugifrons, sarcophamphus, savagei, sayersi, scarabaeoides, scaritides, senegalensis, sericeus, serricollis, serricornis, serrifer, setosus, similis, sinister, siva, speculifer, spencei, squalidus, striatellus, striatus, strigiceps, subangulatus, subcostatus, sublaevis, submolaris, sulcicollis, tauricus, taurus, tenuipes, tetraodon, tibialis, titanus, triangularis, trigonus, turcicus, unguatus, ursus, v-niger, variolosus, vicinus, villosus, vishnu, vittatus, vitulus, voeti, vultur, westermanni.

Lucapina cancellata, crenulata, elegans*.

Luccius vorax.

Lucena tapada, tiliæ, tupada.

Lucernaria auricula, convolvulus, fascicularis, inauriculata, octocornis, octoradiata, quadriloba, sarsi.

Lucernuta fenestratus.

Lucia (Ar.) germanica.

Lucia (Lep.) agricola, discoidea, limbarica, sylvicola.

Lucidota antennata, appendiculata, banoni, compressicornis, elongata, flabellicornis, limbata, modesta, thoracica.

Lucilia albiceps, albipennis, albofasciata, amica, argyricephalæ, aurulans, azurea, basalis, bengalensis, brevigaster, brunica, brunnicornis, brunripes, cadaverina, caerulea, caerulescens, caesar, caesaria, calens, calida, carolinensis, chloropyga, chrysocephala, claripennis, clausa, coerulea, compar, consobrina, cornicina, cuprea, cyanea, delicatula, dosalis, elegans, equestris, eriophthalma, eximia, fasciata, fervida, flavicalyptrata, flaviceps, flavidipennis, flavipennis, floralis, fraterna, fulgida, fulvicornis, fulvificæ, fulvipennis, fuscipalpis, germana, hirsutoculata, hyacinthina, ignita, iliodea, illustris, incisuralis, indica, lasiophthalma, lepida, limpidipennis, macellaria, marginalis, marginata, meridensis, mexicana, modesta, nigripes, nigripalpis, nigro-caerulea, nobilis, nubipennis, orientalis, pallipes, papuensis, parensis, parvula, peroni, peruviana, philippensis, princeps, pruinosa, pubens, pubescens, puella, punctipennis, putrida, regalis, regina, rostellum, ruficeps, ruficornis, rufifacies, sapphinea, scutellata, senegalensis, serena, sericata, smaragdula, soror, splendida, sylvarum, thalassina, timorensis, urvillei, usta, varipalpis, viarum, vicina, violacea, virgo, viridescens, viridifrons, vittata.

Lucilites nigra.

Lucilla violacea.

Lucina (Dipt.) fasciata, hispanica.

Lucina (L.) abella, acclinis, acutilineata, adansonii, aequilatera, affinis, agassizi, alba, alpina, altavillæ, altavillensis, alveata, ambigua, americana, amphidesmoides, ampliata, anatelloides, angulata, angulosa, annulata, anodonta, anomala, antillarum, antiqua, antiquissima, arcuata, arduennensis, argentea, argus, arthemis, aspasia, astartea, astensis, athleta, aurantia, balaustina, barbata, basteroti, bella, bellona, benzi, bicornis, bimaculata, bipartita, borealis, bowerbanki, brasiliensis, brauni, bulla, bullata, bullula, caelata, calculus, californica, callosa, campaniensis, cancellaris, candida, cardioides, carinifera, carnaria, chemnitzii, childrenæ, childreni, chilensis, chrysostoma, circinaria, circinata, circularis, clausa, columba, columbella, commutata, complanata, compressa, concentrica, contracta, contraria, coquandiana, corbarica, corbisoides, cornea, cornueliana, cornuta, corrosa, corrugata, costaria, costata, coyana, crassa, crenulata, cretacea, cribraria, cristata, cryptella, curviradiata, declivis, decussata, delia, dentata, dentifera, deshayesi, desmaresti, despecta, devonica, digitalis, digitaria, dilatata, discus, divaricata, divergens, dolabra, dubia, dufrenoyi, dunkeri, du noyeri, dupiniana, duplicata, eburnea, edentula, elegandiae, elegans, elliptica, elsgaudiae, ermenonvillensis, exasperata, excavata, excentrica, exigua, exoleta, fabula, fallax, fenestrata, ferruginosa, fibula, fimbriata, fischeriana, flandrica, flexuosa, floridana, foremani, fortisiana, fragilis, frearsiana, friabilis, funiculata,

gabrielis, galeottiana, gemma, georgeana, gibba, gibbia, gibbosula, gigantea, glabrella, globiformis, globosa, globularis, globulosa, goodhalli, goupili, gracilis, granulosa, griffithi, guaraniana, gyrata, hardingeri, helvacea, heteroclita, hiattelloides, hibernicensis, hisingeri, hosdinciaca, ictérica, imbricata, imbricatula, immersa, impressa, inaequalis, inculta, interrupta, irregularis, jamaicensis, jancirensis, jugosa, jurensis, lactea, laevigata, laevis, lamellosa, laminata, lens, lenticula, lenticularis, leonina, leucoma, leucophoeota, leymeryi, lineata, lirata, lobata, lori, lori, luciensis, lunata, lupina, lutea, lyrata, malum, menardi, minima, minuta, minutissima, miocenica, mississippiensis, mitis, modesta, mosae, multilamellata, multistriata, muricata, mutabilis, nassula, neglecta, neptuni, nereis, nitens, nivea, numismalis, nuttalli, obliqua, oblonga, obtusa, occidentalis, ochracea, orbicularis, orbignyana, ornata, ovata, ovulum, ovum, pandata, papyracea, parvula, patagonia, pecten, pellucida, pennsylvanica, perlevis, philippina, philippensis, phillipsiana, pila, pisiformis, pisum, plana, plicatocostata, pomilia, poppelacki, portesiana, portlandica, prisca, proavia, prodita, producta, pulchella, pulvinata, pumila, punctata, punctulata, putris, quadrisulcata, radians, radula, ramulosa, reichei, renulata, reticulata, retusa, roissyi, rossica, rotunda, rotundata, rouyana, rufa, rugifera, rugosa, rupellensis, sarsi, sarthacensis, saxorum, scabra, scalaris, scopulorum, sculpta, sedgwicki, semireticulata, senegalensis, sericata, serrata, serrulosa, simplex, sinuata, solida, solidula, speciosa, sphaeroides, spinifera, squamosa, squamula, striatula, subdivaricata, subglobosa, subnumismalis, subobliqua, suborbicularis, subplanata, subradians, substriata, subtetragona, subtrigona, subvexa, sulcata, sulcosa, supracretacea, symmetrica, taurina, telata, tellinoides, tenuis, tenuistria, textilis, texturata, thierensis, tigenna, transversa, trigonula, trisulcata, tumida, turonensis, uncinata, undata, undula, undularia, undulata, uncarinata, unioniformis, vendoperana, venusta, vesicula, vibrayana, vilardeboana, virginea, virgo, vitrea, volderiana, zelandica, zietenii.

Lucinia cadona, sida.

Lucinida cryptella.

Lucinopsis undata.

Lucio abdominalis.

Luciobarbus affinis, canis, elongatus, esocinus, gorguari, longiceps, mursa, mystaceus, schech, schejch, xanthopterus.

Luciola apicalis, australis, capensis, chinensis, discicollis, goudoti, graeca, guerini, italica, japonica, lucernula, lusitanica, maculicollis, madagascariensis, melanura, pedemontana, praeusta, puncticollis, vittata.

Lucioerca americana, canadensis, grisea, marina, sandra, volgensis.

Lucis subulatus.

Ludius aeneus, affinis, altaicus, anxius, assimilis, boeberi, brasiliensis, caschmirensis, castaneus, caucasicus, cinctus, coracinus, costalis, cribricollis, crocopus, cruciatus, cupreus, decorus, depressus, diversicolor, eschscholtzi, ferrugineus, fuscus, grandis, guttatus, haematodes, holosericeus, humeralis, impressus, insitivus, latus, lobatum, luteipes, melancholicus, nigrans, pectinicornis, profugus, pyrenaeus, quadri-lineatus, quercus, ramifer, resplendens, rubidus, rufiventris, rugipennis, rugosus, saginatus, sagitticollis, scabricollis, sericeus, sibiricus, tessellatus, umbricola, uncinatus, volitans.

Ludovicus impar.

Ludovix fasciatus.

Luidia ciliaris, fragilissima, maculata, murchisoni, sarsi, savignyi, senegalensis.

Lumbricaria antiqua, colon, coniugata, filaria, flexuosa, gordialis, gregaria, intestinum, recta, spiralis.

Lumbricillus lineatus, verrucosus.

Lumbriconais capitata, marina.

Lumbriconereis nardonis, quadristriata, unicornis.

Lumbriculus limosus, variegatus.

Lumbricus agilis, agricola, amphisbaena, anatomicus, annularis, blainvilleus, caeruleus, castaneus, chloroticus, cirratulus, clitellinus, coccineus, communis, complanatus, dubius, ephippium, filigerus, flaviventris, giganteus, gigas, gordianus, gordioides, hirticauda, hirtus, intestinalis, isidorus, iuloides, leptozonius, litoreus, littoralis, lividus, maximus, microchaetus, mollis, multispinis, nesidensis, niger, noctilucus,

- olidus, omilurus, pellucida, phosphoreus, purus, pusillus, puter, putridinis, pygmaeus, quadrangularis, radiatus, renum canis, riparius, rolandi, roseus, rubellus, rufescens, saint-hilairei, simplicissimus, siphonostoma, squamatus, stagnalis, stylarioides, teres, terrenus, tetraedrus, trapezoides, trapezoideus, triannularis, vulgaris, xanthurus.
- Lumbrineris** coccineus, residensis, rolandi, s.-hilairei, scolopendrina, siphodonta, splendida. *Vide et Lumbrici*→.
- Lumbrineris** pallasi.
- Lumpus** anglorum, minutus, spinosus, ventricosus.
- Lunatia** ampullaria, limbata, plumbea.
- Lunda** arctica, cirrhata, psittacula.
- Lunites** guidoni.
- Lunopsis** hoeninghausi.
- Lunulacardium** canalifer, carpomorphum, excrescens, inaequicostatum, ovatum, partschi, procrescens, pyriforme, semistriatum, tetragonum, vulgaris. *Vide et Lunulo*→.
- Lunulina** diaphana, lunula, moniliphora, mougeoti.
- Lunulites** alveolatus, androsaces, bouei, conica, contigua, cretacea, cuvieri, dactiloides, denticulata, depressa, digitale, distans, duclosi, glandulosa, goldfussi, guettardi, haidingeri, hemisphaerica, infundibulum, intermedia, lenticulata, mamillata, mitra, muensteri, oweni, patelliformis, perforatus, pinea, pocillum, punctatus, quincuncialis, radiata, radiatilis, rhomboidalis, semilunaris, sexangula, spiralis, spongia, subperforata, sulcata, umbellata, urceolata, vanderheckei, vicksburgensis.
- Lunulocardium** retrostriatum. *Vide et Lunula*→.
- Lupa** banksi, dufouri, forceps, maculata, pelagica, sanguinolenta, sayi, trispinosa.
- Lupea** cribraria, dicantha, gladiator, granulata, hastatus, lobifrons, rubra, sebae, tranquebarica.
- Luperina** aquila, argillacea, basilinea, cespitis, contribulis, dumerili, infesta, polyodon, testacea.
- Luperosaurus** cumingi.
- Luperus** altaicus, amoenus, brassicae, cayennensis, cinctellus, collaris, cyaneus, cyanipennis, cyanopterus, dichrus, discolor, dubius, flavipennis, flavipes, flavus, floralis, forticornis, fucatus, geoffroyi, humeralis, innuba, maerkeli, montanus, nasutus, nemorum, orientalis, oxypterus, pallipes, pinicola, pygmaeus, pyrenaeus, rufipes, signaticornis, suturalis, suturella, umbraticus, viridipennis, xanthaspis, xanthopus.
- Lupocyclus** rotundatus.
- Luponia** algoensis, elegans.
- Luprops** chrysophthalmus.
- Lupus** gigas, hastata, lycaon, mexicanus, occidentalis, vulgaris.
- Luscinia** major, media, megarhynchos, minor, okeni, peregrina, philomela.
- Lusciniola** melanopogon.
- Lusciniopsis** fluviatilis, savii.
- Lusciola** akahige, aureola, calliope, cyanura, erythronota, komadori, luscini, philomela.
- Lusia** lutea.
- Lusya** algensis.
- Lutea** lacuna, subpellucida.
- Lutianus** acutirostreus, aurate, bohar, brasiliensis, core, crapa, eques, erythrophthalmus, fasciatus, flavus, gibbus, lunulatus, maenula, manis, mediterraneus, niger, pallidus, perro, pertusus, ruber, scribe, sumatrensis.
- Lutjanus** acutirostreus, adriaticus, alberti, alboareus, anthias, argenteus, argento violaceus, argus, aruanus, ascensionensis, atrarius, aurantius, aureovittatus, blochi, brunnichi, cayanaensis, chaetonoides, chinensis, chlorosochrus, chrysopterus, cinereus, cotta, decacanthus, diacanthus, digramma, elliptico-flavus, ellipticus, geoffroyi, gibbus, gymnoccephalus, hamrur, hexagonus, japonicus, johni, jourdin, lamarcki, lapina, macrophthalmus, maculatus, magnificus, massa, massiliensis, mediterraneus, melanocercus, melops, microstomus, ocellatus, olivaceus, orientalis, pallidus, palloni, palpebratus, pentagramma, percula, pictus, plumieri, polymna, ramentaceus, roissali, rubescens, scandens, scina, sciurus, scriptura, semicinctus, serran, stigma, testudo, triangulum, tridens, trilobatus, unimaculatus, varius, virginicus, vittatus, vosmaeri.
- Lutodeira** chanos, indica, salmonea.

Lutra aureo-brunneus, barang, brasiliana, bravardi, californica, canadensis, capensis, chilensis, chinensis, cinerea, clermontensis, concolor, dubia, enudris, felina, flavicans, fluvialis, huidobria, indica, indigitatus, insularis, inunguis, kutab, lataxina, leptonyx, lupina, lutra, maculicollis, marina, montana, monticolus, nair, nudipes, paranensis, peruviansis, phocula, platensis, poensis, roensis, saricovienna, simung, solitaria, stelleri, tarayensis, valletoni. *Vide et Lontra.*

Lutaria acinaces, alduini, ambigua, angulata, angulifera, angusta, angustata, argonensis, calcinella, campechensis, canaliculata, candida, capax, carinifera, chemnitzii, christoliana, complanata, compressa, concentrica, convexa, cottardi, crassidens, crassiplica, cretacea, cuneata, cyprinus, decurtata, donaciformis, donacina, elliptica, elongata, fragilis, gibbosa, gregaria, gurgites, hians, jurassi, lapidosa, latissima, lineata, lirata, listeri, mactroides, massiliensis, maxima, nuṭtalli, oblata, oblonga, orgonensis, ovalis, ovata, papyracea, papyria, paretii, piperata, planata, plicatella, primaeva, primipara, prisca, recurva, reticulata, rhynchaena, rostrata, rotundata, rugosa, sanna, senegalensis, sinuosa, solenoides, striata, striato-punctata, tellinoides, tenuis, tenuistriata, trapezicostata, unionoides, urgonensis, ventricosa, vitrea, voltzi, vulgaris, zealandica.

Lutricola compressa, rugosa, solenoides.

Lutricolis valetoni.

Lutrochus pilula.

Luvatus imperialis.

Luxilus auratilis, chrysocephalus, dissimilis, erythrogaster, interruptus, kentuckiensis.

Luxulus elongatus.

Luydia sarsi.

Lybas atripennis, axillaris, bicolor, calidus, carbunculus, chlamyphorus, coccineus, corallinus, faba, ferrugineus, granatus, lucidus, melanocorynus, myctophilus, normalis, pulchellus, rufinus, seminulus, thoracicus.

Lybia tessellata.

Lybius guisobalito.

Lycaeides aegon, argus, cyparissus, optilete.

Lycaena (Ar.) spinimana.

Lycaena (Lep.) acaciae, acamas, acis, admetus, adonis, aegidion, aegon, aelianus, aesculi, agestis, alcon, alexis, alsus, amphiraxus, amyntas, anisophthalma, anteros, argiolus, argus, aria, arion, artaxerxes, asoka, atratus, atys, balkanica, ballus, batikeli, battus, bavius, bavus, bellis, betulae, bimaculosa, boetica, boeticus, byzos, callimachus, cassius, catochloris, celaeus, celeno, celerio, chryseis, circe, cnejus, coelestina, comyntas, corydon, cramera, cyane, cyanecula, cylindrus, cyllarus, cymon, damocles*, damoetes, damon, damone, daphnis, dardanus, delegorguei, didda, dionisius, dispar, dolus, donzeli, dorcas, dorylas, echion, edna, elorea, elpis, empyrea, endymion, epidolus, epirochus, erebus, eros, escheri, ethion, eumedes, eumedon, euphemus, eurybia, eurypilus, fischeri, galathea, gordius, hanno, helle, hipponoe, hippothoe, hoffmannseggii, hyacinthus*, hylas, hypoleuca, ignita, ilicis, isis, ismenias, jecarius, jolas, jphigenia, kandarpa, labradus, laius, ledereri*, ledi, lefebvrei, legeri, livia, loewii, lucia, lugens, lygdamus, lycinon, maha, malathana, malaya, marmorata, mars, melanops, melantho, meleager, menalcas, myrtale, nara, nila, nyseus, omphale, optilete, oranula, orbitulus, ottomanus, palemon, pandava, pandia, parrhasius, patala, pavana, pheretes, pheretiades, phlaeas, plinius, polycarpus, polysperchon, pruni, pseudargolius, pseudocoxus, psittacus, psylorita, puspa, putli, pylaon, quercus, rabe, rhymnus, ripartii, rippertii, rosomon, roxus, rubi, schaefferi, sebrus, spini, steveni, taitensis, telicanus, theophrastes, theophrastus, thersamon, thespis, thetis, tintinga, tithonus, trochylus, tsiphana, virgaureae, W album, xanthospila, xenodice.

Lycaon pictus, tricolor, typicus, venaticus.

Lycastes anthyllides, bellidis, cynarae, exulans, loti, sarpedon, sedi.

Lycastis armillaris, blainvillei, brevicornis, caudata, coccinea, delineata, edwardsii, flexuosa, ockenii, otto, quadricornia, ranzani, sextentaculata, thetycola, ventilabrum.

Lycena eroides, sephurus.

Lycesta furina.

Lychas americanus, maculatus, paraensis, scutillus.

- Lychnophaes** cornutus, cyaniceps, empyreus, globosus, hypochrysus, laticollis, pilula, principalis, purpureus.
- Lychnuchus** olenus.
- Lychnuris** morio.
- Lychnus** carinatus, ellipticus, matheroni, urgonensis.
- Lycia** (Dipt.) femoralis, flava, impunctata, liturata, liturella, nigricornis, quatuor-punctata, sex-punctata, thoracica, umbraculata.
- Lycia** (Lep.) asperaria, hirtaria.
- Lycisca** raptoria, romandi, westwoodi.
- Lyciscus** cagottis, latrans, tigris.
- Lycoccephalus** brachionus.
- Lycoderes** ancora, burmeisteri, folium, fronditia, furca, fuscus, gaffa, galeritus, gladiator, laevipennis, melanopetalus, mitratus, petasus, pileolum, spinolae, squamiger, unicolor.
- Lycodes** nebulosus, perspicillum, reticulatus, seminudus, vahli.
- Lycodon** atropurpureus, audax, aulicus, capensis, capucinus, carinatus, catenatus, catenulatus, clelia, efraenis, formosus, fuliginosus, galathea, geometricus, guttatus, hebe, horstocki, jara, leucocephalus, lineatus, malignus, melanocephalus, modestus, nympha, olivaceus, pethola, petolarius, platurinus, reticulatus, rufozonata, russelius, semifasciatus, subcinctus, subfuscus, unicolor.
- Lycodonomorphus** rufula.
- Lycodontis** literata, longicaudata, punctata.
- Lycogaster** pullatus.
- Lycomedes** reichel.
- Lycoperdina** alpina, apicalis, bovistae, crassicornis, cruciata, elongata, fasciata, ferruginea, immaculata, lata, lineola, lutea, marginalis, minuta, nigra, nigricans, oblonga, pallida, pilosa, pubescens, puncticollis, quadri-guttata, quadri-punctata, quadripustulata, rubricollis, ruficollis, semi-nigra, succincta, testacea, undulata, unicolor, vestita, vittata.
- Lycophidion** horstocki.
- Lycophotia** cuprea, graminis, lidia, porphyrea, sannio.
- Lycophris** dispansus, ephippium, lenticularis, scabrosus.
- Lycophrys** faujasi.
- Lycoptera** middendorffi.
- Lycorea** atergatis, ceres, cleobaea, halia, pasinuntia.
- Lycoris** aegyptia, aphroditoides, cirrhosa, fimbriata, folliculata, fucata, fulva, guttata, incisa, lobulata, margaritacea, nicaeensis, nubila, nuntia, pelagica, podophylla, pulsatoria, rubida, viridis.
- Lycos** [Boie, Isis, 1828, 360 [teste E. Hartert]. collaris, dauricus, monedula.
- Lycosa** aculeata, aeronauta, affinis, agilis, agretyca, alacris, albata, albimana, albi-punctata, albo fasciata, allodroma, alpica, alpina, amentata, amylacea, andrenivora, animosa, arenaria, argenteo, armillata, aspersa, atomaria, audax, avida, babingtoni, barbipes, bifasciata, biimpressa, blanda, borealis, cambrica, campestris, captans, carolinensis, chersonensis, cinerea, cinnabarina, clavipes, crassipes, cruciata, cuneata, cursor, cursoria, discolor, distincta, dubia, ephippium, erratica, erythrognata, erythrostoma, exigua, exilipes, fabrilis, famelica, fasciiventris, fatifera, ferox, fuliginosa, fulvolineata, fumigata, funerea, funesta, fuscipes, gasteinensis, gracilenta, grammicola, grisea, guillouana, gulosa, hellenica, helluo, helvola, impavida, implacida, indagatrix, indomita, infernalis, infesta, inquilina, intrepida, invenusta, irrorata, isabellina, laperousei, lapidicola, latitans, latreillei, lehuillana, lenta, leopardus, leucophaca, lignarius, liliputiana, littoralis, longipes, lugubris, lupulina, lynx, maculata, maritima, melanogaster, meridiana, milberti, milvina, miniata, mirabilis, modica, monscalvana, monticola, mordax, murina, narbonensis, nautica, nigra, nilotica, nivalis, numida, obscura, obsoleta, ocreata, ornata, pallida, paludicola, paludosa, palustris, pellioma, pelusiaca, peregrina, pertyi, picta, pilipes, piratica, piscatoria, poliostoma, praegraster, propinqua, proxima, pullata, pulverulenta, punctulata, quadripunctata, rapax, raptoria, riparia, rossica, rubida, rubiginosa, rufimana, ruricola, sabulosa, saccata, saccigera, sagittata, saltatrix, saxatilis, sayi, scenica, schmidti, scutellata, sericata, silvicultrix, solers, strenua, striatipes, sylvicola, taeniata,

tarantula, tarantulina, tarantuloides, timida, trabalis, triton, trucidatoria, vagabunda, valida, vehemens, velox, venatrix, venustula, villica, vorax, vulpina, wagleri, xylina. *Vide et Lycosa.*

Lycosoides algerica, digitalis, flavomaculata, pallipes, rufipes, rufithorax.

Lycotherium ferreo-jurassicum.

Lycothyreus bicolor, elegans, flavicollis, nigricans, pallidipennis.

Lycocoris corticalis, domesticus.

Lycus aeneus, americanus, axillaris, bicolor, carbonarius, decemstriatus, depressusculus, fasciculosus, frumentarum, fuliginosus, fuscus, geminatus, glaber, glycyrrhizae, haematodes, histeroides, impressus, laevipennis, marginalis, microcephalus, minuta, minutus, oblonga, obscurus, parallelepipedus, parasiticus, praeustus, punctatus, pusillus, reflexus, rufipennis, striatus, sulcata, sulcatus, testaceus, transversa, unicolor, undentata.

Lycus (Col.) africanus, amictus, analis, apicalis, appendiculatus, atratus, australis, bremeri, canaliculatus, cantori, cinctus, coccinatus, collaris, compressicornis, compressus, corniger, crassinevis, cristatus, croceicollis, cruentus, dentipes, diaphanus, dichrous, dimidiatus, discoideus, dissimilis, distinctus, dorycus, elevatus, emarginatus, ephipiger, exilis, fabricii, festivus, flabellatus, flavicans, foliaceus, formosus, funestus, galeatus, goryi, haemorrhoidalis, hamatus, humeralis, imperialis, inaequalis, laevigatus, lateralis, latissimus, limbatus, linearis, lineicollis, longicornis, loripes, maculicollis, marginatus, marginellus, melanurus, militaris, mirabilis, modestus, nigricollis, nigricornis, obliquus, ochraceus, pallidus, pallulatus, parallelus, pectinalis, pectinicornis, perfacetus, pleurites, praenorsus, praesignis, pusillus, pygmaeus, quadricostatus, regalis, rhipidium, rubens, ruber, ruficollis, rufipennis, sanguinipennis, schoenherri, semiustus, senegalensis, septemcavus, serrifer, signatus, similis, sinuatus, succinctus, suturalis, terminalis, terminatus, thoracicus, triangularis, trifasciatus, tunicatus, ustulatus, xanthomelas.

Lycus (Lep.) gryneus, nippon, rubi.

Lyda abietina, albifrons, alpina, amplexa, annulicornis, annulata, arbustorum, arvensis, aurita, balteata, betulae, bicolor, campestris, cingulata, circumcincta, clypeata, cyanea, cynosbati, depressa, erythrocephala, erythrogaster, fallax, falleni, fasciata, fausta, flava, flavipes, flaviventris, fumipennis, geoffroyi, gyllenhalii, haemorrhoidalis, hartigi, hilaris, histrio, hortorum, hypotroptica, inanis, inanita, irrora, klugi, latifrons, lucorum, lutescens, marginata, nemoralis, nemorum, ocreata, pallipes, plagiata, populi, pratensis, punctata, reticulata, saltuum, saxicola, signata, singulata, stigma, stramineipes, suffusa, sylvarum, sylvatica, taeniata, tessellata, vafra, varia.

Lydda elongata.

Lydella aestivalis, agrestis, arcuata, bicincta, blondeli, bombycivora, borealis, bosci, brunnicornis, campestris, cinerea, cylindrica, dubia, erythroceras, flaviventris, floricola, fulvipes, fuscipennis, griseus, hydrocampe, interrupta, macquarti, metallica, minuta, modesta, myoidea, nigricornis, nitida, pallidipalpis, parallela, pusilla, rufisquamata, scutellaris, scutellata, silvatica, squamiflava, terminalis, tessulata, velox.

Lydina cuprea, macromera, nitida.

Lydus algiricus, chalybeus, flavipennis, marginatus, melanurus, praeustus, quadrisignatus, sanguinipennis, trimaculatus.

Lyeidius aequinoctialis, affinis, lividus, xanthopus.

Lygaeus abdominalis, abietis, acantharis, affinis, agrestis, albicornis, albidus, albipennis, albostrigatus, alternans, ambiguus, amboinensis, angulatus, annulus, apterus, argentatus, argus, arvicola, asiaticus, ater, atrorufus, augur, austriacus, biclavatus, bicolor, bicrucis, biguttatus, bilineatus, bimaculatus, binarginatus, bipunctulus, bistrigularis, bistriguttulus, brevipennis, calcar, calidus, campestris, caricus, chalccephalus, chenopodii, chlorizans, chorizans, cinereus, clavicularis, clinopodii, collaris, compressipes, contaminatus, coqueberti, coriacea, costalis, crassicornis, crassimanus, crassipes, crocatus, crudelis, cursitans, della chiaje*, didymus, dimidiatus, discoidalis, disconotus, dispar, echii, elegans, ericetorum, eurinus, exilis, facetus, falicus, fasciatus, festivus, filicis, flavicornis, foliaceus, formosus, fulvo-maculatus, fuscipennis, fuscula,

geminatus, gibbus, gladiator, gothicus, graminis, grandis, griseus, groenlandicus, grylloides, guineensis, gutta, guttatus, gyllenhali, haematideus, hamatus, hastatus, hexophthalmus, hottentotus, immaculatus, incomptus, irroratus, laevis, lagenifer, lanio, lavaterae, leucopterus, limbatus, linea, lineatellus, littoralis, lunulatus, luridus, lusitanicus, luteicollis, maculicollis, marginatus, margine-punctatus, maurus, melanurus, micropterus, minutus, modestus, molliculus, multiguttatus, mutabilis, mutilatus, mutilus, nasutus, nebulosus, nemorum, neri, nigrita, nubilus, numenius, oblongipes, oblongus, pabulinus, pacificus, pallicornis, pallipes, pascuosum, pastinacae, paykulli, pedestris, peruvianus, pharaonis, pilifrons, pilosulus, pinastri, pius, plebejus, poeyi, profanus, pulcher, pulicarius, punctulatus, popularis, pusillus, pustulatus, pygmaeus, quadriguttatus, quinquespinosus, reclinatus, regalis, revestitus, rivularis, roboris, roeseli, rubicundus, rubricatus, ruficeps, rufipennis, rufipes, rugicollis, rusticus, sabuleti, saevus, sahlerbergi, saltitans, salviae, sandarachatus, sardous, scapha, schlanbuschi, schummeli, scolopax, seladonicus, septus, serratae, serratus, spinipes, striatus, superciliosus, tagalicus, taitensis, tanacetii, tenellus, thoracicus, thunbergi, thymi, triangularis, triquittatus, tristator, tristriatus, trivittatus, tumidipes, turcicus, ulmi, umbellatarum, unistria, variabilis, ventralis, verbasci, viridis, viridulus, vividus, vulgari, vulneratus, xanthomelas, xanthostaurus, xylostei, zonatus.

Lygdinus niveus.

Lygeomorphus abdominalis, augur.

Lygeosoma sardea.

Lygia baudiniana, dubia, exotica, gaudichaudi.

Lygistopterus dichrous, lateralis, sanguineus.

Lygophis elegans, lineatus.

Lygosoma aurata, australis, bougainvillei, brachypoda, chalcides, duperryi, dussumieri, entrecasteauxi, erucata, guichenoti, labillardieri, lateralis, lesueuri, melanopogon, moco, monilifera, muelleri, punctata, quoyi, sancta, serpens, smaragdina, taeniolata, temminckii.

Lygris achatinata, populata, pyraliata, pyropata.

Lygus cinctus, contaminatus, elegans, floralis, icterocephalus, limbatus, melanocephalus, nassatus, pabulinus, rubricatus, rufescens, tenellus.

Lymaenon acuminatus, flavocinctus, fuscicornis, litoralis, pictus.

Lymantes scrobicollis.

Lymantria ascetria, eremita, monacha.

Lymexylon australe, biguttatum, cylindricum, flabelliforne, liguricum, marci, nymphaeum, rufipes, sericeum.

Lymnaea alata, compressa, fragilis.

Lymnadia alata.

Lymnaea acuminata, acuta, affinis, affuelensis, anceps, aquensis, balthica, brunnea, buchi, catascopium, chlamys, columella, columna, columnaris, cornea, corrugata, diaphana, exilis, fossaria, fragilis, fusiformis, gengivata, gingivata, glutinosa, gracilis, heterostropha, holbolli, hookeri, imperialis, intermedia, jugularis, lacustris, laevigatus, leucostoma, limosa, linsleyi, longissima, luteola, luzonica, minima, minor, navicula, oahuensis, obliqua, octanfracta, pacifica, palustris, peregrina, pingeli, plicatula, rugosa, splendida, stagnalis, striatella, subcarinata, subpalustris, substriata, succinea, vahli, virginiana, virginica, viridis, weissii. *l'ide et Limnaea*, etc.

Lymnaeum depressum, nigropiceum.

Lymnaeus aequalis, angustatus, karpinskii, pygmaeus, ventricosus.

Lymnas electron.

Lymnea apicina, auricula, aurita, bulimoides, casta, coarctata, curta, disjuncta, exigua, fragilis, fusiformis, grithiana, incurva, kirtlandiana, labrosa, leachiana, lessoni, naudoti, nuttalliana, oblonga, palustris, parva, perlevis, philadelphia, planulata, plica, rubella, rustica, solida, stagnorum, strigosa, tenuis, terrae-novae, vogesiaca. *l'ide et Limnaea*, etc.

Lymneus amphibius, appressus, attenuatus, caperatus, desidiosus, elodes, elongatus, emarginatus, galbanus, geofrasti, helveticus, humilis, intermedium, macrostomus, megasomus, modicellus, obrussus, ore-longo, palustris, pinguis, reflexus, rivale.

Lymnium pictorum.

- Lymnocryptes** gallinula.
Lymnoea glutinosa.
Lymnoeus bulloides, flammeus, parchappii, rubiginosus, viator. *Vide et Limnaea.*
Lymnoea denudata, gigantea, hemisphaerica, hexanema, mamillata, mamillosa, michelini, octonema, sphaerica, tridra.
Lynceus aculeatus, aduncus, albicans, armatus, crepida, globosus, hamatus, harpac, lamellatus, laticaudatus, laticornis, leucocephalus, macrourus, nanus, nasutus, pulcher, quadrangularis, reticulata, roseus, sphaericus, striatus, tenuirostris, testudinarius, trigonellus, truncata.
Lynchus erythrotus.
Lyncornis cerviniceps, macropterus, macrotis, splendidus, temmincki.
Lyncuria typus.
Lyncus canadensis, lynx, pardinus, rufus.
Lyndia canorum.
Lyndia walkenaria. *Vide et Liniphia.*
Lynx aurea, aureus, borealis, calligata, canadensis, caracal, carolinensis, cervaria, chaus, fasciatus, floridanus, manul, montanus, pagers, pardina, rufus, vulgaris.
Lyonetia argentipedella, argyropeza, cerasifoliella, cidarella, clerckella, concolorella, cristatella, immundella, lemniscella, malifoliella, nigrocomella, nylandriella, rufella, samiatella, sericopeza, somnulentella, subnitidella.
Lyonna alata, amygdalina, antiqua, impressa, obsoleta, retusa, rigida, semisulcata, undata.
Lyonisia abducta, albertii, aldouini, alvarezi, anatiniformis, angustata, anodontoides, arenata, aspasia, attenuata, aviculoides, biarmica, bicarinata, brevifrons, californica, carinifera, centralis, clavata, concinna, contracta, cordiformis, corrugata, corruscans, coyana, cuneata, curta, cylindrica, donaciformis, doris, dubia, elegans, elongata, excavata, faba, floridana, germari, gibbosa, gigantea, globulosa, grandis, halliana, hyalina, inflata, inornata, koechlini, kutorgana, laevigata, lata, latirostris, lyrata, major, malvinensis, minima, minor, modiolaris, mytiloides, nana, nasuta, navicula, normaniana, norwegica, nuculiformis, oblonga, omaliana, ovata, parallela, patagonica, peregrina, phaseolina, picta, pinguis, plicata, prisca, quadrata, recurva, ricordeana, roemeri, rotundata, sanguinolarioidea, securiformis, semicostulata, sinuata, socialis, soleniformis, sowerbyi, striata, striato-punctata, subangustata, subattenuata, sub-aviculoides, subcuneata, subimpressa, sublata, submodiolaris, subnasuta, suboblongus, subrotundata, subspatulata, substriatula, subtruncata, subtumida, sulcosa, tellinaria, terminalis, trentonensis, truncata, tumida, unioides, verneuilli, vetusta, zonata.
Lyorhynchus lepidopus.
Lyperopherus arcticus, costatus, cribellatus, inaequalis, vermiculatus.
Lyperopterus regularis.
Lyperosomus aterrimus, elongatus, furvus.
Lyperus acutangulus, aterrimus, haldemanni, scrutator.
Lypha dubia, silvatica.
Lyponix erythropyga, leucops, rubecula, rubicula, rufa, ruficapilla, striata, tenebrosa, torquata, tranquilla, unicolor.
Lypotigris diphteralis, reginalis.
Lyprus cylindrus.
Lypurus tetrax.
Lyra meadi.
Lyrarompha pallida, rosea.
Lyrus origo.
Lyreidus tridentatus.
Lyria nucleus.
Lyrina fischeri.
Lyriocephalus macgregori, margaritaceus.
Lyriodon abruptus, angulatus, archiacanus, asper, bronni, cardissa, carinatus, caudatus, clathratus, clavellatum, compressum, concentricus, concinnus, constanti, coquandanus, costatum, crenulatus, cuspidatus, daedalus, denticulatus, disparilis, divaricatus,

elegans, excentricus, fittoni, gaytani, geographicus, gibbosus, goldfussi, harpa, hondaanus, humboldti, hybridus, imbricatus, inflatus, inornatus, intermedium, lamarki, limbatus, lineolatus, litteratus, longus, maximus, meriani, moniliferus, muricatus, navis, notatus, papillatus, paradoxus, parkinsoni, parvulus, perlatus, pictus, plicatocostatus, plicatus, pulchellus, pullus, pumilus, reticulatus, robineauinus, roemerii, rostrum, rudis, rugosus, scapha, sexcostatus, signatus, simile, sinuatus, smeei, spinosus, striatus, sulcatarius, suprajurensis, tenuisulcatus, tocammaanus, truncatus, tuberculatus, voltzi, zonatus, zwingeri.

Lyroda subita, triloba.

Lyrodesma plana, pulchella.

Lyrodon aliforme, conocardiformis, costatum, curvirostris, deltoideum, excentricum, goldfussi, herzogi, kefersteini, laevigatum, lineatum, literatum, muricatum, navis, orbiculare, ovatum, pes anseris, simplex, striatum, sulcatum, ventricosus, vulgare.

Lyrops auratus, basilicus, bicolor, chrysopyga, erythropus, fulviventris, geniculata, leprieuri, peptica, pompiliiformis, rufiventris, savignyi, tarsalis, tricolor.

Lyrothorax caspium, inderiensis.

Lysianassa anaglyptica, angulifera, appendiculosa, atlantica, chauseica, costae, designata, hybrida, lagena, literata, longicornis, magellanica, ornata, rhombifera, subcarinata, v-scripta, vahli.

Lysidice galathina, ninetta, olympia, parthenopeia, torquata, valentina.

Lysipetalum carinatum, foetidissimum, hardwicki, lineatum, plicatum, richi, rugulosum, xanthinum.

Lysmata seticauda, seticaudata.

Lyssa achillaria, patroclaria.

Lyssomanes viridis.

Lystra aeruginosa, atomaria, auricoma, barbata, bimaculata, coccinea, combusta, conspersa, cornuta, costata, cruenta, cunicularis, diana, dichroa, dimidiata, elegans, farinosa, fasciata, flaviventris, flavo punctata, fuliginosa, lanata, luctuosa, lugubris, maculata, maura, miniacea, morio, multiguttata, obscura, oculata, pallida, perspicillata, picta, pulchra, pulverulenta, punctata, punicea, reticularis, reticulata, sanguinea, servillei, specularis, spilota, spinosa, stigma, striatula, tibialis, tomentosa, tricolor, turca, venosa, viridiceps, westwoodi.

Lystronichus equestris, pulchellus.

Lytaea agathina, leucographa, umbrosa.

Lyterius abdominalis, instabilis, melas, musculus.

Lythodomus angustus, cordatus, sublithophagus. *Vide et Lithodomus.*

Lythria purpuria.

Lytta abbreviata, abdominalis, acteon, adpersa, aenea, aesculapii, affinis, afzeliana, albida, algerica, ambusta, antherina, armeniaca, articularis, aterrima, atomaria, atripennis, aurita, austriaca, bicolor, bilineata, bimaculata, bipustulata, bi-vitta, boleti, brevis, brucei, canescens, cantharoides, capitata, cardinalis, chalybea, chrysomelina, chrysomeloides, cinctipennis, coccinea, concinna, crassa, crassicornis, depressa, depressicornis, diadema, dichroa, dimidiata, dongolensis, dubia, dusaulti, elegans, excavata, femoralis, ferruginea, fimbriata, fischeri, flabellicornis, flagellaria, flava, flavicollis, floralis, fucata, fuliginosa, fulviceps, fulvipes, fumosa, funesta, fusca, fuscicornis, geniculata, germari, gigas, glandulosa, granulipennis, herculeana, hirsuta, hirtifer, humeralis, hypoleuca, ictérica, immaculata, impressicollis, jaloffa, javana, lacordairei, laticollis, lemniscata, limbata, lineata, lineola, lugubris, maculata, maculicollis, marginata, marginella, maroschettiana, maura, megaloccephala, melanophthalma, menetriesi, monoceros, murina, myagri, mylabrina, necydalea, nepalensis, nigricollis, nigricornis, nigropunctata, nitidula, nuthalli, nuttalli, obesa, ochropus, optabilis, ornata, pallasi, pallidicollis, parallela, phalerata, philaemata, picea, picta, polita, punctata, resplendens, reticulata, rouxi, rubra, rubriceps, ruficapilla, rugosa, scutellaris, segmenta, sericea, sexguttata, signata, sinuata, sphaericollis, striata, strigata, strigosa, substrigata, subvittata, sulcifrons, suturalis, syriaca, thoracica, togata, trichus, trinotata, tri-vitta, ursus, vallicata, verticalis, vestita, vidua, violacea, virgata, viridula, xanthocephala, zonata.

Lyurus derbianus.

- Mabouya** aenea, atrocostatus, baudini, cartereti, cepedei, cyanura, elegans, sloanei.
- Mabuya** agilis, capistrata, carinata, dominicensis, dubia, longicollis, multifasciatus, ocellatus, quinquecarinata, quinquelineata, quinquetaeniata, sanctus, serpens, subcarinata, trilineatus, vallata.
- Macaca** ayzula, cynomolgus, hamadryas, nemestrina, rhesus, sinensis, sphinx, sylvanus.
- Macacus** arctoides, assamensis, aureus, cancrivorus, carbonarius, edwardina, cocaenus, erythraeus, gelada, inuus, latibarbatos, leoninus, libidinosus, maurus, montanus, nemestrinus, niger, oinops, pelops, philippinensis, pithex, pliocenus, radiatus, rhesus, silenus, sinicus, speciosus, splendidus.
- Macagua** cachinnans, melanops.
- Macao** splendidus.
- Macarea** loricata.
- Macaria** (Ar.) aurulenta, corusca, fastuosa, festiva, formosa, fulgens, guttulata.
- Macaria** (Col.) chlorophana, diluta, erotyloides, rosea, schaumii, serraticornis, sigillata.
- Macaria** (Lep.) alternata, emarginata, emutaria, imitaria, imitata, limbata, notata, praetomata, subrufata, thymiata, unipunctata, variegata.
- Macellocerus** acuminatus, klugii.
- Maceranas** fusca.
- Machaera** (L.) costata, nitida, velifera.
- Machaerium** maritimae, subducens.
- Machaerota** ensifera.
- Machairodus** brevidens, cultridens, etruscus, latidens, megantereon, neogaeus, palmidens.
- Machetes** alticeps, optatus, planiceps, pugax, variabilis.
- Machetornis** rixosa.
- Machilis** acuminithorax, anceps, aurea, binaculata, crassicornis, fasciola, fastuosa, gigas, maritima, minuta, pallipes, polypoda, rupestris, striata, thoracica, variabilis, vittata.
- Machimus** chrysitis.
- Machla** duponti, rauca, sappho, serrata.
- Machlophus** melanolophus, rubidiventris, spilonotus, xanthogenys.
- Machona** alba*.
- Machozetus** lehmanni.
- Machrochisma** hiatula.
- Machtima** crucigera.
- Maciurea** labiatus, magna, matutina, sordida, striatus.
- Maciurite** bicarinata, magna.
- Macoma** tenera.
- Maconia** grandis, myiformis.
- Macquaria** australasia, australasica.
- Macquartia** (Br.) dubia.
- Macquartia** (Dipt.) atrata, atripes, brachycera, buccalis, calida, chalconota, chalybeata, corinna, egens, flavescens, flavipes, germanica, griseus, grisea, haematodes, lucida, microcera, nigripennis, nigrita, ochropus, praefica, proluxa, rubripes, rufipes, scutellaris, tenebricosa, trincta, trimaculata, tristis, viridescens.
- Macracanthus** sericatus.
- Macrarthrus** concolor, filiformis, funki, goudoti, helferi, insularis, murinus, nigellus, sericeus.
- Macraspis** aenea, affinis, analis, andicola, badia, banoni, beryllina, bicincta, bicolor, bivittata, brullei, brunnea, calcarata, castanea, chacea, chloraspis, chlorophana, chrysis, clavata, cuprina, dichroa, emarginata, festiva, fucata, gigas, hemichlora, imperator, lateralis, limbata, lineola, lucida, maculata, morio, nigrescens, nitida, nitidissima, oblonga, prasina, pretiosa, psittacina, quadrivittata, rufinitida, semicuprea, smaragdula, splendens, splendida, subaenea, suturalis, taeniata, tetradaetyla, thoracica, trifida, tristis, variabilis, virescens, viridis, xanthosticta.
- Macratria** linearis.
- Macrauchenia** patachonica.
- Macrina** furcata.
- Macrobiotus** dujardin, hufelandi, inermis*, oberhaeuser, ursellus.
- Macrobothrium** narica.

Macrocentrus bicolor, linearis.

Macrocephala affinis.

Macrocephalon maleo.

Macrocephalus (Hem.) albinus, albirostris, angustus, crassimanus, cylindricornis, hieroglyphicus, leucographus, marilentus, manicata, notatus, obscurus, pallidus, prehensilis, pulchellus, quadratus, rhombiventris, tuberosus.

Macrocephalus (R.) drapiezi.

Macrocera (Dipt.) angulata, apicalis, binotata, centralis, crocata, dorsalis, fasciata, fascipennis, hybrida, incarnata, lanieri, lineola, longicornis, lutea, maculata, maculipennis, multictincta, nana, obliqua, ornata, palustris, phalerata, pusilla, reticulata, rustica, vittata.

Macrocera (Hym.) albida, alternans, alticincta, americana, analis, antennata*, atra, augusti, barbara, bicolor, bimaculata, cafra, cajennensis, capensis, cingulata, duvauceli, grandis, ichneumonea, malvae, marginata, nigra, nigricornis, obscura, olivieri, pennsylvanica, philadelphica, pollinosa, pruinosa, punctulata, rufa, ruficollis, ruficornis, rustica, salicariae, sexcincta, stigma, strigata, subundulata, tricincta, variegata, viridata.

Macroceramus richaudi, signatus.

Macrocerus (A.) ambiguus, aracanga, ararauna, augustus, canga, glaucus, hyacinthinus, illigeri, macao, makayouana, maracana, militaris, pachyrhynchus, rauma, severus, tricolor.

Macrocerus (Inf.) gibba, gymrus.

Macrocerus oculatus.

Macrochaeta clavicornis.

Macrochaetus subquadratus.

Macrocheilus (Col.) Bensoni, tripustulatus.

Macrocheilus (G.) acutus, ampullaceus, arcuatus, brevis, canaliculatus, curvilineus, elongatus, imbricatus, fusiformis, harpula, imbricatus, michotianus, neglectus, oceani, ovalis, parallelus, percinctus, phillipsi, rectilineus, signilineus, subcostatus, subimbricatus, symmetricus, tricinctus.

Macrocheira kaempferi.

Macrocheirus praetor.

Macrocheles marginatus, testudinarius.

Macrochila aristella, bicoctella, fasciella, marginella, palpea, parenthesesella.

Macrochile spectrum.

Macrochilo cribralis, proboscidealis, rusticalis, tentaculalis.

Macrochira flava, manicata.

Macrochlamys indicus.

Macrochyrys miles.

Macrocnema brunnipes, chalcomera, chrysocephala, dulcamare, ericae, hyoscyami, napi, picina, rapae, rufilabris.

Macrocneme lades, maja.

Macrocnemis apicalis, exoleta, marcida, nigricollis, pallida, picicornis, sordida.

Macrocolus haiticus.

Macrocorynus discoideus.

Macrocrates bucephalus.

Macrocyclus cuninghami, peruviana.

Macroductylus affinis, angustatus, annulitarsis, brasiliensis, cinereus, cupreus, dimidiatus, flavolineatus, fulvipennis, haemorrhous, limbatus, lineatus, marmoratus, nitidicollis, pallens, pulchripes, subaeneus, subspinosus, sulphureus, suturalis, tenuilineatus.

Macroderes greeni.

Macrodipteryx africanus, longipennis. *Vide et Macrodypteryx.*

Macroditis cucullatus.

Macrodon (L.) rugosus.

Macrodon (P.) aimara, auratus, brasiliensis, guavina, patana, taraira, teres, trabira.

Macrodonga spinosa.

Macrodongia castanea, cervicornis, dejeani, flavipennis, impressicollis, quadrispinosa.

Macrodypteryx longipennis, vexillarius. *Vide et Macrodipteryx.*

Macrogaster (Hym.) abbreviatus, platypus, rufipennis.

Macrophthalmus (Hem.) *pallens*.

- Macrophylla** longicornis, nigra.
Macrophyllum nieuwiedii.
Macropipus citrinus.
Macropis (Hem.) flavicollis, virescens.
Macropis (Hym.) labiata.
Macroplea zosteræ.
Macropneustes ammon, beaumonti, crassus, deshayesi, gibbosus, marmoræ, pulvinatus, subovatus.
Macropoda abyssinica, boyeri, rivularis, variolaris.
Macropodia gracilis, longirostris, occidentalis, phalangium, sagittaria, tenuirostris.
Macropodus (M.) penicillatus.
Macropodus (P.) ocellatus, pugnax, venustus, viridissimus.
Macropogon sibiricum.
Macropoma egertoni, lewesiensis, mantelli.
Macroporion serraticornis.
Macroprotodon mauritanicus.
Macrops (Col.) maculicollis, musivus, vitticollis.
Macrops (Hem.) pallens.
Macrops (R.) saturninus.
Macropsis lanio.
Macropterna divaricans, recta, rhynchosauroidea.
Macropteropus batrachus, charmuth, fuscus, hexacinnus, jagur, magur.
Macropteris acuminatus, chlorostomus, longipennis, semicostatus.
Macropteryx ambrosiacus, comatus, coronatus, klecho, leucophaeus, longipennis, mystaceus, spodiopygius.
Macropus (A.) caixana, phasianellus.
Macropus (Col.) accentatus, longimanus, pictus, trochlearis.
Macropus (Cr.) arcanides, lar, longipes, longirostris, parvirostris, phalangium, sagittarius, scorpio, seticornis, spinifer.
Macropygia adansoni, affinis, agilis, albus, antilopinus, atlas, banksianus, bennetti, billardieri, brachyurus, brachyotis, brachyurus, bruini, cinereus, concinnus, conspicillatus, cuvieri, demidovi, derbianus, dorsalis, elegans, eugeni, fasciatus, fraenatus, fruticus, fuliginosus, geoffroyi, goliath, gracilis, greyi, hirsutus, inornatus, irma, isabellinus, labiatus, laniger, lateralis, leporoides, leptonyx, lesueuri, lunatus, major, manicatus, melanops, minor, ocydromus, parma, parryi, peroni, robustus, rostratus, ruficollis, rufiventer, rufo-griseus, rufus, thetidis, thetis, titan, typus, ualabatus, unguifer, veterum.
Macropygia amboinensis, infuscata, leptogrammica, macrura, manadensis, modesta, phasianella, reinwardi, reinwardti, ruficeps, rufipennis, unchall.
Macropygium atrum.
Macroramphosus cornutus.
Macroramphus punctatus.
Macrorhamphus griseus, semipalmatus.
Macrorhinus ansoni, byroni, coxi, hemiasutus, lupina, patagonicus, proboscidea, simus.
Macrorhynchus manni.
Macrorhynchus meyeri.
Macrorrhyncha flava.
Macrosaurus laevis.
Macroselides alexandri, brachyrhynchus, brevirostris, edwardi, intufi, melanotis, proboscideus, rozeti, rupestris, typicus, typus.
Macroschus aestuans.
Macrosemius brevirostris, rostratus.
Macrosiagon dimidiatus.
Macrosoma (Col.) glacialis.
Macrosoma (Dipt.) floralis, lardaria.
Macrosoma (Lep.) tipulata.
Macrosoma (R.) elegans.
Macrospira aperta.

- Macrospondylus** *bollensis*, jaegeri.
Macrostenus *lacordairei*.
Macrostoma (P.) *altum*, *angustidens*.
Macrostoma (Verm.) *appendiculatum*, *hystrix*.
Macrostomus *ferrugineus*.
Macrostyla *latipes*.
Macrostylus *crinitus*.

Mactrina *triangularis*.
Mactromya *aequalis*, *brevis*, *cardioides*, *couloni*, *globosa*, *littoralis*, *mactroides*, *rugosa*, *striatulum*, *striolata*, *tenuis*.
Mactrula *trinitea*.

- Madarus** binotatus, biplagiatus, bistrigellus, comma, corvina, distigma, ebenus, laticollis, migrator, quadripustulatus, rectirostris, signatus, singularis, vorticosus.
- Madataeus** laevisi, lewisi.
- Madiza** annulitarsis, glabra, laevigata, oscinina, palposa, pinguis, sordida.
- Madopa** salicali.
- Madopteris** cylindricus, talpa.
- Madoqua** hemprichi, saltiana.
- Madracis** asperula, bellana.
- Madrepora** abrotanoides, acervata, aculeus, alces, arachnoides, arbuscula, arenacea, armata, aspersa, astraeoides, astreata, auster, brachiata, carduus, cariosa, centralis, cerealis, cervicornis, cespitosa, circumvallata, clavaria, coalescens, compressa, conigera, convexa, corymbosa, costiculata, costulata, cribripora, crista galli, cuneata, cuspidata, cyclocha, cytherea, daedalea, deformis, denudata, digitata, digitifera, divaricata, elchidnaea, echinata, efflorescens, effusa, elegans, exarata, exigua, fissurata, flabellum, florida, foliosa, formosa, galera, gervillei, globiceps, glomerata, gracilis, gravida, hebes, hoffmanni, horrida, humilis, hyacinthus, hystrix, implicata, infundibulum, japonica, labiosa, lavandulnea, laxa, leptostoma, limbata, meandrina, meyeri, millipora, mississippiensis, nasuta, nobilis, norvegica, obeliscus, ornata, palmata, paxilligera, pezizoides, pistillata, pistularia, plantaginea, pocillifera, polygona, prolifera, prostrata, punctata, punctulata, ramiculosa, raristella, retusa, robusta, rosaria, secunda, securis, solanderi, sphaerostoma, spicifera, spongiosa, stilosa, striata, sublevi, subseriata, subulata, surculosa, taurinensis, tenuis, tortuosa, truncata, tuliciniaria, tubifera, tubulata, undulata, valida, venosa, vermiculosa, verticalis, vireoburgensis, virgata, ziczac.
- Madrepores** affinis, articulatus, cristatus, digitatus, duplicatus, filatus, floriformis, hexagonatus, hyppurinus, interstinctum, lenticularis, lichenoides, limbata, madreporus, meandrinus, poriferus, proliferus, rameus, sessilis, stellatus, tenturatus.
- Madrimosaurus** hugii.
- Maeandra** areola, macandrites.
- Maeandrina** angigyra, labyrinthica, reticulata.
- Maeandrites** areola, glomerata, maeandra.
- Maeonoides** auro-frenatus, cyano-taeniat.
- Maechidius** hopianus, kirbianus, macleayanus, mellianus, raddonianus, rufus, spurius.
- Maekistocera** filipes. *Vide et Megistocera.*
- Maemaetes** ruficornis.
- Maena** analis, fuscum, maena, osbecki, radiatus, slava, vomerina, vulgaris.
- Maenas** salaminea, vocula, zaida.
- Maenura** superba.
- Maenonia** axinia, carinata, elliptica, fragilis, gigas, gracilis, recta.
- Maera** grossimana.
- Maesia** favillacea.
- Maevia** annulipes, aurulenta, capistrata, chrysea, cristata, flavocincta, lineata, micans, pallida, paula, penicillata, picta, sulphurea, tibialis.
- Magas** pumilus, truncata.
- Magdala** striata.
- Magdalinus** angulicollis, armicollis, asphaltinus, atramentarius, atrocyaneus, barbitus, brunnipes, carbonarius, carnifex, cerasi, duplicatus, flavicornis, frontalis, languidus, linearis, melanocephalus, morosus, nitidipennis, nitidus, olyra, pallidus, pandura, phlegmaticus, pruni, punctirostris, rufus, stygius, violaceus.
- Magdalis** asphaltina, aterrima, atramentaria, barbicornis, carbonaria, cerasi, duplicata, morosa, nassata, phlegmatica, pruni, rufa, trucidata, violacea.
- Magila** denticulata, latimana, longimana.
- Magilus** antiquus, costatus, djeddah, peroni, planaxoides, tenuis.
- Magus** maurus, sylvanus.
- Maia** cervicornis, coarctata, corallina, crispata, cristata, dumerili, giraffa, lunulata, lutea, muricata, muscosa, phalangium, rosseli, sculpta, spinicincta, spinosissima, taurus, tetradon, verrucosa. *Vide et Maja.*
- Maina** affinis, communis, cristelloides, religiosa, sylvestris, terricola, tristoides.

Mainatus dumonti, javanus, major*, sumatranus.

Maja aculeata, alfinis, ambigua, angustata, aranea, armata, barbata, biloba, bufo, camtschatica, chiragra, chondyliatus, condyliata, cornudo, cornuta, dama, dubia, echinatus, edwardsi, erinacea, fornicata, furcata, giraffa, heros, hircus, hirsuta, hispida, horrida, hybrida, lar, longimana, longipes, longirostris, longispina, macrochelos, mascaronia, muricata, nasuta, opilio, ovis, pansor, pensor, phalangium, pipa, praedo, proteus, regia, rostrata, sagittaris, sagittarius, scorpio, seticornis, spinifer, spinigera, spinipes, squinado, superciliosa, tetraodon, thalia, ursus, vulgaris. *L'ide et Maia*.

Makaira nigricans.

Maki griseus, pusillus.

Malacanthus brevisrostris, furcatus, plumieri, radiatus, taeniatus.

Malachus abbreviatus, aeneopurpuratus, aeneus, affinis, altica, amoenus, angustatus, angusticollis, annulatus, anticus, apicalis, apicalis, armeniacus, aurichalcus, bellulus, bicornis, bifasciatus, bipunctatus, bipustulatus, bispinosus, bituberculatus, brevipennis, bulbifer, caeruleus, calcar, cardiacae, carnifex, cinctus, circumscriptus, coccineus, coerules, collaris, concolor, conformis, cornutus, cupreus, cusanensis, cyaneus, cyanipennis, dalmatius, dentifrons, dentipennis, dilaticornis, dispar, duplicatus, ephippiger, erythropterus, facialis, faldermanni, faustus, femoralis, festivus, flabellatus, flavicornis, flavilabris, flavipes, formosus, fulvicollis, furcatispennis, geniculatus, gibbus, gracilis, graminicola, guttatus, hemipterus, humeralis, inornatus, insignis, labiatus, laetus, lateralis, laticeps, lepidus, limbifer, lineola, longicollis, lusitanicus, luteicollis, macrocephalus, maculatus, maculicollis, marginalis, marginatus, marginicollis, mauritanicus, miniatus, minutus, niger, nigriceps, nigricollis, nigripennis, nigripes, nodipennis, notatus, nourricheli, oculatus, ornatus, otiosus, ovalis, parilis, pictus, pulchellus, pulcher, pusillus, quadriguttatus, quadrimaculatus, quadrinotatus, reflexicollis, regalis, rheticus, rotundipennis, rubidus, rubricollis, rufifrons, rufilabris, rufipes, rufiventris, sanguinicollis, sardous, scincetus, scutellaris, senegalensis, serraticornis, setosus, signaticollis, sinuatus, spinipennis, spinosus, suturalis, terminalis, terminatus, thoracicus, tricolor, trimaculatus, tristis, versicolor, verticalis, vertumni, vittatus.

Malaclemys concentrica.

Malacobdella grossa, valenciennaei, viridis.

Malacocercus abornis, albogularis, chatarrahae, earlei, geochrous, griseus, huttoni, malcolmi, nipalensis, peliotis, rufescens, somervillei, subrufa, terricolor.

Malacoceros girardi, longirostris, vulgaris.

Malacocinclia abbotti.

Malacocircus canorus, striata.

Malacogaster passerinii.

Malacophus melanochrysos.

Malacomyza lactea.

Malaconotus aethiopicus, affinis, atro-coccineus, aurantiopectus, barbarus, blanchoti, bouboul, chrysagaster, dorsalis, erythropterus, hypopyrrhus, leucotis, mollissimus, olivaceus, orientalis, roseus, rubiginosus, sabini, similis, superciliosus.

Malacoptera lusitanica.

Malacopteron abboti, affine, aureum, cinereus, ferruginosum, macrodactylum, magnum, majus, olivaceum, rostratum, rufifrons, squamatum, terrestris.

Malacopterus lineatus, pavidus.

Malacoptila fusca, panamensis.

Malacorhynchus albiventris, chilensis, cristatellus, fasciatus, forsterorum, indigoticus, iodotis, membranacea, rhynolophus, spelunca.

Malacosoma (Col.) lusitanica, triumphans.

Malacosoma (Lep.) castrensis, distria, franconica, loti, neustria.

Malacosteus niger.

Malacothrix albicaudata, typica.

Malacotta bivalvis.

Malapterus coila, electricus, reticulatus.

Malcoha leucogaster, rufoviridis, viridis.

Malea crassilabris, latilabris, latilabrum.

Manduculus ambiguus, limatus.

Mangasta auro-punctata. *Vide et Mangusta.*

Mangelia abyssicola, accincta, albovittata, angulata, antillarum, astricta, attenuata, badia, balteata, bertrandii, bicolor, biconica, brachystoma, brevis, caudidissima, capillacea, casta, castanea, cavernosa, celebensis, cincta, cinnamomea, cithara, citharella, clarissa, columbellioides, coniformis, conohelicoides, coronata, costata, costulata, crassicosata, crassilabrum, cylindrica, densestriata, derilicta, digitata, dubia, dysoni, elegans, fasciata, funebris, funiculata, fusca, fusiformis, gibbosa, ginannii, ginnannia, goodalli, gracilis, holbolli, hornbecki, interrupta, lamellata, lanceolata, leufroyi, linearis, lineata, lineolata, livida, lyra, lyrica, maculata, marginelloides, marmorosa, menardiana, multilineata, multilincolata, muricoides, nana, neapolitana, novae hollandiae, obeliscus, obesa, oriza, pallida, paucicostata, pellucida, pessulata, planilabris, plicatilis, poli, poliana, ponderosa, pulchella, pura, purpurea, pusilla, pyramidalis, reticulata, rigida, rufa, septangularis, sicula, solida, striolata, stromboides, taeniata, tenebrosa, teres, trevillianum, trilineata, trivittata, turricula, undulata, vexillum, vicina, vitrea, vittata, zebuensis, zonata.

Mangilia tiarula.

Mangusta albicauda, cafra, canni, edwardsi, galera, grisea, ichneumon, javanica, le vaillantii, major, malaccensis, mungo, mungoz, humidicus, nyula, pallipes, paludinosus, penecillatus, ratlamuchi, ruber, tetradactylus, urinatrix, vitticollis. *Vide et Mangasta.*

Mania caudilunaria, empedoclaria, lunigeraria, maura, typica.

Manica caespitum, capitata, rubida, rubra, structor, subterranea, tuberum, unifasciata.

Manicina amarantum, areolata, crispata, fissa, gyrosa, hemprichi, hispida, interrupta, lactuca, maeandrites, manica, pachyphylla, pectinata, praerupta, sabacana, strigilis, valenciennesi.

Maniola actaea, adраста, ageria, aello, aetheria, afer, alycone, alecto, allionia, anthe, arcanus, arete, arethusa, autonoe, baucis, bore, briseis, bryce, bubastis, caecilia, cassiope, ceto, clymene, clytie, cordula, corinna, dejanira, dorus, egea, erymanthea, eudora, euryale, evias, fidia, galatea, gesion, glacialis, goante, gorge, hermione, hero, hiera, hippolyte, hyperanthus, ida, ilia, iris, janira, janthe, jole, julia, leander, lemure, ligea, lyllus, maera, manto, medea, medusa, melampus, melas, meone, mnestra, norna, oedipus, oeme, pamphilus, pasiphae, persephone, phaedra, pharte, phegea, philea, philomela, philoxenus, phryne, pluto, podarce, pronoe, psodea, pyrene, pyrrha, roxelana, semele, statilinus, tarpeia, tiphon, tithonus, tyndarus.

Manis africana, aspera, auritus, brachiura, brachyura, ceonx, crassicaudata, dalmanni, gigantea, guy, indicus, javanica, leptura, leucurus, longicauda, minor, multiscutata, plurisquamis, temminckii, tricuspi, tridentata.

Manlia asella, testudo.

Manon bredanianum, capitatum, cervicornis, cribrosum, cylindraceum, digitatum, distans, dubium, favosum, foliaceum, globosum, impressum, mammillaris, marginatum, micrommata, monostoma, oculatum, pertusum, peziza, phillipsi, pisiforme, poraceum, pulvinarium, pyriforme, reussi, seriatoporum, spatsum, stellatum, submarginatum, tenue, tuberosum, tubuliferum, turbinatum, verrucosum.

Manopora caliculata, capitata, circumvallata, compressa, crista-galli, digitata, effusa, erosa, expansa, foliosa, foveolata, gemmulata, grandifolia, hispida, incrassata, lichen, lima, megastoma, miliare, nodosa, nudiceps, palmata, papillosa, planiuscula, scabricula, spumosa, stilosa, tortuosa, tuberculosa, venosa, verrucosa.

Manopus biguttatus.

Manorhina citreola, flavigula, garrula, lutea, melanocephalus, melanophrys, obscura.

Manorina viridis.

Manta americana.

Mantichora latipennis, tuberculata.

Manticora caerulescens, cylindricornis, gigantea, granulata, herculeana, latipennis, maxillaris, pallida, pallipes, scabra, tibialis, tuberculata.

Mantis abbreviata, adpersa, albella, albimacula, angulata, annulata, annulipes, aridifolia, armata, attenuata, aurantiaca, australasiae, baetica, basalis, bella, bicingulata,

bifasciata, biguttata, bimaculata, bioculata, bipapilla, birivia, bodegetica, borneensis, brachyptera, brevis, burmeisteri, caltrana, carolina, catenata, cellularis, chalybea, chloreudeta, chlorophaea, christiana, cinerea, clara, concinna, conspersa, conspurcata, coronata, costalis, crassiceps, cuticularis, darchi, decolor, decorata, dessicata, diana, diluta, dimidiata, domingensis, exsicata, extensicollis, fasciata, fenestrata, filum, flavicincta, flavipennis, flavoguttata, foliata, forficata, fronticornis, fuliginosa, fuscata, gemmata, gigas, gracilis, guini, guttata, gymnopyga, herbacea, heteroptera, hobsoni, hyalina, hyaloptera, hybrida, inquinata, kuhli, laticollis, latipennis, latistylus, limbata, lineola, lobiceps, lobipes, lucubrans, luna, lutescens, macroptera, madagascariensis, marginalis, marginata, marginella, maroccana, maucipennis, membranacea, metallica, minima, monstrosa, multistriata, musarum, nana, nebulosa, neuroptera, notata, novae guineae, obsecraria, ocellaria, ocellata, ochroptera, oligoneura, ornata, ovalifolia, oxyptera, parallela, patellifera, pavonina, pellucida, perflata, phryganoides, phyllopus, pia, pilipes, planiceps, platyura, polystriata, prasina, prasinana, protogaea, punctata, purpurascens, pustulata, quadricornis, quadrimaculata, quinqueiens, quinque-maculata, reticulata, rhombica, rhombicollis, rhomboidea, rogatoria, roylei, rubicunda, rubricoxata, sacra, servillei, signata, sinuata, soror, sphingicornis, spininana, stigmatica, strigosa, subfoliata, sublobata, sumatrana, supplicaria, tessellata, thalassina, thoracica, timorensis, tortricoides, trifasciata, tripunctata, undulata, unipunctata, valida, varia, versicolor, vicina, viridimargo, viridis, viridula, vitrea, wagneri, zebrata.

Mantispa ambusta, apicalis, auriventris, australasiae, brunnea, chalybea, cora, costalis, dorsalis, fausta, flaveola, fuscipennis, gracilis, grandis, interrupta, iridipennis, irrorata, minuta, nana, nodosa, notha, pagana, perla, proluxa, pusilla, semihyalina, tenella, varia, victori, virescens, viridula, vittata.

Mantoida nitida.

Mantura aenea, chrysanthemi, mannerheimi, obtusata, rustica, semiaenea.

Maotys fuscus.

Mara magellanica.

Maravignia sicula.

Mareca americana, awsuree, bahamensis, brasiliensis, capensis, castanea, chiloensis, fistularis, gibberifrons, glaucans, melanura, paecilorhyncha, penelope, punctata.

Margaretta cereoides.

Margarita (G.) acuminata, alabastrum, arctica, argentata, aurea, bicarinata, carnea, cinerea, coerulescens, costellata, costulata, elegantissima, expansa, fasciata, glauca, graenlandica, harrisoni, helicina, inflata, laevigata, maculata, margarita, minutissima, multilineata, obscura, olivaceus, ornata, pusilla, quadrifasciatus, sigaretina, solarii-formis, sordida, striata, sulcata, taeniata, trochoidea, umbilicalis, undulata, vahli, varicosa, violacea, vulgaris.

Margarita (L.) crocata, sinensis.

Margaritana arcuata, bonellii, calceola, complanata, confragosa, crispata, curreyana, deltoidea, etowaensis, fabula, fluviatilis, fragilis, franciscana, holstonia, margaritifera, marginata, menkei, minor, radiata, raveneliana, rugosa, undulata, vondenbuschiana, wetzleri, zollingeri.

Margaritaria abrupta.

Margarites diaphana.

Margaritia angustalis, asinalis, centrostrigalis, ciliaris, cinctalis, cineralis, cordialis, diversalis, elutalis, ferrugalis, fimbrialis, flavalis, flavidalis, fulvalis, fuscalis, glabralis, hyalinialis, institialis, lancealis, limbalis, longalis, longipedalis, lutealis, margaritalis, nebulalis, ochrealis, olivalis, palealis, pallidalis, pandalis, prunalis, pulveralis, quadralis, sericealis, sticticalis, stramentalis, terminalis, tetragonalis, thapsalis, uliginosalis, verbascalis, verticalis.

Margaritiphora communis.

Margarodes (Coel.) taeniatus.

Margarodes (Hem.) formicarum.

Margaronia canastralis, congradalis, unionalis, virginalis.

Margaritifera fluviatilis.

Marginaria bipunctata, circumvallata, concatenata, denticulata, elliptica, gothica,

hexagona, hexagonalis, hippocrepis, impressa, ostiolata, pari-en-sis, parvula, polymorpha, reticulata, roemeri, santonen-sis, subrotunda, sulcata, tenera, tenuisulca, tripunctata, velamen.

Marginella (G.) abbreviata, adansonii, alba, albalabris, alboscincta, albolineata, ampulla, amygdala, anatina, anglica, angustata, angustoma, apicina, aurantia, auriculata, auris-leporis, australis, avellana, azona, belcheri, bellangeri, belli, bernardi, bifasciata, biplicata, bivaricosa, blanda, buccinea, bullata, caerulea, caerulea, cancellata, candida, capensis, caribaea, carnea, catenata, chemnitzii, chrysomelina, cincta, cingulata, clandestina, cleryi, columba, coniformis, conoidalis, constricta, contaminata, cornea, cornulus, costata, crassilabra, crassilabrum, crenilabra, cuningiana, curta, cylindrica, cypraea, cypraeoides, cypraeola, dactylus, delessertiana, denticulata, dentifera, deshayesi, diadochus, diaphana, donovani, dunkeri, eburnea, eburneola, elegans, elongata, evanida, exilis, faba, fasciata, fauna, festiva, flavida, fluctuata, formicula, frumentum, fulminata, fusca, fusiformis, glauca, glauca, goodalli, gracilis, granum, granchia, guttata, harpaformis, helmatina, hematita, hordeola, humerosa, imbricata, inauris, inconspicua, incurva, inlexa, interrupta, irrorata, kieneriana, lactea, laevigata, laevis, largillierii, larvata, lavalleana, leucozona, lacinia, limatula, lineata, lineatus, labrum, liturata, livida, longivaricosa, lynceoides, maculosa, margarita, marginata, miliaria, minuta, monilis, mosaica, multilineata, muralis, muscaria, musica, neglecta, nitida, nitidula, nivea, nivosa, nodata, nubeculata, obesa, oblonga, obtusa, olivaceiformis, onychina, oryza, ovata, ovulata, ovuliformis, ovulum, pallida, pellucida, perexigua, persicula, petiti, phaseolus, philippinarum, phrygia, picta, pineum, piperata, plicata, pruinosa, prunum, pseudo faba, pudica, pulchella, pulcherrima, pulchra, punctulata, pyruata, pyrum, pysum, quadrilineata, quinqueplicata, radiata, retusa, rosea, rubella, sagittata, sapotilla, sarda, sauliae, scripta, semen, serrata, sexplicata, similis, spirata, splendens, storeria, striata, strigata, subtriplicata, succinea, sulcata, taeniata, taurinensis, tessellata, translucida, tricineta, triplicata, triticea, turbinata, undulata, varia, ventricosa, vitrea, voluta, zonata.

Marginella (L.) subtilissimus.

Marginellus glabellus.

Marginopora vertebralis.

Marginospongia infundibulum, irregularis.

Marginulina arcuata, bacillum, berthelotiana, bifurcata, bullata, carinata, comma, compressa, compressiuscula, consecta, contraria, cornucopiae, crassa, cristallarioides, cylindrica, elegans, elongata, ensis, glabra, gladius, gracilis, gradata, hirsuta, laevigata, lata, legumen, lituus, lobata, lunaris, mutabilis, nilssoni, nitida, pedum, prima, raphanus, raricosta, regularis, roemeri, rugoso-costata, similis, spirata, striata, sublituus, terquemi, triangularis, tricarinata, trilobata, webbiana.

Margus ferrugineus, obscurus.

Mariana rubrum.

Marica (Ar.) confinis, lepida, musculus, oblonga, ovalis, strigata, virescens.

Marica (Lep.) nelo, stygne.

Maridus babamensis, luteus.

Marila nyroca.

Marinula pepita.

Marisa intermedia.

Marius cinna, marius, thetis.

Marmaropus bessi.

Marmarostoma chrysostoma, planospira, undulata, versicolor.

Marmessus alcides, atyrnus, corax, lisias.

Marmosaurus obtusus.

Marmota typhlus.

Marpesia chironias, cinna, elegans, eleuthea, hylas, themistocle, thetis, thyonaea, zerynthia, zosteria.

Marpissa balteata, bistriata, brevipes, capensis, conspersa, discoloria, dissimilis, grossa, hamata, incerta, milvina, muscosa, undata, varia.

Marputius chilensis, marputio, nasua.

Marres dicomas.

- Marsenia** complanata, depressa, producta, tentaculata.
Marsenina prodita.
Marshamia analis, nigripes.
Marsupialis alata, flagellata, planci.
Marsupiocrinites caclatus, dactylus.
Marsupites laevigatus, milleri, ornatus.
Marsyas (Col.) aeneus.
Marsyas (G.) auris-midas.
Martes abietum, canadensis, fagorum, foina, kathiah, leucopus, melanopus, sylvatica, sylvestris, toufoeus, zibellina.
Martinia clannyana, decora, elliptica, glabra, mesoloba, oblata, obtusa, phalaena, plebeia, protensa, rhomboidalis, strigocephaloides, symmetrica, winchiana.
Martula fenestra, riparia.
Masaris hylaeiformis.
Mascarinus madagascariensis, mascarinus, microrhynchus, prasinus, puniceus.
Maschalodonta polygramma.
Masicera acutangulata, aenesens, agilis, albocincta, analis, angusta, atropivora, auriceps, badensis, bisignata, blondeli, brenii, brevis, cattra, cespitum, cinerea, confinis, consobrina, cubensis, cylindrica, declivicornis, depressa, distincta, dumetorum, fauna, ferruginea, flavescens, flavidipennis, flavifrons, florida, florum, fuscipennis, hannoniensis, interrupta, lateralis, latipennis, lutescens, macquarti, maculifascies, major, media, micans, minuta, montana, montium, multisetosa, myodaea, nitens, nitida, oblonga, obscura, pachystyla, palustris, parva, parvula, pinetorum, pulverulenta, pumila, quadrimaculata, roberti, rotundata, rubrifrons, ruficornis, rufifacies, rufipes, rufoscutellata, scutellaris, scutellata, senilis, silvatica, simplex, socia, tabaniformis, tenuiseta, tenuisetosa, tessellata, tincta, tiphaecola, unicolor, varipes, velox, vertiginosa, virescens, viridiventris, zonata.
Masius chrysopterus.
Masoreus aegypticus, affinis, grandis, luxatus, orientalis, sericans, sericeus, wetterballi.
Mastacembelus armatus, erythrotaenia, haleppensis, maculatus, marmoratus, pancalus, ponticerianus, punctatus, unicolor.
Mastacemblus malabaricus.
Mastax (Col.) elegantulus, moestus, ornatellus, ornatus, parreysi, tenuis, thermarum.
Mastax (Orth.) affinis, apicalis, guttata, mutilata, vitrea.
Mastigocera (Col.) barbicornis.
Mastigocera (Lep.) vespina.
Mastigocerca carinata, lunaris.
Mastigodes affinis, apri, equi, hominis, lacertae, leporis, muris, siniae, vulpis.
Mastigophorus parva.
Mastigura spinipes.
Mastigus deustus, flavus, fuscus, glabratus, hellwigi, palpalis, prolongatus, spinicornis.
Mastinocerus brevipennis.
Mastodon andium, angustidens, arvernensis, australis, borsoni, brevirostra, buffoni, chapmani*, collinsi, collinsoni, cordillerarum, cuvieri, dubius (Kaup, Verz. Gypsabg. 1834, 25), elephantoides, giganteum, godmani, grandis (Kaup, Verz. Gypsabg. 1834, 22), humboldtianus, humboldti, intermedius, jeffersoni, latidens, longirostris, luricense, macrodon, maximus, microdon, minus, minutus, perimensis, podolicus, rhomboides, rugatum, senodon, sivalensis, tapiroides, turicensis, vellavus, vialeti.
Mastodonsaurus andriani, jaegeri, robustus, vaslenensis.
Mastogenius parallelus.
Mastonotus popelairi.
Mastopora concava.
Mastostethus abbreviatus, abdominalis, alternans, atrofasciatus, aulicus, aurantiacus, balteatus, bicolor, bilobus, binotatus, bipunctatus, cardinalis, cingulatus, curvatus, dentatus, depressus, diadema, distinctus, dorsalis, ephippiger, frontalis, germari, haematomelas, hieroglyphicus, histrio, lateritius, leprieuri, maculicollis, multipunctatus, nigrifrons, nigripennis, nigrocinctus, novemmaculatus, obliquus, pan-

therinus, phaleratus, quadrinotatus, quadripunctatus, quinquemaculatus, rubricollis, sanguineus, sexguttatus, sexplagiatus, sexpunctatus, sobrinus, tarsatus, terminalis, tibialis, transversalis, trinctus, trifasciatus, trigeminus, variegatus, versicolor, verticalis, vicinus, vittatus, zonatus.

Mastotherium humboldti, hyodon, leptodon, maximum, megalodon, microdon, ohioticum.

Mastrema crenulata, polypodia, striata.

Mastus cantharini, emarginatus, insularis, niveus, obesus, obtusus, pupa, tingitanus, tuberculatus, turgens.

Maticora lineata.

Matronula godarti.

Mattiphus carrenoi.

Maturna arcuata, litoralis, paludicola, pratincola.

Matus bicarinatus.

Matuta appendiculata, banksi, doryphora, herbsti, lesueuri, lunaris, peroni.

Maurolucus amethystino-punctatus, attenuatus.

Maypa chlorosticta.

Mazama bira, campestris, dorsata, furcata, furcifer, pita, salinaria, sericea, tema.

Mazina lobata, palmata, pulmoniforme.

Mazoreus attinis, laticollis, madagascariensis, ruficornis, testaceus.

Meandrestrea arausiaca, circularis, crassisepta, pseudomeandrina, requieni, reticulata.

Meandrina agaricites, ambigua, angustata, antiqua, appressa, arausiaca, areola, areolata, astreoides, astroides, ataciana, bellardi, bernardina, bisinuosa, bronni, caudex, cerebriformis, cerebrum, corrugata, cottaldina, crassa, crispa, cylindrus, daedalea, deluci, edwardsi, elegans, exesa, filigrana, foliacea, gallii, gracilis, grandilobata, gyrosa, heterogyra, implicata, intermedia, interrupta, konincki, labyrinthica, lamellina, lamellodentata, leucasiana, linearis, lotharingi, lucasiana, macroreina, magna, mammosa, montana, neocomiensis, oceani, orbicularis, ornata, pectinata, phrygia, profunda, pyrenaica, radiata, rastellina, raulini, renauxiana, reticulata, rubra, rustica, salzburgiana, serrata, sinuosissima, soemmeringi, spatiosa, spongiosa, stellifera, strigosa, superficialis, tenella, tenuis, tiedemanni, truncata, valida, valmondoisiaca, venustula, vermicularis, vetusta, vineola, viridis.

Meandrophyllia lotharinga.

Meandropora aurantium.

Meandrospongia foliacea.

Mecaspis palmatus.

Mechanitis anah, balea, baucis, calliope, didyma, doris, edocla, egina, ethra, eucrate, francisca, gazoria, hispulla, lilis, lysidice, lysimnia, melphis, meriana, mneme, nesaea, numata, pellucida, phyllis, polymnia, psidii, rhezia, satevis, zarina, zillah.

Mecinus barbarus, circulator, collaris, comosus, cuprifer, dorsalis, filiformis, fimbriatus, haemorrhoidalis, janthinus, limbatus, longiusculus, marginatus, pinastri, pyraeter, semi-cylindricus, teretiusculus, variegatus, violaceus.

Mecistocephalus ferrugineus, guildingi, maxillaris, punctifrons, punctilabium, punctilabratum.

Mecistogaster ancilla, filiformis, filigerus, filum, flavistigma, leucostigma, linearis, marchali, ornatus, pedicellatus, signatus, virgatus.

Mecistops bennetti, cataphractus, journei.

Mecistura caudatus, longicaudata, trivirgatus, vagans.

Meckelia (Ann.) angulata, bilineata, borlasi, carmellina, carnea, depressa, ehrenbergi, fusca, gracilis, kneri, olivacea, pallida, serpentaria, siphunculus, somatotomus, trilineata, viridis, vittata.

Meckelia (Dipt.) elegans, philadelphica.

Mecocerus audouini, disparipes, gazella, gibbosus, moestificus.

Mecochirus bajori*, bayeri, brevimanus, locusta, longimanus, pearcei, remimanus, tenuimanis.

Mecocorynus advena, varipes, westermanni.

Mecoglossa affinis, rugosa.

Mecolenus wahlenbergi.

Mecomera brunnea.

Meconema varia.

Meconemus tuberculatus.

Mecopoda elongata, ferruginea, latipennis, maculata, virens.

Mecopselaphus limbatus, maculicollis.

Mecoptera satellitia, serotina.

Mecopus audineti, bispinosus, evolans, hopei, sphaerops, trilineatus, vulneratus.

Mecorhopalus ater, bipustulatus, elongatus.

Mecosarthron buphagus, tuberculatus.

Mecotarsus rosenschoeldi.

Mecyna asinalis.

Mecynocanthus unicolor.

Mecynoderia coxalgica, picta.

Mecynopus cothurnatus.

Mecynorhina polyphemus, savagei.

Mecynorrhina torquata.

Mecynotarsus bison, fragilis, nanus, nigrozonatus, rhinoceros.

Mecysmoderes euglyptus.

Medea constricta, fulgens, rufescens.

Medetera carnivora.

Medeterus abbreviatus, aeneus, albiceps, albofiorens, alpinus, annulipes, antarcticus, appendiculatus, aquaticus, balticus, bicolor, bifasciatus, bipunctatus, calcaratus, carmichaeli, chrysologus, cinereus, conspersus, cupreus, curvipes, flavicoxa, flavipes, formosus, fulviventris, fuscipennis, glaber, graciosus, inaequalipes, jaculus, loripes, magius, morio, muralis, nebulosus, nigricans, nitidus, notatus, oceanus, paradoxus, plumbellus, praecox, prodromus, pusillus, pygmaeus, regius, rostratus, ruficornis, scanilus, tenellus, tristramentis, truncorum, viridipes, viridis, xanthopterus.

Media dubia.

Medina carceli, cylindrica, elongata, luctuosa, tristis, winthemi.

Meditoria nasuta.

Medon ruddi.

Medoria (Dipt.) acerba, agilis, collaris, corvina, glabra, phasiaeformis.

Medoria (G.) crassior, damnoniensis, tenebrosa.

Medusa agilis, basteriana, bifida, bulla, caliparea, campanula, campanulata, capillaris, capillata, caudata, crinita, crucigera, cyanella, cymbaloidea, digitata, dubreuiliei, duoderilia, fimbriata, forskolea, frugum, fulgida, funeraria, fungus marinus, galerita, globosa, globularis, granulata, hyacinthina, labiata, lenticulare, lucida, marsupiformis, mucilaginosus, noctilua, nuda, nummularis, ocella, octocilia, octo-tentaculata, palmistruchi, panopyra, papillata, pelagica, pellucens, pocillum, proboscidea, purpurea, quadricincta, quadricostata, radiata, radiolata, rissoana, saccata, saltatrix, scintillans, sexdenilia, simpla, spirans, stelligera, surirea, tuber, tubercularis, tyrrenha, uniformis.

Medusites arcuatus*, capillaris*, picturatus

Megabasis speculifer.

Megacantha tenebrosa.

Megacephala acutipennis, adonis, aequinoctialis, affinis, angustata, australasiae, bifasciata, bilunata, bocandei, boisduvali, brasiliense, cabounca, carolina, chalybaea, chilensis, cruciata, cylindrica, distinguenda, elongata, euphratica, femoralis, fulgida, geniculata, gracilis, hilarii, impressa, infusca, lacordairei, laevigata, laminata, laportei, latipennis, latreillei, lebasii, limata, lucifera, maculicornis, martii, megacephala, mexicana, moritzi, nigricollis, nocturna, obscurata, occidentalis, punctata, quadrisignata, regalis, senegalensis, sepulchralis, sobrina, spinosa, spixi, succincta, syriaca, testudinea, variolosa, violacea, virginica.

Megacephalon maleo, rubripes.

Megacephalus similis.

Megacera parvula, vittata.

Megaceras chorinaeus, rugosus.

Megaceros hibernicus.

Megacerus morpheus, philoctetes, teucer.

- Megachile** adunea, aegyptia, aenea, affinis, albiventris, apicalis, argentata, aterrima, aurulenta, bicolor, bicornis, bidentata, binotata, byssina, caerulea, campanularum, capitularis, caucasica, centuncularis, circumcincta, conica, cornigera, cornuta, cristata, cyanea, cyanipennis, denticulata, disjuncta, dufouri, emarginata, ericetorum, fasciata, flavipes, florentina, florissomnis, fronticornis, fuliginosa, fulviventris, fusca, ghilianii, globosa, grandis, gymnopygia, haematoda, interrupta, jugatoria, lagopoda, lanata, latimanus, latreillei, leachella, lefebvrei, lignisea, luctifera, maculata, manicata, maritima, maxillosus, muraria, mystacea, nestorea, nigripennis, nigripes, notata, odontura, pacifica, papaveris, parvula, patellimana, phaeoptera, poeyi, punctatissima, pyrenaica, pyrina, quadridentata, resinana, resinans, rufa, rufipennis, rufitarsis, rufiventris, sauleyi, sericans, sicula, squalens, strigata, susurrans, truncorum, tunensis, ventralis, versicolor, willughbiella, willughbiella. *Vide et Megachile.*
- Megachirus** fimbriatus, intermedius.
- Megacraspedus** dolosellus, striatellus.
- Megacronus** analis, atriceps, castaneus, cernuus, elegans, formosus, merdarius, nitidus, rufipennis.
- Megadactylus** draconoides, philippensis.

Megalops (P.) atlanticus, cepediana, curtus, filamentosus, giganteus, indicus, nasus, notata, ogilna, priscus, setipinnis, tenuis, thirsa, thirsoides.
Megaloptera poeskop.
Megalopterus australis, plumbea, stolidus, tenuirostris.
Megalopus (Col.) abbreviatus, abdominalis, afer, alternans, analis, angustatus, armatus, atrofasciatus, aurantiacus, axillaris, balteatus, bicolor, bifasciatus, binotatus, bipunctatus, calcareatus, cardinalis, cinctus, cruralis, curvatus, curvipes, dentatus, depressus, diadema, dimidiatus, discoideus, dorsalis, egregius, elegans, ephippiger, erythronema, exclamations, fasciatus, femoratus, flavimaculatus, frontalis, henningi, heteroglyphicus, hirtipes, histrio, humeralis, inscriptus, javanus, lateritius, limbatus, lineatus, lituratus, maculatus, marginatus, mutillarius, nigricornis, nigro-cinctus, nolis, novem maculatus, obliquus, parallelus, phaleratus, pilipes, plagiatus, poecilosonus, quadripunctatus, rubens, rubicollis, rufescens, rufipennis, rufus, sellatus, septenniaulatus, sericatus, sexmaculatus, sexpunctatus, signatus, spinosus, subfasciatus, succinctus, tabidus, terminalis, testaceus, tibialis, trifasciatus, tuberculatus, variegatus, verticalis, vittatus, zonatus.
Megalopus (P.) cyprinoides.
Megalopyge lanifera, nuda.
Megalorhina harrisi.
Megalorhynchus hayi, lathami, spinosus.
Megalornis (A., foss.) novae hollandiae.
Megalornis (A., rec.) grus.
Megalosaurus bucklandi, conybearei.
Megalosoma hector.
Megalostomis anchoreti, bicingulata, distincta, gigas, grandis, grossa, iracunda, luctuosa, meretrix, obesa, trincta.
Megalostylus laticollis, minor, renggeri, rhodopus, saphyrinus, sturni.
Megalotis (A.) cruciger, otoleucus.
Megalotis (M.) australis, caama, cerda, famelicus, lalandi, verticalis.
Megalotrocha alba, alboflavicans, flavicans, socialis.
Megalura coresia.
Megalurites nitidum.
Megalurus (A.) citrinus, cruralis, galactotes, gramineus, isabellinus, palustris, punctatus, rufescens, rufipes, striatus.
Megalurus (P.) brevicostatus, elongatus, lepidotus, parvus.
Megalyra fasciipennis*, rufipes.
Megamede chalciope, rhetenoris.
Megamera prionesthis.
Megamerus (Ar.) castaneus, celer, fallax, inflatus, longipes, ovalis, roseus.
Megamerus (Col.) kingi.
Megamyrmaekion caudatum.
Megamys patagonensis.
Meganephria bimaculosa, oleagina, oxioecanthae.
Meganereis gigas, leachi.
Meganotus apterus.
Meganthereon brevidens.

- Megapalpus** capensis, nitidus.
Megapelmus rufiventris, sphecoformis.
Megaphrys kuhli.
Megapicos albirostris, grayi, imperialis, malherbei, principalis, validus.
Megapoda crassitarsis, cyanea, cyaneiventris.
Megapodium frater, westermanni.
Megapodius alectelia, duperryi, forsteni, freycineti, laperousei, menura, nicobariensis, reinwardti, rubripes, rufipes, tumulus.
Megaproctus (Col.) acutus, affinis, didelphis, exclamationis, filiformis, funebris, ocellatus.
Megaproctus (Hym.) castaneus, didymus, tripartitus.
Megaprosopus rufiventris.
Megaprotus decussatus, orphanulus.
Megaptera americana, antarctica, kazira, longimana.
Megapterna montana.
Megapteron longimana.
Megapterum chlorostomum.
Megapyga coeruleomaculata, eximia.
Megarhina ferox.
Megarhinus (Col.) costalis, firmus.
Megarhinus (Dipt.) haemorrhoidalis.
Megarhinus (P.) paradoxus.
Megarhynchus (A.) acanthurus, caijanus, elongatus, marginellus, quadrispinosus, rostratus, sulphuratus. *Vide et Megarynchus.*
Megarhynchus (Hem.) testaceus, transversalis, truncatus. *Vide et Megarynchus.*
Megarthus affinis, clypeatus, denticollis, depressus, emarginatus, excisus, flavus, hemipterus, macropterus, marginatus, marginicollis, pictus, pusillus, retusus, rufescens, sinuatorollis.
Megarynchus (A.) fasciatus, flavus, griseus, pitangva, regius, striatus. *Vide et Megarhynchus.*
Megarynchus (Hem.) limatus. *Vide et Megarhynchus.*
Megascelis acutipennis, aenea, aerea, affinis, amabilis, anguina, argutula, asperula, aureola, bicolor, bitaeniata, brunnipes, chloris, circumducta, columbrina, crenipes, curta, elegantula, exilis, fasciolata, fatuella, flavipes, frenata, fulgida, fulvipes, gracilis, herbacea, insignis, lacertina, lucida, luculenta, musella, mucronata, opalina, postica, prasina, puella, purpurea, rufipes, saphireipennis, satrapa, stratiotica, suturalis, tenella, tricolor, unicolor, virgo, viridana, vittata.
Megascolex caeruleus.
Megasema apronia, C nigrum, ditrapezium, stigmatica, triangulum.
Megasiphonia alabamensis, delphinus, zigzag.
Megasis dilucidella, rippertella.
Megasoma (Col.) actaeon, theseus.
Megasoma (Lep.) acaciae, cristatum, repandum.
Megaspilus brachypterus, carpenteri, cinicoides, crispus, dux, elegans, gracilis, melanocephalus, nitidus, opacus, puliciformis, rubi, ruficollis, rufipes, rufescapus.
Megaspira rillyensis, ruschenbergiana.
Megaspis chrysopygus, crassus.
Megasternum boletophagum.
Megasthenes jenisoni, pertyanus.
Megastigmus bipunctatus, bohemanni, borus, dorsalis, drances, iamenus, strobilobius, transversus.
Megastoma (A.) atriceps, flaviceps, ruficeps.
Megastoma (Coel.) cedra, tuberculata, tuberculosa.
Megastoma (P.) apenninum.
Megastylus cruentator, impressor, lineator, mediator, orbitator.
Megatchile brevis, pollicaris, pugnatius. *Vide et Megachile.*
Megatherium australe, boreale, cuvieri, jeffersoni, laurillardii.
Megathiris cuneiformis, depressa. *Vide et Megathyris.*
Megathopa auricollis, chalybea, punctatostriata, puncticollis, villosa, violacea.

- Megathyra** dilatata, obliqua, planularia.
Megathyris cistellula, decomplicata. *Vide et Megathiris.*
Megatoma adspersa, bifasciata, hottentotum, morio, ornata, ruftarse, sericeum, serra, undatum.
Megatomis effictalis, minimalis.
Megatrachelus pallidipennis.
Megatrema stokesi.
Megauchenia setipennis.
Megerlea claripennis, nitida, picea, truncata.
Meghimatium striatum.
Meghyperus sudeticus.
Megilla (Col.) innotata, maculata, monacha, octodecim pustulata.
Megilla (Hym.) acervorum, acraensis, aenea, aestivalis, albilabris, albopunctata, alternans, antennata, atermata, basizona, bicincta, bimaclata, bistrigosa, breviuscula, byssina, calendarum, caliginosa, callosa, carolina, chalcite-, chloris, chrysopoda, cincta, cingulata, circulata, clitelligera, collaris, concinna, crocea, curvipes, decrepita, dentipes, dumetorum, duphicornis, farinosa, fasciata, femorata, fuliginosa, fulvata, fulvipes, furcata, garrula, globosa, graminea, haemorrhoidalis, haworthana, hispanica, incana, labiata, lanata, lanipes, leonina, leucomelaena, librata, longinana, melanopoda, metallica, minuta, moribunda, mucorea, nigriplantis, nigrita, nubica, obsoleta, parietina, parvula, personata, pilipes, plagiata, pollinaris, quadricincta, quadricolor, quadrifasciata, quadrimaculata, retusa, robusta, rotundata, ruficornis, salviae, scalaris, scopipes, seladonia, senilis, sesquicincta, smaragdula, socia, strigata, subaurata, subglobosa, subterranea, tersa, tricolor, tumulorum, valga, varicolor, versicolor, vetula, vidua, virescens, viridis, viridula, zonata.
Megischia curvipes, erythrocephala, nigripennis.
Megischus annulator, coronator.
Megistanis aclus, baotus, cadinus.
Megistina lugubri-, stroemi.
Megisto cemenis, argante, cymelia, euridice.
Megistocera brasiliensis, dimidiata, dispar, filipes, fuscana, limbipennis, pacifica, verticalis.
Megistopus bisignatus, variegatus.
Megodontus coelatus.
Megoera angustifrons, conica, incurva, nigra, nitida.
Megophias monstrosus.
Megophrys montana, monticola, monticula.
Megophthalmus bipunctatus.
Megopis mutica.
Megops moronis.
Megorima crasta, levis, truncata.
Megorismus daiphron, nicaeae.
Megosona acetosellae.
Megymenum affine, crenatum, cupreum, dentatum, insulare, merati, spinosum.
Meigenia bisignata, borealis, cylindrica, flavescens, floralis, griseescens, immaculata, naava, nitida, parva, vernalis.
Meiglyptes badius, badius-, brachyurus, brunneus, fuscus, poecilophus, pyrrhotis, rufinotus, tristis.
Mejonosoma grisea, tricolor, unicolor.
Melacantha amarula, setosa.
Melaconotus australis, simili-.
Melacosoma lepida.
Meladema coriacea.
Meladerma nigerrima.
Meladornus bulimoides.
Melaenornis edolioides.
Melaenus elegans, elongatus.
Melagraphia aethiops.
Melalopha curtula.

Melambia gigas.

Melampias arete, hyperbia, janthe, mnestra, pharte, rhodia.

Melampicos erythrocephalus, flavifrons, flavigula, herminieri, hirundinaceus, melanopogon, torquatus.

Melampus aequalis, bidentatus, borealis, bulla, coniformis, corneus, coronatus, costatus, dominicanus, exiguus, fasciatus, firmini, fuscus, gracilis, lacryma, leucodon, lineatus, lividus, lugubris, luteus, margarita, miniatus, monile, myoxi, obliquus, olivula, opaca, pallescens, patulus, sciuri.

Melanargia clotho, electra, galathea, galene, japygia, lachesis, leucomelas, procida, sicula, syllius, thetis.

Melanatria indica.

Melanchra persicariae.

Melanchroia aterea, cephise, ernestina, fulvilumbis, inconstans, leontia.

Melandrya assimila, barbata, canaliculata, caraboides, excavata, flavicornis, fulgida, fusca, goryi, impressa, labiata, maculata, repanda, rufoollis, rufoles, serrata, splendida, striata, umbrina, variegata.

Melanea constrictus, costata, fasciata, lineata, minima, truncata. *Vide et Melania (G.).*

Melanella (G.) dufresnei.

Melanella (Inf.) atoma, erythraea, flexuosa, monadina, spirillum.

Melanerpes erythrocephalus, flavifrons, formicivorus, hirundinaceus, l'herminieri, melanopogon, meropirostris, ruber, rubicollis, rubrifrons, torquatus.

Melanesthes alutaceus, laticollis, sibiricus.

Melanetta hornschuchi.

Melaneura arundinis.

Melania (Dipt.) bifasciata, volvulus.

Melania (G.) abbreviata, abrupta, absoluta, acicula, aculeus, acuminata, acus, acuta, acute-striata, acuto-carinata, adspersa, aequalis, affinis, afra, alberti, alexandrensis, altis, alveare, amarula, angulata, angulosa, angusta, annulata, annulifera, anthophylloides, anthracina, antiqua, approxima, aquitanica, arata, aretata, arcuata, arenosa, armata, armigera, armillata, aspera, asperata, aspersa, aspirans, aterrima, atra, attenuata, aurantia, auricula, auriculaeformis, auriculata, auriscalpium, aurita, babylonica, baccata, balonnensis, basalis, batana, bellacrenata, bellicosa, bicarinata, biteniata, bizonalis, blainvillei, blanda, blossewilliana, boeci, boykiniana, brasiliensis, brevior, brevis, brochii, brogniarti, bronni, buccinalis, buccinoidea, buddi, bulbosa, bulimoides, bulinus, byronensis, caelatura, caliginosa, cambessedesi, campanellae, canaliculata, canalifera, cancellata, canicularis, carinata, carinifera, carino-costata, carnatis, carolinae, cassiana, castanea, catenaria, catenoides, cecillii, celebensis, cerithioides, charreyi, chloris, cincinnatiensis, cinerea, cingulata, circincta, clathrata, clavaeformis, clavula, clavus, coarctata, cochlea, cochlearella, coffea, columella, columnaris, comma, compressa, concentrica, concinna, condensata, congesta, conica, corolla, coronata, corporosa, corrugata, corvina, costata, costellata, costifera, costula, costulata, crassa, crebri-costata, crebricostis, crebristriata, crenocarina, crenularis, crenulata, cruentata, cubaniana, curreyana, curta, curvata, curvicosta, curvicostata, cuvieri, cybele, cylindracea, cylindrica, decollata, decora, decorata, decussata, deperdita, depygis, deshayesiana, distorta, donovani, doreyana, dubia, dubiosa, duiabonis, dunkeri, duttoniana, ebum, edgariana, elegantissima, elevata, elongata, erosa, erythrostoma, exarata, excisa, excurata, expansa, falcifera, fasciata, fasciolata, fauna, figurata, filum, flammigera, flammulata, flavida, florentina, fluctuosa, fontinalis, forata, foremani, formosa, fragilis, frethii, frethii, fulgurans, fuliginosa, fulminata, fumosa, funiculus, furfurosa, fusca, fuscata, fusiformis, gambensis, gardenensis, gaudiosa, gemma, gervillei, gigantea, glabra, glans, glaphyra, globosa, globula, globulosa, gracilis, graciola, granifera, granulata, granulosa, graphium, gruneri, hagenovi, haleiana, hamiltoniana, harpa, harpaformis, harpula, haueri, hauslabii, hausmanni, haysiana, heddingtonensis, helena, helvetica, henriettae, herculea, heyseana, hildrethiana, hoernesii, hollandri, holstonia, hordacea, huegeli, humerosa, hydei, impressa, inaequata, inaequistriata, incerta, indurum, inermis, inflata, inflexa, infracostata, inhonesta, inquinata, integra, intermedia, intersecta, intersita, isogona, jayana, kaupi, kielcensis, kirtlandiana, koninckean, kotschy, lactea,

lacustris, laeta, laevigata, laevis, laevisissima, lafrenaye, laqueata, largillierti, larva, latebrosa, latebrosalata, lauraea, lecontiana, liebmanni, ligata, lima, limnearis, lineata, lineolata, lirata, livescens, longissima, luctuosa, lugubris, lutosa, lyra, macilenta, madagascariensis, marginata, matoni, mauriciae, medio-jurensis, meukiana, minima, minuta, mitra, modesta, moesta, moluccensis, monozonalis, moreleti, multilineata, multitorquata, muricata, mutabilis, mutans, nassula, nebulosa, neptuni, niagarensis, nickliniana, nigriflora, nitens, nitida, nobilis, nodosa, nodulosa, nonpareil, nupera, nympha, nysti, obesa, obliquaris, oblique costata, oblonga, obovata, obsoleta, obtusa, occata, occidentalis, ochracea, oceensis, offachiensis, oliva, olivula, ordiana, ornata, ottoni, ovalis, ovata, ovoidea, ovularis, oweni, pagodula, pallescens, pallida, palpata, paludinaris, papuensis, parreyssi, partschi, perangulata, percarinata, perfecta, perfusca, pernodosa, perpinguis, perversa, petiti, phasianoides, philippii, philippinarum, picta, pilula, plicata, plicatula, plicifera, plieningeri, pluristriata, plutonis, polita, porcata, potosensis, potosiensis, praerosa, prasinata, prisca, procera, producta, protea, proxima, pugilis, pulchella, pulchra, pumila, punctata, pupa, pupaeformis, pusilla, pygmaea, pyramidalis, pyramidata, pyramis, pyrenella, quadri-lineata, quadriseriata, quadristriata, rangi, regularis, reticulata, retusa, riqueti, rivularis, robusta, roppii, rufa, rufescens, rufula, rugifera, ruginosa, rugosa, rugoso-costata, salebrosa, saxicoloides, sayi, scabra, scabrella, scalariformis, scalarioidea, scalaris, schiedeana, schlothheimi, scillae, scipio, scitula, sculpta, secalina, semicancellata, semicarinata, semicostata, semidecussata, semigranosa, semiplicata, semistriata, setosa, siccata, silicula, similis, simplex, solida, soluta, sordida, spadicea, spina, spinalis, spinescens, spinifera, spinosa, spinulosa, spiracuta, spiralis, spiralisissima, spurca, stephanus, stotteri, striata, striatula, strigilata, strigosa, stygia, stygii, subangulata, subcarinata, subcolumnaris, subconcentrica, subcostata, subcylindracea, subglobosa, subimbricata, sublirata, subnodosa, subovata, subrugosa, subscalaris, subsolida, substricta, subtenuistriata, subtortilis, subularis, subulaspira, subulata, sulcata, sulcatulata, sulcosa, sulcospira, sulculata, sulculosa, supraplecta, suturalis, symmetrica, taitiana, tamsi, tarbelliana, tenebrosa, tenuicostata, tenuiplica, tenuiplicata, tenuis, tenuissima, tenuistriata, terebellata, terebra, terebralis, teres, terpsichore, tessula, testudinaria, tetrica, texata, textata, thiarella, tigrina, tirouri, torquata, torta, tourauiensis, tricarinata, tricineta, trilineata, trochiformis, truncata, truncatula, tuberculata, tuberculosa, tumida, turgida, turgidula, turricula, turris, turrita, turritella, turritellaris, turritelliformis, tympanorum, uncialis, undulata, unidentata, unifasciata, uniformis, vainata, vanuxemiana, variabilis, varicosa, venusta, verrucosa, verticalis, vestita, vetusta, villosa, virgata, virginica, virgulata, viridis, vittata, volvulus, waigensis, warderiana, wetzleri, winteri, zenkeni, zieten, ziukeni, zonata. *Vide et* Melanea.

Melanimon collare.

Melaniparus leucomeles, leuconotus, leucopterus, niger.

Melanippe alchemillaria, alchemillata, amnicularia, blomeri, hastaria, hastata, luctuata, marginata, rivaria, rivata, rivulata, tristaria, tristata, turbaria.

Melanis agyrtæ, lycea, melandra, phereda.

Melanites nitidus.

Melanitis ariadne, casiphone, ceryx, costellatus, dewara, etusa, leda, undularis.

Melanitta americana, fusca, gibbera, megapus, megauros, nigra, nigripes, perspicillata, platyrhynchos.

Melanium granum.

Melanochlora sultaneus, sumatrana.

Melanocorypha affinis, arcuaria, bimaculata, brachydactyla, calandra, cinctura, clot-bey, crassirostris, deserti, gallica, intercedens, itala, leucoptera, mareotica, melanocephala, mongolica, nigra, planiceps, subcalandra, tatarica, tenuirostris, torquata.

Melanodera typica, xanthogramma.

Melanoglena bipunctata.

Melanoides fasciolata.

Melanoleuca dodecea, echiella, funerella, pusiella.

Melanopepla atronitens.

Melanophila aeneola, aequalis, appendiculata, atra, chrysoloma, cuspidata, guianensis

guttulata, immaculata, inflammata, longipes, luteosignata, metallica, prasina, tarda, unicolor.

Melanophora (Ar.) argoliensis, atra, bimaculata, flavimana, oblonga, pallipes, pedestris, petrensis, pumila, pusilla, violacea.

Melanophora (Dipt.) agilis, americana, analis, atra, atrifrons, carbonaria, carseli, clari-pennis, distincta, festiva, fulvicornis, grossificationis, helicivora, hyalipennis, lugens, maura, molitor, nana, nigerrima, nitida, picea, riparia, roralis, rubescens, rubricornis, rufipes, rupestris, servillei, simplex, subterranea, tetraptera, trifasciata, varia, velox, vernalis, violacea.

Melanopicos hirsutidaceus.

Melanopicus erythrocephalus.

Melanopsis acicularis, aciculella, affinis, ancillaroides, annulata, aquensis, armata, atra, attenuata, audebardi, bonellii, bouei, brasiliensis, brevis, buccinoidea, buccinoides, buccinulum, carinata, cariosa, castanea, citharella, clementina, cornea, coronata, costata, costellata, crenocarina, daphnes, daudebarti*, decussata, deperdita, deptfordensis, dufouri, dufresnei, emerici, esperi, ferussaci, fritzæi, fusiformis, galloprovincialis, gibbosula, granulosa, gracleoui, inauris, incerta, labiata, laevigata, lugubris, lyra, maculata, marocana, marticensis, martiniana, minuta, neritiformis, nodosa, obtusa, oliva, olivula, parkinsoni, praerosa, princeps, pygmaea, rugosa, sedgwicki, sevillensis, spinosa, subcarinata, subcostata, subulatus, tricarinata, trifasciatus, truncata, turgida, turricula, wagneri, zebra, zelandica.

Melanoptera himantopodis.

Melanornis atra, simplex, taenioptera.

Melanospilus bensoni.

Melanotus ater, chilensis, flavipes, glandicolor, ignobilis, impressifrons, melanotis, paradoxus.

Melanoxanthus quadriguttatus.

Melanterius piceirostris, porcatus, semiporcatus.

Melantha nigra.

Melanthia adustata, albicillata, alchemillata, amniculata, blandiata, breviculata, fluctuata, galiata, jucundaria, montanaria, ocellata, porcellata, rivata, rubiginata, stragularia, tristata, turbata.

Melantho costicollis, klugi.

Melanthrips obesa.

Melaphorus reichei.

Melapterus bengalensis.

Melarthaphe glabrata.

Melas melanus.

Melasina ciliaris, elateroides, nigricornis, pectinicornis.

Melasis picea, plumicornis, ruficornis, rufipalpis, sphondylioides, tuberculosa.

Melasoma (A.) edolioides.

Melasoma (Col.) aenea, cuprea, lapponica, populi, tremulae, vigintipunctata.

Melastemma staphylinus.

Melatoma costata.

Melazycera quinquemaculata.

Meleagrina albina, alternata, approximata, cadomensis, dubia, echinata, laevigata, margaritifera, ovata, pectinata, pulchella, quadrata, radiata, rigida, tessellata, tongana.

Meleagris aureus, fera, ocellata, palawa, picus, silvestris.

Melecta albovaria, alecto, armata, aterrima, atropos, bicolor, bifrons, bipunctata, caesia, clotho, fasciculata, geminata, grandis, hirta, histrio, histrionica, lachesis, megaera, nigra, nigripennis, nitidua, nitidula, notata, pluriuotata, punctata, quattuordecim-punctata, remigata, scutellaris, subpunctata, testaceipes, thalassina, tibialis, tisiphone.

Melectes punctata.

Meles alba, anakuma, antidiluvianus, capensis, carcajou, communis, europaeus, javanicus, jeffersoni, leucauchen, meles, morreni, vulgaris.

Meletta crenata, lile, longimana, matowacca, mediterranea, novae hollandiae, obtusi-rostris, sardinites, senegalensis, suoneri, thrissa, venenosa, venosa, vulgaris.

- Meleus** adpersus, arenarius, calcaratus, caliginosus, carinatus, creutzeri, geminatus, gerli, illigeri, impressicollis, lutosus, megerlei, porculus, rudis, sabulosus, setiger, variolosus.
- Melia** (Ceph.) alveolaris, angulata, anguliferus, breynii, cinctatus, communis, compressus, convergens, dannenbergi, depressa, distans, gracilis, imbricata, keyserlingi, muensteriana, pygmaea, reticulata, steinhaueri, subflexuosus, triangularis, trochlearis, wissembachi.
- Melia** (Cr.) tessellata, variolata.
- Melia** (Dipt.) albipennis.
- Melia** (Lep.) bipunctana, flammea, quadridentata, sericea, socia, sociella.
- Melias** calyorrhynchus, corallirhynchus, diardi, pyrrocephalus, superciliosus, tristis viridis.
- Melibaea** (Dipt.) aurulenta, Mondeli, gagatea, lepida, subrotundata, zonaria.
- Melibaea** (Nud.) fragilis.
- Melibe** rosea.
- Melibeia** coronata, pinnatifida.
- Meliboea** minuta, ornata.
- Melicerita** charlesworthi, muensteri.
- Meliceritites** gracilis, porosa, roemeri.
- Melicerta** (Cr.) pleurostoma, quadriloba, seticaudata, triliana.
- Melicerta** (Hym.) ochroleucus.
- Melicerta** (Med.) campanula, digitale, fasciculata, morchella, perla.
- Melicerta** (Verm.) biloba, crucigera, ringens.
- Melicertina** charlesworthi.
- Melicertum** campanulatum, penicillatum, perla, pusillum.
- Melicertus** tigrinus.
- Melichares** agilis.
- Melichthys** albicaudatus, marginatus, prasinensis, ringens.
- Melicleptria** alphea, cardui, dipsacea, ononis, pettigera, scutosa, tuberculum.
- Melicophila** picata.
- Melictis** beskei.
- Melidora** euprosiae, macrorrhyncha.
- Melierax** canorus, musicus, polyzonus.
- Melieria** gangraenosa, obscura, pallipes, pulicaria, rubella.
- Meligethes** abdominalis, angustatus, aquisgranensis, assimilis, atramentarius, australis, bituberculatus, borealis, brachialis, brevis, brunnicornis, caeruleus, carbonarius, carinulatus, coeruleovirens, coracinus, corvinus, cristatus, decoloratus, denticulatus, difficilis, discoideus, distinctus, dulcamarae, ebeninus, egenus, erythrope, exaratus, exilis, nbularis, flavimanus, flavipes, fuliginosus, fumata, funebris, gagathinus, haemorrhoidalis, hebes, incanus, kunzei, luctuosus, lugubris, lumbaris, maurus, melanarius, memnonius, moestus, morosus, murinus, nanus, nigra, nigrescens, nigricornis, nigrina, obscurus, obsoleta, ochropus, olivaceus, ovatus, palmatus, pedicularius, picipes, planiusculus, pumilus, quadridens, quadristriatus, rufipes, seniculus, serripes, solidus, subaeneus, subrugosa, substrigosus, tenebrosus, tristis, umbrosus, urticae, viduata, viridescens, xanthocerus. *Vide et Melygethes.*
- Melina** crassa, riparia.
- Melinaea** clara, egina, equicola, erysice, eunice, irene, lycaste, mneme, mopsa.
- Melinda** albiceps, azurea, caerulea, coelestis, gentilis, leucocera, soror.
- Melinopteris** angustatus, contaminatus, extensus, flavosgriseus, fulveolus, griseolus, incoloratus, indistinctus, marginalis, miser, obliquus, oblitteratus, prodromus, restrictus, semi-lunus.
- Meliornis** australasiana, longirostris, mystacalis, novae hollandiae, sericea.
- Meliphaga** albiventris, atricapilla, auricomis, aurita, australasiana, balgonera, brevirostris, caerulea, canescens, cardinalis, carunculatus, chrysocephala, chrysops, chrysoptera, chrysotis, cinnamatus, cincta, corniculatus, cratitia, crepitans, cyanops, dubia, erythronothos, fasciculata, flava, flavescens, flavigula, flaviventris, fulvifrons, fusca, garrula, goruk, graculina, guttata, ignobilis, indistincta, inornata, javensis, leucophaea, leucotis, lewini, limbata, longirostris, lunata, lunulatus, maculata, maxillaris, melanodera, melanoleuca, melanops, moluccensis, monacha, musica,

mystacalis, mystacea, novae hollandiae, ornata, penicillata, phrygia, pipilans, plumula, pyroptera, pyrrhotis, reticulata, reticuloides, rufiventris, rufogularis, samoensis, sanguinea, sannio, sericea, sericeola, sericola, sonora, subcorniculatus, tenuirostris, unicolor, versicolor, xanthotis. *Vide et Melli*→.

Meliphora alveariella.

Melipona aemula, amalthea, angustula, anthidioides, argentata, atrata, atratula, beecheyi, bicolor, bipartita, bipunctata, cilipes, citriperda, clavipes, cucullatus, curtula, diluta, duponti, elongata, fasciata, favosa, ferruginea, fuliginosa, fulva, fulvipes, fuscata, geniculata, grandis, hyalinata, interrupta, iris, lateralis, lineata, longula, marginata, minuta, mixta, mutata, nana, nigra, pallens, pallida, postica, pulla, quadrangula, quadrifasciata, quadripunctata, quinquefasciata, ruficrus, rufiventris, sant hilarii, scutellaris, scutellata, sexpunctata, testacea, testaceicornis, varia, vicina, vidua.

Melipotis cyllaris, jucunda.

Melisodera piceipennis.

Melissaia lecheguana.

Melisseus remifer.

Melissoda latreillei.

Melissodes fonscolombeii.

Melissophilus provencalis.

Melita palmata.

Melिताea (Coel.) astratea, cimotheoe*, cymothoe, ochracea, retifera, tarquinius, tenella, textiformis. *Vide et Melitea*.

Melिताea (Lep.) aegon, aetheria, agrotera, anicia, arduinna, artemis, asteria, athalia, britomartis, casta, chalcedona, cinxia, coccinea, cynthia, cytheris, deione, delia, dia, dictynna, didyma, didymoides, durga, eos, euphrosyne, flavia, fulla, hertha, ianthe, iduna, ismeria, latonigena, liriopoe, lucina, maturna, merope, morpheus, myrina, neera, nycteis, orientalis, parthenie, phaetaena, phaeton, phoebe, proclea, pyronia, rhodopensis, selenis, silene, teletusa, tessellata, thara, thymetus, trivialis, uralensis. *Vide et Melitea*.

Melitea (Coel.) brachyura, ochracea, purpurea, rissoi. *Vide et Melिताea*.

Melitea (Lep.) frisia, gaberti. *Vide et Melिताea*.

Melitheia athalia.

Melithreptus (A.) affinis, agilis, albicapillus, albicollis, albobularis, ater, atricapillus, brevisrostris, caeruleus, canescens, cardinalis, chloropsis, collaris, cucullatus, dibaphus, erythropygius, falcatus, flavicans, flavicollis, fuscus, gilvicapillus, gularis, guttatus, indistinctus, inornatus, lanceolatus, melanocephalus, melanooleucus, melanops, novae hollandiae, obscurus, pacificus, pipilans, pyrrhopterus, sanguinolentus, sannia, tenuirostris, validirostris, vestiaris, virens, virescens. *Vide et Melli*→.

Melithreptus (Dipt.) dispar, incisus, scriptus, taeniatus.

Melitoea australis.

Melitoma euglossoides.

Melitonoma decempunctata, epistomalis, fasciato-punctata, juvenca, lepida, litigiosa, maculigera, polysticta, sobrina, truncatifrons.

Melitta abdominalis, aerata, affinis, afzeliella, albicans, albiderus, albipes, angulosa, angustior, annularis, annulata, armata, atriceps, barbata, barbatula, barbilabris, binaculata, chrysosceles, chrysura, cineraria, cingulata, clarkella, coitana, collinsonana, combinata, connectens, contigua, convexuscula, cunicularia, cyanura, denticulata, digitalis, dilatata, divisa, dorsata, flavipes, fodiens, fulva, fulvago, fulvicornis, fulvicrus, fulvocincta, fuscata, fuscipes, geoffrella, gibba, gwynana, haemorrhoidalis, helvola, labialis, laevigata, laevis, lanifrons, lathamana, leucopus, leucozona, lewinella, listerella, lugubris, malachura, melanocephala, minuta, minutissima, minutula, monilicornis, morio, mouffetella, nana, nigriceps, nigroaenea, nitida, nitidiuscula, nudiuscula, obovata, ovacula, parvula, picea, picicornis, picipes, pilipes, pilosula, pratensis, proxima, pubescens, punctulata, quadricincta, quadrinotata, rosae, rubicunda, rufitarsis, satyriniformis, schrankella, seladonia, sexnotata, shawella, signata, smeathmanella, smithella, sphecoideus, spinigera, subdentata, subincana, succinea, swammerdamella, thoracica, tibialis, tricineta, tridentata, trimmerana, tumulorum, varians, villosula, wilkella, xanthopus, xanthura, zonalis.

Melittia anthedoniformis.

Melittobia audouini.

Melittophagus (A.) bullocki, bullockoides, erythropterus, gularis, hirundinaceus, sonnini, variegatus.

Meliturga fervens, oraniensis. *Vide et Meli* →.

Melizophilus dartfordiensis, melanocephalus, nigricapillus, provincialis, sardus, subalpinus.

Mellinia gilvago, pallego.

Mellinus arpectus, atratus, bifasciatus, cruentatus, dissectus, frontalis, fulvicornis, interruptus, petiolatus, pratensis, quadricinctus, quadrifasciatus, repandus, ruficornis, spinosus.

Meliphaga auricomis, fulahajo, scandens, sturnina, torquata. *Vide et Meli* →.

Mellisuga abeillei, aeneocauda, albicollis, albirostris, alexandri, amethysticollis, amethystina, amethystoides, anna, ater, audeneti, aurita, bifurcata, bilopha, bonapartei, caeligena, chalybea, clarissae, clemenciae, collaris, colubris, concinna, conradi, conversii, cornuta, costae, cristata, cupreocauda, cupripennis, cyanura, de latreii, duponti, en-ifera, ensipennis, exilis, exortis, falcata, fernandensis, flavescens, forficatus, fulgens, furcatus, galerita, gibsoni, glaucopsis, gouldi, gracilis, guerini, helena, helianthea, heliodori, heloisa, heteropogon, humilis, inornata, johannae, jourdani, kingi, lalandei, langsdorni, latipennis, leadbeateri, leucocrotaphus, ligonicauda, lindeni, loddigesi, longicauda, longirostris, lucida, ludoviciae, lutetiae, macrourus, magnifica, matthewsi, maugana, melanogenys, melanoleuca, mesoleucos, microrhyncha, minima, mirabilis, mitchelli, montana, mulsanti, naevia, ornata, orthura, ourissia, parzudaki, petasophora, phaon, phoebe, pileatus, platura, platycerca, polytmus, popelairei, prunella, recurvirostris, reginae, regulus, rhami, rosae, rubinea, rubinoides, rubra, rupeus, rufocaligata, sabiniae, sapphirina, scutata, smaragdnicollis, smaragdinus, smaragdosapphirina, sparganura, spencei, squamosa, stokesi, strophiana, superba, surinamensis, temminckii, torquata, tyrianthinus, underwoodi, victoriae, vieilloti, violifera, violifrons, williami, wilsoni.

Mellita ampla, caroliniana, hexapora, lobata, nummularia, quinquefora, similis, testudinata.

Mellithreptus olivaceus. *Vide et Meli* →.

Melliturga clavicornis. *Vide et Meli* →.

Mellivora ratel.

Melo aethiopicus, armata, broderipi, diadema, miltoni, mucronatus, nauticus, tessellatus, umbilicatus.

Melobasis chrysobapta, hypocrita, insularis, prisca, tibialis.

Melobesia exasperata, farinosa, mamillaris, membranacea, pustulata, radiata, verrucata.

Melocrinites amphora, fornicatus, geroldsteinensis, gibbosus, hieroglyphicus, laevis, pyramidalis, verrucosus.

Melocrinus caelatus, dactylus.

Melodes (A.) calliope.

Melodes (Lep.) arcuana, leidsduvaliana.

Meloe aegyptius, aenea, affinis, africanus, americana, andensis, angulatus, angusticollis, argentata, autumnalis, balteata, bilineata, cancellatus, cavensis, cephalotes, chiliensis, cicatricosus, collegialis, conferta, corallifera, cordillerae, coriaria, crocata, cyanea, cyanella, decora, elongata, erythrocnema, exarata, excavatus, fascicularis, foveolatus, zalica, geminata, glabrata, granularis, hermanniae, humeralis, impressa, incerta, indicus, insignis, klugi, laevipennis, laevis, laticollis, lefevrei, limbata, lobata, luctuosus, maculifrons, marginalis, marginatus, megacephalus, miniaceomaculata, monoceros, murinus, nana, nigra, nigrita, olivieri, parvicollis, plicatipennis, podalirii, praeusta, proscarabaeus, punctatoradiatus, punctatus, punctum, purpurascens, pygmaeus, reticulata, rufiventris, rufofemorata, rugipennis, rugosus, rugulosa, sardous, sauleyi, scabriuscula, scabriscula, scabrosa, scabrosus, semi-punctata, similis, sulcicollis, taurica, tecta, variegata, variegatus, variolosus, violacea, violaceus.

Melogale fusca, personata.

Meloides pustulatus, stenopterus.

Melolontha abdominalis, abbasica, aceris, advena, aenea, aeruginosa, agnellus, alba, albida, alopes, altaica, amazona, analis, angularis, angustata, annulata, antiqua, aphodiina, appendiculata, aprilina, arthritica, astrolabei, aulax, aurata, aurentula,

australis, autumnalis, badia, balia, bi-carinata, bidens, biguttata, bilineata, biliterata, bimaclata, binotata, bipartita, bi-signata, bivulnerata, boops, boryi, brasiliana, bromicola, bruchiformis, brunnipennis, brunnipes, caffra, campestris, canina, capicola, carinata, caspica, castanea, castanea, caucasica, chinense, chiensis, chlorotica, chrysochlora, cicatricosa, cinnamomea, clypeata, colaspidoiles, compressa, compressipes, conspurcata, coriacea, coronata, corticina, crassa, crenata, crenulata, cribrata, crinicolis, cuprasens, cuprea, cyanipennis, cylindrica, dalmanni, decemlineata, decora, dentata, dichroa, dimidiata, discicollis, discoidea, elongatula, emarginata, ephillida, falleni, femorata, ferrugata, fervens, filitarsis, flaveola, flavescens, flavicans, flavicornis, flavida, flavistriata, forströmi, fraxinicola, frondicola, fucata, fuliginosa, fulva, fulvicornis, furva, fuscipennis, gebleri, geminata, georgiana, gibbosa, gibbulosa, graminicola, grassatrix, greithiana, gröndahli, haemorrhoea, henningi, heterodactyla, hexagona, hippocastani, hirsuta, hirticula, hirtiventris, hirtula, hispanica, hispida, hottentotta, hybrida, hypocrita, hypoleuca, ictérica, ilicis, immutabilis, impexa, imputata, indica, integra, iricolor, irregularis, irrorata, junii, knochi, lactea, laeta, lanata, lanceolata, lateralis, latitarsis, leucophthalma, liberta, limbatipennis, linearis, longicollis, longitarsa, longitarsis, lucida, luctuosa, lugubris, lusitanica, lutescens, macrophylla, macrotarsa, maculicollis, mamillarum, marginalis, maritima, marmorata, mauritanica, megacephala, melanictera, melanogaster, melanophthalma, melis, meridionalis, metallica, micans, militaris, minima, moesta, monticola, mucida, mucorea, mucronata, murina, mutata, nana, nigra, nigricans, nigricollis, nigricornis, nigripes, nigrocephala, nitida, nitidula, notata, nummucudens, oblita, obscura, occidentalis, ochracea, olivacea, olivieri, opaca, orcyi, orientalis, paleola, pallescens, pallidula, palpalis, papposa, paradoxa, pectoralis, pellita, penicillata, petiti, pexa, picea, pilicollis, pilifera, pilosella, pilosicollis, pilosula, polyphaga, porcata, porcina, porosa, porulosa, praeambula, pruinosa, puberea, pubescens, pulla, pulvereola, pulverosa, quadrimaclata, quercicola, quercina, quercus, radiata, retusa, rhenana, ridens, rorea, rorida, rubetra, rubiginosa, rufescens, rufipennis, rufipes, rustica, saginata, scarabaeina, semi-rufa, semi-virens, senegallia, sepicola, sericans, sericea, serrata, sericollis, serrulata, setifera, setigera, sordida, spinipennis, splendens, splendidula, stilbophora, strigata, strigosa, sub-emarginata, sulcata, sulcicollis, surinama, tenebroides, terminata, tetrastigma, thoracica, tibialis, totta, transversa, tropica, tuberculata, unifasciata, valida, varicolor, variegata, variolosa, ventricosa, verna, vernalis, vespertina, vetula, vicina, villicornis, villosula, virens, virescens, viridis-aenea, viridiaurata, volgensis, vulpina, ypsilon, zuckowii.

Melolonthites aciculata, deperdita, kollari, lavateri, parschlugiana.

Melongena alveata, armigera, crassicornuta, fasciata, occidentalis, rusticula.

Melonia bosci, costulata, fortisi, spherica, spherioidea.

Melonis etruscus.

Melonites multipora, sphaerica.

Melonithes obsoleta.

Melophaga antilopes, trifasciata.

Melophagus cervi, depressus, hirtella, moschi, ovina.

Melophus erythropterus, lathamii, melanicterus.

Melopsittacus undulatus.

Melorchus annulata, corni.

Melozia villosipes.

Melucha lineicollis.

Melygethes subcastaneus. *Vide et Meligethes.*

Melyris andalusia, ater, bicolor, bonplandi, caeruleus, corrosa, cyaneus, festiva, fulvipes, fuscula, granulata, laeta, nigricornis, nobilis, oblongus, olivaceus, pallipes, pectoralis, quadritaeniata, rubripennis, rubripes, tereticollis.

Membracis abdominalis, albidorsa, albimaclata, altissima, ambigua, ampelopsidis, antica, arquata, atomaria, atrata, belligera, bicristata, binotata, bubalis, Caalum, calva, camelus, carbonaria, carinata, carvata, centralis, cinicoides, cingulata, clavata, compressa, concava, concolor, confusa, cornuta, coronata, cruentata, cucullata, cultrata, decipiens, decorata, diceros, dorsata, elevata, ensata, exaltata, festina, flavicincta, foliato-fasciatus, fornicata, fulica, fusca, galeata, geminata, genistae,

gladius, globus, goniphora, gracilis, inaequalis, inanis, inornata, intermedia, involuta, jaculus, lateralis, latipes, lefebvrei, leuconica, maculosa, malleonotata, marmorata, melana, melanogramma, mera, mexicana, militaris, minans, monoceros, monstrosa, monticola, nigrovittata, nimbata, nesus, nodosa, nutans, obliqua, oblecta, obtegens, obtusa, olivacea, ophthalmica, pallens, paradoxa, periphaeria, peruviana, picta, poecila, pugionata, pusio, quadrivittatus, quinque-maculata, rosea, rufiventris, sagittata, sanguinolenta, semicrema, signata, sordida, solida, subulata, tartarea, teligera, torva, triangulatum, tricolor, tricotata, trilineata, trimaculata, truncata, tuberculata, vaginata, vau, venosa, xanthocephala, xiphias, zonata.

Membranipora affinis, alveolata, antiqua, bipunctata, cenomana, corrugata, crassidentata, crista, cyclostoma, dentata, diadema, eschinata, hexagonalis, irregularis, ligeriensis, megapora, membranacea, nobilis, normaniana, ostiolata, peachi, philostracites, pilosa, reticularis, reticulata, reticulum, simplex, spinosa, spongiosa, stellata, subrotunda, telacea, tenera, tenuis, unicornis, velamen, vendinnensis.

Memmina indica.

Memphis basilica, odilia.

Memythrus crabroniformis, crassipes, tibialis, vespiformis.

Menaccarus piceus.

Menaethius diadema, incisus, monocera, porcellus, quadridens, suberratus, tuberculatus.

Menaspis armata.

Mendosoma caerulescens, fernandezianus, lineatus.

Mene anna-carolina, maculata.

Menederes rufilabris.

Menelaides agavus, alphenor, ascanius, bunichus, chiroadamas, demetrius, hector, polydorus, polytes, romulus, thesaur.

Menemachus naevius.

Menenotus lunatus, unicolor.

Meneris tulbaghia.

Menestho albula.

Menetia greyi.

Menipaea flosa.

Menipea cirrhata, flabellum, floccosa, hyalaea.

Menipha brunnea.

Menippe affinis, cumingi, hardwicki, martensi, parvulus, quadridens, signata.

Menobanchus lateralis, punctatus, sayi, tetractylus.

Menodon phicatus.

Menodus giganteus.

Menoethius porcellus.

Menoethius antropunctatus, aurifer, brevirostris, cuneiformis, curvipes, decorus, humilis, lateralis, marginatus, marmoreus, modestus, morbidus, pulverens, punctatus, punctum, rutilans, striga, valgis, viridulus.

Menophyllum tenui-marginatum.

Menopoma alleghaniensis, fusca, japonicus.

Menopon carduelis, citrinellae, cucullare, eurysternum, fulvo-maculatum, fusco-cinctum, giganteum, gonophaeum, icterum, leucoxanthum, lutescens, mesoleucum, nigro-pleurum, pallidum, perdicis, pici, ridibundus, scopulacorne, sinuatum, stramineum, strepsilae, transversus, tridens, troglodyti.

Menoscelis glauca, insignis, saginata.

Mentagrana vittata.

Mentaxya muscosa.

Menura alberti, hollandiae, paradisea, superba.

Mephitis africana, amazonica, americana, bicolor, castaneus, chilensis, chinga, chingha, conepati, dimidiata, feuillei, foeda, foetidissima, furcata, gumillae, interrupta, javanensis, leuconota, macroura, mapurito, mephitis, mesoleuca, mesomelas, mexicana, molinae, myotis, nasuta, olida, patagonica, putida, putorius, quitensis, striata, suffocans, varians, vittata, vulpecula, zorilla.

Meracantha canadensis.

Meraporus alatus, atium, exiguus, granulicola.

- Mercenaria** violacea.
- Merdigera** alpius, assimilis, montanus, obscurus.
- Meretrix** labiosa.
- Merganetta** armata, chilensis, colombiana, leucogenys.
- Merganser** albellus, caeruleus, castor, cucullatus, major, minutus, serrata, servator.
- Mergoides** rufo.
- Mergulus** alce, alle, antiquus, arctias, cassini, cirrocephalus, melanoleucos.
- Mergus** anataris, australis, brasilianus, brasiliensis, caeruleus, cristatus, epaumopherus, furcifer, fuscus, lomvia, naevia, niger, nigricollis, octosetaceus*, orientalis, ronconi, rubecula, septentrionalis, troile, variabilis.
- Meria** abdominalis, collaris, costata, dichroa, dimidiata, klugi, latreillei, marginata, millefolii, nitidula, rufifrons, rufiventris, sexpunctata, spinolae, thoracica, tripunctata.
- Meriania** borealis, capensis, silvatica.
- Mericia** erigonea.

- Meromyza** bipunctata, femorata, incrassata, laeta, nigriiventris, pratorum, pusilla, saltatrix, variegata, viridula.
- Meroncidius** obscurus.

Meropachus buqueti, dorsiger, nigricans, subluridus.

Meropachys (Col.) macleayi, tristis, virescens.

Meropachys (Hem.) gracilis, integer, lunatus, sericans, variolosus.

Merope tuber.

Meropogon forsteni.

Meroporus concinnus.

Merops albicollis, albifrons, amictus, athertoni, auritus, azuror, bicolor, bullockoides, bullocki, caeruleus, caeruleocephalus, californiensis, carunculatus, chrysolaimus, chrysopterus, citrinella, collaris, cucullatus, cuculligera, cuvieri, cyanogaster, cyanogularis, cyanops, cyanopygius, cyanorrhos, cyanotis, daudin, eupogon, ferrugiceps, figulus, flavescens, flavicollis, furcatus, garrulus, glandarius, hirundinaceus, hungariae, icterocephalus, javanicus, lafresnayei, lamark, lechenaud, lefebvrei, leschenaulti, longicauda, malimbicus, melanops, melanurus, minus, minutus, monachus, nirundinaceus, novae hollandiae, nubicoides, olivaceus, orientalis, ornatus, phrygius, picatus, puella, quinquicolor, ruficapillus, ruficollis, samoensis, savignyi, scandens, senegalensis, subcorniculatus, sublineatus, sumatranus, taiva, tartaricus, tawa, tenuipennis, thouini, torquatus, typicus, urica, variegatus, viridissimus.

Meroscelisus violaceus.

Merostenus phedyma, sadales.

Merothaelacium margaritiferrum, nasutum.

Merria cancellata.

Mertensia compressa, elliptica, ovum, scoresbyi.

Merula albicincta, alpestris, alticeps, atra, atrogularis, atro-sericea, boulboul, brachypus, brachyurus, carniolica, castanea, collaris, cyanea, euryzona, flavirostris, fuliginosa, hortensis, iliaca, infusata, jamaicensis, leucogaster, leucogenys, leucophthalma, libonyana, litsitsirupa, ludoviciana*, minor, montana, musica, mustelina, nestor, nigra, nigropileatus, nigropileus, nivicollis, obscura, olivacea, olivatra, pilaris, pinetorum, richardsoni, rosea, saltator, saxatilis, silens, sinensis, simillima, solitaria, torquata, tristis, truncorum, viscivora, vulgaris, wilsoni.

Merulaxis analis, ater, grisei-collis, orthonyx, rutilus, senilis, squamiger.

Merulina ampliata, crispa, folium, laxa, regalis, rigida, scabricula, speciosa.

Merva jerdoni.

Merycoidodon culbertsoni.

Merycopotamus dissimilis.

Merycotherium sibiricum.

Meryx rugosa.

Mesagroicus obscurus, occipitalis, piliferus.

Mesalia brevis, lactea, melanioides.

Mesalina lichtensteini, pardalis, rubropunctata.

Mesapus fasciatus.

Meseides newarensis.

Mesembrina intermedia, latreillei, meridiana, mystacea, quadrilineata, resplendens.

Mesembrynus brizae, erythrus, minos, pluto, punctum, rubicundus, scabiosae.

Mesene phareus, telephus.

Mesenteripora dedalea, michelini, scobinula.

Mesia argentauris.

Mesites (A.) unicolor, variegata.

Mesites (Col.) cunipes, pallidipennis.

Mesites (P.) alpinus, attenuatus, maculatus.

Mesobema cancrivora.

Mesocelis monticola.

Mesocena binonaria, bioctonaria, diodon, elliptica, heptagona, octogona, spongolithus.

Mesocera flavicornis.

Mesocheira azurea, bicolor, ornata, velutina.

Mesocheirus sericeus.

Mesochorus alarius, ater, atricilla, basal, brevipedatus, cimbicis, complanatus, contractus, dilutus, fulgurans, fuscipennis, lucifer, olerum, pectoralis, politus, rufus, scutellatus, sericans, splendidulus, splenium, sylvarum, testaceus, thoracicus, tipularius.

Mesocia pusilla, semois.

Mesoclastus armatus, maximiliani, paradoxus.

Mesodeca bartrami.

Mesodesma arcata, castanea, chemnitzii, complanata, cornea, cuneata, cycladea, deaurata, denticulata, diemenensis, donacia, donacilla, erycinaea, exiguum, gaymardi, germari, glabrata, glabrella, jauresi, lata, munda, ornata, planum, quoyi, solenoides, striata, subtriangulata, trigona, triquetrum, ventricosa.

Mesodon maculatum.

Mesogaster gracilis, sphyraenoides.

Mesogona acetosellae, oxalina.

Mesogramma lineolata.

Mesographe asinalis, forficatus, institalis, politalis, praetextalis, strumentalis, triquetralis.

Mesoleptus albicruris, albitarsus, albolineatus, annulator, annulatus, antilope, arridens, atomator, bicingulatus, biguttulus, bipunctatus, cerinostomus, chrysostomus, cinctulus, cingulatus, coxator, decipiens, defectivus, delusor, evanialis, exornatus, facialis, filicornis, flavopictus, flavovariegatus, fortipes, fugax, fulvipes, fuscicornis, geniculosus, gracilipes, gracilis, griseus, hilaris, indefessus, infernalis, laetus, laevigatus, larvator, leptocerus, leucostomus, limitaris, luridator, luteolator, maurus, melanocephalus, mirabilis, modestus, montanus, mundus, narrator, nemoralis, pallidus, pectoralis, petiolaris, prosouleucus, quadriannulatus, regeneratus, rubicornis, rubinus, rubiventris, rufocinctus, rufoniger, seminiger, sericeus, sordidus, speciosus, spheginus, splendens, sponsorius, sternoleucus, sticticus, subcompressus, submarginatus, suborbitalis, sulphuratus, tener, teredo, testaceus, trimaculatus, typhae, variator, ventralis, ventrator, vitratorius, waltoni, xanthopsanus, xanthostigma.

Mesoleuca adusta, adustata, albicillata, filicata, procellata, rubiginata, sinuata.

Mesomorpha cavearia, coromandra, nivicola.

Mesomphala acuminata, acuta, adpersa, aenea, albida, ampliata, anceps, areolata, assimilis, atrofasciata, atroguttata, atrorubra, bicolorata, bilineata, bioculata, bipustulata, blanda, brachiata, brevicollis, caeruleonotata, caerulescens, caudata, chalcoptera, chalybea, chevrolati, confusa, congener, consobrina, conspersa, cribrum, cruentata, cyanea, decemguttata, decussata, delecta, denudata, difformis, dilatata, dimidiata, discoidea, discoides, discors, dissecta, diversa, elegans, elocata, ephippium, evanida, exclamationis, extricata, fasciculata, fastuosa, festiva, flavipennis, flavoguttata, flavomaculata, flavosignata, floccosa, fossulata, fuebris, gentilis, gibbosa, glabricollis, godeti, goryi, haematina, ignita, illustris, implexa, impluviata, inaequalis, incarnata, indigacea, induta, inornata, jucunda, kollari, lacordairei, lacunosa, lata, lateralis, lebasii, lenis, lineata, lineatocollis, luteipennis, maculatissima, mannerheimi, mellyi, misella, modica, nitidula, nudicollis, oblita, obsoleta, pallidoguttata, pertusa, picturata, plagiata, plagicollis, pleurosticha, plumbea, primaria, punicea, pyramidata, quadraticollis, quadriplagiata, quatuordecimsignata, redtenbacheri, reticularis, retipennis, rubescens, rubroplagiata, rufosignata, schauini, scoparia, scrobiculata, serinus, sexlineata, sexmaculata, sexplagiata, sexpustulata, sexsignata, silbermanni, similata, sodalis, sommeri, sublaevis, subnotata, subreticulata, subrugosa, suspiciosa, suturalis, textilis, thalassina, tigrina, tomentosa, tristigma, tumidula, tumulus, turrita, varians, variolaris, verecunda, vetula, vicina, vidua, vulnerata.

Mesomphala pictilis.

Mesomphix laevigata, planorboides, virginalis, walkeri.

Mesomyia decora.

Mesomys ecaudatus.

Mesonema abbreviata, caelum pensile, coerulescens, dubium, macrodactyla, pileus.

Mesonychium caerulescens.

Mesopachys marina.

Mesophalacrus spinolae.

Mesophila fuscipennis.

Mesophleps genistella, silacella.

Mesophysa marginata, scapularis.

Mesopicos cecili, desmuri, fumigatus, goertan, kirki, passerinus, sanguineus.

Mesopithecus pentelicus.

Mesoplia azurea.

Mesoplodon sowerbyensis.

Mesopolobus fasciventris.

Mesoprion albosaureus, analis, annularis, argyreus, auro-lineatus, aurovittatus, aya, bahiensis, buccanella, caroni, carponotatus, caudalis, chirtah, chrysurus, cyanopterus, cynodon, decussatus, emeryi, enneacanthus, erythrognathus, erythropterus, etaape, flavescens, flavipinnis, fulgens, fuscescens, gembra, goreensis, griseus, hoteen, im-maculatus, isoodon, jocu, johui, linea, lineolatus, litura, lunulatus, lutjanus, madras, mahogoni, malabaricus, monostigma, myriaster, octolineatus, olivaceus, pargus, phaioaeniatus, quinquelineatus, rangus, retrospinis, ricardi, rubellus, russelli, sanguineus, sebae, semicinctus, sillao, sobra, striatus, taeniops, uninotatus, vitta, vivanus, xanthopterygius, yapilli.

Mesops abbreviatus, crenulatus, dorsalis, gracilis, pedestris.

Mesoptilus apicalis.

Mesosa bigilbera, curculionoides, jasonis, nebulosa, nubila, sericea.

Mesosemia antaerice, capanea, coea, ephyne, eumene, gneris, gonduta, halmus, hiphia, icare, lagora, minus, mnesinoe, odice, osinia, philema, philoclessa, rosina, tenera, thymete, traga, ultio.

Mesosoma mediterraneum.

Mesospheniscus cuneifer.

Mesostena costata, elegans, klugi, laevicollis, oblonga, punctata, puncticollis, punctipennis.

Mesostenus albinotatus, albipes, albispinis, annulipes, bilineatus, bipartitus, capitator, compressicornis, crassicornis, crassipes, dimidiatus, dorsalis, dorso-striatus, emarginatus, ferrugineus, ferrum, flavofasciatus, funebris, geniculatus, gladiator, grammicus, gravenhorsti, grossipes, inflatus, leucopus, leucozonus, ligator, literatus, lituratus, longicauda, luctuosus, maculicollis, marginatus, melanoleucus, nigriceps, nigroscutellatus, niveatus, notatus, obnoxius, ochropus, physocnemis, physoscelus, platyrus, posticus, pygostolus, quadri-lineatus, rufoxis, sartor, seductor, semirufus, spinarius, spinifrons, suturalis, terminalis, tibialis, transfuga, tricolor, trilineatus, tripartitus, tuberculatus, variegatus, varipes, varus, vesiculosus, xanthomelas, xanthopus, xanthothorax.

Mesostoma ehrenbergi, viridatum.

Mesostomum bistrigatum, fusiforme, lingua, personatum, pusillum, radiatum, strigatum, tetragonum.

Mesotopus tarandus.

Mesotrichia torrida.

Mesotrocha sexoculata.

Mesotropis albipes.

Mesotype chenopodiata, lineolata, lithoxylata, parallelaria, polygrammata.

Mesplia globulus.

Messa hortulana.

Messala saundersi.

Messarar alcippe, erymanthis.

Messorus brunneus.

Mestogaster crassicornis.

Mestorus adumbratus.

Mestra hypermestra.

Mestyrites ceratodes, cruciata, perforata.

Meta cellulana, hispida, muraria, schuchi, tigrina.

Metabletus obscurusguttatus, quadripunctatus.

Metacanthus (Cr.) stellifer.

Metacanthus (Hem.) elegans.

Metachroma canella, melanura, quadrinotata, thoracicus.

Metachrostis par, perla, velox.

Metadupus apicatus, nodatus.

Metalectra neglectalis, praecisalis.

Metalleutica violacea, vitripennis.

- Metallina** angusticollis, armeniaca, bisulcata, caucasica, celere, daurica, difformis, elevata, grapei, lampros, laticollis, lithuanica, longicollis, militaris, nigricornis, oblonga, palpalis, planicollis, plumbea, seriata, substriata, velox.
- Metallites** ambiguus, amoenus, atomarius, cylindricollis, elegantulus, globosus, mollis, murinus, tibialis.
- Metallon** acacallis.
- Metallonotus** denticollis.
- Metallophilus** interruptus.
- Metallopsis** cayennensis.
- Metallosetia** hieronella, spissicornis, trifolii.
- Metallura** aeneocauda, alardi, eupreocauda, smaragdinicollis, tyrianthinus, williami.
- Metallyticus** splendidus.
- Metamorphia** dido, elissa, sthenole.
- Metanastria** aconyta, hyrtaca, rubi.
- Metapelma** spectabilis.
- Metapoceros** cornuta.
- Metapocirtus** listatus.
- Metapodius** angustipes, apicalis, bi-pinus, compressipes, consobrinus, equalis, gemmifer, indicus, nigricans, obscurus, tenuicornis, unicolor.
- Metaporhinus** gueymardi.
- Metaporus** concinnus.
- Metaptera** diaphana, lasmabrachys, megaptera.
- Metascelis** flexilis.
- Metastemma** guttula, quinquemaculata.
- Metastenus** concinnus.
- Metaxmeste** holosericealis, phrygialis, ruficollis, sericealis.
- Metaxyja** aquilina, fuliginea, obelisca, ocellina, polygona, rectangula, recussa, tritici, vitta.
- Metaxymorpha** grayi.
- Metaxymorphus** frenatus, goryi.
- Metaxytherium** beaumonti, brocchii, christoli, cordieri, cuvieri, guettardi.
- Metazycera** purpurata, trimaculata.
- Meteorus** atrator, fulvifrons, pectoralis, pendulator.
- Methoca** bicolor, caecilia, fornicaria, ichneumonoides, poeyi, sanvitali.
- Methocha** articulata.
- Methona** themisto.
- Metis** ignea.
- Metius** harpaloides, splendidus.
- Metoecus** kroyer, medusarum, paradoxus.
- Metonites** okeni.
- Metonius** ovatus, purpureus.
- Metopachia** dispar.
- Metopia** (A.) galeata.
- Metopia** (Dipt.) agilis, amabilis, apricans, argentata, argyrocephala, aurifrons, biseriata, blanda, borealis, campestris, carceli, collaris, concinnata, convexinervis, cuculliae, cylindroidea, distincta, fasciata, fastuosa, flavescens, flavipennis, gagatea, hirsuta, imperatoria, laeta, leucocephala, leucomela, macquarti, melanopsis, mesomelaena, minuta, muscaria, nasuta, nitida, noctuarum, paludipalpis, pavidia, peridia, petiolata, philanthi, rapida, rubricornis, rubrifrons, separata, sinuata, testacea, tincta, vernalis.
- Metopias** (Col.) curculionoides.
- Metopias** (Cr.) aries, coniceps, huebneri, verrucosus.
- Metopias** (R.) diagnosticus, typhlops.
- Metopidia** acuminata, lepadella, triptera.
- Metopidius** aenea, africana, albinucha, gallinaceus, indicus.
- Metopina** galeata.
- Metopius** (Hym.) anxius, bellatorius, circumcinctus, connexorius, cordiger, dentatus, dissectorius, fuscipennis, intermedius, leiopygus, necatorius, pinatorius, sicarius.
- Metopocoilus** maculicollis.
- Metopodontus** downesi.

- Metopodus** badius, fulvitaris, latipes.
Metopon (Col.) suturalis.
Metopon (Hym.) atrum, deiphon.
Metoponia (Dipt.) rubriceps.
Metoponia (Lep.) flavida.
Metopsilus celerio, elpenor, nerii, porcellus, tersa.
Metoptoma dubia, elliptica, imbricata, oblonga, pileus, rugosa, siluricum, solaris, speciosa, sulcata.
Metra pennaria.
Metria encelade, euristeia.
Metridium concinnatum, dianthus, muscosum, plumosa, praetextum, rhodostomum.
Metriophyllum bouchardi.
Metriopus favosus, hofmanseggii, nassatus.
Metriorhynchus (R.) geoffroyi, priscus.
Metrius contractus.
Metrocampe fasciaria, honoraria, margaritaria, prasinaria.
Metrodira subulata.
Meyeria magna, magnevillei, ornatus.
Mezium sulcatum.
Miana aethiops, fasciuncula, furuncula, humeralis, latruncula, literosa, minima, rufuncula, strigilis, terminalis.
Miarus campanulae, graminis, linariae, nasturtii.
Miccotrogus capucinus, cuprifer, picirostris.
Micetophagus glomerata, grandis, imperialis, ruficollis, signatipennis, tritoma. *Vide et Mycetophagus.*
Michelinia antiqua, compressa, concinna, convexa, favosa, tchihatcheffi, tenuisepta.
Michogaster femoralis, fornicaria, ichneumoneus.
Michotamia analis.
Michthisoma heterodoxus.
Micippa bicaratus, cristata, philyra, thalia.
Micippe platipes.
Mico argentatus, breviceps, californicus, cinereus, dorsigera, elegans, lanigera.
Micoureus murinus, tricolor.
Micra (Dipt.) trixina.
Micra (Lep.) concinnula, elychrysi, marginula, minuta, ostrina, parva, paula, purpurina rosina, viridula.
Micrabacia coronula.
Micradelus rotundus.
Micraeca fascinans, flavigaster.
Micalymma brevilingue, brevipenne, johnstonis.
Micrantereus anomalus.
Micraptoma signis.
Micraspis gebleri, phalerata.
Micraster acuminatus, acutus, amygdala, aquitanicus, arenatus, beaumonti, brevior, breviporus, brevis, brevisulcatus, bucardium, bucklandi, bufo, canaliferus, coranguinum, corbovis, cor-testudinarium, cordatus, deshaysi, distinctus, edwardsi, fossarius, gibbus, globosus, goldfussi, helveticus, lacunosus, latus, major, matheroni, michelini, minimus, munchisoni, polygonus, prunella, pulvinatus, renouxi, rostratus, semiglobus, subacutus, subconicus, suborbicularis, toxasteroides, trigonalis, tropidotus, undulatus, ungula.
Micrastur brachypterus, concentricus, guerilla, xanthothorax.
Micrauchenus lineola.
Micrellytra apterus, fossularum.
Micriphantes rufipalpis.
Microblepharis menestriesi.
Microcanthus strigatus.
Microcephalophis gracilis.
Microcephalus depressicollis.

- Microcera** (Col.) inflata.
Microcera (Dipt.) rostrata.
Microceras inornatus.
Microcerus angusticollis, besckei, cretaceus, dregei, griseus, idolum, inaequalis, retusus.
Microchaerus crinaceus.
Microchaetes scoparius, sphaericus.
Microcheila picea.
Microcheles armata.
Microchilus lineatus.
Microchirus lingula, lutea.
Microcleptes aranea.
Microcodon clavus.
Microcolaptes abnormis.
Microconchus carbonarius.
Microctonus barbiger, bicolor, boops, clavicornis, claviventris, deceptor, oethiops, rutilus, terminatus, vaginator, vernalis.
Microcygna coromandeliana, girra.
Microcyphus girardi, maculatus, rousseaui, versicolor, zigzag.
Microcystis amoenula, filiceti, ornatella, pellicula, pictella, trifasciella.
Microdactylus (A.) marcgravei.
Microdera campestris, convexa, coromandelensis, deserta, globithorax, globulicollis, gracilis, lucida, pygmaea, servillei, sublunata.
Microderes robustus.
Microderus petreus.
Microdon (Dipt.) agapenor, anthinus, apiformis, aurifex, aurulentus, bidens, cyaneus, euglossoides, fulgens, fuscitarsis, globosus, bistrio, instabilis, latipes, limbatus, micans, mutabilis, punctulatus, scutellatus, splendens, stilboides, superbus, varus.
Microdon (L.) bellastrata.
Microdon (P.) abdominalis, analis, elegans, gigas, hexagonus, notabilis, nuchalis, occipitalis, platurus, radiatus, trigonus.
Microdonta (Col.) apicicornis, dilatata, elongata, pini.
Microdonta (Lep.) albidula, bicolora.
Microdoris aquilus.
Microdus abscissus, affinis, angulipes, annulator, conspicuus, delusor, dimidiator, gloriator, gloriatorius, laevigator, linguarius, mediator, nitidulus, obscurator, pumilus, punctulator, rufipes, rugulosus, thoracicus, tuberculatus, tumidulus, varicoxis.
Microeca assimilis, macroptera.
Microgaster abdominalis, adjunctus, affinis, albipennis, alvearifex, alvearius, amentorum, americanus, analis, annularis, annulipes, anomalon, anthomyiarum, aphidium, ardeaepenellae, arenarius, atrator, auriculatus, bicolor, bistigmata, blancardellae, brevicornis, breviventris, cajae, calceatus, callidus, calliptera, canaliculatus, candidatus, carbonarius, carpata, circumscriptus, ciron, congestus, congregata, coniferae, connexus, consularis, contaminatus, contextus, configua, costatus, crataegi, cruciatus, cyzicus, decorus, deprimator, difficilis, dilectus, dimidiatus, dorsalis, elegans, emarginatus, ensiformis, ensiger, equestris, euphorbiae, evonymellae, exiguus, exilis, falcatus, femoralis, flavilabris, flavipalpis, flavipes, flavolimbatus, formosus, fossulatus, fulciger, fuliginosus, fulvicornis, fulvipes, gagates, gastropachae, germanus, globatus, glomeratus, gracilis, gregarius, hilaris, hoplites, immus, impressus, impurus, inclusus, infimus, infumatus, ingratus, insidens, intercus, intricatus, juniperatae, lacteipennis, lacteus, laevigatus, laevissimus, lateralis, linearis, lineipes, lineola, liparidis, lividipes, longicauda, luctuosus, maculata, majalis, marginatus, marginellus, mediator, melano-scelus, mellipes, meridianus, messorius, minutissimus, necator, niger, nigricans, nigripes, nigriventris, nitidulus, obscurus, ocellatae, ochrostigma, ordinarius, parasitellae, perspicuus, picipes, pieridis, placidus, popularis, posticus, praepotens, praetextus, pubescens, punctiger, reconditus, rubripes, ruficornis, rufilabris, rufipes, rugosus, rugulosus, russatus, scapularis, semicircularis, sericeus, sessilis, sodalis, solitarius, sordipes, spectabilis, spinolae, spurius, stellatarum, stigmaticus, sub-completus, subcutaneus, subfasciatus, tenebrosus, tibialis, tortricis, triangulator,

- tristis, tuberculatus, tuberculifer, umbellatarum, unicolor, vestalis, viminetorum, vinulae, vitripennis, xanthostigma, xyliua, zonaria.
- Microglena** monedina, punctifera, volvocina.
- Microglossum** ater, goliath.
- Microglossus** alecta, aterrimus.
- Microhyla** achatina.
- Microlabis** sternbergi.
- Microlarinus** rhinocylloides.
- Microlepis** exilis, lepidus, undulata.
- Microleptes** splendidulus.
- Microlestes** (Col.) exilis, inconspicuus.
- Microlestes** (M.) antiquus.
- Microlestia** oxygona, rugosopunctata, spinipennis, tabida.
- Microlophia** ignava.
- Microlophus** lessoni, peruvianus.
- Microma** flavoscutellata, iris, latipennis.
- Micromata** belletana.
- Micromelus** cyrene, pyrrhogaster, rufo-maculatus, silanus.
- Micromerus** uxor.
- Micrommata** argelasia, carolinensis, marmorata, ornata, pinicola, rosea, serrata, setulosa, sinaragdina, smaragdula, spongitaris, subinflata, undata.
- Micromus** lineosus, tendinosus.
- Micromya** incorum.
- Micromys** agilis, agrarius, anciciensis, ornatus, vagus.
- Micronisus** badius, francesi, gabar, monogrammicus, niger, soloensis, spheurus.
- Micronyx** caecus, chlorophyllus, cicus, cinereus, cyaneus, fallax, jungermanniae, reichei, variegatus.
- Micropachys** granosus.
- Micropalpis** oenanthae, rubiginosa, vulpina.
- Micropalpus** analis, assimilis, bicolor, borealis, brevigaster, consobrinus, distinctus, dorso punctatus, flavicans, fulgens, haemorrhoidalis, heraclaei, longipes, longirostris, macula, ornatus, peruvianus, piceus, rapidus, rubiginosa, ruficornis, rufipennis, rufiventris, sophia, speciosa, tessellans, vicinus, vittatus.
- Micropeltus** cingulata.
- Micropeplus** caelatus, costatus, fulvus, maillei, marietti, obtusus, porcatus, staphylinoides, sulcatus, tessera.
- Micropeza** atripes, cephalotes, corrigiolata, cynipsea, filiformis, fulgida, incisa, kawalli, lateralis, loripes, nitida, pallens, producta, punctum, pygmaea, thoracica, tipularia, vibrans, vivida.
- Microphisa** inamoena, irregularis, jucunda, regularis, suava.
- Microphor** crassipes, pusillus, velutinus.
- Microphora** fuscipes, tarsella.
- Microphorus** clavipes, drapetoides, elongatus, flavipes, velutinus.
- Microphthalma** nigra.
- Microphyllia** ataciana, corrugata, edwardsi, raulini, soemmeringi.
- Microphysa** myrmecobia, pselaphiformis, pselaphoides, testacea.
- Micropicos** canente, concretus.
- Microplectron** cambayensis.
- Microplia** agilis.
- Microplus** atratus, brevis, castanea, cinerascens, insignicollis, nemoralis, rugosa, strigatus, vittatus.
- Micropogon** (A.) aurovirens, boucieri, cayennensis, darnaudi, flavicollis, hartlaubi, peruvianus, rubrifrons, sulphuratus. *l'ide et Mycrogogon.*
- Micropogon** (P.) argenteus, lineatus, occipitalis, trifilis, undulatus.
- Micropora** coriacea.
- Micropos** longalis.
- Microps** (Hym.) rubi.
- Microps** (P.) furcatus.

- Microps (R.)** *ovalis*, *unicolor*.
Microptera (A.) *americana*.
Microptera (Dipt.) *nitida*.
Micropterix (Lep.) *mucidella*, *podivinella*, *pusilella*. *Vide et Micropteryx*.

Microterus *capreolus*, *petiolata*.
Microtherium *cartieri*, *concinnum*, *renggeri*.
Microtis *tuberculata*.
Microtoma (G.) *patula*, *persica*, *unicolor*.
Microtoma (Hem.) *echi*.
Microtomus *dubius*.

- Microtragus** senex.
Microtrichodes analis.
Microtropesa sinuata.
Microtypus wesmaeli.
Microura squamata, subluteoventris.
Microvelia pygmaea.
Microxylobius westwoodi.
Microzoum collare, fulvipes, rugulosum, tibiale.
Micrura fasciolata.
Micrurus spixi.
Micrus affinis, aterrimus, caesus, cordatus, depressus, discoideus, exaratus, excavatus, fulvescens, fuscus, lineatocollis, minimus, minutissimus, myrmecophilus, nanus, rugulosus, saxonicus, spencei, trisulcatus.
Micryphantes acuminatus, aequalis, alutacius, anthracinus, bicolor, bicuspidatus, caespitum, camelinus, crassipalpus, cucullatus, elevatus, erythrocephalus, flavipes, flavo-maculatus, fuscipalpus, galeatus, graminicola, hiemalis, hystricus, inaequalis, isabellinus, kochi, laminatus, longipalpus, longipes, lugens, ochropus, olivaceus, ovatus, pantherinus, phaeopus, punctulatus, rubens, rubripes, rurestris, sulculus, tessellatus, thoracicus, tibialis, villosus. *Vide et Micri*→.
Mictis cinctus, crucifera, dentipes, grossipes, protractus, sanctus, scutellatus, tenebrosus, valvus.
Mictopsichia hubnerana, renaudana.
Mictyris dellexifrons, longicarpus.
Miculia elegans.
Midas (Dipt.) annulicornis, apicalis, auripennis, basalis, bicolor, brevicornis, callosus, crassipes, dives, fasciatus, heros, interruptus, iopterus, leucops, longirostris, maculiventris, mystaceus, notospilus, pachygaster, parvulus, politus, rubiapex, rubidapex, rufipes, senilis, stenogaster, tibialis, tricolor, viduatus, virgatus, vittatus, waddelli.
Midas (M.) bicolor, chrysomelas, flavifrons, fuscicollis, labiatus, leoninus, mystax, nigricollis, oedipus, pileatus, rosalia, rufimanus, rufoniger, tamarin, ursulus. *Vide et Mydas*.
Migadops darwini, falklandicus, nigro-caeruleus, ovalis, virescens.
Migonites andremonae, aeode, burneyi, crenis, erato, erythraea, isaea, thales, thelxiope, ulrica.
Mijas fasciata.
Milans aetolius, icinus.
Milesia acuta, alcinus, ambulans, amithaon, analis, ania, annulata, apicata, apiformis, asilica, bacuntius, berberma, bilineata, bombylans, bubulcus, canusium, clunipes, coenina, conica, conopsea, crabroniformis, cruciger, daochus, dentipes, diophthalmus, eques, excentrica, fallax, femorata, floccosa, fulminans, gigas, haematodes, ignava, lamus, limbipennis, lineata, lunata, macularis, maculata, means, mixta, mollis, natans, nemorum, notata, obliqua, ornata, oxyacanthae, pigra, pipiens, podagrica, ranunculi, rara, reinwardti, ruficauda, ruficrus, saltuum, scutellaris, segnisi, speciosa, spinipes, sylvarum, vara, vespiformis, virginensis, volvulus, zetterstedti.
Miletus epopus, polycletus, symethus.
Milezophilus provincialis.
Miliaria altirostris, canescens, citrinella, crassirostris, europaea, germanica, meridionalis, minor, peregrina, septentrionalis, valida.
Milichia boletina, formosa, maculata, ornata, palposa, parva, pulchra, speciosa, tarsata.
Miliobates speciosa. *Vide et Myliobates*.
Miliola affinis, amphioxys, annulata, aspera, bicornis, canaliculata, concentrica, elliptica, elongata, neus, gibba, inflata, intorta, irregularis, lagena, lenticula, marylandica, milium, minuta, oblonga, obscura, ovata, ovula, ovum, perforata, pigo, pulchella, reticulata, rhombos, rostrata, seminulum, semistriata, sigma, soldanii, sphaerula, spiralis, stiligera, striata, subrotunda, subtriquetra, tubuligera.
Miliolites birostris, centralis, cor-anguinum, opposita, planulata, ringens, sabulosa, saxorum, secalius, trigonula.
Militaea pelops, persea.
Millepes armadillo.

Millepora *affinis*, *agaricites*, *antiqua*, *burtiniana*, *byssoides*, *caerulea*, *canaliculata*, *cancellata*, *capitata*, *cardicellus**, *cervicornis*, *clavaria*, *complanata*, *compressa*, *conica*, *conifera*, *corymbosa*, *crista galli*, *cylindrica*, *deformis*, *dekini*, *dichotoma*, *digitata*, *dispar*, *drepanensis*, *dumetosa*, *elegans*, *exigua*, *fasciculata*, *gilberti*, *globularis*, *gracilis*, *groningana*, *informis*, *interporosa*, *lobata*, *macrocaule*, *madreporacea*, *moniliformis*, *morcella*, *oculata*, *ovata*, *palinata*, *platyphylla*, *plicata*, *polymorpha*, *porulosa*, *pumila*, *rosea*, *pyriformis*, *racemosa*, *racemus*, *ramosa*, *repens*, *reticulata*, *rhombifera*, *similis*, *solanderi*, *spicularis*, *spissa*, *squarrosa*, *straminea*, *tortuosa*, *truncata*, *undulata*.

Milleporites *amorphus*, *celleporatus*, *cervicornis*, *clavatus*, *cornigerus*, *flustriformis*, *polyforatus*, *vermiculosus*.

Milleria *costata**.

Millericrinus *aculeatus*, *alternatus*, *angulatus*, *archiacianus*, *bachelieri*, *beaumontianus*, *brevis*, *buchianus*, *calcar*, *calycularis*, *conicus*, *convexus*, *crassus*, *cupuliformis*, *dilatatus*, *duboisianus*, *dudressieri*, *echinatus*, *elegans*, *fleuriausianus*, *goldfussi*, *goupilianus*, *gracilis*, *horridus*, *inaequalis*, *incrassatus*, *inflatus*, *marginatus*, *mespilliformis*, *milleri*, *muensterianus*, *neocomiensis*, *nodotianus*, *obconicus*, *obtusus*, *ornatus*, *polycyphus*, *polydactylus*, *pratti*, *pulchellus*, *punctatus*, *radisensis*, *regularis*, *richardianus*, *rosaceus*, *rotiformis*, *scalaris*, *scriptus*, *simplex*, *subechinatus*, *tuberculatus*.

Mimetes (A.) *flavocinctus*, *viridis*, *xanthocyanea*.

Mimetes (Col.) *setulosus*, *unicolor*.

Mimetes (Lep.) *caesia*, *nubilosa*.

Mimetis *imperfector*, *syllepsicus*, *tuberosus*.

Mimographus *laesicollis*.

Mimomorpha *clitiformis*.

Mimon *bennetti*, *megalotis*.

Mimoniades *mulcifer*, *ocyalus*.

Mimosciara *lestromina*, *moloibrina*.

- Mimus** albogriseus, brasiliensis, bruchi, carolinensis, coerulescens, columbianus, curvirostris, dominicus, dorsalis, felivox, fuscatus, galactodes, gilvus, gracilis, lividus, longicaudatus, longirostris, melanopterus, melanotis, meruloides, modulator, montanus, orpheus, parvulus, patagonicus, peruvianus, plumbeus, polyglottus, rediviva, rubripes, rufus, saturninus, thenea, thenka, thilius, tricaudatus, trifasciatus, triurus.
- Minella** nitida.
- Mines** geoffroyi.
- Minetra** gambriensis, nodrica, sylvia.
- Minettia** claripennis, flava, flavipes, luctuosa, nemorosa, palustris, testacea.
- Mingeria** bicolor.
- Miniopteris** macrotarsus, orsinii, ursini.
- Minla** cinerea, ignotincta.
- Minnilus** microstomus, notatus.
- Mino** dumonti.
- Minoa** asinata, assinata, chaerophyllata, duplicata, euphorbiata, flavicornata, griseata, infuscata, illibaria, lutearia, monochroaria, niveata, renitidata, tibialata, tinctaria, tinetaria.
- Minois** alcyone, anthe, briseis, hermione, oenomais, phaedra, proserpina.
- Minous** adamsi, calandria, monodactylus, pusillus, woora.
- Mintho** capensis, compressa, lacera, obscuripennis.
- Minturnia** chalybeosoma, dimidiata, flavocincta, flavomaculata, gratiosa, microcephala, notabilis, propinqua, pyropyga, querula, splendida, univittata, viridana.
- Minulus** dinemus.
- Minurus** testaceus.
- Minyas** (Coel.) caerulea, cyanea, polygoni.
- Minyops** carinatus, chaudoiri, costalis, costatus, minutus, rudis, scrobiculatus, sinuatus, variolosus.
- Minyrus** exaratus.
- Miochira** filiformis, gracilis.
- Mionectes** leucocephalus, luteocephala, oleagineus, poliocephalus, rufiventris, rufoolivacea, striaticollis, viridis.
- Miopithecus** capillatus, talapoin.
- Miopristis** catenata, lepida, virgata.
- Miopteryx** spiniger.
- Mioxicebus** griseus, rufus.
- Mira** macrocera, mucora.
- Mirafra** affinis, africana, africanoides, assamica, cantans, cantillans, cheniana, deserti, erythroptera, flavicollis, hayi, horsfieldi, javanica, phoenicura, sabota.
- Miralia** alternans.
- Miranda** ceropegia, cucurbitina, exornata, hirsuta, latro, pictilis, porracea, transalpina, venatrix.
- Mirax** rufilabris, sparti.
- Miris** abbreviatus, albidus, alni, annulus, arbustorum, austriacus, bicolor, binotatus, bipunctatus, bis-triguttatus, calcaratus, carceli, carinatus, caucasica, chrysanthemi, coccinea, cruentatus, decrepitus, dentata, denticulata, dilatatus, dorsalis, erraticus, ferrugatus, flavicornis, floralis, fraxini, fulvus, fuscicornis, graminicola, hortorum, infuscatus, inquinatus, leucocephalus, limbata, lineolatus, longicornis, luteicollis, marginatus, marshami, maurus, nankinea, ochraceus, parvula, picticeps, pinicola, populi, pratensis, pulchellus, punctulatus, quadripunctatus, roseus, ruficornis, rusticus, sanguineus, semiflavus, seticornis, sexguttatus, striatellus, tanacetii, terguttatus, thunbergi, tibialis, tiliae, transversalis, tripustulatus, tunicata, ventralis, verbasci, violaceus, vittatus, vividus, xanthocera.
- Mirmica** galbula, leonina, trinodes.
- Miro** albifrons, australis, chrysoptera, citrinus, dieffenbachii, forsterorum, macrocephala, toitoi.
- Mirounga** ansoni, byroni, cristatus, patagonica, proboscidea.
- Misaphidius** crudelis.
- Miscelus** unicolor.

Miscodera arctica, erythropus.

Miscogaster aenea, aeratus, annularis, annulipes, antennata, aphareus, apicalis, athanis, bato, brevis, breviventris, cernus, chrysochlora, cinctipes, convexa, costalis, crius, cyanea, daicles, daiphron, damia, deione, dice, dilunis, dioxippe, dirce, dissimilis, dryops, elegans, eleus, euroto, eurybia, femorata, filicornis, fulginas, fuscipennis, fuscipes, gelanor, gelo, gibba, hages, hecataeus, hippeus, hortensis, letus, lucida, lugubris, maculata, maculipes, menaetus, merula, mycon, nelo, nicææ, nicetas, nicon, nigro-aenea, nitida, nitidipes, notata, obscura, obscuripennis, ovata, oxylus, philochortoides, psapho, ruficrus, rufipes, sambus, scotica, semiaurata, sopolis, stygne, suilius, tarsalis, tenuicornis, theope, thera, tristis, tumida, tyche, tyrphaeus, umbro, viridis.

Miscophus bicolor, concolor, niger, spurius, unicolor.

Miscus campestris.

Miselia albimacula, anceps, aprilina, binaculosa, cana, comta, consparcata, conspersa, corsica, culta, gemma, jaspidea, lichenea, nisus, nummosa, numosa, oleagina, orbiculosa, oxyacanthæ, serpentina.

Misetes tuberculosus.

Misetus oculatus.

Misgurnus fossilis.

Misilus aquatifer.

Misocampe bedeguaris*.

Misocampus nigricornis, sapphirinus, stigmatizans.

Misolampus gibbula, goudoti, hoffmansegi, hoffmanseggi, lusitanicus, pimelia, ramburi, scabricollis.

Missourium theristokaulodon.

Missulena occatoria.

Missurium theristokaulodon.

Mistacinus barbatus.

Mitella pollicipes, sinensis.

Mithraculus coronatus, denticulatus, nodosus.

Mithras (Ar.) paradoxus, undulatus.

Mithras (Lep.) apildanus, dorimund, elis, metus, nautus.

Mithrax aculeatus, asper, dama, denticulatus, dichotomus, herbsti, hispidus, lunulatus, nodosus, pygmaeus, quadridentatus, rostratus, scaber, sculptus, spinicinctus, spinosissimus, ursus, verrucosus.

Mithrodia spinulosa.

Mitocera viridipennis.

Mitophyllus irroratus.

Mitorhynchus brunneus.

Mitra (Coel.) rangi.

Mitra (Ech.) depressa, elliptica, elongata, hibernica, humero-stellata.

Mitra (G.) abbatis, abbreviata, acuminata, acupicta, adamsoni, adansonii, adolphia, adusta, aegra, aethiops, affinis, agassizi, albicostata, albo-cincta, alligator, alveolus, amabilis, amanda, ambigua, amphorella, anais, analogica, ancillaroides, ancillides, angulosa, annulata, anthracina, antoni, aquini, archiepiscopalis, arenosa, armiger, armillata, articulata, astricta, attenuata, aurantiaca, aureolata, auriculoides, australis, avenacea, babea, bacillum, badia, balteolata, belcheri, biblis, bicolor, bifasciata, bilineata, bicipitata, bizonalis, bolaris, borniana, bovei, branderi, brocchii, brongniarti, bronni, brumalis, buccinata, buccinoidea, buccinula, bulimoides, burguetiana, cadaverosa, caelata, caeligena, caerulea, caffra, caliginosa, callosa, calostoma, cancellarioides, cancellata, cancellina, candida, candidula, capensis, capillata, carbonacea, carbonaria, cardinalis, carinata, carna, carnea, carnicolor, carolinensis, cassisiana, casta, catenata, cavea, cellulifera, chalybeia, chelonia, chinensis, choava, chrysalis, chrysostoma, cimelium, cincta, cinctella, cinerea, cingulata, circula, cithara, citharella, citrina, clandestina, clathrata, clavularis, clavulus, coarctata, coccinea, coffea, colombelliformis, columbellaria, columbelloides, concentrica, concinna, conica, conoidea, conovula, conquisita, consanguinea, contracta, conularis, conulus, conus, cophina, corallina, cordieri, coriacea, cornea, cornicula, cornicularis, coronata, corrugata, costellaris, costulata, crassa, crassidens, crebricosta, crebrilirata, cremans,

crenata, crenifera, crinita, crispata, crocata, crocea, cruentata, cucumerina, cucurbitina, cumingi, cupressina, cylindracea, dactyloidea, dactylus, daedalea, declivis, decora, decorata, decurtata, decussata, defrancei, delbosi, deluci, dennisoni, dermestina, dertonensis, desetangsi, deshayesi, diadema, dichroa, digitalis, discolor, discoloria, discors, doliata, dololum, dufresnei, duplilrata, duponti, ebenus, eburnea, edentula, effusa, elegans, elegantula, elongata, encausta, exasperata, exigua, exilis, fasciata, fasciolaris, fasciolaroides, fastigium, fenestrata, ferruginea, festa, ficulina, fidicula, filaris, filosa, filum, fissurata, flammaea, flammigera, flavescens, flemingi, flexuosa, floicata, forticostata, fraga, fulgetrum, fulgurita, fulva, fulvescens, funerea, funiculata, fuscae, fusellina, fusiformis, fusoides, gausapata, georgiana, gervillei, gigantea, glabra, glandiformis, glans, gracilis, graja, granata, granatina, graniformis, granulifera, granulosa, granulos, gratioa, gratiosa, groenlandica, gruneri, guttata, haidingeri, harpaeformis, harpifera, hastata, hebes, henikeri, hindi, histrio, humboldti, hybrida, ignea, ignobilis, impressa, inca, incarnata, incisa, incognita, inermis, infausta, infecta, inflata, inquinata, interlirata, intermedia, interrupta, isabella, juniperus, kieneri, labratula, lachryma, lactea, lacunosa, laevigata, laevis-sima, lajoyi, lamarecki, lamberti, larva, latruncularia, lauta, lebroa, lens, leonardina, leopardina, leopoliensis, leucodesma, leucostoma, leucozona, leucozonias, lignaria, limbifera, lineata, litterata, littoralis, livida, loricata, lota, lubeus, lucida, luculenta, lugubris, lupulina, lutea, lutescens, lyraeformis, lyrata, lyriformis, maculosa, maesta, marginata, marmorata, martiniana, matronalis, maura, media, melaleuca, melaniana, melongena, mica, micans, michaudi, michelini, microzonia, militaris, milium, millecostata, millepora, miniata, minima, minuta, miocenica, minifera, mississippiensis, mixta, modesta, mölleri, monilifera, monodonta, morio, mucronata, multicostata, muriculata, musicalis, mutabilis, mutica, nana, nanus, nasoides, nebulosa, nice, nigra, nitens, nivea, nivosa, nodosa, norrisi, nubila, nucea, nucleola, nympha, obeliscus, obesa, obliqua, obliquata, oblita, obsoleta, obtusangula, oleacea, olivacea, olivaeformis, olivaria, olivoida, oniscina, ornata, ossea, pacifica, pactilis, pardalis, parisiensis, parva, parvula, patriarchalis, patula, paupercula, peculiaris, pediculus, pelli serpentis, peregra, perexilis, peroni, philippiana, pica, picta, pinguis, pisolina, planilirata, plicaria, plicata, plicatella, plicatissima, plicatula, plicifera, plumbea, polita, pontificalis, porcata, porphyretica, pretiosa, prevosti, procissa, pruinosa, puella, pulchella, pullata, pumila, punctata, puncticulata, punctulata, pupa, purpurata, pusilla, pusio, pyramidalis, pyramidella, quoyi, radiata, radius, rangi, raricosta, recurva, reevei, repexa, requieni, reticulata, retusa, rhodia, rigida, risoides, roborea, robusta, roemeri, rorata, rosacea, rosea, rossiae, rotundilirata, rubella, rubiginosa, rubra, rubritincta, rueppelli, rufilirata, rugosa, rupicola, rustica, sanguinolenta, santangeli, savignyi, scabra, scabriuscula, scalariformis, scalarina, scrobiculata, sculptilis, scutulata, semen, semicostata, semifasciata, semisculpta, senegalensis, serpentina, signata, simplex, sinensis, sismondai, solandri, solida, solidula, speciosa, spicata, spinosa, spurca, stainforthi, staminea, stigmataria, striarella, striata, striatula, strigata, subcostulata, subcylindrica, subdermestina, subdivisa, subplicata, subsimplex, subulata, succinata, sulcata, sulciensis, suturata, swainsoni, sycophanta, tabanula, taeniata, telescopium, tenuistria, terebelloides, terebellum, terebraeformis, terebralis, tessellata, testacea, texturata, thorenti, ticaonica, tornata, tornatelloides, torulosa, tricolor, tringa, tristis, truncata, tuberosa, tumida, turben, turrida, turgidula, turricula, turriculata, turriger, tusa, typha, undulosa, unifascialis, unifasciata, ustulata, vanikorensis, variabilis, variata, varicosa, variegata, ventricosa, venustula, vera, verrucosa, versicolor, vexillum, vicksburgensis, vignyensis, virgata, virginalis, virgo, vitellina, vittata, vulpecula, vulpina, vultuosa, woldemarei, zebra, zebрина, zebuensis, zelotypa, ziervogeliana, zonalis, zonata.

Mitragenius araneiformis.

Mitrella bicolor, casta, costulata, dactylus, fissurata, flaminea, fusca, levigata, marminia, ocellata, olivaeformis, olivaria, turgidula.

Mitreola monodonta, terebellum.

Mitrephorus waterhousei.

Mitrogenius dejeani.

Mitrolithes labratulus.

Mitrophorus atechoides.

Mitrularia neptuni.

Mitu tuberon.

Mitua bidwelli.

Mitylus abruptus, acinaces, albensis, angustus, bella, bourgeoisianus, castor, cephus, chauvinianus, consobrinus, densesulcatus, dido, emylius, fidia, fittoni, gabrielis, galanthis, garbus, gibbosus, glaucus, gracilis, gueuxi, halesus, hector, helena, helirius, hermione, hersilia, hesione, hillanus, hippona, hyphaeus, imbricatus, kochi, laevis, lagus, lassus, leda, leilus, lombricalis, lynceus, lysippus, marrotianus, medus, midamus, moulini, mulleri, nitidulus, oblongus, orbiculatus, pallidus, patulus, pelops, peregrinus, petasus, portlandicus, pulcherrimus, quinquedulatus, raavillianus, reniformis, reussi, socorinus, solenoides, sowerbyanus, subangustus, subarcuatus, subasperus, subfalcatus, subgibbosus, sublineatus, subpectinatus, subpulcher, subradiatus, subrugosus, tetragonus, undulatus, varians, ventricosus. *Vide et Mitylus.*

Mixodia errana, schulziana.

Mixogaster conopsoides, mexicanus.

Mixornis chloris, flavicornis, gularis, javanica, melanothorax, poliopsis, ruficeps.

Mixtemyia quadrifasciata.

Mizine volvulus.

Mnematum silenus.

Mnemia chamissonis, kuhli, norvegica, schweiggeri.

Mniophila (Col.) muscorum.

Mniophila (Lep.) cineraria.

Mniotilta aestiva, albifrons, americana, ardosiaea, auduboni, aurantia, aureola, auricollis, bachmani, bananivora, bicolor, blackburniae, borealis*, caerulescens, calidris, canadensis, carbonata, carolinensis, castanea, celata, chrysoptera, chrysopus, citrea, coronata, corticaria, decurtata, discolor, dominica, eoa, formosa, fulva, fusca, fuscicollis, grisea, gularis, incana, juncorum, leucoptera, lineata, macropus, maculosa, maritima, melanorhoa, montana, murina, nigrescens, occidentalis, ochroleuca, palmarum, pannosa, parus, pennsylvanica, peregrina, petechia, pharetra, pinus, pumila, pyrrholeuca, pyrrhonotus, rara, rathbonia, rubida, ruficapilla, ruficauda, ruficollis, semitorquata, solitaria, speciosa, striata, superciliosa, swainsoni, sylvestris, taeniata, tigrina, townsendi, varia, venusta, vermivora, virens, virescens, viridicata.

Mobula auriculata.

Mochlonyx velutinus.

Mochokus niloticus.

Mochtherus (Col.) angulatus, rotundatus.

Mochtherus (Dipt.) pallipes.

Mocis aurinia, cicatrix, levina, mercuria, virbia.

Mocoa africana, bilineata, cumingi, cuprea, entrecasteauxi, grandis, guichenoti, lateralis, melanopogon, microtis, ocellata, oweni, smithi, trilineata, zelandica.

Moderia formosa.

Modelia granosus.

Modiola acinaces, acuminata, acuta, adriatica, aequalis, aequiplicata*, alaeformis, albicosta, aldami, alternata, americana, amygdalina, amygdaloides, anatina, angularis, angusta, antillarum, antiqua, appendiculata, arborescens, archiaci, arctica, arcuata, arcuata, arenaria, argentina, aspera, attenuata, auricularis, auriculata, balli, barbata, bella, bilobata, bipartita, biradiata, brasiliensis, brycei, californiensis, canalifera, cancellata, capax, capensis, caribaea, carinata, carolinensis, carteroni, castanea, caudigera, cecilli, chemnitzii, cicercula, cinnamomea, compressa, concentrica, concentricocostellata, concinna, contorta, cordata, cornuelana, corrugata, crassissima, cretacea, crispata, cultellus, cuneata, cuneiformis, cuspidata, cylindrica, cymbaeformis, decorata, decussata, depressa, dimidiata, discors, discrepans, divaricata, divisa, ducatellii, dufrenoyi, elegans, elliptica, elongata, expansa, faba, fabella, favannei, ferruginea, fischerana, flemingi, flexuosa, fornicata, fracta, funata, gastrochaena, gervillei, gibbosa, gibbsi, glabrata, glandula, goldfussi, gothlandica, gracilis, grandis, granulatus, granulosa, gregaria, guyanensis, hastata, hillana, hofmanni, imbricata, inclusa, incurvata, inornata, interrupta, jugata, laevigata, laevis, latissima, linearis, lineata, lingualis, lithodomus, lithophagitis, lithophagus, liturata, longa,

macadamii, malayana, marginata, matronensis, megaloba, metcalfi, microcephala, microptera, minima, minuta, minutus, mississippiensis, modioliiformis, moorei, mucronata, murina, mytiloides, nasuta, navicula, nexa, nigra, nilssoni, nitidula, nysti, obesa, oblonga, obtusa, opifex, orientalis, ornata, orocriua, ovalis, ovata, ovum, pallasi, pallida, papuana, papyracea, papyria, parallela, parasitica, patagonica, patula, pectinator, pectiniiformis, pectinula, pederalis, phaseolina, philippiana, philippinarum, picta, plana, plicata, plicatula, plumula, poliana, prideauxi, profunda, pulcherrima, pulchra, pulex, pumila, purpurata, pygmaea, quadrata, radiata, recta, rectus, reniculus, reniformis, requieniana, restricta, reticulata, reversa, rhombea, robertsoni, rufa, rugosa, rumphii, scalaris, scalprum, securiformis, securis, semen, semicostata, semifusca, semilaevis, semi-nuda, semiornata, semiradiata, semistriata, semisulcata, semitexta, senhousia, sericea, silicula, siliqua, similis, simpla, simplex, sinuata, sinuosa, socorrina, solenoides, soluta, sordida, spatulata, sphenocoides, spinigera, squamifera, strajeskiana, striata, striatocostata, striatula, striatulus, strigata, striolaris, subaequiplicata, subcarinata, subhillanus, sub-paralella, subramosa, sub-reniformis, subtruncata, sulcata, tenuistriata, teploii, teres, tetragonus, thielaii, thirriae, trapezina, triangulum, trigonalis, tristis, truncata, tulipa, tulipoea, undulata, unguolata, uralen-is, vagina, varians, varicosa, ventricosa, vestita, vetusta, vicinalis, villosa, volhynica, vulgaris, williamsoni. *Vide et Modiolus.*

Modiolarca impacta, ovata.

Modiolaria discors*, faba*, laevis, striatula, vernicosa.

Modiolites papuanus, socialis.

Modiolopsis acutifrons, anodontoides, arcodes, arcuatus, aviculoides, carinatus, curta, faba, imbricata, latus, modiolaris, mytiloides, nasutus, nuculiformis, parallela, praescripta, siliqua, simplex, sp. ind., subspatulatus, terminalis, trentonensis, truncatus.

Modiolus agglutinans, asperula, barbatellus, cinnamomeus, costulatus, cylindroides, discors, faba, fusca, hyalina, lithophagus, marmoratus, subpictus, sulcatus, transversatus, vulgatus. *Vide et Modiola.*

Modulus lenticularis, retusus, trochiformis.

Moegistorhynchus longirostris.

Moera adonidis, aurelia, automedaena, celinde, phidippe, tullia.

Mogannia avicula, ignifera, illustrata, indicans.

Mogophrys montana.

Mogoplistes brunneus.

Moho atriceps, nigra.

Mohoua ochrocephala.

Mohua lua.

Moina brachiata, rectirostris.

Mola aspera, hispida, planci.

Molacanthus hispidus, pallasi.

Molanna angustata, cylindrica, nigripalpis.

Molchina compressicornis.

Moldia mulleri.

Molga pyrrhogaster.

Molge alpestris, cinerea, geitie, gigantea, ignea, palmata, palustris, platycephalus, punctata, pyrrhogaster, rubra, striata, taeniata, tridactylus, wurfbaui.

Molgula arenosa, citrina, oculata, siphonata, tubulosa.

Molinesia fasciata, surinamensis.

Mollia patellaria et planata (Flustrae, teste S. F. H.).

Mollinesia latipinna.

Molobraea tenella.

Molobrus bicolor, brunnipes, fenestrata, flavipes, fucata, fuliginosa, fuscipennis, fuscipes, hirticornis, hyalipennis, longipes, morio, nemoralis, nervosa, nigra, obscura, pallipes, phaeopus, praecox, purpuratus, pusillus, rotundipennis, ruficauda, scatopsoides, serripes, splendidus, sylvatica, thomae, vitripennis, xanthopus.

Moloch horridus.

Molophilus brevipennis.

Molops abbreviatus, abdominalis, alpestris, arrogans, ater, brevicornis, brevis, bucephalus, cephalotes, colossus, concinnus, corax, corinthus, cottelli, dalmatinus, dauricus, depressus, clatus, faber, gagates, gagatinus, graecus, humidus, illigeri, incisa, lenis, lixa, longipennis, maurus, melas, ovipennis, piceus, plantaris, rivalis, robustus, ruipes, ruftarsis, sibiricus, songoricus, striolatus, substriatus, subtruncatus, terricola, transbaicalensis.

Molopsida polita.

Molorchus abdominalis, affinis, antiquus, bimaculatus, cingulatus, clavicornis, collaris, crabroniformis, depressus, dimidiatus, dispar, fasciatus, ferrugineus, glaucescens, indicus, laticornis, major, marginalis, mellitus, minor, nigricornis, pennsylvanicus, pygmaeus, sanguinicolis, scoparius, staphylinus, tenuipes.

Molosoma latipes.

Molossus (? *Ceph.*) gracilis.

Molossus (*M.*) abrasus, acetabulosus, acuticaudatus, aegyptiacus, alecto, amplexicaudatus, anonymus, ater, auripendulus, australis, azara, brasiliensis, caecus, castaneus, cestoni, cheiropus, crassicaudatus, cynocephalus, dilatus, ferox, fuliginosus, fumarius, fusciventer, laticaudatus, longicaudatus, mops, moxensis, myosuros, naso, nasutus, norfolkensis, obscurus, perotis, plicatus, ruppelli, rufus, rugosus, tenuis, torquatus, tricolor, tropidorrhynchus, ursinus, velox.

Molothrus atronitens, bonariensis, brevirostra, niger, pecoris, sericeus, unicolor.

Molpadia holothurioides, musculus.

Molpus sex-punctus.

Moluris bertolinii, brunnea, catenata, cubica, dejeani, discoidea, gibba, gibbosa, globularis, globulicornis, goryi, gravida, hemisphaerica, hirtipes, hirtus, hispida, holosericea, interrupta, laevicollis, laevigata, marginata, oblonga, osbecki, pierreti, pilosa, pinguis, plicata, reichei, rouleti, rugulosa, scabra, scabrata, semi-scabra, spinolae, striata, tenebrosa, tomentosa, unicolor, variolosa, vestita, vialis, vittata.

Molus ismarus, phalantus.

Molva huntia, lota, maculosa, vulgaris.

Molytes anglicanus, angusticollis, bajulus, barbarus, besseri, bisulcatus, carinaerostris, cornix, coronatus, cribrum, dirus, ferus, funestus, germanus, glabratus, glabrostris, illyricus, laevigatus, monachus, ovatulus, ovatus, pilosus, protractus, tenebrioides.

Moma aprilina, astur, ludifica.

Momota guianensis.

Momotus bahamensis, caeruleiceps, dombeyi, gularis, lessoni, levaillanti, martii, mexicanus, momota, momotula, platyrhynchus, rubricapillus, ruficapillus, subhutu, yucatacensis.

Mompha caesiella, conturbatella, ferruginella, mendicella, spendella.

Monaca phaioleucos.

Monacanthus bifilamentosus, chinensis, cirrifer, gallinula, granulatus, hystrix, lineolatus, megalourus, oblongus, pardalis, rudis, scaber, setifer, signifer, varius, vittatus. *Vide et Monocanthus.*

Monacha (*A.*) caesia, chrysomela, nigra. *Vide et Monarcha.*

Monacha (*G.*) carthusianella, incarnata, sericea.

Monachidium acropyrinon, chelonia, crista flammea, flavipes, lunus, viridipenne.

Monachoda biguttata, crassimargo, dominicana, franciscana, grossa, laticollis, mouffeti.

Monachus (*A.*) atricapilla.

Monachus (*Col.*) affinis, ater, auritus, saponatus, viridis.

Monachus (*M.*) albiventer.

Monadella distincta, omicron.

Monadina distincta, omicron.

Monalonion parviventre.

Monandroptera inuncans.

Monanthia acuminata, albida, ampliata, angustata, angusticollis, brunnea, cardui, ciliata, clavicornis, convergens, costata, dentata, dumetorum, echii, erosa, fasciata, fracta, geniculata, gibba, humuli, liturata, lupuli, maculata, melanocephala, nigrina, obscura, parvula, pilosa, pusilla, quadrimaculata, reticulata, rotundata, sacchari, scapularis, schaefferi, setulosa, simplex, sinuata, stachydis, tabida, testacea, verna, vesiculifera, wolffi.

- Monarcha** allecto, caesia, carinata, cinerascens, cinereus, guttata, guttula, inornata, nigra, telescopthalma, trivirgata, velata. *Vide et Monacha (A.)*.
- Monarthia** cervina.
- Monas** abscissa, agilis, angusta, attenuata, bicolor, bulla, concava, constricta, crassa, crepusculum, cylindrica, deses, distorta, dunali, elongata, enchelioides, enchelys, erubescens, flavicans, fluida, gibbosa, glaucoma, gliscens, globulus, grandis, granulum, guttula, hyalina, inanis, intestinalis, kolpoda, lens, mica, nodosa, nodulosa, oblonga, ochracea, okeni, ovalis, ovata, partita, polytoma, praecatoria, prodigiosa, punctum, rosea, scintillans, simplex, socialis, sulphuraria, termo, tetrarhynchus, tingens, umbra, varians, vinosa, viridis, vivipara, volvox.
- Monasa** atra, flavirostris, fusca, inornata, leucops, mystacalis, nigrifrons, personata, rubecula, rufa, ruicapilla, tenebrio, tenebrosus, tranquilla, unitorques.
- Monastes** lapidarius, paradoxus.
- Monaulus** impejanus, melanion.
- Monax** missouriensis.
- Monecphora** cingulata.
- Monedula (A.)** arborea, septentrionalis, turrium.
- Monedula (Hym.)** carolina, carolinac, dissecta, fuscipennis, insularis, magnifica, orbigny, punctata, quadrifasciata, sallei, signata, surinamensis, variegata, ventralis, zetterstedti.
- Moneilema** annulata, inaequalis.
- Mongo** brachyurus, edwardsi, javanicus, malaccensis. *Vide et Mungos*.
- Monichus** mona.
- Monilea** callifera.
- Monima** ambigua, mimosa.
- Monitor** albugularis, antiquus, bengalensis, bivittatus, capensis, cepedianus, chlorostigma, dracaena, dumerili, elegans, exanthematica, flavescens, gemmatus, heraldicus, inornatus, marmoratus, meriani, nebulatus, nebulosus, niloticus, ornatus, prasinus, pulcher, saurus, scincus, speneri, timorensis, tristis, varia.
- Monocanthus** aurantiacus, bacilligerus, broccus, histrix, inornatus, massachusettsensis, papillosus, pullus, sarothrurus, scoparius, setifer, sinensis, spilosoma, tomentosus, varius. *Vide et Monacanthus*.
- Monocarya** centralis, cultrata.
- Monocelis** assimilis, excavata, fusca, glauca, lineata, subulata, unipunctata.
- Monocentra** lepidoptera.
- Monocentris** carinata.
- Monocera** acuminatum, ternodactylum.
- Monocerca** bicornis, longicauda, rattus, valga, vorticellaris.
- Monoceros (G.)** armatum, armigerus, blainvillei, breve, brevidentatum, calcar, cingulatum, citrinum, costatum, crasillabrum, cymatium, denticulatum, depressus, fusiformis, fusoides, gallicum, giganteum, glabratum, globulus, grande, hepaticus, imbricatum, lugubre, maculatum, monocanthos, monodon, muricatum, narval, obtusus, plumbeum, punctatum, punctulatum, pyruloides, semicostatus, striatum, subumbilicatus, sulcatum, unicarinatum, unicorn, vetusta.
- Monoceros (P.)** biaculeatus, rayi.
- Monocerus** ambiguus, bifasciatus, binotatus, brachycerus, numidicus, serratus.
- Monochamus** australis, beryllinus, bipunctatus, carolinensis, cervinus, confusor, decoratus, dentator, farinosus, formosus, galloprovincialis, irrator, lignator, luscus, maculatus, marmorator, mutator, nebulosus, ocellatus, pini, pulverulentus, quadri-maculatus, resutor, ruber, saltuarius, sartor, scalaris, subocellatus, sulphurifer, sutor, tessellatus, tridentatus. *Vide et Monohammus*.
- Monocheles** contractus.
- Monochelus** atratus, aurantiacus, calcaratus, collaris, formosus, glaberrima, ornatus, parvulus, pruinosis, rhinanus, scutellaris, spinipes, squamulatus, subvittatus, viduus.
- Monochir** maculipennis.
- Monochirus** hispidus, lineatus, linguatula, mangilli, microchirus, pegusa, variegatus.
- Monocirrhus** polyacanthus.
- Monocondylaea** corrientensis, flossiculifera, guarayana, minuana, paraguayana, parchappii.

Monocrania luridipennis, nigricans, piligera, rugosipennis.

Monocrepidius abbreviatus, alternans, apiatus, asinus, australasiae, bigatus, caninus, capistratus, castanipes, cerdo, chazali, cinereipennis, confusus, cordieri, dimidiatus, discolor, eveillardii, fabrilis, flabellicornis, flavovittatus, fuscicornis, geminatus, impluviatus, laurenti, leluti, lobatus, malleatus, oblongo-punctatus, opacus, pallipes, planus, posticus, proletarius, pubescens, pugionatus, repandus, rubescens, rufangulus, rutilicornis, scalaris, sericans, serotinus, sticticus, stigmus, subcastaneus, sulcolis, tabidus, tactus, ternarius, troglodytes, xanthopus.

Monoctenus juniperi.

Monoculites hexamorphus, lunatus, polymorphus.

Monoculithos gigantea.

Monoculus aduncus, aurantius, bistrigatus, brachiatus, candidus, castor, clathratus, cornutus, cyprinaceus, fuscatus, gibbus, laticornis, longicollis, nasutus, ophthalmicus, ovatus, ovum, puber, punctatus, quadricornis, reticulatus, roseus, rostratus, ruber, sphaericus, staphylinus, striatus, unifasciatus, villosus, virens.

Monocystis agilis*.

Monodacna caspia, catillus, intermedia, pontica, propinqua.

Monodactylus (P.) falciformis.

Monodactylus (R.) anguineus, anguinus.

Monodelphis brachyura*.

Monodesmus callidioides.

Monodicrana terminalis.

Monodon alba, andersonianus, fabulosus, microcephalus, narval, vulgaris.

Monodonta (G.) aegyptiaca, aglietti, angulatum, apicina, araeonis, articulata, atra, atrata, australis, baccata, badia, belliae, benettiae, bertheloti, bicolor, bicostata, bidentata, canaliculata, canalifera, carchedonius, carneola, cassiana, catenifera, cerberi, cincta, concamerata, conica, constricta, corallina, coronaria, couturii, crassa, crenulata, delphinula, denticulata, draparnaudi, elegans, exoluta, flexuosa, fragarioides, fulminata, fusca, glandula, glomus, gracilis, granulata, heliciformis, jussieui, jussioei, kraussi, lactea, laevigata, lessoni, limbata, lineata, listeri, livida-maculata, lugubris, lupina, lyelli, maculo-striata, mamilla, margaritaria, margaritula, marginata, maxillata, melanoloma, modulus, moulinsi, muricatus, napoleonis, nodosa, obscura, odontus, olivieri, ornata, osilin, pagodus, papillosa, pharaonis, picta, polydonta, pulcherrima, punctulata, punicea, purpurea, quadrula, reticularis, retusa, richardi, ringens, rosea, rudis, rugosa, rustica, sayi, seminigra, solida, spirata, striata, subnodosa, subrostrata, supranodosa, taeniata, tectum, tectum persicum, tessellata, tinei, tricarinata, tridentata, trochlea, trochleata, tuberculata, turrita, ulvae, undata, undulata, vieilloti, villana, virgata, viridis, zebra.

Monodonta (L.) undulata.

Monodontomerus aereus, cupreus, dentipes, nitidus, obscurus, obsoletus, stigma.

Monoecca brasiliensis.

Monohammus agenor, alcanor, alternatus, ambigenus, antenor, bianor, bifasciatus, daleni, gibbifer, guttatus, luctor, maculosus, marcipor, mixtus, mucoreus, plorator, praetornis, pulcher, pulverulentus, punctulatus, quadrimaculatus, quaestor, rhe-tenor, rhobator, saltuarius, scutellatus, tomentosus, vastator, westwoodi. *Vide et Monochamus.*

Monolabis conica, gracilis.

Monolepis inermis, orientalis, spinatarsus.

Monolepta croceicollis, cruciata, occipitalis.

Monolobus testaceus.

Monomachus apicalis, falcator, fuscator, gladiator, klugi, lateralis, ruficeps, segmentator.

Monomacra inermis.

Monomma brunripes, giganteum, irroratum, klugi, maculatum, nigrum, pusillum, resinorum.

Monomyces affixa, anthophyllum, eburneus, patella, septatus.

Mononychus ireos, pseudacori, salviae, superciliaris, syriacus, vittatus, vulpeculus.

Mononyx badius, fuscipes, grandicollis, laticollis, raninus, raptoria, sordidus, suberosus, variegatus.

- Monopeltis capensis*.
Monophadnus inquilinus.
Monophleba dubia, leachi.
Monophlebus atripennis, burmeisteri, fabricii, fuscipennis, illigeri, raddoni, saundersi.
Monophora (Ech.) darwini.
Monophora (Nud.) asperum, noctiluca.
Monophylla megatoma, terminata.
Monophyllus leachi, redmani, reedmanni.
Monopis rusticella.
Monopleura birostrata, cingulata, depressa, imbricata, sulcata, urgonensis, varians.
Monoplex australasiae, capitatus, cornutus, formosus, oboesus.
Monoplia tetra.
Monopon pulicare.
Monopora globosa, incurva.
Monopsis tabida.
Monopterhinus ciliaris, cinereus, colombinus, griseus.
Monopterus cinereus, helvolus, javanicus, laevis, marmoratus, xanthognathus.
Monoptygma alabamensis, elegans.
Monornis perpulehra.
Monostoma album, attenuatus, bijugum, capitellatum, caryophyllum, caryophyllum, cochleariformis, conicum, cornu, crenulatum, crucibulum, ellipticum, faba, filicollis, filum, flavum, foliaceum, galeatum, geminum, gracile, himantopodis, idi, lentis, leporis, lineare, macrostomum, maraenulae, marilae, molae, octopodis, orbiculae, petasatum, pileatum, praemorsum, pseudamphistomum, rubrum, sepiolae, setteni, sulcatum, tenuicollis, thethys, thethydis, todari, trigonocephalum, vanelli, ventricolum, ventricosum, vespertilionis.
Monostomum alveatum, constrictum, cymbium, delicatulum, echinostomum, expansum, filigerum, gibbum, hippocrepis, holostomoides, impudens, lacertae, liguloideum, microstomum, nematoides, nephriticum, pingue, spirale, squamula.
Monostomus plicatus.
Monostyla cornuta, lunaris, quadridentata.
Monotaxis indica.
Monotis aequalis, alberti, decussata, elevata, garforthensis, gryphaeoides, inaequalis, lineata, poulsoni, princeps, radialis, radians, salinaria, similis, speluncaria, subcostata, substriata.
Monotoma americana, angustata, angusticollis, axillaris, bicolor, blavii, brevicollis, brevicornis, brevipennis, caucasicum, conicicollis, conicollis, formicetorum, fulvipes, gracilis, juglandis, longicollis, obtusicollis, opaca, pallida, picipes, puntaticollis, quadricollis, quadrifoveolata, quadriimpressa, quisquiliarum, rondani, rufa, scabra, spinicollis, terebrans, testacea, trapezicollis.
Montacuta bidentata, cylindrica, donacina, ferruginosa, glabra, oblonga, ovata, pumila, purpurea, substriata, tenellae, truncata.
Montagua (Cr.) subterranea.
Montagua (Nud.) amoena, angulata, annulata, arenicola, bella, caerulea, cingulata, concinna, farrani, glauca, gymnota, longicornis, lottini, nana, natans, olivacea, pallida, peregrina, pinnata, purpurascens, rubra, tricolor, viridis.
Monticola cinclorhyncha, cyanus, rupestris, saxatilis.
Monticularia areolata, bourgueti, conferta, cuvieri, cyclostoma, folium, guettardi, hexagona, knorri, lobata, meandrina, meandrinoides, microconos, molli, obtusata, polygonata, sternbergi, styriana, testacea.
Monticularis exesa, molli, polygonalis.
Monticulipora cervicornis, cribrosa, filiosa, frondosa, frustulosa, globosa, inaequalis, incrustans, mamillata, mammulata, muricata, neocomiensis, pustulosa, ramosa, ramulosa, rordeana, verrucosa.
Montifringilla arctoa, brunneinucha, glacialis, griseinucha, nemoricola, nivalis, pustulata, tephrocotis.
Montina sinuosa.
Montipora lima, papillosa, rosacea, spumosa, tuberculosa, verrucosa.

Montlivaltia acaulis, atlantica, bilobata, boletiforme, brevissima, brongniartiana, caespitosa, calvimontii, capitata, caryophyllata, cellulosa, contorta, convexa, cornucopia, cornuta, crenata, decipiens, deltoides, detrita, dilatata, dispar, dychotoma, excavata, goldfussiana, gracilis, granulosa, gregaria, guerangeri, guettardi, hippuritiformis, icaunensis, inaequalis, infundibulum, irregularis, lesueuri, lotharinga, luciensis, obconica, obliqua, orbitolites, pateriformis, pictaviensis, pygmaea, radiceformis, regularis, ricordeana, rudis, rugosa, sinemuriensis, striatulata, subrugosa, syrodes, triasina, trochoides, trouvillensis, truncata, zietenii.

Montlivaultia moreausiaca, obconica.

Monura adriatica, colurus, dulcis, schranki.

Mopalía blainvillei, hinds, simpsoni.

Mops indicus.

Mopsea costata, dichotoma, erythraea, gracilis, mediterranea, verticillata.

Mora mediterranea.

Mordella aethyops, albo-signata, ambigua, angustata, antarctica, anthracina, aradasiana, arctica, argentifera, argentipunctata, aspersa, atomaria, atrata, attenuata, aulica, aurofasciata, aurulans, australis, axillaris, bicolor, bidentata, bifasciata, biguttata, biguttula, bihamata, bimaculata, bi-punctata, bisignata, boleti, brevicauda, briantea, brunnea, carolinensis, caucasica, cicatricata, cinerea, clavicornis, collaris, decemguttata, decora, discoidea, discolor, duodecimpunctata, elongata, exilis, femoralis, ferruginea, flavescens, flavifrons, flavipennis, flavopunctata, fulvicollis, funesta, fusca, fuscata, fuscipennis, grisea, haemorrhoidalis, hamata, heros, hilaris, humeralis, humerosa, imperator, insidiosus, irrorata, latreillei, leucaspis, leucosticta, limbalis, limbata, lineata, liturata, lottini, lunata, lunifera, lutea, luteoguttata, maculiventris, marginalis, marginata, marmorata, means, melaena, micans, mixto, modesta, multiguttata, multipunctata, multisignata, neuwaldeggiana, nigerrima, nigra, nigricans, nigricollis, obscura, obsoleta, octoguttata, oculata, ornata, pallida, parvula, pectoralis, picea, picta, plagiata, plebeja, populnea, promiscua, pumila, punctata, pusilla, pustulata, quadrisignata, rubida, rufa, ruficeps, rufilabris, scapularis, scutellaris, sericans, sericea, serval, silphoides, splendidula, strigipennis, strigosa, subdiptera, tachyporiformis, testacea, thoracica, tibialis, tomentosa, tricolor, trifasciata, troglodytes, undulata, urvillei, ventralis, vittata.

Mordellina inclusa.

Morelia argus, punctata, spilotes, variegata.

Morellia aenescens, agilis, concolor, horticola.

Morethia anomalus.

Morhúa aeglefinus, lusca, punctatus. *Vide et Morrhua.*

Morica jevini, obtusa, octocostata, planata.

Morimus funestus, luctuosus, lugubris, tristis, verecundus.

Moringua linearis, lumbricoidea.

Morinia agilis, anthracina, claripennis, fimbriata, fuscipennis, melanoptera, nana, obscura, parva, rubescens, velox.

Morio (Col.) aequatorius, anthracinus, brasiliensis, carinatus, cayennensis, colchidicus, cordatus, dentipes, georgiae, guineensis, lafertei, olympicus, orientalis, parallelus, pygmaeus, simplex.

Morio (G.) aeneae, ambiguus, carinatus, coronatus, echinophorus, flexuosus, funiculosus, harpaeformis, monilicornis, nodosus, striatus, substriatus, textilosus, thesei, tyrrenus.

Morion monilicornis.

Moris bassana.

Mormidea obtusa, ypsilon.

Mormo maura, typica.

Mormolyce phyllodes.

Mormon (A.) arctica, cirrhatus, corniculata, fratercula, glacialis, grabae, polaris, psittacula, pygmaea, superciliosa.

Mormon (M.) drill, maimon.

Mormonia (Lep.) epione.

Mormonia (Neur.) gralicornis, hirta, immaculata, maculicornis, minor, nigromaculata.

Mormoops blainvillei.

Mormyrorhynchus gronovei.

Mormyrus abbreviatus, bachiqua bane, bebe, bovei, dendera, dequesne, dorsalis, ehrenbergi, elongatus, geoffroyi, hasselquist, herse, isidori, joannisi, jubelini, labiatus, longipinnis, nacia, oxyrhynchus, rume, salabie, tuckeyi.

Morodactylus cinereus.

Morone flavescens, maculata, pallida, rufus.

Morphastrea escharoides, ludovicianus.

Morpheis ehrenbergi, pyracmon, scalaris, smerintha.

Morphinus dubius.

Morphus atricapillus, buson, coronatus, cristatus, guianensis, harpyia, hastatus, linnaetus, maculosus, manduyti, meridionalis, mexicanus, niveus, occipitalis, ornatus, onnini, superbus, tyrannus, urubitinga.

Morpho acadina, achilles, actorion, adonis, aniphinache, anaxandra, anaxarete, anaxibia, andromachus, anosis, antimache, aorsa, atreus, aurelius, automedon, berecynthus, camadeva, caryatis, cassiae, celinde, chalciope, cytheris, demophaena, epistrophis, eurylochus, godarti, hecuba, helenor, idomeneus, ilioneus, inachis, jairus, klugius, laertes, leonteus, martia, menelaus, menetho, metellus, odana, ogina, omphale, peleides, perseus, phidippus, prometheus, reinwardtianus, rhetenor, rusina, saronia, sulkowskyi, sysiphe, taramela, teucer, tullia, xanthus.

Morphoides limbus, nebulosus.

Morrhua americana, barbata, bib, blennoides, callarias, fabricii, minuta, ogae, pruinosa, saida, vulgaris. *Vide et Morhua.*

Mortieria vertebralis.

Morua capelanus.

Morula papillosa.

Morunga elephantina, proboscidea.

Morus bassanus, parvus, piscator, sula.

Morychus aeneus, auratus, modestus, nitens.

Mosasaurus bavaricus, belgicus, camperi, carolinensis, couperi, dekayi, gracilis, maximiliani, minor, stenodon.

Moscata cylindrica.

Moschata rhododactyla.

Moschatus moschatus.

Moschilus furcatus.

Moschus altaicus, antiquus, aquaticus, armatus, bengalensis, chrysogaster, fulviventris, griffithi, kanchil, kranchil, leucogaster, meyeri, murinus, napu, pelandoc, pratti, saturatus, stanleyanus.

Mosellaesaurus rostro-minor.

Mosia nigrescens, vespertilionina.

Mosillus arcuatus, casei, demandata, frit, subsultans.

Mosina connexa, dejeani, filipes, fulva, latreillei, nigra, pubera.

Motacilla acutipenna, acutipennis, aedon, aguimp, alauda, alba, albeola, alboides, altera, amboinensis, apus, arenaria, asiatica, atricapilla, aurantia, aurata, aureocapilla, bistrigata, bivittata, boarula, borbonica*, brachyrhynchus, brachyura, brissoni, caerulescens, cambaiensis, campestris, canadensis, canescens, cantator, capensis, carolinensis, caroliniana, certhiaria, certhiola, cervina, chrysogastra, ciliata, cimbricus, cinerea, cinereocapilla, citrea, citrina, citrinella, clava, coelebs, coerulecula, coryphaeus, cucullata, cursor, curvata, cyanea, cyanecula, cyanoleuca, dauura, diophrys, domestica, dubia, dukhunensis, dumeticola, elata, erythrorus, familiaris, feldegg, hmbriata, nitreola, flava, flaveola, flavescens, flaviventris*, formicivora, frontalis, fusca, garrula, gracula, grisea, gularis, guzurata, hodgei, imperator, inornata, insularis, isabella, kaleniczenki, lateralis, leucogastra, leucopsis, leucoptera, lichtensteini, lindermayeri, locustella, locustrina, longicauda, longicaudata, lotor, lugubris, luteola, maculosa, madraspatana, media, melanocephala, melanoleuca, melanoxantha, melanura, melogaster, minima, minor, mistacea, montana, montium, naevia, neglecta, nigra, nigralba, nigricans, offinis, olivacea, ophthalmica, oxura, pastor, pavo, pectoralis, philomela, philomena, picata, pileolata, pinicarp, pinus, platensis, pleshanka, poliocephala, proregulus, pyrenaica, rayi, rhenana, rubetta, rubiginosa, rubra, rubricapilla,

ruficap, rufigastra, rupetra, salidaria, sartoria, sepium, septentrionalis, seticauda, simplex, speciosa, sperata, spipola, staperola, strapazina, striata, subflava, subviridis, sulphurea, sunamistica, superciliosa, sylvatica, sylvestris, sylvicola, sylviella, teheric, thoracia, thoracica, thunbergi, tractae, trichias, trochiloidea*, turdus, undata, vailanti, variegata, velificans, vernalis, vidua, vitiflora, vulgaris, xanthoschista, yarrelli.

Motella argentata, argenteola, caudacuta, ensis, fusca, glauca, mediterranea, mustela, pacifica, tricirrata, unicolorhata.

Motmot dombey, guianensis.

Moulinia cassidulina.

Moulinsia nunezi.

Mouretia costata, peruviana, reticulata, stellata.

Mouretus adansoni.

Mozena spinicrus.

Mucanum canaliculatum.

Mucedo mirabilis.

Mucropalpus fallax, fuscinervis, obscurus, parvulus, pygmaeus.

Mülleria (Cr.) grossimana.

Mülleria (Ech.) echinites, guamensis, lecanora, lineolata, mauritana, miliaris. *Vide et Mulleria.*

Muensteria anatiformis, canalifera, cuneata, lamellosa, praelonga, sulcata.

Mufetia autissiodorensis.

Mugil abu, acutus, albula*, amarus, atherina, auratus, axillaris, bispinosus, borbonicus, brasiliensis, breviceps, brevis, broussoneti, buosega, caeruleomaculatus, capensis, capito, carinatus, cascasia, caustelus, cephalotus, cephalus, chaptali, chelo, ciliilabris, cirrhostomus*, constantiae, corrugatus, corsula, crenilabris, cryptocheilus, cunnesius, curema, curtus, curvidens, cylindricus, dubahra, dussunieri, euronotus, falcipianis, fasciata, ferrandi, forsteni, gigas, grandisquamis, grunniens, guphus, haematochilus, japonicus, labeo, labiosus, lauvergni, liza, lotreganus, macrolepidotus, macrolepis, maderensis, melanocranus, melanocheir, melanopterus, minutus, multilineatus, obliquus, parmatius, parsia, pedaraki, peradaki, peroni, perusi, petrosus, planiceps, princeps, provenalis, ramada, rammelsbergi, richardsoni, saliens, salmonea, squamopennis, strongylocephalus, subviridis, tranquebar, vaigiensis, ventricosus, vulpinus, xanthurus.

Mugiloides chilensis.

Mugilomorus anna-carolina.

Muisca bitaeniata.

Mulinia bicolor, byronensis, crassidens, donaciformis, edulis, exalbida, lateralis, typicus.

Mulio apiarius, aureus, aurentus, bidens, brevirostris, cinereus, clavicornis, dubius, fasciatus, fasciolatus, frontalis, fuscus, globosus, holosericeus, infuscatus, leucoprocta, linearis, nigrita, obscura, punctipennis, serratus, virens, zonatus.

Mulleria digitata, papillosa. *Vide et Mulleria* (Ech.).

Mullus aureovittatus*, bandi, barberinus, bensasi, bifasciatus, chryserydros, chrysopleuron, cyclostomus, dubius, flavolineatus, fuscatus, fuscus, indicus, lateristriga, macronema, major, malabaricus, manilensis, minor, multifasciatus, ruber, rubescens, surmulletus, trifasciatus, vittatus.

Mungos fasciatus, gambianus, vitticollis. *Vide et Mongo.*

Munia acuticauda, ferruginea, fringilloides, fuscata, leuconota, lineoventer, malacca, minuta, oryzivora, punctularia, quincolor.

Munida bamfia, rondeleti, rubroniger, rugosa.

Muni-felis bonaerensis.

Munna boeckii, fabricii, kroyeri.

Muntjacus reevesi, vaginalis.

Muraena acerina, afro, africana, albimarginata, anatina, anguilla, arabica, argentea, atomaria*, bagio, balearica, bengalensis, bilineata, bostoniensis, bullata, cadomensis, cancellata, canina, cassini, catenata, catenula, cerino-nigra, cinerascens, colubrina, erythroptera*, fimbriata, flavimarginata, geographica*, geometrica, gracilis, grisea, griseo badia, guseau, guttata, hauannensis, havi, hepatica, isingleena, kidako, latirostris, lentiginosa, lewesiensis, lineo-pinnus, lita, macrocephala, maculosa, marmorata, minor, molendinaris, moringa, mystax, nigra, nubila, ocellata, oxyrhina, pantherina,

pardalis, pavonina, platyrhina, polyzona, prasina, punctata, raitaboura, reevesi, reticularis, reticulata, romana, rostrata, saga, sagenodeta, savanna, serpentina, siderea, similis, sordida, stellata, stellifer, tenebrosa, tessellata, thyroidea, tigrina, valenciennii, vamos, variegata, vermiculata, viridis, zebra. *Vide et Murena.*

Muraenox bengalensis, exodontata, hamiltoniae, lanceolata, serradentata, tricuspidata.

Muraenoblenna olivacea.

Muraenoides gunnellus.

Muraenophis afra, africana, appendiculata, bengalensis, catenula, colubrina, cristini, echidna, flaveola, fulva, grisea, haui, lineata, macularia, marmoreus, nigricans, ocellata, pantherina, reticularis, saga, sathete, stellata, tile, undulata, unicolor, zebra. *Vide et Murenophis.*

Muraenopsis tridactylum.

Murchisonia abbreviata, anglica, angulata, angustata, antiqua, autitorquata, archiacina, articulata, baltica, bellicincta, biarnica, bicincta, bigranulosa, bilineata, binodosa, breve, brongniartiana, cingulata, contraria, corallis, coronata, defrancei, elongata, excavata, fusiformis, geminata, gracilis, grandaeva, hercynica, humboldtiana, intermedia, josephi, larcomi, lloydi, nana, perangulata, plicata, polygrapha, pulchra, quadricarinata, regularis, scalaris, sedgwickiana, spinosa, spiralis, spirata, striatula, subabbreviata, subangulata, subfusiformis, subovata, subsulcata, sulcata, suturalis, taeniata, tricarinata, tricincta, trilineata, triserialis, turbinata, uniangulata, unicincta, varicosa, ventricosa, verneuilliana, vittata.

Murcia acaroides, acuminata, ephippiata, fumigata, obsoleta, rubra, trinaculata.

Murena punctata, variegata. *Vide et Muraena.*

Murenophis porphyreus. *Vide et Muraenophis.*

Muscipara angustirostris, bivittata, boliviana, gaimardi, leucophrys, oleaginea, stramineo-ventris, striaticollis, subcristata, ventralis, vermivora, viridicata.

Muscipoides imitator, juncorum, salicarius.

Muscicapula acornaus, maculata, melanoleuca, rubecula, sapphira, superciliaris.

Muscigralla brevicauda.

Muscina concolor, grisea, fungivora, pabulorum, picaena, stabulans.

Muscipeta acadica*, affinis, albiceps, albicollis, amiantina, arundinacea, asilus, atricapilla, atriceps, atrocaudata, aurantia, australis, badia, barbata, bicolor, bimaculata, boodang, borbonica, brevirostris, caerulea, caribea, carinata, castanea, cayennensis, ceylonensis, chrysoceps, cinnamomea, citrina, collaris, coronata, cristata, ferreti, flabellifera, flammea, flavigaster, flaviventris, fluviatilis, fluvicola, fusca, fuscata, gaimardi, guillenini, hippolais, holosericea, incanescens, indica, labrosa, lacustris, lapis, leucocephalus, leucogaster, locustella, luteoventer, maculatus, marginata, melanogaster, melanoptera, metaleuca, miniata, modesta, monacha, mutata, nebulosa, obscura, olivacea, palustris, paradisea, paradisi, paradisiacus, pectoralis, peregrina, perspicillata, phragmitis, platyrhyncha, plumbeus, plumosa, polyglotta, princeps, principalis, pulsator, rallioides, regius, rufa, rubicauda, rufipennis, rufiventer, rutililla, salicaria, scapularis, setosa, smithi, splendens, strigillata, torquata, tricolor, turdoides, vieilloti, yiperu.

Muscisaxicola albifrons, brunnea, macloviana, maculirostris, mentalis, nigra, rufovertex, straticeps.

Muscisylvia leucura.

Muscitrea cinerea.

Muscivora aestiva, barbara, cana, carolinensis, crinita, cristata, ferruginea, forficata, leucocephala, madagascariensis, mutata, paradisi, petechia, philippensis, regia, rufa, rupestris.

Musculites comprimatus, gibbosus, mytiloides, rugosus, sablonatus, striatus.

Musculium lacustre.

Musculus cervicolor, dichurus, dubius, dumecolus, frugivorus, leucopus, nigricans, nipalensis.

Muscylvia scitla.

Musicapa pagana.

Musophaga africana, cristata, gigantea, paulina, pauline, persa, persicus, senegalensis, variegata.

Mussa angulosa, cactus, carduus, cerebriformis, corymbosa, costata, crispa, cytherea, dianthus, dipsacea, fastigiata, fragilis, gyrosa, multilobata, nobilis, recta, regalis, sinuosa.

Mustela (M.) aestiva, afra, africana, agilis, albifrons, alpina, altaica, americanus, angustifrons, astuta, auriventer, barbata, brachyura, brasiliensis, cafra, calotis, calotus, canigula, cathia, elongata, eversmanni, fagorum, fasciata, frenata, fusca, gale, genetia, godmani, guettoides, hardwicki, harigula, hemachalanus, henrici, hodgsoni, horsfieldi, hudsonica, hudsonius, humboldti, humeralis, hydrocyon, ichneumon, ictis, incerta, itatsi, javanensis, laevis, laira, lanata, larvata, leucogenis, leucoparia, leucopus, longicauda, lutrecephala, mapurita, melampus, melanographa, minx, natsi, nigra, nudipes, patagonica, piscatoria, plesictis, pusilla, richardsoni, rufa, sinuensis, spelaea, striata, surinamensis, taxoda, tuan, venusta, vittata, vulpecula, xanthogenys, zorilla.

Mustela (P.) cinbrica, laevis, tricirrhata, vulpina.

Mustellus levis, stellatus.

Mustelus asterias, canis, equestris, megalopterus, mustelus, plebejus, punctulatus, vulgaris.

Mustha serrata.

Mutilla abdominalis, affinis, africana, agrestis, algira, analis, angusticollis, arabica, argentata, argentea, argenteus, argyra, argyrea, armata, armenica, aucta, aurea, aurulenta, australasiae, austriaca, bengalensis, bicolor, bifasciata, bifurca, bilineata, bimaculata, bipunctata, bitaeniata, blanda, brucei, bucephala, caeruleans, capitata, caspia, caucasica, cephalotes, cerbera, chiesi, chrysodora, chrysophthalma, cinerescens, clausa, collaris, colombica, concinna, confusa, conjuncta, continua, contracta, cornuta, crassa, cyanea, derasa, differens, dimidiata, diophthalma, distincta, dorsalis, dorsigera, dorylus, dubia, egregia, elegans, erythrocephala, excoriata, fasciata, fasciaticollis, fenestrata, ferrugata, ferruginata, fimbriata, flabellata, floralis, fraterna, frontalis, funeraria, fuscipennis, ghiliani, gibba, gibbosa, gigantea, graeca, griseus, hexagona, histrio, hottentotta, iberica, incerta, incompleta, inermis, interrupta, kaschiriensis, klugi, lanata, larvata, lateralis, lepida, leucopyga, lineola, luctuosa, lugubris, lusca, macquarti, maculosa, marginata, marocana, melana, melanocephala, micans, monspeliensis, montana, montezumae, morosa, myrmecium, myrmecodes, nemoralis, nigripennis, nigrita, nilotica, nitidiventris, notata, novemguttata, obliquata, obscura, obsoleta, ocellaris, octo maculata, oculata, opaca, oraniensis, ornata, panzeri, parallela, partita, parvula, pedunculata, peleteri, pensylvanica, perspicillaris, petiolaris, petiolata, phalerata, punctum, quadriguttata, quadrimaculata, quadrinotata, quadripunctata, quadripustulata, quadrum, quinquefasciata, quinquepunctata, rectangulum, rubricans, rubricollis, rubrocincta, rufa, rufiventris, rufo-gastra, rugicollis, rugosa, sabulosa, sanguinicollis, schaefferi, scruposa, semistriata, senegalensis, senex, sexmaculata, signata, singularis, sinuata, soluta, sphegea, spinifera, spinigera, spinolae, tabida, testacea, togata, triareolata, tricolor, trimacula, tristis, tuberculata, tunensis, uncinata, unimaculata, usilla, vestita, vidua, vigilans, villosa, vittata, zonata.

Mutzia heterodactyla.

Mya abrupta, acuta, aequata, alata, alba, aldovandi, alia, ambigua, angulata, angulifera, angustata, avicularis, batava, bidentata, binghami, calceiformis, cancellata, communis, complanata, conglobata, convexa, corpulenta, costulata, crassa, declivis, decussata, depressa, distorta, dilata, dilatata, elongata, elongatus, erodona, ferruginea, ferruginosa, gigas, gibbosa, glabrata, globosa, gravis, gregaria, hyalina, inaequalis, integra, intermedia, intersectans, jonieroma, labiata, laeviuscula, lata, literata, longirostris, longulifera, mandibula, mercenaria, mindorensis, minima, minuta, modica, modiolina, multidentata, nasuta, nitens, nodulosa, nucleus, obliqua, oblongata, obovata, ornata, ovalis, ovata, panopaea, particolor, parvula, pellucida, phaseolina, pholadia, picea, plana, plicata, ponderosa, praecisa, praelonga, praetenuis, prismatica, producta, pseudomya, pullus, punctatus, punctulata, purpurea, reflexa, rigida, rivorum, rotunda, rotundata, rugosa, rugulosa, rustica, semidiaphana, semistriata, siliqua, sinuosa, solemyalis, striata, subangulata, suborbicularis, subovata, substriata,

subtruncata, sulcata, swanson, tellinaria, tellinoides, tenuis, testarum, tranquebarica, trigon, trinita, triquetra, undulata, v-scripta, variabilis, ventricosa, versicolor, vezelayi.

Myacites albinis, alberti, asserculatus, fassaensis, giganteus, grandis, impressus, intermedius, maetroides, margaritiferaeformis, musculoides, obtusus, ovatus, protogaeus, radiatus, solenoides, striatulus, tellinarius, V-scripta, ventricosus.

Myadestes ardesiacus, obscurus, oriatus.

Myadora brevis, crassa, curvata, oblonga, ovata, pandoraeformis, plana, rostralis, striata, tineta, trigona.

Myagrus auritus.

Myalina goldfussiana, lamellosa, subovata, virgula.

Myalurus citrinus.

Myas chalybaeus, cyanescens, foveatus, rugosicollis.

Myatella montagui.

Myathropa florea.

Mycalesis evadne, hamerta, hesione, justina, minea, orea.

Mycelaus gambius.

Mycedium ampliatus, cucullatus, elephantopus, elephantotus.

Mycerobas ferreirostris, icteroides, melanoxanthus.

Mycetaea fumata, hirta.

Mycetaulus hoffmeisteri.

Mycetes auratus, barbatus, belzebul, bicolor, caraya, chrysurus, crinicaudus, discolor, faunus, flavicaudatus, fuscus, laniger, niger, palliatus, rufimanus, seniculus, stramineus, ursinus, villosus.

Mycetia claripennis, communis, pallipes, tibialis, vulgaris.

Mycetina cruciata.

Mycetobia annulata, defectiva, fasciata, ferruginosa, pallipes, thoracica.

Mycetochares bimaculata, bipustulata, gracilis, quadrimaculata.

Mycetocharis morio, rudis.

Mycetocharus niger, ruficornis.

Mycetoma suturale.

Mycetomyza apicalis, fusiformis, marginepunctata, nebulosa, nigrofasciata, obscuripennis, pallida, ruficornis, rufo-testacea, subvittata, tripunctata.

Mycetophagus aeneus, bimaculatus, bimaculosus, bipustulatus, castaneus, decemguttatus, decempunctatus, didemus, ellipticus, flavipes, flavomaculatus, flexuosus, fumatus, fuscus, glabratus, histrio, humeralis, ianus, imperialis, lunaris, maculatus, maculosus, niger, nigrita, obscura, pictus, pini, pubescens, punctatus, quadriguttatus, quadrimaculatus, quadripustulatus, quadri-signatus, rufipes, sexpunctatus, sinuatus, substriatus, tessellatus, tetratoma, tomentosus, trifasciatus, undulatus, unifasciatus, variegatus, varius. *Vide et* **Micetophagus**.

Mycetophila (Col.) amoena, axillaris, barbata, bipustulata, brevis, flavipes, humeralis, linearis, maura, morio, pulchella, pumilio, quadripustulata, rufipes, scapularis, scatophora, sericea.

Mycetophila (Dipt.) abdominalis, agarici, alterna, alternans, amabilis, analis, anderschi, annulata, anomala, antiqua, apicalis, arcuata, atra, attenuata, bicincta, bicolor, bifasciata, bimaculata, biusta, borealis, brevicornis, brunnea, caudata, centralis, cincticornis, cingulata, cingulum, compressa, concolor, contigua, crassicornis, cristata, cucullata, cunctans, curona, despecta, diagonalis, dilaticornis, dimidiata, discicollis, discoidea, dispar, distigma, domestica, dorsalis, dubia, fasciata, fascipennis, fenestralis, festiva, flava, flaviceps, flavipennis, flavipes, fulvicollis, fungorum, fusca, fuscicornis, fuscipennis, fuscula, gracilis, grata, griseicollis, guttiventris, hilaris, humeralis, ichneu-monea, incompleta, inermis, intersecta, laeta, lateralis, latipennis, leptocera, leptura, lineola, lucidula, luctuosa, lugens, lunata, lunulata, lurida, lutea, luteipennis, lycogalae, macquarti, macrostyla, maculata, maculipennis, maculosa, melanura, minuta, modesta, monostigma, nana, nebulosa, nemoralis, nigra, nigricincta, nigrigella, nitida, nubila, obscura, obscurella, ocellus, oliginense, ornata, ornaticollis, pallicornis, pallida, pallidicornis, pallipes, paludosa, parva, picta, pictipennis, pictula, plebeia, propinqua, proxima, pulvillata, punctata, punctipennis, punctipes, punctum, pusilla, pygmaea,

reciproca, rufa, rufescens, ruficollis, ruficornis, schummeli, sciarina, semicincta, semilava, semifusca, seriata, sericea, sericoma, signata, sordens, strigata, subfasciata, submaculata, taeniata, tarsata, thoracica, trimaculata, trinotata, trivialis, trivittata, unicolor, unipunctata, vara, venosa, vicina, vitta, walkeri, winthemi, zonata.

Mycetophyllia daniana, lamarekiana, stellifera.

Mycetopoda siliquosa, soleniformis.

Mycetoporus americanus, bicolor, brevicornis, crassicornis, debilis, elegans, lepidus, longicornis, longulus, lucidus, nanus, nigricollis, pallidulus, piceus, pronus, punctus, ruficollis, semirufus, splendens, splendidus.

Mycetopus ventricosus.

Mychocerus ferrugineus.

Mycophtorus melanocerus, pauperculus.

Mycotheres leucopoda, oligopoda, vittata.

Mycotretus aestuans, ambulator, apicalis, arcuatus, argus, bistrigatus, chrysomelinus, cinctellus, clitelliger, coelestinus, cognatus, coronatus, cyanopterus, decoratus, difficilis, distigma, dorsofasciatus, dorsonotatus, dubius, duodecinguttatus, durius, dytiscoides, episcopalus, fasciolatus, figuratus, flavomarginatus, floriger, fuscitarsis, gemmula, gentilis, godarti, graniformis, graphoderus, hepaticus, hilaris, humeralis, humilis, intermedius, jocosus, lacertosus, lepidus, leprosus, lesueuri, luteipes, maculosus, magus, marginicollis, melanophthalmus, melanopterus, melanostictus, miniatus, minutus, misellus, nigrivittis, nigrocinctus, nigropunctatus, nigroterminatus, nugator, ornatus, palmiphilus, partitus, pecari, polyophthalmus, posticus, psittacus, pulchellus, pulcarius, pusillus, pygmaeus, quadrinus, quatuordecimguttatus, rhodosomus, sanguineus, sannio, savignyi, scalaris, scitulus, sexoculatus, silaceus, singularis, sobrinus, sticticollis, subcylindricus, terminalis, tesserarius, tigratus, tigrinus, trabeatus, vilis, xanthosomus.

Mycopogon aureus, cayanensis, cinctus, fuliginosus, margaritaceus, naevius. *Vide et Micropogon (A.).*

Myteria argala, asiatica, australis, novae hollandiae.

Myteris sulcatus.

Myteristes cumingi, rhinophyllus.

Mycterodus nasutus.

Mycteroplus puniceago.

Mycter curculioides, curculionoides, fulvicornis, molassicus, scaber, tibialis, umbellatarum.

Myctiris subverrucatus.

Myctis affinis, alatus, albiditarsis, annulicornis, apicalis, bicolor, fasciatus, fuscus, gracilis, granulipes, horrificus, lobipes, longicornis, parallelus, profanus, punctum, religiosus, scriptus, scutellaris, varicornis, ventralis. *Vide et Mictis.*

Myctophila centralis, praeusta.

Myctophum asperum, boops, coruscans, elongatum, gemellare, hians, metopoclampum, punctatum, rafinesquei.

Myctoporus brevicornis.

Mydaea floricola, humeralis, liturata, musca, nigripes, pellucida, rapida, scutellaris, suillorum, vomituritionis.

Mydas atratus, bispinifer, botta, brevicornis, caerulescens, cinctus, clavatus, clavigera, concinnus, fulvifrons, fulvipennis, fulviventris, gigantea, gracilis, incipiens, incisus, limpidipennis, lineata, lusitanicus, melleipennis, nitidula, plebeia, ruficornis, rufithorax, rufiventris, rustica, sordidus, testaceiventris, varipes, vittatus, westermanni. *Vide et Midas.*

Mydaus collaris, javanensis, javanicus, javannus, meliceps.

Mydina analis, campestris, cinerascens, claripennis, communis, dispar, fuliginosa, fulvicornis, impunctata, lactifica, limpidipennis, ludibunda, maura, mollis, nigra, nigricans, nigripes, nitens, palustris, pellucida, soror, vernalis.

Myelois abstersella, alpicolella, argyrogrammos, artemisiella, bigella, ceratoniae, cinerosella, confiniella, corcyrella, cribratella, crudella, dulcella, exsulella, incompta, indigenella, infuscatella, infusella, intextella, magella, medullalis, obliqua, placidella, saxeella, stercorea, subcanella, vittalbella.

Myelophila *geminella*.

Myelotes *exsculptus*, *sulcatus*.

Myennis *fasciata*.

Mygale *adusta*, *afnis*, *africana*, *annei*, *annulipes*, *anthracina*, *antipodiana*, *antipodum*, *antiqua**, *ariana*, *arvernensis**, *athletica*, *australiana*, *avicularia*, *barbara*, *bartholomaei*, *bistriata*, *blondi*, *brunnea*, *brunniipes*, *caementaria*, *caesia*, *caferiana*, *calpeana*, *cancerides*, *carminans*, *carolinensis*, *cellicola*, *chilensis*, *coementaria*, *conformis*, *conspersa*, *convexa*, *coracina*, *cratiens*, *cubana*, *cunicularia*, *detrita*, *diversipes*, *drassiformis*, *elegans*, *erichsoni*, *fasciata*, *felina*, *fervida*, *fimbriata*, *fluvialis*, *fodiens*, *funebra*, *funebis*, *fusca*, *geniculata*, *gracilipes*, *gracilis*, *guianensis*, *herculea*, *hexops*, *hirsuta*, *hirsutissima*, *hirtipes*, *hostilis*, *icterica*, *incana*, *ionica*, *javanensis*, *klugi*, *laeta*, *leporina*, *longitarsis*, *lycosiformis*, *maerura*, *maculata*, *meridionalis*, *mindanao*, *monstrosa*, *moschatus*, *moscovitica*, *murina*, *nayadum*, *nidulans*, *nigra*, *notasiana*, *oceatoria*, *ochracea*, *oculata*, *olivacea*, *plantaris*, *plunipes*, *pumilio*, *pygmaea*, *pyrenaica*, *reichei*, *rosea*, *rubiginosa*, *rufidens*, *saeva*, *sancti-vincenti*, *sauvagesi*, *scoparia*, *scrofa*, *seladonia*, *solitaria*, *sol-titialis*, *spinicrus*, *splendens*, *subcalpeana*, *sulzeri*, *testacea*, *truncata*, *unicolor*, *urina*, *valentina*, *venosa*, *versicolor*, *villosa*, *walckenaeri*, *zebra*, *zebrata*.

Mygaloides *nubila*.

Mygiatheria *absoluta*.

Myiadestes *griseiventer*, *leucotis*, *obscurus*, *townsendi*.

Myiagra *assimilis*, *azurea*, *caerulea*, *concinna*, *fascians*, *flavigaster*, *flavipes*, *latirostris*, *leucogastra*, *longicauda*, *macroptera*, *manadensis*, *nitida*, *plumbea*, *resplendens*, *rubecoloides*, *rubecula*.

Myiagrus *lineatus*.

Myiarchus *acadica*, *atropurpureus*, *cinereus*, *coronatus*, *divaricata*, *ferox*, *ferrugineus*, *fusca*, *nigricans*, *obscurus*, *myiastes*, *rufiventris*, *setophagoides*, *tuberculifera*, *validus*, *virens*, *virgatus*.

Myiastes *genibarbis*.

Myiina *abdominalis*, *acoetes*, *affinis*, *apicalis*, *argiope*, *atomos*, *facialis*, *flava*, *flaviceps*, *flavicornis*, *flavipes*, *fuscicapus*, *idaeus*, *longipennis*, *ovulorum*, *scutellaris*, *semi-circularis*, *tibialis*, *varipes*.

Myiobius *academicus*, *affinis*, *agilis*, *albiceps*, *albicollis*, *ardosiacus*, *armillatus*, *asilus*, *ater*, *atropurpureus*, *audax*, *auriceps*, *auricularis*, *barbatus*, *barbistrostris*, *bimaculatus*, *brevipes*, *brevirostris*, *caniceps*, *caribaeus*, *cayanensis*, *chrysoceps*, *chrysochloris*, *cinereus*, *cinnamomeus*, *cooperi*, *crinitus*, *diadema*, *erythrurus*, *eximius*, *ferox*, *ferrugineus*, *flammiceps*, *flaviventer*, *fuliginosa*, *fumigatus*, *fuscatus*, *fuscus*, *guillemini*, *icterophrys*, *leucophaeus*, *leucotis*, *l'herminieri*, *luteoventer*, *magnirostris*, *martinicus*, *megacephalus*, *melanops*, *minimus*, *minutus*, *murinus*, *musicus*, *naevius*, *nigricans*, *nigricapillus*, *nunciola*, *olivus*, *pallidus*, *parvirostris*, *petechius*, *platyrhynchus*, *pusillus*, *pyrrhopterus*, *rivularis*, *ruicaudatus*, *rufinus*, *rufpectus*, *rufotaeniatus*, *saya*, *sibilator*, *similis*, *spadiceus*, *stolidus*, *striatus*, *strigilatus*, *sulphureus*, *superciliatus*, *surinamensis*, *traillii*, *tristis*, *tschudii*, *tuberculifer*, *turdinus*, *uropygialis*, *varius*, *vieillotii*, *virens*, *virescens*.

Myioctonus *mitratus*, *pusilla*.

Myiodectes *verticalis*.

Myiodictes *bonapartei*, *canadensis*, *coronatus*, *formosus*, *mitratus*, *pardalina*, *pusilla*, *tristriatus*, *verticalis*, *wilsoni*.

Myiolestes *concreta*, *hyacinthina*, *megarhyncha*, *obscurus*, *pyrrhonota*.

Myiomela *diana*.

Myiophaga *andromeda*.

Myiophoneus *horsfieldi*, *glaucus*, *metallicus*, *temminckii*.

Myiophonus *cyaneus*, *flavirostris*.

Myiornis *minimus*.

Myiothera *affinis*, *alapi*, *albicollis*, *albifrons*, *andromedae*, *arada*, *ardesiaca*, *aurita*, *bambla*, *blattivora*, *caerulea*, *calcarata*, *campanella*, *campanisona*, *cantans*, *capistrata*, *cinerea*, *cinnamomea*, *cirrhata*, *colma*, *coraya*, *cyanura*, *domicella*, *epilepidota*, *ferruginea*, *formicivora*, *fuliginosa*, *grallaria*, *grammiceps*, *griseus*, *gularis*, *guttata*,

indigotica, leucophris, lineatus, longirostris, loricata, maculata, melanothorax, naevia, nematura, nudiceps, obsoleta, pectoralis, perlata, perspicillata, pileata, plumbea, poliocephala, pygmaea, pyrogenys, rhynolopha, rufa, ruficauda, rufifrons, scapularis, squamata, stictothorax, strigilata, superciliaris, tetema, thamnophiloides, thoracica, umbretta, variegata, yarrelli. *Vide et Myothera.*

Myiotheras luctuosus.

Myiothlypis luteoviridis, nigricristatus.

Myioturdus fuscater, lineatus, marginatus, ochroleucus, palikour, perspicillatus, rex, tetema, tinniens, umbretta.

Mylabris adamsi, aestuans, affinis, afzelii, aga, alpina, alterna, amoenula, angulata, apicalis, arabica, argentata, argus, armeniaca, aulica, axillaris, bertrandi, bicolor, biguttata, billbergi, bi-maculata, bipunctata, bivulnera, brunripes, byzantina, caeruleomaculata, calida, caspia, chrysomelina, chrysura, cichori, cincta, circumflexa, coeca, coerulescens, colligata, confluent, contexta, crocata, cruentata, curta, cyanescens, cylindrica, dahl, decemguttata, decora, decorata, dejeani, dentata, designata, dilloni, dimidiata, dufouri, dumolini, duodecimguttata, duodecimmaculata, duodecimpunctata, duplicata, elegans, elegantissima, excellens, exclamatoria, exteriepunctata, faeslini, fasciata, fasciata-punctata, femorata, flavicornis, flavoguttata, flexuosa, floralis, frolovi, fuliginosa, fusca, gebleri, gilvipes, goudoti, grisescens, groendali, guerini, gyllenhali, haemorrhoea, hemprichi, hieracii, holosericea, husseini, hyeroglyphica, impar, impressa, impunctata, incerta, intermedia, interrupta, iucunda, jacquemonti, karelini, klugi, lacera, latreillei, lavaterae, ledebouri, liquida, litigiosa, maculata, maculiventris, maculosa, magica, mannerheimi, marginata, matthesi, maura, melanura, melloti, menthae, mimosae, mutabilis, myops, natalensis, nigriplantis, nitida, novemdecimpunctata, octodecim-punctata, octonotata, octo-punctata, oleae, olivieri, pallasi, pallidomaculata, pallipes, paykulli, phalerata, plagiata, pubescens, pulchella, pupillata, pusilla, pustulata, quadrifasciata, quadriguttata, quadrimaculata, quadri-punctata, quadrisignata, quattuordecimpunctata, rubripennis, rufipes, sanguinolenta, scabiosa, scabrata, scapularis, schneideri, schoenherri, schrenki, sedecimguttata, sericata, setigera, sexdecimguttata, sexdecimpunctata, sexnotata, sibirica, silbermanni, sinuata, sisymbrii, smaragdina, sobrina, solonica, spartii, splendidula, succincta, superba, swartzii, syriaca, taeniata, tauscheri, tenebrosa, tenera, terminata, thunbergi, tidensis, tigrina, tincta, tortuosa, tricineta, tricincta, trilingulata, trifasciata, trigrinipennis, tripunctata, tristis, undatus, undecimpunctata, unicolor, unifasciata, varia, varians, vestita, vicina, vigintipunctata, wagneri, zonata.

Mylacus murinus.

Mylaechus brunneus.

Mylesinus schomburgki.

Myletes acanthigaster, alleni, asterias, aureus, baremoze, bidens, brachypomus, dentex, divaricatus, didycolon, duriventris, guile, hasselquisti, hassesquisti, hypsauchen, latus, lobatus, luna, macropomus, niloticus, nurse, orbignyanus, paco, pacu, palometa, rhomboidalis, rubripennis, schomburgki.

Myleus oligacanthus, setiger.

Myllobates acuminatus, acutus, angustidens, angustus, apeninus, aquila, brongniarti, canaliculatus, colei, contractus, dixon, duplicatus, edwardsi, episcopus, girondicus, goniopleurus, gracilis, gyratus, haidingeri, heteropleurus, holmes, irregularis, jugalis, macroptera, marginalis, micropleurus, nitidus, oweni, lateralis, porosus, pressidens, punctatus, regleyi, rima, rugosus, saturalis, serratus, sternbergi, stokesi, studeri, subarcuatus, sulcatus, suturalis, toliapicus, transversalis, woodwardi. *Vide et Miliobates.*

Myllobatis acuta, aquila, bispinosus, bovina, cyclurus, eeltenkee*, freminvillei, jussieui, maculatus, marginata, milvus, narinari, nieuhofi, noctula, ocellatus, striatus, testae, vultur.

Mylites hasselquisti.

Myllaena dubia, glauca, gracilis, grandicollis, intermedia, minuta, terminans.

Myllita deshayesi.

Myllocerus arabicus, aristatus, australis, brevicollis, canaliculatus, corycaeus, curvicornis, dentifer, discolor, dorsatus, eximius, fabricii, isabellinus, morio, musculus, saturate-virens, subfasciatus, subvirens, transmarinus, variegatus, viridanus.

Mylorhinus bicaudatus.

Myodon darwini, harlani.

Mylothris agrippina, argia, arsalte, demophile, drusilla, elodia, hedyale, hemitheia, hippo, hippomonuste, limnoria, margarita, molpadia, monuste, orbona, pantoporia.

Mymar acuminatus, cucullatus, dimidiatus, longicornis, pallidus, pulchellus.

Mynes geoffroyi, leucis.

Mynomes pratensis, riparius.

Myobatrachus paradoxus.

Myobia (Ar.) coarctata.

Myobia (Dipt.) aequa, albipennis, aurea, aurifrons, bicolor, chalybeata, cinerascens, femorata, flavipes, fragilis, fulvipalpis, hospes, inanis, lateralis, longicornis, melaleuca, nana, nitens, pacifica, rufoceps, ruficrus, spreta, sublutea, testacea, tenuisetosa, vaga, villana.

Myobius tristis.

Myocera anthophila, calcium, fera, grisea, longipes, nomada.

Myochama anomioidea, strangei, transversa.

Myochrous inmundus.

Myocinclia colina.

Myoconcha actaeon, angulata, aspasia, auricula, compressa, costata, crassa, cretacea, cuneata, discrepans, elliptica, fittoni, helmerseniana, incurva, lata, maximiliani, minima, modioliformis, murchisoni, neoconiensis, ornata, pallasi, radiata, ratheriana, requieniana, scalprum, simpla, spatula, striatula.

Myocoris barbipes, bicolor, braconiformis, gilvus, gracilis, nigricaps, personatus, pompi-lodes, rubrithorax, tipuliformis.

Myoda elegans, hyalina, lineata, oleae, pluvialis, scybalaria, stercoraria, tentaculata.

Myodermum alutaceum.

Myodes (Col.) dorthesi, stylopides, subdipterus.

Myodes (M.) albigularis, allianus, arvalis, greenlandicus, gregalis, helvolus, hudsonicus, hudsonius, lagurus, lemnius, lemurus, migratorius, oecionomus, rutilus, saxatilis, schisticolor, socialis, torquatus, trimucronatus.

Myodina urticae.

Myodocha opetilata, serripes, tipuloides, trispinosa.

Myodocheus costalis, fulvipes, serripes, tipuloides, trinotatus, trispinosus, varicornis.

Myodora arenosa.

Myogalea moschata, pyrenaica.

Myolepta luteola.

Myonia elongata, valida.

Myopa americana, annulipes, apicalis, argentea, australis, biannulata, bicolor, bistris, buccata, cinerascens, distincta, dorsata, elegans, ephippium, fasciata, femorata, flavescens, flavifrons, flavipes, frontalis, fulvifrons, fulvipes, gemina, grandis, grisea, irrorata, longicornis, longirostris, maculata, marginata, meridionalis, micans, morio, nana, nigra, nigripennis, nigripes, nigrita, nitidula, notata, oblique fasciata, occulta, pallipes, pellucida, pictipennis, pusilla, rubrifrons, scutellaris, speciosa, stigma, stylata, sundewalli, tessellata, tibialis, umbripennis, varia, variegata, vesiculosa, vicaria, virens.

Myopara costatus.

Myophonus cyaneus, flaviviridis, horsfieldi, metallicus, nitidus, temminckii.

Myophora abdominalis, aestivalis, affinis, agilis, agricola, albicans, albidipennis, aprilis, argyrostoma, arvensis, arvicola, arvorum, atra, atrata, aurifacies, blondeli, brasiliensis, brunifacies, campestris, camporum, capensis, carceli, carnaria, chrysellia, cinerea, cognata, collinaris, compar, conica, consobrina, contempta, crocata, cubensis, depressa, duvauceli, fervida, flaveola, flavescens, florea, fuliginosa, fulvicornis, fuscipennis, grisea, grisea, haemorrhoea, haemorrhoidalis, hemisphaerica, horticola, humboldti, intermedia, laticrus, therminieri, limpidipennis, livens, livida, maialis, musca, nana, nigra, nigricans, obscura, obscuricauda, obscuripennis, peregrina, peroni, rapida, riparia, rubescens, rubiginosa, rustica, sericea, sordida, soror, specialis, squaleus, squalida, squamigera, squamosa, striata, subnitens, subrotunda, vernalis, villana, villica, viridescens, vivida.

Myophoria blainvillei, cardissoides, curvirostris, decussata, elegans, goldfussi, inaequicostata, kefersteini, laevigata, lineata, modiolina, orbicularis, ornata, ovata, pesanzeris, rugosa, simplex, trigona, vulgaris, whateleyae.

Myopina reflexa.

Myopites blotti, inulae.

Myopotamus antiquus, bonariensis.

Myopsis acutisulcata, arcuata, arduennensis, asteriana, attenuata, carteroni, constanti, cottaldina, cretacea, cuneata, curta, gibbosa, inaequivalvis, jurassi, lata, lateralis, mandibula, marginata, massiliensis, neocomensis, prevosti, recta, robinaldina, rostrata, scaphoides, unioides, urgonensis.

Myopterus daubentoni.

Myorhina campestris.

Myorhinus albolineata, incisirostris, lepidus, limis, setarius, steveni.

Myoris silvatica.

Myosodus femoratus, intricatus.

Myosoma fasciatum, fuscipenne, hirtipes, mutator, rubriventre, rubrum.

Myosorex varius.

Myospalax fuscocapillus.

Myostoma microcera, scutellaris.

Myota buqueti.

Myothera albifrons, analis, auritus, bambla, blattivora, caudacuta, colma, ferruginea, formicivora, grallarius, gularis, leuconota, lineata, lucotis, malura, mentalis, multicolor, naevia, nigro-maculata, ruficeps, rufomarginata, strictothorax, superciliosa, telma, tinniens. *Vide et Myiothera.*

Myotis bechsteini, dasycnemus, daubentoni, murinus, natereri.

Myoturdus carolinensis.

Myoxocephalus stelleri.

Myoxoides australasiae*.

Myoxus africanus, americanus*, avellanarius, capensis, cattoiri, coupei, cuvieri, drummondi, elegans, erythrobronchus, fossilis, frugivorus, guerlingus, javanicus, lineatus, melanurus, minor, murinus, nitidulae, orobinus, parisiensis, poliaurus, primigenius, quercinus, siculae, spelaeus, tamaricinus, virginicus.

Myra affinis, carinata, dilatimanus, elongata, fugax, variegata.

Myrapetra scutellaris.

Myraptera brunnea, elegans.

Myriacanthus franconicus, granulatus, paradoxus, retrorsus, vesiculosus.

Myriana longissima, pennigera.

Myrianida fasciata.

Myrianites macleayi, murchisoni, sillimani.

Myriapora deformis, gracilis, truncata.

Myrina alcides, amyntor, anterylus, atynnus, chitra, erylus, etolus, evagoras, heleus, hypatada, jafra, lisias, nedymond, nyx, onyx, pita, ravindra, sugriva.

Myriodon waigiensis.

Myriophyllia rastellina.

Myriopora creplini.

Myriosidrum dilatatum.

Myriothela arctica.

Myrizoon truncatum.

Myrizoom gracilis.

Myripristis axillaris, borbonicus, botche, hexagonus, homopterygius, jacobus, japonicus, kuntee, leignathos, leptacanthus, lima, murdjan, parvidens, pralinus, seychellensis, toliapicus, vittatus.

Myristica coronata, hippocastaneum, lainei, lineata, melongena, nodosa.

Myrmacielus formicarius, unicolor.

Myrmarachne melanocephala.

Myrmexchixenus subterraneus, vaporariorum. *Vide et Myrmecoxenus.*

Myrmecoxenus picinus.

Myrmecia (Ar.) caliginosa, lunata, melanocephala, nigra, rubra, vertebrata.

- Myrmecia** (Hym.) cordata, emarginata, esuriens, forficata, gulosa, haematoda, hamata, hastata, maxillosa, rostrata, unispinosa, varia.
- Myrmecilla** pygmaea.
- Myrmecina** latreillei.
- Myrmecinomus** hochhuthi.
- Myrmecium** gracile, hemisphaericum, rufum.
- Myrmeciza** longipes, melanura.
- Myrmecobius** (Col.) agilis.
- Myrmecobius** (M.) fasciatus, rufus.
- Myrmecocichla** aethiops, formicivora, nigra.
- Myrmecocystus** mexicanus.
- Myrmecodes** australis, flavoguttatus, olivieri, pedestris, scoliaeformis.
- Myrmecoleon** frontalis, irroratus, luteipennis, pardalinus, pumilus, roseipennis, venosus.
- Myrmecolichnus** didactylus.
- Myrmecomya** formicaria, micropezoidea.
- Myrmecophaga** alapi, annulata, aurita, bambla, campanella, cantans, cirrata, colma, coraya, formicivora, gigantea, gigas, grallaria, lineata, nigra, tetema, tinnica.
- Myrmecophila** acervorum, bifasciata, hirticauda.
- Myrmecophorus** rufescens.
- Myrmecopsis** eumenides.
- Myrmecoptera** egregia.
- Myrmecoxenus** epulo. *Vide et Myrmecichixenus.*
- Myrmedonia** armata, atrata, atricapilla, boops, camura, canaliculata, cognata, collaris, confragosa, coriacea, dispar, frontalis, fulgida, funesta, gracilis, grandis, humeralis, inscita, labida, laticollis, lunbata, longicordis, lugens, marginicollis, memnonia, munda, nigricollis, nigriventris, obscura, ochracea, parilis, plicata, prolixa, rigida, ruficollis, satelles, similis, speciosa, spinigera, subtumida, suturalis, terminata, tristis, tumidula, turbida.
- Myrmeleo** libelluloides, pantherinus.
- Myrmeleon** abdominalis, aegyptiacus, africanus, alternans, angusticollis, annulatus, anomalous, appendiculatus, atomarius, bifasciatum, bistrigatus, brevipenne, capensis, cephalotes, cinereus, confusus, conspersus, con-punctatus, distinguendus, elegans, elongatum, erythrocephalum, fallax, flavomaculatus, flavus, formicarium, fulgens, georgianum, gigas, gracilis, griseus, gulo, guttatus, hyaena, hyalinum, incertus, inconspicuus, innotatus, insignis, irroratus, laetus, lanceolatus, leopardus, lepidus, linearis, lineola, lineosus, litturatus, longicaudus, lupinum, melanocephalum, murinus, nebulosum, neutrum, nigrocinctus, nordmanni, notatus, obscurus, ochronevrus, ornatum, pallens, pallidipennis, papilionoides, percheroni, plumbeum, pulchellus, pulverulentus, punctulatus, rapax, reticulatum, sibiricum, singulare, sinuatum, speciosum, sticticum, submaculosus, subpunctatus, tabidus, tenellus, tenuipennis, tigris, torridum, v-nigrum, variegatum, variegatus, virgatus, vittatum.
- Myrmemorpha** brachyptera.
- Myrmex** berbosci, herbsti, myrmex.
- Myrmica** aemula, algerica, amaurocycilia, angusticollis, barbara, bidens, bremeri, brevicornis, caespitum, cephalotis, clandestina, corrugata, debilis, diluta, dimidiata, domestica, erythrothorax, flavidula, fugax, fuscula, hirtula, impura, inflecta, jurinei, kirbyi, lacteipennis, laevinodis, laeviuscula, lineolata, lippula, lobicornis, lundii, macrocephala, melanocephala, minkii, minuta, modesta, molassica, molesta, montana, muscorum, mutica, nitidula, nylanderii, obsoleta, opposita, paleata, pallida, pallidula, pusilla, rhynchophora, rubra, rubriceps, ruftarsis, rufo-testacea, rugiceps, ruginodis, rugulosa, scabrinodis, sordidula, striatula, sublaevis, subterranea, sulcinodes, terminalis, tertiaria, testaceopilosa, tigrensensis, tuberosa, tuborum, typhlops, west-woodi.
- Myrmicaria** brunnea.
- Myrmonax** cinnamomeus, leucophrys, longipes, loricatus, lugubris, myiotherinus.
- Myrmornis** arada*, campanisona.
- Myrmosa** atra, bicolor, brunneipes, dimidiata, macrocephala, melanocephala, nigra, nigriceps, pulla, spinolae, thoracica.

- Myrmothera** atricapilla, axillaris, bambla, brachyura, caerulescens, campanella, cantans, colma, formicivora, fuscicapilla, gularis, guttata, leucophrys, lineata, longipes, melanoleucos, menetriesi, minuta, nematura, ralloides, rufa, superciliata, tessellata, tetema, thamnophiloides, tinnica, tiutinabulata, troglodytes, unicolor, variegata, vittata.
- Myrmoxa** unicolor.
- Myrmus** errans, miriformis, schillingii.
- Myrmydon** didactyla.
- Myrochea** vittata.
- Myron** richardsoni, trivittatus.
- Myrrha** octodecim-guttata.
- Myrtea** spinifera.
- Myrtilina** crataegaria, fraxinea, fraxinina, limacina.
- Myrtonius** serratus.
- Mysarachne** picteti.
- Mysatelis** poeppingi.
- Mysca** batava, elegans, erythros, mexicana, ovata, pictorum, solida, tumida.
- Myscebus** palmarum.
- Myscelia** alpais, amycla, anna, antholia, ariadne, caelina, canthara, chromis, cuvieri, cyaniris, ethusa, flavilla, macris, madagascariensis, maia, margarita, marsolia, medea, merione, micalia, monima, mygdonia, natalensis, orphise, orsis, sydonia, taurione, triphosa, volumna.
- Myscelus** curvipes, erythus, nobilis, sebalus.
- Mysia** (Col.) notans, oblongo-guttata, ramosa, subvittata.
- Mysia** (L.) americana, montagui, nucleiformis, ornata, rotundata, undata.
- Mysidia** (Hem.) albigennis, lactiflora, subfasciata.
- Mysis** bipes, chameleon, fabricii, flexuosus, frontalis, inermis, integer, leachi, longicornis, oculatus, oculatus, pedatus, pelagicus, plumosus, rostratus, saltatorius, scoticus, spinulosus, vulgaris.
- Myspithicus** madagascariensis, typus.
- Mystacida** albicornis, albifrons, albimacula, annulata, atra, aurea, bifasciata, bilineata, conspersa, cylindrica, ferruginea, filicornis, filosa, fulva, furva, genei, lacustris, leuco-phaea, nigra, notata, obsoleta, rufa, rufo, subfasciata, subtrifasciata, uniguttata, venosa, vetula.
- Mystacides** albicornis, filiosus, gracilis, interruptus, longicornis, niger, princeps, punctatus, sensilis, tripunctatus.
- Mystacina** tuberculata.
- Mystacinus** arundinaceus, biarmicus, dentatus, ruscicus.
- Mystacodella** bipes, cyclisium, forceps, index, oculata.
- Mystax** azurea, nigra, phaca.
- Mystriosaurus** brongniarti, canalifer, chapmani, egertoni, franconicus, laurillardi, longipes, macrolepidotus, mandelslohi, muensteri, murki, schmidt, schmidt, senckenbergianus, speciosus, tenuirostris, tiedemanni.
- Mystroceros** diardi.
- Mystromys** albicaudatus, albipes.
- Mystropomus** subcostatus.
- Mystrops** debilis, dispar, durus.
- Mystropterus** caerules.
- Mystus** badgee, chitala, clupeoides, kapirat, macronemus, niloticus, ramcarati.
- Mythimna** acetosella, albipuncta, alliacea, amargyria, conigera, disparilis, imbecilla, implexa, lithargyria, neglecta, nexa, oxalina, turca, viscosa, xanthographa.
- Mythites** tuberculatus.
- Mythras** ambulans, nervosus, obesus, pilicornis.
- Mythus** armatus.
- Mytilimeria** nuttalli.
- Mytilina** (L.) cochleata, polymorpha.
- Mytilina** (Rot.) cypridina, cytherea, lepidura, limnadina.
- Mytilites** retroflexus.

Mytilus cubitus, hamatus, lateralis.

Mytiloides labiatus.

Mytilus abbreviatus, achatinus, acuminatus, acutangulus, acutirostris, acutus, aegyptiacus, aequalis, aequilatus, affinis, africanus, ala-corvi, alaeformis, albus, alternatus, ambiguus, americanus, amplus, amygdalinus, anatina, angularis, angustanus, angustus, antiquorum, antiquus, aorsus, apertus, atborens, area, arcaceus, arcuatus, area, arenarius, argentinus, aristatus, asper, aviculoides, avonensis, balanaticus*, basteroti, beaumonti, beirensis, bellus, biceps, bifurcatus, bilobatus, bipartitus, borealis, brardi, brunneus, californianus, canalis, cancellatus, canaliculatus, capensis, carbonarius, carinatus, carneolus, carteroni, castaneus, caudiferus, cavolini, chemnitzii, chemungensis, chenuanus, chenui, cicercula, cinctus, cinnamomeus, citrinus, clathratus, cochlear, cochleatus, compressus, comptus, concentricus, confusus, coralliphagus, cordatus, corneus, cornelianus, corrugatus, costatus, cottae, couloni, crassus, crebri-striatus, crenatus, cretaceus, crispus, cuneatus, curvatus, cuspidatus, cuvieri, cyaneus, cylindraceus, cypris, dactyloides, damnoniensis, darwinianus, dealbatus, decoratus, decrepitus, decussatus, denissus, denatus, denisianus, densatus, dentatus, denticulatus, depressus, devexus, difformis, dilatatus, dimidiatus, discors, discrepans, divaricatus, domingensis, dufenoyi, durus, edentula, eduliformis, edulis pusillus, effulgens, elegans, elongatulus, elongatus, erosus, exaratus, exasperatus, excedens, exilis, exotilus, exporrectus, exustus, faba, falcatus, faretus, faujasi, fischerianus, flagelliferus, flavoviridis, flemingi, folium, fontinalis, fragilis, fucatus, fulvidus, furcatus, gallienae, galloprovincialis, gibbosus, gibbus, gigas, glabrator, gold-fussi, goldfussianus, gracilis, gradatus, granulatus, gregarius, griseus, gryphoides, gualtierianus, guerangeri, guianensis, hageni, haidingeri, hastatus, haussmanni, hesperianus, hians, hillanus, hirsutus, illitus, inaequalis, inaequivalvis, inconspicuus, incrassatus, inflatus, inflexus, inornatus, interruptus, irregularis, jubatus, jurensis, laciniatus, lacunatus, lacustris, laevigatus, laevis, lamellosus, lanceolatus, latus, leucophaeatus, liburnicus, ligeriensis, lineatus, lineolatus, lingua, lingualis, lycophagus, lyelli, macula, magellanicus, margaritaceus, marginatus, marmoratus, matronensis, maximiliani, mediterraneus, megaricus, mellevillei, membranaceus, menckeanus, meridionalis, michelinianus, muddendorffi, minganensis, minimus, minutissimus, minutus, morio, morrisi, muensteri, mytilinensis, nereis, niger, niloticus, nitens, notatus, nycti, obliquus, oblitus, olivaceus, opalus, ornatus, ornatissimus, ornatus, ovalis, palatonicus, pallasi, pallidus, papuana, papyraceus, parallelus, parvus, patagonicus, pectinatus, pectiniformis, perna, pernoideus, perovialis, persistens, petagnae, phaedra, piceus, pictinata, pictus, pileopsis, planulatus, planus, platensis, platyphyllus, plebeius, plicatulus, plicatus, polyodontus, praeacutus, praecisus, praelongus, prasinus, pressus, primoides, priscus, problematicus, profundus, psammitis, pulcher, pulcherrimus, pygmaeus, quadratus, radiatus, recurvus, restauratus, retusus, reversus, rimosus, rodriguezi, rostriformis, rubella, rubro-fuscus, rugosus, rusticus, sacculus, saussurei, scalaris, scalprum, scaphoides, scapularis, securis, seminudus, semiornatus, semiplicatus, semiradiatus, semi-rugatus, semi-sagitta, semistriatus, semitextus, senegalensis, septifer, septulifer, sericeus, serratus, siliqua, similis, simplex, socialis, soleniformis, solistanus, solutus, spathulatus, spatula, squamosus, strajesianus, striatocostatus, striatulus, striatus, subaequiplicatus, subantiquus, subcarinatus, subconcentricus, subcuneatus, subdimidiatus, subelongatus, subglobosus, sublaevis, subpygmaeus, subquadratus, subrectus, subreniformis, subsaxatilis, subsaxatus, subscalaris, substriatus, subsulcatus, sulcatus, taurinensis, tegulatus, tenera, tenuis, tenuistriatus, tenuitesta, teplofi, tornacensis, tortuosus, trapezina, triangularis, tridens, trigonus, tulipa, tumidus, tunicatus, typicus, unbonata, undosus, undulatus, unguiculatus, unguiculoides, ungula-caprae, unguicularis, unguilatus, uralensis, ustulatus, vagina, variabilis, velutinus, vetustus, viator, vicinalis, violaceus, virgata, viridi-fasciatus, vitrea, volgensis, ziczac, zonarius, zonatus. *Vide et Mytilus et Mytilus.*

Myto gaimardi.

Mytilites anatinus, carinatus, ceratophagus, costatus, crenatus, eduliformis, elongati-formis, gryphoides, incertus, keratophagus, modiolatus, neritoideus, pernatus, pseudocardium, recens, rostratus, rugosus, socialis, striatus, terebratus.

Mytilus auratus*, caeruleus*. *Vide et Mytilus et Mytilus.*

- Myurella** commaculata, pretiosa, triseriata.
Myxas glutinosa, muelleri.
Myxine australis, coeca.
Myxodes cristata, ocellatus, viridis.
Myxostoma petiverianum.
Myzantha citreola, flavigula, flavirostris, garrula, lutea, melanophrys, obscura, olivacea.
Myzanthæ ignepectus, inornata.
Myzina guerini, hispanica, oraniensis, sexfasciata.
Myzine aegyptica, aptera, arabica, arcuata, audouini, aurantiaca, cylindrica, dimidiata, ephippium, flavipes, geniculata, gracilis, haemorrhoidalis, hamatus, namea, nigripes, nodosa, panzeri, proxima, ruficornis, russeli, savignyi, serena, servillei, spinosa, zonata.
Myzomela boiei, cardinalis, chermesiana, collaris, dibapha, eques, erythrocephala, guttata, jugularis, nigra, nigriventris, obscura, pectoralis, rubrator, sanguinea, sanguinolenta, vulnerata.
Myzomorphus scutellatus.
Myzornis pyrrhoua, pyrrhoua.
Myzostoma costatum, glabrum.
Myzostomum cirriferum, parasiticum.

Nabacula subcoleoprata.

- Nabis** agilis, angusta, angustus, annulatus, annulipes, apterus, brevipennis, brevis, capsi formis, cinerea, cingulatus, creticola, dorsalis, elongatus, ericetorum, fera, flavo-marginatus, geniculata, gigas, guttata, hirtipes, longipennis, maculipes, major, marginalis, mirmicoides, nervosus, obsoletus, punctatus, rufomarginatus, subaptera, sublineatus, tripunctatus, vagans, viridis, viridulus.
Nacca fasciata, fulminea, maxima, punctata.
Nacella caerulea, mytiloides.
Nacerda dorsalis, fucata, lateralis, tristis.
Nacerdes alternans, bicolor, caspia, chinensis, conspersa, coxalis, decolor, kanack, linearis, livida, maritima, melanura, sardea.
Nacليا ancilla, famula, gnatula, punctata, pusilla.
Naeara dispar, sulcata.
Naemacheilus fasciatus.
Naematopus albithorax.
Naemia episcopalis, litigiosa, vittigera.
Naenia inoa, typica.
Naeogeus erythrocephalus.
Naesa antennalis, caudata, depressa, ovalis.
Naesea bicolor, edwardsi, latreillei.
Naesidia depressa.
Naia (L.) corrugata, picta.
Naia (R.) angusticeps, fula-fula, haje, tripudians, vittata. *Vide et Naja*.
Naiades cantrainei.
Naidea ater.
Naidium breviceps, luteum.
Naineris quadricuspida.
Nais anais, auricularis, aurigena, bipunctata, brumati, ciliata, clavicornis, coccinea, decapoda, de horatiis, diaphana, diastropa, equisetina, filiformis, gracilis, inermis, lateralis, laticeps, littoralis, lurco, picta, plicata, probioidea, rivulosa, splendens, tubifex, uncinata, variegata, vasculosa.
Naisa campanulata, dilatata, repens, reptans, sultana.
Naisia apicalis.
Naja atra, australis, bungaroides, bungarus, curta, elaps, fula-fula, fuscus, goerou, gutturalis, haemachalis, hoelleik, kaouthia, larvata, leptocoryphaea, leucocephala, lubrica, melanurus, nigra, nigricollis, porphyrica, rhombeata, sputatrix, tripudians, vulgaris. *Vide et Naia* (R.).

- Najas** alcithoe, chlymene, cydippe, cytherea, dirce, ephestion, erosine, obrina, pipleis, populi, stelenes, themis.
- Namacus** transvirgatus.
- Nana** maroccana, neritea.
- Nanarcta** vulpecula.
- Nandina** hamiltoni.
- Nandinia** binotata.
- Nandus** marmoratus.
- Nanina** baudini, belangeri, bicolor, bimaensis, bistrialis, castanea, celinde, centralis, citrina, clairvillia, commendabilis, decussata, erigone, exilis, flammulata, fragilis, halata, humilis, javana, javanensis, javanica, juliana, kivi, korekouke, leucophaea, ligulata, luconica, luctuosa, mariae, monozonalis, monticola, nemorensis, nigra, novae hibernicae, rapa, splendens, striata, trochus, tullia, turbinata, unifasciata, venusta, vesicula, viridis, vitrinoides.
- Nanniscus** pulcarius.
- Nannophya** pygmaea.
- Nannus** troglodytes.
- Nanodes** (A.) bourki, discolor, elegans, haematonotis, humeralis, palmarum, pulchellus, ultramarinus, undulatus, venustus, zonarius.
- Nanodes** (Col.) anulata, lythri.
- Nanophyes** annulatus, armatus, brevis, chevrieri, duriaei, flavidus, globulus, gracilis, hemi-phaericus, languidus, lateralis, lythri, marmoratus, nitidulus, pallidulus, pallidus, posticus, sahlbergi, siculus, tamarisci, transversus, ulmi, wahlbergi.
- Nanos** pygmaeum.
- Nanotragus** pygmaea, regius, spinifera.
- Nanthilda** aenestinana.
- Nanus** punctellus, uniformis.
- Napaea** (Dipt.) aquila, coarctata, fossarum, hecate, litoralis, pusilla, pygmaea, stagnicola.
- Napaea** (Lep.) actoris.
- Napodes** pileata, thoracica.
- Napophila** meropura, nipalensis.
- Napothera** lepidocephala.
- Naranda** anomala.
- Narceus** tinctorius.
- Narcine** brasiliensis, capen-is, dipterygia, indica, lingula, tasmaniensis, timlei.
- Narcissia** teneriffae.
- Narcobatus** bicolor, dipterygius, galvani, gronovianus, guttatus, maculatus, sinensis, timlei, unicolor, unimaculatus, variegatus. *Vide et Narkobatus.*
- Narcodes** pustulifera.
- Narcopterus** bolcanus.
- Nardoa** (Ast.) agassizi, schlegeli, tuberculata, variolata.
- Nardoa** (R.) gilberti.
- Narica** acuta, anomala, blainvilleana, blainvillei, cancellata, carinata, cidaris, clathrata, cretacea, cumingiana, cuvieriana, deshayesiana, distans, genevensis, glaberrima, granosa, granulosa, gueriniana, helicoidea, helicoides, lamellosa, ligata, lirata, margaritacea, mauritiae, missis-ippiensis, orbignyana, petitiana, plicata, quoyi, rosea, sigaretiformis, souleyetana, striata, sulcata, tuberosissima.
- Narke** gronoviana.
- Narkobatus** giganteus. *Vide et Narcobatus.*
- Narwalus** andersonianus, microcephalus, vulgaris.
- Narycia** elegans.
- Narycius** olivaceus, opalus, smaragdulus.
- Nasalis** larvatus, recurvus.
- Nascia** ciliatis.
- Naseus** biaculeatus, brachycentron, brevirostris, carolinarius, fronticornis, incornis, latilavivus, lituratus, marginatus, nuchalis, olivaceus, punctulatus, rectifrons, tonganus, tripeltis, tuber, tuberosus, tumifrons, unicornis, vlamingi.

Nasica albicollis, beauperthuysi, bridgesi, flavigaster, guttatoides, guttatus, longirostris, multiguttatus, nasalis, obsoletus, ocellatus, orbignyanus, pardalotus, susurrans.

Nasiterna pygmaea.

Naso fronticornis, tuberosus.

Nassa abbreviata, achatina, acinosa, acuta, affinis, alba, ambigua, amphora, andrei, annulatum, arcularia, ascanias, asperula, attenuata, auriformis, basteroti, bistrata, bowerbanki, brocchii, bryeri, canaliculata, cancellaroides, cancellata, candens, carinata, caronis, casta, cincta, cinctella, clathrata, coarctatum, coccinella, columbelloides, complanata, concinna, conglobatum, consociata, corniculum, coronata, costellata, costula, costulata, eremata, crenulata, curta, dentifera, desnoyersi, doliolum, eburnea, elata, elongatum, exilis, fasciata, fasciolata, fenestrella, festiva, flexuosum, fontainei, gaudiosa, gayi, gemmulata, genoensis, gibba, gibbosula, glans, globosa, globulosa, grana, granularis, granulata, haveri, hepatica, impressa, inconspicua, incrassata, inflata, intermedia, interrupta, isabella, labella, labiosa, laevigata, laevis, laevissima, lessoniana, lineata, lineolata, livida, lunata, lurida, luteostoma, macula, mediterranea, mendica, microstoma, minima, miocenica, moesta, monensis, musiva, myristicata, neriteum, neritoides, nigra, nodata, nodifera, northiae, obliquatum, obsoleta, olivacea, pallida, papillosa, parvula, paupera, pauperata, perpinguis, picta, planaxiformis, plicatula, pliocena, politus, polygonum, prismaticum, propinquum, proxima, pseudoclathrata, pulchella, pulchra, puppa, pusio, pygmaea, pyriformis, quadrata, reticosa, reticulata, retusa, ringens, rissoides, rubricata, rugosum, st mauritii, scabriuscula, scalaris, semilaevis, semi-striata, serratum, subglobosa, subquadrangularis, subspinosa, sulcata, suturalis, terebralis, tessellata, thersites, tricarinata, trivittata, tuberculata, tumida, turbellica, turbinea, turrita, uncinata, varicosa, ventricosa, vibex, vitrea, volhynica, voluta, xanthostoma, zborzewscii.

Nassacites arcuatus, elatrus.

Nassaria auritula, badia, exilis, lyrata, minuta, papillosa, phallus, reticulata, scabra, senticosa, stolata, tranquebarica, vulgata.

Nassula aurea, elegans, ornata, viridis.

Nastus albomarginatus, albopunctatus, goryi, humatus.

Nasua canina, cuja, fisca, leucorhynchus, minor, monachus, monde, montana, narica, nasua, nicaensis, nocturna, olivacea, parisiensis, quasie, rufa, spadicea, squash, subfusca, vittata, vulpecula.

Natalis cribricollis, laplacei.

Natalus stramineus.

Nathalis iole, planta, porcata.

Natica abyssina, achatensis, acetia, acuminata, acuta, acute-costata, acutella, acutimargo, adansonii, adducta, adspersa, aetites, affinis, aglaya, alapapilionis, alba, albasiensis, albumen, alderi, algida, allaudiensis, alpina, alta, althusi, ambulacrum, amiculata, ampla, ampliata, ampullacea, ampullaria, angulata, angusta, angustata, antiqua, antiensis, aperta, arachnoidea, araucana, arduennensis, areolata, arete-costata, arguta, aspera, athleta, atrocyanea, aurantia, auricularis, auriculata, ausavensis, australis, babiensis, bajocensis, baylei, bazarkensis, becksii, berculea, beverlii, bicincta, bicolor, bifasciata, bogotina, bonplandi, borealis, brevispira, britannica, broderipiana, bronni, bruguierii, brunnea, buccata, buccinoides, bulbiiformis, bulmoides, buriasiensis, cailliaudi, callosa, calypso, canaliculata, cancellata, candidissima, carbonaria, carinata, caroliniana, carteroni, cassisiana, castanea, catena, catenoides, catulli, caurina, cayennensis, cepacea, chauviniana, chemnitzii, chinensis, cincta, cinnamomea, circularis, cirriformis, clathrata, clausa, clementina, clio, clymenia, clytia, cochlearia, collaria, collaris, collei, columnaris, compressa, conica, consolidata, coquandiana, cora, cornea, cornueliana, costata, costulata, cotentina, coyana, crassa, crassatina, crassilabrum, crassinargo, cretacea, crithea, cruentata, cumingiana, danae, daphne, decorata, decussata, deformis, dejanira, delbosi, delessertiana, delia, depressa, depressula, deshayesi, dichotoma, difficilis, dilatata, dilecta, dillwyni, discrepans, distincta, doris, dubia, dupini, duplicata, eborea, eburnea, eburnoides, effosa, efusa, elea, elegans, elenae, elevata, elliptica, elongata, emiuula, epiglottina, ervyna, escragnollensis, eudora, euzona, exaltata, excavata, excelsa, excentrica, extensa, fasciata, fasciolata, favrina, ferruginea, fibrosa, filosa, flammulata, flemingiana,

fluctuata, fossata, founeli, fragilis, fulgurans, fulminans, fulminea, fulva, funiculata, fuscata, gaillardoti, gallapagosa, gambiae, gaulteriana, geinitzi, genti, gibberosa, gibboniana, gibbosa, gigantea, gigas, glabra, glaberrima, glaucina, glaucinoides, globosa, globulosa, gomondi, gouldi, gracilis, grandis, granosa, grignonensis, grisea, gualteriana, guillenini, guttata, haidingeri, haidingeriana, haneti, hantonienis, harpula, helicina, helicoides, helvacea, hemiclausula, hemisphaerica, herculea, hercynica, heros, hieroglyphica, hispanica, hugardiana, hybrida, immaculata, immersa, imperfecta, impervia, impressa, inaequiplicata, incerta, inflata, intermedia, interna, intricata, inwaldiana, iostoma, irregularis, isabelleana, jamaicensis, janthostoma, javanica, josephinia, jurensis, kassiana, kieneriana, kingi, labellata, labrella, lacernula, lacuna, laevigata, lamarecki, lamellosa, landgrebi, leckhamptonensis, leibnitziana, leucozonias, levesquei, lewisi, limbata, limula, linata, lineata, lineolata, lirata, litterata, livida, longispira, lorieri, lupinus, lusitanica, lyrata, macilentia, macrostoma, macrostoma, macrostoma, maculata, maculosa, magdalena, magno-umbilicata, mahesiensis, malabarica, mamilla, manullaris, mamma, mannulla, mandelslohi, marcoussana, margaritacea, margaritifera, marginata, mariae, marmorata, maroccana, marochiensis, martinii, matheroniana, maura, maxima, melanostoma, melanostomoide, melastoma, meridionalis, michelini, michotiana, microstoma, millepunctata, minima, minor, mississippiensis, monilifera, montagui, muensteriana, multipunctata, munita, mustelina, mutabilis, nana, neptuni, neritacea, neritiformis, neritina, neritoides, nexicosta, nitida, nivea, nodosa, nodosocostata, nodulata, noe, notata, obesa, obliquistriata, obovata, obscura, obstructa, obtusa, occidentalis, ocellata, oceani, ochrostoma, oeyenhausi, olla, omaliana, oolithica, orientalis, otis, ovata, oviformis, ovum, pagoda, pallens, pallida, pallidula, pallium, paludiniformis, panamaensis, papilla, papyracea, parisiensis, parmensis, parva, parvula, patagonica, patula, pavimentum, pederalis, pelea, pellis, pelops, percallosa, perpusilla, perspectiva, perspicua, perusta, pes elephantis, petiveriana, petrosa, phasianella, philippiana, philipsi, picta, pictaviensis, pisiformis, planispira, pleurotomoides, plicata, plicatilis, plicatula, plicistria, plumbea, poli, ponderosa, ponti, porcelana, powisiana, praegrans, praelonga, priamus, prisca, protei, protogaea, proxima, pseudoanapullaria, pseudoepiglottina, pseudospirata, pulchella, pulla, pumila, punctata, punctulata, pungens, purpurascens, pusilla, pygmaea, pyriformis, quadrata, quadrifasciata, ranvillensis, raropunctata, rauliniana, ravidia, raynolaiana, reclusiana, redempta, requieniana, retzii, rhodani, rhodostoma, rizzae, roemeri, rotundata, rouyana, royana, rufa, rugosa, rugosissima, rugosocarinata, rupellensis, rutila, sagittata, sagittana, salangonensis, samarensis, sanctae crucis, sandalina, sanguinolenta, saxea, scalariformis, scalaris, schwarzenbergi, sebae, semilunata, semistriata, semisulcata, senegalensis, septentrionalis, sertata, sigaretina, simiae, similis, sinuosa, solida, soluta, sordida, souleyetiana, sowerbyi, spadicea, sp. ind., speciosa, sphaerica, sphaerulus, spiralis, spirata, squalida, stercus-muscarum, striata, striatella, striolata, subangulata, subbulbiformis, subcaepacea, subcarinata, subclausa, subconica, subcostata, subdepressa, subfasciata, subglaucoides, subglobosa, subhybrida, sublaevigata, sublineata, submaculosa, subneritoides, subnodosa, subovata, subparva, subplicistria, subrugosa, subspiralis, subspirata, substriata, subumbilicata, suesoniensis, sulcata, sulculosa, supracretacea, suturalis, tabulata, taeniata, tanel, tecta, tenuis, tessellata, texasiana, tigrina, torquata, toucasiana, tourneforti, transversa, triseriata, truncata, tuberculata, tuberosissima, tumidula, turbilina, turbinea, turbiniiformis, turbinoidea, turgida, uber, uberina, umbilicata, undata, unicarinata, unifasciata, valenciennesi, vapincana, varians, variata, varusensis, venlockensis, ventricosa, venusta, verneui, vesicalis, vicksburgensis, violacea, virginea, vitellus, vittata, vulcani, vulgaris, zanzebarica, zebra, zelandica, zonalis, zonaria.

Naticaria bifasciata, cancellata, melanostoma.

Naticella acutecostata, armata, bronni, cincta, compressa, concentrica, costata, decussata, granulocostata, lyrata, muensteri, neritoides, nodulosa, ornata, plicata, pyrulaeformis, striatocostata, subornata.

Naticina glaberrima, helicoides, lactea, monilifera, nitida, rufa.

Naticites canrena, millepunctatus.

Naticopsis ampliata, canaliculatus, concinna, domanicensis, dubius, elliptica, elongatus, liratus, neritoides, philipsi, planispirus, plicistrius, spiratus, tabulatus.

Natrix aesculapii, almada, almadensis, aspera, bahiensis, bicarinata, bifida, cettii, cherseoides, chiametta, cinnamomea, dorsalis, dumfriesiensis, elaphis, g. forsteri, gabina, lacertina, melanostigma, occipitalis, ocellata, petolina, punctatissima, retusa, scurrula, scutata, semilineata, sexcarinata, subnexa, sulphurea, tessellatus, torquata, viperina.

Nauclerus abbreviatus, annularis, brachycentrus, compressus, furcatus, leucurus, riocourii, triacanthus.

Naucoris acuta, aptera, bipunctulus, brasiliensis, femorata, nepoides, obliquata, planus, poeyi, profunda, raptoria, rugosa, stygia.

Naucrates auctor, cyanophrys, ductor, fanfarus, indicus, koelreuteri, noveboracensis, serratus.

Naucum striatulum.

Naulas sulcatus.

Nautinus elegans, granulatus, grayi, pacificus, punctatus.

Naupactus acerbus, aeronis, albopunctatus, albulus, alutaceus, ambiguus, ambiciosus, amens, amoenus, anceps, anthribiformis, aptus, argyrostomus, aulacus, aurichalceus, auricinctus, auriventris, aurolimbatus, aurulans, balteatus, barbicauda, basilicus, bellus, bipes, bistigma, bi-tuberculatus, bonariensis, bridgesi, calvus, caniculatus, cayennensis, celator, cervinus, chalybeipes, chevrolati, chloraspis, chordinus, cinerosus, concinnus, condecoratus, contractus, crinitus, cruciatus, curialis, curtus, curvilineus, dasypus, decolor, decorus, deplorabundus, depressicollis, dissimulatur, dives, dubius, elegans, elegantulus, elongatus, enitescus, equestris, exilis, faldermanni, fallax, fatuus, faustus, festivus, figuratus, flavipennis, fluctuosus, formosus, fuscus, gibbicollis, globicollis, globulicollis, granicollis, griseus, hispanicus, histrio, hypocrita, illotus, impurus, incanus, injucundus, insignis, instabilis, institor, interruptus, klugi, lacertus, lanipes, lar, lateralis, latifrons, leporinus, leucographus, leucoloma, leucophaeus, leucosoma, leucospilus, linearis, lineatus, longimanus, loripes, lusitanicus, macilentus, maculosus, marginalis, marginatus, mitis, morio, mundus, navicularis, nobilis, nodicollis, nubilosus, obliquus, obsoletus, obtusus, optatus, ornatus, pavidus, perpastus, pictus, pithecius, polliger, praedatus, psittacinus, pubescens, pulverulentus, pupulus, quadrigatus, retusus, rivulosus, roborosus, roscidus, roseiventris, rubiginosus, rubricollis, rubripes, ruficornis, rufipes, ruricola, sahlbergi, scelestus, scintillans, sellatus, senex, serripes, setarius, signatus, signipennis, sommeri, sparsus, squameus, squamifer, stauropterus, stigmaticus, stultus, stupidus, suavis, subacutus, subfurcatus, subvittatus, suffitus, sulphureosignatus, suturalis, tarsalis, temperans, tibialis, transversus, trivittatus, turnalinus, univittatus, varians, viduatus, vires, viridicinctus, viridiplagiatus, viridisquamosus, vittatus, xanthographus, wilsoni, wintheimi.

Nauphoeta bivittata, circumvagans, grisea, lyrata.

Nauplius armatus, gnatho, isodactylus, plumosus.

Naupygus bucklandi.

Nauricia pulchella.

Nausinoe neptalis, nymphaelis.

Nauta hypnorum.

Nautilites aganiticus, angulites, aperturatus, aratus, argonauta, bidorsatus, bisiphites, danicus, depressa, dubius, furcatus, giganteus, hiulcus, lobiserratus, pictus, pseudopompilius, pulcher, puppis, rusticus, sphaericus, squamosus, substriatus.

Nautilus platystomus.

Nautiloceras aigoceros, linearis, meyerianum, serratum.

Nautilocorystes ocellatus.

Nautilograpsus major, minutus, smithi.

Nautilopsis vanuxemi.

Nautilus acutus, aganiticus, alabamensis, albensis, allionii, ambiguus, ammonoides, anceps, anglicus, angustatus, annularis, archiacianus, arcuatus, arietis, armatus, astacoides, astierianus, aturi, auriculata, bajocensis, barrandei, belemnita*, biangulatus, bicarinatus, bilobatus, bisiphites, bistrialis, bisulcatus, bonellii, bordae, bouchardianus, bowerbankianus, breunneri, bucklandi, bucklandius, burtini, calcitrapoides, carinatus, cariniferus, castor, centralis, chalconicus, clausus, clementinus, clitellarius, colubrinus, complanatus, compressus, comptoni, comptus, concavus, connecticutensis, coronatus, costalis, costatus, costellatus, costula, coyanus, crenatus,

cuvieri, cyclostomus, cymbiformis, danicus, dekayi, delphinus, dentatus, depressus, deshaysi, deslongchampionus, diluvii, discors, discus, dissimilis, domeykus, dorsalis, dorsatus, dosatus, elegans, ellipticus, endosiphonus, entrochus, excavatus, expansus, falcatus, fasciatus, fleuriausianus, floridus, freieslebeni, fricator, funatus, furcatus, galicianus, germanus, gigas, globatus, globosus, goniatus, gonolobatus, goniolobus, granulatus, gravesianus, hebertianus, hebertinus, hecticus, heterophyllus, hexagonus, hoeninghausi, hylas, imperialis, inaequalis, indicus, inflatus, ingens, ingliis, inornatus, intermedius, jason, jugosus, julii, knaptonensis, konincki, lacustris, laevigatus, laevis, lallierianus, lamarcki, largillierianus, latidorsalis, latidorsatus, leibnitzii, leplayi, leveillanus, linearis, lineatus, lingulatus, lobatulus, luidii, lunula, macromphalus, maecandrus, maltonensis, mantelli, marcoussanus, marginatus, maris rubri, matheronianus, megasipho, minutus, montfortianus, moreausus, multicarinatus, mutabilis, nautiloides, neckeriensis, neocomiensis, nitidus, nobilis, nodosus, nodulosus, numismalis, obesus, obscurus, opalinus, orbicularis, orbignyanus, orthoceratites, ovatus, oxystomus, parallelus, parkinsoni, patens, pectinatus, pentagonus, perforatus, perlatus, peroni, perplanatus, phillipsianus, pinguis, placentula, planidorsatus, planotergatus, platynotus, platystomus, plicatus, pollux, polygonalis, polygyratus, polyplocus, polytrichus, porcatus, pseudo-elegans, pulchella, pulvinata, pustulatus, puteus, pygmaeus, quadratus, quenstedtii, radians, radiatus, rawsoni, rectus, redivivus, refractus, regalis, reinecki, requienianus, reticulatus, rhodani, rolandi, rotatus, rotula, salisburyensis, sauperi, saussureanus, saxbianus, saxbyi, sceptrum, schmidtii, scrobiculatus, semilunaris, semistriatus, simonyi, simplex, sinuato-plicatus, sinuatus, sinuosus, sowerbyanus, sphaericus, spinulosus, squamula, stenomphalus, striatulus, striatus, striolaris, stygialis, subaratus, subarcuatus, subbiangulatus, subcarinatus, subinflatus, sublaevigatus, subreticulatus, subsinuatus, subsulcatus, sulcatus, sulcifer, sulciferus, sypho, tchettikini, tenui-planatus, teres, tetragonus, triangularis, trifurcatus, trochlea, truncatus, tuberculatus, tumidus, umbilicaris, umbilicatus, undatus, undosus, undulatus, urbanus, varusensis, vastus, verneuilianus, whitbiensis, woodwardi, ziczac.

Navicella apiata, bougainvillei, caerulea, clypeolum, compressa, cookii, cumingiana, depressa, elliptica, entrecastauxi, freycineti, janelli, la perousei, lineata, luzonica, macrocephala, maculifera, parva, porcellana, suborbicularis, suffreni, tessellaria, tessellata, urvillei, variabilis, zebra.

Navicula fasciata.

Navosoma triste.

Naxia diacantha, serpulifera, sinope.

Nea glottis, semipalmata.

Neaera (Dipt.) immaculata, laticornis.

Neaera (L.) abbreviata, atra, attenuata, casta, cochlearis, concinna, costata, costellata, cuspidata, didyma, elegans, fragilis, gouldiana, hyalina, iridescens, lata, lyrata, moluccana, obesa, opalina, philippinensis, rosea, rostrata, singaporensis, sulcata, tenuis, trigona, vitrea, waeli.

Nebalia bipes, ciliata, geoffroyi, glabra, herbsti, montagui, straussi, ventricosa.

Nebalis squalida.

Nebria aenea, altaica, andalusia, angustata, angusticollis, arctica, arenaria, atrata, baicalica, balbi, barbara, besseri, bonellii, borealis, bremeri, brevicollis, brunnea, carbonaria, carpathica, castanea, catenulata, caucasica, chevrieri, collaris, commixta, complanatus, concolor, cordicollis, crenato-striata, cuprea, dahli, dejeani, depressa, dilatata, dubia, duitschmidi, elongata, erythrocephala, escheri, eschscholtzi, exarata, falkdermanni, fasciato-punctata, femoralis, ferruginea, fischeri, foudrasi, frigida, fuleida, fulviventris, funcki, fuscata, fussi, gagates, gaugeri, gebleri, genei, germari, gotschi, gregaria, gyllenhalii, heegeri, hellwigi, hemprichi, heydeni, hoepfneri, hornschuchi, hyperborea, intricata, jockischi, kotschy, krateri, lafresnaye, lateralis, laticollis, lei-toides, livida, longicornis, lugdunensis, luteipes, mannerheimi, marshalli, marshalli, melli, melsheimeri, metallica, microthorax, moesta, motschulskyi, muehlenbergi, multipunctata, multistrigaria, nigerrima, nigricornis, nivalis, oblonga, ochotica, olivieri, orsinii, ovalis, pacifica, pallipes, parreyssi, patruelis, picea, picicornis, planiuscula, psammodes, reichei, rubicunda, rubripes, rufomarginata, sabulosa, sahlbergi, scabulosa, schreibersi, schrenki, splendida, stveni, stigmula, subacuminata,

subdilata, suturalis, tenella, testacea, tibialis, transylvanica, turcica, variabilis, verticalis, violacea, wiedemanni, xanthacra, ziegleri.

Nebria microps.

Nebrius concolor.

Nebula ablutaria, aquearia, montanaria, nebularia, ruficinctaria, scabraria.

Nebularia ancillides, contracta.

Nebulipora explanata, lens, papillata.

Necrobia amethystina, atra, bicolor, defunctorum, errans, eximia, mumiarum, pinguis, rubripes, ruficollis, rufipes, sanguinicollis, tibialis, violaceus.

Necrobis subterraneus.

Necrobora americana.

Necrodes analis, curtisi, gayi, littoralis, lividus, osculans, truncata.

Necrophaeophagus longicornis, punctiventris.

Necrophagus spinipes.

Necrophilus arenarius, hydrophiloides, picipes, subterraneus.

Necrophorus aequinoctiale*, aleuticus, americanus, anglicus, basalis, bicolor, bimaculatus, cadaverinus, corsicus, curvipes, defodiens, didymus, fossor, frontalis, funereus, germanicus, grandis, guttula, halli, hebes, himator, infodius, interruptus, investigator, lunatus, marginatus, maritimus, mediatus, melsheimeri, morio, mortuorum, nepalensis, nigricornis, nigrita, obrutor, obscurus, olfactor, orbicollis, particeps, pygmaeus, quadricollis, quadri-signatus, requiescator, ruspator, sayi, scrutator, sepulchralis, sepultor, sexmaculatus, stygius, sulcatus, tomentosus, velutinus, vespillo, vestigator. *Vide et* **Nicrophorus**.

Necroscia chloris, chlorotica, fumata, quadriguttata, roseipennis, vinosa, vittata.

Necrosyrtes monachus.

Nectanebus fischeri, histerisnicus.

Nectarina (A.) byronensis, niger.

Nectarina (Hym.) analis.

Nectarinia adelberti, aenea, affinis, afra, amboinensis, amethystina, angliana, antilensis, aspasia, aurantia, aurifrons, bicolor, bifasciata, boiei, borbonica, caerulea, caffra, calcostetha, canora, capensis, cardinalis, cayana, chalybea, chloropygia, chrysogenys, chrysoptera, cinereicollis, cingalensis, cirrhata, coccinea, cocciniger, collaris, cruentata, cuprea, cyanea, cyanocephala, cyanopogon, cyanopygos, eboensis, eques, erythrorhynchus, erythrorhox, eximia, famosa, flammixillaris, flava, flaveola, flavigastra, formosa, fraseri, frenata, frontalis, fuliginosa, fusca, goalpariensis, gouldi, gouldiae, gularis, habessinica, hasselti, hodgsoni, horsfieldi, hypogrammica, ignicauda, ignita, indica, inernata, infusca, javanica, jugularis, kuhli, labecula, lathamii, lepida, leucogaster, longirostra, longuemari, lotenia, macassariensis, madagascariensis, mabratensis, malaccensis, manillensis, melampogon, melanorhynchus, melanura, melasoma, metallica, mexicana, minima, minuta, mitrata, mystacalis, natalensis, nigrescens, nigrogaster, nipalensis, nuchalis, obscurus, olivacea, omnicolor, parietum, parvula, pectoralis, phareii, phayrei, philippensis, phoenicotis, phoenicura, platurus, polita, promerops, pulchella, purpurata, pusilla, pygmaea, rectirostris, rubescens, rubra, rubro-cana, rubro-fusca, rufa, ruficollis, saginata, sanguinea, sannio, saturata, scarlatina, senegalensis, simplex, siparaja, sola, solaris, sou-manga, spiza, splendus, splendida, stangeri, subflava, superba, tabacina, tacazze, temminckii, uncinata, velox, venusta, verroxi, verticalis, vestitaria, vigorsi, violacea, violaceofrons, virescens, vulnerata, zenobia, zeylanica, zeylonica.

Necteria seheriae.

Necticus bipustulatus.

Nectoceras pelagica.

Nectria oculifera.

Necturus anguillaris, axolotes, fuscus, lateralis, lutescens, maculatus, maculosus, marginatus, operculatus, phosphoreus, tetradactylus.

Nectylus rugosus.

Necydalis abbreviata, americanus, auricomus, aurulenta, barbicus, calopoides, clavata, croceicollis, erminea, femoratus, flavimana, fraxini, lepturoides, lurida, macula, margaritacea, marginella, mellitus, notoxoides, salicis, scutellaris, thoracica.

- Neda* amandi, andicola, bremeri, calispilota, chevrolati, fasciolata, finitima, jourdani, marginalis, marginata, miniata, norrisi, ochracea, orbignyi, perfida, perrisi, peruviana, princeps, reichei, subdola, tricolor.
- Nedusia* effractaria, mutilaria.
- Nedyus* asperifoliarum, assimilis, borragiuis, caliginosus, chloropterus, chrysanthemi, cinereus, cochleariae, constrictus, contractus, crux, depressicollis, detritus, didymus, echii, ericae, erysimi, floralis, horridus, leucomelanus, litura, marginatus, melanarius, melanostigma, monostigma, nigrinus, obstructus, ovalis, pallidactylus, phaeorhynchus, pollinarius, pusio, pyrrhorhynchus, quadrimaculatum, quercicola, ruficus, rugulosus, scutellatus, sulculus, suturalis, sysimbrii, troglodytes, uniguttatus.
- Needhamia* expulsoria.
- Neides* clavipes, culiciformis, elegans, sieberi, tipularius, tripunctata, trispinosus.
- Neis* cordigera.
- Neitheia* costangularis, laevigata, pectinoides, quadricostatus, quinquecostatus, versicostata.
- Neleus* aterostris, glaber, longirostris, notatus.
- Nelicurvius* pensilis.
- Nelimenia* incognita.
- Nelites* aeneolus.
- Nelocira* brongniarti, cranchi, desmaresti, navicularis, swainsoni.
- Nelomys* antricola, armatus, blainvillei, cristata, didelphoides, pictus, semivillosus, sulcidens.
- Nemacanthus* brevispinus, filifer, granulosus, monilifer, priscus, sentionis.
- Nemacerus* incertus.
- Nemadactylus* concinnus.
- Nemaeodera* trizonata.
- Nemaglossa* brevis.
- Nemalix* pelagica.
- Nemapalpus* flavus.
- Nemaphorus* crotalus.
- Nemaphyllum* arachnoideum, clisioides, decipiens, irregularis, minus, septosum.
- Nemapodia* tenuissima.
- Nemapogon* frischellus, granellus, leuwenhoekellus, rayellus.
- Nemasoma* varicorne.
- Nemastoma* bimaculatum, chrysonelas, humerale.
- Nemastosa* bicuspidatum.
- Nematidium* cylindricum.
- Nematinus* helicius.
- Nematocera* bicolor, fuscana, nigra, nubeculosa.
- Nematocerus* metallicus.
- Nematodes* filum, nigriceps, strepens.
- Nematodozoon* helicum.
- Nematoideum* caprimulgi europaei, haematopodis ostralegi, hirundinis apodis, labri nilotici, lepidopodis peroni, phacchoeri africanus, pipae-dorsigerae, soricis-aranei, vespertilionis serotini.
- Nematomicrus* tenellus.
- Nematophora* alba, vitrea.
- Nematopodius* formosus, linearis.
- Nematopogon* metaxellus, pilellus, pilellus, schwarziellus, sericinellus, swammerdammellus.
- Nematoptera* angulata, bipennis, coqueberti, filipennis, forskalli, latipennis, olivieri, petiveri.
- Nematopus* angustatus, brevicornis, dilatatus, dorsalis, elegans, fasciatus, flaviceps, gallus, indus, javanicus, marginalis, meleagris, nepalensis, nervosus, obscurus, ruficus, rufoscutellaris, serripes, sexguttatus.
- Nematosoma* ophidium.
- Nematosomum* elongatum.
- Nematura* (A.) deltae, paradoxa.

Nematura (G.) fossilis, minima, polita, puncticulata.

Nematus abbreviatus, abdominalis, abietinus, abietum, acerosum, adultus, aethiops, affinis, albilabris, albipennis, alni, ahivorus, ambiguus, analis, angustus, annulatus, apicalis, appendiculatus, aurantiacus, bergmanni, betulae, betularius, betulinus, bicolor, bipartitus, brachycercus, brevicornis, brevis, breviusculus, caeruleocarpus, canaliculatus, caprae, capreolus, carinatus, caudalis, cellularis, chrysogaster, cinctus, clitellatus, compressus, conicus, conjugatus, consobrinus, continuus, contractus, crassicornis, crassulus, crassus, croceus, cubitalis, cylindricus, danicus, degeeri, denudatus, depressus, deutschii, de villareti, diaphanus, dimidiatus, dorsalis, drewseni, einersbergensis, ephippiger, erichsoni, eupodus, fahraei, fallax, faustus, femoralis, flavescens, flavicomus, flavipes, flaviventris, flavus, fraxini, friesi, fruticum, fulvipes, fulvus, fumipennis, fuscipennis, fuscivorus, gallarum, gallicola, geniculatus, gracilicornis, gracilis, grandis, gravenhorsti, grossulariae, grossulariatus, haemorrhoidalis, histrio, hortensis, hospes, humeralis, hybridus, hypogastricus, immundus, insignis, integer, intercus, interruptus, jurinei, kirbyi, klugi, laricis, laticrus, latipes, leachi, lepidotus, leucapus, leucocarpus, leucogaster, leucopodius, leucostictus, leucotrochus, limbatus, longicornis, lucidus, luridiventris, luridus, luteus, macrocerus, maculiventris, marginatus, medullarius, melanaspis, melanocarpus, melanocephalus, melanocerus, melanoleucus, melanopsis, melanosternus, melanostigma, melanotus, melanurus, miliaris, miniatus, minutus, mollis, monogyniae, mucronatus, myosotidis, nassatus, neglectus, niger, nigratus, nigriceps, nigricornis, nigrilus, nyblaei, obductus, oblitus, obtusicornis, ochraceus, ochrogaster, pallescens, palliatus, pallicarpus, palligerus, pallidiventris, pallipes, parallelus, parvus, pavidus, pectoralis, pedunculi, pentandrae, perspicillaris, pineti, platycerus, populi, prasinus, propinquus, proximus, punctulatus, quercus, quietus, ribesi, ribis, robustellus, rufescens, ruficarpus, ruficollis, ruficornis, rufipes, saliceti, salicis, saxeseni, schiodtei, schmidtii, scutellatus, septentrionalis, seticornis, solitarius, sordidus, squalidus, stratipes, striatus, suessionensis, sulcipes, taeniatus, testaceus, tibialis, trimaculatus, truncatus, umbripennis, vallisnerii, vanus, variabilis, varus, ventralis, ventricosus, ventriculosus, vernalis, vertebratus, vesicator, vicinus, viduus, viminalis, virescens, viridis, vittatus, westermanni, xanthocarpus, xanthocerus, xanthophorus, xanthopterus, zetterstedti.

Nemeobius lucina.

Nemeophila figurata, plantaginis.

Nemertes (Cr.) nesaeoides.

Nemertes (Verm.) albicans, annellata, annulata, antonina, assimilis, badia, balmea, bilineatus, bioculata, borlasi, camillea, cartinophilus, coeca, complanatus, coronata, crassa, delineatus, drepanensis, dubia, ehrenbergi, elegans, fasciolata, flaccida, fumosa, fusca, fuscescens, geniculata, glaucus, gracilis, haematodes, hemprichi, humilis, knochi, lactiflora, maculata, mandilla, melanocephala, microcephala, microphthalma, multioculatus, nigrofusus, octoculata, olivacea, opaca, peronea, polymorpha, pulchra, punctata, purpurea, pusilla, quadrioculata, roseus, rufa, rufifrons, somatotomus, spectabilis, striata, superbus, vermiculus, viridis, vittata.

Nemertesia antennina, janini, ramosa.

Nemertilites meandrites, strozzii, toenia.

Nemertites ollivanti.

Nemesia cellicola.

Nemesia carchariarum, damna.

Nemestrina abdominalis, accincta, aegyptica, albo-fasciata, analis, atra, brevirostris, cinerea, fasciata, lateralis, longirostris, macularis, nigra, osiris, pallipes, perei, rufipes, sulphurea, tauscheri, vitripennis, westermanni.

Nemestrinus reticulatus.

Nemichthys scolopacea.

Nemipterus filamentosus.

Nemistrina cincta, javana, ruficornis.

Nemobius lineolatus, sylvestris.

Nemobrama webbi.

Nemocera nivalis*.

Nemochirus erythropterus.

- Nemocoris** falleni.
- Nemoctus** echelius.
- Nemognata** atripennis, chrysomelina, collaris, immaculata, lineata, versicolor, vittata.
- Nemognatha** atripennis, bimaculata, ceruleipennis, collaris, flavipes, immaculata, minima, nemorensis, sibirica, vittata.
- Nemognathus** coeruleipennis, dimidiatus, rostratus.
- Nemoicus** oblongus, rufescens, testaceus, undatus.
- Nemoletus** pallipes, polyposus.
- Nemopalpus** flavus.
- Nemophora** crinigerella, degeerella, metaxella, panzerella, pilella, pilulella, swammerdamella.
- Nemopoda** algira, annulipes, brunica, coeruleifrons, cylindrica, ferruginea, fumipennis, gagatea, lateralis, nigricornis, nigrilatera, putris, rufoxa, scutellata, stercoraria, tarsalis, varipes, viridis.
- Nemopsis** bachei.
- Nemoptera** aegyptiaca, africana, alba, algerica, angulata, aristata, bacillaris, capillaris, coa, costalis, costata, dilatata, extensa, filipennis, halterata, hutti, lusitanica, olivieri, pallida, setacea, sinuata.
- Nemopteryx** africana, crassus, elongatus, lusitanica, mandibularis.
- Nemoraea** acutangularis, affinis, amoena, analis, appendiculata, bifasciata, bombylans, brevis, brevisetosa, brunicornis, fulva, lateralis, lucida, maculosa, microcera, minor, myophoroida, neglecta, nemorum, nigra, nigroscutellata, obliqua, pellucida, quadri-pustulata, radicum, scutellata, setosa, soror, strenua, tessellans, unicolor, varicornis, vicina, viridescens.
- Nemorea** abdominalis, borealis, erigonea, erythrura, flavipennis, florea, floricola, laevigata, myophoroidea, pellucida, puparum, radicum, silvatica, strenua, vagabunda, varia, viridulans.
- Nemorhaedus** proclivus. *Vide et Nemorrhædus.*
- Nemorhina** palpalis.
- Nemorhinus** nanus.
- Nemoria** bistriaria, cloraria, herbaria, venustaria, viridaria, viridata.
- Nemoricola** indica, nipalensis.
- Nemorrhædus** crispus, goral, sumatrensis. *Vide et Nemorhaedus.*
- Nemosia** atra, diademata, flavicollis, fulvescens, guira, gularis, nigricollis, nigro-genis, pileata, rufo-capilla, sordida, speculifera, verticalis.
- Nemosoma** elongatum.
- Nemotelus** acrossus*, aethiops, albirostris, albisetus, anchora, argentifer, bifasciatus, bipunctatus, brachystomus, brevirostris, carneus, fasciatus, fraternus, frontalis, globuliceps, gracilis, lasiops, longirostris, nigrifrons, nigrinus, nigrinus, niloticus, notatus, paludosus, pantherinus, pica, proboscideus, sabaeus, singularis, tarsatus, varius, ventralis.
- Nemotois** barbatellus, cuprella, cypriacella, frischella, minimellus, mollella, pfeifferella, reaumurella, schiffmillerella, viridella.
- Nemotragus** helvolus.
- Nemotrichus** indistinctus.
- Nemoura** abdominalis, affinis, angusta, angusticollis, annulata, brevicollis, brevipennis, brunnea, cambrica, cinerea, cruciata, cylindrica, flavicornis, fuliginosa, fumosa, fusca, fusciventris, geniculata, glacialis, humeralis, inconspicua, lateralis, longipennis, luteicornis, macrophthalmia, marginata, maura, meyeri, monilicornis, nebulosa, nervosa, nigra, nigripes, nigratarsis, nitida, pallicornis, pallida, pallipes, picea, pusilla, putata, similis, sulcicollis, tenuis, trifasciata, variegata.
- Nemozoma** caucasicum, cornuta, elongatum, fasciata.
- Nemura** chrysaea, cyanura, flavolivacea, fouscolombeii, genei, hyperythra, lunata, minuta, pygmaea, rufulatus, socia.
- Nengetus** nengetus.
- Neochera** dominia, eugenia.
- Neodon** sikimensis.
- Neomenius** arcuata.

- Neomeris** (M.) phocaenoides.
Neomeris (Polyz.) dumetosa, urophylla.
Neomida cophosioides, picta, rufa, sanguinicolis, tetraspilota.
Neomorpha acutirostris, crassirostris, gouldi.
Neomys daubentoni.
Neonympha adiante, areolatus, clerimene, cosmophisa, dorothea, eurytis, gemma, grimon, helicta, melusina, sosybius.
Nephron alpina, carunculatus, monachus, percnopterus.
Neps chrysoptera, ruficaudus, spirurus.
Neopus malayensis, perniger.
Neornis cacharensis, flavolivacea, strigiceps.
Neotoma drummondi, floridana.
Neotragus madoka.
Nepa aestivalis, annulipes, cursitans, elongata, filiformis, grisea, ingenicula, minor, nepaformis, nigra, primordialis, subspinosa.
Nepanthia maculata, tessellata.
Nephalius amictus, blandus, cassus, exutus, serius.
Nephele chiron, didyma, morpheus.
Nephelis atomaria, cinerea, gigas, octoculata, rutila, tessellata, testacea, trochetia, vulgaris.
Nephesa rosea.
Nephila clavipes, cunninghami, fasciata, fasciculata, fuscipes, maculata, ornata, plumipes, transalpina, turneri, vestita, xanthospilota.
Nephodes villiger.
Nephodesme asinana, conspersana, maurana, nebulana, roscidana, rusticana.
Nephodia aerinaria, cicaria, nubilaria, vaporaria.
Nephopterix abietalis, ablutalis, albicilla, binaevalis, coerulentella, consocialis, cristalis, dilutalis, fischeri, gracilalis, grandella, janthinalis, obtusalis, rhenalis, roboralis.
Nephopteryx metzneri, poteriella, subochrella.
Nephridia xanthopus.
Nephrites nitidus.
Nephrocerus flavicornis, lapponicus.
Nephron pileatus, salvinensis.
Nephrops geoffroyi, norvegicus, occidentalis.
Nephrotoma cornicina, crocata, dorsalis, pratensis, replicata, vittata.
Nephrotus chorzowensis.
Nephthea chabrolis, cordieri.
Nephthys ciliata, coeca, margaritacea, neapolitana, savignyi, scolopendroides, splendida.
Nephtys assimilis, bononensis, borealis, caeca, hombergi, longesetosa, longoscetosa.
Neptaea amicorum, florida, innominata, savignyi, spinulosa.
Nepticula angulifasciella, argentipedella, argyropeza, assimilella, aurella, cursoriella, gratiocella, hemargyrella, hubnerella, ignobilella, intimella, lemniscella, louisella, rufella, samiatella, septembrella, sericopeza, subnitidella.
Neptis aceris, agatha, columella, consimilis, dumetorum, emilia, frobenia, heliodore, hordonia, illigera, kikideli, lucilla, matuta, melicerta, metella, nauplia, ophione, praslini, valentina, vikasi, zaida.
Neptunea aethiops, ansata, antiqua, canaliculata, cincta, cingulata, clathrata, cochleata, colus, cornea, costata, costulata, despecta, ecaudata, exilis, flammeola, islandica, laevigata, marmorata, minima, minor, morio, plicata, reticulata, taeniolata, trapezium, tulipa, verrucosa.
Neptunus hespera.
Nepyris russula.
Nerea nitida, punctata, riparia, stercoraria.
Nereidice galathina, olympia, valentina.
Nereidonta antennata, aphroditois, gallica, gigantea, hispanica, norvegica, paretti, pennata, pinnata, sanguinea, tubicola.
Nereilepas fusca, variabilis.
Nereimyra longissima, rosea.

Nereina lacustris.

Nereiphylla crassa, flava, lamellifera, lamellosa, laminosa, longa, paretii, stellifera, viridis.

Nereiphyllae lamelligera, limonis, maculata, viridis.

Nereis (Lep.) aegle, calliope, cymo, delila, dianasa, dido, doto, eunice, neso, ninonia, polymnia, reckia, sara, thales, thamar, thelxiope, vesta.

Nereis (Verm.) aegyptia, aphrodita, arctica, assimilis, beaucoudraisi, beaucoudrayi, bertoloni, bilineata, blainvilliei, brevinanus, calamus, cirrhigera, coccinea, costae, crocea, cultrifera, cuprea, delagica, delineata, depressa, dumerili, edwardsi, fasciata, filigera, flexuosa, frontalis, fucicola, grandifolia, imbecillis, intusclata, iricolor, lineata, lonata, longissima, lumbricalis, maculosa, margarita, marioni, mucronata, nuntia, ochotica, ockeni, octentaculata, otto, paradoxa, parthenopeia, pectinata, phyllophora, pinnigera, pulsatoria, purpurascens, quadricornis, radiata, ranzani, regia, renalis, ruber, rudolphi, sanguinea, sarsi, scolopendrina, scolopendroides, sextentaculata, splendida, squamosa, succinea, taurica, teticola, tiedemann, tremula, variegata, vexillosa, virens, viridis, vittata, zostericola.

Nereisyllis bifrons, monilaris, ornata, prismatica, prolifera.

Nereites cambrensis, deweyi, gracilis, jacksoni, lanceolata, loomis, pugnus, sedgwicki.

Nereus hydrachna, hydrastes.

Neria atripes, carolinensis, cayennensis, flavipes, geometra, hottentota, indica, inulae, longipes.

Nerias lineata, phlegia, susanna.

Nerine abnormis, apicata, avida, bicolor, cornuta, dubia, errans, flavipes, furva, gibbosa, gracilis, graminicolens, livida, marginata, munda, nigra, parva, pulla, pygmaea, rubella, rubens, rubripes, rufipes, saxatilis, sulcata, sylvatica, tibialis, timida, tuberosa, variegata, viaria.

Nerilla antennata.

Nerilopsis laevigata, ornata, pulchella, renauxiana, robineausiana.

Nerina (Dipt.) albipennis, cinerea, dejeani, flavescens, prompta.

Nerina (Verm.) trochiformis.

Nerinaea anglica, annulata, borsoni, cingenda, conimbrica, constricta, elongata, eschwegeii, fasciata, gosae, grandis, hieroglyphica, incavata, involuta, jurensis, lebruniana, longissima, mandelslohi, mosae, nodosa, olisiponensis, striata, suprajurensis, titan, trinodosa, triplicata, tuberculosa, turbinata, unicarinata, visurgis, visurgus.

Nerine cirrata, coniocephala, laeviscornis, vulgaris.

Nerinea acicula, acreon, acus, alata, allica, altenensis, ampla, archiaciana, archimedi, atalanta, aunisiana, axonensis, bacillus, bauga, bernardina, bicincta, bifurcata, bisulcata, borsoni, bronni, bruckenthali, bruckneri, bruntrutana, buchi, cabanetiana, caecilia, calliope, callirhoe, calypso, canaliculata, carpathica, carteroni, cassiope, castor, chamousetti, cincta, clavus, clio, clymene, clytia, coquandiana, cottaldiana, crenata, crispa, crithea, cylindrica, cynthia, defrancei, depressa, desvoidyi, dubia, dupiniana, eichwaldiana, elata, elatior, elea, elegans, elegantula, elongata, erato, espaillaciana, eudora, fibula, fleurbausa, flexuosa, funiculus, fusiformis, giganta, goldfussiana, goodhalli, grandis, granulata, imbricata, implicata, inornata, jollyana, lobata, luciensis, marcoulia, margaritifera, marrotiana, martiniana, matronensis, monilifera, moreauiana, nantuaensis, nobilis, nodulosa, orbigniana, ornata, paillet-teana, pauperata, perforata, perigordina, podolica, propinqua, pseudocylindrica, pulchella, punctata, pupoides, pustulifera, pyramidalis, quadricincta, quinquecincta, regularis, renauxiana, requieniana, romeri, royeriana, rupellensis, salinensis, scalaris, scalata, sexcostata, simplex, speciosa, striata, subaequalis, subbruntrutana, subcochlearis, subcylindrica, subdepressa, subpulchella, subpyramidalis, subscalaris, subteres, subtricincta, subturritella, sulcata, terebra, teres, trachlaea, tricincta, trinodosa, triplicata, trochiformis, turriculata, turris, turritella, turritellaris, uehauxiana, umbilicata, voltzi, volzi, wosinskiana. *Vide et Nerinaea.*

Nerinella (G.) constricta, dupiniana, fasciata, granulata, matronensis, pulchella, quadricincta, subaequalis, subcochlearis.

Nerinella (Verm.) chermesina.

Nerita acherontis, adansoniana, africana, alpina, alternata, ampliata, anatolica, angistoma, angulata, angulosa, anthracina, antiquata, aperta, apiata, argus, arquata, articulata,

asperata, asperulata, atropurpurea, aurantia, auriculata, aurora, australis, avellana, beania, becki, bicanaliculata, bicolor, bisinuata, bizonalis, bourgeoisiana, brevispina, brongniartina, bronni, bruguieri, caffa, canalis, cancellata, candida, carbonaria, cardinalis, cariosa, caronis, cassidiformis, celata, chemnitzii, chiloensis, chlorina, chloroleuca, chlorostoma, chrysostoma, circumvoluta, colombaria, communis, compacta, conoidea, consobrina, corallina, cornea, corona, corruscula, costata, costellata, costulata, crenata, crepidularia, cumingiana, cuprina, cuvieriana, da costae, debilis, decorata, deformis, deshayesi, diadema, doingi, dombeyi, donovani, doreyana, dubia, duplicata, eburnea, edentula, elegans, ellyptica, elongata, essingtoni, exarata, fasciata, fittoni, flammulata, flavescens, fontinalis, forskaeli, funata, funiculata, fuscata, gaimardi, galloprovincialis, georgina, gigantea, glabra, glaberrima, glaucinoides, globosa, globulus, granulata, granulosa, grateloupiana, grayana, grossa, groyana, guamensis, guerini, guttata, haliotis, handtii, hantonensis, helicina, hemisphaerica, hepatica, hieroglyphica, hilarula, hindsi, hisingeri, incerta, indica, insculpta, intermedia, interrupta, intertexta, intricata, jaculatrix, jordani, jovis, jurensis, keraudreni, knorri, laevida, laevigata, laffoni, largillierti, leachi, le guillouana, lessoni, liasina, libera, lineata, listeri, littoralis, longi, longispina, luctuosa, lugubris, maculifera, mais, mammaeformis, mammaria, marina, marmorata, marsigliana, martiniana, matonia, maura, mauritiae, menkeana, meridionalis, mertoniana, michaudi, miliacea, minima, minuta, mitreana, monodon, montacuti, moreleti, morelli, morio, mosae, multiugis, munita, muricata, musiva, navicellina, nebulata, nigerrima, nitida, nodoso-costata, novae guineae, novae-hibernicae, novemsulcata, nucleus, nudica, nuttalli, obscurata, ocellata, olivacea, olivaria, orbignyana, ornata, ornatissima, oryzarium, otaitensis, ovata, oviformis, ovula, oweni, oweniana, palaeochroma, pallidula, panayana, panayensis, papilionacea, papuana, parvula, patula, perottetiana, peruviana, petiti, peifferiana, phasiana, philippii, picea, picta, piperina, pisiformis, planospira, plebeia, plexa, plicata, plicatula, plumbea, plutonis, poliana, powisiana, praecognita, prevostiana, prototypa, pseudo-costata, pulchella, pulla, punctata, quoyi, radiata, rangiana, rapula, rarispina, reclusiana, reticulata, rhenana, roissiana, rossmassleriana, rudis, rugata, ruginosa, rugosa, rumphii, rustica, sandalina, sanguinolenta, saxoides, sayana, scabrella, scabricosta, scilla, semiconica, semirugosa, semistriata, semisulcata, sena, serratilinea, serrulata, sigaretina, signata, sinuosa, siquijorensis, smithi, sobrina, solum, souleyetana, sowerbyana, speciosa, spengleriana, spinifera, spinosa, spirata, squamaepicta, squamulata, squarrosa, stella, stragulata, striata, strigilata, striolata, subalata, subalpina, subauriculata, subcarinata, subcostata, sublineolata, subornata, subpunctata, succinea, sulcata, sulcosa, tenebrosa, titurata, touranensis, transversalis, transversaria, traversiana, tricarinata, trifasciata, tritonensis, tuberosissima, turbinata, turtoni, umlaasiana, veldiensis, venusta, vestita, vexillum, vicina, webbei, winteri, yoldii, zebrina, zelandica, zigzag, zonaria.

Neritella amphibia, brevispina, communis, gaimardi, georgiana, goldi, indica, michaudi, nuttalli, picea, reticulata, rugosa, strigillata, tabitensis, vestita, virginea.

Nerites aurantia, rubicunda.

Neritina adducta, aequinoxialis, afra, alata, amoena, amphibia, ampullaria, anatenis, anatis, anomala, apiata, aquensis, arata, arcilineata, armstrongiana, aspera, asperulata, aterrima, atra, auriculata, bahiensis, balthica, basteroti, bella, bengalensis, bicanaliculata, bicanalis, bicornis, boetica, bougainvillei, brandtii, brevispina, brongniartina, bruguieri, caffa, callifera, callosa, canalis, capillulata, carinata, cariosa, cassiculum, celata, chlorostoma, cholericum, chrysocolla, cincta, circinnata, circumvoluta, cirrata, cochinsinae, concava, conoidea, consobrina, convexa, cooksoni, cornucopiae, coromandeliana, corona, corona australis, crepidularia, dalmatina, danubialis, depressa, desmoulinsiana, dilatata, domingensis, donovana, dubia, duchasteli, elegans, elegantissima, elongata, elongatula, europaea, exaltata, eximia, faba, fasciata, feuilleti, fimbria, fischeri, fittoni, flavovirens, florida, fluviatilis, fontaineana, fontinalis, fuliginosa, gagates, gangrenosa, gigas, glabrata, globosa, globulus, grandis, granosa, gravis, gregaria, guadianensis, guineri, halophila, hamuligera, helvola, inconspicua, inquinata, intermedia, interrupta, intexta, iris, jayana, jordani, labiosa, laevigata, lamarcki, latissima, leodica, levesquei, liasina, lineolata, liturata, lugubris, lurida, macri, marmorea, mauriciae, melanostoma, meleagris,

microptera, microstoma, mitrula, moquiniana, morio, nouleti, nubile, nucleus, nux, obtusa, ornata, ornatula, ovalaniensis, ovalis, oweni, oweniana, pachi, panayana, papillosa, parreyssi, perversa, philippinarum, picta, pileolus, pisiformis, planospira, plumata, plumbea, polyzonalis, porcata, powisiana, prevostiana, protei, protracta, pulchella, pulchra, pulligera, punctata, punctulata, pupa, pusilla, pustulata, pygmaea, rara, rarisipina, reticularis, reticulata, retifera, rhodocolpa, rhodocolpos, royeriana, rugosa, sandwichensis, sangara, sanguinea, sardoa, schmideliana, semiconica, serratilinea, serrulata, siderea, similis, sinuosa, smithi, sobrina, solidissima, sowerbyana, spinosa, squamapicta, squamosa, stragulata, strigilata, striolata, subgranosa, sublaevis, subsulcata, sumatrensis, taitensis, thermalis, ticinensis, tigrina, transversalis, trifasciata, triserialis, tristis, trizona, troschelli, truncata, turbida, turriculata, turrita, turtoni, undata, unidentata, uniplicata, valdensis, valentina, varia, variegata, velascoi, venosa, vespertina, vicina, violacea, virginea, viridis, waigiensis, wallisiarum, zebra, zebrina, zigzag, zonaria.

Neritites cancellatus, cochleatus, fluviatilis, grossus, gryphus, helcinus, paganus, radiatus, rotulatus, spiratus.

Neritoides littoralis.

Neritoma bisinuata, sinuosa.

Neritopsis bajocensis, cancellata, costulata, cottaldina, decussata, delphinula, granosa, granulata, inaequalicosta, mariae, moniliformis, moreana, moutoniana, philea, pyrulaeformis, radula, subcancellata, sublaevigata, sulcosa, varusensis.

Nerius apicalis, brunneus, cyaneus, duplicatus, filiosus, flavipes, fuscipennis, fuscus, lineolatus, longipes, marginellus, pilifer, rubescens, vittatus.

Nerocila aculeata, affinis, blainvillei, congener, depressa, macleai, maculata.

Neroea chinensis.

Nerophilis corallina, lumbriciformis, maculatus, ophidion, papacina, teres.

Nerthops calcaratus, guttatus, multiguttatus.

Nertus acuminatus, germari, mannerheimi, mississippiensis, plumbeus, rufifrons, suturalis.

Nesa bidentata.

Nesaea (Ar.) affinis, amoena, bella, bifasciata, carnea, coccinea, confluens, conglobata, convexa, dubia, fuscata, hemisphaerica, hieroglyphica, incurvata, lacustris, lobata, longicornis, luteola, maculata, minuta, nodata, olivacea, ovata, pallescens, phalerata.

Nesaea (Cr.) bidentata, porcellana, pulchra, quinquemaculata, rosea, rufa, scapularis, variabilis, viridis, viridula, vivida.

Nesaea (G.) granulata, mamillata.

Nesea annulata, dumetosa, eriophora, nodulosa, penicillus, phoenix, pyramidalis.

Nesidea hirta.

Nesioticus flavopictus.

Nesis sycophanta.

Nesodon imbricatus, sulvani.

Nesognatha mandibularis.

Nesokia hardwicki, hodgsoni, hydrophila, kok.

Nesonetta aucklandica.

Nesotragus moschatius.

Nessaea ancaea, galanthus, harpalyce.

Nessia burtoni.

Nessorhinus vulpes.

Nestis cyprinoides, dobuloides.

Nestor australis, hypopolius, meridionalis, nova zelandiae, productus.

Nestorides aegaeus, amphitriton, cressida, drusius, eretheus, gambrius.

Netrorhynchus blainvillei.

Nettapus auritus, bicolor, coromandelianus, coromandelicus, madagascariensis, pulchellus.

Nettarhinus anthribiformis, bilobus, mannerheimi.

Nettastoma melanura, vittata.

Neurateles papyraceus.

Neuria (Dipt.) atherix, corculum, extensa, lateralis, maculosa, murina, nigrescens, ocellata, partita, praeargentata.

Neuria (Lep.) saponariae.

- Neurolyga** fenestralis, silvalis, turmalis.
Neuronaia monroi.
Neuronia (Lep.) perplexa, popularis.
Neuronia (Neur.) fusca.
Neuropora alata, damicornis, favosa, gracile, radiata, spinosa, striata, trigona, venosa.
Neuroterus bipunctatus, brevicornis, defectus, fumipennis, inquilinus, malpighii, nitens, parasiticus, politus, reaumuri, rubeculus.
Neusticurus bicarinatus.
Neustosaurus gigondarum.
Neverita josephina.
Nevromus hieroglyphicus, maculatus, ruficollis, testaceus.
Nevrosia grata.
Newportia longitarsis.
Nezara approximata, marginata, sinaragdula.
Nica cadma, flavilla, sida.
Nicania banksi, crenata, striata.
Nicea lucasi.
Nicoletia geophila, phytophila.
Nicon caudifer.
Niconiades xanthaphes.
Nicothoe astaci.
Nicrophorus americanus, thoracicus. *Vide et Necrophorus.*
Nicteribia senegalensis.
Nidalia occidentalis.
Niesthrea sidae.
Nigellastrum abietinum, antenninum, cupressinum, fusca, urneoides.
Nigidius auriculatus, bubalus, cornutus, grandis, integer, laevicollis, madagascariensis.
Nigrita arnaldi, conicapilla, fusconotus.
Nika canaliculata, couchi, edulis, japonica, longipes, sinuolata, variegata.
Nilaus capensis.
Nileus acuminatus, bouchardi, chiton, cyclurus, glomerinus*, nanus.
Nilio coccinelloides, fascicularis, fasciculatus, freyreissi, fuscus, lanatus, maculatus, marginatus, marginellus, pilosus, reticulatus, villosus.
Nilion villosa.
Niloeus beaumonti.
Niltava albicaudata, auricularis, azurea, banyumas, brevipes, cyanomelana, elegans, fulgiverter, grandis, hyacintha, indigo, macgregoriae, mcgregori, melanops, nigrorufa, pallipes, plumosa, rubeculoides, rufula, strophata, sundara, tickelli, unicolor.
Nimula lucinda.
Nina (G.) cumingi.
Ninella lamellosa, torquata.
Ninox jeridius, nipalensis, scutellatus.
Ninphum imperfectum. *Vide et Nymphon et Nymphum.*
Niphaea hyemalis, oregona.
Niphon spinosus.
Niphona picticornis.
Niraeus equestris, tricolor.
Nirmus adustus, affinis, alcae, annulatus, apiastri, argulus, auritus, biseriatus, cameratus, cingulatus, claviformis, coarctatus, cornicis, crassicornis, cruciatus, cuculi, cuspidatus, cyclothorax, discocephalus, elongatus, engrammicus, filiformis, fissus, fornicatus, fulicae, furvus, fusco-marginatus, fuscus, glandarii, glaucus, globifer, gracilis, haematopi, hasticeps, helophaeus, hiaticulae, hypoleucus, iliaci, junceus, latirostris, limbatas, marginalis, marginatus, maximus, merulensis, nebulosus, numenii, numidae, nycthemer, obscurus, ochropi, oedionemi, olivaceus, phaeops, phalaropi, podicepis, pterocephalus, punctatus, rallinus, rufus, scolopacis, sellatus, stenopyx, stramineus, strepsilaris, subcuspidatus, tenuis, tessellatus, testudinarius, tetragonocephalus, trigonocephalus, trithorax, truncatus, turmalis, uncinus, vanelli, variatus, varius, viscivori.

Nisaetus alboniger, grandis, malayanus, nipalensis, niveus, ovivorus, pallidus, pulcher, pulchrior, strenuus.

Nisea pyriformis, simplex, tubulifera.

Niso eburnea, minor, terebellata, terebellum, umbilicata.

Nisoniades aurispex, bromius, juvenis, mimas, ophion, tages, zephodes.

Nisoria undata.

Nisuela choucou, gracilis.

Nisus australis, brachypterus, canorus, columbarius, concentricus, dussumieri, elegans, fringillaroides, fringillarum, fringilloides, gabar, gracilis, hemidactylus, leucauchen, leucorrhous, magnirostris, malini, manilensis, minullus, minutus, monogrammicus, musicus, niger, nisus, pacificus, pensylvaticus, peregrinus, pileatus, poliogaster, polyzonos, scutarius, sexfasciatus, soloensis, sphenurus, striatus, uninctus, vulgaris, xanthothorax.

Nitellia nana, vespillo.

Nitidella marmorata, nitida.

Nitidula aestiva, aethiops, affinis, afra, alpestris, ambigua, analis, antarctica, antiqua, apicalis, ater, avara, azurea, biguttata, bimaculata, bipartita, bi-punctata, boreella, brachyptera, brevipennis, breviscula, brunnea, buprestoides, cadaverina, caerulea, calliginosa, castanea, ciliata, cincta, coccinelloides, colobicus, convexa, convexiuscula, cornuta, costata, crenata, deleta, denticulata, dermestoides, dithcilis, dimidiatipennis, discoides, discolor, distincta, dubia, elegans, erythropha, fasciata, ferruginea, flavipennis, flavipes, fulva, fuscicollis, fusula, geminata, glabrata, glauci, grisea, grossa, guttata, haemiptera, hemisphaerica, hieroglyphica, impressa, insularis, laeviuscula, lata, lateralis, latipes, linearis, litigiosa, littoralis, lusca, macroptera, maculata, maculipennis, mandibularis, maxillaris, melanaria, melanocephala, melanophthalma, minima, minuta, morosa, musophaga, nebulosa, neglecta, nigra, nigrina, nigromaculata, nitida, obsoleta, ochracea, octomaculata, olivacea, orbiculata, ossium, pallens, pallescens, pectinicornis, persica, peruviana, picta, planiuscula, polita, porcata, pudibunda, pulcaria, punctata, pusilla, pustulata, pygmaea, pyrrhopa, quadriguttata, quadrinotata, quadri-pustulata, radobojana, regalis, reticulata, rotundata, rubiginosa, rufa, rufo-collis, rufo-cornis, rufida, rufifrons, rufipes, rufo-marginata, rupta, scanica, semitecta, sepulcor, serripes, setulosa, sexguttata, sexmaculata, silacea, spinolae, squamata, staphylinoides, strigosa, subrugosa, subtilis, sylvatica, symphyti, terminalis, tessellata, tomentosa, trifasciata, truncata, truncatella, undata, undulata, unicolor, unifasciata, uniguttata, unilineata, urticae, variata, viduata, villosa, villosula, ziczac.

Nitzschia (Ar.) burmeisteri.

Nitzschia (Verm.) elegans.

Nivicola schistilatus.

Nobia grandis.

Nocarodes cyanipes, femoralis, rubripes, serricollis, variegatus.

Nocthora trivirgata.

Nocthura perdicaria.

Noctricula banksi, fulgens.

Noctilinia labiata, lasyura.

Noctilio affinis, albiventer, cephalotes, dorsatus, ferrum equinum, leporinus, mastivus, noveboracensis, plicatus, ruber, rufescens, rufipes, rufus, senex, unicolor.

Noctiluca miliaris.

Noctua (A.) capensis, dasytus, dominicensis, ferox, ferruginea, frontata, funerea, glaux, grallaria, hirsuta, indica, lineata, maculata, maugei, melanonota, melanota, nana, nudipes, nyctea, occipitalis, pagodarum, passerina, passerinoides, pumila, rumipes, scopis, siju, sonnerati, tarayensis, tengmalmi, torquata, tubiger, urucurea, variegata, venatica, woodfordi, zelandica.

Noctua (Lep.) abjecta, abluta, aceris, achates, acron, adepta, adulatrix, aequa, aerea, aeruginosa, aethiops, aeyua [aequa], agamos, agathina, agricola, ain, airae, albicolon, albicosta, albidilinea, albilinea, albirena, albizona, albo-ater, alcatorina, algira, aliena, alni, alpina, alsines, amasia, amatrix, amethystina, ammonia, amnicola, amoena, ampla, angulago, angusta, anilis, anomala, antirrhini, aperta, approximans,

aprica, argentina, argillacea, argillaceago, annigera, asphodeli, atomina, atrosalbina, aurantina, aurea, auribarbis, auricularis, aurifera, badia, bambucina, bardana, bathyerga, bilinea, biloba, bilobina, binaculata, binaculosa, blattariae, blenna, boisduvali, branthyporina, brama, brassicae, brodiei, brunnea, brunnea, brunnea, celtinum, Cnigrum, caenobita, caliginosa, calligrapha, caloris, canescens, cannae, canteneri, cappa, captiuncula, carbonea, cardui, carenea, cassinia, castanoptera, cataenata, cataleuca, cataphanes, cayanensis, caylino, celsia, celsii, centrigo, cephise, chalcodonia, chalcitis, cheiranthi, chenopodiphaga, chera, chimaera, chrysanthemi, cinctina, cingularis, circumflexa, circumscripta, circumspecta, clandestina, clavigera, cocalus, cognata, collusoria, combusta, comes, concinna, concolor, concolorina, concubina, conluta, congener, congrua, conjuga, conjuncta, connexa, connuba, consequa, conserta, consors, conspiciatilis, conspiciua, contaminet, contribulis, conversa, coronina, coronula, coronulina, corticea, coryli, cos, crassa, crassicornis, cuculoides, cunicularia, cursoria, cuspid, cyathina, cyllaria, cymbalaria, cyparissiae, cypriaca, dahlia, dasycheira, decepticula, dejeani, delphinii, dens-canis, denticulata, dentina, despecta, divergens, dianthi, didymoides, digramma, dilecta, dilucida, disjuncta, dissimilina, distans, diversa, dives, divesina, dolosa, dracunculi, dubia, dumerili, dumetorum, dumosa, duplaris, duplex, duplexina, echii, ectypa, elusa, egenis, electa, elegans, elota, empyrea, encausta, ephialtes, ereptricula, ericae, ericina, eridanus, erratica, eruta, erythro-stigma, esulae, ewingi, exigua, extrema, ezea, faceta, fasciuncula, faticida, favillacea, fennica, ferrea, ferruginago, fervida, festiva, fibrosa, fictilis, fimbriola, firma, fissina, fissipuncta, flavilinea, fluctuaris, fluctuosa, fluxa, fortaltium, fortaltium, fovea, foveatricula, freyeri, fulgens, fuliginea, fuliginosa, fulva, fulvia, funebis, furca, furcina, furvula, fusca, fuscata, gemina, geminata, geminipuncta, geminoidina, gilva, glacialis, glareia, glauca, gnaphalii, gnomon, gracilina, gracilis, graellsii, gramine, graminis, grandina, grinea, grisea, guttans, guttata, hatuey, hebraeica, helima, helvetina, herilia, hesione, hippophaes, hirta, hirticornis, hispida, honnoratina, hordei, humeralis, hybis, hybris, hypermnestra, I geminum, I intactum, I-niger, ignicola, ilia, illunaris, implexa, impudens, impura, inamoena, inara, infusa, infusata, insulatrix, interjecta, irregularis, javana, jucunda, julia, juncta, juno, juturna, juvenina, lactinea, laevis, lapathi, lapidea, lappo, lapponia, lata, latens, latreillei, latruncula, leilus, lenta, lenticulosa, leucogaster, leucostigma, lichenea, lidia, lignosa, limatos-trigata, lineola, lineolaris, lineolata, liris, literosa, lithargyrea, litterata, locuplina, loreyi, lota, lucernea, lucretia, ludicra, lugens, lugensina, lugubris, luminosa, lunata, lunina, lunosa, lunulina, lupula, lusoria, luteicornis, luteola, macarea, macilenta, maculata, maidis, maillardi, majuscula, malvae, maravignae, margarita, margaritata, margaritosa, marginosa, marginula, margodea, marita, maritima, marmorides, martia, melanogona, melanogramma, melanura, melicerta, mendacula, mendosa, meridionalis, messellina, microgramma, minima, minimina, minuta, mioleuca, mista, mixta, mixtina, inneste, modesta, moesta, molochina, monilea, monogramma, montana, monticola, monycha, multangula, munita, musculosa, musiva, mya, myrtaea, nana, nebulosa, neglecta, neogamia, neonympha, neurica, neurodes, nexa, ni, nigra, nigri-cornuta, ninctuncula, nitens, nitensina, notha, nubeculosa, nubilosa, numeria, numisma, nundina, nurus, nutrix, nycthemera, obesa, oblonga, obscura, obsoleta, obsoletissimus, obocula, occulta, occultina, ochraceago, ochrea, octogesima, oculata, oditis, odora, obliqua, oleagina, oleracea, olivea, ondosa, oo, opalina, operosa, ophio-gramma, opima, optabilis, optata, ornatrix, orodes, orosia, ostrina, oxalina, padockina, pales, pallego, pallida, pallustris, palpina, paludicola, par, paralellaris, parallela, parilis, parva, pasithea, pasythea, paula, pectinata, pellex, pepli, perfusa, peritheia, permixta, pernix, perspicillaris, petriuscosa, phaea, phoebeina, phragmitidis, picea, pilicornis, pinastri, plantaginis, plebeja, polyodon, popularis, posthuma, praecox, praedita, praticola, pritanis, procax, conspicua, proxima, puera, pugnax, pulchellina, pulchrina, pulmonariae, pulvereia, pumicosa, punctina, punctularis, punctulata, punicea, pupillata, pura, purpura, purpurascens, purpurata, purpurites, pusilla, puta, putrescens, pygmina, quadrangula, quadratum, questionis, quieta, radia, radians, ramburi, ramea, ramosa, rava, ravula, recepticula, rectangularis, recussa, redacta, regularis, rejecta, remissa, renago, renalis, renigera, renitens, retorta, retusa, ripae, ripagina, rosina, rubirena, rufa, rufannulata, ruferculina, rufescens, rufescensina,

ruma, rufocincta, rufuncula, rupestris, ruris, sabinae, sagittifera, salsolae, sancti florentis, santonici, saportae, sareplana, saucia, scalena, scapularis, scapulosa, scita, scripta, secalina, semi-brunnea, semifuscans, semistriata, senex, senna, sepii, sericata, serpylli, serrata, serratina, servillei, sex-strigata, silago, silenes, similina, similis, simplonia, simulatrix, sinuata, solbrina, sociina, sodae, solidaginis, sordida, sororcula, sparganii, sparsus, speciosa, spectabilis, spinifera, spinula, splendens, spuria, squamularis, stagnicola, stigmatica, stolliana, suava, subatratus, suberis, subfuscus, subgothica, subinae, subnigra, subnigra, subplumbea, subpurpurina, subrufa, subsetacea, subtusa, suda, sulphurifera, suspecta, taraxaci, tecta, telifera, temera, tenebrosa, tennina, tephra, terminalis, tetragona, tetragonina, thapsiphaga, tincta, tortricula, treitschkei, triangulum, tricuspis, tridens, trinda, trimacula, trimenda, tristigma, tristis, tritici, tux, typhina, typicoidna, ulvae, umbrosa, unanimis, undularis, unicolor, unimaculata, unimaculina, unipuncta, unpunctina, uuxia, ursina, urticae, ustulata, uxor, vacinii, valida, variegatula, velox, venosa, venusta, venustula, veronicae, vestialis, vetusta, viciae, vidua, vils, villersi, vinetuncula, viola, virens, vitellina, X notata, xanthoceros, xanthocyanea, xanthomista, xerampelina, xyliana, yvanii, zeae, zosimi.

Noctuities effosa, haidingeri.

Noctula leisleri, serotina, turcomana.

Noctulina eschscholtzi, tasmanensis.

Noctulinia altivolans, fulvus, labiata, malaccensis, proterus.

Noda exilis, humilis.

Nodicornis wiedmani.

Nodosaria acicula, aciculata, aculeata, aequalis, affinis, annulata, apenninica, arcuata, aspera, badenensis, berthelotiana, boueana, brevis, cancellata, candeï, capitata, carinata, catesbei, caudata, clava, clavulus, communis, conferta, constricta, cornicula, costata, costellata, cuspis, cuvieri, cylindracea, decenlocularia, dentalina, depressa, dubia, elegans, elongata, enneagona, fascia, ferussaci, filiformis, flexuosa, fragilis, fusulinaformis, gibba, gigantea, glabra, glans, hasta, hirsuta, hispida, humilis, inflata, intermittens, interrupta, irregularis, laevigata, lamarecki, lamellosa, legumen, limbata, linearis, lineolata, longicauda, longiscata, mariae, monile, nitida, nodosa, obliqua, oblonga, obscura, octolocularia, oligostegia, orthocera, ovicula, paucicosta, pauperula, polystigma, prima, pulchella, punctata, pyramidalis, pyrula, quadrata, radicular, radicularis, ranzani, rapa, rudis, rugosa, scalaris, scorpionus, semirugosa, semistriata, septemcostata, simoniana, siphunculus, soldanii, spinicosta, spinulosa, stipitata, striata, striaticollis, strigosa, subarcuata, subclava, substriata, subulata, sulcata, tenella, tenuicosta, tuberculata, undecimcostata, undulata, urceolata, venusta, webbiana, zippei.

Nodularia androsaces, officinalis, opuntia, pavonia, tubulosa.

Nodus edentulus.

Noeeta brunica, flavipes, guttularis.

Noemacheilus fasciatus.

Nogagus brevicaudatus, gracilis.

Nogaus latreillei.

Nogrobs vernicularis.

Nola albualis, centonalis, chlamitulalis, cristulalis, cucullalis, cucullatella, fuliginalis, monachalis, palliolatis, strigula, strigulalis, togatulalis.

Nolites albualis, centonalis, cristulalis, cucullatalis, strigulalis, togatulalis.

Nomada abdominalis, affinis, alboguttata, albomaculata, alternata, americana, angustula, annularis, annulicornis, apicalis, arenaria, argentata, armata, atrata, baccata, basalis, bicolor, bifasciata, bimaculata, bipunctata, bipunctula, bisignata, borealis, brunnea, capreae, cincta, cincticornis, colon, compta, confinis, conjungens, connexa, cornigera, dalei, dimidiata, dives, errans, fabriciella, fenestrata, fenestrata, ferruginata, ferruginea, festiva, flavinervis, flavipes, flavoguttata, flavomaculata, flavopicta, fulvipes, furcata, fuscicornis, fuscipennis, germanica, goodeniana, guttula, hellwigiana, hillana, hirtula, hoffmanseggiana, infuscata, inquilina, integra, intermedia, interrupta, jacobaeae, kirbyella, kirbyi, knochiana, labiata, lanceolata, lateralis, lathburiana, leucophthalma, longicornis, luteola, mammillaris, marshamella, mauritanica, melanostoma, mela-

thoracica, minuta, modesta, nana, neglecta, nigella, nigricornis, nigrita, nigrocincta, nobilis, numida, obliqua, obscura, obtusifrons, ochrostoma, pallescens, panzeri, panzeriana, parvula, picta, pleurosticta, poecilia, postica, proteus, pusilla, pusio, quadrimotata, robericottiana, rostrata, rubicunda, rubra, ruficeps, rufiventris, rufocincta, rufopicta, rutila, schaefferella, schotti, sexcincta, sheppardiana, signata, solidaginis, stigma, subcornuta, subfasciata, terminalis, tricolor, truncata, tuberculata, umbonata, unifasciata, variabilis, ventralis, vidua, vineta, vittata, vulpina, wilkinsoniana, xanthosticta, zebra.

Nomalus cophosioides.

Nomeus gronovii, maculosus, mauritii, nigrofasciatus, peroni, zonatus.

Nomia albocincta, armata, bispinosa, crassipes, curvipes, difformis, flavilabris, heteropoda, humeralis, indica, lobata, perforata, ruficornis, rufiventris, strigata, unidentata.

Nomiades acis, alcon, albus, arion, damoetas, damon, erebus, euphemus, lysimon, pheretis.

Nomiopus apicalis.

Nomius cruentatus, graecus.

Nomophila hybridalis, incertalis, noctuella.

Nonacris transgna.

Nonagria arundinicola, arundinis, bathyerga, cannae, crassicornis, despecta, extrema, fluxa, fulva, geminipuncta, guttans, hellmanni, hessi, hospis, junci, neurica, paludicola, phragmitidis, pilicornis, russa, sparganii, typhae, ulvae, vectis, zollikoferi.

Nonion incrassatus.

Nonionina acervata, arctica, asterisans, auricula, boueana, browni, bulloides, canariensis, communis, compressa, costata, crassula, elegans, elongata, elyptica, erythraea, faba, falk, germanica, glabra, globosa, globulata, granosa, grateloupi, gravinensis, heteropora, incrassata, inflata, integra, laevigata, laevis, lamarki, limba, magdeburgica, melo, millepora, neglecta, pelagica, perforata, polita, pompilioides, punctata, punctulata, rugosa, semi-striata, sloanei, soldanii, sphaeroides, splendida, stelligera, striatopunctata, striatula, subcarinata, tuberculata, umbilicata, vulgaris.

Nopojulus punctulatus.

Nops guanabacoae.

Norbanus dysaules, pisius.

Norbea brookei.

Norellia pseudo-narcissi.

Norna lithophila.

Norops auratus, dorsalis.

Northia pristis.

Nosodendron fasciculare, hirtum, setigerum, striatum, unicolor.

Nosoderma denticulatum, duponcheli, echinatum, morbillosum, scabrosum, vicinum.

Nosognatha senegalensis.

Nosophloeus concinnus.

Nossidium pilosellum.

Notacanthina bispinosa, magnifica.

Notacanthus sexspinis. *Vide et Noto*→.

Notaeus agassizi, laticaudus.

Notagodus denticulatus, erythrolepis, latior, minor, pentlandi, zietenii.

Notamia (Polyz.) bursaria, lorculata.

Notamia (Verm.) scabra.

Notanisus versicolor.

Notaphus alternans, apicalis, articulatus, bifasciatus, castanopterus, ephippium, fasciatus, fumigatus, fuscovariegatus, galapagoensis, hamatus, incertus, intermedius, laticollis, nebulosus, nigripes, obliquus, pedestris, posticum, prostratus, rufomaculatus, sibiricus, stictus, tenebrosus, undulatus, ustulatus, variegatus, viridicollis.

Notarchus cuvieri, laciniatus, neapolitanus, pleii, punctatus, timidus.

Notaris acridulus, aethiops, bimaculatus, punctum.

Notaspis (Ar.) acromios, alatus, bipilis, cassideus, castaneus, clavipes, corynopus, dipus, horridus, humeralis, immarginatus, marginatus, obscurus, orbicularis, ovalis, rutilans, segnis, tegeocranus, theleproctus, vegetans.

Notaspis (Hym.) formiciformis.

- Notaxus** hispanicus.
- Notelis** lineata, sex-punctata.
- Notemigonus** auratus.
- Noterus** bicolor, buqueti, capricornis, crassicornis, geeri, grandis, guttulus, laevigatus, laevis, luctuosus, quadrivittatus, semipunctatus, sparsus.
- Noteus** bakeri, quadricornis.
- Notherodius** guarauna, scolopaceus.
- Nothiophilus** aquaticus, biguttatus, porrectus.
- Nothosaurus** andriani, angustifrons, giganteus, mirabilis, muensteri, schimper, venustus.
- Nothosomus** laevis, octostychius.
- Nothris** juniperella, obscurella, pauperella, pedisequella, tremella, tripunctella, umbrellae, verbasella.
- Nothrodes** languidus.
- Nothrophrontes** destructor.

- Notocorax** javano, javanus, westermanni.
- Notocotylus** triserialis.

- Notocyrtus** clavipes, gibbus, sexfoveolatus.
Notodela coerulescens, diana, leucura.
Notodelphys ascidicola.
Notodon argentinus, bicolor, camelinus, carmelitus, dictaea, dromedarius, plumiger, querna, trepidus, trinacula, ziczac.
Notodonta argentina, bicolora, camelina, carmelita, chaonia, crenata, cucullina, dictaea, dictaeoides, dodonaea, dromedarius, frigida, ilicis, longara, melagone, milhauseri, nesea, palpina, perfusca, plumigera, querna, roboris, thalictri, torva, trepida, tritophus, unicornis, velitaris, ziczac.
Notoglossa sagittata.
Notognidion scirenga.
Notogonia ehrenbergi.
Notogymnus drepanensis.
Notolophus antiquus, gonostigma.
Notomastus latericeus.
Notommata aequalis, ansata, aurita, brachionus, brachyota, centura, clavulata, copeus, decipiens, felis, forcipata, forficata, gibba, granularis, hypopus, lacinulata, longiseta, myrmeleo, najas, onisciformis, parasitica, petromyzon, pleurotrocha, roseola, saccigera, syrinx, tigris, tripus, tuba, wernecki.
Notomya clavata, securiformis.
Notomys mitchelli.
Notonecta australis, bifasciata, grandis, grisea, insulata, marmorea, melanota, mexicana, minor, pallipes, triangularis, undulata, variegata.
Notopholis capensis, fitzingeri, moreotica, nigri-punctatus.
Notophorus tajassu.
Notophthalmus miniatus, torosus, viridescens.
Notophyllum foliosum, longum, polynoide, viride.
Notophysis lucanoides.
Notopocorystes bechei, mantelli.
Notopterophorus elongatus.
Notopterus bontianus, buchani, chetula, fontanesi, maculatus, ornatus, pallasi.
Notopus dorsipes.
Notopygos crinita.
Notornis mantelli.
Notosacantha echinata.
Notospermus drepanensis, gesserensis, viridis.
Notostenus viridis.
Notothernia coriiceps, cornucola, cyanobrancha, magellanica, marginata, phocae, purpuriceps, rossi, sina, tessellata, virgata.
Nototherium inerme, mitchelli.
Notoxus abdominalis, anchora, apicalis, apterus, armatus, australisive, axillaris, bicolor, bimaculatus, binotatus, bison, brachycerus, buqueti, castaneipennis, cavifrons, chaldaeus, collaris, congruus, cornutus, cribripennis, cruentatus, cucullatus, cumannensis, decoratus, dimidiatus, domesticus, dorsalis, dregeri, elegantulus, elongatus, ephippiger, equestris, excisus, fasciatus, fasciolatus, fulvicollis, funebris, fuscipennis, gigas, helvolus, hirtus, illigeri, immaculatus, inconstans, lancifer, laxis, lebasi, litigiosus, longicollis, maerens, major, marmoratus, mauritanicus, melanocephalus, miles, modestus, monodon, nectarinus, niger, nigripennis, obsoletus, pallidus, pantomelas, pilosus, planicornis, platycerus, pubescens, pulcher, quadrimaculatus, rodriguei, rufescens, ruficollis, ruficornis, rufitarsis, scabrosus, scenicus, senegalensis, sex-notatus, siculus, sobrinus, subfasciatus, taeniatulus, talpa, testaceus, thoracicus, thunbergi, trifasciatus, undulatus, unicolor, unicornu, univittatus, variolatus, versicolor, virescens.
Notozona bifasciata.
Notrema fissurella, patelloides.
Notropis atherinoides.
Noturus flavus, gyrinus, luteus.
Novacula bimaculata, caerulea, coryphaenoides, coryphena, immaculata, lineata, novacula, pentadactyla, psittacus, punctulata, sexmaculata, tessellata, vulgaris.

Novaculina constricta, gangetica.

Novia cylindrica.

Novius cruentatus, sanguinolentus.

Nubecularia lucifuga.

Nubilia argenti.

Nucifraga brachyrhynchos, caryocatactes, guttata, hamata, hemispila, macrorhynchos, minor, multipunctata, platyrhynchos, punctata, ruficollis*.

Nucleocrinus elegans.

Nucleolites aequalis, alpinus, amplus, amygdala, analis, aneocomensis, approximatus, asterostoma, bonareii, canaliculatus, carinatus, castaneus, cerceleti, clunicularis, clypeatus, collegnyi, columbaria, conicus, convexus, cor-avium, cordatus, cordiformis, crepidula, crucifer, depressa, depressus, dilatatus, dimidiata, edmondi, edmundi, elatus, elongatus, emarginatus, excentricus, faba, gibbosus, goldfussi, gracilis, granulatus, gresslyi, grignonensis, heptagona, heterochita, inflata, lacunifera, lacunosus, laevis, lamarecki, lapis cancri, latiporus, lyelli, major, marmini, micraulis, minimus, morrisi, mortoni, muensteri, nicoleti, obesus, oblongus, obovata, ofersi, orbicularis, ovatus, oviformis, ovulum, parallelus, paraplesius, patella, patellaris, patelloides, planatus, planulatus, pyramudalis, pyriformis, renaudi, requieni, richardi, roberti, rotundus, sarthacensis, scrobiculatus, scutata, scutella, semiglobus, semisulcata, sinuatus, sowerbyi, speciosa, subcarinatus, subquadratus, subtrigonatus, terquemii, testudinarius, testudo, thurmanni, transversus, truncatulus.

Nucleopygus cor-avium, incisus, minor.

Nucras chalybea, exigua, tessellata.

Nucula abbreviata, abrupta, accipiens, acuminata, acuta, acutidens, aegeensis, aeolica, aequidis, aequilatera, aequilateralis, ahrendi, albensis, alpina, amata, amygdalea, amygdaloides, anglica, angulata, antiqua, antiquata, apiculata, archiaciana, arctica, arcuata, arduennensis, argentea, ascendens, attenuata, australis, axiniformis, ba-hoensis, belcheri, bella, bellatula, bertrandi, bucarinata, bicuspidata, biloba, birostrata, bisulcata, bivirgata, blochmanni, bowerbanki, brevirostris, brogniarti, caecilia, caelata, calcarensis, calliope, capraeformis, carinata, cariniifera, carolinensis, caseoensis, castor, castrensis, caudata, chassyana, chauveli, cingulata, claibornensis, clavata, claviformis, coarctata, cobboldiae, coelata, commutata, complanata, compressa, compta, concava, concentrica, concinna, convexa, cordata, cordiformis, cornueliana, corticata, costata, costellata, crassa, crenifera, crenistriata, crispa, cultelliformis, cumingi, cuneata, cuneiformis, curvirostrum, cuspidata, cylindrica, decheni, decipiens, declivis, decussata, deglandi, delphinodonta, delta, deltoidea, depressa, deshayesiana, diaphana, dilatata, divaricata, dolabella, donaciformis, dubia, duhasteli, duvaliana, eborea, eburnea, electra, elenensis, elliptica, elongata, emarginata, equalis, erato, ermanni, erosa, erycinoides, eudorae, eurita, excavata, excisa, exigua, expansa, faba, fabula, falcata, feronia, fluvialilis, foersteri, formata, fragilis, gabrielis, galeottiana, gibbosa, gigantea, glaberrima, glabra, glacialis, glendonensis, goldfussi, gouldi, grandaeva, grayi, gregaria, haesendoncki, hamiltonensis, hammeri, hausmanni, hellica, impressa, improcera, incerta, inconsta, incrassata, inflata, inflexa, italica, jacksoni, japonica, jugleri, kazanensis, krachtae, lacryma, lacrymaeformis, laevigata, laevirostrum, laevis, lanceolata, lareuilierti, lata, laternaria, latissima, leiiorhynchus, lenticula, levata, levesquei, liciata, limatula, limosa, linearis, lineata, lineolata, lingualis, lingulata, longirostra, longirostris, luciniformis, lunulata, lyrata, machaeri-formis, mactraeformis, magna, magnifica, mantelli, margaritacea, mariae, marmorea, mauritiana, media, mediosjurenensis, menkei, miliari, minima, minuta, mirabilis, mitralis, montagui, morreni, mucronalis, mucronata, muensteri, murchisoni, musculosa, myalis, nana, nasuta, navicularis, nicobarica, nitida, nucleus, nuda, obesa, obliqua, oblonga, oblongoides, obsolete, obtusa, oelica, opulenta, ornata, ornatissima, ovalis, ovata, ovula, ovum, packeri, palmae, panda, parilis, parunculus, parva, pectinata, pectuncularis, pella, pellucida, penita, phalanta, phaseolina, philippiana, philipsi, pisum, placentina, plana, planata, plicata, polii, polita, pollux, porrecta, portlandica, poststriata, praeacuta, primigenius, prisca, producta, protei, proxima, puelcha, pulcherrima, pulchra, puschi, pusio, pygmaea, radiata, recta, rectangularis, recurva, renaxiana, reticulata, retusa, reussi, rhombodea, rhomboides, rostralis, rostrata,

rugulosa, ryckholtiana, sapotilla, scapha, schomburgki, securiformis, sedgewicki, semen, semilunaris, semiornata, semistriata, sericea, serotina, serrata, siliqua, similis, simplex, smithi*, solea, solenoides, spatulata, spectosa, speluncaria, stabili, stilla, stotteri, striata, striatula, strigilata, subacuta, subarqualis, subclaviformis, subcompressa, subcordata, subcostata, subcuneata, subcylindrica, subdeltoidea, subelliptica, subglobosa, sublaevis, submargaritacea, subnuda, subobliqua, subobtusa, subovalis, subovata, subrecurva, subtrian-versa, subtriangula, subtrigona, sulcata, sulcellata, sulcosa, tateiana, tellinaeformis, tellinella, tellinoides, tellinula, tenella, tenera, tenuilineata, tenuirostris, tenuis, tenuistriata, tenuisulcata, thraciaeformis, trigona, trigonula, truncata, tumida, turgida, ulysses, undata, undulata, unilateralis, variabilis, ventricosa, vibrayana, vicksburgensis, westendorpi, wetherelli, wynnensis, zinkeiseni.

Nuculana rostrata.

Nuculina miliaris.

Nuculites alta, appressa, bellastriata, chemungensis, concentrica, constricta, cuneiformis, emarginata, faba, filosa, lamellosa, lirata, macroides, maxima, multilinea, oblongata, planulata, poststriata, radiata, rostellata, scitula, subemarginata, sulcatina, triquetra.

Nucunella nysti.

Nudaria cinerascens, fusca, hemerobia, munda, murina, rotunda, senex.

Nullipora aculeata, agariciformis, articulata, byssoides, calcarea, cervicornis, compressa, erecta, fasciculata, globulus, glomerata, gracilis, granulosa, informis, lichenoides, lycoperoides, mamillifera, marticensis, navicula, nodulosa, palmata, polymorpha, provincialis, racemosa, racemus, ramosissima, trochanter, tuberosa, uvaria.

Nulliporites nodulosus.

Numenia arcuata, arcuatula, aterrimus, atricapillus, australasianus, australis, brasiliensis, brevirostris, chichi, chihhi, cinerascens, cuvieri, cyanopus, falcinellus, femoralis, ferrugineus, gouarauna, gypsurum, hudsonius*, intermedius, islandicus, lineatus, longirostris, major, medius, melanopus, minutus, orientalis, punctatus, pusillus, rostratus, rufiventris, subarquata, syngenicos, tenuirostris, uropygialis, variabilis, virgatus, vociferus, vulturina.

Numeria agaritharia, capreolaria, diversaria, donzelaria, pulveraria.

Numida coronata, maculipennis, ptylorhyncha, rendalli.

Numidia erytroleuca.

Nummularia acuta, comptoni, elegans, exponens, laevigata, obtusa, variolaria.

Nummulina antiquior, assilinoidea, biaritzana, cellulosa, complanata, crassa, curvospira, depressa, discoidalis, discorbiformis, ephippium, faujasi, fichteli, fortisi, globosa, globularia, globulina, granulosa, gyzezensis, intermedia, irregularis, laevigata, lenticularis, mamillata, mamillaris, mantelli, marginata, munchisoni, nitida, papillosa, perforata, placentula, planulata, polygyratus, radiata, radiolata, regularis, rotularia, rotulata, sanguantulae, scabrosus, seminum, sanguantulae, stellata, undata.

Nummulites althausi, aspera, atacicus, aturica, biaritzana, cellulosus, charteri, complanata, comptoni, concava, convexoplana, crassa, denarius, depressa, distans, elliptica, faujasi, fichteli, floridanus, fragilis, garansiana, garumnae, globularia, globulina, globulus, inflatus, irregularis, laevigata, latispira, lea, lenticularia, lenticularis, lenticulus, mamilla, mantelli, marginata, maxima, millecaput, modiolata, striata, moneta, montanus, nummiformis, nummularia, obtusa, onychomorpha, orbicularis, ovata, papyracea, patellaris, placentula, plana, planospira, polygyratus, radiata, ramondi, rhomboides, rotula, rotularius, sabothi, seminum, sinuosus, spira, spissa, striata, umbilicata, umbo reticulata, variolaria, vasca, verrucosa.

Nundina litura.

Nupharia rivularis.

Nura signata.

Nuria thermoicos, thermopylos.

Nursia granulata, hardwicki, herbsti.

Nuttainia concentrica, hibernica, obscura, sparsa.

Nychtophus lampanotus, metopoclampus, rafinesquei.

Nyctaetus aquilina.

Nyctala pinetorum, planiceps.

Nyctale abietum, acadica, dastypus, funerea, harrisi, richardsoni, siju, tengmalmi.

Nyctalemon orontes, patroclus.

Nyctalops stygius.

Nyctalus alecto, belangeri, heathi, temmincki, verrucosus.

Nyctea candida, cinerea, erminea, nivea, nyctea, wapacuthu.

Nyctegretis achatinella.

Nycteis brevicollis, madagascariensis.

Nyctelia andicola, angustata, antarcticus, bremeri, caraboides, caudata, cellulosus, conspurcata, corrugata, crenicosta, cristallissatus, cucullatus, darwini, dasypoides, decorata, dejeani, deplanatus, desertorum, discicollis, ebeninus, elegans, erebi, erotyloides, erythropus, fitzroyi, granulata, griseostriata, guerini, hopei, immaculata, laevigata, laevis, latissima, luzoti, macrocosta, mamilloneus, monilis, multicosta, newporti, nodosa, oblonga, pictus, pilipes, plicata, plicatipennis, puncticollis, reticulata, rugosa, salix, satanicus, saundersi, senex, servillei, servus, solieri, stephensi, strangulatus, subsulcata, sulcicollis, tentynoides, transversotruncata, undatipennis, ursinus, vestitus, westwoodi.

Nyctemera atralba, cafra, coleta, famula, hesperia, lacticinia, nerina, pagenstecheri.

Nycteola degenaria, falsalis.

Nyctereutes procyonoides, viverrinus.

Nycteribia biarticulata, blainvillei, dubia, dufouri, hermanni, hopei, jenynsi, latreillei, pedicularia, roylei, senegalensis, sykesi, vexata, westwoodi.

Nycteridium fischeri, mosquense.

Nycterina anthracina, lugubris.

Nycterinus abdominalis, ebeninus, rugiceps, thoracicus.

Nycteris affinis, albiventer, capensis, damarensis, daubentoni, discolor, geoffroyi, javanicus, hispidus, huzardi, poensis, thebaicus.

Nycterodius nycticorax.

Nycteropus acuminatus, anthracinus, ebeninus, ovalis, resplendens, rufipes.

Nycterus hispidus.

Nycteus haemorrhoidalis, haemorrhous, hispanicus, meridionalis, testaceus, thoracicus.

Nycthemerus argentatus, gemellari, pictus.

Nyctia (A.) candida.

Nyctia (Dipt.) carceli, claripennis, maura, nitida, pusilla, rubescens, servillei, trifaria, trifaciata, vernalis.

Nyctiardea europaea, leuconotus, pileata, violacea.

Nyctibius aethereus, bracteatus, cornutus, forficatus, grandis, jamaicensis, longicaudatus, pallidus, pectoralis, rufus, steatornis, urutau.

Nyctibora crassicornis, holosericea, latipennis, sericea.

Nycticebus bengalensis, ceylonicus, javanicus, lori, potto, tardigradus.

Nycticeius macrotus, sericeus, tessellatus, varius.

Nycticejus borbonicus, heathi, humeralis, lasiurus, leucogaster, mystax, nigrita, noveboracensis, poepingi, pruinosis, sayi, varius.

Nycticeus belangeri, bonariensis, chilensis, cyanopterus, mystax, poepingi, rafinesquei, savi, sculus, temmincki.

Nyctichelidon europaeus*, vulgaris.

Nycticorax americanus, ardeola, australasiae, badius, caledonicus, cayanensis, crassirostris, cucullatus, europaeus, gardeni, goisagi, griseus, infaustus, jamaicensis, leuconotus, limnophilax, manillensis, meridionalis, naevius, nycticorax, oceanicus, orientalis, pileatus, sibilatrix, violaceus, vulgaris.

Nyctidromus alpinus, derbyanus, grallarius.

Nyctimene laganum, rosacea.

Nyctinomus acetabulosus, aegyptiacus, bengalensis, brasiliensis, condylurus, dilatatus, dubius, macrotis, murinus, nasutus, plicatus, pumilus, pusilus, ruppelli, tenuis.

Nyctiornis amictus, athertoni, gularis.

Nyctipao crepuscularis, epheperis, latona.

Nyctipates asperata, carinata, costata, cylindrica, pastica, rugulosa.

Nyctipetes cunicularia, perlatus.

Nyctipithecus duruculi, felinus, lemurinus, oseryi, trivirgatus, vociferans.

Nyctiplanus rotundatus.

Nyctivociferator europaeus.

Nyctobates brevicornis, confusus, gigas, hypocrita, inermis, laevigatus, moereus, punctatus, rotundicollis, serrata, tibialis, transversalis.

Nyctocharis phyllogaster.

Nyctocleptes dekan.

Nyctopetus tenebrioides.

Nyctophilus geoffroyi.

Nyctophus bonapartei.

Nyctoporis aequicollis, cristata.

Nyctornis aethereus, grandis.

Nyctotherus velox.

Nyctozoilus obesus.

Nygmia albina, arencea, cagnatella, evonymella, helladia, irrorella, padella, plumbella.

Nymphalis aceris, acheronta, acilia, aconthea, actaea, adippe, adonia, aegeria, aeropus, aethiopa, aethiops, afer, agathis, aglaia, aidea, alcimeda, alimena, alpais, alphaea, alpheda, althea, amasia, amelia, amphiceda, amphimacus, amphinome, amphitoe, amulia, ancaea, annetta, anticlea, antilope, antinoe, antiochus, antiopa, arcanius, arethusus, argenissa, artemis, arthemis, assinilis, astina, atalanta, athamas, auge, bella, berenice, bernardus, beroe, bisaltide, bolina, boueti, briseis, brutius, C-album, cadma, caenis, callisto, camilla, candiope, cardrena, cardui, castor, celtis, chiron, chloe, chromus, chrysis, cinxia, circe, claudina, clymenus, clytemnestra, cocala, condomanus, coresia, corinna, cūpavius, cyane, cyanippe, cymodoce, cynthia, cyrna, cytherea, daedalus, daphne, decius, deiphile, dejanira, delphis, demetra, demodice, demophon, dia, dione, dirce, disconthea, disippe, dolon, doriclea, draco, dyndima, edwardsi, egesta, eleus, emilia, epaphea, ephyra, epigasius, epigia, epione, eribotes, erithonius, erminia, etesipe, ethalion, etheocles, etheta, euclides, eudanippus, eudoxus, eulimene, eupale, euphemia, euphrone, euphrosine, eurinome, euryalus, evellina, fabius, fauna, ferentina, feronia, fidia, flavilla, francina, franck, frobenia, furcula, galanthus, galathea, gelania, geoffroyi, gnidia, halice, harmonia, helicopis, helie, heliodore, hermione, hersilia, hippona, horatius, hordonia, hostilia, hydarnis, hydaspis, hylas, hyperanthus, iapis, ilia, ines, io, iocaste, iole, iphiclea, iphis, irenea, iris, irma, ischaris, isidora, isis, itys, jacintha, janais, janira, jasmus, johanna, laertes, lamina, lampedo, laodice, laphria, lasinassa, lathonia, laura, laurentina, leucophthalma, leucothoe, levana, liberia, ligca, liria, lirissa, livius, lubentina, lucilla, lucina, lucretia, lucretius, lycomedes, lycorias, lycurgus, lysandra, macra, macris, maia, margarita, marica, marsolia, marsolus, mathesius, medea, medon, melampus, nucleagris, melicerta, melinoe, mesenteria, micalia, miltiades, misippe, morvus, mycerina, mygdonia, myrti, mythra, nauplia, neaerea, nesea, nessus, neste, nisis, oecus, oisis, ophione, opis, oppeli, orion, orphise, orsilochus, pales, pamphilus, paphia, pavon, pelias, pellenis, periander, perseae, perseis, phaedra, phliassa, phorcys, phraortes, phylaxis, pilosellae, pinthaeus, pitheas, pleione, pollux, polychloros, polyxo, populi, portia, postverta, procris, prorsa, protoclea, psaphon, pygea, pyramon, pyramus, pyrrhus, rhodopensis, rogeri, ryphea, salmasis, salmasis, sangaris, satyrus, schreiberi, semele, semire, sempronius, serina, sibilla, siva, solon, sorana, soronon, stelenes, stratiotalus, strophia, sydonia, sylvina, syma, symachia, themistocles, thersander, thetis, thieste, thoe, thurius, thyone, tiridates, torrebia, triangulum, tulbaghia, typha, tytius, ursula, urticae, v-album, vacuna, valesiana, varanes, venilia, veranes, veronica, vitellia, volumna, xiphare, zetes, zoolina, zunilda.

Nymphes myrmeleonoides.

Nymphicus bisetus, novae-hollandiae.

Nymphidia pumila.

Nymphidion anius, nilus.

Nymphidium acheris, arminius, athenon, calyce, caricae, damon, jessa, lamis, leucosia, lysimon, mantus, molpe, phliasus, platea, telephus.

Nymphon aculeatum, arachnoideus, brevitar, giganteum, hirtum, johnstoni, johnstonianum, knoxi, longitarse, minutum, mixtum, pellucidum, phasma, similis, spinosum, stroemi. *Vide et Nymphum et Nymphum.*

Nymphula bipunctalis, fenestralis, interpunctalis, lemnalis, literalis, lunulalis, magnicaulis, nivalis, nudalis, numeralis, nymphaealis, perspectalis, potamogalis, pulveralis, punctalis, saturnalis, transversalis, tripunctalis, undalis, unipunctalis.

Nymphum carolinensis, coccineum, dubium, femoratum, gracile, grossipes, hirsutum, spinosum. *Vide et Nymphum et Nymphon.*

Nymula emulus, gnosis, julii.

Nymphona ocellata.

Nyroca africana, americana, australis, brunnea, ferina, ferinoides, fuligula, fulva, leucophthalmus, marila, nyroca, valisneria.

Nyssia alpinaria, bombycaria, hispidaria, pomonaria, tauaria, zonaria.

Nysson abdominale, auratus, aurinotus, decemmaculatus, dimidiatus, dissectus, dubius, difouri, fasciatus, geniculatus, guttatus, interruptus, maculatus, marginatus, minutus, nigripes, omisus, panzeri, quadriguttatus, quinquespinosus, rufipes, spinosus, trimaculatus, weismachi.

Nyssus coloripes.

Nystagnus aries.

Nyttum limbatum.

Obba mamilla, papilla, planulata.

Obelia alternata, deflexa, disticha, lobulata, nana, radians, radiata, ramosa, serpens, sphaerulina, tubulifera. [No. 10 a Coel.; others Polyz. *Teste* S. F. H.].

Obeliscus annaensis, bacterionides, brephos, calcareus, clavulus, decollatus, gnomon, goodalli, gracillimus, maculatus, micra, mimosarum, obeliscus, obtusatus, oryza, sceptrum, septenarius, stylus, subuliformis, sylvaticus, ventricosus.

Obelus cheirantiola, duplicatus, michaudi, polymorphus, preauxi.

Oberea amabilis, balcanica, caeca, depressa, erythrocephala, euphorbiae, flavipes, limbata, linearis, lutei olli, maculicollis, mauritanica, monostigma, myops, natalensis, ocellata, oculata, perspicillata, pupillata, ragusana, ruiceps, seminigra.

Oberopa monostigma.

Obisium carinoides, dubium, dunicola, eliminatum, fuscimanum, gracile, ischnocheles, maritimum, megachelum, muscorum, nemorale, orthodactylum, pallipes, sesamoides, sylvaticum, tenellum, walkeuerei.

Oblada melanura.

Oblata tricuspидata.

Oblicia testacea.

Obliquaria atrovioacea, attenuata, bicolor, bullata, calendis, chloris, cliffordiana, cuprea, cyphya, decorticata, depressa, ellipsaria, fasciolaris, flava, flexuosa, fontinalis, interrupta, lateralis, lineolata, melanevra, nodulata, obliquata, pallens, plateolus, pusillus, quadrula, reflexa, retusa, rivularis, rubra, scalenia, sintoxia, sinuata, subrotunda, tenellus, triangularis, tuberculata, venus, verrucosa, violacea.

Obolus apollinis, ingricus, siluricus.

Obovaria cordata, crassa, obovalis, pachostea, retusa, stegaria.

Obrium aethiops, brevipenne, brunneum, cantharinus, dentatum, fabricianum, fasciatum, ferrugineum, furcatum, gracile, guttigerum, gynandropsidis, immite, melanurum, minutum, obliquum, pallidum, pini, piniadeum, pulchellum, pusillum, pygmaeum, rubidum, rubrum, signatum, striata, subrotunda, syntaxis, torsa.

Obstetricans vulgaris.

Ocalea alpina, badia, castanea, concolor, decumana, murina, oblita, procera, prolixa, rufulabris, spadicea.

Occylotrachelus aciculaticollis.

Oceania ampullacea, bimorpha, blumenbachii, cacuminata, conica, cymballoidea, danica, dineina, episcopalis, flavidula, funeraria, gibbosa, globulosa, hemisphaerica, heteronema, lenticula, lesueur, lineolata, marsupialis, microscopica, multicirrata, octocostata, octona, paradoxa, perla, phosphorica, pileata, rotunda, saltatoria, sanguinolenta, tetranema, tubulosa, turrita, viridula.

Oceanites grillaria, marina, wilsoni.

- Oceanus (A.)** crepitatus, parasiticus.
Oceanus (Ceph.) flammeus.
Ocellaria alcionides, angustata, benettiae, cupuliformis, decheni, grandipora, inclusa, longipora, muricata, nuda, pedunculata, radiata, ramosa.
Ocenebra erinacea.
Ochetopus pallipes, spinicollis.
Ochetorhynchus rufoaudus.
Ochetostoma caouari, erythrogrammon.
Ochina anobioides, castaneum, hederace, nigra, ptnioides, sanguinicollis.
Ochlerus cerdo, cinctus, coriaceus, lutosus, sordidus.
Ochlia cerialis, exigualis, pantheralis.
Ochodaes bituberculatus, chrysomelinus, miliaris, obscurus, rufus, scymnoides.
Ochralea flava.
Ochria aurago, flavago, oo.
Ochromela nigrorufa.
Ochromolopis bifariella, byssinella, icella, sericella, vibicella.
Ochromyia abdominalis, analis, bicolor, fasciata, fuscipennis, gigas, hyalipennis, javana, jejuna, lateralis, punctata.
Ochropleura musiva, plecta.
Ochrosopsis apicalis, australis, erosa, melanocephala, rufescens, subfasciata, vermicularis.
Ochrostigma austeria, melagona.
Ochsenheimeria bisontella, bubarella, herculella, scabrosella, taurella.
Ochtera melanocephala.
Ochterus marginatus.
Ochthebius aeneus, aeratus, ater, bicolor, bifoveolatus, crenulatus, cribricollis, difficilis, dilatatus, exaratus, exsculptus, fossulatus, foveicollis, foveolatus, fuscus, gibbus, granulatus, hybernicus, impressicollis, impressus, insubricus, lacunosus, margipallens, marinus, metallescens, nanus, nitidus, nobilis, pallidipennis, pallidus, pellucidus, pilosus, punctatus, pusillus, pygmaeus, quadricollis, quadrifossulatus, riparia, riparius, rufomarginatus, sericeus, sulcicollis.
Ochthedromus aeneicollis, affinis, americanus, antiquus, axillaris, basalis, bimaculatus, cautus, chalcus, constrictus, contractus, cordatus, dilatatus, dorsalis, frontalis, fugax, gelidus, longulus, lucidus, niger, nitens, nitidus, patruelis, perspicuus, picipes, pictus, planatus, planipennis, planus, postremus, purpurascens, quadrimaculatus, rapidus, salebratus, subaeneus, substrictus, sulcatus, tetracolum, timidus, transversalis, trepidus, umbratus, variegatus, versicolor, viridicollis.
Ochthenomus angustatus, indicus, lefebvrei, melanocephalus, punctatus, sinuatus, tenuicollis.
Ochthephila abjecta, actinophora, bicarinata, cheiranthicola, consori, dealbata, depauperata, diadema, echinulata, innominata, lancerottensis, lentiginosa, leptosticta, maderensis, martigena, oxytropis, pauperula, pyramis, rotula, thiarella, tumulorum.
Ochthephilum fracticorne.
Ochthera manicata, mantis, mantispa, schembrii.
Ochthiphila albiceps, elegans, flavipalpis, flavipes, geniculata, nigrimana, nigripes, polymorpha, polystigma. *Vide et Ochthiphila.*
Ochthites brevicauda.
Ochthoea oenanthoides, saya.
Ochthosia stroemia.
Ochthiphila aridella, cinerea, empiformis, juncorum, maritima. *Vide et Ochthe → et Ochthi →.*
Ochyria aptata, ligustrata, munitata, propugnata, quadrifasciata.
Ochyropus gigas.
Ocipode urvillei. *Vide et Ocypode.*
Ocladius asserculaticollis, baccicollis, costicollis, costiger, foveatus, glomeris, inaequalicollis, lacunatus, pertusa, salicorniae, senilis, subcarinatus, subfasciatus, sulcipes, textilis.
Ocnaea calida, longicollis, micans.
Ocnera granulata, lepidacantha.
Ocneria detrita, pilumnia, rubea.
Ocneros perspicillatus.

- Ocnoscelis** cyanoptera, purpurata.
Ocnotherium gigas.
Ocnus brunneus, lacteus.
Ocreale rectangulum.
Octipos bicolor, coccineus.
Octobothrium digitatum, hirundinaceum, lanceolatum, leptogaster, merlangi, palmatum, platygaster, rostellatum, sagittatum, scombri.
Octochila bitentaculata.
Octocoenia lugdunensis.
Octocotyle comatulae, lanceolata, truncata.
Octodon bridgesi, cumingi, cummingi, degus, kumingi.
Octoglossa femoralis.
Octogonotes banoni, cinctipennis, dimidiatus, quadrilineatus, rubicundus, thoracicus, tomentosa, vestitus.
Octolaimus warwicki.
Octomeris angulos, stuehburii.
Octonus olosteon.
Octoplocamus mitra.
Octopodoteuthis sicula.
Octopoteuthis sicula.
Octopus aculeatus, aegina, albus, aldrovandi, americanus, antiquorum, arcticus*, areolatus, argus, atlanticus, backeri, berenice, brevipes, brevitentacularis, carena, carenae, cassiopea, cephea, coco, colossus, cordiformis, cyanea, didynamus, eudora, evlvis, favonia, filamentosus, fontanei, fontanianus, frayedus, geryonea, gracilis, granosus, hardwickei, hawiensis, heteropus, horridus, hyalinus, indicus, koellikeri, leucoderma, lunulatus, macropodus, macropus, maculatus, maximus, medoria, membranaceus, microstoma, minimus, moschites, niger, niveus, octopodia, pictus, pilosus, polyzenia, quoyanus, ruber, saluti, saphenia, semipalmatus, sinensis, superciliosus, tehuelchus, testaceus, tetracirrus, tetradymanus, tuberculatus, unguiculatus, unieirrus, velatus, velifer, ventricosus, venustus, westerniensis.
Octostoma alosae, merlangi, scombri.
Octotemna singularis.
Octotemnus glabriculus, opacus.
Octotoma cincta, germari, hagenbachii, plicatula, scabripennis.
Oculina americana, axillaris, banksi, coalescens, coccinea, compressa, conferta, crassoramosa, dendrophyllodes, diitusa, echidnaea, elegans, ellisi, explanata, fissipara, flabelliformis, gemmata, hirtella, horrescens, incerta, infundibulifera, limbata, meyeri, micranthus, neustriaca, ocellata, oculata, pallens, palmata, petiveri, poppelacki, prolifera, ramea, raristella, reflexa, rosea, rugosa, solanderi, speciosa, sulcata, valenciennesi, varicosa, virginea, wagleri.
Ocyale atalanta, mirabilis, murina, rufa, rufofasciata.
Ocyalus latirostris.
Ocydromia dorsalis, flavipes, glabricula, melanopleura, nigripennis, nigripes, peregrinata, rubicollis, ruipes, scutellata.
Ocydromus (A.) brachypterus, dieffenbachii, fuscus, troglodytes.
Ocydromus (Col.) celer, flammulatus, impressus, modestus.
Ocydromyia fuscipennis.
Ocypeta pedata.
Ocypete (Ar.) derasa, detrita, draco, ferruginea, gracilipes, megacephala, melanogaster, murina, nobilis, pallens, rubra, setulosa, tersa, testacea, thoracica, vulpina.
Ocypete (Cr.) comata.
Ocypetes cavernarum, rubra, suilla, torquatus.
Ocyphaps lophotes.
Ocyropa albicans, angulata, appellans, aurantia, bispinosa, brevicornis, carnifex, cordimana, eques, fabricii, gaudichaudi, gigantea, granulata, heterochelos, hispana, hydrodroma, incerta, ippeus, lateralis, macrocera, microcheles, minuta, nigra, pugillator, pusilla, quadrata, quadratus, rhombea, rhomboides, rubra, rufopunctata, ruricola, saratan, senex, tetragona, tridens, unispinosa, vocans.

Ocyode angulata, arcuata, arenarius, citharoedicus, clavimana, convexa, cordata, cursor, dilatata, fluviatilis, fossor, globosa, japonica, lactea, lata, longimana, maracoani, pusilla, reticulatus, senex, tourlourou, tridens. *Vide et Ocipode.*

Ocyptamus fuscipennis, funebris.

Ocyptera albilabris, atrata, auriceps, bicolor, bifasciata, bimacula, borealis, bosci, brassicaria, brevicornis, carbonaria, carinata, ciliata, coarctata, coccinea, compressa, costalis, costata, crassa, cylindrica, diabolus, diaphana, dimidiata, dolium, dorsalis, dosiades, dotadas, epytus, euchenor, exisa, fulva, fuscipennis, gracilis, hystrix, imbuta, intermedia, interrupta, lateralis, litturata, maculata, marginalis, morio, nigrita, pentatomae, picta, pilipes, pubera, pusilla, reflexa, roralis, rotundata, rufifrons, rufipes, scalaris, setulosa, similis, sinillima, simplex, soror, tachinaria, tremula, triquetra, umbratica, vittata, volvulus.

Ocypterus albovittatus, cinereus, dominicanus, fuscatus, leucogaster, leucorhynchus, mentalis, minor, personatus, rufiventer, sanguinolentus, superciliosus, viridis.

Ocypteryx lateralis.

Ocytus abbreviatipennis, alpestris, alpicola, angustatus, ater, brunripes, cerdo, chevrolati, compressus, confinis, confusus, cupreus, cyaneus, cyanochloris, depressus, falcifer, fulvipennis, fulvipes, fuscatus, gagates, gracilicornis, italicus, limbifrons, macrocephalus, masculus, megacephalus, micropterus, morio, nigrius, olens, pedator, phaeopus, philonthoides, picipennis, picipes, planipennis, pullus, scabrosus, sculus, similis, syriacus, tartaricus.

Ocyrhoe cruciata, lineolata, melanospila, rosea. *Vide et Ocyroe.*

Ocyris oinops, oinopus.

Ocyroe cristallina, fusca, labiata, lineolata, maculata, perseae. *Vide et Ocyrhoe.*

Ocys currens, melanocephalus, striatum, tempestivus.

Ocythoe antiquorum, argos, cranchi, emarginatus, punctata, tridens, tuberculata.

Odacantha basalis, bifasciata, brasiliensis, cephalotes, cyanocephala, dorsalis, elongata, fasciata, litura, pennsylvanica, praeusta, puncticollis, senegalensis, tripustulata. *Vide et Odo→.*

Odatria radiata.

Odatria ocellata, punctata, timorensis.

Odax algensis, balteatus, borbonicus, lineatus, moluccanus, pullus, semifasciatus, varius, vittatus.

Odenesis pini, potataria.

Odezia chaerophyllaria, chaerophyllata, tibialaria.

Odice acharis, inamoena, pamphilia, quieta, regularis.

Odinia peletieri, tri-notata.

Odmaelurus genetta.

Odocantha acuminata, pennsylvannica. *Vide et Oda→.*

Odocoileus speleus.

Odogenius barbarus, fulvipes, longipennis, pilosus, rufipes.

Oduncineta papyracea.

Odonestis elizabetha, pini, potatoria, pruni, servula.

Odontoptera palpina.

Odontacanthus crenatus, heterodon.

Odontacheila desmaresti.

Odontaeus aeneas, costatus, filicornis, foveicollis, furcifer, lazarus, lusitanicus, mobilicornis, musculus, pallens, quadridens, sculpturatus.

Odontalus tridens.

Odontaspis acutissima, angustus, bronni, constrictus, contortidens, dubia, ferox, gracilis, hopei, mirabilis, oxyprion, pygmaea, raphiodon, regularis, raphiodon, subulata, taurus, undulata, verticalis.

Odonteus sparoides.

Odontia dentalis.

Odontidium laevissimum, rugulosum, trachea.

Odontina annulata, laevis, rugulosa, striata.

Odontionopa sericea.

Odontis aegyptiaca, australis, canaliculata, constricta, coronaria, fragarioides, labeo,

- maculosa, marmorata, modulus, nigra, nigrescens, pagodus, reticulata, rosea, subplicata, sulcata, tectum, tectum persicum, variegata, virescens.
- Odontium** coxendix, nitidulum.
- Odontobius** ceti.
- Odontocephalus** selenurus.
- Odontocera** (Col.) abdominalis, aurulenta, brachyptera, crinita, cylindrica, dice, eirene, eunomia, gracilis, maia, vitrea.
- Odontocera** (Dipt.) acuticornis, affinis, confinis, denticornis, spinicornis.
- Odontocerum** griseum.
- Odontocerus** (Cr.) lutescens.
- Odontocerus** (Neur.) albicornis, maculipennis.
- Odontocheila** adonis, chrysochloris, cognata, distinguenda, egregia, mexicana, rugipennis, spinipennis.
- Odontochile** applanata, aspera, auriculata, cristata, hausmanni, laticauda, rugosa, spinifera, subdepressa, tuberculata.
- Odontocnemus** fischeri.
- Odontocorynus** creperus.
- Odontocyclas** kokeli.
- Odontoderes** australis, cacicus.
- Odontodorcus** moschiferus, tragulus.
- Odontolabis** baladema, cuvera, delesserti.
- Odontomaches** vestitus.
- Odontomachus** athnis, chelifer, haematoda, haematodes, hypocrita, insularis, unispinosa.
- Odontomera** ferruginea, maculipennis.
- Odontomerus** (Col.) bidentatus, serratus.
- Odontomerus** (Hym.) appendiculatus, dentipes, spinipes, striatus.
- Odontomus** chrysostigma.
- Odontomyia** albipennis, albomaculata, amyris, angulata, annulata, annulipes, anodonta, argentata, balius, brevipennis, canina, carinata, carinifacies, cincta, consobrina, cruciata, cyanea, decora, dentata, discolor, dispar, dorsalis, elegans, emarginata, fasciata, fascifrons, felma, flavicornis, flavifasciata, flavipalpis, flavissima, frontalis, furcata, fuscipennis, garatas, guerini, herichsoni*, heteronevra, hieroglyphica, holosericea, hydrodroma, hydroleon, hydrophila, hydropota, ialemus, interrupta, lateremaculata, latifasciata, lefebvrei, limae, limbata, limbipennis, lunata, lutatius, maculifrons, marginella, megacephala, microleon, nigripes, obscura, ornata, pallidiventris, paron, personata, quadrilineata, rectifasciata, regis georgii, rostrata, rubricornis, rubrithorax, ruficornis, ruffacies, scutellata, semiviolacea, signaticornis, splendens, stricta, stylata, subdentata, tigrina, trimaculata, vertebrata, vicina, villosa, viridula, vittata, vulpina.
- Odontonyx** ornata, rotundatus, rotundicollis.
- Odontopera** bidentaria, bidentata.
- Odontophorus** balliviani, barbatus, capistratus, dentatus, guianensis, guttatus, leucophrys, lineolatus, macrourus, marmoratus, meleagris, pachyrhynchus, rufus, speciosus, stellatus, strophium, uru.
- Odontopleura** beyrichi, bispinosa, brighti, bronni, buchi, burmeisteri, centrina, cornuta, crassicornis, crenata, dentata, derelicta, dormitzi, dufrenoyi, dumortieri, elliptica, forficula, geinitziana, germari, haushoferi, hoernesi, hoseri, impar, imperfecta, inermis, keyserlingi, lacerata, laportei, leonhardi, lindackeri, minuta, mira, mutica, neumanni, ovata, portlocki, prevosti, primordialis, quinqueloba, reichenbachii, rotundata, ruderalis, siemangi, steenstrupi, subterarmata, tenuicornis, tenuispina, tricornis, truncata, verneuilli, vesiculosa, zenkeri, zenonis.
- Odontopsis** armata.
- Odontoptera** carrenoi, spectabilis.
- Odontopus** (Col.) costatus, cyaneus, sexpunctatus, tristis, violaceus.
- Odontopus** (Hem.) maculicollis, sanguinolens.
- Odontopyge** spinulosa.
- Odontorhinus** insperatus.
- Odontorrhina** hispida, pubescens.

Odontorynchus *lutescens*.

Odontosaurus *voltzi*.

Odontoscelis (Col.) *albipennis*, *basalis*, *brunnipennis*, *caucasica*, *curtisi*, *cyaneus*, *daldorfi*, *darwini*, *desmaresti*, *iberica*, *lateralis*, *lineola*, *maculipennis*, *nitiduloides*, *pallasi*, *striatus*, *substriatus*, *tentyrionides*.

Odontoscelis (Hem.) *fuliginosa*, *litura*, *pulicarius*, *scarabaeoides*, *schmidti*, *schulzei*, *signatipennis*, *smidti*, *tibialis*, *unicolor*, *vinculatus*.

Odontosia *camelina*, *carmelita*, *cucullina*, *palpina*, *plumigera*.

Oecothea laeta, pallescens, silvatica, subterranea.

Oeda inermis, inflata, informis.

Oedalea hybotina, minuta, pallipes, pennata, stigmatella, tibialis.

Oedancala dorsilinea.

Oedecnema dubia.

Oedemagena tarandi.

Oedemera adusta, aenea, athuis, analis, annulata, apicalis, apicalis, atrata, australis, axillaris, azurea, barbara, basalis, bicolor, bipartita, biossevillei, brevicollis, brevicornis, caerulea, carnolica, caucasica, chalybea, cinerea, clavipes, coarctata, coerulea, collaris, concolor, crassipes, croceicollis, cyanea, cyanescens, dimidiata, discoidalis, discolor, dispar, dorsalis, elegans, erythrocephala, femorata, flamen, flava, flavescens, flavicans, flavicollis, flavifrons, flavimana, flavipennis, flavipes, fraxini, fulvicollis, geniculata, glaucescens, grandis, grisea, hybrida, lateralis, leontodontis, lepturoides, limbata, livida, luctuosa, lurida, maculicollis, maculiventris, marginata, marginella, marmorata, melanocephala, melanophthalma, melanopyga, menetriesi, nigripes, notata, notoxoides, pallida, pallipes, paradoxa, penicillata, podagrariae, pubicollis, puncticollis, punctum, quadrinervosa, quadripunctata, quercus, rostrata, rubricollis, rubicollis, rufifrons, rufo-femorata, sanguinicollis, seladonia, sibirica, similis, stenoptera, striata, substriata, suturalis, testacea, testaceicollis, thalassina, thoracica, tibialis, tristis, unicolor, ventralis, vestita, virescens, viridana, viridipennis, viridipes, viridissima, vittata. *Vide et Aedemera.*

Oedesis longicornis.

Oedicerus saginatus.

Oedicerus cyanipennis.

Oedichirus abdominalis, paederinus, terminatus, unicolor.

Oedicnemus affinis, americanus, arenarius, bistratus, capensis, crepitans, desertorum, europaeus, gallarius, griseus, longipes, macrocnemus, maculosus, magnirostris, major, natalensis, novae hollandiae, oedicnemus, recurvirostris, senegalensis. *Vide et Aedicnemus.*

Oedicnensus superciliosus.

Oedicoryphus vittatus.

Oedionycha cinctella.

Oedionychis alacris, albicollis, bicolor, cincta, dissepata, figuratus, hispida, lunata, marginella, opulenta, plagiata, praecincta, promta, sagulenta, thoracica. *Vide et Aedionychis.*

Oedionychus fallax, leptoccephalus, limbalis, limbatus, porculus, scalaris, sericeus, viridis, vulneratus.

Oedipoda aethiops, albicornis, albolineata, algeriana, apricaria, arenaria, balteata, barabensis, bicolor, biguttula, bisignata, brevicollis, caeruleans, caerulea, carbonaria, carinata, carolina, citrina, clausii, concinna, cothurnata, crassipes, cruciata, cruentata, discoidalis, discoida, dorsata, edwardsi, elegans, fasciata, fenestralis, fischeri, flava, fusco-cincta, galinieri, gebleri, geniculata, germanica, gracilis, gratiosa, grossa, haemorrhoidalis, hispanica, histrio, homoptera, hospes, hystrix, insubrica, leucoptera, lineata, longipennis, longipes, lorata, lugubris, luteicornis, macrocera, maderae, mauritanica, melanosticta, microptera, migratoria, migratorioides, miniata, minuta, moderata, montana, musica, mutabilis, nebuloza, nevoptera, nigripennis, nigrofasciata, nigrofasciolata, oblittera, obscura, octofasciata, oeningensis, pallidipennis, parallela, parapleura, phoenicoptera, pterosticha, pudica, pulla, pulverulenta, pulvinata, rhodopa, rosacea, rufipes, salina, scalaris, signata, smilaceum, sordida,

straminea, stridula, strigata, subcaeruleipennis, sulphurea, thalassina, truchmana, tuberculata, turcomana, vagans, vastator, virescens, virginiana, viridula, xanthoptera, zinini. *Vide et Aedipoda.*

Oedipus platydactylus, titi, variegatus.

Oedura marmorata, rhombifer.

Oegocera rectilinea.

Oello cuvieri.

Oeme (Col.) indecora.

Oeme (Cor.) granulata*, muensteri.

Oemona humilis, philippensis.

Oena capensis, murwensis.

Oenanthe albicollis, caprata, cinerea, climazura, cursoria, fervida, formicivora, fulicata, gutturalis, imitatrix, leucorhoa, leucura, melanoleuca, monticola, nigra, pectoralis, perspicillata, philippensis, pleschanka, ptygmatura, pyrrhonota, rubetra, rubicola, rufiventris, sialis, sperata, stapazina.

Oenas (A.) arenaria, bicincta, cata, indicus, namaqua, ruficollis. *Vide et Aenas.*

Oenas (Col.) aper, atrata, bi-pustulata, chalybaeus, coccineus, crassicornis, melanura, nigricollis, syriacus, wilhelmsi.

Oenectra pillerana.

Oeneis (Col.) nigrans, obscura.

Oeneis (Lep.) arethusa, bore, celaeno, jutta, norna, taygete.

Oenerostoma piniariella.

Oenomaus eumolphus, marsyas, ortygnus, palegon, rustan.

Oenone (Hym.) hians, mandibularis, ringens.

Oenone (Verm.) lucida, maculata.

Oenophthira pilleriana.

Oenopia addicta, cinctella, dorso-notata, kirbyi, litterata, luteo-pustulata.

Oeonistis entelliola, quadra.

Oeroxyis coerulea.

Oerstedtia armata, baculus, maculatus, pulchella, tubicola.

Oestrus auribarbis, bengalensis, cervi, clarki, duodenalis*, elaphi, ericetorum, flavipes, fontanella, gastricus*, gastrophilus, libycus, maculatus, phobifer, pictus, rhinocerontes, rhinocerotis, rubrubarbis, salutaris, salutiferus, stimulator, stomachiuis, supplens, titillator, uterinus.

Oethra depressa, fornicata, scruposa.

Offula patella.

Ogcoderes lobatus.

Ogcodes apicalis, cingulatus, fuliginosus, gibbosus, leucomeles, marginatus, nigripes, pallipes, pubescens, varius, zonatus.

Ogcodocera dimidiata.

Ogcosoma granulare.

Ognichodes broussoneti.

Ogygia (Cr.) angustifrons, brongniarti, buchi, desmaresti, edwardsi, grandaeva, guettardi, murchisoni, murchisoniae, portlocki, pusilla, radians, rugosa, vetusta.

Ogygia (Lep.) basilinea, flammata, forcipula, imperita, ravida, signifera.

Ogygies latissimus.

Oiacurus lineatus.

Oiceoptoma affine, americanum, canadense, dispar, granigera, inaequale, lapponicum, marginale, marginalis, nuda, obscura, opaca, rugosa, sinuata, terminatum, tetraspilotum, thoracica, trituberculatum.

Oicodespina scutigera.

Oidemina americana, fusca, leucocephala, nigra, patachonica, perspicillata, velvetina.

Oides bipunctata, livida.

Oidicnemus belloni. *Vide et Aedi*→.

Oiketicus consortus, elongatus, kirbyi, macleayi, tertius.

Oikopleura bifurcata, chamissonis.

Oileides vulpinus, zephodes.

Oinophila v-flava.

- Oinopota* cellaris.
Oiorhinus pallipalpis.
Oithona nobilis, plumifera, splendens.
Okenia elegans.
Oleacina aperta, poireti, truncata.
Olencira lamarecki.
Olene mendosa.
Olenecamptus serratus.
Olenus arcuatus, asaphoides, bisulcatus, bucephalus, fischeri, forficula, gibbosus, humilis, latius, longicaudatus, macrocephalus, micurus, punctatus, pyramidalis, scarabaeoides, serotinus, spinulosus, tessini, triarthrus, undulostriatus.
Oleria astrea, clio, dero, flora.
Olesterus australis.
Oletera atypa, atypus, bicolor, picea.
Olethreutes arcuana.
Olfersia albipennis, americana, ardeae, bisulcata, canariensis, fossulata, fusca, fuscipennis, longipalpis, mexicana, pilosa, propinqua, ruipes, spinifera.
Olibrus aeneus, affinis, apicalis, bicolor, bimaculatus, corticalis, geminus, liquidus, millefolii, oblongus, piceus, pygmaeus.
Oligocephalus pulicarius.
Oliganus albus, hesopus, hexopus, maculatus.
Oligia erratricula, furuncula, latruncula, strigilis, vinctuncula.
Oligobranchus roseus.
Oligocera bipartita.
Oligocorynus discoideus, thoracicus.
Oligodon bitorquatus.
Oligodranes fumipennis, obscuripennis.
Oligomerus brunneus.
Oligoneuria anomala.
Oligopogon hybotinus.
Oligopus ater, niger, velifer.
Oligorus punctatus.
Oligos picarella, pruniella, pullatella, scriptella, terrella, vulgella.
Oligostomis analis, clathrata, reticulata.
Oligota apicata, atomaria, flavicornis, granaria, pedicularis, pentatoma, punctulata, pusillima, subtilis, tantilla.
Oligotoma saundersi.
Oligotricha chloronevra, phalaenoides, reticulata, strigosa.
Oligotrophus juniperina.
Oligura cyaniventer, flaviventer, rufescens.
Oligyra flammea, occidentalis, oresignae, sandwichensis, taeniata, zephirina.
Olina capensis, clavipes, hirtipes, nudipes, pallipes.
Olinda brasiliensis.
Olindia ulmana.
Olorhynchus comptropunctatus.
Olios algerianus, antillianus, barbarus, captiosus, castaneus, colombianus, digitalis, flavens, franklinus, freycineti, fuscus, grapsus, hispidus, leucosius, longipes, martius, oraniensis, pagurus, pinnotherus, provocator, ruipes, setulosus, sparassoides, spongistarsi, taprobanius, ventrosus.
Oliska pencillatus.
Olisthaena nitida, planicollis.
Olisthaerus laticeps, megacephalus, nitidus, substriatus.
Olistheria vaninia, zatima.
Olisthoena cuprina.
Olisthops cyanomelas.
Olisthopus cinctus, fuscatus, graecus, hispanicus, micans, parmatum, puncticollis, punctulatus, rotundatus, sturmi.
Olistopus glabratus, sardous.

Olistus atropus, malabaricus, ruppeli.

Oliva acuminata, affinis, agaronia, alabamensis, aldinia, alectona, alpina, amelia, anazora, ancillariaeformis, ancillarioides, andegavensis, angulata, anionina, aquatilis, arabica, araneosa, atalina, athenia, attenuata, aurantiaca, auricularis, australis, avellana, aveniformis, azemula, bicincta, bicingulata, biplicata, bombylis, branderi, brauderis, brasiliiana, brasiliensis, brocchii, brongniarti, bulbiformis, bullula, caerulea, caldania, callosa, calosoma, canaliculata, canalifera, candida, carneola, caroliniana, cassilabra, cincta, clausophilula, clavula, columba, columellaris, conformis, conoidalis, constricta, contortuplicata, cruenta, cumingi, cyanea, cylindracea, cylindrica, dactyliola, dealbata, dimidiata, dubia, duclosi, dufresnei, duplicata, eburnea, edelona, egira, elegans, elongata, emeliadina, episcopalis, eridona, erythrostoma, esiodina, esmilita, esther, evania, fabagina, fallotina, fimbriata, flammulata, flaveola, floralia, fulgida, fulgurata, fulgurina, fulminans, funebris, fusca, fusifera, fusiformis, galeola, gaysiana, gibbosa, glandiformis, gracilis, granitella, greenoughi, guildingi, guttata, hamiltonia, harpularia, hepatica, hiatula, hieroglyphica, idonea, indusica, inflata, irisans, isis, ispidula, jaspidea, julietta, kalcontina, lacertina, lanceolata, laumontiana, lentiginosa, lepidula, lepta, leucophaea, leucostoma, leucozonias, leveriana, ligneola, litterata, lugubris, luteola, macleari, maculata, mandarina, mantichora, marmini, masaris, maura, memnonia, mica, miliola, millepunctata, minima, miridina, mississippiensis, mitreola, modesta, monilifera, mucronata, multiplicata, mustelina, mutica, mygdonia, myodia, nana, natalia, nebulosa, nedulina, neolina, nilotida, nitelina, nitidula, nivea, nobilis, nux, obesina, obtusaria, octavia, olonina, olympiada, onaxis, oniska, oriola, oriolida, oryza, usidia, othonia, ozodona, padolida, panamensis, panniculata, pantherina, patula, paxillus, pellucida, peruviana, petiolata, philantha, phillipsi, pica, picholina, picta, piudarina, pintamella, pipita, plicaria, polpasta, ponderosa, porphyracea, porphyria, prasinoides, propatula, puelcha, pulchella, pupa, pura, purpurata, pygmaea, quersolina, razamola, reticularis, roselina, rufifasciata, rufula, salisburyana, sanguinolenta, scripta, selasia, senistriata, senegalensis, sepulchralis, serena, siamensis, sidelia, sowerbyi, splendidula, stainforthi, staminea, steeria, stelletta, striata, strigata, subangulata, subulata, subviridis, sylvia, taitensis, tehuelcha, tergina, tessellata, testacea, textilina, tigriddella, tigrina, timoria, tisiphona, titea, todosina, tremulina, tricolor, triticea, tunquina, turritella, undata, undatella, ustulata, utriculus, valentina, ventricosa, venulata, vetusta, volutella, volvarioides, zanaeta, zeilanica, zenopira, zigzag, zonalis.

Olivancillaria auricularia, brasiliensis, leucostoma.

Olivanites globosus, verneuili.

Olivella biplicata, columellaris, conoidalis, eburnea, mutabilis, oryza, puelchana, purpurata, tehuelchana, volutella.

Olivia (Calc. Alg.) androsaci.

Olivia (G.) otaviana.

Oliviera suavissima.

Olivieria lateralis, longirostris.

Olivilla biplicata.

Olivina columellaris, conoidalis, mica, miliola, myriadina, nivea, puelchana, tehuelchana.

Ollicula vorax.

Ololygon strigilata.

Olophorus typus. *Vide et Holo*→.

Olophrum alpestre, assimile, boreale, consimile, emarginatum, fuscum, obtectum, piceum, rotundicollis.

Olor americana, bewicki, buccinator, coscoroba, ferus, gambiensis, minor, musicus, mutus.

Olostomis daurica. *Vide et Holo*→.

Oloris medusa.

Olygyra orbiculata.

Olympia moyonia, ricinoides, rugulosa, viviana, vulgaris.

Olynthia ruicapilla.

Olynthoscelis apterus, autumnalis, denticauda, serricauda.

Olynthus inachus, narbal.

Olyra laticeps, longicaudatus.

Olyras crathis.

Omacantha gigas.

Omadius bifasciatus, indicus, nebulosus, senegalensis, trifasciatus.

Omala (Col.) angusticollis, atterima, atripes, axillaris, fortistriata, polita, quadriplagiata, thermanum.

Omala (L.) inaequalis.

Omalaxis bifrons, disjunctus.

Omalisus bimaculatus, coccinatus, cruciatus, fraternus, mundus, obliquus, sanguinicollis, sanguinipennis, sculptilis, thoracicus.

Omalium abdominale, adustum, aeneum, alpestre, alpinum, amabile, appendiculatum, assimile, atrocephalum, bi-maculatum, bipustulatum, blattoides, boreale, brachypterum, brevicolle, brevicornis, brevipenne, brunneum, brunnipenne, brunnipes, caesum, canaliculatum, castaneum, caucasicum, complanatum, concinnum, conformatum, consimile, corticale, crenatum, cribrosum, cursor, denticolle, dentipes, deplanatum, depressum, excavatum, exiguum, fahraei, fenestrale, ferrugineum, fimetarium, florale, foveolatum, foveolatum, fuscipenne, fuscum, gyllenhalii, heydeni, humerale, imboffi, impressum, inflatum, iopterum, laeve, laevecolle, laeviusculum, lapidarium, lapponicum, latum, limbatum, lineare, longipenne, longulum, lucidum, luridum, macropterum, maculicorne, mandibulare, marginatum, marginicolle, megacephalum, melanocephalum, mesomelas, minimum, monilicorne, monticulum, montivagum, nigricornis, nigricolle, nigrum, nitiduloides, nivale, oblongum, obscurum, ophthalmicum, ovale, ovatum, pallens, pallidepennis, pallidum, paludosum, pedicularium, philanthus, piceum, picinum, pilosulum, plagiatum, planum, porcatum, primulae, protectum, protogaea, pubescens, punctatum, puniceipennis, pusillum, pygmaeum, quadratum, quadrum, ranunculi, repandum, rivulare, robustum, rotundicolle, ruficornis, rufulum, rufum, rugosum, salices, salicinum, scutellatum, semicoleoptratum, sibiricum, sinuato-colle, sorbi, sordidum, staphylinoides, striatipenne, striatum, subpubescens, subrugosum, substriatum, sulcatum, tectum, tenuipes, testaceum, viburni, vile.

Omalolephala (Dipt.) fusca.

Omalolephala (Hem.) cincta, festiva.

Omaloderus intrepidus.

Omalodes angulatus, borealis, ebeninus, faustus, faveola, gagatinus, harrisi, laevigatus, lucidus, omega, pulvinatus, serenus, sobrinus.

Omalogaster brevipalpis, fulvicrus, grisea, limbinevris, microcera, nitidus, scutellaris, subrotundata.

Omalomorpha cylindrica, maxima, obscuricollis.

Omalophilus africana, albicincta, analis, antennalis, aquila, atrata, australis, bimaculata, brevis, brunnea, carbonaria, carinata, caspia, castanea, castanoptera, ciliata, coracina, costigera, ferrugata, fusca, granuligera, granulosa, grisea, hirta, holosericea, humeralis, iberica, indica, inuba, iricolor, iridescens, judaica, limbata, lineata, marginella, marmorata, mutata, nemoralis, nigricans, nitida, nitidula, obscura, ochroptera, olivieri, pellucida, philippinensis, pilula, polita, punctatissima, robusta, rubricollis, rufocuprea, rugosa, rubicola, sericans, sericea, spireae, strigata, strigosa, subaenea, tuberculata, umbrina, unguicularis, variabilis, vespertina, violacea, vittata, vittigera.

Omalosoma cyanea, vigors.

Omalus aeneus, cenopterus, coriaceus, fuscicornis, fuscus, hemipterus, nigricornis, nitidus, rufescens.

Omalysus apicalis, lineatocollis, lineatus, maculicollis.

Omaplopus longitarsus.

Omascus tenebrosus.

Omaseus aeneipennis, aeratus, affinis, altaicus, anthracinus, armenus, atterimus, attenuatus, australasiae, bisigillatus, brevipennis, bulweri, corpulentus, creticus, cricricollis, elongatus, fornicatus, fuscoaeus, globosus, gracilis, hamatus, indicus, italicus, janthinus, laevigatus, laticollis, leucophthalmus, magus, marginalis, maurus, melanarius, melas, mellyi, minor, nebrioides, nigerrimus, nigrita, orinomum, pennatus, piceicornis, planicollis, politus, romuleus, rotundicollis, rufifemoratus, rugicollis, subpunctatus, sulcatus, tetricus, tomenis, validus, viridicollis.

- Omaspides** clathrata.
- Omatoplea** alba, albicans, balmea, bembix, berea, glauca, gracilis, grubei, mutabilis, pellucida, peronea, polii, pulchra, punctata, rosea, rubra.
- Omazeus** distinctus, tingitanus.
- Ombrella** disculus, indica.
- Ombria** psittacula.
- Ometis** cerata, cetonoides.
- Omia** antirrhini, cymbalariae, linariae, puta, tenera.
- Omiias** albolineatus, albovittatus, alpinus, bi-signatus, bohemani, brunnipes, chevrolati, companyonis, concinnus, crinitus, dubius, ebeninus, erynaceus, forticornis, fuscipes, geminatus, globosus, globulus, glomeratus, gracilipes, grandicornis, gravidus, hemisphaericus, hirsutulus, indigenus, interrupto-punctatus, inustus, lithargyreus, mollicornus, mollinus, myrmex, nitidus, oblongus, parvulus, pellucidus, pruinosis, rotundatus, ruficollis, rufipes, rugicollis, scabripennis, seminolum, seminulum, sericeus, sphaericus, sphaeroides, stanleyi, strigifrons, subnitidus, sulcifrons, tessellatus, vestitus, villosulus.
- Ommastrephes** aequipoda, arabicus, bartrami, bianconii, cylindraceus, eblanae, gigas, gronovii, laticeps, meneghini, oualaniensis, pelagicus, sloanei, todarus.
- Ommatidiotus** dissimilis.
- Ommatius** ademon, albovittatus, amyclaeus, androcles, angustiventris, auratus, aumbarris, chinensis, coeraebus, compeditus, conopsoides, coryphe, costatus, dimidiatus, dispar, flavipes, fulvidus, hecale, ialmus, lema, leucopogon, madagascariensis, marginellus, papus, pennus, pera, plautius, pumilus, pygmaeus, rufipes, saccas, tarchetius, tibialis.
- Ommatolampes** haemorrhoidalis, tetraspilotus.
- Ommatolampis** nodicollis, perspicillatus, variegata.
- Ommatolampus** cuvieri, germari.
- Ommatophoca** rossi.
- Ommatoplea** taeniata.
- Ommatostergus** pallasi.
- Ommatotriton** vittatus.
- Ommexecha** audouini, cyanopterum, germari, gracile, homalodemum, klugi, liaspis, lugubre, macropterum, oxypterum, pallidum, servillei, sommeri, trachypterum, virens.
- Ommidion** modestum.
- Omniretepora** anastomosa, crassa.
- Omobranchus** fasciolatus.
- Omocera** aureicornis.
- Omocerus** azureicornis.
- Omoctrates** axillaris, lobipes, luridipennis.
- Omoiotelus** apicicornis, crocicollis, duponcheli, gemmellatus, navicularis, orbignyanus, pallidus, signaticollis, spinolae, testaceus, umbonatus.
- Omolepida** casuarinae.
- Omolopia** vestita.
- Omoloplia** platypoda.
- Omphilus** arcuatus.
- Omphlus** abdominalis, armeriae, betulae, brullei, caeruleus, curvipes, dilatatus, dispar, distinctus, elongatus, erythrogaster, flavipennis, lepturoides, maroccanus, nigripalpis, ochraceipennis, ovalis, pilicollis, pinicola, puncticollis, ruficollis, rufiventris, rugicollis, sericeicollis, tibialis.
- Omphorus** stomachonis.
- Omphron** americanum, capense, flexuosum, labiatum, lecontei, limbatus, maculosus, madagascariensis, minutum, nitidum, oblongiusculum, pictum, sayi, sphaerium, suturalis, tessellatus, variegatus.
- Omoطلا** axillaris, marginata.
- Omorghus** peruanus, suberosus.
- Omorphorus** indispositus.
- Omosita** colon, depressa, discoidea, nigrovaria.
- Omostenus** maculipennis.

- Omoteina** humeralis.
Omotes cucujides.
Omphale aetius, salicis.
Omphalina cuprea.
Omphalodus chorzowiensis.
Omphalophacus hemprichi.
Omphalostyla ustulata.
Omphemis lacustris, phaoxis.
Omphiscola glabra, pugio.
Omphra brevis, complanata.
Omphreus morio.
Omphyma verrucosa.
Ompok siluroides.
Omus audouini, californicus, cylindriciformis, dejeani.
Omyta deyrollei.
Oncaea crenata, marginata, pallida, perdix, purpurea, venusta, virginea.
Onchidella cinerea, granulosa, hardwicki, incisa, marmorata, nana, nigra, nigricans, patelloide, reevesi.
Onchidium ater, cinereum, cubense, ferrugineum, geographica, granulose, incisum, indiae, insularium, laeve, laevigatum, marmoratum, molle, nanum, nigricans, occidentale, patelloide, peroni, planatum, punctatum, secatum, sloanei, tonganum, vaigense, viridisalbum.
Onchidoris diaphana, muricata, pusilla, sanguinea.
Onchidorus leachi.
Onchobothrium bifurcatum, coronatum, uncinatum, verticillatum.
Onchocephala quadrilobata, senegalensis.
Onchocerca reticulata.
Onchocotyle appendiculata.
Oncholaimus attenuatus, fovearum, muscorum.
Onchomerus pilicornis.
Onchorhinus cribrithorax, nodulosus, planatus, scabricollis.
Onchosoma dorsalis, ewingi, foveocollis, klugi, rufescens, tasmanica.
Onchus arcuatus, dilatatus, erectus, falcatus, hamatus, heterogyrus, murchisoni, plicatus, rectus, semistriatus, sublaevis, subulatus, sulcatus, tenuistriatus.
Oncideres amputator, frontalis, impluviata, vomica.
Oncinolabes beseli, forsteri, fuscescens, mollis.
Oncinopus neptunus.
Oncinotus arcuatus.
Oncocephalus armipes, dessicatus, griseus, notatus, squalidus.
Oncocera ahenella, bruandella, cardui, carnella, lotella, marisca, miniosella, ocella, sanguinella.
Oncoceras constrictum, eschwaldi, tortuosus.
Oncodes fumatus.
Oncolabis anticella.
Oncomera flavicornis, podagrariae.
Oncomeris flavicornis, robustus.
Oncomerus merianae.
Onconotus boschnaki, coriaceus, eversmanni, laxmanni, motschulskii, servillei.
Oncophorus beskidensis.
Oncorhinus xanthospilos.
Oncoscelis australasiae.
Oncotus capensis, testaceus.
Ondatra americana.
Onesia caerulea, claripennis, clausa, cuprea, cyanea, floralis, fulvipennis, gentilis, lepida, nigripalpis, prompta, quadriseriata, riparia, tessellata, toxonevra, velox, viarum, viridicyanea, viridula, viridularis, vulgaris.
Onichaaetus malayana.
Onichodon orchesides.

Onichogalea *frenatus*, *inguifer*. *Vide et Onych*→.

- Onuphis** conchylega, eremita, eschrichti, filicornis, tubicola.
- Onus** mustelus, riali, smiridus.
- Onychia** (Ceph.) cardioptera.
- Onychia** (Hym.) aculeata, bicolor.
- Onychia** (Lep.) ediogaster, moeniata, peribolata.
- Onychocephalus** acutus, bibroni, capensis, congestus, delalandei, liberiensis, multilineatus, nigrolineatus, unilineatus, verticalis.
- Onychocerus** scorpio, undatus.
- Onychodactylus** schlegeli, unguiculata.
- Onychogalea** lunata. *Vide et Onich*→.
- Onychognathus** fulgidus.
- Onychophis** barrowi, cuningi, fordii, franklini, lalandei, olivaceus, punctata.
- Onychoprius** fuliginosus, panaya, serrata.
- Onychorhynchus** castelnaui, regius.
- Onychoteuthis** amoena, angusta, armatus, banksi, bartlingi, belloni, bergi, cardioptera, conocauda, dussumieri, fabricii, fleuryi, kamtschatica, krohni, leptura, lessoni, lesueuri, lichtensteini, molinae, morisi, peratoptera, platyptera, smithi, unguiculata.
- Onykia** angulatus, cariboea.
- Onypterygia** angustata, apicalis, famini, fulgens, fulgipennis, hoepfneri, humilis, thoreyi, tricolor, viridipennis.
- Onyrhynchus** griseus, plumbeus.
- Ooctonus** hemipterus, heterotomus, insignis, litoralis, major, notata, pictus, sublaevis, vulgatus.
- Oocyranus** tarsatus, violaceus.
- Oodes** abaxoides, amaroides, americanus, angolensis, australis, bipustulatus, brasiliensis, cayennensis, chlorophanus, cupreus, duodecimstriatus, elongatus, exaratus, femoralis, gory, gracilis, grandis, helopioides, hispanicus, laevicollis, laevigatus, leprieuri, licinoides, linea, mauritanicus, metallicus, mexicanus, minutus, nigriceps, nigrita, pallipes, parallelus, pedinoides, picipes, pigmaeus, planus, politus, pulcher, punctato-striatus, puncticollis, quatuordecim-striatus, robustus, rufipes, semistriatus, senegalensis, similatus, similis, smaragdinus, striatus, subaeneus, sublaevis, sulcatus, tibialis, virens.
- Ooedosoma** acroleucum.
- Oogaster** lehmanni, menetriesi.
- Oolina** caudata, clavata, compressa, haidingeri, inornata, isabella, laevigata, melo, rariocosta, striata, striaticollis, vilardeboana.
- Oomorphus** concolor.
- Oonops** pulcher.
- Oontelus** reticulatus, rugosipennis.
- Oophorus** algerinus, crassicollis, instabilis.
- Oops** pistos.
- Opsis** dorsivarius, duboisi, nutator, oblongipennis.
- Oopterus** clivinoides, pallidus, rotundicollis, troberti.

- Oosomus** pariolus.
Ootheca mutabilis.
Ootoma xanthocerum.
Opadia funebrana.
Opaethus africanus, buffoni, erythrolophus, persa.
Opalina lumbrici, naidum, ranarum.
Opatrinus convexus, costulatus, geminatus, opacus, perforatus, 'pertusus, pullus, punctatus, striatus.
Opatrum acutangulum, acutum, adpressum, aegyptiacum, aequale, affine, agaricola, algericum, alternatum, angolense, angustatum, areolatum, armatum, assimile, attenuatum, australe, barbarum, beniniense, bicolor*, caesum, callosum*, capense, carinatum, cinereum, clathratum, complanatum, connatum, costatum, crenatum, curtum, cylindricum, dahli, dilatatum, dilectans, distinctum, elevatum, elongatum, emarginatum, famelicum, ferrugineum, fossor, foveolatum, fuscipes, geminatum, gibbosum, gigas, glabratum, grammicum, graniger, granulato-striatum, granuliferum, granulolum, grossum, helopioides, hispidosum, hispidum, hoffmannseggii, holosericeum, iavanum, inquinatum, intermedium, interruptum, interstitiale, intricatum, latipes, latum, lilliputanum, lineare, lisbonense, longipalpe, lucifugum, luegens, lusitanicum, marginatum, melanarium, melitense, meridionale, micans, minutum, modestum, morbillosum, muricatum, nebulosum, nigrum, nitidulum, notum, obesum, oblongum, obscurum, occidentale, ovatum, parreissi, parvulum, patrule, pedestre, perforatum, perlatum, perplexum, pesthiense, piceitarsis, piceum, picipes, pictum, pilipes, plagum, porcus, prescottii, prolixum, pruinolum, pubescens, pulchellum, pullum, pulverulentum, punctulatus, purpurescens, pygmaeum, ragusanum, rotundatum, rotundicollis, ruficornis, rufipes, rugosum, rugulosum, rusticum, saginatum, scutellare, seriatum, setulosum, sibiricum, simplex, sphaeroides, spretum, striatum, strigosum, sturni, subaratum, substriatum, subsulcatum, sulcatum, tenebricosum, terrosolum, tomentosum, triste, tuberculatum, tuberculosum, vagum, variegatum, variolosum, verrucosum, vestitum, viennense, virgatum.
Operaria benignum, exiguum, viridissimum.
Opercularia articulata.
Operculina (Inf.) bakeri, pulchella, roseli.
Operculina (Rh.) ammonaea, angigya, angularis, boissyi, complanata, costata, cretacea, discoidea, gaimardi, granulosa, incerta, involvens, madagascariensis, magna, orbigny, pauciseptata, plicata, punctata, striata, subgranulosa, taurinensis, thouini.
Operophtera boreata, brumata.
Opetia lonchopteroides, nigra.
Opetiopalmus auricollis, collaris, luridus, obesus, scutellaris.
Opetiorhynchus rectirostris, rucaudus, rufus, rupestris, striolatus, turdinus, vulgaris.
Opetiorhynchus albugularis, annumbi, antarcticus, lanceolatus, nigrofumosus, patigonicus, ruber.
Ophelia (Ann.) acuminata, aulogaster, bicornis, coarctata.
Ophelia (Dipt.) agilis, cinerea, festiva, gracilis, lutescens.
Ophelimus sabella, ursidius, vanniis.
Ophelina acuminata, aulogaster, mamillata.
Ophelmis rugosa.
Opheodrys aestivus.
Opheomorphus miliaris.
Ophiacantha groenlandica, setosa, spinulosa.
Ophiarachna gorgonia, incrassata, infernalis, septemspinosa.
Ophiarachne septemspinosa.
Ophicardelus australis, sandwichensis.
Ophicardia pharyngiana, xanthognatha.
Ophicephalus amhibeus, argus, cora-mota, fuscus, grandinosus, indicus, iris, jovis, karruwey, leucopunctatus, limbatus, maculatus, marginatus, micropeltes, miliaris, montanus, nigricans, ocellatus, planiceps, puticola, serpentinus, sowara, wrahl.
Ophichthys punctatus.
Ophicoma lubrica.

Ophideres elegans, imperator, materna, princeps.

Ophiderma salamandra.

Ophidiaster attenuatus, aurantius, columbiae, cylindrica, diplox, echinulatus, ehrenbergi, fusca, gracilis, granifera, guildingi, hemprichi, laevigata, leachi, marmorata, miliaris, multifloris, ophidianus, ornithopus, pusillus, pyramidatus, suturalis, tuberculatus.

Ophidium acutirostre, blacodes, bolcense, chrysocephalum, ferasfer, fulvescens, maculatus, marginatum, mucronatum, obtusirostre, ocellatum, parri, pellucidum, physiocephalum, punctatum, stigma, vassali.

Ophidomonas jenensis, sanguinea.

Ophidonais serpentina, vermicularis.

Ophileta complanata, levata.

Ophinctes cinereus, coerulescens, dorsalis, erythrocephalus, luteus, maculatus, major, punctatus, versicolor, viridis.

Ophiocephalus aurantiacus, barca, chena, gachua, lata, lucius, marulius, theophrasti, viridis.

Ophiocnemis marmorata.

Ophiocoma arctica, balli, bellis, bidentata, brachiata, canariensis, crassispinata, dentata, echinata, erinaceus, filiformis, goodsiri, granulata, isocantha, lineolata, minuta, neglecta, nigra, nilssonii, parmularia, pica, picta, punctata, rosula, schoenleini, serpentaria, squamata, tumida, valenciae, wendti.

Ophioderma cinereum, longicauda, milleri, saxatilis, tenuibrachiata, variegata, wahlbergi.

Ophiodes (Hym.) montanus.

Ophiodes (Lep.) lunaris, tirrhaea.

Ophiodes (R.) striatus.

Ophiognathus ampullaceus.

Ophiogramma injunctaria.

Ophiolepis albida, annulosa, balli, brachiata, chilensis, ciliata, cincta, dubia, elegans, elongata, filiformis, florifera, imbricata, paucispina, punctata, reticulata, savignyi, schayeri, scolopendrica, squamata, sundervalli, tancredi, tenorii, trisquammosa, vicina.

Ophiomastix annulosa.

Ophiomorpha mantelli.

Ophiomorphus capensis, halophilus.

Ophiomorus miliaris.

Ophiomyxa lubrica, pentagona.

Ophion abbreviata, aggressor, analis, angustatus, aphidium, arcuatus, atratus, bedeguaris, bifoveolatus, bi-impressus, bilineatus, bombycivorus, brachiator, chloris, clathratus, clavator, coarctatus, combustus, cruentatus, dentator, dimidiator, dositheae, emarginatus, exhaustator, exhortator, extenuator, fabricator, fallax, femoratus, ferrugineus, festivator, flaveolatus, flavescens, flaviceps, flavidus, flavofuscus, flavo-lineatus, flavo-rufus, flavo-scutellatus, flavus, fomentator, frustrator, fuscator, fuscicornis, generator, geniculatus, glabratus, gracilis, inculcator, inflexus, intricatus, lateralis, latrator, lineator, longipenne, macilentus, macrurus, maculator, mandibulare, marginatus, merdarius, moderator, morio, mundus, nidulator, nigrator, nigricornis, nunciator, nutritor, obscurus, obtusator, operator, pallens, pallipes, pennator, petiolator, plicatus, pubescens, purgatus, quadrator, quaestor, rufus, rugosus, scutellatus, spectabilis, sphinx, spinator, striatus, tarsator, triangulare, tricolor, trilineatus, trilobus, trimaculatus, undulatus, univittatus, ventricosus, vinulae, vulnerator, xanthopus.

Ophionea cyanocephala, interstitialis, nigrofasciata, pensylvanica, surinamensis.

Ophionyx savignyi, scorpio, scutellum.

Ophiopeltis securiger, securigera.

Ophiopholis aculeata, annulosa, balli, brachiata, goodsiri.

Ophiophthalmus burtoni.

Ophiops macrodactylus.

Ophiopsila aranea.

Ophiopsis dorsalis, gracile, lineata, muensteri, penicillatus, procerus.

- Ophiopteris** coarctatus.
- Ophioscolex** glacialis, purpurea.
- Ophiosoma** bifida, cristatum, cystidicola, denticulatum, dispar, farionis, globicola, hominis, lepturum, mucronatum, phocae, ponteri, pouteri, rajae, sphaerocephalum.
- Ophiotheres** cristatus.
- Ophiothrix** alopecurus, aspidota, ciliaris, comata, echinata, ferussaci, fragilis, fumaria, granulata, hirsuta, longipeda, minuta, nereidina, parasita, quinquemaculata, ramnellsbergi, spinulosa, tricolor, triglochis, violaceus.
- Ophiotrix** quinquefissa.
- Ophis** (P.) W. Turton, Brit. Fauna, 1807, 87.
- Ophis** (R.) aeneus, albocinctus, dubius, heterurus, merremi, ocellatus, rhabdocephalus, saurocephalus, severus.
- Ophisaurus** (P.) punctatus, ramiger, striatulus.
- Ophisaurus** (R.) apus, lineatus, serpentinus, striatus, ventralis.
- Ophisoma** acuta.
- Ophisomus** gunnellus.
- Ophisops** elegans.
- Ophisternon** bengalensis, hepaticus.
- Ophisurus** acuticaudus, alternans, apicalis, baro*, boro, breviceps, cancrivorus, caudatus, colubrinus, compar, crocodilinus, dicellurus, fasciatus, guttatus, harancha, hijala, intertinctus, minimus, nigripennis, obtusa, ocellatus, pallens, pardalis, parilis, pictus, porphyreus, regius, rostellatus, rostratus, semicinctus, sinensis, spadiceus, sugillator, vermiformis, versicolor, vimineus.
- Ophites** raphidioides, subcinctus, velitaris, versatilis.
- Ophithorax** colubrina, imberbis, ophis.
- Ophiuche** lividalis.
- Ophiura** abyssicola, aculeata, agassiz, albida, ammothea, angulata, annulosa, appressa, arenosa, aurora, bellis, bodotriae, brachiata, brachycantha, bracteata, breviradiata, brevispina, cancellata, caput medusae, carinata, ciliaris, ciliata, cirrosa, cordifera, cunliffei, cuspidifera, cuvieri, echinata, egeroni, elegans, elongata, ferussaci, filiformis, flaccida, flemingi, fragilis, fuerstenbergi, gigas, granulata, granulosa, hexactinia, hopei, incrassata, indeterminata, isocantha, lacertosa, libanotica, lincki, lombricalis, longicauda, longipeda, loricata, macrospina, marmorata, milleri, minuta, moniliformis, murravi, neglecta, nereidina, nigra, noctiluca, obtusa, oligactes, paucispina, pentagona, phosphorea, picta, prisca, quinquemaculata, quinque-punctata, regularis, reticulata, retzii, rondeleti, rosula, rosularia, rufa, schlotheimi, scolopendrina, scutellata, scutellum, serrata, speciosa, sphaerulata, spinulosa, squamata, subcylindrica, telactes, tenore, tenorii, texturata, tricolor, trispina, variegata, violascens, vogesiaca, vulgaris.
- Ophiurella** bispinosa, carinata, egeroni, milleri, speciosa.
- Ophiurites** decafilatus, filiformis, pennatus.
- Ophiurus** baecidens, boro, breviceps, caput-medusae, grandoculis.
- Ophiura** alchymista, algira, anfractuosa, angularis, cailino, singularis, concors, cracca, crassiuscula, crecrae, dejeani, delta, discios, eriopoda, flexuosa, gentilis, gentilitis, geometrica, grandirena, hopei, illunaris, interpuncta, irregularis, jucunda, klugi, lathyri, leuconelas, lienardi, limosa, lubrica, luctuosa, ludiera, lunaris, lusoria, magica, marchali, mayeri, natlyi, nubilaris, panaceorum, pastinum, propitia, punctata, punctularis, rectangularis, regularis, repanda, rubricans, scapulosa, sincera, singularis, stolidia, syriaca, tirthaea, viciae.
- Ophiussa** cracca, ludicra, viciae.
- Ophonus** abdominalis, agnatus, agricola, angustatus, annulatus, atricyaneus, azureus, brevicollis, caelestinus, caeruleipennis, caucasicus, cerinus, chlorophanus, columbinus, complanatus, convexicollis, cordatus, cordicollis, cribellum, denigratus, diffinis, discicollis, ditomoides, dorsalis, etruscus, foraminulosus, fulvipennis, fulvus, germanus, gracilis, hispanicus, hospes, incisus, interstitialis, laeviceps, laevicollis, laticollis, longicollis, maculicollis, maculicornis, meridionalis, minimus, mutabilis, nigricans, nitidulus, oblongiusculus, obscuripes, obscurus, obsoletus, opacipennis, opacus, ovipennis, pallidus, parallelus, picicornis, planicollis, planticola, porosus, pubescens, pumilio, punctatissimus, punctatulus, puncticeps, puncticollis, punctulatus,

reichenbachii, rotundatus, rotundicollis, ruficus, rupicola, sabulicola, semirufus, similis, splendens, stictus, subcordatus, subpunctatus, subquadratus, suturalis, tataricus, transversus, undulatus, ustulatus.

Ophryas acantophis.

Ophryastes cinereus, sallei, sulcirostris, vittatus.

Ophrydia clavata, gyrinus, lagenula, lagenulata, nasuta, trochus.

Ophrydium versatile.

Ophryepa superciliosa.

Ophryessa superciliosa, umbra. *Vide et Ophryoessa.*

Ophryocerca ovum.

Ophryodactylus subviolaceus.

Ophryoessa auronitens, superciliosa. *Vide et Ophryessa.*

Ophryoglena acuminata, atra, aurantiaca, flavicans, nigricans.

Ophryops pallidus.

Ophthalmicus albipennis, angularis, ater, colon, dispar, erythrocephalus, figuratus, frontalis, grylloides, lapponicus, lineola, lituratus, loniceræ, luridus, ochropterus, pallidipennis, phaeopterus, plagiatus, ruiceps, siculus, steveni, ullrichi.

Ophthalmidion eschrichti, longissimum.

Ophthalmis lincea, phedonia, punctigera.

Ophthamoborus testaceus.

Ophthamocoris sahlbergi.

Ophthamophis partschi.

Ophthamoplanis cyclopus, ocellus, polyphaemus.

Ophycoma granulosa.

Ophyessa azureus, bilineata, braziliensis, brevicaudatus, picta, plica.

Ophycephalus murenoideus.

Ophyodactylus aequinoctialis.

Ophya analis, anthrax, caerulea, carbonaria, fumigata, leucostoma, nitida, pubescens, rostrata, ruipes, rutilans, stygia, virescens, viridescens.

Ophichroa ontusa.

Opiestus ovalis.

Opiena fennica, polygona.

Opilio acanthopus, athuis, albescens, bucephalus, canescens, cinerascens, cirtanus, convexus, corniger, cryptarum, ephippiaster, fuscatus, glacialis, histrix, leucopheus, lucorum, luridus, militaris, nigricans, obliquus, rufescens, ruipes, saxatilis, serripes, similis, terricola, tridens.

Opilo chinensis, dorsalis, fasciatus, indicus, mollis, schedia, testaceus.

Opilus albofasciatus, auripennis, basalis, callosus, castaneus, cinctus, congruus, distrophus, domesticus, dorsalis, fasciatus, fasciculatus, ferreti, frontalis, germanus, interruptus, mollis, obscurus, pallidus, pantomelas, patricius, planatus, porcatus, suberosus, taeniatus, thoracicus, tristis, tropicus, univittatus.

Opinus proximus, rubropictus.

Opiptera bicolor.

Opis (Cr.) eschrichti, typica.

Opis (L.) angulosa, angustatus, annoniensis, arduennensis, bicornis, buvignieri, cardissoides, carusensis, coquandiana, cotteausia, davoustiana, dilatatus, elegans, excavatus, galeata, gibbosus, goldfussiana, haleana, hoeninghausi, hugardiana, lorieriana, luciensis, lunulata, moreausius, neocomiensis, ornata, paradoxa, philipsiana, pulchella, pusilla, radiseusis, raulineus, rhomboidalis, rupellensis, rustica, sabaudiana, sarthacensis, similis, thais, thalia, trigonalis, truellei, venus.

Opisthius richardsoni.

Opisthocornus africanus, cristatus, hoatzin, sasa.

Opisthognathus cuvieri.

Opisthoxia amabilaria, formosaria.

Opistognathus nigromarginatus, sonnerati.

Opistograptis crataegaria, crataegata.

Opistolophus fidelis.

Opistomum pallidum.

- Opisthophthalmus** capensis, latimanus, maxillosus, pallipes, pilosus.
Opisthoplatys australasiae.
Opithiocheirus chrysophthalmus.
Opitia lonchopteroides.
Opitomorphus brevirostris.
Opus abnormis, aemulus, aethiops, ambiguus, analis, apiculator, bajulus, bicolor, blandus, caelatus, caesus, caffer, carbonarius, caudatus, celsus, cephalotes, cingulatus, circulator, clarus, comatus, crassipes, decrescens, docilis, exiguus, exilis, fulgidus, funebris, fuscipennis, haemorrhous, impressus, iustabilis, irregularis, leptostigma, levis, lugens, maculipes, magnicornis, melanocerus, nitidulator, ocellatus, ochrogaster, pactus, pallipes, parvulus, pendulus, placidus, polyzonias, procerus, pumilio, pygmaeator, reconditor, rudis, ruficeps, rufipes, rugosus, rusticus, saevus, scabriculus, singularis, spretus, sylvaticus, tacitus, testaceus, truncatus, victus, vindex, wesmaeli.
Oplarium aureum, bellidioides, convallaria, coronarium, cristatum, cruciforme, dentatum, dispar, eliantoides, ferox, floriferum, flosculosum, formosissimum, hyacinthinum, medicum, moniliforme, numismaticum, opalians, placentarium, pteroforum, rotiferum, speciosum, trocanterium, vasculosum, verticillatum, zinnia.
Oplegnathus conwayi, fasciatus.
Oplichthys langsdorfi.
Oplocephala armata, bituberculata, capra, chalybea, collaris, cornigera, goryi, haemorrhoidalis, hoffmanseggii, janthina, picea, quadrituberculata, virescens, viridipennis.
Oplocephalus cuvieri.
Oplcnemus mucronatus.
Oplognathus kirbyi. *Vide et Hoplo*→.
Oplomerus spinipes.
Oplomus tripustulatus, violaceus.
Oplophora horsfieldi, punctata, sieboldi, sollyi, venustum.
Oploptera serraticornis.
Oplostomus fuliginus. *Vide et Hoplo*→.
Oplotherium concinnum, laticurvatum, leptognathum.
Opulus bibroni, brazilensis, maximiliani, sebae, torquatus.
Opomyza albimana, apicalis, asteia, atrimana, bicolor, bifasciella, bilineata, bimaculata, bipunctata, cinerella, circumdata, combinata, consobrina, discoidea, distincta, fasciata, ferruginea, flavipes, flavitarsis, florum, frontalis, fuscipennis, germinationis, glabra, gracilis, grisea, guttata, guttipennis, illota, laeta, leucopeza, maculata, marginella, marginipennis, modesta, nigriceps, nigrimana, nitida, pectoralis, punctella, punctipennis, quadrivitta, rufipes, sabulosa, scutellata, sororcula, tremula, tripunctata, ventralis, venusta, vicinimervis.
Oporabia autumnaria, dilutata, filigrammaria, neglectata, punctipes.
Oporinia alpestrata, dilutata, hyemana, nubilea, polycommata, rugosana, rupestrata, sertata, tortricella.
Opossum hirsutum.
Opostega auritella, crepusculella, reliquella, salaciella, saligna, scitella, spartifoliella, suffusella, tremulella.
Oppia cornuta, glaucina, nitens, splendens.
Opsanus cerapalus.
Opsarius albulus, anisocheilus, anjana, bacalia, bendelisis, bicirratu, brachialis, canarensis, daniconicus, dualis, fasciatus, goha, gracilis, isocheilus, latipinnatus, leucerus, maculosus, malabaricus, megastomus, mola, pholicephalus, rasbora, thebensis.
Opshomala viridis. *Vide et Opsomala*.
Opsiceros bicornis, simus.
Opsimus quadrilineatus.
Opsomala bivittata, erythrogaster, fasciculata, filiformis, fumosa, gladiator, laticornis, marginicollis, pallida, pisciformis, punctipennis, sicala, sordida, taeniata, tibialis, varipes. *Vide et Opshomala*.
Oponais elinguis, marina, obtusa.
Oracanthus confluent, milleri, minor, pustulosus.
Oratoscelis communimacula.

Oratrina pulchella.

Orbellia myopiformis, ornithivora.

Orbicella (Br.) buchi, caelata, corrugata, crassa, deformis, filosa, lamellosa, parmulate, punctata, rugata, squamaeformis, striata, subtruncata, terminalis.

Orbicula affinis, anomala, antiquissima, buchi, caelata, cancellata, cincta, concentrica, corrugata, crassa, crispa, cumingi, davreuxiana, deformata, depressa, discoidea, discoides, elliptica, elongata, filosa, forbesi, granulata, humphriesiana, konincki, laevigata, laevis, lamellata, lamellosa, lata, latissima, lodensis, lugubris, maeotis, minuta, morrissi, multilineata, mutabala, nitida, norwegica, oblongata, obsoleta, parmulate, perrugata, plana, plicata, punctata, quadrata, radiata, reflexa, reversa, rugata, silesiaca, sp. ind., speluncaria, squamiformis, squamosa, striata, strigata, subrotunda, subrugata, subtruncata, tarbelliana, tenuis, terminalis, trigonalis, truncata, turbinata, ungula, verneuli.

Orbiculina adunca, angulata, compressa, numismalis, numismata, rotella, uncinata, universa.

Orbiculites antiquus.

Orbiculoidea antiqua, babeana, charmassei, concentrica, davidsoni, davreuxiana, discoidea, forbesi, humphriesiana, konincki, laevigata, lata, lodensis, maeotis, minuta, morrissi, nitida, plana, plicata, quadrata, radiata, reflexa, subrugata, trigonalis, vesiculosa.

Orbiculus exoletus, prostratus, tigerinus.

Orbignyna ovata.

Orbis (G.) patellatus, rotella.

Orbis (Rh.) foliaceus, infimus.

Orbitina incomparabilis, truncatella.

Orbitoides alpina, dispansus, ephippium, mantelli, media, papyracea.

Orbitolina gigantea, lenticulata, radiata.

Orbitolites complanata, concava, conica, coscinodiscus, discoidea, discus, elliptica, fortisi, furcata, interstitia, karakaiensis, lenticulata, macropora, mamillata, mammillaris, mantelli, marginalis, marginata, media, papillosa, papyracea, parmula, patellaris, pileolus, plana, pratti, radians, sella, stellaris, stellata, submedia.

Orbitremites derbiensis, globosus.

Orbitulites apiculatus, coscinodiscus, creplini, discus, distinctus, fungiformis, hemisphaericus, lenticularis, parmula, quadrangularis, reticulata, stellaris, texanus.

Orbona ruina, serotina.

Orbulina universa.

Orbulita bechi, brongniarti, disca, heterophylla, luscombi, minuta, modiolaris, sphaerica, striata.

Orbulites africana, biangularis, columnatus, complanatus, concava, crassa, cucullata, dorsalis, faujasi, laevis, lenticulata, macropora, marginalis, pileolus, striata, undosa.

Orca bidentatus, capensis, crassidens, desmaresti, gladiator, intermedia.

Orchelimum cuticulare, glaucium, gracile, herbaceum, vulgare.

Orchemia diana, gallicana.

Orchesella aquatica, bifasciata, bourleti, chilensis, cincta, crystallina, dimidiata, fastuosa, filicornis, flavescens, grisea, histrio, livida, luteola, mauritanica, melanocephala, musci, quadripunctata, quinquefasciata, rubrofasciata, rufescens, septemguttata, succincta, sylvatica, unifasciata, vaga, villosa.

Orchesia adusta, castanea, fasciata, gracilis, grandicollis, laticollis, micans, minor, sepicola, sericea.

Orchestes albo-scutellata, alni, aterrimus, atricapillus, aurifasciata, avellanae, bifasciatus, bimaculatus, calcar, calceatus, capistrata, carnifex, cinereus, confinis, confundatus, crassus, crinitus, decoratus, depressus, ephippiatus, erythropus, fagi, ferrugineus, flavus, foedatus, fragariae, haematicus, hortorum, ilicis, iota, loniceriae, maurus, melanocephalus, melanocholicus, mollis, monedula, mutabilis, nigricollis, ornatus, pallicornis, peregrinus, pilosus, plantaris, populi, pratensis, pulcaris, quercus, rhodopus, rufescens, ruhipennis, ruhtarasis, rufus, rugosus, rusci, saliceti, salicis, salicola, scutellaris, signatus, sparsus, stigma, subfasciatus, suturalis, tomentosa, viminalis, waltoni, weidenbachianus, xalbum.

- Orchestia** brevicornis, chiliensis, cloqueti, deshayesi, euchore, fischeri, gayi, grandicornis, gryllus, gryphus, littorale, littorea, longicornis, megalophthalmus, montagui, nidrosiensis, perieri, platensis, quoyana, tristensis.
- Orchestoidea** tuberculata.
- Orchilus** cristatus, ignicapillus, pileatus, rufipes.
- Orcula** (Ech.) barthi.
- Orcula** (G.) conica, doliolum, dolium, gularis, trochus.
- Orcus** australasiae, bilunulatus, chalybeus, coeruleus, cyanocephalus, eversmanni, janthinus, nummularis, pallidilabris, quixensis, zonatus.
- Orcynus** alalonga, lanceolatus, latior.
- Oreas** (A.) azureus.
- Oreas** (Lep.) andromache, canthe, europa, helicta, jaira, leda, lena, lysodice, ocyrrhoe, oenomaïs, piera, proserpina, sapphira, thamyra, tulbaghia, zeline.
- Oreas** (M.) canna, derbianus.
- Oreas** (Rh.) auricularis, subulatus.
- Oreaster** aculeatus, affinis, armatus, boysi, bulbiferus, carinatus, chinensis, clavatus, coronatus, desjardinsi, hiulcus, mammillatus, nodosus, obtusangulus, obtusatus, obtusus, ocellatus, orientalis, pistilliferus, regulus, reticulatus, squamatus, tuberculatus, turritus, valvulatus, verrucosus.
- Orectochilus** bicostatus, costatus, cyanicollis, dimidiatus, discus, gangeticus, glaucus, involvens, madagascariensis, marginipennis, ornatcollis, philippinarum, pichincha, schoenherri, semivestitus, sericeus, specularis, speculum, villosus.
- Orectolobus** ornatum.
- Oreda** notata.
- Oregostoma** annulata, binotata, collare, discoideum, maculicornis, nigripes, rubricorne.
- Oregyia** coryli, ericae.
- Oreias** azureus, scoticus.
- Oreica** cristata.
- Oreina** (Col.) amphyctionis, basilea, hellenis, ignita, protogeniae, tristis.
- Oreina** (Lep.) blandina, cassiope, ligea.
- Oreinus** griffithi, guttatus, maculatus, plagiostomus, progastus, richardsoni.
- Orellia** flavicans, wiedemanni.
- Orenaia** alpestralis.
- Oreocephalus** cristatus.
- Oreocincla** aureus, dauma, heinei, lunulata, macrorhyncha, micropus, neilgherriensis, novae hollandiae, parvirostris, rostrata, spiloptera, varia, whitei.
- Oreodera** achatina, aerumnosa, cinerea, glauca, pubicornis.
- Oreica** gutturalis.
- Oreophasis** derbianus.
- Oreophilus** multipunctatus.
- Oreopholus** totanistrostris.
- Oreophorus** horridus, reticulatus, tenerrimus.
- Oreosoma** atlanticum, coniferum.
- Oreotetrax** caucasica, oreotragus, griseus.
- Oreotragus** scoparius, tragulus, typicus.
- Oreotrochilus** adela, adelaë, chimborazo, estella, jamesoni, leucopleurus, melanogaster.
- Orestia** alpina.
- Orestias** agassii, albus, cuvieri, humboldti, jussiei, luteus, mulleri, oweni, pentlandi.
- Oreus** acteus, amadis, elpenor, gnomia, licastus, porcus, thorates.
- Organites** fossilis, musicalis.
- Orgilus** obscurator.
- Orgya** aurolimbata, corsica, dubia, ericae, obscura, rupestris.
- Orgyia** abietis, alhagi, antiqua, coenosa, detrita, ericae, fascelina, gonostigma, liturata, pudibunda, selenitica, trigothelphras.
- Orgyja** achatina, fascelina, leucophaea, pudibunda, tephra.
- Oria** musculosa, sanguinea.
- Oribasia** stagnalis.

Oribata acromios, alata, aurita, bipilis, cassidea, castanea, clavipes, coleoptratus, corynopus, cyclonotus, formica, geniculatus, horrida, humeralis, minor, nitens, notactis, pinnatus, segnis, simplex, tegeocrana, theleproctus.

Oribates angulatus, aterrimus, badius, calcaratus, climatus, coracinus, dasypus, facula, flammula, fuscipes, fuscus, fusifer, gilvipes, globosus, globulus, lapidarius, mollicomus, orbicularis, ovalis, ovatus, papillosus, picipes, punctum, setosus, subterraneus.

Oribita concentrata, geniculata, glabrata.

Origma rubricata, solitaria.

Orillia curvinervis, pellucida, rectinervis.

Orimus cinctus.

Orio ornithoramphus, oxyahingus, oxyrhingus, zancleus.

Oriolia bernieri.

Oriolus acolchi, acrorhynchus, africanus, albistriatus*, anais, arundinarius, ater, auratus, aureus, baruffi, bicolor, brachyrhynchus, broderipi, buffonianus, cacticus, cartagenensis, castanopteris, chinensis, chrysocephalus, coronatus, coudougan, cristatus, dominicus, flavocinctus, flavus, garrulus, gularis, hippocrepis, hodsoni, indicus, jamaicensis, jupujuba, kundoo, larvatus, m'coshi, macrourus, maculata, maderaspatanus, melanocephalus, melanoris, meruloides, minor, moloxita, monacha, musae, musicus, mutatus, philipensis, regens, rufirostris, sanguinolentus, sebanus, sericeus, sloanianus, squamiceps, striatus, strigipectus, tenuirostris, trailli, varians, variegatus, violaceus, viridis, xanthonotus.

Orion atropos, brunneus, lachesis, patagonus.

Oris ferussaci.

Oriterus destructor.

Orites caudatus.

Orithyia coccinea, globosa.

Oriturus mexicanus, sibiricus, wrangeli.

Ormia punctata.

Ormiscus variegatus.

Ormoceras backi, bayfieldi, crebriseptum, gracile, moniliforme, remotiseptum, tenuifilum, whitei.

Ormocerus aletes, bambyce, borges, drymo, latus, mandrocles, maritimus, pisuthrus, sabbas, simplex, trasullus, vernalis, vibulenus.

Ormyrus coeruleus, labotus, nigrocyaneus, punctiger, tubulosus.

Ornebius nigripalpis, xanthopterus.

Orneodes dodecadactylus, hexadactylus, polydactylus.

Ornepetes nigricpes.

Orneus oenopion.

Ornichthys carolinensis, punctatus.

Ornisma cyanopogon.

Ornismya abeillei, albicollis, albirostris, albiventris, alinae, aline, allardi, amazili, amazilia, amethystina, amethystoides, anais, angelae, anna, arsennei, arsinoc, atala, audeberti, audeneti, auritus, avocetta, barroti, bicolor, bonapartei, brevirostris, caniveti, catharinae, cephalatra, chrysolopha, chrysura, cinnamomea, clarisse, clemenciae, coeligena, colombica, colubris, constanti, cora, costa, costae, cristata, cyanea, cyanocephalus, cyanopogon, delalandi, de lattare, delphinae, dumerili, duponti, ensifera, epomorphora, eriphile, erythronotos, eximia, fanny, feliciae, felicianae, furcata, gabriel, glaucopsis, glomata, gouldi, guerini, helenae, helianthea, heliodor, heloisa, henrica, heteropogon, heteropygia, hirundinacea, iris, isaacsoni, januariae, jordani, jourdani, juliae, julie, kieneri, kingi, labrador, lactea, langsdorffi, latipennis, lessoni, lindenii, longirostris, lugubris, lumachella, maugei, mellivora, mesoleuca, microrhyncha, minima, montana, moschita, mulsanti, nattereri, niger, nigrotis, nuna, oenone, ornata, orthura, pampa, paradisaea, parzudhaki, paulinae, pennata, petasophora, phoebe, platura, poortmaui, poucheti, prasina, recurvirostris, rhami, ricordi, rivolli, robinsoni, rubinea, rufula, sapho, sapphirina, sasin, senex, sephanoides, simplex, strumaria, superba, swainsoni, sylphia, temmincki, tephrocephalus, theresiae, torquata, tricolor, tristis, underwoodi, vesper, vestita, vieilloti, viridis, viridissima, wagleri, wiedi, zemes.

- Ornitharches** passeridum.
- Ornithichnites** crassus, culbertsoni, cuneatus, deani, divaricatus, diversus, gallinuloides, giganteus, gracilis, ingens, minimus, minusculus, palmatus, parallelus, parvulus, robustus, tenuis, tetradactylus, tuberosus.
- Ornithobia** capensis, pallida.
- Ornithobius** anseris, atromarginatus, cygni, cygnorum, gonioplurus.
- Ornithocephalus** antiquus, bantensis, brevirostris, kochi, longirostris, muensteri.
- Ornithodoros** coriaceus, savignyi.
- Ornithoidichnites** cuneatus, danae, deani, delicatulus, divaricatus, elegans, elegantior, expansus, fulicoides, giganteus, gracilior, gracillimus, ingens, isodactylus, lyelli, macrodactylus, minimus, parvulus, redfieldi, rogersi, sillinani, tenuis, tetradactylus, tuberosus.
- Ornithomyia** australasiae, australis, avicularia, avicularis, biloba, brunea, chilensis, chiliensis, columbae, confluenta, erythrocephala, fringillina, fulvifrons, fusciventris, hirundinis, intertropica, laticornis, nebulosa, nigricans, nigricornis, opposita, pallida, parva, platycera, plicata, remota, stenoptera, testacea, turdi, unicolor, varipes, vicina, viridis, viridula.
- Ornithoptera** amphimedon, amphisius, haliphron, helena, heliaca, hellen, panthous, pompeius, poseidon, priamus, remus, rhadamanthus, tithonus, urvilliana.
- Ornithopterus** lavateri, poseidon.
- Ornithopus** adamsanus, gallinaceus, gracilior, loripes, rectus.
- Ornithoramphus** coccoi.
- Ornithorhynchus** aculeata, anatinus, brevirostris, crispus, fuscus, hystrix, laevis, rufus.
- Ornithorincus** fuscus, rufus.
- Ornix** albicostella, alcyonipennella, ampliata, anatipennella, anglicella, anguliferella, angustipennella, anseripennella, ardeaepennella, argentipennella, argyropennella, auricella, auroguttella, autumnella, badiipennella, ballotella, binderella, binotapennella, bipunctella, caelatella, caudulatella, citrinella, colluripennella, columbaepennella, coracipennella, cothurnella, culcipennella, devonella, emberizaepennella, eumenipennella, falconipennella, finitimella, flammeaepennella, flavipennella, fringilella, galbulipennella, gallipennella, gryphipennella, guttiferella, hilaripennella, hisabellella, icterella, ictipennella, laciniaepennella, lacunae-colella, laripennella, leucapennella, limosella, limosipennella, longe-striatella, luctuosella, luscinaepennella, luteipennella, marginella, meleagripennella, murinipennella, niveicostella, ornatipennella, otidipennella, otitae, pallipennella, penicolella, pernicipennella, phasianipennella, rhamphastipennella, roscipennella, ruipennella, saxicolella, scoticella, serenella, signipennella, simpliciella, sternipennella, struthionipennella, sturnipennella, torquilella, trochilella, trochilipennella, troglodytella, turdipennella, upupaepennella, vibicigerella, vibicipennella.
- Orobitis** altus, anceps, cardinatus, cyaneus, ferrugineus, fractipes, gigantea, globosus, gonopterus, impunctus, lambitus, lythri, marmoreus, niger, novalis, nucula, repens, strigicollis, tamarisci, trachypterus.
- Orocetes** caerulea, cinclorhynchus, erythrogaster.
- Oroderes** humeralis.
- Orodus** cinctus, compressus, porosus, ramosus.
- Orognathus** condens.
- Oronotus** coarctatus.
- Orontes** noctuides.
- Orophia** denisella, majorella, sordidella.
- Orophis** chamissonis.
- Orophius** mandibularis.
- Oropterus** coniger.
- Orospina** provincialis.
- Orotherium** ligeris.
- Orphanos** coletaria, evergistaria, famularia, luctinaria, tripunctaria.
- Orpheides** demoleus, epus.
- Orpheus** caerulescens, calandria, carolinensis, curvirostris, dorsalis, felivox, leucopterus, lividus, longirostris, melanotis, meruloides, modulator, montanus, parvulus, patagonicus, polyglottos, rufus, thenca, tricaudatus, trifasciatus, triurus.

Orphilus glabratus.

Orphne (Lep.) horridaria, torvaria.

Orphne (Neur.) appendiculatus.

Orphnea laevigata, longimanus, pseudoseyllarus, pygmea, squamosa, striata.

Orphnephila devia.

Orphnus bicolor, impressus, macleayi, meleagris, mysoriensis, nanus, nitidulus, picinus, senegalensis, verreauxi.

Orrhodia cruda, erythrocephala, glabra, ligula, polita, serpylli, silene, spadicea, vaccinii.

Orsilochus cornutus.

Orsodachna betulae, costata, ruficollis, vittata.

Orsodacna arundinis, bicolor, cerasi, childreni, chlorotica, fulvicollis, hepatica, humeralis, inconstans, limbata, luctuosa, mes-pili, nematoides, nigriceps, nigricollis, obscura, oxyacantha, suturalis, testacea, tibialis, tricolor, tripla, trivittata, violacea.

Orsodacne armeniaca, cantharoides, coerulescens, glabrata, marginella, nigriceps, picipennis, ruficollis.

Ortaldia motmot.

Ortalia argillacea, calliops, duponti, flaveola, funesta, guillebeui, pallens, pallidifrons, variata.

Ortalida albiventer, araucuan, canicollis, caracco, garrula, goudoti, guttata, katraca, leucogaster, motmot, parrakua, polocephala, ruficeps, ruficollis, squamata, vetula.

Ortalis aenea, albipennis, annoniae, apicalis, arima, astrolabei, atomaria, basalis, bifasciata, bivittata, centralis, cerasi, chalybea, cinifera, connexa, costalis, crassipennis, dentipes, diopsidea, elegans, fasciata, fenestrata, flavoscutella, friesi, fulminans, gangraenosa, guttata, isara, jucunda, juncorum, lacustris, lamed, ligata, longicornis, luctuosa, lugens, lugubris, macularis, maculipennis, marginata, marinorea, massyla, mentissa, moerens, nebulosa, nigrina, notata, nubila, ochraspis, omissa, ornata, oscillans, otroeda, paludum, palustris, parallela, picta, pulchella, pulicaria, punctifrons, punctulata, quadrifasciata, quinquemaculata, quinquenotata, rivularis, rufoes, rufitarsis, rutilans, scutellaris, sororcula, syngenesiae, testacea, trifasciata, trimaculata, tristis, uliginosa, urticae, vau, vibrans, violacea, zetterstedti.

Orthacanthus cylindricus, decheni.

Orthagoriscus fasciatus, lanceolatus, mola, oblongus, planci, retzi, truncatus. *Vide et Orthagoriscus.*

Orthalicus adamsoni, livens, phlogerus, princeps, pulchellus, rex, sultan, undatus, zebra, zigzag.

Orthambonites aequalis, alta, convexa, crassicosta, dubia, emimens, flexuosa, lata, ovata, parva, plana, rotunda, rotundata, semicircularis, sphaerica, tetragona, transversa, trigona.

Orthegia urticae.

Orthetrum caeruleescens, cancellatum.

Orthis actoniae, adscendens, aequivalvis, alata, alternans, alternata, anomala, anomioidea, antiquata, applanata, arachnoidea, arcuata, argentea, arimaspiis, ascendens, asmusi, australis, basalis, baylei, beaumonti, bechei, bellarugosa, berthoisii, biforata, biloba, bilobata, bisulcata, bouchardi, bronni, buchi, caduca, calcar, calcarata, callactis, calligramma, cambriensis, canalis, cancellata, carinata, cava, centrilineata, cincta, circularis, circulus, comata, compressa, concentrica, concinna, confinis, connivens, conradi, cora, corrugata, costalis, costata, crenistria, crenulata, crispa, crispata, cylindrica, dalmani, davidsoni, decipiens, delthyroidea, deltoidea, demissa, depressa, desiderata, dichotoma, dilatata, disparitis, distincta, distorta, divaricata, dumontiana, duriensis, dutertrei, elegantula, ellipsoidea, elongata, erratica, euglypha, excavata, eximia, expansa, extensa, fallax, fasciata, fascicularis, filaria, filosa, fissicosta, flabellulum, funicularis, galea, gibbera, grandis, granulata, granulosa, hamoni, hardensis, hians, hirundo, humboldti, huroniensis, hybrida, imbrex, impressa, inca, inflata, inflexa, insculpta, intercostata, interlineata, interplicata, interstrialis, irregularis, kellyi, keyserlingiana, konincki, laevis, laspei, lata, laticostata, latissima, lenaica, lens, lenticularis, lepis, leptaenoides, lewisi, limitaris, longisulcata, lunata, lusitanica, lynx, macroptera, macrostoma, marklini, michelini, millepunctata, miniensis, multidentata, multifuscata, mulus, munchisoni, neglecta, noctilio, nucleus,

oblita, obovata, orbicularis, orbiculata, orbigny, obtusa, occidentalis, oclusa, olivieriana, opercularis, ornata, orthambonites, oswaldi, ovalis, ovata, palliata, panderi, papilionacea, parallela, parra, partita, parva, pecten, pectinatus, pectinella, pelargonata, pelargonites, pennatus, peregrina, perveta, pinguissima, plana, planissima, plicata, plicatella, plicatus, polygramma, porcata, productoides, protensa, pseudopecten, pulchra, punctata, pusilla, pyrum, quadrata, quinquecostata, radialis, radians, redux, resupinatus, reversa, rigida, romingeri, rugifera, rugosa, rusticus, santonensis, sarmentosa, scabrosa, schohariensis, sedgwicki, semicircularis, semilunata, semiradiata, senilis, sericea, serrurieri, sharpei, simplex, sinuata, sol, sordida, spathulata, sp. ind., spinigera, spuria, striatella, striatula, strigosa, strogonowi, subarachnoidea, subequata, subjugata, sublaevis, subquadrata, sulcata, sulivani, tenuis, tenuissimestriata, tenuistriata, testudinaria, transversalis, triangularis, tricenaria, trigonula, truncata, tuberculata, tumida, umbella, unbonata, unbraculum, undata, undulata, unguiculus, unguiformis, ungula, venustula, verneuili, vespertilio, vetusa, virgata, virgulata, voisini, walsalli, wangenheimi, ziukeni, zonata.

Orthisima verneuili.

Orthocentrus anomalus, bifasciatus, debilis, flaviceps, fulvipes, incisus, intermedius, merula, neglectus, ridibundus, rufus, spurius, winnertzi.

Orthocera acicula, angularis, annularis, annulata, annulosa, arduennensis, ascicularis, attenuata, bicarinata, bilineatus, breyni, browni, cincta, circularis, conica, convexa, cordiformis, cylindracea, elegans, ellipticum, elongata, freieslebenense, gesneri, glabra, gygantea, imperforata, inaequalis, inducens, knorri, laevis, littua, microscopica, multistriata, obtusa, paradoxica, politum, pyramidalis, pyriformis, raphanoides, recta, rugosa, semistriata, septemcostata, simplex, spiralis, striata, striatum, subundata, sulcata, tenuistriata, trachea, undata, undulata.

Orthoceras aciculum, affine, alveolare, amplicameratum, anceps, angular, annelatus, annellus, approximatum, arcuatum, arcuoliratum, articulatum, attenuatum, bacchus, barrandei, bilineatum, bisiphonatum, brachytomum, brevis-conicum, brighti, brongniarti, caetetes, calamitum, calamus, canaliculatum, castelnau, clathratum, complanato-septum, conicum, conquestum, constrictum, convergens, coralliferum, coralliformis, cornu-ibex, cuvieri, cylindraceum, dactylophorum, decussata, dentaloideum, dilatatum, dimidiatum, distans, dubium, eccentricum, ellipsoideum, elongato-cinctum, filiferum, filiforme, filosum, fimbriatum, fusiforme, fusiformis, goldfussianum, gracile, gregarium, hercules, hernes, humboldtiana, ibex, imbricatum, incertum, incomitatum, inequiseptum, juncum, laeve, lamellosum, laqueatum, laterale, latiannullatum, latiseptatum, latissimum, lineale, lineare, lineolatum, ludense, macromerum, marginale, markoei, marloense, martinianum, mocktreensis, moniliforme, mucronata, muensterianum, multicameratum, nummularius, ovale, paradoxicum, per-annulatum, perelegans, platymerum, pomeroense, primigenia, prolongatum, pulchellum, pygmaeum, pyriforme, radícula, raphanus, rectiannullatum, recticameratum, regularis, reticulatum, sacheri, salinarium, scalaria, scalpratum, scoriopus, semipartitum, sp. ind., steinhaueri, striatulum, striatum, strigatum, strigillatum, sub-arcuatum, subcanaliculatum, subcentrale, subcostatus, subgregarium, subimbricatum, subulatum, sub-undulatum, sulcatulum, tentaculare, tenuicinctum, tenuiseptum, teretiforme, textile, tracheale, triangulare, tuberosum, tubicincta, tumidum, undulostriatum, unguis, vagans, vertebrale, virgatum.

Orthoceratites acuaris, aequalis, aequicrassus, anachoreta, anceps, anglicus, angulatus, anguliferus, annulatus, arcuatus, aristoriensis, bacillus, baculites, bigsbyi, breyni, calamiteus, calycularis, cancellatus, carinatus, centralis, cinctus, circularis, cochleatus, coles, communis, compressa, conicus, conoideus, conus, cordiformis, costulatus, crassiventris, crassus, crenulatus, cypris, dannenbergi, decussatus, dimidiatus, dubius, duplicatus, duplex, echidnoides, ellipticus, eremita, falcatus, fascicularis, fistulosus, flexuosus, frearsi, geinitzi, gesneri, giganteus, gigas, gracilis, grandis, granulatus, gregarioides, gregarius, hians, imbricatus, interruptus, irregularis, jovellani, koninckianus, liasinus, linearis, lineatus, loricatus, lorieri, macrocomis, maximus, muensterianus, multicameratus, multilineatus, multiseptatus, nautiloides, nodulosus, oceani, oelandicus, paradoxus, phillipsi, polyphemus, polythalamus, prolapsus, punctatus, regularis, remotus, rimulosus, rubens, schlotheimi, semiplicatus, serratus,

sinuatus, sp. ind., speciosus, spiralis, steinhaueri, striatipunctatus, striatulus, striatus, striolatus, subannularis, subattenuatus, subconicus, subdimidiatus, subdistans, subellipticus, subflexuosus, subfusiformis, sublaevis, sublinearis, subpyriformis, substriatus, subtrochleatus, sulcatus, telum, tenuis, tenuistriatus, terebellum, terebra, torquatus, tracheatus, trentonensis, triangularis, trochlearis, turbinatus, undulatus, vaginatus, ventricosus, venustus, vermicularis, vertebralis, virgatus, wissenbachi.

Orthoceratium cinereum, lacustre.

Orthocerina quadrilatera.

Orthocerus (Col.) hirticornis, muticus.

Orthochaetes caucasicus, setiger.

Orthochile soccata, unicolor.

Orthodera prasina.

Orthogenium femorale.

Orthognathus albofuscus, dejeani, lividus.

Orthogonius acrogonus, alternans, angulatus, angusticollis, brevithorax, brunnilabris, buqueti, caffer, capucinus, curvipes, deletus, dubius, duplicatus, femoralis, femoratus, hopei, lateralis, latus, longipennis, malabariensis, mellyi, opacus, picilabris, plicatus, profunde-striatus, puncticollis, senegalensis, strachani, sulcatus.

Orthogonys viridis.

Ortholitha bistrigata, coarctata, coassata, palumbata, plumbaria.

Orthomegas cinnamomeus, jaspideus, sericeus.

Orthomus acrogonus, barbarus, hespericus.

Orthoname aquata, lignata, vitalbata.

Orthonevra elegans, nobilis.

Orthonota carinata, cingulata, compressa, contracta, costata, curta, extrasulcata, inornata, parallela, pholadis, rigida, triangulata, undulata.

Orthonotus albipes, leucocephalus, nigripes, pallicornis, pilosus, rufifrons.

Orthonyx heteroclytus, icterocephalus, maculatus, ochrocephala, spinicaudus, temmincki.

Orthoperus atomos, communis, flavidus, nigrescens, picatus, picea, punctum, truncatus.

Orthophya longa, solida.

Orthoplevra damicornis, sanguinicollis.

Orthoprosopa nigra.

Orthopterus smithi.

Orthopus primaevus.

Orthorhapha coccinelloides.

Orthorhina palpina.

Orthorhinus (A.) hypoleuca.

Orthorhinus (Col.) aethiops, cylindrirostris, klugi, lepidotus, longimanus, pacificus, rugirostris, simulans, spilotus.

Orthorhynchus albicollis, amazilia, amethysticollis, amethystinus, aureo-ventris, auritus, bicolor, carbunculus, chlorolophus, colubris, cora, cristatus, fimbriatus, frontalis, furcatus, glaucopoides, helenae, leucogaster, leucurus*, macrourus, mellisuga, mellivorus, minimus, moschites, ornatus, ourissia, pamela, platurus, polytmus, ricordi, ruber, rubineus, sapphirinus, sephanioides, smaragdinicollis, suturalis, viridissimus.

Orthorhinia palpina.

Orthoschizops latispina.

Orthosia amicta, biannularis, caecimacula, carnea, cavernosa, chaldaica, congener, cruda, daubei, farkasi, firma, gracilis, humilis, hyperborea, ilicis, instabilis, insueta, intermedia, kindermanni, laevis, litura, lota, lychnides, macilentia, miniosa, munda, murina, neglecta, nitida, ocularis, opima, ornatrix, pistacina, populeti, pulverulenta, rorida, rubella, rutililla, saportae, stabilis, subjecta, ypsilon.

Orthosoma badia, corticinum, cylindricum, unicolor.

Orthosteira brunnea, cassidea, cervina, cinerea, gracilis, microphthalmia, obscura, platycheila, pusilla.

Orthostigma flavipes.

Orthostixis catenaria, cribraria, petaviaria.

Orthostoma (Col.) abdominalis.

Oryssomus *subterminatus*.

- Oryssus** affinis, albo-punctatus, haemorrhoidalis, maurus, plumicornis, sayi, terminalis, unicolor.
- Orythia** capillata, hexanema, hexaphylla, incolor, labeschi, lutea, minima, octonema, purpurea, tetrachira, viridis.
- Oryttus** concinns.
- Oryx** (M.) algazella, besoastica, capensis, equina, gazella, leucophaea, leucoryx, monoceros, nasomaculata, oryx, pazan.
- Oryzaria** bosci.
- Osanius** argentatus.
- Oscabrella** laevis.
- Oscana** astacaria.
- Oscanius** lesueuri, luniceps, membranaceus.
- Oscinis** abbreviata, abdominalis, albigalpis, albisecta, annulifera, annulipes, approximatus nervis, aprica, argus, atricilla, atricornis, bicolor, bipunctata, brachiptera, brunnipes, brunnitarsis, calceata, capreolus, cereris, cincta, cincella, circumdata, citrinella, cognata, cornuta, curvinervis, curvipennis, didyma, dubia, elegans, ephippium, erythrocephala, figurata, flava, flavella, flavifemorata, flavimana, flavipes, flavitarsis, frit, frontella, fuscipes, geminata, gracilis, herbarum, hypostigma, laeta, levis, lineata, lineella, lineola, longicornis, maculipennis, maura, melanoleuca, melanoptila, messoria, nana, nasuta, nebulosa, nigerrima, nigra, nigripes, nobilis, notata, obliqua, obscurella, oleae, ornata, osculipora, pallidiventris, pallifrons, palposa, parvula, phaeoptera, planifrons, plumigera, polita, pratensis, pumilionis, puncticollis, pusilla, rapta, ruficeps, rufimana, rufina, rufipes, rufitarsis, rufiventris, saltatrix, scalaris, scutellaris, sordidella, speciosa, sulcella, taeniopus, tarsata, thammicola, tibialis, trifasciata, troglodytes, umbraculata, vindicata, viridescens, vitripennis.
- Osculipora** aculeata, lateralis, royana, rugosa, truncata.
- Osirus** petagniana.
- Osmaea** grisea.
- Osmeroides** crassus, glarisanus, granulatus, lewesiensis, mantelli, megapterus, microcephalus, monasterii.
- Osmerus** albidus, arcticus, cordieri, eperlanus, falcatus, fasciatus, glarisanus, hebridicus, lemniscata, microdon, nehereus, saurus, tumbil, viridescens.
- Osmetectis** fusca.
- Osmia** acuticornis, adunca, aenea, albo-hirta, andrenoides, annulata, antiqua, atricapilla, atrocaerulea, aurentata, baetica, bicolor, bicornis, buconis, byssina, caerulescens, canescens, chrysomelinus, cincta, cornuta, corrusca, emarginata, fasciata, ferruginea, fronticornis, fuciformis, fulviventris, fusca, gallarum, haematoda, hedera, helicicola, hirta, hyalinipennis, interrupta, latreillei, leaiana, leucomelana, lignaria, luctuosa, marginella, melanippa, melanogaster, metallica, nasidens, nigriventris, notata, papaveri, parietus, parvula, pilicornis, punctatissima, purpurascens, pyrenaea, rubrorum, rufigastra, rufohirta, rutila, serratulae, signata, spinigera, spinolae, spinulosa, tricornis, tridentata, tuberculata, tunensis, versicolor, xanthomelana.
- Osmoderma** barnabita, beauvoisi, rugosa, scabrum.
- Osmosita** badia, castanea.
- Osmylus** chrysops, maculatus, phalaenoides, strigatus.
- Osorius** ater, brasiliensis, brunnicornis, brunnipes, cornutus, cylindricus, incisicrurus, intermedius, piceus, pygmaeus, rugiceps, rugifrons, tardus.
- Osphranter** antilopinus, isabellinus.
- Osphranteria** caerulescens, suaveolens.
- Osphromenus** notatus, vittatus.
- Osphronemus** gallus, goramy, olfax.
- Osphya** aeneipennis.
- Osprynchotus** capensis, flavipes.
- Ossifraga** albicilla, gigantea.
- Osteobrama** cotis, ogilbyi, vigorsi.
- Osteodesma** aeruginosa, bracteata, brasiliensis, brevifrons, corbuloides, hyalina, kutorgana, picta, rupicola, solimyalis, trapezoidalis, trapezoides.
- Osteodoma** brevifrons, cuneata, elongata.

- Osteogeniosus** blochi, gracilis, ingluvies, longiceps, macrocephalus, valenciennesi.
- Osteoglossum** arowana, bicirrhosum, formosum.
- Osteolepis** arenatus, brevis, intermedius, macrolepidotus, major, nanus.
- Osteopera** platycephala.
- Osteophilus** albus.
- Osteopilus** marmoratus.
- Osteoplax** erosus.
- Osteornis** ardeaceus, diomedius, scolopacinus.
- Osteorophea** immigratoria.
- Ostorhinchus** fleuriu.
- Ostracidium** decoratum, fuscum, succineum.
- Ostracion** aculeatus, agonus, argus, auritus, bicaudalis*, bicuspis, bituberculatus, boops, brevicornis, cyanurus, diaphanus, flavigaster, forasini, horridus, immaculatus, lenticularis, lentiginosus, lineata, maculatus, micurus, nasutus, ornata, pentacornis, punctatus, quatuordecim-aculeatus, reevesi, sex-cornutus, spilogaster, stellifer, stictinotus, striatus, tobini, underimaculatus, valentini, yalei.
- Ostracites** adavus, anomius, approximatus, auricularis, chamaeformis, chamatus, crista, crista galli, crista meleagris, crista urogalli, decussatus, diluvianus, duplicatus, eduliformis, flabellatus, foliaceus, fossula, gingensis, gryphaeatus, gryphoides, haliotiformis, haliotioideus, isognomonoides, labiatus, laurifolium, lubiatus, mactroides, mysticus, orbiculatus, pectiniformis, pinnigerus, plicatissimus, plicatus, pusillus, pyramidans, serratus, sessilis, spinosus, spondylioides, subchamatus, sulcatus, tabulatus, unguatus, ventricosus.
- Ostracium** tessera.
- Ostraea** praelonga, pustulosa, roemeri, subspondylioides. *Vide et Ostrea.*
- Ostralega** ater, europea, haematopus, leucopus, maculosa, palliata.
- Ostrea** abrupta, achates, acuminata, acuta, acuticosta, acutirostris, adelina, adpressa, adriatica, aequatorialis, aequivalvis, alabamiensis, alaeformis, alata, albertina, albicans, albidia, alcoronis, alimena, alter, alvarezii, amata, ambigua, americana, amethystea, amor, amorpha, ampulla, angulata, angusta, angustata, angustivalvis, annonii, anomialis, antiqua, aquila, aranea, arborea, arca, archetypa, archiaci*, archiaciana, arcta, arcuata, arduennensis, arenaria, arietina, armata, asperima, atrata, aulaeum, auricularis, auris, aurita, australis, aviculaeformis, aviculaeoides, bathonica, beaumonti, bellovacina, biauriculata, bicolor, bifrons, blandina, boblayei, borealis, boussingaulti, bracteola, brasiliana, brevis, brevisrostris, broderipi, bronni, bruguieri, bruntrutana, bullata, callichroa, callipera, camera, canadensis, canaliculata, canalis, capax, capillaris, capsula, carantoniensis, carina, carinata, cariosa, carolinensis, castellana, caudata, cavata, chemnitzii, cinnabarina, circinnata, circularis, clavata, clytia, cochlear, cochlearia, colubrina, columba, columbiensis, complanata, complicata, compressirostra, compta, concentrica, conglomerata, conica, conirostris, conradi, constantiensis, convexa, cornucopiae, corrugata, corusca, costata, couloni, crassa, crassissima, crenata, crenatuloideus, crenulata, crepidula, cretacea, crispa, crispata, crista, crista galli, cristata, cristatula, crocea, cruciata, cubitus, cucullaris, cumingiana, curvata, curvidorsata, curvirostris, cuvieri, cyathula, cymba, cymbiola, cymbium, cymbula, cymbularis, cypraea, cyrnu, cyrtoma, darwini, decemcostata, deformis, defrancei, delphinar, deltoidea, dentata, denticulata, dentifera, deperdita, depressa, deslonchampiana, diaphana, dichotoma, difformis, digitalina, digitata, dilatata, diluvii, discors, dispar, disparilis, distans, distorta, divaricata, doridella, dorsata, doublieri, dubia, dufrenoyi, duriuscula, eburnea, echinata, edula, eduliformis, edulina, electra, elegans, elephantopus, elliptica, elongata, emarginata, eparnacensis, equestris, erina, eruca, erucella, eugenia, eversa, exarata, excavata, exculenta, exilis, exogyra, exogyroides, exotica, expansa, explanata, extensa, falcata, falciformis, faretta, fasciata, ferrarisi, ferruginea, fibula, figurata, fittoniana, flabella, flabelliformis, flabelloides, flabellula, flabellum, flagellatus, foliacea, foliosa, fonticula, foveolata, fragilis, frecheti, frondosa, furcorum, fulva, fusca, gallina, galloprovincialis, gallus, gehrdensis, georgiana, gibba, gibbosa, gigantea, glaucina, goldfussi, gracilis, grandis, granulata, gregaria, gryphina, gryphoides, haitensis, haliotidea, haliotioidea, hammeri, harpa, helica, helvetica, hemicyclus, hemisphaerica, heraultiana, hersilia, heteroclitia, hippopodium,

Ostrinia palustralis.

Otagon turdus.

Otala asperula, atomaria, consobrina, diaphana, groviana, haemastoma, incerta, indistincta, macularia, microstoma, modesta, nana, plicatula, pouchet, punctigera, ravni, sulcata.

Otaria albicollis, aurita, australis, blainvillei, californiana, cinerea, coronata, fabricii, falklandica, flavescens, forsteri, guerin, hauvillei, jubata, krachennikowi, lamarii, leonina, molinae, molossina, pagesi, pernettyi, peroni, platyrhynchus, porcina, pusilla, resima, shawi, stelleri, ulloae, ursina, weddelli.

Otarion diffractum, elegans, obtusum, pygmaeum, squarrosum.

Otavia corallina, pharaonis.

Othilia aculeata, luzonica, multispina, purpurea, spinosa.

Othius alternans, angustus, ater, californicus, fulgidus, fulvipennis, fuscicornis, glabricornis, grandis, laevis, laeviusculus, lapidicola, macrocephalus, melanocephalus,

myrmecophilus, obscurus, pilicornis, punctipennis, sabuliformis, scoticus, sexpunctatus, subuliformis, suturalis, ustulatus.

Othonia fabricii, quinquedentata, sexdentata.

Othreis homaena, pomona.

Otidocephalus albopilosus, apioniformis, bicolor, boops, gazella, gibbus, myrmecodes, oculus, parvulus, pelliceus, pubescens, setulosus.

Otina otis.

Otiocephalus americanus, flavipennis, formicarius, mexicanus, pilosus, poeyi.

Otiocerus abboti, coqueberti, degeeri, francilloni, reaumurii, schellenbergi, stollii, wolfi.

Otion auritus, bellianus, blainvillei, blainvillianus, coronularia, cuvieri, cuvierianus, depressa, dumerilianus, rissoanus, sacculifera.

Otiorynchus adscitus, adpersus, aerifer, affaber, affinis, agatium, agnatus, alpicola, alutaceus, ambiguus, anadolicus, angusticollis, angustior, anthracinus, argutus, armadillo, armatus, armeniacus, asphaltinus, ater, aterrimus, atroapterus, aureolus, auricapillus, auricomus, aurifer, auropunctatus, arosarsus, arosarsus, australis, austriacus, bardus, bicostatus, bielzi, bifasciatus, bisulcatus, blandus, bohemicus, brachialis, brevicornis, bructeri, brunneus, caliginosus, cancellatus, carbonarius, carcelii, carinatus, carinthiacus, carmagnole, caudatus, chevrolati, chlorophanus, chrysocomus, chrysonus, chrysostictus, cirricollis, clathratus, clavipes, clemens, coccus, collaris, comosellus, comparabilis, concavirostris, concinnus, confusus, consentaneus, conspersus, conspiciabilis, corrugatus, corticalis, corvus, crassicornis, crataegi, cremieri, cribricollis, cribrocollis, cribrosus, crispus, cuneiformis, cymophanus, dalmatinus, demotus, denigrator, densatus, depubes, desertus, dilwyni, distincticornis, dives, duinensis, dulcis, ebeninus, echinatus, elaboratus, elegantulus, elongatus, eremicola, erythropus, exilis, fagi, faldermanni, fasciculatus, femoralis, fissirostris, foraminosus, fortis, fossor, foveicollis, fraxini, frescati, fulvipes, funicularis, fuscipes, fusco-femoratus, fussi, gallicanus, gemmatus, geniculatus, gibbicollis, giraffa, glabellus, glabratus, glabricollis, globicollis, globithorax, globulipennis, globus, godeti, goerzensis, gracilis, gracillipes, grandicollis, grandineus, granicollis, granulatus, griseopunctatus, griseus, haematopus, helveticus, hirticornis, histrio, humatus, humilis, hungaricus, hypocrita, hystrix, impexus, implexus, impoticus, impressipennis, imus, incivilis, inductus, infaustus, infernalis, inflatus, innocuus, insubricus, intercalaris, interstitialis, irritans, istriensis, juvenicus, juvenilis, kollari, krattereri, laevigatus, lanuginosus, lasius, lateralis, latipennis, lavandus, lefevrei, lepidopter, lepidus, ligneus, ligustici, lima, lirus, lithantracius, longicollis, longiventris, loricatus, lubricus, luctuosus, lugdunensis, lugens, malefidus, mandibularis, marquarti, mastix, mastyx, maurus, maxillosus, melancholicus, memnonius, meridionalis, metallescens, moestificus, moestus, mollis, montanus, monticola, montivagus, morio, morulus, multicarinatus, multipunctatus, mutilatus, navaricus, niger, nigripes, nigrata, nigratus, nobilis, notatus, nubilus, obcaecatus, obscurus, obsidianus, obsitus, obtusus, oculus, opulentus, orbicularis, orientalis, ostentatus, ovalipennis, ovatus, ovatus, pabulinus, parbitalis, parvicollis, pauper, pauperulus, pauxillus, pelliceus, perdix, perforatus, periscelis, perplexus, petrensis, piceus, picipes, pilosus, pimeloides, pinastri, planatus, planithorax, plicicollis, plumpies, politus, polycoccus, populeti, porcatus, poricollis, proletarius, prolixus, pruinatus, psegmaticus, pseudomias, pubens, pubescens, pubifer, pullus, pulverulentus, pulverulus, pulvinatus, punctatissimus, puncticornis, punctiscapus, pupillatus, pusio, pyrenaeus, rucus, repletus, reticollis, rhacusensis, rhaeticus, romanus, roscidus, rotundatus, rufipes, rugicollis, rugifrons, rugipennis, rugosus, sabulosus, saevus, salebrosus, sanguinipes, sayi, scaber, scabricollis, scabridus, scabripennis, scabrosus, scalptus, scitus, scopularis, scrobicollis, scrobiculatus, sculptirostris, segnis, septentrionis, setifer, sibiricus, signatipennis, singularis, spatatensis, squameus, squamifer, squamiger, stomachosus, striatosetosus, strigirostris, subcinctus, subquadratus, subsignatus, substriatus, sulcatus, sulcifrons, sulcirostris, sulcogemmatum, sulphurifer, tenebriosus, tomentifer, tomentosus, transitorius, transparens, turbatus, turca, turgidus, uncinatus, unctuosus, unicolor, validicornis, variegatus, varius, vehemens, vellicatus, velutinus, vestitus, villosopunctatus, viridipunctatus, vitellus, vitis, vittatus, vorticosus, zebra.

Otiorynchus sculptus, simplex, squamosus.

Otiothops walckenaeri.

- Otis** abyssinica, afraoides, afroides, atriceps, aurita, australasianus, australis, barrowi, bengalensis, breviceps, brevipes, caerulescens, caffra, colei, deliciosa, denhami, edwardsi, ferox, fulva, gularis, himalayanus, indica, kori, ludwigi, macqueeni, major, marmorata, melanogaster, nigriceps, nuba, ruficollis, ruficrista, scolopacea, senegalensis, stanleyi, torquata, undulata, veroxi, vigorsi.
- Otisorax** longirostris, platyrhinus.
- Otites** bivittata, bucephala, elegans, formosa, fuscipennis, guttata, jucunda, nebulosa, nigripennis, porcus, pulchella.
- Otocoris** albigula, alpestris, bilopha, chrysolaema, cornuta, penicillata, scriba, sprangeri.
- Otocryptis** bivittata, wiegmanni.
- Otocyon** caffer, lalandei, megalotis.
- Otodus** acuminata, angustidens, apiculatus, appendiculatus, basalis, caticus, crassus, divergens, heteromorpha, lanceolatus, latus, levis, macrotus, marginatus, minor, minutus, mitis, nanus, obliquus, plicatilis, recticonus, rudis, salentinus, semiplicatus, serratus, subplicatus, sulcata, sulcatus, tricuspis, trigonatus, wilsoni.
- Otoes** jubata, ursina.
- Otoglena** papillosa.
- Otogyps** auricularis, calvus.
- Otolicinus** alleni, crassicaudatus, demidoffi, galago, garnetti, minutus, murinus, psilodactylus, senegalensis, teng.
- Otolithus** aequidens, analis, argenteus, aureus, biauritus, bispinosus, carolinensis, guatucupa, lateoides, leiarchus, macrophthalmus, maculatus, microdon, microlepidotus, nebulosus, peruanus, reevesi, regalis, rhomboidalis, ruber, senegalensis, striatus, toe-roe, tridentifer, versicolor, virescens.
- Otomys** albicaudatus, bisulcatus, rufifrons, typicus, unisulcatus.
- Otophis** eryx.
- Otophorus** haemorrhoidalis, humeralis, rubidus, sanguinolentus, scolytoides.
- Otopoma** albicans, auriculare, clausum, foliaceum, haemastomum, listeri, michaudi, politum, pygmaeum, spurcum.
- Otosaurus** cumingi, microlepis.
- Otosema** agarista, odora.
- Otostomus** lagotis, lateralis, myotis, navicula, signatus.
- Otostylis** sexsetacea.
- Otozoum** moodyi.
- Otrophesa** imbricata.
- Otus** (A.) abyssinicus, africanus, agrarius, americanus, arboreus, ascalaphus, asio, bengalensis, brachyotos, brasiliensis, bubo, capensis, communis, coromandus, crassirostris, europaeus, galapagoensis, gracilis, lacteus, leucotis, macrorhynchos, maculosus, madagascariensis, magicus, manadenis, mantis, mexicanus, microcephalus, noctua, otus, palustris, philippensis, reticulatus, scops, semitorques, signuapa, sinensis, stygius, sylvestris, ulula, virginiana, vulgaris, wilsonianus, wilsonius.
- Otus** (Lep.) abyssinicus, choerilus, cnotus, myron.
- Otygospiza** polyzona.
- Quakaria** calvus, spixi.
- Quistitis** argentata, iacchus.
- Qulangia** stokesiana.
- Qulastrea** crispata.
- Qulophillia** reticulata.
- Qulophyllia** astroides, ataciana, bronni, confluent, corallina, crispa, disjuncta, elegans, excavata, labyrinthica, lamellobidentata, macropora, martiniana, meandra, michelini, montana, profunda, reussiana, spinosa, stokesiana, tuberosa, turbinata, valmondoisiaca.
- Ourachaerus** caudatus.
- Ourapteryx** politata, sambucaria, sambucata.
- Ourax** erythrorhynchus, galeatus, mita, pauxi.
- Ourozeukthes** oweni.
- Ova** canaliferus.
- Ovalastrea** caryophylloides.

Ovatella bidentata, polita, punctata.

Ovibos moschatus.

Ovis ammonoides, aries anglicana, aries longipes, arkal, barual, burrhel, cagia, californianus, canadensis, cervina, cycloceros, cylindricus, cyprius, dubia, europae, gmelini, hodgsoni, hunia, laticaudata, longipes, mamillaris, montanus, musimon, musmon, nahoor, nayaur, nivicola, ophion, ornata, polii, primaeva, probaton, pygargus, sculptorum, silingia, tragelaphus, vignei.

Ovula acicularis, acuminata, adriatica, alba, angulosa, aspera, birostris, bullaria, cancellata, carnea, cepula, columba, costellata, cretacea, cristallina, dentata, depressa, fragilis, gibbosa, gigantea, haliotoidea, hordacea, intermedia, iota, kayei, lactea, leathesi, marticensis, media, nigerina, ovata, oviformis, papyracea, passerinalis, pharetra, punctata, purpurea, semen, spelta, tortilis, triticea, tuberculosa, ventricosa, verrucosa, virginea, volva.

Ovuliger carpi.

Ovulina ovata.

Ovulites elongata, globulosa, margaritula, pavantina.

Ovulum aciculare, acuminatum, adriaticum, aequale, angulosum, apertum, avena, birostre, breve, bulla, bullatum, carneum, coarctatum, concinnum, corrugatum, deflexum, dentatum, dorsuosum, emarginatum, formicarium, fornosum, frumentum, gallinaceum, gibbosum, gracile, hordeaceum, inflexum, intermedium, lacteum, lanceolatum, longirostratum, margarita, marginatum, nubeculatum, obtusum, ovum, patulum, philippinarum, pyriforme, recurvum, retusum, rufum, secale, seminulum, simile, spelta, striatulum, subreflexum, subrostratum, triticeum, umbilicatum, uniplicatum, verrucosum, volva.

Ovum commersoni.

Owenia fusiformis.

Oxaea flavescens.

Oxelytrum aequinoctiale, thoracicum.

Oxicesta geographica, sericina.

Oxidiercia toxialis.

Oxigrapha abjectana, aerugana, asperana, irrorana, literana, notatana, treueriana.

Oxinoe glabra.

Oxipterus viridis.

Oxisma bifida.

Oxitricha ambigua, bulla, caudata, felis, gallina, gibbosa, jobloti, lepus, pelionella, pulex, pullastra, pullicina, transfuga, variabilis, volutator.

Oxiurus patagonicus. *Vide et Oxy→ (A.)*.

Oxoides obscurus.

Oxuderces dentatus.

Oxura psammodioides, setosa, vestita.

Oxya dorsigera, hyla, ornatissima, procera, velox.

Oxybeles homei.

Oxybelia capucinella, cuspidella, fasciella, variella.

Oxybelis aeneus.

Oxybelus americanus, andalusiacus, arabs, argentatus, armiger, bellicosus, bellus, bicolor, concinnus, dissectus, emarginatus, fasciatus, ferox, fischeri, fissus, furcatus, haemorrhoidalis, hastatus, interruptus, laetus, laevigatus, lamellatus, lancifer, latro, lineatus, mucronatus, nigricornis, nigripes, nigroaeneus, piceus, pugnax, pygmaeus, quadri-notatus, quatuordecimnotatus, raptor, savignyi, simplex, subspinosus, tridens, trispinosus, uniglumis, victor.

Oxycara blapsoides, pedinoides.

Oxycareus convexus, fasciatus, helferi, interruptus, lineolatus, plagiatus, preysleri, spitzyi, tardus.

Oxycephala fuscipennis, latipennis, maculipennis, nigripennis, pictipennis.

Oxycephalus armatus, oceanicus, piscatoris, piscatorius.

Oxycephas scabrius.

Oxycera affinis, analis, atra, cupraria, decipiens, dives, falleni, formosa, hegeteroides, hypoleon, leonina, liburna, longicornis, maculata, meigeni, metallica, morrisi, muscaria, nigra, nigricornis, pardalina, pulchella, pygmaea, tenuicornis, terminata, trilineata, variegata.

- Oxycerca* nistoria.
Oxycheila acutipennis, aquatica, binotata, bipustulata, bisignata, distigma, femoralis, labiata, laportei, oxyoma, tristis.
Oxychila cellaria.
Oxychilus ericetorum, lucida, nitidulus.
Oxycnemus fulvus.
Oxycorynus melanocerus, melanops.
Oxycrepis leucocera.
Oxycypha discolor, lactea, luctuosa.
Oxyderces coelestinus, cretaceus.
Oxygaster anomalura.
Oxyglossus (A.) maculatus.
Oxyglossus (Col.) subcyaneus.
Oxyglossus (R.) lima.
Oxygnathus anglicanus, elongatus.
Oxygomphius frequens, leptognathus.
Oxygonia melanocera, nitens.
Oxygonia (Col.) dentipennis, rufipes, rufiventris, schoenherri, signata, viridula, zebrina.
Oxygonia (Hem.) alliacea, atroptera, chrysura, conica, dorsalis, erythropus, maculicornis, pacifica.
Oxygonius tenuis.
Oxygyrus mullatus, rangi.
Oxylaemus caesus, cylindricus.
Oxylides celinus, faunus, tharis.
Oxylophus atra, ater, coromandus, edolius, glandarius, levaillanti, serratoides, serratus.
Oxymerus abdominalis, aculeatus, approximatus, basalis, chevrolati, confusus, deletus, distinguendus, elongatus, klugi, lebasii, lineatus, nigricornis, nigriiventris, pallidus, rivulosus.
Oxymicterus scalops.
Oxymyctera hispidulus, hispidus, megalonyx, nasutus.
Oxyna cinerea, femoralis, flavescens, maculata.
Oxynodera biplagiata, irrorata, metallica, rubiginosa, rugosa, sericata, tristis, variegata.
Oxynoe olivacea.
Oxynopterus audouini, cumingi, javanus, latipennis, mucronatus.
Oxynota elegans.
Oxynotus (A.) rufiventer.
Oxynotus (Hem.) gibba, horridus, laceratus, monstrosus, trigonus.
Oxynotus (P.) centrina.
Oxynychus moerens.
Oxyomus alternatus, arenarius, cadaverinus, crenatostriatus, cylindricus, dilutus, excavaticollis, exsculptus, foveolatus, gracilis, granosus, opatroides, platensis, rubrotessellatus, strigatus, variolosus.
Oxyopes astutus, floricola, indicus, lineatus, salticus, scalaris, variegatus, viridans.
Oxyophthalmus elongatus, illotus, steveni.
Oxyops cancellatus, clathratus, foveosus, hopei, obliquatus, signatus, squamulosus.
Oxypate gelatella.
Oxyphora cardui, pyrethri, westermanni.
Oxypilus annulatus.
Oxypleura armata, basialba, basistigma, bufo, capitata, clara, contracta, limbata, marimorata, passa, polita, polydorus, sanguiflua, subrufa.
Oxypleurus nodieri, scutellaris.
Oxypoda abdominalis, advena, alternans, amicta, analis, angusta, angusticollis, assecta, atracapilla, cingulata, conviva, corticina, cunctans, cuniculina, curtula, elegantula, elongatula, exigua, exoleta, familiaris, ferruginea, filiformis, formiceticola, fuliginosa, fumida, gilvipes, gotschii, gracilis, helvola, hospita, infuscata, lapidicola, lateralis, latiuscula, lentula, leporina, lindeni, litigiosa, lividipennis, longiuscula, luteipennis, maura, melanaria, moesta, myrmecobia, myrmecophila, nitidula, obfuscata, occulta, opaca, pellucida, picea, praecox, procerula, prolixa, promiscua, prospera, pulchella,

ruficollis, ruficornis, rufipennis, sagulata, sericata, sericea, similis, spectabilis, steveni, subflava, suturalis, testacea, togata, umbrata, varia, vittata.

Oxypogon guerini.

Oxyporus angularis, arenarius, bipustulatus, brevis, caelatus, cephalotes, cinctus, dinidiatus, fasciatus, femoralis, fracticornis, fulgidus, lateralis, maior, marginalis, maxillosus, pulcher, punctatus, schoenherri, stygius, talpa, ulmi, vittatus.

Oxypselaphus pallidulus.

Oxyptera excisa, pictipennis.

Oxypterum kirbyanum, pallidum.

Oxypterus mongitorii, rhinoceros.

Oxyptychus striatus.

Oxypyga scansor.

Oxyrachis quadrilineata, venosa, vitratus.

Oxyrhachis arietina, delalandei, gambiae, genistae, tarandus.

Oxyrhamphus flammiceps.

Oxyrhin constrictus, tetragonurus.

Oxyrhina (Dipt.) frontalis, wahlbergi.

Oxyrhina (P.) basisulcata, complanata, crassa, crassidens, cyclodonta, desori, glauca, gomphodon, hastalis, haueri, heckeliana, heteromorpha, isocelica, lata, leptodon, mantelli, minuta, numida, oxyrhina, plicatilis, quadrans, retroflexa, sillimani, subinflata, triangularis, trigonodus, xiphodon, zippei. *Vide et Oxyrrhina.*

Oxyrhinchus virescens.

Oxyrhinus subsulcatus.

Oxyrhopus annulatus, petalarius.

Oxyrhynchus (A.) cristatus, flammiceps, serratus.

Oxyrhynchus (Col.) calandroides, discors, lateralis, rivulosus.

Oxyrhynchus (P.) deliciosus.

Oxyrhynchus (R.) acutirostris, granulatus, naricus, nasutus, proboscideus, semilineatus.

Oxyrrhina spallanzanii. *Vide et Oxyrhina* (P.).

Oxyrrhis marina.

Oxyrrhopus semifasciatus.

Oxysoma aurata, lineata, longipes, punctata, punctipes.

Oxysternon festivum, hilare, palemo, silenius, spiniferum.

Oxysternus crassus, maxillosus, maximus, nigripennis, rufus.

Oxystoma fuscirostris, genistae, ulicis.

Oxystomus (A.) carunculatus.

Oxystomus (Col.) cylindricus, grandis, vulneratus.

Oxystomus (M.) manatus.

Oxystomus (P.) hyalinus.

Oxystyla undata.

Oxytelus americanus, angustatus, antennatus, arenarius, armatus, asphaltinus, atricapillus, basalis, bengalensis, biarcuatus, bicornis, brachypterus, brasiliensis, brunnipennis, caelatus, caffer, caliginosus, carinatus, castaneipennis, collaris, complanatus, consobrinus, cordatus, cornutus, corticinus, crassicolis, cylindricollis, depressus, dubius, emarginatus, exiguus, fasciatus, femoralis, flavilabris, flavipes, foveatus, foveolatus, fracticornis, fronticornis, fuliginosus, fulvipes, furcatus, fuscipennis, humilis, immunis, impressus, incolumis, intricatus, laesus, laevicollis, lapponicus, laqueatus, latipes, longicornis, luteipennis, madagascariensis, melanocephalus, minimus, misellus, moerens, montivagus, mordax, morsitans, nanus, nitens, nitidulus, nitidus, nodifrons, opacus, pallidipennis, pullipennis, pulvipes, parvulus, fuscipennis, humilis, immunis, picipennis, politus, procerus, pulcher, pumilus, pusillus, pygmaeus, riparius, rivularis, ruficus, rugosus, rugulosus, sculptus, strigifrons, striolatus, sulcatus, taurus, terrestris, tricornis, trilobis, unicornis.

Oxytenis lamis, modestia, peregrina.

Oxytes obliqua.

Oxythyrea aeneicollis, amabilis, analis, clouaei, deleta, discicollis, helenae, lunata, niveoguttata, perroudi, septicollis, stictica, testaceoguttata.

Oxytrema crenulatum.

- Oxytricha* cicada, fusca, gibba, incrassata, lepa, lepus, lingua, pellionella, piscis, platystoma, pullaster, radians, rubra.
- Oxytropis* merremi.
- Oxyura* australis, maccoa.
- Oxyuris* alata, angulata, blattae orientalis, brachyura, brevicaudata, curvula, depressa, dilatata, flagellum, gracilis, gryllotalpae, laticollis, leuckarti, nodulosa, obtusa, obvelata, ornata, pugio, socialis, spinicauda, velocissima, vermicularis, verrucosa.
- Oxyurus* (A.) dorsomaculatus, ornatus, spinicauda, tupinieri.
- Oxyurus* (Hym.) anomalipes, anteon, brevipennis, conicus, cornutus, frontalis, niger, roseus.
- Oxyurus* (Myr.) cinerascens, glabratus, pallidus, vestitus.
- Oxyurus* (Verm.) gadi, vermicularis, vermiformis.
- Ozaena* brunnea, castanea, dentipes, ditomoides, filiformis, glabra, goryi, granulata, gyllenhali, laevigata, leprieuri, lutea, megacephala, mexicana, morio, nigripennis, orientalis, parallela, polita, rogeri, testudinea, verticalis.
- Ozirhincus* longicollis.
- Ozius* frontalis, guttatus, rugosus, subverrucosus, truncatus, tuberculatus.
- Ozocera* interrupta.
- Ozodecerus* cavicaudatus, forficulatus, metallicus, ruficollis, tricuspidatus.
- Ozodera* bipartita, callidioides, xanthospilos.
- Ozodes* mexicanus, mucoreus, nodicollis, triangularis.
- Ozodicera* apicalis, gracilis, ochracea.
- Ozodura* ornata.
- Ozoena* akdrovandi, moschata.
- Ozolaimus* megatyphlon.
- Ozolus* gasterostei.
- Ozygothierium* escheri.
- Paca* maculata.
- Pachetra* leucophaea.
- Pachiloscelis* nigripes, rufipes.
- Pachirhyna* pulchella.
- Pachites* biforatus.
- Pachnaeus* azureus, griseus, litus, opilus.
- Pachnephorus* arenarius, cylindricus, decemnotatus, globosus, lepidopterus, sabulosus, tessellatus, villosus.
- Pachnoda* abyssinica, albigrana, aulica, baxi, carmelita, chalcea, cincta, fasciata, flaviventris, frenata, impressa, inscripta, intermedia, interrupta, laticincta, marginata, marginella, monacha, olivacea, picta, rufomarginata, semipunctata, sinuata, sobrina, soror, stehelini.
- Pacholenus* pelliceus, penicillus.
- Pachotelus* bicolor, fuscus.
- Pachrodema* castanea, substriata.
- Pachybdella* ratlkei.
- Pachybrachis* argentatus, armeniacus, bivittatus, carbonarius, cariosus, hyacinthinus, infautus, mollis, morosus, scripticollis, sobrinus, sparsus, subfasciatus, viridissimus.
- Pachybrachius* biguttatus, luridus.
- Pachybrachys* azureus, bisignatus, cinctus, fimbriolatus, fulvipes, hieroglyphicus, hippophaes, histrio, lineolatus, maculatus, piceus, scripticollis, scriptus, signatifrons, tauricus, terminalis, viridissimus.
- Pachycarus* brevipennis, caeruleus, cyanescens, latreillei.
- Pachycephala* australis, falcata, fuliginosa, fusca, gilberti, glaucura, gutturalis, inornata, lanioides, longirostra, longirostris, macrohyncha, melanura, olivacea, orpheus, pectoralis, rufiventris, rufogularis, simplex, striata, xanthoprocta.
- Pachycephalus* (A.) australis, olivaceus, pectoralis, rufiventris.
- Pachycephalus* (P.) cristatus.

- Pachycera** laevigata, minuta.
- Pachyceras** eccoptogastri, xylophagorum.
- Pachycerina** seticornis.
- Pachycerus** albarius, atomarius, crucifer, formosus, karelini, menetriesi, planirostris, rugosus, scabrosus, segnis, sparsus, varius.
- Pachychila** acuminata, frioli, germari, hispanica, impressifrons, kunzei, nitens, pedinoides, punctata, punctulata, sabulosa, salzmanni, steveni, subcylindrica, subovata, sulcifrons, tripoliana.
- Pachycnema** alternans, calcarata, flavo-lineata, lineola, maculata, marginella, melano-spila, morbillosa, murina, pulverulenta, rostrata, signatipennis, squamosa, striata, tibialis.
- Pachycnemia** hippocastanaria.
- Pachycoelia** sulcicollis.
- Pachycolus** madagascariensis.
- Pachycoris** angularis, annularis, annulus, apicalis, aquila, arcuatus, atomarius, attenuata, aulicus, bigatus, bipunctatus, bosci, cafer, caudatus, chrysorrhoeus, circumductus, conicus, curculionoides, deplanatus, dichrous, exilis, fabricii, falcatus, fectus, flavescens, flavicinctus, flavolineatus, grammicus, guttatus, guttula, hebraicus, hirtipes, hirtus, illustris, incarnatus, irroratus, klugi, knochi, lanatus, leucopterus, lineatus, lineola, linnaei, lobata, luminosus, maculiventris, mexicanus, nebulosus, nepalensis, nitens, obliquus, obscuratus, ornatus, parvula, pinguis, piperitia, porosus, punila, punctulatus, rubrocinctus, ruilabris, schousboei, stigma, variabilis, variegatus, virgatus, wolffi.
- Pachycormus** acutirostris, curtus, elongatus, esocinus, furcatus, gibbosus, giganteus, gracilis, heterurus, latipennis, latirostris, latus, leptosteus, macropomus, macropterus, macrurus, muensteri, striatissimus.
- Pachycranion** schoenherri.
- Pachyrcrinites** compressus*.
- Pachydactylus** bergi, elegans, formosus, maculatus, mariquensis, mentomarginatus, ocellatus, rugosus.
- Pachydema** nigricans.
- Pachyderes** atropos, ruficollis.
- Pachydissus** sericeus.
- Pachydomus** antiquitatus, carinatus, cuneatus, gigas, globosus, laevis, ovalis, pusillus, sacculus.
- Pachygaster** (Col.) adpersus, aeneopunctatus, aereus, aethiops, alutaceus, arenosus, argus, armadillo, atomaria, auricapillus, bisulcatus, biturigenis, bonariensis, brasiliensis, bructeri, brunnipes, caecus, calcaratus, candidatus, carynthiacus, caudatus, centro-punctatus, chlorophanus, chrysocomus, cinifer, clathratus, colibrinus, conspersus, corruptor, costato-punctatus, costulatus, cribricollis, cribrerosus, crispatus, dalmatinus, dissimilis, duidensis, epidaurensis, fagi, flabellipes, fraxoni, friulicus, gemmatus, giraffa, goerzensis, gracilipes, gracilis, griseo-punctatus, griseus, hirtipes, hispidulus, holosericeus, hottentotta, hungaricus, infernalis, inflatus, irroratus, laevigatus, lavandus, lepidopterus, ligustici, lugens, lusitanicus, mastix, maurus, maxillosus, meridionalis, moerens, monticola, morio, multipunctatus, navaricus, niger, nobilis, orbicularis, ordinatus, ovatus, ovulum, parisiensis, pauper, pedemontanus, pertusus, picipes, pimelioides, pinastri, planatus, plumipes, porcinus, provincialis, pruinosis, pubescens, pulvereus, pulverulentus, punctatissimus, pyrenaicus, ragusensis, raucus, regularis, ruficapillus, rugicollis, rugifrons, septentrionis, setosus, silesiacus, singularis, squamiger, squamosus, squamulatus, subrotundus, sulcatus, sulcicollis, sulphuripes, tasmanica, tauricus, tenebricosus, unicolor, velutinus, ventricosus, villosopunctatus, zebra.
- Pachygaster** (Dipt.) ater, flavipes, leachi, meromelas, pallipennis, ruftarsis, rugosus, tarsalis.
- Pachygaster** (P.) polyspondylus, spinosus.
- Pachygastria** medicaginis, quercus, spartii, trifolii.
- Pachyglossa** melanozantha.
- Pachygnatha** clercki, tristriata, xanthostoma.

- Pachygnathus** degeeri, listeri. *Vide et Pachynathus.*
Pachygrapsus crassipes, parallelus.
Pachygroncha lineola.
Pachygrontha lineata.
Pachygyra deluei, knorri, labyrinthica.
Pachylabris globosa.
Pachylarthrus cleodoxa, elyces, eurybia, flavicornis, herse, insignis, mustela, patellanus, variaster, smaragdinus, sulius, tyrphaeus.
Pachylis biclavata, compressicornis, gigas, grossus, hopei, laticornis, obscura, pharaonis, ruftarsis, tribulus.
Pachylobronchus ameiva, murinus.
Pachylocerus corallinus, pilosus, westermanni.
Pachylomma cremieri.
Pachylophus dispar.
Pachyloscelis audouini, fulvipes, ruftes.
Pachylosticta albiventris, chalybea, tibialis, violacea.
Pachylota audouini.
Pachylotoma viridis.
Pachylus (Ar.) granulatus.
Pachylus (Col.) dispar, marginatus.
Pachymatisma johnstonia.
Pachymeria (Dipt.) aprica, ruralis.
Pachymeria (Hem.) agrestis, annularis, apicalis, armata, brachyptera, chiragra, echii, erratica, lyncea, nubila, pedestris, pini, plebeia, podagrica, quadrata, rolandri, rufticornis, rustica, sanguinea, sylvaticus, thymi, transversa, triangulum, urticae.
Pachymerina femorata, nitida, tumida.
Pachymeris sabuleti.
Pachymerium ferrugineum.
Pachymerus (Col.) bactris, lacertosus, micans, nigro-aeneus, prionoides, staphylinus, torquatus, ullrichi.
Pachymerus (Hem.) abietis, atinis, albifasciatus, albostriatus, annulicornis, anomalus, antennatus, arenarius, bidentulus, brachypterus, brevipennis, brunnipennis, carbonarius, consutus, contractus, decoratus, decurtatus, delineatus, dilatatus, ditomoides, dubius, echii, euervis, erraticus, fenestratus, fracticollis, geniculatus, hemipterus, hirsutulus, hirticornis, holosericus, ibericus, inermis, luniger, luscus, lynceus, marginepunctatus, nabiformis, nebulosus, nitidulus, nubilus, oculatus, pallidipennis, pallidulus, pallipes, parallelus, pedestris, picipes, pictus, pineti, pini, praetextus, pulcher, quadratus, rhombeus, rhombimacula, rolandri, rusticus, sabuleti, sabulosus, silvestris, staphyliniformis, subaeneus, suberythropus, sylvaticus, tibialis, variabilis, varius, vulgaris.
Pachymerus (Hym.) calcitrator, vulnerator.
Pachymesia incisa.
Pachymorpha orientalis, sex-guttata, simplicipes, squalida.
Pachymorphus aereus.
Pachymya aliformis, gigas.
Pachymyia vexans.
Pachynathus triangularis. *Vide et Pachygnathus.*
Pachyneura fasciata.
Pachyneuron albutius, formosum, pruni.
Pachynolophus cesserasicum.
Pachynomus brunneus.
Pachynotelus albiventris.
Pachynotus angustatus, globicollis.
Pachyodon (L.) abductus, agrestis, aldami, amygdala, antiquus, attenuatus, bipennis, blaydsi, concinnus, crassissimus, crassiusculus, cuneatus, dawsoni, dubius, embletoni, exoletus, gerardi, hamatus, heyi, hybridus, imbricatus, lanceolata, lateralis, levedensis, listeri, nanus, nucleus, ovalis, pyramidatus, rhindi, rugosus, similis, smithi, subrotundus, subtriangularis, sulcatus, transversus, turgidus, vetustus.
Pachyodon (M.) mirabilis.

- Pachyonychus** paradoxus.
Pachyonyx affaber.
Pachyotus alopecotis, bilabiatus, iostoma, melanostomus, rhodospira.
Pachypalpus ater, brevicornis, crassicornis, flaviceps, semiflavus.
Pachypeza pennicornis, trivittata.
Pachyphyllum bouchardi.
Pachypoma caelatus, inaequalis.
Pachypterus (Col.) elongatus, mauritanicus.
Pachypterus (P.) atherinoides, luridus, melanurus, punctatus, trifasciatus.
Pachyptila banksi, caerulea, forsteri, fregatta, furcata, marina, vittata.
Pachypus caesus, candidae, cornuta, excavatus, impressus, sculus, truncatifrons.
Pachyra australis.
Pachyramphus (A.) albescens, cuvieri, dimidiatus, minimus.
Pachyramphus (R.) crassirostris.
Pachyrhamphus (A.) atricapillus, minor, nigrescens, validus.
Pachyrhina analis, aurantiaca, cornicina, delegorguei, dentata, elongata, fasciata, ferruginea, histrio, imperialis, maculosa, mexicana, petiolata, pratensis, punctifrons, quadrilineata, sannio, scurra.
Pachyrhinus comari, hydrolapathi, leucogaster, mustella, myriophylli, quadridentatus, quadrinodosus, rufescens.
Pachyrhizodus basalis.
Pachyrhynchus (A.) albifrons, aterrimus, rajanus, chevrolati, cinerascens, cuvieri, leucogaster, marginatus, melanocephalus, niger, pectoralis, rufescens, rubiceps, semifasciatus, spixi, squamatus, swainsoni, variegatus. *Vide et Pachyrhynchus*.
Pachyrhynchus (Br.) roseus.
Pachyrhynchus (Col.) aglaiae, alboguttatus, ardens, biplagiatus, chlorolineatus, cinnus, circuliferus, cumingi, decussatus, elegans, erichsoni, eschscholtzi, fahraei, fimbriatus, gemmans, gemmatus, globulipennis, inornatus, jugifer, latifasciatus, mandarinus, moniliferus, multipunctatus, orbifer, perpulcher, phaleratus, pretiosus, reticulatus, rhodopterus, roseomaculatus, rufo-punctatus, rugicollis, schoenherri, scintillans speciosus, striatus, venustus, waltoni.
Pachyrina crocata.
Pachyrisma grande.
Pachyrhynchus megacephalus. *Vide et Pachyrhynchus* (A.).
Pachys prodromaria.
Pachyscelis ammios, clavaria, crinita, depressa, granulosa, hirtella, karelini, obscura, ordinata, porphyrea, quadricollis, tenebrosa.
Pachyschelus scutellaris.
Pachyseris rugosa.
Pachysoma (Col.) aesculapius, lacordairei, striatum.
Pachysoma (Cr.) affinis.
Pachysoma (M.) brachyotis, brachyotum, brevicaudatum, diardi, duvauceli, ecaudatum, melanocephalum, titthaechelus.
Pachystethus viduus.
Pachystola textor, variegator.
Pachystoma corrugata, crassa, globosa, puncticulata.
Pachystomus (Dipt.) syrphoides, subulatus.
Pachystomus (P.) apiatus, brachiatus, chedra, coesa, margarodes, morar, schagra, tila.
Pachystylum breini.
Pachysylvia decurtata.
Pachyta (Col.) alpina, analis, angusticollis, anthracina, attenuata, bimaculata, brunnipes, cerambyciformis, chalybea, clathrata, collaris, curvilineata, decempunctata, discoidea, dubia, duodecimmaculata, ebenina, erratica, erythrura, flavonotata, hirta, interrogationis, ione, lamed, laportei, liturata, livida, longipes, maculipennis, marginata, marginella, minuta, nigricollis, nupta, octo-maculata, picta, punctata, quadrimaculata, reticulata, rufula, scapularis, septemsignata, serricornis, servillei, sex-maculata, sex-punctata, signata, smaragdula, spadicea, strigilata, sublineata, suturalis, thoracica, tri-fasciata, variabilis, vidua, violacea, virginea.

- Pachyteles** laevis, striola, tuberculatus.
Pachyteria bicolor, fasciata, klugianus.
Pachytes ovalis.
Pachythelia nigricans.
Pachytherium magnum.
Pachytoma (G.) occidentalis, viridis.
Pachytoma (Hem.) minor.
Pachytomus klugianus.
Pachytos hoperi, spinosus, striatus.
Pachytricha castanea.
Pachytrichus ursus.
Pachytus marginatus.
Pachyura etrusca, gracilis, monilis, myosurus.
Pachyurus linearis, squamipennis.
Pactolus bosci.
Pacu argenteus, lineatus, nigricans.
Pacuvia castanea.
Padaerus brasiliensis.
Padia bosci.
Padollus orbigny, rubicundus, scalaris.
Paec→ *Vide et Poec* -.
Paecilaeum limbatum.
Paecilaspis pantherma, sexdecimpustulata.
Paecilia multilineata, olivacea.
Paecilima Ullavum.
Paecilodus cephalaspis, jonesi, transversus.
Paecilomorpha passerinii.
Paecilonata aulica, laticollis, ornaticollis, speculifera, terminalis.
Paecilonitta georgica.
Paecilonota decorata, interrogationis, sanguinosa, scita.
Paecilus baeticus, cupreus*, kingi.
Paectes pygmaea.
Paederus aequinoctialis, aestuans, angolensis, angustatus, australis, badius, bicolor, biguttatus, binotatus, brevicornis, brevipennis, caffer, caligatus, capensis, castaneus, cephalotes, chalybeus, cinctus, coarctatus, coerulescens, collaris, columbinus, confinis, conspicuus, corticinus, crassus, cruenticollis, cyanipennis, cyanocephalus, discopunctatus, erythroderus, exiguus, eximius, extensus, extraneus, fastuosus, ferrugineus, ferus, filiformis, filum, fragilis, fulvicornis, fulvipes, fuscipes, fuscus, interruptus, javanus, laetus, laevigatus, lapidarius, latipes, limbatus, limnophilus, littoralis, littorarius, longicornis, longipennis, longiusculus, lusitanicus, madagascariensis, mandibularis, megacephalus, melampus, melanocephalus, melanurus, memnonius, mexicanus, minutus, morio, ochraceus, pallipes, peregrinus, proboscideus, procerus, pusillus, quadratus, quadricollis, riparius, rubicollis, rutilicornis, sabaeus, sanguinicollis, scabriculus, semicyaneus, senegalensis, tamulus, tempestivus, thoracicus, vestitus.
Paedisca achatana, albunea, alfredana*, amplana, bimaculana, brunniclariana, cervana, cinicicolana, corticana, couleruana, crenana, delitana, demarniana, dissimulana, dumerihana, externa, fervidana, foeneana, fultana, fuscilana, grandaevana, graphana, griseolana, hepaticana, hueberiana, immundana, mediana, melaleucana, modicana, mollitana, monachana, nubilana, ophthalmicana, oppressana, parmatana, porphyra, profundana, ravulana, rie-eana, schreberiana, scraeberiana, scululana, semimaculana, similana, tenerana, turbidana, wellensiana, zelleriana.
Paelobius hermanni, tardus.
Paetrobius maritimus.
Pagellus acarne, bogaraveo, breviceps, calamus, canariensis, centrodontus, curtus, erythrinus, goreensis, leptosteus, lithognathus, microdon, mormyrus, penna, pernambucensis, rostratus.
Pagodella major, tectum-persicum.
Pagodus verus.

Pagophila eburnea.

Pagophilus groenlandicus.

Pagrus acarne, argenteus, argyrops, auriga, bertheloti, bogaraveo, bugaravella, caissoti, calamus, ehrenbergi, elegans, erythrinus, filamentosus, guttulatus, hirta, lanarius, latus, lineatus, lithognathus, longipilis, mediterraneus, micropterus, mormyrus, orphus, pagel, pagrus, penna, proteus, quadrituberculatus, spinifer, versicolor.

Paguma grayi, laniger, larvata, leucomystax, trivirgata.

Pagurus aculeatus, affinis, albo-punctatus, anachoretus, angulatus, annulicornis, annulipes, arenarius, arrosor, asper, aspersus, bimaculatus, brevicornis, brevipes, calidus, canaliculatus, carinatus, cavipes, chiereghini, chinensis, chlanarius, comptus, conformis, corallinus, crassimanus, cristatus, cristimanus, cruentatus, euanensis, cultratus, decorus, deformis, dubius, edwardsi, elegans, elongatus, erythropus, excavata, faujasi, forbesi, forceps, frontalis, gainardi, gamianus, gaudichaudi, gayi, gemmatus, gonagrus, granulatus, guttulus, hirsutus, hirtimanus, horridus, hyndmani, imbricatus, impressus, inaequalis, incisus, isochirus, labillardieri, laevimanus, laevis, lanuginosus, latens, laticaudus, lineatus, lividus, longicarpus, longitarsis, maculatus, megistos, mertensi, miculosus, miliarius, misanthropus, mysticus, nigratarsis, ocellatus, ornatus, pedunculatus, perlatus, pictus, pilosimanus, pilosiusculus, pilosus, platychelos, pollicaris, prideauxi, pubescens, pugilator, punctulatus, pustulatus, rubrovittatus, sanguinolentus, scolopetarius, sculptimanus, scutellatus, setifer, setosus, solitarius, spillophialmus, spinifrons, spinimanus, spiriger, splendescens, streblonyx, stria, striatus, strigatus, strigimanus, sulcatus, symmetricus, taeniatum, thompsoni, tibicen, timidus, tomentosus, tricolor, truncatulus, tuberculosus, tympanistus, ulidia, ulidianus, unicolor, ursus, varians, venosus, vigil, villosus, virescens, vittatus, vulgaris, weddelli.

Paidia citrosa, munda, murina, senex, sulphurea, transpecta.

Paidium aeneum, candidum, cucullatum, fasciola, flaveolum, flavipes, nitens.

Paipalesomus pistriarius.

Pais decora.

Palacotherium ichingi. *Vide et Palaeotherium.*

Palaeastacus dixonii, macrodactylus.

Palaechinus ellipticus, gigas, konigi, multipora, sphaericus. *Vide et Palechinus.*

Palaeon acanthurus, aciculatus, adriaticus, adspersus, affinis, anopthalmus, armiger, australis, beaupresi, bidens, biunguiculatus, brachydactylus, brasiliensis, brevirostris, caementarius, canaliculatus, carinatus, colombicus, creusa, custos, cydippe, dentatus, diversimanus, electra, elegans, fabricii, flavescens, glauca, heterochirus, hirtimanus, hispidus, hypsa, jamaicensis, lancifer, latreillei, leachi, longicornis, longimanus, longipes, marmoratus, nicippe, niloticus, nitescens, noctilucus, olfersi, ornatus, parvus, pelagicus, petithouarsi, pinnophylax, procles, recticornis, serratus, setiferus, spinipes, spinosus, splendens, sulcatus, tarentinum, tenuicornis, trillianus, varians, villosus, vulgaris, walchi. *Vide et Palaeon.*

Palaeo roemeri.

Palaeobalistum orbiculatum.

Palaeobassaris steinheimensis.

Palaeobates angustissimus.

Palaeobatrachus diluviana, goldfussi.

Palaeobdella nilotica.

Palaeoceros granulatus.

Palaeochaeres major, typus.

Palaeochelys bussonensis.

Palaeocherus major, typus.

Palaeocidaritis nereis, prisca, protei, rossica.

Palaeocoma cunliffei, fuerstenbergi, milleri.

Palaeocyclus porpita.

Palaeocyon primaevus, troglodytes, validus.

Palaeogale fecunda, pulchella.

Palaeomephitis steinheimensis.

Palaeomeryx bojani, eminens, kaupi, medius, minimus, minor, nicoleti, pygmaeus, scheuchzeri.

- Palaeomys** arvernensis*, castoroides.
- Palaeoniscum** arenaceum, dorsale, eupterygium, laterale, latum.
- Palaeoniscus** agassizi, alberti, angustus, arcuatus, beaumonti, blainvillei, brongniarti, carinatus, catopterus, comptus, comtus, decorus, dunkeri, duvernoy, egertoni, elegans, exsculptus, freieslebenensis, freieslebeni, fultus, gelberti, glaphyrus, latus, lepidurus, longissimus, macrophthalmus, macropomus, macropterus, magnus, megacephalus, minutus, monensis, ornatissimus, ornatus, ovatus, pygmaeus, robinsoni, robisoni, speciosus, striolatus, tschevkini, voltzi, vratislaviensis.
- Palaeophis** longus, porcatus, toliapicus, typhaeus.
- Palaeophrynos** dissimilis, gessneri, grandipes.
- Palaeopora** favosa, subtilis.
- Palaeorhynchum** colei, egertoni, glarisianum, latum, longirostris, medium, micro-spondylum.
- Palaeornis (A.)** alexandri, anthopeplus, barbatus, barrabandi, bengalensis, bitorquatus, borneus, caniceps, columboides, cubicularis, cucullatus, cyanocephalus, erythrocephalus, erythrogenys, flavicollaris, flavitorques, incarnatus, inornatus, longicauda, lucianae, malaccensis, melanorhynchus, melanura, modestus, mystaceus, nigrirostris, nipalensis, novae-hollandiae, papuensis, pondicerianus, rhodocephalus, rosaceus, schisticeps, torquatus, xanthosomus.
- Palaeornis (R.)** clifti.
- Palaeosaurus** cylindricum, cylindrodon, platyodon, sternbergi.
- Palaeosmilium** munchisoni.
- Palaeospalax** magnus.
- Palaeospongia** cyathiformis.
- Palaeoteuthis** honoratianus.
- Palaeotherium** aurelianense, bairdi, brivatensis, buxovillanum, commune, crassum, curtum, equinum, giganteum, girondicum, indeterminatum, issélanum, latum, magnum, majus, medium, minus, occitanicum, ovinum, parvulum, privatense, prouti, schinzi, tapiroides. *Vide et Palacotherium.*
- Palaeothrissum** blennioides, elegans, inaequilobum, macrocephalum, magnum, parvum, phractonotum.
- Palaeotriton** scheuchzeri.
- Palastes** bicolor.
- Palaestra** rubripennis.
- Palaestrinus** aureus, mutillarius, sykesi.
- Palaiotrogos** steinheimensis.
- Palaminus** brevicollis, ferrugineus, pallidus, piceus, pilosus, testaceus, variabilis.
- Palamopus** dananus.
- Palapteryx** dromioides, geranoides, ingens, struthoides.
- Palarus** ambustus, dongalensis, flavipes, fulviventris, histrio, laetus, lepidus, maculatus, ruipes.
- Palechinus** dispar, elegans, phillipsiae. *Vide et Palaechinus.*
- Palemon** antennarius, brevicarpus, cogneti, crenulatus, ensiferus, forceps, gaudichaudi, gracilimanus, grandimanus, inermis, japonicus, laevirhincus, lamarrei, latirostris, longipes, longirostris, malcolmsoni, margaritaceus, marginatus, microramphos, natator, nipponensis, olivieri, parvulus, paucidens, pristis, punctatus, pusillum, quoyanus, spinimanus, trisetaceus, xiphias. *Vide et Palaemon.*
- Paleryx** depressus, rhombifer.
- Pales (Ar.)** crucigera.
- Pales (Col.)** ulema.
- Pales (Dipt.)** blondeli, brunicans, florea, laevigata, libatrix, myoidea, petrosa, pumicata, setipennis, strenua, tessellata, vernalis, viridescens.
- Palestrida** bicolor.
- Palethrocoris** disciger, scapha.
- Palicus** granulatus.
- Palidostoma** osseus.
- Palimphyes** brevis, crassus, gracilis, latus, longus.
- Palimpsestis** flavicornis, octogesima, or.

Palingenestes kosmokratis.

Palingenia dorsalis, horaria, indica, longicauda, puella.

Palinurina intermedia, longipes, pygmaea.

Palinurus americanus, argus, buergeri, compressus, dasyopus, frontalis, gigas, guttatus, interruptus, japonicus, laevicauda, lalandei, langusta, locusta, longibrachiatus, longimanus, marginatus, muensteri, penicillatus, perciformis, polyphagus, regleyanus, ricordi, rissoni, spinosus, squamifer, sueri, sulcatus, taeniatus, trigonus, versicolor, vulgaris.

Palla decia.

Pallasia (Dipt.) globosa, ovata.

Pallasia (Verm.) chrysocephala, gaimardi, negata.

Pallene (Cr.) breverostriis, chiragrus, circularis, discoidea, intermedia, sericea, spinipes.

Pallenis tricolor.

Pallenura javensis, sulphurea.

Pallium striatum.

Pallodes annulifer, atramentarius, fervidus, obsoletus, silaceus.

Palloptera ambusta, arcuata, gangraenosa, inusta, marginella, trimacula, trimaculata, umbellatarum, unicolor, usta, ustulata.

Pallosoma barbara, caeruleans, carinata, cyanea, nigrita, obscura.

Palmipes membranaceus, stokesi.

Palmipora albicornis, complanata, dilatata, fasciculata, parasitica, solanderi, squarrosa, tuberculata.

Palmon bellator, capitellatus, clavellatus, fraternus, idomene, insularis, melleus, obscurus, olenus, pachymerus, religiosus.

Palmula sagittaria.

Palmularia soldanii.

Palmyra aurifera, ocellata.

Palola viridis.

Paloplotherium annectens.

Palopoda tersa.

Palpada scutellata.

Palpares cognatus, furfuraceus, latipennis, libelluloides, manicatus, pardus, radiatus, spectrum, tessellatus, zebatus.

Palparia acinacidea, arbustea, argentea, argyrea, aurifera, baccaestria, barba, campea, cardui, carnea, caudea, cespitica, consorta, culmea, cultrea, falsa, fumea, geniculea, gigantea, hirta, hortuea, lambertella, latistria, ocella, palea, pascuea, petriŕicea, pineti, pratea, rhombea, rorea, sanguinea, striga, tentaculea, tetrix, tristis.

Palpibraca haemorrhoea.

Palpimanus gibullus, haematinus.

Palpita perspicilis, unionalis, urticae.

Palpomya lalandei.

Palpomya basalis, ortulana, rufipes, scutellata, serripes, spinipes, succincta.

Palpoplevra confusa, dimidiata, jucunda, lucia, marginata, portia, vestita.

Palpostoma testacea.

Palpula bicostella, binotella, bitrabicella, clarella, criella, daphniella, ericella, labiosella, punctella, pyropella, rostellula, semicostella.

Palthis angulatus.

Paludestrina affinis, andecola, atomus, auberiana, australis, candiana, charruana, conica, conulus, culminea, cumingi, deshayesi, desmaresti, elongata, fusca, globulus, intermedia, isabelleana, laevigata, lapidum, macrostoma, miliola, nana, nigra, paludinaeformis, parchappii, pendula, peristomata, petitiana, piscium, pusilla, pyramidalis, semistriata, sextonus, striata, striatula, subulata, subumbilicata, terebellata, ulvae, varicosa.

Paludicella articulata, ehrenbergi, procumbens.

Paludicola (A.) albifrons, nipalensis.

Paludina abbreviata, achatina, achatinoides, acicula, acuminata, acuta, adjaciensis, affinis, alleghanensis, amethystea, ampullacea, anatina, anatinum, andicola, angularis, angulata, angulifera, angulosa, anthracina, arvernensis, aspersa, atomaria, atomus,

atra, atrata, australis, avia, balthica, beaumontiana, bengalensis, benzi, bermondiana, bicarinata, bicolor, bismoniifera, bosquiana, breugheli, brevis, brunnea, buccinoides, bulimoides, burroughiana, canaliculites, carbonaria, carinata, carinifera, casaretto, castanea, chinensis, cibratica, cincinnatiensis, cingulata, circinata, clathrata*, coarctata, coerulescens, concinna, concolor, conica, conoidea, conulus, coosaensis, cornea, coronata, costata, crassa, crystallina, cucullata, cumingi, cuspidata, cyclostoma, cyclostomaformis, cyclostomatiformis, deccanensis, decipiens, decisa, decollata, denticulata, deshayana, desmaresti, desnoyersi, diaphana, dilatata, disiuncta, dissicis, dissimilis, doliaris, draparnaldi, dubuissoni, duchasteli, dupotetiana, efasciata, elongata, exigua, exilis, expansilabris, extensa, fasciata, ferruginea, ferussina, flammea, flammulata, fluminensis, fluviorum, fontinalis, fragilis, francesi, francisci, fusca, fuscus, genicula, georgiana, gibba, gigas, glabrata, globulus, grana, granulum, granum, grayana, hagenowi, haleiana, hamneri, helvetica, heterostropha, hyalina, impura, impurata, incerta, incrassata, inflata, integra, intermedia, intertexta, jamaicensis, javanica, kickxi, knysnaensis, kraussiana, lapidum, lecythis, lecythoides, lenta, limosa, lineata, listeri, longicornis, lustrica, lutosa, macrostoma, magnifica, marginata, media, melanoides, michabellesi, michaudi, microstoma, miliola, minuta, minutissima, moquiniana, morissoni, multiformis, mumia, muriatica, muricata, mussoni, nana, naticoides, nickliniana, nigra, nitida, nobilis, nuclea, nuttalliana, nympha, nysti, obsoleta, obtusa, octona, olivacea, orbicularis, ovata, oxythopis, pallida, paludinaeformis, paludinaria, parhappii, parreyssi, parva, parvula, patula, peristomata, petrosa, picta, piscium, planata, ponderosa, porata, porrecta, porrii, preissi, protracta, pulchella, pulchra, punctum, pupa, pusilla, pygmaea, pyramidalis, pyramidata, quadrata, regularis, remossii, rimata, rivularis, roemeri, rotundata, rubens, rubiginosa, rufa, salentina, salinasii, salinesii, savignyi, saxatilis, scalariformis, scalaris, schusteri, seminalis, sepulchralis, sicula, similis, sinensis, sinistrosa, solida, solidula, spinosa, spirata, stagnalis, stagnorum, striata, striatella, striatula, stricklandiana, subangulata, subcarinata, subcarinata, subcostatus, subfusca, subglobosa, sublenta, sublineata, suboperta, subpurpurea, subulata, succinea, succineata, sulculosa, sussexiensis, tentaculata, terebra, thermalis, transversa, tricarinata, tricotata, trigonostoma, triton, troostiana, troscheli, truncata, truncatuloides, turrata, ulvae, unicarinata, unicolor, variabilis, varicosa, ventricosa, virens, virginica, viridis, vitrea, vitula, vivipara, viviparoides, vulgaris, yatesi, zonata.

Paludinella balthica, cingulata, fontinalis, littorina, minutissima, prasina, psittacina, viridula, vulgaris.

Paludinicola vermicularis.

Paludomus chilinoides, conica, funiculatus, gardneri, globulosa, loricatus, neritoides, nigricans, olivaceus, pictus, retusa, spiralis, stephanus, sulcatus, tennanti, undatus.

Palumbis torquata.

Palusia brunicornis, femoralis, flavescens, flavicornis, menyanthidis, pallidicornis, punctata, sagittariae, testacea.

Palythoa argus, auricula, bertholleti, caesia, denudata, flavoviridis, fuliginosa, glareola, gostyencii, lesueuri, mamillosa, nymphaea, ocellata, perii, savignyi. *Vide et Polythoa?*

Palythoe antipathes, muricata, papillosa.

Pamatorhynchus erythropterus, senegalus. *Vide et Pom-.*

Pamborus alternans, cunninghami, elongatus, guerini, morbillosus, viridis.

Pamera bilobata, constricta, contracta, dorsalis, fallax, fera, una, vincta.

Pamina trilineata.

Pammene mediana, trauniana.

Pamphagus canescens, carinatus, cristatus, cucullatus, cymbiformis, discoideus, elephas, emarginatus, fuscus, gallinaeus, griseus, hespericus, horridus, lateralis, marmoratus, nigropunctatus, numidicus, reticulatus, serratus, serripes, turcicus, virens.

Pamphila actaeon, bucephalus, comma, fritillum, lavaterae, linea, malvae, marrubii, metis, paniscus, phylacus, sylvanus, sylvius, vitellius.

Pamphilius alpinus, amplexus, arbustorum, arvensis, auritus, betulae, campestris, cingulatus, circumcincta, cyaneus, cynosbati, depressus, dimidiatus, erythrocephalus, faustus, flavus, haemorrhoidalis, histrio, longicornis, lutescens, plagiatus, populi, pratensis, punctatus, reticulatus, saltuum, signatus, silvaticus, sylvatica, tessellatus.

- Pamphractus** andersoni, hydrophilus, squamatus.
- Pamplusia** monticolana.
- Pamponerus** germanicus.
- Pan** africanus.
- Panaeola** pulchella.
- Panagaeus** amabilis, angulatus, armatus, australis, bifasciatus, bipustulatus, brevicollis, cereus, chalocephalus, chlorocephalus, cruciatus, crucigerus, crux major, denticollis, elegans, elongatus, erichsoni, eximius, fasciatus, festivus, geniculatus, grandis, grossus, impictus, klugi, laetus, lepieuri, mexicanus, microcephalus, myops, nobilis, notulatus, obscuricornis, ornatus, parvicollis, pretiosus, quadridentatus, quadriguttatus, quadrimaculatus, quadripustulatus, quadrisignatus, raddoni, reflexus, regalis, savagei, sayersi, scabricollis, selenoderus, sinuaticollis, stenocephalus, strachani, tomentosus, transversalis, trimaculatus, tropicus, versutus, vicinus, westermanni.
- Panaphilis** perdix.
- Panara** iarbas, satnius.
- Pancalia** fusco-aenea, fusco-cuprea, latreillella, leuwenhockella, merionella, woodiella.
- Panchax** buehneri, kuhli, lineatus, melanopterus, panchax, pictum.
- Panchlora** exoleta, indica, maderae, prasina, pulchella, surinamensis, viridis.
- Panchrysia** aurea.
- Panda** pinguis.
- Pandalus** annulicornis, borealis, brevirostris, narwal, pelagicus, punctulatus.
- Pandarus** (Col.) brunneus, dardanus, extensus, femoralis, gibbulus, marginata, sinuatus, subcylindricus.
- Pandarus** (Cr.) alatus, australis, bicolor, bosci, carchariae, cranchi, dentatus, fissifrons, lamnae, lividus, pallidus, strigosus, vulgaris.
- Pandea** conica, rotunda, saltatoria.
- Pandeleius** nubilosus, pauperculus, tibialis.
- Pandemis** cerasana, croceana, oporana, pasquayana, pronubana, reticulana, ribeana, sorbiana, textana.
- Pandemos** arcassa, lagis, liberia, placidia.
- Pandicilla** cianecula, suecica.
- Pandion** albigularis, alticeps, americanus, blagrus, carolinensis, fasciatum, fluvialis, fulvus, gouldi, haliaetos, haliaetus, humilis, ichthyaetos, indicus, leucocephalus, medium, orientalis, planiceps.
- Pandocia** conchilega.
- Pandora** (Ar.) striata.
- Pandora** (Coel.) flemmingi, striata.
- Pandora** (Dipt.) basalis, scutellaris.
- Pandora** (L.) aequivalvis, arcuata*, arenosa, brevifrons*, brevis, ceylonica*, cistula, clavata, crassidens, defrancei, depressa, discors*, elongata, flexuosa, glacialis, margaritacea, maxima, nasuta, oblonga, obovata, obtusa, punctata, radiata*, rostrata, trilineata, unguiculus.
- Pandora** (Lep.) prola.
- Pandorina** (Inf.) elegans, hyalina, leuwenhoecki, mora, sphaerula.
- Pandorina** (L.) arenosa.
- Panemeria** arbuti, heliaca.
- Panesthia** affinis, angustipennis, javanica, morio, transversa.
- Pangasius** buehneri, djambal, macronema, micronemus.
- Pangolinus** brachyurus, javanicus, typus.
- Pangonia** adjuncta, albicostata, albifasciata, albifrons, albithorax, alboatra, allemanica, amboinensis, analis, angulata, angusta, anthracina, appendiculata, ardens, atricornis, aurata, aurimaculata, aurlans, badia, barbata, basalis, basilaris, bescki, bicolor, bifasciata, binotata, brevipalpis, brevirostris, caifra, castanea, cellulata, cervus, chrysopila, chrysostigma, cingulata, clavata, comprehensa, concolor, conjugens, conjuncta, constans, contigua, cornuta, crassa, crassipalpis, depressa, directa, dives, divisa, dorsalis, dorsoguttata, dorsomaculata, eriomera, exeuns, fasciata, fascipennis, fenestrata, ferruginea, flavipes, fulva, fulvifascia, fulvithorax, fulviventris, funebris, furcata, fuscipennis, fusiformis, gemella, gemina, gibbula, gulosa, guttata, hebes,

incisa, incisuralis, incompleta, inconspicua, jacksoni, jaksoniensis, lasiophthalma, lateralis, laterina, latipalpis, leucomelas, leucopogon, lingens, longipalpis, longirostris, lugubris, lurida, macquarti, macroporum, maculata, maculipennis, maculiventris, margaritifera, marginalis, marginata, mauritanica, media, melanopyga, micaus, minor, molesta, multifaria, nana, nigripennis, nigrivittata, nigrohirta, nigro-notata, nobilis, notabilis, obesa, ocellus, ornata, parva, patula, piceohirta, picta, plana, planiventris, prasiniventris, proboscideus, quadrimacula, roei, rostrata, rufa, ruficornis, rufohirta, rufo vittata, semiflava, senegalensis, sexfasciata, singularis, solida, sorbens, spiloptera, subappendiculata, submacula, suturalis, tabaniformis, tabanipennis, tenuistria, testacea, testaceiventris, testaceomaculata, thoracica, translucens, tricolor, umbra, unicolor, varicolor, variegata, varipennis, venosa, violacea, viridiventris, vulpes, winthemi, xanthopogon.

Pangonius mauritanicus, rostratus.

Pangrapta decoralis, loricis, repugnalis, resistralis.

Pangus pennsylvanicus, scaritides.

Paniculina secunda.

Paniscus areolatus, fuscipennis, glaucopterus, inquinatus, lineatus, luteus, melanopus, nigriventris, productus, rufus, testaceus, virgatus.

Pannychistes rufipes.

Panolis acuticornis, eedi, platyceros.

Panolis beltis, flammea, piniperda.

Panopaea abbreviata, abducta, abrupta, acuta, acutisulcata, aequata, agassizi, albertina, aldouini, aleriae, americana, angusta, antarctica, antiqua, arago, arctica, arcuata, arduennensis, arenacea, asteriana, basteroti, baumonti, bivoniae, brongiartina, buvigneri, calceiformis, carteroni, castellanensis, constanti, coquimbensis, cornelia, corrugata, cottaldina, crassa, cretacea, crithea, danae, decurtata, dejanira, delia, delicatissima, depressa, deshaysi, dilatata, dubia, dunkeri, dupiniana, elatior, elea, elegans, elongata, elongatissima, ensis, erina, ewaldi, galatea, galdrina, generosa, gentilis, gibbosa, glabra, glycimeris, goldfussi, gracilis, grandis, gregaria, gurgites, hallie, hellica, hersilia, hesione, hians, hiantula, hippia, hylax, hylla, idalia, inaequivalvis, inflata, intermedia, ipswisensis, irregularis, japonica, jugleri, jurassi, keyserlingi, laevigata, laeviuscula, lata, lateralis, latissima, lepechiniana, liasina, lunulata, macrotrides, mandibula, margaritacea, marginata, massiliensis, menardi, musculoides, navis, neoconiensis, normaniana, norvegica, oblata, obliqua, oblonga, oblongata, obtusa, orbigniana, orientalis, ovalina, ovalis, paramecioides, parvula, pelea, peregrina, pherusa, phileta, pholadina, plicata, porrecta, prevosti, puella, pyrenaica, pyrha, quadrata, qualeniana, recta, reflexa, regularis, remensis, ringmeriensis, robinaldina, robusta, roemerii, rostrata, rotundata, rudolphii, rugosa, scaphoides, securiformis, sinistra, sinuata, sinuosa, solandri, solenoides, sowerbyi, spengleri, striata, striatula, subaequivalvis, subelongata, subintermedia, subovalis, subrecurva, subrostrata, subsinuosa, substriata, tellina, tenuistria, tenuisulcata, toarcensis, urgonensis, ventricosa, vetusta, voltzi, zelandica, zieten. *Vide et Panopea, Panopeus.*

Panopaeus chilensis, crenatus.

Panope ceti, faujas.

Panopea (L.) aldrovandi, cretosa, faujas, goldfussi, semire, tisiophone. *Vide et Panopaea.*

Panopea (Lep.) lucretia.

Panopeus castrus, dentatus, formio, herbsti, limosus, wurdemanni. *Vide et Panopaea, etc.*

Panophrys chrysalis, farcta, flava, leucas, rubra, vernalis.

Panoplia (Ar.) denticulatus.

Panoplia (Lep.) augustana, lecheana.

Panops baudini, flavipes, flavitarsis, meridionalis, ocelliger.

Panormella losfasi.

Panorpa affinis, alpina, angustipennis, apicalis, appendiculata, bipennis, borealis, charpentieri, cognata, communis, confusa, debilis, furcata, javanica, nebulosa, punctata, rufa, rufescens, ruficeps, rufo-stigma, subfurcata, terminata, venosa.

Panscopus erinaceus, rufinasus.

Pansmicrus fasciatus, rufus.

Panstegia aerealis, opacalis.

- Panstenon** oxylus, pidius.
Panthalops hodgsoni.
Panthea coenobita.
Panthera pardalata.
Pantherophis guttatus.
Panthiades pelion, thallus.
Pantholops hodgsoni.
Panthus crassicornis, flavovarius.
Pantilius tunicatus.
Pantocometis hirsuta.
Pantodactylus concolor, orbignyi.
Pantodinus klugi.
Pantolia ebenina, flavo-marginata, iris, rubrofasciata, scapha, striata.
Pantomelas ephippium.
Pantomorus albosignatus, cervinus.
Pantophthalmus tabaninus.
Pantoplanes anthribiformis.
Pantoporia frobenia, hordonia, mardania, nefte, phaerusa.
Pantoteles erythrorhynchus, tenuirostris.
Pantotrichium armatum, asperum, enchelys, lagenula, volvox.
Panulirus argus, guttatus, japonicus, occidentalis, ornatus, penicillatus, sulcatus, taeniatus.
Panurginus niger.
Panurgus arctos, ater, calcaratus, canescens, cephalotes, dentipes, lobatus, nasutus, octomaculatus, unicolor, ursinus, venustus.
Panurus biarmicus.
Panus barbicornis, rhina.
Panyptila cayennensis.
Panzeria lateralis, minor, sanguinea, tricineta.
Paonias excaecatus, myops, pavonina, salicis.
Papa (=Pupa) cocchi.
Paphagus sidero.
Paphia (L.) roissyana, undulata.
Paphia (Lep.) actorion, aidea, appias, arginussa, basilia, boebera, electra, eribotes, glabrata, glycerium, halice, helie, horsfieldi, huegeli, inachus, itys, jasius, laertes, medon, morvus, nessus, octavius, orion, otrere, paralekta, pasibula, phidile, philumena, pleione, pollux, polycarnes, portia, ryphea, troglodyta, ursula, varanes, verticordia, xenocrates.
Papilio abeona, acaciae, acantha, achaeus, achanta, acidalia, acidulia, acis, actaea, actaeon, adamas, adamastor, adippine, adipoides, admetus, adrasta*, adyte, aecius, aecclus, aegeria, aegaeus, aegistus, aegon, aelia*, aelianus, aello, aemulius, aenippe*, aeolus, aesculapius, aetherie, aetherius, aethiopellus, aethiops, agacles, agamedes, aganippe, agathokles, agathon, agave, agestis, agestor, agetes, aglaja, agricola, agrippa, agrius, aidoneus, alactas*, albunea, alcimedon, alcinous, alcon, alcyone, alecto, alexanor, alexis, allica*, allionii, alloüs, alphonsus, alsarius, alsus, altheae, alticus*, alveolus, alveus, amandus, amanga, amantus, amathusia, ambrax, americanus, amiatus, amphitrite, amynthus, anacreon, anaetus, andraemon, androcles, angusta, antharis, anthe, anthelea, anticrates, antinous, antiochus, antiopa, apastris, apelles, apbaea, apbiraep, apisaon, apollo, apollo delius, aracinthus, aracynthia, arbates, arcadius, arcanus, arcas*, archelaus, archidamas, archimedes, arcturus, arete, arethusia, arge, argiades*, argiolus, argus, argus argiades, arinus, arion, arisbas, aristaea*, aristaeus, aristodemus*, aristolochiae*, aristor, arria, arrippus, arsilache*, artaxerxes, artemis, arthemis*, arycles, ascalaphus, ascalus, asclepiades, astasia, asteria, astina, astorion, astyanax*, astylus, astynome, atalanta, athalia, athene*, atratus, atropos, atticus, atys, augias, augustus, aurora, ausonia, autonoe, axion, baeticus, baeton, ballus, basaltides, bathycles, battus, belemia, belemida, belia, bellargus, belledice, bellerophon, berecynthus, bertolis, betulae, biblis*, hibulus, birchi, bitias, blumei, boisduvali, boisduvallianus, bolina, bolivar, bonelli, bootes, bore,

Papillon bias.

Papio babuin, barbella, cinerea, cynocephalus, gelada, hamadryas, leucophaeus, maimon, melanotus, ochreateus, porcaria, silenus, silvestris, sphinx, wurmbi.

Papyridea apertum, ringens, soleniforme, transversum.

Para jacana.

Parablops pauper.

Parabolina spinulosa.

Paracairius costatus, verrucatus.

Parachilia bufo, melanocala.

Paracletus cimiciformis.

Paracolax barbali, derivalis, grisealis, nemoralis, tarsicrinalis, tarsiplumalis, uncinalis.

Paracoris paradoxus, unicolor.

Paracrucis cyanipes.

Paracyathus aequilamellosus, brevis, caryophyllus, crassus, desnoyersi, pedemontanus, procumbens, stokesi, turonensis.

Paracyclas elliptica.

Paracyon cynocephalus.

Paradigalla carunculata.

Paradisaea sexfilis.

Paradisea alba, aurantia, aureus, candida, chalybea, domicellarum, fulva, ignota, major, minor, nigricans, oriolus, papuana, parkinsoniana, pica, rubra, sefilata, tibicen, vaillanti, violacea, wilsoni.

Paradisoa sanguinea.

Paradoxides acuminatus, arcuatus, becki, bimucronatus, bohemicus, boltoni, brevimucronatus, bucephali, dormitzi, eatoni, forcipata, forcicula, gibbosus, gracilis, grotei, harlani, inflatus, laciniatus, latus, linnaei, longicaudatus, macrocephalus, pusillus, quadrimucronatus, rotundatus, rugulosus, scarabaeoides, scaraboides, spinosus, spinulosus, tessini, tetragonocephalus, triarthrus, trivirgatus.

Paradoxites actinurus, latus, longicaudatus, pyramidalis.

Paradoxornis flavirostris, gularis, rufoceph.

Paradoxurus albifrons, annulatus, ater, aureus, binotata, bondar, crossi, derbyanus, derghanus, dubius, felinus, fulaysoni, grayi, hamiltoni, hermaphroditus, hirsutus, jourdani, lanigera, larvatus, leucogena, leucomystax, leucopus, linsang, musanga, musangoides, nigrifrons, nipalensis, nubiae, ogilbyi, pallasi, pennanti, philippensis, philippinensis, prehensilis, quadriscryptus, quinquelineatus, typus, zebra, zeylanicus.

Paradoxus boltoni.

Paragia decipiens, odyneroideus, tricolor.

Paragonia tasimaria.

Paragryllus martini.

Paragus aegyptius, aeneus, albifrons, albipes, algius, annulipes, antimenes, arcuatus, ater, bicolor, bifasciatus, bimaculatus, borbonicus, coadunatus, compeditus, dispar, femoratus, fuscipennis, geniculatus, haemorrhous, lacerus, latus, nigrites, numida, obscurus, politus, punctulatus, quadrifasciatus, ruficauda, scutellaris, serratus, sigillatus, strigatus, taeniatus, testaceus, tibialis, transatlanticus, triangularis, trianguliferus, zonatus.

Paralcyon dea.

Paralcyonium elegans.

Paralepis borealis, choregonoides, coregonoides, hyalinus, sphyrenoides.

Parallelia ammonia, bistriaris, parallelaris.

Parallelomorphus aetion, arenarius, caspius, crenulatus, cylindronotus, eurytus, fischeri, hispanus, impressicollis, inderiensis, laetus, laevigatus, laticollis, macrocephalus, mandibularis, marginatus, persicus, rivularis, sabuleti, salinus, strigifrons, volgensis, volhynensis.

Parallelosomus planicollis.

Paralystra emma.

Paramaecium acuminatum, ambiguum, bifrons, bullatum, capitatum, compressum, contortum, corniculatum, cuspidatum, gibbosum, kolpoda, lobulosum, lugens, mutilum, ovatum, perforatum, pinnatum, sinaiticum, splendens, sulcatum, trifoliatum, truncatum, tuberosum, umbratum, uncinatum, variegatus, vespertilio, viridescens. *Uide et* **Paramecium**, **Paramoecium**.

Paramaya dehaani.

Paramecium dioxinum, fusus, incubus, lamella, milium, nucleus, oceanicum, pigrum, pisciforme, terebra, viride. *Uide et* **Paramaecium**.

Paramecops farinosus, pacca.

Paramecosoma abietis, bicolor, caucasica, denticulatum, elongata, inconspicuum, melanocephala, minuta, pilosula, serrata, unicolor.

Paramecus cordiger, cylindricus, laevigatus, niger, parallelus.

Parameria femorata, graeca.

Paramesia (Dipt.) riparia, roberti, wesmaeli.

Paramesia (Lep.) bifidana, cerusana, gnomana, subtripunctulana, tenella, tripunctulana.

Paramesius rufipes.

Paramicippa platipes, sex-spinigera, subclivosa, tuberculosa.

Paraminus eumelus, scurra, talaus.

Paramithrax barbicornis, edwardsi, gaimardi, peroni, rotundatus.

Paramoecium colymbus, dubium, kolpodinum, lamellinum, oryziformis, paradoxum, solea. *Uide et* **Paramaecium**, **Paramoecium**.

Parandra brunnea, caspia, fasciata, ferruginea, glaber, glabrata, laevis, lineolata, mandibularis, maxillosa, mordax, polita, purpurascens, purpurea.

Paranema globifer.

Paranephrops planifrons.

Paranomus fischeri, l'herminieri.

Paranonea prasina.

Paranthrene pepsidiformis.

Paranthrene asiliformis, brosiiformis, myrmosaeformis, tineiformis, vespiformis.

Parapholas bisulcata, californica, janelli.

Parapoinx albargentalis, nivealis, stratiotalis, suppandalis.

Pararge egeria, xyphia.

Parascidia flava.

- Parascotia** carbonaria, fuliginaria, trepidaria.
- Parasemia** agnitaria, lapponica, plantaginis, transversella.
- Parasia** nevropterella.
- Parasmilia** centralis, cylindrica, elongata, faujasi, fittoni, gravesiana, mantelli, poculum, punctata, serpentina.
- Parastasia** bicolor, binotata, bipunctata, canaliculata, confluens, dimidiata, discolor, femorata, horshfieldi, melanocephala, nigriceps, nitidula, obscura, rubrotessellata, rufolimbata, rufopicta, rugosicollis, scutellaris, westwoodi.
- Parastata** guttula.
- Parastichtis** didyma, hepatica, suspecta, vilis.
- Parastrea** affinis, amicornum, amplior, ananas, caryophylloides, deformata, denticulata, doreyensis, fragum, gervillei, gratissima, lifoliana, lobata, meandrites, nantuacensis, radiata, rotulosa, rousseaui, savignyi, stricta, urvilliana.
- Paratenetus** fuscus, lebasii, punctatus.
- Parathyris** cedonulli, pandiona, perspicilla.
- Paratropes** lycoides.
- Paraxanthus** hirtipes.
- Pardalisca** cuspidata.
- Pardalotus** affinis, africanus, australis, brevirostris, caeruleus, cristatus, flavescens, gularis, hirundinacea, maculatus, melanocephalus, obsoletus, ornatus, percussus, pipra, punctatus, quadragintus, rubricatus, striatus, superciliosus, thoracicus, uropygialis.
- Pardia** tripunctana.
- Pardosa** striatipes.
- Pareas** carinata.
- Parexus** recurvus.
- Parias** flavomaculatus, ornata, variegata.
- Pariboea** spinipalpis.
- Parides** aeneas, echelus, gargasus, lysander, sessostris, vertumnus.
- Pariocela** laticeps.
- Pariopeltis** triscalis.
- Parisoma** frontale, galinieri, monacus, subcaeruleum, viroides.
- Paristemia** apicalis, platyptera.
- Parix** graminicola, graminicola, viridis.
- Parkinsonius** mirabilis.
- Parmacella** alexandrina, calyculata, cumingi, gervaisi, mauritius, mesopotamiae, nigricans, olivieri, palliolum, punctata, reticulata, taeniata, taunaisii, unguiformis, valenciennesi, valenciennii, variegata, virescens.
- Parmacellus** palliolum, rutellum.
- Parmaphorus** bellardii, elongatus. *Vide et Parmo*→.
- Parmena** algerica, antarctica, bicincta, fasciata, hirsuta, pilosa, pubescens, rugosula, solieri, unifasciata.
- Parmophorus** ambiguus, angustus, bellardi, breviculus, convexus, corrugatus, elegans, fissurella, fragilis, gibbosus, granulatus, intermedius, laevis, patelloideus, sinensis. *Vide et Parmo*→.
- Parmula** (G.) cocciformis.
- Parmula** (Hem.) bistrigata, gibbula, vertebralis.
- Parnassius** actius, apollo, clarus, corybas, delius, dellius, delphius, hardwicki, helios, hypsipyle, jacquemonti, mnemosyne, nomion, phoebus, rumina, smintheus, stubendorfi.
- Parnopes** carnea, denticulata, elegans, fischeri, viridis.
- Parnus** algericus, asiaticus, auriculatus, bicolor, brasiliensis, caspius, cinctus, dumerili, elateroides, fastigiatus, griseus, hydrobates, impressus, lithophilus, longimanus, longipes, luridus, lutulentus, minutus, montanus, nitidulus, niveus, obscurus, ovatus, picipes, pilosellus, pubescens, punctatus, punctulatus, rufipes, sericeus, striatus, punctatus, striatus, substriatus, sulcatus, vienensis, viennensis, villosus, vittatus.
- Paroaria** capitatus, cucullata, dominicana, gularis, nigrigenys, nigroaurita.
- Parodon** suborbitale.

- Paroides** biarmicus, capensis, caudatus, flammiceps, longicaudus, pendulinus, pensilis, smithi.
- Paromalus** aequalis, affinis, bistriatus, complanatus, conjunctus, flavicornis, minimus, parallelepipedus, pumilio, rouzeti, seminulum, tenellus, troglodytes.
- Paropia** scanica, scutata.
- Paropis** pallidipennis, sorbi.
- Paropsis** (Col.) aegrota, amboinensis, amica, atomaria, australasiae, beata, bimaculata, cassidoides, chlorotica, circumdata, coccinelloides, crocata, decemguttata, dilatata, duodecimpustulatus, erudita, fallax, flavicans, geniculata, granulosa, hectica, hieroglyphica, immaculata, incarnata, insignita, inspersa, intacta, interlita, irrisa, laesa, lepida, lignea, liturata, maculata, marinorea, miliaris, minor, morbillosa, multipunctata, nigerrima, nobilitata, notata, nuclea, nuda, oblitterata, obscura, obsoleta, octolineata, "oliv.," orphana, pallipes, papulosa, picea, polyglypta, porosa, punctulata, remota, rufipes, rugulosa, sanguinicollis, sanguinipennis, scutifera, seriata, serpiginea, sexpustulata, signata, suturalis, testacea, trifasciata, ustulata, variolosa, venusta, vicina.
- Paropsis** (P.) signata.
- Paropus** alternata.
- Parotia** aurea, psittacalis, sexsetacea.
- Parra** aenea, albinea, alpina, arata, atricollis, calidris, canulus, capensis, cinclus, cordifera, corrika, cristata, gallinacea, grisea, gymnostoma, helvetica, hypoleucos, hypomelana, interpres, macularia, melanoviridis, naevia, ochropus, phaenicura, pugnax, sanderling, sinensis, squatarola, superciliosa, vanellus.
- Parrhasius** acmon, arogeus, hemon, lisus, polybetes, timoleon.
- Parthenia** (Dipt.) bosci, carolinae, cylindrica.
- Parthenia** (G.) bulinea, crenata, elegantissima, fasciata, glabra, indistincta, metcalfi, pallida, scalaris, terebra, turris, turrita, varicosa, ventricosa.
- Parthenie** fasciata, lineata.
- Parthenopa** leucogaster.
- Parthenope** (Cr.) angulifrons, calappoides, contracta, contraria, cyrnus, diacantha, fornicata, laciniata, macrocheles, mediterranea, punctatissima, reticulata, spinimana, tarpeius, valida.
- Parthenope** (Dipt.) neocomiensis.
- Parthenope** (L.) formosa.
- Parthenos** andremona, nubilis, sylvia.
- Partula** anabilis, auricula, auriculata, australis, brumalis, bulimoides, carteretensis, compressa, conica, decussatula, densilineata, diminuta, dumartroyi, faba, flavescens, fragilis, ganymedes, gibba, glabrata, gonocheila, grisea, guamensis, hyalina, inflata, isabellina, lineata, lutea, maximiliana, navigatoria, otaheitana, pudica, pusilla, radiolata, reclusiana, rosea, rubescens, rufa, solidula, spadicea, unidentata, varia, virgulata, zebrina.
- Partulus** australis, carteriensis, roseus, torosus, vanicorensis.
- Parula** americana, mexicana.
- Parulus** ruficeps.
- Parus** abietum, aemodius, albigena, albigena, amarus, annexus, aplonotus, atricapilla, atriceps, atricristatus, atrogularis, barbatus, bokharensis, bombycilla, borealis, caerulescens, calendula, candatus, carbonarius, carolinensis, cayaneus, cinctus, cinerescens, cinereus, coeruleatus, coerulescens, dichrous, dorsatus, dubius, elegans, erythrocephalus, exilis, fasciatus, ferrugineus, flavicollis, flavocristatus, frigoris, fringillago, fuliginosus, furcatus, fuscus, griffithi, hortensis, inornatus, iouschistos, japonicus, iouschistos, lathamii, ledouci, leucomelas, leuconotus, leucopterus, leucotis, longicaudatus, luctuosus, lugubris, melalophos, melanolophos, melanotis, melanotus, minimus, minutus, mitratus, montanus, monticolus, niger, nuchalis, pensilis, quadricolor, quadrivittatus, robustus, rubdiventris, rufescens, russicus, salicarius, satrapa, schistnotus, scythicus, senilis, septentrionalis, sericophrys, seriophrys, sultaneus, sumatrensis, sylvestris ater, teneriffae, trivirgatus, ultramarinus, urostigma, variegatus, xanthogenys, zelandicus.
- Parydra** aquila, coarctata.
- Paryphes** andreae, diabolicus, fenestratus, humeralis, laetus, megaera, miniaceus.

Paryphus lobatus.

Pasimachus californicus, depressus, laterisulcatus, marginatus, mexicanus, obtusus, punctulatus, rotundipennis, sublaevis, substriatus, subsulcatus, sulcatus.

Pasiphae tarda.

Pasiphaea brevirostris, distincta, sivado.

Pasites maculata, schotti, unicolor.

Pasithea (Cr.) gibba, rectirostris.

Pasithea (G.) aciculata, cancellata, claibornensis, diaphana, eburnea, elegans, exarata, guttula, laevigata, lugubris, minima, nigra, notata, ornata, ovulum, secale, sordida, striata, subula, sulcata, turbinopsis, umbilicata.

Pasithea (Verm.) chrysocephala.

Pasithoe umbonata, vesiculosa.

Passaleutus geniculatus.

Passalites nemorivagus.

Passalodon rostratus.

Passaloecus corniger, gracilis, insignis, monilicornis, singularis, turionum.

Passalurus ambiguus.

Passalus abortivus, aculeatus, acuminatus, aduncus, aethiops, affinis, africanus, agnoscendus, angulatus, anguliferus, approximatus, armatus, assimilis, australasicus, australis, barbatus, bicanthatus, bicolor, bidentatus, bihastatus, brasiliensis, caelatus, caesus, cancrus, cantori, carbonarius, cayennensis, caylor, cephalotes, chevrolati, ciliatus, cirratus, coarctatus, compar, compergus, coniferus, contractus, convexus, cornutus, crenatus, crenistrius, crenulatus, cylindraceus, cylindrus, depressus, dilatatus, distinctus, edentulus, elongatus, emarginatus, exaratus, fronticornis, furcilabris, geometricus, gibbosus, glaberrimus, goryi, grandis, hamatus, hieraticus, hopei, hostilis, imberbis, inaequalis, incertus, insularis, interstitialis, laevis, laterisculptus, latifrons, latipennis, longulus, lottinus, maillei, mancus, manoutfi, marginatus, medius, moluccanus, morbillosus, morio, mucronatus, muticus, nasutus, naviculator, neelgheriensis, occipitalis, orientalis, palini, parvulus, pelliculatus, pentaphyllus, piceus, pilifer, planiceps, platyrhinus, plicatus, politus, polyphyllus, pronus, pugionatus, punctatissimus, punctato-striatus, puncticollis, punctifrons, quadricollis, quadri-dentatus, quadrifrons, reticornis, robustus, rugiceps, rusticus, savagei, semicylindricus, sexdentatus, sicatus, sinuatus, sinuosus, spectabilis, spinifer, striato-punctatus, striolatus, sub-armatus, subcornutus, sulcatulus, suturalis, teres, tetragonus, tetraphyllus, timoriensis, tlascala, toriferus, torpidus, transversus, tricuspidatus, tridens, trituberculatus, tropicus, unicornis, validus, vicinus, villosus, vulneratus.

Passandra bistriatum, brasiliensis, columbus, concolor, crassicornis, fasciata, rubro-lineata, sexstriata.

Passer alpicola, arboreus, arcatus, arcuatus, australis, calcaratus, cannabina, capensis, carduelis, cinnamomeus, cisalpina, concolor, cristatus, cruciger, diffusus, dominicanus, elegans, erythrocephala, erythrophys, flaveolus, fringilla, hispaniolensis, indicus, italicus, jagoensis, jugiferus, marchionessarum, molitensis, montanina, montanus, montefringilla, motitensis, oryx, papaverina, petronia, pileatus, pusillus, pyrrhonotus, pyrrhopterus, roseus, rufpectus, ruppeli, rutilans, salicicola, spinus, spiza, teydea.

Passerculus lincolni, palustris, passerinus, savanna.

Passerella cinerea, hyperborea, iliaca, rufina, townsendi, unalascensis.

Passerina atricapilla, bicolor, borealis, capensis, caudacuta, ciris, collaris, cyanea, discolor, dunetorum, flava, flavifrons, flaviventris, hyemalis, jacarina, jacarini, lapponica, leclancheri, lepida, leucophrys, maritima, melanocephala, montana, monticola, musica, nigricollis, nivalis, olivacea, ornata, oryzivora, palustris, pecoris, pratensis, pusilla, quadricolor, rufescens, ruficapilla, savanna, socialis, sphenura.

Passerita mysterizans, nasuta.

Passus dasyleurus, graculus, parastictus.

Pastinaca hastata, maclura.

Pastinachus uarnak.

Pastor amoenus, bicolor, blythi, calva, cantor, capensis, carunculatus, columbinus, contra, corythaix, cristatella, dauricus, docilis, dominicanus, elegans, fuscus, galla, gallinaeus, ginginianus, gregicolus, griseus, leucocephalus, mahrattensis, malabaricus,

malatensis, mauritanus, melanopterus, musicus, nigrocinctus, oricularis, pagodarum, peguanus, roseus, ruficollis, saularis, sericeus, setifer, sinensis, sturninus, temporalis, terricolor, trailli, tricolor, tristis, turdiformis, upupa.

Pasythea gracilis, quadridentata, tulipifera.

Pataecus fronto.

Patagona gigas.

Patara albata, guttata.

Patella acinaces, acuminata, acuta, adela, adunca, aeruginosa, alba, albescens, albicosta, albidula, alboradiata, algira, alta, altera, alternata, alveus, ambigua, amoena, anceps, ancyloides, angulata, angulosa, antillarum, antiqua, antiquissima, apertura, apicina, apiculata, appendiculata, araneosa, araucana, ardosiae, argentata, argentaurum, argentea, argenvillei, argyropsis, asmi, aspera, atricapilla, atromarginata, aubentonensis, aurantiaca, aurea, auricula, auricularia, auriculata, aurifera, australis, azorica, barbata, bifidus, bimaculata, bonardi, borbonica, borni, bourouniensis, calcarea, callosa, calyptra, campaniformis, campanulata, cancellata, candei, candida, capillata, capulina, carditoides, carinata, cassida, castanea, ceciliania, cerea, chalcedonica, chilensis, cingulata, cingulum, cinnamomea, citrullus, clealandi, clelandi, clypeater, clypeola, clypeus, cochleata, coerulea, comosa, compressa, compressiuscula, conceptionis, conica, conspicua, constricta, cornea, cornucopiae, costaria, costata, costulata, crassa, crassicosta, crocata, cruentata, crystallina, cupuloidea, curvata, cuspidata, cyanea, cymbium, cymbularia, cymbuloides, cypria, cypridium, decora, delesserti, dentata, depressa, diaphana, dichotoma, diemensis, digitata, dilatata, dimidiata, disciformis, discoides, discors, distorta, dubia, dublos-radiata, duclosi, dulcis, dunkeri, duplicata, echinulata, elegans, elliptica, elongata, epidermidea, equalis, exarata, exilis, explanata, extinctorum, favaniana, fenestrata, fimbriata, fissa, fissurata, flexuosa, forbesi, fornicata, fragilis, fungoidis, fusco-lutea, galathea, garnoti, gaudichaudi, gigantea, glabra, gorgonica, granulata, granulosa, greenwoodi, grisea, grossa, guttata, hartlepolensis, heptagona, hiantula, hyalina, illuminata, imbricata, implicata, incisa, inconspicua, indica, inornata, insessa, insignis, instabilis, intorta, irregularis, jacksoniensis, japonica, javanica, klipsteini, kochi, laevigata, laevis, laevisima, lamarcki, lamellosa, laqueare, lata, lateralis, latissima, leucophaea, leucozona, limbata, lineata, lineolata, lobata, longicosta, lowei, lucernaria, luctuosa, lusitana, luteola, macroschisma, maculata, madagascariensis, malicolor, mamillata, mammillaris, margaritaria, maxima, mazatlantica, membranacea, mexicana, militaris, minuta, monticolor, mucronata, muricata, mytiliformis, nanus, neglecta, neptuni, nigra, nigroalba, nigro-squamosa, nisoria, nitida, nodosa, novemradiata, nuda, oblonga, obscura, oblecta, octocostata, oculus hirci, olivacea, onychitis, opea, orbis, oregana, orichalcea, ornata, ovalis, ovata, pallescens, papyracea, parallelogrammica, parasitica, parvula, patina, paumotensis, pediculus, pennata, peroni, persona, personoides, peziza, pholidota, pileata, pileolus, pileus, pinaria, piperata, plana, plumbea, poculum, polaris, polii, polita, polygona, pretrei, primigenia, pruinosa, pulchella, punctata, punctatissima, puncturata, punica, purpurascens, purpurina, pustulosa, pyramidata, radiata, radiatilis, raricosta, reticulata, retifera, retortella, retrorsa, reussi, reynaudi, richelmyi, riparia, rivulosa, rotalis, rouxi, rubida, rubraurantiaca, rubro-costata, rugosa, ryckoltiana, sahana, sagittata, saturni, scabra, schmidtii, scurra, scutellata, scutellaris, scutiformis, semistriata, serpulae formis, sinuata, sinuosa, solaria, solaris, solida, speciosa, spectrum, spinifera, spinosa, spirirostris, squama, squamaeformis, squamulata, stella, stellata, stellularia, striata, striatula, strigilata, strigilis, sturnus, subannulata, subgranularis, subplana, subquadrata, subradiata, sulcata, supajurensis, tabularis, talcosa, tarentina, tectum, tenella, tenera, tentorium, tenuicostata, tenuis, tenuissima, tenuistriata, tessellata, tessoni, textilis, tricornis, trochoides, tuberculifera, turtonia, umbellata, umbelloides, umbonata, undata, undecim-costata, undulata, unguis, unguis-almae, unguiformis, variabilis, variegata, vespertina, violacea, virginum, viridescens, viridis, viridula, vitrea, xerampelina, zebra, zebrina, zonata.

Patellites acutus, antiquus, calyptraeformis, cingulatus, concentricus, conicus, cornucopiaeformis, costatus, discoides, fissuratus, limbatus, mitratus, peltatus, pennicostes, pileatus, primigenius, primordialis, vetustus, viniariensis.

- Patelloida** conoidea, depicta, elongata, flammea, fragilis, orbicularis, pileopsis, punctata, rugosa, septiformis, squamosa, stellaris, striata.
- Patelloidea** alveus, amaena, vitrea.
- Patelloides** antarctica, pectinata, virginea.
- Patellus** roseus.
- Patera** cerebriiformis.
- Pathoderma** orientalis.
- Patina** laevis.
- Patinula** lithuana, monachalis.
- Patiria** coccinea, crassa, granifera, obtusa, ocellifera.
- Patrobus** alpinus, americanus, angicollis, assimilis, aterrimus, borealis, campestris, depressus, excavatus, fossifrons, foveocollis, hyperboreus, lacustris, lapponicus, longicornis, ovipennis, rufipennis, rufipes, septentrionis, sibiricus.
- Patrocles** querelans.
- Patrus** javanus.
- Patula** (G.) alternata, perspectiva, pygmaea, rotundata, ruderata, rupestris, septemradiata.
- Patula** (Lep.) asperipunctella.
- Patularia** ovata, rotundatus.
- Paulia** horrida.
- Paulinia** muscosa.
- Pausus** aethiops, affinis, armatus, baconis, bifasciatus, bowringi, boysi, burmeisteri, cilipes, cochlearius, cognatus, cornutus, cucullatus, cultratus, curvicornis, denticornis, denticulatus, excavatus, flavicornis, fulvus, granulatus, hardwicki, hearseyanus, hystrix, jerdani, joussetini, klugi, latreillei, linnaei, nauceros, parrianus, ploiophorus, politus, rhinoceros, ruficollis, ruftarsus, saundersi, setosus, shuckardi, sinicus, spui-coxis, stevenianus, tibialis, trigonicornis, verticalis.
- Pausus** bihamatus, bucephalus, cruciatus, denticornis, fichtelli, pilicornis, thoracinus, turcicus.
- Pauxi** alector, galeata, mitu, pauxi, tomentosa.
- Pavo** aldrovandii, assamensis, javanicus, spicifer.
- Pavona** cristata, lactuca.
- Pavonaria** quadrangularis, scirpea.
- Pavonella** pugnax.
- Pavonia** (Cor.) agaricites, ampliata, angulata, boletiformis, cactus, clavus, contigua, crassa, crispa, cristata, decussata, divaricata, elephantotus, explanulata, flabelliformis, formosa, frondifera, hemispherica, infundibuliformis, irregularis, lactuca, lata, latistella, meandrinoides, obtusangula, papyracea, plicata, praetorta, siderea, tuberosa, undata, venusta.
- Pavonia** (Lep.) anaxandra, aorsa, berecynthus, carpini, cassiae, darius, pyri, spini, telemachus, xanthus.
- Pavoniaria** tetragona.
- Paxillomma** cremieri.
- Paxillus** (Ceph.) belemnoides.
- Paxillus** (Col.) crenatus, leachi.
- Paxyloma** apicalis.
- Paxylomma** buccata.
- Paxyodon** leve, ponderosum.
- Paykullia** fuliginosa, riparia, rubricornis.
- Pecchiolia** argentea.
- Pechipogo** pectitalis, plumigeralis.
- Pechipogon** barbalis.
- Peckia** aterrima, imperialis, lamanensis, lanipes, plumipes.
- Pecten** abbreviatus, abjectus, actinodes, actinodus, aculeatus, aculeatus, acuminatus, acute-plicatus, acuticosta, acuticostatus, acutiradiatus, aduncus, aequalis, aequicostatus, aequistriatus, affinis, alatus, alberti, albinus, albolineatus, aldrovandi, alessii, alpinus, alternans, alternatus, ambiguus, anatipes, angelicae, anisopleurus, anisotus, annulatus, anonymus, antiquatus, antoni, aptiensis, arachnoides, arachnoides,

araneosus, aratus, arcellus, archiaciana, arcuata, arealis, arenicola, arenosus, arinus, armigerus, armoricanus, articulatus, asper, asperrimus, aspersus, asperulatus, asperulus, asperus, astierianus, atavus, audouini, aurantiacus, aurantius, auristriatus, australis, aviculatus, barbatus, barbesillensis, bathus, beauvoisi, beaveri, bellis, benedictus, beraudi, besseri, beudanti, biaritzensis, bifidus, biformis, bifrons, bisquamosus, bistriatus, blainvillius, boissyi, borealis, borni, bouei, brevicauritus, brocchii, brongniarti, brucei, buchi, burdigalensis, byssifer, calvatus, calvus, calypso, camillus, campaniensis, canaliculatus, cancellatus, carbonarius, carinatus, carteronianus, cassianus, castor, cenomanensis, centralis, cephus, chiragra, cicatrisatus, cinctus, cingendus, circularis, citrinus, clathratus, clintonius, coarctatus, coelatus, cognatus, collineus, comans, comatus, complanatus, complicatus, compositus, comptus, concavum, concavus, concentric-punctatus, concentric=striatus, concentricus, concinnus, conjux, conoideus, consimilis, conspersus, convexus, coquandianus, corallinoides, corallinus, cornea, corneolus, corneus, cortesi, coruscans, costangularis, costarius, costatus, costulatus, cottadinus, coyanus, crassicostatus, crassitesta, crassus, craticula, crebricostatus, crenatus, crenulatus, crescens, cretosus, crinitus, crispus, cristatus, cristularis, croceus, curvatus, cygnipes, danicus, darius, darwinianus, decemcostatus, decemnarius, decemplicatus, decemradiatus, decheni, decipiens, decoratus, decussatus, delesserti, deluci, demissus, dentatus, denticulatus, dentifer, deornatus, depilis, depressus, deshayana, deshayesi, deshayesi, dextilis, diaphanus, digitalis, digitatum, digitatus, disciformis, discites, discoloratum, discors, discrepans, dislocatus, dispalatus, dispar, dissimilis, distans, distriatus, divaricatus, diversus, dolabriformis, doris, dubius, dufrenoyi, dujardini, dumasi, duodecim-lamellatus, duplicatus, duplicicosta, dutemplei, eboneus, eboeus, electrum, elegans, elimatus, elixatus, ellipticus, elongatus, eolus, equivalvis, erebus, erythrocentis, esopus, espallaci, exasperatus, excavatus, excisus, exiguus, exilis, exoletus, exoticus, expansus, extensus, fabricii, facsimile, falax, fallax, fasciculatus, faujasi, fenestratus, fibrosus, filatus, fimbriatus, fittoni, flabellatus, flabelliformis, flabellulum, flabellum, flagellatus, flammeus, flavescens, flavidulus, flavus, flemingi, flexuosus, florens, floridus, foliaceus, forbesi, fragilis, fragillissimus, fragosus, fraterculus, fuchsi, fuci, fulvicostatus, funicularis, furtivus, fuscopurpureus, fuscus, gallienae, galloprovincialis, geinitzianus, gemmatus, genis, gentilis, gerardi, germaniae, gervillii, gibbosus, gibbus, gigantea, giganteus, girondinus, glaber, glabratus, globosus, gloria-maris, goldfussi, gracilis, grandaevus, grandis, granosus, granulifer, granulocostatus, granulosis, gratissimus, gravesi, grayi, greenlandicus, griseus, gryphaeatus, guttatus, halleanus, hardingi, hasbachi, hastatus, haueri, hausmanni, hedonia, hebli, hemisphericus, hermannseni, hexactes, hians, hispidus, histrionicus, hoeninghausi, hofmanni, holbrookii, holgeri, hoskynsi, humphreysi, hybridus, icelandicus, illawarensis, illegalis, imbricatus, imbrifer, immaculatus, imperialis, inaequalis, inaequicostalis, inaequicostatus, inaequistriatus, inaequalis, inca, incarinatus, incomparabilis, inconstans, incrassatus, incrassatus, incurvatus, indicus, inflatus, inflexus, infumatus, innominatus, insularum, intercostatus, interstitialis, interstriatus, intertextus, intextus, inversus, irradians, irregularis, isabella, isabellae, islandicus, jacobaeoides, jamesoni, janus, japonicus, jeannoti, jeffersonius, joannis, jonesi, josslingi, jugleri, jugosus, klipsteini, knockonniensis, kokharofi, laevicostatus, laevigatus, laevis, laganum, lamalii, lamarcki, lamellosus, laminata, laminosa, landsburgii, langrunensis, laqueatus, latiauratus, laticostata, laticostatus, latissimus, latus, laurenti, leiotis, leniusculus, lens, leonhardi, leopoliensis, lepidolaris, lepidus, leymerii, lilli, limaeformis, limatus, lineato-costatus, lineatus, lineolaris, lineolatus, linteatus, lischkei, lividus, lucidus, luciensis, lugdunensis, lunaris, lusitanicus, luteus, lyelli, macassarensis, macgillivraii, macrotis, macrotus, mactatus, maculatus, maculosus, madisonius, magellanicus, magnificus, major, makowi, maltonensis, malviniae, mantellianus, marcus, margheritae, marginatus, marroitanus, martinianus, marylandicus, matheronianus, matronensis, medius, megalotis, meleagrinoideus, mellevillei, membranaceus, membranosus, menkei, micans, michauxi, micheloti, micropleura, micropterus, midas, mille cateniferus, milleri, minerva, miniaceus, minutus, minutus, mirabilis, miscellus, mitis, modestus, moniliferus, monotimeris, monspeliensis, mortoni, mosae, muensteri, multi carinatus, multicostatus, multi-radiatus, multistriatus, mundus, murchisoni, muricatus, muscosus, mustellinus,

natans, nebulosus, neptuni, nerei, nexilis, nicaeus, niciensis, nilsoni, nilssoni, nireus, niso, nissus, nitida, niveus, nodosiformis, nodosocostatus, noduliferus, nodulosus, normandi, northamptoni, notabilis, nothus, novemplicatus, nudus, numularis, obliquissimus, obliquus, oblitus, obrinus, obscura, obsolete, oceani, ochroleucus, octocostatus, octoplectus, oeyrrhoe, opis, orbicularis, orbiculatus, ornatus, orontes, orphanus, ottonis, ovato-costatus, ovatus, oxygonum, palaemon, palinurus, palliatus, palmatus, pandarus, pandorae, papyraceus, paradezii, paradoxus, paranensis, parisiensis, partitus, parvus, passerinus, passyi, patagonensis, patagonicus, pealei, pectoralis, pellucens, pellucidus, pera, permistus, perplanus, personatus, pes felis, phaseolus, philenor, philippi, philipsianus, phillipsi, phillis, philocles, pictatus, pictus, plagiotomus, planicostatus, planoclathratus, planosulcatus, planus, plebeius, plica, plicatus, podolicus, politus, pollux, polymorphus, polytrichus, pomatia, porphyreus, poulsoni, primigenius, princeps, principalis, priscus, proboscideus, propatulus, propinquus, protei, proteus, pseudamusium, pseudolina, ptychodes, ptychotis, pulchellinus, pulchellus, pulcher, pulcherrimus, pullus, punilus, punctatus, purpuratus, pusillus, pusio, pusioides, puzosianus, pygmaeus, pyxidatus, quadraginta, quadricostata, quadriradiatus, quinquecostatus, quinquelineatus, radians, radiatus, raricostatus, rarispinus, rastellinum, rastellum, raulinianus, reconditus, rectangulus, reevei, reflexus, regius, regularis, requienianus, reticulatus, reussi, revolutus, rhetus, rhypheus, rigida, rimulosus, robinaldinus, rogersi, roseburiensis, roseus, rosinson, rothomagensis, rotundus, rotundus, royanus, ruber, rubicundus, rubidus, rubro maculatus, rudis, rugosus, rugulosus, rusticus, ryckholtsi, sabinus, sandbergeri, sanguineum, sanguineus, sanguinolentus, sarmenticius, saturnus, sauciatus, scabrellus, scabridus, scabriusculus, scabrotus, scalaris, scarburgensis, sclerotis, scutellaris, sectus, sedgwicki, segregatus, semicungulatus, semicircularis, semicostatus, seniaudus, semiplicatus, semistriatus, senatorius, seniensis, septemcostatus, septemplicatus, septenarius, sericeus, serrato-punctatus, serratus, sexcostata, sibericus, silenus, simbirskensis, similis, simplex, sinensis, singaporinus, sinuosus, sol, solaris, solarium, solea, solidus, somrowensis, sowerbyi, spathulatus, spatulaeformis, spiniferus, spinosus, spinulosus, splendidus, spurius, squama, squamatus, squamifer, squamatus, squamosus, squamula, squamulatus, squamuliferus, squamulosus, staszycii, stellaris, striatissimus, striato-costatus, striato-punctatus, striatulus, striatus, strictus, striolatus, stutchburiensis, subacutus, subaffinis, subalternans, subaratus, subarmatus, subarticulatus, subauriculata, subbarbatus, subcalthratu, subcancelatus, subcingulatus, subclavatus, subcomatus, subconcentricus, subconcinus, subdecoratus, subdeccusatus, subdemissus, subdepressus, subdiaphanus, subdiscors, subduplicatus, subelongatus, subfibrosus, subfimbriatus, subglaber, subgranulatus, subgranulosus, subimbricatus, subinterstriatus, subirregularis, sublaevigatus, sublaevis, sublevis, submuricatus, subnodosus, subobsoletus, subopercularis, suborbicularis, subornatus, subplicatus, subpulchellus, subpunctatus, subquinquelineatus, subreconditus, subrotundus, subrufus, subrugosus, subscabriusculus, subserratus, subspinosus, subspinulosus, subsquamula, substriatus, subtextorius, subtripartitus, subulatus, subundulatus, subvirgatus, subviridis, succineus, sulcatus, sulcirostris, sulphureus, superbus, suprajurensis, tabulatus, tehuelchus, tenuicollis, tenuicostatus, tenuis, tenuistriatus, tenuisulcatus, terebratulaeformis, terebratularis, terebratuloides, ternatus, testae, tetramerus, texturatus, textus, thetidis, thorenti, tigrinus, tigris, tournali, tranquebaricus, transversus, triangularis, tricarinatus, tricenarius, tricostatus, triidus, trigeminatus, triginti-radiatus, tripartitus, triplicata, trisulcus, tubulifer, tumbeizianus, tumescens, tumidus, tunica, turgidus, uncinatus, undatus, undulatus, undulosus, unicolor, vagans, valdaicus, valentini, valoniensis, variabilis, varians, varicolor, variegatus, velatus, velutinum, ventricosus, ventricosus, venustus, verda-chellensis, verneuli, versicolor, versicostatus, vesicularis, vestitus, vicenarius, vimineus, violaceus, virgatus, virginianus, virgo, virguliferus, vitreus, vittatus, voithi, vultzi, vulgaris, weissii, westendorpianus, zeisneri, zelandiae.

Pecticoma paradoxa.

Pectinalis foliosa.

Pectinaria aegyptis, arenaria, auricoma, belgica, capensis, castanea, groenlandica, guildingi, nigrescens, setiformis, subcylindrica.

Pectinia (Cor.) foliosa, pectinata.

Pectinia (Hym.) aterrima, lactuca.

Pectinites aculeatus, anomalus, antiquus, articulatus, asper, aviculatus, chamicticus, cretosus, discites, excentricus, fragilis, gigas, grypheatus, hispidus, irregularis, limbatus, lineatus, longicollis, melitensis, muensteri, operculatus, peticulatus, primigenius, priscus, punctatus, quinquecostatus, radiatus, regularis, reticulatus, salinarius, senatorius, subreticulatus, subspinosus, tegulatus, textorius.

Pectinium discites, gibbum, glabrum, histrionum, islandicum, jacobaea, japonicum, laurenti, lineatum, maximum, nodosum, pellium, pes felis, pleuronectes, pusio, tranquebaricum, turgidum, variegatum, varium, ziczac.

Pectinura vestita.

Pectocera cantori, mellii.

Pectodon verticillaris.

Pectoralina hebraica.

Pectunculina complanata, deltoidea, guerangeri, multistriata, scalaris, semiaurita.

Pectunculites aculeatus, pulvinatus.

Pectunculus acuticostatus, alternatus, ambiguus, americanus, angulatus, angusticostatus, annulatus, anomalus, apjohni, aradasi, aratus, arcaceus, aretatus, aspersus, assimilis, auriculatus, aurifluus, aurita, australis, aviculoides, belcheri, bicolor, bourgeoisianus, brevirostris, broderipii, calvus, cancellatus, carolinensis, carolinianus, castaneus, circularis, concinnus, cor, corbuloides, corrugatus, costarius, costatus, costulatus, crassus, cuneus, decisus, declivis, decussatus, delectus, delesserti, deletus, deltoideus, depressus, dispar, elegans, elephantopus, ellipsis, flammeus, formosus, geinitzi, giganteus, globulus, glycimierinus, glycimieris, granulata, granulatoidea, granulatus, hamula, hemicardo, hirtus, hoeninghausi, holosericeus, holosericus, idoneus, inaequalis, inflata, insculptus, insubrica, intermedius, kaschewarowi, latiarea, latjcostatus, lens, lentiformis, lineatus, lividus, longior, lunulatus, maculatus, marmoratus, marrotianus, marullensis, miliaris, minimus, minor, minutus, mississippiensis, morum, multicostatus, multistriatus, nanus, nitens, nodosus, nuculatus, nudicardo, nummarius, nummiformis, nyster, obliqua, obliquus, oblongus, obovatus, obsoletus, obtusatus, oculatus, oolithicus, orbiculus, ovatus, pallens, pallium, parcipictus, parilis, passus, patulus, payten-is, pecten, pectinatus, pectiniformis, pectinoides, pennaceus, perdis, perplanus, pertusus, petschorae, pilosellus, pilosus, planicostalis, planus, plumstediensis, polydonta, polyodon, polyodonta, pseudocardium, pseudopulvinatus, pulvinatus, pulvinulatus, punctatus, pusillus, pygmaeus, quinquerrugatus, radians, raripictus, recissus, renauxianus, requienianus, reticulatus, reussi, rhomboideus, romulaea, roseus, rubens, scalaris, scriptus, semi-truncatus, septentrionalis, sericatus, sículus, spadiceus, spinescens, spurcus, stamineus, stellatus, striatularis, strigilatus, subauriculatus, subauritus, subaustralis, subconcentricus, subdecussata, sublaevigatus, sublaevis, subobliquus, subovatus, subpulvinatus, subsulcatus, sulcatus, tellinaeformis, tenuicostatus, tenuistriatus, terebratularis, tessellatus, textatus, textus, tomentosus, transversus, tricenarius, trigonella, tumulus, umbonatum, umbonatus, undatus, undulatus, variabilis, ventruosus, violacescens, violascens, vitreus, zonalis.

Pecula griscapilla, neglecta, verna.

Pedaerus filiformis.

Pedalion (L.) ephippium*, isognomon, perna*, torta.

Pedalion (P.) gigas.

Pedanus sphaeroides.

Pedapholus brasiliensis.

Pedaria nigra, tuberculata.

Pedetes (Col.) brightwelli.

Pedetes (Cr.) ruficornis.

Pedetes (M.) cafer, capensis, typicus.

Pedeticus marinatoratus, variegatus.

Pediascus depressus, dermestoides, fuscus.

Pediasia contaminialis, fascelmalis, immistalis, inquinatalis, lutealis, ochrealis, squalidalis.

Pedicellaria bidentata, dentata, exotica, rotifera.

Pedicellina belgica, echinata, gracilis.

Pedicia albivitta, contermina, crassipes, gracilis, rivosa.

Pedicularia sicula.

Pediculus acanthopus, affinis, anserinus, bufali-europei, capitis, cervicalis, chelidonius, chloropodis, collurionis, cornicis nigrae, corporis, crabronis*, crassicornis, eurygaster, eurysternus, hapalinus, leptocephalus, lyriocephalus, macrocephalus, melis, melittae, mustelae, nigritarum, pelecani, phocae, phoeopodis, phthiriopsis, piliferus, pleurophaeus, prognos, pubescens, saccatus, saviae, serratus, setosus, sphaerocephalus, spiculifer, spiniger, spinulosus, stenopsis, tabescentium, tenuirostris, totani, tringae, tuberculatus, tubescens, upupae, urius, urogalli, vanelli, ventricosus, vestimenti.

Pediliphorus auratus.

Pedilophorus rutilans.

Pedilus dispar, fulvipes, fuscus, guttula, imus, lugubris, marginicollis, nigricans, pulcher, ruficollis, rufithorax.

Pedina arenata, aspera, gervillei, gigas, granulosa, ornata, pubescens, rotata, sinaica, sublaevis.

Pedinus abbreviatus, acuminatus, aequalis, affinis, altaicus, arcuatus, clathrata, conubialis, dermestoides, femorale, femoralis, fornicatus, gibbosus, gibbus, glaber, gracilis, granulatus, helopioides, hybrida, laticollis, latiusculus, luctuosa, meridianus, ovatus, politus, pruinatus, punctatus, quadratus, ruficollis, ruficornis, sebaudus, strigosus, subdepressus, sulcatus, suturalis, tauricus, ulysipponensis.

Pedionomus microurus, torquatus.

Pediophis coronella.

Pediophylax dorsalis.

Pedioplanis burchelli.

Pedipes adansonii, affinis, afra, alpina, coniformis, crassidens, globulosus, incrassatus, mirabilis, octanfracta, ovalis, ovata, ovulus, quadridens, toruatilis.

Peditaithya suberistatus.

Pedius laevissimus, longicollis.

Pedonoeces costatus, galapagoensis, pubescens.

Pedopsaris ludovicianus.

Pedum spondyleoideum, spondyloides.

Pegasia cylindrella, dodecagona, laternarius, latirostris.

Pegassus draco*.

Pegea (Asc.) octofora.

Pegea (G.) carnea.

Pegedictis ictalops.

Pegomya brunea, brunicornis, brunica, cerasi, flavipes, hyoscyami.

Pegomyia basilaris, bicolor, diaphana, flavescens, fulgens, inanis, longipes, mitis, myoidea, nigrifrons, setaria, thoracica, versicolor.

Pegylis morio.

Peirates affinis, bimaculatus, brevipennis, carinatus, maculipennis, quadrimaculatus, rufus, servillei, spinipes, strepitans, stridulus, sulcicollis, tri-guttatus.

Pelaeus armatus.

Pelagella paretii.

Pelagia (Med.) australis, conifera, cyanella, denticulata, discoidea, flaveola, guineensis, labiche, lessoni, lessoniana, noctiluca, panopyra, parthenopenis, phosphorea, purpurea, quinquecirrha, tetrachira, unguiculata.

Pelagia (Polyz.) clypeata, defranciana, eudesi, infundibulum, insignis.

Pelagia (Pter.) alba, americana.

Pelagios monachus.

Pelagius monachus.

Pelagocyon monachus.

Pelagosaurus typus.

Pelagus (L.) elixatus, vanuxemi.

Pelamis bicolor, chloronotus, curio, fasciatus, fuscatus, granulatus, marginatus, megophias, ornata, sarda, schneideri.

Pelamys bicolor, chiliensis, orientalis, sarda, unicolor

Pelargoderus tessellatus, vittatus.

- Pelatea** klugiana.
- Pelates** quadrilineatus, quindecimalis, quinquelineatus, sexlineatus.
- Pelecanoides** berardi, garnoti, urinatrix.
- Pelecanopus** pelecanoides.
- Pelecanus** americanus, australis, carunculata, chinensis, conspicillatus, crispus, dilophus, fuscescens, fuscus*, gaimardi, javanicus, lineogaster, lophurus, madagascariensis, major, minor, mitratus, molinae, olivaceus, pica, plotus, rufescens, uriel. *Vide et Peli*→.
- Pelecia** retusalis.
- Pelecinus** annulatus, bipunctata, clavator, duponcheli, fuscator, guerini, politurator, rufus, spinolae, thoracicus, tibiator.
- Pelecium** cyanipes, laevigatum, refulgens, sulcatum, violaceum.
- Pelecocera** flavicornis, lugubris, scaevoides, tricincta.
- Pelecode** rostrum.
- Pelecophora** catoirei, illigeri, nigrolineata.
- Pelecophorus** vittatus.
- Pelecopselaphus** angularis, depressa.
- Pelecopsephalus** subigneus.
- Pelecorhynchus** maculipennis.
- Pelecotoides** conicollis, gigantea, maculata, strigata.
- Pelecotoma** bioculatum, bonellii, dufouri, fischeri, flavipes, helva, jani, latreillei, leachi, leucophaea, mosquense, murina, steveni.
- Pelecus** affinis, albulus, bacaila, bibie, clupeoides, cultratus, diffusus, flavipinnis, leucerus, niloticus, novacula, pholicephalus.
- Pelecyphorus** asidoides, capensis, foveolatus, mexicanus, picipes.
- Pelecystoma** luteum, tricolor.
- Pelekocheilus** caprinus, distortus, sileni, undulatus. *Vide et Peli*→.
- Peleropus** apicalis, fallax, melancholicus, mixtus.
- Peleteria** abdominalis, javanica, lalandei, leschenaldi, rubescens.
- Peleus** aeacus, gentius.
- Pelia** (Cr.) pulchella.
- Pelia** (Lep.) lamis.
- Pelias** (Cr.) niloticus.
- Pelias** (R.) berus, cherssea, dorsalis, niger.
- Pelicanus** gangeticus, violaceus. *Vide et Pelecanus*.
- Pelicius** barbarus.
- Pelicism** carinatum.
- Pelidium** caeca.
- Pelidna** alpina, brissoni, calidris, cinclus, dominicensis, macrorhynchos, minuta, minutilla, pectoralis, platyrhynchos, pusilla, pygmaea, schinzi, semipalmata, subarquata, temmineki, variabilis.
- Pelidnota** adalaida, aeruginosa, amoena, aulica, bimaculata, burmeisteri, chalcothorax, chamaeleon, chlorana, cuprea, cuprifrons, cupripes, cyanipes, cyanitarsis, elongata, emerita, equestris, fulva, fuscoaeana, glaberrima, glauca, glaucipennis, gracilis, granulata, herbacea, ignita, laeta, langsdorfi, laniventris, latipennis, liturella, lucida, luridipes, marginata, metallica, micans, modesta, nitescens, notata, ornatissima, pallida, pallidipennis, prasina, psittacina, pulchella, punctata, purpurea, rostrata, rubriventris, rufipennis, rugulosa, semiaurata, sordida, strigosa, sumptuosa, sumtosa, terminata, testacea, testaceovirens, tibialis, unicolor, versicolor, victorina, virescens, viridana, vitticollis, xanthogramma, xanthospila.
- Pelidonota** bicolor.
- Pelikocheilus** paru. *Vide et Peli*→.
- Pelina** (Col.) hydropica, lebasii.
- Pelina** (Dipt.) aenea.
- Peliocypas** hamatus, luridus, signifer, suturalis.
- Peliusa** labiata.
- Pella** crassicornis.
- Pellona** affinis, castelnaeana, champil, ditchela, ditchoa, dussumieri, filigera, grayana, iserti, leschenaulti, melastoma, micropus, motius, novacula, orbignyana, soborni, vimbella.

- Pellonia** calabraria, vibicaria.
Pellorneum olivaceum, ruficeps.
Pelmatopus hummeli.
Pelobates fuscus, trinii.
Pelobatus adamsi, aureolus, chalcus, costipennis, fussi, heros, lugubris, steveni.
Pelobius freycineti.
Pelochyta arontes, helops, vidua.
Pelodes leucopareja.
Pelodytes affinis, nasutus, punctatus.
Pelogonus indicus, marginatus, perbosci.
Pelolorhinus sparsus.
Pelomedusa adansonii, galeata, gehafiae, subrufa.
Pelonaia corrugata, glabra.
Pelonectes platycephalus.
Pelonium amabile, amatum, apicale, auripenne, buqueti, cleroides, collare, cribripenne, decorum, flavo-limbatum, gallerucoides, humerale, kirbyi, lampiroydes, lituratum, luctuosum, marginipenne, nigro-signatum, ornatum, pilosum, praeustum, pulchellum, quadrisignatum, scoparium, scutellatum, sex-notatum, suturale, testaceum, variabile, vetustum, viridipenne, vittatum.
Pelonomus brasiliensis, picipes.
Pelopaeus arabs, architectus, bimaculatus, caementarius, caeruleus, coromandelicus, cyaneus, cyaniventris, fasciatus, femoratus, flebilis, fuscus, histrio, interruptus, javanus, madraspatanus, pectoralis, petiolatus, sardonius, servillei, solieri, spinolae, tibialis, vindex. *Vide et Pelopoeus.*
Pelophila borealis, elongata, eschscholtzi, gebleri, laevigata, marginata, ochotica.
Pelophilus agassizi, gebleri, madagascariensis, oeningensis.
Pelophis alternans.
Pelophylax esculenta.
Pelopoeus abbreviatus, affinis, assimilis, bengalensis, compressicornis, eckloni, erithrocephalus, fulvus, flavipes, hemipterus, jamaicensis, lunata, spirifer, unicolor. *Vide et Pelopaeus.*
Pelops acromios, auritus, hirsutus, occultus, phaeonotus, tardus, torulosus, ureaceus.
Pelor (Col.) asiaticus, avidus, blapoides, blaptoides, rugosus, tauricus.
Pelor (P.) aurantiacum, filamentosum, japonicum, maculatum, obscurus, sinense, tigrinum.
Peloria heckeli*, rueppelli*.
Pelroronta exuvia.
Pelroropus ulula.
Pelororhinus angustatus, argentosus, granulosus, maculosus, margaritaceus, variegatus.
Pelorosaurus conybearei.
Pelorosomus blaptoides, rugosus, spinipes, steveni, tauricus.
Pelors cuvieri.
Pelorus rufimanus.
Pelorychus brehmi.
Peloryctes arenarius.
Peloscolex variegatus.
Pelosia depressa, griseola, helveola, plumbeola.
Pelosoma lafertei, muscerda.
Pelta coronata, cumingi.
Peltarion spinosulum.
Peltarium bicostatum, caudatum, halophilum, marginatum, ovatum, punctatum, sulcatum.
Peltastes (Ech.) acanthodes, marginalis, pentagonifera, pulchellum, punctata.
Peltastes (Hym.) dissectorius, micratorius, necatorius, nigrator, pini, pollinctorius.
Peltastes (Orth.) hastatus, specularis, venosus.
Peltidium purpureum.
Peltidocotyle rugosa.
Peltis brasiliica, dentata, fraternus, marginata, oblonga, orientalis, ovalis, pubescens, pusilla, rugosa, septentrionalis, squamulosa, tricostata, yvanti. *Vide et Pettis.*

- Peltocephalus** quoyi, tracaxa.
Peltogaster carcini, paguri.
Peltoides cayennensis, senegalensis.
Peltonotus morio.
Peltophora cruenta, picta, rubromaculata.
Peltophorus polymitus.
Peltophryne peltocephalus.
Peltops blainvillei.
Peltopterus rugosus.
Peltoura bucklandi, scaraboides.
Pelurga comitata, obeliscata, sagittata.
Pelusios castanea, subnigra.
Pelvis hippopus.
Pempelia beltri, colacalis, dionysia, euphorbiella, lignosella, obductella, obscura, ornatalis, palumbalis, quercalis, rubidinella, serpylletorum, sororiella, subornatella, thymiella, turturella.
Pempheris malabarica, mangula, mexicana, molucca, nesogallica, otaitensis, oualensis, schomburgki, touca, vanicolensis.
Pemphia alberti, sucuri.
Pemphigus affinis, bumeliae, bursarius, degeeri, gnaphalia, lactucae, lonicerae, pedunculi, ranunculi, xylostei.
Pemphix alberti, spinosa, sueuri.
Pemphredon albilabris, annulatus, assimilis, caliginosa, concolor, crassipes, fuscipennis, geniculata, hyalipennis, inornatus, insignis, jurinei, leucostoma, luctuosus, lugens, lugubris, marginatus, minutus, montanus, morio, nitida, ocellaris, oraniense, pallipes, quadripunctatus, tibialis, unicolor, varicornis.
Pemphredon tristis.
Pempsamakra dispersa, tillides.
Penaeus affinis, brevicornis, carinatus, crassicornis, distinctus, fluviatilis, indicus, lamellatus, manilensis, punctatissimus, semisulcatus, setiferus, styliferus, sulcatus, trisulcatus. *Vide et Peneus*.
Pendina cynosbana, fasciana, gentianeana, incarnatana, ocellana, pruniana, roborana, salicana.
Pendulinus (A.) abeillei, ater, auricapillus, banana, californicus, cayanensis, chrysocephalus, cucullatus, dominicensis, flavigaster, hypomelas, icterocephalus, jamacii, lessoni, longirostris, macrourus, maculisalatus, medius, narbonensis, nidipendulus, nigricornis, periporphyrus, polonicus, rufaxillus, rufigaster, solitaris, viridis.
Pendulinus (Hem.) ater, bidentatus, bilineatus, bipunctatus, gigas, grossus, guttatus, hasticornis, maculatus, quadrilineatus, spinosus, striatus, uniguttatus.
Penecerus rubiginosus.
Penella diodontis, plumosa, pustulosa.
Penellus blainvillei.
Penelope aburri, adspersa, albiventer, albiventris, alector, araucuan, borealis*, canicollis, circinnata, cometa, garrula, goudoti, guttata, jacuacu, jacu-caca, jacupeba, jacupemba, jacutinga, leucogastra, leucoptera, motmot, obscura, parraca, parrachoua, parragua, pileata, pipile, poliocephala, purpurascens, ruficeps, rufiventris, squamata, superciliaris, vetula, yacou.
Peneroplis auris, carinatus, dilatata, dubius, elegans, elliptica, fleuriausi, gervillei, laevigata, lanatus, opercularis, orbicularis, orbigny, polystomatium, protea, pulchellus.
Penestes tigris.
Peneta auriculata.
Peneus antennatus, caramote, cocco, cristatus, foliaceus, longirostris, mars, membranaceus, orbignyanus, quadricolor, siphonoceros, spinosus. *Vide et Penaeus*.
Penguina arctica.
Penia eschscholtzi.
Penicillus annulatus, capitatus, penicillus, phoenix, ventilabrum.
Peniculus fistula.
Penitella conradi, tubigera, wilsoni, xilophaga.

- Pennaria** cavolinii, disticha, lendigera, parasitica.
- Pennatula** alba, borealis, cynomorium, diluvii, granulosa, setacea.
- Pennella** sagitta.
- Penniretepora** antiqua, disticha, dubia, geinitzi, gracilis, grandis, lonsdalei, pluma.
- Pennisetia** anomala.
- Pentaceros** (Ech.) aculeatus, armatus, chinensis, cuningi, franklini, grandis, granulosis, hiuleus, muricatus, nodosa, reticulata, turritus.
- Pentaceros** (P.) capensis, richardsoni.
- Pentaccladia** elegans.
- Pentacoenia** elegantula, microtrema, pulchella.
- Pentacosmia** scoparia.
- Pentacrinites** agassizi, alternans, annulatus, basaltiformis, bicoronatus, briareus, britannicus, bronni, carinatus, cingulatus, cretaceus, decorus, didactylus, dubius, excavatus, fasciculosus, fossilis, goettingensis, goldfussi, hamptoni, johnsoni, jurensis, kloedeni, laevis, lanceolatus, lepidotus, milleri, moniliferus, nodulosus, pentagonalis, prius, propinquus, rotundus, scalaris, scriptus, sowerbyi, stelliferus, subangularis, subbasaltiformis, subsulcatus, subteres, tuberculatus, vulgaris.
- Pentacrinus** alpinus, alternans, asteria, bajocensis, brauni, britannicus, buvignieri, caput medusae, cenomanensis, crassus, cylindricus, dichotomus, didactylus, entrocha, europaeus, fittoni, gastaldi, goldfussi, gracilis, granularis, hiemeri, inornatus, johnsoni, laevigatus, liasinus, marcoussanus, milleri, moniliformis, neocomensis, nicoleti, nodotianus, oceani, paradoxus, pratti, propinquus, subcrenatus, sublaevigatus, venustus.
- Pentacta** crocea, diquemari, dissimilis, doliolum, frondosa, fusiformis, gaertneri, hyndmanni, inhaerens, lactea, laevis, minuta, montagi, neilli, peduncularis, pellucida, penicillus, pentactes, tentaculata.
- Pentactes** planciana, tetraquetra.
- Pentadactylosaster** oculus.
- Pentadactylus** duvauceli.
- Pentadia** corona, reniformis, spatangus, trigona.
- Pentagonaster** dubeni, pulchellus, regularis, semilunata, stellifera.
- Pentagonia** peersi.
- Pentagonica** erichsoni, ruficollis.
- Pentagonites** cincta, crenularis, equalis.
- Pentalasmis** sulcata. *Vide et Pentelasmis.*
- Pentalepas** laevis, pollicipes, vitrea.
- Pentamerus** acutolobatus, aequalis, aylesfordi, bashkiricus, beaumonti, borealis, bubo, caducus, conchidium, deshayesi, dilatatus, galeata, globosus, integer, knighti, laevis, latus, linguiferus, longissimus, magnus, oblongus, obtusus, optatus, orbiculatus, ovatus, pelagicus, plicatus, problematicus, saint-hilairei, samoedicus, sella, sieberi, sphaeralis, sphaericus, sphaeroides, transversus, ventricosus, vogulicus.
- Pentaphyllus** melanophthalmus, testaceus.
- Pentaplatarthrus** natalensis, paussoides.
- Pentapodus** nubilus, vitta.
- Pentapora** cervicornis, foliacea, taenialis, tubulata.
- Pentapriion** gerreoides.
- Pentapus** aurolineatus, iris, peroni, porosus, setosus, unicolor, vitta, vittatus.
- Pentastoma** coarctata, denticulatum, emarginatum, furcocercum, gracile, megastoma, moniliforme, oxycephalum, proboscideum, subcylindricum, subtriquetrum, taenioides. *Vide et Pentostoma.*
- Pentastomum** bifurcatum, didelphidis, euryzonum, fera, geckonis, recurvatum, setteni.
- Pentasyderina** ehrenbergi, tessellata.
- Pentatoma** abrupta, acroleucum, aculeata, acuminata, aegyptiaca, aequalis, aequinoxialis, africana, agathina, albipes, albomarginata, albomarginellus, albo-notata, albobunctata, aliena, alliaceum, amoena, analis, anchorago, angularis, antiquensis, aparines, arborea, atrox, augur, aurantiacum, baccarum, bengalensis, berylina, bicolor, bicolorata, bidens, bifasciatum, bifidula, bifida, biguttata, bimaculata, binotata, bipunctata, bison, bronzia, bubalus, bufo, buonopozensis, caenosa, calceata,

calenus, calva, capicola, carnifex, chilense, chinensis, chloris, chlorocephala, ciliata, cincta, clauda, coeruleus, collaris, complanata, concentricum, concinna, conjugens, consimilis, consociata, crassa, crassiventris, crassula, crocipes, cruciata, crudelis, cruenta, cucullatus, cumingi, custos, cynica, decoratum, delia, dentata, dentifrons, deplanata, didyma, difficilis, dimidiata, discolor, dissimilis, distinguenda, dumosus, elegans, emarginata, eryngis, erythrasis, exapta, fabricii, faceta, falleni, fascifera, ferrugator, festiva, fibulatum, fieberi, fimbriata, fimbriolatum, flavicollis, flavicornis, flavomarginatus, formosa, frontalis, fumipennis, furcata, fuscus, gamma, germari, gladiator, gloriosa, grandispinus, grata, griseus, haemorrhoidalis, harrisi, hilaris, hirtipes, histeroides, hostilis, ignobile, incarnatum, inconspicua, indica, inserta, interrupta, interstincta, jaksoniensis, janus, juniperinum, laborans, lanatus, lanceolata, lata, lateralis, laticornis, leii, le reddii, leucogrammus, ligata, limbatum, lineatocollis, linx, litura, liturata, lunata, lunula, lurida, luteicornis, luteipennis, luteo-varia, macraspis, macrocnemis, marginale, marginata, marginella, maurus, melacanthum, melanocephala, miniata, miniatocollis, morio, mucronata, nepalensis, nervosa, nigricornis, nigripes, nigrolineatus, nigro-violacea, nitida, nobilis, notatum, notulatum, oblonga, obscura, octopunctata, oleraceus, orbitalis, ornatus, orthacantha, ovalis, pallidus, pallescens, pallicornis, pallipes, pantherina, pavonina, pennsylvanica, pensylvanica, perlata, perspicua, petiti, phymatophora, picea, pictum, platygaster, plicatocollis, polita, prasina, propinqua, proxima, pulchella, pulchra, punctata, punctipes, purpurea, purpuripennis, pusillum, pustulata, quadrimaculata, reflexa, regalis, regia, regulare, roei, rubro-fusca, rufipes, rufo-spilota, rugicollis, rugulosa, rutilans, rutilum, sanguinipes, saucia, scabricorne, scarabaeoides, schellenbergi, scissicollis, scutellata, semimarginata, semivittatum, senilis, septemdecimmaculata, serratum, serva, smaragdula, spectabilis, spilota, spiniceps, spinulosa, splendens, stigmatica, stolli, subferruginea, sublurida, subsericea, tenebraria, tenebrosa, tessellata, tetrastigma, torquata, torrida, trifasciata, trilineata, trimaculata, tri-notata, tripunctigera, tristigma, tristigmata, tristis, tri-triata, umbrina, undata, unicolor, varia, varicolor, variegata, variolaria, varipennis, ventralis, vernalis, verrucosa, violacea, violascens, viridi-aenea, viridicollis, viridis, vitrea, wilkinsoni, wolff, yolofa, ypsilon.

Pentatrematites acuta, angulata, astriformis, inflata, oblonga, orbicularis, pentangularis, piriformis, planus. *Vide et Pente*→.

Pentatremites orbignyianus, pentangularis.

Pentelasmi anatiferus, anseriferus, cheloniae, dentata, dilatata, donovani, fascicularia, hilli, inversus, laevis, leachi, obesus, pellucidus, radians, radula, spirulae, spirulicola, striatus. *Vide et Pentelasmi*.

Pentetagonaster chilipora, costata, dutempleana, dutemplei, fleuriausa, jurensis, malbosi, moulini, quinqueloba, schulzei, scutata, stratifera, tubulata, variabilis.

Pentetrematites gracilis. *Vide et Penta*→.

Penthaleus amictus, bipustulatus, erythrocephalus, erythropus, guttatus, haematopus, militaris, ovatus, pallipes, rhodometas, saxatilis, virescens.

Penthe funerea, obliquata.

Penthe vermicularis.

Pentheres leucomelas, leuconotus, leucopterus, niger.

Pentheria concolor, flaviscapulatus, laticauda, rubritorques.

Penthetria (A.) macroura.

Penthetria (Dipt.) atra, collaris, fulvicollis, funebris, heros, iaponica, melanaspis, nigrita, plagiata, thoracica.

Pentheus punctatus.

Penthius atomaria, farinosus, granulatus, molestus, parvulus, pinguis, subcylindricus, variegatus.

Penthimia atra, coeruleipennis, longivittata.

Penthina aceriana, acutana, amoenana, areolana, atro-punctana, bicinctana, capreana, carbonana, cynosbana, dimidiana, grevillana, hartmanniana, incarnatana, leucomelana, lienigiana, lugubrana, luscana, minorana, neglectana, ocellana, ochroleucana, ochromelana, oculana, pauperana, praelongana, revayana, sauciana, servillana, simplana, sororculana, sororiana, suffusana, thapsina, triquetra, ulmana, variegana.

Pentholaea frontalis, melaena.

- Penthophera** detrita, morio, nigricans, rubea.
- Penthus** tenebricosus.
- Pentila** undularis.
- Pentilia** castanea, egena, insidiosa.
- Pentodon** algerinus, aries, bilobus, brunneus, caminarius, castaneus, curtus, distans, elatus, emarginatus, mongolicus, monodon, nireus, pimelioides, punctatus, puncticollis, subdilatus, sulcifrons, tauricus, ventricosus.
- Pentonyx** americana, andersoni, capensis, gehafie.
- Pentostoma** taenoides. *Vide et* Pentastoma.
- Pentremite** florealis, globosa, pyriformis.
- Pentremites** acutus, angulatus, astraformis, campanulatus, cherokeus, derbiensis, elliptica, inflatus, lateriformis, melo, norwoodi, oblongus, orbicularis, orbignyanus, ovalis, pailletti, pentangularis, puzos, reinwardti, schulzei, stelliformis, tennesseae, truncata, verneuili.
- Pentremitidea** paillettei, schultzi.
- Peperonota** harringtoni.
- Pephredo** capillata, heteraclitus, hirsuta, potamogeti.
- Pephricus** paradoxus.
- Pepis** plutus, strenua, thalassina.
- Peplia** ariste, caricae, dainaena, lamis, lisimaena, mante, menalcis, molpe, pelidna, pelope.
- Peplidia** maderae.
- Pepliphorus** cyanus, euechylas.
- Peploptera** acromialis, angustata, cylindriformis, dorsata, eckloni, florida, postica, stricta, trifida, trilineata, tritaeniata.
- Peplosmilii** austeni.
- Pepoaza** andecola, coronata, dominicana, flavida, gutturalis, irupero, livida, maritima, montana, murina, nivea, polyglotta, pyrope, rixosa, variegata, velata.
- Peprilus** crenulatus.
- Pepsis** abbreviata, affinis, albifrons, amethystina, apicalis, arenaria, argentata, atrata, atripennis, atrox, auripennis, bicolor, bonariensis, castanea, chiliensis, cincta, coerulea, coeruleana, crucis, cyanea, cyanescens, cyanipennis, decolorata, decorata, dimidiata, dives, domingensis, elegans, elevata, elongata, equestris, errans, fasciata, femorata, ferruginea, fervens*, festiva, flavicornis, flavipennis, floralis, fulvipennis, fuscipennis, gigas, gracilis, grossa, haemorrhoidalis, heros, hirtipes, inclyta, johannis, lepeletieri, limbata, lusca, lutaria, luteicornis, luteipennis, macula, marginata, maxillaris, maxillosa, menechma, mutabilis, nigrita, nitida, obscura, ocellata, ornata, pensylvanica, petiti, plumbea, pretiosa, pubescens, pulchella, quadrata, quadripunctata, reaumuri, rubra, ruficeps, ruficornis, rufipennis, rufipes, saphirus, seladonica, sericans, sericea, sericornis, severa, smaragdula, sommeri, speciosa, stellata, sulphureicornis, T, terminata, thomae, thoreyi, thunbergi, tibialis, tomentosa, vagabunda, varipennis, violacea, virescens, viridis, viridisetosa, xanthocera.
- Pera** amnica, appendiculata*, fluviatilis, gibba, henslowiana.
- Peracle** flemingi, physoides.
- Peracyon** cynocephalus.
- Perameles** affinis, arenaria, bougainvillei, doreyanus, ecaudatus, fasciata, fusciventer, gunni, harveyi, lagotis, lawson, macrura, myosurus, nasuta, obesula, tuckeri.
- Peramys** brachyurus, crassicaudata, pusilla, tristriata.
- Peranema** contorta, globulosa, inflata, limpida, margaritifera, marina, nebulosa, protracta virescens.
- Peras** nigra.
- Perasia** ora, strigillar, ule.
- Perca** aculeata, acuta, aegyptiaca, ambasis, americana, angusta, antarctica, areata, argentata, argentea, argus, beaumonti, boops, brunnich, calcar, channus, chrysops, ciliata, cyprinodon, diacantha, elongata, fernandeziana, flava, purpurea, flavescens, fourcroyi, fulva, fulviflamma, gracilis, granulata, grunniens, hexagonata, holocentrus, italica, korker, laevis, latus, lepidota, lorenti, loubina, marginata, marina, merra, microstoma, minima, minuta, mitchilli, moguntina, mucronata, murdian, nebulosa, nigrescens, nigropunctata, notata, pentacantha, plumeri, plumieri, praslin, prognathus,

- pittacus, pulchella, punctata, punctulata, regia, ringens, robusta, rubra, sacer, safga, salmona, samnata, scandens, septentrionalis, serrato-granulata, sinuosa, spinifer, spinifera, stridens, triacantha, trucha, trutta, umbra, uraschista, urodeta, vanloo, varia, variabilis, vitrea, whitei.
- Percarina** demidoffi.
- Percina** bimaculata.
- Percis** cancellata, colias, cylindrica, emeryana, hexophthalma, maculata, nebulosa, niethemera, ocellata, polyophthalma, pulchella, punctata, punctulata, semifasciata, sexfasciata, xanthozona.
- Percnopterus** aegyptiacus, aura, egyptianus, giganteus, monachus, niger, urubu.
- Perconia** atomaria, cembraria, dispersaria, glarearia, immoraria, irroraria, quinquaria, rosidaria, strigillaria.
- Percophis** brasiliensis, brasiliensis.
- Percopsis** guttatus, pellucida.
- Percosia** diffinis, laticollis, pastica, patricia, sicula, timida.
- Percostoma** angustum.
- Percus** bilineatus, brunneipennis, ebenus, loricatus, navaricus, nepalensis, piger, politus, ramburi, villae.
- Percidula** rubicula, rubicolor.
- Perdix** (A.) adansonii, aeruginosus, algira, altaica, argoondah, aurita, australis, barbarica, belgica, bonhami, borealis, californica, capensis, capueira, caucasica, charltoni, chukar, cineracea, cinereo-alba, clamator, clappertoni, concentrica, coqui, coronata, coturnix, cranchi, cristata, cruenta, curvirostris, damascenus, dentata, erckelli, erythrorhyncha, fasciata, fuscus, gardneri, graeca, griseogularis, gularis, guttata, gutturalis, gutturata, gymnophthalmos, hardwicki, hepburni, heyi, javanica*, lechobo, lereva, levaillanti, levaillantoides, lineolatus, longirostris, lunulata, macro-rhyncha, maculata, megapodia, melanocephala, naevia, neoxenus, nigelli, ocellata, ocella, olivacea, orientalis, pectoralis, pentah, personata, picta, plumifera, polonica, punctulata, raalteni, realteni, rubiginosa, rubricollis, ruina, rufo alba, rupestris, rupicola, saxatilis, scutata, sephaena, sonnini, sphenura, swainsoni, textilis, thoracica, torquata, torqueola, tuturnix, vaillanti, varia, ventralis. *l'ide et Perdix*.
- Perdix** (G.) reticulatus.
- Perdrix** gularis, labatiei, ocella, tetrao. *l'ide et Perdix*.
- Perforatella** bidentata.
- Perga** bella, bicolor, dorsalis, ferruginea, kirbyi, latreillei, lewini, lewisi, polita, scabra, ventralis.
- Perialia** eyrei, ornata.
- Peribleptus** scalptus.
- Peribolites** radiata.
- Peribolus** adansonii, andansonii, mauritanus.
- Pericalles** perpulcher.
- Pericallia** evonymaria, matrona, syringaria.
- Pericallus** ligneus.
- Pericalus** alternans, cicindeloides, guttatus, ornatus, undatus.
- Pericephas** macronemus.
- Perciera** bicorna, cornigera, cornudo, cornuta, heptacantha, ovata, setigera, taurus, tiarata, villosa.
- Periclimenes** insignis.
- Pericopis** cruenta, euroelia, tricolora, turbida, zerbina.
- Pericoptus** truncatus.
- Pericosmus** spatiosus.
- Pericrocotus** affinis, ardens, brevirostris, cinereus, elegans, erythropygius, flagrans, flammeus, flavogularis, igneus, miniata, minutus, modestus, peregrinus, princeps, roseus, solaris, speciosus, subflavus, xanthogaster.
- Pericyma** albidentaria.
- Peridea** serrata, trepidi.
- Perideraeus** granellus.
- Peridinetus** irroratus, maculatus, sellatus, signatus, zinckenii.

- Peridinium** acuminatum, adriaticum, alpinum, cincta, cornutum, delitiense, divergens, furca, fuscum, fusiforme, fusus, macroceros, michaelis, monas, oculatum, pulvisculus, pyrophorum, tabulatum, tridens, tripos.
- Peridroma** aqua, idonea, saucia, suffusa.
- Peridromia** arethusa, feronia.
- Periechocrinites** articulosus, costatus, globosus.
- Perieocrinites** articulosus, costatus, globosus.
- Perieges** bardus.
- Periglyphus** gastris.
- Perigona** pallida.
- Perigonimus** muscoides.
- Perilampus (Hym.)** alexinus, angustus, antennatus, auratus, aureoviridis, auriceps, cyaneus, eutellus, femoralis, hyalinus, laevifrons, lepreos, megacephalus, micans, nigricornis, nitens, pallipes, platigaster, saleius, splendidula, splendidus, triangularis, violacea.
- Perilampus (P.)** aequipinnatus, cachijs, canarensis, devario, elingulatus, guttatus, macropodus, macropterus, macrouru, malabaricus, mysoricus, ostreographus, perseus, psilopteromus, recurvirostris, reticulatus, striatus, thermophilus.
- Perilitus** abominator, aethiops, affinis, albiditarsus, albitarsis, atrator, bimaculatus, brevicollis, brevicornis, brevipes, caligatus, cerealium, chlorophthalmus, chrysophthalmus, cinctellus, clavatus, colon, conjungens, consimilis, consuetor, conterminus, deceptor, delator, dilutus, dispar, distinguendus, erythrogaster, fasciatus, filator, flaviceps, formosus, fuscipes, gracilis, ictericus, idalius, jaculator, laticeps, leviventris, longicaudis, longicornis, luteus, micropterus, obfuscatus, obsoletus, pallidus, pallipes, pendulator, peregrinus, petiolaris, petiolatus, picipes, profligator, pulchricornis, rubens, rubriceps, ruficeps, rufipes, ruralis, rutilus, scutellator, secalis, simulator, tabidus, terminatus, unicolor, versicolor, vexator, wesmaeli, xanthomelas.
- Perilopa** peltidea, vestita.
- Perilypa** atralis.
- Perilypus** carbonarius.
- Perimachetus** australis, tenebricosus.
- Perimecus** communis, fulvipes, similis.
- Perinephela** fuscalis, glabralis, lancealis, nubilalis, ostentalis, silacealis.
- Perineura** dualis.
- Periodon** marginalis.
- Periodus** koenigi, marginalis.
- Periope** auscultator.
- Periophthalmus** argentilineatus, borneensis, freycineti, kalolo, koelreuteri, modestus, novemradiatus, papilio, ruber, schlosseri, septemradiatus, tredecimradiatus.
- Periops** hippocrepis, pyramidum.
- Periorges** subsignatus.
- Peripaedium** heliops.
- Peripatus** blainvillei, juliformis.
- Periphanes** delphini, spectabilis.
- Periphoba** amalia, dumeti.
- Periphys** aspericollis.
- Peripia** peroni, variegata.
- Periplacis** glaucoma.
- Periplaneta** americana, aterrita, atrata, australasiae, brunnea, melanaria, orientalis, ustulata.
- Periples** elongatus.
- Periploma** anguliferum, antiqua, argentaria, biarmica, colombiana, compressa, corallina, donaciformis, elongata, inaequalis, jurensis, lenticularis, myalis, neocomiensis, obtusa, ovata, planiuscula, planulata, robinaldina, rupicola, sapho, simplex, trapezoides.
- Peripora** ligeriensis*.
- Periporphyrus** atropurpuratus, erythromelas.
- Perisama** amyntichus, bonplandi, euriclea, humboldti, lebasii, oppeli, orbigny, philinus.

- Perischodomus** biserialis.
Periscopos goudoti.
Perismilia bilobata, elongata, hippuritiformis, martiniana.
Perisoreus canadensis, infaustus.
Perisphaeria affinis, ciliata, cingulata, dispar, erythrocephala, flavicornis, fusca, gracilis, granicollis, micans, styliifera, unicolor, versicolor, verticalis.
Perisphaerus armadillo, laevis.
Perispongia conica, reflexa.
Peristedion cataphracta, chabrontera, malarmat, moluccense, orientale.
Peristera afra, bitorquata, boliviana, bronzina, calcoptera, cambayensis, capensis, castanea, chalcospilos, chrysauchenia, cinerea, cristata, cruziana, cuprea, dominicensis, dubia, dussumieri, elegans, erythroptera, geoffroyi, humeralis, humilis, jamaicensis, larvata, malaccensis, martinica, mayeri, mexicana, montana, mystacea, pectoralis, picturata, risoria, rufaxilla, scripta, suratensis, tenera, trifasciata, turtur, tympanistria, vinacea, violacea.
Peristerea auriculata.
Peristethium cataphractum.
Peristoma merdueniana.
Peritelus bellicus, bisignatus, chrysorrhæus, familiaris, famularis, globulus, griseus, lateralis, latifrons, leucogrammus, necessarius, noxius, puncticollis, rudis, rusticus, schoenherri, seminulum, senex, setulifer, sphaeroides, trivialis.
Peritrema lobularis.
Peritricha candida, cometa, cylindracea, cylindrica, granata, medusa, ovulum, parhelia, pleuronectes, polyporum, signata, sol, vacillans.
Peritrichia capicola, cinerea, dimidiata, distincta, nigrita, nitidipennis, proboscidea.
Perizoma albulata, blandiata.
Perla abdominalis, abnormis, aegyptiaca, affinis, alpina, angustata, annularis, annulicauda, arenosa, baetica, barcinonensis, bicolor, bifasciata, bipunctata, brasiliensis, burmeisteri, caligata, capitata, caucasica, cephalotes, chlorella, cincta, citronella, costalis, couloni, cymodocea, debilis, dilaticollis, dispar, dubia, duvauceli, fenestrata, ferreri, flaviventris, frontalis, fuscipennis, gayi, geniculata, grandis, griseipennis, guerini, hispanica, hyalina, imhofia, impunctata, infusca, intricata, klugi, limbata, litura, longicauda, lutaria, lutea, lycorias, maculata, madritensis, malaccensis, marginata, media, mexicana, microcephala, minima, minor, montana, morio, nervosa, nigra, nigrocincta, nicicola*, nubecula, nubes, obscura, occipitalis, pallida, parisina, pennsylvanica, picta, picteti, polita, proxima, pygmaea, rectangula, reticulata, rivulorum, ruficrus, selysi, sericornis, servillei, taura, tenella, tibialis, torrentium, variegata, venosa, ventralis, virens, virescens, viridella, viridis, vitripennis, vitticollis, xanthenes.
Perlamantis alliberti.
Perlamater inflata, punctata, vulgaris.
Perlamorpha hieroglyphica, peleus.
Perna alata, algirica, aliformis, americana, antiqua, avicularis, aviculoides, bachelieri, bicolor, californica, canina, chactas, communis, complanata, corallina, costellata, crassitesta, cretacea, dentifera, elephantina, ehippium, erecta, femoralis, fischeri, fragilis, francei, gaudichaudi, gueuxi, hagenowi, incisa, isognomum, isogonoides, lamareki, lanceolata, legumen, listeri, luciensis, lusitanica, marsupium, martiensis, maxillaris, maxillata, mulleti, mytiloides, nucleus, obliqua, obliquata, ovata, pes lutrae, picta, plana, planorbis, polita, quadrata, quadrilatera, rauliniana, ricordeana, rostrata, royana, rugosa, rupella, silicea, soldanii, subspathulata, suevica, sulcata, torta, tranquebarensis, vetustus, vulsella.
Pernis albigularis, albogularis, apium, apivorus, bharatensis, cristatus, elliotti, jerdoni, maculosa, madagascariensis, ptilorhynchus, ruficollis, torquata, vesparum.
Pernites lithophagus.
Pernopsis pyrrhoptera.
Perodicticus geoffroyi.
Perognathus fasciatus.
Peromatus notatus.
Peromeles aequalis.

Peromyscus arboreus.

Peronaea asperana, borana, consimilana, controvvitana, coronana, costimaculana, desfontaniana, favillaceana, logiana, obsoletana, reticulana, rufana, schalleriana, trigonana, tristana, variegana.

Peronea abildgaardana, albicostana, albipunctana, albistriana, alboflammeana, albovittana, arietana, bentleyana, bi-triana, boscana, brunneana, capucina, controvvitana, chantana, cirrana, combustana, crassana, cristallana, cristana, desfontainiana, divisana, eximiana, fagana, fulvocristana, fulvovittana, gumpinana, lacordairana, latifasciana, leachana, lefebvriana, lichenana, lipsiana, logiana, lorqueniana, mar-morana, plumbosana, profanana, radiana, ramistriana, reticulana, ruicostana, ruicristana, semirhombana, semiustana, sequana, sericana, similana, spadiceana, striana, strigana, subcristallana, subcristana, substriana, subvittana, umbrana, unicolorana, variegana, vittana.

Peronecera fuscipennis, lucidipennis.

Peronia (Dipt.) rostrata.

Peronia (G.) alderi, mauritiana, partenopea, parthenopeia, peroni, punctata, tongensis.

Peronopsis integra.

Perophora melsheimeri.

Peropus (P.) bilobus.

Peropus (R.) mutilatus, oualensis, peroni, variegatus.

Perothis dubia, eschscholtzi.

Perothops mucidus.

Perotis buqueti, caeca, cuprea, lavateri, lugubris, striata, unicolor.

Perperus innocuus, insularis, obscurus.

Perreyia lepida.

Perryhybris eieidias, epimedusa, eueidias.

Perrisia urticae.

Perrona tritonum.

Persa persa, turaco.

Persephona lamarcki, latreillei, lichtensteini.

Persicola avellana, lineata, maculata.

Persicula carneola, variabilis.

Persona anus.

Perspicilla leucoptera.

Perteretum obliquum, rectum.

Perthostoma aurantiacum, testaceum.

Perus niambu*.

Peryphus affinis, agilis, albipes, alpinus, angustatus, astrabadensis, atrocaeruleus, biguttatus, bimaculatus, brevis, brunnicornis, brunnipes, caucasicus, coelestinus, coeruleus, concinnus, concolor, conformis, corpulentus, crenatus, cruciatus, crucigerus, cupreus, dalmatinus, decorus, deletus, depressiculus, difficilis, dimidiatus, elegans, elongatus, eques, erosus, fasciolatus, fellmanni, femoratus, fluviatilis, fraxator, fuscicornis, fuscomaculatus, hispanicus, incertus, latus, leachi, litigiosus, littorale, littoralis, lucidus, lunatus, maritimus, menetriesi, modestus, multipunctatus, neglectus, nitidulus, nitidus, nordmanni, oblique-lunatus, obscurellus, obsoletus, olivaceum, ovalis, ovipennis, pallidipennis, persicus, picipes, pictus, planus, praeustus, prasinus, prudens, pulcherrimus, punctato-striatus, quadrimaculatus, rufipes, rupestris, rupicola, saxatilis, scopulinus, sordidus, stomoides, tetraspilotus, tibialis, transbaicalicus, transparens, tricolor, ustus, varicolor, violaceus, viridi-aeneus.

Petacula canicularis.

Petalaster columbia, hardwicki.

Petalepas schlegeli.

Petalifera petalifera.

Petaloccephalus coronatus.

Petalochirus biguttatus, cruciatus, rubiginosus, variegatus.

Petalochilus gemellus.

Petalocochus domingensis, sculpturatus.

Petalodes (Col.) laminosus.

Petalodes (Hym.) unicolor.

Petalodus acuminatus, dentatus, hastingsi, hastingsiae, laevissimus, marginalis, psittacinus, radicans, rectus, rhombus, sagittatus, serratus.

Petalophora (Col.) costata.

Petalophora (Dipt.) capitata.

Petalopora pulchella.

Petalops elegans.

Petalopteryx syriacus.

Petalopus (Col.) metallicus.

Petalostoma coronatus.

Petalura carovei, flavipes, gigantea, selysi.

Petascelis bilobus, dilatatus, renipes, tribulus.

Petasia (G.) bidens, cobresiana, dolopidia, edentula, fabricii, fulva, trochiformis, unidens.

Petasia (Lep.) casinea, grisea, ministra.

Petasia (Orth.) cruentata, olivacea.

Petasida ephippigera.

Petasina fabricii, fulva.

Petasophora anas, cyanotus, delphiniae, geoffroyi, gouldi, iolota, serrirostris, thalassina.

Petaurista flaviventer, leucogenys*, macroura, peroni, pygmaea, sciurea, taguanoides.

Petauristes femorata, posticata, varia.

Petauristus borealis, canadensis, taguan.

Petaurus ariel, breviceps, cooki, flaviventer, leucogaster, macrourus, peroni, pygmaeus, sciureus, taguanoides.

Petavia sakuni.

Peteina erinacea.

Petraia aequisulcata, bina, celtica, decussata, dentalis, gigas, koçhi, pauciradialis, pluriradialis, profunda, quadrata, radiata, regulus, rugosa, semistriata, subduplicata, tenuicostata, uniserialis, ziczac.

Petreus thetys.

Petricia punctata.

Petricola abbreviata, amygdalina, arcuata, bidentata, bullata, californica, canaliculata, carditoides, centenaria, chamoides, chilensis, compressa, concinna, coralliophaga, cordieri, costata, costellata, cylindracea, dactylus, denticulata, depressa, discors, divergens, elegans, elliptica, eremita, exilis, fabagella, fornicata, fragilis, gibba, inflata, irus, laevis, lamellosa, lapicida, linguatula, lithophaga, lucinalis, monstrosa, nivea, nuciformis, oblonga, ochroleuca, patagonica, peregrina, pholadiformis, rariflamma, robusta, roccellaria, rubra, rugosa, ruperella, rupestris, semilamelata, sinuosa, solida, striata, subglobosa, suborbicularis, sulcata, tenax, tenuis, variabilis, ventricosa.

Petrobius spinimanus.

Petrochelidon americana, fulva, leucoptera, leucorhoa, melanogaster, meyeri, nigricans.

Petrocincla affinis, albicapilla, brevipes, concolorhyncha, cyanea, cyanota, eremita, erythrogastra, europaea, explorator, homochroa, leucoceps, longirostris, maal, manillensis, pandoo, ruiventris, rupestris, saxatilis, semirufa.

Petrocossyphus affinis, aurantiiventer, castaneocollis, citrinus, cyaneus, cyanus, cyclo-rhynchus, ferrugineoventer, goureyi, maal, manillensis, michaellis, pandoo, pandu, polyglottus, saxatilis, unicolor.

Petrodroma bailloni, fusca, mexicanus, muraria, sanguinea.

Petrodromus tetradactylus.

Petrodus patelliformis.

Petrogale concinna, inornata, lateralis, penicillatus, robusta.

Petrogallus fuscus.

Petrognatha gigas.

Petroica albifrons, australis, bicolor, coccinea, coccinogaster, cucullata, dieffenbachi, erythrogaster, fusca, goodenovi, jardini, macrocephala, modesta, monticola, multicolor, phoenicea, pulchella, pusilla, rhodinogaster, rhodogastra, rosea, ruficollis, rufiventris, superciliosa, toitoi.

Petrolepis caucasica, radiata, specularis, venosa.

Petromus typicus.

Petromys typicus.

Petromyzon adriaticus, americanus, appendix, argenteus, bicolor, caecus, cirrhatu8, lampetra, leucopterus, lunabricalis, mordax, niger, nigricans, nigrum, plumbeus, septoenuil, tridentatus.

Petronason bicolor, collana, flamnicaps, longicauda, niger, psittacus, pulchellus, ruppelli, viridis.

Petronia brachydaetyla, dentata, petronella, rupe-tris.

Petrophassa albipennis.

Petrophila (A.) cyanocephala, turdoides.

Petrophila (Lep.) fluviatilis.

Petrophilus findeli.

Petrophora diversilineata, divisata, maeniata.

Petroscirtes ancyledon, bankieri, nitratus, variabilis.

Pettis quadrilineata. *Vide et Peltis.*

Petunculus ovatus.

Peucaea bachmani, lincolni.

Peziza cacabus.

Pezodontus cupreus.

Pezolochus rufipes.

Pezomachus abbreviator, aberrans, acarorum, acmulus, agilis, alacer, alienus, analis, anceps, anthracinus, applanatus, aquisgranensis, aries, astutus, atricapilus, attentus, audax, avarus, bellicosus, bicinctus, bicolor, blandus, bonellii, brachypterus, brachyurus, calidus, calvus, canaliculatus, carnifex, cautus, celer, circumcinctus, comes, congruus, consobrinus, consociatus, corruptor, currens, cursitans, cyanurus, debeyi, debilis, decipiens, declivis, denudatus, derasus, detritus, discedens, distinctus, dromicus, dubitator, ecarinatus, edentatus, emarcidus, ephippiger, esenbecki, exareolatus, fallax, fasciatus, faunus, festinans, flavipes, fornicarius, formosus, forticornis, fraudulentus, fulveolatus, furax, furtivus, fuscicornis, gentilis, geochares, glabratus, gracilis, gravenhorsti, helvolus, hemipterus, hoffmannsegi, hopei, hortensis, hostilis, humilis, imbellis, immaturus, impotens, incertus, incubitor, ineptus, inermis, infirmus, inquilinus, insectator, insolens, instabilis, integer, intermedius, juvenilis, kiesewetteri, languidus, latrator, latro, lepidus, leptogaster, lividus, longipennis, lucidus, lugubris, lutescens, maugeri, mediocris, meigeni, micropterus, micrurus, modestus, molestus, muelleri, nanus, neesi, nigricornis, nigrinus, nigrocinctus, notabilis, ochraceus, parvulus, pedestris, pedicularius, peregrinator, petulans, posthumus, proditor, protuberans, providus, proximus, puberulus, puerilis, pulcher, pulex, pulcarius, pumilus, quaesitorius, ratzeburgi, reconditus, rotundiventris, rufulus, scitulus, sedulus, sericeus, simulans, sordidus, spadiceus, speculator, spurius, squalidus, steveni, subzonatus, sudeticus, sylvicola, tener, terebrator, tinidus, tonsus, transfuga, tristis, trux, unicolor, vagabundus, vagans, venatorius, venustus, vicinus, viduus, vigil, vorax, vulnerans, vulpinus, xylochophilus, zonatus.

Pezophaps solitaria.

Pezophorus terrestris.

Pezoporus (A.) terrestris.

Pezoporus (Col.) coarctatus.

Pezus niambu, serratus, yapura, zabele.

Phabalectryo nicobarica.

Phabotypus palumbarius.

Phacecerus olivaceus.

Phacecorynes sommeri.

Phacellocera scopulicornis.

Phacellocerus buqueti.

Phacellophora camtschatica.

Phacellopterus rufulus.

Phacellus boryi, latreillei.

Phacelobarus singularis.

Phacelomonas pulvisculus.

Phacelura paludinae.

Phacemastix baridioides.

Phacephorus vilis.

Phacites lenticularis, multilocularis, oolithus gothlandicus, serpulites, vertebralis.

Phacochoerus aeliani, aethiopicus, africanus, haroja, incisivus, koiropotamus.

Phacodes lentiginosus, mossmanni, personatus.

Phacodus punctatus.

Phacolepis brama, buccalis, latus.

Phacops anchlops, apiculatus, arachnoides, asper, boeckii, brevicauda, brevipes, brongiarti, bromii, bulbiceps, callicephalus, caudatus, cephalotes, ceratophthalmus, conophthalmus, cryptophthalmus, cultrifrons, dalmanni, decorus, dejeani, deshayesi, dubius, dujardini, eichwaldi, elongatus, exasperatus, extensa, foecundus, gelasinus, globiceps, glockeri, goldfussi, granulatus, hausmanni, hawlei, hoeninghausi, horridus, hoseri, intermedius, jamesi, laciniatus, laevigatus, laevis, laticauda, laticaudus, latifrons, limbatus, macrophthalmus, maximus, mucronatus, muchisoni, obtusicaudatus, oculatus, odontocephalus, ovoideus, parabola, pentagonus, philipsi, plicata, proaeus, proavius, protractus, protuberans, punctata, quadratus, reclinator, reussi, rotundifrons, ruderalis, sclerops, sieberi, signatus, socialis, solitarius, sphaericus, spinifer, stellifer, sternbergi, subariolari, trapeziceps, truncato-caudatus, tuberculatus, variolaris, verrucifer, weaveri.

Phacopteryx granulata.

Phacostomus dimidiatus, patellanus, planus, similis.

Phacus longicauda, tripteris, triquetra.

Phaea dapilis, dilecta, saperda.

Phaeca nils-soni, phoenicura, rubecula, suecica.

Phaedinus microthorax, moestus, tricolor.

Phaedon adonidis, affinis, armoraciae, aucta, betulae, carniolicus, clavicornis, cochleariae, concinna, cyanopterus, fastuosa, foveolatus, gomphoceros, marginella, nigro-maculatum, polygoni, puncticollis, raphani, semimarginata, sibiricus, tumidula, unicolor, viride, vitellinae.

Phaedia insularis, terricola.

Phaedorpus candidus, togatus.

Phaegorista agaristoides.

Phaen → *Vide et Phen* →, **Phoen** →.

Phaenerobranchus cepedei.

Phaeneroptera septentrionalis.

Phaenicocerus rotundicollis.

Phaenicophaeus leucogaster, pyrrocephalus, tricolor.

Phaenicophaus calyorthynchus, javanicus, leucogaster, melanognathus, montanus, superciliosus, viridis.

Phaenicopterus croizeti, ignipalliatu, parvus.

Phaenicornis aureopygia, brevirostris, flammeus, peregrina, princeps, sordidus.

Phaenicura caeruleocephala, cyanecula, leucocephala, nipalensis, rubricauda, rutilicilla, schisticeps, suecica, tricolor.

Phaenithon altosparus, callosus, clavicornis, costatus, cryptocephaloides, figuratus, gravis, guttulatus, implicatus, inconditus, leopardinus, moerosus, nigropunctum, plagiatus, semigriseus.

Phaenocora megalops.

Phaenognatha erichsoni.

Phaenognathus thalassinus.

Phaenomeris bescki, magnifica.

Phaenomerus sundewalli.

Phaenops asimilis, longipes, subcuprea.

Phaeochlaena bracteola, medarda, mononeura, priverna, privigna, tendinosa.

Phaeochrous senegalensis.

Phaeocyma calycantha, fluctuaria, lunitera.

Phaeogenes alternans, amaeus, arutus, bellicornis, callopus, cephalotes, coryphaeus, eques, eximius, flaviventris, fuscicornis, histrio, homochlorus, impiger, infimus, ischiomelinus, jucundus, juvenilis, lunatus, macilentus, melanogonus,

minutus, modestus, nanus, nigridens, ophthalmicus, planifrons, promarius, rusticatus, scutellaris, semivulpinus, stimulator, suspicax, trepidus, vafer, versutus.

Phaeopus arquatus, borealis, gaurana, phaeopus, pygmaeus.

Phaeoxantha bifasciata, cruciata, klugi, limata, nigricollis, testudinea.

Phaesyle brullaria, caesiaria, coraciaria, cyanaria, flavicinctaria, malvaria, miaria, polaria, psittacaria.

Phaesyloides albilata, caesiata, centaureata, flavicincta, griseicinctata, rubigicinctata, rupestrata, venosata.

Phaethon catesbyi, edwardsi, flavirostris, fulvus, lepturus, membranaceus, novae hollandiae.

Phaethonides archiaci, latens, membranaceus, planicauda, striatus.

Phaethornis ereinita, eurynome. *Vide et* **Phoethornis**.

Phaeton (A.) lepturus. *Vide et* **Phaethon**.

Phaeton (Cr.) archiaci, latens, planicauda, striatus.

Phaethornis anthophilus, apicalis, augusta, augustae, bourcierii, brasiliensis, ciliatus, conurus, davidianus, emiliae, eurynomus, guy, hispidus, intermedius, leucophrys, malaris, melanotis, philippii, pretrei, pygmaeus, rufigaster, squalidus, superciliosus. *Vide et* **Phaethornis**.

Phaetusa galericulata, magnirostris, melanotis.

Phagocata gracilis.

Phagonia flavicornis, smaragdina.

Phaiona steropes.

Phaopicos blythi, brachyurus, jerdoni, pectoralis, tristis.

Phakellopleura fascicularis.

Phakellura hyalinata.

Phalacrocorax africanus, albidus, albigula, albus, atriceps, bicristatus, brasiliensis, brazilianus, brevirostris, capensis, carbo, carboides, carunculatus, cirrhatus, cirriger, cristatus, dilophus, erythrops, flavirhynchus, floridanus, fuscicollis, gaimardi, graculus, hypoleucus, imperialis, javanicus, leucogaster, leuconotus, leucurus, lugubris, magellanicus, medius, melanoleucos, niger, novae hollandiae, pelagicus, perspicillatus, punctatus, pygmaeus, resplendens, sarmientonus, sinuosus, splendens, sulcirostris, townsendi, urile, varius, violaceus.

Phalacroma applanatum, bibullatum, carinatum, ellipticum, emarginatum, gibbosum, laevigatum, nudum, ovatum, priscum, quadrinotatum, scutiforme.

Phalacromya submetallica, subrostrata.

Phalacropterix fucella, muscella, plumistrella, vitrella.

Phalacrus achillaeae, aeneopiceus, aeneus, affinis, analis, apicalis, apicalis, bisignatus, brunneus, capensis, caricis, castaneus, cognatus, consimilis, corruscus, corticalis, cybioides, difformis, dimidiatus, flavicornis, geminus, globosus, granulatus, grossus, immaculatus, latus, leachiellus, lemnae, lemniae, mandibularis, maritimus, marmoratus, minutus, multistriatus, nigrinus, nitens, nitidulus, nitidus, ovatus, pallipes, pedicularis, penicillatus, piceorrhoeus, piceus, picipes, politus, pulchellus, punctatus, striatus, punctulatus, pusillus, pygmaeus, quadrimaculatus, rufipes, stephensi, striatipennis, striatus, substriatus, testaceus, trichopus, ulicis, vicinus.

Phalaena abbreviana, abietana, abildgaardana, abrotani, aceraria, acetosella, acmeptera, aegyptiacum, aenealis, aerifera, albago, albana, albicapitella, albicincta, albicinctata, albicollis, albidana, albipes, albipuncta, albipunctata, albocincta, albodactyla, albos viridata, alburnea, alienata, allionana, allionella, alpella, alphaea, alpinalis, aluce, aluco, amaryllidis, amataria, ambigua, amphinome, anchoreta, anella, angustata, anomalata, anomalella, apiciaria, apiformis, arcella, argus, arnicae, artesiaria, arundinis, asclepiades, asinata, aterrimus, atomaria, augur, aurago, aurantiaria, aurella, aureolaria, auricella, auricoma, aurosignata, aurotus, australasiae, avida, badiata, badierana, baeticaria, baja, barbarella, barbata, baumanniana, bentleiana, berberata, bergstraessella, biangulata, bicolor, bicommatata, bierkandrana, bifasciata, bifasciana, bifasciata, bifasciella, bifurcata, biliturana, bimaculana, binotata, biselata, bistortae*, bistrigata, blancardella, blattariae, blattariella, boleti, bombella, bombycalis, bombycata, borana, boscana, brassicaria, brunnichiana, bufo, buoliana, bupleuraria, buringerana, burmanniana, caecimacula, caesiata, calcanthata, calodactyla, camelus,

candidana, candidulata, canina, capreae, capreolaria, caprimulgus, carbonata, carciata, caricae, carinata, cassinia, castalia, castanea, cebraria, cecropia, centaureata, centrana, centroleina, centuriella, cerasi, cerella, certhia, cervinata, cespitalis, chalcis, chalcites*, chenopodiaria, chione, ciliata, cinerata, cinnamomea, circulella, citri, citrina, clausthaliana, clavaria, clavis, clematella, colonella, colutella, combrella, communana, communifasciata, compositella, compressae, compta, conchella, concordaria, conica, consignata, consobrinaria, consona, conspersana, contaminaria, contiguaria, contiguata, contristata, convergens, conversa, convoluta, convolvulalis, conwayana, coraciata, corchori, cordigera, cornella, coronae, costaestrigata, costana, costovata, crasticornis, crataegata, credula, crepuscularia, cretana, crini, cristana, croceago, crosalis, crotalariae, crotiana, crucis, crux, cryptella, crystallana, cuneata, cunicularia, curtalis, curvatula, cuspidella, cydoniella, cylindrella, cynera, cynosbana, cypria*, cytherea, cytisaria, daldorfana, dama, daphnella, decemguttella, decimana, decoloraria, decolorata, decussata, defforata, degenerata, delia, denisella, dentina, dentostrigata, deperdita, derasata, derivata, desfontainana, destituta, devastator, diagonalis, dictaeoides, dilecta, dilutata, dimidiana, dimidiata, dimidiella, dioscoreae, discoloria, distincta, dives, dolichos, dorsella, drurella, dumetata, elata, elatata, electrica, elegans, elevana, elongata, emarginata, emarginella, enzenbergella, ephippiger, epione*, equestraria, equestris, ericae, eriophora, erosaria, erxebella, erythrinae, euphorbia, exanthemaria, exigua, exiguella, fabricella, fagata, fagella, falcata, falsella, fasciaria, fasciella, fenestrata, ferrago, ferugalis, festicella, festiva, fibulella, figura, hincata, fimbriata, fixa, flava, flavago, flavicaria, flavifrontella, flavocincta, flavostrigata, flexuosa, flos-lactata, formosata, formosella, fortinicata, francillana, francisca, frangula, frangutella, frugalis, fuliginata, fulminans, fulvata, fuvrella, furvella, fuscago, fuscata, fusco undata, fystella, galiata, ganna, geminana, geoffroyella, geographica, geryon, gigantella, gilvago, gilvaria, glaciata, glarearia, glaucans, gleichella, gliraria, gloriosae, gnoma, gnophera, gnoptera, gossypii, gotenaaria, gramella, grandella, grandis, grata, grisea, grisea, griseana, griseata, grisella, guttaria, hattorfella, haustulifera, helcitaria, heliophila, helwigiana, hemedactylella, hepararia, heparata, hermanniana, hexapterata, hibisci, hieracii, hieroglyphica, hircus, histrio, histrionica, horridaria, hortella, hortularia, hubnerella, hyalina, hypatia, hypericata, ilicis, ilibata, imutaria, immorata, immorata, impluviata, incluta, indiana, infrequentata, innocua, innotata, inornata, inscriptata, insectella, insititialis, in-spersata, instabilis, insulata, interrupta, inundana, irius, isertana, italiana, italica, itynx, janthina, jaquiniana, jesuita, jodutta, knochella, lacera, lactata, lactella, laustrata, laeta, laetana, laevigana, lancea, lanceolata, lantanae, lappae, laterana, latinus, latucina, leonina, leucana, leucodactyla, leuconota, leucopictana, leucoptera, liboria, lichenes, lignata, limbata, limbella, limbo-undata, limosaria, liniaria, lineataria, lineola, linetella, lipsiana, literata, longipes, lucinata, lucipeta, lugubrella, lugubrina, lunana, lusca, luscana, luteago, luteomarmorata, lynceata, machaonaria, maculata, maculella, maeniana, magnella, mappa, margaritalis, marmorea, matrona, maurella, medicaginis, mediella, mediopunctaria, megacephala, megaera, megalops, melanata, melastigma, mellearia, mellomella, mercatoria, meretrix, microrhaea, migadactyla, milhauseri, militaris, mineus, mitterbachiana, mixta, mixtana, modestia, mollis, molothina, moniliata, morpheus, munitata, murinaria, muscallella, muscella, mutabilis, myrindana, myllerana, myopa, myosaria, nebulana, nebulata, neuroptera, nigricana, nigritaria, nigrosericeata, nitelaria, nitens, nitescentula, nitidana, nitidella, nivalis, niveana, nivella, noctacula, noctilio, noctuina, notana, nyctemerella, obfuscaria, obscurana, obsoleta, ochrealis, ochreata, ochrodactyla, octopunctella, ocutaria, oleagina, oleella, oliviella, omicronata, ophitata, or, orichalcea, ornataria, osculatissima, osseata, ostorius, pagana, palliata, pallidata, pallium, palmata, palumbella, pannerella, paphos, papyracea, par, partita, parvella, pasquayana, patibulum, patroclus, pauperata, pavonia, paykullella, paykulliana, pectinella, pennatula, peponis, perfuscata, perla, persicella, perspicillum, petrata, petrifacta, pfliugiana, phylirata, phyllina, phyllira, phytheumae, picta, pigraria, piella, pillerana, pilosaria, piniperda, pistacina, pityata, plagiata, plumbearia, plumbella, plumbeolata, plumigera, pluripunctata, politalis, pollinalis, polygonalis, polygoni, polyzona, pomana, populana, popularis, poraria, porphyralis, posticaria, praeatomata, praenotata, pratanaria,

prelatella, procellata, prodromaria, profundana, promissa, promulella, propugnata, prosanana, psittacata, pteridis, pudoralis, punctulana, punctum, punicago, punicalis, pupilla, purpurina, pusilla, pusillata, pustulella, pyraliata, quadrella, quadriannulata, quadricincta, quadrimaculata, quadripunctalis, quadripunctata, quadripunctella, quadripustulata, quaestionis, quercetana, radiata, ramosa, rayella, reclusa, reflexa, regalis, regia, regulata, rejecta, renata, repanda, repandaria, retata, retusa, reussiella, rhamnata, rhexia, rhododactyla, rhomboidea, ribis, rivagana, rivularis, rivulata, roborana, roboraria, roborina, roboris, romanana, rossiana, rostrata, rubago, rubicunda, rubidata, rubiginata, rubro-viridata, rufasciata, rumigerata, rupella, ruptata, rusticata, rutana, rutila, saccharii, saga, saldonana, sambucata, sanguinolenta, saponariae, saturnus, scalaris, schmidiana, schreberella, schulzella, schumacherana, sciurea, sciurearia, scopioliana, scoriacea, scutosa, segetis, seladonia, selenitica, semicana, seppella, sepulchrella, seriata, sericeata, serici, serva, sesis, setosa, sex-punctana, sexpunctella, sidae, simpliciata, sinuella, smidtiana, solani, solata, sordiarina, spargani, sparnanella, spicula, spinachiata, spinula, spiralis, spissicella, sponsana, stagnata, steinkellnerana, sticticaria, stigmatella, stolidia, stratiolata, striatella, stricta, strigata, strigella, strigilata, strigulana, stroemella, stroemiana, stuposa, subconcolorata, subfimbriata, subfulvata, subfuscata, sublactata, subocellana, subroseata, subrufata, subsericeata, subterranea, subtristata, subumbrata, suffumata, sulphurago, sulphurana, sulphuratella, sylvana, sylvata, sylvaticata, sylvestrata, sylvestrella, syringella, taminata, tanacetii, tarquinius, temerata, tenebraria, terebra, ternata, tersata, tesserella, testacea, testudo, tetracella, texta, thunbergella, tibiale, tibialis, tibiarina, tiliana, tirrhaea, titania, trapezana, trapeziana, trauniana, trax, triangulana, tricolorata, tricomma, trifasciana, trifolii, trigeminata, trigonata, trigutella, trigutta, trilinaria, trimacula, trimaculana, trimaculata, trinalis, trinetata, tripunctana, tripunctella, trique, tristana, tristella, tristrigaria, tritophus, troglodyta, turbata, typicoides, U nigrum, umbellana, umbrago, umbraria, unangulata, undana, undata, undella, unguicana, unguiculata, unifasciata, unilobata, unipunctata, ursina, ursularia, urticae, ustalella, uvella, V-albana, V-argenteum, V-ata, vahlana, vauquyrus, variana, variegana, variegata, vauaria, velutalis, venkleriana, vernana, verruca, vespertilio, vestilella, vetulata, viburnana, viciella, vincularia, vindella, vinetella, violacea, virescens, viretata, virginalis, virgulata, viridigrana, vitalbata, vitana, vitisana, vitisella, vitella, vitulina, vorax, vulgata, vulnerans, vulpina, woerberana, x-scriptum, xanthopasa, xanthographa, xylophthorum, yeatiana, zebeana, zebu, zonaria. *Vide et Phalena.*

Phalaenites crenata, obsoleta.

Phalaenivora europaea, vocifera.

Phalaenoides glycinae.

Phalaenomorpha incubans.

Phalangella fiabellaris, phalangea.

Phalanger pygmaeus, quoy, sciurea, viverrina.

Phalangista apicalis, banksi, bougainvillei, canescens, canina, cavifrons, chrysorrhous, concinna, cooki, cucullata, cuvieri, felina, fuliginosa, gliriformis, incana, lanuginosa, macroura, maculata, melanura, neilli, nina, nudicaudata, orientalis, papuaensis, petaurus, pygmaea, quoy, rufa, sciurea, ursina, viverrina, volans, vulpina, xanthopus.

Phalangistes acipenserinus, cataphractus, fusiformis, japonicus, laevigatus, loricatus, priscus, stegophthalmus.

Phalangium acanthopus, aculeatum, africanum, albounilineatum, alpinum, annulatum, annulipes, barbarum, bicolor, bicuspidatum, bistriatum, cancroides, chrysomelas, cirtanum, copticum, cornigerum, crassum, crista, dorsatum, dubium, echinatum, erinaceus, fasciatum, filipes, flavimanum, flavounilineatum, granarium, grandis, grossipes, helwigi, hemisphaericum, hirtum, hispidum, hystrix, horridum, infusatum, instabile, levipes, lineola, listeri, longipes, lupatum, mamillatum, melanotarsum, monacantha, nigromaculatum, nigrum, numidicum, oraniense, palpinale, phaleratum, propinquum, qobticum, quadripunctatum, ramipalpe, rubens, rudipalpe, rufum, rugosum, savignyi, spiniferum, spinipes, spinosum, spinulosum, succineum, triangulum, tricuspidatum, triste, troguloides, tuberculatum, tuberculiferum, uncatum, urnigerum, variegatum, vittatum.

- Phalangodes** armata.
Phalangodus anacosmetus.
Phalangogonia obesa.
Phalangopsis annulipes, araneiformis, brevipes, fuscicornis, gracilipes, lapidicola, longipes, loricata, robustus, tessellata.
Phalangoptyon bimaculatum.
Phalanta phalanta.
Phalaris absinthii*, cerasi, populi, salicis, tanacetii, vitis.
Phalaropus angustirostris, antarcticus, cinerascens, cinereus, fimbriatus, frenatus, griseus, hyperboreus, lobatus, platyrhynchos, ruficollis, rufus, stenodactylus, vulgaris, williamsi, wilsoni.
Phalcobaenus montanus.
Phalena aniculosata, limbata, zenobia. *Vide et Phalaena.*
Phalera (Col.) bimaculata, cadaverina, hemisphaerica, maculipennis.
Phalera (Lep.) bucephala, bucephaloides.
Phaleria auricularis, bipunctata*, bisignata, brasiliensis, cadaverina, capensis, capra, castanea, cayennensis, chrysomelina, cistelina, cornifrons, cornuta, corticina, crenata, culinaris, diaperma, ephippiger, fagi, furcifera, gayi, humeralis, livida, owariensis, pallens, pallida, pellucens, picipes, picta, polita, riederi, rufa, testacea, tricornis.
Phaleris alentica, camtschatica, cerorhynca, cristatella, dubia, microceros, nodirostra, psittacula, pygmaea, superciliata, superciliosum, tetracula.
Phalidura draco, kirbyi, mirabilis.
Phalium alca, areola, clathratum, decussatum, edentulum, erinaceus, extinctum, flammeolum, glaucum, granulosum, quadratum, sulcatum.
Phallusia arabica, clava, cristata, gelatinosa, holothuroides, intestinalis, livida, mammillata, monachus, nigra, rustica, sulcata, turcica, urtica.
Phaloe cruenta.
Phalonia decimana, tesserana.
Phalops ciconia, divisa.
Phamirus reichenbachii.
Phanaeus abas, acrisius, actaeon, bellicosus, belzebul, bonariensis, carnifex, chryserythrus, columbi, conspiciellatus, corydon, dardanus, davus, demon, difformis, ducalis, dux, faunus, festivus, fulgens, heros, hilaris, igneus, imperator, jasius, kirbyi, laevicollis, laevipennis, lautus, meleagris, melibaeus, menalcas, menelas, miles, milon, mimos, minus, molock, nobilis, palaeno, palliatus, pegasus, planicollis, satyrus, subtricornis, telamon, thalassinus, torrens, tridens, vindex. *Vide et Phaneus.*
Phanemya musca.
Phanerobranchus dipus, platyrhynchus, tetradactylus.
Phaneroptera acanthocephala, alipes, angustifolia, bilineolata, brevis, citrifolia, cruenta, curta, curvicauda, dalmatina, falcata, fausta, germari, gracilis, hystrix, irrorata, laetabilis, lilifolia, macra, macropoda, maculosa, margineguttata, nodicornis, oblongipennis, pallens, parumpunctata, perlaria, phyllacantha, praeusta, rectangula, rufonotata, servillea, tringitiduoguttata, venusta, vetusta, zebra.
Phanerostomum cribrum, globulosum, integerrimum, ocellatum.
Phanerotinus cristatus, nudus.
Phanerotoma (Col.) brunneum, convexum, elongatum, grande, granulatum, opacum, ovatum, plicatum, pubescens, ruficorne, rugulosum, subcostatum, suturale.
Phanerotoma (Hym.) dentatum, rugiferum.
Phaneus sylvanus. *Vide et Phanaeus.*
Phania appendiculata, curvicauda, flavipalpis, lateritia, obscuripennis, simillima, taeniata, thoracica, vittata.
Phanoderus (Ar.) collaris, horridus, inermis.
Phanogene barbiger, micans.
Phanoptes pulcher.
Phantasma biliforme, thoracicum.
Phantoma variabilis.
Phanus vitreus.
Phaonia (Dipt.) aricioidea, canaliculata, vagatoria, viarum, villana.

- Phaonia** (Med.) okeniana.
Phaops albugo, germari, thunbergi.
Phaps chalcoptera, elegans, histrionica, leucotis, picata.
Pharaonus fasciculatus.
Pharetra auricomia, menyanthidis.
Pharetria socialis.
Pharetrium fragile.
Pharmacis aestimaria, ento, fina, huebneri, libaria, sartana.
Pharomachus inociano.
Pharopteryx nigricans.
Pharostoma pulchrum.
Pharus (Col.) brouzeti, quadristillatus, sex-guttatus.
Pharus (L.) legumen.
Phascochaeres aeliani.
Phascochaerus africanus, typicus.
Phascogale affinis, albipes, apicalis, calurus, crassicaudata, flavipes, leucogaster, leucopus, macroura, minima, murina, pencillatus, rufogaster, swainsoni, virginiae.
Phascogalea melas.
Phascolarctos cinereus, flindersi, fuscus, koala.
Phascolomis vomatus.
Phascolomys bassi, fossor, fuscus, latifrons, mitchelli, ursinus.
Phascolosoma carneum, concharum, granulatum, longicolle, pallasi, scutatum.
Phascolotherium bucklandi.
Phasganus declivis.
Phasgonophora condalus.
Phasgonura viridissimus.
Phasia agrestis, albigacies, albipennis, analis, ancora, argentifrons, arvensis, atropurpurea, aurulans, axillaris, basalis, brachyptera, bucephala, campestris, cana, cinerea, convexa, crassipennis, diluta, discoidalis, discoidea, fasciola, flavipennis, flaviventris, freyreisi, grisea, hamata, helva, hemiptera, hirtipes, hyalipennis, lateralis, muscaria, nana, nebulosa, nervosa, nigra, nubeculosa, nubilipennis, obesa, oblonga, obscuripennis, opaca, ornata, pennipes, punctata, pusilla, pygmaea, ruficeps, semicinerea, speciosa, subcoleoptrata, taeniata, umbrata, umbripennis, vagans, varia, variabilis, violacea, zonella.
Phasiamea metallica.
Phasiane arenacearia, artesiaria, lineolata, obliquaria, palumbaria, partitaria, petraria, plumbaria, rippertaria, scutularia, vincularia.
Phasianella abbreviata, actiuscula, adpressa, affinis, ambigua, angulifera, angulosa, angusta, articulata, basterotina, beadlei, bessarabica, bicarinata, bifasciata, bloedei, bolina, brevis, bulimoides, buvignieri, caecilia, calliope, canalis, capensis, carinifera, cassiana, cassiope, cincta, concinna, concolor, consobrina, corneus, decussata, delia, elegans, elongata, elongatissima, ervyna, fasciata, flammulata, flava, formosa, fulminata, gaultina, gerolsteinensis, gigas, hagenovi, haleana, heddingtonensis, hommairei, incerta, inflata, inflexa, intermedia, iris, jason, kichinevae, klipsteiniana, kochi, laevis, lamellosa, lehinanni, leymeriei, limnearis, lineata, lineolata, lymnaeoides, marmorata, mauritiana, melanoides, meleagris, menkei, microtrilata, minuta, muensteri, multisulcata, nebulosa, neocomiensis, neritina, neritoidea, orbicularis, ovata, ovula, pallida, paludiformis, paludinaciformis, paludinaris, paludinarius, parisiensis, partschi, perdid, perforata, peruviana, phasianoides, picta, plicata, polita, preissi, prevostina, princeps, prisca, pulchella, pulchra, pullus, punctata, punctulata, pusilla, pygmaea, pyramidata, reticulata, royana, rubella, rubens, scriptus, semistriata, similis, solida, sowerbyi, speciosa, spirata, splendida, striata, striatella, striatula, striatus, stylifera, subangulata, subclathrata, substriatula, subulata, subumbilicata, subventricosum, sulcata, sulcosa, supracretacea, tenuis, tessellata, tricostalis, trouvillensis, turbiniformis, turbinoides, umbilicata, undatella, unifascialis, varia, variabilis, varicosa, variegata, ventricosa, venusta, vieuxi, vinctus, viridis, vittata, zebrina.
Phasianellus crassior.
Phasianema lineolata, sulcata.

Phasianurus acutus, vigorsi.

Phasianus adriatica*, albo-cristatus, albo-torquatus, americanus, amherstiae, auritus, castaneus, columbianus, crawfordi, crossoptilon, cruentus, erythrophthalmus, fasciatus, gallinaceus, gardneri, garrulus, hamiltoni, ignitus, indicus, katraca, lathamii, leucomelas, lineatus, marginatus, melanocephalus, momoul, mongolicus, muthura, nigro-crispus, nipalensis, pucrasia, purpureus, reevesi, reynaudi, rufus, satyra, soemmerringi, staceyi, torquatus, variegatus, veneratus, versicolor, wallichi.

Phasis nais, palmus, salmonesus.

Phasma acanthocephalum, acanthophora, acheron, acicularis, acuticorne, affine, ambigua, angulata, angulatum, annulata, armatum, arumtia, atrophicum, baculus, bennetti, bicornis, bicornata, bicuspidatum, bidentata, bifoliatum, bimaculata, bimaculatum, bioculata, bis-biguttatum, bituberculatum, bojei, brachypterum, brevipenne, briareus, bufo, buprestoides, calamus, celebicum, chilensis, chlorophylla, cinerea, cinereum, conocephalum, corniceps, coronata, coronatum, costata, curtipes, curvipes, deplanatum, de-pectum, diacanthos, diacis, diardi, draconinum, elongata, fasciata, fasciatum, femorata, ferruginea, filiformis, filum, flabelliformis, flavicorne, flavo-maculata, forsteni, fuscus-annulatum, galacpterum, gallicum, geniculosum, gibbosa, gizas, goliath, graciosa, grandis, gulare, helvolum, heteropoda, hilare, hookeri, hopei, horridus, horstokki, inermis, inflexipes, iridescens, jamaicensis, japonicum, javanum, labiata, laceratum, lacertinum, lichenale, lineatum, lineolatum, lugens, luteo-viride, mackloti, maculatum, maculicollis, manicatum, marginatum, mesoplatum, minans, muelleri, naevium, nematodes, nigro-annulatum, nigrofasciatum, niponense, nodosum, noli-me-tangere, nympha, obscurum, oculata, obrtmanni, ornatum, osiris, perspicillaris, phthisica, phyllopus, pilosipes, plocaria, prasinum, pulchellum, quadriguttatum, reinwardti, reticulata, reticulatum, roseum, rossium, rubicundum, semiarmata, servillei, siccifolia, simplex, sordidum, spiniceps, spinicollis, spiniger, spinosum, tessulata, tiaratum, titan, tithonus, trigona, unicolor, uniforme, varicornis, venosum, vermicularis, verrucosum, vinosum, violescens, viridimarginatum, vittata.

Phasmatocarcinus discophthalmus, glaucus.

Phasmodes ranetiformis.

Phataginus macrurus.

Phatnoma lacinata.

Phaylomerinthus cinereus.

Phebellia aestivalis.

Phegornis mitcheli.

Pheidole providens.

Phelsuma cepedianus, crepidianus, lineatum, ornatum, trilineatum.

Phemiades augias, edippus, ephesus, epictetus, phineus.

Phen → l'ide et Phaen →, Phoen →.

Phenax (Hem.) auricoma, variegata.

Phene gigantea, ossifraga.

Phenes raptor.

Phengodes cincinnata, flavicollis, floccosa, orbignyi, pennicornis, plumicornis, plumosa, praenusta, pulchella, roulini, testaceus.

Phenice fasciolata, fritillaris, stellulata.

Phenolia grossa.

Pheosia dictaea, dictaeoides.

Pherbellia vernalis.

Pherbina bosci, cayennensis, communis, flavescens, gentilis, germana, limbata, paludosa, reticulata, soror, vicina.

Pherocoma abdominalis.

Pheropsophus amoenus, bifurcatus, bisulcatus, goudoti, humeralis, impressicollis, lineifrons, longipennis, maculatus, pictus, quadripustulatus, stenoderus, tenuicostis.

Pherusa (Cr.) alba, fucicola, punctata.

Pherusa (G.) adriatica, barbata, goodsiri, mulleri, obscura.

Pherusa (Polyz.) tubulosa.

Pherusa (Verm.) plumosa.

Pheugopedius coraya, genibarbis.

- Phiale** berina, crocea, gratiosa, ministerialis, modesta, rufoguttata, virgo.
- Phialina** cyenus, cygnus, hirudinoides, proteus, pupa, versatilis, viridis.
- Phiaris** metallica, penderiana.
- Phibalapteryx** angustata, badiata, cognata, lapidaria, lignaria, lignata, lineolata, polygrammaria, tersaria, tersata, virgata, vitalbaria, vitalbata.
- Phibalocera** fagana, nigrana, quercana.
- Phibalosoma** lepeletieri.
- Phibalura** chrysopogon, crisopogon, cristata, flavirostris.
- Phidiana** caerulea, inca, longicauda, northumbria, patagonica.
- Phidippus** alchymista, arrogans, asinarius, auctus, carolinus, castrensis, chalcodon, cincinnatus, cyanidens, dubiosus, electus, elegans, fascipes, fulgidus, insignarius, lunatus, metallicus, mundulus, nitens, paludatus, personatus, purpurifer, regius, rufimanus, smaragdifer, tessellatus, testaceus, togatus, variegatus.
- Phidola** maculicornis.
- Phidonia** plumbeolata.
- Phigalia** pilosaria.
- Phila** convexiuscula, curta, dubia, gilvipes, mannerheimi, obtusa, punctatella, quadriimpressa, vulnerata.
- Philacea** juliana.
- Philaematus** pungens.
- Philaeterus** socia.
- Philammus** alpestris.
- Philampelus** hornbeckiana.
- Philander** brachyurus, cinereus, dorsigerus, marsupialis, murinus, nudicaudus, opossum, virginianus.
- Philanthus** abdelcader, abdominalis, albofasciatus, algericus, allionii, analis, apivorus, bicolor, biguttatus, bilineatus, canaliculatus, capensis, circularis, clypeatus, coarctatus, colon, decemmaculatus, dimidiatus, dufouri, furcipennis, histrio, indicus, loeflingi, lunulatus, macula, major, nigrita, osbecki, pallidus, petiolatus, politus, punctatus, pygmaeus, raptor, rubidus, rutilus, rybyensis, schoenherri, sieboldti, solivagus, spiniger, tricornatus, tricornatus, trifidus, variegatus, venustus, vertilabris, zonatus.
- Philax** barbarus, costatipennis, moreleti, nivalis, plicatus, senegalensis, variolosus.
- Philea** roscida.
- Philedon** albifrons, auricornis, auriculata, auriculatus, auritus, australasiana, boursiensis, buceroides, caerulea, calva, carunculata, carunculatus, chrysopterus, chrysotis, cincinnatus, cochinchinensis, cocinica, corniculatus, cucullata, cuculliger, cyanops, dumerili, eupogon, fasciculata, garrulus, goruck, graculina, lunata, malabaricus, marmoreus, melanocephala, melanodera, mellivora, mcluccensis, monachus, musicus, naevius, niger, nobilis, novae hollandiae, olivaceus, paradoxus, pharoides, phrygius, picatus, rubrifrons, seniculus, viridicollis, viridis, xanthotis, xantotus.
- Philedone** cinctana, costana, gerningana, walkerana.
- Philemon** albifrons, auricornis, auritus, chrysopterus, chrysotis, cincinnatus, cinereus, cucullatus, cyanops, cyanotis, erythrotis, fasciculatus, garrulus, icterops, marmoreus, melanocephala, monachus, naevius, nigricollis, olivaceus, ornatus, phrygius, picatus, sagittatus, viridicollis, viridis.
- Philentoma** castaneum, cyanomelas, pyrrhoptera, rubiginosus.
- Philepitta** geoffroyi, sericea.
- Philereme** rhannata, velutata.
- Phileremos** alpestris, bicornis, cornutus, glacialis, moreatica, pallidus, scriba, subalpinus.
- Phileremus** dufouri, kirbyanus, niveatus, oraniensis, punctatus.
- Philernus** farinosus.
- Philesternus** carunculatus.
- Philetairus** lepidus, socius.
- Phileurus** affinis, agnus, alatus, bajulus, castaneus, cephalotes, chinensis, complanatus, cribratus, cylindricus, depressus, didymus, explanatus, femoratus, fimbriatus, foveicollis, hircus, integer, lacunosus, laticollis, latipennis, microps, morio, nasicornis, ovis, pliger, planatus, platypterus, pusio, quadratuberculatus, rugosus, senegalensis, sinodendrius, subcostatus, truncatus, uninodis, valgus, variolosus, vervex.

- Philhydrus** (Col.) fimbriatus, fulvipes, limbalis, ochraceus, spadiceus, vicinus.
Philhydrus (R.) pisciformis.
Philia haemorrhoeica, sanguinolenta.
Philine quadrata, scutulum. *Vide et Philine*.
Philinta flava, pallipes, testacea.
Philippia luteum.
Philistina rhynophylla.
Philline aperta, catena, punctata. *Vide et Philine*.
Philipsastrea cantabrica, hennahi, parallela, torreana.
Phillipsia brongniarti, coelata, colei, derbyensis, discors, eichwaldi, gemmulifera, globiceps, jonesi, kellyi, maccovi, mucronata, obsoleta, ornata, uralica, pustulatus, quadriserialis, raniceps, seminifera, truncatula.
Phillipsocrinus caryocrinoides.
Philopneuste fuscata, reguloides.
Phillyra mammeata, riparia.
Philobia aestimaria, alternaria, cordiaria, flavicaria, lituraria, notataria, signaria.
Philocalis pulchra.
Philocalus succinctus, zonatus.
Philochlaenia ambitiosa, brevipes, brevitaris, comata, delicatula, lineatocollis, murina, truncata, virescens.
Philochloenia compacta.
Philochthus aeneus, biguttatus, fumatus, fuscipes, grandicollis, guttula, haemorrhous, orbicollis, subfenestratus, viridanus.
Philodendros praeornata.
Philodicus javanus.
Philodina aculeata, citrina, collaris, erythrophthalma, hirsuta, macrostyla, megalotrocha, roseola.
Philodontis palpina.
Philodromus abboti, affinis, albi, argenteatus, aureolus, calidus, cespiticolis, cespitum, clarki, clercki, collinus, dispar, fabricii, fallax, formicinus, fuliginosus, funebris, fuscoclimbatus, fuscmarginatus, gracilentus, inquisitor, jejunos, junior, limacum, limbatus, linnaei, luteus, maculatus, mistus, oblongiusculus, oblongus, ornatus, pallidus, parallelus, pernix, praeceps, pulchellus, punctatus, quadrilineatus, rhombiferus, rufus, senilis, tigrinus, trilineatus, variatus, walckenaeri.
Philodryas olfersi.
Philognoma decius, laodice, lichas, varanis.
Philohela minor.
Philoica advena, atrica, cicurea, civilis, domesticus, linotina, notata.
Philolimnos gallinula, minor, stagnatilis.
Philomachus cayanus, pugnax, spinosus, ventralis.
Philomela atricapilla, curruca, hippolais, hortensis, luscini, modularis, nisoria, oenanthæ, orpheæ, phoenixurus, polyglotta, regulus, rubecula, rubetra, rufa, salicaria, sibilatrix, suecica, sylvia, troglodytes.
Philometra recticaudata, reticulatum.
Philomycus caroliniensis, dorsalis, flexuolaris, fuscus, oxyurus, quadrilus.
Philomyrmax insignis.
Philonexis alcaeus, atlanticus, eylais, hyalinus, microstomus, quoyanus, tuberculatus, velifer, venustus.
Philonicus albiceps.
Philonorhynchus viridis.
Philonthus abdominalis, aciculatus, adscitus, aeratus, aeripennis, aeruginosus, agilis, agnatus, albilabris, albionicus, albipes, alcyoneus, alpestris, alumnus, ambiguus, amoensis, analis, angularius, angusticollis, antennatus, apicicornis, asphaltinus, astutus, ater, atrissimus, atramentarius, atratus, attenuatus, bicolor, bilineatus, bimaculatus, binotatus, bipustulatus, bisignatus, bistriatus, blandus, boops, brevis, brunneus, caffer, californicus, candens, carbonarius, caucasicus, cautus, celer, cephalotes, chalceus, chalcopterus, chrysurus, cicatricosus, cinctulus, cinerascens, coelites, cognatus, columbianus, compressicollis, concinnus, consors, consputus, corallicola, corruscus,

corvinus, costatus, coxatus, cribratus, cribricollis, cupreus, cupripennis, curtatus, cyanescens, cyanipennis, debilis, decorus, dimidiatipennis, dimidiatus, discoideus, dives, egenus, egregius, elatus, elongatulus, ephippium, erraticus, exiguus, fasciatus, feralis, ferrugatus, fervidus, fibularius, figulus, filum, fimbriolatus, fimetarius, flagrans, flavipennis, flavolimbatus, fonicola, frigidus, frontalis, fucicola, fuliginosus, fulvipes, fumigatus, furvus, fuscicornis, fuscipes, fuscus, fusiformis, gaudichaudi, gilvipes, gracilis, gracilicornis, graciosus, gratus, haematurus, harrisi, helvolus, hepaticus, herilis, hospes, humilis, hybridus, immundus, impressicollis, impressus, inconspicuus, infirmus, inquietus, intaminatus, intermedius, iopterus, janthinipennis, labilis, laetulus, laetus, laevicollis, laevigatus, laminatus, lateralis, lathrobioides, lepidus, leucotus, llesgicus, luxurians, lituratus, lividipes, lomatus, longicornis, lucidus, ludicrus, lugens, lustralis, luxurians, mandibularis, marginatus, maurorufus, melanocholicus, melanocephalus, melanopterus, micans, microcephalus, minax, minutus, mirabilis, molochinus, montanus, montivagus, morio, morulus, nanus, natalensis, nauticus, niger, nigerrimus, nigripennis, nigripes, nigrita, nigro-aeneus, nitens, nitidulus, obscuripennis, obscurus, opacus, opulentus, orbus, orphanus, osseticus, pachycephalus, pacificus, palliatus, pallipes, palmula, paradisianus, parumpunctatus, pavidus, pediculus, phaeopus, picatus, piceatus, picipennis, pilipes, placidus, politus, praecox, pretiosus, procerulus, prolixus, promptus, pruinosis, puella, pulchellus, pullus, punctaellus, puncticollis, punctifer, punctiventris, punctus, pusillus, pyrenaeus, quisquiliarius, rubidus, rubripennis, rubromaculatus, rubicollis, rubicornis, rufimanus, rufipennis, rufipes, salinus, sanguinolentus, scintillans, scitus, scutatus, scybalarius, sericeus, sideropterus, siegwaldi, simplex, sobrinus, sordidus, sparsus, splendens, splendulus, stenoides, stragulatus, stygius, subfuscus, succinctus, suspectus, suturalis, tachiniformis, testaceipennis, thermarum, thoracicus, trepidus, trossulus, turbatus, turbidus, umbratilis, umbrinus, vapidus, variabilis, varians, variegatus, varicolor, varius, ventralis, vernalis, viduus, vilis, viridanus, xantholoma, xanthopterus, xanthopus, xanthopygus, watsoni.

Philoodus lefebvrei, nostradamus.

Philopedon parapleurus, plumbeus.

Philophaeus australis.

Philophloeus eucalypti, fuscipennis.

Philopota conica, histrio, liturata, maculicollis, murina, nitida, ovata, tuberculata, turbinata, vidua.

Philopotamus affinis, angustipennis, antennatus, bimaculatus, concolor, conspersus, costalis, dorsalis, dubius, fulvipes, instabilis, irroratus, lanceolatus, longipennis, maculatus, marginepunctatus, montanus, nebulosus, nubilus, obliquus, obscurus, obsoletus, ochroleucus, opacus, pellucidulus, reticulatus, scopulorum, stigma, tenellus, trimaculatus, variegatus.

Philopterus aguiæ, alcae, annulatus, apiastri, aquilius, argulus, astrocephalus, atratus, atro-marginatus, attenuatus, auratus, baculus, bassani, bilineatus, brevicollis, brevicornis, brevifrons, brevis, cameratus, canuti, capreolus, celidoxus, cephalus, chelicornis, chrysophthalmi, cincli, cingulatus, claviformis, colchici, colymbinus, communis, compar, conicus, crassipes, cruciatus, cuculi, cursor, curtus, cuspidatus, cyclothorax, cygni, cygnorum, decipiens, diomedæ, discocephalus, dispar, dissimilis, ebraeus, elongatus, eogrammicus, excisus, falcicornis, fenestratus, fissus, fringillæ, fulcae, fulvus, furvus, fuscicollis, fusco-marginatus, fusiformis, glandarii, gonopleurus, gracilis, grammicus, guttatus, gyricornis, haematopi, heterographus, hiaticulae, hologaster, holophaeus, houbaræ, humeralis, hypoleucus, icterodes, iliacus, incompletus, jejunos, juncus, lari, latifrons, leontodon, leucopleurus, leucopygus, limbatus, limosæ, luridus, macrocnemis, marginalis, melanocephalus, merguli, meropis, merulae, merulensis, microthorax, minutus, modularis, nebulosus, nisi, numenii, numidae, numidianus, nychthemerus, obscurus, ocellatus, ochrops, oediceus, olivaceus, ortygis, ostralegi, pallescens, paradoxus, pari, passerinus, pastoris, pederiformis, pelagicus, pertusus, phaeops, phalaropi, piceæ, piceus, platealeæ, platygaster, platyrhynchus, platystomus, podiceps, polytrapezius, prionitis, punctatus, punctifer, quadripustulatus, ralli, rallius, rectangularis, reguli, rostratus, rubecula, rufus, scolopacis, semi-signatus, serratus, serrilimbus, squalidus, staphylinoides, stellaris, stellatus,

stenopyx, stramineus, strepsilaris, struthionis, sturni, stylifer, subcuspidatus, superciliosus, tadornae, temporalis, tenuis, ternatus, tessellatus, testudinarius, tetraonis, thalassidromae, triangulifer, tricolor, uncinus, upupae, vanelli, variabilis, variatus, versicolor, viscivori.

Philopyra effusa, livida, perlua, pyramidea, tetra, tragopogonis.

Philorca picipes.

Philorchemon paradisea.

Philorhiza fasciata.

Philortyx fasciatus.

Philoscia ehrenbergi, marmorata, moscorum, muscorum, olfersi, picta, sellowi, spinosa, sylvestris, vittata.

Philoscotus silphoides.

Philothermus montandoni.

Philurus circinnatus.

Philydor albogularis, ruficollis, superciliaris.

Philydrus griseus, lividus, megerlei, melanocephalus, nigrita, pallidus, volkmari.

Philygria flavipes, guttata, punctato-nervosa.

Philypnoides surakartensis.

Philypnus dormitator, ocellicauda, ophicephalus, sinensis.

Philyra (Col.) helopioides.

Philyra (Cr.) globosa, granigera, humilis, pisum, platycheir, porcellana, scabriuscula.

Phimodera galgulina, humeralis, nodicollis.

Phimosus infuscatus.

Phinus violaceus.

Phlaea cassidoides, livida. *Vide et Phloea.*

Phlaebium sinuato-colle.

Phlaeodes crenana, demarniana, estreyerana, frutetana, immundana, monachana.

Phlaeomys cuningii.

Phlaeothrips aculeata, annulicornis, coriacea, flavipes, pedicularia, pinii, statices, ulmi.

Phlaeotrupes caelatus.

Phlebodes pertinax, saturnus.

Phlebopenes splendidus.

Phlegethontius carolina, celeus, cluentius, hannibal, lucetius, paphus.

Phlegon buqueti.

Phleusa cynea.

Phlexis wagneri.

Phlias serratus.

Phlocerus menetriesi.

Phloea corticalis, corticata, longirostris, paradoxa, subquadrata. *Vide et Phlaea.*

Phloeobium marginicollis.

Phloeobius griseus.

Phloeoborus asper, rudis, scaber.

Phloeocharis minutissima, subtilissima.

Phloeocoris corticatus, paradoxus.

Phloeonaeus caelatus, caesus.

Phloeonemus granulatus.

Phloeonormus heeri, inflatus, lucidus, minimus, monilicornis, pusillus, pygmaeus.

Phloeopemon acuticornis.

Phloeophagus aeneopiceus, aterrimus, ebeninus, fallax, ferrugineus, hispidus, lignarius, minimus, pallidus, sculptus, silbermanni, spadix, uncipes.

Phloeophilus agrestis, sulcifrons.

Phloeopora colubrina, corticalis, latens, religata, reptans, subtusa.

Phloeostichus denticollis.

Phloeothrips albipennis.

Phloeotragus albicans, annulicornis, gigas, heros, hottentottus, imhoffi, prasinatus, pustulatus, varicolor.

Phloeotrupes grandis, procerus.

Phloeophila irrorana.

- Phlogophora** adalatrix, empyrea, fovea, lucipara, meticolosa, scita.
Phlogris melpomene.
Phloiocopus buqueti, guerini, suberosus, tricolor.
Phloiophila irrorana.
Phloiophilus bimaculatus, cooperi, edwardsi.
Phloiotribus oleae.
Phlyctaenia sambucalis, thyrallis.
Phlyctaenodes pustulosus.
Phlyctinus agrestis, albomixtus, callosus, egenus, gallina, hariolus, inaequalis, metallescens, monstrosus, murinus, oblongus, pauper, testatus, varius.
Phlysacium paradoxum.
Phobelius crenatus, lucifugus.
Phoberia atomaris, lunaris, punctularis, rufimargo, tirrhaca.
Phoberus horridus.
Phobetr tricuspis.
Phobetron abbotana, hiparchiana.
Phobophorus paccatus.
Phoca aegyptiaca, albicauda, albicollis, albigena, ambigua, annelata, ansoni, ansonina, antarctica, bicolor, byroni, californiana, candicans, canina, carcinophaga, caspica, chori-si, cinerea, communis, concolor, coxi, cristata, cucullata, desmaresti, discolor, dorsata, dubia, equestris, falklandica, flavescens, forsan, forsteri, frederici, gryphus, grypus, halichoerus, hauvillei, hermanni, homei, isidorei, jubata, lagura, lakhtak, lapponum, largha, leonina, leopardina, lepecheni, leptonyx, leucogaster, leucopla, linnaei, littoralis, lutris, lyelli, mitrata, muelleri, nautica, nigra, norvegis, occitana, ochotensis, parsonsi, pedroni, pilayana, pilayi, platythrix, pontica, proboscidea, resima, rugidens, schreberi, scopulicola, sibirica, stelleri, testudinea, thiennemanni, tigrina, tropicalis, viennensis, weddelli.
Phocaena australis, bivittata, commersoni, communis, cortesi, crassidens, edwardsi, grampus, grisea, homei, leucocephala, melas, pectoralis, rissoanus, rissonnus, superciliosa, ventricosa, vulgaris. *Vide et Phocoena.*
Phocides alardus, cruentus, lisiades.
Phocodon scillae.
Phocoena gladiator, globiceps, orca, phocoena. *Vide et Phocaena.*
Phodilus badius.
Phoebe (Ar.) floricola, rupicola, saxicola.
Phoebe (Col.) bicornis.
Phoebeis cypris, drya, eubule, jugurtha, melanippe.
Phoedinus debauei, lanio.
Phoen→ *Vide et Phaen*→, *Phen*→.
Phoenicircus carnifex, militaris, nigricollis.
Phoenicocerus dejeani.
Phoenicocrinites simplex.
Phoenicodera scapularis, varicollis.
Phoenicophaeus jerdoni, longicaudatus, nigriventris, tristis.
Phoenicophaus barrotti, caniceps, chlorophaeus, corallirhynchus, crawfurdi, cumingi, curvirostris, elongatus, pyrrhocephalus, sumatranus, viridirostris.
Phoenicopterus americanus, antiquorum, bahamensis, parvus, roseus.
Phoenicornis affinis, elegans.
Phoenicosoma azarae, bidentata, hepatica.
Phoenicothraupis rubica, rubicoides.
Phoenicrus muralis.
Phoeniculus notatus, unimaculatus.
Phoenicura atrata, coeruleocephala, frontalis, fuliginosa, leucocephala, leucoptera, macgri-goriae, major, muraria, plumbea, reevesi, rubeculoides, succica, supersiliaris, tethys.
Phoenicurus ruficilla.
Phoenisoma aestiva, ardens, azarae, bivittata, lutea, olivacea, rubra.
Phenodus fallax, rufomarginatus.
Phoenoeus imperator.

Phoemeris cyanea.

Phoenops luteosignata.

Phoethornis superciliosus. *Vide et Phaethornis.*

Pholadidea loscombiana.

Pholadites amygdalinus, caudatus, musculoides.

Pholadomia subdinnensis.

Pholadomya abrupta, acuminata, acuta, acuticostata, acutisulcata, aequalis, aequalvalvis, agassizi, allica, alpina, alternans, amathusia, ambigua, ampla, anaglyptica, angulata, angulifera, angulosa, angustata, anomala, antica, archiaciana, arcuata, aspasia, audax, bellona, bernardiana, bicostata, biplicata, birostris, bolina, brongniarti, bucardium, canaliculata, cancellata, candida, candidoides, carantoniana, cardissoides, carinata, caspica, castellanensis, caudata, cincta, cingulata, clathrata, clytia, complanata, compressa, compta, concatenata, concelata, concentrica, concinna, conformis, connectans, constricta, contraria, cor, cordiformis, cornueliana, corrugata, costellata, crassa, crista, cuneata, curta, curvata, cylindrica, decemcostata, decorata, decussata, deltoidea, depressa, dilata, dixonii, donaciformis, donacina, dubia, dubois, duteupleana, echinata, elegantula, elliptica, elongata, emarginata, engelhardti, erina, escheri, esmarkii, euglypta, exaltata, fabacea, favrina, fidicula, flabellata, foliacea, galloprovincialis, geinitzi, gibbosa, gigantea, gigas, glabra, glendonensis, goldfussi, gracilis, granosa, hausmanni, hemicardia, heraulti, hesterna, heteropleura, hortulana, hugii, idea, inflata, inornata, intermedia, iridinoides, kasimiri, knorri, konincki, laevis, laeviuscula, late-sulcata, ligeriensis, lineata, lirata, longirostris, loricata, lyrata, mailleana, major, margaritacea, mariae, marrotiana, martini, marylandica, media, mellevillei, michelini, micolaris, moulini, muensteri, multicostata, murchisoni, myacina, nana, neocomensis, nitida, nodosa, nodulifera, normaniana, noueliana, nuda, nymphacea, obliqua, obliquata, oblitterata, obsoleta, obtusa, occidentalis, omaliana, orbiculata, ovalis, ovulum, paradoxa, parvicosta, parvula, paucicosta, pectinata, pelagica, petschorae, phillipsi, plana, plicata, plicosa, polymorpha, pontica, prevosti, producta, protei, pulchella, puschi, radiata, rauliniana, recurva, regularis, reticulata, retusa, rhomboidalis, roemeri, rostralis, rostrata, rouyana, royana, royeriana, rugosa, russiensis, scalprum, scheuchzeri, scutata, semicostata, siliqua, similis, simplex, solenoides, striata, striatula, subangulata, subcarinata, subplicata, subradiata, subtruncata, sulcata, tenera, tenuicosta, terebrans, texta, trapezicosta, trapezicostata, trigonata, triquetra, truncata, tumida, umbonata, undata, uralensis, urania, varusensis, ventricosa, virgulosa, voltzi, weissii, zietenii.

Pholadopsis pectinata.

Pholias acuminata, altior, antipodum, aperta, arcuata, australasiae, baugieri, birmanica, branchiata, branderi, californica, callosa, calva, chiloensis, cithara, clavata, compressa, concamerata, conoidea, conoides, constricta, cordieri, cornea, cornueliana, corticaria, costata, crassa, crenulatus, crista, crispatus, cruciger, cuneata, cuneiformis, curta, cylindricus, dactyloides, darwini, dilatata, dimidiata, explanatus, falcata, fayollesi, fragilis, gibbosa, giganteus, globosa, globulosa, goodalli, hians, hommairei, icaunensis, mcei, janellii, jouanneti, julan, lamarecki, lamellata, lamellosa, lanceolata, laqueata, lata, latissima, leicaon, ligamentina, manilensis, manillae, marmoratus, melanura, multistriata, mytiloides, obliquata, oblongata, oblecta, ovalis, ovata, ovum, palmula, papyraceus, patula, pechelli, penita, petrosa, roperiana, priscus, pusillus, quadra, recondita, rhomboidea, rivicola, roemeri, roperiana, rostrata, rugosa, sclerotites, scutata, sebaiana, semicostata, semi-striata, silicula, similis, spathulata, spinosa, striatus, subcylindrica, subtruncata, sulcata, teredinaeformis, toarcensis, tridens, triquetra, truncata, tuberculatus, tubifera, ungulata, ventricosa, vibonensis, waldeimii, xilophaga.

Pholcus americanus, atlanticus, barbarus, caudatus, geniculatus, globulosus, impressus, nemastomoides, phalangioides, quadripunctatus, rivulatus, senoculatus, sexoculatus.

Pholeobia praecisa, rugosa.

Pholeophilus capensis.

Pholetaera bifasciata, dispar, livens, nigropunctata, rustica, spuria.

Pholicodes inauratus, lepidopteris, plebejus, rubiculosus, syriacus, trivialis.

Pholidolaemus bucephala.

Pholidophorus angustus, bechei, cognatus, crenulatus, dorsalis, flesheri, furcatus, fusi-formis, gracilis, hartmanni, hastingiae, intermedius, laevisimus, latimanus, latiusculus, latus, leptocephalus, limbatus, longimanus, longiserratus, loriceatus, macrocephalus, maximus, micronyx, microps, minor, muensteri, onychius, ornatus, pachysomus, parvus, pusillus, radians, radiato-punctatus, stabianus, stricklandi, striolaris, taxis, tenuiserratus, uraeoides.

Pholidosaurus schaubbergensis.

Pholidotus dejeani, irroratus, lepidosus, reichiei, spixi.

Pholidotus reichiei.

Pholis bufo, carolinus, laevis, novemlineatus, parvidens, quadrifasciatus, smyrnensis, solaris, subbifurcatus, trigloides.

Phollicodes plebejus. *Vide et Pholi-*.

Pholoe baltica, inornata, minuta.

Pholus crantor, ficus, leaon, strigilis.

Phoneus rufus, servillei.

Phoneutria fera, ochracea, rubibarbis.

Phonipara bicolor, caniceps, canora, gutturalis, lepida.

Phonius sanguinipennis.

Phonophilus portentosum.

Phonygama ater, chalybaeus, keraudreni, viridis.

Phora abdominalis, agilis, albigennis, algira, annulata, anthracina, arcuata, atterima, atra, atricapilla, bicolor, bovistae, caliginosa, canariana, concinna, consorta, convexa, crassicornis, cursitans, dauci, debilis, dimidiata, erythrocerata, fasciata, femorata, flava, flavicornis, flavimana, flavipalpis, florea, fuliginosa, funebris, fuscipes, galeata, gracilipes, helicivora, heracleellae, hyalinata, incrassata, longipes, luctuosa, lugubris, lutea, maculata, mordellaria, nigra, nigripennis, nitidula, nudifrons, ochropa, opaca, pallipes, perennis, picta, pulicaria, pumila, pusilla, putris, quadrata, rapida, rufescens, ruficornis, rufipennis, ruipes, scapularis, serrata, similis, sordidipennis, sphigicides, stictica, sulphuripes, urbana, velutina, vicina, villosa, vitripennis.

Phoracantha aberrans, biguttata, curvispina, dorsalis, elongata, gigas, hamata, imbellis, impavida, inscripta, obscura, punctatus, quinaria, recurva, robusta, rubripes, semipunctata, senio, synonyma, tricuspis, ventralis.

Phoracanthus allapsa.

Phoradesma graminaria.

Phoraea flavescens, humeralis, myoidea, scutellaris.

Phoraspis albicollis, atomaria, cassidea, conspersa, elegans, fastuosa, flavipes, leucogramma, luteola, nigra, pallens, pantherina, picta, unicolor.

Phorbia arvensis, claripennis, grisea, musca, rustica.

Phorcis epistygne*, gorge, scaea.

Phorcus (Cr.) reynaudi, striatus.

Phorcus (G.) margarita, margaritaceus.

Phorcynia allantophora, cruciata, cudonoidea, cyclophylla, dodecagona, forskalea, istrophora, mesonema, mollicina, petasella, pileata, purpura, purpurea, ren, sphaeroidalis, undosa, undulosa.

Phorella arvensis, atrata, despecta, florum, morio, squalida.

Phorinia aurifrons, borealis, gracilis, macquarti, micromera, minor.

Phormia caerulea, cuprea, fulvifacies, philadelphica, regina, squaleus, terrae-novae, vittata.

Phorocera acutangulata, aestuans, agilis, albiceps, angusta, antiopis, apricans, assimilis, bercei, biserialis, blanda, bombycivora, botyvora, caesifrons, caiae, ciliata, cilipes, cinerea, cirrata, claripennis, concinnata, conus, cuculliae, cylindrica, delecta, distincta, elongata, familiaris, fasciata, fera, flavifrons, flavipennis, frontosa, gagatea, gracilis, graciliseta, gamma, guerini, inepta, iovora, lateralis, leucomelas, limpidipennis, minuta, munda, myoidea, nitens, nitida, noctuarum, orgyae, ortholidis, pallidipalpis, pavida, pieridis, praecox, prorsae, pullata, pumicata, pusilla, pygerae, rapida, rubrifrons, rufipalpis, schistacea, scutellaris, scutellata, taeniata, tenuiseta, tessellata, testacea, unicolor, varipalpis, velox, vernalis.

Phorodesma bajularia, smaragdaria

- Phoroncidia** aculeata.
Phorophylla palpata.
Phorostoma subrotunda.
Phorphyrops spinipes.
Phorus agglutinans, bellardi, brongniarti, calculiferus, canaliculatus, cereus, colligens, conchyliophorus, confusus, corrugatus, crispus, cumulans, deshayesi, extensus, exutus, gigas, gravesianus, humilis, indicus, infundibulum, insigni, leprosus, onustus, pallidulus, parisiensis, plicomphalus, scutarius, solarioides, solaris, subconchyliophorus, testigerus, umbilicaris.
Phos articulatus, crassus, gaudens, retecosus, roseatus, senticosus, varicosus, veraguensis, virgatus.
Phosphaenus hemipterus.
Phosphila turbulenta, ursipes.
Phosphora electrica.
Phosphorax noctilucus.
Phosphuga affinis, atrata, biguttata, laevigata, orientalis, subrotundata.
Phostria tedeae, temira.
Photinus albicinctus, albomarginatus, bicolor, blattoides, caliginosus, collaris, congrua, corruscus, decoratus, diaphanus, discoidalis, discoideus, fabricii, filicornis, fulgidus, giganteus, glaucus, guttulus, hespera, ignitus, infuscatus, lateralis, laticornis, linearis, lividus, lucidus, lucifer, luctuosus, luniferus, lycoides, maculatus, maculosus, marginatus, nitens, obscurus, occidentalis, olivieri, pallidus, pectinatus, pensylvanicus, phosphoreus, pyralis, quadri-maculatus, quinque-notatus, rufus, savignyi, thoracicus, truncatus, venustulus, viduus, vittatus, vittigerus.
Photis reinhardi.
Photuris cincticollis, femoralis, rubicunda.
Phoxichilidium cocconeum, fluminense, globosum, mutilatum, petiolatum.
Phoxichilus aculeatus, femoratus, grossipes, hirsutum, hirtus, monodactylus, proboscideus, spinipes, spinosus.
Phoxinellus alepidotus, italicus, zeregi.
Phoxinus laevis, lumaireul, marsilii.
Phoxomela abrupta.
Phoxopteris badiana, comptana, cuspidana, dahlbomiana, derasana, divisana, falcana, harpana, juliana, lamana, lanceolana, mitterpachiana, myrtillana, naevana, nitidulana, penkleriana, radiatana, ramana, siculana, taeniana, tineana, uncana, unguicana, venosana.
Phoxopterix crenana.
Phoxopteryx selenana.
Phoxus holboelli, plumosus.
Phractocephalus bicolor, gogra, itchkeea, kuturnee.
Phragmaticola olivacea.
Phragmatobia fuliginosa.
Phragmipora cellularis, reticulata.
Phragmoceras arcuatum, brateri, compressum, conicum, flexistria, inaequiseptum, nautilium, spinosum, ventricosum.
Phragmoceratites subventricosus.
Phragmolites compressus.
Phratora coerulescens, dumout, funesta, vitellinae.
Phrenapates bennetti.
Phrenotrix tenia.
Phreoryctes menkeanus.
Phrethornis chrysobronchos, superciliosus.
Phricodia avia, eumidide, hircia, polybia, rustica.
Phricodus histrix, hystrix.
Phrictia lingia, porcia.
Phrictus diadema.
Phrissoma crispum, giganteum.
Phrissopoda splendens.

- Phrissopodia** brullei, imperialis.
Phronima atlantica, coccoi, custos, sedentanus.
Phrosia scirpi.
Phrosina macrophthalmia, nicetensis, semilunata.
Phrurolithus corollatus, erythrocephalus, festivus, hamatus, lunatus, minimus, ornatus, pallipes, rufescens, trifasciatus.
Phryganea aegrota, albicans, altaica, antiqua, atomaria, aureola, auricollis, barbata, beekwithii, bicolor, biguttata, borealis, brevis, buccata, charpentieri, chrysocephala, concentrica, daurica, digitatus, dossuaria, elegans, femorata, fenestrata, fimbriata, flavipennis, fluxuosa, fuliginosa, fulvipes, fumigata, fuscata, fuscimanus, fuscimervis, griseola, guttifera, guttulata, hectica, hirsuta, interpunctata, interrogationis, interrupta, laevis, lateralis, leschenaulti, lunaris, maculata, minor, mixta, montana, nigriceps, nigricornis, nigridorsa, nigriventris, noctuaeformis, nubila, numerosa, ochrata, pantherina, pelucida, picicornis, pilosula, puberula, puncticollis, radiata, renalis, rubricollis, ruicollis, rupestris, sabella, semifasciata, sericea, signifer, stigmatella, striata, subfasciata, subpunctulata, swammerd[am]iana, tincta, tortriciana, trifasciata, trimaculata, tuberculosa, vestita, viridiventris, vitrata, vittatus.
Phryganeolitha vetusta.
Phryganophilus auritus.
Phrygilus alaudina, atriceps, carbonaria, enucleator, formosa, fruticeti, gayi, plebejus, rusticus, unicolor, vulgaris.
Phrygonis corinnaria, cultaria, julianaria.
Phryneta crucifera, margaritifera, marmorea.
Phryniscus australis, ignescens, nigricans, tricolor.
Phryno agilis, aurulenta, brunea, buentoidea, hemisphaerica, nigripes, rustica.
Phrynocephalus auritus, caudivolvulus, guttatus, helio-copus, interseapularis, melanurus, nigricans, ocellatus, ocellifer, olivieri, reticulatus, strigatus, tickelli, varius.
Phrynoceros vaillanti.
Phrynoderma cutipora.
Phrynohyas zonata.
Phrynoidis asper.
Phrynomorphus nitidus.
Phrynops belli, geotroana, miliusi, rufipes.
Phrynopsis atra, dorsalis, savignyi.
Phrynosoma blainvilliei, bufonium, cornuta, douglassi, harlani, orbiculare, wiegmanni.
Phrynus caudatus, ceylonicus, cheiracanthus, grayi, lunatus, marginemaculatus, medius, nigrimanus, palmatus, pumilio, reniformis, scaber, variegatus, whitei.
Phrysopoda cyanea, maculata.
Phryxe agilis, arvensis, athalie, blondeli, bombycivora, carceli, ciliata, cinerascens, coarctata, consobrina, depressa, flavipalpis, florida, frontalis, griscens, larvicola, lasiocampae, macquarti, microcera, palesioidea, pavoniae, pieridis, prompte, punctata, rotundata, sabulosa, scutellaris, scutellata, servillei, similis, sphingivora, subrotundata, superba, tiphaecola, vanessae, velox, villica, zonata.
Phryxus (Cr.) hippolytes, paguri.
Phryxus (Lep.) caicus, livornica.
Phtheochroa amandana, rugosana, singularia.
Phthiracarus contractilis.
Phthiria canescens, capensis, cinctum, cingulata, conspicua, convergens, dubia, fulva, gaedei, hypoleuca, maculata, maura, nigra, pulicaria, pulicaris, punctata, punctipennis, rustica, scutellaris, subnitens, umbripennis, vagans. *Vide et* **Phtiria**.
Phthiridium biarticulatum, blainvilliei, hermanni, latreillei, pediculare, vespertilionis.
Phthirium eruditum, rubrum, sambuci, scabiei.
Phthirius inguinalis.
Phthora crenata.
Phtiria albida. *Vide et* **Phthiria**.
Phucocoetes latitans.
Phumosis abdominalis, belvosii, pallidula.
Phusia diasema.

Phycidea *nimbella*.

Phyciodes *cocyta*, *liriope*.

Phycis (Lep.) *abietella*, *achatinella*, *adelphella*, *adornatella*, *advenella*, *aethiopella*, *alienella*, *alpigenella*, *angusta*, *angustella*, *annulatella*, *anthracina*, *antiopella*, *argyrella*, *auriciliella*, *bella*, *binaevella*, *bistriga*, *bistrigella*, *bivitella*, *boletella*, *brunneella*, *candelisequella*, *canella*, *cantenerella*, *carbonariella*, *carnella*, *ceratoniella*, *chalybella*, *chrysorrhoeella*, *cinerella*, *cinnamomella*, *cirillella*, *cirrigerella*, *compositella*, *consociella*, *contubernea*, *coronatella*, *cribrella*, *cristea*, *cristella*, *crypta*, *dahliella*, *decorella*, *depositella*, *digrella*, *dilucidella*, *diluta*, *dilutella*, *diviella*, *dubiella*, *elongella*, *elutea*, *elutella*, *epipalpella*, *etiella*, *fascia*, *flavella*, *formosa*, *fuliginella*, *funella*, *funiculella*, *fusca*, *gemina*, *genistella*, *germarella*, *gilveolella*, *gregella*, *grossulariella*, *holosericeella*, *immistella*, *impurella*, *incanella*, *inscriptella*, *interpunctella*, *janthinella*, *laternella*, *legatea*, *legatella*, *lignella*, *lotella*, *luridella*, *marilella*, *marmorea*, *matricella*, *mediella*, *melanella*, *miniosella*, *nebulea*, *nebulella*, *nimbella*, *obductella*, *obtusa*, *obtusella*, *origanella*, *ornatella*, *osceatella*, *palumbea*, *palumbella*, *parasitella*, *perflutella*, *perornatella*, *pinguis*, *plumbaginella*, *porphyrella*, *posticella*, *prodomella*, *propinquella*, *pudicella*, *pudorella*, *punctella*, *quadrata*, *quercella*, *rectella*, *recurvella*, *rhenella*, *roborella*, *rosicella*, *rubiginella*, *rubrotibiella*, *rufa*, *rufella*, *semirufa*, *similella*, *spadicella*, *squalidella*, *suavella*, *tauricella*, *terebrella*, *tetricella*, *transversella*, *trapezella*, *tumidella*, *umbraticella*, *verrucea*, *verrucella*, *vesperella*, *vinetella*, *wagnerella*, *zinckenella*.

- Phylloscopus** affinis, brunneus, fuscatus, lugubris, magnirostris, modestus, nitidus, pulcher, reguloides, schisticeps, tristis, trivirgatus, trochilus, umbro-virens, viridanus.

Phylloscyrtus elegans.

Phyllosoma affinis, australe, brevicorne, cassidum, clavicorne, commune, cranchi, curifrons, detrunca, duperreyi, freycineti, guerini, laticorne, longicornis, longipes, mediterranea, parthenopaeum, punctata, reynaudi, sarniense, smythii, stylicornis, stylifera.

Phyllostoma albescens, amblyotis, bennetti, bicolor, bidens, bilabiatum, brachyotum, brevicaudum, calcaratum, childreni, cirrhosum, crenulatum, discolor, dorsale, elongata, elongatum, erythromos, excisum, falcatum, fuliginosum, funarium, grayi, hastatum, humerale, infundibuliforme, innominatum, jamaicense, lanceolatum, leachi, leucostigma, lilium, lineatum, longifolium, macrophyllum, obscurum, oporaphilum, personatum, perspicillata, planirostre, plecotus, pusillum, redmanni, rotundum, soricinum, spasma, spectrum, superciliatum, sylvicolum, vampyrus, verrucata, waterhousei.

Phyllotomus frenatus, lineatus, lituratus, megalotis, quixensis, soricinus, spectrum, spiculatus, vittatus.

Phylloteles pictipennis.

Phyllotocus bimaculatus, erythropterus, macleayi, navicularis, pusillus, rufipennis, ustulata.

Phyllotoma (Col.) reflexa.

Phyllotoma (Hym.) aethiops, affinis, annulata, cerasi, conformis, ephippium, fuscipennis, intercus, leucopoda, minuta, monilicornis, morio, nemoralis, nemorata, nigrita, ovata, puella, rosae, serva, simplex, spinarum, vagans, ventralis.

Phyllotreta lepidi, nemorum, quadripustulata, rivularis, rugifrons.

Phyllotrox pallidus, rufus, semirufus.

Phyllotrupes cyanipennis.

Phylloxera coccinea, longirostris, quercus.

Phyllurus cuvieri, inermis, milii, novae hollandiae, platyura, vulgaris, whitei.

Phylliphanta producta.

Phylus pallipes.

Phymaphora pulchella.

Phymasterna lateoguttata.

Phymastrea profundior, valenciennesi.

Phymata crassipes, erosa, integra, macrocephalus.

Phymateus cinctus, leprosus, miliaris, morbillosus, punctatus, scabiosus.

Phymatoderus bizonatus.

Phymatisma tuberculata.

Phymatodes aereus, amoenus, analis, brevicollis, collaris, dimidiatus, fennicus, humeralis, lepidus, nigricollis, nigrinus, praeustus, testaceus, thoracicus, tuberculatus, variabilis, varius.

Phymatopterus piceus.

Phymaturus palluma.

Phymeroda equalis.

Phymesoda dubia, lacustris.

Phyria punctulata.

Phyrrhorax crinitus. *Vide et Pyrrhocorax.*

Physa acuta, adansonii, alba, ancillaria, antoni, aurea, australiana, australis, borbonica, brasiliensis, bullata, buschi, castanea, charpentieri, christoli, columnaris, concolor, contorta, cornea, cubensis, cyanea, cylindrica, dalmatina, diaphana, distorta, doliolium, draparnaudi, elliptica, elongata, fluviatilis, fontana, fontinalis, fragilis, galloprovincialis, gardanensis, georgiana, gibbosa, gigantea, glabra, globosa, guerini, gyrina, hildrethiana, hypnorum, impluviata, inflata, integra, ludoviciana, ludwigi, marginata, marmorata, mexicana, michaudi, microstoma, moluccensis, nana, natalensis, nitens, novae hollandiae, obesa, oblonga, osculans, panamensis, parvissima, pectorosa, perrisiana, peruviana, philippii, planorbula, plicata, pomilia, princeps, prinsepi, producta, pulchella, pyrum, reticulata, rivalis, rivularia, rivularis, sayi, scalaris, scalata, scaturiginum, semiplicata, sinuata, solida, sowerbyana, spiculata, striata, subarata, subopaca, tabulata, tongana, troostensis, tropica, turrita, umbilicata, variabilis, venustula, vinosa, virginea, wahlbergi.

Physalaemus bilroni, cuvieri.

Physalia antarctica, arethusa, atlantica, australis, azoricum, boiei, caravella, cristallina, cymbiformis, escholtzi, gigantea, hyalina, megalista, obversa, olfersi, pelagica, pelagica, physalis, producta, rosacea, thalia, utriculus, velificans.

Physalis elongata, gainardi, jubartes, rorquala, tuberculosa, vulgaris.

Physaloptera abbreviata, alata, bilabiata, clausa, dilatata, megalostoma, retusa, saginata, spirula, strongylina, tenuicollis, turgida.

Physalus acuto-rostratus, antarcticus, antiquorum, arethusa, australis, boops, brasiliensis, cylindricus, fasciatus, iwasi, musculus, sibbaldi, verus.

Physapus ater, atratus, coa, cynorrhedi, obscurus, ulnifoliorum.

Physauchenia pallens.

Physchiosoma globosum, pyriforme. *Vide et* **Fischiosoma**.

Physcis furcatus.

Physegaster maculatus.

Physegenua vittata.

Physematium atlanticum, vermiculare.

Physeta suflator.

Physeter antiquus, bidens, breviceps, cylindricus, mular, orthodon, polycyphus, pterodon, sulcatus, trunpo.

Physetops tartaricus.

Physicerus speciosus.

Physignathus cocincinus, lesueurii.

Physis longipennis, siculus.

Physocnemum brevilineum, ligneum, proteus.

Physocoelus inflatus.

Physocoryna scabra.

Physocrotaphus ceylonicus.

Physodactylus bescki, henningi.

Physodera dejeani, eschscholtzi.

Physoderes notata.

Physodeutera adonis, angusticollis.

Physogaster mendocinus, peruanus, tomentosus.

Physognathus obscurus.

Physolaesthus australis.

Physomerus (Col.) calandroides.

Physomerus (Hem.) affinis, angustior, bispinus, calcar, grossipes, lineatocollis, obscuricornis, rhombeus, rhombifer, subseratus, terminalis.

Physonemus arcuatus, subteres.

Physonota alutacea.

Physoon echinatus, fusiformis.

Physopalpa nysa.

Physopelta affinis, erythrocephala.

Physophora ambigua, cupulita, glandifera, tectum, tetrasticha, vesiculosa. *Vide et* **Physosphora**.

Physoplia crassicornis, nigrata.

Physopsis africana.

Physorhinus (Col.) erythrocephalus, sturmi, xanthocephalus.

Physorhinus (M.) galapagoensis, proboscideus.

Physorhynchus barbicornis, crux, lucidus.

Physoscelus pallipes, rubiventris.

Physostomum bombycillae, frenatum, irascens, marginatum, mystax, sulphureum.

Physothorax boyeri, goureaui, laevirostris, maillei.

Physophora alba, australis, discoidea, disticha, forskal, intermedia, mizonema, musonema, muzonema, radicans, ulophylla. *Vide et* **Physophora**.

Phytaecia acuminata, azurea, cirteensis, erythrocnema, guerini, malachitica, rubricollis, virescens, vittigera, warnieri. *Vide et* **Phytoecia**.

Phytalus apicalis, bolivensis, laevigata, obsoletus, piceus, pruinosis, pubicollis.

Pytholaema mutabilis.

Phyto nigra, nigro-graecescens, palpalis, prompta.

Phytobaenus amabilis.

Phytobius caniculatus, comari, cuprifer, granatus, hydrophilus, inaequalis, leucogaster, myriophylli, notula, quadricornis, quadridentatus, quadridentatus, quadrispinosus, quadrituberculatus, rufescens, sulcicollis, velaris, velatus, waltoni.

Phytocoris adpersus, aethiops, agilis, albida, albipennis, albofasciatus, albostrigatus, alpina, ambiguus, angulata, apicalis, arbustorum, artemisiae, ater, aurulentus, betuleti, bicolor, bifasciatus, bimaculatus, binotatus, bipunctata, bohemanni, campestris, capillaris, chenopodii, chorizans, clavatus, contaminata, cordiger, coryli, crassicornis, dalmanni, danicus, divergens, dolabratus, elongatus, ericetorum, erythromelas, erythrophthalmus, falleni, femoralis, ferrugatus, ilicis, flavomaculatus, flavomarginatus, flavosparus, flavo-varius, fulvo-maculata, gothicus, gracilis, graminicola, grandis, gyllenhalii, histrionicus, hyalinipennis, instabilis, institutus, kalmi, lateralis, leucocephala, llesgica, limbatus, lineolatus, longicornis, lugubris, luridus, lutescens, marginata, marginellus, melanocephalus, minutissimus, molliculus, montanus, mutabilis, nassata, nemoralis, nigripes, nigrita, nigritula, nigrovittatus, obscurus, obscurus, pabulina, pallens, pallicornis, pallidus, pallipes, passerinii, pastinacae, paykulli, pinastri, pinetella, populi, prasina, pratensis, pulicarius, pullatus, punctata, puncticollis, punctulatus, punctum, pygmaeus, pyrhuba, querceti, reicheli, revestitus, roseus, rubicunda, rubricata, rubromarginatus, ruficollis, rufipennis, rufiventris, rugicollis, saltitans, salviae, sanguineus, schmidtii, scriptus, scutellaris, seladonicus, semiflavus, seticornis, sexguttatus, sexpunctatus, striata, striatella, tanacetii, tenellus, testaceus, thoracicus, thunbergii, tiliae, trilineatus, tripustulatus, tunicatus, ulmi, umbratilis, variabilis, varicornis, viridis, viridulus.

Phytocrinus europaeus.

Phytodietus albipalpus, astutus, blandus, calceolatus, caligatus, chrysostomus, corvinus, coryphaeus, errabundus, formosus, microtamis, niger, plantarius, rusticus, segmentator, splendidulus.

Phytoecia affinis, analis, argus, azurea, cephalotes, cinctipennis, cyclops, cylindrica, diademata, ephippium, faldermanni, femoralis, favesces, flavipes, fumigata, graeca, hirsutula, jourdani, limbata, lineola, longuida, maculosa, molybdaena, nigricornis, pallidipennis, pretiosa, puncticollis, punctum, rufoana, scutellata, sibirica, tibialis, vestita, virescens, virgula, vittigera. *Vide et Phytaecia.*

Phytogyra cottaldina, magnifica, tuberosa.

Phytolopsis punctata.

Phytopetra aenea, albilinea, anomala, apicosa, arbuti, arcuosa, bankiana, bifasciosa, bractea, chrysis, circumflexa, crassiuscula, dipsacea, festucae, fusca, gamma, glyphica, grandirena, illustris, interrogationis, iota, leucomelas, luctuosa, ludicra, lusoria, lutescens, mi, minuta, monilis, nigrireana, orichalcea, rufa, scopulepes, straminea, sulphurea, unca, venustula.

Phytomia chrysopyga.

Phytomyptera nitidiventris.

Phytomyza abdominalis, affinis, agromyzina, albiceps, albipennis, albipes, analis, annulipes, aquilegiae, atomaria, atra, atricornis, caffa, confinis, elegans, fasciata, femoralis, festiva, flava, flaviceps, flavicornis, flavilabris, flavipes, flaviventris, flavo-scutellata, fuscula, geniculata, ilicis, incisa, lateralis, liturata, maculipes, marginella, minima, morio, nigra, nigricans, nigricornis, nigripennis, nigritella, nigritula, nitidicollis, notata, obscura, obscurella, oscinina, pallicornis, pallida, praecox, pullula, pygmaea, ruficornis, rufipes, scutellata, stylata, sulphuripes, tenella, terminalis, varipes, viduata, vitripennis, zonata.

Phyton limum.

Phytonomus alternans, alternatus, anceps, angusticollis, armillatus, arundinis, auro-lineatus, austerus, austriacus, balteatus, brunnipennis, canescens, chloroconus, circumvagus, comptus, confusus, consinnus, constans, contaminatus, crinitus, cubae, curtus, cyrtus, dapaalis, dauci, deportatus, desertus, dissimilis, distigma, distinguendus, diversus, dorsatus, elegans, elongatus, farinosus, fasciculatus, fulvipes, fuscatus, fuscescens, gebleri, germari, gimmerthali, hispidulus, histrio, ignotus, incitus, incomptus, insidiosus, intermedius, isabellinus, julini, kunzii, laticollis, latipennis,

- biliputanus, lubeculus, maculatus, mali, melanocephalus, melarhynchus, meles, mixtus, murinus, mutabilis, nebulosus, nigrirostris, nigropunctatus, oblongus, ochraceus, ovalis, oxalis, palumbarius, palustris, parallelogrammus, parvus, pastinacae, pedestris, phaeopus, philanthus, picicornis, picipes, pictus, plagiatus, plantaginis, pollux, polygami, posticus, punctatus, punctellus, rubrovittatus, rufipes, rufus, rumicris, salviae, scapularis, schuppeli, sejugatus, setosus, signatus, socialis, somatus, spissus, striatus, sublineata, subsulcatus, suspiciosus, suturalis, tessellatus, tigrinus, trivittatus, turbatus, variabilis, variegatus, varius, velutinus, viciae, viennensis, villosulus.
- Phytophilus** cruciferus, pelopioides, schoenherri.
- Phytopsis** cellulosum, tubulosum.
- Phytosaurus** cubicondon, cylindricodon.
- Phytoscaphus** articollis, chloroticus, ictericus, inductus, lixabundus, nepalensis, siamensis.
- Phytosus** spinifer.
- Phytotoma** abyssinica, angustirostris, bloxami, ferreo-rostre, guisobalito, molina, rutila, silens.
- Phytotribus** unicolor.
- Phyxelis** glomerosus, rigidus, setiferus.
- Phyza** fontinalis, hypnorum.
- Piabucina** erythrinoides.
- Piabucu** argentina, schizodon, vittata.
- Piabucus** bimaculatus, gibbosus, melanurus, vulgaris.
- Pialea** lomata.
- Piaromias** inauratus, karelini, schrenki.
- Piaya** americana, brachyptera, brasiliana, cayana, cayanensis, cnysogaster, cinnamomeiventris, circe, cornuta, dominica, erythrophthalma, erythrorhyncha, ferruginea, macroura, mehleri, melacorypha, melanorhynchus, minor, minuta, nacira, pluvialis, punctulata, ridibunda, rutila.
- Piazomias** egenus, globulicollis, perroteti, prasinus, pullatus, schrenchi, virescens, viridanus.
- Piazorhinus** scutellaris.
- Piazorus** conjunctus.
- Piazurus** balistes, bidentatus, bispinosus, bistriatus, calcaratus, caprimulgus, cerastes, ciliatus, compactus, condyliatus, contumeliosus, defector, fraudulentus, imbellis, incommodus, maculipes, melanostichus, misumenus, mitis, notabilis, obesus, ochrocephalus, operosus, ostracion, phlesus, pleuronectes, propinquus, rosenscholdi, saginatus, stipitosum, subundatus, succivus, taciturnus, umbrinus, varipes, varius, versicolor.
- Pica** africana, albicapilla, albicollis, albiventris, azurea, beecheyi, bennetti, bottanensis, bullocki, caerulea, caledonica, caribaea, caudata, cayanus, chloronotus, chrysops, cinerea, collei, coronata, crassirostris, cristata, cristatella, cyana, cyaneus, cyanochlora, cyanomelas, cyanopogon, cyanoptera, erythrorhyncha, erythrorhynchus, europaea, ferruginea, formosa, fuliginosa, galericulata, germanica, gingensis, glandaria, gularis, hiemalis, hudsonica, infausta, japonica, larvata, leucolopha, luteola, mauritanica, megaloptera, melanocephalus, melanoleuca, mori, mystacalis, nebui, nigra, nigro-alba, nuchalis, nuttalli, olivaceus, ornata, panderi, peruvianus, pica, pileata, pumetorum, rufa, rufigaster, rufiventris, rufus, rusticorum, san-blasiana, senegalensis, septentrionalis, serica, sieberi, sinensis, speciosa, stelleri, tibetana, vagabunda, varia-japonica, ventralis, zanae.
- Picathartes** gymnocephalus.
- Picerthia** hilaris.
- Picicorvus** columbianus, muralis.
- Piconotus** carbonarius, humeralis, humeraloides, inornatus, niveoventer, ochrocephalus, simplex.
- Picoides** alpinus, arcticus, europaeus, hirsutus, montanus, septentrionalis, tridactylus, variegatus.
- Picolaptes** affinis, albobularis, albolineatus, angustirostris, bivittata, brunneicapillus, capistrata, cinnamomeus, coronatus, guttata, lacrymiger, leucogaster, lineataiceps,

miniatus, obsoletus, ocellatus, promeropirhynchus, rufinucha, scolopaceus, souleyeti, spixi, squamatus, superciliosus, tenuirostris, wagleri, zonatus.

Picromerus bidens.

Piculus minutus, nipalensis, rufifrons.

Picumnus abnormis, albosquamatus, buffoni, cayennensis, ciananomens, cirratus, exilis, granadensis, inominatus, lichtensteini, minutissimus, minutus, ocellatus, olivaceus, orbignyana, pygmaeus, rufiventris, temmincki.

Picus abyssinicus, aethiopicus, affinis, africanus, albifrons, albirostris, altivolans, analis, analis, arator, arcticus, atratus*, atriventris, atrothorax, auduboni, aurantia, aurantina*, aurantius*, auratus, auriceps, aurifrons, aurocapillus, aurocristatus, aurulentus, awokera, ayresi, badioides, badius, barbatus, biarmicus, bicolor, boiei, borealis, brachyurus, brazilensis, brunneus, brunniifrons, buffoni, cactorum, callonotus, campestris, cancellatus, canente, canicapillus, caniceps, canipileus, capensis, cardinalis, castaneus, cathpharius, cathphorius, cayennensis, ceylonus, chilensis, chlorigaster, chlorio, chlorolophus, chlorozostus, chrysochloros, chrysogenys, chrysonotus, chrysosternus, ciureigula, cirris, cissa, comatus, concretus, coronatus, crawfordi, cristatus, cynaedus, darjellensis, dimidiatus, diophrys, dominicanus, drycolaptes, dubius, elegans, erythrauchen, erythrocephalus, erythrogaster, erythronotus, erythropis, erythrops, exilis, fernandinae, flavescens, flavicans, flavicollis, flavifrons, flavigula, flavinucha, flaviventris, formicivorus, frondium, fulvigaster, fulviscapus, fulvus, fumigatus, funebris, fuscescens, fuscofulvus, gairdneri, galeatus, gayaquilensis, gracilis, gramineus, granti, grantia, grateloupensis, griseocephalus, griseus, guatemalensis, gularis, guttaeristatus, guttatus, gutturalis, gutturalis, haemasoma, haematogaster, haematribon, hardwicki, harrisi, hemprichi, herminieri, himalayensis, hirsutus, hodgsoni, horsfieldi, hortorum, hueberi, hyperythrus, hypopolius, hypoxanthus, icterocephalus, icteromelas, imperialis, iudicus*, intermedius, ischnorhynchus, jardiini, javensis, jubatus, jugularis, jumana, jynx, karelini, kingi, kirki, kisuki, kizuki, labarum, langsdorffi, larvatus, lathamii, le contei, lessoni, leucogaster, leucomelanus, leuconotus, leucopogon, leucotos, lewis*, lichtensteini, lineatus, luridus, macei, mackloti, macrocephalus, maculatus, maculifrons, maculipennis, maculosus, magellanicus, mahrattensis, majoroides, martini, maximus, medianus, melanocephalus, melanochlorus, melanogaster, melanopogon, melanopterus, melanoetus, melanurus*, mentalis, meridionalis, meropirostris, mexicanus, micropus, minimus*, minutus, mitchelli, modestus, montanus, multifasciatus, murinus, mystaceus, nanus, nattereri, neglectus, nepaulensis, niger, nigriceps, nigroscoccineus, notatus, nuchalis, numidicus, numidus, nuttalli, obscurus, obsoletus, occipitalis, ochraceus, olivaceus, olivinus, oriolus, ornatus, palalaca, parvus, pectoralis, peralaimus, percussus, phillipsi, pileatus, pinetorum, pipra, pitius, pityopicus, poecilophos, poecilosophos, polleus, polyzonus, porphyromelas, portoricensis, pubescens, pulverulentus, punctatus, puncticeps, punctigula, punctulatus, punctuligerus, puniceus, pygmaeus, pyrrhogaster, pyrrhonotus, pyrrhotis, quadrimaculata, quercuum, querulus, radiolatus, rafflesii, rivoli, robustus, rubescens, rubicatus, rubidicollis, rubiginosus, rubricapillus, rubricollis, rubrifrons*, rubriventris, rubropygialis, ruficeps, rufoviridis, rufus, ruppeli, saucius, scandens, scapularis, schoensis, scutatus, septentrionalis, shorei, similis, smithi, sonnerati, sordidus, spilogaster, spilolophus, squamacollis, squamatus, squamosus, striatus, stricklandi, strictus, striolatus, subocularis, sultaneus, sumptuosus, supercilialbus, superciliaris, swainsoni, syriacus, temmincki, tephrodops, thoracinus, tiza, tinnunculus, torquatus, tricolor, tridactylus, tristis, tukki, undatus, uadodus, undulatus, validus, varius, vieilloti, villosus, virgatus, viridanus, viridicanus, vittatus, wilsoni, xanthoderus, xanthotaenia, yucatanensis.

Pierites freyeri.

Piesarthrius reichi.

Piescephalus adherens.

Piesma capitatum, laetum, maculata, marginatum, melanocephalum, tricolor.

Piesmopoda rubicundella.

Piesmus submarginatus.

Piestocera dircaeoides.

Piestocystis crispa, dithyridium, martis, rugosa, taxi, variabilis.

Piestodesmus moreleti.

Piestosoma depressa, flavomaculata.

Piestus capricornis, erythropus, fulvipes, lacordairei, mexicanus, minutus, pygmaeus, spinosus, sulcatus.

Piezia angusticollis, aptinoides, axillaris, circumcincta, lateralis, laticollis, limbatella, lineolata.

Piezocera bivittata, coriacea.

Piezocorynus dispar.

Piezoderes winthemi.

Piezogaster albonotatus.

Piezonotus suturalis.

Piezophyllus shuckhardi, spencei.

Piezopleura angulosa.

Piezorhina cinerea.

Piezorhopalus nitidulus.

Piezorhynchus nitidus.

Piezosternum mucronatum.

Piezotrachelus aphaltnus, crotalariae, fallax, germari, herbsti, languidus, pullus.

Pika alpinus.

Pileola gibraltarum, neritoides.

Pileolus altavillensis, costata, dexter, laevis, moreanus, neritoides, plicatus, radiatus.

Pileoma caprodes, semifasciatum, zebra.

Pileophorus nicticans.

Pileopsis albida, alta, ampliata, ancyliiformis, angustus, antiquata, aquensis, arquata, astericola, bistriata, brauni, bredai, carnicolor, cassidens, compressa, compressiuscula, conica, conoides, contorta, corniculum, cornucopia, cornuta, crenulata, crispa,

crystallina, cytherae, declinata, depressa, dilatata, eifliensis, elegans, elongata, extensus, garnoti, gracilis, graduatus, granulosa, intorta, iurensis, laevigata, lineata, militaris, minutus, mitrula, naticoides, neglecta, neritoides, opercularis, paleacea, paretti, patelloides, pennata, pilosus, plana, prisca, pustulosa, quadriloba, radiata, reticulata, retortella, rosea, rotunda, rotundata, rugosa, spiralis, spirostris, squamaeformis, striatula, striatus, subrufa, substriata, sulcata, sulcosa, tenella, tricostata, trigona, trilobus, tubifer, ungarica, ungaricoides, unguis, variabilis, vetusta.

Pilidion lineatum.

Pilidium commodum, fulvum, gyran*.

Piliger grylloides.

Pilinurgus hirtus.

Piliolites ohioensis.

Pilioloba salar.

Piliscelotus vitreus.

Pilophorus bifasciatus*.

Pilopsis sinuosa, spirata.

Pilumnoides perlatus.

Pilumnus (Cr.) aestuarii, androssyi, bispinosus, cupulifer, dilatipes, dioxippe, fimbriatus, forskali, granulatus, harrisi, helia, hirtellus, lanatus, lunatus, merope, peroni, quoyi, scabriusculus, spinifer, spinimanus, tomentosus, ursulus, vauquelini, vespertilio, villosus, xanthoides.

Pimelepterus altipinnis, bosquii, dussumieri, fuscus, incisor, indicus, laevifrons, lembus, marciae, oblongior, reynaldi, tabmel, vaigensis.

Pimelia abbreviata, acervata, aculeata, afer, affinis, aggregata, alternata, alutacea, angulata, angulosa, angusticollis, anomala, anthracina, antiqua, arabica, arenacea, asper, aspera, asperata, asperula, atlantis, baetica, bajula, balearica, banki, barbara, barthelemyi, bicarinata, bicolor, bifurcata, boyeri, brevicollis, buprestoides, canaliculata, canariensis, cancellata, canescens, caniculata, capensis, capillata, capito, carinata, cephalotes, clatbrata, claudia, clavaria, comata, convexa, coordinata, coriacea, corrugosa, costata, cothurnata, crassipes, crenata, cribra, cribripennis, crinita, cursor, cylindrica, dejeani, denticulata, depilata, deplanata, depressa, detersa, dermestoides, distincta, dolatata, dubia, duponti, elongata, emarginata, exanthematica, extensa, femorata, flavipes, frioli, gadium, gemmata, gigantea, globosa, goryi, graeca, grandis, granifera, granulata, granulosa, haemorrhoidalis, helopioides, hemisphaerica, hesperica, hirta, hispanica, hispida, hottentotta, imbricata, inaequalis, incerta, inflata, interjecta, intermedia, interpunctata, interrupta, interstincta, interstitialis, irrorata, lacunosa, laminata, lateralis, latipes, latreillei, leachi, levigata, lima, lineata, lucidula, lurida, lusaria, macropus, marginata, maura, mauritanica, meridionalis, metallica, metopotapha, miliaris, mittrei, mongeneti, monilifera, monilis, montana, morbillosa, musiva, neglecta, nodosa, obesa, oblongum, obsoleta, obtusa, ornata, oxysterna, papillosa, parallela, perevostchicovii, perlata, persica, phymatodes, picicornis, piligera, plinthota, polita, pubescens, punctata, puncticollis, punctigera, punctulata, radula, reticulata, rotunda, rotundata, rupees, rugatula, rugulosa, ruida, ryssos, salebrosa, sardea, sarpa, scabrosa, schoenherri, sennariensis, sericata, sericella, serrata, serratula, serricosta, serrulata, servillei, similis, simplex, sparsa, spinulosa, subglobosa, sublaevigata, subquadrata, subscabra, suturalis, tenuicornis, tibiata, timarchoides, tomentosa, tristis, tuberculata, tuberosa, ulcerosa, undata, undulata, urtica, valida, varicosa, variolaris, variolosa, veles, velutina, ventricosa, verrucosa, verruculifera, vestita, villosa.

Pimella quadricollis.

Pimelodes conirostris, coruscans, cyclopum, felis, filamentosus, fossor, genidens, lateristrigus, macropterus, octocirrus.

Pimelodus aeneus, albidus, angio, aor, arehaima, argenteus, argentinus, argyrus, arius, ascita, asperus, atherinoides, atrarius, auratus, bagarius, bagre, bajad, barbauch, barbus, batasio, biscutatus, blochi, bonderius, botius, bufonus, caeruleus, cantonensis, carcio, carnicatus, catus, caudafurcatus, cavasius, cavia, cenia, chandamara, charus, chilensis, clarias, commersonni, conirostris, conta, cous, cranchi, cristatus, ctenodus, cupreus, cyanochloros, cyclopum, deppei, docmac, eques, erythropterus,

exsudans, fasciatus, felis, foina, fulvidraco, furcatus, furcifer, gagata, gagora, galetus, gracilis, grunniens, gulio, guttatus, hara, hemioliopterus, herzbergi, hilarii, indicus, insignis, jatius, javus, lateristrigus, laticeps, lemniscatus, limosus, lividus, lutescens, maculatus, mangois, mangurus, manillensis, melas, membranaceus, menoda, militaris, mong, murius, musculus, mustelinus, namdia, nangra, natalis, nebulosus, nella, nenga, nigricans, nigrodigitatus, nodosus, notatus, occidentalis, pallidus, pangasius, pati, pectinidens, pentlandi, peroni, pirinampu, platypogon, pullus, punctulatus, pusillus, quadrinaculatus, quellen, rama, raninus, rigidus, rita, rugosus, sadleri, sagor, sapo, sebac, seengtee, sellens, silondia, sona, spixi, stegelichi, synodontis, tachisurus, telchitta, tengana, tengara, thumberg, urua, vacha, variegata, velifer, viridescens, viscosus, vittatus, vulgaris, xanthocephalus, zungaro.

Pimelopus laevis, nothus, porcellus.

Pimnephales promelas.

Pimpla abbreviator, abdominalis, accusator, aethiops, alternans, angens, annulipes, apicalis, approximator, arctica, arundinator, aterrima, atrata, barbator, bicolor, bicornis, bilineata, bipartita, brevicornis, caerulea, calobata, caloptera, castanea, caudata, ceratites, cicatricosa, cinctator, clavata, compunctor, concolor, continua, coronator, cossivora, crassicornis, crassipes, crenator, cyanipennis, cylindrator, decorator, degener, dentata, dentator, didyma, dohrni, dorsiger, elongator, ephippiatoria, ephippium, examiner, excavata, extensor, fasciata, flavicans, flaviceps, flavipes, fronticornis, fuscicornis, fuscipes, ghiliani, graminellae, humida, illecebrator, imitator, instigator, interruptor, intricatoria, irritator, laevis, laticeps, linearis, longicauda, longiseta, longiventris, lunator, macula, madida, mandibularis, manifestator, marginella, marginellatoria, mediator, mediatoria, melanocephala, melanopyga, meliorator, mensurator, mesocentra, mixta, monocera, necator, nervator, nigriceps, nigrohneata, notator, nucum, oculatoria, ornata, ovivora, pedator, pennator, persuasoria, petiolatus, phoenicea, pictipes, pomorum, pudibundae, punctata, punctulata, punctum, reissigi, resinellae, roborata, rufata, ruficollis, rufipes, scania, segmentator, semirufa, senator, sponsa, spuria, stercorator, strigator, strobilellae, strobilorum, subcornuta, tarsalis, terebrans, terminalis, tricolor, trilineata, turionellae, vagatoria, varicornis, variegata, vesicaria, vetula, viduata, vipioides, vittata.

Pinacia fulvidorsalis, molybdaenalis.

Pinacodella kolenatii.

Pinaris angelicella, apiella, badiella, carduella, depunctella, flavella, gilvella, hamiferella, heraceliella, malvella, rubidella, yeatiella, zephyrella.

Pinarus spiculus, squahdus.

Pincina composita*, elliptica*, globosa*, oblonga.

Pinguin pica, torda.

Pinguipes brasiliensis, chilensis, fasciatus.

Pinicola (A.) rubra.

Pinicola (Hym.) julii.

Pinicolor enucleator.

Pinna adusta, affinis, afra, alta, ampla, angustana, arata, arcuata, argentea, atropurpurea, bicarinata, bronni, buchi, cancellata, capricornus, carnea, chinensis, compressa, conica, cornuformis, costata, cottae, crassa, crassissima, cuneata, decussata, deflecta, degenera, deltodes, depressa, detusa, diluviana, dolabrata, dorsata, elegans, fenestrata, fissa, flabelliformis, flabellum, flexicostata, folium, gallica, galliennei, gizas, gracilis, granulata, granulosa, hartmanui, bastata, imbricata, inflata, italicus, ivaniskiana, konnicki, laevigata, laevis, lanceolata, ligieriensis, lineata, listeri, lubrica, lucienensis, margaritacea, marginata, maura, membranacea, mitiloides, mitis, moreana, moulinsi, mutica, nebulosa, neptuni, nigra, nigricans, nigrina, nodulosa, nuttalli, obliquata, ornata, patagonica, perna, petasenculus, pinnigera, prisca, quadrangularis, radiata, rectico-stata, renauxiana, restituta, rigida, robinaldina, rostriformis, rugosa, rugoso-radiata, russiensis, saussurei, semicostata, seminuda, serrata, sigmoidea, socialis, squamifera, squamosissima, striata, striolata, subquadrivalvis, subrugosa, subtetragona, sulcata, sulcifera, suprajurensis, tenera, tenuistria, tetragona, transversa, triangularis, truncata, tuberculosa, tubularis, varicosa, viminea, virgata, zelandica.

Pinnigena bathonica, rugosa, saussurei.

- Pinnites** cretaceus, diluvianus, flabelliformis, nudus, restitutus, substriatus, unguatus.
- Pinnixa** cylindrica, transversalis.
- Pinnoctopus** cordiformis.
- Pinnopsis** acutirostra, ornatus.
- Pinnotherelia** laevigata.
- Pinnotheres** auritus, bipunctatus, byssoniae, chilensis, cranchi, cylindraceum, cylindricum, depressum, ferrugineus, glaberimus, latreillei, maculatum, minutus, modiolae, monodactylum, montagui, mytilorum, orientalis, ostreum, pholadis, pinnophylax, pisum, plicatus, pusillus, semicylindricus, sexpes, transversalis, tridacnae, varians, veterum, villosulus.
- Pinophilus** aegyptius, albipes, brevicollis, brunneus, caliginosus, capensis, cayennensis, complanatus, crassicollis, cribratus, flavipes, fulvipes, javanus, latipes, lividipennis, longicornis, majus, niger, obscurus, paluatus, picipes, punctatus, sulcus, sulphuripes, tenebrosus, terminatus, torosus.
- Pinotus** inachus, talus.
- Pinus** rostellaria.
- Piodes** coriacea.
- Pionea** bifascialis, conquisitalis, stramentalis.
- Pionus** barrabandi, brachyurus, flavifrons, fuscicapillus, guineensis, gulelmi, le vaillanti, maximiliani, melanocephalus, melanotis, menstruus, meyeri, pachyrhynchus, purpureus, rufiventris, senegalus, senilis, sordidus, vinaceicollis, vulturinus.
- Pionycha** maculata, tristis.
- Piophila** affinis, albipennis, apii, atrata, bipunctata, caerulea, caica, casei, confinis, distincta, flavipes, flavitarsis, foveolata, laevigata, latipes, lonchaeoides, luteata, metallica, nigra, nigripes, nigricornis, nigrimana, nitida, pectoralis, petiasonis, pilosa, punctipennis, pusilla, pygmaea, ruficoxa, scutellaris, varipes, vicina, viridicollis, viridis, vulgaris.
- Piosoma** setosum.
- Pipa** bufonia, curucu, laevis, tedeo, vulgaris.
- Pipastes** arboreus.
- Pipilio** ater, liris.
- Pipillo** fusca, macronyx, personata, ruitorques, superciliosa.
- Pipilo** arctica, cinerea, erythrophthalma, fusca, macronyx, maculata, oregonus, personata, rufescens, rufopileus, superciliosa, thoracica, torquatus.
- Pipilopsis** atripileus, canicularis, flavipectus, fulviceps, ophthalmicus, personatus, rubrirostris, ruficeps, semirufus, superciliaris.
- Pipistrellus** albolimbatus, kuhli, lepidus, leucippe, leucogaster, marginatus, nathusii, nigricans, nigrita, nilssonii, tricolor, typus, ursula.
- Pipiza** acuminata, albifrons, albipila, albitarsis, albohirta, annulata, anthracina, artemis, atra, aurifrons, austriaca, biguttata, biguttula, bimaculata, binotata, buccata, calceata, campestris, carbonaria, chalybeata, coerulescens, costalis, fasciata, fenestrata, festiva, flavitarsis, fulvimana, funebris, geniculata, guttata, heringi, hyalipennis, interrupta, lateralis, leucopeza, longicornis, lucida, luctuosa, lugubris, lunata, luteitarsis, maculipennis, melancholica, morionella, morosa, nigripes, noctiluca, notata, obscura, obscuripennis, obsoleta, ornata, quadriguttata, quadrimaculata, ratzeburgi, ruficornis, ruithorax, sabulorum, sericea, signata, strigata, tibialis, tristis, vana, varians, varipes, virens, vitrea, vitripennis.
- Pipodes** tridactylus.
- Pipra** africana, atra, aurantia, aurantiaca, auricapilla, aurocapilla, australis*, brunnea, caerulea, candei, carnifex, caudata, cephalaeus, chloris, chlorocapilla, chloromeros, chrysopogon, chrysoptera, coccinea, coerulescapilla, cornuta, coronata, cyanea, cyanocapilla, cyanocapala, desmaresti, elata, elegantissima, erythrophos, europaea, fasciata, fastuosa, filicauda, filifera, flavogaster, forficata, frontalis, fulva, galeata, galericulata, gularis, gutturosa, herbacea, ignicapilla, lanceolata, laplacei, linearis, lineata, longicauda, manacus, militaris, monacus, oxyura, parolides, pectoralis, percussa, perspicillata, pileata, plumbea, polyglotta, pusilla, pyrrhocapala, rubrifrons, rubrocipilla, squalida, strigellata, strigilata, striolata, superciliosa, tedeo, tyrannulus, virens, viridis, vitellina.

Pipraeidea cyanea.

Pipreola chlorolepidota.

Piprisoma agilis.

Piprites chlorion, pileata.

Pipunculus albinus, albitarsis, annulipes, ater, auctus, campestris, dentipes, dispar, dubrensis, exiguus, flavipes, fulvipes, fuscipes, fuscus, geniculatus, haemorrhoidalis, halteratus, holosericeus, lateralis, maculatus, modestus, monticola, nigrifolius, obscurus, obtusinervis, opacus, pilosus, pratorum, reipublicae, rufipes, ruralis, scutellatus, spinipes, spurius, succini, sylvaticus, unicolor, varipes, vittipes.

Pirarara bicolor.

Pirates abdominalis, balteatus, flavipes, fuliginosus, fulvoguttatus, morio, mutillarius, myrmecinus, picipes, pictus, pungens, roseus, rufipennis, spheginus, stridulus, ululans, unicolor.

Piratesa nigroannulata.

Pirauta conversalis, intermedius.

Pirena (G.) acus, annulata, aurita, granulosa, madagascariensis, nigra, scalariformis, spinosa, terebralis.

Pirena (Tun.) plusca.

Pirene chalybea, eximia, graminea, rubi, scylax, varicornis.

Pirenella mammillatum.

Pirenestes sanguineus.

Pirgo laevis.

Pirimela denticulata.

Pirina montanvillensis.

Pirolina ceti.

Pisa aculeata, aries, armata, aurita, barbicornis, biaculeatus, bicorna, bicornuta, chiragra, cocinea, corallina, cornigera, diacantha, dumerili, fascicularis, gibbsi, heros, incisus, intermedius, monoceros, mutica, nodipes, planasia, quadridens, sinope, spinipes, styx, tetraodon, thalia, trispinosa, xyphias.

Pisania antarctica, cineta, fasciolata, ignea, laevigata, lineata, lineolata, littorinoides, nodulosa, striata, striatula, undosa, violacea, vittata.

Pisicola fasciata, geometra, linearis, maculata, marginata, marina, percae, piscium, respirans, tessellata, vittata.

Pisidia asiatica, blutei, lamarcki, linnaeana, sayana, socia, viridis.

Pisidium abdutum, abruptum, acutum, annicum, appendiculata, australe, caliculatum, cinerea, diaphanum, dubium, duplicatum, fontinale, gassiesianum, gregarium, heislavianum, joannis, limosum, lunstenianum, milium, nitidum, normandianum, obliquum, obtusale, paludosum, pfeifferi, pulchellum, pusillum, pygmaeum, roseum, semen, spinosus, supinum, tenellum, thermale, viatianum.

Pisitoe baspinosa, levifrons.

Pisobia minuta, temminckii.

Pisodus oweni, politus.

Pisoides tuberculosus.

Pison argentatus, auratus, niger, obscurus, peletieri, punctifrons, rufipes, spinolae, westwoodi, xanthopus.

Pisoodon coleanus.

Pisorhina menadensis.

Pissocles albesignatus, annulatus, apiat, conspersus, hercyniae, juniperi, marginalis, marmoreus, nigrosignatus, notatus, obscurus, ocellatus, oculatus, pantherinus, piceae, pini, piniphilus, pulverosus, pupillatus, roreus, rufitarsis, tessellatus, undatus.

Pissodes affinis, annulatus, argus, armatus, bellicosus, bimaculatus, brasiliensis, bufo, choicus, circularis, collaris, cribrus, cylindricus, dealbatus, dubius, echinatus, erythrocephalus, erythrorhynchus, fabricii, femoratus, flammiger, gyllenhal, hercyniae, hercyniae, lipidis, insignatus, laevigatus, macellus, myops, nebulosus, nemorensis, notatus, obscurus, obsoletus, onychinus, ornatus, piceae, picturatus, pini, piniphilus, polymitus, prodigialis, ptinicolis, pulverulentus, punctum, pygmaeus, scutellaris, sericeus, setosus, squamosus, strobili, terribilis, trachypterus, tribulus, umbrosus, validirostris, variabilis, verrucosus.

- Pistosaurus** longaeus.
Pisum gallicum.
Pitangus chilensis, sulphuratus.
Pithanotes falsus.
Pithecheir melanurus.
Pithecia adusta, albinasa, capillamentosa, chiropotes, chrysocephala, dubius, guapo, hirsuta, inusta, israelita, leucocephalus, melanocephala, miriquouina, monachus, nocturna, ochrocephala, pithecia, pogonias, rubbarba, rubibarbata, rutiventer, sagulata, satanas, stenochina, ursina.
Pithecus abeli, aethiops, agilis, antiquus, arctoideus, cinerea, cinereus, gesilla, inuus, irridiventris, lar, leuciscus, maimon, malacensis, maurus, morio, nemaeus, pentheus, petauristus, porcarius, pyrrhonotos, sabaeus, satyrus, syndactylus, talapoin, troglodytes, variegatus, varius.
Pithelemur indri.
Pithes sylvanus.
Pithesciurus sainiri.
Pithitis aenea, smaragdula.
Pitho quinqueidentata, sexdentata.
Pithonoton rostratum, spinosum.
Pithophilus atomarius.
Pithylus luteus.
Pithys albifrons, leucophrys, leucops, pectoralis.
Pitonellus archiacianus, calliferus, depressus, heliciformis.
Pitonillus cepaceus, dubius.
Pitonnellus muricinus.
Pitta abdominalis, angolensis, arvensis, atricapilla, baudii, bengalensis, boschi, brachyura, brevicauda, caerulea, celebensis, corcinea, coronata, cucullata, cyanea, cyanoptera, cyanura, cyanuroides, elegans, erythrogaster, gigas, glaucina, grallaria, granatina, irena, iris, mackloti, macrorhyncha, macularia, malaccensis, maxima, media, melanocephala, nigricollis, nipalensis, novae-guineae, nuchalis, nymphea, pulih, rodogaster, schwaneri, strepitans, thoracica, tiniens, velata, venusta, versicolor, vigorsi.
Pituophis melanooleucus.
Pitylus ardesiacus, atro-chalybeus, atro olivaceus, atro purpuratus, aureo-ventris, brissoni, canadensis, cardinalis, chrysogaster, chrysopeplus, cyaneus, dorsigerus, erythromelas, flavo cinereus, gnatho, grossa, gularis, guttatus, lazulus, magnirostris, melanocephalus, olivaceus, personatus, picatus, poliogaster, portoricensis, potoricensis, superciliaris, torridus, violacea.
Pityophagus dermestoides, ferrugineus.
Pityriasis gymnocephalus.
Pitys oparana.
Pivelodus ceruleus.
Placenta communis, lincolni, papyracea, sella.
Placentula asterisans, auricula, crassula, faba, globulus, incrassata, pompilioides, pulvinata.
Placobranchus ocellatus.
Placocoenia macrophthalma.
Placocyathus apertus, nysti.
Placodes (Col.) caffer.
Placodes (Lep.) amethystina, spencei, virgo.
Placodon muensteri.
Placodus andriani, gigas, impressus, muensteri, rostratus, rostratus.
Placomus coralloides, ericoides.
Placoparia grandis, macroptera, zippei.
Placophyllia dianthus.
Placopsilina cenomana, cornueliana, neocomniensis, scorpionis.
Placopsis ocellata.
Placosaurus rugosus.
Placosmia arcuata, carusensis, cuneiformis, cymbula, elongata, parkinsoni, rudis.

- Placosoma cordylinum*.
Placostegus crystallinus, fimbriatus.
Placosternum taurus.
Placosteus arcuatus, macandrinus, undulatus.
Placostylus bootis.
Placothorax agassizi, paradoxus.
Placotrochus candeanus, laevii.
Placuna armata, complicata, ephippium, jurensis, lincolni, nodulosa, papyracea, pectinoides, placenta, placentiformis, scabra, sella, sinuosa, solida.
Placunanomia abnormalis, alope, cepio, colon, cumingi, echinata, foliata, ione, machrochisma, patelliformis, rudis, zealandica.
Placusa adscita, atrata, carbonaria, complanata, depressa, despecta, infima, pumilio, scapularis.
Plaesoncia arca, charon, vannus.
Plaesiocomia rara.
Plaesiorrhina reflexa.
Plaesiorrhina abbreviata, cincta, depressa, mediana, plana, trivittata.
Plaesus javanus.
Plagia elata, transversa.
Plagiocephalus (Dipt.) lobularis.
Plagiocephalus (Hem.) pachymerus.
Plagiocera (Dipt.) cruciger, thoracica.
Plagiocera (Hym.) apicalis, leachi.
Plagiodera acnea, aerea, arcata, armoraciae, circellaris, praecincta, praetexta, prasini-pennis.
Plagiodontia aedium.
Plagiognatha felix, lacinulata.
Plagiogonus arenarius, sabulicola.
Plagiola depressa, fasciolaris, flava, leptodon, obliquata, verrucosa.
Plagiope tuberculatus.
Plagiopeltis duplicata.
Plagiptychus paradoxus, toucasianus.
Plagiopyga ferruginea.
Plagiorhynchus flavomaculata.
Plagiostoma acuticosta, alternans, ambiguum, antiquata, aspera, bistriatum, brighton-iensis, carditiformis, concentrica, denticulatum, diana, dubium, dumosum, duplicata, duplicatum, echinatum, elegans, elongata, elongatum, gibbosa, gigantea, granulata, granulatum, granulosum, gregalis, hermanni, hoperi, inaequicostatum, inaequalis, intermedium, interpunctatum, interstinctum, juliobonae, laeve, laevigata, laevis, laeviusculum, lineata, lucida, lunaris, mantelli, marginatum, obliquata, obscura, ovalis, ovatum, pectinoides, pelagica, punctata, pusillum, regulare, rigida, rigidulum, rusticum, schlottheimi, securis, semilunaris, semisulcatum, spinosa, striata, terebratularis, transversa, valoniensis, ventricosum.
Plagiostomatites mantelli.
Plagiotelum irinum.
Plagiotoma lumbrici.
Plagiotricha armilla, aurantia, camelus, cercarioides, kolpodina, lagena, phoebe, sinuata, striata, succisa, vibronides, viridis.
Plagithmysus pulverulentus.
Plagiusa auro-limbata, favosquamus, grammica, melampetala, nigro-labeculata.
Plagodis dolabraria.
Plagusia abbreviata, brasiliensis, clavimana, cynoglossa, depressa, dipterigia, grandisquamus, immaculata, japonica, lactea, lingua, melanorhynchus, monopos, planissima, puncticeps, sayi, semicylindrica, serripes, spinosa, squamosa, tessellata, tomentosa, trulla, tuberculata.
Planaria (G.) alba, nitens, pellucida.
Planaria (Verm.) acuminata, affinis, appendiculata, assimilis, aurantiaca, bicornis, bilinearis, bilobata, bioculata, bistrigata, bituberculata, brocchii, brunnea, caeca,

carnea, convoluta, cornuta, crenata, crocea, cruciata, diequemati, diequemariana, dorsalis, dubia, edinensis, ehrenbergi, elegans, elliptica, elongata, emarginata, excavata, filiformis, flaccida, flava, flexilis, flexuosa, fontana, formosa, fulva, gibba, gigas, goniocephala, granulata, grisea, griseus, grossula, heteroclitia, hirudo, incisa, lactea, lactilorea, leucophræa, lichenoides, limacina, limbata, longiceps, lunata, lutea, luteola, macrocephala, macrostoma, maculata, mamillata, muelleri, mutabilis, nydae, neapolitana, nigra, nigricans, nigro-fusca, notulata, oceanica, ocellata, oculata, pallasi, pallida, pellucida, perforata, pulla, punctuata, pusio, quadrangulata, quadri-oculata, quadripunctata, retusa, rutilans, sargassicola, semilineata, siphunculus, stiagata, subauriculata, subtentaculata, tasmaniana, teres, tigrina, torva, torvodes, truncata, tuberculata, tubulosa, ulvae, unicolor, unipunctata, vaginuloides, veellae, velox, ventricosa, verrucosa, viganensis, violacea, virens, viridata, viridis, vitta, vittata, vulgaris, zebra.

Planariola rubra.

Planax atropurpurea.

Planaxa brevis, decollata, nigra.

Planaxis acuta, acutus, affinis, areolatus, breviculus, buccinoides, canaliculata, castaneus, circinatus, desmarestiana, discrepans, donatiana, elfordiana, fitcheliana, imbricata, laevigata, laevigatum, lineatus, lineolata, lineolatus, loques, minuta, molliana, mollis, multisulcata, nucleus, obsoletus, olivacea, piliger, planaxis, planicostatus, proxima, punctata, pyramidalis, raticostata, reticulata, riparia, rissoides, rosacea, sandwicheensis, savignyi, semisulcatus, striata, sulcata, taeniatus, tenuis, trifasciata, turulosa, undulata.

Planicus apicalis.

Planella cristata.

Planes clypeatus, linnaeana, minutus.

Planetella extremis.

Planetes (Col.) bimaculatus.

Planetes (Dipt.) extremus.

Planetis guttatus.

Planiceps erythrocephalus, fulvicollis, lacordairei, latreillei, variipennis, venustus.

Planidiscites anguinalis.

Planispira coluber, exceptiuncula, proxima, zonalis, zonaria.

Planites ammonius, anguinus, angulatus, armatus, banksi, bifidus, birchi, bisulcatus, blagdeni, cingulatus, compressus, conybearei, coronatus, costatus, crenatus, davaei, fibulatus, giganteus, goodballi, knorrmanus, listeri, parkinsoni, perarmatus, plani-costatus, planulatus, plicatilis, serpentinus, subarmatus, tenui-costatus, triplicatus.

Planocera elliptica, folium, gaimardi, pellucida, sargassicola, suesensis.

Planoceros gaimardi.

Planodes quaternaria.

Planorbis acronicus*, acutus, aequalis, affinis, albescens, albicans, albus, alexandrinus, ammon, ammonius, ammonitiformis, anatinus, auceps, andecolus, angulatus, annulatus, antillarum, antrosus, applanatus, arcticus, armigerus, bellis, benguelensis, bicarinata, bicarinatus, boissyi, brongniartiana, buchanensis, caenosus, calathus, campanulatus, cannarum, cantori, capillaris, caribaeus, carinatus, catillus, charteus, chilensis, chinensis, cimex, clausulatus, collapsus, complanatus, compressus, concavo-spira, connivens, contortus, convexiusculus, coretus, corinna, corneus, cornicula, corniculum, cornu, cornuarietis, corpulentus, costatus, costulatus, crassus, cristatus, cultratus, cumingi, cumingianus, cylindricus, decipiens, deflectus, deformis, dentatus, dentiens, dentiferus, depressissimus, depressus, devians, dilatatus, dilatus, disciformis, discobis, disjunctus, distortus, divaricatus, draparnaldi, dubius, dufouri, ehrenbergi, elevatus, equalis, eques, etruscus, euomphalus, exacuus, exacutus, exustus, ferrugineus, fokkesi, fontanus, fovealis, fuliginosus, fuscus, gangeticus, gilberti, glaber, glabratus, gracilis, guadaloupensis, gyrorbis, gyrosa, haldemani, havanensis, helici-formis, helioides, heloicus, helophilus, hemisphaerula, hemistoma, hindusianus, hispidus, humilis, imbricatus, impressa, indicus, inflatus, intermedius, inversus, jugleri, kermatoides, kraussi, labiatus, lacustris, laevigatus, laevis, laurierianus, lateralis, legatorum, lens, lenticularis, lentus, leucostoma, liasinus, limayana, limonis,

lineatus, lucidus, lugubris, lundi, lutescens, macnabianus, maculatus, mantelli, marginatus, marmoratus, massiliensis, maya, megastoma, metidgensis, metiojensis, muchaudi, minutulus, montanus, moquini, moricandi, multivolvus, nanus, natalensis, nautilus, neglecta, nigricans, nitidula, nitidulus, numulus, obesus, obliquus, obscurus, obstructus, obtusus, obvolutus, olivaceus, opercularis, orbiculus, orientalis, ovatus, oxyostoma, pallidus, panamensis, papyraceus, parallelus, paropseides, parvus, peregrinus, perezi, perforatus, peruvianus, pfeiferi, philippianus, planatus, planulatus, platystoma, prevostinus, proboscideus, prominens, pseudoammonius, pseudorotundatus, purpura, radiatus, redfieldi, regularis, reticulatus, retusus, reventlowi, rhombeus, rota, rotella, rotula, rotundatus, ruppelli, septemgyratus, sericeus, sheppardi, sibiricus, siliceus, similis, simplex, sindiacus, solidus, sowerbyi, sparnacensis, spinorbis, spirorbis, splendidus, spratti, stramineus, striatus, subangulata, subangulatus, submarginatus, subovatus, taeniatus, tenagophilus, tenellus, tennenti, terverianus, tondanensis, tricarinatus, trilobatus, trivolvus, trochoides, trochoideus, tumidus, turgidus, umbilicalis, umbilicatus, vermicularis, verticelloides, vetustus, villosus, virens, viridis, vorticulus, wallichianus.

Planorbites laevis.

Planorbulina angulata, difformis, mediterraneensis, nitida, rubra, umbilicata, vermiculata, vulgaris.

Planospirites ostracina.

Planularia angusta, arcuata, auricula, auris, bronni, compressa, costata, crepidula, crepidularis, cuneata, cymba, denticulata, depressa, elliptica, elongata, glauca, incurva, intermedia, laevis, longa, nodosa, oblonga, orbiculata, pelagi, reticulata, rhomboidalis, rostrata, semicircularis, striata.

Planulina aethiops, apiculata, areolata, argus, ariminensis, aspera, conspersa, dubia, elegans, foliacea, gemmacea, globularis, hemprichi, heptacyclus, hexacyclus, incerta, lenticula, libyca, lugubris, nana, nebulosa, nitida, obliqua, oceani, ocellata, orbigny, ornata, osnabrugensis, planoconvexa, porosa, pyramidum, quaternana, sicula, soldanii, spatiosa, speciosa, splendida, squamula, tenuis, turgida, vitrea, zborzewskii.

Planulites angustiseptatus, compressus, costellatus, inaequistriatus, inflatus, laevigatus, linearis, parvulus, planorbiformis, planus, pygmeus, semistriatus, serpentinus, striatus, sublaevis, sulcata, umbilicatus, undulatus.

Plasmopora petaliformis.

Plastenis retusa, subtusa.

Plastologus costatus.

Plastron caeruleus.

Platacantha cerea.

Platacanthus ubinoi.

Platalea azaza, chlororhynchos, flavipes, nivea, nudifrons, pyrrhops, regia, rufipes, telfairi, tenuirostris.

Platamodes dentipes.

Platanista gangeticus, plantanista.

Plataspis biloba, bucephalus, cocciformis, coenosa, coracina, flaviceps, hemisphaerica, mungo, nigrita, nigriventris, nitida, scipio, subaenea, vahli, xanthogramma.

Platax albipunctatus, altissimus, arthriticus, batavianus, blochi, ehrenbergi, gaimardi, gallina, gampret, guttulatus, lapi, leschenaldi, macropterygius, micropterygius, minor, ocellatus, orbicularis, papilio, pentacanthus, pinnatus, punctulatus, quadrula, raynaldi, scalaris, teira, vesperitilo, woodwardi, xanthopus.

Platea mexicana.

Plateia ebale, somniculosa.

Platemys bowerbanki, bullocki, gaudichaudi, geoffreana, gibba, hilarii, macquaria, martinella, miliusi, newiedi, planiceps, radiolata, rufo, schweiggeri, spixi, wagleri.

Plateosaurus engelhardti.

Platessa asperriima, balteata, carnaria, chinensis, cornuta, cyclops, dwinenensis, elongata, ferruginea, fesus, glabra, latus, limanda, limandoides, microcephalus, ocellaris, orbignyana, papillosa, passer, pavonia, platessa, platessoides, pola, pseudofesus, pusilla, quadrocclata, rostrata, russelli, scapha, sinensis, variegata, velfracta, vulgaris.

Platesthes akidoides, silphoides.

- Platetrum** conspurcatum, depressum.
Platigonus compressus.
Platimeris fulvilabris.
Platinites striata.
Platinx elongatus, gigas.
Plationycus variegatus.
Platiope leucogramma.
Platiprosopus acutangulus.
Platipteryx globulariae.
Platirostra edentula.
Platisma gagates.
Platisus obscurus.
Platonyx (Col.) ornatus.
Platophrys ocellatus.
Platops hardwicki, lineata, richi, rugulosa, xanthina.
Platurus fasciatus, laurenti, platurus.
Platyarthron bilineatum.
Platyarthrus hoffmannseggi.
Platyaspistes alternans, glaucus, marginalis, prasinus, venustus.
Platyauchenia limbata.
Platyblemmus delectus, lusitanicus, ramburi, umbraculatus, velatus.
Platybunus denticornis, incanus, uncatus.
Platycantharus cucujiformis.
Platycanthus auratus, isosceles.
Platy cara anisura, australis, brucei, lissorhynchus, maculatus, nasuta.
Platycarcinus antiquus, dentatus, edwardsi, irroratum, longipes, novaezelandiae, pagurus, sayi.
Platyelia ehrenbergi.
Platycephala (Dipt.) agrorum, culmorum, madagascariensis, nigra, planifrons, umbraculata, variegata.
Platycephala (Hem.) metallica.
Platycephalus asper, bassensis, borboniensis, carbunculus, chacca, cirronasus, clavatus, crocodilus, cultellatus, dornitator, endrachtensis, fuscus, grandispinis, guttatus, inops, insidiator, isacanthus, japonicus, laevigatus, longiceps, madagascariensis, madurensis, malabaricus, neglectus, pristiger, punctatus, rodericensis, saxatilis, scaber, serratus, sihamis, spinosus, sumatranus, suppositus, tasmanius, tentaculatus, timoriensis, tuberculatus, undecimalis, vittatus.
Platycephus carinatus.
Platy cera bivittata, subundata.
Platy ceras cirriformis, dumosus, expansus, gebhardi, haleotes, nodosus, sulcatus, trilobatum, tubifer, ventricosum, vetusta.
Platy cercomys platyurus.
Platy cercus adelaidae, amboinensis, ater, atrogularis, auriceps, barnardi, baueri, browni, caelestis, caledonicus, cornutus, erythronotus, erythropterus, erythrotis, eximius, flaveolus, flavigaster, flaviventris, haematogaster, haematonotus, hypophonicus, hysginus, icterotis, ignitus, jonquillaceus, melanurus, multicolor, novae-guineae, novae-zeelandiae, pacificus, palliceps, pennanti, phaeton, pileatus, pulcherrimus, purpureocephalus, rufifrons, scapulatus, setarius, splendens, splendidus, stanleyi, tabuensis, ulietanus, unicolor, venustus, vulneratus, xanthogaster, zonarius.
Platy cerus auriculatus, balbi, capensis, caraboides, depressus, foveicollis, furcatus, orionensis, piceus, pilmus, quercicola, quercus, rufipes, scaritoides, securidens, semitorquatus, sepultus, silesiacus, sub-laevis, tenebrioides, virescens, viridi-aeneus.
Platy chelus alternatus, anomalus, axillaris, brevis, cicatrix, cinereus, dimidiatus, discolor, dispar, flavipennis, glabripennis, hoploides, intermedius, lepidotus, litiginosus, lupinus, melanurus, musculus, nitens, nitidulus, puerilis, pusillus, pyropygus, semihirtus, semivirgatus, squamosus, virgatus.
Platy chile pallida.
Platy chiria umbrosa.

- Platychora** lebasii, polita.
- Platychnus** biebersteini, bonellii, creutzeri, depressus, fabricii, hercii, osseticus, puschkini, regularis, riedeli, steveni.
- Platyclusus** elongatus, planatus.
- Platycloster** cornutus.
- Platycnema** pulicaris, tibialia.
- Platycnemis** acutipennis, diversa, latipes, subdilatata, syriaca, tibialis.
- Platycnemus** lateritius, marginipes, membranipes, pennipes.
- Platycoelia** alternans, boliviensis, flavostriata, lutescens, marginata, olivacea, pomacea, prasina, quadrilineata, validae.
- Platycopes** alternans, argyrellus, gonopterus, prasinatus, pygmaeus, spathulatus, squalidus, turgidus, virens.
- Platycoris** bipunctata, rubromarginata, varia.
- Platycorynus** indigaceus.
- Platycorystes** ambiguus, isenbecki.
- Platycrana** affinis, annulipes, curvipes, hectica, jamaicensis, maculatus, punctata, rafflesii, reticulata, rosea, rugicollis, stollii, venustula, viridana.
- Platycrania** grylloides.
- Platycrinites** anaglypticus, ann dixonii, antheliontes, brevis, coronatus, decagonus, depressus, elongatus, exsculptus, gerolsteiniensis, granulatus, hieroglyphicus, huntsvillae, insculptus, laevis, mucronatus, ornatus, pentangularis, pileatus, polydactylus, rugosus, spinosus, striatus, tabulatus, trigintidactylus, tuberculatus, ventricosus.
- Platycrinus** armatus, buchi, burlingtonensis, contractus, corrugatus, diadema, discoideus, elongatus, expansus, gigas, goldfussi, granuliferus, intercapularis, laciniatus, macrocheirus, megastylus, microstylus, ornatus, phillipsi, planus, punctatus, rosaceus, simulis, triacontadactylus, vesiculosus, yandelli.
- Platydictyla** duvauceli.
- Platydictylus** (Orth.) buqueti, gaimardi, helvolus, marginipennis, saulcyi, surinamensis, vicinus.
- Platydictylus** (R.) aegyptiacus, americanus, bivittatus, cepedianus, cuvieri, delalandi, fasciculari, gecko, guttatus, hasselti, horsfieldi, munguis, jamori, japonicus, leachianus, lugubris, mauritanica, milberti, monarchus, muralis, ocellatus, ornatus, rapicauda, reevesi, seychellensis, squalidus, stentor, theconyx, vittatus.
- Platydema** affinis, americana, analis, antennata, apicalis, basalis, bicolor, bifasciatus, carbonaria, chevrolati, clypeatus, cruentata, cyanea, cyanescens, dejeani, diophtalma, duponti, elliptica, erythrocephala, europaea, excavata, fasciata, fasciata, flaviceps, fuliginosa, fuscipes, globata, hemisphaerica, hieroglyphica, histrio, infuscata, janus, laevipes, laevis, maculicollis, maculosa, nigricornis, notata, pallens, palliditarsis, picea, picicornis, picilabrum, picipes, polita, quadrimaculata, quadrinotata, rufa, rufipennis, ruiventris, silphoides, subcostata, transversa, tristis, tuberculata, varians, variegata, violacea, virens.
- Platyderus** nitidus, ruficollis.
- Platydesmus** polydesmoides.
- Platydius** subpurpurascens.
- Platygaster** (Dipt.) anthracinus, arcticus, attenuatus, bifracticornis, brunnipennis, brunnipis, consobrinus, filicornis, gladiator, hyemalis, minutus, parvulus.
- Platygaster** (Hem.) abietis, ferrugineus, marginatus.
- Platygaster** (Hym.) abaris, abia, abisares, acco, acrisius, aegaeus, affinis, alienus, apterus, asclepius, athamas, athenaeus, automenes, belus, bosci, bucolion, catillus, celes, chryseus, cleodaeus, cochleatus, contorticornis, cotta, craterus, crates, cratinus, ctesias, cyrsilus, decurvatus, deiphyla, dictys, dryope, drypetes, elissa, ennius, ensifer, erato, eriphyle, eulimerus, euryale, evadne, forticornis, furius, galenus, gorge, gorgo, grandis, gyge, halia, hyllus, ilione, iolas, isus, jasius, laodice, larici, larides, leda, leptines, lysicles, mamertes, manto, matuta, minthe, munitus, muticus, myles, nereus, nice, niger, nius, nodicornis, nydia, obscurus, oebalus, oculus, orcus, otus, osaces, oscus, otanes, otreus, ovulorum, ozines, paches, pallipes, pedasus, pelias, philinna, pisis, pleuron, plotinus, prorsa, punctiger, pyramidalis, remulus, rhanus, roboris, ruficornis, rutubus, sagana, scelionoides, scutellaris,

secalis, seron, siphon, sonchis, sosis, spiniger, sterope, strato, striolatus, subulatus, sylea, taras, tarsi, thersippus, tipulae, tisias, trebius, tristis, tuberosus, unicolor, unifracicornis, vaenia, ventralis, vestinus, xenarchus, xeneus, zethus, zosine.

Platygaster (P.) affinis, africanus, indicus, macrophthalma, megalopterus, parva, verticalis.

Platygaster (R.) multicarinatus.

Platygenia barbata, exarata, macleai, zairica.

Platygnathus (Col.) octangularis, parallelus.

Platygnathus (P.) jamesoni, minor, paucidens.

Platygnathus (R.) rugosus.

Platyholmus dilaticollis, nigrilus.

Platyja ancea, chorebe, pritanis, sergilia, umminea.

Platylabus armatus, cothurnatus, daemon, decipiens, dimidiatus, errabundus, iridipennis, niger, nigricollis, orbitalis, pactor, pedatorius, ruiventris, rufus, sollicitus, tricingulatus, variegatus.

Platylaemus colei.

Platylepas pulchra.

Platylepes lactaria.

Platylophus (A.) galericulatus.

Platylophus (Ar.) alpestris, bucephalus, grandissimus, heegeri, pinetorum, rufipes.

Platymera gaudichaudi.

Platymeris biguttatus, discolor, ducalis, formicaria, fulvipes, lythodes, myrmecodes, pyrrhula, rubropicta, tergemina.

Platymerus eckloni, germari, lehmanni, winthemi, zeyheri.

Platymesopus erichsoni, tibialis, westwoodi.

Platymetopus amoenus, exaratus, figuratus, guineensis, interpunctatus, laticeps, lepidus, quadrinaculatus, schoenherri, tessellatus, thunbergi, vestitus.

Platymischus dilatatus.

Platymya (Dipt.) aestivalis, blondeli, rubescens.

Platymya (L.) dilatata, hiantula, longa, minuta, rostrata, tenuis.

Platyna hastata.

Platynaspis bipustulata, bisbipustulata, bisignata, flavilabris, kollari, solieri, villosa.

Platynocera murina.

Platynochaetus rufus, setosus.

Platynochaetus derceto, erichsoni.

Platynodes westermanni.

Platynomerus caspius.

Platynoptera duponti, goryi, lyciformis, lycoides.

Platynopus catena, militaris, varius.

Platynotus (Col.) arcuatus, carbonarius, crenatus, dentipes, detritus, difformis, dilatatus, excavatus, fascicularis, granulatus, insularis, laevigatus, morbillosus, obscurus, plumosus, reticulatus, rugosus, serratus, setosus, striatus, undatus, variolosus.

Platynotus (Cr.) aegypticus, boltoni, trentonensis.

Platynotus (Hem.) apterus.

Platynotus (R.) semitaeniata.

Platynus anchomenoides, angustatus, angusticollis, assimilis, atratus, bembidioides, blandus, carbo, chalceus, complanatus, cupreus, cupripennis, decens, decorus, depressus, elegans, elongatus, erythrocephalus, erythropus, extensicollis, fulvipes, gagates, lenis, longiventris, marginatus, nigriceps, nitidulus, piceus, placidus, punctiformis, quadripunctatus, retractus, ruficornis, rufitarsis, scrobiculatus, sordens, subcordatus, truncatus.

Platyodon ruficollis.

Platyomida binodis.

Platyomus aerolithus, aeruginosus, agonista, albarius, apiarius, argyreus, auricephalus, bescki, bicoloratus, bisignatus, boisduvali, canescens, canus, carinirostris, cavirostris, chlorostictus, clarus, croesus, cultricolis, cuspidatus, dalmani, diana, duponti, elegans, ermineus, exanguis, faldermanni, fasciatus, glaucus, gyllenhalii, hybridus, hystricosus, isabellinus, lacteus, lebasi, lepidus, leucozonus, molitor, mutabilis, niveus, nodipennis, novemmaculatus, ochroleucus, opalinus, perlepidus, piscatorius, placidus,

prasinus, puber, quadrisignatus, rufipes, saucius, scripta, septemmaculatus, septempunctatus, signatus, silbermanni, sordidus, transversesignatus, undulatus, virginalis, viridimaculatus, viridipes, wahlenbergi, westermanni.

Platyonichus bipustulatus, depurator, henslowi, latipes, nasutus, ocellatus, rugulosus.

Platyonychus punctatus.

Platyonyx blainvillei, brongniarti, bucklandi, cuvieri, minutus, ornatus, oweni.

Platyope bassi, collaris, dichotoma, grandis, granulata, karelini, leucogramma, leucographa, lineata, mongolica, oblitterata, proctoleuca, unicolor.

Platyormus turgidus.

Platyostoma arenosa, lineata, ventricosa.

Platypalpus aeneus, albiseta, albocapillatus, alexippus, algius, ambiguus, annulatus, annulipes, articulatus, bacis, bicolor, bivittatus, calceatus, candicans, castanipes, comptus, cothurnatus, cursitans, dichroa, dissimilis, exiguus, fasciatus, flavicornis, flavipalpis, flavipes, fulvipes, fuscipennis, infuscatus, longicornis, lutea, maculipes, minimus, minutus, mundus, niger, nigrifemoratus, nigratarsis, nitidus, pallidiventris, pallipes, pectoralis, robustus, ruficornis, ventralis.

Platypeza anomala, aterrima, atra, boletina, brunipennis, consobrina, dorsalis, fasciata, fumipennis, furcata, holosericea, infumata, media, modesta, ornata, picta, rufa, rufiventris, subfasciata, vittata.

Platyphanes gibbosus, vittatus.

Platyphyllum concavum, coriaceum, maculipenne, obscurum, perspicillatum, scabricolle, viridifolium.

Platyphyllus camellifolius.

Platypleura affinis, albiger, basifolia, basimacula, basi-viridis, brevis, capensis, cervina, chloronota, decora, divisa, fulviger, gemina, hilpa, hirtipennis, ocellata, phalaenoides, plumosa, punctigera, reducta, semiclava, semilucida, signifera, simplex, sphinx, straminea, stridula, subfolia, varia.

Platypodia oweni.

Platypodus furca.

Platyprosopus beduinus, elongatus, fuliginosus, tamulus, titan.

Platyptera (Dipt.) borealis, platyptera.

Platyptera (P.) aspro.

Platypteryx compressa, culttraria, falcataria, lacertinaria, spinula.

Platypterna deaniana, delicatula, laticorne, tenuis.

Platypterus (Col.) panzeri.

Platypterus (P.) bourgomvillei, flavescens, fusco-virens, longispinis, taenianotus.

Platypterygia borealis.

Platypteryx curvatula, falcatina, falcula, hamula, harpagula, lacertinaria, lacertula, sicula, spinula, unguicula.

Platyptilia calodactyla, megadactyla, ochrodactyla, petradactyla, rhododactyla.

Platypus (A.) altensteini, barrowi, borealis, faberi, ferinus, fuligulus, fuscus, glacialis, glaucion, histrionicus, hornschi, leisleri, leucocephalus, leucophthalmus, marilus, minutus, mollissimus, niger, perspicillatus, rufinus, spectabilis, stelleri.

Platypus (Col.) abbreviatus, apicalis, australis, compositus, cylindricus, dentatus, denticornis, extremodontatus, flavicornis, fuscus, insignis, linearis, maravignae, peiroleri, poeyi, praemorsus, procer.

Platypus (M.) longirostra.

Platypygus chrysanthemi.

Platyrhacus fuscus, rufipes, scaber.

Platyrhamphus pusillus.

Platyrhina schoenleini, sinensis.

Platyrhinus aculeatus, clairvillei, latirostris, spiculosus.

Platyrhopalus angustus, aplustrifer, denticornis, dentifrons, intermedius, laevifrons, mellei, suturalis, unicolor, westwoodi.

Platyrrhynchos albicollis, auricularis, aurantius, barbatus, bicolor, borbonicus, brachyurus, collaris, coronatus, cristatus, cyanoleucos, duponti, flavigaster, fuscus, horsfieldi, leucocephalus, leucophaius, leucotis, maculatus, melanoleucus, melanops, musicus, mutata, mystaceus, naevius, nasutus, olivaceus, paradisi, perspicillatus, platurus,

polychopterus, regius, rostratus, rubecula, rufescens, ruicaudatus, ruficollis, rufiventris, vanikorensis, velatus, virescens.

Platyrrhynchus (A.) albiventris, brevirostris, capensis, ceylonensis, chrysoceps, cinereus, collaris, ferrugineus, filicauda, flaviventer, fuscus, guerini, gularis, hirundinaceus, lherminieri, marginatus, murinus, nebulosus, obscurus, paganus, prasinus, problematicus, pseudogillia, pusillus, ruicauda, striatus, sulphurescens, uraniae, xanthopygus.

Platyrrhynchus (Col.) betulae, waltonianus.

Platyrrhynchus (M.) leonina, molossinus.

Platyrinchus (A.) fuscus, ornatus.

Platyroptilon miersi.

Platyrrhynchus cancomus.

Platyrrhynchus (A.) olivaceus, pitangua, rostratus.

Platyrynchus leucoryphus, nuchalis, rupestris.

Platyrynchus (A.) collaris, desmaresti, nebulosus.

Platyrynchus (Col.) betulae.

Platysaurus capensis, guttatus.

Platyscelis angustatus, gages, glaber, hypolitha, hypolithos, labialis, melas, picipes, politus, rugifrons, spinolae.

Platyscelum savignyi.

Platyschisma cirroides, depressum, helicoides, jamesi, kirchholmiensis, oculus, rotundatum, uchtensis, zonites.

Platyschista pallasi, sp.

Platysma adoxa, aethiops, affinis, angustata, anthracina, aterrima, badia, brasiliana, brunnea, castanipes, chalybea, coerulescens, conformis, convexa, crenata, cuprea, dahli, diligens, dimidiata, elongata, elongatus, empetricula, eschscholtzi, fastidita, findeli, fossifrons, foveocollis, foveolatum, gracilis, guentheri, heyeri, inquinata, interstincta, kasbeliana, laevigata, laevistriata, latibula, lepidula, leucophthalma, licinoides, littoralis, longicollis, madida, magus, maurusiacus, menticola, molopsoides, negligens, nigerrima, nigra, nigriceps, nigrata, norwichi, oblonga, oblongo-punctata, ochracea, orientalis, ovoidea, paludosa, panzeri, picimana, pinguedina, pulchellum, punctatosulcata, rotundicollis, rufa, rufipes, siagonica, solers, strenua, striato-punctata, stygia, triseriata, tristis, urvillei, ventricosa, vernalis, versicolor, viator.

Platysoma (Col.) abruptum, algericum, angustatum, atratum, attenuatum, carolinum, castaneum, coarctatum, cylindricum, dalmatinum, depressum, depressus, filiforme, frontalis, gracile, humile, laevicollis, lineare, lineata, luzonicum, oblongus, ovatum, parallelum, picipes, rimarium.

Platysomus (P.) althausi, browni, fischeri, fuldai, gibbosus, intermedius, macrurus, micropteryx, parvulus, parvus, rhombus, spixi, striatus.

Platysqualus tiburo.

Platystacus chaca.

Platysteira brevicauda, capensis, castanea, collaris, desmaresti, leucopygialis, melanoptera, monacha, perspicillata, pistrinaria, pririt, scita, senegalensis, torquata. *Vide et* Platystira.

Platystera lobata, longipis.

Platysternon megacephalum.

Platysternus hebraeus.

Platystethus americanus, brunnipennis, caliginosus, cornutus, cribricollis, foveatus, immunis, laevis, morsitans, nodifrons, pallidipennis, spiculus, spinosus, sulcatus, trilobus.

Platysthetus capita, longicornis, splendens, striatulus.

Platystiera typica.

Platystira melanoptera, peltata, pririt. *Vide et* Platysteira.

Platystoma (Dipt.) asphaltea, australis, bifasciata, cincta, decora, fascipennis, laeta, latipennis, maculipennis, microcera, ocellata, orientalis, pubescens, rufipes, seminationis, stictica, umbrarum.

Platystoma (P.) affine, coruscans, emarginatum, fasciatum, lima, orbignianum, pardale, planiceps, platyrhynchus, seenghala, spatula, tigrinum, truncatum, vaillantii.

Platystomus (A.) blainvilliei.

Platystomus (M.) dugong.

- Platystrophia** biforatus, costata, dentata, tchelikini, terebratuliformis.
Platystyla hoffmanseggii.
Platytarsus aurosus, setiger.
Platytelus horridus.
Platyterma amoenus, cincticorne, comptum, decorum, femorale, incultum, nephele, nobile, prasinum, remotum, teliforme, terminale.
Platytes cerusellus.
Platytona haematodes.
Platytonus sabulosus.
Platytrachelus pistacinus.
Platytrochus goldfussi, stokei.
Platyulus audouini, audouinianus.
Platyura abdominalis, atrata, baumhaueri, bicolor, bifasciata, brunnipennis, carbonaria, cingulata, discoloria, dorsalis, erythrogaster, fasciata, femoralis, fittoni, flava, flavipes, fulvipes, inconspicua, insolita, interrupta, intincta, laticornis, lineata, maculata, magna, marginata, nana, nemoralis, nigricornis, ochracea, pallida, pallipes, punctata, ruficollis, rufipes, semirufa, servula, signata, sobria, subconvexa, subterminalis, succincta, testacea, tipuloides, unicolor, vitripennis.
Platyrus (A.) amnis, corniculatus, lepturus, niger, rubecola.
Platyrus (R.) schneiderianus.
Plax adunca.
Plaxemya sugillatrix.
Plaxiphora carmichaelis.
Plaxiscelis fusca.
Plea minutissima.
Plebejus rusticus.
Plectia costalis, dimidiata, dorsalis, femorata, fulvimacula, heteroptera, hilaris, ignicollis, lugubris, maura, rufithorax, similis, velutina, vittata.
Plecomera quadraticollis, thunbergi.
Plectotoma latreillei.
Plectotus auritus, barbasteilus, brachypterus, brevinianus, christi, communis, cornutus, homochrous, isabellinus, lecontei, leucomelas, macrotis, maugéi, peroni, rafinesquei, timoriensis, townsendi, velatus, vulgaris.
Plectambonites convexa, crassa, imbrex, inversa, lata, oblonga, ovata, planissima, semiglobosa, testudinata, transversa, triangularis, uncinata.
Plectana aculeata, acuminata, acuta, affinis, alata, arcuata, armata, armigera, asciata, atlantica, aureola, bifurcata, bisicata, bullata, clavatrix, clypeata, crassispina, curvicauda, curvispina, cyanospina, degeeri, diùssa, dubia, duplicata, elipsoides, hesipina, flabellata, flaveola, fornicata, furcata, geminata, gladiola, globulata, gracilis, hecata, hexacantha, incisa, inversa, irradiata, lata, lepeletieri, linnaei, lygeana, macrocantha, mauricia, militaris, mucronata, patruela, pentacantha, pentagona, picta, plana, praetextata, pungens, quineserrata, reduviana, saccata, sagittata, sector, servillei, sexserrata, sloanei, spinosa, squamosa, stellata, taeniata, tetraedra, transitoria, transversalis, triangularis, triserrata, variegata, velitaris, versicolor, vespoides, vizorsi.
Plectanocotyle elliptica.
Plectes caucasicus, deplanatus, ibericus, nothus.
Plectiscus albipalpus, collares, collaris, erythrostoma, flavopictus, impurator, pallipes, phoenicea, senator, zonatus.
Plectoderes collaris.
Plectonycha aequinoctialis, correntina, immaculata, tenuicollis, variegata.
Plectophora northiae, spadiceus.
Plectoramphus lanceolatus.
Plectorhynchus chaetodonoides.
Plectorhyncha lanceolata.
Plectorhynchus balteatus, blochi.
Plectostylus broderipi, cactivorus, coquimbensis, hildrethi, onca, peruvianus, pulicarius.
Plectris aenea, afflicta, angerona, barda, binotata, brevis, caliginosa, contaminata, crassa,

cuprescens, decolorata, flavohirta, fulva, grenadensis, indigens, laticeps, latifrons, lignicolor, marmorea, mus, neglecta, obsoleta, perplexa, pubescens, rubescens, rugulosa, rugulospennis, scutalis, scutellaris, subcostata, subdepressa, tomentosa, violascens.

Plectrochaerus moricandi.

Plectrocnemia conspersus, dorsalis, longipennis, senex.

Plectrodera scalator.

Plectrofanus mustelina.

Plectrolepis rugosus.

Plectrophanes borealis, calcaratus, groenlandicus, hiemalis, lapponicus, montana, mustelina, ornata, pictus, smithi, townsendi.

Plectrophorus (Col.) lutra, serrimanus.

Plectrophorus (G.) corninus, costatus, orbignyi.

Plectropoma aculeatum, areolatum*, brasilianum, chloropterus, chlorurus, dentex, ephippium, hispanum, leopardinus, macrophthalmos, maculatum, melanoleucum, monacantha, nigrorubrum, patachonica, paytensis, pictum, puella, punctatum, semicinctum, serratum, susuki.

Plectropomus calcarifer, cyclostomus, fasciatus, maculatus, melanoleucus.

Plectropterus gambensis, melanotos.

Plectropus (R.) longipes, minitans, pictus.

Plectroscelis angustula, aridella, breviuscula, concinna, confusa.

Plectrotarsus gravenhorsti.

Plectrura spinicauda.

Pledopora truncata.

Plegaderus caesus, discisus, dissectus, pusillus, saucius, transversus, vulneratus.

Plegadis falcinellus.

Plegmatoptera prasina.

Pleiodon macmurtriei.

Pleione aeolides, alcyonea, carunculata, complanata, eolides, tetraedra, vagans.

Pleionemus macrospondylus.

Plejona vexillum.

Plekocheilus gracilis, undulatus.

Plemyria fluctuata, fluviata, gemmata, lapidata, procellata, rubiginata, stragulata.

Pleomorpha atra, concolor, davisii, ruficollis, rufipes.

Pleonomus tereticollis.

Pleophylla fasciatipennis.

Plerocheilus interruptus.

Plerocymia bilineata, certata, cervinata, dubitata.

Plerogyra laxa.

Plesia (Col.) geniculata, melanura, micans, sexmaculata, vicina.

Plesia (Dipt.) analis, fasciata, marginata.

Plesia (Hym.) abdominalis, analis, dorsalis, ephippium, flavescens, fuliginosa, haemorrhoidalis, maculata, menechma, namea, nigripes, obscura, pentatarsostinus, romandi, rufipes, sellata, serena, sexcincta.

Plesiastrea quatrefagiana, urvillei, versipora.

Plesictis croizeti, genetoides.

Plesina liturata, nubilipennis, phalerata.

Plesiocera algira.

Plesiogale angustifrons.

Plesiomma nigra, testacea.

Plesiops coeruleolineatus, corallicola*, melas, nigricans.

Plesiosaurus affinis, arcuatus, auxois, bernardi, brachycephalus, brachyspondylus, carinatus, chilensis, constrictus, costatus, doedicornus, dolichodeirus, extarsostinus, giganteus, grandipinnis &*, grandis, hawkinsi, macrocephalus, macromus, mega-cephalus, pachyomus, pentagonus, priscus, profundus, recentior, rugosus, speciosus, subconcaus, subtrigonus, tessarestarsostinus, triatarsostinus, trigonus, trochanterius.

Plesiosorex talpoides.

Plestiodon aldrovandii, anthracinus, auratus, belli, erythrocephalus, harlani, laticeps, pulchrum, quinquelineatum, sinense.

- Plethodon** cinerea, erythronota, glutinosa, granulatum.
Plethodus expansus, oblongus.
Plethosoma coerulea, cristaloides.
Pleuracanthus (Col.) cribratus, inconspicuus, sulcipennis.
Pleuracanthus (Cr.) arachnoides, laciniatus, punctatus, tuberculatus.
Pleuracanthus (P.) cylindricus, laevis, marianus, planus, serratus.
Pleurasoma sulcatum.
Pleuraster arenicola, obtusa.
Pleuraulaca alcyonea.
Pleureterites anisoceta, bifasciata, concentrica, divisa, lateristria, latitudata, obliqua, stellata, striata.
Pleurobema conica, mytiloides, cuneata.
Pleurobrachia pileus, rhododactyla.
Pleurobranchidium della chiaiei, maculatum, meckeli.
Pleurobranchus argenteus, aurantiacus, blainvillei, brevifrons, calyptraeoides, citrinus, contarinii, cornutus, de haani, denotarisi, elongatus, forskahli, granulatus, lesueuri, limacoides, luniceps, mamillatus, meckeli, mediterranei, membranaceus, montagui, oblongus, oceani, ocellatus, patagonicus, perforatus, peroni, plumula, porosus, punctatus, reticulatus, savii, scutatus, sideralis, sordidus, stellatus, testudinarius, tuberculatus.
Pleurocera acuta, gonula, quadrosa, verrucosa.
Pleurocerus acutus, oblongus.
Pleurocora alternans, explanata, gemmans, haueri, konincki, pailletteana, ramulosa.
Pleurocrinus mucronatus.
Pleuroctenium granulatum, minutum.
Pleurodeles waltii.
Pleurodema bibroni, bufoninum, darwini, elegans.
Pleurodictyon problematicum.
Pleurodon miliaris, ovalis.
Pleurodonta acutissima, cepa, granifera, josephinae, lamarcki, lapicida, leucoma, soror.
Pleurodonte inaequalis, isognomostomos, leucerna, lychnuchus, sinuatam.
Pleurodus affinis, rankinei.
Pleuromonas jaculans.
Pleuromya aequistriata, alberti, alduini, alta, angusta, arenacea, crassa, decurtata, donacina, elongata, galathea, gibbosa, glabra, gresslyi, mactroides, musculoides, ovalis, pholadina, radiatus, recurva, rostrata, rotundata, solenoides, striatula, tellina, tenuistria, unioidea, varians, ventricosa, voltzi.
Pleuronectes albus, americanus, apoda, aquosus, aramaca, arel, argenteus, arnoglossus, arsius, asper, barbatus, borealis, boscia, calimanda, chilarus, chrysopterus, cicatricosus, citharus, commersoni, cristatus, cyclops, dentatus, diaphanus, erumei, fasciatus, ferruginea, grohmanni, jerreus, laevis, lascaris, leotardi, lingula, lioderma, luscus, luteus, maculatus, maculosus, maeoticus, mangilla, megastoma, melanogaster, microcephalus, microchirus, microstomus, minutus, mollis, monochirus, nalaka, nasuta, nauphala, nigricans, nigromanus, oblongus, orientalis, ornatus, pan, passarinus, patarachia, pavoninus, peguza, pellucidus, pictus, pilosus, pinguis, plagusia, planus, podas, poteus, quadridens, quadrituberculatus, quensei, rhombeus, rondeleti, rotundus, saxatilis, saxicola, scapha, sinensis, spinosus, striatopinnatus, surinamensis, theophilus, triocellatus, tuberculatus, turbot, unioellatus, uniporrus, variegatus, zentilis.
Pleuronectia laevigata.
Pleuronectites decussatus, disciformis, discites, discus, laevigatus, pusillus.
Pleuronectoides solea.
Pleuronema crassa, marina.
Pleuropachus costalis.
Pleurophorus (Col.) alternans, caesus, elongatulus.
Pleurophorus (L.) costatus.
Pleurophyllidia lineata, neapolitana, undalata.
Pleuropterus rufus, ternatensis, variegatus.
Pleuropus pellucidus.

Pleurorhynchus *aequicostatus*, *aliformis*, *armatus*, *attenuatus*, *australis*, *crassifrons*, *cuneus*, *elongatus*, *fusiformis*, *giganteus*, *hibernicus*, *inflatus*, *longipennis*, *minax*, *nodulosus*, *pristis*, *trapezoidalis*, *trigonalis*, *vomer*.

Pleurotomaria abbreviatus, abdita, actaea, actinomphala, acuta, acutimargo, aequilatera, agassizi, agatha, agathis, aglaia, ajax, alcyone, alimena, allica, allionia, allobrogensis, altaica, altavittata, amalthaea, ambigua, amoena, amyntas, anglica, angulata, angulato-canaliculatus, angulosa, anstedii, antiopa, antiquata, antitorquata, aonis, araneosa, arduennensis, armata, aspera, astieriana, athalia, atomaria, attenuata, avellana, balteata, baltica, barremensis, baugieri, beaumonti, benediana, biangulata, bicarinata, bicatenata, bifrons, bilineata, bilix, binodosa, bischon, biserrata, bistriata, bitorquata, blandina, blodeana, bolina, bourgeoisei, brandis, brevillii, breviplicata, brongiartiana, bronni, buchiana, caelata, calcar, calix, callosa, canaliculata, canalifera, cancellata, cancellato-cingulata, capillaria, carinatus, carthusiae, cassisiana, catenata, catenulata, cauchyana, ciucta, cingulata, cingulifera, cirriformis, cirroides, clathrata, cochlea, coepa, complanata, compressa, concava, concentrica, concinna, conica, conoidea, constricta, contraria, coronata, costata, costato-fasciata, credieri, crenata, crenistria, crotaloides, cydippe, cypraea, cypris, cytherea, dalcidensis, delbuchii, deripiens, decorata, decussata, defrancci, delphinulata, delphinuloides, dentata, depressa, deshayesi, deslongchampsii, devonica, dictyota, dimorpha, discoidea, di-cus, disticha, distincta, dives, dubia, dumonti, dupiniana, electra, elegans, eliana, ellipsoidea, elliptica, elongata, escheri, espallaciana, eudora, euterpe, exaltata, exarata, excavata, expansa, falcata, fallax, fasciata, faucignyana, fibula, filigrana, filosa, fissicarinata, fittoni, flammigera, fleuriusae, formosa, foveolata, fraga, fragilis, freynoyana, funata, fusiformis, galatea, galeottiana, gallienae, gaultina, geinitzi, gemmulifera, geroldsteinensis, gibsi, gigantea, gigas, glabrata, glycerie, goepperti, goldfussi, gracilis, granulata, granulifera, granulosa, griethi, guerangeri, gurgitis, guttata, gyrocycla, gyroplata, hainesi, haueri, heliciformis, helicoides, hesione, hisingeri, honi, humboldti, hyphanta, imbricata, impendens, inconspicua, indenta, indica, inflata, insculpta, intermedia, interstitialis, itieriana, jason, johannis austriacae, jurensis, karpinskiana, konincki, laevigata, laevis, lahayesi, laticincta, latifasciata, lenticula, lenticularis, lima, limbata, linealis, lineata, lineato-punctata, lineolata, linkiana, lirata, listeri, lloydi, lonsdalei, lorieri, luciensis, maccoyana, mailleana, marcoussana, marginata, margine-nodosa, marrotiana, matheroniana, medusa, meyeri, micromphala, midas, millepunctata, minerva, minuta, mirabilis, monilifer, monilifera, monticulus, moorei, mopsa, moreausiana, morrisiana, moutonianus, muensteri, muensteriana, multicarinata, multicinctus, murchisoni, mutabilis, mysis, naticoides, neocomiensis, neptuni, nereis, nobilis, nodosa, nodulosa, noeggerathi, normaniana, notabilis, nucleolata, nuda, nysti, obesa, obsoleta, obtusa, octavia, orbignyana, ornata, ornatissima, ouralica, ovoidea, pagodus, pailletiana, palamedes, palemon, pales, palinurus, pallium, pamphilus, panope, paphia, paris, patula, paucistriata, peneae, pentagonalis, penultima, percarinata, peresi, permiana, perseus, pervetusta, phidias, philoces, physospira, pictetiana, plana, planata, planiuscula, platyspira, plicata, plicato-nodosa, polita, pollux, portlockiana, poulsoni, precatória, princeps, principalis, procera, protei, proteus, provincialis, pulchella, punctata, punctulata, puzosi, pyramidalis, quadrata, quadricarinata, quadricincta, quadrilineata, quadristriata, quenstedtii, quinquecinctus, radians, radiata, radula, regalis, regina, reticulata, rhodani, robinaldi, rotellaeformis, rotuloides, rotundata, rouillieri, rouxi, royana, rustica, ryckholtiana, sabaudiana, saccata, santonesae, sauseana, saussureana, saxoni, scala, scalarifasciata, scalaris, scarpacensis, scripta, sercubinula, sculpta, secans, sedgwicki, seriato-granulata, serri-limba, simplex, sismondai, solarium, sowerbyana, sp. ind., speciosa, sphaerulata, spiralis, spuria, squamula, strialis, striatella, striatus, strigosa, strobilus, strzeleckiana, studeri, subangulata, subcancellata, subcancellatus, subclathrata, subconcaua, subconica, subconoidea, subcoronata, subcostata, subdecorata, subdentata, subelongata, subfasciata, subfaveolata, subgracilis, subgranulata, subgigantea, subgradata, subintermedia, sublaevigata, sublaevis, sublenticularis, sublimbata, sublineata, submonilifera, subnodosa, subornata, subplana, subplatyspira, subplicata, subpunctata, subradialis, subreticulata, subrotundata, substriata, subsulcata, subtaeniata, subtilis, subtilistriata, subtricineta, subtrochiformis, subtuberculosa, subtuerita, subundulata, subvittata, sulcata, sulcatula, sulcomarginata, sulcosa, suprajurensis, suturalis, syssolae, tabulata, taeniata, talliensis, texta, textilis, texturata, thetys, thiarella, thurmanni, tornata, tornatilis, torosa, toucasiana, triangula, tri-

carinata, tricineta, triulata, triton, trochiformis, trochoides, tuberculato costata, tuberculosa, tuberculosum, tumida, tumidula, tunstallensis, turbinea, turbinoidea, turgida, turgidula, turrita, ulmanni, umbilicata, undata, undosa, undulata, uniangulata, unisulcata, variata, varicosa, velata, venusta, verdachellensis, verneuli, vieilbanci, virgulata, vittata, worthiana, yvanti, zonata.

Pleurotomarium helicoides, inflatum.

Pleurotome carinata, costata, derasa, polita. *Vide et Pleurotoma.*

Pleurotomites turris.

Pleurotrema calcarina.

Pleurotrocha constricta, gibba, leptura, petromyzon, renalis.

Pleurotuchus chrysobronchus, desjardini, typicus.

Pleuroxus uncinatus.

Plexaura antipathes, arbuseulum, brevis, crassa, flexuosa, friabilis, heteropora, homomalla, macrocythara, miniacea, olivacea, reticulata, sasappe, suberosa, viminalis.

Plexippus albolineatus, albovittatus, aureus, bivittatus, erythrocephalus, flavoguttatus, guttatus, hepaticus, janthinus, lacertosus, ligo, mimicus, mutillarius, nigrifrons, orichalceus, rufus, seladonicus, selectus, senegalensis, sexmaculatus, succinctus, taeniatus, thalassinus, tricolor, undatus, versicolor, viduus, vittatus.

Plexocera murabilis.

Plica punctata.

Plicaphora plicatula.

Plicatella carinifera, cingulifera, craticulata, filosa, infundibulum, lineata, nassatula, ocellata, polyzona, rustica, triserialis, tuberculata, turbinelloidea, variolosa.

Plicatocrinus hexagonus, pentagonus.

Plicatula ampla, angulosa, armata, aspera, asperrima, auriculata, australis, bajocensis, barbadensis, beaumontiana, carteroniana, crassidentata, cristata, deltoidea, densata, depressa, dilatata, elegans, elegantula, elongata, filamentosa, foliis, gibbosa, imbricata, inflata, jurensis, konincki, laevigata, laxa, mantelli, marginata, martini, miocenica, multicostata, mytilina, neptuni, nodosa, obliqua, oceani, ostraeiformis, pectinoides, pedum, peregrina, placunaea, pliocenica, radiata, radiola, ramosa, rapa, rarispina, regularis, reniformis, roemeri, roissyi, rudis, rugosa, rugulosa, ruperella, rustica, sarcinula, septemcostata, solida, spinosa, squamula, striata, tegulata, tubifera, urtica, ventricosa.

Plicostoma intestinalis.

Plinthacrus delegorguei.

Plinthaerus irroratus, maculicollis, mexicanus, phaleratus, quadrimaculatus, venosus.

Plinthina macroporum.

Plinthisus brevipennis.

Plinthus anceps, caliginosus, carinatus, chevrolati, fallax, findeli, gerlii, granulatus, granulifer, humuli, illigeri, illotus, megerlei, mucronatus, parreyssii, porculus, schalleri, silphoides, squalidus, steveni, sturmi, styrianus, tigratus, tischeri, trochanterius.

Pliocnemus macrospondylus.

Pliopithecus antiquus.

Pliosaurus wosinskii.

Ploa frontalis, liturata, minutissima, striola.

Ploas aegeriformis, cyllenia, flavescens, fuliginosa, fuscipennis, grisea, hirticornis, lurida, lusitanica, pictipennis, rhagioniformis.

Plocaederus australasiae.

Plocamera sericella.

Plocamium triangulare.

Plocealauda typica.

Plocepasser mahali, pileatus, superciliosus.

Ploceus abyssinica, afer, alecto, atricapillus, atrigula, aurantius, aureoflavus, aureus, auricapillus, aurifrons, baufefelt, bengalensis, bicolor, brachypterus, capensis, capitalis, castaneo-fuscus, caudacutus, chrysogaster, collaris, cristatus, cucullatus, dubius, erythrocephala, erythropus, fasciatus, flammeiceps, flaviceps, flavigula, flavocapillus, flavoviridis, franciscanus, fringilla, fringilloides, fuscofulvus, galbula, gregarius, gutturalis, intermedius, isabellinus, jonquillaceus, larvatus, lepidopterus,

luteolus, madagascariensis, malimbicus, manyar, mariquensis, maritimus, melanocephalus, melanogaster, melanotis, nelicourvi, niger, nigerrimus, nigricollis, nigroventris, nitens, obscurus, ocularius, oryx, oryzivora, passerinus, patersoni, pecoris, pensilis, personatus, petiti, philippina, ruber, rubiginosus, rubiceps, rubricollis, rufoceps, rufovelatus, sanguinirostris, senegalensis, socia, spiloneotus, stictoneotus, subarceus, superciliosus, surinamensis, taba, tahitici, textor, velatus, xanthomelas.

Plochiocera nodicornis.

Plochionicerus monilicornis, violaceus.

Plochionus aeneipennis, alternans, amandus, australis, binotatus, boisduvali, bonifili, brunneus, fenestratus, pradiieri, quadrinotatus, timidus, vittatus.

Plocia mixta, notata.

Plociomerus maculatus.

Plocogaster M-album, mammosus.

Plocoscypia benettiae, contortolobata, expansa, formosa, labyrinthica, laxa, meandrinoides, michelini, morchella, rugosa.

Plodia interpunctella.

Ploeotia vitrea.

Ploesconia affinis, balleata, charon, cithara, crassa, longiremis, patella, radiosa, scutum, subrotunda.

Ploiaria bispinosa, brevipennis, errabunda, erratica, fraterna, maculata, madagascariensis, obscura, pallida, tipularius, vagabunda.

Plojaria ambigua, pilipes.

Ploseria diversaria.

Plotia dolabrata, guttata, telescopium.

Plotoseus ikapor.

Plotosius lineatus.

Plotosus albilabris, anguillaris, canus, horridus, limbatus, lineatus, macrocephalus, macrophthalmus, marginatus, megastomus, microceps, multiradiatus, tandanus, thunbergianus, unicolor, viviparus.

Plotus congensis, leucogaster, levaillanti, melanogaster, niger, novae hollandiae, rufus.

Plumaria arborea.

Plumatella allmani, campanulata, cristata, crystallina, emarginata, familiaris, fruticosa, fungosa, gelatinosa, lucifuga, punctata, repens.

Plumipeda superbus.

Plumularia angulosa, arcuata, banksi, bipinnata, brachiata, bullata, catharina, cristata, crucialis, cupressina, echinulata, elegans, exilis, falcata, filamentosa, fimbriata, flexuosa, frutescens, gaimardi, glutinosa, gracilis, hypnoides, macleodi, myriophyllum, obscura, patagonica, pelagica, pennaria, pennatula, pinnata, pluma, scabra, setacea, simplex, speciosa, spicata, sulcata, uncinata, urceolifera.

Plusia accentifera, aemula, aerea, ain, amethystina, ancora, asclepiadis, aurifera, biloba, bractea, celsa, chalcitis, chrysis, circumflexa, circumscripta, coelonota, concha, confusa, consona, daubi, deaurata, divergens, divergens, dives, duvernei, eriosoma, eugenia, falcifera, festucae, gramma, illustris, inscripta, interrogationis, jota, laureum, macrogramma, mandarina, microgramma, modesta, moneta, mya, ni, orichalcea, percontationis, pulchra, questionis, rectangula, renardi, sevastina, superba, triplasia, uraliensis, urticae, virgo, zosimi.

Plusiotis adelaida, amalia, anomala, auripes, costata, laniventris, victorina.

Plutella acinacidella, albiguttella, alpella, angelicella, antennella, arenella, asperella, bicingulata, canaella, chalybaeella, conscriptella, dalella, daphnella, daucella, decemguttella, echiella, evonymella, falcella, fasciella, fissella, funerella, griseolana, harpella, horticola, hufnageli, hybridella, immaculicornella, irrorella, laterella, lithopenella, litorella, lobella, lotella, malvella, marginella, marmorosella, messingiella, metznerella, mouillella, nebulella, nemorella, niveella, pedella, pericella, plumbella, populella, porrectella, prodromella, putridella, rorrella, rostellula, rubidella, scabrella, schmaltzella, semicostella, senilella, sequella, sexpunctella, signella, silacella, sordidella, striatella, subfalcata, sylvella, tremella, triangulosella, tripunctella, umbrellula, unitella, verbascella, vitella, xylostella.

Pluteus paradoxus.

- Pluvialis** aurea, littoralis, pusillus, squatarola, torquatus, virginiana.
- Pluvianellus** socialis.
- Pluvianus** armatus, chlorocephalus, cinereus, melanocephalus, spinosus.
- Plyctolophus** citrinocristatus, cristatus, eos, galeritus, leadbeateri, licetorhynchus, moluccensis, parvulus, philippinarum, productus, rosaceus, sulphureus, tenuirostris.
- Pnesthes** instabilis, ligata.
- Pneumabanchus** albinus, cinereus, leprosus, striatus.
- Pneumodermis** atlantica.
- Pneumodermion** cucullatum, mediterraneum, pellucidus, peroni, ruber, violaceum.
- Pneumora** discolor, marmorata, obliqua, ocellata, papillata, papillosa, rubens, serrata, spinulosa, variolosa.
- Pneustes** prehensilis.
- Prigalio** pectinicornis.
- Prigocichla** harmonica.
- Pnoepyga** albiventer, concolor, pusillus, ruiventer, unicolor.
- Poabius** bistratus, nitens.
- Pocadius** carbonarius, ferrugineus, fulvipennis, helvolus, rubidus.
- Pochazia** fasciata, fumata.
- Pocillopora** acuta, agariciformis, andreossi, apiculata, approximata, brevicornis, caespitosa, clavaria, coerulea, damicornis, elegans, elongata, favosa, fenestrata, glabra, grandis, heuprichi, informis, interstincta, ligulata, meandrina, plicata, polymorpha, raristella, sertifera, solanderi, squarrosa, stigmataria, verrucosa.
- Pocilopores** patelliformis, subalpinus.
- Pococera** gibella.
- Podabacia** cyathoides.
- Podabrus** (Col.) alpinus, banaticus, curtus, flavipes, laevicollis, lunulatus, marginellus, modestus, nigriventris, puberulus, punctatus, rugulosus, schoenherri, vittatus.
- Podabrus** (M.) crassicaudatus, macrourus.
- Podabrus** (P.) centropomus, cottoides.
- Podacanthus** typhon, unicolor, viridiroseus.
- Podager** diurnus, gouldi, nacunda, nattereri.
- Podagricus** fuscicornis.
- Podagrion** splendens.
- Podalgus** bonariensis, complanus, cuniculus, dasypleurus, deiphobus, exaratus, fossor, juvenis, nasutus, obesus, sarpedon, talpa, validus, variolosus, villosus.
- Podalirius** (Cr.) typicus.
- Podalirius** (Hym.) acervorum, albi-ventris, crassipes, dumetorum, furcatus, hirsuta, hi-panicus, incisus, lanipes, parietinus, pilipes, quadri-maculatus, rotundata, semi-nuda, versicolor, vulpinus.
- Podalirius** (Lep.) europaeus, pompilius.
- Podarcis** grammica, irritans, muralis, taurica, velox.
- Podargus** auritus, australis, brachypterus, cinereus, cornutus, cuvieri, fullertoni, gracilis, humeralis, javanensis, javanus, macrorhynchus, megacephalus, novae hollandiae, ocellatus, papuensis, phalaenoides, plumiferus, stanleyanus, stellatus, strigoides.
- Podenereis** corniculata, punctata.
- Podhomala** suturalis.
- Podica** personata, senegalensis.
- Podiceps** albicollis, ambiguus, americanus, antarcticus, arcticus, auritus, australis, bicornis, calipareus, canogularis, carolinensis, cayennensis, chilensis, chiliensis, cinereus, cornutus, dominicanus, dominicus, fluvialilis, griseogena, gularis, kalipareus, leucopterus, longirostris, major, melanogenius, mitratus, nestor, nigricollis, noctivagus, novae hollandiae, occipitalis, patagiatus, philippensis, poliocephalus, pygmaeus, recurvirostris, roland, rubicollis, rufopectus, subcristatus, surinamensis.
- Podilymbus** brevirostris.
- Podinema** teguixin.
- Podionophora** perla.
- Podionops** wahlbergi.
- Podischnus** agenor, tersander.

- Podisma** appulum, calabrum, campanum, communis, dimidiata, dispar, giornae, gracilis, labiata, longicrus, pedestris, prianoa, rufipes, tenuis.
- Podistra** alpina.
- Podisus** albiseptus, pallipes, punctipennis, strigipes, vittipennis.
- Podium** giganteum, gorianum, luteipenne, nigripes, rufipes, rufiventre.
- Podoa** senegalensis.
- Podobdella** endlicheri, surinamensis.
- Podobeus** fuscus.
- Podocephalus** nitidus.
- Podocerus** calcaratus, capillatus, cylindricus, leachi, pelagicus, pulchellus, variegatus.
- Podoces** panderi.
- Podocnemis** dumeriliana, expansa, sextuberculata, tracaxa, unifilis.
- Podocoryna** carnea.
- Podocratus** duclumense.
- Podocys** minutus.
- Pododesmus** decipiens.
- Pododus** (Hem.) orbicularis.
- Pododus** (P.) capitatus.
- Podogaster** coarctatus.
- Podontia** affinis, grandis, impressicollis, nigrovaria, quatuordecimpunctata, splendens, tricolor.
- Podophis** chalcides, quadrupes.
- Podophora** atrata, pedifera.
- Podophrya** fixa.
- Podophthalmus** spinosus.
- Podophthalmus** buchi, defrancei, vigil.
- Podopilumnus** fittoni.
- Podops** bispinosus, cinereus, curvidens, dubius, fibulatus, galgulinus, gibbus, inuncta, laceratus, lapponicus, luridus, neglectus, nodicollis, rudis, sculus, spinifera, tangirus, tangyra.
- Podopsis** arcuata, gryphoides, hirsuta, intussulcata, lamellata, spinosa, striata, truncata.
- Podorrhoea** aplis, colonorum, sanguinolenta, sinaita, tuberculata.
- Podoscirtus** crocinus.
- Podostoma** protea, rufa.
- Podura** albo-cincta, argenteo-cincta, argentula, armata, bicolor, bifasciata, caerulea, canescens, cellaris, cingula, cursitans, cyanocephala, fasciata, femoralis, foenestrarum, fuliginosa, fumigata, fusiformis, gilvula, infernalis, iricolor, nicoleti, nigra, nigro-maculata, nitida, olivacea, pilosa, riparia, rivicola*, rubricauda, rufescens, rufipes, seticollis, simulata, simplex, stagnorum, striata, succincta, trifasciata, variegata, velocissima, viridula.
- Podysma** calabrum.
- Poebrotherium** wilsoni.
- Poec**→ *Vide et Paec*→.
- Poecila** atricapillus, borealis, carolinensis, erythrocephalus, frigoris, jouchistos, kamtschatkensis, lugubris, melanotis, minimus, nuchalis, sibiricus, vinipectus.
- Poecilaema** marginale.
- Poecilaspis** aegrota, angulata, bonariensis, cancellata, conjuncta, corticina, decemnotata, decempustulata, decemverrucata, deplanata, ducalis, duodecimmaculata, duodecimnotata, duodecimverrucata, duplicata, encausta, erichsoni, fastidita, haematodes, histrio, impressipennis, intricata, invasa, macularis, nervosa, nigropicta, octopustulata, ordinata, ornata, pardalina, pavonia, pictipennis, porcata, proxima, punctulata, quatuordecimplagiata, quinquefasciata, rubro-delineata, rubroguttata, rufescens, rufetriculata, sedecimmaculata, subnervosa, suturella, testudinaria, texta, vittifera, xanthoptera.
- Poecile** ater, atricapilla, carolinensis, lugubris, palustris.
- Poecilia** (Lep.) apriliina, chalcidonia, deceptricula, fraudatricula, glandifera, par, perla, raptricula, receptricula, runica, spoliatricula.
- Poecilia** (P.) bogotensis, coenicola, decemmaculata, dominicensis, dubia, fasciata, fusca,

gracilis, japonica, latipes, majalis, punctata, sphenops, surinamensis, unimaculata, vivipara.

Poeciloptera pyralina, roscida, tortricina. *Vide et Poeciloptera.*

Poecilopus muelleri.

Poecillus aeneicollis.

Poecilma ardea, capucinum, ciliatum, cinctipes, crinitarse, furfuraceum, hostis, jaspideum, ostracion, papaveratum, spiculum, spinosum, stipitosum, versicolor, wiedi.

Poecilocampa populi.

Poecilocera bufonia, cincta, hieroglyphica, leprosa, morbillosa, olivacea, ornata, papillosa, pennicornis, picta, punctata, sanguinolenta, spumans, squarrosus, vittata.

Poecilochroma communana, maculana, maurana, melaleucana, occultana, piceana, profundana, semifuscana, solandriana, sordidana, trapezina, udmanniana.

Poecilocoris childreni, dives, druræi, hardwicki, interruptus, latus, longirostris, obsoletus, pulcher, purpurascens.

Poeciloderma lepturoides.

Poecilodus aliformis, angustus, foveolatus, obliquus, parallelus, sublaevis, transversus.

Poecilomorpha afer, atripes, plagiata, senegalensis, tomentosa.

Poecilonitta bahamensis, erythrorhyncha.

Poecilonota conspersa, rutilans, scita, venezuelae.

Poecilophasia marginaria, marginata.

Poeciloptera (Hem.) acuminipennis, albicosta, antica, aspericollis, aurora, brasiliensis, candida, coromandelica, cuculata, dentifrons, dianthus, dominicensis, falcata, jodi-formis, maculata, marginella, maria, melanaria, nodipennis, ocellata, papilionaria, phalaenodes, producta, pulverulenta, septentrionalis, tricolor, truncaticornis, umbra-culata. *Vide et Poeciloptera.*

Poeciloptilia anseripennella, canaepennella, falcouipennella, roscipennella, signipennella, sittaepennella.

Poecilornis rufivertex, sparverius.

Poecilosoma (Col.) metallicum, ornatum, semirufum, undatum, varipes, versicolor.

Poecilosoma (Hem.) ambigua, campestris, concinnus, cordigera, filicis, flavovarius, gyllenhali, haemoptera, immunis, intricatum, kalmi, leucocephalus, maculipennis, mutabilis, pistacinae, pratensis, pulicarius, punctulatus, rosea, rubicundus, rubricatus, rumpennis, sanguinea, tenella, tripustulatus, umbellatarum, variabilis, variatum.

Poecilosoma (Lep.) chrysis, pulchra.

Poecilosoma (P.) maculatum.

Poecilothraupis igniventris.

Poecilus adstrictus, aeneus, altaicus, barbarus, bicolor, boehmi, castanipes, caucasicus, chalcitis, coarctatus, coeruleovirens, confluent, crenatostriatus, crenulatus, crocipes, cupreus, cupripennis, cursorius, cyaneus, decipiens, dilatatus, dilutipes, dimidiatus, elegans, erythropus, fraternus, fulgidus, gebleri, gressorius, impressicollis, infuscatus, karelini, koyi, laevicollis, laevigatus, lapidus, laticollis, latigaster, lepidus, lucublandus, marginalis, marginatus, mauritanicus, micans, monedula, mongolicus, nigroviridis, nitens, nitidicollis, nitidus, numidicus, obscurus, parallelus, pinguedineus, planatus, planodiscus, punctatostriatus, puncticollis, punctulatus, quadricollis, reflexicollis, reichi, rufifemoratus, rugosus, scitulus, semiplicatus, similis, striatopunctatus, thalassochroma, ullrichi, ventricosus, versicolor, viaticus.

Poederus bernieri, goudoti, klugi, ruficeps.

Poedisca policolana.

Poekilocera polymita.

Poekilocerus hieroglyphicus, ligneolus, pictus, punctiventris, roseipennis, sanguinolentus, sonnerati, vigneaudi, vulcanus.

Poekilopleuron bucklandi.

Poekilosoma ornatum, quadrimaculata, rufipenne.

Poek→ *Vide et Poec*→.

Poecocera irrorata, olivacea, perspicillata, porphyrea, sanguinolenta.

Poephagomys ater.

Poephagus grunniens.

Poephila acuticauda, cincta, leucotes, mirabilis, personata.

- Polyblastus** alternans, boiei, drewseni, palaemon, pinguis, varitarsis.
- Polyboroides** radiatus, typicus.
- Polyborus** albogularis, australis, brasiliensis, cheriway, chimachima, chimango, degener, galapagoensis, hypoleucus, megalopterus, novae zelandiae, ochrocephalus, taeniurus, vulgaris.
- Polybostrichus** longosetosa.

- Polybothris** aeneo-maculata, ancora, aureocyanea, carcharis, cassidea, cassidoides, chalcocysea, erosa, garnoti, lamina, rotundipennis, schoenherri, sex-foveolata, solea, stigmatipennis, sumptuosa, zivetta.
- Polybotris** croesus.
- Polybrachionia** linnaeana, mathewsi.
- Polycanthus** spinachia.
- Polycaon** chilensis, chiliensis, equipunctata.
- Polycelis** bilinearis, elegans, fallax, laevigatus, modestus, nigra, nigro-fusca, pallida, pallidus, pulla, tasmanica, tigrinus, vaginuloides, viganensis.
- Polycentropus** concinnus, concolor, fuliginosus, irroratus, multiguttatus, picicornis, pyrrhoceras, senex, subpunctatus, trimaculatus.
- Polycentrus** schomburgki.
- Polycephalus** bovinus, cerebrialis, coenurus, echinococcus, granosa, granulatus, humanus, ovinus.
- Polycera** capensis, citrina, cornuta, cristata, dubia, flava, fusca, lessoni, modesta, ocellata, ornata, pennigera, plebeja, pudica, punctilucens, quadrilineata, typica, varians, webbi.
- Polycerus** stoloniferus.
- Polycesta** aegyptiaca, brasiliensis, cubae, depressa, excavata, jamaicensis, karakera, montesuma, porcata, thomae, velasco.
- Polychaetus** subquadratus.
- Polychalca** multicava, rudalaria.
- Polychrates** scutellatus.
- Polychroma** bicincta, decemmaculata, erythroptera, flavopicta, rufipennis, scalaris, septemmaculata.
- Polychrus** acutirostris, anomalus, fasciatus, geometricus, guianensis, gutturosus, marmorata, neovidanus, virescens.
- Polychrysa** moneta.
- Polycirrus** medusa.
- Polycitor** botryllus, crystallinus, departmentatus, mollissimus.
- Polyclada** natalensis, pectinicornis.
- Polycladodes** pallasi.
- Polycladus** darwini, gayi, maculata, semilineatus.
- Polyclaeis** bohemani, equestris, maculatus, parvus.
- Polycleis** plumbeus.
- Polyclinum** ascidioides, aurantium, constellatum, cylindricum, cythereum, diazona, ficus, fuscum, hesperius, isiacum, saturninum, saturnium, uranium, variolosus, violaceum.
l'ide et **Polyclynum**.
- Polyclonia** borbonica, mertensi, theophila.
- Polyclynum** papillosum, septosum, stellatum, vesiculosum, viride. *l'ide et* **Polyclinum**.
- Polycoelia** donatiana.
- Polycomus** lanuginosus.
- Polycorynus** compressicornis, pantherinus.
- Polycyclus** elongatus, renieri.
- Polycyphus** arenatus, buchi, nodulosus, stellatus, textilis.
- Polycyrtus** capitator, femoratus, histrio, leprieuri, lucidator, quadrisulcatus, rufiventris, sartor, sphacelatus.
- Polycystis** naegeli.
- Polycystus** matthewsi.
- Polydacrys** depressifrons, modestus.
- Polydactylus** plumieri.
- Polydaedalus** albigularis, capensis, nilotica.
- Polydatus** lucius.
- Polydectus** cupulifera.
- Polyderces** adpersus, zonatus.
- Polydermus** pallipes.
- Polydesma** nycterina, umbricola.
- Polydesmus** acutangulus, aper, beaumonti, bibroni, bicolor, bifasciatus, bilineatus, blainvillei, brandti, canadensis, capensis, clathratus, collaris, complanatus, conspersus,

dasyptus, dealbatus, dentatus, denticulatus, depressus, dilatatus, dunali, edentulus, elegans, erichsoni, erythropygos, gayanus, gervaisi, glabratus, glaucescens, goudoti, granosus, granulatus, grayi, guerini, hamatus, impressus, klugi, lateralis, leachi, macilentus, margaritiferus, mauritanicus, mauriti, mexicanus, meyeri, moniliaris, nanus, newporti, olfersi, oniscinus, pallipes, pennsylvanicus, piceus, pilidens, planus, polygonatus, princeps, pustulosus, rosaceus, roulini, rubescens, rubromarginatus, rugulosus, scaber, scabratus, schomburgki, serratus, stigma, stigmatosus, testaceus, thrax, tridentatus, velutinus, vermiformis, virginiensis, zebatus.

Polydictya basalis.

Polydius coelestinus, prodigus, prodiguus, steveni

Polydonta (Dipt.) bicolor.

Polydonta (G.) abbreviata, carinata, castanea, dilatata, elegans, gibbosa, granulata, imbrum, lessoni, listeriana, plicata, sandwichensis, tiarata, tuberculata.

Polydonte pedipes.

Polydotes imperator.

Polydora cornuta, speculigera, testudinum.

Polydorus thoas.

Polydrosus americanus, armipes, astutus, bardus, chrysomela, crinitus, dilutus, dorsualis, ferrugineus, flavipes, flavovirens, fulvicornis, glabratus, herbeus, impressifrons, intermedius, lateralis, leucaspis, mollis, ornatus, pallipes, picoides, planifrons, rubi, sericeus, sparsus, squalidus, thalassinus, undatus, vagabundus, vilis, viridicinctus, vittatus, xanthopus.

Polydrosus aeratus, aeruginosus, aethiops, albomaculatus, alneti, amaurus, argentatus, atomarius, aripes, aurulans, aurulentus, azureus, barbipennis, betulae, canus, carbonarius, carniolicus, cervinus, cinerascens, cinnamomeus, circumductus, confluent, contemptus, corruscus, cupreo-aeneus, dasypterus, dorsalis, festivus, flavescens, flavicornis, flavipes, fulvicornis, guttatus, hirtellus, hispidulus, holosericeus, impressifrons, inustus, iris, lateralis, lineatus, maculosus, mali, marginatus, melanotus, micans, modestus, mollis, morosus, muralis, mustela, nitens, nobilis, nubifer, oblongus, pallipes, paradoxus, parvulus, perplexus, picus, piliferus, planifrons, prasinus, pulchellus, punctatus, pyri, ruficornis, rufipes, rufulus, rugipennis, seleneus, sericeus, sinuatus, smaragdinus, spartii, speciosus, squamosus, sticticus, tessellatus, undatus, uniformis, variegatus, vespertinus, vilis, virens, viridicollis, viridi-nitens, viridipennis, viridis.

Polyeres dufenoyi.

Polyergus rufescens.

Polyglypta bogotensis, costata, dorsalis, flavomaculata, lineata, maculata, nigella, nigri-ventris, pallipes, pilosa, sicala, tredecim-costata, viridimaculata.

Polygomphius gigas.

Polygona fusiformis.

Polygonia C album, C aureum, cingillaria, fasciatus, I album, progne, triangulum.

Polygonus lividus.

Polygrammate hebraicum.

Polygraphus pubescens, tarsalis.

Polygyra albolabris, auriculata, avara, carabinata, contortuplicata, dentifera, dorfeuilliana, elevata, fatigiata, fraterna, gularis, helicycloides, beligmoidea, hirsuta, infecta, insularum, major, monodon, obvoluta, palliata, pennsylvanica, planorbula, polygyrata, profunda, septemvolva, subglobosa, thyroideus, tridentata, troostiana, zelete.

Polygyratia polygyrata.

Polyhirma cailliaudi, ferretti, graphipteroides, intermedia, leucospilota, macilenta, polioluma, tetrastigma.

Polylepas kleini, mitella, scalpellum, sinensis, vulgaris.

Polylobus maculipennis, melanocephalus.

Polymera fusca.

Polymeres demetarum, obliquestriata.

Polymerus holosericeus.

Polymesoda caroliniana.

Polymita carnicolor, globulosa, picta, versicolor.

Polymixia nobilis.

Polymixis ligustre, polymita.

Polymonus inequalis.

Polymorphina aculeata, acuta, anceps, armata, australis, burdigalensis, campanulata, caudata, cenomanensis, clavata, communis, complanata, compressa, consecta, crassa, crassatina, cylindroides, damacornis, deformis, depressa, digitalis, dilatata, echinata, elongata, equalis, frondiformis, fusiformis, gibba, globosa, globulosa, glomerata, grateloupi, gutta, inequalis, irregularis, lacrima, laevigata, liassica, lingua, lucida, minuta, nitida, oblonga, obscura, obtusa, ovata, problema, pupa, regularis, roche-fortiana, rugosa, soldanii, spicaeformis, subdepressa, sulcata, teretiuscula, thouini, translucida, trigonula, truncata, tuberosa.

Polymus nigricornis.

Polynema atratus, crassicornis, elegans, euchariformis, flavipes, fumipennis, fuscipes, gracilis, laeta, latipennis, longula, ovulorum, pulla, pusillus, similis.

Polynemus americanus, approximans, artedis, asiaticus, aureus, commersoni, decadactylus, emoi, enneadactylus, gelatinosus*, heptadactylus, hexanemus, indicus, lineatus, longiplis, mango, melanocheir, multifilis, niloticus, paradiscus*, plumieri, quadrifilis, quinquenarius, risua, sele, sexilis, sex radiatus, sextarius, teria, tetradactylus, toposui, tridactylus, tridigitatus, uronemus, xanthonemus.

Polyneura apicalis, palliata.

Polynice bifrons.

Polynices planulatus, sphacelatus.

Polynoe astericola, blainvillei, cirrata, cirrosa, clava, elegans, extenuata, fasciculosa, floccosa, foliosa, fulgurans, gelatinosa, granulosa, imbricata, impar, impatiens, laevis, lepidota, levis, longa, longissima, lunulata, maculata, minuta, muricata, plumosa, punctata, scabra, scolopendrina, setosissima, squamata, viridis.

Polyodon (A.) gularis, importunus, nigrimentum, occipitalis.

Polyodon (P.) folium.

Polyodonta (G.) elegans.

Polyodonta (L.) nucleus.

Polyodonte scarabaeus.

Polyodontes annulatus.

Polyodontus angustatus.

Polyommatus acaciae, achaeus, acis, acmon, admetus, adonis, aegon, aelianus, aesculi, agathon, agestis, agestor, akasa, alcon, alexis, alphaeus, alsus, amarah, anicetus, amyntas, anthele, apidanus, aquilo, argiolus, argiolus, argus, arion, arogeus, artaxerces, asabius, asteris, augustus, aunus, ballus, bathis, bazochi, beon, betulae, bochus, boeticus, cajus, calaethis, calus, candens, cassius, celerio, celestis, ceranus, ceraunus, ceronus, cethegus, chryseis, chrysus, cippus, cissus, cithonius, cleobis, clyton, cnejus, columella, comyntas, coretas, corydon, crataegi*, cupentus, cyanus, cyllarus, damaeus, damastus, damon, dispar, dolilus, donzeli, dorylas, dumenili, duponcheli, echion, elis, elpis, ematheon, emolus, endymion, epicles, epiphama*, epixanthe, erebus, ergeus, erinus, eros, erylus, ethemon, eumedon, eumolpus, euphemus, eurydice, evadrus, evandras, evippus, falacer, faunus, favonius, filenus, franklini, gabelus, gabinus, gabriel, ganymedes, gordius, hafis, haesus, harpax, hecateus, helius, helle, helus, hemon, heraldus, herodotus, hespericus, hiera, hippothoe, hubneri, hugon, hyacinthus, hylais, hylas, hylla, hypoxanthe, icarinus, icarius, idas, inachus, iolas, iphis, irus, isarchus, isis, ismarus, ismenias, isocrates, jania, jarnas, jebus, jesous, kefersteini, labradus, lacon, lacturnus, ladon, lagus, lara, larydas, lausus, lefebvrei, liger, lineus, lingus, lisus, longinus, lorquini, lucia, lybas, lycabas, lycidas, lygdamus, lynceus, lysimon, mars, marsyas, mauritanicus, megacles, megarus, melanops, meleager, melibaeus, messapus, meton, micyclus, minutus, myopa, myseus, narbal, nautas, nebis, nedymond, nicias, ochsenheimeri, optilete, orbitulus, orcas, ortygnus, orus, osiris, ottomanus, parrhasius, parsimon, pavana, pelagon, perion, petalus, petavius, petus, phaedrus, phaleros, pheretes, philaeas, philanthe, philiasus, pholas, pithous, plata, plinius, polibetes, polonus, polybe, polycletus, polysperchon, pruni, puspa, pythagoras, quercus, ripperti, risimon, roxus, rubi, rustan, salmias, saportae, sapphius, sebae, sena, sichaeus, simaethis, sinnis, sphinx, spini, strabo, strephon, strophius, symethus, syncellus, tamu, tarquinius, telenus, telepbii, telicanus, terambus, thales, theis,

theophrastus, thersamon, thespis, thestylis, thoe, thyra, thysbe, tithonus, titus, triton, turcicus, ubaldus, valens, venulius, venus, virgauraea, virgaureae, vulcanus, walbum, webbianus, xanthe, xenophon, zeuxo.

Polyonychus mucidus.

Polyophthalmus agilis, dubius, ehrenbergi, pictus.

Polyopsia analis, bipunctata, praeusta.

Polyoptilus erichsoni, lacordairei.

Polyzoa lacordairei.

Polypedates buegeri, goudoti, natalensis, rugosus.

Polypedotes chalconotus, leucomystax.

Polyphaenis prospicua, xanthochloris.

Polyphaga aegyptica.

Polyphasia (Lep.) amaeana, centumnotata, commanotata, concinnata, immanata, marinatora, perfusca, russata, saturata.

Polyphemopsis elongatus.

Polyphemus bruguireus, dilatatus, fusiformis, gigas, glans, kindti, occidentalis, oleaceus, pediculus, solidulus, stagnorum, subulatus, suturalis.

Polyphillastrea icaunensis.

Polyphoni laevigatus.

Polyphractus platycephalus.

Polyphrades argentarius, cinereus, laticollis, murinus, paganus, perignarus.

Polyphylla fullo, leucogramma, melolontha, variolosa.

Polyphyllastrea plana, provincialis, toucasiana. *Vide et Polyphill*→.

Polyphyllia (Coel.) coadunata, cristata, echinata, pelvis, sigmoides.

Polyphyllia (Cor.) explanatum, fungia, galeriformis, leptophylla, patellata, pileiformis, substellata, talpa.

Polyphyllum rubescens.

Polyphysa aspergillosa, australis, mediterranea, rubescens.

Polyplanus sickershusanus.

Polyplectron argus, bicalcaratus, chalcum, chinquis, emphanum, hardwicki, libetanus, lineatum, thibetanus.

Polyplectrum napoleonis.

Polypleurus geminatus, punctatus.

Polyplex bulbosa, crenatus, gracilis, purpurascens, rugosus.

Polyplaca xanthocera.

Polypogon barbalis, cribralis, derivalis, emortualis, nemoralis, tarsicrinalis, tentaculatus.

Polypora biarmica, bifurcata, dendroides, fastuosa, flexuosa, flustreiformis, goldfussiana, infundibuliformis, infundibulum, marginata, multiporata, orbicribata, papillata, retiformis, verrucosa.

Polyporus chameleon.

Polypothecia agariciformis, biloba, cepaeiformis, clavellata, complexa, dichotoma, divaricata, expansa, fissa, fleuriausi, gregaria, latissima, maxima, novemloba, obliqua, octoloba, palmata, pictonica, pyriformis, quadriloba, quinqueloba, septemloba, sexlobata, sphaerocephala, triloba, undulata.

Polyprion americanus, cernium, massiliense.

Polyptera chamissonis.

Polypterus bichir, endlicheri, niloticus, palmas.

Polypteryx cupido.

Polyptychus dentatus, juglandis, populi, quercus, timesius.

Polypus (Ceph.) antiquorum, longipes.

Polypus (Coel.) briareus, isochirus, megalochirus, viridis.

Polyrhaphis horrida, papulosa, spinipennis.

Polyrhizodus magnus, pusillus.

Polyscelis variabilis.

Polyschisis hirtipes.

Polyscopus costatus.

Polyselmis viridis.

Polysitus farctus, metallescens, ventricosus.

- Polysphincta** areolaris, carbonator, elegans, latistriata, multicolor, percontatoria, rufipes, soror, tuberosa, varipes.
- Polyspila** philadelphica.
- Polystemma** adriaticum, albicans, pellucidum, pulchrum, pusillum, roseum.
- Polystichtis** cerea, lucinda, mandane, ocyptore, zeangira.
- Polystichus** brevipennis.
- Polysticta** guttata, stelleri.
- Polysticte** quopopa.
- Polystodes** ichneumoneus.
- Polystoechotes** sticticus.
- Polystoma** (R.) midae.
- Polystoma** (Verm.) appendiculatum, armatum, denticulatum, duplicatum, integerrimum, loliginis, ocellatum, proboscideum, sanguicola, sanguineum, taenioides, thynni, venarum.
- Polystomella** aculeata, alvareziana, ambigua, angularis, antonina, articulata, berthelotiana, calcar, canariensis, complanata, compressa, costata, costulata, crassula, craticulata, crenulata, cri-pa, depressula, dion, discoidalis, etrusca, fichtelliana, flexuosa, gainardi, gulielminae, hauerina, indigena, josephina, laevigata, laevigatula, lanieri, lessoni, listeri, macellus, margaritacea, obtusa, oceanensis, owenianum, planulata, poeyana, regina, rotula, rugosa, sagra, savii, semi-striata, strigilata, subcarinata, subumbilicata, umbilicata, umbilicatula, ungeri, uniforata, vortex, vulgaris.
- Polystomus** axillaris.
- Polyteles** guerini, steveni.
- Polytelis** barrabandi, melanura.
- Polythoa** variabilis. *Vide et Palythoa.*
- Polytmus** aglaiae, albicollis, amazili, anais, antoniae, aquila, arsinoe, atricapillus, aureo-ventris, aurescens, aurulentus, brevirostris, buffoni, caeruleogaster, candidus, chionogaster, chrysobronchos, chrysurus, cinereicollis, cinnamomea, cirrochloris, columbicus, corallirostris, coruscans, cuvieri, cyanifrons, cyanopectus, cyanotus, cyanurus, de lattarei, delphinae, dominicus, dumerili, edwardsi, elegans, eliciae, ensipennis, eriphile, erythronotus, euryptera, fallax, franciae, furcatus, furcifer, geoffroyi, georginae, glaucopis, glaucopoides, goudoti, gramineus, hirsutus, holosericeus, hypoleucos, iolatus, jugularis, largipennis, lazulus, leucurus, macrourus, mango, margaritaceus, maezappa, mellisugus, milleri, minullus, multicolor, nigrofasciatus, norissi, oenone, pampa, paradiseus, pella, phaeopyge, polytmus, porphyurus, prevosti, quadricolor, riefferi, ruckeri, rufus, saucerrottei, senex, serrirostris, simplex, sophiae, superciliosus, tephrocephalus, thalassinus, thaumatias, verticalis, viridispallens, viridis, viridissimus, watertoni.
- Polytoma** vella.
- Polytomurus** formosus, speciosus.
- Polytomus** (Coel.) caeruleus, halyosoma, lamanon.
- Polytomus** (Col.) femoratus, marginatus, mystacinus.
- Polytoxus** sanguineus.
- Polytrema** arduennensis, avellana, brunnescens, catenifera, clavula, compressa, corallina, cretosa, dilatata, escharoides, ficulina, flabellum, gnomidium, granulata, incrustans, licheniformis, lobata, mamilla, marticensis, meandra, mesenterina, micropora, miniacea, nuciformis, obtusata, pavonia, polymorpha, pseudo-tuberosa, pygmaea, pyriformis, sphaera, spongiodes, spongites, subfibrosa, subincrusters, subirregularis, subpyriformis, subspongites, subtuberosa, truncata, tuberosa, urceolata.
- Polytremacis** blainvilliana, bulbosa, complanata, glomerata, macropora, micropora, supracretacea.
- Polytremaria** catenata.
- Polytrichius** fasciatus.
- Polytropia** crispata, imbricatus, lapilla, rugosa.
- Polytrophus** cornutus.
- Polytrypes** elongatus.
- Polyxenes** cribratus.
- Polyxenia** alderi, cyanostylis, flavobrachia, leucostyla, undulosa.

- Polyxenus** lagurus, platycephalus, rubromarginatus. *Vide et Pollyxenus.*
- Polyzoa** opuntia.
- Polyzona** rubrum, variolosus.
- Polyzonium** germanicum.
- Polyzonus** bifasciatus, manillarum.
- Polyzosteria** aenea, australis, decipiens, limbata, occidentalis, orientalis.
- Pomacanthus** arcuatus, asfur, aureus, balteatus, canescens, cingulatus, lutescens, paru, quinquecinctus, sordidus, subarcuatus.
- Pomacea** annularis, linearis, maculata, orbata, variegata.
- Pomacentrus** albifasciatus, biocellatus, brachialis, burdi, caeruleus, chrysurus, emamo, emarginatus, enneadactylus, falcata, fasciatus, fuscus, latifrons, leucostictus, limula, littoralis, marginatus, nigricans, notostigmus, nuchalis, pavo, planifrons, pristiger, punctatus, scolopseus, setifer, summana, taeniops, trilineatus, trimaculatus, tripunctatus, vanicolensis, viridis.
- Pomacera** bigoti.
- Pomachilius** nigriceps.
- Pomachilus** subfasciatus.
- Pomadasy** argenteus.
- Pomanotis** rubescens.
- Pomarinus** fuscus.

cornis, luteipennis, maculipennis, marginatus, medius, melanarius, melanurus, melas, mellipes, meridianus, micans, militaris, minor, minutulus, minutus, modestus, moestus, morio, nebulosus, neglectus, nervosus, nigerrimus, nigrita, nigrutilus, nigrocyaneus, nitidulus, nobilis, notatus, nubilipennis, nudipes, obscurus, octopunctatus, olivieri, operculatus, ornatus, paulinieri, pectinipes, pelteri, petiolatus, phaeopterus, phaleratus, philadelphicus, pictus, planiceps, plebejus, plumbea, proximus, pulcher, punctatus, punctipes, punctum, pyrenaeus, quadripunctatus, quadrivittatus, quinque-notatus, regius, rubellus, ruficeps, ruficornis, ruficrus, rufiventris, rusticus, rutilus, salvus, sanguinolentus, sellata, semicinctus, senilis, septemmaculatus, sericans, sericatus, sericeus, serripes, sesquialterus, sculus, signatipennis, speciosa, spinimanus, spinosus, spissus, splendidulus, strigosus, subcyanescens, subcyaneus, subfasciatus, subnebulosus, sugillatus, sulphurescens, tamisieri, terminatus, teutonius, thoracicus, tibialis, trifasciatus, tripunctatus, tumidus, turcicus, umbrosus, unifasciatus, variabilis, varicornis, varius, vespiformis, vicinus, violaceipennis, waltii, xanthocerus, zonatus.

Pompostola ariaratus, eryx, hyparchus, rhabus.

Pomus canaliculatus, insularum, rossi, scalaria, zonatus.

Ponera abyssinica, affinis, apicalis, araneoides, bicolor, bispinosa, clavata, contracta, crassinervis, crassinoda, croatica, elongatula, flavicornis, fuliginosa, gagates, gigantea, globosa, grandis, longaeva, nitida, nodosa, quadridens, rugosa, tarsalis, tarsata, tuberculata, ventrosa, villosa.

Ponerobia rubronotata.

Pongo abeli, wurmbi.

Pontarachna punctulum.

Pontia (Cr.) atlantica, edwardsi, nerii, patersoni, raynaudi, savignyi, tinei.

Pontia (Lep.) acaste, aenippe, alceste, amata, arne, ausonia, belemia, belia, brassicae, callidice, cardamines, casta, chariclea, chlorodice, chrysidice, chrysonome, chrysotheme, coronis, crataegi, crokeri, daira, danae, dapidice, dorothea, douei, dynamene, elathea, ephyia, eris, erotboe, eucharis, eulimene, eupheme, eupheno, eupompe, evagore, evarne, glauce, glauconoma, halimede, heuningia, hierte, hyparete, judith, laodamia, leucodice, liagore, marianne, medusa, melia, mercedis, mesentina, metra, napaea, napi, narcaea, narica, nina, oleracea, olga, phicomone, pirene, pleione, protomedia, pyrothoe, rapae, raphani, sabellicae, sinapis, sylvicola, tagis, thyria, titea, tritogenia, valeria, venilia.

Pontoaetus blagrus, humilis, ichthyaetus, leucogaster, leucoryphos, melanoleucus, nanus.

Pontobdella areolata, depressa, lubrica, muricata, spinulosa, verrucata.

Pontocardia cruciata.

Pontocheilodon anglica, caspia.

Pontoleo jubata.

Pontonia armata, custos, domestica, macrophthalma, nipponensis, parasitica, pulsatri, thyrenus.

Pontophilus bispinosus, pristis, spinosus, trispinosus.

Pontoporeia femorata.

Pontoporia blainvillei.

Poodytes gramineus, nasturtii.

Poophagus olivaceus, sisymbrii.

Poospiza cabanisi, cinerea, hispaniolensis, hypochondria, lateralis, melanoleuca, nigrorufa, olivacea, thoracica, torquata.

Popilii biguttata, fasciculata, femoralis, maculata, nigrita, nitidicollis, parvula, pilifera, plicatipennis, quadriguttata, splendida, subvittata, suturalis, theicola, varicolora.

Popillia acuta, adamas, aemula, aeneas, beryllina, biguttata, bipunctata, brunnea, caschmirensis, castanoptera, castor, cetrata, chlorion, complanata, concolor, cupricollis, cyanea, cyanoptera, dichroa, difficilis, dorsigera, fimbriata, formosa, gemma, huegeli, japonica, lucida, luteipennis, maclellandi, marginicollis, minuta, mutans, nasuta, nitida, olea, pollux, regina, relucens, rufipes, rugicollis, sandyx, scalpta, scutellaris, semirufa, smaragdula, sticticollis, sulcata, sulcipennis, truncata, varia, vidua, virescens, viridissima.

Porambonites acuminata, aequalis, aequirostris, alta, brevis, costata, dentata, elevata, fenestrata, intercedens, intermedia, lata, latissima, maxima, minima, parallela, parva,

pentagona, plana, recta, reticulata, rotunda, rotundata, striata, subrecta, surrecta, teheffkini, transversa, triangularis, trigona, truncata, turgida, undata.

Porania gibbosa, pulvillus.

Porcellana acanthocheles, acanthophora, affinis, angulosa, annulipes, armata, asiaticus, bluteli, bosci, cinctipes, coccinea, cristata, dehaani, dentata, desmaresti, elongata, exos, galathina, granaria, granulosa, grossimana, hexapus, hirsuta, hirta, japonica, laevigata, lamarecki, leachi, lobifrons, longicornis, longimana, macrocheles, maculata, magnifica, minutus, natalensis, obesa, ocellata, parvula, pilosa, pisum, platycheles, polita, pulchripes, punctata, pura, quinqueplicata, rugosa, rugosimanus, sayi, sculpta, secalina, sociata, soriata, spinifrons, squamulata, streptochirus, striata, subpilosa, tuberculata, tuberculifrons, tuberculosa, versimana, violacea, virescens, viridis.

Porcellanites seelandicus.

Porcellata sexspinosus.

Porcellia armata, buchi, cincta, cingulata, costata, edouardi, eiffiensis, levigata, nodulosus, ornata, parvula, poeyi, puzo, radiatus, retrorsa, striata, verneuli, woodwardi.

Porcellio affinis, alexandrinus, amoenus, asper, bovaei, brevicaudatus, brunneus, chilensis, ciliatus, cinerascens, confluent, conspersus, crassicornis, crenulatus, cucercus, degeeri, dilatatus, dubius, echinata, ehrenbergi, emarginatus, ferrugineus, fimbriatus, flavipes, frontalis, fuscovariegatus, gayi, granarus, graniger, granulatus, griseus, hoffmannseggii, insignis, insularis, interruptus, klugii, laevis, liliputianus, limbatus, lugubris, maculicornis, nigra, nigricans, ochraceus, olivieri, ornatus, ovatus, pallasi, panzeri, pictus, platysoma, poeyi, politus, pruinosis, pulcher, punctatus, rathkei, ratzeburgi, reaumuri, scaber, serialis, sericea, sexfasciatus, spinicornis, spinifrons, sublaevis, swammerdami, sylvestris, syriacus, taeniola, trilineatus, tristensis, tristis, truncatus, uniformis, urbicus, variabilis, varius, wagneri, zealandicus.

Porcula salvania.

Porcus (M.) babirusa, vulgaris.

Porcus (P.) bayad, docmac.

Porella cervicornis.

Poria caesia, chrysomeloides, circumflexa, coxalis, cyanea, haematura, sanguinitarsis, togata.

Porites acerisus, aculeata, alveicornis, angulata, arenacea, astreoides, astroides, banonis, cellulosa, cervina, cinctus, clavaria, collegniana, colleagnoana, complanata, compressa, conglomerata, contigua, cribripora, cylindrica, damicornis, deshaysiana, discoidea, divaricata, elegans, elongata, erosa, expatiata, favosa, flabelliformis, flexuosa, fragosa, furcata, glaber, impressus, informis, inordinata, interstincta, leiophylla, levis, lichen, limosa, lobata, macarthuri, megastoma, michelini, monticulosa, mordax, muriculatus, nigrescens, nodosus, ornata, palmata, panicea, petalliformis, polymorphus, punctatus, pyriformis, recta, reticulata, reticulosa, rosacea, rus, scabra, spumosa, subdigitata, swindernana, tener, tuberculosa, tubulata, venosa, verrucosa, vetusta.

Porizon albipennis, annulator, boops, borealis, claviventris, dissimilis, erucator, erythrostomus, exhaustor, fulvipes, fumipennis, gilvipes, gravipes, harpurus, hostilis, italicus, vocator, linguarius, marginellus, mediator, microcephalus, minator, moderator, nigritulus, nutritor, obsoleto, pygmaeus, raptor, rufinus, saltator, triangularis, truncatus.

Porocephalus crotali.

Poroderma africanum*, pantherinum, submaculatum, variegatum.

Porodragus restitutus.

Poromya anatinoides, globulosa, granulata, lata, nitida, pulchella.

Poronia adansoniana, parreyssi, petitiana, purpurata, rubra, scalaris, semilunum.

Poropleura bacca, chimaera, coelestina, cuprea, klugii, monstrosa.

Poropterus abstersus, antiquus, conifer, odiosus, succosus.

Pororhynchus labeornis.

Porospira comes, indica, princeps, quaternata.

Porospongia acetabulum, impressa, intermedia, jurensis, marginata, micropora, neo-comiensis.

Porpacus cornirostris, horridus.

Porpe fibrana.

Porphyraspis bescke, circumdata, coccinea, costipennis, erythroceras, intricata, rugosa, sanguinea, tristis, xanthocera.

- Porphyria** carneolus, flammeola, fusca, ispidula, miniata, minuta, taeniata, tentorium.
- Porphyria** matutina, purpurina, rosina.
- Porphyrio** albus, allenii, antiquorum, bellus, brasiliensis, calvus, chlorotus, cinereus, cyaneicollis, cyanocephalus, cyanooleucus, dorsalis, erythropus, flavirostris, hiacinthinus, indicus, madagascariensis, maderaspatanus, martinicus, melanocephala, melanotus, mexicanus, phaeicura, poliocephalus, pulverulentus, purpureus, samoensis, simplex, smaragdinus, smaragnotus, tavoua, veterum, viridis, vitiensis.
- Porphyriops** crassirostris.
- Porphyritis** porphyralis, punicealis, purpuralis.
- Porphyronota** carnifex, cinnamomea.
- Porphyrophora** armeniaca, frischeri, hameli, margarodes, polonica, radicum graninis.
- Porphyrops** aeneicoxa, amictus, annulatus, annulipes, argentinus, argyrius, aulicus, auricollis, chetifer, communis, consobrinus, crassipes, cupreus, decoratus, diaphanus, elegantulus, fascipes, flavicollis, flavicoxa, flaviventris, fulgens, fulvipes, geniculatus, hirtipes, insulus, latipes, leucocephalus, maculipes, micans, nasutus, nemoralis, nigripes, nitidus, obscuratus, ochraceus, pallipes, pallitarsis, palmipes, pilosicornis, pumilus, quadrifasciatus, riparius, rufipes, scutellatus, splendidus, suturalis, tarsalis, thoracicus, versicolor, vestitus, vittatus, wilsoni.
- Porpita** (Cor.) centrifuga, centripeta.
- Porpita** (Ech.) denudata.
- Porpita** (Med.) appendiculata, atlantica, chrysocoma, coerulea, disticha, forskahli, forskalea, gigantea, glandifera, globosa, granulata, indica, kuhli, linneana, lütkeana, mediterranea, moneta, nuda, pacifica, porpita, radiata, ramifera, reinwardti, umbella, velella, vulgaris.
- Porpites** echinatus, globulatus, haemisphaericus, lenticulatus.
- Porrectaria** albicosta, anatipennella, anatipennis, anseripennella, argentula, ballotella, binotella, coracipennis, cygnipennis, flavi caput, flos-lactis, fusco-aenea, fusco-cuprea, gallipennis, grandipennis, gryphipennis, leucapennella, leucapennis, lineola, lixella, lutaria, obscura, ochrea, oleae, onopordiella, ornata, ornatipennella, otidipennella, picaepennis, rufipennis, rufo-cinerea, spinicornis, squalorella, struthionipennella, triatomea, vulpecula, wockeella.
- Porrorhynchus** marginatus.
- Porrostoma** discoideus, erythropterum, marginatus, rufipennis.
- Portax** picta, tragocamelus.
- Porthesia** auriflua, chrysorrhoea.
- Porthetes** zamiae.
- Porthetis** elephas, terrentia.
- Porthetria** beatrix, brotea, dispar, lunatra.
- Porthmeus** argenteus.
- Portlockia** bufo, laevis, macrophthalma, nupera, sublaevis, tuberculata.
- Portumnus** latipes, monodon.
- Portunus** arcuatus, armiger, barbarus, biguttatus, bimaculatus, boja, catharus, cedonulli, chaptali, convexus, corrugatus, cribrarius, crucifer, cyanophthalmus, defensor*, dentata, denticulatus, diacantha, dubius, emarginatus, erythrodictylus, euechromus, gladiator, granulatus, guttatus, hastatoides, hericarti, infractus, integrifrons, lancifer, leachi, leucodon, leucodontes, levifrons, littoralis, lividus, longipes, macropipus, maculatus, maenas, maravigna, marmoreus, menoides, miles, ocellatus, pelagicus, pelagicus, peruvianus, pictus, pleurocanthus, plicatus, poissoni, polybioides, prymna, pusillus, reticulatus, rondeleti, ruber, sanguinolentus, serratus, sexdentatus, spinosus, tenuipes, trilobus, tropicalis, truncatus, tuberculatus, valantieni, valencienei, valentieni, variegatus, velutinus, vernalis.
- Porus** ochraceus.
- Porzana** dimidiatus, fluminea, immaculata, leucophrys, maruetta, palustris, plumbea, rufescens.
- Posidonia** alata, alveata, anodontoidea, anomala, arcuata, becheri, bronni, buchi, canaliculata, costata, gigantea, lateralis, lirata, membranacea, minuta, orbicularis, ovata, radiata, revelata, similis, socialis, speciosa, truncata, tuberculata, vetusta.

Praia dubia.

Praniza branchialis, caeruleata, fuscata, maculata, marina, mauritiana, mesasoma, montagui, obesa, plumosa, reinhardi, ventricosa.

Praocis aenea, audouini, chevrolati, costata, costatula, cribrata, cucullata, curta, depressa, dilaticollis, gayi, gravidus, hirtuosa, minutus, nigroaenea, parva, peltata, pentagonus, pleuroptera, punctata, pygmeus, rotundatus, rufilabris, rufipes, rufitarsis, rugatus, sanguinolenta, spinipes, spinolae, subaenea, subcostata, submetallica, subreticulata, subsulcata, sulcata, sylphoides, tibialis, ursina, variolosa, viaticus, vilis.

Praon exoletus.

Praosis hirticollis, pilula.

Prasocuris aucta, beccabungae, hannoverana, marginella, metallica, phellandri, picea, violacea.

Praticola anthoides, campestris, fuliginosa.

Pratincola caprata, ferrea, fervida, glareola*, hemprichi, indica, insignis, leucorrhoea, leucura, pallasi, pastor, rubetra, rubicola, sibilla.

Prattia glandulosa.

Praunus flexuosus, integer.

Praya diphyes.

Prays coenobitella, repandella, scriptella.

Precis dryope, octavia.

Preia lucretia.

Premnas biaculeatus, semicinctus, trifasciatus, unicolor.

Premnocopus undulatus.

Prenadilla cyclopum.

Prepodes blandus, camoleon, cinerascens, costatus, depressicollis, gentilis, humilis, impressus, inaequalis, leucographus, luctuosus, novemdecimpunctatus, obsoletus, ornatus, plebejus, pulcher, quindecimpunctatus, regalis, spectabilis, sphacellatus, vittatus.

Prepona amphimachus, amphitoe, chalciope, deiphile, demodice, demophile, demophon, lycomedes, pheridamas.

Prepopharus ditinis, obliterated.

Prepopterus aeneus.

Presbys canifrons, unirufus.

Presbytes cephalopterus, chrysomelas, cristata, entellus, flavimana, frontalis, frontatus, johni, maura, melalophos, naemeus, obscura, pyrrhus, rubicunda, sumatranus.

Presbytis albigena, barbei, chrysomelina, cinerea, comata, humeralis, mitrata, nobilis, phagrei, thesitis.

Pria cinerascens, dulcamarae, nigritula, pallidula, truncatella.

Priacanthus arenatus, argenteus, beumebari, bonariensis, boops, carolinus, cruentatus, dubius, fax, fulgens, hamruhr, holocentrum, japonicus, macracanthus, macrophthalmus, macropterus, macropus, nipponius, speculum, tayenus.

Priamides amosis, anchises, brissonius, capys, caudius, echemon, euristeus, evander, hippason, hipponous, julus, marcius, neophilus, oxymanduas, pompejus, tullus.

Priamus helicoides.

Priapulus caudatus, hibernicus, priapus.

Primaevus buansu.

Primno guerini, lutescens, macropa.

Primnoa antarctica, australasiae, lepadifera, rossi.

Princeps agavus, ajax, anchises, arbates, capys, caudius, chalcus, crassus, demoleas, echelus, echemon, erithonius, hector, hypolitus, hyppason, lysander, machaon, marcius, meges, pammon, panope, philenor, polydamas, polydorus, pompejus, protesilaus, sesostris, stichius, thoas.

Prinia brunniformis, buehanani, cursitans, cysticola, familiaris, flaviventris, franklini, fusca, gracilis, hodgsoni, ictérica, inornata, lepida, longicaudata, macroura, mistacea, neglecta, olivacea, pileata, rufescens, rufifrons, socialis, stewarti, subhemalayana, sylvatica.

Prinobius germari, myardi.

Priocella garnoti.

- Priocera* abdominalis, albomaculata, bispinosa, castanea, decorata, inornata, maculata, niernsiana, pusilla, pustulata, reichei, rufescens, spinosa, trinotata, variegata.
- Prioncnemis* abdominalis, affinis, albifrons, annulatus, capensis, coriaceus, exaltatus, fasciellus, femoralis, flavus, fuscus, gyllenhali, hyalinatus, luteipennis, mellerborgi, minor, minutus, nebulosus, notatus, nudipes, obtusiventris, parvulus, pusillus, sericatus, subpetiolatus, tripunctatus, variegatus, wahlbergi.
- Priodon* (Coel.) sagittarius.
- Priodon* (P.) annularis, annulatus.
- Priodontes* giganteus.
- Priofinus* aequinoctialis, arctica, cinerea.
- Priognathus* monilicornis.
- Priomerus* (Dipt.) fasciatus.
- Priomerus* (Hym.) pachymerus.
- Prion* banksi, turtur, vittata.
- Prionacalus* atys, iphis.
- Prionapterus* flavipennis, staphylinus.
- Prionapteryx* nebulifera.
- Prionastraea* venusta.
- Prionastrea* abdita, aegyptiaca, alimena, ambigua, ameliana, angustata, aranea, bellula, bernardiana, blandina, cabanetiana, callaudi, confluens, corallina, crassior, crispa, diversiformis, dubia, explanata, favosa, gibbosissima, goldfussiana, gracilis, grandiflora, grandis, guettardiana, helianthoides, icaunensis, infundibulum, irregularis, lamellosissima, ligeriensis, limitata, lobata, luciensis, magna, magnifica, magnostellata, michelini, microcoma, moneta, muensteriana, mutabilis, noe, obtusata, ornata, polygonalis, profundicella, punctata, quoyi, rathieri, rousseaui, seychellensis, striata, subinfundibulum, sulphurea, supracretacea, tombeckiana, vesparia.
- Prionella* beauvoisi, villosa.
- Prionesthis* funerarius.
- Prionia* (L.) globosa.
- Prionia* (Lep.) lacertula, squalida.
- Prionilites* serrulatus, teretiusculus.
- Prionites* bahamensis, brasiliensis, caeruleocephalus, carinatus, coeruliceps, cyanogaster, dombeyanus, gularis, lessoni, levaillanti, martii, mexicanus, momota, rubricapillus, semisulcatus, superciliaris, superciliosus, tutu, yucatanensis.
- Prioniturus* discosurus, platurus.
- Prionocera* pubescens.
- Prionocerus* coeruleipennis, pertyi, senegalensis.
- Prionocheilus* verneuili.
- Prionochilus* maculatus, percussus, thoracicus.
- Prionodera* bicolor, lutra.
- Prionoderma* ascaroides, lanceolata.
- Prionodes* fasciatus.
- Prionodon* (M.) gracilis, pardicolor, pardicotor.
- Prionodon* (P.) obvelatus.
- Prionodus* iguana.
- Prionolepis* angustus.
- Prionomerus* abdominalis, aesopus, bifasciculatus, bigibbosus, carbonarius, chiragra, fasciculifer, flavicornis, leprieuri, mucidus, nubiculosus, rufirostris.
- Prionomyia* armata, atra, femorata, morio, pusilla, rufitarsis.
- Priononyx* fervens, thomae.
- Prionopelma* viridis.
- Prionopeltis* aeneas, archiaci, ascanius, astyanax, hector, memnon, paris, polydorus, polymnestor, priamus, striatus, troilus.
- Prionophora* cylindrica.
- Prionopleura* bifasciata, cognata, crucicollis, crux-nigra, flavocincta, hopei, monochroa, rugicollis.
- Prionoplus* reticularis.
- Prionops* albifrons, concinnatus, cristatus, geoffroyi, plumatus, poliocephalus, talacoma.

- Prionopus** acanthomerus.
Prionorhynchotus apus.
Prionorhynchus cranchianus.
Prionostoma brasiliensis.
Prionothea coronata.
Prionotus (Coel.) convolutus, folium, geminus, giganteus, pristis, sagittarius, scalaris, teretiusculus.
Prionotus (Col.) praeustes, semivittatus, truncatus.
Prionotus (Hem.) cristatus, serratus.
Prionotus (P.) birostratus, carolinus, dentatus, evolans, horrens, lineatus, miles, pileatus, punctatus, strigatus, tribulus.
Prionurus eoume, laticlavus, microlepidotus, scalprum.
Prionus acanthopus, alutaceus, amazonus, americanus, antilope, arnauta, asiaticus, atratus, bidentatus, bituberculatus, brachypterus, brevicollis, brevicornis, brunneus, cacticus, caeruleus, californicus, canaliculatus, cayennensis, cilipes, cinctus, cinnamonus, coeus, columbinus, corallifer, corticinus, corticornis, crenatus, cumingi, cupripennis, damicornis, dasystomus, dentatus, denticornis, dentipes, desmaresti, elegans, emarginatus, erythromerus, excellens, fasciatus, faveri, fissicornis, flabellicornis, flammiger, gagatiina, germari, giganteus, hayesi, hemipterus, iciunus, inaequalis, indicus, laevigatus, laticollis, lepidopterus, limae, lugubris, mandibularis, martii, maxillosus, megacephalus, melanopus, mercurius, nobilis, ooliticus, ornatus, pallasi, palmatus, palparis, paradoxus, pectinicornis, pensylvanicus, persicus, pertyi, piceus, pictus, pilosicollis, pocularis, prachypterus, pubicornis, pulcherrimus, quadri-maculata, quadri-pustulatus, quadri-spinosus, reticularis, reticulatus, rufipennis, rufipes, sanguineus, scabricollis, scabricornis, scutellaris, serraticollis, serricornis, serridens, serripes, similis, spadiceus, spencei, spinicollis, spinipennis, spinipes, subcoriaceus, subsulcatus, sudeticus, sulcatus, umbrinus, uncinatus, versicolor, yolofus.
Prionychus ater, fusca, melanarius.
Prionophorus albipes, brullei, geniculatus, pilicornis.
Priopis argyrozona.
Prioptera bimaculata, decemmaculata, decemnotata, decempustulata, decemsignata, impustulata, maculipennis, maerkeli, octomaculata, octopunctata, pallidicornis, quadri-impunctata, quadrisignata, sexmaculata, westermanei.
Priopus frontalis.
Prioscelida tenebrionoides.
Prioscelis crassicornis, fabricii, raddoni, serratus.
Priotelus apiatus, calceatus, dejeani, equestris, jucundus, lividus, octomaculatus, serripennis, stellio, temnurus, tigrinipennis, truncatus.
Prismatocerus auritulus.
Prisodon obliquus, trigonum, truncatus.
Prisomera femoratum, phyllopus, spinicollis.
Prisopus cornutus, draco, flabelliformis, manicatus, marchali, nympha, ohrtmanni, sacratu, spiniceps, spinicollis.
Pristacanthus marinus, securis.
Pristhesancus dorycus.
Pristhevarma bipunctata.
Pristibatis pectinata.
Pristidurus melanostomum.
Pristigaster argenteus, cayanus, lichtensteini, martii, phaeton, tardoore, tartoor.
Pristigenys macrophthalmus.
Pristilophus aethiops, alternans, famulus, femoralis, fusiformis, impurus, insitivus, laevigatus, marginicollis, melancholicus, mesochrous, montivagus, morio, pellos, reichei, sagitticollis, sericans, servus, sordidus, trisulcatus.
Pristimerus pardalinus.
Pristina inaequalis, longiseta.
Pristinais inaequalis, longiseta.
Pristinotus schreibersi.

- Pristiodon* rollinati.
Pristiophorus cirratus.
Pristiphora atra, duplex, fusca, myosotidis, pallipes, rufipes, testacea, testaceicornis, varipes.
Pristipoma argenteum, argyreum, auratum, auritum, bennetti, bilineatum, brasiliensis, cantharinum, caripa, catharinae, chloronotum, chrysobalion, commersoni, conceptionis, coro, crocro, dussumieri, fasciatum, furcatum, gallinaceum, gnoraca, grammopoeilum, grunniens, humilis, japonicum, jubelini, kaahan, leucurum, lineatum, melanopterum, mucronata, nageb, nandus, octolineatum, paikeli, paikelli, perotaei, pihloo, punctulatum, quorana, rangi, rodo, rogeri, ronchus, rubrum, scapulare, serrula, sexlineatum, simmene, stridens, suillum, surinamensis, therapon, virginicus, viridense.
Pristipomus basta.
Pristiptera angulosa, blanda, decemimpressa, iridea, plagata, senatoria, sexfoveata, sobrina, subsimilis.
Pristis acutidens, agassizi, anisodon, bisulcatus, contortus*, dubius, granulosa, hastingiae, lathamii, mississippiensis, perotteti, tentaculatus.
Pristobatus antiquorum, cirrhatum, cuspidatus, dubius, emarginatus, granulatus, microdon, pectinatus, semisagittatus.
Pristocera atra, depressa.
Pristocnemus pustulatus.
Pristodactyla advena, americana, corvina.
Pristoderus scaber.
Pristolepis marginatus.
Pristomerus vulnerator.
Pristonema coccinea.
Pristonichus piceus.
Pristonychus algerinus, alpinus, alternans, americanus, amethystinus, amoenus, angustatus, baeticus, barbarus, caspius, caucasicus, chalybeus, chilensis, cimmerius, coeruleus, conplanatus, convexiusculus, convexus, crenatus, cyanipennis, cyrtulus, delmatinus, elegans, elongatus, grandis, gratus, hepaticus, insignis, janthinus, mannerheimi, mauritanicus, oblongus, polyphemus, pretiosus, punctatus, quadricollis, rufitarsis, sardous, schreibersi, subcyaneus, tauricus, terricola, venustus.
Pristophora cincta.
Pristorhynchus ellipticus.
Pristotis cyanostigma, fuscus, trifasciatus, violascens.
Pristurus flavipunctatus.
Proagosternus niveus, ochraceus.
Probateus roseus.
Probatius arcuatus.
Probolus fossorius.
Probosca cinerea, incana, plumbea, unicolor, viridana.
Proboscidactyla flavicirrhata.
Proboscidea (M.) calcarata, canina, lineata, monticola, rivalis, saxatilis.
Proboscidea (Verm.) bifida, filigera, rubra.
Proboscina boryi, lamourouxii, sertularioides.
Proboskidia patina.
Procapra picticaudata.
Procarduelis nipalensis.
Procas granulicollis, picipes, pyrrhodactylus, steveni.
Procellaria anglorum, anjinbo, antarctica, atlantica, berard, brevipes, brevirostris, bullocki, bulweri, cinerascens, columbina, cooki, flavirostris, forsteri, fuliginosa, garnoti, glacialoides, grallaria, gravis, gularis, harlie, hastitata, hyemalis, inexpectatis, jamaicensis, kuhli, larvata, leachi, lessoni, leucocephala, leucomelas, leucoptera, leucorhoa, lugubris (Bonap., Atti 6 Riun. Sci. Ital. 1844 (1845), 445 [teste E. Hartert]), macroptera, melanonyx, meridionalis, mollis, munda, nigra, nivea, oceanica, orientalis, ossifraga, parvirostris, rostrata, sandaliata, sericea, similis, solandri, tenuirostris, tridactyla, tristis, turtur, velox, vittata, vulgaris, wilsoni, yelkouan.
Procephalus jacquieri, metallicus, ornatus, succinctus, trinotatus.

- Procerata** soldana.
- Procerodes** wheatlandi.
- Proceros** (P.) maculatus, vittatus.
- Proceros** (Verm.) argus, cristatus, sanguinolentus, velutinus.
- Procerus** (Col.) aegyptiacus, aeneus, audouini, bosphoranus, caucasicus, colchicus, duponcheli, gigas, olivieri, scabrosus, sommeri, syriacus, tauricus.
- Procerus** (M.) caribaeus, platyceros, tarandus.
- Procervus** dimorphe.
- Processa** canaliculata.
- Prochilodus** argenteus, binotatus, brama, costatus, dobulinus, humboldti, insignis, lineatus, nigricans, reticulatus, rubro-taeniatus, taeniurus.
- Prochilus** (M.) labiatus, malayanus, ursinus.
- Prochilus** (Orth.) australis.
- Prochilus** (P.) macrolepidotus, maculatus.
- Prochoma** audouini.
- Prochyliza** xanthostoma.
- Procnias** carunculata, cucullata, cyanotropus, heinei, hirundacea, lumbriciferus, melanocephalus, tersa, variegata, ventralis, viridis.
- Procnopis** argentea, atrocoerulea, melanota, melanotha, vassori.
- Proconia** excavata, obtusa.
- Procris** americana, ampelophaga*, cirtana, cognata, globulariae, laevicosta, melas, nebulosa, obscura, pruni, sepium, statices, viridipulverulenta, vitis.
- Procrustes** abasicus, bannaticus, banoni, cerisyi, coriaceus, duponcheli, excavatus, fischeri, foudrasi, graecus, impressus, kindermanni, luctuosus, melancholicus, punctatus, rectoimpressus, rugosus, spretus, talychensis, urvillei.
- Proctacanthus** aurolineatus, barbatus, flavipennis, fulviventris, longus, milberti, mystaceus, nigriventris, niveus, philadelphicus, rubricornis, rubriventris, rufiventris, tibialis, urvillei.
- Proctarrelabis** agrionioides, annulicornis, capensis, hamatus.
- Proctonotus** mucroniferus, pilosus, splendidus.
- Proctophana** basalis, tomentosa.
- Proctoporus** pachyurus.
- Proctopus** (A.) auritus.
- Proctopus** (R.) pallasi.
- Proctostegus** proctostegus, prototypus.
- Proctotretus** bibroni, chilensis, cyanogaster, darwini, fitzingeri, gracilis, kingi, multi-maculatus, nigromaculatus, pectinatus, pictus, signifer, tenuis, wiegmanni.
- Proctotropis** nigra.
- Proctotrupes** abruptus, aculeator, apterogynus, areolator, ater, basalis, bicolor, bimaculata, brevicornis, brevipennis, calcar, campanulator, caudatus, curtipennis, elongatus, fuscipes, gladiator, gravidator, laricis, ligatus, longicornis, minor, nigra, obsoletus, pallipes, parvulus, viator.
- Procula** douei.
- Procyon** annulatus, brachyurus, cancrivorus, concolor, gymnocercus, hernandezi, lotor, nsua, nivea, obscurus, priscus, psora.
- Prodidomus** rufus.
- Prodiplus** fuscus, leucomelas, torquatus.
- Prodontia** dimidiata.
- Prodotes** albirostris, proditor.
- Prodotiscus** rufulus.
- Producta** analoga, aurita, brachythaerus, calva, calymene, caperata, corrugata, costata, costellata, depressa, dubia, edelburgensis, elegans, fimbriata, flexistria, fragaria, granulosa, hemisphaerica, incurvata, intermedia, interrupta, lacinata, leonhardi, lirata, margaritacea, maxima, membranacea, mesoloba, monilifer, muricata, ovalis, pectiniformis, pectinoidea, pectinoides, plicatilis, praelonga, problematica, pugilis, pustulosa, quincuncialis, rugata, rugosa, semipunctata, setosa, striata, tenuicincta, tortilis.
- Productus** abscissus, aculeatus, aequalis, alatus, andii, antiquatus, arcuarius, areatus, asperimus, boliviensis, brevis, buchianus, cameratus, cancrini, capacii, carbonarius,

- christiani, comoides, compressus, concentricus, concinnus, confragosus, congruus, convexus, cora, coracoides, corbis, costatus, crassus, depressus, deshayesianus, dissimilis, dorsalis, dubius, elegans, elevatus, eminens, ermineus, excelsus, expansus, extensus, fasciatus, flabellatus, flemingi, fragilis, gaudryi, geinitzianus, genuinus, gerardi, giganteus, goldfussi, griffithianus, gryphoides, hamatus, hemisphaericus, hemisphaerium, hepar, horrescens, horridus, humboldti, humerosus, inca, incurvus, intermedius, keyserlingianus, latirostratus, latissimus, latus, lepis, leplayi, leuchtenbergensis, lewisianus, limaeformis, lineolatus, lobatus, longispinus, lorieri, mammatus, marginalis, marginatus, martini, medusa, membranaceus, minimus, minutus, murchisonianus, nefedievi, nystianus, oblongus, obtusus, orbicularis, orbignyanus, ovatus, papillatus, parallelus, pectinarius, pectinoides, personatus, peruvianus, planissimus, planus, pocillum, porrectus, proboscideus, productoides, pteratus, pterygoideus, punctatus, pyxidiformis, quadrangularis, quinqueradiatus, robertianus, rotundatus, rotundus, sarcinulatus, scabriculus, scoticus, semicircularis, semiglobosus, semireticulatus, sinuosus, speluncarius, spinosus, spinulosus, striatus, subaculeatus, sublaevis, suborbicularis, subquadratus, subrotundus, subseriatus, sulcatus, sulcipes, tenuis, tenuistriatus, testudinatus, tetragonus, thecarius, transversus, trigonus, truncatus, tubarius, tubuliferus, twambley, umbonillatus, uncinatus, undatus, undiferus, undulatus, variolatus, verneuillianus, villiersi.
- Proeces** alium, macer, nigrifrons.
- Proetus** angelini, asaphoides, bohemicus, boops, buchi, complanatus, confusus, convexus, cuvieri, decorus, discretus, dubius, dufresnoyi, elegantulus, fallax, fischeri, forchhammeri, frontalis, gracilis, inaequicostatus, intermedius, leiurus, lepidus, longulus, loveni, mancus, micropygus, mucronatus, myops, ovalifrons, platycephalus, reussi, ryckholti, sculptus, tuberculatus, unguoides, venustus.
- Prognatha** americana, humeralis, quadricorne.
- Prognathus** rufipennis.
- Progne** chalybea, domestica, dominicensis, fusca, modesta, purpurea, tapera.
- Proictes** hirtipennis.
- Proithera** diurnis.
- Proleptus** acutus, obtusus.
- Proleucopus** arenarius.
- Promachus** fasciatus, leoninus, maculatus.
- Promeces** carbonarius, clavicornis, jucundus, leprieuri, longipes, sinensis, violacea.
- Promechus** aeneus, splendidus.
- Promecoderus** brunnicornis, clivinoides, concolor, degener, dischirioides, gibbosus, gracilis, lottini, subdepressus.
- Promecognathus** laevisissimus.
- Promecops** arcuatus, boops, cerussatus, cinctus, clitellarius, cognatus, dorsalis, episcopalis, fallax, gracilis, impuratus, lepidus, leucothyreus, limbatus, lunatus, nubeculosus, nubifer, parvulus, posticus, rhombicus, rhombifer, scrobicollis, setiger, torvus, umbratus, vagabundus, viator, vulpinus.
- Promecopectera** marginalis.
- Promecosoma** abdominale.
- Promecothea** diluta, peteli.
- Promenites** bilobata, lunula.
- Promerops** aterrimus, aurantius, azureus, caeruleus, cafer, capensis, erythrorhynchus, fastuosus, magnificus, mexicana, minor, paradiseus, purpureus, pusillus, regius, resplendescens, senegalensis, striata, superbus.
- Prometheus** (Lep.) casmilus.
- Prometheus** (P.) atlanticus.
- Prometopia** confluens, sexmaculata.
- Pronaeus** apicalis, campbelli.
- Pronites** adscendens, alta, convexa, costata, excelsa, humilis, lata, marginata, oblonga, plana, praeceps, praerupta, rotunda, tetragona, transversa.
- Pronoe** capito.
- Pronoeus** aeneus.
- Pronomaea** picea, rostrata.

- Prooxys** *crenatus*, *delirator*.
Propalaeotherium *argentonicum*, *isselanum*.
Proparus *chrysaesus*, *chrysopterus*, *chrysotis*, *ignotinctus*, *leucotis*, *vinipectus*.
Propasser *pulcherrima*, *rhodochroa*, *rhodopepla*, *sordida*.
Prophanes *aculeatus*, *metallescens*, *simplex*, *striato-punctatus*.
Propilidium *ancyloide*.
Propithecus *diadema*.
Propomacrus *arbaces*, *binuclonatus*.
Propora *tabulata*.
Proporus *cyclops*.
Proptera *alata*, *pallida*, *phaiedra*.
Propterus *microstomus*.
Propterygia *hyposticta*.
Propus *sulcatus*.

Prosternon *aeruginosus*, *bipustulatus*, *hespericeus*.

- Prosthemadera** cincinnata, novae seelandiae.
Prosthiostomum aretum, elongatum, gracile.
Prostoma armatum, candidum, clepsinoides, clepsinoideum, croceum, fasciatum, gracilis, lactiflora, lineare, littorale, lombricoideum, marginatum, melanocephala, pulchra, quadrioculata, suboviforme.
Prostomus australis, mandibularis, scutellaris, squalidus, tenebriosus.
Prosymna meleagris.
Prosymnus cribripennis.
Protaetia acuminata, alboguttata, ambigua, anovittata, arrogans, bensoni, bifenestrata, bipunctata, chlorotica, ciliata, cinnamomea, confusa, corensis, cupripes, difformis, dubia, ferruginea, flavoguttata, goudoti, guerini, guttulata, leprosa, leucopyga, maculata, mandarinae, manillarum, marmorea, megaspilota, obscurella, philippensis, piperina, prolongata, quadriadsperata, regalis, resplendens, schaumii, spectabilis, speculifera, squamipennis, stolata, taciturna.
Protalector leuwenhoecki.
Protalina agglutinans.
Protarachne diadematis.
Protaster sedgwicki.
 [Protée tetradactyle.]
Proteides amphion, assarius, clonius, exadeus, lyciades, mercurius, renaldus, zestos.
Proteinus atomarius, brachypterus, brevicollis, clavicornis, macropterus, minutus, ovalis, parvulus, pulcarius.
Proteles cristatus, lalandei, typicus.
Protenomus saisanensis.
Proteocordylus diluvii.
Proterops nigripennis.
Protesilaus leilus, protesilaus, swainsonius.
Proteus aleator, anguineus, angulosus, antoxantos, aphanes, auriculatus, bifrons, bilobus, bulbosus, bursaria, cataphractus, caudatus, ciclydium, cinereus, cochlearius, comosus, corniculatus, crenatus, crystallinus, cuspidatus, dendroides, denticulatus, deses, diffluens, echinatus, figulus, flavescens, floriferus, formidosus, funebris, geometra, gleicheni, hirtus, humilis, hyacinthus, hyalinus, infundibuliformis, kolpoda, larvatus, lateralis, lichnoides, liliaceus, luteolus, macherophorus, maculatus, malleator, mexicanus, monodon, muricatus, nasutus, naviger, nebulosus, neo caesariensis, nimbosus, ocellatus, odonta, osteologus, peregrinus, perfoliatus, piger, praeceps, radians, reticulatus, rostratus, rubius, sinicus, spinifex, tabellarius, tetradactylus, tridens, tripos, truncatellus, tuberosus, versicolor, vesiculatus.
Prothoe francki.
Prothyma quadripunctata.
Prothymia aenea.
Proto (Cr.) pedata.
Proto (G.) laevigatus, maraschini, suprajurensis, terebralis, turriculatus, vetusta.
Protobatrachus nodicaudatus.
Protocantharus carabi.
Protocardia concinnum, germanicum, hillanum, striatulum, truncatum.
Protocerius colossus, druryi, grandis, molossus.
Protochoerus prismaticus.
Protocobitis fossilis.
Protocrinites oviformis.
Protogenia escheri.
Protogonius fabius, hippona.
Protokyon molossi, tardigradus.
Protomantis dregeri.
Protomedeia calcarea, lutea, notata, uniformis.
Protomedeia fasciata.
Protomyia affinis, amoena, anthracina, buklandi, jucunda, latipennis, longa, lygaeoides.
Protomys paradoxus.
Proton pedatum.

- Protonesis delegorguei*.
Protonia fusca.
*Protonopsis fusca, horrida**.
Protopalus stephensi.
Protopithecus brasiliensis.
Protopterus (P.) anguilliformis, annectens*.
Protopterus (R.) rhinocryptes.
Protornis glarniensis.
Protorosaurus macronyx, speneri.
Protosepiola communis.
Protovirgularia dichotoma.
Protozoon balaenarum.
Protractus erichsoni.
Protula bispiralis, cinerea, desiderata, intestinum, intricata, protensa, rudolphi.
Prox moschatus.
Proxenus hospes.
Proxys victor.
Prunella palustris, schoenobanus.
Prunocystites fletcheri.
Prymnoa flavellum, verticillaris.
Prymnothonus hookeri.
Prypnus canaliculatus, cicatriconis, fallax, granicollis, porculus, pygmaeus, quinque-nodosus, squalidus, subtuberculatus, trituberculatus.
Psacasta afra, anthriboides, conspersa, neglecta, nigra, pedemontana, tuberculata.
Psadiroma bicolor, rubra.
Psairoptera albitarsis, angustata, apicalis, bimaculata, biumbrata.
Psalarus bifurcatus.
Psalidium anaticum, interstitiale, maxillosum, sculpturatum, vestitum, vittatum.
Psalidognathus erythrocerus, friendi, limenius, modestus, superbus.
Psalidomyia fucicola.
Psalidophora brunneipennis, croceipennis, lherminieri.
Psalidoprocne cypselina.
Psalidopteris lytaea, nycha.
Psalidostomus erythrocnemus, femoratus, ibex, morio, polydontus, tibialis, triangularis.
Psaliodus compressus.
Psalis (Lep.) securis.
Psalis (Orth.) americana, morbida.
Psallidium articulatus, maxillosus, subaeneum.
Psaltia exilis.
Psaltriparus personatus.
Psalurus bifurcatus, macropterus.
Psamatha chalybea.
Psamathe (Ann.) fusca, venusta.
Psamathe (Cr.) mucronata.
Psammaechus boudieri, desjardinsi.
Psammaecius punctulatus.
Psammetichus crassicornis.
Psammeticus costatus, gracilis, pilipes.
Psammobia aegyptiaca, affinis, alba, angulata, angusta, antiqua, antiquata, aurantia, basteroti, bipartita, biradiata, cayennensis, cerina, circinalis, coerulescens, compressa, costata, costulata, cumana, declivis, decora, decussata, deflorata, denticulata, discors, discrepans, donacina, dumonti, eborea, elongata, feroensis, figlina, filosa, flavicans, flexuosa, florida, fragilis, fusca, galathaea, gracilis, incarnata, inconspicua, jugosa, kuesteri, labordei, laevigata, laevis, laminosa, laskeyi, legumen, lessoni, lineolata, lintea, livida, maculosa, mississippiensis, nasuta, nitida, orbicularis, pacifica, papyria, pellucida, polygona, pudica, pulchella, punctura, purpureo-maculata, radiata, rigida, rotundata, rudis, rugosior, rugulosa, scopula, semicostata, serotina, solenoides, solida, solidula, squamosa, stangeri, striatella, strigilata, subpapyracea, taeniata, tarentina,

- tellinella, tellinoides, tongana, uniradiata, vespertina, vespertinalis, vespertinoides, violacea, virgata, vitrea, zonalis.
- Psammobius** ruicollis, sulcicollis, vulneratus.
- Psammochora** desertosa.
- Psammocola** aurantia, florida, labordei, leporina, lucinoides, pulchella, regia, tellinella, vespertinalis, violacea, virgata.
- Psammocora** columna, exesa, fossata, obtusangula, plicata.
- Psammodes** longicornis, penetrans.
- Psammodius** aegialioides, arenarius, asper, caesus, canaliculatus, ciliatus, cylindricus, elevatus, elongatus, insculptus, interruptus, laeicollis, laeipennis, limbatus, porcatus, porcicollis, rugosulus, sabuleti, sabulosus, saucius, stercorator, sulcicollis, vulneratus.
- Psammodromus** cinereus, edwardsi, edwardsianus, hispanicus.
- Psammodus** angustissimus, asper, canaliculatus, cinctus, contortus, cornutus, elytra, gibberulus, heteromorphus, laevisimus, linearis, longidens, magnus, obtusus, orbicularis, porosus, punctatus, reticulatus, rugosus, subreticulatus, subteres, tenuis, turgidus.
- Psammoechus** bipunctatus.
- Psammoenas** burnesi.
- Psammolepis** paradoxus.
- Psammomys** noctivagus, obesus, pinetorum, tamariscus.
- Psammoperca** datnioides.
- Psammophila** affinis, atrocyanea, canescens, incana, madeirae, senilis, viatica.
- Psammophis** antillensis, cerasogaster, condanarus, crucifer, cruciger, dahl, elegans, flagelliformis, girondicus, lacertina, moniliger, nigrofasciatus, oxyrhynchus, pulverulenta, schokari, seychellensis, sibilans, temmincki.
- Psammophylax** rhombeatus.
- Psammorycter** vermileo.
- Psammoryctes** ater, noctivagus.
- Psammosaurus** batrachoides, caspius, griseus, laticostatus, scincus, tau.
- Psammosteus** arenatus, granulatus, maeandrinus, paradoxus, undulatus, vermicularis.
- Psammotea** candida, carnea, donacina, rosea, serotina, solenoides, tarentina, violacea, zonalis.
- Psammotea** alba, dubia, striata.
- Psammothea** laevigata, pellucida.
- Psammotherme** flabellata.
- Psammotrupes** dentifrons.
- Psammuros** algira.
- Psammylla** littoralis.
- Psamotis** pulveralis.
- Psapharus** infaustus.
- Psar** variegatus.
- Psaris** affinis, atricapillus, aurantium, brasiliensis, cayanus, cristatus, cuvieri, erythrogenys, exilis, guianensis, habia, inquisitor, jardini, melanoleucus, mexicanus, naevius, natteri, niger, pileata, roseicollis, selbyi, semi-fasciatus, strigatus, suriname, tityroides, variegatus, virgata.
- Psarisomus** dalhousiae.
- Psarocolius** aeneus, anticus, auricollis, badius, baltimore, bananae, bicolor, bifasciatus, bullocki, cartagenensis, castaneus, caudacutus, chopi, chrysocephalus, chrysopterus, coztototi, cristatus, croconotus, cucullatus, curaeus, cyanocephalus, cyanopus, flaviceps, flavigaster, frontalis, gubernator, guirahuro, gularis, gymnops, haemorrhous, icterocephalus, icteronotus, icterus, jamaicae, leucopteryx, melanicterus, melanocephalus, melanocholicus, melanopsis, mesomelas, militaris, nidipendulus, nigerrimus, olivaceus, palliatus, pecoris, pectoralis, perspicillatus, phoeniceus, pustulatus, pyrropterus, rufescens, rufigaster, sericeus, solitarius, sulcirostris, tanagrinus, virescens, viridis, xanthornis.
- Psaropholus** trailli.
- Psarus** abdominalis, arcuatus, bicinctus, ornatus, quadrifasciatus.
- Psaryphis** nana.
- Psecadia** decemguttella, fumidella, sexpunctella.

- Psecas** *cyaneus*.
Psectrapus *bipartitus*.
Psectrascelis *brevis*, *discicollis*, *glabratus*, *guerini*, *mamilloneus*, *pilipes*, *subdepressus*.

- Pseudocrinites** bicopuladigita, bifasciatus, magnificus, oblongus, quadracopuladigita, quadrifasciatus.
- Pseudocryobius** brevisculus, confusus, deplanatus, frigidus, kamschaticus, latiusculus, nivalis, oblongiusculus, ochoticus, ochropus, paludosus, pullulus, quinquepunctatus, ruticolis, subgibbus, subtilis.
- Pseudodactylus** belli.
- Pseudodiffugia** gracilis.
- Pseudodon** inocularis.
- Pseudoelaps** agilis, atrocinctus, cingulatus, getulus, pantherinus, y, zeae.
- Pseudoerix** annulatus.
- Pseudoeryx** aeneus, annulatus, carinicaudus, daudini, doliatus, martii, pyrrhogrammus, schistosus, strigoventris, subulatus.
- Pseudoflata** nigricornis.
- Pseudograpsus** pallipes, penicilliger.
- Pseudohelops** tuberculatus.
- Pseudoips** quercana.
- Pseudoliva** obtusa, ovalis, plumbeum.
- Pseudoluscinia** savii.
- Pseudolycus** atratus, cinctus, haemopterus, marginatus.
- Pseudomaria** graeca.
- Pseudomaseus** costulatus, deplanatus, depressiusculus, nigrilus.
- Pseudomops** dimidiatus, laticornis, oblongatus.
- Pseudomorpha** excrucians.
- Pseudomus** apiatus, cacuminatus, fistulosus, militaris, notatus, sedentarius, semicribratus, turgidus, viduus.
- Pseudomya** errans, melanthis, temenus, tipulina.
- Pseudomyrma** bicolor.
- Pseudomys** australis, greyi.
- Pseudophonus** alpinus, anisdactylus, armenus, circumpunctatus, colchicus, cribripennis, decipiens, elegans, griseus, hospes, inderiensis, interstinctus, minimus, poeciloides, punctatissimus, saxatilis, splendens, sturmi, subsimilis, tauricus, terrestris, uniformis.
- Pseudopanthera** crocearia, macularia.
- Pseudophana** europaea, hyalinata, noctivida, pallida, pannonica.
- Pseudophis** schotti.
- Pseudophloeus** dalmani, falleni, genei, lobatus, obscurus.
- Pseudophryne** australis, cretaceus.
- Pseudophyllus** femoratus, graniger, leuconotus, longicaudus, myops, neriifolius, oleifolius, quadrituberculatus, stolli, titan, uninotatus.
- Pseudoprocne** cayennensis.
- Pseudops** griseus.
- Pseudopsis** sulcatus.
- Pseudopus** fischeri, gracilis, opeli, oppeli, serpentinus.
- Pseudorhombila** quadridentata.
- Pseudorhynchus** flavescens, lessoni, sicarius.
- Pseudornis** dicruroides.
- Pseudorthomus** amaroides.
- Pseudosalamandra** naevia.
- Pseudoserica** marmorea.
- Pseudosphex** polistes, zethus.
- Pseudosteropus** schmidtii.
- Pseudostoma** bulbivorum, bursaria.
- Pseudostomum** faeroense.
- Pseudoterpna** coronillaria, cytisaria, ecchloraria.
- Pseudotomia** atromargana, atropurpurana, aurana, comitana, compositella, dorsana, ehippana, fraternana, gundiana, jacquiniana, lediana, lunulana, nigricana, nitidana, obscurana, petiverella, populana, proximana, puncticostana, sequana, simpliciana, strigana, strobilella, trauniana, trigonana.
- Pseudotriton** major, montanus, nigra, ruler, salmoneus, subfuscus.

- Pseudotroctes** setosus.
- Pseudotyphlops** ceylanicus, oxirhynchus, philippinus, polygrammicus.
- Pseudoxycheila** lateguttata.
- Pseustes** dieperinki.
- Psila** abdominalis, apicalis, atra, atrimana, bicolor, dubia, fimetaria, gracilis, intermedia, nigra, nigricornis, pallida, pallipes, pectoralis, rosae, rufa, signata, villosula.
- Psilax** pronus.
- Psilites** bella.
- Psilcephala** confinis, eximia, imberbis, lapponica.
- Psilcephalus** barbatus.
- Psilocera** (Col.) anthracina, atra, brullei, brunripes, coerulea, elegans, goudoti, pubescens, pusilla, spinipennis, viridis.
- Psilocera** (Hym.) obscura, verticillata.
- Psiloceros** claviger.
- Psilocerus** occultans.
- Psilocladus** miltoderus.
- Psilocnemis** leucosticta.
- Psiloconopa** meigeni.
- Psilodactylus** madagascariensis.
- Psilodema** melis.
- Psilodera** affinis, bipunctata, capensis, fasciata, valida.
- Psilodon** schuberti.
- Psilogaster** anthomyiarum, cupreus, heteropterus, melanostomus, nitens, pallipes, striolatus, tibialis.
- Psilogrammurus** canina, vulpina.
- Psilomorpha** tenuipes.
- Psilomyia** atra, bicolor, dubia, fimetaria, gracilis, intermedia, nigra, pallida, rosae.
- Psilonotus** (Hym.) achaeus, adamas, hortensia.
- Psilonotus** (P.) electricus, rostratus.
- Psilopa** cinerella, fuscella, glauccella, incurva, longula, madizans, marginella, nigritella, nitidula, pallidula, tarsella.
- Psilopogon** pyrolophus.
- Psiloptera** attenuata, auriflua, comorica, filiola, humerosa, marginipennis, pilosomaculata, pleurites, rubromarginata, seriata, tuberculata, variabilis, wurtembergi.
- Psilopus** (A.) albogularis, brevirostris, culicivorus, fuscus, hayi, modesta, olivaceus.
- Psilopus** (Col.) brachypterus, ingenuus.
- Psilopus** (Dipt.) aeneus, albicoxa, albifrons, algirus, amatus, amoris, anceps, apicalis, basilaris, bituberculatus, brevicornis, caelestis, carus, caudatus, chrysoprasi, cingulipes, clathratus, conicornis, connexus, consobrinus, contristans, corculum, crinipes, cupido, delicatus, desjardinsi, diffusus, discretifasciatus, dispar, ducalis, dux, equestris, fasciatus, femoratus, flavicornis, flavimanus, gemmans, gemmarius, gemmatus, gemmeus, gemmifer, globifer, grandis, guttipennis, guttula, guyanensis, imperialis, incisuralis, inficitus, laetus, leprieuri, lobipes, longicornis, longulus, lugens, macula, metallifer, mundus, nervosus, nigripes, nigro fasciatus, nigrofemoratus, nigro pilosus, nitens, obscurus, pachygyna, pallens, parallelus, patibulatus, pilipes, pilosus, platypterus, portoricensis, posticatus, pretiosus, pulcher, pusillus, quadricolor, radians, rectus, regalis, rufiventris, sayi, senegalensis, sidneyensis, signatus, siphio, smaragdinus, smaragdulus, stigma, suavius, superbus, tibialis, tipularius, tricolor, trifasciatus, trigeminans, violaceus, virgo, zonatus.
- Psilorhinus** albicapillus, bullocki, chilensis, cyanocephalus, flavirostris, gubernatrix, magnirostris, mexicanus, morio, occipitalis, sinensis.
- Psilorhynchus** (Col.) bifasciatus.
- Psilorhynchus** (P.) sucatio, variegatus.
- Psilota** anthracina, atra, coerulea, nigra, ruficornis, viridis.
- Psilothrix** protensus.
- Pilotus** carbonicus, hoffmanseggii, nubi'a, ventralis.
- Psilura** monacha.
- Psilus** abdominalis, acuminatus, affinis, antennatus, apicalis, bosci, brevicornis, cenoptera,

ciliatus, colon, congener, conicus, cornutus, elongator, excisor, fucicola, fuscus, hemipterus, maculipes, minimus, perelegans, primus, quartus, secundus, sericeicornis, terminatus, tertius, trachilus.

Psithyroedus locustella.

Psithyros belis, ceculus, faro, stellatarum.

Psithyrus aestivalis, arenarius, barbutellus, bellus, campestris, frutetorum, inops, interruptus, leucoproctus, metaleucus, ornatus, pyrenaeanus, quadricolor, rossiellus, rupestris, sylvestris, varius, vasco, vestalis.

Psittaca calita.

Psittacara auricapillus, erythrogenys, frontatus, guianensis, leucotis, lichtensteini, macrognathos, nana, nanday, nobilis, patagonica, perlata, squamosus, versicolor, vittatus, xanthoptera.

Psittacaria rectirostris.

Psittacirostra icterocephala.

Psittacodis fieldi, gramineus, intermedius, magnus, parugua, sumatranus, tarabe, westermanni.

Psittacodon falcatus, psittacinus, sedgwicki.

Psittacopsis psittacea.

Psittacula barisee, batavensis, batavica, cana, chrysoptera, conspicillata, coulaci, culacissi, cyanicollis, desmaresti, diopthalma, galgula, hueti, incerta, indica, kis-kis, kuhli, leucophthalma, loxia, lunulata, malaccensis, melanopectera, melanotus, microptera, minor, modesta, passerina, philippensis, pileata, pullaria, purpurata, pyropyga, reticulata, roseicollis, rubifrons, rufifrons, st thomae, simplex, smaragdinus, stigmata, sura, surisuri, swindernianus, taranta, torquata, tovi, tui, vernalis, viridissima, vulturina.

Psittaculus gregarius, lessoni, smaragdinus, tui, xanthopterygius.

Psittacus acuticaudatus, amazoninus, ambiguus, annulatus, aourou, arinanon, asiaticus, augustus, auranus, aureus, auricapillus, auriceps, aurifrons, auro-palliat, australis, badiceps, banksianus, barbatulus, barnardi, barrabandi, baueri, bengalensis, bicollaris, bitorquatus, bontii, bouqueti, brachyurus, brownii, buccalis, byroni, cactorum, caeruleatus, caerulifrons, caica, calthopticus, calthropae, capistratus, capitatus, cardinalis, cayennensis, chalcopiterus, chiripepe, chiriri, chloris, chlorolepidotus, chryseurus, chrysogaster, chrysopogon, chrysostomus, cinereicollis, cloropterus, clusii, coccineus, columbrinus, concinnus, cooki, cotorra, coulacissi, cristatus, cruentatus, cucullatus, cumanaensis, cyanauchen, cyaneocapillus, cyanicollis, cyanogaster, cyanomelas, cyanonothus, cyanopsis, cyanopterus, cyanopygus, cyanotis, cyanurus, decorus, desmaresti, diadema, discolor, discosurus, discurus, docilis, dorsalis, dufresneanus, eburnirostrum, edwardsi, eos, erithropis, erithrurus, erubescens, erythrocephalus, erythrogaster, erythronotus, erythrothorax, erythrurus, euclor, europs, euteles, farinosus, fieldi, fimbriatus, flammipes, flavicollis, flavifrons, flavigaster, flavigula, flavinuchus, flavirostris, flavitorquis, flaviventris, frenatus, frontalis, frontatus, fuscicapillus, fuscicollis, galeatus, geoffroyanus, geoffroyi, ginginianus, glaucus, goliath, griseus, guaruba, guildingi, guttatus, himalayanus, hueti, humeralis, hypophoni, hypopolis, hyginus, icterocephalus, icterotis, illigeri, incertus, infuscatus, iris, jahnlima*, jaquilina, jendaya, jonquillaceus, kuhli, langloisi, lateolus, lateralis, lathamii, leachi, lepidus, leptorhyncha, leucogaster, leucorhynchus, leucotis, levaillanti, lichtensteini, linnaei, longicauda, lunatus, luteicapillus, luteus, macrotarsus, maculatus, maitaca, malaccensis, malachitaceus, manillensis, maximiliani, melanocephalus, melanonotus, melanorhynchus, melanotis, melanotus, melanurus, mercenarius, meyeri, microglossus, micropterus, mitratus, monachus, mulleri, multicolor, mystaceus, narcissus, nasicus, nenday, nestor, nigricollis, noira, nonpareil, nuchalis, ochrocephalus, ochropterus, omnicolor, omocephalus, pachyrhynchus, pascha, patagonus, pavua, pecqueti, personatus, pesqueti, petzi, peziporus, phigy, phoenicecephalus*, phrygius, pitidi, placentis, platurus, poikilorrhynchus, poliocar, pretrei, pumilio, punilo, purpura, purpureocephalus, pygmaeus, pyrocephalus, pyrropterus, qrebiensis, radhea, raja, rectirostris, regulus, reticulatus, rex, ricinatus, roscicollis, rubrifrons, rueppelli, rufirostris, rufiventris, st thomae, sapphirinus, scapularia, scapularis, sebanus, semitorstris, semitorquatus, senilis, setarius, simplex, sincipalo,

sintillatus, solandri, solitarius, spadiceocephalus, sparmani, spurius, squameus, streptophorus, stavorini, stigmatus, strenuus, sumatranus, surdus, swainsoni, swinderianus, taranta, temminki, tenuirostris, ternatensis, thalassinus, timneh, torquatus, tricolor, tumultuosus, ultramarinus, undulatus, unicolor, vaillanti, vasa, vaza, velatus, vennitus, venustus, verticalis, vibrissa, vinaceicollis, vinaceus, viridissimus, vulturinus, xanthops, xanthosomus, zonarius.

Psittinus malaccensis.

Psittirostra psittacea, sandvicensis.

Psittorostra olivacea.

Psittospiza prasina, riefferi.

Psittrichas pecqueti.

Psoa americana, chilensis, dubius, gracillipes, grandis, herbsti, italica, rupeus.

Psoas tibialata.

Psocus affinis, albuguttatus, atomarius, bifasciatus, binotatus, bipunctatus, boreellus, ciliatus, conspurcatus, contaminatus, costalis, domesticus, dubius, fasciatus, fenestratus, flaviceps, flavidum, flavidus, fuscipennis, hyalirius, immaculatus, immunis, infuscatus, irroratus, lasiopterus, lucifugus, maculatus, maculipennis, megastigmus, microphthalmus, morio, naso, nebulosus, nervosus, nigricans, nigricornis, oblitteratus, obscurus, obsoletus, ochropterus, pedicularius, phaeopterus, quadrimaculatus, quatuor punctatus, rufescens, similis, stigmaticus, striatus, strigosus, subfasciatus, subfemipennis, subnebulosus, subocellatus, subpunctatus, variegatus, venosus, vitripennis, vittatus.

Psodos alpinata, canitiaria, chaonaria, dubitaria, equestrata, fuscaria, horridata, moeraria, tibialata, trepidaria.

Psoidos alpinata, horridaria, torvaria, trepidaria, venetaria.

Psolinus brevis.

Psolus appendiculatus, granulatus, pentactes, phantapus, phantopus, squamosus, timana.

Psomeles irroratus, lateralis, lepidus, luctuosus, melancholicus, mutilatus.

Psophia grus, leucoptera, pavonia, scolopacea, virgo, viridis.

Psophodes crepitans, nigrogularis.

Psorodes boyeri, calcarata, dejeani, dentipes, duponti, echinata, inflata, substriata, trapezicollis.

Psorophora bosci, ciliata, molesta.

Psoroptes equi.

Psyche (Lep.) agrostidis, albella, angustella, apiformis, atra, atrella, bombycella, calvella, carpini, cinerella, fasciculella, febretha, fenella, fusca, fuscella, glabrella, graminella, graminum, helicinella, hirsutella, hirtella, lichenum, muscella, nigrella, nitidella, nudella, opacella, pectinella, pineella, plumella, plumifera, plumistrella, politella, pruni, psychodella, pulla, quercus, radiella, reticella, retiella, stetinensis, stigmatella, triquetrella, undulella, uralensis, vestita, viciae, viciella, vilosella.

Psyche (Pter.) globulosa, sepium.

Psychidium brunnipes, globulum.

Psychobius spinobe.

Psychoda albipennis, alternata, aterrima, aurea, auriculata, calceata, canescens, concinna, degenera, fuliginosa, fusca, hirta, humeralis, muraria, nana, nigrofulca, nubila, oxyptera, palustris, phalaenoides, sexpunctata, tripunctata, tristis, variegata.

Psychoides verhuella.

Psychomyia acuta, annulicornis, latreillei, tenuis.

Psychopsis mimica.

Psychotoe duvauceli.

Psychmatocerus wagleri.

Psychombranchus cinereus, intricatus, protensis.

Psylla abietis, aceris, aeruginosa, alaterni, alni, alpina, ambigua, apiophila, argyrostigma, betulae, buxi, buxus, calthae, carpini, castanea, celsia, cerasti, coeruleocephala, coffea, costatopunctata, crataegi, crataegicola, dubia, ericae, eunymia, eupoda, fagi, ferruginea, flavicornis, fraxinicola, fumipennis, fuscinervis, fuscipes, genistae, graminis, heydeni, hippophaes, insignis, luteola, mali, marginata, melanoneura, modesta, occulta,

- oleae, oleagina, peregrina, persicae, pieta, pini, pruni, purpurascens, pyri, pyricola, pyrisuga, quercus, rufula, saliceti, salicis, salicola, senecionis, simplex, simulans, sorbi, spartii, spartiophila, subfasciata, subgranulata, ulicis, urticae, viridis, viridula, visci.
- Psylliodes** affinis, alpina, callinotus, chlorophana, cupronitens, dulcamarae, ecalcarata, hyosциami, luteipes, napi, picea, picipes, propinqua, punctulata, rapae.
- Psyllobora** bistigmosa, cincta, confluens, cosnardi, decipiens, dissimilis, divisa, galbula, germari, graphica, hybrida, intricata, lata, lenta, lineola, luctuosa, margino-notata, mockerysi, nana, punctella, roei, rufosignata, viginti-maculata.
- Ptenidium** alutaceum, apicale, boudieri, corpulentum, elongatum, evanescens, fuscicorne, gressneri, laevigatum, littorale, melas, minutissimum, myrmecophilum, nitidum, obscuricorne, perpusillum, punctatum, pusillum, terminale, vittatum.
- Ptenoedus** rufescens.
- Pteracantha** fasciata.
- Pteracanthus** smidti.
- Pteraclis** carolinus, guttatus, ocellatus, papilio, trichipterus, velifera.
- Pterapherapteryx** hexapterata*, sexalisata.
- Pterapon** trivittatus.
- Pteraspis** lyelli.
- Pteraster** capensis, militaris.
- Pteraulus** cristatus, sulcatipennis.
- Pterelachisus** bertei.
- Pterelas** webbi.
- Pterichthys** arenatus, cancriformis, carinatus, concatenatus, cornutus, depressus, granulatus, hydrophilus, israelitorium, latus, major, milleri, norwoodensis, oblongus, productus, quadratus, testudinarius. *Vide et Pterychthys.*
- Ptericoptus** dorsalis.
- Pterinaea** truncata.
- Pterinea** appressa, bicarinata, bilsteinensis, bisulcata, cardiiformis, carinata, clathrata, concentrica, costata, cuneata, desquamata, elegans, elongata, fasciculata, fimbriata, goldfussi, intermedia, laevis, lamellosa, lineata, macroptera, modiolaris, orbicularis, ovata, panopoeaformis, pholadis, plana, planulata, polyodonta, posidoniaformis, punctulata, pygmaea, radians, radiata, reticularis, reticulata, seckendorffi, silurica, spinosa, squamosa, sublaevis, suborbicularis, tenui-costata, thompsoni, trigona, triqueter, undata, ventricosa.
- Pterinoxylus** difformipes.
- Ptermistis** capensis, cranchi, rubricollis.
- Pternistes** swainsoni.
- Pteroaetus** verreauxi.
- Pterobalaena** minor.
- Pterobothrium** crassicolle, heteracanthum, interruptum, macrurum.
- Pterocalla** ocellata.
- Pterocephala** giorno.
- Pteroccephalus** massena.
- Pterocera** aglaia, alata, amyntas, angulata, aranea, ariadne, armigera, arsinoe, arthemis, aspasia, athulia, atractoides, aurantia, beaumontiana, bicarinata, bombylans, carinella, cassiope, chiragra, cingulata, cirrus, clio, conica, cornuta, costata, costellata, doublieri, dupiniana, elongata, emerici, eola, eudora, fittoni, galatea, gaultina, glaucus, gracilis, hamulus, hamus, inanis, incerta, inflata, inflatus, inornata, keyserlingi, lacinia, laevis, liasina, lorieri, macrostoma, marginata, maxima, millepeda, moreausiana, multipes, musca, myurus, naticoides, neocomiensis, nodifera, nodosa, novemdactylus, oceani, oolithica, palmata, paradoxa, pelagi, pellucens, pes pelecani, philippi, philipsi, polycera, ponti, pseudobicarinata, pseudoscorpio, pupaeformis, rectangularia, retusa, robusta, rochatiana, rupellensis, scorpion, scorpis, sexcostata, speciosa, stella, strombiformis, subbicarinata, subretusa, supracretacea, tetracera, toucasiana, tricarinata, tridactyla, triinda, truncata, truncatus, verneuili, vespa, vespertilio, violacea.
- Pteroceras** balanus, carinatus, caudata, chiragra, collegni, crocatus, curvicauda, elongatum, gracilis, millepeda, minuta, multipes, nodosa, pes pelecani, purpuratum, rugosum, semicarinata, tenuistria.

- Pterocerites** pes pelecani.
Pterocerus radix.
Pterochalinus apivorus.
Pterocheilus coxalis, dentipes, interruptus, klugi, laetus, simplicipes, tinniens.
Pterochilus grandis, latipalpis, mauritanicus, numida, ornatus, pallasi, phaleratus, pulcher, quinquefasciatus, unipunctatus.
Pterochirus dubius, elongatus.
Pterochroza aridifolia, aurantiifolia, bullaei, colorata, cristata, erosa, illustrata, ocellata, picturata, speculata, trapeziformis.
Pterocles alchata, arenarius, bicinctus, caspius, coronatus, exustus, fasciatus, guttatus, gutturalis, indicus, lichtensteini, multi-guttatus, multi-signatus, namaqua, personatus, pictus, quadricinctus, senegalensis, senegalus, setarius, simplex, tachypetes, tricinatus, variegatus.
Pteroclorus roboris.
Pterocolus oventus.
Pterocoma (Col.) brevicollis, gracilicornis, piligera, sarpae, tuberculata.
Pterocoma (Crin.) pinnata, scutellata.
Pterocormus means.
Pterocosmus hilpa.
Pterocyanea caeruleata, circea, discors, maculirostris, novae hispaniae.
Pterocyclos albersi, biciliatum, bilabiatus, hispidus, parvus, prinsepi, rupestris.
Pterocyclus affinis, cachiannans, chrysopterus, delesserti, erythrocephalus, feliciae, imbricatus, lineatus, rufrons, setifer, variegatus.
Pterodactylus brevirostris, bucklandi, conirostris, crassirostris, crocodilocephaloides, gemmingi, giganteus, grandis, lavatus, longicaudus, longipes, longirostris, macronyx, medius, meyeri, muensteri, nettecephaloides, ornis, secundarius, suevicus.
Pterodicticus potto.
Pterodictya ephemera, nigrolineata.
Pterodina clypeata, elliptica, patina.
Pterodon parisiensis, requieni.
Pterodonta carinella, elongata, gaultina, gracilis, guerangeri, inflata, intermedia, laticoides, ovata, pupoides, scalaris.
Pterodontia analis, flavipes, macquarti, mellii, virmondi, waxeli.
Pteroglossus (A.) albivitta, albivittatus, aldrovandi, ambiguus, aracar, arara, ararae, bailloni, beauharnaesi, bitorquatus, brevirostris, caeruleus, castaneorhynchus, castanotis, chrysis, coeruleo, croceus, cucullatus, culik, derbianus, dimidiatus, dubius, erythropygus, erythropygus, flavirostris, glaber, gouldi, haematopygus, humboldti, hypoglaucus, indicus, inscriptus, langsdorffi, luteus, maculatus, maculirostris, nattereri, nigridens, nigrirostris, pavoninus, piperivorus, piscivorus, pluricinatus, poecilosternus, poeppigi, prasinus, regalis, reinwardti, scriptus, sturmi, sulcatus, torquatus, ulocomus, varius, wagleri, wiedi.
Pteroglossus (Col.) atrogularis, lichtensteini, melanorhynchus, microrhynchus, suturalis.
Pterogon gorgon, gorgoniades, inscriptum, oenotherae.
Pterogorgia acerosa, anceps, fasciolaris, guadalupensis, sancti thomae, setosa, stricta, turgida, violacea.
Pterogyra excavata.
Pterohelaeus guerini, insularis, kollari, parallelus, peltatus, piceus, reichei, striatopunctatus, walkeri.
Pterois antennata, brachyptera, cincta, geniserra, lunulata, miles, muricata, radiata, russeli, volitans, zebra.
Pterolasia distincta, squalida.
Pterolepis aptera, armillata, chabrieri, pustulipes, ramburi, spoliata.
Pteroleptus longicauda.
Pteroloma forsstroemi, pallidum.
Pterolonche albescens, pulverulenta.
Pterolophia camura, commixta, digesta, hybrida, ignobilis, imbuta, jacta, omniusta, vitticollis.
Pterolyra beroides.

Pteromalus aberrans, abieticola, abila, acco, acicularis, acraea, acrotatus, acuminatus, aeacus, aemulus, aeneus, aenoe, aequus, aerosus, aeson, affinis, agilis, agloope, aglaus, albescens, albiuervis, albipennis, albitarsis, aloman, alimentus, allutius, alope, alopus, alternans, altus, amabilis, ambiguus, amnisos, amoenus, amphimedon, amplus, amyntor, anaxenor, anaxis, anchinoe, androbios, angustus, annulatus, anomalicornis, anomalipennis, antho, anticus, antorides, aollius, aper, apertus, apharetus, aphidis, aphidivorus, apicalis, apum, arborivagus, archia, archidemus, arestor, ariomedes, ariovistus, artembares, artemon, aspilus, assimilis, atomos, atramentarius, atricornis, attenuatus, audouini, aurifacies, aurifer, aurinitens, automedon, axos, azureus, balux, baryerus, basalis, baton, bebius, bebyce, belesis, bellus, berecynthos, berylli, bicaliginosus, bicolor, bidentis, bienna, bifasciatus, bifrons, bimaculata, binaevius, binimbatus, binubeculatus, bivestigatus, blandus, boreus, bouchianus, bracteatus, brandti, brassicae, brevicornis, breviamulus, breviscapus, brevivitta, brunnicans, bryce, bubaris, cabades, cabarnos, calamis, calenus, caligatus, caligetus, camma, campestris, capitatus, capnopterus, carcinus, carina, carinatus, carinus, cassotis, catenatus, catillus, cavus, cecidomyiae, celer, cephalotes, cepio, cercides, cercophrus, cerinopus, ceropasades, cerperes, cerycus, chalcus, chalcolampus, chalconela, chalcophanes, chalybaeus, charops, chermis, chloris, chloropilus, chrysammos, chryscus, chrysis, chrysos, cincticornis, cinctus, cingulipes, cingulum, clandestinus, claripennis, clavatus, claviger, cleophanes, cliens, coecorum, codrus, coelius, coeno, coeruleus, collaris, colosseus, comes, communis, compactus, complanatus, compos, compressus, comptus, concinnus, concisus, concolor, confinis, congruus, conifer, conoideus, conspersus, constans, conterminus, continuus, contractus, cordairei, corion, coryphe, cosingas, cosis, costigator, crassicornis, crassipes, crassus, cratylus, crinifrons, cristatus, crocale, crotopus, crotus, cruciatus, cryptocephalus, cupreus, cuprifrons, cuprinus, curtus, cyamon, cyanocephalus, cylindraceus, cyniphis, dahlbomi, daimenes, dalmanni, damo, decedens, decipiens, decisus, decorus, deiochus, delectus, deplanatus, depressus, dercyllus, despectus, detritus, deucetius, deudorix, devorator, diachymatis, difficilis, diminis, dilectus, dilutipes, dimidiatus, diminutor, diomedon, dipoenos, dipsas, dirutor, discoides, discolor, discus, distinguendus, diversus, dives, divisus, docimus, domesticus dorsalis, doryssus, drepanon, driopides, druso, dubius, dufouri, dymnus, dynastes, ecarinatus, ection, egregius, einersbergensis, elatus, eleuthera, elvitus, elpinice, elymus, elyros, emathion, eminens, empoclus, endomychi, enebulus, epicles, epimelas, epistenus, equestris, erasippus, eremita, ergias, eryx, esuriens, etearchus, eucerus, euctemon, eulimene, eupterus, europs, eurynotus, euryops, eurypon, euthymus, exerescentium, exiguus, exilis, eximius, exoletus, exquisitus, exsertus, extensus, extensus, fabia, facilis, fallax, famulus, fasciatus, fasciculatus, fasciventris, fascipalpis, faunigena, faustina, favorinus, felginas, femoralis, ferox, fertilis, fervidus, festivus, filicornis, flamiger, flavicornis, flavipalpus, flavipes, flavitarsis, flavius, fontanus, formosus, foveolatus, fraxini, fucicola, fugax, fulgidus, fulvipennis, fulvipes, fulviventris, funipennis, furtivus, fuscescens, fuscicornis, fuscipennis, fuscipes, futilis, gallerucae, gallicus, galloni, gaudens, gemmarum, generalis, geniculatus, gentilis, goniinus, gigon, glabellus, glabriculus, glautias, glechomae, gnavis, gouatas, gorgasus, gorgias, gracilicornis, gracilis, grandiclava, grandis, gratosus, gryneus, guttatus, gynetus, habilis, halidayanus, hebes, hecato, hedymeles, helice, helvipes, hemipterus, herbaeus, herboidus, hercyniae, hermachus, hermeas, hesus, hilaris, hippos, hirtipes, hochenheimsis, honestus, humilis, hybrea, hyloe, hypocyaneus, hyrtacina, hyrtacus, iambe, iera, illudens, illustratus, imbutus, immaculatus, immundus, impar, impeditus, impressifrons, inanis, inatos, incertus, inclusus, inclytus, inconspicuus, incubator, inermis, iners, infectus, infestus, ininitus, innoxius, inops, inornatus, inquilinus, inscius, insidiator, insignis, intermedius, intestinalis, invenustus, ipasca, iras, isarchus, janira, japis, jejunos, jovanensis, jucundus, juncus, klugi, laeta, laetus, laevis, lampe, lanceolatus, laogore, laricellae, larvarum, larymna, laticeps, laticornis, latifrons, latipennis, latreillei, latus, lausus, lautus, lazulinus, learchus, lebaeida, lebene, lelex, lentulus, leodocus, leogoras, lepidus, leptogaster, leptostictus, lethargicus, leuce, leucocephalus, leucopezus, limbatus, linearis, lisios, longicornis, longulus, lucidus, lucilla, lugens, lugubris, luniger, lunula, lutescens, lyttus, macrocephalus, macromerus, maculipennis, maculiscapus, maerens, major, mandibularis, maurus, mazaces,

meconotus, mediocris, megachlorus, megareus, melancholicus, melanoceras, melanochlorus, merope, mesapos, mese, mesochlorus, meyerincki, microcerus, microgasteris, microneurus, minutissimus, minutus, mirus, mixtus, mobilis, modestus, molestus, monochrous, morys, multicarinatus, multicolor, mundus, musacus, musearum, mutia, mutilus, mycale, mydon, myle, nanus, napaens, naubolus, naucus, navis, nesi, neglectus, neostadiensis, nephela, nervosus, nestocles, niger, nigricans, nigroaeneus, niphe, nitfactus, nitescens, nobilis, nodulosus, notabilis, nubeculosus, nubilipennis, nubilus, nuperus, nyctinus, nypsius, obductus, obscuratus, obscurellus, obscurus, obessorius, obtusus, obvolitans, occultus, ocea, ocellus, odites, oeax, omnisus, omnivorus, opacus, operosus, opheltes, opimus, opisthotonus, opulentus, orbiculatus, orchestis, omnis, ormenus, ornatus, orneus, ornytus, oroetes, orontas, orsippus, ortalus, orthagus, orthaea, otos, ovatus, ovulorum, oxygene, oxyntes, pachygaster, pachymerus, pallipes, palpigerus, papaveris, parvulus, patro, patulus, pellucidiventris, pellucidus, perditor, peregrinus, perfectus, perpetuus, pervasus, perversus, petiolatus, petioliventris, pexatus, phalarisarna, phasis, phylaxis, phyllus, picipius, picipes, pilosellus, pilosus, piagus, pione, pirus, placidus, plagiatus, planiusculus, planus, platycerus, platynotus, plenus, pogonochori, politus, polyceylus, polyphagus, pontiac, posticus, praelongus, praepes, praepileus, praepotens, praetermissus, prasinus, priansus, princeps, processioneae, promulus, pronax, propinquus, prothous, proximus, psittacenus, psyllus, pubicornis, pulcherrimus, pulchriceps, pullus, punctatus, punctifrons, punctum, pungens, purpureus, pusillus, pygmaeanae, pygmaeus, pyttalus, quadratus, quadrimota, quadrum, quaesitus, quercus ramuli, questionis, ramealis, ramulorum, rapax, reconditus, redactus, regius, remotus, repandus, reptans, revelatus, rhaeo, rhinthon, rhoebus, rhombicus, rhytium, ripaetes, robustus, rotundatus, rotundiventris, rufinus, rufipes, rufiventris, ruralis, rusticus, salicis, saltatorius, samus, sapphirus, saptine, saravus, saturatus, saxeseni, scabriculus, scenicus, scopas, segmentarius, seladonius, semiclavatus, semifascia, semotus, seniculus, separatus, sequester, servulus, sestius, signatus, similis, simplex, simulans, sincerus, singularis, sjsema, smaragdinus, sobrinus, sobrius, socius, sodalis, solidus, solutus, sophax, sophron, sparsus, spectabilis, sphaerogaster, spicatus, spinolae, splendidus, statutus, stenogaster, stenomerus, stenonotus, stenotelus, strenuus, stupidus, styrys, subaequalis, sublaevis, subniger, subpunctatus, subquadratus, subterraneus, subulifer, subvirescens, suia, sulphuripes, sunides, suspensus, sybarita, sybritia, sylvarum, sylvicola, tarsatus, tedanius, teliformis, telon, temesa, temperatus, tenebricus, tenellus, tenuicornis, tenuis, tenuiscapus, terebraus, tereus, terminalis, thalassinus, themiso, thessalus, thestor, thoracicus, tibialis, tibiellus, tiburtus, tigas, timaea, toxus, toxicrate, transiens, transversus, traulus, tricolis, tricolor, triquetter, tristis, trochilus, trossulus, truncatellus, tychon, ulmi, unca, unicolor, urgo, vagans, vaginatus, vala, validus, vallatus, vallecule, variabilis, varians, variolosus, varius, varro, velox, ventricosus, venustus, vernalis, verticalis, verticillatus, vibullius, vicinus, vindalius, vindex, violaceus, virens, virescens, viridicans, viridulus, vitripennis, vitula, vopsicus, vorax, vulgaris, vulso, walkeri, xanthe, xanthopterus, zagreus, zelleri, zelus, zonaras.

Pteromys albiventer, alpinus, aurantiacus, caniceps, cucullatus, derbianus, elegans, europaeus, fimbriatus, genibarbis, giganteus, grandis, griseiventer, horsfieldi, hudsonius, inornatus, leachi, lepidus, leucogenys, magnificus, melanotus, momoga, momonga, monoga, nitidus, nobilis, oral, oregonensis, pearsoni, pelii, petaurista, philippensis, punctatus, ruscicus, sabinus, sagitta, setosus, sibiricus, squamicaudus, striatus, turnbulli, virginianus, volans, volucella, vulgaris.

Pteronarcys biloba, californicus, proteus, regalis.

Pteroncoma linearis.

Pteronites angustatus, latus, sulcatus, ventricosus.

Pteronotus (G.) acanthopterus, gibbosus, hemitripterus, phyllopterus, pinnatus, quinque-tentaculatus, stuchburgi, tricarinatus, trigonularis, tripteroides, uncinarius.

Pteronotus (M.) davii.

Pteronura sambachi, sanbachi.

Pteronus ater, difformis, dorsatus, j. niperi, laricis, myosotidis, pini, testaceus.

Pteropexis bicolor.

Pterophanes temmincki.

Pterophora cosmodactylus, pentadactyla.

Pterophorus acanthodactylus, adactypus, aetodactylus, aridus, baptodactylus, bipunctidactylus, carphodactylus, citridactylus, dentiferus, didactylus, distans, ehrenbergiensis, nscheri, flavedodactylus, fuscodactylus, galactodactylus, hemidactylus, heterodactylus, hieraci, inframaeulella, laetus, lithoxylodactylus, loewei, lunaedactylus, malacodactylus, marginellus, metzneri, microdactylus, mictodactylus, niseidactylus, obscurus, obsoletus, osteodactylus, pallidactylus, paludum, phaeodactylus, pilosellae, ptilodactylus, punctidactylus, siceliota, similidactylus, spilodactylus, tetradactylus, trigonodactylus, tristis, xanthodactylus, zetterstedti, zophodactylus.

Pterophyllum scalaris.

Pteroplatea altavela, canariensis, hirundo, maelura, micrura.

Pteroplatus annulipes, arrogans, bilineatus, dimidiatipennis, elegans, fasciatus, gracilis, lycoides, nigriventris, pulcher, rostamei, suturalis, transversalis, variabilis.

Pteroplectus macleayi.

Pteropleura horsfieldi.

Pteroplius acuminatus, nodifer.

Pteroplura horsfieldi.

Pteropodocys phasianella.

Pteropogon gorgon, oenotherae.

Pteropsis curvi, obovata.

Pteropsophus lissoderus.

Pteropterus radiatus.

Pteroptochos alpinis, albicollis, albiventris, analis, ater, griseicollis, guttatus, indigoticus, magellanicus, megapodus, nanus, orthonyx, paradoxus, rhinolophus, rubecula, rubicapillus, senilis, speluncae, squamiger, tarni.

Pteroptochus acutiro-tris, femoralis.

Pteroptrix aestus, artis, celsus, dimidiatus, doricha, evanescens, hemera, janias, menes, thione.

Pteroptus abdominalis, acuminatus, limosinae, muris, plecotinus, rhinolophinus, sciarae, vespertilionis.

Pteropus (A.) africanus*, pelagicus, pyrrhocephalus, surinamensis, vociferus.

Pteropus (Hem.) sicciifolus.

Pteropus (M.) amplexicaudatus, assamensis, brachyotis, brevicaudatus, cephalotes, chrysoproctus, collaris, conspicillatus, dasymallus, diardi, dussumieri, duvauceli, ecaudatus, edulis, edwardi, edwardsi, egyptiacus, epomophorus, flavus, funereus, gambianus, geoffroyi, griseus, haldemani, hottentottus, javanicus, jubatus, keraudren, keraudremus, labiatus, leachi, leucocephalus, leschenaulti, leucocephalus, mackloti, macrocephalus, marginatus, mariannus, medius, melanocephalus, minimus, niger, nudus, palatus, pallidus, peroni, personatus, phaiops, pirivarus, poliocephalus, pselaphon, pyrivorus, rostratus, rubricollis, rufus, samoensis, schoensis, seminudus, stramineus, titthaechelus, tongunus, torquatus, ursinus, vanikorensis, vulgaris, wahlbergi, whitei.

Pterorrhiza excentricum, marginatum, radicans.

Pterosoma plana.

Pterostichus adoxus, adstrictus, aethiops, amethystina, angustatus, angustus, antennatus, anthracinus, ater, aterrinus, baeri, baldensis, beckenhaupti, bicolor, bilineipunctatus, brevoorti, brunni, brunneus, brunnipes, burmei-teri, castaneus, caudicalis, civilis, clairvillei, concolor, contractus, coracinus, cordatus, corvinus, cribratus, cupreus, cylindricus, de cristofori, depressus, dilatatus, dimidiatus, dissimilis, distinguendus, drescheri, dubius, dufourei, duratii, duvali, edurus, elongatus, empetricola, erythropus, escheri, externe-punctatus, fasciato-punctatus, fastiditus, femoratus, findeli, flavo-femoratus, fos-ulatus, fusco-aeneus, gracilis, grajus, gressorius, hagenbachii, heeri, herculeaneus, heteronema, holomelanus, impressus, indus, infuscatus, interpunctatus, interruptestriatus, italicus, jurinei, justusi, klugi, kokeili, lepidus, lineato-punctatus, lucidus, luczoti, macer, mandibularis, maurus, melanarius, metallicus, micans, minor, monticola, montivagus, morio, muhlfeldi, multipunctalis, multi-punctatus, mutus, niger, nigrita, oblongo-punctatus, oblongus, obtusus, octopunctatus, orbata, ordinatus, orinomum, panzeri, parumpunctatus, patruelis, peiroleri, peruanus, picimanus,

- picipennis, pinguedineus, pinguis, placidus, planus, prasinus, prevosti, prolixus, punctatissimus, punctulatus, pygmaeus, pyrenaeus, rapax, regularis, rhaeticus, riparius, rufipalpis, rufipes, rugulosus, rutilans, schoenherri, selmanni, septentrionalis, sereipunctatus, seximpressa, sinuato-punctatus, sodalis, sollicitus, staphyliniformis, strenuus, striola, stygius, subcordatus, tenuis, transversalis, truncatus, turcomanicus, ulrichi, unicolor, vagans, variolatus, ventricosus, vernalis, vicinus, viridinitens, weleni, ziegleri.
- Pterostoma** salicis.
- Pterotarsus** binaculatus, brasiliensis, eschscholtzi, histrio, marmoratus, rugosus, tuberculatus, walckenaeri.
- Pteroteuthis** arabica, vulgaris.
- Pterotrachaea** hippocampus.
- Pterotrachaea** aculeata, adamastor, blainvilleana, cuvieri, desmarestia, desmarestiana, eydouxii, keraudreni, lesueuri, peroni, placenta, quoyana, rufa, umbilicata.
- Pterotropis** setosus.
- Pteroxia** cultrella.
- Pterurus** flexuosus, hardwicki, maculatus, tripiorosa.
- Pteruthius** aenobarbus, erythronotus, erythropterus, flaviscapis, melanotis, rufiventer, virescens, xanthochlorus, xanthochloris.
- Pterychthys** alatus. *Vide et Pterichthys.*
- Pterycombis** brama.
- Pterydactylus** brevirostris.
- Pterygia** (G.) denticulata, faba, flammia, pallida, stipon.
- Pterygia** (Hem.) arietina, bifida, brachycera, capitata, crassicornis, cruciata, hispida, macquarti, pileata, quadridens, quinque-tuberculata, satanas, tripodia, tuberosa.
- Pterygistes** leislerei, proterus.
- Pterygocephalus** paradoxus.
- Pterygocerus** arenarius.
- Pterygophorus** bifasciatus, cinctus, cyaneus, interruptus.
- Pterygosoma** agamae*.
- Pterygotus** anglicus, leptodactylus.
- Pthirus** inguinalis.
- Ptichodis** bistrigata.
- Ptilia** brasiliensis, melanurus, pilicornis, pubicornis.
- Ptilinopus** coralensis, elphinstonii, ewingi, furcatus, purpuratus, swainsoni.
- Ptilinus** aspericollis, ater, bicolor, bucephalus, costatus, cylindricus, denticornis, flabellicornis, grandicollis, haemorrhoidalis, hederæ, impressifrons, laevis, laticollis, niger, pallens, pubescens, ruficornis, serricornis, serricornis, testaceus.
- Ptiliogonatus** cinereus.
- Ptiliogonyx** cinereus, nitens.
- Ptilium** affine, angustatum, apterum, atratum, bovinum, breve, canaliculatum, caucasicum, depressa, dilutum, elongatum, excavatum, ferrari, fluvicorne, fuscipenne, fuscum, haemorrhoidale, inquilinum, kunzei, latum, marginatum, marinum, minimum, minutissimum, pallidum, quadratum, rotundatum, sericans, sitkaense, spinipenne, sulcatum, suturale, tauricum, tenellum, testaceum, thoracicum, transversale, trisulcatum, volans.
- Ptilocera** americana, atramentaria, brunnicornis, caminaria, cilipennis, conica, cylindrica, foeda, lateralis, maculata, melanis, melanocephala, nigra, nigro-grisescens, palpalis, parvicornis, prompta, quadridentata, rectangularis, smaragdina, tomentosa, umbratica.
- Ptilocercus** lowii.
- Ptilocerus** fuscus.
- Ptilochloris** arcuatus, lunatus.
- Ptilocolepus** turbidus.
- Ptilodactyla** atra, castanea, decumana, elaterina, elongata, gigas, lacordairei, linearis, madagascariensis, nitens, nitida, obesa, ornata, sericea, thoracica.
- Ptilodictya** acuta, costellata, cruciformis, dichotoma, elegantula, explanata, fucoides, labyrinthica, lanceolata, pavonia, ramosa, recta, sublanceolata.
- Ptilodon** camelina.

- Ptilogonys** armillatus, griseiventer, leucotis, nitens, obscurus, townsendi.
- Ptilogyna** fuliginosa, marginalis, ramicornis.
- Ptiloleptus** cristatus.
- Ptilomera** laticauda.
- Ptilonopus** cinctus, cyano-virens, emiliae, erythrocephalus, fasciatus, flavigaster, holosericeus, hyogaster, hypogaster, jambu, leucocephalus, leucogaster, macronotus, maculatus, madagascariensis, magnificus, melanocephala, monachus, naina, nitidissimus, occipitalis, oopa, pectoralis, perlatus, perousei, porphyreus, pulchellus, pulcherrimus, purpureoleucephalus, rivolii, roseicollis, strophium, superbus, taitensis, turturoides, virens, viridis, viridissimus, xanthogaster, xanthura.
- Ptilonorhynchus** albostris, holosericeus, macleayi, niger, nuchalis, smithi, squamulosus, violaceus, viridis.
- Ptilonotus** superbus.
- Ptilopachus** erythrorhynchus, fuscus, ventralis.
- Ptilophora** variegata.
- Ptilophorus** dufouri.
- Ptilophyllum** godeyi.
- Ptilophyrus** coronatus.
- Ptilopterium** ferrugineum, fuscum, microscopicum.
- Ptilopus** acuticollis, aereus, albomaculatus, argus, atramentarius, aulicus, aurifer, chirographus, chlorophanus, curvipes, hispidus, memnonius, mercator, mundus, proteus, pruinosis, spretus, valgus, villosipes, vittatus.
- Ptilorhynchus** buccoides.
- Ptiloris** paradiseus, victoriae.
- Ptilostomus** poecilorhynchus, rufogaster, senegalensis.
- Ptilotis** auricomis, auritus, chrysops, chrysotis, cratitius, flava, flavescens, flavigula, fumata, leucotis, lewini, melanops, ornatus, penicillatus, plumulus, pyrrotis, sonorus, unicolor, versicolor.
- Ptilotopus** americanorum.
- Ptiloturus** cafer, capensis.
- Ptilotus** (A.) cincta.
- Ptilotus** (M.) australis, sciureus.
- Ptinella** abbreviatella, angustata, angustula, aptera, aterrima, bicolor, brachyptera, curta, depressa, excavata, formicaria, gracilis, haemorrhoidale, kunzei, limbata, microscopia, oblonga, pallida, pulchella, ratisbonensis, suturalis, testacea.
- Ptinus** abietis, bidens, bidentatus, bimaculatus, boleti, boletorum, brunneus, carinatus, castaneus, cerevisiae, clavipes, coarcticollis, concinnus, cylindricus, dilophus, dubius, ducalis, elegans, exulans, fascicularis, ferruginosus, fissicornis, fossulatus, frontalis, fuscus, gibbicollis, globosus, globulum, globulus, hirtellus, hirticollis, hololeucus, humeralis, inermis, italicus, laevis, lapidarius, lepidus, lichenum, lusitanus, mauritanicus, micans, murinus, museum, niger, nigricornis, nigripennis, nitidus, nobilis, obesus, ornatus, ovatus, palliatus, pallidus, pallipes, paniceus, piceus, pilosus, pulchellus, pusillus, pygmaeus, pyrrhocephalus, quadrimaculatus, quadripunctatus, quadrisignatus, quercus, raptor, regalis, rhododactylus, rotundicollis, rubellus, ruficornis, rufipes, rufus, salinus, sex-signatus, similis, spinicollis, spitzyi, subpillosus, sulcatus, suturalis, sycophanta, tenuicornis, tessellatus, villosulus.
- Ptiocerus** attenuatus, brunneus, goryi.
- Ptiolina** nigra, obscura.
- Ptochiomera** nodosus.
- Ptochus** adpersus, bisignatus, carinerostris, circumcinctus, deportatus, fasciolatus, longicollis, perdix, porcellus, rufipes, setosus, subsignatus, tessellatus, tigrinus.
- Ptomaphagus** anisotomoides, davisii, fumatus, opacus, truncatus, velox, watsoni, wilkii.
- Ptomaphila** lachrymosa.
- Ptosima** amabilis, indica, irrorata, luctuosa, novem-maculata, planata, vinosa.
- Ptyas** blumenbachi.
- Ptychacanthus** dubius, faujasi, sublevis.
- Ptychina** biplicata.
- Ptychocephalus** radiatus.

- Ptychoceras** adpressus, astierianus, emericianus, gaultinus, laevis, puzosianus, siphon.
Ptychodera flava.
Ptychoderes bicallosus, cinereus, elongatus, nebulosus, tricostrifrons, variegatus, virgatus, viridanus.
Ptychodes (Col.) insularis, politus, trilineatus, vittatus.
Ptychodes (L.) feldmanni, globosa.
Ptychodus acutus, altior, arcuatus, articulatus, concentricus, decurrens, depressus, gibberulus, knorri, latissimus, mammillaris, marginalis, mortoni, oweni, paucisulcatus, polygyrus, polypyrus, rugosus, spectabilis, sulcatus, triangularis.
Ptychogaster emydoides.
Ptycholepis bollensis, maximus.
Ptycholuma lecheana, livoniana, obsoletana.
Ptychomphalus cirriformis, compressa, expansa, polita, solanoides, striatus.
Ptychomya agassizi, robinaldina.
Ptychonotus cristatellus, dumerili, fasciatus, gracilis, lineatus, nasutus, richardi, vermiculatus.
Ptychoparia pulchra, striata.
Ptychophorus brahma, cribrosus, fluctiger, gambiensis, intrusus, leucostictus, semiluctuosus, setosus, spiniventris, undatus.
Ptychophyllum stokesi.
Ptychopleurus faujasi.
Ptychopoda aversata, bisetata, centrata, contiguaria, decoraria, decorata, dilutaria, fimbriolata, fuliginata, funata, immutaria, immutata, incanata, inornata, lactata, lactearia, limboundata, lividata, marginata, marginepunctata, ornata, osseata, purpurata, putataria, remutata, reversata, rubraria, rubropunctaria, scutulata, sublactata, subochreate, subroseata, subsericeata, thymiararia, trigeminata, vernaria, vibicaria, virgularia, virgulata.
Ptychoptera albinana, contaminata, lacustris, metallica, nigra, paludosa, pectinata, quadrifasciata, scutellaris.
Ptychopterus dimidiatus.
Ptychopteryx affinis, contaminata, subnebulosa.
Ptychoramphus aleuticus.
Ptychosaurus blainvillei, plica, punctatus.
Ptychotrochus conulus, tenuiplicatus, turbinatus.
Ptychozoon homalocephalum, horsfieldi.
Ptyelus angulatus, argocephalus, bifasciatus, dianthi, distinctus, ferrum-equinum, griscenscens, morabilis, spumarius, trivirgatus.
Ptygmatis bifurcata, bruntrutana, conimbrica, crenata, eschwegi, fleuriausa, hieroglyphica, imbricata, mandelslohi, olisiponensis, trachaea, triplicata, voltzi.
Ptygoderus pectinatus.
Ptygostomum oligoporum.
Ptygura melicerta.
Ptylodictya palmata, squamata.
Ptylopora flustriformis, pluma, pulcherrima.
Ptynx costatus, fuscenscens, nebulosa, uralensis.
Ptyobranthus arundinaceus, brevis, erythreus, gracilis, guthrianus, hardwicki, linearis, multidentata, parvidentata, raitborua.
Ptyocerus capensis, mystacinus, nebulosus.
Ptyodactylus feillaei, fimbriatus, gecko, guttatus, hasselquisti, lineatus, lobatus, sarrube.
Ptyonura albifrons, brunnea, macloviana, maculirostris, mentalis, rufivertex, striaticeps.
Pucrasia macrolopha.
Puella barbara, hyalinata, irina, nitidula.
Puer niger.
Puffinuria berardi, garnoti, urinatrix.
Puffinus aequinoctialis, anglorum, arcticus, assimilis, brasiliensis, brevicaudus, carinipes, chlororhynchus, cinereus, columbina, desolata, flavirostris, fuliginosus, lessoni, leucomelas, lherminieri, major, melanopus, munda, obscura, pacifica, puffinus, scotum, sericeus, sphegnurus, tenuirostris, vulgaris, yelkouan.

Pugilina fasciata, laevis.

Pugiunculus discors, elegans, simplex, striatulus, undulatus.

Pugmeodon schlinzi.

Pulex bifasciatus, bovis, canis, columbae, echidnae, elongata, erinacei, felis, gallinae, gigas, hirundinis, hominis, hyaenae, jaculans, lemmus, leporis, martis, melis, muris, musculi, prurigenis, pugens, rufus, sciurorum, segnis, sturmi, talpae, terrestris, typhlus, vespertilionis.

Pullastra antiqua, arenicola, aspersa, aurea, bistriata, carditoides, complanata, crassistria, crenata, decussata, distans, elegans, elliptica, exotica, geographica, irus, laevis, lagonkairei, nana, nebulosa, nucleus, oblita, ovalis, parallela, peregrina, perforans, perovalis, peruviana, petiti, prototypa, rariflamma, recondita, speciosa, striato-costata, virgata, virginea, vulgaris.

Pulvinites adansonii, oblonga, rupellensis.

Pulvinulus asterisans, repandus.

Puma atratus, discolor.

Puncticulis arenatus.

Puncturella flemingi, noachina.

Pupa acuminata, adjuncta, admodesta, affinis, albilabris, alpicola, alvearia, anconostoma, anglica, antiqua, antiquissima, antivertigo, antoni, apennina, arata, archiaci, arida, armifera, ascaniensis, auberiana, aurantia, auris bovina, auris cervina, auris leporis, auris malachi, auris silenii, auris vulpina, avena, avenacea, badia, bergeri, bergomensis, bicolor, bidens, bidentata, bigoriensis, bigranata, biplicata, blainvilleana, boileausiana, brasiliensis, brauni, brevicostis, brevis, britannica, bulinoidea, bulimoides, calathiscus, calcarea, callicrates, candida, capensis, capillaris, capitata, caprearum, caprella, cassida, cerea, cereana, cheilogona, chennitziana, chrysalis, cinerea, clavulata, coenopicta, columella, columellaris, concolor, copica, conspersa, contorta, contracta, conus, corrugata, corticaria, costulata, crystallum, cupa, curta, curvidens, cyclostoma, cylindra, cylindracea, cylindrica, cylindrus, dealbata, decollata, decora, decumana, defrancei, dentata, dilucida, dimidiata, distorta, doliolum, dolium, duplicata, edentula, egregia, elata, elatior, elegans, elegantula, elongata, erythrostroma, exesa, exigua, exilis, fallax, farinesi, farinosa, fasciata, fasciolata, ferrari, fontana, fragilis, frumentum, funicula, fuscus, fusiformis, fusulus, fusus, germanica, gibbosa, glans, goniostoma, goodali, gouldi, grandis, granum, gruneri, gularis, hassiaca, heptodonta, hexodon, hoppei, huttoniana, hyalina, idolum, inflata, infundibuliformis, inornata, insularis, inversa, iratiana, jamaicensis, jehennei, johnei, juniperi, kokeili, kurri, kutschigi, labiata, labrosa, labyrinthus, lacera, lactaria, lamarcki, lapidaria, largillierti, larteti, lata, lavalleana, listeri, lucana, lunatica, lusitanica, lyonetiana, lyrata, maculosa, marginalba, marginata, maritima, marmorata, martiniana, megacheilos, melanastoma, mellita, michaudi, micheli, microstoma, microtragus, miliola, milium, minuta, minutissima, modesta, modica, modiolina, modiolus, monodon, monticola, moquiniana, moulinsiana, muhlfeldti, multicosta, multidentata, mumia, mumiola, muscorum, nana, neumeyeri, nobilior, nodosaria, noerdlingensis, nouletiana, obesa, obliterated, obtusa, occulta, octodentata, odontostoma, ovata, oviedoiana, oviformis, ovarialis, ovulum, pachygastra, pacifica, pagoda, pagodula, palanga, palangula, pallida, papillaris, paradesi, parcedentata, parraiana, parreyssi, partioti, patula, pellucida, peptonum, peponum, petitiona, petiveriana, pfeifferi, philippii, placida, plicata, plicatula, plicidens, poeyana, polyodon, porrecta, pottebergensis, primitiva, procer, pumilio, pusilla, pusillima, pygmaea, pyrenaearia, pyrenaica, quadridens, quadrigerana, quinqueidentata, quinquelamellata, quinqueplicata, regis, remiensis, retusa, rhodia, rillyensis, ringens, rosea, rosmaessleri, rubella, rubicunda, rufescens, rugosa, rupestris, rupicola, sagraia, sarda, sardoa, savii, schmidtii, schuebleri, schultzi, scyphus, secale, seductilis, selecta, sempronii, senegalensis, septemdentata, septemplicata, servilis, sexdentata, shuttleworthiana, simplex, sinistrorsa, sinuata, sorghum, sowerbyana, spelaea, sphinctostoma, spixi, splendens, squalina, sterri, sterri, striata, striatella, strobilus, subantiqua, subdiaphana, substriata, subulata, sulcata, sulculata, tantilla, tappaniana, tappiana, teneidens, tenuicostata, tiarula, tortuosa, tournfortiana, transitus, tricallosa, tricuspidata, tricuspis, tridens, tridentalis, tridentata, trigonostoma, trilamellata, triplicata, tristensis, truncata, truncatella,

umbilicata, umbilicus, unicarinata, unidentata, uniplicata, utriculus, uva, valsabina, variabilis, variolosa, venetzi, ventricosa, vergnesiana, versipolis, vertigo, violacea, vulcanica, wahlbergi, zebra. *Vide et Papa et Puppa.*

Pupella (Inf.) annulans, clavata, farcimen, index, lutra, pupa, solea, verminus.

Pupilla conica, corcyrensis, cupa, cylindrica, dilucida, dolium, dolium, draparnaldi, gularis, marginata, muscorum, pagodula, triplicata, umbilicata.

Pupina aurea, bicanaliculata, exigua, fusca, grandis, humilis, keradrini, lubrica, mindorensis, mitis, nunezi, pellucida, similis, sowerbyi, vitrea.

Pupinella pupiniformis.

Puppa lyonetianus, partula. *Vide et Pupa.*

Pupula acicularis, lineata, polita.

Purpura abbreviata, aberrans, aegrota, affinis, alata, alba, albens, albo-labris, albo-marginata, alveolata, ampullaceum*, amygdala, angulata, angulifera, aperta, arachnoidea, arachnoides, armigera, ascensionis, aspera, aterrina, attenuata, avenacea, bezoar, bicarinata, bicolor, biconica, bicostalis, bimaculata, biserialis, bitubercularis, bizonalis, blainvillei, bonellii, brendusius, brevidens, brevis, bucciniformis, buccinoidea, bufo, bufonides, bulbiformis, bulbus, calcarata, callaoensis, callidera, callosa, calvitoma, canaliculata, cancellaroides, cancellata, carinata, carinifera, cariosa, carneipes, carolensis, cassidiformis, cataracta, centiquadra, chaidea, chocoletum, chrysostoma, cingulata, clandestina, clathrata, clavus, coccinea, columellaris, concatenata, conradi, consul, corniculata, cornigera, coronata, coronatum, costa striata, costata, costifera, costularis, costulata, crassa, crassilabrum, crispata, crispatum, cruenta, cruentata, cucurbita, cuspidata, cyclopus, decemcostata, decussata, delessertiana, deltoidea, denti, depressa, desertum, diadema, digitata, distorta, dubia, dumosa, echinata, echinulata, edwardsi, elata, emarginata, engonata, exilis, exsculpta, fasciata, fasciolaris, fenestrata, filosa, fiscella, floridana, foliacea, fragum, francolinus, freycineti, fucus, fusiformis, galea, gemmulata, gibberula, gibbosa, gigantea, glabra, glabrata, glirina, gradata, granaria, granatina, granulata, grateloupiana, gravesi, grayi, guinensis, haemastoma, haematoma, harpa, haustorium, haustum, helena, hippocastanum, hiulea, horrida, hypocaustanea, imbricata, imperialis, incisa, inconstans, incrassatum, inerma, insignita, intermedia, iostoma, janelli, javanica, kieneri, kiosquiformis, laciniosa, lagenaria, lamarcki, lamellosa, lanstorium, lapierrea, lapilloides, lapillus, lassaigne, laudunensis, laurentiana, lefevrei, ligata, lima, limbosa, lineata, lineolata, lobata, luteosoma, macrostoma, maculosa, mancinella, margarita, marginalba, marginata, marginata, marginatum, martinii, melanostoma, melones, minuta, miticula, monacantha, monodon, monodonta, monstrosa, moreausia, morus, muricata, muricina, muricoides, musiva, mutica, nassioidea, nassoides, neglecta, neritoidea, neritoides, nodulifera, nodulosa, novae hollandiae, nucleus, nuttalli, nux, nymphe, oblonga, ocellata, ochrostoma, orbigny, ovalis, patula, peruviana, pica, picta, pileopsis, planaxoides, planospira, pleurotomoides, plicata, pomum, pothuan, quadridentata, quoyi, rafinesquia, rapa, reticulata, retusa, rosana, rudis, rudolphi, rufostoma, rugosa, rupestris, rustica, sacellum, sanguinolenta, savignyi, saxicola, scabra, scabriuscula, scalariformis, scalaris, scobina, semiimbricata, septentrionalis, sertum, smaragdula, spathulifera, speciosa, sphaeridea, spiralis, spirata, squamigera, squamosa, squamulosa, striata, stricta, striolata, subdeltoidea, subrostrata, subtrita, succincta, taeniata, tectum, tessellata, tetragonium, texata, textilosa, thiara, thiarella, torulosa, triangularis, trigona, triserialis, tritoniformis, trochlea, truncata, tuberculata, tumida, tumulosa, turbinella, turbinoides, turgida, undata, unifascialis, variegata, venosa, vexillum, violacea, viverratoides, wahlbergi, woldemari, xanthostoma.

Purpurea blosvillei.

Purpuricenus aetnensis, affinis, angulatus, axillaris, barbarus, bilineatus, bipunctatus, bory, budensis, cinctus, dalmatinus, decem-punctatus, desfontaini, dumerili, elaeagri, eloeagri, ehippium, fellowsi, globulicollis, halodendri, koehleri, loreyi, medici, menetriesi, novem-punctatus, rubripennis, sellatus, sericeus, servillei, temminckii, wredei.

Purpurina brevis, elegantula, lapierrea, moreausia, nassoides, pulchella, pumila, thorenti, turbinoides, unilineata.

Purpuroidea nodulata.

- Pusa** marina, orientalis.
Puschia* planata*.
Pusia microzonis.
Pusichthys uranoscopus.
Pusionella aculeiformis, buccinatus, nifat, pusio.
Pusiosstoma fulgurans, mendicaria, punctata, turturina.
Pustularia cicercula, globulus.
Pustulipora canariensis, costulata, curta, deflexa, echinata, fruticosa, gracilis, laevis, nitida, primigenia, rustica.
Pustulopora anomala, bifornis, clavula, echinata, goldfussi, gracilis, hagenowi, heteropora, labati, macrostoma, madreporacea, mamillata, oculata, phillipsi, proboscidea, pseudo-spiralis, pustulosa, radiceformis, semiclausula, sparsa, verticillata, verucosa, zealandica.
Putorices kathiah.
Putorius africanus, alpinus, altaicus, communis, erminea, eversmanni, foetidus, furo, hermellanus, larvatus, lutreocephalus, lutreola, minimus, mustela, nivalis, noveboracensis, nudipes, putorius, rufus, sarmatica, sibirica, striatus, subhemachalanus, vison, vulgaris, zorilla.
Pycanum amethystinum, jaspideum.
Pycina zemba.
Pycna strix.
Pycnodonte laevigata, radiata.
Pycnodus achillis, angustus, biserialis, bucklandi, complanatus, couloni, cretaceus, depressus, didymus, discoides, elongatus, faba, gigas, gracilis, granulatus, hartlebeni, huzii, jugleri, latidens, latior, latirostris, mantelli, marginalis, microdon, minor, minutus, muensteri, muralti, nicoleti, obtusus, orbicularis, ovalis, parallelus, parvus, platessus, preussii, priscus, rhomboidalis, rhombus, rostratus, rugulosus, scrobiculatus, semilunaris, splendens, subclavatus, subdeltoideus, toliapicus, triassicus, trigonus, tri-tychius, umbonatus.
Pycnogonum balaenarum, littorale.
Pycnomerus fuliginosus, sulcicolle, terebrans.
Pycnotus arsinoe, aurigaster, bengalensis, bimaculatus, brunneus, cafer, capensis, chrysorrhous, crocorrhous, cyaniventris, dispar, dumeticolus, euptilotus, finlaysoni, n-queti, flavescens, flavicollis, flavirictus, flaviventris, flavulus, goiavier, gourdini, gularis, haemorrhous, inornatus, jocosus, leucogenys, leucogrammicus, leucotis, luteolus, melanocephalus, metallicus, monticola, nigricans, nigropileus, obscurus, occipitalis, ochrocephalus, plumiferus, plumosus, priocephalus, pusillus, rubineus, rufocaudatus, simplex, squamatus, striatus, tympanistrigus, xantholaemus, yourdini, zantholaimus.
Pycnopus bufo.
Pycnosphrys grammiceps.
Pycnosterinx discoides, dorsalis, heckeli, russeggerli.
Pyctes chukor.
Pyctis aureolaris, flaveolaris.
Pyctoderes gallina.
Pyctoris hypoleuca, hypoleucos, rufifrons.
Pygaera anastomosis, anchoreta, bucephala, bucephaloides, curtula, reclusa, timon, torrefacta.
Pygaeus coleanus, dorsalis, egertoni, gibbus, gigas, jemelkai, nobilis, nuchalis, oblongus.
Pygargus dispar, vulturinus.
Pygarrhichus leucosternus.
Pygaster brevifrons, costellatus, depressus, dilatatus, inflatus, laganoides, patelliformis, pileus, semisulcatus, sublaevis, truncatus, umbrella.
Pygathrix nemaeus.
Pygaulus ahnis, cylindricus, depressus, desmoulini, macropygus, ovatus, pulvinatus, subaequalis.
Pygidicrana bivittata, marmoricrura, picta, v. nigrum.
Pygidium dispar, fuscum.
Pygirhynchus coronatus.

- Pygmaena** fuscaria, venetaria.
Pygmaeus edwardi.
Pygmeodon schinzi.
Pygocentrus niger, nigricans, palometa, piraya.
Pygoda polita, serrata.
Pygodactylus gronovii.
Pygolampis ardens, bifurcata, gigantea, pallipes, taedifer, xanthophotis.
Pygoprists denticulatus, fumarius, serrulatus.
Pygopterus bonnardi, bucklandi, greenocki, humboldti, jamesoni, latus, lonnardi, lucius, mandibularis, scoticus, sculptus.
Pygopus cariococoa, lepidopus, squamipes, striatus.
Pygora conjuncta, cultrata, erythroderes, lenocinia, punctatissima.
Pygorhynchus affinis, bronghiarti, crassus, crucifer, cuvieri, delbosi, desmoulinsi, desori, gouldi, grignonensis, heptagonus, minor, mortoni, obovatus, rostratus, rugosus, scutella, sopitanus, subcarinatus, subcylindricus, subfoliatus, testudinarius, tumidus.
Pygoscelis antarctica, antipoda, papua.
Pygurus acutus, affinis, apicalis, blumenbachi, coarctatus, columbianus, conicus, depressus, faujasi, florealis, fungiformis, geometricus, hartmanni, jurensis, marmonti, meyeri, michelini, minor, montmollini, nasutus, obovatus, orbiculatus, productus, pulvinatus, rostratus, tenuis, trilobus, varians.
Pylarus (Ar.) bicolor, pumilus.
Pylarus (Col.) designatus.
Pylodictis limosus.
Pylophilus griseus.
Pylus anthicides, bicinctus, fatuus.
Pylydrusus coeruleus.
Pyractonema albomarginatum, binotatum, borealis, brevipenne, compressicorne, falsa, fissicollis, interrupta, lugubre, nigripenne, rhododerum, vicenum.
Pyragra fuscata.
Pyralis aenalis, albofascialis, alienalis, alpestralis, angustalis, anomala, antiqualis, asinalis, atralis, badialis, bahiensis, brunnealis, caprealis, capreolatus, cardinalis, chlamitulalis, cinctalis, clathralis, comitalis, cucullatalis, desertalis, dimidialis, elongalis, fascialis, flegialis, floralis, frauniana, fueslynialis, fulgidipennana, fulvalis, gilvalis, godarti, haematalis, hamana, hercyniana, honestalis, hottentotana, institalis, longalis, lucidalis, lunulana, lutealis, manualis, marginalis, marginatus, mixtana, mixtoma, monachalis, netricalis, novalis, nyctemeralis, nymphaealis, obsitalis, opacalis, paludalis, pectinalis, perlucidalis, pictalis, pinguiculis, pinguinalis, potamogalis, proclitana, pustulalis, renalis, ribeana, rivulana, rostralis, rubigana, rubricalis, rufescalis, ruficolalis, rupestralis, saldonana, sartalis, scutalis, selenalis, sepulchralis, serpentalis, squalidalis, stachydalis, suppandalis, taenialis, terminalis, terriculalis, tetragonalis, undulalis, vespertalis, vestalis, vitis, vittalis, weissenbornialis, zonana.
Pyramea lucifer.
Pyrameis atalanta, calliroe, cardui, carye, dejeani, gonerilla, huntera, itea, myrinna, tammeamea.
Pyramidea foveolata, marmorata, mauritiana, nilotica, obalisca, virgata.
Pyramidella acicula, alberti, ambigua, antiqua, arenosa, arnoudi, auriscati, canaliculata, cancellata, carinata, cincta, corrugata, costulata, eburnea, elaborata, elongata, exarata, exigua, fasciata, glans, gracilis, hordeola, laeviuscula, larvata, maculosa, magnifica, minuta, mitraeformis, mitreola, mitrula, musculosa, nerinea, nitida, palangula, planulata, plicata, plicosa, punctata, solida, spirata, striatella, sulcata, suturalis, terebella, terebellata, terebellum, turella, unisulcata, ventricosa.
Pyramidula rupestris.
Pyramimonas tetrarhynchus.
Pyramis (Col.) crassicornis.
Pyramis (G.) acutissimus, adamsi, albulus, albus, approximatus, arenaria, binghami, bryereus, calythiscus, candidus, carinatus, cimex, cingillus, crenatus, crystallinus, decussatus, discors, discrepans, disjunctus, elegantissimus, fusca, fuscatus, glabratus, graphicus, indistinctus, interruptus, labiosus, lacteus, laevis, lamarcki, maculatus,

nidens, nitidissimus, nitidus, nivosus, obtusus, oweni, parvus, politus, pullus, punctura, pyramidillus, reticulatus, retiformis, ruber, sandvicensis, semicostatus, semistriatus, similimus, similis, spiralis, spirolinus, striatulus, striatus, strigatus, subarcuatus, subrufus, subtruncatus, subulatus, sulcatus, trifasciatus, truncatus, turriculus, ulvae, unicus, unifasciatus, ventrosus, viridis, vittatus, zetlandicus.

Pyramis (Med.) tetragona.

Pyramus ellipticus, myiformis.

Pyrauga aestiva, albicollis, azarae, bidentata, bivittata, chlorocephala, cinerea, coccinea, cucullata, cyanicterus, erythrocephala, erythromelas, erythropis, flammeiceps, hepatica, icteromelas, icteropus, leucoptera, livida, luctuosa, ludoviciana, mexicana, mississippensis, olivacea, rosea, rugularis, rubicus, rubra, rubriceps, sanguinolenta, versicolor.

Pyratomena fenestralis, lucifera.

Pyrausta anguinalis, arundinalis, castalis, cespitalis, cingulalis, comitalis, comparalis, dubitalis, dulcinalis, fascialis, floralis, fucatalis, furvalis, haematalis, lemnalis, moestalis, nerialis, normalis, octomaculalis, ostrinalis, peltalis, phoenicealis, porphyrialis, pudicalis, punicealis, purpuralis, pygmaealis, rubricalis, rugofascialis, sanguinalis, sartalis, scutalis, sicularis, simplicialis, sordidalis, stygialis, virginalis.

Pyraustes nerialis.

Pyraustra atrosanguinalis.

Pyrazus baudini, ebeninus, palustris.

Pyrellia aenea, albofasciata, australis, bicolor, cadaverina, calida, cuprea, cyanicolor, desjardinsi, eriophthalma, fasciata, fervida, flavicornis, ignita, lasiophthalma, littoralis, maculipennis, nitida, ochricornis, ochrifacies, polita, purpureofasciata, serena, ta-maniae, usta, violacea, vivida.

Pyrena dufresnei.

Pyrenestes albifrons, coccineus, frontalis, ostrina, sanguinea.

Pyrgelis elata.

Pyrgiscus elongatus, kochi.

Pyrgisoma biarcuatus, kieneri.

Pyrgita amandava, arctica, arcuata, biarcuata, borsonica, brachyrhynchos, brasiliensis, campestris, capensis, chloris, cinerea, cinnamomea, ciris, cisalpina, coccothraustes, concolor, cristata, cucullata, diffusa, domestica, dominicana, elegans, flavicollis, grisea, gularis, hamburgia, hispanica, iagoensis, ignicolor, intercedens, itala, mariposa, melanoleuca, minor, montana, motitensis, nigricollis, nitens, oryx, pagorum, peruviana, peruviansis, petronia, quelea, rupestris, rustica, saxatilis, septentrionalis, silens, simplex, swainsoni, viridis.

Pyrgo laevis, mediterranea.

Pyrgodera armata.

Pyrgoma anglicum, cancellata, crenatum, fratercula, lobata, monticulariae, spongiarum, stellata, sulcatum, undata.

Pyrgopolon mosae.

Pyrgops inops.

Pyrgota undata.

Pyrgula annulata.

Pyrgus (Lep.) alveolus, carthami, fritillum, malvae, malvarum, oileus, oreus, sertorius, sidae, syrichtus, tessellum, textor, vindex.

Pyria armata, canaliculata, oculata, plurimacula, reichei, smaragdula, stilboides, tridens.

Pyriglena atra, domicella, funebris, maura, picea.

Pyrina cassidularis, castanea, cylindrica, depressa, desmoulini, dubia, echinonea, freucheni, goldfussi, ovata, ovulum, petrocoriensis, pygaea, rotula.

Pyrinia rutilaria.

Pyripora contexta, crenulata, dispersa, perforata, pyryformis, tuberculum.

Pyritonema fasciculus.

Pyrocephalus cinnamomeus, circumcinctus, coronata, divaricatus, dubius, nanus, obscurus, parvirostris, rubineus, virgata.

Pyrochroa elegans, grandis, infumata, inornata, kiesewetteri, longamonilis, ruficollis, thoracica.

Pyroderus granadensis, oreuocensis, scutatus.

inornata, leucomelas, lineata, lineola, longicauda, major, minor, misya, modularis, nana, nigerrima, nigra, nigricollis, nigro-rufa, nipalensis, noctis, olivaceus, panicivora, payraudaei, pectoralis, peregrina, pileata, purpurea, pusilla, pusillus, pyrrhomelas, pyrrhula, rhodochlamys, rosea, rubra, rubrirostris, rufa, rufescens, rufiventris, rufobarbata, sanguinolenta, sibirica, striolata, superciliosa, synoica, telasco, torquata, torrida, violacea, viridis, vulgaris.

Pyrrhulagra portoricensis, ruficollis, violacea.

Pyrrhulada australis, cruciger, frontalis, grisea, leucotis, simplex, smithi, verticalis.

Pyrrhulina filamentosa.

Pyrrhulinota roseata.

Pyrrhuloides epauletta.

Pyrrhuphonia aenea, cinerea, jamaica.

Pyrrocis lesueuri, obliquata.

Pyrrota coryphaeus, nigerrima.

Pyrrula sibirica.

Pyryla abbreviata, acutissima, ampla, angulata, aruana, australasia, belcheri, bengalina, bezoar, bispinosa, borbonica, brighti, bucephala, bulbiformis, bulbus, bullatus, burdigalensis*, canaliculata, cancellata, candelabrum, carica, carinata, carnaria, cingulifera, citrina, clathrata, clathroides, clava, clavarioides, clavella, coarctata, cochlidium, corulea, condita, consors, corona, cornuta, cornuta, costata, cottae, crassa, crassicauda, cretacea, decussata, deformis, depressa, distans, elata, elegans, elegantissima, elongata, eospila, fasciata, fenestrata, ficoides, ficus, fittoni, fulva, galeodes, geometra, gracilis, granifera, greenwoodi, hippocastanum, hunteria, idoleum, imperforata, indenta, intermedia, jauberti, jaurinia, kieneri, lactea, laevigata, lainei, lignaria, lineata, longirostra, martiniana, mawae, mawaeae, megacephala, melongena, microtricha, minax, minima, modesta, monile, morio, moulinsi, myristica, neritoidea, nexilis, nodosa, ochroleuca, papyracea, papyratia, paradiasiaca, patula, penita, perversa, petropolitana, planulata, planulatus, plicata, ponderosa, pondicherriensis, pseudopapyracea, pugilina, pyrus, quadrata, rapa, rapulum, reticulata, rusticola, rusticula, sacellum, sagittata, salmo, santangeli, smithi, spirata, spirillus, squamosa, squamulata, stromboides, subcarinata, subrostrata, sulcata, sulcosa, tarbeliana, ternatana, transversalis, tricarinata, tricostrata, tuba, tulipa, undulata, varicosa, ventricosa, versicolor, vespertilio.

Pyrulina acuminata.

Pyrus bulbiformis*.

Pytelia afra, bicolor, melba, phoenicoptera, satyrus.

Pytheus jugosus.

Pythia abbreviatus, acuta, aequalis, denticulata, dubia, exigua, fermini, flammea, myosotis, oblonga, ovulum, patulus, pepita, reflexilabris, rictans, scarabaeus, subula, triplicata.

Pythina deshayesiana.

Pytho americanus, castaneus, coeruleus, depressus, festivus, kolwensis, niger, pallida.

Pythomorphus sieboldi.

Python amethystinus, belli, bivittatus, bora, elapiformis, hieroglyphicus, houttuyni, jamesoni, liberiensis, molurus, natalensis, ordinatus, peroni, punctatus, regius, rhynchops, schneideri, sebae, spilotes, tigrinus, tigris.

Pythonides cerberus, herennius, jovianus, orcus.

Pythonissa bicolor, exornata, fuliginea, fumosa, fusca, holobera, lucifuga, lugubris, maculata, nana, nigra, nocturna, occulta, tricolor, variana.

Pyticera duponti.

Pytilia phaenicoptera.

Pyura molinae.

Pyxicephalus adpersus, americanus, delalandei, natalensis.

Pyxinia rubecula.

Pyxis arachnoides, madagascariensis.

Quedius acuminatus, analis, arboricola, atriceps, atricillus, atripennis, attenuatus, auricomus, bardus, boops, brevis, brunnipennis, buphthalmus, caliginosus, capucinus, castanopterus, chlorophaneus, chrysurus, collaris, corticalis, cruentus, curtus, cyanipennis, denudatus, dilatatus, dorsalis, erythropterus, fimbriatus, flavipennis, frenatus, frontalis, fulgidus, fuliginosus, fulvipes, fuscipennis, gracilis, haemopterus, haemorrhoidalis, haemorrhous, hirtipennis, humeralis, hyperboreus, impressus, incompletus, infuscatus, inquinatus, labiatus, laevicollis, laevigatus, lateralis, lathburyi, lepidulus, longipennis, lucidulus, mauro-rufus, maurus, microps, molochinus, monticola, morio, nemoralis, nigricornis, nigrilulus, nitescens, nitidus, oblitteratus, obscurus, ochropterus, pallipes, pediculus, peltatus, peregrinus, perspicax, picatus, picicollis, picicornis, picipennis, picipes, plagiatulus, plancus, praecox, punctatellus, pygmaeus, pyrrhopus, riparius, rufipes, rufitarsis, rufocinctus, saturalis, satyrus, scintillans, scitus, seminitidus, semiobscurus, sericans, sericopterus, skrimshirans, speculator, suturalis, tenellus, terminatus, transparens, tristis, umbrinus, unicolor, variabilis, vicinus, virgulatus, viridulus, xanthopus.

Quelea sanguinirostris.

Querquedula acuta, americana, angustirostris, binaculata, brasiliensis, caerulata, capensis, carolinensis, caudacuta, circa, crecca, creccoides, discors, erythrorhyncha, falcaria, falcata, formosa, glaucopterus, glaucitans, greenlandica, hina, hottentotta, humeralis, ipecutiri, javana, javensis, maculirostris, manillensis, multicolor, novae hispaniae, puna, querquedula, scapularis, strepera, subcrecca, torquata, vulgaris.

Querula cineracea, cinerea, cruenta, fusco-cinerea, lumachelli, militaris, minor, purpurea, rubricollis, scutata.

Quinqueloculina affinis, agglutinans, akneriana, angularis, angustissima, antillarum, araucana, argus, ariminensis, aspera, auberiana, badenensis, berthelotiana, bicarinata, bicostata, bidentata, birostris, bosciana, boueana, bronniana, buchiana, bulloides, candeiana, carinata, concava, concinna, contorta, cora, costata, crassa, cuvieriana, depressa, dilatata, disparilis, dubia, dutemplei, elegans, enoplostoma, ferussaci, flavescens, flexuosus, foeda, glomerata, grinzigenensis, gualtieriana, guancha, haidingeri, hauerina, inaequalis, inca, irregularis, isabellei, josephina, juleana, laevigata, lamarciana, lamellata, latidorsata, lenticularis, limbata, longirostra, lyra, magellanica, mariae, mayeriana, meridionalis, notata, nussdorfensis, oblonga, oculus, orbicularis, ovata, parisiensis, partschi, patagonica, pauperata, peregrina, peruviana, placenta, plana, planciana, poeyana, polygona, porosa, prisca, pulchella, punctata, punctulata, pygmaea, rawackensis, regularis, rodolphina, rotunda, rugosa, sagra, st beati, saxorum, schreibersi, secans, seminulum, semistriata, signata, soldanii, striata, striatula, striolata, subangulata, subcarinata, suborbicularis, subrotunda, sulcata, sulcifera, suturalis, tenuis, triangularis, tricarinata, trisulcata, turgida, undulata, ungeriana, variabilis, variolata, verneuilliana, vulgaris, zigzag.

Quiscal fulgida, jamaicensis, ludoviciana, navicularis, nitens, purpurea, saularis, vulgaris.

Quiscalus atrovioleaceus, baritus, breweri, corvinus, crassirostris, ferrugineus, inflexirostris, lugubris, macrourus, major, mexicanus, peruvianus, purpuratus, purpureus, quiscala, subalaris, tenuirostris, versicolor.

Rabdophorus ephippium.

Racemis ovalis.

Rachava orbicularis.

Rachicerus fulvicollis*.

Rachidion nigrilum, obesum.

Rachiodes spinicollis.

Rachistus ater, litoralis, pictus, sulphuripes, terebrator.

Rachus quadripunctatus.

Rachycentron typus.

Rachys rubripes.

Raclitia indica.

Racoma brevis, chrysochlora, gobioides, labiatus, nobilis.

Racoda russeliana.

Racophorus palmatus.

Radamas jugleri, macrocephalus.

Radinosomus acuminatus.

Radiolites acuta, acuticostata, agariciformis, alata, angeioides, angulosa, calceoloides, conica, cylindracea, desmouliniana, elegans, elliptica, excavata, fleuriausa, gallo-provincialis, germari, hoeninghausi, horrida, ingens, irregularis, jouanneti, lamarcki, lanceolata, lapeirousei, lambricalis, mammillaris, marticensis, martiniana, neocomiensis, pailletteana, plicata, polyconilites, rotularis, royana, saxoniae, sinuata, socialis, squamosa, subdilata, toucasiana, triangularis, turbinata, undulata, ventricosa.

Radiopora conjuncta, formosa, gregaria, landrioti, pustulosa, radians, substellata, tuberculata, undulata.

Radipora stellularis.

Radius brevisrostris, volvus.

Radix auriculatus.

Radsia barnesi.

Radula umbilicata.

Raeboscelis longipes, nigroviolaceus, purpureus.

Ragas unica.

Ragonycha fulvicollis, melanura.

Ragonychus terminalis.

Raia americana, antiqua, aspera, bicolor, biocularis, bispecularis, bispinosus, chantenay, chilensis, desmaresti, eglantiera, flossada, fluvialis, freminvillei, gaimardi, intermedia, jussieu, kunsua, lemprieri, lintea, maculata, madarensis, marginata, microocellata, mobular, mucronata, nasuta, oculata, ornata, punctata, quadrimaculata, quinque-maculata, radula, rapensis, rostellata, rostrata, rubus, sancur, scherit, speculum, virgata, vomer. *Vide et* **Raja**.

Rainieria calceata.

Raja acus, africana, alba, apteronota, asperrima, asterias, atra, baracola, barbata, bavosa, bicolor, bonasus, brasiliensis, capensis, centoura, cephaloptera, chagrinea, cirodera, columbus, cruciata, cuculus, cuvieria, diabolus, diaphanes, dipterygia, edentula, episcopus, erinaceus, falsavela, fasciata, fenestrata, fimbriata, flagellum, granulosa, giorno, giorniana, guttata, hispanica, imbricata, jojenia, kenojei, laevis, lima, maculura, macrorhynchus, maculata, manatia, marginata, maroccana, micrura, morula, mosaica, mucosa, mucosissima, naevus, narcus, nasuta, nichofi, nigra, orbicularis, ornata, philippii, picta, pigara, platypterus, poecilura, pontica, quadriloba, quatuoroculus, radiata, rostrata*, salviani, say, schultzi, smithi, spiralis, thouiniana, timlei, uarnak, undulata. *Vide et* **Raia**.

Rallites bailloni, exilis, fuscus, pusillus.

Rallus abyssinicus, aethiops, akool, albicollis, albiventer, antarcticus, aquaticus, ardeoides, assimilis, australis, bailloni, bicolor, brachipus, caeruleus, caesius, caffer, cayanensis, celebensis, chircote, chloropus, cinereus, cinnamomeus, concolor, cursor, cuvieri, diettenbachi, dimidiatus, dubius, ecaudata, elegans, exilis, fasciatus, fuscescens, germanicus, gigas, grinetta, griseopectus, griseus, guarauna, gularis, helias, immaculatus, intermedius, javanicus, kiolo, lagurus, lateralis, leucopyrrhus, lewini, limicola, lineatus, longirostris, luridus, maculosus, madagascariensis, mangle, maximus, melanophaius, melanops, melanurus, minulus, mixtus, neglectus, nigra, nigricans, nivosus, novae hollandiae, noveboracensis, olivaceus, ortygometra, paludosus, paykulli, pectoralis, peyroisei, poliocephalus, poliotis, quadristrigatus, rougeti, rubiginosus, rufescens, ruficeps, ruficollis, rufopectus, rufopennis, rufus, rytirhynchus, sanguinolentus, serica, setosus, sinensis, stolidus, sumatranus, superciliaris, superciliosus, tannensis, troglodytes, varians, ypacaha, ypacaha.

Ramphastos aldrovandi, ambiguus, azara, bailloni, callorhynchus, carinatus, chlororhynchus, citreolaemus, citreopygus, cuvieri, edentulus, erythrosoma, forsterorum, inca, levaillantii, maculatus, maculirostris, maximus, osculans, pavonicus, pectoralis, poecilorhynchus, sulfuratus, temminki, tricolor, tucai, vitellinus.

Ramphichthys rostratus.

- Ramphidiona** vulgaris.
Ramphidium trahalis.
Ramphocaenus melanurus, trinitalis, viridis.
Ramphocelus affinis, atro, coccineus, dimidiatus, purpureus, sanguinolenta.
Ramphocinclus brachyurus, gutturalis, tremulus, variegatus.
Ramphodon maculatum, naevius.
Ramphogordius lacteus.
Ramphomicon abeillei, heteropogon, inornatus, microhyncha, ruiceps, sabinae.
Ramphomyia amoena, gracilipes, obscura, rufirostra, squamigera.
Ramphopis affinis, atrococcineus, atrosericeus, brasilia, coccinea, dimidiatus, flammigerus, icteronotus, jacapa, luciani, nigrogularis.
Ramphorhynchus longicaudus, macronyx.
Ramphosaurus belli.
Ramphosus aculeatus.
Ramphotyphlops multilineatus.
Rampus aeneus, alni, beccabungae, bifasciatus, calcar, fagi, ilicis, jota, pulicarum, saliceti, salicis, scanicus, tomentosus, varians, viminalis.
Ramph- *Vide et Rhamph-*.
Rana alba, alliacea, alpina, aquensis, arvalis, aurantia, aurea, bengalensis, boans, brama, brasiliana, bufonia, cachinans, calcarata, canagica, castanea, catesbeiana, caucasica, clamata, clamitans, coerulea, coriacea, cruenta, cruentata, cutipora, daudini, delalandei, dentex, diluviana, dorsalis, dubia, fasciata, flaviventris, flaviviridis, fontinalis, fusca, fuscigula, gainardi, galamensis, gigas, glacialis, gracilis, grayi, grunniens, gryllus, halecina, hexadactyla, hispanica, horiconensis, ignea, juninensis, kuhli, labyrinthica, latrans, lentiginosa, leschenaulti, leveriana, macrocephala, macrodon, maculata, maculiventris, malabarica, malayana, maritima, mascareniensis, megastoma, melanosticta, melanota, mephitica, meriana, miliaris, missuriensis, mugiens, mystacea, nigrita, obstetricans, oppeli, ornata, oxyrhinus, pachybrachion, pachypus, palmipes, palustris, papua, pardalis, pennsylvanica, picta, platyrhinus, plicata, pollicifera, pumila, punctata, pusilla, pustulosa, pygmaea, quadrilineata, rubella, rugosa, rugulosa, sanguine-maculata, scapularis, schneideri, scotica, scutata, semilunata, sibilatrix, squamosa, subsaltans, sylvatica, temporaria, thaul, tigerina, tigrina, verrucosissima, viridis, vittigera, zebra.
Ranaria melanota.
Ranatra capensis, fusca, glandifera, gracilis, macrophthalma, nigra, pilipes.
Randasia granulata, luzonica, spinulosa.
Ranella abbreviata, affinis, albivaricosa, albo-fasciata, anceps, aquensis, argus, bartonensis, becki, bibroni, bilineata, binotata, bitubercularis, broccii, bronni, bufo, bufonia, caelata, californica, cancellata, candidata, caudata, caudiseta, clathrata, coriacea, costata, crassa, cruentata, crumena, crumenoides, cuspidata, deshayesi, du boisi, elegans, elongata, foliata, gigantea, granifera, granulata, gyrenata, gyrenus, hastella, incerta, intermedia, kingi, korytricensis, laevigata, lanceolata, lemania, leucostoma, livida, longispina, margaritula, marginata, michaudi, miocenica, muriciformis, nana, neglecta, nitida, nobilis, nodosa, papilla, papillosa, pectinata, perca, plicata, polyzonalis, ponderosa, pulchella, pusilla, pustulosa, pygmaea, pyramidalis, pyramidata, ranina, rhodostoma, rosea, rugosa, scabra, semigranosa, semiranella, siphonata, spinosa, spinulosa, subgranosa, tenuis, thesites, triquetra, tuberculata, tuberosa, tuberosissima, ventricosa, venustula, verrucosa, vexillum.

Rhabdophis subminiatus.
Rhabdopora megastoma.
Rhabdosia tharops, vaninia.
Rhabdosoma armatum.
Rhacheosaurus gracilis.
Rhachinotus africanus.
Rhacodia caudana, effractana, emargana, forskaleana, neglecta, picipes, rosana, rufescapa, striolata, tenuis.
Rhacoessa fimbriatus, hypoxantha.
Rhacolepis brama, buccalis, latus, olfersi.
Rhacophorus (Lep.) conspersus, decoloratus.
Rhacophorus (R.) moschata, reinwardti, rheinwardti.
Rhadiargus variabilis.
Rhadina acredula, rufa, sibilatrix.
Rhadine larvalis.
Rhadinocerus afflictus, conicollis.
Rhaebus gebleri, mannerheimi.
Rhagigaster analis, binotatus, ephippiger, haemorrhoidalis, integer, mandibularis, morio, unicolor.

- Rhagio** albicornis, albifrons, annulatus, aureus, cibarius, conspicuus, floralis, floreus, formosus, fuscipennis, genius, grus, heyshami, holosericeus, immaculatus, intermedius, inutilis, maculata, mystacea, nigro-fasciatus, nobilitatus, politus, puber, strigosus, subsultans, syrphoides, vagans, vitripennis.
- Rhagiomorpha** concolor, lepturoides, oculifera, plagiata, sordida, unicolor.
- Rhagium** attenuatum, bicolor, cephalotes, cyaneum, cyanipenne, daedaleum, decoloratum, dispar, ecoffeti, fasciculatum, investigator, lineatum, nitidum, pictum, quadrimaculatum, rufipes, rufiventris, salicis, sericeum, thoracicum, trivittatum, unifasciatum.
- Rhagocrepis** aequinoctialis, dorsalis, planicollis, riedeli.
- Rhagodactylus** brasiliensis.
- Rhagoderia** tuberculata.
- Rhagonycha** atricapilla, binodula, fugax, nigricollis, sericata.
- Rhagopteryx** brahma.
- Rhagorhina** auricularis.
- Rham-** *Vide et Ram-*.
- Rhamnusium** glaucopterum, salicis.
- Rhamphastos** ariel, culminatus, hypoglaucus, swainsoni, tocard. *Vide et Ramphastos*.
- Rhamphidia** inornata, longirostris, minuta, pulchra, scapularis.
- Rhamphina** longirostris, pedemontana.
- Rhamphocelus** brasilius, flammigerus, icteronotus, passerina.
- Rhamphocetus** luciani.
- Rhamphocoenus** rufiventris.
- Rhamphodes** etiella.
- Rhamphognathus** paralepoides, pompilius.
- Rhamphomyia** agasicles, albigennis, alipes, alpestris, americana, anaxo, anomalipennis, anthracina, appendiculata, atra, atripennis, bicolor, bilineata, caesia, cana, canaliculata, carbonaria, cilipes, cinerascens, cinerea, clypeata, cophas, coracina, costata, crinitarsis, culicina, dana, daria, dentipes, dispar, dissimilis, distans, ecetra, erythrophthalma, falleni, ferruginea, ficana, filata, flava, flavipes, flavirostris, flaviventris, flexicauda, fuliginella, geniculata, gibba, glaucella, gracilipes, hirtula, holosericea, hyalina, infumata, infuscata, laevipes, latipennis, longipes, lucidula, lugubrius, maculipennis, mallos, marginata, minytus, modesta, nigripes, nigriventris, nitida, nitidivittata, nitidula, nodipes, obscura, obscurella, obscuripennis, pallidiventris, paradoxa, pennata, phemius, picipes, piliger, plumipes, poplitea, quinquelineata, rugicollis, saniculae, schistacea, sciarina, scolopacea, simplex, spinipes, spissirostris, stigma, stigmosa, sulcata, tarsata, tenuirostris, tephraea, tibialis, tibiella, umbripennis, unguina, variabilis, vespertilio.
- Rhamphomyza** aethiops, alata, albo-segmentata, alpina, anomalina, arctica, caudata, consobrina, dispar, fuscipennis, fraternella, fuscipennis, fuscula, griseola, hybotina, hybrida, lacteipennis, lividiventris, metatarsata, morio, nigripennis, nitida, niveipennis, obscura, oedalina, plumifera, pusilla, reflexa, rufipes, tenuicornis, tipulariata, unicolor, vesiculosa, villosa.
- Rhamphopis** melanogaster.
- Rhamphorhynchus** gemmingi, longicaudus, macronyx, muensteri.
- Rhamphostoma** gangeticus, tenuirostris.
- Rhamphosus** aculeatus.
- Rhamphus** aeneus, pulicarius.
- Rhanis** (Ar.) albiger, flavigera, nigrita.
- Rhanis** (Col.) pulchella.
- Rhaphiderus** scabrosus.
- Rhaphidia** affinis, confinis, londinensis, maculicollis, major, media, megacephala, schneideri.
- Rhaphidochir** laevis.
- Rhaphidophora** palmeta, picea.
- Rhaphidosoma** burmeisteri.
- Rhaphigaster** acutus, bicinctus, chloris, grisea, liturata, marginalis, mensor, nigripes, octopunctatus, pallescens, punctipennis, quadrimaculata, rugiventris, sparsus, torquatus.
- Rhaphiocera** impartita, ornata, spinithorax.

- Rhaphiodon** gibbus, vulpinus.
Rhaphiorhynchus planiventris.
Rhaphipodus suturalis.
Rhaphipterus chilensis.
Rhaphirhinus fasciatus, phosphoreus.
Rhaphirhynchus longimanus, nitidicollis, scobinirostris, signifer.
Rhaphitelus maculatus.
Rhaphium aculeatum, albifrons, angusticorne, appendiculatum, basale, bipartitum, biseriatum, brevicorne, caliginosum, commune, confine, consobrinum, crassipes, cupreum, denticulatum, dilatatum, discigerum, discolor, dissectum, elegantulum, ensicorne, fasciatum, fascipes, fissum, flavipalpe, fractum, hamatum, hofmeisteri, lanceolatum, laticornis, longicorne, longiseta, macrocerum, maculicorne, metathesis, nasutum, nemorum, nigripes, obscuripes, pallidus, penicillatum, praerosum, punctatum, rufipes, scholtzi, spinicoxum, sulcipes, vitripenne, xiphias, zelleri.
Rhathymus bicolor.
Rhax melana, melas, phalangioides.
Rhea casuarius, darwini, novae-hollandiae, pennata, rhea.
Rhedia atra, bombylans, capensis, diversa, fulva, sicula, testacea, vernalis, vicina.
Rhescyntis cassandra, erythrinae, hippodamia, sylla.
Rhetus crameri.
Rheumaptera hastata.
Rhexenor annularis.
Rhexius insculptus.
Rhigelura senegalensis.
Rhigus agricola, araneiformis, assimilis, atrox, bidentatus, coelestinus, conspurcatus, dejeani, faldermanni, fischeri, gyllenhali, horridus, hypocrita, irroratus, latruncularius, mannerheimi, multipunctatus, mutillarius, myrmosarius, phaleratus, schueppeli, tribuloides.
Rhimamphus aestiva, parus, pinus, rathbonia, ruficapilla.
Rhimanphus blackburniae, castaneus, coronatus, maculus, nigrescens, pensilis, striatus, virens.
Rhina (Col.) affaber, afzelii, barbicollis, barbicornis, barbirostris, cerasi, costalis, cylindrica, ebriosa, formicaria, lineola, nigra, plagiata, pruni, scrutator, sinensis, squatinus, verrirostris.
Rhina (P.) anchylostomus.
Rhinalazon nasica.
Rhinaria angulata, argentosa, costata, cristata, excavata, granulosa, grisea, lophata, maculosa, pusio, rugosa, schoenherri, sextuberculata, transversa, variegata.
Rhinaspis (Col.) schranki.
Rhinaspis (R.) proboscideum.
Rhinaster cristata, longicaudatus, macrurus, prasinata.
Rhinastus latisternus, pertusus.
Rhinatrema bivittatum.
Rhinaulax maculipennis.
Rhincodon typus.
Rhincolus ventricosus.
Rhinecanthus amboynensis, conspicillum, lineatus, ornatissimus.
Rhinechis agassizi, ammodytes, scalaris.
Rhinedomus senticosus.
Rhinelepis aspera. *l'ide et Rinelepis*.
Rhinella albicans. *l'ide et Rinella*.
Rhinellus furcatus, nasalis, nasicus.
Rhinemys gibba, nasuta, radiolata, rufipes.
Rhinesomus concatenatus, triquetus.
Rhineta brevicornis, punctata, schotti, scotti.
Rhingia austriaca, bicolor, campestris, femorata, ferruginea, monostigma, nasica, nigra, scaevoides, testacea.
Rhinia testacea.

- Rhinichthys** marmoratus.
- Rhinobates** rueppelli.
- Rhinobatis** armatus, duhameli.
- Rhinobatus** (Col.) brevis, buccinator, carlinae, cylindrirostris, cynarae, flavescens, fringilla, jaceae, marmoreus, odontalgicus, olivieri, planifrons, pulverulentus, scolymi, sturnus, subcostatus, sulcifrons, teres, tessulatus, trivius, turbinatus, ursus, virescens, vittatus.
- Rhinobatus** (P.) anchylostomus, annulatus, banksi, blochi, bougainvillei, brevirostris, cemiculus, cirsi, columna, columnae, coromandelius, djidsensis, electricus, fasciatus, granulatus, horkeli, hynnicephalus, laevis, laevissimus, ligonifer, obtusus, philippi, rhinobatus, russellianus, schlegeli, thouini, vulgaris.
- Rhinobothryum** macrorhinus.
- Rhino brachys** asperulus.
- Rhinocephalus** planiceps.
- Rhinoceroidea** alleghaniensis.
- Rhinoceros** acrotherium, africanus, alleghaniensis, annulatus, antiquitatis, bicornis, brivatenis, burchelli, camus, cucullatus, cuvieri, elatus, fossilis, goldfussi, incisivus, indicus, inermis, ketloa, ketloa, kirchbergense, leptodon, leptorhinus, lunellensis, megarhinus, mercki, minimus, minutulus, minutus, molassicus, nebraskensis, niger, orwelli, pachygnathus, palaeindicus, pallasi, perimensis, platyrhinus, plicatus, pygmaeus, schleiermacheri, sibiricus, sidero-jurassicus, simus, sinus, sivalensis, sondaicus, steinheimense, sumatranus, sumatrensis, tapirinus, tetradactylus, ticheorhinus, tichorinus.
- Rhinochoerus** americanus, anta, malayanus.
- Rhinoclavis** aluco, asperum, brevis, diemensis, fasciatum, lemniscatus, lineatum, morus, obeliscus, semi-granosum, subulatum, touranni, vertagus, vulgatus.
- Rhinocoeta** cornuta, obscura.
- Rhinocola** aceris, ericae.
- Rhinocrypta** lanceolata.
- Rhinocurus** araneosus.
- Rhinocyllus** antidontalgicus, brevis, depressirostris, inquilinus, latirostris, olivieri, planifrons, thaumaturgus.
- Rhinocypha** fenestrella, fulgipennis, heterostigma, infumata, rutilans, tincta, vitrella.
- Rhinoderma** darwini.
- Rhinodes** armeniaca, aterrimus, barbicornis, caliginosus, carbonarius, cerasi, creutzeri, cyanescens, erythrocerus, indigena, maura, melanocerus, niger, nigrilus, olyra, phlegmaticus, pinastri, pruni, rhina, ruficornis, rufus, scutellaris, statua, violaceus.
- Rhinodipsas** maculata.
- Rhinodon** typicus.
- Rhinolaccus** formicarius.
- Rhinolithodes** wossnesenskii.
- Rhinolophus** affinis, alpinus, aurantius, bicolor, bifer, bi-hastatus, caffer, capensis, clivus, commersoni, cornutus, crumeniferus, deformis, diadema, dukhunensis, eryotis, ferrum equinum, fulgens, fumigatus, geoffroyi, gigas, griseus, hippocrepis, hipposideros, insignis, javanicus, landeri, larvatus, lepidus, luctus, macrotis, major, martini, megaphyllus, minor, mitratus, morio, murinus, nippon, nobilis, perniger, philippinensis, pusillus, pygmaeus, rouxi, rubidus, soricinus, speoris, subbadius, tragatus, tricuspidatus, tridens, trifoliatus, uni-hastatus, vulgaris.
- Rhinolphus** armiger.
- Rhinomacer** collaris, lepturoides, rhinomacer, umbellatorum.
- Rhinomya** (A.) lanceolata.
- Rhinomya** (Dipt.) gagatea.
- Rhinomys** jaculus.
- Rhinomyza** edentula, fusca.
- Rhinoncus** albicinctus, bruchoides, canaliculatus, castor, crassus, denticollis, flavipes, gramineus, granulipennis, grypus, guttalis, inconspicuos, interstitialis, leucostigma, paganus, pericarpus, pyrrhopus, quadricornis, quadri-tuberculatus, rupeus, sparse-setosus, spartii, subfasciatus, sulcicollis, tibialis.
- Rhinonictis** aurantius.
- Rhinophis** oxyrhynchus.

Rhinophoca proboscidea.

Rhinophora bicincta, brunnicornis, cilipennis, deceptoria, deceptricula, gagatea, hottentota, hyalinata, inornata, laevisventris, lucidiventris, metallica, nigripennis, nuda, obscuripennis, pallidicornis, pusilla, rapida, rectangularis, simplicissima, subpellucida, tessellata, tonsa, triangulata, umbratica.

Rhinophrynus dorsalis.

Rhinopirus erpeton.

Rhinoplax galeatus, plicatus.

Rhinoplia bengalensis, bottae, mutans, pallidicollis, polita, senegalensis.

Rhinopoma carolinensis, dubia, hardwicki, microphyllus.

Rhinopomastes minor, pusillus.

Rhinopomastus cyanomelas, smithi.

Rhinopsis abbotti.

Rhinoptera adspersa, javanica, lalandei, marginata, quadriloba.

Rhinopus insignis.

Rhinosaurus gracilis, jasykovi.

Rhinosciurus tupaoides.

Rhinosia adseclella, costella, fasciella, ferrugella, fissella, flammella, fuliginella, fulvella, inulella, juniperella, lemniscella, sequella, silacella, sordidella, sylvella, tinctella, tripunctella, ustulella, vitella.

Rhinosimus aeneus, coeruleocephalus, collaris, fulvirostris, nigripennis, planirostris, quadriguttatus, roboris, ruficollis, viridipennis.

Rhinosphon rufo-fuscum.

Rhinostoma coccinea, nasua, proboscidea, rufo-fusca.

Rhinotia dermestiventris, haemoptera, kirbyi, lyciformis, marginella, pectoralis, praeusta, similis, variegata.

Rhinotragus analis, anceps, dorsiger, festivus, marginatus, puniceus, rubricornis, suturalis.

Rhinotyphlops lalandei.

Rhinuchus declivis, nasulus.

Rhinusa acephalus, antirhini, intaminata, tricolor.

Rhinyptia indica, infuscata, reflexa, rostrata.

Rhipheus dasycephalus.

Rhipicephalus capensis, decoloratus, limbatus, linnei, rutilus, sanguineus, senegalensis, sculus, sinus.

Rhipicera abdominalis, attenuata, brunnea, cyanea, druraci, femorata, femoratus, fulva, marginata, mystacina, proserpina, pumilio, reichei, vetusta.

Rhipidia extincta, irrorata, maculata, maior, parumpunctata, picta, propinqua.

Rhipidocerus australasiae.

Rhipidogyra daniana, flabellum, lucasiana, micheliniana, occitanica, plicata.

Rhipidolepis elegans.

Rhipidophorus ater, rubropictus.

Rhipidura alba, albigula, albiscapa, albofrontata, arrogans, atricapilla, aureola, auricapilla, bicolor, cantator, ceylonensis, collaris, dryas, euryura, flabellifera, fuliginosa, fuscoventris, gularis, hypoxantha, isura, javanica, laticauda, lessoni, melanoleuca, melanura, motacilloides, nebulosa, nigritorquis, ochracea, ochrogaster, pectoralis, perlata, perspicillata, phoenicura, picata, poliogenys, preissi, rubifrons, rufiventris, semicollaris, setosa, squamata, superciliosa, threnothorax.

Rhipiphorus affinis, apicalis, binotatus, nigrithorax, praeustus, rugipennis, sulcatus, vittatus. *Vide et Rhipiphorus.*

Rhipipteryx ater, brullei. *Vide et Rhipipteryx.*

Rhipistoma ellipticum, leachi.

Rhipodomys leucodactylus.

Rhipozonium lacinulatum.

Rhisotragus aulicus, flavescens, meridionalis, nigrescens, rubidus, torridus.

Rhisotrogus aequinoctialis, aestivus, ater, caspius, fervida, friwaldskii, magagnoscii, pini, ruficornis, serratus, solstitialis, subsulcatus, tartaricus, transversus, vernalis, zealandicus.

Rhitigaster alternipes, irrorator.

- Rhizangia** brauni, brevissima, martini.
Rhizinia curvata, oblongata.
Rhizobius bajulus, burmeisteri, carnifex, discimacula, discolor, evansi, helianthemi, javeti, lineatellus, litura, pilosellae, pini, subterraneus, ventralis, xanthurus.
Rhizochilus antipathum.
Rhizocorallium jenense.
Rhizodus hiberni.
Rhizolitha lambda.
Rhizomys badius, castaneus, cinereus, decan, dekan, macrocephalus, minor, sinensis, splendens, sumatrensis.
Rhizophagus capito, coeruleus, humeralis, nanus, nitidulus. *Vide et Rhizophagus.*
Rhizophysa chamissonis, discoidea, filiformis, heliantha, mela, melo, mertensi, peroni, planostoma, rosacea.
Rhizoplatys cribrarius.
Rhizorus adelaides.
Rhizosolenia americana, barbata, calyptra, campana, ornithoglossa, pileolus.
Rhizostoma aculeata, aldrovande, aldrovandi, borbonica, borlasi, brachyura, brassiciflora, capillata, corona, cruciata, cuvieri, dubreuiliei, forskali, leptcephalus, leptopus, loriferum, lutea, mertensi, mosaica, papon, papua, perla, persea, purpurea, rosea, theophila, tuberculifer, undulata, viridis.
Rhizoterus vacca.
Rhizothera longirostris.
Rhizotrochus typus.
Rhizotrogus amphytus, aprilius, assimilis, attenuatus, barbarus, beaticus, carduorum, cicatricosus, clypeatus, collaris, costulatus, deserticola, dispar, drakei, euphytus, fervens, flavicans, flavicornis, foveolatus, fraxinicola, gabalus, genei, gerardi, grandis, grossus, hirticollis, incertus, inflatus, intermedius, limbatipectus, lineicollis, lividigaster, longimanus, maculicollis, marginipes, metallica, monticola, numidicus, obesus, ochraceus, paganus, pallidifrons, pallidipennis, pallidus, pallipennis, rubidus, rufescens, sahlbergi, scutellaris, sedakovi, serraticollis, sicelis, signatus, subvittatus, tauricus, thoracicus, tropicus, truncatipennis, tusculus, vernus, vicinus, vitticollis.
Rhizoxenia primula, rosea, thalassantha.
Rhodactinia daevisi*.
Rhodaraea calycularis.
Rhodaria sanguinalis.
Rhodeus amarus, elongatus, indicus, latior, macrocephalus.
Rhodia pyriformis.
Rhodites centifoliae, eglanteriae, rosae.
Rhodocera cleopatra, clorinde, farinosa, gueneana, lacordairei, leachiana, lycorius, lyside, maerula, rhamnii, wallichi.
Rhodocrinites canaliculatus, costatus, crenatus, echinatus, granulatus, gyratus, mutabilis, quinquangularis, quinquepartitus, tortuosus, verus.
Rhodocrinus abnormis, gothlandicus.
Rhodogastria amasis, mauriti, melanthus.
Rhodona punctata.
Rhodope veranii.
Rhodophaea advenella, consociella, dubiella, epeyrella, legatella, obtusella, perfluella, recurvella, rhenella, rubrotibiella, suavella, tumidella.
Rhodophysa helianthus, melo, rosacea.
Rhodosoma verecundum.
Rhodostethia rossi.
Rhodostoma coffea, fabula, nucleus.
Rhodostrophia calabraria, vibicaria.
Rhoea latreillei.
Rhogalia epigenana.
Rhogmus fimbriatus.
Rhomalea centurio, eques, gigantea, miles, tibialis.
Rhombeus serratus.

- Rhombocephalus** brevis, gambiae, parvus, politus, viridifrons.
Rhombodera atrorufa, virgata.
Rhomboides rugosus.
Rhombomys lacernatus, melanurus, meridianus, pallidus, robustus, tamaricinus.
Rhombonyx holosericea.
Rhombopalpa decempunctata.
Rhomborhina apicalis, cantori, clypeata, distincta, dives, heros, hyacinthina, japonica, mellii, microcephala, pilipes, resplendens.
Rhomborrhina clypeata, opalina, resplendens.
Rhombura oxyura.
Rhombus (G.) imperialis.
Rhombus (P.) aculeatus, argentipinnis, argus, barbatus, candidissimus, cinnamomeus, crenulatus, cristatus, cryptosus, diaphanus, fitzingeri, gesneri, grandisquama, heterophthalmus, hirtus, kirchbergensis, kleini, laevis, lentiginosus, lunatus, luteus, macropterus, maderensis, maeoticus, magnus, mancus, mangili, maximus, minimus, myriaster, nudus, ocellatus, pantherinus, parvimanus, plebeius, podas, punctatus, ramosus, rhombites, rhomboides, rhombus, scapha, setiger, soleaeformis, stellosus, theophilus, torosus, triacanthus, unimaculatus, xanthurus.
Rhonchus carangoides.
Rhondella phaenicurus, phoenicurus, rubecula.
Rhopaea verreauxi.
Rhopalea neapolitana.
Rhopalia olivieri, spinolae, vittata.
Rhopalidia maculiventris, pallens, rufithorax.
Rhopalocerca tardigrada.
Rhopalocerus setosus.
Rhopalodon mantelli, murchisoni, wangenheimi.
Rhopalogaster longicornis.
Rhopalomelus angusticollis.
Rhopalomeria punctipennis, similis, vittifrons. *Vide et Ropal-*.
Rhopalophora axillaris, cupricollis, pulverulenta, resplendens, rubida, sanguinicollis. *Vide et Ropalophora*.
Rhopalophorus clavicornis, coronatus, horridus.
Rhopalostyla festiva, maxima, obscuricollis, punctata, vittata.
Rhopalum clavipes, nigrinum, pallipes, tibiale, zonatum.
Rhopalus capitatus, crassicornis, errans, hyosciami, miriformis, parumpunctatus, rufus, schillingi, tigrinus.
Rhopia mediterranea, seposita.
Rhopoterpe formicivora, gularis, guttata.
Rhostax karelini, menetriesi.
Rhy- *Vide et Ry-*.
Rhyacia birivia, lucipeta.
Rhyacionia buoliana, gemmana, hastana, hastiana, miniistrana, turionana.
Rhyacophila angularis, armeniaca, articularis, atomaria, azurea, barbata, biguttata, ciliata, comata, decolorata, dorsalis, flavipes, granulata, incolor, irrorella, laevigata, laevis, lanata, lanigera, latipennis, lepida, longipennis, melas, microcephala, nebulosus, nigrocincta, obfuscata, penicillus, pubescens, setifera, stigma, tomentosa, torrentium, tristis, umbrosa, vernalis, vulgaris. *Vide et Ryacophila*.
Rhyephenes cacicus, incas, maillei.
Rhygmacera nitida.
Rhynarius austriacus, minutus, obscurus, pratensis, sylvestris.
Rhynchaea africana, alba, australis, bengalensis, capensis, hilairea, madagascariensis, maderaspatana, occidentalis, orientalis, picta, semicollaris, variegata. *Vide et Rynchaea*.
Rhynchaenus abbreviatus, abdominalis, abietus, absinthii, acanthion, acetosae, acredulus, aeneus, aesopus, aestuans, aethiops, affinis, alauda, alienatus, alismatis, alni, amoenus, amylaceus, analis, angulus, annulatus, antirrhini, apiatus, apicalis, araneus, arcuatus, argula, armeniaca, arnicollis, armiger, armillatus, artemisiae, arcticus, arundinis,

asellus, asperatus, asperifoliarum, aspis, assimilis, aterrimus, atomarius, atramentarius, atratulus, atratus, atriplicis, atrirostris, avarus, beccabungae, bicolor, bicornis, bidens, bifasciatus, bifrons, bigibber, biguttatus, bilineatus, bilobus, himaculatus, binodulus, bi-notatus, bipunctatus, bispinosus, bituberculatus, blattariae, bombinus, borealis, borraginis, bovinus, brassicae, brunneus, bubo, bufo, c album, caecus, calcar, calcaratus, calidus, caliginosus, camelus, campanulae, canus, capra, capreae, caprimulgus, capucinus, carbonarius, cardui, carinatus, carpinus, castor, caudatus, cerasi, cerasorum, cerastes, chamaeleon, chamaeropsis, chinuaridis, chinensis, chiragra, chloris, chrysanthemi, cinctus, cinerascens, clavipes, cochleariae, collinus, colon, coluber, comari, concentricus, conspersus, constrictus, contractus, convexus, cornutus, coronatus, costatus, costirostris, crassus, crenatus, cruciatus, crucifer, crux, cultratus, cupirostris, curvirostris, cyanicollis, cyanipennis, cylindrirostris, cylindrus, cynarae, dauci, decoratus, deloratus, denticulatus, dentipes, deplanus, depressicollis, depressus, destructor, deustus, didymus, dimidiatus, diocletianus, discoides, disjunctus, dissimilis, dorsalis, doryphorus, draco, druparum, dufresnei, dumetorum, duplicatus, ebenus, echii, elongatus, epilobii, equestris, equiseti, ericae, erinaceus, erysimi, erythrocheme, esuriens, evolans, excavatus, exclamationis, exiguus, fabricii, fagi, famulus, fascicularis, fasciculatus, fasciculosus, fenestratus, ferox, festivus, festuca, fibriatus, flavicornis, flavipes, floralis, foetidus, fragariae, fraxini, frigidus, fringilla, frit, frontalis, fulini, fusco-maculatus, gagate, gazella, gerani, germanus, gibbus, gladiator, globosus, globulus, globus, gracilis, graminis, granulatus, gravis, gulosus, guttalis, guttatus, guttula, haemorrhoeae, haemorrhoidalis, haustellatus, hebes, herculeanus, hirtulus, hortorum, hortulanus, hystrix, ilicis, inconspicuum, incurvus, indigena, intermedius, interstitialis, interstitiosus, iota, irroratus, jaceae, jamaicensis, julini, lamella, lamii, lanipes, lapathi, lateralis, laticollis, latirostris, lemnae, leopardus, leucogaster, limosus, linariae, linealecollis, lineicollis, litura, lonchaeoides, loniceriae, lucifugus, luridus, lutosus, lutulentus, lutulosus, lysimachiae, lythri, macropus, majalis, maleficus, mangiferae, marginatus, marmoreus, mediatundus, melaleucus, melanocephalus, melarhynchus, mendicus, metallinus, miles, miliaris, militaris, mixtus, moestus, mucoreus, multiguttatus, multituberculatus, murinus, musculus, myriophylli, nanus, nasutus, nebulosus, nereis, nero, nigrirostris, nigrita, nigrilulus, nitidus, notatus, notula, nucum, obsoletus, ocellatus, ochratus, ocularis, oleus, olivaceus, onopordinis, ornatus, pacca, pallidulus, palpebra, pantherinus, parallelus, parasita, pardalis, parvulus, pascuorum, pastinacae, pavo, pectoralis, pedestris, pericarpus, philanthus, phlegmaticus, phleus, piceae, picirostris, pictus, pilipes, pilosus, pinastri, pineti, pini, piniphilus, pipa, plagiatus, plantaginis, plantaris, planulus, planus, pleuronectes, pollinarius, pollux, polygami, pomorum, porcatus, porculus, posticus, proboscideus, pruni, pseudacori, ptioides, pubescens, pulicarius, purillio, punctatus, punctiger, punctulatus, punctum, pupillator, pusio, pyrrhoceras, quadricornis, quadrilineatus, quadrimaculatus, quadri-nodosus, quadrituberculatus, quadri vittatus, querceti, quercicola, quercus, quinquepunctatus, quinquetuberculatus, rana, raphani, repandus, rhamni, rhina, rosae, rubetra, rubi, rubicundus, rubricus, rufescens, rufirostris, rugulosus, rumicis, sahlbergi, salicariae, saliceti, salicinus, salicis, salicivorus, salicorniae, sanctus, sanguinirostris, scaber, scabratus, scanicus, scirpi, sciurus, scorpio, scortillum, scrophulariae, scutellaris, segetis, semi-cylindricus, semi-rufus, semiculus, septem-tuberculatus, serratus, sexguttatus, sexmaculatus, sextuberculatus, signatus, signifer, sisymbri, smidti, solani, solieri, sordidus, spargani, sparsutus, sphaerops, spinipes, squalidus, squameus, squamifer, statua, stellio, steveni, stigma, stolidus, strepidus, striatus, strix, stultus, stygius, sub-fasciatus, subrufus, subspinosus, suillus, sulcatulus, sulcicollis, sulcirostris, suspiciosus, suturalis, syrtes, T album, taeniatum, tardigradus, taurus, temporarius, tenuirostris, tessellatus, testaceus, testudo, teter, teutonius, thapsus, tigris, timidus, torquatus, tortrix, tragiae, tremulae, tricinatus, tricolor, trifasciatus, trifolii, trimaculatus, trochilus, troglodytes, typhae, ulmi, ulula, umbellae, umbraculatus, unca, undulatus, unifasciatus, ursus, ustulatus, vaginalis, validirostris, validus, variabilis, varians, varicosus, variegatus, varipes, varius, velaris, velatus, venosus, venustus, verbasci, verruca, vespertilio, viciae, viduatus, villosus, viminalis, violaceus, viscaria, vorax, vulneratus, vulpeculus, ynca, zebra, zonatus. *l'ide et*

Rhynchaenus.

Rhynchana greyi.

Rhynchaspis capensis, clypeata, jamaicensis, labradora, maculatus, malacorhynchos, membranacea, mexicana, rhynchotis, rubida.

Rhynchelmis limosella.

Rhynchichthys pelamidis.

Rhynchina capensis.

Rhynchites aeneovirens, aeneus, aequatus, aeratus, alliariae, angustatus, arquatus, atrocaeruleus, auratus, austriacus, azureus, betulae, betuleti, bicolor, brevirostris, caeruleocephalus, caeruleus, cavifrons, coelestinus, coeruleus, collaris, comatus, constrictus, cracca, crinitus, cupreus, cyaneopennis, cyaneus, cyanicolor, cylindricus, exaratus, faldermanni, femoralis, fragariae, fulgidus, germanicus, giganteus, gracilis, grandis, hirtellus, hirtus, hispanicus, ilicis, interpunctatus, javanicus, laevicollis, lividus, longicollis, longimanus, longipes, longulus, luceus, luridus, manillensis, mannerheimi, megacephalus, melanocephalus, melas, metallicus, mexicanus, minutus, nanus, nebulosus, niger, nigripennis, nigripes, nigrocyaneus, obscurus, olivaceus, opacus, ophthalmicus, ovatus, parelinus, pauxillus, persicus, philippensis, piceus, pilosulus, pilosus, planirostris, politus, praeustus, pusillus, quadripustulatus, rectorostris, rhedi, rhinomacer, rotundicollis, rubens, ruficollis, rufipes, rugosus, scalptus, scrobicollis, silenus, similis, splendidus, testaceus, tomentosus, tristis, ultramarinus, villosus, virescens, viridisaeneus, viridis. *Vide et Rhynchites.*

Rhynchobatus laevis.

Rhynchobdella aculeata, aral, halepensis, ocellata, orientalis, polyacantha.

Rhynchobothrium caryophyllum, corollatum, crassiceps, crassicolle, lomentaceum, palaceum, tenuicolle, tubiceps.

Rhynchobothrius bicolor, corollatus, paleaceus, rugosus.

Rhynchobotrius lingualis, longicollis, minutus, tetrabothrium.

Rhynchocephalus (Dipt.) adamsi, ales, caucasicus, costalis, gigas, latreillei.

Rhynchocephalus (R.) tauscheri.

Rhynchochasma coromandeliana, pondiceriana, scolopacea.

Rhynchocinetes typus.

Rhynchocoris australis, inquinata, ligata, lutescens, roei, serratus, thoracica, unimaculata, viridis.

Rhynchocyon cirnei.

Rhynchodes saundersi, ursus.

Rhynchodon aesalon, concolor, islandicus, peregrinus, rufipes, subbuteo, tinnunculoides, tinnunculus.

Rhyncholites acuminatus, alatus, antiquatus, asterianus, coquandianus, dutemplei, emerici, gaillardoti, gigantea, hasta, hirundo, honoratianus, latus, volti.

Rhyncholithes aquisgranensis, cretaceus.

Rhyncholithus cretaceus, duplicatus, orbignanus.

Rhyncholophus andium, cardinalis, cinereus, crocatus, devius, dugesi, electoralis, episcopalis, haustor, imperialis, lentiginosus, macilentus, miniatus, molochinus, murorum, nemorum, nivalis, opilionoides, pallipes, paludicola, papillosus, phalangoides, phloginus, principalis, quisquiliarum, regalis, rhopalicus, rubescens, rubricatus.

Rhyncholus latinus. *Vide et Rhyncholus.*

Rhynchomya felina, gibbosa.

Rhynchomyia bicolor, columbina, fasciata, inflata, limbipennis, maculata, ruficeps.

Rhynchoncodes scacchii.

Rhynchonella acasta, acuta, agassizi, angulata, antidichotoma, astieriana, bajociana, baugassii, bertheloti, brama, clementina, compressa, concinna, concinnoides, contorta, contracta, contraplecta, cuvieri, cypris, danica, decipiens, decorata, depressa, desnoyersi, dichotoma, difformis, duplicata, emerici, enigma, fidia, fischeri, flabellaeformis, flabellulaeformis, flexuosa, fresnayana, furcellata, garantiana, geinitziana, grasiana, guerini, haueri, helvetica, inaequilatera, inconstans, incurva, indica, lacunosa, lamarekiana, lata, loxiae, major, mantelliana, microrhyncha, minuta, moutoniana, nerina, nobilis, octoplicata, oxyptycha, paucicosta, pecten, pectunculata, peregrina, personata, pisum, plicatella, polygona, porrecta, quadruplecta, quadruplicata, renauxiana, rimosa, ringens, royeriana, schlotheimi, sellaris, semicostata, semiplecta,

semiplicata, serrata, subacuta, subplicata, subsimilis, sulcata, tetraedra, thalia, theodori, trilobata, variabilis, varians, vespertilio, wurtembergensis, zietenii, zignodiana.

Rhynchophorus barbirostris, bicolor, borassi, carbonarius, carinatus, cicatricosus, crustatus, cycadis, elegans, erythropterus, ferrugineus, funebris, immunis, inaequalis, interstitialis, nitidipennis, nitidulus, noxius, pascha, pertinax, phaeniceis, placidus, politus, praepotens, reaumuri, rectus, rubiginus, schach, serrirostris, truncatus, venatus, vulneratus, zimnermanni.

Rhynchoprion (Ar.) americanum, collurionis, columbae, longimanum, marginatum.

Rhynchoprion (Dipt.) persicum.

Rhynchops albicollis, albirostris, brevirostris, cinerascens, orientalis.

Rhynchorhinus branchialis.

Rhynchosaurus articeps.

Rhynchoscolex simplex.

Rhynchosia longirostris.

Rhynchospira indica.

Rhynchostomis curculionoides.

Rhynchoteuthis alatus, antiquatus, asterianus, astierianus, coquandianus, dutemplei, emerici, hasta, honoratianus, larus, tuberculatus, unidentatus.

Rhynchotus fasciatus, perdix, rufescens.

Rhynch- *Vide et Rynch-*.

Rhyncholites tuberculatus, unidentatus. *Vide et Rhyncholites*.

Rhyncholus angustatus, ater, australis, brevis, brunneus, chloropus, corticalis, crassirostris, culinaris, cylindricrostris, cylindrus, elongatus, elumbis, encaustus, exiguus, ferrugineus, filiformis, hispidulus, lauri, lignarius, linearis, nitidulus, oryzae, piceus, plebejus, polixus, porcatus, praeustus, procer, pulvereus, punctatulus, puncticollis, querciculus, reflexus, schoenherri, sculpturatus, submuricatus, sulcatus, sulcirostris, teretirostris, trivialis, troglodytes, truncorum, velutinus. *Vide et Rhyncholus*.

Rhyncops flavirostris, melanurus.

Rhynocoris annulatus, cruentus.

Rhynsimus genei, spinolae.

Rhyparia grossulariaria, melanaria, purpurea, zerah.

Rhyparochromus agrestis, antennatus, apicalis, arenarius, brevipennis, brunneus, chiragra, coleopratus, contractum, dimidiatus, echii, erraticus, flavipes, impressicollis, irroratus, luctuosus, luscus, maculipennis, marginecollis, marginepunctatus, microp-terus, nubilus, obtusus, pedestris, pineti, pini, plebeius, podagricus, pubescens, punctatus, puncticollis, pygmaeus, quadratus, rolandri, rusticus, sylvaticus, sylvestris, varius.

Rhyparophilus alternans.

Rhyparosomus horridus, inaequalis, surdus.

Rhyparus setulosus. *Vide et Ryparus*.

Rhyphus cinctus, fenestratum, fuscatus, fuscipennis, maculatus, ochraceus, priscus, punctatus, scalaris, variegatus. *Vide et Ryphus*.

Rhysmotes centaureae, dipsacea, petiolatus.

Rhysodes aratus, brasiliensis, canaliculata, europaeus, exaratus, guildingi, liratus, monilis, sculptilis, strabus, sulcatus, trisulcatus.

Rhysotrachelus bimaculatus, myops, quadrimaculatus.

Rhyssa amoena, approximator, clavata, curvipes, leucographa, levigata, lunator, marginalis, oblitterata, persuasoria, superba, terminalis.

Rhyssalus clavator.

Rhyssemus algiricus, asper, cribrus, godarti, inaequalis, ruiper, scaber, verrucosus.

Rhyssocarpus squalidus.

Rhyssomatus aciculaticollis, bicoloratus, crispicollis, marginatus, morio, nigerrimus, novalis, patinacollis, polycoccus, rufus, semicostatus, strangulatus, strigicollis, subcostatus, vehemens, viridipes.

Rhytelminthus taeniola.

Rhythirrinus inaequalis.

Rhytia cocale, hyperinnestra, materna.

- Rhyticephalus** aulacnotus, brevicornis.
Rhytideres plicatus.
Rhytiderus decempunctatus.
Rhytidophloeus albipes.
Rhytidostomus catostomus, elongatus.
Rhytiphora caprina, detrita, mista, nigrovirens, piperitia, rugicollis, tuberculata.
Rhytirhinus acerbus, anaglypticus, angusticollis, annulipes, axillaris, clitellarius, crispatus, curtus, dentatus, dilatatus, excisus, horridus, humilis, impressicollis, informis, lefebvrei, nodifrons, pilipes, quadrituberculatus, seriespinosus, setiger, sordidus, transversetuberculatus, turpis, variegatus.
Rhytis bipunctata, claviceps, coniceps, granulata, nodosa, paradoxa, proposcidea, rectangulum, salvelini, solida, tricuspidata.
Rhyxiphloea corticina.
Rhyaena capensis.
Rhyzo- *vide et Rhizo-*.
Rhizodes costatus, planus.
Rhizophërthà cineta, pusilla.
Rhizophagus abbreviatus, affinis, bipustulatus, caeruleipennis, collaris, cribratus, cyanipennis, cylindricus, depressus, dimidiatus, dispar, ephippiger, erythropterus, ferrugineus, fimetarius, grandis, longicollis, minutus, paralleloscollis, parallelus, parvulus, perforatus, politus, puncticollis, punctulatus, quadripustulatus, rufus, unicolor. *vide et Rhizophagus*.
Rhizophorus histeroides. *vide et Ryzophorus*.
Rhyzopora reticulata.
Rhyzospongia pictonica.
Ricania corticina, crocea, cyanescens, donovani, equestris, fasciata, fulgens, hospes, hyalina, iodiipennis, klugi, marginella, obscura, ocellata, oculata, paecilopteroides, panorpaepennis, pellucida, planipennis, reticulata, rosea, servillei, splendida, trimaculata.
Richardia laterina, podagrica, saltatoria, trivittata, unifasciata.
Ricinella dactyloides, purpurata, violacea.
Ricinula acuminata, alveolata, arachnoides, aspera, bella, calcarata, carbonaria, cavernosa, chaidea, clathrata, concatenata, concinna, contracta, crocostoma, dealbata, deformis*, digitata, echinulata, elata, elegans, elongata, fuscillum, forticostata, funiculata, heptagonalis, histerio, horrida, iostoma, lauta, mendicaria, miticula, morus, muricata, mutica, nodus, ocellata, papillosa, pisolina, porphyrostoma, pulchra, recurva, rosea, rutila, scabra, siderea, spectrum, trifasciata, turbinella, zonata.
Ricinus anseris, buteonis, caponis, ciconiae, circi, columba, corvi, cuculi, cygni, diomedaeae, emberiza, gruis, haematopi, hirundinis, houbarae, lacertarum*, meleagridis, mergi, motacillae, oriole, pari, phasiani, picae, recurvirostri, sternae, strigis, tinnunculi, vulturis.
Rictularia cristata.
Rimamphus citrinus, vitrinus.
Rimator malacoptilus.
Rimella lucida, rimosa.
Rimula acuta, apiculata, blainvillei, clathrata, conica, cornucopiae, cucullata, flemingi, fragilis, galeata, minutissima, noachina.
Rimularia fragilis.
Rimulina glabra.
Rinelepis acanthicus, genibarbis, histerix, strigosa. *vide et Rhinelepis*.
Rinella mamillaris, myrtillina, nasus. *vide et Rhinella*.
Ringicella globulosa.
Ringicula acuta, auriculata, australis, bonelli, buccinea, caron, costata, exserta, globosa, grandinosa, incrassata, laevigata, marginata, mississippiensis, propinquans, punctilabris, pyramidalis, ringens, semistriata, striata, turgida, ventricosa.
Ringinella alpina, clementina, incrassata, inflata, lacryma, mailleana, turgida.
Rinortha chlorophaea.
Riopa albopunctata, bougainvillei, hardwicki, punctata, rueppelli.

Ripaecola arundinacia*, locustella, salicaria.

Riparia europaea.

Ripidicala cochinchinensis, euryura, flabellifera, javanica, leucogaster, perlata, phoenicura, pondericiana.

Ripidius anceps, megalophus, pectinicornis, pyrrholophus.

Ripidophora hexadactyla.

Rhiphorus ambiguous, angulatus, angustulus, apicalis, bicolor, bifasciatus, bipunctatus, collaris, cruentus, discicollis, dubius, fasciatus, flavicornis, fulvipennis, humeratus, impressus, indicus, longipes, maxillosus, niger, nigricornis, plumatus, quadri-maculatus, quadripunctatus, rubidus, ruficollis, sanguinolentus, succinctus, tarsatus, thoracicus, tristis, uniformis, ventralis. *Vide et Rhipiphorus.*

Ripipteryx marginatus. *Vide et Rhipipteryx.*

Risculus molvae.

Risella aurata, lutea, melanostoma.

Risophilus atricapillus, brunnichi, cinerea, nivea.

Rissa tridactyla.

Rissoa abbreviata, aberrans, abyssicola, acicula, acinus, acuta, affinis, alata, alba, albella, albida, ampulla, anatina, angulata, angusta, anomala, approxima, aquensis, arata, arctica, arenaria, areolata, aspera, auberiana, auriscalpium, baldacconii, balliae, barleei, beani, bidentata, binghami, biserta, bisulca, bonelli, boryi, bosci, braunni, brevis, bronni, bruguierci, bryerea, buccinalis, buccinoides, bulimoides, calathiscus, calathus, canaliculata, canariensis, cancellata, candida, caribaea, carinata, carinatus, caspia, castanea, cerithina, chesneli, cimex, cimicoides, cinerea, cingillata, cingillus, cingulata, cingulus, clathrata, communis, concinna, confinis, conus, cornea, coronata, cossurae, costata, costellata, costulata, crassica, crassistriata, crenulata, crux, crystallina, curta, cyclostomata, decorata, decussata, delicata, denticulata, deshayesiana, desmaresti, desnoyersi, diaphana, dictyophora, dimidiata, discrepans, disjuncta, distans, divisa, doliolum, dubia, dubiosa, duboisi, dupiniana, duplicata, ehrenbergi, elata, elegans, elongata, eulimoides, europaea, excavata, exigua, eximia, extranea, fallax, fasciata, fenestrata, fragilis, freminvillei, fulgida, fulva, fuscata, galvagni, gaulardi, gibsoni, gigantea, gioenia, glabra, globulus, gougeti, gracilis, gradata, granulata, granulum, graphica, grateloupi, gravitellensis, grossa, guerini, harveyi, haueri, hyalina, inca, incerta, inconspicua, insenghae, insignis, intermedia, interrupta, joenia, labiata, labiosa, lactea, laevigata, laevis, laevissima, lanciae, lefebvrei, leighi, liasina, lilacina, lineolata, listeri, littorea, liturata, macrostoma, maculata, mamoi, mandralisci, marginata, marmorata, matoniana, melanostoma, melanura, michaudi, minuta, minutissima, mitreola, montagui, mucronata, multicostata, multiplicata, muriatica, nana, nigra, nitida, obliquata, oblonga, obscura, obsoleta, obtusa, opalina, orbigny, ornata, ovatella, ovulum, pallida, paludinioides, parva, parvus, pedicularis, perpusilla, philippii, pinnae, plica, plicata, polita, porifera, praeusta, princeps, proxima, pucilla, pulchella, pulcherrima, pulchra, pulla, pullus, punctata, punctulum, punctum, punctura, puncturata, pupoides, purpurea, pusilla, pygmaea, pyramidilla, quadrangula, radiata, reticulata, retiforma, rimata, rubra, rudis, rufa, ruilabrum, rugosula, rupestris, sabulum, sandvicensis, sarsi, saxatilis, scabra, scabruscula, scalarella, scalariformis, scalaris, scalaroides, scrobiculata, sculpta, semicostata, semicostulata, semistriata, similis, simplex, sinuosa, solidula, soluta, souleyetana, sowerbyi, spinosa, spiralis, splendens, splendida, striata, striatula, striatus, stricta, strigata, striolata, striosa, subangulata, subcanaliculata, subcarinata, subcarinata, subelegans, submarginata, subrufa, subsoluta, substriata, subsulcata, subulata, subumbilicata, subventricosa, succinata, sulcata, sulzeriana, supracostata, tenera, tenuis, tenuistriata, terebellum, terebralis, tervaricosa, testae, textilis, tricolor, tridentata, tristriata, trochlea, truncata, tuberculata, turbinata, turricula, turriculata, turritella, ulvae, unicarina, unifasciata, unisulca, ustuertensis, varicosa, ventricosa, ventrosa, venusta, violacea, virgata, virginea, vitrea, vittata, warreni, zetlandica.

Rissoella glaber.

Rissoina acuta, browniana, cancellata, catesbyana, clavula, cochlearella, duplicata, elegantissima, grandis, inca, incerta, laevis, obliquata, obtusa, polita, sagraiana, scalaroides, sloaniana, striatocostata.

- Ristella** rurki.
- Rivellia** bosci, herbarum, viridulans.
- Rivicola** fontinalis.
- Rivula** sericealis.
- Rizophysa** planestoma.
- Robertina** arctica, austriaca.
- Robulina** aculeata, antiqua, ariminensis, austriaca, calcar, canariensis, clypeiformis, costata, crassa, crenata, cultrata, cummingi, depressa, discoides, echinata, ehrenbergi, gibba, haueri, imperatoria, inornata, integra, intermedia, laevigata, lenticulus, lepida, marginata, muensteri, nitida, obtusa, orbicularis, ornata, papillosa, planciana, plicata, pulchella, radiata, rosacea, rotunda, rugosa, similis, simplex, soldanii, stellifera, striolata, subcultrata, sublaevis, subnodosa, sulcata, virgata, vortex.
- Robulus** cultratus.
- Roccus** comes, striatus.
- Rochus** purchisoni.
- Rocinela** danmoniensis, deshayesiana, mediterranea.
- Rodens** armillatus.
- Rodolia** chermesina, fumida, roseipennis, rubea, ruficollis, rufopilosa.
- Roeselia** agrestis, albula, ancipitalis, antiqua, arvensis, centonana, confusalis, cristulana, cucullatana, curvicornis, cylindrica, flavescens, flavisquamis, interrupta, lamia, magica, nigriana, silvatica, strigulana, togatulana.
- Roeslerstammia** assectella, aurocapitella, cariosella, chenopodiella, fumigatella, grantella, icella, modestella, perlepidella, quadriguttella, scopolella, tenebrella, vesperella.
- Rogas** atmnis, alternator, annulicornis, annulipes, ater, balteatus, bicolor, bifasciatus, biglumis, braconius, calenator, chlorophthalmus, circumscriptus, clavator, clavatus, collaris, compressa, coxalis, cruentus, cunctator, decorator, decrescens, dimidiatus, dissector, dorsalis, excubitor, exsertor, flaviceps, flavipes, fragilis, funestes, gasterator, geniculator, hariolator, indagator, infirmus, interstitialis, lanceolator, lanceolatus, limbator, linearis, longicaudis, lustrator, luteus, marginator, meditator, melanopterus, moniliatus, mutuator, nidulator, nitidus, nobilis, obliterator, obscurator, ochraceus, pallidicornis, pallipes, pectoralis, picipes, praerogator, quaestor, reticulator, rubidus, rubiginosus, runcornis, rugator, rugulosus, seriatus, signatus, similis, simplex, spathuliformis, subucola, sulcatus, tabidus, tenuis, testaceus, thoracicus, umbratilis, varius, vestigator, zygaenae.
- Rogenia** alba.
- Rohita** belangeri, brevis, buehanani, caloasi, calbosis, chagunio, chalybeata, changunio, chrysophekadion, cursis, dussumieri, duvauceli, erythrura, fimbriata, fimbriatus, gobioides, goniis, hasselti, joalius, leiorhynchos, leschenaulti, lineata, macrosomus, microcephalus, morala, moralius, muscha, nandina, reynauldi, rohita, rostellatus, rouxi, tricoides, vittata.
- Rohrella** blondeli, cognata, dorsalis, fragilis, germana, humeralis, punctata, soror, testacea.
- Rohtee** ogilbyi, pangut, tecta, vigorsi.
- Rollulus** cristatus, niger, ocellatus, oculate, roulroul, superciliosus.
- Rollus** geographus.
- Romaleosoma** arcadius, sophron, zampa, zeuxis.
- Romalea** marci, microptera.
- Romaleosoma** cato, ceres, cyparissa, cyrna, edwardsi, eleus, eupalus, francina, ianassa, janassa, medon, parva, perseis, themis.
- Romeris** aromatica.
- Romicia** calcarata.
- Romilius** zotale.
- Rondania** cucullata.
- Ronia** catenulata.
- Ropalodontus** perforatus.
- Ropalomera** clavipes, flavipennis, flaviceps, maculipennis, pleuropunctata, rufipes, spinosa, stictica. *Vide et Rhopalomera.*
- Ropalophora** marginicollis. *Vide et Rhopalophora.*

Ropalopus clavipes, femoratus, insubricus.

Rophites quinquespinosus, trispinosus.

Roptrocerus eccoptogastri, xylophagorum.

Rorqualus, antarcticus, boops, borealis, musculus, rostratus.

Rosacea ceutensis, plicata.

Rosacella dicquemartiana.

Rosacilla confluens, depressa, disciformis, flabelliformis, polystoma, serpulæformis.

Rosalia alpina, funebris.

Rosalina affinis, ammoniformis, ammonoides, araucana, arcuata, auberi, beccarii, bertheloti, bulloides, candeiana, catesbyana, clementiana, consobrina, cora, depressa, dubia, edwardsiana, foveolata, galiciana, globigera, globularis, imperatoria, inca, isabelleana, italica, laevigata, linneiana, lorneiana, marginata, mediterranea, mediterraneensis, micropora, moniliformis, obtusa, opercularis, orbicularis, ornata, parisiensis, parkinsoniana, pertusa, peruviana, poeyi, rugosa, sauleyi, semimarginata, semistriata, siennensis, simplex, soldanii, squammosa, tenerrima, valvulata, vesicularis, viennensis, vilardeboana.

Rosmarus arcticus.

Rossia dispar, glaucopsis, jacobii, macrosoma, palpebrosa, rosea, subalata.

Rostellaria acuta, acutirostris, aegion, aladraconis, alata, alpina, americana, ampla, angulata, angulosa, anserina, antiqua, aonis, arcuata, arenarium, astieriana, athleta, bicarinata, bidentata, bispinosa, boussingaulti, brevirostra, brongniartianus, buccinoides, calcarata, canaliculata, cancellata, carinata, carinella, caudata, cingulata, cirrus, coarctata, collegii, columbaria, columbata, columbina, composita, corvina, costae, costata, costellata, crassilabrum, curta, curvirostra, curvirostris*, curvirostrum, cuvieri, decussata, deluci, dentata, dentula, detrita, diffusa, divaricata, drunensis, dupiniana, elatus, elongata, emarginulata, fissæ, fissura, fissurella, fittoni, fusiformis, fusus, gargasensis, gaudichaudi, geinitzi, gigantea, glabra, gracilis, granulata, grasiata, hamulus, hamus, hebli, hupei, indarum, indurata, inflata, inornata, ionica, irregularis, itieriana, labiosa, labrosa, laevigata, laevis, lamarecki, laqueata, lejeunei, lucida, macroptera, macrostoma, mailleana, margerini, marginata, maxima, megaera, megaloptera, monodactylus, moutoniana, mucronata, muleti, mutica, myurus, neckeriana, nereis, nodifera, nodosa, noueliana, obsoleta, oolithica, orbignyana, ornata, ovata, oxyptera, palliata, papilionacea, parkinsoni, pauperata, pennata, pes ardeae, pes carbonis, pes-graculi, pes-pellicani, phillipsi, plicata, plurimacosta, povisi, povisi, provincialis, pupæformis, pusillus, pyrenaica, pyriformis, rectirostris, requieniana, retusa, reussi, rimosa, robinaldina, roemeri, royeriana, rubicunda, scalaris, scalata, schlotheimi, securiformis, semicarinata, semilineata, serrata, serresiana, simplex, sinensis, sinuata, solida, sowerbyi, spinigera, spirata, stenoptera, striata, subcomposita, subcostata, subelongata, submarginata, subpunctata, subsabulata, subulata, sulcatus, tenuis, tenuistria, tenuistriata, timotheana, tricostata, tridactyla, triûda, tubercularis, turrita, unicornis, uttingerianus, varicosa, varusensis, velata, vespertilio, westphalica.

Rostellum ternatanum.

Rosthramus sociabilis.

Rostratula capensis, indica, sinensis, viridis.

Rosthramus hamatus, niger.

Rotalia ammoniformis, ampla, angulata, antarctica, antillarum, areolata, argus, armata, audouini, auricula, beccarii, bisaculeata, borealis, brongniarti, bulloides, burdigalensis, caracolla, carinata, centralis, cochlea, communis, complanata, conica, consobrina, constricta, contacta, corallinarum, cordieriana, crassa, crassula, deformis, denaria, depressa, discifera, discoides, discus, dorsalis, dubia, dufresnei, egena, elegans, elliptica, erebi, fasciata, ferrussaci, gainardi, gaudichaudi, gervillei, gibbosa, glaucopsis, globulina, gommunis, grateloupi, guerini, gyroïdina, impressa, inflata, intermedia, italica, jurensis, kalenbergensis, laevigatulus, laevis, lenticula, lepida, leptodiscus, linbata, mammillata, mareminis, marginata, menardi, micheliniana, millepora, muensteri, nitida, nivea, northamptoni, obscura, ocellata, omphaloides, orbicularis, ornata, pandorae, papillosa, parvispira, pelagica, perforata, peruviana, pileus, pisana, planostigma, planulina, polyrrhaphes, propinqua, pulchella, punctata, punctulata, quaternaria, renora, roemeri, rosacea, rosea, saxorum, scabra, semi-marginata, siennensis,

- soldanii, sphaerophora, squamosa, stellata, stigma, subcarinata, submarginata, subrotunda, subtruncata, suessionensis, sulcata, terquemi, thouini, tortuosa, trochus, turbo, turgida, umbilicata, umbilicatus, umbilicus, voltzana.
- Rotalina** aculeata, affinis, akneriana, alvarezi, angulata, antillarum, badensis, baileyi, berthelotiana, boueana, canariensis, caribaea, conoidea, contexta, cordieriana, crassa, cryptomphala, cultrata, deformis, depressa, dubia, dutemplei, haidingeri, haueri, hirsuta, jurensis, kalembergensis, lamarekiana, lenticula, marginata, micheliniana, nana, nitida, partschiana, patagonica, patella, peruviana, polyrraphes, reticulata, rotundata, sagra, scaphoidea, schreibersi, soldanii, spinimargo, truncatulinoides, umbilicata, ungeriana, voltziana.
- Rotalites** cidarollus, corticalis, denticulata, depressa, discorbula, radiatus, storillus, trochidiformis, tuberculosa.
- Rotella** aequalis, anomala, archiaciana, callosa, carinata, compressa, conica, costata, defrancei, diaphana, expansa, formosa, gigantea, glabrata, goldfussi, guamensis, heliciformis, helicinaformis, helicoidea, javanica, lenticularis, lineolata, lucida, minuta, monilifera, nana, polita, pusilla, rosea, sagittata, semi-striata, solarioides, striata, subconica, suturalis, umbilicata, vestiaria, vestrius, wurmi.
- Rotidus** cylindricus, proteus.
- Rotifer** albivestitus, brachyurus, citrinus, confervicola, crucigera, erythraeus, macrourus, quadricircularis, redivivus, tardigradus, tardus, vulgaris.
- Rotula** (Ech.) augusti, digitata, rumphii.
- Rotula** (G.) hexapora, multiloba.
- Rotularia** complanata, conloni, cristata, lituus.
- Rovetus** tenuincki.
- Rox** lobata.
- Roxana** arcuata.
- Roxania** cranchi.
- Rubecola** ferrea.
- Rubecula** akahige, arborea, atrata, famularis, flavolivacea, foliorum, komadori, pinetorum, rubecula, rufigularis, septentrionalis, tithys.
- Rubellio** fluviatilis.
- Rubetra** albi-striata, lapidaria, rubicola.
- Rubigula** aberrans, dispar, gularis.
- Rubricapilla** alnus.
- Rubula** soldanii.
- Rucervus** elaphoides.
- Rudolpha** monodonta.
- Ruficilla** muralis.
- Rufipes** albicollis, picta, torquata, vulgaris.
- Rugilus** affinis, chilensis, dentatus, depressus, exiguus, fragilis, fuscus, immunis, orbiculatus, punctipennis, rufipes, similis.
- Ruma** maura.
- Rumia** crataegata.
- Rumina** decollata.
- Runa** comptoni, decemfissa.
- Runcina** hancocki.
- Rupellaria** bottari, striata.
- Rupellia** echinocephala.
- Rupicapra** americana, capella, pudu, pyrenaica, rupicapra, tragus, ysard.
- Rupicola** (A.) aurantia, elegans, rupicola, viridis.
- Rupicola** (G.) rupestris.
- Rupiscartes** alticus.
- Rupisuga** nicensis.
- Rupellia** annulipes, semilava, tenax, vinosa.
- Rusa** aristotelis, equina, heterocervus, jaraya, kuhli, lepida, mariannus, molluccensis, nipalensis, peroni, philippinus, sika.
- Rusina** ferruginea, tenebrosa.
- Russa** hippelaphus.

Rusticola europaea, grutto, javanica, migratoria, minor, sylvestris, vulgaris.

Rusticus aetolus, argus, calanus, cupido, guidus, hamo, minijas, minyas*, pacas, vulcanus, xanthospilos.

Rutela aenea, aeruginosa, alliacea, alternans, amazona, analis, aulica, bicolor, biguttatus, bimaculata, bi-punctata, bi-vittatus, bracteata, brunnea, brunni-pennis, brunnipes, caesarea, capucina, castaneus, cetonioides, chloropyga, chloropyra, chrysis, cinnamomea, clavata, coerulea, convexa, corrusca, eupraea, cuprea, cyanipes, cyanitarsis, demissa, dorcyl, elongata, emarginata, emerita, fasciata, festiva, flavovittata, formosa, francisca, fucata, fulgida, fulvipennis, glabrata, glauca, gloriosa, gracilis, granulata, guadulpenis, heraldica, histeroidea, histerio, ignita, jamaicensis, lacerata, lacunosa, laeta, langsdorfi, lanigera, lateralis, latreillei, lauta, lineatorcollis, lineola, liturella, lucida, lurida, lutea, manicata, marginicollis, minuta, modesta, nitescens, oblitterata, olivacea, olivieri, ornata, picta, polita, porosa, prasina, pulchella, punctata, pustulata, retusa, rubiginosa, ruficollis, rufipes, runica, sinuata, smaragdina, smaragdula, sordida, splendida, striata, subsulcata, sulcata, sumptuosa, surinamensis, suturalis, terminata, tetradactyla, trichoidea, tricolor, trigona, tristis, versicolor, viridi-aenea, viridis, viriditarsis, viridula, xanthospila.

Ruticilla albifrons, arborea, atra, atrata, aurea, caeruleocephala, cruralis, cyana, cyaneocula, erythrogaster, erythronota, frontalis, fuliginosa, gibraltariensis, grandis, hortensis, leucocephala, leucoptera, luscini, macgregoriae, melanura, nigricollis, phoenicurus, plumbea, reevesi, rubeculoides, ruiventris, schisticeps, simplex, sylvestris, titys.

Rutidosoma globula.

Ruttilis angustacarinata, australasiae, decora, desvoidyi, dubia, elegans, flavipennis, formosa, fulgida, fulvipes, furcotestacea, imperialis, inornata, leonina, lepida, media, minor, oblonga, pellucens, plumicornis, regalis, rubriceps, setosa, sinuata, speciosa, splendida, testacea, urvillei, vidua, viridi nigra, vivipara.

Rutilus amblops, anomalous, compressus, melanurus, plargyrus, storerianus.

Ruvettus pretiosus. *Vide et Rovettus.*

Ruvulus sculptus.

Ry- *Vide et Rhy-*.

Ryacophila variegata. *Vide et Rhyacophila.*

Rygchium annulatum, annuliferum, balteatum, crypticum, europaeum, lefebvrei, oculatum, quinquiefasciatum.

Rygmodus modestus, pedinoides.

Rynchaea picta, sinensis. *Vide et Rhynchaea.*

Rynchaenus reide, roddami, rubro-maculatus, scapularis, setiger, tereticollis, vacca, velutinus, vetulus, viduus, vitellus, zamiae. *Vide et Rhynchaenus.*

Rynchites politus, rubricollis, rugosus, ursus, virescens. *Vide et Rhynchites.*

Ryparus desjardinsi, tomentosus. *Vide et Rhyparus.*

Ryphus alternatus, marginatus. *Vide et Rhyphus.*

Rypticus arenatus, bicolor, saponaceus.

Ryssochiton politus.

Rytina borealis, cetacea, gigas, manatus-borealis, stelleri.

Rytinota dardana, scabriuscula, tessulata.

Ryzaena capensis, coase, namagensis, suricatta, surikates, tetradactyla, typicus, zenik.

Ryzophorus polita. *Vide et Rhyzophorus.*

S. affinis (-**Bryocoris**), arcuata (-?).

Saara hardwicki.

Sabanaea cingilla, eburnea, interrupta, paucicostata, plicata, rubra, ulvae, unidentata, unifasciata, ventrosa.

Sabella aggregata, amoena, antiqua, arenaria, armiger, aspredienseis, calanis, carnea, cirrata, compressa, conchillita, coriacea, crassicornis, curta, dentaloides, denudata, diaphana, euplaeana, fabricia, filialghifera, flabellata, fragilis, gelatinosa, gracilis, indica, infundibulum, josephinae, lanigera, latisetosa, lucullana, luxuriosa, magnifica, membranacea, neglecta, nodosa, octocirrata, papillosa, pavonina, penicillus,

- quadragularis, reniformis, setiformis, spallanzanii, subcylindrica, terredula, trigona, tubicola, tubiformis, tubularia, unispira, ventilabrum, vesciculosa, villosa, volutacornis.
- Sabellaria** africana, alveolata, anglica, aurata, capensis, chrysocephala, crassissima, elongata, gainardi, incerta, longispina, lutea, magnifica, negata, reptans, rissoi, tubulosa, uncinnata, ventricosa.
- Sabellides** cristata, octocirrata.
- Sabellina** brachycera, tenuis.
- Sabethes** locuples, longipes, scintillans.
- Sabinea** (G.) ulvae.
- Saburra** cirrigera.
- Sacalius** aureus, barbarus, indicus, procyonoides, syriacus.
- Sacchiphantes** abietis.
- Saccobranthus** singio.
- Saccocoma** filiformis, pectinata, tenella.
- Saccoderes** inflata, sex-foveolatus, vesciculosa.
- Sacomys** anthophilus.
- Saccopharynx** ampullaceus.
- Saccophora** (Lep.) melsheimeri.
- Saccophora** (Med.) tilesii.
- Saccophorus** albus, borealis, bursarius, mexicanus, pineti.
- Saccopteryx** (Dipt.) fuliginosa.
- Saccopteryx** (M.) lepturus.
- Saccosoma** wagneri.
- Saccostoma** auritum.
- Saccostomus** campestris.
- Sacculina** carcini*.
- Sachana** depressa.
- Sachondrus** variolosus.
- Sachroa** alata.
- Saconites** granularis.
- Saenuris** lineata, neurosoma, variegata.
- Saerangodes** rubripennis.
- Saga** (Cr.) denticulata, mysiformis, obscura.
- Saga** (Orth.) azurea, elegans, ephippigera, indica, natoliae, ornata, serrata, vittata.
- Sagaris** cultellator.
- Sagaritis** orseis.
- Sagda** alveolata, australis, gularis.
- Sagenocrinites** expansus, giganteus.
- Sagenocrinus** expansus.
- Sagitta** bipunctata, britannica, diptera, exaptera, mediterranea, triptera.
- Sagittella** equipennis, inaequipennis, tuberculata.
- Sagittula** hominis, longirostrum.
- Sagoin** midas, norta, niger.
- Sagouin** apella, argentatus, capucinus, leucocephalus, midas, oedipus, pitbecus, rosalia.
- Sagra** alonis, aenea, amethystina, bicolor, boisduali, buqueti, carbunculus, chrysochlora, coerulescens, cyanea, dentipes, druryi, empyrea, fabricii, femorata, formosa, fulgida, galmeri, heterodera, ignita, inda, longicollis, morosa, nigrita, odontopus, perlucida, peteli, pygmaea, quadratocollis, senegalensis, seraphica, speciosa, splendida, superba, tridentata, urania, walworthi, weberi.
- Sagrina** pulchella, rugosa.
- Sagriva** vittata.
- Saguinus** lugens, personatus, sciureus, ursula, vidua.
- Saica** rubella.
- Saiga** tartarica.
- Saimiri** sciurea.
- Saimiris** entomophagus, ustus.
- Saiphos** equalis.
- Sairis** hians, scombroides.

Sais cyrianassa, pamela, rosalia.

Salacia (Coel.) tetracythara.

Salacia (Cr.) tuberculosa.

Salacia (Lep.) phyllodoce.

Salamandra abdominalis, agilis, alleganiensis, atra, auriculata, beecheyi, bislineata, cincta, cinerea, cirrigera, coccinea, corsica, cylindracea, dorsalis, elegans, erythronota, fasciata, flavissima, funebris, fusca, genei, gigantea, glutinosa, granulosa, guttata, gutto-lineata, haldemani, horrida, ignea, ingens, intermixta, jeffersoniana, lacepedei, longicauda, longicaudata, lugubris, lurida, maculata, maculo-quadrata, maculosa*, maxima, melanosticta, millepunctata, naevia, nebulosa, nigra, ogygia, opaca, palmipes, perspicillata, picta, pleurodeles, porphyritica, punctatissima, quadridigitata, quadrimaculata, rubra, rubriventris, salmonea, scheuchzeri, scutata, sinciput-albida, spalolata, subcristata, subfusca, symmetrica, talpoidea, tigrina, tridactyla, unguiculata, variegata, variolata, venenosa, venosa, vulgaris.

Salamandraches crassicaudis.

Salamandrina attenuata, perspicillata.

Salamandroides giganteus, jaegeri, subviolaceum.

Salamandrops gigantea.

Salamis anacardii, antilope, augustina, ceryne, cloantha, erythra, sabina, toreumata.

Salangana brevirostris, esculenta, fuciphaga, vestita.

Salanx cuvieri, reevesi.

Salar ausoni, bailloni, ferox, gaimardi, namagcush, schieffermulleri, scouleri, spectabilis.

Salarias alticus, atlanticus, biseriatus, castaneus, cavernosus, cyanostigma, cyclops, dama, dussumieri, fasciatus, forsteri, fraenatus, frontalis, fuscus, gibbifrons, guttatus, kingi, lineatus, marmoratus, melanocephalus, meleagris, niger, nigrovittatus, oryx, perio-phthalmus, quadricornis, quadripennis, quadripinnis, rubropunctatus, ruficaudus, saliens, sebae, simus, striatus, sufejanus, textilis, unicolor, variolatus, variolosus, varus, vermiculatus, viridis, vomerius.

Salaris flaviumbrinus, rivulatus.

Salax (Col.) lacordairei.

Salda albipennis, arenicola, atra, bicolor, bullata, campestris, cincta, clavipes, coleoprata, coriacea, costalis, elegantula, erythrocephala, flaviceps, flavipes, grylloides, lateralis, littoralis, longipennis, luteipes, maculata, marginalis, nemoralis, nigra, ocellata, opacula, pallicornis, pallipes, picea, pilosa, pratensis, riparia, saltatoria, serratulae, steveri, striata, sylvestris, uliginosa, zosterae.

Salea horsfieldi, jerdoni.

Salenia anthophora, areolata, clathrata, depressa, geometrica, gibba, heliophora, hemi-sphaerica, hofmanni, leucorhodon, minima, ornata, peltata, personata, petalifera, rugosa, scripta, scutiger, stellulata, stuederi, trigonata, tripartita, umbrellae.

Salia (Dipt.) blondeli, bombycivora, cirrata, echinura, erythroptera, metallica, nigricornis, velox.

Salia (Lep.) minimalis, salicalis.

Salicaria affinis, aralensis, arundinacea, bruniceps, cantans, cantillans, carex, cisticola, elaeica, galactotes, italica, languida, leucoptera, locustella, fuscinoides, olivetorum, pallida, phragmitis, rufescens, salina, turdina-orientalis.

Salicornaria farciminoidea, gracilis, sinuosa.

Salicorniaria fistulosa (Templeton, Mag. Nat. Hist. IX. 1836, 469 [nn., teste S.F.H.]).

Salius (Hym.) alni, bicolor, bidens, bifasciatus, calceatus, caruifex, decoratus, erythropus, femoratus, haematitius, hellmanni, humboldti, ilicis, jota, loniceriae, maculatus, populi, pratensis, quercus, ruftarsis, rusci, saliceti, salicis, sanguinolentus, schiodtei, scutellaris, sexpunctatus, stigma, unicolor.

Salius (P.) halticus.

Salmacis (Ech.) bicolor, dussumieri, globator, pepo, rarispinus, sulcatus, vaudeneckei, varius, virgulatus.

Salmacis (M.) aethiopa, nemestrina.

Salminus cuvieri, hilarii, maxillosus, orbignyanus.

Salmo albus, alleganiensis, altivelis, americanus, amethystus, arabatsch, ascan autumnalis, besala, caecifer, callaris, cambricus, canadensis, cenerius, cetti, clarki

clupeiformis, clupeoides, confinis, coregonoides, cumberland, curilus, cylindricus, cyprinoides, digitatus, eperianus, erythracus, erythrogaster, erythrorhynchus, faris, fetox, filamentosus, fluviatilis, fontinalis, fulvus, gadoides, gaedini, gairdneri, gracilis, harengus, hearni, icimus, illanken, immaculatus, japonensis, kysutsch, labradoricus, labrax, laevigatus, lagocephalus, latus, lemanus, leucomaenis, lewesianus, lodde, lucidus, lycaodon, mackenzii, malina, maraena, melampterus, microps, microstomus, muikusi, myops, nasutus, nefasch, nigrescens, nobilis, nraka, nummifer, ochiutus, ocla, olidus, omiscomaycus, omul, orientalis, otsego, pacificus, pallidus, parr, paucidens, pelcot, pelet, penshinensis, phinoc, polcur, proteus, purpuratus, quinnat, reidur, renatus, rilla, rossi, rostratus, run-scha, rutilus, salar, salmo, sanguinolentus, scouleri, signifer, siscowet, siskiwit, sociatus, sphaerena, spirinchus, spurius, striatus, tapdisma, thymalloides, tirus, trutta-salar, truttula, tschawytscha, tsuppitch, tugun, tullibee, variegatus, varius, ventricosus, villosa.

Salmophasia elongata, oblonga.

Salmosaurus lacerta.

Salpa affinis, amphoraeformis, antarctica, anthelophora, appendiculata, aspera, bicornis, biensis, bigibbosa, bipartita, birostrata, cabota, caerulea, caerulescens, caudata, cilindrica, clostra, conica, connata, cordiformis, cornuta, costata, cristata, cyanea, cyanogaster, cylindrica, dipterygia, dolium, dubia, elephantina, emarginata, espenbergi, femoralis, ferruginea, filoroidea, forskali, fusiformis, garnoti, gibba, gibbosa, hexagona, horneri, informis, infundibuliformis, laevis, lineata, longicauda, microstoma, monotoma, mucosa, multitentaculata, neapolitana, nephodea, nucleata, octaedra, octofora, pelagica, polymorpha, proboscidealis, punctata, pyramidalis, quadrangularis, ratkeana, rhomboides, rubrolineata, runcinata, scrofa, scutigera, septemfasciata, socia, sociata, spinosa, suborbicularis, thalia, tilesii, triangularis, tricuspidata, tricuspidata, truncata, vaginata, vivipara, zonaria.

Salpina bicarinata, brevispina, lynceus, mucronata, mutica, redunca, spinigera, ventralis.

Salpinctes mexicanus, obsoletus.

Salpingia hassalli.

Salpingus aeneus, ater, bicolor, bimaculatus, cursor, denticollis, foveolatus, humeralis, hybridus, lituratus, mutilatus, piceae, planirostris, quadriguttatus, quadrimaculatus, roboris, rufescens, ruficollis, viridipennis.

Salpinx eleusina, gamelia, nemertes.

Salpiza pileata.

Salpornis spilonota.

Saltator albicollis, atra, atriceps, atricollis, aurantii-rostris, axarae, bicolor, caerulescens, cayensis, cyanopterus, elegans, guadelupinus, icterophrys, icteropyga, maculatus, maculipectus, magna, magnoides, martinicensis, melanoleucus, melanopis, niger, olivaceus, olivascens, orenocensis, psittacinus, purpurascens, riefferi, rubicoides, rubicus, ruficapillus, rufiventris, similis, sordidus, striatipictus, validus, vigorsii, virescens, viridis.

Saltella longipes, nana, nigripes, sellata.

Salticella saltatrix.

Salticus abietis, aeneus, aethnis, agilis, albifrons, albobimaculatus, albocinctus, albotrimaculatus, albovittatus, algerinus, angustatus, annulipes, arenarius, ater, aurantius, basseleti, berbruggeri, berolinensis, bicolor, bivittatus, blancardi, borealis, boryi, bovaei, brasiliensis, brasnieri, brevipes, catesbaei, chalybeius, cinctus, cirratus, confusus, crux, cupreus, decorus, distinctus, duriaei, erraticus, erythrogaster, fallax, fasciatus, flavescentemaculatus, flavipalpus, flavipes, formicaeformis, formicarius, fuliginosus, fulviventris, fulvopilosus, fulvotrilineatus, fulvounilineatus, gesticulator, gracilis, grossipes, guichenoti, guyoni, heterophthalmus, hilarulus, igneus, jucundus, lepidus, leucogramma, levaillanti, lilliputianus, limbatus, littoralis, luctuosus, maculatus, maestus, mandicator, mauritanicus, melvillensis, meticulousus, monardi, moreleti, mutabilis, mutiloides, nicoleti, nigrifrons, nigripes, nigromaculatus, nitidiventris, nitidus, nivoyi, numidus, obscurus, oraniensis, paludivagus, pini, pomatius, propinquus, pubescens, purpuratus, pustulatus, quadripunctatus, quinquepartius, ravoisiaei, rufifrons, rufolimbatus, rufolineatus, rumpbi, sanguinolenta, scenicus, scolopax, sloani, sumptuosus, sundevalli, tardigradus, testaceo-lineata, theisi, tigrinus, unifasciatus, vaillanti, variegatus, xanthogramma.

Salvator merianae, nigropunctatus, teguixin.

Salyavata variegata.

Samaris cecropia, cristatus, cynthia.

Samia promethea.

Sandalium aculeatum, pictum.

Sandalus brevicollis, brunneus, corarius, fuscus, goudoti, knochi, mystacinus, niger, petrophysa, rubidus.

Sandat coro, lucioperca.

Sandrus coro, lucioperca.

Sangaris concinna.

Sanguinolaria alpina, angustata, arcuata, attenuata, biradiata, californiana, carinata, compressa, deilorata, dichotoma, diphos, dorsata, elegans, elliptica, fusca, gibbosa, gracilis, hollowaysi, iridescens, laevigata, lamarcki, lamellosa, lata, lirata, livida, lusoria, maxima, neptuni, nuttalli, oblonga, obovata, obtusa, occidens, okeni, parvula, phaeolina, plicata, punctata, pusilla, pygmaea, roemerii, rosea, rotunda, rugosa, soleniformis, sordida, striata, subcarinata, sulcata, tellinaria, tellinoides, transversa, trigona, truncata, tumida, undata, undulata, ungeri, vespertina, vetusta, violacea.

Sanguinolites angustatus, arcuatus, contortus, costellatus, curtus, discors, elegans, iridinoides, liratus, plicatus, radiatus, sulcatus, transversus, tricostatus, tumidus, undatus.

Sanguisuga albiguttata, carena, chlorogaster, egyptiaca, granulosa, hypochlora, interrupta, japonica, marginata, medicinalis, meridionalis, muricata, obscura, officinale, swampina, troctina, verbana, zeylanica.

Sannazaria pallida.

Sannionite crepitaculum.

Sanzinia madagascariensis.

Sao hirsuta, nana.

Sapajou cornutus, saimiri.

Sapajus jacchus.

Saperda absyrti, acuminata, acuta, adpersa, affinis, albicans, albicincta, albida, albilatera, albocincta, albuguttata, albomarginata, albonotata, albo-scutellata, albosignata, altaica, alternata, amicta, ampliata, angusticollis, annulata, antennata, apicalis, argentata, argus, asphodeli, atkinsoni, atomaria, attenuata, aurata, aureola, aurentata, azurea, baccueti, baleanica, balteata, basalis, bicolor, bicuspidata, bi-dentula, bifasciatus, biguttata, bilabilis, biloba, bipunctata, bivittata, bosci, caerulea, calcarata, cana, canescens, capta, capreola, capreolus, cardui, carissima, cassandra, cava, centrolineata, ciliaris, ciliicornis, cincticornis, cinerea, cingulata, ciunnamomea, cirrata, clavicornis, coerulea, collaris, compacta, conspersa, cornuta, costata, crassicornis, cretata, crinicornis, cyanella, cynarae, dahli, dasytera, decandollei, decempunctata, decora, dentipennis, depressa, deusta, dimidiata, diophthalma, discoides, dubia, duponcheli, echii, elongatula, emarginata, estellae, euphorbiae, ferrea, festiva, fimbriata, flammata, flavescens, flavipes, fricator, fulvicollis, fumigata, fuscipes, gebleri, geminata, genei, gilvimana, giraffa, glauca, globulicollis, gracilicornis, gracilis, graeca, guerini, hemispila, hirsuticornis, hirsutula, hirticornis, hirtimana, holosericea, humeralis, ictérica, incensa, inornata, interrupta, juglandis, juncea, juvenca, kirbyi, laeta, lanifica, lata, lefebvrei, lemniscata, leprosa, leucospila, leucospis, lichenigera, lima, lineata, lineosa, liturata, loniceræ, luctuosa, macularis, maculata, maculicornis, maculosa, mandarina, marginata, marginella, marginevittata, marmorea, melancholica, niles, millefolii, mirabilis, modesta, moesta, molybdaena, muhlfeldi, multi-guttata, multipunctata, murina, musiva, mutica, nephele, nigra, nigriceps, nigricornis, nigrifrons, nigrifrons, nigromaculata, nigrovirens, obliqua, obliquata, oblongoguttata, obscuricornis, ocellata, ochracea, octoguttata, ocellaris, oculati collis, olivacea, ophthalmica, palliata, pannonica, patruelis, paulla, pectoralis, pennicornis, perforata, pergrata, phoebe, picta, pilosicornis, poecila, praetextata, pulchella, pulchra, pullata, puncticollis, punctigera, punctum, pupillata, quadri-cornis, quadri-maculata, quadri-notata, quattuordecimmaculata, quercus, ragusana, rubescens, rubricollis, rubropunctata, ruficornis, rugicollis, scopulicornis, scovitzii, scripta, scutellata, seyoli, senegalensis, seydlia, signata, simplex, smaragdina, sobrina, solidaginis, spectabilis, spencei, spinosa, spissicornis, strigosa, subaenea, sublineata, sulphurata, tenuicornis,

terminata, testacea, tigrina, togata, tremulae, triangularis, trichocera, trigeminata, trilineata, tripunctata, trivittata, tuberculata, umbellatarum, uncinata, undata, unicolor, ustulata, vanikorensis, varicornis, varius, venusta, verbasci, verticalis, vestita, villicornis, villosa, virginea, virgula, viridicincta, vitta, vittifera, vittigera, vulpina, zschornii.

Saphaea proboscidea.

Saphanus cylindraceus, piceus, spinosus.

Saphenia balearica, bituberculatus.

Sapheosaurus thiollieri.

Sapphirina fulgens, indicator.

Saprinus aemulus, aeneus, aeratus, algericus, amoenus, antiquulus, apriciarius, assimilis, aterrimus, azureus, bicolor, bigener, biguttatus, bisignatus, blandus, californicus, chalcites, concinnus, conformis, conjungens, connectens, crassipes, cruciatus, cupratus, cupreus, curtus, cyaneus, decoratus, deletus, detersus, dimidiatipennis, dimidiatus, distinguendus, equestris, externus, flexuosofasciatus, fraternus, furvus, gilvicornis, granarius, immundus, imperfectus, impressus, incisus, innubus, interruptus, intricatus, laetus, lateralis, lautus, lepidus, lugens, maculatus, mancus, mauritanicus, melas, metallicus, minutus, modestus, niger, nitidulus, nitidus, oregonensis, ornatus, palmatus, patruelis, pavidus, pennsylvanicus, piceus, placidus, planiusculus, praecox, prasinus, procerulus, proximus, pseudocyanus, pulchellus, pullus, punctatissimus, puncticollis, quadriguttatus, quadristriatus, rotundatus, rubripes, rufipes, rugifrons, rutilans, sabuleti, semipunctatus, sparsipunctatus, speciosus, speculifer, sphaeroides, splendens, spretulus, subattenuatus, sulcifrons, tripartitus, turcomanicus, uralensis, venustus, vireseens.

Sapromyza affinis, albiceps, albifrons, ambusta, americana, amida, analia, anisodactyla, apicalis, arcuata, argus, basalis, baumhaueri, bengalensis, bicolor, biguttata, binotata, bipunctata, bipunctella, biseriata, biumbata, blepharipteroides, brunnitarsis, chlorophthalma, chrysophthalma, citrina, conferta, consobrina, contigua, corollae, costata, decempunctata, decipiens, dichromata, dimidiata, dorsalis, dubia, duodecimpunctata, falleni, fasciata, femorella, flava, flaveola, flavipalpis, flaviventris, frontalis, fuscicornis, fuscipes, fuscosteacea, geminata, geniculata, grata, grossipes, guttulata, guyanensis, hilarella, illota, interstincta, intonsa, inusta, laeta, lebasii, levis, linbinerva, litura, longipennis, longiseta, lupulina, lutea, mactans, maculipennis, marginata, melanogaster, melanura, mellina, multipunctata, nigrimana, nigripes, notata, novempunctata, obesa, oblique punctata, obscuripennis, obsoleta, octopuncta, pallida, pallidiventris, philadelphia, placida, platycephala, plumicornis, porcaria, praeusta, punctata, puncticornis, quadrinotata, quadripunctata, quinque maculata, resinosa, rivosia, roberti, rorida, rubescens, saltuum, scropharia, scutellata, senilis, septentrionalis, setiventris, sexmaculata, sexnotata, sexpunctata, simplex, sordida, spinitarsis, suavis, subfasciata, subvittata, suillorum, tarsella, tenera, testacea, tibialis, transversa, trifasciata, trimaculata, trinotata, tubifer, umbellatarum, unguicella, unicolor, usta, ustulata, vigintipunctata, vittata, wiedemanni.

Saprophilus maxillosus.

Sapyga annulata, biguttata, centrata, cylindrica, decempunctata, decipiens, fiduciaria, maiorta, octoguttata, prisma, punctata, quadripunctata, quinquepunctata, sexcincta, sexguttata, sexpunctata, similis, subulata, varia, volvulus.

Saraceneria italica.

Saraglossa madagascariensis, spilopterus.

Saragus laevicollis.

Saraphia pleyfela, sexdentata, tridentata, unidentata, uniplicata.

Sarapus glabratus.

Sarchirus argenteus, vittatus.

Sarchophaga pygmaea.

Sarcinula angularis, archiaci, astreata, astroites, auleticon, bougainvillei, chalcidea, chalcidica, concordis, conoidea, contexta, costata, divaricata, divergens, dubia, ellisi, erecta, fascicularis, faveolata, favosa, geometrica, glabra, gratissima, hexagonalis, hystrix, irregularis, laperosiana, longissima, microphthalma, mirifica, musicalis, organum, pauciradiata, perforata, phillipsi, placenta, plana, punctata, quincuncialis, quoyi, ramosa, sulcata, tuberosa.

- Sarciophorus** albiceps, bilobus, fuscus, pectoralis, pileatus, tricolor.
- Sarcochitum** polyom.
- Sarcoconus** eyenhardtii, foliaceus, heptacanthus, imbricatus, triangularis.
- Sarcodictyon** catenata.
- Sarcogyps** ponticerianus.
- Sarcophaga** acerba, aegra, affinis, agricola, albicans, albiceps, albida, albifrons, albipennis, alpina, amata, anaces, anxia, argyrocephala, arvensis, arvorum, aspera, atriceps, atropos, auriceps, aurifrons, avida, bipunctata, brevigaster, brunnicans, caerulea, caerulescens, calida, campestris, carinaria, cayennensis, chilensis, chlorogaster, chrysostoma, circumcisa, clathrata, collinaris, comta, crassipalpis, cruentata, cubensis, depressiformis, dimidiata, dissimilis, diversimaculata, edax, erythrocerus, erythrura, evonymellae, flaviceps, flavicostata, flavifrons, floralis, fuliginosa, fulvipalpis, fulvipes, fuscipalpis, genarum, georgina, gravis, grisea; haematodes, haemorrhoea, haemorrhoidalis, hemisphaerica, hirtipes, humilis, immaculata, immanis, impatiens, importuna, ingens, inoa, inops, intricaria, irrequieta, jejuna, lambens, lasiostyla, lateralis, laticornis, laticerus, latifrons, lineata, lineatocollis, longicornis, luteifrons, maculata, madagascariensis, mauritiana, melanura, misera, modesta, morio, mortuorum, musca, muscaria, nigriventris, nigro cyanea, notata, obscura, obsoleta, occidua, offuscata, opima, ortogesa, pallipalpis, parvula, phoenicurus, pigmaea, plinthopyga, praeceps, praedatrix, praedo, princeps, proerna, propinqua, pudica, pumila, pusilla, pygmaea, quadrata, quadrivittata, querula, rabida, rapax, rediviva, redux, regularis, rubella, ruficauda, ruficornis, rufipalpis, rufipes, rufiventris, ruralis, sinuata, squamigera, stimulans, striata, sugens, surinamensis, tenuipalpis, terminalis, tertripunctata, tessellata, thornax, trigonomaculata, trivittata, unicolor, vagans, varia, varipes, vespillo, vicina, vigil, violenta, vittata, vorax.
- Sarcophilus** ursinus.
- Sarcophinanthus** papillosus, sertum.
- Sarcophora** nana.
- Sarcophyton** lobulatum, plicatum.
- Sarcopsylla** canis, penetrans.
- Sarcopterus** ruber.
- Sarcoptes** avicularium, bovis, cati, cynotis, dromadarii, dysenteriae, equi, exulcerans, hippopodos, hominis, musculus, nidulans, ovis, palumbinus, passerinus, rupicaprae, scabiei, strigis, vegetans.
- Sarcotilus** grandis.
- Sarcoramphus** californicus, condor, gryphus, papa.
- Sarda** sarda.
- Sardinella** anchovia, aurita, granigera, leiogaster, lineolata, longiceps, neohowi.
- Sarea** caeca.
- Sarginites** pygmaeus.
- Sargodon** tomicus.
- Sargus** acutirostris, affinis, alchidas, amethystinus, analis, andreas, annularis, annulipes, arenosus, argenteus, aries, armatus, ascensionis, azureus, bagosas, bicolor, bipunctatus, bispinosus, brasiliensis, caeruleicollis, capensis, cervinus, cimicoides, claviventris, coarctatus, corrigiolatus, cursitans, cuvieri, cyaneus, cylindrica, decorus, dorsalis, echemon, elongatus, ephippium, falleni, fasciatus, filiformis, flavicornis, flavipennis, flavipes, flaviventris, flavolineatus, formosus, furcifer, gemmifer, geniculatus, haterius, hirticornis, holosericeus, hoplistes, hortulanus, hottentottus, humerimaculatus, hypoleon, inermis, infuscatus, jomnitanus, jucundus, lateralis, limbatus, lineatus, longipennis, macquarti, macula, melampogon, melleus, metallinus, minimus, niger, nigrifemorata, nigripes, nitidus, noet, notatus, nubecularis, obscurus, ovicephalus, ovis, pachygaster, pallidus, pallipes, petiolatus, posticus, puntazzo, raucus, reaumuri, rhomboides, rondeleti, ruficornis, rusuccritanus, salviam, sapphirinus, sargus, sitifensis, speciosus, splendens, stamineus, sulphureus, taeniatus, tenebrifer, testaceus, thoracicus, trilineatus, trivittatus, unimaculatus, vespertilio, vetula, viridis, vulgaris, xanthopterus, xanthopus.
- Sariama** cristata.
- Sarcovia** brasiliensis.

- Sarkidiornis** africanus, melanotus, regius, sibilatrix.
Sarmaticus classicarius, sarmaticus.
Sarochalinus ater, rhinolophus.
Sarophorus tuberculata.
Saropoda bimaculata, byssina, furcata, humilis, latizona, lutulenta, nigrilabris, rotundata, subglobosa, tenella, vulpina.
Sarotes regia.
Sarothrocera lowi.
Sarothrocrepis corticalis.
Sarothrus areolatus, canaliculatus, levigatus.
Sarrotrium tauricum, tuberculatum. *Vide et Sarrotrium.*
Sarrothripa ramosana, revayana.
Sarrothripus afzeliana, degenerana, dilutana, ilicana, lathamiana, punctulana, ramosana, revayanus, stonanus, stoninus, undulanus.
Sarrotrium celtis, clavicorne, crassicorne, crenulatum, hirticorne, hispidum, tereticorne. *Vide et Sarrotrium.*
Sarsia gemmifera, prolifera, pulchella, tubulosa.
Sasa cristata.
Sasia abnormis, ochracea.
Sastragala uniguttata.
Sastrapada flava, sub-pinosa.
Saturnia acetes, atthis, agathylla, alcinoe, alinda, alopia, angasana, apollinaris, arata, argus, assama, assamensis, atlantica, baubiniæ, belina, boisduvali, carpini, cecropia, certhia, coecigena, cynthia, delegorguei, epimethea, ethra, forda, helena, hera, hersilia, iris, isabellæ, isis, janetta, katinka, laplacei, larisæ, leto, lola, lucina, maja, mangiferae, martii, menippe, mimosæ, minor, mylitta, mythimnia, nebrophone, nenia, orbignyana, pandora, pavonia, pernotteti, phædusa, promethea, pyretorum, pyri, sancti pauli, silhetica, simla, sinope, smilax, spini, suraka, tau, trifenestrata, tyrrenna, vacuna, vulgaris, wahlbergi, zuleika.
Satyræ (A.) cornuta, lathami, macrolopha, melanocephalus, nepaulensis, pennanti, temnucki.
Satyræ (Dipt.) unguata.
Satyrus (A.) cornutus.
Satyrus (Lep.) abd-el-kader, abeona, achanta, adolpheï, adrastus, aegeria, aello, aethiops, afra, alyone, alecto, alopi, amphitrite, andromeda, anthe, antheleæ, aphidius, arachne, aranea, arcanioideus, arcanius, arcesilaus, arcet*, archebates, archemor, arcotus, areolatus, arete, arethusa, arge, argenteus, argulus, autonoe, balder, baldus, banksia, bathseba, belzebub, betra, boabdil, bootes, brahminus, briseis, brixius, bryce, byses, caecilia, cantheus, canthus, cassiope, cassius, cassus, caumas, celiæ, celmis, ceto, chelys, clienæ, chiliensis, chorinaeus, circe, clueria, clymene, clytus, cortei, constantia, cordula, corinus, cyamites, dalmata, damaris, darceti, davus, dejanira, denina, dindymene, diroxippe, disa, doritis, dorus, dorycus, doxes, dromus, echo, enbla, epiphron, eudora, europa, euryale, eurythris, evias, fauna, fidia, fortunatus, funebris, galathea, galesus, gelanor, geyeri*, girondius, goante, gorge, griela, grimon, gripus, hanifer*, herilla, hermes, hermione, hero, herseis, hesione, hiera, hylata, hyperanthus, hyperbius, hyrania, hysius, ida, iphis, irius, isana, janira, laches, lachesis, larissa, lea, leander, leda, lefebvrei, lena, leuromelas, ligea, lupinus, lydius, lylus, lyssa, machabæus, maderapal, maepius, mamurra, mandane, manipa, nanto, medusa, megaera, mehadæva, melampus, melas, melusina, mermeria, merope, mineus, mnestra, moera, montrolii, myncea, narcissus, nareda, natali, necys, neelgheriensis, neomiris, neoridas, nereis, nerine, norna, ocypete, ocyrrhoe, oedipus, oeme, oeno, orchamus, orchus, orcus, osyris, pacarus, padina, pæon, pagyris, pamphilus, panda, parisatis, peneleæ, penelope, peribas, periphas, phædra, phares, pharte, pherusa, phileropa, phileus, philoctetes, phronus, phryneus, piera, podarce, polydonta, prieuri, procida, psodea, psyche, quantius, rebecca, remulia, roxelana, saadi, saraswati, schakra, scipio, semele, servatius, shiva, singa, sosybius, stitius, stygne, swaha, tamatavæ, tarpeius, teneates, thelphassa, tithonius, tolmunia, tri-tis, valentina, verma, virgilia, xiphia, zangis, zopyrus.
Satyrus (M.) rufus, tulpii.

- Saucerottia** atala, caligatus, cyanogenys, erythronota, goudoti, saucerotti, typica.
- Sauloprocta** laticauda, melanoleuca, motacilloides, picata.
- Saura** colonorum, spualis.
- Saurichthys** acuminatus, angustus, apicalis, brevicornis, conidens, costatus, inflexus, listroconus, longiconus, longidens, mougeoti, semicostatus, tenuirostris.
- Saurida** nebulosa, tombil.
- Sauridis** modestus.
- Sauripteris** taylori.
- Sauritolepis** taylori.
- Saurocephalus** inaequalis, lanciformis, monasteri, striatus, substriatus.
- Saurocercus** longicauda.
- Saurocetus** gibbesi.
- Saurodactylus** desertorum, flavipunctatus, gaudichaudi, mauritanicus, timoriensis.
- Saurodon** lanciformis, leanus.
- Sauroidichnites** abnormis, baileyi, barratti, deweyi, emmonsii, heteroclitus, jacksoni, longipes, minutans, palmatus, polemarchius, tenuissimus.
- Sauromorphus** meticulosus.
- Saurophagus** bairdi, flavus, lictor, sulphuratus, swainsoni.
- Saurophis** lacepedei, seps, tetradactylus.
- Sauropsidium** laevissimum.
- Sauropsis** (P.) intermedius, latus, longimanus, micropodius, mordax, scoticus.
- Sauropsis** (R.) erythronotus.
- Sauropus** primaevus.
- Sauorhamphus** freyeri.
- Sauorhynchus** tenuirostris.
- Saurostomus** esocinus.
- Saurothera** bottae, californiana, dominicensis, jamaicensis, marginata, merlini, vetula.
- Saurus** anolis, argyrophanes, badi, badimottah*, carinatus, coronatus, depressus, fasciatus, ferox, foetens, gracilis, griseus, intermedius, lacerta, lemniscatus, limbatus, longirostris, lucius, macrura, meleagrides, meleagris, milii, minutus, myops, nehereus, saurus, synodus, trachinus, trivirgatus, truncatus, tumbil, undosquamis, variegatus, vulgaris.
- Sava** coronata.
- Savia** aguti, americana, paca.
- Savignella** ciliata, geoffroyi.
- Savignia** frontata.
- Savignium** laevigatum.
- Saxicava** anatina, antarctica, antiqua, arctica, australis, bilineata, blainvillei, californica, carditoides, clavis, conchotrypa, conglobata, costata, depressa, dispar, distorta, elongata, fragilis, gallicana, glabrata, grignonensis, groenlandica, guerini, legumen, margaritacea, meridionalis, miocenica, modiolina, oblonga, pectorosa, phaseolus, pholadis, planata, plicata, purpurascens, purpurea, rhomboides, rugosa, rustica, solida, striata, tenuis, turgida, ungana, vaginoides, veneriformis.
- Saxicola** albicaudata, albicoxygea, albicollis, albifrons, albiscapulata, albofasciata, amphileuca, aurantia, aurita, bicolor, bifasciata, cachinaus, caprata, chrysorrhoea, cinerea, coryphaea, cranipes, cursoria, deserti, erythraea, erythropygia, eurymlaena, explorator, familiaris, ferrea, fervida, formicivora, frontalis, fruticeti, fruticola, fulcata, fumifrons, gularis, hemprichi, hottentotta, imitatrix, incomta, infusca, insignis, isabellina, jardini, leptorhyncha, leucocampter, leucomela, leucomelana, leucoptera, leucura, leucuroides, libanotica, longirostris, lugens, lugubris, macularia, media, melana, melanura, meloleuca, merula, mitrata, moesta, monacha, montana, monticola, morio, multicolor, nigra, nigrorufa, oenanthe, oenanthoides, olivea, opistholeuca, orampes, pallida, pastor, philippensis, phoenixurus, picata, pileata, pratorum, pyrrhonotus, rhodinogaster, rostrata, rubecola, rubeculoides, rubetra, rubicola, rufiventer, rufocinerea, saltator, saltatrix, saturator, semirufa, septentrionalis, sialis, sibilla, solitaria, sordida, sperata, splendens, squalida, stapazina, suecica, superciliaris, thoracica, tites, tithys, violacea, vittata, xanthomelaena, xanthoprymna.
- Saxidomus** nuttalli.

Saxinis basilaris, fragilis, omogera, quadrina, saginata, sagittaria.

Sayris bimaculatus, camperi, hians, recurvirostra, rondeleti, serrata.

Scabricola crenifera, filosa, granatina, granulosa, leucostoma, scabriuscula, serpentina, terebralis, texturata.

Scacchia elliptica, inversa, ovata.

Scaea stenogyra.

Scaeva abbreviata, affinis, albiniana, albo-striata, alneti, ambigua, angustata, annularis, annulata, annulipes, arctica, arcuata, auricollis, balteata, barbifrons, bifasciatus, bilineata, cincta, cinctella, clypeata, concava, confinis, conopsea, corollae, corrusca, decora, diaphana, dimidiata, di-par, dubia, elegans, emarginata, excisa, ferruginea, festiva, flavicincta, floralis, florum, fulviventris, geminata, glauca, glauca, grossulariae, guttata, hilaris, hyalinata, immarginata, interrupta, iris, lapponica, lasio-phthalma, lata, latimana, limbata, lineola, luniger, lunulata, macularis, maculicornis, manicata, marginata, melano-stoma, melissae, mellina, menthastri, musica, mutata, nectarea, nigritarsis, nigrocaeruleus, nitens, nitidicollis, nitidula, nobilis, nycthemera, obliqua, obscura, ochrostoma, octomaculata, ocymii, olitoria, peltata, podagrata, polita, pyrastris, quadratus, quadriguttata, relicta, ribesi, rosarum, rostrata, saltatrix, salviae, scalaris, scambus, sculpta, scutata, scutellaris, senilenica, sericans, sex-maculata, solitaria, staminea, subflexuosa, syrphoides, taeniata, tarsata, thymastri, topiaria, transfuga, triangulifera, tricineta, unibellatorum, undulata, unicolor, unifasciata, venusta, venustus, vittigera, volitans.

Scalaria abrupta, acicula, aciculata, aculeata, acuminata, acuta, adriatica, alata, albensis, albidula, albolineata, alternicostata, ambigua, amoena, amplicosta, annulata, antiqua, aurita, australis, babilonica, bicarinata, bico-stata, bicrenata, brevis, broccii, brunella, bullata, canaliculata, cancellata, candeana, carinata, catanaensis, chilensis, clandestina, clathratulus, clathrus, clementina, communis, compacta, concinna, conica, conifera, connexa, cornigera, coronata, corrugata, costata, costato-striata, costellata, costulata, crassicostata, crassilabrum, creberrima, crenata, crenulata, crispa, curvilineata, cyclostoma, decorata, decussata, denticulata, denudata, diadema, diana, disjuncta, dubia, dupiniana, eburnea, echinatis-costa, ehrenbergi, elatior, elegans, elenensis, eschrichti, essingtonensis, eximia, expansa, fasciata, ferussaci, fimbriata, fimbriosa, foliacea, foliacei-costa, francisci, friabilis, frondicula, frondosa, fusca, gastyna, gaultina, geniculata, genuina, georgettina, glabrata, gracilenta, gracilis, gradata, granulosa, greenlandica, groenlandica, gurgitis, hamulifera, hellenica, hexagona, hotessieriana, humphreysi, hyalina, immaculata, imperialis, inconspicua, indistincta, insignis, interrupta, irregularis, jomardi, kayei, lactea, laevigata, lamellosa, lanceolata, laxata, leopoliensis, ligata, limata, lineata, lineolata, lyra, maculosa, magellanica, magnifica, marmorata, maroccana, martinii, melanoidea, micropleura, microstoma, mindorensis, minuta, mitraeformis, modesta, monilifer, monocycla, mucronata, muensteri, multicostata, multifamella, multistriata, muricata, mutica, nassula, neglecta, notha, novangli, obesa, obliqua, oblita, obtusa, obtusicostata, ochotensis, ovalis, pachypleura, pallas, pallas, parva, philippii, philippinarum, planicosta, planulata, plicata, plicosa, polenburgi, polita, porrecta, pretiosa, prid-eauxiana, principalis, procera, pseudoscalaris, pulchella, pulcherrima, pulchra, pumicea, pusilla, pygmaea, pyramidalis, quinquefasciata, raricosta, varicosata, rauliniana, replicata, reticulata, retusa, rhodani, ricordeana, rubro-lineata, rudis, rugosa, rugulosa, rustica, scaberrima, semicostata, serrata, sessilis, sillimani, similis, spirata, statuminata, striata, striatula, subcylindrica, subdecussata, subinterrupta, subpretiosa, subpumicea, subspinosa, subtilis, subtrubinata, subulata, subundosa, subundulata, subvaricosa, suturalis, tenera, tenuicostata, tenuilamella, tenuis, tenuistriata, terebralis, textorii, texturata, tilesii, torulosa, trevelyana, trico-stata, trifasciata, trigintanaria, trinacria, trochiformis, tumida, turbinata, turricula, turrita, turritellata, turtoni, turtonia, turtonis, uncinatis-costa, undosa, varicosa, variegata, venosa, venusta, vestalis, vulpina, webbi, zonata.

Scalarus scalatus.

Scalenium planum, undulatum.

Scales pilosus.

Scalibregma inflatum.

- Scalicerus** pediculus.
Scalidion hilare.
Scalis minax.
Scalites angulatus, domanicisiensis, issedon, planistria, roemeri, stamineus, striatus.
Scalops aquaticus, argentatus, breweri, canadensis, cantata, latimanus, pennsylvanica, townsendi.
Scalpellum laeve, levis, magnum, ornatum, papillosum, siciliae, vulgare.
Scambus echinatus, galeatus, setifer.
Scapanes australis, solidus.
Scapanus breweri*, townsendi.
Scapha (Col.) nigra, poccila.
Scapha (G.) fasciata, undulata.
Scaphander attenuata, bronni, catenatus, conica, fortisi, giganteus, librarius, lignarius, parisiensis, patulus, targionius.
Scapharea inaequalivalvis.
Scaphella elongata, fulgetinus, fusiformis, junonia, maculata, papillaris, papillosa, stromboides, undulata, volvacia, zebra.
Scaphidema bicolor.
Scaphidium acuminatum, armadillo, atomarium, basale, bicolor, castaneum, concolor, consobrinum, convexum, deletum, dubium, fasciatum, ferrugineum, globosum, griseum, haemorrhoidalis, limbatum, mexicanum, nigripes, nigrum, octopunctatum, pardalis, piceum, punctatum, pusillum, quadriguttatum, quadripustulatum, simile, terminatum, unicolor.
Scaphidomorphus bitaeniatus, chamoeleo, crabronoides, duponcheli, herbsti, impluviatus, notatus, opalians, praeustus, quinquepunctatus, undatus, zigaena.
Scaphidura atrovioleaceus, barita, crassirostra.
Scaphidurus ater, niger, palustris.
Scaphigenia bubalus, cornuta, gazella, kollari, religiosa.
Scaphinotus elevatus, flammeus, heros.
Scaphiodactylus funesta, moesta, opaca.
Scaphiodon amir, capoeta, damascinus, fratercula, guttatus, macrolepis, maculatus, niger, peregrinorum, progastus, richardsoni, saadi, socialis, tinca, trutta, umbra.
Scaphiopus solitarius.
Scaphiosoma minutum.
Scaphirhynchus rafinesquei.
Scaphisoma agaricina, assimile, convexa, limbatum, terminatum.
Scaphites afflictus, alpinus, bicoronatus, binodosus, bowerbanki, compressus, conradi, constrictus, costatus, cuvieri, dentatus, equalis, geinitzi, gigas, grandis, hillsi, hippocrepis, hugardianus, inflatus, nicolleti, obliquus, ornatissimus, ornatus, phillipsi, plicatellus, proboscideus, pulcherrimus, puzosi, quadrispinosus, refractus, reniformis, rochatianus, roemeri, solidus, striatus, tenuistriatus, tridens, trinodosus, trispinosus, uptonensis, yvanii.
Scaphium castanipes, immaculatum.
Scaphodus heteromorphus.
Scaphophyllia cylindrica.
Scaphorhynchus atriceps, audax, chrysocephalus, flaviceps, pitangua.
Scaphorynchus sulphuratus.
Scaphula (G.) patula.
Scaphula (Hem.) alutacea, centromaculata, flavicans, semiatra.
Scaphula (L.) celox.
Scaphura bicolor, chalybea, denuda, edwardsi, ferruginea, kirbyi, nitida, vigorsi.
Scapites bifurcatus.
Scapteira inaequalis, inornata, leiocerca, lineata, maculata, nebulosa, pulchella, punctulata.
Scapteromys tumidus.
Scapterus guerini, longicollis.
Scaptobius acicularis, caffer, capensis.
Scaptocoris amyoti, callidus, castanea, molginus, tabulatus, terginus.
Scaptodera rhadamisthus.

Scaptomyza apicalis, graminum.

Scarabaeides deperditus.

Scarabaeus abderus, achilles, acuticollis, aeneas, aequinoctialis, affinis, aidoneus, alpinus, anaglypticus, antillarum, anubis, araneoides, arator, arbicola, arenarius, ascanius, atronaculatus, atronitidus, azureus, barbicorne, belangeri, bicolor, bifrons, bilituratus, bituberculatus, bombylifformis, bonelli, bovinus, branchus, brevis, bubulus, buculus, bufo, burdigalensis, cacicus, caeruleocephalus, caminarius, cancrroides, candidus, caniculatus, capucinus, castaneus, castor, chilensis, chorinaeus, chrysomelinus, ciliaris, cilix, citricola, clavatus, clinias, clypeatus, complanatus, conflagens, conjugatus, coprinus, copronymus, cordalis, cornifex, crassus, crinitus, croesus, cultor, cunctator, cuniculus, curtus, cuvieri, cyaneus, davus, degeeri, depressus, diana, digitatus, dimidiatus, donovani, dubius, dufrinei, dytiscoides, edentulus, egeriei, elatus, elongatus, emarginatus, entellus, ericetus, erythropterus, europaeus, exaratus, excavatus, excrementi, fastuosus, femoralis, femoratus, ferrugineus, fidius, fimetarius, fimosus, foedatus, fossator, fossor, fossula, foveatus, fulvus, furcatus, gagates, galenus, geminatus, gemmatus, gilvipes, glaber, gladiator, glaucon, glaucus, globosus, gloriosus, glycon, gonager, graculus, graninicola, greeni, grypus, guttulus, hector, herculeanus, hippocrates, hirtus, histeroides, hoppei, hottenottus, humanus, humeralis, ibrydus, iliricus, imbricatus, impressus, indicus, inermis, intermedius, intricatus, iulii, juba, jupiter, koprinus, laevicollis, laevis, lamarki, laticollis, latipes, linealis, lobatus, loxanus, lucidus, luniger, lutosus, lutulentus, maculosus, margo, maritimus, marmoratus, marschalli, medius, meles, mentor, meridionalis, metallinus, miarophagus, microcephalus, minor, mixtus, modestus, monachus, monodon, mormon, mucronatus, mundus, mutator, nigellus, niger, nigriceps, nigro-ciliatus, nigro-sulcatus, nitidulus, oblongus, obscurior, obscurus, obtusus, occidentalis, opacus, ornatus, ovalis, owariensis, parvus, pauson, pearsoni, pedestris, pensvallensis, petiveri, phocus, pini, pius, porcatus, proboscideus, pumilus, puncticollis, punctulatus, punctulus, purpurascens, pustulosus, pygmaeus, pyrenaicus, quadridecemmaculatus, quadridens, quadrisfoveatus, quadrituberculatus, relictus, reticulatus, rhododactylus, ritchi, rubeolus, rufescens, ruficrus, rugulosus, ruricola, salicis, sanctus, sanguinolentus, savignyi, sericeus, serratulae, spencei, spilotus, spiniger, splendus, squalens, stercoratus, stercorosus, striatulus, strigatus, strigosus, sturmi, subinermis, substriatus, sulcicollis, sutura, tauricus, tessellatus, the-eus, thestius, thoas, thoracicus, titornis, tityus, tricornis, tridentatus, trispinosus, tristis, truncatus, tuberculatus, tumefactus, tumulus, tumulosus, turpis, umbrosus, unguicularis, unicolor, uniformis, varius, verticornis, vittatus, volvens, xanthomela, zebra.

Scarabus abbreviatus, castaneus, cecilli, clausus, costulatus, cumingianus, fusiformis, imbricum, labrosus, lekithostoma, myotis, petiverianus, plicatus, pollex, pyramidatus, striatus, triangularis, trigonus, undatus.

Scaradon fasciatus, punctatus.

Scarcina argyrea, imperialis, punctata, quadrimaculata.

Scardia acerella, auranciella, aurentiella, betulinella, boletella, casanella, mediella, parascitella, picarella, subquadrimaculella.

Scardinius dergle, erythrophthalmus, heegeri, hesperidus, homospondylus, plotizza, rubilio, scardafa.

Scaridium longicaudum.

Scariphaeus luridipennis.

Scaris ferruginea, punctata.

Scarites abbreviatus, aeneus, affinis, alternans, angustus, anthracinus, arenarius, asphal-tinus, attenuatus, auriculatus, bacchus, barbarus, beckwithi, bengalensis, bipustulatus, brevicornis, brunneus, buerdo, bucida, caffer, capicola, carinatus, cayennensis, cephalotes, chiensis, collaris, collinus, corrugatus, corvinus, costatus, crenulatus, cribripennis, cylindricus, cylindrinotus, denticollis, depressus, dimidiatus, distinctus, dogueriau, dregeri, elongatus, emarginatus, ephialtes, ephialtus, eurytus, exaratus, exasperatus, excavatus, exulptus, feisthameli, fischeri, fladermanni, gagates, gaga-tinus, georgiae, geryon, glaberrimus, glabratus, globosus, globulus, glypticus, goudoti, grandis, guineensis, herbi, heros, hespericus, heterogrammus, hope, impressicollis, impressus, intermedius, interruptus, laordairei, laetus, laevicollis, laevigatus, laevis,

languidus, lateralis, lenaeus, levaillanti, linearis, lunatus, lusitanicus, macleayi, madagascariensis, magellanicus, mancus, melanarius, molopinus, morio, natalensis, nigrilus, nitidus, oblongus, octoguttatus, octopunctatus, orientalis, otus, ovipennis, parallelus, parvus, patruelis, perplexus, persicus, peruvianus, piceus, picicornis, planatus, planus, platynotus, politus, polyphemus, procerus, punctato-striatus, punctum, pyracmon, quadratus, quadriceps, quadricollis, quadrimaculatus, quadrupunctatus, reticulatus, rotundipennis, ruficornis, rugiceps, rugicollis, rugosus, sabuleti, salinus, savagii, saxicola, schroetteri, sculptilis, scutosus, selene, semicircularis, senegalensis, seriepunctatus, sexpunctatus, silenus, striatus, sturmi, subcylindricus, subdepressus, sublaevis, substriatus, subsulcatus, subterraneus, subterreus, sylvestris, tauricus, tenebricosus, terricola, thlonensis, trilineatus, troglodytes, unicolor, unipunctatus, vicinus, viridis, volgensis.

Scaphia directa.

Scartelaos calliurus, chrysophthalmus, viridis.

Scartes murinus.

Scarum abildgaardi, acroptilus, aeruginosus, alternans, amplus, arcuatus, auritus, auro-frenatus, balinensis, bennetti, bicolor, blochi, bottae, bowdichi, caeruleus, caeruleus, capistratoides, capistratus, capitaneus, catesbyi, chadri, chloris, chlorodon, chrysopomus, chrysopterus, coccineus, coelestinus, coeruleo-punctatus, coeruleus, collana, cretensis, creticus, cruentatus, cyanescens, cyanognathos, cyanurus, denticulatus, diadema, dubius, dussumieri, emneacanthus, erythron, fasciatus, festivus, flavescens, flavomarginatus, formosus, forskaeli, forsteri, frenatus, frondosus, frontalis, georgii, gibbus, globiceps, guacamaia, guttatus, herit, kakatoe, lacerta, latus, lepidus, limbatus, longiceps, loro, lunulatus, maculosus, magrathi, mastax, mentalis, mertensi, micrognathos, muricatus, mutabilis, naevius, nigricans, nuchipunctatus, ocellatus, oviceps, ovifrons, pectoralis, pepo, prasiognathis, pulchellus, pullus, punctulatus, purpuratus, pyrostethus, quadrispinosus, quinquefasciatus, quoyi, radians, rivulatoideus, roseiceps, rostratus, rubiginosus, rubripinnis, rubronotatus, rubroviolaceus, rueppeli, russeli, scaber, scabriusculus, sexvittatus, sculus, sidjan, spilurus, spinidens, striatus, sumbawensis, taeniopterus, taeniurus, tricolor, trilobatus, trispinosus, turchesius, vaigiensis, variegatus, venosus, vetula, virens, viridescens.

Scatella aestuans, buccata, cinerea, comata, despecta, lacustris, leucostoma, lutosa, noctule, paludum, quadrata, quadriguttata, sibilans, sorbillans.

Scatharus graecus.

Scathops latrinarum.

Scatimus cucullatus.

Scatina claripennis.

Scatomyza affinis, antennata, argus, borealis, frontata, fucorum, fuscinervis, glabrata, griseola, heteromyzina, inquinata, litorea, lutaria, maculipes, muscaefornis, muscaria, muscina, scybalaria, signata, spurca, squalida, stercoraria, suilla, villipes.

Scatonomus barbatus, chalybeus, fasciculatus, myrmidon, smaragdinus, viridis.

Scatophaga albipes, analis, apicalis, arrogans, atra, audouini, bicolor, bipunctata, bispinosa, buccata, calida, capensis, carolinensis, chaerophylli, cincta, cineraria, cinerea, claripennis, contigua, cornuta, crassipennis, cucularia, decipiens, diadema, ephippium, eximia, exotica, fasciata, flavipennis, flexuosa, formosa, fucorum, furcata, fuscinervis, gemmata, gracilis, graminum, griseola, holosericea, hottentotta, humeralis, humilis, incisa, inquinata, intermedia, lateralis, latipalpis, lefebvrei, limbatella, litorea, lobata, lutaria, macilentia, marginata, marina, maritima, marmorea, merdaria, merdivora, morio, nemorosa, nigra, nigricans, nigricornis, nigripennis, oblitterata, oceana, ochrocephala, onopordinis, ostiorum, pallida, pallipes, parisiensis, pectoralis, poecaria, pubescens, punctata, reticulata, rosae, rudis, rufa, ruficeps, rufifrons, rufipes, scropharia, scybalaria, serotina, signata, soror, spurca, squalida, stercoraria, stictica, suilla, tessellata, thoracica, trimaculata, umbrarum, unilineata, urticae, villipes, zamel.

Scatophagus argus, bougainvillei, fasciatus, frontalis, multifasciatus, ornatus, purpurascens.

Scatophora carolinensis, merdaria.

Scatops dubius, latrinarum, leucopezus, niger, rufa, vernalis.

- Scatopse** albipennis, albitarsis, atrata, brevicornis, clavipes, femoralis, flavicollis, flavipes, flavitarsis, fulvitarsis, fuscinervis, fuscipes, geniculata, glabra, halterata, infumata, maculata, major, minuta, nectaria, nigripennis, nitens, notata, obscura, ochracea, picea, picipes, pulicaris, punctata, pusilla, recurva, reptans, scutellata, soluta, transversalis, tristis.
- Scaurus** aegyptiacus, barbarus, calcaratus, carinatus, distinctus, dubius, elegans, gigas, gracilis, hespericus, miliaris, perlatus, pimelia, porcatus, punctatostriatus, puncticollis, sancti-amandi, scabridus, varvasi, vicinus, viennensis.
- Scelaenopla** angusticostata.
- Sceleocantha** glabricollis, pilosicollis.
- Sceliages** hippias, iopas.
- Scelidotherium** bucklandi, leptocephalum, oweni.
- Scelio** acta, ater, clavicornis, duris, gobar, longicornis, ruficornis, rugosulus.
- Sceliphron** cyaneum, fuscum, lunatum, madraspatana, spirifer.
- Scelodonta** curculionoides.
- Scelodromus** knoxi.
- Sceloenopla** spinipes.
- Scelophysa** militaris, pruinosa.
- Sceloporus** aeneus, formosus, grammicus, horridus, microlepidotus, pleurostictus, scalaris, spinosus, torquatus, undulatus, variabilis.
- Scelosodis** castaneus.
- Scelospiza** francesi.
- Scelotes** anguineus, bipes, linnaei.
- Scelotrema** crassicaudatum, formosum.
- Scenopimus** ater, domesticus, femoratus, fenestralis, furcinervis, glabrifrons, halteratus, mizer, nigripes, orbita, pallipes, runtarsis, rugosus, scutellatus, senilis, sulcicollis, vitripennis, zelleri.
- Scepsis** nivalis.
- Schaefferella** litigiosa.
- Schaeniclus** australis, chinensis, minuta, minutilla, pectoralis, pusillus, schinzi, temmincki.
Inde et Schoeniclus.
- Schaenicola** intermedia, pyrrhuloides.
- Schedophilus** medusophagus.
- Schematiza** axillaris, dimidiata, flavifasciata, frenata, lycoides.
- Schidax** spararia, squammaria, squammularia, venetaria.
- Schidonychus** brasiliensis.
- Schiffermuelleria** procerella, schaefferella, schrankella.
- Schilbe** auratus, boalis, garua, hasselquisti, intermedius, isidori, mystus, pabo, scharuf, setegallus, uranoscopus, vulgaris.
- Schillee** sykesi.
- Schilus** pallasi.
- Schimotocheilus** lepreuri.
- Schinia** litasica, gracilentia, obtusangulus, trifascia.
- Schismaderma** lateralis.
- Schistocephalus** dimorphus.
- Schistostege** dealbata, decussata, exalbata, nubilata.
- Schistura** aculeata, balgara, dario, geta, grandis, montana, punctata, rupecula, savona, scaturima, subfusca, zonata.
- Schisturus** cyclopternus, cyprinaceus, gobinus, lota, molae, paradoxus, pectoralis, salmonus.
- Schizaspidia** furefer.
- Schizaster** acuminatus, aequissus, agassizi, ambulacrum, atropos, beillardii, borsoni, canahierus, cerasus, corsicus, cubensis, cultratus, diulfensis, eurynotus, foveatus, fragilis, gener, gibberulus, goldfussi, graecus, grateloupi, incertus, intermedius, latus, obliquatus, ovatus, parkinsoni, raulini, rimosus, scillae, stellatus, studeri, subincurvatus, verticalis, vicinalis.
- Schizhoris** zonurus.
- Schizia** servillei.

- Schizocephala** bicornis, chalybea, oculata, stricta.
- Schizocera** hyaloptera, inaequalis, obscura, pallipes, xanthoptera.
- Schizocerus** furcatus, nasicornis, ochrostigma, peleiteri.
- Schizocheilus** brasiliensis.
- Schizochelus** bicoloripes, flavescens.
- Schizochiton** incisus.
- Schizocrinus** nodosus, spina, striatus.
- Schizodactylus** monstrosus.
- Schizodon** (M.) fuscus.
- Schizodon** (P.) fasciatus.
- Schizodus** devonicus, rossicus, rotundatus, schlottheimi, sulcatus, truncatus.
- Schizogenius** canaliculatus, ferrugineus, gracilis, impressicollis, strigicollis, sulcatulus, sulcifrons, tristriatus, xanthopus.
- Schizognathus** macleayi, nigripennis.
- Schizoloma** amictum.
- Schizoneura** corni, costata, lanigera, lanuginosa, reamuri, tremulae, ulmi.
- Schizonicha** cervina.
- Schizonycha** abyssinica, brevicollis, cribrata, elongata, fuscescens, henningi, heudeloti, nilotica, vicina, xarthodera.
- Schizophrys** serratus, spiniger.
- Schizopyga** analis, minuta, podagrica, tricingulata.
- Schizopyge** curvifrons, longipennis, nasus, niger, plagiostomus, sinuatus.
- Schizorhina** atropunctata, bassi, besti, guerini, obliquata, philipsi, plumigera, princeps, rugososulcata, succinea, thoreyi. *Vide et Schizorrhina, Schizzorrhina.*
- Schizorhis** africana, concolor, leucogaster, personata, zonarius.
- Schizorrhina** palmata, philipsi, rugosa. *Vide et Schizorrhina, Schizzorrhina.*
- Schizostoma** antitorquata, babylonicum, bistriata, buchi, buddi, catillus, clathratum, constrictum, contraria, costata, curta, cylindracea, delphinuloides, dentata, excisa, fasciatum, funiculatum, gracilis, increscens, laciniatum, latifasciatus, marginata, pagoda, puzosi, radians, radiata, serrata, striatellum, subcostatum, taeniatum, trincta, vittatum.
- Schizostomum** productum.
- Schizothorax** barbatus, curvifrons, edeniana, esocinus, huegeli, intermedius, longipennis, micropogon, nasus, niger, plagiostomus, planifrons, ritchieana, sinuatus.
- Schizotreta** elliptica.
- Schizotus** cervicalis.
- Schizo**→ *Vide et Schyzo*→.
- Schizura** (A.) maluioides.
- Schizura** (Lep.) ipomaeae.
- Schizzorrhina** xanthopyga. *Vide et Schizorhina, Schizzorrhina.*
- Schlottheimia** antiquata.
- Schoeniclus** albescens, arundinaceus, cinclus, magnus, subarquata. *Vide et Schaeniclus.*
- Schoenicola** platyura.
- Schoenicera** sexnotata.
- Schoenis** artemis, cinxia.
- Schoenobates** walkeri.
- Schoenobrus** forficellus, gigantellus, mucronatus, mucronellus.
- Schoinobates** leucogenys.
- Schrankia** taeniatum, turfosalis.
- Schreckensteini** festaliella.
- Schyzocera** axillaris, peleiteri.
- Schyzognathus** prasinus.
- Schyzops** aegyptiaca.
- Schyzorrhina** gymnopleura, insularis, variolosa. *Vide et Schizorrhina, etc.*
- Schyzo**→ *Vide et Schizo*→.
- Sciadion** furvata.
- Sciadocephalus** megalodiscus.

Sciaena adusta, aquila, argentata, argentea*, argyrea, aurata, auratus, boops, caprodes, chinensis, chromis, ciliaris, ciliata, corbosasprensis, crocea, croker, cultrata, dux, elongata, figaro, imbricata, formosa, fusca, gadoides*, gibbosa, gigas, grisea, guttata, gymnodon, heptacantha, hololepidota, imberbis, japonica, lucida, macroptera, maculata, malabarica, melanura, miles, mugil, multifasciata, nebulosa, nobilis, opercularis, oscula, pama, pentadactyla, rubella, saxatilis, smirnensis, squamipennis, squamosissima, trutta, vittata.

Sciaenurus bowerbanki, crassior.

Sciaphila albasana, achatana, agrestana, albulana, alpicolana, asperana, cane-cana, cerusana, cinctana, communiana, cretaceana, crysantheana, cuphana, diversana, duplana, fasciolana, festivana, fragosiana, frutetana, fuligana, histriana, horridana, hybridana, incertana, inundana, literana, loewiana, mendiculana, modestana, musculana, naevana, nitidicollis, nubulana, penziana, pumicana, quadrana, rosaceana, rugosana, segetana, stephensiana, stramentana, striana, stynacana, subjectana, sylvana, terreana, virgaureana, wahlbomiana.

Sciaphilus afflatus, asperatus, auratus, barbatus, bellus, carinula, hirtipennis, hispidus, latiscrobus, meridionalis, muricatus, nudus, oblongus, pusillus, scitulus, setiferus, setobulus, smaragdinus, viridis.

Sciapila diurneana.

Sciapteryx costalis.

Sciapus contristans, lobipes, nervosus, tipularius.

Sciara abbreviata, abdominalis, acuminata, albus, americana, annulata, apriliua, atra, atrata, bicolor, bilineata, bimaculata, bore, brevipennis, brunripes, carbonaria, caudata, cineta, cognata, compressa, costalis, costata, dimidiata, distincta, exigua, exilis, fasciata, femorata, fenestralis, fenestrata, flavipes, florilega, fraterna, fucata, fulviventris, fuscata, fuscipennis, fuscipes, gigantea, glabra, gracilis, hirtella, hirticornis, hirtipennis, hyalipennis, ingenua, iridipennis, lateralis, leucophaea, lineata, longicornis, longipes, lunata, lurida, lutea, maculata, melanocephala, minima, minutula, modesta, morio, nemoralis, nervosa, nigra, nigricornis, nigripes, nigrita, nigropicea, pallida, palipes, pectoralis, perpusilla, picipes, pilosa, polita, praecipua, praecox, prisca, propinqua, prunosa, pulicaria, punctata, pusilla, quinquelineata, robusta, rotundipennis, rufa, rufo-cauda, rubicollis, scatopsoides, scutellata, segetum, sericata, silvatica, sordida, striata, strigata, subterranea, testacea, thomae, thoracica, tipuliformis, trivittata, unicolor, variabilis, venosa, viridipes, vitripennis, vittata.

Sciatheras trichotus.

Scilliodus antiquus.

Scimbalium anale, planicollis, testaceum.

Scina ensicorne.

Scinacodes nasus.

Scinax aurata, bipunctata, variolosa.

Scincoides ocellatus.

Scincus aeneus, agilis, algira, aterrimus, atrocostatus, aurata, azureus, bicolor, bilineatus, bi-triatus, bivittatus, bojeri, boutoni, brachypus, brougainvillei, caesius, carinatus, cepedei, compressicauda, croizeti, crotaphomelos, cruentatus, cyanogaster, cyanurus, cyprus, decemlineatus, de la sagra, duarria, dumerli, erythrocephalus, fossor, galivasp, gigas, harbai, henrichi, homolecephalus, inter punctata, jomardi, lateralis, laticeps, mabouya, melanurus, moniliger, monotropis, muelleri, multifasciatus, multilineatus, multiseriatus, nikitensis, nigro-coeruleus, nigro-luteus, nigropunctatus, niloticus, noctuae, ocellatus, ocraceopunctus, octolineatus, oualaniensis, pannonicus, pavimentatus, punctatus, quadrilineatus, quinquelineatus, quinquetaeniatus, rufescens, rutilus, sanctus, savignyi, schneideri, scincoides, sepiiformis, sepsoides, sloanei, smaragdinus, taeniolatus, telfairi, tiligugu, tirus, trilineatus, tristatus, trivittatus, tropisurus, tuberculatus, undecimstriatus, unicolor, variegatus, ventralis, viridipunctus, vittatus, whitei. *Vide et Sincus.*

Sciobia peduncularis, quadrangularis, spinosa.

Sciobius aciculatirostris, bistrigicollis, cinctus, deplanatus, granipennis, griseus, impressicollis, lateralis, muricatus, porcatus, pullus, scapularis, squamulosus, tottus, varius, wahlbergi.

Sciocoris aradiformis, arenicola, capensis, complanatus, conspurcatus, cribrosus, europaeus, leucogrammus, longulus, luctuosus, marginatus, raundus, orbicularis, paleaceus, pallens, planus, tenebrosus, terrulentus, umbraculatus, umbrina, ventralis.

Sciodromia immaculata.

Sciodus lacteus.

Sciomyza acuticornis, affinis, albiceps, albitarsis, albo-costata, analis, annulipes, atriseta, austera, bicolor, brevipennis, brunnipennis, brunnipes, bucephala, cinctipes, cinerella, concentrica, coxata, defecta, dorsata, dryomyzina, dubia, fascialis, fasciata, flaviceps, fulvipennis, fumipennis, fuscinervis, fuscipennis, fuscipes, glabricula, griseola, grisescens, limbata, limbpennis, melanaspis, monilis, nana, nasuta, nigrimana, nigripalpus, nigripennis, notata, obliqua, obscura, obsoleta, obtusa, orientalis, pallida, pallidiventr, picta, plumbella, pusilla, reticulata, reversa, rufa, ruficeps, ruiventris, schoenherri, simplex, striata, testacea, thoracica, ventralis, virgata.

Scione incompleta.

Sciophila affinis, annulata, anomala, antarctica, bifasciata, cinerascens*, cingulata, circumdata, collaris, defossa, dilatata, elegans, fasciata, fenestella, ferruginea, fimbriata, fulva, fusca, geniculata, grisea, halterata, hirta, hirticollis, hyalinata, incisurata, lineata, lineola, littoralis, lutea, maculata, marginata, melanocephala, nigra, nigriventris, notabilis, obliqua, ochracea, ornata, pallipes, pictipennis, pilosa, pilosula, punctata, rufa, stratana, striata, subincana, sylvatica, tenera, tergemina, thoracica, trilineata, trivittata, unimaculata, univittata, vetusta, vitripennis.

Sciopterus flavipes.

Scirpearia cylindrica.

Scirpophaga phantasmella.

Scirtes adpersus, brenei, compressicornis, depressus, fasciatellus, fasciatus, hemisphaerica, lividus, orbicularis, orbiculatus, pallens, pallescens, pictus, praeustus, saltator, senegalensis, suturalis, testaceus, tibialis, variegatus. *Vide et Scyrtes.*

Scirtetes acotion, arundinis, aulacotis, balticus, decumanus, elater, jaculus, platyurus, spiculum, tetractylus, vexillarius.

Scirus elaphus, hexophthalmus, latirostris, longirostris, obisium, paludicola, sagax, setirostris, stabulicola, vulgaris.

Scissirostrum pagei.

Scissodesma nitida, spengleri.

Scissurella angulata, aspera, bertheloti, conica, costata, crispata, decussata, elegans, laevigata, montforti, orbignyi, plicata, striatula.

Scitala languida, sericans.

Sciuroptera fimbriata, turnbulli.

Sciuropterus alboniger, americanus, baberi, chrysotrix, fuscocapillus, horsfieldi, layardi, magnificus, momoga, nobilis, pearsoni, sabrinus, sagitta, senex, sibiricus, spadiceus, villosus, volans, volucella.

Sciuropus rufipes.

Sciurus (*A. pro Sciurus*) sulfurascens.

Sciurus affinis, albiceps, albovittatus, alpinus, americanus, annulatus, ater, atrodorsalis, auduboni, aureogaster, auriventer, barbei, belcheri, berdmorei, bicolor, bilineatus, bivittatus, bottae, brachyotes, bredai, brodiei, buccatus, caniceps, capistratus, carolinensis, carolinianus, castaneoventris, catesbyi, caucasicus, cepapi, chinensis, chrysonotus, chrysuros, cinereus, clarkii, coliaei, congius, delesserti, dimidiatus, dorsalis, douglasi, elphinstoni, ephippium, erythrogaster, erythrogenys, erythropus, exilis, ferrugineus, ferruginiventris, flaylaysoni, flavimanus, fossilis, fossor, fuliginosus, fulviventris, fulvus, fusco variegatus, gambianus, gilvularis, gingicus, ginginianus, grammurus, grenatensis, grisei-venter, griseocaudatus, hiemalis, hippurus, humeralis, hypoleucus, hypopyrrhus, igniventris, insignis, italicus, kelaarti, keraudreni, labradioris, langsdorffi, lanigerus, lanuginosus, lateralis, layardi, leporinus, leschenaulti, leucomus, leucotis, levaillanti, lewisi, lineatus, lis, locria, locroides, lokriah, lokroides, longipilis, ludovicianus, lysteri, macroura, macroxus, macrurides, magnicaudatus, maclellandi, melanotis, melanotus, migratorius, modestus, molli-pilosus, multicolor, murinus, mustelinus, nigrescens, nigrovittatus, norfolcius, occidentalis, ocellaris, olivascens, pembertoni, penicillatus, pennsylvanica, philippinensis, plantani, poenensis,

- praetextus, prevosti, priscus, pusillus, pygerythrus, pyrrhonotus, pyrrhopus, pyrropus, quadrivittatus, rafflesi, redimitus, richardsoni, ruber, rubriventer, rubrolineatus, rufiventer, rufobrachiatus, rufogaster, rufogularis, rufonigra, russata, sabrinus, setosus, splendidus, stangeri, stramineus, striatus, subauratus, sublineatus, syriacus, teanentii, tennenti, tenuis, texianus, townsendi, tricolor, tridecimlineatus, tristriatus, uthensis, vajo, variabilis, variegatoides, vittatus, xanthius.
- Sclerhelia** hirtella.
- Sclerocardius** bohemani.
- Sclerocephalus** haeuseri.
- Sclerocerus** linearis.
- Sclerochroa** rufa.
- Sclerococcus** granulatus.
- Scleroderma** abdominalis, contracta, cylindrica, domestica, fasciata, formiciformis, fulvicornis, fusca, fuscicornis, intermedia, mexicana, minuta, nitida, pedunculus, picea, rufescens, ruficornis, thoracica, unicolor.
- Sclerodus** decoratus, pustuliferus, Ag. in Murch., Sil. Syst. 1839, 606, 704 [*teste* E.I.W.].
- Sclerognathus** costatus, cyprinella, cyprinus.
- Sclerolepis** decoratus.
- Scleron** orientale.
- Scleropterus** offensus, serratus.
- Sclerosomus** coccosus, granulosus, incommodus.
- Sclerostoma** costatum, equinum, galeatum, hypostomum, quadridentatum.
- Sclerostomus** costatus, cruentus, cucullatus, darwini, plagiatus, rubripes.
- Sclerotrichum** echinatum.
- Sclerurus** albugularis, caudacutus, guatemalensis, ruficollis.
- Sclerurus** amoenus.
- Scobinella** caelata.
- Scobius** scutatus.
- Scodion** conspersaria, emucidaria, favillacearia, lentiscaria, perspersaria, turturaria.
- Scolecobrotus** westwoodi.
- Scoleophagus** ferrugineus, mexicanus, minor, niger, sericeus.
- Scoleophis** atrocincta.
- Scolelepis** squamosa.
- Scoletoma** fragilis.
- Scolex** aculepharum, auriculatus, bilobatus, bilobus, dibothrius, gigas, lophii, mnemiae, percae, polymorphus, quadrilobus, tetrastomus.
- Scolia** abdominalis, aboti, aliena, amabilis, analis, antennata, apicalis, apicornis, arabica, argentea, atra, aureipennis, aureola, bidens, biguttata, binotata, bipunctata, boeberi, caerulea, canescens, capitata, carbonaria, castanea, chilensis, cincta, concolor, confluenta, cyanea, cyanipennis, dealbata, dejeani, dimidiata, discolor, dispar, distincta, dorsata, dubia, elegans, ephippium, eriophora, erythrogaster, fallax, fasciata, fasciatopunctata, flaviceps, fossulana, fulva, funerea, fusca, fuscata, garrula, grisea, haematogastra, hirta, hirtella, hirticollis, hoffmannseggii, hyalina, infuscata, interrupta, interstincta, klugi, laeta, lateralis, leonina, longicornis, lucosa, maculata, marginata, marginella, melanoptera, mendica, micans, mutillaeformis, nobilitata, obscura, octomaculata, ornata, palatina, petiti, plebeja, procer, pubescens, quadricincta, quadrinotata, rubra, rufipes, rufiventris, rufozonata, rutila, sareptana, schrenckii, sericea, servillei, sexpustulata, sicula, sinuata, stygia, syriaca, tricineta, tricolor, tridentata, trifasciata, undata, vagans, varicolor, vestita, vetula.
- Scolicia** prisca.
- Scoliodon** laticaudus, priscus.
- Scoliophis** atlanticus.
- Scoliopteryx** libatrix.
- Scoliostoma** dannenbergi.
- Scolitantides** battus, hylas.
- Scolithus** linearis.
- Scolixedion** penulatum.
- Scolobates** crassitarsus, italicus, longicornis.

Scolopacinus rufiventris.

Scolopax alpina, australis, borealis, brazilensis, brehmi, caffra, castanea, celestis, douglasi, drummondi, dubia, dupla, elegans, equestris, frenata, gallinacea, gallinago, gigantea, hardwicki, horsfieldi, hyemalis, indicus, jardreka, lamotti, leucophaea, leucurus, littorea, longirostris, maculata, madagascariensis, magellanicus, mauritiana, media, meridionalis, nebularia, nigra, pacifica, palustris, paraguayae, paykulli, pectinicauda, pinetorum, pyrenaica, rubripes, sabini, sakhalina, saturata, solitaria, stenoptera, stenura, striata, stricklandi, sumatrana, sylvestris, trachydactyla, undulata, vociferus, wilsoni.

Scolopendra affinis, algerina, ambigua, anguina, angulata, angulipes, angusta, angustata, anomia, audax, aurantipes, bahiensis, banatica, bilineata, brandtiana, brevis, canidens, ceylonensis, childreni, chilensis, cingulatooides, clavipes, complanata, concolor, costata, crassipes, cristata, crudelis, dalmatica, de haani, elegans, erythrocephala, eydouxiana, fabricii, ilifformis, flava, foecunda, formosa, fulva, fulvipes, gambiae, germanica, gervaisi, gervaisiana, gigas, graeca, grayi, guildingi, hardwicki, herculeana, hispanica, histrionica, hopei, horrida, horsfieldi, hortensis, inaequalis, inaequidens, incerta, inermipes, inermis, infesta, italica, leachi, limbata, lineata, lobidens, longicornis, lucasi, lutea, mactans, marginata, maxima, megacephala, miniata, mordax, multidentis, multispinata, nigrifrons, obscura, oraniensis, ornata, pallida, pallipes, penetrans, picta, placeae, planiceps, planipes, platypoides, platypus, polita, pomacea, prasina, pulchra, punctidens, punctipes, punctiventris, rarispina, richardsoni, rubriceps, rubripes, ruficollis, sagraea, sandwichiana, savignyi, scabriventris, scopliana, semi-pedalis, septemspinosa, sexspinosa, silhetensis, spinicauda, spinigera, spinipes, spinulosa, squalidens, subminiata, subspinipes, sulcicornis, sulcidens, sulphurea, tigrina, tongana, trigonopoda, trigonopoda, tuberculidens, valida, varia, variegata, violascens, viridicornis, viridifrons, viridipes, viridis, westwoodi, zonata, zwickiana.

Scolopendrella immaculata, notacantha.

Scolopendropsis bahiensis, helvola.

Scoloplos armiger, quadricuspida.

Scolopocryptops aurantiaca, ferruginea, longitarsis, melanostoma, miersi, minor, sexspinosa, viridis.

Scolops sulcipes.

Scolopsides bilineatus, bimaculatus, cancellatus, caninus, frenatus, ghanam, inermis, kate, kurita, lycogenis, margaritifera, monogramma, pectinatus, personatus, phaeops, pomotis, rupeli, taeniatus, taeniopterus, temporalis, torquatus, vosmeri.

Scolopsis aurata, bimaculatus, cancellata, lineatus, longulus, sayanus.

Scoloptherus bidens, penicillatus, tetracanthus.

Scolymus capitellum, ceramica, cornigerus, globulus, mitis, pugellaris, rhinoceros, umbilicaris.

Scolytus abietinus, affinis, anthracinus, bostrichus, brevis, dactyliperda, flavicornis, flavipes, fraxini, haemorrhous, labiatus, laricis, melanocephalus, minimus, monographus, muticus, picicolor, pictus, polygraphus, pyri, quadrispinosus, scolytus, serratus, suturalis, testaceus, thoracicus, ulmi, villosus, vittatus.

Scomber alalunga, allitteratus, antiquus, armatus, ascensionis, atun, australasicus, balantiophthalmus, bisus, botla, brasiliensis, canagurta, capensis, carolinus, chrysotomus, commersoni, coretta, crysos, delphinalis, dentatus, dentex, equula, flexuosus, forsteri, germa, glauciscus, gracilis, grex, griseus, guttatus, heberi, helvolus, hippos, kanagurta, koelreuteri, lacerta, lactarius, lanceolatus*, lanzardus, leopardus, liza, loo, macarello, macrophthalmus, maculatus, maculosus, madagascariensis, malabaricus, maldivicus, microlepidotus, nigricollis, palaenitus, plumbeus, pneumatophorus, ponticus, punctatus, quadripunctatus, rochei, rostratus, saltator, sarda, scombrus, sloanei, speciosus, surus, sypterus, taso, thonus, undulatus, unicolor, vernalis, vulgaris, zebra, zonatus.

Scombresox camperi, equirostrum, forsteri, lemuridens, saurus, scutellatum, storeri.
Vide et Scombresox.

Scomberoides commersonianus, noeli, saltator.

Scomberomorus plumieri.

Scombresox rondeleti, saurus. *Vide et Scombresox.*

- Scombrinus* nuchalis.
Scopsia striata.
Scopaeus bicolor, didymus, erichsoni, exiguus, fasciatellus, infirmus, laevigatus, minimus, minutus, pulchellus, pusillus, pygmaeus.
Scoparia cembrae, dubita, mercurea, pyralea, resinea, subfusca.
Scopelodes unicolor.
Scopelophis seychellensis.
Scopelopus inops.
Scopelosoma satellita.
Scopelus amethystino-punctatus, angustidens, attenuatus, balbo, benoisti, bonapartei, borealis, caninianus, cocco, coruscans, crocodilus, elongatus, glacialis, humboldti, maderensis, maurolica, metopoclampus, pennanti, rafinesquei, resplendens, risso, sphyraena, stellatus.
Scophthalmus diurus, hirtus, maximus, punctatus, rhombus, unimaculatus.
Scopiphora vagans.
Scopodes boops, sigillatus.
Scopolia anacantha, angusticornis, borealis, carbonaria, costata, cunctans, fulvicornis, gravicornis, lateralis, latifrons, lugens, parasitica, picta, rufipes, rupestris, sophialis, succincta, viatica.
Scopophorus montanus, ourebi.
Scops albifrons, aldrovandii, asio, atricapilla, bubulus, capensis, carniolica, ceylonensis, chodiba, clamator, cristata, ephialtes, europaeus, grammicus, griseus, gymnopus, javanicus, lempiji, leschenaulti, lettia, lettioides, leucotis, lophotes, magicus, malabaricus, malayanus, manadensis, mantis, megalotis, menadensis, minuta, noctula, novae-zelandiae, paradisea, pennata, philippensis, portoricensis, rutilus, scops, senegalensis, strepitans, sumia, superciliaris, trichopsis, undulata, vipio, virgo, vulgaris, watsoni, zorca.
Scoptes alpheus, crotopus, protumnus.
Scopula aenealis, aerealis, alpinalis, borealis, bourjotalis, clathralis, dentalis, dilutalis, elutalis, ferraralis, flagellalis, frumentalis, fulvalis, furvalis, inquinatalis, institalis, longipedalis, lutealis, maculalis, margaritalis, nebulalis, nivealis, numeralis, nyctemeralis, olivalis, opacalis, pallidalis, paludalis, palveralis, perlucidalis, pinetalis, prunalis, pustulalis, quadrimaculalis, rufimitalis, signalis, sophialis, sticticalis, stramentalis, suffusalis, uliginosalis, umbralis, umbrosalis.
Scorpaena aculeata, africana, asperella, aurita, barbata, bicapillata, bicirrata, bicolorata, brachiata*, brachion*, branchion, brasiliensis, bufo, burra, bynoensis, cardinalis, carinata, chiloprista, cirrhosa, commersoni, cottoides, cruenta, dactyloptera, diabolus, ergastulorum, erythraea, fasciata, flava, fucata, furia, gibbosa, grandicornis, guamensis, histrio, inermis, istriensis, jacksoniana, kuhli, lanaria, leonina, lutea, madurensis, mahe, malabarica, massiliensis, mauritiana, miles, militaris, monodactyla, neglecta, nesogallica, nigra, notata, novaeguineae, oxycephalus, panda, papuensis, picta, plebeia, plumieri, polyprion, purpurata, rascassa, rawakensis, rubropunctata, scorpaena, scrofina, stokesi, strongia, ustulata, vaigiensis, venosa.
Scorpaenopsis neglecta, nesogallica.
Scorpio acobasicus, aethiops, amoreuxi, armillatus, bahiensis, biaculeatus, bicolor, carolinianus, cheliferoides, citrinus, crassicauda, cumingi, curvidigitatus, de geeri, edwardsi, ehrenbergi, elatus, europaeus, exoticus, fasciatus, filum, forcipula, fuchsi, funestus, gigas, gervaisi, glaber, gracilicauda, gracilis, granosus, granulatus, hardwicki, hemprichi, kochi, leptochelis, lepturus, lesueuri, libycus, liosoma, longicauda, macrocentrus, maculatus, madagascariensis, margaritatus, maurus, melanophya, nigrifrons, nigrocinctus, obscurus, ochripes, orbignyi, pallipes, palmatus, peroni, picescens, quinquestratus, rebdorffensis, reticulatus, rupestris, scaber, schweiggeri, septemdentatus, spinax, spinicaudus, squama, terminalis, thebanus, trichiurus, vanbenedeni, variegatus, vittatus, waigensis, whitei.
Scorpiis aequipennis, chilensis, georgianus.
Scorpius algeriacus, algericus, aquilejensis, banaticus, carpathicus, concinnus, germanus, massiliensis, mon-pessulanus, naupliensis, niciensis, oravitzensis, provincialis, rufus, sicanus, tauricus, tergestinus.
Scortimus navicularis.

- Scortizus** maculatus, rubro-vittatus, vittatus.
Scortornis clinacterus.
Scotaena trifasciata.
Scotaeus (A.) nycticorax.
Scotaeus (Col.) corallipes.
Scotasmus carinirostris.
Scotera gibbosa.
Scotia (Lep.) cinerea, obscura, tenebrosa, umbrosa.
Scotia (Verm.) rugosa.
Scotiaptex cinerea.
Scotinus asidoides, bituberculatus, brasiliensis, crenicollis, crucifer, quadricollis, squalidus, tuberculatus.
Scotiomyza fuscipennis.
Scotioptera melaleuca, pellucida.
Scotiptera punctata.
Scotobius armentarius, asperatus, bullatus, cacticus, clathratus, collaris, costatus, crispatus, elongatus, exaratus, gayi, granosus, muricatus, obesus, ovalis, perlatus, pilularius, planatus, planicosta, porcatus, punctatus, punctellatus, rugosulus, substriatus, tristis, tuberculatus, varicosus, vulgaris.
Scotodes annulatus.
Scotoeborus murinus.
Scotopelia peli.
Scotophila livida, porphyrea, tetra, tetrapogonis.
Scotophilus (A.) acadica, perlatus, tengmalmi.
Scotophilus (M.) australis, belli, blossevilei, borbonicus, capensis, castaneus, coromandra, cubensis, dingani, discolor, falcatus, fuliginosus, fulvus, gouldi, greeni, greyi, hasselti, heathi, hodgsoni, javanicus, kuhli, laevis, lasiurus, leachi, leisleri, lobatus, macleayi, maderaspatanus, meyeri, morio, murinus, noctula, noveboracensis, pachypus, polythrax, pruinosis, pumilus, schreibersi, serotinus, temminckii.
Scotopterix canaria, furvaria, limosaria, obscuraria, pullaria, respersaria, taeniolaria.
Scotopteryx tenebrata.
Scotornis albicollis, climaturus, trimaculatus.
Scotosia rhamnaria, rhamnata, sparsaria, vetularia, vetulata.
Scotylus minutus.
Scrapter bicolor, brullei, lagopus, niger, punctatus.
Scraptia americana, bi-impressa, flavicollis, fusca, fuscula, lutea, minuta, nigricans, ovata, pallipes, pusilla, rugosa, sericea, serriceus.
Scrobicularia arenaria, calcarea, clementina, inflata, minuta, phaseolina, tenuis.
Scrobiger splendidus.
Scrobodus ovatus, subovatus.
Scroparia cuvieri.
Scrophicephalus longipinnis.
Scruparia chelata, loricata.
Scrupocellaria reptans, scruposa.
Sculda pennata.
Scurria (Ar.) fasciata, geniculata.
Scurria (G.) mitra, scurra.
Scutacarus femoris.
Scutella (Ech.) aberti, affinis, altavillensis, ambigena, ambigua, aurita, bifissa, bifora, bilinearifera, bioculata, brongniarti, caroliniana, cassidulina, clypeastriformis, crustuloides, decadactyla, decemfissa, dentata, depressa, desmoulinsii, digitatus, elliptica, emarginata, excentrica, faujasi, fibularis, germanica, gibbosa, gibbercula, hemisphaerica, hexapora, inaurita, incisa, inflata, integra, jonesi, laganum, latissima, lenticularis, lesueuri, lyelli, macrophora, marginalis, nummularia, occitana, octodactyla, orbicularis, parma, patagonensis, paulensis, pentapora, pileus-sinensis, placenta, polygona, porpita, producta, propinqua, pyramidella, quadrifora, quinquefaria, quinquefora, quinqueloba, radiata, reticulatus, rogersi, rumphi, sexforis smithiana, stellata, striatula, subrotunda, tetrapora, trifaria, truncata.

Scutella (G.) crenulata, iridescent, rosea, subtetragona.

Scutellera aeneiformis, albipennis, albolineata, atricapilla, aurata, banksi, basalis, baudini, bilunata, binotata, bufo, buqueti, cineta, comes, corallifera, cordigera, curta, cyanipes, cyanipoda, decemguttata, decorata, deplanata, desfontainei, dichro, dilaticollis, dispar, donovani, druræi, dubia, dux, ephippium, eques, erythrocephala, eupoda, excavata, fabricii, flavolineata, fuliginosa, furcifera, galii, gambiae, germari, gibbosa, globus, grammica, hardwicki, hebraica, impressa, interrupta, inuncta, lateralis, latipes, lineata, maura, nebulosa, nigellæ, nigra, nobilis, ochrocyanæ, pagana, pallida, papua, pedemontana, peroni, picta, pilosula, pinguis, praslini, pulchella, punctatissima, purpurascens, reynaudi, rinotata, rubro-lineata, rubro punctata, schoenherri, sellata, semipunctata, senator, sexmaculata, signata, smaragdula, stokerus, stokerus, tongæ, trimaculata, tuberculata, unicolor, viridipunctata, wahlî.

Scutelligera ammerlandia.

Scutellina (Ech.) complanatus, elliptica, hayesiana, lenticularis, nummularia, obovata, placentula, supera.

Scutellina (G.) crenulata.

Scutellum costatum*.

Scutigera araneoides, australiana, capensis, coleoptrata, downesi, dubia, elegans, floridana, guildingi, hardwickæ, latreillei, longicornis, longipes, longitarsis, maculata, nobilis, oweni, rubrolineata, rufipes, rugosa, serratipes, smithi, vesuviana.

Scutiphora picta.

Scutum rosaceum.

Scutus antipodes, elegans.

Scydmaenus abbreviatus, affinis, agilis, alpinus, angulatus, angustatus, bicolor, brevicornis, brunneus, californicus, castaneus, chevriæ, cinnamomeus, clavatus, claviger, clavipes, cognatus, collaris, conicollis, cornutus, crassicornis, croaticus, dalmanni, deflexicollis, dennyi, denticornis, elongatus, exilis, fabricii, fimetarius, flavicornis, fleischeri, geotroyi, gibbosicollis, gibbosus, gibbulus, godarti, gracilis, grimmeri, helferi, hellwigi, helvius, hirticollis, hirtus, holzeri, illigeri, impressus, intrusus, kunzei, lapidarius, laticollis, linnei, longicollis, maerklini, megerlei, minimus, minutissimus, minutus, motshulskii, nanus, oblongus, obscuricornis, olivieri, panzeri, parallelus, perforatus, pilosicollis, propinquus, pubicollis, puncticollis, punctipennis, pusillus, quadratus, quadricollis, rarus, rossi, rotundipennis, rubens, rubicundus, ruficornis, rufus, rutilipennis, schaumii, schoenherri, scutellaris, sparshalli, spinimanus, steveni, styriacus, subpunctatus, subtilis, tarsatus, tauricus, testaceus, thoracicus, truncatellus, tuberculatus, validicornis, vernalis, vicinus, vulpinus, wetterhalli, wighami, zimmermanni.

Scyliorhinus africanus, barbatus, breviculus, caniculus, cirrhatus, delarochianus, dentatus, fasciatus, indicus, isabellus, lambarda, maculatus, myops, ocellatus, punctatus, punctulatus, russellianus, tigrinus, tuberculatus, unicolor, variegatus, waddi.

Scylium africanus, barbatus, cirrhatus, fasciatus, indicus, isabella, lobatus, maculatus, ocellatus, punctatus, russellianus, tigrina, waddi. *Vide et Scyllium.*

Scylla crassimanus, olivacea.

Scyllaea fulva, ghomfodensis, grayæ, hookeri, margaritacea. *Vide et Scyllea.*

Scyllarus arctos, australis, carinatus, cicada, ciliatus, dubius, haani, incisus, insularis, latus, mantelli, punctata, quoyi, sculptus, sieboldi, sinensis, squammosus, tridentatus, ursus-minor.

Scyllea tentaculata. *Vide et Scyllaea*

Scyllia griseum, quinquecornuatum.

Scyllibacis orientalis.

Scylliodus antiquus.

Scyllium angustum, artedii, buergeri, canicula, capense, catulus, chilense, crassiconum, ferrugineum, freycineti, griseum, heptagonum, humboldti, lima, maculatum, malaisianum, marmoratum, melanostomum, ornatum, pantherinum, pictum, plagiosum, priseum, punctulatum, quinque-cornutum, spinosus, stellaris, tigrinum, tuberculatus, tygrinum, variegatum. *Vide et Scylium.*

Scymnorhinus lichia.

Scymnus abietis, affinis, ahrensi, albidicollis, albipes, americanus, analis, apetzi, apicalis, arcuatus, argutus, atonus, atriceps, auritulus, basalis, bifasciatus, billammulatus, biguttatus, bilucernarius, bilunulatus, binaculatus, binaevatus, bi-notatus, bioculatus, bipustulatus, bis bi-pustulatus, bisbispinatus, bi-ignatus, bispinatus, biverrucata, borealis, brasiliensis, brevipinna, brullei, capitatus, carcharias, castanopteris, castroemi, caudalis, cervicalis, chatchas, collaris, colon, connectens, constrictus, corpulentus, creperus, curtisi, cyanescens, deyrollei, discoideus, discolor, dorsalis, fasciatus, fastigiatus, femoralis, ferrugineus, flavicollis, flavifrons, flavilabris, flavipes, floralis, fonscolombi, formicarius, formicetorum, fraxini, frontalis, fulvicollis, fulvipes, galapagoensis, gilvifrons, guimeti, histeroides, icteratus, impexus, incertus, incinctus, inderihensis, juniperi, kiesewetteri, labordei, laboulbenei, lacustris, levaillanti, lichia, limbaticollis, limbatus, loewi, luridus, marginalis, marginicollis, margipallens, microp-terus, minutus, minutus, moreletti, morio, myrmidon, nicaeensis, nigrinus, nubilus, obliquus, oblongosignatus, obscurus, ochroderus, ornatus, pallidipennis, pallipes, parvulus, phleus, pilatus, punctatus, punctum, pygmaeus, quadrillum, quadri-lunatus, quadri-notatus, quadri-verrucatus, quadri-vittatus, quadri-vulneratus, quercus, redtenbacheri, rosenhaueri, rostratus, rubicundus, rubidus, rufipes, scutellaris, seminulus, spectabilis, spinosus, stigmatopterus, stragulatus, tardus, tautilus, tene-brosus, terminatus, testaceus, thiolieri, thoracicus, ventralis, vicinensis, vittatus, vulgaris, waterhousei, xanthaspis.

Scypha botryoides*, cancellata*, complicata*, coronata*, foliacea*, laevigata, ovata, papillaris, tubulosa.

Scyphella flavicornis, nigricornis.

Scyphia acuta, alternans, alveolites, angularis, angustata, anomala, armata, articulata, auricularis, beaumonti, benettiae, bifrons, bronni, buchi, byssoides, calopora, cancellata, capitata, cariosa, cellulosa, clathrata, clavarioides, clavata, claviformis, conoidea, constricta, corniculum, costata, crateriformis, cylindrica, cymosa, decheni, decorata, dichotoma, dictyota, eichwaldi, elegans, empleura, excavata, fenestrata, fistularis, foraminosa, fragarioides, fragilis, fungiformis, furcata, galiciana, gracilis, heteromorpha, heteropora, hieroglypha, humboldti, infundibuliformis, intermedia, isopleura, labyrinthica, lithuana, longiporata, mammillaris, manon, mantelli, marginata, maximiliana, micrommata, micropora, milleporacea, milleporata, monilifera, muensteri, murchisoni, neesi, neocomiensis, obliqua, odontostoma, oeynhausi, os ranae, paradoxa, parallela, parvula, pedunculata, pertusa, piriformis, pistilliformis, polymorpha, polyommata, porosa, procumbens, propinqua, psilopora, punctata, quinquelobata, quitzinensis, radiata, radiformis, ramosa, reticulata, retiformis, rugosa, sacki, samueli, schlotheimi, schweiggeri, scrobiculata, secunda, socialis, stellata, sternbergi, striata, striato-punctata, subcaespitosa, subcariosa, subfurcata, subseriata, subseriatae affinis, sulcata, sulcifera, tenuis, tenuistria, terebrata, tetragona, texata, texturalis, texturata, trilobata, tuberculata, tuberosa, tubulosa, turbinata, uvaeformis, venosa, verrucosa, verticillites, zippei.

Scyphicus teres.

Scyphidia pyriformis, ringens, rugosa.

Scyphis mucilaginosus, punctata.

Scyphistoma filicorne.

Scyphius (Ar.) albellus, cerinus, coarctatus, cylindricus, diversicolor, elongatus, obli-teratus, pratensis, pyrrholeucos, reflexus, terricola, violaceus.

Scyphius (P.) annulatus, cultrirostris, fasciatus, littoralis, papacinus.

Scyphocrinites elegans.

Scyphocrinus heterocostalis, nodosus, striatus.

Scyphophorus acupunctatus, anthracinus, interstitialis.

Scyphus diaphanus.

Scyris alexandrina, indicus.

Scyrtes californicus, hemisphaericus, lividus, orbicularis, orbiculatus, solstitialis, suturalis, variegatus. *Vide et Scirtes.*

Scytale ammodytes, anguliformis, bizonatus, brachyorrhos, catenatus, contortrix, coronata, distincta, gronovii, krait, niger, piscivora, scheuchzeri.

Scytalinus serpentinus.

- Scytalopus** acutirostris, albogularis, femoralis, fuscus, indigoticus, magellanicus, niger.
- Scytalus** cupreus.
- Scytaster** kuhli, milleporellus, pistorius, semiregularis, stella, subulatus, variolatus, zodiacalis.
- Scythale** pyramidum.
- Scython** bicolor.
- Scythris** chenopodiella, elongella.
- Scythropia** alternella, crataegella, leucatella, luctuella, monachella, reticulella, scopioella, sturnella.
- Scythrops** australasiae.
- Scythropus** mustella.
- Scytodes** (Ar.) bertheloti, bizonata, cameratus, erythrocephala, fusca, globula, laeta, longipes, mithras, nigella, omosites, rufescens, ruüpes, thoracica, tigrina.
- Scytodes** (Hym.) granulatus, opacus, parvus.
- Scytonotus** laevicollis, nodulosus, scabricollis.
- Sebastes** albofasciatus, argus, bougainvillei, capensis, caurinus, ciliatus, filifer, imperialis, inermis, kuhli, longiceps, maculatus, maderensis, malabarica, marmoratus, minutus, norvegicus, ocellatus, oculatus, pachycephalus, pandus, percoides, serrulatus, sinensis, vachelli, variabilis, ventricosus, viviparus.
- Secutor** insidiator.
- Sedgwickia** attenuata, bullata, corrugata, gigantea, globosa, minima.
- Segestria** bavarica, dentata, erythrina, florentina, gracilis, perfida, pulchra, pussilla, ruiceps, saeva, senoculata, singularis, thoracica.
- Segetia** cerasina, implexa, neglecta, xanthographa.
- Segmentina** armigera.
- Sehirus** albomarginatus, albomarginellus, cinctus, morio.
- Seiranota** perspicillata.
- Seiren** arborea, prateensis, ricardi, rupestris.
- Seisura** cinerea, flava, inquieta, maculata, neglecta, nitida, volitans.
- Seiurus** aquaticus, aurocapillus, colombianus, l'herminieri, ludovicianus, motacilla, novaeboracensis, tenuirostris. *Vide et Sciurus (A.).*
- Sejus** detritus, echinatus, hirsutus, inermis, litura, muricatus, spinosus, testaceus, togatus, viduus.
- Selache** maximus, rhinoceros.
- Selachops** flavocincta.
- Selachus** maximus.
- Seladerma** athanis, bicolor, breve, capreae, cernus, convexum, epulo, laetum, lalage, letus, mazares, saurus.
- Selagia** argyralis, lythargyralis, perialis.
- Selagis** caloptera, spenceri.
- Selandri** cerasi.
- Selandria** adumbrata, aethiops, albilabris, albipes, alternipes, annulipes, atra, betuleti, biloba, brevicornis, brevis, chrysorrhoea, cinereipes, cinxia, consorta, costalis, dorsalis, ephippium, ferruginea, fraxini, fuliginosa, fulvicollis, fulvicornis, funerea, fusca, fuscipennis, fuscula, geniculata, hyalina, klugi, labialis, lineolata, luteiventris, melanosterna, morio, ornata, ovata, pallida, parvula, pulchella, punctigera, pusilla, robinsoni, rosae, ruücrurus, ruütarsis, scapularis, serva, signata, spinolae, stigma, stramineipes, tenuicornis, testudinea, tibialis, uncta, varipes, verna, versicolor, vitis.
- Selanonius** walkeri.
- Selasia** albofasciata, bicincta, decipiens, maculicollis, nigricollis, rhipiceroides, rubripennis, unicolor.
- Selasoma** tibialis.
- Selasphorus** rufus.
- Selatosomus** aeneus, bimaculatus, cruciatus.
- Selbia** zelandica.
- Seleima** aurata.
- Selene** argentata, argentea, gallus, quadrangularis.

- Selenia** (Lep.) delunaria, illunaria, illustraria, lanaria.
Selenia (P.) luna.
Selenidera langsdorffi, maculirostris, nattereri.
Selenis perforata, spinifex.
Selenisca gratioiosa.
Selenites lunata.
Selenocephalus obsoletus.
Selenodera piperivorus, reinwardti.
Selenoderus lamina.
Selenodes dalecarliana, textana.
Selenopalpus chalybeus, lateritius, subviridis.
Selenopeltis beyrichi, buchii, humboldti, stephani.
Selenophorus aboxoides, aeneocupreus, aequifortialis, aeratus, aereus, aeruginosus, atinis, alternans, amaroides, anceps, angulatus, aurichalceus, beauvoisi, blandus, caliginosus, chalcosomus, chalybeus, confinis, confusus, coracinus, cupreus, cuprinus, cupripennis, cursorius, discopunctatus, ellipticus, exaratus, exilis, flavilabris, fossulatus, foveolatus, fulvipes, gagatinus, galapagoensis, granarius, harpaloides, impressus, impunctus, irideus, iripennis, lacordairei, limbolaris, lineatopunctatus, lubricipes, lucidulus, luctuosus, lugubris, maurus, metallicus, micans, multipunctatus, myrmidon, obtusus, oclropus, orientalis, ovalis, parallelus, parumpunctatus, pedicularius, piceus, planipennis, promptus, pulcarius, pullus, punctulatus, pyritosus, quadricollis, rufo-marginatus, scaritides, scitulus, senegalensis, sinuatus, speciosus, steveni, stigmatosus, subaeneus, subpunctatus, tenebrosus, troglodytes, vagans, variabilis, varicolor, variegatus, vicinus, viridescens.
Selenops aegyptica, aissus, annulipes, brasilianus, celer, fugitivus, omalosoma, peregrinator.
Selenopsis subaperta.
Selenoptychus rotundatus.
Selenosema thuni.
Selenostomus paradoxus.
Seleucides albus.
Seleucidis acanthalis.
Selidosema plumeria, punctularia.
Selimnus diores.
Selista forceps*.
Selius bilobus.
Sellaria anglicana, polonica.
Selochusa forficatus, fornicata.
Selonodon bicolor.
Selopoda fusca.
Selosphorus anna, costae, platycercus, ruber.
Selysius emarginatus, mystacinus.
Semanopterus adelaidae, depressus, subaequalis.
Semanotus undatus.
Semasia cana, fulvana, grossana, hypericana, lanceolata, perlepidana, pomonella, pupillana, rheediella, rufana, scopoliana, splendana, subsequana, woerberana.
Sematura aegistus, empedocles, lunus.
Semblis americanus, fasciata, geniculata, gracilis, grammatica, nigra, nitida, pallipes, praetexta, pygmaea, tripunctata.
Semeiophorus vexillarius.
Semele reticulata.
Semelia lybia.
Seminota hahni, leprieuri.
Seminula pentahedra, pisum, rhomboidea.
Semionotus bergeri, curtulus, latus, leptocephalus, macropterus*, minor, minutus, nilssoni, pentlandi, punctatus, pustulifer, rhombifer, spixi, striatus.
Semiophora gothica.
Semiophorus pondiceriana, velicans, velifer.

Semioscopis anella, avellanella, steinkellnerella.

Semiotellus mundus.

Semiothisa agnataria, alternaria, fasciosaria, gambaria, limbularia, lituraria, notalaria, signaria.

Semiotus (Col.) angusticollis, apionis, convexicollis, cornutus, distinctus, fulvicollis, turcatus, germari, illigeri, intermedius, lignarius, ligneus, linnei, quadricollis, regalis, sanguinicollis, schaumii, seladonius, speciosus, taeniatus, virgatus.

Semiotus (Hym.) clarus, dice, diversus, maerens, merula, mundus, praestans, quadratus, scoticus, tarsalis, tauriscus, theope, varians.

Semiris fusca.

Semnia auritalis, cruentella, punctella.

Semnocebus avari.

Semnopithecus albocinereus, albogularis, auratus, bicolor, buku, cephalopterus, chrysomelas, comatus, cristatus, cucullatus, dussumieri, entellus, fascicularis, ferrugineus, flavimanus, frontatus, fuliginosus, fulvogriseus, halonifer, hypoleucos, johni, jubatus, kra, larvatus, latibarbatu, leucomeros, leucopymnus, maurus, melalophus, mitratus, monspesulanus, nasalis, nasicus, nemaeus, nestor, nigrimanus, nobilis, obscurus, olivaceus, pileatus, polycomos, pruinosis, pyrrhus, recurvus, rubicundus, satanas, schistaceus, sirimensis, subhumalavanus, sumatranus, vellerosus.

Semotilus cephalus, diplemma, dorsalis, notatus.

Senaspis flaviceps.

Senelops spixi.

Senetainia rubriventris.

Senex australis.

Senira bicolor.

Senobasis analis, fenestrata.

Senoclitia fasciata.

Senogaster coerulescens.

Senometopia affinis, agilis, agresti, alacris, amoena, angustipennis, arvicola, atropivora, aurifrons, bicincta, blondeli, bombycivora, catocalae, ciliata, ciligera, concolor, crassicornis, crataegellae, distincta, doris, flavisquamus, floricola, glauca, gnava, grisea, heraclaei, lepida, libatrix, lugubris, macrocera, meditata, mitis, myoidea, nemestrina, nigripes, pilipennis, pratensis, punicata, puparum, silvestris, spinipennis, variegata, velox, vernalis.

Senoprosopis diardi.

Senopterina brevipes, decora, femorata, immaculata, oenea.

Senostoma variegata.

Senoxicera albibarbis.

Senta flammaea, sericea, ulvae.

Separatista chemnitzii, grayi, helicina.

Sepedon (Dipt.) aenescens, annulatus, aquaticus, crishna, ferrugineus, ferruginosus, haemmeri, imbutus, javanensis, macropus, palustris, peleiteri, plumbellus, pseudo-acori, senegalensis, senex, sphegeus.

Sepedon (R.) brongniarti, haemachates, rhombeata.

Sephanoidea fernandensis, galerita, stokesi.

Sephela linearis.

Sephina pustulata.

Sepia aculeata, affinis, antillarum, apama, australis, bilineata, blainvillei, bosci, cardiop-tera, carunculata, chrysophthalmos, cuvieri, defrancei, elegans, gibba, gigas, granulata, hastiformis, hierredda, indica, inermis, latimanus, lefebvrei, longirostris, longispina, lycidas, maculata, muestus, microcheirus, microcosmus, minima, mucronata, myrsus, nigra, ornata, papillata, pariensis, pelagica, peroni, pharaonis, plangon, polypus, prisca, rouxi, rubens, repullaris, sagitata, savigniana, savignyi, sepiaephora, sinensis, sinope, subulata, touraemensis, varietas, vermiculata, vicellius.

Sepialites gracilis, striatulus.

Sepidium acuminatum, aeneum, aliferum, barbarum, barthelemyi, bidentatum, bois-duvali, carbonarium, cinnamomum, costatum, dongolense, douei, dufouri, echinatum, ferrugineum, flexuosum, genei, glabratum, hispanicum, maillei, mittrei, morbillosum,

multispinosum, obtusum, plicatum, proximum, requien, scutelliforme, senegalense, serratum, servillei, siculum, tomentosum, transannatum, uncinatum, variegatum, vestitum, wagneri.

Sepioloa atlantica, desvigniana, dispar, japonica, lineolata, macrosoma, oweniana, palpebrosa, rondeleti, rondeletiana, stenodactyla, subulata.

Sepioloidea lineata.

Septeuthis australis, biangulatus, blainvilliana, guinensis, hemprichi, lessoniana, loliginiformis, lunulata, madagascariensis, major, mauritana, mayor, papuensis, sepiacea, sepioides, sinensis, sloani, venusta.

Seps chalcidica, croceus, equalis, falcatus, fragilis, gronovii, monodactylus, montana, multivirgata, niger, pentadactylus, peroni, schneideri, sexlineata, sheltopusk, tetradactylus, tridactylus, vittatus.

Sepsis albitarsis, annulipes, atripes, barbipes, bicolor, ciliata, complicata, concinna, cornuta, costalis, coxarum, cylindrica, cynipsea, depilis, duplicata, falleni, flavimana, flavipes, fulgens, gracilis, halidayi, hilaris, immaculata, impunctata, indica, lateralis, leachi, linearis, lucida, maculipes, marginata, minor, minuta, motatoria, nigricornis, nigripes, nitens, nitidula, nodosa, ornata, pectoralis, pilosa, punctum, pusilla, putris, referens, rufa, ruficornis, rufipes, rufocincta, scutellaris, stercoraria, superba, tarsalis, tricolor, varipes, vicaria, violacea.

Septa parkinsoni, rubecula, rubicunda, scarlatina, spengleri, triangularis, tritonia.

Septaria arenaria, borbonica, cylindracea, elliptica, mediterranea, tarbelliana, tuberculosa.

Septastrea forbesi, hirtolamelata, multilateralis, ramosa, subramosa.

Septifer bilocularis, cumingi, excisus, fuscus, krausii, virgatus.

Septis lateritia, lithoxylea, materina, mucens, poltodon, rurea.

Seraphisa lineata, modesta.

Seraphs convolutus.

Seraphys terebellum.

Serentia atricapilla, laeta, ruficornis.

Sergestes arachnipodus*, atlanticus.

Serialaria acervata, alternata, convoluta, cornuta, crispa, falcata, lendigera, precatatoria, semi-convoluta, spiralis, unilateralis, verticillata.

Seriatopora acuta, antiqua, caliendrum, cervina, cretacea, cribaria, grignonensis, hystrix, laxa, lineata, macrostachys, nuda, obtusa, ocellata, octoptera, subulata, valida.

Serica aquila, asperula, attenuata, australis, bimaculata, brasiliensis, brunnea, cinnamomea, columbiana, detera, elata, ferrugata, ferruginea, flavimana, fucata, fugax, fuscipennis, geminata, holosericea, marginata, marginella, melanaria, micans, pallescens, parvula, pelliculata, pruinosa, sinica, sulzeri, tessellata, tristis, velutina, vestita.

Sericaria disparata, leptoptera, mori, ranaeceph.

Sericesthis aureorufa, glabra, gouldi, pruinosa, rufipennis, rugosiceps.

Sericocera algira, bifasciata, compressa, crinocea, fuscipennis, lateralis, leucozona, nigripes, nitida, palpata, pictipennis, producta, spinolae, voluula.

Sericoda bembidioides.

Sericoderus thoracicus.

Sericodon jugleri.

Sericoides chiliensis.

Sericogaster (Col.) argentatus.

Sericogaster (Hym.) fasciatus.

Sericoides reichei.

Sericomyia bombiformis, borealis, chrysotoxoides, filia, lapponum, limbipennis, militaris, mussitans, sexfasciata.

Sericore flexulana.

Sericoris abietisana, alternana, artemisiana, astrana, aurofasciana, bifasciana, bipunctana, cespitana, conchana, daleana, duponchelana, duponcheliana, elutana, euphorbiana, fasciolana, formosana, fulgidana, fuligana, furfurana, gemmana, gigantana, gramineana, grapholithana, herbana, indusiana, lacunana, lucivagana, marmorana, metallicana, micana, obsoletana, olivana, palustrana, penthinana, politana, porrectana, postremana, pulchellana, pullana, quadrimaculana, rurestrana, striana, subsequana,

- sudatana, tenebrosana, tenerana, textana, tiedemanniana, umbrosana, undulana, urticana, zinckeniana.
- Sericornis** citreogularis, frontalis, humilis, laevigaster, maculatus, magnirostris, osculans, parvulus, schulziana, siderana.
- Sericosoma** fascifrons.
- Sericossypha** somptuosa.
- Sericostoma** atratum, capillatum, festivum, flavicorne, galeatum, hirtum, leachi, maculatum, minutum, multiguttatus, vittatum.
- Sericothrips** staphynius.
- Sericulus** anais, aurantiacus, aureus, chrysocephalus, magnirostris, mellinus, regens.
- Sericus** brunneus, fugax.
- Serilophus** lunatus, lunulatus, rubropygia.
- Serinetia** rufa.
- Serinus** butyracea, canaria, canariensis, canicollis, citrinelloides, flavescens, hortulanus, leucopygos, luteolus, meridionalis, nigriceps, orientalis, serinus, striolata, syriacus, tristriatus, xanthopygos.
- Sericosomus** brunneus, brunnipennis.
- Serioides** atricapillus.
- Seriola** argyromelas*, aureovittata, binotata, bipinnulata, bonariensis, bosci, cosmopolita, cultrata, dubia, dumerili, dussumieri, falcata, fasciatus, gracilis, intermedia, lactaria, lalandei, leirarchus, picturata, purpurascens, quinquerradiata, rafinesquei, rivoliana, rueppeli, speciosus, succincta, zonata.
- Serielella** caerulea, porosa, violacea.
- Seriscius** pubescens.
- Serisomus** cristatus.
- Serlion** terminalis.
- Serolis** fabricii, gaudichaudi, latifrons, orbigny, paradoxa, quadricarinata, trilobitoides.
- Serpe** crocodilus, humboldti, microstoma.
- Serpentaria** fragilis.
- Serpentarius** africanus, cristatus, secretarius.
- Serpentina** quadristriata.
- Serpophaga** albocoronata, nigricans, parulus.
- Serpula** accumulata, alata, ambiguus, ammonia, ammonioides, amphisbaena, ampullacea, anfracta, anguina, anguinoides, angulata, angulosa, annellus, annularis, annulata, antarecticus, antiqua, antiquata, aquaria, archemides, arcuata, armata, articulata, arundo, aspera, attrahens, avita, barbata, bardensis, bicanaliculata, bicornis, bicostata, bipartita, biplicata, bi-spiralis, boa, buccinula, caespitosa, calyptrata, canaleto, canaliculata, canalifera, canteriana, capillaris, capitata, caput serpentis, carbonaria, carinata, carinella, carinula, caudata, cereolus, chorda, cincta, cingulata, circinata, circinnalis, cirriformis, clava, clavaeformis, clavata, clavigera, coaceruata, colon, colubrina, communis, complanata, complexa, compressa, concamerata, conformis, conglutinata, conica, conjuncta, conoidea, contorta, contortus, contracta, convoluta, convolutata, cordineri, corniculum, cornu arietis, cornucopia, corona, corrugata, costalis, costata, crassa, crenato-striata, cristata, crystallina, cubiculata, decussata, delphinula, dentifera, depressa, deshayesi, dilatata, discors, draconocephala, elegans, elongata, enneagona, epithonia, erecta, eruca, exigua, fascicularis, fastigiata, filaria, filiformis, filigrana, filosa, fimbriata, flaccida, flagelliformis, flagellum, fluctuata, fragilis, funiculosa, fuscata, gastrochaenoides, geranae, gibbosa, gigantea, glaberrima, globosa, glomerata, gordialis, graeca, grandis, granifera, granulata, granulosa, gregalis, grignoniensis, heliciformis, helicina, heptagona, heterostrophia, hexagona, hexicarinata, humulus, ilium, imbutiformis, implicata, incurvata, indica, infundibularis, inscripta, intercepa, intermedia, interrupta, intestinalis, intestinum, intorta, javanum, kingicola, lacerata, lactea, laevigata, laevis, lagena, lenticularis, leonhardi, libera, limata, limax, lineata, lirata, lithogena, lituoformis, lituola, lituus, lobata, lombricus, lophiada, lucida, lumbricalis, macrocephala, macropus, marginata, maxima, meandra, minima, minuta, minutissima, monilifera, montagui, mulleri, multicristata, mutabilis, nautioides, nebulosa, nodosa, nodulosa, nodus, noeggerathi, nuda, nummularia, oblonga, obscura, obtusa, omphalodes, onyx, operculata, ornata, pallida, panamensis, parallela,

parvula, pectinatus, pellucida, pentagona, pentangulata, perlucida, perversa, pervia, phillipsi, pholadea, placentula, planorbiformis, planorbites, plexus, plicaria, plicatilis, polita, polytrema, porosa, prismatica, problematica, prolifera, proteusa, proteus, punctata, pusilla, pustulosa, pygmaea, quadrangularis, quadrata, quadricarinata, quadrilata, quadrimaculata, quadristriata, quinquangularis, quinquangulata, quinquecarinata, quinquecristata, quinquesulcata, radicans, recta, rectangulum, regularis, retorta, reversa, richardi, riolensis, rosea, rotula, rugosa, runcinata, rupestris, rustica, sabellaria, scabrosa, scalaris, scalata, simplicata, serpentina, serpentula, serrata, sexangularis, similis, simplex, sinistrorsa, sinuata, siphon, socialis, solarium, solitaria, sowerbyana, spinosa, spinulosa, spiralis, spirographis, spirolinites, spirulea, squamosa, squamulosa, stellata, striata, stricta, subangulata, subannulata, subcarinata, subcincta, subcingulata, subfalcata, subgranulosa, subinvoluta, subquadrangula, subrugosa, substriata, subtilis, subtorquata, sulcata, sulcataria, sulfurata, tenuis, tetragona, texta, tortrix, tortuosa, torulosa, trachinus, triangularis, triangulata, tricarinata, tricristata, tricuspidata, tricuspis, trilatera, trilineata, triquetra, triquetroides, triserrata, trochiformis, trochleata, tuba, tubaformis, tubularia, tubulus, turbinata, turbinella, turboides, umbilicata, umbiliciformis, uncinata, undulata, unilineata, urnae, vallotina, valvata, variabilis, variegata, venatorium-cornu, venusta, vermes, vermetus, vermicella, vermicularis, vermiculites, vertebralis, vibicata, viperina, virginica, volubilis, volvox, vortex, warni.

Serpularia anglostomus, bicrenata*, centrifuga, circinalis, crenata*, serpula, spiruloides, tortuosa.

Serpulites carbonarius, coacervatus, contorquatus, curtus, exuviatus, gordialis, lithuus, lituus, longissimus, lumbricalis, membranaceus, muricinus, nummularius, peniformis, umbilicatus.

Serpuloides dentifera, inoperculata, varians.

Serpulorbis polyphragma.

Serranus acutirostris, aeneus, aka-ara, alboguttata, albomaculata, alexandrinus, altivelis, altiveloides, analis, angularis, antheas, apus, ara, arara, areolatus, argentinus, argus, argyrogrammicus, asperans, aurantius, auratus, awo-ara, bataviensis, biguttatus, bivittatus, boelang, boenack, bontoo, borbonicus, borbonius, brunneus, cabrilla, caeruleopunctatus, caninus, cardinalis, catus, cerauna, chlorocephalus, chlorostigma, coioides, colonus, conceptionis, confertus, corallicola, coronatus, couchi, crapao, creolus, cuvieri, cyanopodis, cyanostigma, cyanostigmatoides, delissi, dermochirus, dermopter, diacanthus, diacopaformis, dichropterus, emarginatus, epinelephus-af, epistictus, erythraeus, erythrogaster, erythrurus, fasciatus, fascicularis, filamentosus, fimbriatus, flavescens, flavimarginatus, flavocaeruleus, flavus, formosus, furcifer, fuscoguttatus, fuscus, gaimardi, galeus, geographirus, gigas, gilberti, goreensis, guativere, guttatus, gymnopareius, hemistiktos, heptatus, hexagonatus, hoeveni, horridus, humeralis, impetiginosus, inermis, irradians, itajara, kawamebari, labri-formis, lanceolatus, latifasciatus, lemniscatus, leopardus, lepidopterus, leucogrammicus, leucostigma, limbatus, lineatus, louti, lunulatus, luridus, luti, lutra, maculatus, maculosus, malabaricus, marginalis, marginatus, megachir, melanurus, mentzeli, merra, micronotatus, microstomus, miliaris, miniatus, mitis, mo-ara, morio, morrhua, myriaster, nebulosus, nigriceps, nigriculus, nigripinnis, niveatus, nouleny, occipitalis, oceanicus, octocinctus, oculatus, olfax, oncus, orientalis, ouatilibi, oxyrhynchus, pachycentron, pantherinus, papilionaceus, pardalis, parkinsoni, pavoninus, peruanus, phaeistomus, phaeton, pixanga, poecilnotus, polyphekadion, polypodophilus, psillacinus, punctatus, puncticeps, punctulatus, quoyanus, radialis, radians, rasor, reevesi, reticulatus, rivulatus, rogaa, roseus, rosmarus, ruberrimus, rufus, rupestris, salmonoides, salmonopsis, sarnicus, scriba, semifasciatus, semipunctatus, sexfasciatus, sexmaculatus, shihpan, siagonotus, sonnerati, spiloparaeus, spilurus, stellans, stigmapomus, striatus, sullus, summana, taeniocheirus, taenioops, tauvina, telfairi, tigrinus, tigris, tinca, tonsor, trimaculatus, tsirimenara, tumilabris, undulosus, ura, urodelus, variegatus, variolosus, ventralis, virescens, vitta, zanana, zananella, zonatus.

Serrasalme marginatus.

Serrasalmo albus, aureus, bimaculatus, emarginatus, niger, nigricans, scotopterus, stagnatilis, undulatus. *Vide et Serro*—.

- Serrasalmus** caribe, citharus, denticulatus, humeralis, marginatus, minto, piraya.
Serriger cofini, reichei.
Serripes groenlandicus*.
Serrirostrum carbonarium, sittoides.
Serrocerus bistriatus, striatus.
Serropalpus barbata, caniculatus, coriarius, fuscus, impressus, lineatus, obsoletus, quadrimaculatus, serratus, spinicollis, substriatus, tenuis, thoracicus, tomentosus, umbrinus, vandoueri.
Serrosalmo rhombeus. *Vide et Serra*→.
Serrosalmus rhombeus.
Sertularella polyzonias, rugosa.
Sertularia abietinula, antipathes, antiqua, arbuscula, arcta, articulata, beani, bicuspidata, bifida, ciliata, confervaeformis, crisioides, cuscuta, dentata, distans, disticha, divariata, divergens, dives, dumosa, ellisi, elongata, ericoides, fallax, fascis, filicina, fruticosa, fusca, gaudichaudi, gayi, geniculata, gracilis, hibernica, hydriformis, indivisa, johnstoni, laevis, lamourouxi, laxa, loriculata*, lycopodium, margareta, millefolium, milneana, mimosa, muricata, obliqua, pallasi, patagonica, pectinata, pelagica, pelagica, picta, pinnata, plumea, prolifera, quadridentata, ramosa, reptans, rigida, scandens, sericea, serra, splendens, tridentata, tubiformis, turbinata, uber, ulx, unilateralis, vidovichi.
Servillia echinata, pilosa, subpilosa, ursina.
Ses pellionella.
Sesarma ahnis, africana, barbata, cinerea, curvata, graptochirus, haematocheir, helicoides, impressa, indica, intermedia, longipes, picta, pisoni, quadrata, recta, reticulatus, subintegra, taeniolata, tetragona, trapezoidea.
Seserinus nichochirus, vachelli, xanthurus.
Sesia aerifrons, allantiformis, andrenaeformis, anthraciformis, anthraciniformis, asiliformis, astatifformis, bembeciformis, bibioniformis, brosimiformis, cephiiformis, ceriaeformis, chalciformis, chrysodiformis, cimbiciformis, cynipiformis, doryliformis, emphytiiformis, empiformis, euceraeformis, euglossaeformis, fenestrina, formicaeformis, halietiformis, hylaeiformis, ichneumoniformis, icteropus, infernalis, laphriaeformis, leucomelaena, loewi, mamertina, masariformis, melanocephala, melliniiformis, mellinipennis, minianiformis, mutillaeformis, nephrotomaeformis, nomadiformis, oenotherae, ophiiformis, oryssiformis, palpina, philanthiformis, polistiformis, prosopiformis, rhingiaeformis, ruficaudis, schizoceriformis, schmidtii, schmidtiformis, scoliaeformis, serratifformis, sireciformis, sirphiformis, sphingiformis, statuiiformis, stelidiformis, taediiformis, tentrediniformis, thynniformis, thyreiformis, tineiformis, triannuliformis, trivittata, typhiaeformis, vespiformis.
Setaria albogularis.
Setella (Cr.) aciculus, crassicornis, gracilis, longicauda, tenuicornis.
Setella (Lep.) marmorella.
Setellia afra, apicalis, liturata.
Sethenira testacea.
Setia bibioniformis, conopiformis, dioctriaeformis, leucopsiformis, muscaeformis.
Setifer caudatus, ecaudatus.
Setiger inauris.
Setina ancilla, andereggi, aurita, complana, cribrum, deplana, depressa, eborina, ephemera, flavicans, irrorea, jacobaeae, kuhlveini, luteola, pulchra, quadra, rosida, rubicunda, rubricollis, sembris, sorocula, unita.
Setipinna megalura, truncata.
Setis chrysidiformis.
Setodes aspersella, punctatella, punctella, respersella.
Setogyps imperialis.
Setophaga albidiadema, auricapilla, aurocapilla, bonapartei, bruniceps, budytoides, caesia, canadensis, castanea, castaneocapilla, chrysogaster, cinnamomeiventris, flaveola, glauca, melanocephala, miniata, mitrata, multicolor, nigra, nigroscincta, olivater, ornata, picta, rubra, ruficauda, rufifrons, rufopectus, russeicauda, rutililla, selbyi, verticalis, vulnerata.

Sigalphus aciculatus, affinis, alternipes, ambiguus, angustatus, annularis, annulatus, basilaris, bonellii, brevicornis, carinatus, caudatus, complanellae*, contractus, curculionum*, cylindrus, dentator, elegans, fasciatus, fenestratus, flavipalpis, floricola, foveolatus, fumatus, gracilis, gravenhorsti, gravidator, hians, hilaris, inanitus, irradiator, klugi, macrocephalus, mandibularis, mutabilis, obscurellus, obscurus, oculator, oculatus, pallidipennis, pallipes, pellucens, planifrons, retusus, rufescens, rufipes, scaber, scabriusculus, semirugosus, sericeus, similis, striatulus, tenthredinum, tibialis, vitripennis.

Siganus forskilli*, fuscus*.

Sigara coleoprata, grisea, hyalinipennis, leucocephala, lineata, minutissima, nigripennis, punctata, striata, undulata.

Sigaretus acuminatus, adansoni, affinis, apertus, arcatus, audouini, bilix, canaliculatus, cancellatus, carinatus, carolinus, clathratus, concavus, convexus, coriaceus, costatus, crenatus, curionii, cuvierianus, cymba, declivus, delesserti, depressus, deshayesi, deshayesianus, elegans, excavatus, filicatus, flavus, flexilis, furcatus, globosus, grate-lupianus, grayi, groenlandicus, halotoideus, helicoideus, heliotoideus, inscriptus, italicus, javanicus, kindelaninus, laevigatus, lamarkianus, latifasciatus, leachi, linneanus, lysteri, maculatus, mamillaris, martinianus, maximus, michaudi, mississippensis, morelli, neritoides, papillus, pellucidus, perspectivus, perspicuus, petitianus, planulatus, planus, politus, roseus, rugosus, scopulosus, similis, sinuatus, stomatellus, striatus, subglobosa, sulcatus, tentaculatus, tenuicinctus, tonganus, translucidus, turonicus, uctae, unifasciatus, vitreus, vitrinaeformis, zonalis, zonatus.

Sigelus silens.

Sigerpes piceus.

Sigillina australis.

Sigmodon harlani, hispidum.

Sigmodus cauceps.

Siguana ottoensis.

Silago burrus.

Silbomyia fuscipennis, micans.

Silenus brunneus, javanicus, veter.

Silicaria anguina.

Silicularia gracilis, rosea.

Siliqua floridana, lucida, nuttalli, radiata.

Siliquaria anguina, articulata, australis, brevissurata, claibornensis, costae, cristata, echinata, florina, gigas, glabra, granti, lactea, laevigata, lima, muricata, notata, ocellata, papillosa, polygonata, polygonalis, rosea, spinosa, spiralis, squamata, squamata, striata, terebella, tuberculata, turbinata, vitis.

Siliquarius angulus.

Siliquella bursa-pastoris.

Silis amoena, armaticollis, denticollis, dimicilis, laeta, longicornis, marginalis, pallens, pallida, plana, rubricollis, simplicicollis, spinicollis, tricolor.

Sillago acuta, bassensis, burrus*, chondropus, ciliala*, domina, erythraea, japonica, maculata, punctata, sihama.

Silo atratus, flavipes, gracilicornis, maculicornis, minutus, pallipes, pusillus.

Silonia diaphana, lurida.

Silopa dimidiata, fumata, glabrata, hepatica, nigella, praecox, pubescens, tempestiva.

Silpha abbreviata, acuminata, affinis, alpicola, alpina, altaica, apicalis, armenica, assimilis, bicarinata, bicolor, bimaculata, blattoides, brunnea, brutia, californica, capensis, carinata, carniolica, castanea, caudata, cayennensis, cervaria, clypeata, collaris, costata, cribrata, daurica, discicollis, dispar, erythrura, evanescens, excisa, ferruginea, figurata, flava, formosa, gibba, granulata, griesbachiana, haemiptera, hirta, hispanica, humator, intricata, ioptera, lacrymosa, lineatocollis, lutea, melanura, minuta, minutissima, mongolica, montana, mortuorum, multipunctata, mutilata, nitida, nitidula, obsoleta, opanulata, orientalis, perforata, perlata, phaeogaster, phaeorrhoea, polita, puncticollis, punctulata, pusilla, ramosa, recta, rosea, ruficollis, ruficornis, rufipes, rufithorax, sculptipennis, sericea, sibirica, similis, simplicicornis, simplices, sowerbyi, sphaeriae, stratum, striola, subsinuata, subterranea, terminata,

testacea, tomentosa, torquata, truncata, truncatella, tuberculata, unicolor, unicostata, verrucosa, violacea.

Silphodes dubia, gambiensis, indica, madagascariensis, philippensis, sumatrensis.

Silphomorpha albopicta, fallax, guttigera, maculata, oretocheiloides.

Silubosaurus stokesi.

Siluboura ceylonicus.

Silundia chandramara, gangetica.

Silurella bosci, cyclopina.

Silurus anostomus, argentinus, athu, auritus, bicirrhis, boalis, borealis, callichrous, canis, cerulescens, chechra, cochinchinensis, coecutiens, cornutus, cotylephorus, cupreus, cuvieri, duda, filamentorus, ganepinus, garua, gurgu, gyrius, hemiliopterus, hexadactylus, hypophthalmus, indicus, japonicus, langhur, laticeps, lima, limosus, lividus, maculatus, malabarius, marinus, melas, microcephalus, micronemus, minutus, mollis, mononema, muelleri, mysoricus, nebulosus, niloticus, ocellatus, olivaris, pabla, pabo, pallidus, parkeri, punctatus, schall, sinensis, singio, triostegus, vailanti, viscosus, wallagoo, xanthocephalus, xanthosteus.

Silusa alpicola, rubiginosa, rubra, rufa.

Silvanus advena, asperatus, bicornis, bidentatus, brevicornis, castaneus, dentatus, denticollis, denticulatus, elongatus, exilis, ferrugineus, frumentarius, lapidarius, latus, planus, serratus, sex-dentatus, similis, singularis, surinamensis, unidentata.

Silvia bidehensis, loquax. *Vide et Sylvia.*

Silvius algirus, appendiculatus, denticornis, eristaloides, esenbecki, fusconiger, isabellinus, laticornis, nubipennis, personatus, rufipes, vituli, vulpes.

Simaethis angustana, dentana, dentata, fabriciana, lutosa, myllerana, pariana, punctosa. *Vide et Simoe*—.

Simblephilus coronatus, diadema, discolor, petrolatus, pictus, triangulum, vertilabris.

Simia abeli, albifrons, albinana, albo-cinerea, antiguensis, anubis, aurata, caraya, carbonaria, carpegus, cephaloptera, chameck, chiropotes, chrysopes, cinerica, comata, comosa, concolor, cristata, cuvieri, cynopsis, dentata, dussumieri, edwardsi, engyitthia, erythraeus, fascicularis, ferruginea, flavescens, flavicauda, fuliginosa, fulvo-fusca, geoffroyi, glauca, golok, hoolock, johni, lagotricha, larvata, leonina, leucampyx, leuciscus, leucophea, leucopygma, libidinosa, lugens, lynx, mauritius, melalophos, melanocephala, moloch, monachus, morio, nasicus, nasuta, nigra, pann, parvilamnis, patas, pennanti, pennantiana, pileata, pongo, pyrrhonotos, radiata, rafflesi, rufiventris, sagulata, satanas, senes, siliens, speciosa, sphingiola, syndactyla, tragopogus, trivirgata, ursina, variegatus, vetulus, villosa, viridis, wagleri, wurmbi.

Simiolus ceilonicus.

Simnia nicaeensis, purpurea.

Simo elegantulus, hirticornis, simo.

Simodontus aeneipennis.

Simoethus leos, rex. *Vide et Simae*—.

Simorhynchus cinerea, cristatus, psittacula.

Simornis rubropygia, sericeogula.

Simosaurus gaillardoti, mougeoti.

Simotes albivertex, zibethicus.

Simplegades colubatus.

Simplegas funatus, margaritaceus, solarium, undulosus, virgatus.

Simplocaria acuminata, concolor, maculosa, metallicus, nitida, picipes, semistriata, strigosa.

Simulopsis angularis, atroviensis, obtusa, sulculosa.

Simulia annulitarsis, anomala, argyreata, aurea, auricoma, cana, canescens, cincta, columbaczensis, elegans, fasciata, ferruginea, fuscipes, hirtipes, incana, latipes, lineata, maculata, marginata, minutissima, nana, nigra, ornata, pallipes, picta, posticata, pubiventris, pusilla, pygmaea, rufa, rufipes, sericata, sericea, subfasciata, varia, variegata, vernum, vittata.

Simulium affinis, cinereum, columbascensis, crassitarsis, devorum, equinum, flavipes, humidum, invenustum, luteocornis, nasale, nigrimana, pertinax, picipes, pubescens, ruficorne, tarsatum, tibiale, trifasciatum, venustum, vernum.

Simyra dentinosa, dubiosa, eogene, fluxa, musculosa, nervosa, punctosa, venosa.

Sitones albarius, bicolor, bituberculatus, californius, chloroloma, cinerascens, conspectus, constrictus, cylindricollis, discoideus, geniculatus, intermedius, lividipes, longicollis, maculatus, mauritanicus, medicaginis, oculatus, ordinarius, seniculus, seriesetosus, setosus, setuliferus, sulcifrons, tenuis, trisulcatus, turbatus, variegatus, virgatus, viriditrons.

Sitonia costata [err. pro *Sitona*].

Sitophilus banoni, exaratus, frumenti, gotschi, granarius, incarnatus, linearis, mellerborgi, oryzae, quadrinotatus, remotepunctatus, rugosus, sculpturatus, setulosus, stigmati-collis, subfasciatus, subsignatus, taitensis, viduus.

Sitta advena, affinis, azurea, caesia, castanea, castaneoventris, chrysoptera, cinnamomea-ventris, corallina, curvirostris, flavipes, foliorum, formosa, frontalis, fusca, himalayensis, leucopsis, melaina, melanocephala, nepalensis, neumayeri, otatara, punctata, puncto-rum, pusilla, pygmaea, saxatilis, septentrionalis, sericea, stulta, suriaca, varia, velata.

Sittace acuticaudata, anaea, aracanga, ararauna, aurea, cactorum, caninde, chiripepe, chlorogenys, cruentata, euops, flaviventris, glauca, gujanensis, hyacinthina, illigeri, jendaya, lepida, leptorhyncha, leucotis, ludoviciana, lutea, macao, macavuanna, melanura, militaris, murina, nenday, nobilis, pachyrhyncha, patagonica, pertinax, petzi, severa, sol-tutialis, spixi, tirica, tricolor, tui, tuipara, virescens, vittata, xanthoptera.

Sittasomus amazonus, erythacus, flammulatus, olivaceus, perlatus, sylviellus, temminckii.

Sittella chrysoptera, leucocephala, leucoptera, melanocephala, pileata.

Sitularia triangulariformis.

Siva (A.) chrysotis, cyanouroptera, nipalensis, occipitalis, strigula, vinipectus.

Siva (Hem.) strigicollis.

Sivatherium giganteum:

Skeletodes tetrops.

Skenea aequalis, atomus, carinata, catillus, concava, cutleriana, depressa, divisa, funata, laevis, nitidissima, ovata, perangulatus, planorbis, rota, serpuloides, umbonata.

Skeponopodus guebua, typus.

Slabberia halterata.

Smaragdina ferulae, limbata, menetriesi.

Smaragdites (A.) aurentulus, cristatus, longicaudus, maugei, tobaci, viridis, viridissimus.

Smaragdites (Hym.) admirabilis.

Smaridia macilenta, miniata, nicoleti, papillosa, phlogina, sambuci, squamata, vestita.

Smaris acarapeba, alcedo, angustatus, balteatus, britannus, chryselis, erythrurus, expalpis, gagarella, gora, gracilis, impressa, insidiator, italicus, lineatus, maena, martinicus, mauri, mauritanus, melanurus, mendola, miniatus, osbecki, oyena, papillosus, porosus, royeri, smaridis, sparoides, vulgaris.

Smeia virginea.

Smerdis (Cr.) armata, formosus, vulgaris.

Smerdis (P.) latior, macrurus, micracanthus, minutus, pygmaeus, ventralis.

Smerinthus astylus, cerisyi, demi-paon, geminatus, jamaicensis, lycambes, modestus, ocellata, panopus, populi, quercus, rosacearum, tiliae, tremulae.

Smicrorhina sayi.

Smicra leprieuri.

Smicronyx caecus, cyaneus, erichsoni, fallax, jungermanniae, politus, reichei, variegatus.

Smicronis brevirostris, flavescens, occidentalis.

Smidtia cupraea, flavipalpis, myoidea, vernalis.

Smiera accila, ampyx, biguttata, clavipes, dares, enyo, fidius, fulvescens, lamyrus, macleani, masus, melanaris, nigrifex, peiroleri, petiolatus, pielus, pratinus, punctata, pylas, side, sispes, subpunctata, teleute, xanthostigma.

Smigrostoma littorale.

Smilax americanus.

Smileceras solitarium.

Smilia apicalis, axillaris, bifoliata, brunnea, brunnea-fasciata, brunnicornis, campestris, centralis, colon, diceros, dorsata, fasciata, flavipennis, flavipes, flexuosus, fornicata, genistae, griseus, incumbens, inflata, informis, lacca, malina, nigrofasciata, pallens, peltata, prasina, pugionata, pugnax, sellata, teligera, vaginata, vittata, vittatipennis, vitulus, xanthographa.

- Smiliorachis** bipunctata, bispina, notata, variegata.
Smilium peroni.
Smilocomptus burgueti.
Smilodon (M.) populator.
Smilodon (R.) crenatus, laevis.
Sminthurus aquaticus, bilineatus, fuscus, lupulinae, pallipes. *Vide et Smyntus*→.
Sminthus betulinus, loriger, nordmanni, vagus.
Smithornis capensis.
Smodicum cuculiiforme, impressicolle.
Smynthuroides betae.
Smynturus bicinctus, bourleti, capucinus, couloni, deformis, echii, exiguus, fuliginosus, fulvipes, fuscus, globosa, guttatus, laterculus, liliputanus, lussieri, oblongus, ochraceus, ornatus, pinetorum, polypodus, punctatus, signatus, sulphureus, viridis.
Smyrna blomfeldi, karwinski.
Socomia paradoxa.
Sogines punctulatus.
Solanderia gracilis.
Solanocrinites costatus, jaegeri, scrobiculatus.
Solanocrinus bronni.
Solariella maculata.
Solariopsis pellis serpentis [*err. pro Solaropsis*].
Solarites pseudoperspectivus.
Solarium acies, aethiops, affine, albense, alpinum, alveatum, ammonites, amoenum, angulatum, anonymum, antiquum, antrosium, architae, areola, asperum, astierianum, australe, axacuum, benstedii, biangulatum, bicanaliculatum, bicarinatum, bicinctum, bifrons, bilineatum, bistriatum, bisulcatum, branderianum, brochii, bronni, caelatum, calix, canaliculatum, cancellatum, candidum, carcitense, carinatum, carocollatum, castellanensis, castrensis, catenatum, catillus, chemnitzii, cingulum, cirroide, complanatum, conoideum, coronatum, cotswaldiae, cratera, crenulosum, cyclostomum, cylindraceum, danae, dealbatum, delphinuloides, delphinulum, dentatum, denticulatum, depressum, deshayesi, dilatatum, discoideum, discus, disjunctum, dorsuosum, doublieri, dumonti, dupinianum, egenum, elaboratum, elegans, elevatum, fasciatum, fenestratum, formosum, fragile, fuliginosum, fulvum, funginum, gibbosum, granatum, grande, granosum, granulato-costatum, granulatum, guerangeri, henrici, herberti, heteroclitum, hugianum, humile, hybridum, imperforatum, implexum, incisum, inornatum, laevigatum, laudunensis, luteum, lyelli, maculatum, marginatum, martinianum, maximum, millegranum, minimum, miserum, modestum, moniliferum, nanum, neglectum, neocomiense, nitidum, nodosum, nubilum, nuperum, nysti, ornatum, patellatum, patulum, pentangulatum, perversum, petropolitanum, philippii, pictum, placentale, planatum, plano-concavum, planorbillus, planorbis, plicatum, polygonium, pomeli, pseudo-granulatum, pseudoperspectivum, pulchellum, pulchrum, purpuratum, pygmaeum, quadratum, quadriceps, quadrifasciatum, quadriseriatum, quadristriatum, radians, radiatum, raristriatum, reticulatum, rochatianum, sarthacensis, scalare, scrobiculatum, semisquamosum, semistriatum, serpens, siculum, simplex, sowerbyi, spectabile, spiratum, stalagnium, stellatum, stramineum, subangulatum, subornatum, subpunctatum, sulcatum, tabulatum, tessellatum, thirrianum, tingryanum, tollotianum, tricarinatum, tricostatum, trilineatum, triliratum, triplex, trochiforme, trochleare, trochoides, turbinoides, umbrosum, variegatum, verrucosum, virgatum, vitreum, zonatum.
Solaropsis brasiliensis, heliaca.
Solaster endeca, furcifer, papposa.
Soldania annulata, carinata, elegans, limia, nitida, orbicularis, spirorbis, trivoluta.
Solea arnogglossa, brasiliensis, buglossa, cinerea, cithara, cynoglossa, foliacea, hexophthalma, humilis, impar, isostoma, kleini, lascaris, limanda, lingula, liturata, luctuosa, lutea, mangili, monochir, nasuta, ocellatus, oculata, ommatura, orientalis, ovalis, ovata, pegusa, plagiusa, platessa, rhomboide, rondeleti, rudis, scriba, solea, theophila, variegata, vulgaris, zebra, zebrina.
Solecardia eburnea.

Solecirtus acteon, acuminatus, acutidens, aequalis, affinis, albus, antiquatus, appendiculatus, basteroti, blainvillei, californianus, candidus, coarctatus, compressus, constrictus, cyclopeus, depressus, deshayesi, dilatatus, dombeyi, dubius, effusus, elegans, elongatus, fragilis, gibbus, guerangeri, hallowaysi, inflexus, javanicus, legumen, lucidus, nuttalli, obscurus, ovalis, parisiensis, pelagi, petschorae, platensis, pseudotagal, pudicus, quadratus, radians, radiatus, robinaldinus, solidus, squama, strigillatus, subcompressus, subteres, tellinella, violaceus, warburtoni.

Solenognathus hardwicki.

Solemia australis, biarmica, borealis, mediterranea, phillipsiana, primaeva, puzosiana, velum, ventricosa, volti.

Solen abbreviatus, acinaces, acuminatus, acutidens, adansoni, aegypticus, aequalis, affinis, africanus, albicans, albida, albus, altus, ambiguus, americanus, amethystus, angulatus, angustatus, antiqua, antiquatus, appendiculatus, arctica, aulos diplos, becki, bidens, biradiata, bouchardi, brevis, californianus, cancellatus, candidus, caribaeus, carinatus, centralis, cerinus, ceylonensis, chemnitzii, coarctatus, coerulescens, complanatus, compressus, comprimatus, constrictus, conversus, corneus, costatus, cruentus, cultellatus, curtus, cylindraceus, dealbatus, declivis, defloratus, depressus, deshayesi, dielivis, directus, dixonii, dombeyi, dupinianus, effusus, elegans, ellipticus, elongatus, ensiformis, exaratus, flammeum, fragilis, gallicus, gari, gaudichaudi, genuis, gigas, gladiolus, gracilis, guerangeri, guineensis, hausmanni, helveticus, hians, incurvus, inflatus, inflexus, intermedius, javanicus, jurensis, konincki, laevigata, lamarcki, lamellosus, legumen, ligula, linearis, lividus, lustheidi, macrodon, magnodentatus, magnus, marginatus, maximus, mediterranea, medius, michaudi, multiradiatus, multistriatus, nahantensis, nitidus, novacula, novaculina, obliquus, oblonga, obtusa, olivii, orbiculatus, orientalis, ovalis, pallidus, papyraceus, parisiensis, patulus, pelagicus, philippinarum, pictus, pinna, pinnaeformis, planulatus, planus, plebejus, politus, pruneri, purpureus, pygmaeus, repandus, robinaldinus, rostratus, scalprum, schultzeanus, scopula, sculptus, sicarius, siliquoides, sloani, solidus, splendens, squama, squamosus, strigillatus, subfragilis, subrostrata, subteres, subvaginoides, tellinella, tenuis, truncata, truncatulus, truncatus, vaginoides, variegatus, ventrosus, versicolor, vetustus, violaceus, viride, viridi-aeneus, viridis.

Solenastrea bourroni, bowerbanki, forskalliana, gibbosa, hemprichiana, sarcinula, tenuilamellosa, turonensis.

Solenella norrisi.

Solenimya abnormis, normalis, parvula.

Solenites cultratus, diluvianus, leguminoides, minor, mytiloides, tellinarius, vaginatus. *Vide et Solenn*→.

Solenius caesus, dives, fossorius, fuscipennis, grandis, interruptus, lapidarius, octos notatus, petiolatus, punctatus, rubicola, scaber, vagus.

Solennites annulatus. *Vide et Solen*→.

Solenobia anderreggella, clathrella, lapidicella, lefebvreiella, lichenella, minorella, pectinatella, pectinella, pseudo-bombycella, undulella.

Solenocera philippii.

Solenocotyle chiajei.

Solenocurtus hanetianus, legumen.

Solenodon paradoxus.

Solenoglossus zeylanicus.

Solenophorus (Col.) streperus.

Solenophorus (Verm.) grandis, megaloccephalus, ovatus.

Solenopsis (Hym.) mandibularis.

Solenopsis (L.) minor, moricandi.

Solenoptera (Col.) canaliculata, cinnamipennis, fulvipes, lineata, quadrilineata, taslei, thomae.

Solenoptera (Lep.) meticolosa, scita.

Solenopus cacticus, percheroni, regalis, sexmaculatus, spinicollis.

Solenorhinus porifer.

Solenosternus puncticollis.

Solenosthedium furciferum, lynceum.

Solenostomus paradoxus, scolopax.

Soleria rustica.

Soletellina effusa, lamarecki, nitida, occidens, ovalis, radiata, repanda, tellinella.

Solidula mosaica.

Solieria binotata, brunica, cinerascens, cinerea, dimidiata, elongatus, femoralis, festiva, fusca, gagatea, germana, immaculatus, inanis, lateralis, modesta, nana, nigra, nitens, pacifica, pulverulenta, ruficus, vicina.

Solpuga araneoides, barbara, brevipes, cubae, gryllipes, intrepida, limbata, melona, phalangista, spinipalpis, venenosa.

Somateria borealis, danica, dispar, faroensis, islandica, leisleri, megauros, mollissima, norvegica, planifrons, platyuros, saint cuthberti, spectabilis.

Somaticus rugosum.

Somatopongia pulchella.

Somatodes misumenus, sanctus.

Sometia stomoxyformis.

Somias variegatus.

Somileptes bispinosa, unispina.

Sommeria culta.

Somniosus brevipinna.

Somnoplatus substriatus.

Somula decora.

Soosoo bordaii, gangeticus.

Sophia (Coel.) diploptera.

Sophia (Dipt.) filipes, gagatea, pellucida, punctata, vittata.

Sophone nicaeensis.

Sophron inornatum.

Sophronia derivalis, emortualis, illustrella, sicariellus.

Sorex alba, albus, alpinus, amphibius, antinori, aterrimus, bicolor, brachygnathus*, brevicaudatus, brevicaudus, caerulescens, cafer, canaliculatus, capensis, capensoides, carinatus, carolinensis, castaneus, caudatus, cerulescens, ciliatus, cinereus, cinnamomeus, concinnus, concolor, constrictus, cooperi, coronatus, cunicularius, cyaneus, dasyurus, dekayi, dichurus, dsinezumi, eremita, etruscus, feroculus, ferrugineus, fimbriatus, fimbripes, flavescens, fluvialis, fodiens, forsteri, franciscus, fulvaster, geoffroyi, giganteus, glis, gmelini, gracilis, guineensis, guldendaedti, hedenborgianus, hermanni, herpestes, hibernicus, himalaicus, hydrophilus, indicus, infumatus, jaculus, kinezumi, labiatus, labiosus, leucurus, lineatus, longirostris, luricaudatus, macropus, macrotrichus, macrourus, madagascariensis, mariquensis, melanodon, melanotis, minimus, montanus, murinus, musculus, natans, nemorivagus, niger, nigricans, nigripes, pachyurus, palustris, paradoxus, parvus, perrotteti, personatus, platycephalus, poensis, proboscideus, psilurus, pulchellus, pumilio, pumilus, pusillus, pygmaeus, radiatus, religiosus, remifer, rhinolophus, richardsoni, rozeti, rubrideus, rusticus, sericeus, serpentarius, setifer, sikimensis, soccatus, sonnerati, stagnalis, suaveolens, talpoides, tenuis, thoracicus, tucutuco, umbrinus, varius, viarius, vulgaris.

Soridia lineata.

Sorites depressus, dominicensis, edentulus, orbiculus, radiolatus, undatus.

Sormetus adansonii.

Soronia grisea, marmorata, punctatissima.

Soroplex campestris.

Sorubim caparary, infraocularis, jandia, pirauaca.

Sospita chinensis, tigrina.

Sosybius major, minor.

Sosylus rufipes.

Sowerbya crassa.

Spaelotis augur, birivia, cataleuca, confusa, decora, distinguenda, dumetorum, fimbriola, fugax, gilva, griseus, helvetina, latens, lucipeta, nyctemera, policola, praecox, pyrophila, ravida, remigera, senna, sibirica, squalida, valesiaca.

Spalacopsis stellio, stolata, suffusa.

Spalacopus poeppigi.

- Spalangia** endius, erythromera, flavipes, fuscipes, glabricollis, gonatopoda, hirta, homalaspis, hyaloptera, leptogramma, nigra, nigripes, nigroaenea, rugulosa, spuria, subpunctata, umbellatarum.
- Spalangius** politus.
- Spalax** brasiliensis, caecutiens, canis, maritimus, murinus, pallasi, talpinus, trivittata, typhlus, vittata, zokor.
- Spallanzania** gallica, picea.
- Spania** (Dipt.) edeta, falleni, nigra.
- Spania** (Lep.) messingiella.
- Spaniodon** blondelli, elongatus.
- Spanioneura** fonscolombei.
- Spaniopus** dissimilis.
- Sparacta** cristata.
- Sparactes** cristatus, robustus, superbus.
- Sparactus** interrupta.
- Sparasion** carinatus, cephalotes, famelicus, frontalis, inermis, tibiale.
- Sparassus** americanus, amoenus, angulatus, argelasius, ferrugineus, fuscus, ligurinus, montanus, nigricans, ornatus, pallens, punctipes, roseus, rubripes, smaragdina, smaragdulus, spinicrus, tricolor, vestitus, virescens, walckenari.
- Sparatta** pelvimetra.
- Sparedrus** testaceus.
- Sparganothis** adustana, consimilana, griseana, luteolana, mixtana, pilleriana, rolandiana, strigana.
- Spargispongia** rugosissima. *Vide et Sparsi*→.
- Sparisoma** abildgardi.
- Sparnodus** altivelis, elongatus, macrophthalmus, micracanthus, ovalis.
- Sparsispongia** concinna, polymorpha, pulvinarium, radiosa, ramosa, rugosum, tuberosa. *Vide et Spargi*→.
- Spartecerus** angustatus, caesus, foedus, obesus, sellatus.
- Spartiophila** litura, sexpunctata.
- Spartocera** batatas, pubera.
- Spartocerus** affinis, bicolor, bimaculatus, dorsalis, erythromelas, geniculatus, intermedius, lateritius, laticornis, scutellatus, subfulvus.
- Spartophila** caraganae, lineata, menetriesi, spartii.
- Spartycerus** rondani.
- Sparus** acara, acutirostris, adottus, adriaticus, alcedo, aldrovandii, altus, anthias, argenteus, argus, argyrophthalmus, atlanticus, atrarius, auratoides, auratus, aureolineatus, aureoruber, aureovittatus, bajonado, bicinctus, bidens, bifasciatus, bilobatus, bolcanus, brachion, britannus, brunnichi, bufalus, bufonites, caeruleus, caissoti, calamara, calcaratus, cantabrus, cantarella, canthareus, cardinalis, carudse, castaneola, catesby, caxis, cayanensis, centrodontus, cepedianus, cetti, chaetodontoides, chinensis, chloropterus, choerorynchus, chrysomelanus, chrysopterus, cinereus, clavieria, commersoni, coracinus, corvina, crassirostris, cruentatus, decussatus, dentex, desfontaini, diacanthus, digramma, dubius, ellipticus, ehippiun, erythropterus, erythropterus, falcus, forsteri, gaiolus, gibbosus, gibbus, grandoculis, gymnocephalus, hamur, harak, hardwicki, hasta, hemisphaericum, hemisphaerius, hexagonus, holocyanus, insulae-stercus, juba, lapina, lepisurus, lineatus, linki, lividus, luna, lunulatus, lutianus, macrophthalmus, maculatus, magnificus, mahsenus, malabaricus, massiliensis, mauropsaro, meaco, mediterraneus, melanopterus, melanotus, melanurus, mendola, microstomus, milii, miniatus, minutus, mocasinus, mupaz, mylii, mylostomus, nhoquanda, niger, nippon, nobilis, norvegicus, notatus, oblada, oblongus, ocellatus, olivaceus, ophthalmicus, orientalis, ornatus, osbecki, ovicephalus, ovis, oxyrhynchus, pagel, pantherinus, passeroni, pavo, pentagramma, percula, pogonathus, polinymus, polymna, porgy, psittacus, pullus, punctulatus, puntazzo, ramak, ramentaceus, reticulatus, rostratus, rupestris, salin, saltator, scandens, scina, scirenga, sciurus, scriba, semifasciatus, semiluna, serran, sigillatus, sparlotus, sparolus, sparulus, spicaroides, stigma, striatus, superbus, surinamensis, testudineus, tranquebaricus, triangulum, tricuspidatus, tridens, trifasciatus, trilineatus, trilobatus, trimaculatus

varatulus, variegatus, venenosus, vermicularis, verres, vetula, violaceus, virescens, viridiaureus, vosmaeri, vosmerianus, vulgaris, zanturus, zipolus, zonatus, zonephorus.

Sparvius ardosiacus, badius, bicolor, caeruleus, cinereus, cirrocephalus, gabar, gilvicollis, guttatus, hyemalis, leucorhous, lineatus, lunulatus, macrourus, madagascariensis, magnirostris, major, melanoleucus, melanops, minullus, minutus, monachus, musicus, niger, nigricans, nisus, niveus, orientalis, palumbarius, platypterus, ruficollis, rufiventris, semitorquatus, striatus, subniger, superciliaris, tachiro, tricolor.

Spatagus macroporus, vulgaris. *Vide et Spatagus.*

Spatialia argentina, bicolora.

Spatangites ovalis, suborbicularis.

Spatangus acuminatus, acutus, ambulacrum, amygdala, ananchytoides, aquitanicus, archiaci, arcuarius, argillaceus, asterias, atropos, australasiae, australis, bicordatus, bigibbus, brissoides, bucardium, bucklandi, bufo, canaliferus, capistratus, carinatus, cavernosa, chitonosus, chloriteus, colombianus, columbaria, complanatus, compressus, cor, cor-anguinum, cor-avium, cor-testudinarium, cordatus, cordiformis, corsicus, crassissimus, crispisulcatus, cristatus, crux-andreae, cuneatus, delphinus, depressus, desmaresti, elatus, elongatus, excavatus, excentricus, fissus, fossarius, gibbus, globosus, grandis, granulatus, grignonensis, helvetianus, hemisphaericus, hieroglyphicus, hofmanni, incertus, integer, intermedius, lacunosus, laevis, lamarcki, lateralis, leskei, meridionalis, miliaris, miplica, mosae, muensteri, nicoleti, nodulosus, obesus, obliquatus, oblongus, ocellatus, omalii, ornatus, orthonotus, parastatus, pareti, parkinsoni, pectoralis, pendulus, petalodes, philippii, pillula, placenta, planulatus, planus, prunella, pulvinus, punctatus, pyriformis, radiatus, reaumuri, requieni, retusus, rostratus, rumphii, sambianus, scillae, sculus, simplex, spinosissimus, stella, stellatus, stellifer, sternalis, studeri, subalpinus, subcordatus, subglobulosus, suborbicularis, truncatus, tuberculatus, ungula, unicolor, ventricosus, veronensis, vulgaris. *Vide et Spatagus.*

Spatha coelestis, elongata, nilotica, rubens, siliquosa, soleniformis.

Spathogaster petioliventris, tricolor.

Spathidium hyalinum.

Spathidopteryx capillata.

Spathius brevicaudis, clavatus, curvicaudis, erythrocephalus, exannulatus, minutus, ochropes, pallipes, pedestris, radzayanus, rubidus, rugosus, sulcatus.

Spathobatis bugesiacus.

Spathophora biclavata.

Spathoptera albilatera, picta.

Spathulea clypeata.

Spathura addae, peruana, rufocaligata, underwoodi.

Spatula capensis, clypeata, platatea, rhynchotis.

Spatularia folium, reticulata, spatula.

Spectrum atrophicum, baculus, bivittatum, calamus, celerio, euphorbiae, femoratum, ferula, filiforme, gigas, ligustri, necydaloides, rossi, rossium, rubidum, tiliae.

Speiredonia euspira, feducia, helicina, laminosa, obscura, retorta, zamis.

Spelectos corythaix, erythrophus, persa.

Spelerpes belli, bilineata, cirrigera, guttolineata, longicauda, lucifuga, montana, porphyritica, rubra, salmonea.

Spenia binghami.

Speo bifasciata, tornatilis.

Speothos pacivorus.

Speotyto cunicularia.

Speranza brunneata, sylvia.

Sperchaeus cerisyi.

Spercheus emarginatus, platycephalus, senegalensis, sordidus, tessellatus.

Sperchius lucidus.

Spermagra erythrocephala.

Spermatias hirudine.

Spermatinus chararum.

Spermatogonius cercopitheci.

- Spermestes** acuticauda, bicolor, cheet, cucullata, fuscoluteus, leuconota, lineoverter, malacca, melanocephalus, nana, poensis.
- Spermokrates** cameli.
- Spermolegus** montanellus.
- Spermologa** carduelis, linaria, lulensis, spinus.
- Spermologus** rufus.
- Spermophaga** cyanorhynchus, haematina, margaritata.
- Spermophagus** albo-sparsus, canescens, cardui, cicatricosus, cistelinus, convolvuli, euphorbiae, guttulus, hofmanseggii, hottentottus, irroratus, lupinus, moerens, musculus, puncticollis, robiniae, rufiventris, semifasciatus, sophorae, subfasciatus, sublineatus, subsignatus, sulcifrons, titivilitius, tomentosus, tragacanthae, variolosus, punctatus.
- Spermophila** abeillei, adoxa, alaudina, albocollaris, albugularis, americana, angolensis, anoxantha, aurita, bicolor, bouvionides, caerulescens, capistrata, chrysocephala, cinerea, cinereola, cinnamomea, collaria, collaris, crassirostris, daubentoni, falcirostris, flabellum, fusciventris, glauco-caerulea, grisea, griseoventris, gutturalis, haitii, hypoleuca, ignobilis, inornata, leucoptera, leucopterygia, lineola, longicauda, luctuosa, martinicensis, melanocephala, minuta, moreletii, mutans, mysia, nasuta, nigra, nigricollis, nigroaurantia, nigrogularis, nigro-rufa, noctis, olivacea, olivaceo-flava, ornata, pectoralis, peruviana, plebeia, pyrrhomelas, rufo-barbata, superciliosa, talasco, torquata, torqueola, violacea.
- Spermophilus** annulatus, becheyi, brevicauda, bruniceps, citillus, clarki, concolor, dauricus, douglasi, erythrogenys, evermanni, franklini, fulvus, grammurus, griseus, guttatus, guttulus, hoodi, intermedius, jacutensis, lateralis, leptodactylus, leucostictus, ludovicianus, macrourus, mexicanus, mugosaricus, musicus, parryi, pruinosis, richardsoni, rufescens, speciosus, spilosoma, superciliosus, townsendi, tridecimlineatus, undulatus, xanthoprimum.
- Spermophora** meridionalis.
- Spermopipes** subhimachalus.
- Spermosciurus** getulus.
- Spermospiza** haematina.
- Sphadasmus** camelus, carinicollis, incallidus, setifer.
- Sphaena** binghami, birghami.
- Sphaenia** californica.
- Sphaenognathus** feisthameli, lividus, prionoides.
- Sphaenophorus** crassus, rubrotenellatus.
- Sphaenops** capistrata, sepsoides.
- Sphaenoptera** pharia.
- Sphaenorhynchus** lactea.
- Sphaenothecus** bivittatus, cyanicollis, tomentosus, trilineatus.
- Sphaera** corrugata.
- Sphaeratrix** latifrons.
- Sphaerella** subvexa.
- Sphaerelytrus** nigerrimus.
- Sphaerexochus** caliris, juvenis, mirus.
- Sphaeridium** africanum, agnaticum, americanum, anale, apicalis, catrum, carbonarium, centrimaculatum, chrysomelinum, conspurcatum, crenatum, daltoni, depressum, diaperinum, dimidiatum, flavicorne, flavipes, flavum, glabratum, haemorrhous, hydrophiloides, immundum, impressum, laeve, littorale, lunulatum, melaenum, melanarium, melanocephalum, mellipes, merdarium, minutum, nigricolle, nitidulum, obscurum, obsolutum, occalatum, orbiculare, pallidum, pictum, praetextatum, punctulatum, pygmaeum, quadrimaculatum, rufum, scapulare, scarabaeoides, scutellatum, semistriatum, senegalensis, striolatum, substriatum, tauricum, terminatum, testaceum, triste, unicolor, unistriatum, vicinum.
- Sphaeridops** amoenus.
- Sphaeriestes** aeneus, ater, denticollis, immaculatus, quadri-pustulatus, virescens.
- Sphaeriodactylus** cinereus, elegans, punctatissimus.
- Sphaerion** cyanipennis, melanurum, procerum, rugicolle, triste.

- Sphaeripalpus** viridis.
- Sphaerites** geminatus, glabratus, politus.
- Sphaerium** acervosum, mauritanicum.
- Sphaerius** acaroides, arenarius.
- Sphaerocera** communis, coprivora, curvipes, denticulata, fuliginosa, grossipes, hyalipennis, monilis, scabricula, subcinerea, subsultans, vaporariorum.
- Sphaerocharis** margaritacea, marginicollis.
- Sphaerocoris** annularis, annulus, argus, impluviatus, lateritia, ocellatus, polysticta, punctaria, quadrinotata, rusticus, simplex, tigrinus.
- Sphaerodactylus** argus, cinereus, nigropunctatus, oxyrhinus, porphyreus, richardsoni.
- Sphaerodema** annulatum, rotundata.
- Sphaeroderma** cardui, centaureae, globosa, insolita, mercurialis, orbiculata, testaceus.
- Sphaeroderus** bilobus, brevoorti, lecontei, niagarensis, nitidicollis, stenostomus.
- Sphaerodon** grandoculis.
- Sphaerodorum** flavum, peripatus.
- Sphaerodus** annularis, cinctus, cingulatus, conicus, crassus, cylindricoides, depressus, discus, flavidus, gigas, hybridus, irregularis, jurassicus, lens, mammillaris, microdon, minimus, minor, mitrula, neocomensis, oculus serpentis, parvus, poliodon, pygmaeus, rhomboidalis, rugulosus, semiglobosus, subannularis, submamillaris, subradiatus, subtruncatus, tenuior, tenuis, tetragonus, truncatus.
- Sphaerogaster** (Col.) aracnoides.
- Sphaerogaster** (Dipt.) arcticus.
- Sphaeroidina** bulloides.
- Sphaeroma** aculeata, armata, biappendiculata, bidentata, boryi, bumastiformis, cinerea, curtum, diadema, dicantha, dumerili, dydima, emarginata, faveolatum, gaimardi, gastaldi, gayi, gibbosa, gigas, globator, granulata, griffithsi, hirsuta, jurinei, lesueuri, leucura, macrocephala, micracantha, montagui, perforata, prideauxianum, propinqua, pubescens, quadridentata, quoyana, rugicauda, savignyi, semi-punctata, serrata, siciliense, spongiosum, subgranulosum, tristense, verrucauda, walckenaeri.
- Sphaerometopa** acroleuca.
- Sphaeromias** aethiops, albomarginatus, annularis, elegans, varipes.
- Sphaeromorphus** basilicus, bicinctus, chalceus, ebeninus, globulus, humeralis, nanus, nitidus, politus, pyritosus, semipunctatus, semistriatus, seriatus, sesquistriatus, volvox.
- Sphaeromus** australis, paganus.
- Sphaeromyas** concinnus, varipes.
- Sphaeronites** arachnoideus, aurantium, balticus, citrus, granatum, leuchtenbergi, pomum, punctatus, tessellatus, testudinarius, wahlenbergi.
- Sphaeronychus** melanurus.
- Sphaeropalpus** cinctus.
- Sphaerophoria** annulipes, bengalensis, bifasciata, calceolata, dispar, dubia, flavicauda, limbata, loewi, melissae, menthastri, nigricoxa, nitidicollis, organi, pholanthus, picta, scripta, strigata, taeniata.
- Sphaerophorus** castaneus.
- Sphaeropoëus** hercules, insignis.
- Sphaerops** anomalus.
- Sphaeropterus** albolineatus.
- Sphaeropyx** irrorator.
- Sphaerorhinus** carinicollis, rotundipennis, setiger, spongicollis, villosulus.
- Sphaerosira** volvox.
- Sphaerosoma** quercus.
- Sphaerosporostes** cedri.
- Sphaerostoma** (G.) jamesoni.
- Sphaerostylus** goryi.
- Sphaerotherium** compressum, convexum, elongatum, gronovii, grossum, klugi, kutorgae, lichtensteini, microstictum, obtusum, punctatum, punctulatum, retusum, rotundatum, rugulosum, testaceum, titanus.
- Sphaerotus** costatus, cribratus, curvipes, gravidus, laevigatus, mexicanus, politus, thoracicus.

Sphaerozoum fuscum.

Sphaerula lythri.

Sphaerularia bombi.

Sphaerulites agariciformis, bioculata, bournoni, calceoloides, crateriformis, cristata, cylindracea, dilatata, duvauxi, ellipticus, expansus, falcatus, foliacea, gracilis, hoeninghausi, imbricata, ingens, jodamia, jouanneti, lillii, mortoni, navis, patula, plicatus, ponsiana, problematicus, requieni, rotularis, saxoniae, saxonica, turbinata, ventricosa. *Vide et Spherulites.*

Sphaetes crassiscus.

Sphagebranchus bimaculatus, catostomus, coccus, formosissimus, imberbis, oculatus, quadratus, serpa, spallanzanii.

Sphairidion acephalocystis.

Sphalax capensis, hudsonius, talpinus, typhlus.

Sphaleroptera alpicolana, capillana, diniana.

Sphallomorpha decipiens, nitiduloides, suturalis.

Sphargis coriacea, mercurialis, pseudostracion.

Sphasus alexandrinus, algerianus, arcuatus, conchinchinensis, fossanus, gentilis, gracilipes, heterophthalmus, idiops, indicus, italicus, lanceolatus, lineatipes, lineatus, pallidus, thalassinus, timorianus, transalpinus, variegatus, viridans, vittatus.

Sphazigaster apennini.

Sphecia bembeciformis.

Sphecius speciosus.

Sphécodes (Hym.) africanus, collaris, confectus, divisa, fuscipennis, geoffrella, gibba, hispanicus, latreillei, maculatus, monilicornis, nigripes, olivieri, pellucidus, picea, rutiventris, rugosus, similis, sphécoides, subquadratus.

Sphécodes (Lep.) pusaria.

Sphecomorpha (Col.) chalybea.

Sphecomorpha (Lep.) incendiaria.

Sphecomylia undata, valida, vittata.

Sphécophaga vesparum.

Sphécotera viridis.

Sphécothera grisea, maxillaris, virescens.

Sphécotheres canicollis, flaviventris, maxillaris, vieilloti.

Sphégigaster aculeata, ariope, clavicornis, flavicornis, fronto, lasthenes, megapterus, pullicornis, pedunculiventris, rufipes.

Sphégina clunipes, elegans, flava, loewei, nigra.

Sphena cleryana.

Sphenacanthus serrulatus.

Sphenaeacus punctatus.

Sphenaria elongata, karelini.

Sphenarium purpurascens.

Sphenella linariae, signata.

Sphenia angulata, argentea, binghami, costulata, cylindrica, decussata, dispar, michelottii, subtumida, swainsoni, victoria.

Spheniscus antarcticus, catarractes, chiloensis, chrysocome, comtus, cribratus, demersa, erotylodes, ferrum equinum, guttafasciatus, guttatus, humboldti, kirbyi, maculatus, magellanicus, marginatus, minor, novae hollandiae, pictus, quadrimaculatus, undina.

Sphenocephalus (P.) fissicaudus.

Sphenocephalus (R.) melanogenys.

Sphenocercus oxyurus.

Sphenocorynes quadripunctatus.

Sphenoderia lenta.

Sphenodus longidens, planus.

Sphenoeacus africanus, galactotes, gramineus, punctatus.

Sphenogenius clathratus.

Sphenolepis (Hym.) pygmaea.

Sphenolepis (P.) cuvieri, squamosseus.

Sphenoma abdominale.

Sphenomorphus melanopogon.

Sphenonchus conicus, elongatus, hamatus, martini, subulatus.

Sphenophis coccinea.

Sphenophorus abbreviatus, adpersus, aduncus, aequalis, albicollis, ambiguus, anceps, angustus, ardesius, atratus, austerus, bifasciatus, bisbifasciatus, brunnipennis, brutus, callosus, canaliculatus, canalipes, carbonarius, carinicolis, cariosus, castaneipes, cicatricosus, cicatripennis, cicatristriatus, cincticollis, cinctus, coesifrons, compressirostris, confusus, contractus, crenatus, crudus, cultrirostris, decoratus, defricatus, dehaani, delumbatus, discolor, dispar, ensirostris, fahraci, fallax, ferrugineus, flexuosus, fossor, gagatinus, glabricollis, hebetatus, hemipterus, hoegbergi, hypocrita, immunis, implicatus, imus, inaequalis, incurrens, laetus, larvalis, lateritius, lebasii, leprosus, leucographus, liratus, longicollis, maculatus, maculifer, maurus, melancholicus, melanocardius, melanocephalus, memnonius, meridionalis, monilis, mutilatus, naegelianus, necydaloides, nigerrimus, nubilus, obsoletus, opacus, parumpunctatus, parvulus, perforatus, pertinax, piceus, placidus, planipennis, polygrammus, pulchellus, pumilus, punctatostriatus, pustulosus, quadrimaculatus, quadrisignatus, quadrivittatus, rectus, regelianus, reticulaticollis, retusus, rimoratus, rusticus, sacchari, sanguineus, saucius, sayi, schoenherri, senegalensis, sereipunctatus, sericans, sericeus, sierrakowskyi, signaticollis, sordidus, spadiceus, spinolae, squamosus, stigmaticus, strangulatus, striatiformis, striatus, strigosus, subcarinatus, suturalis, terebrans, tetricus, tredecimpunctatus, truncatus, validirostris, variabilis, variegatus, venatus, zamiae.

Sphenops sepsoides.

Sphenoptera aegyptica, aenea, angolensis, antiqua, arabica, ardea, ardua, asiatica, aurlenta, australis, bassi, bravaisi, brevis, canaliculata, capensis, carceli, carduorum, chalybea, chrysostoma, conica, coracina, corrugata, cribrata, cuneiformis, cupraria, cuprifrons, cupriventris, dejeani, derugata, dianthi, diffinis, dilaticollis, diversa, dongalensis, dumolini, exarata, excavata, filiformis, fossulata, fulgens, furcatipennis, gebleri, gemellata, geminata, gemmellata, gigantea, glabrata, hypocrita, inaequalis, indica, intermedia, iridiventris, lapidaria, lateralis, litigiosa, lobicollis, longiuscula, magna, maillei, metallescens, metallica, meyeri, neglecta, nilotica, obtusa, orientalis, owariensis, parallela, parvula, perroteti, pharaon, proxima, quinquepunctata, rauca, rotundicollis, rugulosa, scabra, scovitzii, semistriata, senegalensis, similis, smyrnensis, somchetica, splendens, splendidula, striata, striolata, sulcifrons, tamarisci, thalassina, tri-lineata, tri-spinosa, vittaticollis, zoubkoffi.

Sphenopyga anumbi.

Sphenorhina lineolata, rubra.

Sphenorynchus abdinii.

Sphenosaurus clavirostris, sternbergeri.

Sphenosoma (Col.) acuminata.

Sphenosoma (R.) punctatus.

Sphenostethus serripennis.

Sphenostoma cristatum, leucopsis.

Sphenotrochus andrewsiana, crispus, granulosus, intermedius, milletianus, mixtus, nanus, pulchellus, semigranulosus.

Sphenura (A.) acaciae, albicollis, brunnea, cinnamomea, coraya, erythroptera, fringillaris, frontalis, longirostris, mentalis, poliocephala, ruficeps, squamiceps, striata, striolata, subulata, sulphurascens, superciliaris, tibicen.

Sphenura (Col.) fricator, novemguttata.

Sphenurus semitorquatus.

Spheracra dorsalis.

Spheroma spinosa, trigona. *Vide et Sphaeroma.*

Spheropezium leptodactylum, ovoidactylum, pachydactylum, thaerodactylum.

Spherulites da rio, duplovalvata, flabellaris, requieni, umbellata, ventricosa. *Vide et Sphaerulites.*

Sphex aegyptia, affinis, afra, albifrons, albisecta, anomalipes, argentea, argentifrons, argyria, atrata, aurifrons, aurocapillus, beniniensis, bicolor, bicolorata, bispinosa, bohemanni, caerulescens, caliginosa, campestris, castaneipes, chiliensis, cinerascens,

emereorufocincta, *coerulea*, *coerulescens*, *confinis*, *croesus*, *crucis*, *desertorum*, *dives*, *dorsalis*, *dorycus*, *doumerci*, *emarginata*, *ephippica*, *eximia*, *fabricii*, *fera*, *ferruginea*, *flavipennis*, *fuliginosa*, *fusca*, *fuscatus*, *habena*, *jamaicensis*, *lanieri*, *latreillei*, *latro*, *leuconota*, *lineola*, *luteipennis*, *mandibulare*, *maxillosa*, *melanopa*, *micans*, *minuta*, *mucronata*, *nigerrima*, *nigrita*, *obscura*, *occitanica*, *olivieri*, *opaca*, *ornata*, *paulinieri*, *pelopoeiformis*, *philadelphica*, *praslinius*, *proditor*, *pruinosa*, *pubescens*, *pulchra*, *punctulata*, *rufocincta*, *sericea*, *servillei*, *sessilis*, *solieri*, *songarica*, *splendida*, *subfuscatus*, *subtruncata*, *tenuis*, *thunbergi*, *trichargyra*, *tricolorata*, *vicina*, *violaceipennis*, *xanthoceros*.

Sphoeriodactylus *sputator*.

Sphoerophoria *analis*, *contigua*, *sinuata*.

Sphoerotus *gravidus*, *politus*.

Sphongophorus *ballista*, *benneti*, *biclavatus*, *clavaria*, *guerini*, *mirabilis*, *paradoxus*, *spatulatus*.

Sphora *australis*, *nigricans*.

Sphraena *borealis*.

Sphynx *castaneus*. *Vide et Sphinx*.

Sphyra *porata*.

Sphyracephala *brevicornis*.

Sphyradium *ferrari*.

Sphyraena *acus*, *affinis*, *afra*, *agam*, *amici*, *aureoviridis*, *barracuda*, *becuna*, *bolcensis*,

chinensis, commersoni, dussumieri, esocina, flavicauda, forsteri, gracilis, guachauchio, japonica, jello, maxima, nigripinnis, obtusata, picuda, plunnieri, spet, sphyraena, viridensis, vulgaris.

Sphyaenodus conoideus, crassidens, gracilis, lingulatus, priscus.

Sphyrna blochi, denticulata, dubia, lata, mokarran, prisca, serrata, subserrata, tiburo, tudes, zygena.

Spicara flexuosa.

Spilodes sticticalis.

Spilogaster binotata, caesia, dispar, duplicata, fulvicornis, hirtipes, lasiophthalma, maculipennis, notata, pertusa, quadrivittata, quadrum, quinquemaculata, tetrastigma, tibialis, uliginosa.

Spilomicrus sericeicornis, stigmatalis.

Spilomyia diophthalmus, femoratus, impigera, vespiformis.

Spilonota alhetana, aquana, argyran, comitana, costipunctana, cynosbatella, foenella, nigricostana, nubiferana, pilugiana, quadrana, rosaecolana, rusticana, sticticana, stracmiana, sylvestrana, tetragonana, trigeminana, trimaculana, ustulana, vitiana, vittana.

Spilophora trigemina, trimaculata.

Spilornis bacha, bido, cheela, holospilus, undulata.

Spilosoma aerea, arge, cunea, egle, lubricipeda, menthastri, nais, papyratia, radiata, urticae, walkeri.

Spilota aerea, basalis, duvauceli, cydoux, fusco-viridis, ignicollis, irrorella, leotaudi, levii, lineatopennis, maculicollis, nitidula, pallidipennis, pulchra.

Spilote grossulariata.

Spilotes pullatus.

Spilothyrus altheae, lavatae, malvae.

Spina lesbia.

Spinacanthus blennioides.

Spinachia pentagona, spinachia, vulgaris.

Spinacanthus polyspondylus.

Spinaria armator, fuscipennis, inermis.

Spinax acanthias, americanus, blainvillei, fabricii, gunneri, major, marginatus, mediterraneus, niger, primaevus, rotundatus, spinax, uyatus.

Spincterules costatus.

Spindalis bilineatus, multicolor, nigricephala, pretrei.

Spiniger albispinus, ater, eburneus, eburneus, flavovarius, limbatus, thoracicus.

Spinigera longispina, ovata, rostellariformis, spinosa.

Spinopora dixonii, elegans, mitra, protaeus.

Spintharis fasciolata, frontalis, humeralis, integerrima, maculicornis, prasina, pumila, refulgens, viridissima, xanthocera.

Spinther oniscoides.

Spintherops cataphanes, dilucida, spectrum.

Spinturnix vespertilionis.

Spinus abnormis, alnearius, betularum, cannabinus, carduelis, citrinella, fernandezianus, flavirostris, linaria, medius, miliaris, viridis.

Spio (Ar.) ehippiata, unguata.

Spio (G.) caudatus, coccineus, crenaticornis, laevicornis.

Spio (Verm.) quadricornis, ventilabrum, viridis, vulgaris.

Spione trioculata.

Spionereis multicornis, seticornis.

Spioniades almon, artemides, psecas.

Sipola agrestis, obscura, pratensis, sepiaria.

Spira variegata.

Spiraculum hispidum, parvum, rupestris.

Spiralina carinata.

Spiramella bispiralis.

Spiratella limacina.

Spiraxis aberrans, costulosa.

- Spirialis** australis, bulinoides, clathrata, flemingi, jeffreysi, macandrewi, rostralis, trochiformis, ventricosa.
- Spiricella** unguiculus.
- Spirifer** acanthosus, acuminatus, acuticostatus, acutus, aequirostris, alaeformis, alatus, ambiguus, anosofoi, antarcticus, aperturalis, archiaci, arenosus, attenuatus, barrandei, beani, beirensis, bidorsatus, bifidus, bigugosa, bijugatus, biloba, bisulcatus, blasi, boliviensis, bouchardi, brachynota, brandis, bronnianus, bruguieri, buchi, buchianus, cabanillas, cabedanus, cassiole, cameratus, cassianus, cassidea, chama, cheebell, cheiropteryx, chilensis, choristites, cinctus, coarctatus, colibri, concentricus, conchidium, condor, conoideus, consobrinus, corculum, costalis, crassicostatus, crassus, crebristria, crispus, cristatus, crucialis, cultrijugatus, cuneatus, curvatus, curvirostris, cuspidatus, cyrtana, cytherea, dalmani, darwini, deflexus, dentatus, de roissy, dichotomus, distans, dorsata, dorsatus*, duodenarius, elevata, elongatus, exaratus, exporrectus, exsul, ezquerria, fasciger, fastigiatus, faustulus, filaria, fimbriatus, fischeri, fischerianus, glaber, glukanus, gloveri, granosus, granuliferus, guyoti, hawkinsi, heteroclytus, humboldti, huroniensis, hystericus, ignitus, imbricata, inaequalis, incrassatus, indentatus, indifferens, inermis, insularis, interlineatus, jugatus, keilhausi, keilovi, konnickianus, labellum, laevicosta, laevigatus, laevis, lamarki, lamellosus, laminosa, lata, lenticularis, lineata, linguiferoides, liratus, lonsdalei, loriger, lyelli, lynx, lyra, macropleurus, macropterus, martini, maximiliani, medialis, mediotextus, mentzeli, mesacostalis, mesastrialis, mesogonia, meusebachianus, minerva, minimus, minutus, mosquensis, multicostatus, multiplicatus, muralis, murchisoni, murchisonianus, musca, najadum, nereis, nobilis, nucleolus, oblatum, obtusus, oceani, octoplicatus, orbigny, ornithorhynchus, osteolatus, ostiolatus, ovatus, oxypterus, pachyrhynchus, paillettei, panderi, panduriformis, pecten, pectinoides, pellico, pentaedra, pentagonus, pentlandi, permianus, perversus, petasus, phalaena, pinguis, pinnatus, pisum, planicostata, plicatellus, plicatus, pollens, porambonites, princeps, priscus, procerrimus, proteus, psittacinus, ptychodes, ptychoides, punctatus, pusio, pyramidalis, quadridiatus, quichua, radiatus, raripectus, rectangularis, rectus, recurvatus, resupinatus, reticulata, rhomboidalis, robustus, roemerianus, rojas, rostratus, rotundatus, rousseaui, rugulatus, saranae, schrencki, sculptilis, secans, semioi, sheppardi, signensis, sinuatus, sowerbyi, speciosus, spurius, stokesi, strangwaysi, striatulus, striatus, strigocephaloides, strigoplocus, strix, subalatus, subconicus, sublamellosus, subrostratus, subspeciosus, subspurius, subsulcatus, sulcatus, superbus, superstes, tasmaniensis, tasmani, tchekini, tenellus, tenticulum, tenuicosta, terebratuliformis, thetidis, tiro, togatus, trapezoidalis, triangularis, tridens, trigonalis, tripartitus, triplicatus, triton, troosti, tumidus, uncinatus, undiferus, undulatus, unguiculus, urei, venus, verneuili, verrucosus, vetulus, viator, walcotti, zickzack.
- Spirifera** affinis, arachnoidea, avicula, bicarinata, calcarata, clathrata, connivens, convoluta, costata, crenistria, decemcostata, decora, decussata, disjuncta, distans, duodecimcostata, duplicosta, elliptica, elongata, expansa, extensa, filaria, fimbriata, furcata, fusiformis*, gigantea, glabrastria, globularis, grandaeva, heteroclitia, hirundo, humerosa, inornata, insculpta, integricosta, lata, laxa, linguifera, megaloba, mesoloba, mesomela, microgenemma, nuda, oblitterata, ovalis, oviformis, papilionacea, paucicostata, phalaena, planata, planosulcata, plebeia, protensa, pulchella, quinqueloba, radialis, resupinata, rhomboidea, rudis, semicircularis, senilis, sextosa, sexradialis, simplex, squamosa, subconcentrica, subradiata, symmetrica, transiens, trapezoidalis, tri-radialis, trisulcosa, unguiculus, vespertilio.
- Spiriferina** chilensis, hartmanni, linguiferoides, microptera, octoplicata, ostiolata, oxyptera, pinguis, signensis, verrucosa, walcotti.
- Spirigera** ambigua, blodeana, campamanensis, ceres, circe, compressa, concentrica, cristagalli, decussata, expansa, ezquerria, ferronesensis, harpya, hecate, helmeseni, herculea, hispanica, lamellosa, meyerendorfi, passer, pectiniifera, pelapayensis, plebeia, puschana, quadricostata, quinecostata, roissy, serpentina, toreno, tricostata, trigonella, tumida, vultur.
- Spirigerina** affinis, arimaspus, aspera, barrandei, cuneata, desquamata, dumosa, ferita, hystrix, lepidia, marginalis, mulleri, oliviani, princeps, quadricostata, reticularis, spinosa, tribulis.

- Spirulina** ammonis.
Spirillina vivipara.
Spirillum pellucidum, spirorbis, tenue, vagans, undula, volutans.
Spirillus rostratus.
Spiris grammica.
Spirobolus annulatus, bungi, carnifex, caudatus, dealbatus, dubius, elegans, festivus, grandis, marginatus, nigerrimus, nigricans, obscurus, obtusatus, olfersi, olivaceus, praelongus, pulvillatus, ruficollis, sanguineus, seychellarum, similimus.
Spirobotrys aegaea.
Spirobranchus capensis.
Spirochaeta plicatilis.
Spirocyclistus acutangulus, apiculatus, bicolor, cylindricus, fuscus, maximus.
Spirodiscus cochlearis, fulvus.
Spiroglyphus marginatus, mirabilis.
Spirographis magnifica, penicillus, reniformis, spallanzanii, ventilabrum.
Spirulina acicularis, aequalis, agglutinans, austriaca, carinata, clavata, cylindracea, denticulata, irregularis, laevigata, lagenalis, legumen, nautiloides, pedium, semilites, striata, subarcuata, sulcata.
Spirolinites bucklandi, comptoni, cylindracea, depressa, lyelli, mantelli, murchisoni, stokesi.
Spiroloculina ambullaris, angulosa, antillarum, badenensis, berthelotiana, bicarinata, canaliculata, caudata, concentrica, cymbium, depressa, dilatata, dubia, elegantissima, elongata, excavata, galeata, grateloupei, lagena, limbata, lyra, minor, nitida, orbicularis, orbiculus, ornata, ovalis, perforata, plicata, poeyiana, pulchella, rostrata, rotunda, striata, tricarinata, tuba, vulgaris, webbiana.
Spiropoeus fischeri.
Spiropora capillaris, cenomana, cespitosa, elegans, glomerata, tetragona, tetraquetra.
Spiroptera abbreviata, aculeata, acutissima, affinis, alata, anatis, anthuris, attenuata, bicuspidis, bidens, bilabiata, citilli, clausa, colymbi, contorta, coronata, crassicauda, cysticola, decora, denudata, dilatata, elongata, euryoptera, falcinella, falconis, fallax, fulciae, fulicae, gallinulae, gracilis, hamata, hominis, humana, hystericis, inflata, intermedia, laticauda, laticaudata, laticeps, leonis, leptopectera, media, megalostoma, megastoma, nasicola, nasuti, obtusa, obvelata, ornata, physalura, quadriloba, ralli, revoluta, rubella, rudolphi, rudolphiana, saginata, sanguinolenta, simiae, stereura, sternaee, strigis, strongyliformis, strongylina, strumosa, sturni, talpa, tenuicollis, tigridis, triaenophora, truncata, turgida, uncinata, upupae, ursi arcti, vanelli.
Spiroirba umbiliciformis.
Spirorbis alba, ambigua, ammonites, amonia, anfracta, angulosa, annulus, antarctica, antiqua, arietina, baltica, bicarinata, canaliculata, cancellata, caperatus, carinata, carinatus, communis, conica, conoidea, conulus, convoluta, cornea, cornu arietis, cornucopia, corrugatus, crenato-striata, cristata, crustacites, cyclostoma, defrancei, disjuncta, elegans, gallica, globosus, gracilis, granulata, granulatus, heliciformis, helix, heteroclitus, heterostrophus, hoeninghausi, intermedius, lamellosa, lituitis, lucida, magnifica, maximus, minuta, miocenicus, mitis, nautiloides, omphalodes, omphalotes, ornata, permianus, planaria, planorbiformis, pontica, porosa, porrecta, pusilla, reversa, rotula, rugosa, semi-striata, serpuliformis, sinistrorsa, spirorbis, spiruleus, stellaris, striata, striatulus, subcarinata, subrugosa, tenuis, tricostralis, truncata, tubanella, tuberculata, vitrea, vulgaris, zelandica.
Spirostomum ambiguum, filum, virens.
Spirostreptus annulatus, antipodarum, appendiculatus, attenuatus, audouini, babiensis, bicuspidatus, brevicornis, capensis, ceilanicus, cinctus, clavipes, crassus, curvicaudatus, erythropareus, fasciatus, flavofasciatus, flavotaeniatus, gracilicornis, gracilipes, gracilis, guerini, indus, javanicus, kollari, laticollis, maculatus, melanopygus, microsticticus, nigrolabiatus, nutans, obtusus, pachysoma, punctilabium, quadricollis, rotundatus, rubripes, ruficeps, sebae, subuniplicatus, sulciocollis, surinamensis, trigonyger, triplicatus, trisulcatus, validus, vittatus, walkenaeri.
Spirozoites belemnitiophagus, raspaili.
Spirula arcuata, australis, compressa, convolvans, eifelensis, fragilis, gracilis, interrupta, nodosa, peroni, spengleri, sulcata, unguiculata.

Spirulaea nummularia.

Spirulea fragilis, prototypus.

Spirulina tenella.

Spirulirostra bellardii.

Spirulites australis.

Spirura megastoma, talpae.

Spirula aegyptiaca, crassa, elongata, fragilis, lamarecki, nicobarica, ovata, pellucida, rugosa, sayi, similis, solanderi, solida, solidissima, striatella, subparilis, subtruncata, tenera, triangularis.

Spiza amoena, caerulea, ciris, cucullata, cyanea, dominicana, jacarina, larvata, leclancheri, palustris, versicolor.

Spizaetus albescens, albogularis, alboniger, ambustus, ater, atricapillus, bellicosus, borneonensis, caligatus, ceylonensis, cirratus, cirrhiatus, coronatus, cristatellus, fuscus, fuscus, grandis, hastatus, isidorii, kieneri, leucurus, limnaetus, lymnaetus, maculosus, melanoleucus, milvoides, niger, nipalensis, occipitalis, orientalis, ornatus, pulcher, punctatus, rufitinctus, spilogaster, tyrannus, variegatus.

Spizella canadensis, pallida, pusilla, socialis.

Spizites punctatus.

Spizixos canifrons.

Splanchnococcus echinatus, laevis.

Spogostylum mystaceum.

Spondyliosoma guliminda.

Spondylis sphaericollis, tertiaris, upiformis.

Spondylomorum quaternarium.

Spondylosaurus frearsi.

Spondylus aculeatus, acute-costatus, aduncus, albidus, albus, alternans, ambiguus, americanus, aonis, arachnoides, armatus, asiaticus, asper, asperrimus, asperulus, aurantius, auriculatus, avicularis, biformis, bifrons, buchi, calcaratus, candidus, capillatus, carantonensis, ciliatus, cisalpinus, citreus, coccineus, complanatus, comtus, concentricus, coquandianus, coralliphagus, costatus, crassicosta, crassisquama, crassus, croceus, cumingi, delesserti, dentatus, denticostatus, deshayesi, detritus, digitatus, divaricatus, dubius, ducalis, dumosum, duplicatus, dutempleanus, echinoides, elongatus, excavatus, fimbriatus, fragilis, friddani, gibbosus, globulosus, goldfussi, gracilis, granulatus, gregalis, gryphoides, guadalupae, gussoni, hagenowi, herinaceus, hippuritorum, hystrix, imbricatus, imperialis, lamarecki, laticeps, latus, leucacantha, lima, limbatus, lineatus, lingua-felis, longispina, longitudinalis, microlepos, minimus, minutus, miocenicus, monachus, multilamellatus, multistriatus, muricatus, muticus, nicobaricus, nilssoni, nodulosus, nudus, nysti, obesus, obliquus, omalii, palensis, petroselinum, planicostatus, plicatus, podopsidens, princeps, punctulatus, radians, radiatus, radula, ramosa, rarisipina, rastellum, renauxianus, requienianus, roemeri, rostratus, royanus, santonensis, satal, schlotheimi, sinensis, spathuliferus, spinosus, striato-costatus, striato-spinosus, striatus, strigilis, strigosus, subcalcaratus, sublaevis, subplicatus, subspinosus, subsquamosus, substriatus, subvelatus, sulcatus, tenuispinosus, tenuistriatus, truncatus, tuberculosus, undulatus, unicolor, velatus, violacescens, zonalis.

Spongarium aequistriatum, edwardsi, interlineatum, interruptum.

Spongella elegans.

Spongia abietina, acicularis, aciculosa*, aggregata, albescens, alcyonoides, amaranthina, amphisdiscus, ampletens, ampulla, ananas, anatipes, angulato-porosa, angulosa, antipates, appendiculata, arborescens, areolata, asparagus, aspericornis, atlantica, aurea, auricularis, barba, benettiae, bilamellata, binodis, biuncinata, boletiformis, bombycina, botellifera, botryoides, brassicata, bullata, bursaria, byssoides, cactiformis, cactoides, caerulea, calcaneum, calix, calyciformis, campana, cancellaria, cancellata, capitata, carbonaria, carduus, cariosa, carlinoides, catablastes, caudigera, cellulosa, ceramoides, cespitosa, cinerea, cinnabarina, cladonia, clathratohyalina, clathroides, clavarioides, columbae, colus, communis, compacta, complanata, complicata, confervicola, confoderata, conjuncta, contortolobata, conus, convoluta, corallina, coriacea, coronata, costifera, crassiloba, cribrosa, cribrum, crispata, cristata, crocea,

cucullata, cuniculosa, euvieria, cyathina, cylindrica, cymaeformis, cymosa, dactyloides, damacornis, deltoidea, dentata, digitalis, domuncula, echidnaea, elongata, endivia, ephydatia, epilobi, eschariformis, expansa, fastigiata, fava, favosa, fenestrata, filamentosa, fimbriata, fissurata, fistulosa, flammula, flexuosus, floriceps, flustraeformis, foliacea, fornicifera, foveolaria, fragilis, frondifera, fruticosa, fuliginosa, furcata, globosa, globularis, granatum, helvelloides, hemisphaerica, herculanea, heterogona, heteroloba, hispida, imperati, implexa, incisoslobata, incrustans, inflata, informis, intestinalis, isidis, johni, juniperina, koenigi, labelum, lacera, laciniata, lacinulosa, lacunosa, laevis, lagenaria, lamellaris, lamellifera, leporina, leviuscula, licheniformis, limbata, lobata, longicuspis, loricae, luteola, lyrata, macrocaulis, macrodactyla, maculata, mamillaris, mamillifera, marginata, megorima, membranosa, mesenterina, miniata, multidigitata, multiporella, muricina, myrobalanus, napiformis, nervosa, nicaeensis, nidusavis, nigrescens, nivea, obovalis, ocellata, officinalis, osculifera, ostracina, otto, ovata, pala, palus, panicea, panneae, papillosa, papyracea, parasitica, patera, pavonia, pencilliosa, penicillus, pennatula, perfoliata, perlevis, pes leonis, peziza, phalloides, philippensis, pilosa, pilula, pistilliformis, placentia, plana, planella, plicata, plicifera, pluma, plumosa, pluriloba, polyphylla, porosa, pseudosiphonia, pulchella, pulvinata, purpurea, quadrangularis, radiatus, radiceformis, ramea, ramosa, raphanus, reticularis, rigida, rimosa, rimulosa, rosea, rubispina, rubra, sanguinea, sanguisuga, sartaginula, scariola, scrobiculata, scyphonoides, selaginae, semitubulosa, sepiiformis, septosa, seriata, serpentina, sertularia, setosa, setulosa, sinclairi, sinuosisima, spiculifera, spinosa, spongilloides, sportella, stellata, stellatum-sulcata, stellifera, striata, strigilata, strobilina, subcarnosa, subcircularis, subdichotoma, suberia, subplicata, subrotundus, subtriangularis, sulcataria, sulfurea, sulphurea, syphonoides, tabula, terebraus, terebrata, thiaroides, townsendi, triangularis, triasica, trigeris, triseti, truncata, tubaeformis, tuberculata, tubulifera, turbinata, turgida, typhina, typus, umbellata, umbilicata, undulata, urceolata, urceolus, urtica, usitatissima, vaginalis, varia, vasculum, venosa, ventilabrumformis, verrucosa, versicolor, vinosa, virgata, virgultosa, vola, vulpina, xerampelina.

Spongicola venusta.

Spongilla alba, cinerea, comosa, erinaceus, friabilis, lacustris, meyeri, philippensis, plumosa, pulvinata, ramosa.

Spongiobranchea australis, elongata.

Spongiphora croceipennis.

Spongites alcyonatus, confluens, cyathoides, cylindricus, dentata, favus, fruticulosa, infundibuliformis, labyrinthicus, lopus, marginatus, nodosa, officinalis, pumicosa, racemosa, rugosus, saxonicus, stalactitica, townsendi, urceolatus.

Spongodes celosia.

Spongolithis acicularis, acus, amblyocephala, amblyopora, anchora, ansa, anthocephala, aspera, auricularis, bifida, binodes, biuncinata, brachiata, cancellata, capitata, caputserpentis, cenocephala, clavus, collaris, comosa, cruciata, dentata, eruca, fistulosa, foraminosa, fustis, herculanea, heteroconus, inflexa, ingens, leptostauron, mesogongyla, nais, neptunia, palus, pes mantides, philippensis, porosa, pulsabulum, quadricuspidata, ramosa, st andreae, septata, serpentina, setosa, stellata, trachystauron, trianchora, triceris, triseti, uncinata, unguiculata, vaginata, verticillata.

Spongolithus appendiculata, monile.

Spongophyllum dubium.

Spongopodium obscurum.

Spongopus verticalis.

Spongius botryoides, coarctatus, jamaicensis, labyrinthicus, lucerna, meandrinoides, ovatus, townsendi, tuber.

Spongylosaurus fahrenheitii.

Sponsor aeneus, caeruleus, convexus, desjardinsi, parvulus, pinguis, splendens.

Sporadina dytiscorum*, juli*, redivii.

Sporadipus glaber, maculatus, stellati, ualanensis.

Sporobiotus moniliformis.

Sporophila alaudina, americana, bicolor, castaneiventris, cinerea, cinereola, corallina, crassirostris, falcirostris, flabellifera, luctuosa, nigra, othello, telasco, torrida.

Sporopipes lepidopterus.

Sporopsycha anatum.

Sporothlastes castanotis, cincta, guttata, nitida, oculaea, temporalis.

Spratella fimbriata, pumila.

Spreo bicolor, fulvipennis, morio.

Spudaeus scaber.

Squalius albus, aphyra, aula, balteatus, berag, berak, cavedanus, cephalopsis, compressus, delineatus, dobula, dolabratus, elingulatus, grislagine, lepidus, leuciscus, majalis, microlepis, muticellus, orientalis, paretii, rodens, rostratus, savignyi, souffia, tenellus, turskyi, uhliva.

Squalodon grateloupi.

Squalo-raia dolichognathus.

Squaloraja polypsoudyla.

Squalus americanus, anisodon, annulatus, appendiculatus, arcticus, argus, assierus, auriculatus, barbarus, breviculus, caecchia, caeruleus, cambricus, canis, cepedei, cepedianus, ciliaris, cuvier, delarochianus, dentoides, edentulus, elegans, elephas, fasciatus, ferox, fulgens, glacialis, granulatus, groenlandicus, gronovianus, gunneri, gunnerianus, guttata, himnulus, homianus, indicus, infernus, innominatus, isabella, isodus, laevis, lamia, laticeps, littoralis, lobatus, macrodous, maculatus, maou, martellus, melastomus, microcephalus, milberti, monensis, nasus, nicaensis, norwegianus, obscurus, ocellatus, pectinatus, peleginus, philippensis, philippi, philipsi, pictus, platycephalus, plumbeus, prionurus, punctata, punctatus, rhinophanes, rondetii, selanoneus, selanonus, semisagittatus, spallanzanii, spurius, striatus, tentaculatus, terrae-novae, tuberculatus, uyato, vacca, vulpinus, waddi, zebra.

Squamella bractea, oblonga.

Squatarola cincta, cinerea, fusca, grisea, helvetica, modesta, squatarola, urvillei, varia.

Squatina alifer, angelus, dumeril, fimbriata, laevis, lobata, muelleri, oculata, vulgaris.

Squilla affinis, antiqua, arenaria, armata, broadbenti, bruno, carinata, cerisi, chiragra, ciliata, costata, crocea, desmaresti, dubia, dufresnei, empusa, eusebia, fasciata, ferussaci, glabruscula, halesus, harpax, latifrons, microphthalma, monoceros, multicarinata, neglecta, nepa, oculata, oratoria, quadrispinosa, scabricauda, scorpio, spinifrons, stylifera, triodona, vittata.

Squillerichthys spinosus, typus.

Stachynia australis, dorsata, flavescens, flavipes, gemina, marginella, meridionalis, punctata.

Stachyris chrysaee, nigriceps, pyrrhops, ruficeps.

Stagnia nymphaeorum.

Stagnicola (A.) chloropus, minor, septentrionalis, stagnalis.

Stagnicola (G.) communis, elegans, minuta, octonfracta, palustris, stagnalis, vulgaris.

Stagobius troglodytes.

Stagonolepis robertsoni.

Stalachtis calliope, euterpe, nedusia, phaedusa, phlegia, susanna.

Stalagmium aviculoides, margarataeum, nysti.

Stalagmosoma albella, cynanchi.

Stalita taenaria.

Stanmatella carinata, funatus [= *Stomatella*].

Stanosthetus karsteni.

Staphylinus abdominalis, aeneicollis, aeneus, aereus, aericaps, aethiops, afer, agilis, aheneus, albipes, alpicola, alpinus, alternans, amabilis, anceps, angustatus, angusticollis, anthrax, apicalis, apicicornis, arcticus, assimilis, ater, aterrimus, atratus, atricillus, atrox, attenuatus, aurifluus, azureus, badiipennis, badius, baltimorensis, batychnus, bicinctus, bicolor, biguttatus, bimaculatus, binotatus, biplagiatus, bisulcatus, blandus, boops, brachypterus, brasiliensis, brevicornis, brevipennis, brunneus, brunneipennis, buqueti, caeruleipennis, caffer, calidus, caliginosus, callistus, canaliculatus, capensis, capito, capucinus, carbonarius, carynthiacus, cassipes, castaneus, castanopterus, cayennensis, celer, cephalotes, chalcopygus, chalybeipennis, chilensis, chloris, chloropterus, chrysaster, chrysis, chrysocephalus, chrysocomus, chrysomelinus, chrysotus, chrysurus, ciliaris, cinctulus, cinctus,

cinerarius, cinerascens, cinereus, cingulatus, cingulus, cinnamonopterus, coenosus, coerulescens, columbinus, compressicollis, compressus, comptus, concinnus, concolor, conformis, connexus, contaminatus, corruscus, crassicollis, crassus, cribratipennis, cruentatus, cupreicollis, cupreus, cursor, cyanelytrius, cyaneus, cyanicollis, cyanicornis, cyanipennis, cyanomelas, cyanopterus, cylindricus, dahli, daldorfi, debilis, deceptivus, decoratus, decorus, denigrator, dentatus, diaphanus, dimidiator, dimidiatus, discoideus, distinctus, distinguendus, divisus, dubius, ebeninus, elegans, elongatus, emmesus, ephippiatus, episcopalis, equestris, erichsoni, erithacus, erythrocnemis, erythropennis, erythropterus, exsertus, extensus, exulans, fabricii, facialis, fasciatus, faustus, fellmani, femoratus, ferox, fetialis, fimbriatus, fimetarius, flavicornis, flavipennis, flavipes, flavopunctatus, floralis, fodiens, formosus, fossator, fragilis, fugax, fulgescens, fuliginosus, fulminans, fulvipennis, fulvipes, fulvomaculatus, fumarius, funigatus, fuscatus, fuscescens, fuseicola, fuscicornis, fuscipennis, fuscipes, fuscomaculatus, fuscus, gentilis, germanus, giganteus, glaber, glabratus, glabricollis, goryi, gravenhorsti, groenlandicus, haematodes, haemorrhoeus, haemorrhoidalis, havaniensis, herculeanus, hilaris, hirtus, hispanicus, hybridus, ibericus, ignavus, immundus, innumis, impressifrons, inauratus, incauus, insignis, interjectus, intermedius, inversus, iopterus, iracundus, irregularis, italicus, janthinipennis, janthinus, juvenis, laetulus, laetus, laevicollis, laevigatus, laminatus, lanio, lapponicus, laqueatus, latebricola, lateralis, laticollis, latro, latus, leachi, leiocephalus, lentus, lepidus, leucomus, leucophthalmus, leucopus, levicollis, limbatus, linearis, longiceps, lucens, lucidus, luctuosus, luganensis, lugens, lugubris, luridipes, luridus, lutarius, macrocephalus, maculosus, mandibularis, marginalis, marmoratus, masculus, matutinalis, mauro-rufus, maurus, maxillatus, maxillosus, megacephalus, megaloccephalus, melanarius, melanocephalus, melanopus, melanurus, meridionalis, mesomelinus, metallicus, micans, microcephalus, minutus, moestus, molochinus, monticola, morio, mulsanti, multipunctatus, murinus, mus, myrtillinus, mysticus, nanus, nebulosus, nero, nigrans, nigrescens, nigricapillus, nigriceps, nigrinus, nigripes, nigrita, nigratarsis, nigratulus, nigratus, nigriventris, nigrocephalus, nitens, nitidicollis, nitidipennis, nitidulus, nitidus, nobilis, normannicus, oblongus, obscurus, obsidianus, occultus, ochraceus, ochripennis, ochropterus, ochropus, opacus, ornatus, palliatus, pallipes, palmula, paradisianus, parum-punctatus, parvicornis, parvulus, parvus, pedator, pensylvanicus, peregrinus, phoenicurus, picimanus, picipennis, picipes, pictus, plagiatus, planatus, planus, posticalis, praecox, procerulus, procerus, propinquus, proteus, pubescens, pulchellus, pullus, punctatellus, punctatus, puncticeps, puncticollis, punctipennis, punctus, purpurascens, purpureus, pusillus, pustulatus, pyraeter, pyropterus, pyrostoma, quadraticus, quadri-impressus, quadripunctatus, quisquiliaris, regalis, relucens, rigidicornis, rotundicollis, rubripennis, ruficollis, ruficornis, rufilabris, rufimanus, rufipalpis, rufipennis, rufipes, rufitarsis, rufocinctus, rufus, rugifrons, rupicola, rutilus, sanguinicollis, sanguinolentus, saphyreus, sapphirinus, scenicus, scintillans, scitus, segmentarius, semiobscurus, semipolitus, sepulchralis, sericans, sericeicollis, sericeus, sibiricus, simplex, sinuatus, sordidus, speculum, splendens, splendidulus, stenoides, sub-fuscus, sub-punctatus, subuliformis, superbus, suturalis, tachiniformis, tarsalis, tenellus, tepidus, terminalis, terminatus, thoracicus, thoracinus, tomentosus, tottus, tricornis, tricolor, trimaculatus, tristis, truncatipennis, umbratilis, umbrinus, undatus, unipunctatus, uralensis, ustulatus, vagans, vagepunctus, vagopunctatus, variabilis, varicolor, variegatus, varius, velitaris, velox, velutinus, ventralis, venustus, vernalis, versicolor, vicinus, viduatus, villosus, violaceus, virgo, xanthocerus, xantholoma, xanthopygus, zonatus.

Starna cinerea.

Starnaenas frenata, melancholica.

Starnoenas cyanocephala.

Stathmophorus destitutus, fuscus, lapponicus.

Statira agroides, caelata, viridipennis.

Statyra aenea, caraboides, flava, gagatina, ovalis, resplendens, servillei, unicolor.

Stauria astreiformis.

Staurocephalus munchisoni.

Staurogmus acuminatus, latus, muricatus.

Stenoderus abbreviatus, concolor, deustus, fastigiatus, graminicus, maculicornis, ostricella, pulcher, rectus, roei, sinclairi, suturalis.
Stenodes (Lep.) elongana.
Stenodes (Verm.) acus.
Stenodontes armatus, australis, damicornis, exsertus, mandibularis.
Stenogaster (Col.) angustus, annulipes, atomaria, badius, bitaeniatus, catharinae, diffusa, farriventris, fossulatus, gibber, globithorax, incertus, irroratus, juvenicus, lebasi, linearis, morosus, murina, nubila, paleolatus, pulverosus, rufiventris.
Stenogaster (Hem.) costalis, ditomoides, pallens, sculus, turdus.
Stenoglossa variegata.
Stenognathus melanarius.
Stenophilus abdominalis, affinis, alacer, albipes, americanus, atratus, badipennis, badius, brunnipes, carbonarius, chevrolati, cinctus, columbinus, comptus, concinnus, conjunctus, conputus, convexicollis, coptoderus, crenulatus, cruciger, debilis, dimidiatus, discolor, discophorus, dissimilis, dorsalis, dorsiger, elegans, ephippium, exiguus, flaviceps, flavicollis, fugax, fuliginosus, fulvipes, fuscatus, fuscipennis, humeralis, iridescens, lentulus, longicollis, lucidus, luridus, maculatus, marginatus, marginellus, melanocephalus, meridianus, micans, minutus, morio, niger, nigricollis, nitidulus, ochropezus, pallidus, pallipes, per-icus, plebejus, proximus, quinquepustulatus, relucens, rufus, sinuatus, skrimshiranus, smaragdulus, spretus, stveni, subtilis, suturalis, symmetricus, terminalis, unicolor, vaporariorum, velox, versicolor, vesperinus, ziegléri.
Stenolytra caerulea.
Stenoma bicolor, griseanum, litura.
Stenomela pallida.
Stenomera (Col.) blanchardi.
Stenomera (P.) interrupta.
Stenomesius maculatus, pulchellus.
Stenomorphia blapsoides, costata, subpilosa.
Stenomorphus angustatus.
Stenopelmatus dregei, erinaceus, patternsoni, portentosus, talpa.
Stenopelmus rufinasus.
Stenophrus compressus.
Stenophylax alpestris, arcticus, meridionalis, nigradorsus, pantherinus, pilosus, puberulus, striatus.
Stenophylla cornigera.
Stenopoda cinerea, fusca, lateralis, pallipes, squalida.
Stenopora columnaris, crassa, crinita, incrustans, independens, informis, mackrothi, ovata, scabra, spinigera, tasmaniensis.
Stenops (Col.) aviculus.
Stenops (M.) bengalensis, ceylonicus, gracilis, javanicus, potto, syrichta, tardigradus.
Stenoptera orbonella.
Stenopterus abdominalis, albicans, albitarsis, ambiguus, apicalis, aurulentus, braconides, brevipennis, crinitus, decorus, dispar, femoratus, flavicornis, flavipes, gracilis, hirtipes, laetus, lucidus, luridus, mauritanicus, molochoides, murinus, praeustus, pulverulentus, punctatus, rufus, sanguinicollis, ustulatus.
Stenopteryx (Dipt.) hirundinis, pygmaea.
Stenoptilia carphodactyla, microdactyla, mictodactyla, pterodactyla, ptilodactyla, scarodactyla, tephrodactyla.
Stenopus (Cr.) setiferus, spinosus.
Stenopus (G.) cruentatus, lividus.
Stenorhynchus (A.) ruicauda.
Stenorhynchus (Cr.) rostratus. *Vide et Stenorynchus.*
Stenorhynchus (M.) leptonyx, serridens, weddelli.
Stenorhynchus (R.) natalensis.

- Stenyo** *longicornis*.

- Stephanoceros** eichhorni, glacialis.
- Stephanocoenia** angulosa, bernardiana, carantonensis, concinna, coniacensis, cottaldina, desportesiana, elegans, excavata, flentiausa, florida, formosa, grandipora, haimeii, icaunensis, intermedia, intersepta, irregularis, littoralis, michelini, plana, sinemuriensis, subornata, trichiformis, tuberosa.
- Stephanocora** gibbosa, hemprichi, meyeri.
- Stephanocrinus** angulatus.
- Stephanodon** nombachensis.
- Stephanohydra** fusca.
- Stephanomia** alveolata, amphitritus, amphitridis, cirrosa, contorta, foliacea, helianthus, heptacantha, hippopoda, imbricata, laevigata, melo, ophiura, prolifera, tectum, triangularis, uvaria.
- Stephanophorus** caerulea, caeruleus.
- Stephanophyllia** bowerbanki, discoides, elegans, imperialis, italica, michelini, suecica.
- Stephanops** (Col.) nasutus.
- Stephanops** (Inf.) cirratus, lamellaris, muticus.
- Stephanopus** polianus.
- Stephanorhynchus** curvipes.
- Stephanucha** arcata.
- Stephanurus** dentatus.
- Stephanus** acutus, bicolor, coronator, coronatus, diadema, frontalis, furcatus, indicus, minutus, niger, rugipes, serrator.
- Stephastoma** actinoides.
- Stephylla** fusca, lutescens, pallida.
- Steraspis** boyeri, scabra, semigranosa, speciosa, squamosa, superbiens, triangularis.
- "Stercoraires"** lessoni.
- Stercorarius** antarcticus, catarrhactes, cephus, crepidatus, longicaudatus, longicaudus, pomarinus.
- Sterculia** coelestina, elegans, formicaria, fulgens, leprieuri, splendens.
- Steremnius** tuberosus.
- Stereocerus** grandiceps, similis.
- Stereoma** amicta, anchoralis, angularis, clitellata, cognata, concolor, consimilis, libertina, lunaris, marginella, robusta, tetraspilota.
- Stereopalpus** mellyi.
- Stereopsammia** humilis.
- Steriphus** solidus.
- Sterletus** gmelini, ruthenus.
- Sterna** (A.) aculeolata, acuticauda, acutirostris, affinis, albifrons, anglica, antarctica, aranea, arctica, argentacea, argentata, argentea, atricapilla, aurtantia, bengalensis, bergi, brachypus, brachytarsa, brachyura, brevisrostris, camtschatica, canescens, cayana, cayennensis, cerulea, chloropodia, cinerea, cristata, delamotta, dongali, dougalli, elegans, erythrorhynchus, exilis, fluvialis, frenata, frontalis, fusca, galericulata, gracilis, grisea, guttata, havelli, hirundinacea, hybrida, inca, infusata, javanica, lacustris, lanifera, leucopareia, leucoptera, longipennis, longirostris, lunata, macedougalli, macro-tarsa, macroura, macrura, maculata, magnirostris, maxima, media, megalops, megarhynchus, melanauchen, melanogaster, melanoptera, melanorhyncha, melanura, meridionalis, navigatrix, nitzschi, novae hollandiae, oahuensis, oceani, palustris, pelicanoides, philadelphus, plumbea, poliocera, poliocerca, pomarina, rapida, rectirostris, regia, risoria, schillingi, seena, senegalensis, senex, semilis, serratus, sumatrana, superciliaris, tenuirostris, teretirostris, trudeaui, tschegrana, unicolor, varia, velox, wilsoni.
- Sternacanthus** undatus.
- Sternachus** virescens.
- Sternarchus** albifrons, albus, asiaticus, oxyrhynchus.
- Sternaspis** (Col.) caliginosus, conspiciellatus.
- Sternaspis** (Verm.) elegans, thalassemoides.
- Sternechus** candidus, decemmaculatus, denudatus, egenus, extortus, formus, fuscoaneus, guerini, hamatus, inconditus, insularis, irroratus, russatus, sahlbergi, subsignatus, trachypomus, tuberculatus, tuberosus, unicipennis.

- Stictia** *carolina*, *chilensis*, *continua*, *maculata*, *punctata*, *signata*, *spinosa*.
- Stictopora** *acuta*, *elegantula*, *fenestrata*, *glomerata*, *ramosa*.
- Stictosomus** *semicostatus*.

- Stigmaeus** comatulus, cruentus, humilis, kernesinus, megacephalus, scapularis.
- Stigmatium** bifasciatum, cicindeloides, elaphroides, gilberti, natalense, rufiventre, sericellum, specularis.
- Stigmatrachelus** chlorostomus, cinctus, concinnus, fucosus, gemmifer, isabellinus, lynceus, ochreateus, octomaculatus, ornatus, psittacus, squamifer, striatogemellatus, turbatus, viridans.
- Stigmodera** adelaidae, amoena, assimilis, auricollis, aurifera, australasiae, bicincta, bicolor, buqueti, caloptera, cancellata, carinata, chiliensis, colorata, comes, compta, conjuncta, consimilis, conspicillata, curtisi, cyanicollis, cyanura, decemguttata, dejeani, delectabilis, donovani, elegantula, equestris, erythroptera, erythrura, excellens, eximia, fasciata, femorata, flavo-picta, fortnumi, funerea, gayi, gracilis, grandis, granulata, gratioiosa, guerini, haemastica, haemorrhoidalis, hamatifer, hilaris, hoffmann-seggi, imperator, insignis, juno, kirbyi, klugi, lebasii, lessoni, luteipennis, macleayi, macularia, magnifica, media, miles, mitchelli, nero, obscuripennis, ocelligera, octospilota, pallidiventris, parallelogramma, parryi, patricia, percheroni, peroni, perplexa, picta, princeps, principis, punctifera, purpurea, regalis, reichii, sagittaria, sanguinolenta, sanguinosa, saundersi, sexplagiata, signaticollis, smaragdina, spinolae, stricklandi, superba, thoreyi, trifasciata, trizonata, variabilis, vegeta, versicolor, vetusta, virginea, viridis, vulnerata, xanthopilosa.
- Stigmonota** composana, corollana, dorsana, germarana, immaculana, internana, jungiana, lathyrana, lunulana, orobana, redimitana, schrankiana, trauniana.
- Stigmus** ater, fraternus, parallelus, pendulus, pusillus.
- Stigoma** tripunctata.
- Stilbe** chrysoleucas.
- Stilbia** anomala, anomalata, stagnicola.
- Stilbium** princeps.
- Stilbopteryx** costalis.
- Stilbum** calens, hedenborzi, oculata, sexdentatum, splendidum, viride, wesmaeli, westermanni.
- Stilicus** affinis, angularis, bimaculatus, carinatus, dentatus, formicarius, fragilis, fuscipes, geniculatus, iugalis, orbiculatus, ruficornis, rufipes, similis, subtilis, tristis.
- Stilifer** acicula, astericola, subulatus, turtoni.
- Stiliger** modestus, ornatus.
- Stilpnogaster** aemulus.
- Stilpnotia** denudata, salicis.
- Stilpnus (Hym.)** blandus, deplanatus, dryadum, gagates, pavoniae.
- Stimnus** conicus.
- Stiphilus** quadripunctatus.
- Stipiturus** malachurus.
- Stipula** ramosa.
- Stiretrosoma** circumdata, erythrocephala.
- Stiretrus** abdominalis, atricapillus, bidens, cayennensis, chalybaeus, cinctellus, coccineus, coeruleus, custos, decemguttata, diana, dumosus, erythrocephala, eupus, fimbriatus, floridanus, gibbus, laticornis, loratus, lythrodes, personatus, punctatus, quinquepunctatus, rubro-maculatus, rugosus, septemguttatus, smaragdula, trilineatus, violacea.
- Stizocera** unicolor.
- Stizopus** laticollis.
- Stizostedion** salmoneum.
- Stizus** abdominalis, aberrens, aegyptius, apicalis, armata, basalis, bifasciatus, bizonatus, cingulata, concolor, conicus, delesserti, elegans, fasciatus, fulvicornis, fulvipes, grandis, luniger, melanopterus, mioni, nigricornis, ornatus, perrisi, pictus, repandus, ruficornis, rufipes, rufocinctus, savignyi, sinuatus, speciosus, terminalis, tridens, tridentata, uncinatus, vespiformis.
- Stoasodon** narinari.
- Stoastoma** anthonianum, blandianum, chittyanum, cumingianum, fadyenianum, gouldianum, hollandianum, jayanum, leanum, lindsleyanum, moricandianum, petitianum, pfeifferianum, pisum, redfieldianum, tappanianum, wilkinsoniae.

Stolephorus commersoni, japonicus, risso.

Stolida cinerea.

Stomatella articulata, auricula, cancellata, carinata, coccinea, concinna, costellata, decolorata, elegans, fulgurans, imbricata, irisata, japonica, lutea, maculata, malukana, margaritana, minima, monilifera, nigra, orbiculata, phymotis, porcata, rubra, rufescens, sanguinea, speciosa, sulcata, sulcifera, tigrina, tumida. *Vide et Stannmatella.*

Stomateus cryptosus, longipinnis.

Stomatia acuminata, angulata, aspera, auricula, auriformis, australis, candida, carinata, cincta, compressa, costata, crispata, decussata, duplicata, ermani, funata, furcata, gaultina, goldfussi, haliotoides, imbricata, irasata, jurensis, lineata, lirata, maculata, minima, muensteri, neritoides, nigra, notata, obscurata, pallida, perversa, phymotis, planulata, reticulata, rubra, rugosa, rugulosa, substriata, subsulcosa, sulcifera, sulcosa, zonalis.

Stomatopora compressa, conica, dichotoma, dispersa, divaricata, echinata, fascicularis, geminata, gracilis, granulata, hagenowi, intermedia, major, media, ramea, serpens.

Stomax furunculus.

Stombus bojei, cornuta, dorsatus, megastoma, scutata.

Stomia boa.

Stomianodon chrysoplekadion.

Stomias barbatus, boa, ferox*, fieldi, leucopterus.

Stomina rubricornis.

Stomion galapagoensis, helopoides, laevigatus.

Stomis americana, granulatus, italicus, maxillosus, pumicatus, rostratus.

Stomobrachiota lenticularis.

Stomobrachium octocostatum.

Stomoctea octopallipes.

Stomodes gyrosicollis, rudis, tolutarius.

Stomodon bilineatus.

Stomodonta antivertigo, avena, edentula, farinesi, fragilis, granum, marginata, mega-cheilos, muscorum, pabuula, pigmaea, plicatula, ringens, rugosa, secale, umbilicata, ventricosa.

Stomoxis irritans, keironi.

Stomoxys aculeata, aenos, bibens, cothurnata, cristata, cybira, cyborus, dira, famelica, flava, flavipennis, fuscus, geniculata, gigantea, humeralis, infesta, inimica, irritans, libatrix, longipalpis, melanogaster, minuta, musciformis, nebulosa, pedemontana, pungens, stimularis, sugillatrix, tenera, trifaria, variegata, vexans.

Stomphax crucirostris.

Stonalota granulata.

Stoporala albicaudata, indigo, melanops.

Storena coerulea, cyanea.

Storeus signatus, variegatus.

Storilus radiatus.

Storthis livida.

Storthygocerus ladenbergi, subulifer.

Strachia chambereti, cruciger, festiva, herbaceum, histrionica, limbata, oleracea, ornata, picta.

Strachyris chrysaea, nigriceps, pyrrhops.

Stramonita haemastoma, hederacea.

Strangalia acuminata, americana, armata, atra, attenuata, aurulenta, binotata, calcarata, capitata, chalybea, coarctata, convexa, cordifera, cruciata, cruentata, delata, distigma, elegans, emaciata, emarginata, externe-punctata, famelica, ferruginea, fulvilabris, holosericea, impunctata, instabilis, labiata, lateralis, lineola, luteicornis, melanura, nana, nigra, nigrella, obliterata, obscura, obsoleta, plebeja, pubescens, punctato-fasciata, quadrifasciata, quagga, ruficollis, scalaris, sexmaculata, sexnotata, similis, sinuata, strigosa, subargentata, subhamata, subspinosa, tenuior, undulata, unicolor, villica, vitticollis.

Strangaliodes albosquamatus, aureosquamosus.

Strangia arborea.

Strigea candida, falconis, palumba.

Strigia maxillaris.

Strigiceps cinerascens, cyaneus, jardini, leucopogon, pallidus, pygargus, swainsoni, uliginosus.

Strigidia cuprea, fulvipennis, rubripennis.

Strigilla carnaria, divaricata, pisiformis.

Strigina poae.

Strigocephalus brevirostris, burtini, defrancei, giganteus, porrecta, sulcipennis, sumtuosa.

Strigoderma aenea, arboricola, chalybeicollis, columbica, cupriceps, fulgicollis, insignis, mexicana, nigrita, peruviansis, pygmaea, vestita, villosula.

Strigoides leucolophus.

Strigops habroptilus.

Strigoptera bipustulata, inornata, obsoleta.

Strigula fusiformis, maculata, ornata, purpurea.

Stringophorus germarius, horsfieldi, longipes, rufipennis, zebra.

Strinsia tinca.

Stripsifer zebra.

Stripsipher ambiguus, latipennis, niger, sexmaculatus, sordidus.

Stripsypher bimaculatus.

Strix aegolios, africana, albifrons, albomarginata, americana, aquilina, arctica, atricapilla, badia, barbata, boobook, brachyura, brama, butalis, californica, canadensis, candida, candidus, capensis, caspia, castanops, castanoptera, cayana, choliba, cinerea, clamata, cornuta, crassirostris, crucigera, cubae, cunicularia, cyclops, dalhousiana*, dalhousiei*, dasypus, decussata, delicatulus, delicatus, dolata, dumeticola, erminea, fasciata, fernandica, ferox, ferruginea, forficata, frontalis, frontata, fuliginosa, fulva, furcata, fusca, fuscescens, georgica, grallaria, guttata, hardwicki, helvola, hirsuta, hylophila, indranei, ketupu, lactea, larvata, latrans, lempiji, leptogrammica, leschenaulti, leucotis, licua, lindrothi, lineata, longimembris, longirostris, lugubris, lulu, macrocephala, macrorhyncha, macroura, maculata, maculosa, magica, margaritacea, maugei, microphthalmos, nidas, minutissima, montana, nacurutu, nana, nisoria, noctula, novae-hollandiae, nudipes, occipitalis, octoradiata, orientalis, otis, pagodarum, passerinoides, perlata, persica, personata, piscatrix, poensis, pratincola, psilodactyla, psilopoda, pulsatrix, pumila, punctatissima, pygmaea, radiata, rufescens, rufipes, sandwichensis, scutulata, selo-puto, sinensis, sonnerati, spadiceus, stitula, strepitans, sumatrana, superciliaris, superciliosa, swinda, sylvatica, tenebriosus, torquata, transatlantica, tridactyla, turcomana, undulata, zonca.

Strobila octoradiata, sarsi.

Strobiliphaga enucleator, psittacea.

Strobilophaga caucasica, sipahi, subhimachalus.

Strobilurus torquatus.

Strobilus ovatus, turritus.

Stroggulus auritus.

Stromateus aculeatus, albus, angulatus, atous, candidus, cinereus, depressus, figa, gibbosus, gibbus, griseus, hexagonus, knorri, maculatus, major, microchirus, punctatissimus, rhombus, securifer, triacanthus.

Stromatium barbatum, hirtum, strepens.

Stromatocerium rugosum.

Stromatopora capitata, concentrica, distans, foliata, goldfussi, incrustans, irregularis, nummulitissimilis, polymorphus, porosa, rugosum, striatella, subtilis, sulcata, verticillata.

Strombella gibberula, luhuanus, mauritiana, pugilis, succincta, troglodytes, urceus, vittata.

Strombidea dubia, erythrostoma, mutabilis, plicata, tridentata, urceus.

Strombites canaliculatus, canalis, denticulatus, globulatus, jenensis, papilionatus, pugnans, speciosus.

Strombodes australis, conaxis, distortus, emarciatum, helianthoides, incurvus, pentagonus, plicatum, rectus, simplex, stellaris, truncatus, vermicularis, wenlockensis.

Stromboscerus schuppeli.

Strombosoma unipunctatum.

Strombus accipiter, accipitrinus, acicula, acutus, adansonii, ambiguus, anatellus, arescens, artasanus, athenius, auricularius, auriculifera, auris asini, auris-dianae, auritus, australis, bartonensis, bifrons, bituberculatus, bonellii, bubonius, bulbulus, byronensis, callosus, campbellii, canalis, canarium, cancellatus, chemnitzii, chiragra, columba, conoides, contortus, cornatus, cornutus, corrugatus, crenatus, crispatus, cristatus, curvirostris, cylindricus, decussatus, deformis, delucianus, deperditus, digitatus, dilatatus, dubius, dupinianus, elegans, epimellus, erythrinus, fasciolaroides, fissura, nssus, floridus, fortis, fusiformis, fusoides, galea, galeatus, gallus, gibbosulus, gibbosus, giganteus, glabratus, goliath, gracilior, gracilis, granulatus, guttatus, haemastoma, haitensis, helli, hemprichi, incertus, incisus, inermis, inflexa, inornatus, integer, intermedius, isabella, ismarius, italicus, jamar, japonicus, jugosus, labiatus, labrosus, laciniatus, laevilabris, laevis, lineatus, lineolatus, lituratus, lobatus, maculatus, marginatus, mauritanus, melanastomus, melanostomus, melastomus, mercati, minimus, mutabilis, nigricans, nodosus, nodulosus, novae zelandiae, obliquatus, obtusus, oceani, odydius, ornatus, orosinus, pacificus, papilio, papilionatus, pelagi, persicus, pertinax, peruvianus, petrosus, plicatulus, plicatus, polyfasciatus, ponderosus, ponti, proximus, pseudoscorpio, pulchellus, pusillus, pyrolatus, quadratus, radians, rarinus, reticulatus, roncatus, rugosus, ruppelli, samar, samarensis, sayi, scalariformis, scalatus, septimus, siboldi, sinuatus, sloanei, solitarius, subcancellatus, subspicosus, sulcatus, swainsoni, taenatus, tankervillei, terebellatus, terebralis, thersites, tricornis, trigonus, troglodytes, truncata, truncatus, tuberculiferus, turboformis, turritus, uncatatus, undulatus, unicornis, unicornus, vanikorensis, variabilis, varicosus, ventricosus, volutaeformis, zonatus.

Strongilus silaceus.

Strongygaster delicata, exigua, globuli.

Strongylium cayeennensis, chalconatum, flavicorne, humerale, moestum, rufipenne, seductor.

Strongyloceros spelaeus.

Strongylocoris leucocephalus.

Strongyloclerus serraticollis.

Strongylomma caffra.

Strongylopterus dentipes, ovatus.

Strongylopus fasciata.

Strongylorhinus ochraceus.

Strongylosoma concolor, cylindraceum, gervaisi, guerini, iuloides, pallipes, spilonotum, trilineata, vermiformis.

Strongylostoma assimile, radiatum.

Strongylotes brachialis, lemniscatus, squamans.

Strongylura caudimaculata.

Strongylurus scutellatus, varicornis.

Strongylus acutus, adustus, alatus, ambiguus, ammonis, analis, anatis, aneurysmaticus, annulatus, annulifer, ardeae, armatus, asininus, ater, atratus, bicolor, bifurcus, cameli, capitellatus, capreoli, cernuus, ciliatus, colon, colubri, contortus, convolutus, cornutus, costatus, costellatus, crenulatus, criniformis, dentatus, denudatus, depressus, dimidiatus, dispar, dorcadis, elephanti, elongatus, falconis fulvi, ferrugineus, fervida, filaria, filicollis, floralis, foinea, galeatus, giganteus, gigas, glabratus, gracilis, horridus, humeralis, hypostomus, hystricis, illustris, imperialis, inflexus, invaginatus, laevis, lemmi, leonis, leptcephalus, leptosomus, litura, lupi, M-rubrum, maculatus, major, melanurus, mergorum, micrurus, minor, minutus, muticus, myoxi, nigratus, nodularis, nodulosus, obscurus, orientalis, ornatatus, papillosus, paradoxus, patens, pectoralis, pictus, polygyrus, praeustus, purpureus, pusillus, pyrenaicus, quadri-punctatus, radiatus, retortaeformis, rufescens, rufus, scutellatus, sericeus, strigatus, strigosus, subauricularis, suis, sulcatus, tardae, tenuis, tetracanthus, tetragonocephalus, thoracicus, tigridis, tinctus, trachealis, trigonocephalus, trigonophalus, tristic, tubifex, tubiformis, uncinatus, ursi, vagans, variegatus, veinulosus, ventricosus, venulosus, villosus, viperae, vitulorum, vulpis, vulturis.

Strophalosia excavata, gerardi, goldfussi, horrescens, morrisiana, parva, productoides, spinifera, spinulosus, subaculeata.

Strophia (Lep.) batis, derasa.

Strophidia caudaria.

Strophidon africana, echidna, flavimarginata, grisea, hepatica, literata, longicaudata, maculata, punctata, unicolor.

Strophoconus africanus, auricula, cribrosus, gemma, gibbus, graecus, ovum, spiroloculina.

Strophodus angustissimus, angustus, arcuatus, asper, elytra, favosus, irregularis, longidens, magnus, orbicularis, ovalis, punctatus, radiato-punctatus, radiatus, reticulatus, subreticulatus, sulcatus, tenuis.

Strophomena aculeata, acutiradiata, alternata, antiquata, applanata, arctostriata, bifurcata, camerata, carinata, chemungensis, compressa, convexa, cornuta, corrugata, crebristriata, crenistria, deflecta, delthyris, deltoidea, demissa, depressa, elegantula, eliptura, elongata, euglypha, expensa, filosa, flabellum, gibbosa, goldfussi, impressa, inaequistriata, interstitialis, lachrymosa, laevis, lepis, lima, lineata, modesta, mucronata, nassula, nasuta, nervosa, pecten, pectinacea, perplana, pluristriata, punctulifera, pustulosa, radiata, recta, rectilateris, rhomboidalis, rugosa, scabrosa, sericea, setigera, sp. ind., striata, subplana, syrtalis, tenuilineata, tenuistriata, transversalis, umbra-culum, undulosa, varistriata.

Strophomenes flexilis, gervili, laevigata.

Strophosomus albosignatus, alternans, ancorifrons, angulicollis, asperifoliarum, atomarius, chaetophorus, cinereus, cognatus, coryli, cristatus, crucifer, crucifrons, dilaticollis, faber, fulvicornis, globosus, granicollis, gravis, hirtus, illibatus, indoctus, limbatus, longulus, nebulosus, nigricans, nodulipennis, obesus, obliquecinctus, obsoletesignatus, oxyops, peruanus, peruvianus, pilosellus, praelongatus, pupillatus, retusus, rotundicollis, rufipes, scrobiculatus, septentrionis, setulosus, squamulatus, subrotundus, subsulcatus, sus, turpis.

Strophostoma laevigata, striata, tricarinatum.

Strophura spinigera.

Struthidea cinerea.

Struthiolaria crenulata, gigas, inermis, laevis, microscopica, nodulosa, oblita, ornata, papillosa, papulosa, prima, scutulata, straminea, sulcata, tricarinata, umbilicata, vermis, vernis.

Struthus coelebs, hyemalis, oreganus, surinama.

Strychnos nux-vomica. [*Quasi avis vera planta cit. ab Waterhouse.*]

Strymon acaciae, beon, betulae, esculi, ilicis, lynceus, mars, melinus, mopsus, pan, pruni, spini, W album.

Sturio vulgaris.

Sturisoma rostrata.

Sturmia atropivora, concolor, floricola, luteipalpis, scutellata, vanessae.

Sturnella capensis, collaris, hippocrepis, loyca, ludoviciana, magna, militaris, neglecta, torquata.

Sturnia cana, elegans, erythropygia, malabarica, pagodarum.

Sturnira spectrum.

Sturnopastor jalla, melanoleucus, melanoptera, temporalis.

Sturnus albus, amblyramphus, americanus, aterrimus, carunculatus, chilensis, cineraceus, domesticus, guttatus, hippocrepis, hollandiae, holosericeus, maculatus, magna, pimalot, predatorius, punctatus, pyrrhoccephalus, septentrionalis, subroseus, sylvestris, tenuirostris, torquatus, unicolor, varius, virescens.

Styela canopus.

Stygia argynnis, auge, australis, belzebul, elongata, infausta, lateralis, polymena, sabaea, terebellum.

Stygnus armatus, ferrugineus, forcipatus, inflatus, triacanthus.

Stylacium isabellinum.

Stylaria paludosa, parasita, proboscidea.

Stylarioides moniliferus.

Stylaster flabelliformis, gemmascens, gracilis, granulosus, rosea, sanguineus.

Stylastraea inconferta, irregularis.

Stylaxis flemingi, major.

Stylephorus argenteus.

Stylia bidentis, maculata, mentharum.

Stylifer asteriscola, corallina, globosus, primogenia, stylifera.

Stylina (Cor.) archiaci, arduennensis, astroides, babeana, bacciformis, bourgueti, conoidea, crassa lamella, deluci, depravata, echinulata, gaulardi, lobata, macandrina, microcoma, microphthalma, nantuaensis, pereziana, provincialis, renauxi, reticulata, rupellensis, sexradiata, stellaris, striata, stricta, thyriformis, tubulosa, tumularis.

Stylina (G.) stylifera.

Stylinais proboscidea.

Styliola corniformis, gracillima, obtusa, primaeva, recta, sedgwicki, striata, subula, tenuis, ventricosa, virgula.

Styliscus armatus.

Stylloceras ladenbergi, subulifer.

Styllocerus ratwa.

Stylochus folium, maculatus, mertensi, palmula, papillosus, pellucidus, sargassiculus, suesensis.

Stylocoenia emarciata, lapeyrousiana, lobato-rotundata, monticularia, taurinensis.

Stylocyathus dentalina.

Stylodon studeriana, unidentata.

Stylogaster stylatus.

Stylogyra flabellum.

Styloides acicula, lubricus.

Stylonychia appendiculata, cimex, histrio, lanceolata, mytilus, pustulata, silurus.

Stylophora (Cor.) armata, danae, digitata, ehrenbergi, emarciata, monticularia, palmata, pistillaris, raristella, rugosa, subseriata.

Stylophora (Dipt.) zonata.

Stylopora solida.

Stylops dalci, haworthi, kirbyi, melittae, spencei, tenuicornis, walkeri.

Stylorhynchus (Prot.) longicollis, oligacanthus, ovalis.

Stylosmilia brevis, cottaldina, nichelini, organisans.

Stylosomus ilicicola, minutissimus, tamariscus.

Styphlus cuneipennis, muscorum, penicillus, setosus, setulosus, ulcerosus, unguicularis.

Styphrus corpulentus.

Stypotrupes ajax, endymion, tetanus.

Styracodus acutus.

Styringomyia gracilis, venusta.

Styrius cyanemus.

Subclymenia evoluta.

Suberites domuncula, ficus, typus, volubilis.

Subrepora reticulata.

Subuculus penicillus.

Subula (Dipt.) nigriritibialis.

Subula (G.) blainvillei, citripes, dimidiata, maculatus, spectabilis.

Subulina carinulata, crotalariae, cyanostoma, malaguetana, monoceros, octona, propinqua, pupaeformis, sericata, striatella, terebrastrer, turritellata.

Subulites abbreviata, elongata.

Suburites massa.

Succinea abbreviata, acuta, aegyptiaca, aequinoctialis, amphibia, angularis, angustior, aperta, appendiculata, arenaria, aurea, australis, avara, balthica, barbadensis, bensoni, brevis, bullina, buschi, caduca, calycina, campestris, candeana, canella, cepulla, chiloensis, cingulata, citrina, concisa, concordialis, contorta, corsica, crassinuclea, crocata, cucullata, cuvieri, depressa, elegans, exarata, fragilis, fulgens, gayana, georgiana, gouldiana, gracilis, groenlandica, guatemalensis, haliotidea, helicoidea, humerosa, imperspicua, indica, inflata, infundibuliformis, laevipes, laevis, latior, levantina, longiscata, lumbalis, luteola, magellanica, major, mamillata, manuana, mediolanensis, menkeana, modesta, mulleri, nuttalliana, obliqua, oblonga, obtusa, oregonensis, ovalis, ovata, pacifica, pallida, papillata, patula, petiti, pfeiferi, picta, pinguis, procera, progaster, pudorina, pusilla, putamen, putris, reflexa, retusa, rotundata, rubescens, rubicunda, rugosa, rusticana, sagra, salleana, semiglobosa, semiserica,

solidula, spectabilis, spurca, striata, subgranosa, sulculosa, tahitensis, tamsiana, texasiana, tigrina, totteniana, tranquebarica, undulata, unguis, variegata, venusta, vermata, vesicalis, virescens, vitrinoides, wardiana, yncarum, zephyrina.

Suchosaurus cultridens.

Suda hojeri.

Sudis gigas, hyalina, niloticus, pirarucu.

Suphalacsa flavipes, macleayanus, macrocerus, quadri-punctatus, senex, surinamensis, versicolor.

Suillia arcuata, cinerea, claripennis, communis, flaveola, fragilis, fungorum, lineata, liturata, sex-notata, tuberivora, violascens.

Suiriri coronata, icterophrys, suiriri.

Sula alba, americana, australis, bassanus, candida, capensis, communis, cyanops, dactylatra, erythrorhyncha, fiber, fusca, leucogaster, leucophea, maculata, major, melanura, parva, personata, piscator, plotus, rubripeda, rubripes, serrata, variegata, vulgaris.

Sulcobuccinum fissuratum, obtusum, semicostatum, tiara.

Sulcopora fenestrata, scalpellum.

Sulcoretepora parallela, raricosta.

Sulcularia badia, papyracea.

Sulculeolaria biacuta, minuta, quadrivalvis.

Suncus sacer.

Sundarus neniator.

Sunetta coerulescens, oblitterata, scripta.

Sunias callicopis, lucia, melpomene, phyllis.

Sunius anguinus, angustatus, asper, attenuatus, bimaculatus, binotatus, bipunctatus, bisignatus, brunneus, bruniceps, coarctatus, curtulus, dimidiatus, diversus, exiguus, filiformis, filum, hybridus, immaculatus, intermedius, labeo, lateralis, limbatus, linearis, longiceps, longiusculus, marginalis, melanocephalus, neglectus, ochraceus, prolixus, pulchellus, pulcher, pusio, rubricollis, signatus, stigma, sulcicollis, testaceus, tricolor, tristis, troglodytes, unicolor.

Suphenia dinema.

Suphis cimicoides, doubledayi, forsteri, gibbulus.

Suricata capensis, zenik.

Surikata viverrima.

Surnia africana, borealis, canadensis, chouchou, cunicularia, funerea, lineata, minutissima, naevius, nisorina, nisuella, nivea, nyctea, passerina, passerinoides, ulula, uralensis.

Surniculus dicruroides, lugubris, nigricans, rubiculus.

Surphus segnis. *Vide et Syrphus.*

Sus aeliani, albirostris, americana, autediluvianus, antiquus, aper, barbatus, belsiacus, celebensis, choerotherium, collaris, diluviana, europaeus, fasciatus, giganteus, haria, hysudricus, indicus, javanicus, kairopotamus, koiropotamus, larvatus, lemuroides, leucomystax, major, mastodontoideus, ogygius, palaeochoerus, papuensis, priscus, proavitus, provincialis, rostratus, serresi, sivalensis, soemmeringi, tagnicati, tapiotherium, tener, timoriensis, trux, verrucosus, vittatus.

Susa platanista.

Suthora fulvifrons.

Sutura ephippium.

Suya blythi, buchanani, criniger, inornata, jerdoni, lepida, neglecta, robusta, sylvatica.

Swammerdamia anthyllidella, cerasiella, heroldella.

Syacium micurum, ocellatum, solaeformis.

Syarctus collaris.

Sybaris immunis.

Sybines sellatus.

Sybistroma appendiculata, crinipes, discipes, dufouri, nodicornis, patellipes.

Sycalis brasiliensis, chloris, luteocephala, luteoventris, minor.

Sycanus collaris.

Sycidium reticulatum.

Sycobius bicolor, collaris, cristatus, gregalis, malimbus, melanotis, melanotus, nigerrimus, nigricollis, nitens, rubriceps, rubricollis, st thomae, scutatus.

Sycocrinites anapeptamenus, clausus, jacksoni.

Sycocystites angulosus, senckenbergi, striatus.

Sycon humboldti, poireti.

Sycophaga crassipes.

Sycorax silacea.

Sycotypus ficus, reticulatus.

Sycozoa sigillinoides.

Sylbeocyclus carolinensis, europaeus, minor.

Sylectra congemalis, mirandalis.

Sylepta amandalis, incomptalis.

Syllectra congemmalis, mirandalis.

Syllepis marialis.

Syllepte incomptalis.

Syllis armillaris, cornuta, fulgurans, gracilis, longocirrata, maculosa, monilaris, noctiluca, prolifera, rudolphi, tiedemanni, tigrina, vittata.

Syllithria haematalis, sanguinalis.

Sylochelidon aurantia, balthica, caspia, magnirostris, poliocerca, schillingi, seena, strenuus.

Sylpha bicolor.

Sylvania phoenicuroides.

Sylvanus denticulatus, fagi, planatus, quadricollis, sexdentatus, zimmermanni.

Sylvia (Av.) abdominalis, atra, rubiginosa, similis, vittata.

Sylvia (Av.) abietina, acredula, aedonia, aestiva, agilis, agricola, akahige, alba, albicans, albicapilla, albicollis, albifrons, alpina, altiloqua, amaurocephala, andersoni, angusticauda, anilis, annulosa, anthoides, arada, arborea, ardens, ardesiaca, ardosia, argyrotis, arundinacea, arvens*, asiatica, atricapilla, atrogularis, auduboni, aurantia, auranticollis, auricapilla, auricollis, aurigula, aurocapillus, australasiae, autumnalis, azuricollis, babaecaea, bachmani, badiceps, barbata, bicolor, bifasciata, bivittata, bloxami, boarula, boeticata, bonariensis, bonellii, borbonica, brachyptera, brasiliana, brevicaudata, brevirostris, brunnea, burkei, caerulea, caerulescens, calendula, calidris, caligata, calliope, campestris, canadensis, canicapilla, capinera, caprata, carbonata, cariceti, caroliniana, casta, castanea, castaneo-coronata, cayana, celatus, certhiola, cetti, childreni, childrensis*, chivi, chrysocephala, chrysogastra, chrysops, chrysopus, cineraria, cingalensis*, cinnamomea, cisticola, citrinella, coerulecula, collybita, concolor, conspiciata, coromandelica, coronata, coryphaeus, crassirostris, cristata, culicivora, cuneata, curruca, cyane, cyaneula, cyanicollis, cyanomelas, cyprica, delafieldi, diophrys, diphone, discolor, domestica, dorsalis, dumicola, erithraeus, erythrogaster, erythrogenis, erythronota, erythropys, familiaris, fasciata, ferruginea, fervida, fitis, flammea, flava, flaveola, flavescens, flavicauda, flavicollis, flavigastra, flaviventris, flavopygia, fluviatilis, fondisjala, formosa, fruticeti, fruticola, fulicata, fulva, fulvescens, fulvicapilla, furva, fuscata, fuscens, fuscicollis, fuscolutea, galactotes, garrula, gilva, gracilis, grisea, griseicollis, grisella, griseorufa, griseothorax, grypania, guttata, guyanensis, halsei, herbicola, hirundinacea, horticola, hottentota, ictalina, ictorops, ignicapilla, iliaca, imitatrix, indica, inornata, javanica, juncidis, komadori, lanceolata, lateralis, leucoblephara, leucoblepharides*, leucogastra, leucomela, leucophaea, leucopharidea*, leucophrys, leucopogon, leucops, leucoptera, leucura, limonella, lineata, liventer, livida, longicauda, longicaudata, loquax, lugens, lugubris, lunulata, luscinioides, lyura, macgillivrayi, macloviana, macropus, macroura, magellanica, magna, magnolia, maritima, marylandica, mauritiana, melanoleucos, melanopogon, melanops, melanorhoa, melanoxantha, meleuca, melodia, meodia, merula, mesoleuca, mexicana, minuta, montana, musica, mystacea, natalensis, nattereri, nebulosa, nemorosa, nigrescens, nigricans, nigrifrons, nisoria, nitida, obscura, occidentalis, ochrogenion, ochroleuca, ocularis, oenanthe, olivacea, olivetorum, orientalis, orphea, oxyura, palpebroza, paludicola, palustris, pammelaina, pardalina, parus, passerina, pectoralis, peregrina, personata, perspicillata, petasodes, philadelphica, philomela, philomela, phragmitis, phryganophila, pilaris, pipreola, pitiauyumi, platula, plumbea, poicilotis, polyglotta, provincialis, pseudotrichas, pumila, pusilla, pyrrholeuca, pyrrhonotos, pyrrhophrys, rama, rara, rathboni, rathbonia, reevesi,

reguloides, regulus, rhodogastra, richardsoni, rosco, rubecula, rubetra, rubida, rubiginosa, rubina, rubricapilla, rubricata, rubricollis, rubrigaster, rufa, rufescens, ruficapilla, ruficeps, ruficollis, rufiventris, ruppeli, ru-cicola, russeicauda, russeola, sagittata, salicaria, sarda, sardani, saxatilis, scita, semirufa, senegalensis, sericea, sibilans, sibilatrix, solitaria, speciosa, sphagnosa, spinus, strepera, striata, striolata, subalpina, subcaerulea, suberistata, swainsoni, sylvestris, syrinx, taeniata, tamarixis, tenella, textrix, thoracicus, tiphia, tolmaci, torquata, townsendi, trochilus, turdella, turdina, turdoides, umbrinovirens, umbrovirens, undata, velata, venusta, versicolora, verticalis, vigorsi, virens, virescens, viridicans, viridicata, viscivora, wilsoni, wolli, xanthogaster, xanthorhoa, zeylonensis*, zeylonica. *Vide et Silvia.*

Sylvia (Dipt.) apicalis, cinerea, mollis, punctata, quattuor-punctata.

Sylviaxis guttatus, magellanicus, paradoxus.

Sylvicapra mergens.

Sylvicola aestiva, agilis, americana, auduboni, aureola, blackburnia, blackburniae, canadensis, castanea, chrysocephala, citrinella, coerulea, coronata, decurtata, discolor, eoa, flavicollis, formosa, icterocephala, inornata, maculosa, maritima, montana, nigrescens, occidentalis, pannosa, pardalina, parus, pensilis, peregrina, petechia, pharetra, pinus, pumila, pusilla, pyrrholeuca, pyrrhonota, rathboni, regulus, rubida, rubricapilla, ruficapilla, ruficollis, striata, superciliaris, swainsoni, sylvestris, taeniata, tigrina, townsendi, virens.

Sylvietta brachyura, icteropygialis, lutescens, rufescens.

Sylviorhynchus desmuri, maluroides.

Sylviparus modestus.

Sylvius sylveiri.

Syma hirticornis, torotoro.

Symbathocrinites granulatus, tennesseae.

Symbathocrinus conicus.

Symbiotes latus, pygmaeus, troglodytes.

Symbius blattarum.

Symbranchus caligans.

Symbrenthia hippocla.

Symetha pandu.

Symethus fluviatilis.

Symira argentacea, degener, externa, fulva, impudens, impura, nervosa, pudorina.

Symmachia colubris, domitianus, ochima, probetrix.

Symmachlas nigrina.

Symmalthetes kollari.

Symmela clypeata, curtula, elegans, instabilis, longula, mutabilis, nitida, opaca, pallipes, tenella, uniformis, varians.

Symmerista albicosta, politia.

Symmerus ferrugineus.

Symmoca picarella, signella.

Symmorphocerus monticola.

Symmorphus (A.) leucopygus.

Symnopleurus aciculatus.

Sympecma fusca.

Sympetrum basale, flaveatum, rufostigma, scoticum, vulgatum.

Symphaedra aérope, alcandra, evelina, lysandra, thyelia.

Symphalangus syndactylus.

Symphedra thyelia.

Symphelos solidago.

Symphemia atlantica, melanura, semipalmata.

Symphodus fulvescens.

Symphurus nigrescens.

Symphyletes nodosa.

Symphyllia agaricia, bisinuosa, grandis, guadulpensis, indica, macrorreina, radians, sinuosa, valenciennesi.

Symphynota alata, benedictensis, bi-alata, bilineata, complanata, compressa, cygnea,

- discoidea, globosa, gracilis, inflata, laevissima, magnifica, ochracea, tenuissima, woodiana.
- Symphysodon** discus.
- Symphysopus** hirtus.
- Symphysurus** brevicaudatus, intermedius, laeviceps, laevis, oblongatus, palpebrosus.
- Symphytocrinus** baccula, caryophyllum, florifer, mespiliformis, minutus, pulchellus, tiara.
- Sympiezopus** aciculatus, cinctus, pauper.
- Sympiezorhynchus** tristis.
- Sympiezorhynchus** camelus, inafectatus, signatus.
- Sympistis** alpestris, melaleuca, rupestris, tristis, vidua.
- Symplecta** cincta, marginata, punctipennis, similis, stictica.
- Symplectes** bicolor, chrysomus, nigricollis, princeps, sancti thomae.
- Sympodium** caeruleum, coralloides, fuliginosum, massa, ochraceum, roseum, rubrum.
- Sympterygia** bonapartei.
- Synagrus** abyssinica, cornuta, mirabilis, sericea.
- Synaïrema** alpina.
- Synalaxis** flammulatus.
- Synallaxis** albescens, albiceps, anthoides, bitorquata, brunnea, cantor, caudacutus, cinerascens, cinereus, cinnamomea, dorsomaculata, elegans, flavogularis, fuliginiceps, garrulus, leucocephala, major, maluroides, maximiliani, melanops, pallidus, patagonica, punctata, ruficapilla, ruficauda, rufifrons, rufogularis, rutilans, setaria, sordidus, spinicauda, stenura, stissitura, striaticeps, tecellata, theloti, torquatus, troglodytoides, tupinieri. *Vide et Synnalaxis.*
- Synanacea** grossa.
- Synanceia** aspera, asteroblepa, bicapillata, bicirrhatus, brachio, breviceps, elongata, erosa, trachynis.
- Synanceja** cervus, didactyla, horrida, papillosus, rubicunda, uranoscopa, verrucosa.
- Synanthedon** cynipiformis, megillaeformis, oestriiformis, systrophiformis.
- Synantherina** socialis.
- Synapha** fasciata.
- Synaphe** augustalis, bombycalis, comparalis, connectalis, corticalis, curtalis, netricalis, punctalis, renalis, supbandalis.
- Synaphia** dujardini.
- Synaphodus** gergovianum.
- Synapta** beseli, doreyana, duvernoia, fusus, henslowana, hydriformis, intonsa, maculata, mammosa, oceanica, papillosa, punctulata, radiosa, reciprocans, sieboldi, viridis, vittata.
- Synaptura** commersoniana, zebra.
- Synaptus** erivanus, filiformis, gurgistanus, unguiserris.
- Synargis** oditus, orestessa, phyllea, sorane, tytia.
- Synarmostes** scabrosus, tibialis.
- Synastrea** agaricites, ambigua, arachnoides, arausiaca, arduennensis, ataxensis, babeana, bellula, boletiformis, cadomensis, cistela, clathrata, collinaria, complanata, composita, concentrica, concinna, conferta, confusa, conica, consobrina, corbarica, crenulata, cristata, decipiens, defranciana, discoides, excavata, filamentosa, firmasiana, flexuosa, frondescens, genevensis, geometrica, gyrosa, hemisphaerica, icaunensis, jurensis, lamellostriata, lamourouxii, langrunensis, lennisii, leunisi, lobata, luciensis, ludoviciana, magna, meandra, media, micrantha, moreana, neocomiensis, neptuni, oceani, pinnata, pseudomeandrina, pulchella, ramosa, renauxiana, requieni, rotata, simonneliana, superposita, teissieriana, tenuissima, textilis, tombeckiana, undulata, zietenii.
- Synbothrium** fragile.
- Synbranchus** fuliginosus, grammicus, gutturalis, laevis, lineata, pardalis, transversalis.
- Syncallia** stellata.
- Syncalypta** arenaria, cretifera, echinata, hispidus, maritima, paleata, setiger, setosa, spinosa, striatopunctata.
- Syncerus** bornonensis, brachycerus.
- Synchaeta** baltica, oblonga, pectinata, tremula.

- Synchita** desjardinsi, fuliginosa, granulata, nitidula, obscura, parvula, picta, quadriguttata, rugosula, striatopunctata, undata, variegata.
- Synchloe** anguitia, autodice, belemia, bonplandi, callidice, chloridice, daplidice, erodyle, glauce, hellica, hippodrome, janais, lacinia, marina, saundersi.
- Synchroa** punctata.
- Synchya** mediolanensis.
- Syncoryna** chamissonis, decipiens, glandulosa, listeri, loveni, multicornis, pusilla, ramosa, sarsi.
- Syncorypha** hyacintha.
- Syncrypta** volvox.
- Syndactylus** siamang.
- Syndalimia** clemataria.
- Syndermis** cuphulana, diversana, griseana, hybridana, murinana, musculana, pascuana, rivulana, walbomiana.
- Syndesus** brasiliensis, cornutus.
- Syndosmya** alba, apelina, intermedia, nucleola, occitana, occitanica, prismatica, purpurascens, radiata, segmentum, tenuis, truncata.
- Synemon** mopsa, nais, silene, sophia, theresa.
- Synemosyna** ephippiata, formica, noxiosa, picata, scorpionia.
- Synercticus** heteromerus.
- Synergus** (Hym.) albipes, aphidicida, apicalis, australis, basalis, bipunctatus, bispinus, carinatus, connatus, crassicornis, erythrocerus, erythroneurus, erythrostomus, exaratus, fascialis, flavicornis, flavipes, hayneanus, immarginatus, incrassatus, klugi, luteus, melanopus, nervosus, nigricornis, nigripes, orientalis, palliceps, pallicornis, pallipes, physocerus, ruficornis, rugulosus, socialis, tibialis, variolosus, varius, vulgaris, xanthocerus.
- Synstramenura** jungermannianum.
- Syneta** betulae, carinata, rubicunda.
- Syngamus** trachealis.
- Syngaster** annulicornis, dorsalis, erythromelas, fasciatus, flavipennis, fuscipennis, geniculatus, lepidus, luteus, macula, maculipennis, nigricornis, rufiventris, semistriatus.
- Syngea** alecto, pitho, pronoe.
- Syngilis** bicolor.
- Syngnathus** abaster, acicularis, affinis, agassiz, anguisigola, anguisigulastris, argentatus, argus, asper, blainvillanus, boaja, breviculus, brevirostris, bucculentus, californiensis, carce, caspius, chorda, conspicillatus, crinitus, cuncalus, deocata, deokhata, erectus, ethon, faciatus, fasciatus, ferrugineus, flagellum, flavofasciatus, fluviatilis, foliatus, fucicola, fuscus, hardwicki, hymenolomus, longirostris, lumbriciformis, nigrolineatus, opisthopterus, papacinus, pecki, peckianus, penicillus, perlatus, phlegon, ponticus, punctatus, pyrois, rhynchaenus, rondeleti, rotundatus, rubescens, salenostomus, serratus, spicifer, spinosus, taeniolatus, tenuirostris, tiedemani, typhloides, variegatus, violaceus, viridescens, viridis.
- Syngrapha** ain, divergens.
- Synhelia** gibbosum, meyeri, sharpeana.
- Synhydra** parasites.
- Synia** (Col.) melanaria, melanopepla.
- Synnalaxis** aegithaloides, brachyurus, candei, cinnamomeus, fuliginosus, gularis, striatocollis, unirufus. *Vide et Synalaxis et Synallaxis.*
- Synocladia** virgulacea.
- Synodontes** scheilan.
- Synodontis** arabi, batensoda, clarias, humeratus, maculosus, membranaceus, nigrita, schal, serratus, shal, synodontes.
- Synodus** (Cr.) vorax.
- Synodus** (P.) argenteus, chinensis, erythrinus, fasciatus, macrocephalus, malabaricus, palustris, tareira, vulpes.
- Synoetheres** insidiosa.
- Synoicum** aurantiacum, ficus, fungosum, pelagicum, subgelatinosum.

- Synoicus** australis, chinensis, diemenensis, sordidus.
Synonymcha grandis, versicolor.
Synophrus politus.
Synophrus hopei.
Synopsis lichenaria, petrificaria, sociaria, viduaria.
Synornis joulainus, leucura.
Synotheres dubia, magna.
Synpalamides mimon.
Synthlibonotus rufipes.
Synthliboramphus antiquus, temmincki.
Synthliborhynchus fabraei.
Synthocus deformis, hopei, rechei, spinulosus.
Synthoeus truncatus.
Synthropus sphaericollis.
Synthymia monogramma.
Syntomis annulata, aterea, bicincta, cerbera, collaris, creusa, cyssa, diaphana, fenestrata, godarti, huebneri, imae, khulweini, lateralis, latreillei, mestrals, minuta, myodes, natali, oechsenheimeri, passalis, persica, phegea, polydemon, schoenherri, sperbius, thelebus.
Syntomium aeneum, nigroaeneum.
Syntomopus (Hym.) incurvus, thoracicus.
Syntomopus (Lep.) cinnamomea.
Syntomus truncatellus.
Synuchus vivalis.
Synura uvella.
Sydon biarmicum.
Syphaeotides aurita, fulva.
Sypho radiata, striata.
Syphona clausa, consimilis, fuscicornis, humeralis, melanocera, pusilla, quadrinotata, sylvatica, testacea, tristis.
Sypilus orbigny.
Sypteris pallasi.
Syrichthus (Lep.) arsalte, domicella, festiva, leucodesma, natalensis, spurius.
Syrictus (Col.) syrictus, verus.
Syrictus (Lep.) alveus, fritilloides, fritillum, orbifer, proto, therapne.
Syricoris cespitana, charpentierana, gemmana, plumbana, reliquana, rivulana, striana, undulana.
Syrichthus (Lep.) altheae, alveolus, baetica, cacaliae, carlinae, carthami, centaureae, cirsi, cynarae, eucrate, fritillum, lavaterae, malvae, marrubii, onopordi, sao, serratulae, sidae, tesselum. *Vide et Syrighthus et Syrictus.*
Syringites imbricatus.
Syringogyra viridis.
Syringopora bifurcata, bouchardi, caespitosa, catenata, catenifera, conferta, distans, elegans, fascicularis, filiformis, geniculata, gracilis, laxa, lonsdaleiana, parallela, ramulosa, reticulata, serpulula, vermicularis, verticillata.
Syrinx forbesi, granulatus, harveyi, nudus, papillosus, tenuicinctus, tessellatus.
Syritta bulbosus, decora, fasciata, flaviventris, indica, latitarsata, nigricornis, nigrifemorata, orientalis, pipiens, proxima, spinigera.
Syrma caudata.
Syrmata aulestis, chorinea, dorilas, nyx, rhete.
Syrmaticus reevesi, soemmeringi.
Syrnia (A.) funerea, passerina, psilodactyla.
Syrnia (Lep.) hypnois, iphianassa, marmorides, mineis, mycerina, occidua, strix, zenobia.
Syrnium aedium, albitarse, albogularis, albotarse, aluco, cayennensis, cinereum, faciatum, fuscescens, griseatum, hylophilum, indraee, macabrum, microphthalmum, nebulosum, newarense, nivicola, niviculum, ocellatum, personatum, philippense, polygrammicum, seloputo, sinense, squamulatum, strepitans, stridulum, suinda, ululans, virgatum, zonocercus.

Syromaster concolor, horridus, prasinus, scurra.

Syromastes fraterculus, fundator, histrix, inconspicuus, longicornis, marginatus, obliquus, quadratus, reflexulus, scapha, spiniger, tasmanicus.

Syrphus adligatus, adolescens, aegrotus, aegyptius, aescytes, affinis, agnon, agonis, agrolas, albivarsis, albomaculatus, albostrictus, alcidice, algrus, almeti, alpicola, alternans, ambulan, americanus, amissas, amoenus, amplus, analis, anchoratus, annulipes, anthophorinus, anthraciformis, antiphates, antiquus, apiformis, arcuatus, arcuicinctus, asilicus, assimilis, aureus, auricollis, auropulveratus, automenes, babyssa, bacchides, balteatus, barbarus, barbifrons, basalis, basilaris, berberidis, bicinctus, bisericiatus, bolyras, bombiformis, borealis, bosci, bucephalus, caeruleus, calceolatus, caliginosus, canicularis, capensis, chalybeatus, chiquitensis, chlorus, chrysocomus, cimbiciformis, cinctus, cingulatus, clarapex, clypeatus, coarctatus, collaris, concavus, concinnus, confrater, conjunctus, consinilis, corolloides, coromandensis, costalis, crenatus, cristatus, curialis, cylindricus, damastor, decorus, delineatus, diaphanus, dilatatus, dimidiatus, discolor, disjunctus, dispar, diversipes, duplicatus, emarginatus, excavatus, exoticus, fascifrons, fascipennis, fasciventris, femoralis, fenestratus, ferrugineus, flavipennis, flaviventris, flavocinctus, fraterculus, fraternus, freyeri, fulvicornis, fulvifrons, fulvipes, fulviventris, funeralis, fuscipennis, fuscotibialis, gastrostactus, gayi, geminatus, geniculatus, globulus, gracilis, grandicornis, granditarsa, grossulariae, grossus, guttatus, haidingeri, hieroglyphicus, hortensis, humeralis, hyalinatus, hyperboreus, iavanus, immaculatus, implicatus, incertus, infumatus, interruptus, intersectus, iridipennis, iris, lacerus, laevigatus, lahriformis, latifascies, latifasciatus, latifrons, latrans, lesueuri, leucozonus, limbatus, lobatus, longicornis, lunatus, luniger, lunulatus, macilentus, maculatus, maculipennis, maculosus, maidis, manicatus, marginatus, megilliformis, melanostoma, melissae, mellarius, mellinoides, melliturgus, minutus, modestus, musicus, mutabilis, naso, nasutus, natalensis, nectarinus, neglectus, nigrifemoratus, nigrinus, nigripes, nitidicollis, nitidiventris, nobilis, nuba, obliquus, obscurus, octomaculatus, oestraceus, oestri-formis, orientalis, ornatus, ortas, paganus, pallidicornis, peas, pellucidulus, peltatus, phaeostigma, philadelphicus, philanthus, piceus, picipes, pictus, placidus, planifacies, plumata, politus, pratensis, productus, profusus, propinquus, pulchellus, pumicatus, punctatus, pusillus, quadratus, quadrimaculatus, radaca, ranunculi, regulus, ropalus, rostratus, rubricornis, rufepelli, rufiventris, rufofasciatus, ruralis, sargoides, scambus, scutatus, scutellaris, scutellatus, securiferus, seleniticus, seminiger, senegalensis, serarius, sexguttatus, sexmaculatus, sexnotatus, sexquadratus, similis, sinuatinervis, sinuatus, sticticus, subfasciatus, succinctus, sydneyensis, taeniatus, tarsalis, tectus, terminalis, testaceicornis, tibicen, topiarius, tricolor, trigonus, tropicus, tympanites, umbellatarum, unicolor, univittatus, urbanus, venustus, vernalis, vernus, vicinus, viduus, vinctorum, virgulatus, viridaurus, viridiceps, vitripennis, vulpinus, winthemi, xanthopterus. *Vide et Syrphus.*

Syrphaptes pallasi, paradoxus, tibetanus.

Syrphodia decrepitaria.

Syrtis carinata, crassinana, crassipes, erosa, fasciatus, fortificata, manicata, marginata, monstrosa, prehensilis, serrata.

Syssaura drepanula, falcula, honesta, sicala, zerbina.

Syssphinx molina.

Systaltocerus platyrhinus.

Systasis encyrtoides, tenuicornis.

Systella hopei, rafflesi.

Systema blanda.

Systemoderes amoenus, dasytoides, viridipennis.

Systole albipennis, platyptera.

Systolosoma breve.

Systoma gibbosus.

Systemus albus, apogon, arulius, assimilis, beso, canius, carnaticus, chola, chrysopterus, chrysosomus, conchonijs, dorsalis, gelius, gibbosus, immaculatus, kolus, leptosomus, luteus, maderaspatensis, malacopterus, pyropterus, rubro-tinctus, sophore, tetrapagus, ticto, tripunctatus, tristis.

Systropha (Hym.) *hirsuta*, *spiralis*.

Systropha (Lep.) *aureola*, *cereola*, *cygnea*la.

Systrophus *brasiliensis*.

Systropus *atratus*, *eumenoides*, *faenoides**, *fumipennis*, *macilentus*, *niger*, *nitidus*, *ophioneus*.

Sython *thymbraeus*.

Syzygonia *aenea*, *cianocephala*, *cyanoptera*.

Tachinus amoenus, analis, angularis, apicalis, aterrimus, atricapillus, atricaudatus, axillaris, basalis, batychrous, bicolor, bi-maculatus, bi-notatus, bipustulatus, brevicollis, brunneus, brunnipennis, castaneus, caucasicus, cernuus, cinctellus, cincticollis, cinctus, collaris, conformis, convexus, corticinus, dahli, degenera, delecta, delicata, demylus, depressus, discoideus, dissimilis, dubius, elatus, elongatus, exilis, ferrugineus, fimbriatus, fimetarius, flavellus, flavipes, formosus, frigidus, fulvipes, geminatus, hepaticus, hortensis, humeralis, humidus, humilis, hybridus, immaturus, immunis, inclinans, intermedius, intricatus, ipsea, laticollis, latiusculus, latus, lepidus, limbatus,

limbosus, lunulatus, luridus, marginalis, marginatus, marginellus, marginicollis, melanarius, melanocephalus, memnonius, merdarius, nanus, niger, nigricornis, nigripes, nitidulus, nitidus, nobilis, notatus, obscurus, obsoletus, olivus, pallens, piceus, picipes, pictus, pronus, propinquus, pulchellus, pullus, puncticollis, punctus, pygmaeus, quatuordecimpunctulus, rubidus, rufescens, ruipennis, rufipes, rufitarsis, rutilus, scapularis, signatus, silphoides, sordidus, sowerbyi, splendidus, striatus, suturalis, terminalis, terminatus, trimaculatus, tristis, tropicus, unicolor.

Tachis rufescens.

Tachiuirus rufipes.

Tachornis phoenicobia.

Tachuris nigricans, omnicolor, rubrigaster.

Tachus dimidiatus, staphylinus.

Tachybulus niger.

Tachycineta bicolor, thalassina.

Tachycnemis seychelliensis.

Tachydosaurus rugosus.

Tachydroma caleanea, luteicornis, pygmaea.

Tachydromia abdominalis, aeneicollis, agilis, albicornis, albiseta, albo-capillata, analis, annulata, annulinana, annulipes, apicalis, arenaria, arrogans, articulata, atra, bicolor, bivittata, brevicornis, brunripes, calceata, candicans, castanipes, celer, celeripes, ciliaris, cimicoides, cingulata, collaris, confinis, connexa, consorta, cothurnata, coxata, cursitans, curvinervis, curvipes, dichroa, dissimilis, ecalceata, ehippiata, exigua, exilis, fasciata, faspipes, femoralis, fenestrata, flavicornis, flavipalpis, flavipes, fulvipes, fuscicornis, fuscimana, fuscipennis, fuscipes, geniculata, gilvipes, glabra, glabrata, graminum, grossipes, hyalipennis, infuscata, lineata, longicornis, longiseta, lutea, luteicornis, macula, maculata, maculimana, maculipenne, maculipes, major, mantispa, melanocephala, minuta, moriella, nervosa, nigra, nigrina, nigripennis, nigripes, nigritarsis, nigritella, nitida, niveiseta, notata, nubila, oratoria, pallida, pallidiventris, pallipes, pectoralis, picipes, plumbea, portaecola, praecatoria, pubicornis, pulicaria, pygmaea, rapida, rufipes, sabulosa, semihyalipennis, similis, socculata, sordida, stigmatella, straminipes, stringiformis, taeniata, terricola, tibialis, truncorum, umbripennis, unguiculata, varipes, venosa, ventralis, vivida, vocatoria, vulgaris.

Tachydromus (A.) asiaticus, burchelli, capensis, chalcopertus, collaris, coromandelici, coromandelicus, europaeus, gallicus, orientalis, senegalensis.

Tachydromus (R.) japonicus, schreibersi, seps, typus.

Tachydromyia aenea, albifrons, flava, flavicornis, meigenia, nigra, pygmaea, sericea.

Tachyerges fulvitaris, nitidulus, pubescens, rufitarsis, saliceti, salicis, scutellatus, stigma.

Tachygaster austriacus.

Tachyglossus aculeatus, hystrix, setosus.

Tachygonus fasciculosus, horridus, hydropicus, lecontei, leprieuri, phalangium.

Tachymenis peruviana.

Tachymeris peruviana.

Tachynectes leopardina.

Tachynus carus, glaber.

Tachyopus lecontei.

Tachypetes (A.) aquila, leucocephalus, minor, palmerstroni.

Tachypeza albitarsis, arenaria, arrogans, brevipennis, caleanea, cursitans, fenestrata, graminum, heeri, hirta, hyalipennis, morio, praelusio, terricola, tibialis, umbrarum, winthemi.

Tachyphonus albitempora, archiepiscopus, auricapillus, axillaris, bonariensis, brevipes, canigularis, capistratus, capitatus, chloricterus, cirrhomelas, coronatus, cristata, cristatellus, delatrei, desmaresti, elegans, flavinucha, flavopectus, fringilloides, gularis, igniventris, involucratus, leucopterus, loricatus, luctuosus, lunulatus, margaritatus, ochropygos, olivaceus, olivi-cyaneus, palmarum, penicillatus, phoeniceus, phoenicius, quadricolor, ruber, rubescens, ruficeps, rufiventer, rufo-gularis, sanguinolentus, saucicus, serrirostris, somptuosus, subsulphureus, suchi, taeniatus, tenuirostris, vaillanti, versicolor, victorini, vigorsi.

Tachypleus heterodactylus.

Tachyporus abdominalis, acaudus, acuductus, affinis, albicornis, alpinus, analis, angustatus, anticus, apicalis, arduus, armeniacus, atratus, atriceps, basalis, bicolor, bi-maculatus, binotatus, bipunctatus, bipustulatus, boleti, brunneus, capillaricornis, carbonarius, caucasicus, cellaris, chloroticus, chrysomelinus, cinctus, cingulatus, collaris, cordatus, corticinus, crassicornis, crassus, difinis, dimidiatus, dissimilis, distinctus, erythropterus, faber, fasciatus, fimetarius, flavescens, flavicornis, flavipes, formosus, fulvus, fumipennis, fuscus, globulus, granulum, humeralis, humerosus, hypnorum, interruptus, jocosus, lacrymosus, lateralis, laticollis, lepidus, libens, limbatus, littoreus, livens, macropterus, maculipennis, marginalis, marginatus, marginellus, marginicollis, melanurus, membranarius, merdarius, minimus, moestus, nanus, niger, nigriceps, nigricollis, nigripennis, nitidicollis, nitidulus, nitidus, nodicornis, obscurellus, obtusus, opicus, pallens, pallipes, pedicularius, piceus, pisciculus, pisciformis, posticus, pubescens, pulchellus, punctus, punctatus, punctulatus, punctus, pusillus, putridus, pygmaeus, pyrrhoceras, pyrrhopterus, rufescens, ruficollis, ruficornis, rufipes, rufo-marginatus, rufus, saginatus, scitulus, scutellaris, sericeus, signatus, silphoides, solutus, splendidus, striatus, subterraneus, subtestaceus, subulatus, suturalis, tersus, testaceus, thoracicus, transversalis, trinotatus, truncatellus, variegatus, ventriculus, vittatus.

Tachyptena tau.

Tachyptera (Lep.) adippe, aegeria, aglaia, antiopa, apollo, atalanta, aurora, brassicae, Calbum, cardui, castor, celtis, cinxia, crataegi, cynthia, daplidice, edusa, euphrosyne, galathea, hermine, hyale, hyperanthus, ianira, ianthia, io, iris, latonia, levana, lucilla, maurisus, medea, paphia, pilosellae, polychloros, populi, prorsa, rapae, rapi, rhamni, sibilla, sinapis, tremulae, urticae.

Tachypterus fasciatus.

Tachypus acutus, andreae, auratus, bipunctatus, caelatus, celer, chalceus, chlorophanus, coriaceus, cromerense, elongatus, flavipes, hortensis, nebulosus, orichalcicus, pallipes, picipes, pictus, properans, striatus, tibialis, varipes, vinctus.

Tachys aereus, analis, anceps, angustatus, anomala, arenarius, bifasciatus, binotatus, bisignatus, brunneus, cardioderus, caspia, corruscus, decoloratus, dimidiata, dolosus, exigua, fasciatus, flammula, flavipes, furvus, globulus, gracilis, haemorrhoidalis, inaequalis, laticollis, longula, maritimus, mendax, minimus, minutissimus, misellus, nana*, niger, obtusus, occultus, pallidus, parallela, parvulus, pulchellus, pumilio, pusillus, quadriguttatus, quadrinotatus, quadri-signatum, rivularis, rubicundus, rufescens, rufipes, scitulus, scutellaris, sequax, transparens, virens, vittata, vittatus, vivax.

Tachysaurus japonicus.

Tachyscelis rubropunctatus.

Tachyspiza soloensis, sulcatus, sulcifrons, taurica, terminatus, testacea.

Tachysurus sinensis.

Tachyta picipes.

Tachytes alboscincta, anathema, argentata, atrata, aurifrons, aurulenta, bella, bicolor, dives, etrusca, ferrugineipes, illudens, jurinei, matronalis, murina, nigra, nigripennis, nigrita, obsoleta, opulenta, pagana, paloptera, panzeri, pompiliformis, sordida, tarsiua, tessellata, tricineta, tricolor, unicolor.

Tachytiorchis albinotatus, erythronotus, leucops, pterocles.

Tachyusa atra, balteata, carbonaria, coarctata, concinna, constricta, exarata, ferialis, flavitarsis, flavocincta, fugax, laesa, lata, nigrita, rubicunda, scitula, sulcata, umbratica.

Tadarida teniotis.

Tadoma poecilorhyncha.

Tadorna belloni, casarca, cristata, erythrorhyncha, familiaris, georgica, gibbera, littoralis, maritima, moschata, naevosa, nivea, pnoe, radjah, rubra, rutila, tadorna, viridicapilla, vulpanser, vulpina.

Taenia abbreviata, acuta, aequabilis, alaudae, alcae picae, ambigua, amphisbaenae, amphitricha, angulata, angustata, anthocephala, armata, armillaris, attenuata, aurita, bacillum, belones, bifaria, bonasiae, brachycephala, breviarticulata, brevicollis, calycina, campanulata, candida, canis lagopodis, capillaris, capitellata, capito, capsae, carina, charadrii, ciliata, coccothraustes, colubri, colymbi cornuti, colymbi cristati,

compacta, coraciae, cordifera, coronata, coronula, corvi cornicis, corvorum, crassiceps, crassicollis, crassipora, crassula, crenulata, cruciata, cuneiceps, curvirostrae, cyprini idi, decipiens, decrescens, dendrocolaptis, denticulata, didelphidis, difformis, dilatata, diminuta, echinorhyncha, emberizarum, eperlani, exigua, expansa, farciminula, fasciata, felis pardi, fenestrata, festiva, filicollis, filiformis, fimbriata, foinae, fragilis, fringillarum, frontina, fulicae, furcigera, gadi pollachii, gallinaginis, genettae, gracilis, hominis, humana, hydatigena, hyracis, idi, inarmata, inermis, indata, intermedia, interrupta, inversa, lacertae, laevigata, lamelligera, lanceolata, lari canis, lari-ridibundi, lata, lateralis, laticollis, leptocephala, leptosoma, liguloides, longannulata, longiceps, longicollis, longirostris, loxiae, lumbricoides, macrocephala, macrophalla, macro-rhyncha, mamillana, margaritifera, marmotae, megacantha, megalops, megastoma, meropis, microcephalos, microps, microscopica, microsoma, microstoma, minuta, motacillae, multiceps, multiformis, multistriata, murina, muris, musculi, muscularis, mustelae, mutabilis, myoxi, naja, nasifera, nasuta, neglecta, obtusata, ocellata, octolobata, oligotoma, opuntioidea, orioles, ovium, paradoxa, parallelepipedae, pardi, parina, pelecani, perfoliata, phasianis, picimedii, piriformis, pistillum, planiceps, platycephala, platydera, plicata, pollachii, polymorpha, porosa, prismatica, proboscidea, proboscis, punctata, purpurata, pyramidalis, pyramidata, quadrata, racemosa, ranae batis, ratti, rectirostris, renkinia, rhinaria, rhinaria, rhomboidea, rubanae, rugosa, saccifera, scalaris, scolocina, scolopacis, scolopendra, scutigera, serpentiniformis, serpentuliformis, serrata, servata, setosa, sinuosa, sittae, solecina, soricis, speciosa, sphaerocephala, sphaerophora, sphenoccephala, stentorea, sterna, striata, strigis, struthio camelis, struthionis, stylosa, sulmonis, tadornae, tenella, tenuicollis, tenuirostris, tenuis, tetraodontis molae, tiara, totani, treutleri, trilineata, tringae, tripunctata, tuberculata, tumens, turdi, turdorum, undulata, unguicula, unilateralis, upupae, ursi maritimi, vaginata, variabilis, vespertilionis, vulgaris, zebrae.

Taenianotes minutus.

Taenianotus lativittatus, triacanthus.

Taeniaptera trivittata.

Taeniocampa ambigua, carnea, gothica, gracilis, instabilis, miniosa, opima, populeti, rubella, rubricosa, stabilis.

Taeniodera antiqua, cinerea, egregia, flavo-punctata, histrio, malabariensis, monacha, quadrilineata.

Taeniodon ellipticus.

Taenioptera (A.) alpina, atricapilla, coronata, dominicana, flavida, irupero, murina, nengeta, nivea, pyrope, variegata, velata.

Taenionotes buqueti, lineatus, pulverulentus, scalaris, subocellatus.

Taeniothrips brevicornis, decora, dispar, primulae.

Taeniura grabata, lyman, meyeri, notoro.

Taenodema aenea, cincta, cyanescens, vestitus, villosa.

Taenosoma gracile, pusillum.

Tagelus guinensis.

Tagenia affinis, algerica, angustata, caerulea, carinata, corsica, cylindrica, elongata, filiformis, frioli, funerosa, grandis, hesperica, hispanica, indica, insulana, intermedia, laevicollis, leucospila, minuta, oblitterata, orientalis, picea, pilifera, pilosa, pubescens, pumila, punctiventris, pusilla, sabulosa, sardoa, sicula, smyrnensis, striatopunctata, subcostata, sulcicollis.

Tagiades japyx, paulinus.

Tagona acuminata, macrophthalmus, tinodactyla.

Takydromus quadrilineatus, sexlineatus.

Talaeporia inconspicua, lapidicella, triquetrella.

Talamita crenata*, sexdentata. *Vide et Thalamita.*

Talegalla cuvieri, lathamii.

Talegallus lathamii.

Taleporia glabella.

Talides astylos, athenion, broteus, celaenus, obscurus, ramusis, sinois, striga.

Talis quercella.

- Talitrus** beaucoudraii, brevicorne, carinatus, chilensis, cicada, cloqueti, cyaneae, edwardsi, gamarellus, grillus, littoralis, locusta, longicornis, medusarum, nicaeensis, platycheles, quadridens, rubropunctatus, saltator, tripudians.
- Taloeponia** petrella, tabulella.
- Talona** tridens.
- Talpa** acutidentata, antiqua, aurata, brachychir, caeca, capensis, citrina, cristatus, cryptura, cupreata, fossilis, leucura, machrina, magna, micrurus, minuta, pensilvanica, purpurascens, radiata, rufa, sericea, versicolor, wogura.
- Talposorex** longicaudata. *Vide et Talposorex.*
- Talpina** foliacea, pungens, ramosa, sentiformis, solitaria.
- Talpoides** aspalax, capensis, hudsonius, maritimus, minor, talpinus, typhlis, typhlus.
- Talposorex** pensilvanica, platyurus. *Vide et Talposorex.*
- Tamaria** fusca.
- Tamatia** aurifrons, bicincta, bitorquata, chacurii, collaris, erythropygos, fusca, gularis, leucops, leucotis, leucotus, macrodactyla, macrodactylus, macrorhynchus, maculata, melanoleucus, melanotis, somnolenta, tamajae, tamatia.
- Tameigastra** mediterranea.
- Tamia** hudsonia, palmarum, quadrivittata, striata.
- Tamias** americana, grammurus, hindei, lysteri, minimus, rubrolineatus, striatus, townsendi, uthensis, vittatus.
- Tamiclea** cinerea.
- Tamnolanus** ferrugineus, gutturalis.
- Tamnophilus** athnis, aspersiventer, aterrimus, atropileus, bernardi, capistratus, cinereus, fuliginosus, lafresnayanus, leucocephalus, lividus, maculatus, minutus, othello, rufater, rufus.
- Tamyris** acastus, apastus, aulestes, criniscus, exadeus, laonome, maenas, nurscia, salius, virbius, zeuleucus.
- Tanagra** aboas, athnis, albo-frenatus, analis, archiepiscopus, argentata, argentea, arthus, assimilis, atricapilla, atriceps, atricollis, aurantiaca, aureata, auricapilla, auricodis, auricollis, aurifrons, aurlenta, axillaris, barbadensis, brunnea, caerulescens, cana, canadensis, canicapilla, capistrata, capitalis, capitata, caelano, chaerophyllata, chalybea, chlorocyanea, chloroptera, chrysogaster, citrinella, coelestis, comata, constantii, coryphaea, cucullata, cyanicollis, cyanocephala, cyanomelas, cyanoventris, darwini, decumana, dentata, desmaresti, diaconus, diademata, diva, dominicana, dubusia, dumetorum, elegans, episcopus, erythrocephala, erythromelas, erythrorhyncha, erythrotis, eximia, fasciata, fastuosa, festiva, flammata, flammiceps, flava, flavicollis, flavifrons, flavinucha, flaviventris, formosa, frugilegus, fulva*, gnatho, graminea, grandis, grisea, guira, gutturalis, hirundinacea, ignescens, igniventris, inornata, iridina, jugularis, labradorides, leucocephala, leucophaea, leucoptera, leverianus, linnaei, loricata, luciani, ludoviciana, lunulata, macularia, malimbica, mancipium, martialis, maximiliani, melanonota, melanota, melanotba, mesoleuca, mexicana, mississippi, modesta, montana, multicolor, musica, muta, nigrigula, nigro-aurita, nigrogularis, nigroviridis, olivacea, olivascens, olivi-cyanea, ornata, pallidimucha, palmarum, palpebrosa, pardalotes, parzudakii, penicillata, peruviana, picatus, pileata, porphyria, porphyrio, prasina, prelatus, pretrei, psittacina, punicea, purpurascens, riefferi, rubricollis, ruficollis, ruficornis, rufiventris, rufivertex, rutila, sanguinolentus, savia, schistaceus, schranki, semirufus, sercoptera, sialis, somptuosa, speculifera, superciliaris, swainsoni, taciturna, taeniata, tephrocephala, thoracica, tibialata, trichroa, umbilicalis, valida, vassori, vegeta, velia, vicarius, victorini, viridis, vittata, yeni, zena, zenoides, zonoides.
- Tanagrella** iridina, multicolor, ruficollis, tenuirostris.
- Tanais** brasiliensis, curculio, dubius, dulongi, edwardsi, elongatus, gayi, gracilis, macrocheles, orstedii, savignyi, tomentosus.
- Tanaos** bicolor, fallax, sanguineus.
- Tancredia** donaciformis, sulcata.
- Tangara** albo-cristatus, major, malimbica, rufa, sulva.
- Tangavius** involucratus.
- Tantalides** falcinellus, guarauna.

- Tantalus** arcuatus, bresciensis, candidus*, capensis, ephouskyca, fossilis, fuscus, guarana, lacteus, luzoniensis, melanops, niger, phaeopus, pictus, plumicollis, rhodinopterus, rodopteron. *Vide et Tentalus.*
- Tanychilus** cistelides, dubius, gibbicollis, metallicus, striatus.
- Tanyglossa** aethiopica, analis, atropos, brunnea, cingulata, deusta, ferruginea, fusca, guttata, haustellatus, hirsuta, maura, mauritanica, multipunctata, obscura, picea, proboscidea, pulchra, rostrata, thoracica, vittata.
- Tanygnathus** (A.) gala, macrorhynchus, marginatus, mülleri, muellei.
- Tanygnathus** (Col.) collaris, laticollis, terminalis.
- Tanymecus** acutus, aegrotus, affinis, albomarginatus, albus, alutaceus, argentatus, argyrostomus, bidentatus, canescens, cervinus, chloroleucus, circumdatus, confertus, confinis, confusus, convexiformis, cruciatus, graminicola, humilis, laeana, lateralis, leucophaeus, lineatus, longulus, marginalis, migrans, musculus, nebulosus, niloticus, niveus, palliatus, planifrons, praecanus, protervus, robustus, rudis, rusticus, rutilans, sciurus, sibiricus, sparsus, squameus, steveni, trivialis, umbratus, urbanus, variabilis, variegatus, villicus, viridans, vittiger.
- Tanypeza** abdominalis, apicalis, bicolor, callitarsis, elegans, longimana.
- Tanyproctus** carbonarius, olivieri, persicus.
- Tanyptera** ichneumonea.
- Tanyptus** (A.) australis.
- Tanyptus** (Dipt.) albipes, annulatus, arundineti, ater, barbitarsis, bicolor, bilineatus, binotatus, carneus, choreus, ciliatus, cineta, concinnus, consobrinus, crassinervis, crassipes, crux, culiciformis, decedens, dilaticollis, discolor, dubius, elegans, fasciatus, fasciculatus, ferruginicollis, festivus, flabellicornis, gibbus, gratus, hirsutus, incarnatus, lactepennis, laetus, lateralis, lentiginosus, littoralis, lugubris, luteus, maculata, maculipennis, melanops, melanurus, monilis, morio, motatrix, nebulosus, nemorosus, nervosus, nigrimanus, nigropunctatus, notatus, nubilus, nudipes, obscurus, ornatus, pallens, pallicornis, pallidulus, pictipennis, plumipes, plumosus, praecox, pubicornis, pubitarsis, punctatus, punctipennis, pusillus, rufus, signatus, sordidus, sylvaticus, tenuis, tibialis, trifascipennis, turpis, unifascipennis, unimaculatus, variegatus, varius, viridis, zonatus.
- Tanyrhynchus** affaber, albidulus, asiaticus, bardus, biguttatus, brevis, carinatus, costirostris, inflatus, longulus, loripes, porifer, pulverulentus, rudis, squalidus, strigirostris, suturalis, tenuirostris, terranus, tibialis, tibiellus.
- Tanysiptera** dea, nympa.
- Tanysphyra** gracilis.
- Tanysphyrus** lemnae.
- Tanystoma** striata.
- Taoniscus** pavoninus.
- Tapada** putris.
- Tapaya** deserti.
- Tapeigaster** annulipes.
- Tapeina** bicolor, coronata, dispar, picea.
- Tapeinotus** ephippiger.
- Tapeinus** pictus, rufus.
- Tapenopsis** costatus.
- Tapera** brasiliensis.
- Tapes** aurea, decussata, litteratus, pullastra, radiata, violacea, virginea.
- Taphaeus** affinis, conformis, fuscipes, irregularis, nigricornis.
- Taphasous** longimanus.
- Taphazous** brevicaudus, cantori, crassus, fulvidus, longimanus, philippiensis, pulcher, senegalensis. *Vide et Taphozous.*
- Taphoxenus** cellarum, dauricus, elongatus, gigas, goliath, gracilis, grandis, interstitialis, laticollis, ovalis, parallelus, planicollis, rufitarsis, subcostatus, thoracicus, tilesi.
- Taphozous** bicolor, crassus, lepturus, leucopterus, mauritanicus, mauritanus, melanopogon, nudiventris, perforatus, saccolaimus. *Vide et Taphazous.*
- Taphria** alpigena, breviuscula, vivalis.

- Taphrocerus** alboguttata.
Taphroderes brevipex, distortus, foveatus, foveolatus, quadrisignatus, sexmaculatus, sinus, striolatus, whitei.
Taphrorhynchus assamensis.
Taphrostethus quinquecostatus.
Tapina americana.
Tapinocera brevicornis.
Tapinodon gresslyi.
Tapinoma collina.
Tapinotus sellatus.
Tapinus inconspicuus.
Tapir arvernensis, indicus, maypuri, pinchaque, poirieri, suinus.
Tapirodon gressleyi.
Tapirotherium larteti.
Tapirulus hyacinus.
Tapirus altifrons, americanus, anta, antiquus, bicolor, giganteus, helveticus, indicus, malayanus, mastodontoides, minor, minus, orientalis, parvus, priscus, proavus, roulini, rufus, suillus, terrestris, villosus.
Tapoa tafa.
Tarache aprica, ardoris, caloris, candefacta, insolatrix, opalina, solaris.
Tarachia austerata, castigata, sobrinata.
Tarachodes perloides.
Taractes asper.
Taraguira darwini, smithi, torquata.
Tarandus lapponum, rangifer, schottini.
Tarantula apulhae, cursor, media.
Taras antiquatus.
Tarasion fagi.
Taraxis abnormis.
Tarbophis fallax.
Tarentola aegyptiaca, americana, ballorini, bibroni, borneensis, capensis, clypeata, delalandi, mauritanica, stellio.
Tarichia lugubris, torosa.
Tarisa virescens.
Tarpa bucephala, caesariensis, cephalotes, fabricii, flabellicornis, flavicornis, hispanica, judaica, klugi, levallanti, megacephala, olivieri, panzeri, pectinicornis, phaenicia, plagioccephala, quinquecincta, scripta, spiraeae, spissicornis.
Tarphius gibbulus.
Tarsier pallasi. *Vide et Tarsius.*
Tarsiger chrysaeus.
Tarsipes rostratus, spenserae.
Tarsius bancanus, daubentonii*, fischeri, fuscimanus, fuscus, macrotarsus, pusillus, spectrum, tarsius. *Vide et Tarsier.*
Tarsostenus albofasciatus, univittatus.
Tarsus macrotarsus.
Tartare fusca, longirostris. *Vide et Tatare.*
Tarus angularis, axillaris, basalis, coadunatus, crassicollis, gebleri, humeralis, laevigatus, macularis, obliquus, perforatus, rectangulus, sabulosus, subcyaneus.
Tasgius conhuus, rupes.
Tata rugosa.
Tatare fuscus, longirostris, luscinia, otaitiensis, otatare.
Tatusia apar, hybridus, mataka, minuta, mirim, peba, quadricincta, septemcinctus, tatouay, tricincta, villosa.
Taumacera deusta.
Taurichthys varius, viridis.
Tauroceras cornutus.
Taurocerus cinctus, edessoides.
Tauroma aeruginosa, anchoralis, antiqua, aureicornis, azureicornis, bicornis, coracina

cornuta, creberrima, eximia, gibbera, ignava, malachitica, punctipennis, reichiei, scabrosa, smaragdina, taurus, truncata, viridicoerulea.

Taurus indicus, latifrons, urus.

Tautoga alia, americana, caerulea, chogset, fasciata, fucicola, fusca, inscripta, laticlavata, luculenta, melapterus, mertensi, niger, parila, psittacula, rubens, sexfasciata, tessellata, tetrica.

Taxidea labradorica, leucurus.

Taxidia leucurus.

Taxila drupadi, echerius, egeon, erato, fatua, fylla, neophron, orphna, tantalus.

Taxisus dipterus.

Taxocrinus egeroni, granulatus, macrodactylus, nobilis, orbignyi, polydactylus, tuberculatus.

Taxotherium parisiense.

Taxus gulo, melcs, mellivorus, vulgaris.

Tayassu patira, pecari.

Taygetis celia, fatua, mermeria, thamyra, virgilia, ypthima.

Tchiltrea gainardi.

Tchitreia affinis, atriceps, atrocaudata, atrochalybeia, borbonica, caeruleocephala, cristata, cyanomelas, ferreti, holosericea, leucogaster, melanogaster, mutata, nebulosa, pectoralis, pretiosa, princeps, rufa, rufiventris, torquata.

Teba aculeata, cantiana, caperata, carthusianella, cingenda, fulva, hispida, nilssoniana, rufescens, spinulosa, virgata. *Vide et Theba.*

Tebenna comptella, festivella, laspeyresella, maculatella.

Tebenophorus carolinensis.

Technites trifasciatus.

Tectarius coronatus.

Tectocoris affinis, binotata, childreni, cyanipes, gambiae, hardwicki, interrupta, javana, nepalensis, nobilis, oblonga, obscura, purpurascens.

Tectura cassis, conica, flammea, fragilis, fulva, parva, parvula, punctata, stellaris, striata, tessellata, virginea.

Tectus pagodalis.

Tefflus delegorguei, megerlei.

Tegenaria africana, agrestis, annulipes, antipodiana, arboricale, atrica, australensis, campestris, civilis, coarctata, cubicularis, domestica, emaciata, flavens, fuliginea, guyon, insularia, intricata, longipalpis, longipes, lycorina, medicinalis, mixta, murina, nemorensis, pagana, persica, petrensis, saeva, saxatilis, scalaris, senegalensis, silvicola, stabularia, torpida.

Tegostoma comparalis.

Tegula elegans.

Teinocera nitidicollis.

Teinodactyla aeneicollis, californica, conspiciabilis, bolsatica, oblitterata.

Teinopalpus imperialis, parryae.

Teira punctata.

Teius ameiva, brevicarinatus, caeruleocephalus, collaris, crocodilinus, cyaneus, lemni-scatus, monitor, nigropunctatus, striata, viridis.

Tejus boscianus, cyaneus, cyauomela, lateristriga, murinus, ocellifer, teyou, tritaeniatus.

Telchinia bendis, cephea, horta, issoria, mycenaea, ranavalona, saronis, serena, zetis.

Telea ambiguella, caesiella, comptella, crataegella, curtisella, leucastella, lutarella, polypheme, subfasciella.

Teleas aegle, aratus, asramanes, ater, bassus, brasilas, cephisus, chesias, chyllene, clavicornis*, dalmanni, discolor, doto, elatior, ergenna, fornicatus, fumipeunis, galba, glaucus, hemipterus, lamus, latus, linnei, longicornis, longipes, lycaon, maculatus, medon, mermerus, metabus, metallicus, minutus, misellus, muscaeformis, niger, ocyroe, paula, pedestris, phalaenarum, procris, pumilio, punctatissimus, pusillus, rupes, semistriatus, smerdis, solidus, therycides, timareta, truncatus, varicornis, xenetus, zetterstedti.

Telebois (Crin.) annulatus.

Telegallus cuvieri.

Telegonus (Ar.) versicolor.

Telegonus (Lep.) anaphus, midas, morpheus, phocus, talus, tarchon.

Telegraphus maculipennis.

Teleia (Hem.) coronata.

Teleia (Lep.) abietana, confixana, sudoriana, veterana.

Telemiades avitus, epicalus, salatis.

Telenomus aethra, alcon, andria, apitius, arminon, ater, belenus, brachialis, charmus, chrysolaus, cleostratus, coilus, colotes, cteatus, dicaeus, dorsennus, eris, heteropterus, horus, iapyx, mentes, nauplius, orphne, othis, othonia, phylas, pilumnus, sitius, stilpo, theste, tritia, trophonius, turesis, vibius, vinicius, zethos.

Teleosaurus asthenodeirus, bollensis, cadomensis, chapmanni, priscus, soemmeringi.

Telephanus atracapillus.

Telephonus gutturalis, leucorhynchus, major.

Telephoromyia ruipes.

Telephorus (Col.) abdominalis, acutipennis, adultus, aethiops, affinis, alpicola, alpinus, analis, apicalis, assimilis, attavinus, axillaris, barbarus, benneti, bicolor, biguttatus, bilineatus, bipunctatus, cantianus, chalybeus, chilensis, cinctus, clypeatus, confinis, crassicornis, curti, cyaneus, cyanomelas, cyanurus, decolorans, denticornis, deustus, dilatatus, dilaticornis, discicollis, discoideus, dispar, dubius, ephippiger, excisus, femoralis, fenestratus, flavilabris, flaviventris, fossulatus, fragilis, fulvipennis, fuscus, gaudichaudi, geniculatus, germari, griseipennis, heros, immaculicollis, janthinipennis, laevicollis, lituratus, longicornis, luctuosus, luteicollis, luteus, maculicollis, magellanicus, malthinius, mandibularis, marginatus, marginicollis, marginipennis, mauritanicus, minutus, nepalensis, nigriceps, nigricornis, nigrifrons, nigripes, nigrita, nigratarsis, nivea, opacus, palliatus, pallipes, pellucidus, pictus, pilosus, praeustus, pulchellus, puncticollis, purpurascens, rectus, rhombicus, rubricollis, rubromarginatus, rubrosignatus, ruiceps, ruicollis, ruifolus, rugifrons, rusticus, samouellei, schaefferi, scitula, scriptus, scutatus, scutellaris, senegalensis, sinuatus, sulcicollis, terminalis, tertarius, testaceipes, tibialis, translucidus, transversalis, tricolor, trimaculatus, tripartitus, tristis, unicolor, unipunctatus, violaceus, westwoodi, xanthomelas.

Telephorus (Moll.) australis.

Telescopella undulata.

Telescopium fuscum, indicator, semiannulatus.

Telescopus subannulatus.

Telesiops granulata, leiocéphas.

Telestes aphya, cabeda, muticellus, savignyi.

Telesto (Coel.) album, aurantiaca, fruticulosa, lutea, pelagicum, pelagica.

Telesto (Cr.) urocera.

Telesto (Lep.) perroni.

Telias ovulorum.

Teliops bicolor.

Telistrophis torsala.

Tellenides triangularis.

Tellimya bidentata, elliptica, glabrum, lactea, ovata, suborbicularis, substriata, tenuis.

Tellina acuta, aegae, aegle, aeneus, aequilatera, aequistriata, agatha, aglaia, aglaurae, ala, alata, alba, albaria, albescens, albida, albinella, alcyone, alita, alta, alternata, alternidentata, amata, ambigua, amnea*, ampliata, ampullacea, anatina, ancilla, angulata, angulosa, angustata, anomala, antonii, apelina, aperta, areolata, arcuata, areolata, argilaris, articulata, asperrima, assimilis, astartea, aulica, aurea, aurora, benedeni, biangularis, bicolor, bipartita, biplicata, birmanica, bitruncata, bodegensis, bogotina, branderi, brasiliana, brevifrons, brevirostris, brochii, bruguieri, burneti, caduca, caerulea, canadensis, canalensis, canaliculata, candida, capsoides, carinulata, carnea, carteroni, casta, cayennensis, childreni, chinensis, chloroleuca, cicercula, clathrata, cleyana, coarctata, columbiensis, compressa, compta, concentrica, concinna, conspicua, constricta, convexa, corbinoides, corbis, corbuloides, cordiformis, corneola, coruscans, costae, costata, costulata, crassa, craticula, crucigera, cruenta, crystallina, cuisensis, culter, cumana, cuningi, cuspidis, cycladiformis, cygnus, cyrenoides, declivis, decora, decussata, decussatula, delanouana, deltoidalis, demissa, densus, dentata, dentex, denticolata, deshayesi, diana, dichotoma, dilatata, diphos, discrepans, discus,

dispar, disstriata, divergens, dombeyi, donacella, donacialis, donaciformis, dunelmensis, dyctioidea, eborea, eburnea, edentula, egena, elegans, elliptica, elongata, elucens, emacerata, emarginata, ervilia, erycinoides, exarata, exulta, exilis, fabricii, fausta, felix, ferroensis, ferruginea, festiva, filosa, fimbriata, flavescens, flexuosa, formosa, fragilis, fragilissima, frigida, fucata, fusca, galataea, gelida, gibba, gigantea, gigas, glabella, globosa, goldfussi, gouldi, gracilenta, gracilis, grandis, granulosa, gruneri, gubernaculum, guildfordiae, guildingi, guinaica, hantonensis, henslowiana, henslowiana, hermaphrodita, hians, hiattelloides, hiberna, hilaris, hippoidea, hualloensis, humboldtiana, hyalina, imbellis, immaculata, inaequalis, inaequistriata, incarnata, incerta*, inconspicua, inflata, inornata, insculpta, intastriata, interrupta, iridescens, iris, irus, japonica, jonasi, jubar, jugosa, juvenilis, laceridensis, lactea, lacunosa, laeta, laevis, lamarchi, lamellosa, lamellulata, lancea, lantiviy, laskeyi, lata, lateralis, latirostra, laura, lenis, lenticula, ligamentina, lilium, lima, limosa, lineata, lineolata, lineata, listeri, litoralis, longicallus, lucerna, lucida, lucinalis, ludwigi, lunulata, lupinoides, lusoria, lutea, lux, lyra, maculosa, madagascariensis, margaritina, marginalis, mars, mediterranea, mera, mexicana, meyeri, micans, miles, mirabilis, moreana, munda, muriatica, muricata, nasuta, natalensis, nitens, nitida, nivea, nobilis, nuculiformis, nux, nymphalis, obliqua, obliquilineata, oblita, oblonga, obovata, obruta, obsoleta, obtusa, occidentalis, oceanii, ochroleuca, olimpica, opalina, orbiculata, oregonensis, ostracea, oudardi, ovalis, ovaloides, ovata, oweni, pallescens, panamensis, papyracea, papyria, parthenopaea, patellaris, pectorosa, pelagustris, pellucida, perovata, perplexa, perula, petalum, petitiana, pharaonis, philippii, philippinarum, pinguis, plagia, plana, planissima, plebeia, pleurosticta, poli, polita, polygona, pondicherriensis, praetenuis, pretiosa, princeps, prisca, pristis, producta, proleteria, pronuba, prora, proxima, psammotella, pseudo-donacialis, pseudorostralis, pudica, puella, pulchella, pulcherrima, pumila, purpurascens, purpureus, pusilla, pustula, pygmaea, radiata, radiatula, radula, rastellum, ravenelli, reflexa, regia, reichel, renauxi, revoluta, rhodora, rhomboidalis, rhomboides, rigida, rivicola, robusta, rodon, roemerii, rostralina, rostralis, rotundata, royana, rubens, rubescens, rubicunda, rubra, rubrohyalina, rudis, rufescens, rugosa, sanguinea, scabra, scalaris, scalaroides, scalpellum, scandula, scoditina, secta, semen, semicostata, semidentata, semiovalis, semizonalis, senegalensis, serica, sericina, serrata, serratula, sexradiata, sillimani, similis, sincera, sinuata, sobralensis, sol, solida, sordida, souleyeti, sowerbyi, speciosa, spectabilis, spinosa, splendens, splendida, squamula, squamulosa, stagnicola, staurilla, striata, striatella, striatula, stricta, strigata, strigilata, subalpina, subcarinata, subconcinna, subdecussata, subequalis, subfilosa, suborbicularis, subplana, subradiata, subrosea, subrotunda, subtenuistria, subtenuistriata, subtilissima, subtruncata, subuncinata, subzonaria, sulcata, sulphurea, telata, tellinoides, tenera, tenta, tenuilamellosa, tenuissima, tenuistria, tenuistriata, textilis, tigerina, timorensis, timoriensis, titonia, togata, tongana, triangularis, tridentata, trigona, truncata, truncatula, tuberculata, tulipa, tumescens, tumida, umbonella, undulata, uniostralis, unimaculata, uniradiata, valtonis, variabilis, varians, vectiana, vernalis, verrucosa, vespertina, vestalis, vicksburgensis, violacea, virgo, virgulata, zonaria.

Tellinides acuminatus, coccinea, emarginatus, oblonga, opalina, ovalis, politus, purpureus, rosacea, rosea, striata, timorensis, triangularis, truncatulus.

Tellinites anceps, asserculatus, carbonarius, cardissaeformis, cingulatus, comprimatus, corbularius, corneaeformis, dubius, elongatus, glabratus, gnidus, laevigatus, lucinius, margaritaceus, minutus, musculitiformis, paganus, politus, priscus, problematicus, radiatus, rhaeticus, rostratus, sanguinolarius, scobinatus, solenoides, virgatus.

Tellinomya anatiniformis, dubia, gibbosa, nasuta, sanguinolarioidea.

Telmatias alticeps, brachyoptera, brehmi, faeroensis, nisoria, peregrina, septentrionalis, stagnatilis, stenoptera.

Telmatobius peruvianus.

Telmatodytes arundinaceus, bewicki.

Telmatophilus caricis, spargani, typhae.

Telmessus serratus.

Telmia exigua, sagitta, spinula.

Telopes dispar.

- Telophonus** erythropterus, leucopsammicus, longirostris, trivirgatus.
Telophorus bacbakiri, collaris, cucullatus, leucogrammicus, longirostris, senegaleus.
Telostoma mytili, zeylonus.
Telphusa dentata, fluviatilis, indica.
Telura vitticollis.
Temana lacuna, pallidula, puteolus, variabilis.
Temenis arcadia, erigone, hadonia, laomedia, merione, oreia, phaesyla.
Temera hardwicki.
Temia levallanti, vaillanti.
Temnaspis bipartitus, fervidus, javanus, rubens.
Temnistia ventricosa.
Temnocera spinigera, violacea.
Temnocerus planirostris, ruficollis.
Temnochila aenea, coerulea.
Temnoderia testacea.
Temnodon antarctica, leptacanthus, saltator.
Temnognatha pulchella.
Temnolaimus aeneicollis.
Temnopsis taeniatus.
Temnoplectron rotundum.
Temnopleurus bothryoides, excavatus, pulchellus, reynaudi, torceumatus, toreumaticus, woodi.
Temnopterus aculeatus.
Temnorhopalon scabrosum.
Temnorhynchus (Col.) coronatus, diana, repandus, retusus.
Temnorhynchus (R.) sundewalli.
Temnoris atrifrons, fulvifrons.
Temnoscheila aenea, splendens.
Temnostoma (Col.) sulcatipennis.
Temnurus albicollis, altirostris, aterrimus, frontalis, leucoptera, occipitalis, pallidus, rufus, sinensis, truncata, vagabundus.
Temora finmarchica.
Tenarea undulosa.
Tenaris jaira, nysa.
Tendra zostericola.
Tenebrio aeratus, aereus, aerugineus, aeruginosus, angulatus, anthracinus, aratus, arboreus, arenosus, aries, armatus, asperatus, assimilis, australis, badius, barbatus, bidens, bifoveolatus, biimpressus, bipustulatus, bovistae, brunneus, caeruleus, caffer, caniculatus, castaneus, ceramboides, chrysops, ciliatus, coccineus, colydioides, contractus, convexiusculus, coracinus, corvinus, costatus, crenatus, cupreus, cyanipennis, cyanipes, dentatus, depressus, diaperinus, difformis, digitatus, effossus, elongatus, femoralis, ferrugineus, foveolatus, fulvipes, fuscus, glaber, glabricollis, gracilis, grandis, guineensis, hispanicus, histerioides, hottentotta, humeralis, humilis, impressus, interstitialis, juglandis, laevis, laticollis, laevis, laticollis, latus, longipennis, longipes, loripes, madens, maximus, minimus, navalis, nigricans, nigrinus, nigrinus, nitidulus, obsoletus, ochraceus, opacus, opatroides, orientalis, piceus, pullus, reflexus, reticulatus, retusus, rubripes, rufinasus, rufipes, rufus, sinuato-collis, striatellus, stygius, sublaevis, subrugosus, sulcator, suppressus, tenebrans, terminatus, testaceus, transversalis, tripartitus, trogosa, tucumanensis, vagans, valgis, vicinus, virescens.
Tenerus abbreviatus, bifasciatus, bimaculatus, cingalensis, cyanopterus, dimidiatus, lineatocollis, pictus, praeustus, signaticollis, terminatus.
Tengyra sanvitali, stygia.
Tenrec caudatus, setosus, subspinosus.
Tenrecus eraudatus, semispinosus.
Tentacularia coryphaena, coryphaenae, cylindrica, subcompressa.
Tentaculina ferussaci.
Tentaculites alternans, annulatus, fissurella, flexuosa, irregularis, minutus, ornatus, regularis, scalaris, sp. ind., sulcatus, tenuis.

Tentalus chalcopterus. *l'ide et Tantalus.*

Tenthaca leucurus, pelvica.

Tenthredo adumbrata, aeruginosa, aethiops, agilis, agrestis, albata, albicincta, albicornis, albida, albinana, albipalpis, albipes, albipuncta, albiventris, albo-macula, alni, alpina, alternans, alternipes, amaura, ambigua, amoena, analis, angelicae, angustata, annulata, annuligera, annulipes, anomala, antennata, anthracina, antica, aperta, apicalis, arquata, articulata, assimilata, assimilis, aterrima, atra, atratula, atricornis, aucupariae, aureatensis, australis, axillaris, baetica, balteata, basalis, basilaris, bella, betuleti, bicornis, bicolor, bifasciata, biguttata, bipartita, bipunctata, bipunctula, bizonata, blanda, bohennani, borealis, brasiliensis, brevicornis, brevis, brunnea, brunniventris, calceata, caliginosa, candidata, captiva, carinata, cacinthiaca, carpi, caucasica, centifoliae, cerasi, cerasorum, cerea, chrysorrhoea, chrysura, cineta, cinereipes, cingillum, cingulata, cingulum, cinxia, citreipes, cixia, cognata, collaris, colou, comma, compressicornis, confinis, conformis, confusa, consobrina, conspicua, coqueberti, coracina, cordigera, coronata, coryli, costalis, costata, cothurnata, coxalis, crassula, crassus, crataegi, crispinae, crocea, croceiventris, curvipes, cylindrella, cylindrica, dahl, de geeri, delicatula, deserti, didyma, dimidiata, discolor, dispar, diversipes, dolens, dolosa, dorsalis, dubia, dumetorum, duodecimpunctata, eborina, eglanteriae, elegantula, elongatula, ephippium, equiseti, erythrogaster, erythrogona, erythropus, etrusca, exillaris, fagi, fallax, femoralis, fera, ferruginea, filicis, filiformis, finitima, flava, flavens, flavicornis, flavilabris, flavipennis, flavipes, floricola, formosa, fraxini, fuliginosa, fulva, fulviceps, fulvicornis, fulvipes, fulvaria, funebris, funerea, fusca, fuscata, fuscicornis, fusciformis, fuscitarsis, fuscula, gagathina, geeri, geniculata, gibbosa, gilvipes, glabrata, gonagra, grata, grossularia, grossulariae, guerini, guttata, haematodes, haematopa, haematopus, heteroneura, histrio, hortulana, humboldti, humeralis, humerella, hungarica, hyalina, hybrida, hylotomoides, ictérica, idriensis, ignobilis, immersa, impressa, insignis, instabilis, intercus, intermedia, interrupta, ischiadica, japonica, juvenilis, kohleri, konineki, labiata, lacrymosa, lactiflua, lapponica, laserpitii, lateralis, lateritia, latizona, lepida, leskei, leucogona, leucomela, leuczonias, liberta, limbis, limbata, linearis, lineolata, litura, livida, lividiventris, longicornis, longobarda, lucida, lucorum, luctuosa, lugens, lugubris, luridiventris, lutea, luteipennis, luteiventris, luteocincta, luteola, lutescens, macula, maculipes, maculosa, madida, mandibularis, marginella, marklini, mediocris, melanaria, melanocephala, melanopyga, melanosterna, meridiana, micans, microcephala, militaris, minuta, mixta, moniliata, montana, monticola, morio, mutilata, myosotidis, nana, napata, nebulosa, neglecta, nervosa, nigerrima, nigra, nigricans, nigripennis, nigripes, nigrita, nigrofasciata, nitida, nitidula, nivos, notha, nyctea, obesa, obscura, obsoleta, obtusa, ochropoda, olivacea, opaca, opacomaculata, ornata, ovata, pallens, pallicornis, pallida, pallidiventris, pallipes, palmata, palustris, parvula, patellata, pelletieri, pellucida, perla, picipes, picta, pictipes, pinastri, pinguis, plaga, plagiata, plana, plebeja, postica, procera, propinqua, proxima, pulchella, pullula, pulverata, pumila, punctigera, punctulata, punctum, pusilla, pygmaea, pyri, quadricincta, quadrimaculata, rapae, ratzeburgi, relict, repanda, ribis, rossi, rubecula, rubi, rubiginosa, rubripes, rufa, rufimana, rufipsectus, rufipeda, rufipes, rufiventris, rufocincta, ruralis, rustica, rutilicornis, saliceti, salicis pentandrae, sambuci, sanguinicolis, sareptana, scalaris, schaefferi, schoenberri, schranki, scissa, scopoli, scrophulariae, scutellaris, segmentata, semicincta, semicolon, sericans, serotina, serva, sexannulata, sex-punctata, sigma, similis, simplex, simulans, socia, socialis, sordida, soror, spinolae, spreta, spuria, stictica, stilata, stramineipes, strigosa, sturmi, subcoerulea, subfusca, subinterrupta, subjecta, succincta, sulphurea, tarsata, tenella, tenera, tenuicornis, tenuis, terminalis, tessellata, testacea, testaceipes, testudinea, teutona, thoracica, thoracina, tibialis, tiliac, timida, togata, togatus, trabeata, tremula, trichocera, tricincta, triplicata, tristis, truncata, uliginosa, umbratica, uncta, uncinata, unicolor, usta, variegata, varipes, vassa, velox, verna, verticalis, verticata, vespoides, vestigialis, vetusta, vicina, vidua, viduata, viennensis, villosa, viminalis, viridis, vitis, waldheimi, winthemi, xanthocera, xanthopus, xanthopyge, zetterstedti, zona, zonata, zonula.

Tentyria abbreviata, acutangula, aegyptiaca, aequalis, affinis, alpina, amoena, angulata, angulosa, angustata, angusticollis, arenaria, atramentaria, aucta, audouini, barbara,

bassi, bella, besseri, bipuncta, brevis, campestris, cellicola, constricta, convexa, cribrata, cribrosa, cureulionoides, curta, cylindrica, dardana, dejeani, deplanata, depressa, deserta, dupontii, elegans, elongata, emondi, eremita, excavata, fischeri, floressi, gallica, gebleri, gibbosa, gigas, glabra, glabrata, globata, globithorax, goudoti, gracilis, grandicollis, grandis, grossa, helopioides, hispida, implana, impressa, incerta, interrupta, italica, kindermanni, klugi, laevicollis, laevigata, lata, latialis, laticollis, latreillei, lepida, levicollis, levigata, levis, ligurica, lineata, longicollis, macrocephala, maillei, macrocana, maura, minuta, monticola, mucronata, nitida, nomas, oblonga, olivieri, orbicollis, orbiculata, peiroleri, podolica, polyceps, propinqua, punctata, punctatostriata, puncticollis, punctipennis, pygmaea, quadrata, quadricollis, ramburi, reflexa, reichei, rugosa, rugulosa, salzmanni, sardea, scabripennis, scabriuscula, senegalensis, seriatopunctata, sibirica, sicula, solieri, strigosa, striipuncta, subconvexa, subcostata, subdepressa, subfossulata, subquadrata, subrugosa, substriata, tagenioides, taurica, tenebricosa, tessulata, thunbergi, tristic, undulata, variolosa, ventralis, vicina, vieta.

Tenus genei.

Teonoma drummondii.

Tephraea conchis, morosa, mozambica, pulverulenta, punctulata.

Tephritis abrotani, absinthii, acrostacta, aenea, aestiva, aestuans, alciphron, alethe, algiva, alternata, angustipennis, annonae, antiqua, apicalis, aprica, arctii, argentea, argus, argyrocephala, arnicae, arnicivora, artemisiae, asteris, aterrima, atrata, bardanae, basalis, biarcuata, canariensis, capitata, cardui, centaureae, centralis, cerasi, coerulea, cognata, combinata, cometa, conica, conjuncta, connexa, conura, corniculata, cornuta, crassipennis, cylindrica, cynipsea, demandata, dilacerata, discoidea, dispar, dorsalis, elongata, erythrocephala, fallax, fasciata, fasciventris, fenestrata, flava, flavescens, flavicauda, flavilabris, flavipes, florescentiae, florum, forcipata, fossata, fucata, gaedi, gangraenosa, gnaphalii, grandis, grossificationis, guttata, guttularis, hamifera, hebe, hessi, hieracii, hordei, hyoscyami, immaculata, impunctata, incisa, innotata, interrupta, interrupta, irrorata, jaceae, jacobaeae, lappae, laticauda, leontodontis, levis, lucida, luctuosa, lugubris, lychnides, macula, maculata, major, mali, manicata, marginalis, marginata, marginepunctata, meigeni, mellea, minuta, morio, nebuloza, nigrilata, obliqua, obscura, obsoleta, octopunctata, onopordinis, pallens, pallida, partherina, parietina, pmi, plantaginis, pugionata, punctata, punctella, punctum, pupillata, putris, quadrifasciata, quadrincisa, quadripunctata, quinefasciata, radiata, reihardi, rivosia, rivularis, rosae, rotundiventris, ruftarsis, ruralis, senegalensis, septemmaculata, serratilae, socialis, solstitialis, sonchi, spoliata, strigula, stylata, stylata, syngenesiae, terminata, tessellata, theora, trimaculata, tussilaginis, unicolor, unifasciata, varipennis, vibrans, vicina, violacea, wengeri, westermanni, wiedenmanni, winthemi, zetterstedti, zoe. *Vide et Tephritis.*

Tephroclystia denotata, inturbata, minutata, pimpinellata, pumillata, pusillata, residua, subnotata, subumbata, valeriana.

Tephrodornis affinis, concolor, erythropygia, griseola, gularis, hirundinaceus, indica, leucura, obscura, ocreatus, pelvica, pondiceriana, silens, superciliosus, sylvicola, virgatus.

Tephronia cineraria, corticaria, scabraria.

Tephrosia ambigua, consonaria, crepuscularia, extersaria, laricaria, punctularia.

Tephritis abdominalis, pusilla. *Vide et Tephritis.*

Teracolus subfasciatus.

Terambus ambrosiacus, corruscus, moschatus, rosarum.

Teramocerus acutipennis, assimilis, badius, erythroderes, exilis, gracilis, interrupto-lineatus, janthinus, laevigatus, laevis, mannerheimi, plumirostris, punctirostris, schoenherri, subfasciatus, tarsatus.

Teraphosa avicularia*, caementaria, fasciata, venosa.

Terapon quadrilineatus, servus, sexlineatus, timoriensis.

Terapopus hottentottus.

Teras (Hym.) amentorum, terminalis.

Teras (Lep.) abietana, abildgaardana, albidorsana, apiciana, aquilana, arctica, caudana, ciliana, comariana, comparana, contaminana, cretacea, cristana, crutana, dissonana,

effractana, emargana, erebana, excavana, favillaceana, ferrugana, hastiana, indecorana, janthana, lipsiana, logiana, longulana, lucidana, maccana, mixtana, nebulana, obtusana, proteana, pulverana, radiolana, rhombana, rubidana, sabulana, scabrana, schalleriana, selasma, sparsana, suavana, torquana, umbraculana, umbrana, variana.

Terasion fagi.

Terathopius ecaudatus.

Teratichthys antiquitatis.

Teratodes (Ar.) attalicus, depressus.

Teratodes (Lep.) vulgana.

Teratodes (Orth.) monticollis.

Teratopteris harpago.

Terebella arenaria, biseta, borealis, buccina, chinensis, chrysodon, cirrata, cirrhata, compressa, conchilega, constrictor, cristata, curta, decorata, flexilis, gigantea, incerta, inflata, infundibulum, lapilloides, longicornis, lumbricalis, lutea, madida, medusa, misenensis, multisetosa, nebulosa, parvula, prudens, quinqueseta, scylla, setiformis, subcylindrica, tentaculata, variabilis, ventricosa, venustula, zelandica, zosterica.

Terebellaria antilope, gracilis, ramosissima, tenuis.

Terebellides elegans, stroemi.

Terebellopsis brauni.

Terebellum (G.) album, belemnitoideum, brauni, brongniartianum, carcassense, convolutum, fusiformis, obtusum, obvolutum, procerum, roseum, sabuleum, sepium, spirata, subulatum, terebra, triplicatum, variegatum.

Terebellum (Verm.) cylindrarium.

Terebra acicula, aciculata, aciculina, acuminata, acus, affinis, africana, alba, albicostata, albida, albula, alveolata, amanda, ammiralis, anomala, areolata, argus, armillata, aspera, aurora, babylonica, basteroti, bicincta, bifrons, bipartita, bistriata, buccinoidea, caelata, caerulea, canaliculata, canalis, cancellata, candidum, carnea, casta, castanea, cerithina, chalybaea, chlorata, cincinnata, cincta, cinerea, cinereum, cingula, cingulifera, columellaris, commaculata, concinna, consors, conspersa, constricta, copula, cornucopiae, coronata, corrugata, cosentini, costata, costellata, costulata, crenulata, curvilirata, cuspidata, digitella, dimidiata, dislocata, divisurum, duplicata, dussumieri, eburnea, edentula, elata, elegans, elongata, fasciolata, fatua, favat, felina, fenestrata, fentilis, flammea, flava, fluminea, fluviatile, fulgurata, funiculata, fusca, fuscata, fuscomaculata, gemmulata, gigantea, glauca, gracilis, granulata, granulosa, hastata, hectica, hennahi, heterostropha, inaequalis, inconstans, intertincta, inversa, italica, jamaicensis, knorri, laevigata, laevis, lamarki, lanceata, lanceolata, larvaeformis, laurina, lepida, ligata, lineata, lineolata, lingualis, livida, luctuosa, maculata, melaniana, melanoides, mera, micans, minuta, monile, mucronata, multiplicata, muricina, murina, muscaria, myuros, nassoides, nebulosa, neglecta, nereis, nexilis, nimbose, nitida, nivea, nodosa, nubeculata, obconica, obesa, obliqua, oblongoguttata, oculata, orizoides, ornata, patagonica, penicillata, perlata, pertusa, perversa, petiti, phallus, picta, plicata, plicatula, plumbea, polygyra, portlandica, pretiosa, pugio, pulchra, punctata, punctatostriata, punctulata, pusilla, pygmaea, radiata, radula, raphanula, reticulata, robusta, roseata, rudis, rustica, scabrella, scalarina, scalaris, senegalensis, serotina, simplex, sinuosa, specillata, speciosa, spectabilis, spicatus, straminea, striata, striatula, strigata, strigilatum, strigillata, striolata, stylata, subulata, succincta, succinea, sulcata, sulcifera, taeniolata, tantula, tenera, tenuiscata, tessellata, textilis, tigrina, torquata, tricolor, triseriata, tubercularis, tuberculata, tuberculosa, tuberosa, undata, undulata, undulifera, uncostata, varicosa, varicosissima, variegata, venosa, venusta, vetusta, violascens, virginica, vittata, vulcani.

Terebracites strigilatus.

Terebralia ebenium, heteroclitus, palustre, sulcatum, telescopium.

Terebratella astieriana, bourgeoisii, canaliculata, carantonensis, decemcostata, fleuriausa, loricata, menardi, neocomiensis, oblonga, orthiformis, parisiensis, pectita, pectunculoides, pectunculus, plicata, quadrata, reticulata, santonensis, subpentagona, vanuxemiana, zeisneri.

Terebratula aberdina, abnormis, abyssicola, aculeata, acuminata, acuminatissima, acuta, acuta-plicata, acuticosta, acutidens, adrieni, aenigma, aequalis, aequilateralis, aminis,

agassizi, akolpos, ala, alarica, alata, albensis, alecto, alesiensis, algoensis, alinensis, amalthea, ambigua, ambigua, amblygona, amphitoma, ampulla, amygdala, amygdaloides, anceps, andii, angularis, angulata, angusta, anisodonta, annularis, antidichotoma, antinomia, antiplecta, antiquata, antisienensis, aperta, appressa, aprius, aptycha, arabilis, arachne, archiaci, arcuata, arduennensis, arenosa, argentea, arima-pus, arimulus, ascia, asellus, aspera, atlantica, atoma, attenuata, auriculata, aurita, australis, avellana, axine, bajocina, barrandei, baucis, baugieri, baylei, beaumonti, becksii, beirensis, berenice, bernardina, beudantia, biangularis, bicanaliculata, bidens, bidentata, bifera, bifida, biglobulosa, biloba, bilobata, bipartita, buplicata, buplicata ferruginosa, birostris, bisinuata, bistriata, bisuffarcinatus, bisulcata, bitoma, bivulnerata, blodeana, bolliana, bordiu, borealis, boubeeii, bouchardi, bouei, bovidens, brevirostris, brocchii, bronni, bucculenta, buchi, bulga, bulla, bullata, burtini, caigua, calloviensis, camelina, camella, campomanesi, canaliculata, canalisera, canalis, cancellata, canipes, capensis, capewelli, cardiformis, cardiospermiformis, cardita, cardium, carinata, carnea, carteroniana, cassiana, cassidea, castanea*, causoniana, ceres, chauviniana, chilensis, chrysalis, cingulata, circe, cistellula, coarctata, cognata, colletti, collinaria, colonna, columbina, columnae, comata, communis, compressa, compta, comita, concava, concentrica, concinna, conflexa, confusa, contracta, contraplecta, convexa, cor, corallina, cordata, cordiformis, coreanica, cornuta, corvina, corymbosa, costata, cranium, crassa, crassificata, crebricostata, crenata, crenulata, crispa, crispata, crista galli, crithea, cruenta, crumena, cuboides, cuneata, cuneolus, curvirostris, cuspidata, cybele, cycloides, cymbaeformis, cymbulia, cyncephala, daleidensis, daphne, de buchi, decemcostata, decemplicata, decipiens, decollata, decurtata, decussata, deflexa, deformata, defrancei, delbosa, deltoidea, dentata, dentata, deplanata, depressa, deroissii, deschampsii, deshayesi, deslongchampsii, desnoversii, desquamata, detruncata, didyma, difformis, digitata, digona, dilatata, dimidiata, diodonta, diphoros, diphya, diphyoides, disparilis, distans, distorta, dolomitica, domeykana, dorsalis, dorsata, dorsato-radiata, dubia, duboisi, duforenyi, duplicata, duteupleana, duvali, duvalli, echinulata, elata, elegans, eliminata, elongata, emarginata, ephemera, equestris, erina, erythroleuca, eucharis, eurydice, eusticta, euthyra, excavata, eximia, expansa, ezquierra, faba, famula, farcta, faujasi, ferita, ferronesensis, ficoides, fimbria, fimbriata, fischeri, fischeriana, fissuracuta, fittoni, flabellata, flabellula, flabellulaeformis, flabellum, flavescens, flexistria, flexuosa, florella, floridana, flustracea*, fontainei, fragilis, frenum, frontalis, furcata, furcillata, fusiformis, gallienae, gallina, garantiana, gaudichaudi, gaudryi, geinitziana, gervillei, gervilliana, gibba, gibbsiana, gigantea, gisii, globata, globosa, globulus, granulata, granulifera, granulosa, gravesi, grayi, gryphus, guadalupae, gualteri, gussignensis, haidingeri, hamifera, harlani, harpyia, hastata, haueri, haussmani, hebe, hebertiana, hecate, helmerseni, helvetica, hemisphaerica, hemisphaeroidica, henrici, hepatica, herculea, heteroclitia, heyseana, hians, hippopus, hirundo, hispanica, hoeninghausi, humbletonensis, humboldti, humeralis, huotina, hysterica, hysteriolita, ignaciana, imbricata, inaequilaetra, inca, inconspicua, inconstans, incrassata, incurva, indentata, inelegans, inflexa, insignis, insperata, insularis, integra, intermedia, interplecata, irregularis, japonica, johannis austriacae, jugleri, juno, jurassensis, juvenis, keyserlingi, kickxi, kleini, labiata, labradorensis, lachryma, lacrymosa, lacunosa, lacunosus, laevicosta, laevigata, laevis, laeviuscula, lamellosa, lampas, lapillus, lata, lateralis, laticosta, latisinuata, latissima, latona, lens, lenticularis, lentiformis, lentoidea, leopoldina, lepida, levillei, lewisi, lima, limbata, lineata, lineolata, linguata, lingularis, linneana, livida, livonica, locellus, longa, longirostris, longitudinalis, longiuscula, loricata, lucinoides, luna, lunaris, lunifera, lupinus, lynx, lyra, lyrata, maceana, macloviana, macrocephala, magas, major, malvinae, mantelliana, mantiae, marcosana, marginalis, mariae, marsiliana, marsupialis, martini, matercula, maxilata, maxima, media, megaera, megatrema, melonica, membranifera, menardi, mentzeli, meridionalis, mesogona, meyerdorfi, michelini, microhyncha, minerva, minina, minor, minuta, miocenica, modica, monaca, monas, monstrosa, montolearensis, moorei, moreana, morlandia, moutoniana, mucronata, muensteri, multicarinata, multicostata, multi-formis, multiplicata, multistriata, murchisoni, muricata, mutabilis, mutica, navicula, neapolitana, neglecta, nerviensis, nestiana, nigricans, niobe, nitens, nobilis, nomada,

novem-plicata, nucella, nuciformis, nucleata, nucleus, nucula, nuda, numismalis, nympha, nysti, obesa, obliqua, oblita, oblonga, obolina, obovata, obsoleta, obtrita, obtusa, occulta, octoplicata, oliviani, omalogastyr, orbicularis, orbiculata, orbignyana, ornata, ornithocephala, orthiformis, ovalis, ovata, ovoides, ovum, oxyoptycha, oxyrhynchos, pala, papilio, paradoxa, parvirostris, parvula, passer, patagonica, paucicosta, pauperata, pecten, pectinata, pectinifera, pectiniformis, pectita, pectoralis, pectunculata, pectunculoides, pectunculus, pedata, pedemontana, pelapayensis, peltata, pennata, pentaedra, pentagona, pentagonalis, pentastera, pentatoma, pera, peregrina, perovalis, personata, peruviana, phaseolina, phaseolus, phillipsi, philomela, phoenix, picta, pinguis, pisum, plana, planitiata, plano-sulcata, planulata, platyloba, plebeja, pleurodon, plica, plicata, plicatella, plicatilis, plicato-dentata, plumbea, poeyana, polystoma, pomeli, porrecta, praegnans, praelonga, praemarginata, primipilaris, primula, princeps, prisca, proava, proboscidalis, prominula, promontorium, proserpina, pruniformis, pseudo-jurensis, psittacea, psittaceaeformis, psittacina, psyche, pugnus, pulchella, pulchra, pulla, pumila, punctata, puscheana, puschiiana, pusilla, pygmaea, quadrata, quadricostata, quadriloba, quadriplecta, quadruplicata, qualeni, quinquerostata, quinqueplicata, radialis, radians, radiata, recurva, reflexa, renieri, reniformis, repeliniana, rescisa, resupinata, reticularis, reticulata, retorqnata, retracta, reversa, revoluta, rhombea, rhomboidalis, rhomboidea, richardiana, rigida, rimosa, ringens, ringicula, robertoni, roemeri, rogoznicensis, roissy, rosea, rostralina, rostrata, rostriformis, rotunda, rotundata, royeriana, roysii, royssiana, rubella, rubicunda, rubra, rugosa, rugulosa, rupellensis, rustica, sacculus, salinaria, salteri, sandonia, sanguinea, sanguinolenta, santonensis, sappho, sarcacena, sarthacensis, sartorii, sauvagei, sayi, scabra, scabrella, scaldensis, scalprum, schlottheimi, schauri, schulzi, scobinata, scrobiculosa, securis, sella, sellaris, semicircularis, semicostata, semiglobosa, semilaevis, seminula, seminulum, seniorbis, semiplecta, simplicata, semi-striata, semisulcata, senticosa, septata, septentrionalis, septigera, serpentina, serrata, sexangula, sexradiata, sigriz, sima, similis, simplex, sinuata, sinuosa, socialis, soldaniana, solitaria, soricina, sowerbyana, sowerbyi, spadea, spathica, spatulata, sphaera, sphaerica, sphaeroidalis, sphaeroides, spinifera, spinosa, spinulosa, spiriferoides, spondylodes, squamata, squamosa, staszyci, strajeskiana, striata, striatella, striatula, stricklandi, strigiceps, strogonoï, subacuta, subalata, subangusta, subarenosa, subbidentata, subbipartita, subcamelina, subconcava, subconcentrica, subcrispata, subcurvata, subdentata, subdimidiata, subelongata, subferita, subfragilis, sublaevis, sublagenalis, sublepidia, sublobata, subobesa, sub-orbicularis, subovalis, subpectoralis, subpentagona, subpentagonalis, subplicata, subplicatella, subpulchella, subresupinata, subrotunda, sub-sella, subsimilis, substriata, subsufflata, subtriloba, subtrilobata, subtriquetra, subundata, subventricosa, succinea, sufflata, sulcata, sulcato-sinuosa, sulcifera, sulcirostris, superstes, sylphidea, tamarindus, tarda, tatrix, tayloriana, tchihatcheffi, tegulata, tenuissima, tenuistriata, teretior, testudinaria, tetraedra, tetragona, thalassina, theodori, thetis, thibse, toreno, torna-censis, toucasiana, transversa, triangularis, triangulata, tricostata, trifoliata, trigonelloides, trilatera, trilineata, trilobata, triodonta, tripartita, triplicata, triquetra, tritoma, truncata, tulipa, tunida, turpis, ulothrix, umbonata, umbonella, umbra, undata, undulata, unguiculata, unguiculus, unguis, ungula, uncostata, urna-antiqua, uva, valenciennei, vanuxemiana, variabilis, varians, velox, vendocinensis, venei, venetiana, ventilabrum, ventricosa, ventroplana, verneuili, verrucosa, versiloi, vespertilio, vicinalis, viquesneli, virgo, virleti, vitrea, voltzi, vulgaris, vulgata, vultur, wahlenbergi, walcottii, wilingtonensis, wilsoni, wissmani, wurmi, yuennamensis, ypsilon, zelandica.

Terebratulina aquensis, auriculata, biauriculata, campaniensis, caput serpentis, chrysalis, dutempleana, echinulata, floridana, gracilis, lacryma, martiniana, microscopica, ornata, parracena, philippii, phillipsi, striata, tenuistria, tenuistriata, venei.

Terebratulites acuminatus, acutus, aequirostris, alatus, angustus, aperturatus, approximatus, artifex, asper, bicanaliculatus, biforatus, bisuffarcinatus, chitoniformis, chrysalis, coarctatus, communis, complanatus, comprimatus, concavus, crenatus, cristatus, curvatus, decoratus, dimidiatus, dissimilis, elongatus, erien-is, explanatus, fragilis, giganteus, gracilis, grandis, gryphus, helvetius, intermedius, lacunoides, lacunosus, laevigatus, lagenalis, lateralis, latus, laxis, limbatus, loricatus, marsupialis,

microscopicus, monticulatus, navicula, nucleatus, obliquus, oblongus, ostiolatus, papillatus, paradoxus, parasiticus, parva, pecten, pectiniformis, pectunculatus, pectunculoides, pectunculus, pelargonatus, peltatus, peregrinus, planiformis, plicatellus, priscus, radiatus, regularis, reticulatus, rostratus, sarcinulatus, scaphula, senticosus, speciosus, spinosus, squamiger, striatissima, striatulus, subhistoricus, subsimilis, substriatus, sulcarinatus, sulcatus, sustarcinatus, tegulatus, tenuissimus, trigonellus, triquetrus, umbraculum, variabilis, varians, vermicularis, vestitus, vicinalis, vulgaris.

Terebripora antiqua, irregularis, ramosa.

Terebrirostra arduennensis, canaliculata, lyra, neocomiensis.

Terebrum tigreum.

Teredina bacillum, clavata, hoffmanni, personata, striata.

Teredo amphibaena, annularis, antenatae, antiqua, antiquatus, arenaria, argonnensis, bacillum, bipalmulata, bipennata, bruguieri, burtini, calamus, carinata, causoniana, clavata, cossus, dentatus, deshali, dorsalis, echinata, elongata, fatalis, fimbriata, fistula, fleurius, gigantea, gregata, malleolus, mediterraneus, megotara, minima, nana, nigra, nortonensis, palmulatus, pedicellatus, pennatifer, personata, petiti, requienianus, rotundus, senegalensis, simplex, subericola, substriata, tarbelliana, tibialis, tournali, truncata, vulgaris.

Teredolites clavatus.

Teredosoma nitida.

Teredus nitidus.

Terekia cinerea, javanica.

Terellia abrotani, alciphron, florentinae, luteola, nebulosa, pallens, palpata, serratae, wenigeri.

Teremyia laticornis.

Terenia delicatula, grossipes, laticrus, suillum.

Teretrius peruanus, picipes.

Tergilla familiaris.

Tergipes adpersus, affinis, aterrimus, brochi, bullifer, coronata, despectus, dicquemari, edwardsi, fustifer, lacinulatus, maculata, pulcher, rupium, tergipes, tilesi.

Terias agave, albula, arbata, blanda, brenda, brephos, brigitta, bulaea, candida, charmione, deflorata, delia, desjardinsi, deva, dina, drona, egnatia, elathea, elorea, elvina, euterpe, flavescens, floricola, gentilis, gnathene, gratiosa, harina, hecabe, herla, hyona, iucunda, laeta, leuce, lisa, mana, messalina, mexicana, musa, nicippe, nise, pallida, phiale, pleione, proterpia, pulchella, pyro, rahel, senegalensis, sinoe, smilax, stygma, stygmula, suava, tenella, thymetus, tilaha, vallona, venusta, westwoodi, xanthochlora.

Terina fasciaria, peridaria.

Terinos clarissa, sinha.

Termatosaurus albertii.

Termes angustatus, bremeri, castaneus, cephalotes, cingulatus, costatus, croaticus, cumulus, debilis, decumanus, devastans, dirus, dubius, ferruginosus, flavicollis, flavipennis, flavipes, floripes, fossile, frontalis, fuscum, grandaeus, grandis, haidingeri, insignis, lividus, marginipenne, mauricianus, molestus, montana, nasutus, nigricans, obesus, obscurus, ochraceus, pallidipennis, pallidus, pristinus, procerus, pusillus, quadricollis, radicum, ripperti, spectabilis, spinosus, subhyalinus, trinervius, viarum, viator.

Terna cinerea, elegans, pusilla.

Teropalpus maculipennis, puncticollis, suturalis.

Terphis nodosa.

Terpne papilionaria.

Terpsiphone borbonica, cristata, ferreti, melanogastra, paradisi.

Terrapene bicolor, carolina, caspica, clausa, concinna, couro, europea, floridana, geographica, maculata, mühlenbergi, nebulosa, palustris, picta, punctata, reticulata, retzi, rubriventris, scabra, scorpioidea, serrata, triporeata, virgulata.

Tersa cayana, ventralis.

Tersina caerulea, tersa, ventralis.

Tesia albiventer, auriceps, castaneocoronata, caudata, concolor, cyaniventer, flaviventer, rufiventer, squamata.

- Tessaratoma** alternata, apicalis, bicornis, canaliculata, chinensis, flavicornis, obscura, papillosa, robusta, sonnerati. *Vide et Tessarotoma.*
- Tessarocerus** affinis, bihamatus, inermis, retusus.
- Tessarodon** angulatus, piceus.
- Tessaromma** undatum.
- Tessaropa** tenuipes, ventralis.
- Tessarops** maritima.
- Tessarotoma** cuprea, flavicorne, javana, ossa-cruenta, proxima, scutellaris, taurus. *Vide et Tessarotoma.*
- Tesserocerus** productus, ustulatus.
- Tesserodon** hollandiae.
- Testacella** ambiguus, bruntoniana, companyoni, cornica, cornina, costata, europaea, galliae, germaniae, guadeloupensis, haliotoidea, haliotoides, iarteti, matheroni, maugei, ovum, scutulum, sicula, unguis.
- Testacellus** bisulcatus, haliotideus.
- Testudinella** argula, clypeata.
- Testudo** actinodes, amboinensis, angulata, antiqua, arachnoides, areolata, arran, belli, bertrami, bispinosa, boiei, bosci, cafra, cagado, calcarata, caouane, carbonaria, carolina, centrata, cepediana, cinerea, clausa, concentrica, concinna, coui, cuvieri, daudini, denticulata, depressa, dorsata, duncani, ecaudata, elegans, elephantina, elephantopus, emys, erosa, euphratica, europaea, fasciata, fimbriata, flava, floridana, forsteni, foveolata, galeata, geographica, geometrica, gigantea, giganteus, gigas, glutinata, graeca, graii, graja, granosa, granulata, gronovii, hercules, horsfieldi, ibera, insculpta, juvencella, lamanoni, livida, longicollis, lutaria, luteola, marginata, martinella, mauritanica, media, melanocephala, minuta, molassica, mühlenbergi, neraudi, niger, nigricans, nigrita, nilotica, oculifera, odorata, palustris, panama, pardalis, pedestris, peltastes, pennsylvanica, perraulti, picta, plana, planaria, planiceps, planitia, polyphemus, porphyrea, pulchella, punctata, punctularia, purgotti, pusilla, radiata, rafecti, reticularia, reticulata, retusa, retzi, rotunda, rubriventris, rugosa, schoepfi, schweiggeri, scorpioides, scripta, sculpta, sellovi, semimembranacea, semiserrata, serpentina, serrata, serresi, signata, spengleri, stellata, subrufa, tabulata, tentoria, terekay, terrestris, tessellata, tetradaetyla, tricarinata, verroxi, virgulata, vosmaeri, whitei.
- Tetanocera** albitarsis, algira, angulifera, aratoria, arrogans, bimaculata, bispinosa, bivittata, canadensis, catenata, chaerophylli, cincta, claripennis, consobrina, costalis, crinicornis, cucullaria, cucullaria, dictyodes, divisa, dorsalis, elata, fenestrata, ferruginea, flavescens, flavifrons, frontalis, gracilis, graminum, guttularis, hieracei, hispanica, interstincta, irrorata, lacerata, laevifrons, limbata, lineata, marginata, marginella, maritima, nemorum, nova, nubila, oblitterata, obscuripennis, obsleta, paludosa, planifrons, plumosa, pratorum, prominens, punctata, punctipennis, recta, reticulata, robusta, rufa, rufifrons, sciomyzina, sigma, silvatica, stictica, struthio, testacea, trifaria, umbrarum, unicolor, unipunctata, ustulata, variegata, varipes, vicina, vittata, vittigera, zelleri.
- Tetanops** flavescens, myopina, sanguineiceps.
- Tetanura** pallidiventris.
- Tetha** (Lep.) ambusta, bipuncta, dilata, duplaris, flavicornis, fluctuosa, gracilis, octogesima, oo, or, retusa, ruficollis, saliceti, scoriacea, subtusa, xanthoceros.
- Tethia** lincurium, lyncurium, opuntia, pumex, regularis, simplex, syphonifera. *Vide et Tethya.*
- Tethium** tubiferum.
- Tethya** asbestella, aurantium, carnosa, cavernosa, cirrhosa, complanata, cranium, cydonium, donati, ficus, lacunata, lyncurium, mammillosa, penicilliformis, pilosa, prunum, pulvinata, pyrifera, simplex, sphaerica, verrucosa. *Vide et Tethia.*
- Tetraaechma** sanguineomaculata.
- Tetrabothriorhynchus** migratorius, octobodiae, sepieae officinalis.
- Tetrabothrium** anthocephalum, auriculatum, cylindraceum, emarginatum, heteroclitum, macrocephalum, sphaerocephalum, triangulare, tumidulum, vulpis.
- Tetracampe** flaviceps, impressa.
- Tetracaulodon** brevirostre*, godmani, kochi, longirostre, mastodontoideum, tapiroides.
- Tetracelis** fontana, mytili.

- Tetracerus** iodes, paccerois, quadricornis, subquadricornis, subquadricornutus.
- Tetracha** bifasciata, femoralis, insignis, lacordairei, limata, mellyi, quadrisignata, sommeri, testudinea, virginica.
- Tetrachila** conchella.
- Tetraclita** squamulosa.
- Tetracnemis** dubia, elegantula, selenophora, spuria.
- Tetracnemus** diversicorum.
- Tetracoenia** dupiniana.
- Tetracrinites** formosus, recoarensis.
- Tetracrinus** moniliformis.
- Tetradactylus** chalcidicus.
- Tetradrachmum** arcuatum.
- Tetraglenes** insignis.
- Tetraglathia** aenea, anamitica, argyra, armigera, aurata, bengalensis, bicolor, casula, celebesiana, chrysochlora, culicivora, cylindrica, dandridgei, deinagnatha, elongata, epetrides, extensa, hmbriata, flava, fulva, gibba, gibbosa, gracilis, grillator, granulata, labialis, laboriosa, lacerta, linearis, lunaris, lutea, mandibulata, nitens, obtusa, pelusia, protensa, refulgens, rubra, sanctitata, similis, sternalis, trapezoides, versicolor, violacea, viridis, zorilla.
- Tetragona** (Coel.) hispidum, quinquedentatus.
- Tetragona** (P.) bimaculatus, truncatum.
- Tetragoneura** distincta, hirta.
- Tetragonis** murchisoni.
- Tetragonoderus** arcuatus, bax, bilunatus, crux, cursor, dilatatus, fasciatus, figuratus, interruptus, lecontei, leprieuri, nigro-striatus, punctatus, quadriguttatus, quadrimaculatus, quadrinotatus, quadrisignatus, quadrum, repandus, rhombophorus, rivularis, sericatus, sticticus, transversus, trifasciatus, undatus, variegatus, viridicollis.
- Tetragonolepis** altivelis, angulifer, bouei, confluent, dorsalis, heteroderma, leachi, leiosomus, magnevillei, mastodonteus, monilifer, muensteri, murchisoni, obscurus, ovalis, pholidotus, pustulatus, radiatus, semicinctus, speciosus, striatus, striolatus, subseratus, trailli.
- Tetragonopterus** abramis, artedii, aureus, chalcus, fasciatus, grandisquamis, gronovii, interruptus, latus, linnaei, maculatus, melanurus, orbicularis, orbignyanus, peruanus, rufipes, rutilus, scabripinnis, schomburgki, spilurus, taeniatus, viejita, wappi.
- Tetragonum** belzonii.
- Tetragonurus** atlanticus, cuvieri, simplex.
- Tetragonus** (Col.) chinensis, dehaan, splendens.
- Tetragonus** (Lep.) catanitus.
- Tetragramma** brongniarti, depressum, planissimum, variolare.
- Tetragulus** caviae.
- Tetralasmis** hirsutus.
- Tetralobus** auricomus, australasiae, cinereus, duponti, flabellicornis, fortunium, goryi, hopei, macrocerus, manglesi, natalensis, parryi, robustus, rondani, rotundifrons, savagei, subsulcatus.
- Tetralonia** atricornis, basizona, grohmanni, tarsata.
- Tetralopha** militella, robustella.
- Tetrameres** haemochrous.
- Tetramerocrinites** formosus, simplex.
- Tetramesa** iarbass.
- Tetraneura** rugicornis, ulmi.
- Tetranichus** trombidinus.
- Tetrantaris** truttae.
- Tetranychus** caudatus, cristatus, fervidus, lintearius, populi, prunicolor, russeolus, salicis, socius, spinigerus, telarius, tiliarium, ulmi, urticae, viburni.
- Tetrao** africanus, alpinus, arborea, arragonicus, arragonius, asiaticus, attagas, bengalensis, brachydactylus, cambaiensis, capensis, caucasica, chata, coticus, crassirostris, cristata, curvirostris, empetrum, ericasus, franklini, fusca, guttata, helveticus*, hudsonicus, intermedius, islandicus, islandorum, juniperorum, lagophoides, leucurus, maculatus,

malouinus, marmoratus, medius, obscurus, ocellatus, phasianellus, pileatus, reinhardi, richardsoni, sabini, saliceti, senegalensis*, subalpinus, torquatus, tympanistes, urogalloides, urophasianellus, urophasianus, variabilis, variegatus, zeylonicus.

Tetraodon argenteus, bicolor, calamara, calamaroides, diadematus, firmamentum, graumatocephalus, gronovii*, hamiltoni, inermis, kinhardtii (*err. pro. kunhardtii*), lacrymatus, laevisinus, leiopleura, leiurus, lunaris, mappa, margaritatus, modestus, oviformis, pantherinus, papua, pardalis, parvus, perspicillaris, poecilonotus, porphyreus, potamophilus, reticulatus, rivulatus, rubripes, scaber, semistriatus, sordidus, stellatus, stictonotus, striolatus, vermicularis, xanthopterus.

Tetraodorhina ebenina, rubrofasciata.

Tetraogallus altaicus, caucasicus, himalayensis, nigelli.

Tetraonyx (Col.) bicolor, bimaculatum, bipunctatum, cinctus, collare, crassa, cruciatus, discicollis, dispar, femorata, flavicollis, flavipennis, frontalis, limbatus, luctuosa, maculatus, ootomaculatum, quadrilineata, quadrimaculatus, rupicollis, septemguttatus, sexguttatus, subcincta, transversalis, ventralis, vittata.

Tetraonyx (R.) alpinus, batagur, lessoni, longicollis.

Tetraoperdix nivicola.

Tetraopes annulatus, cordifer, dimidiata, femoratus, laeta, quinquemaculatus, testator, tornator, varicornis.

Tetraophthalmus splendidus.

Tetrapedia diversipes.

Tetraphyllus bicolor, formosus, latreillei, reaumuri, splendidus, sumptuosus.

Tetraplodon pectinatum.

Tetrapodichnites didactylus.

Tetrapsellium pulchrum.

Tetrapterus minor, priscus.

Tetrapteryx capensis.

Tetrapturus belone, georgii, herscheli, indicus.

Tetrarhynchobothrium tenuicolle.

Tetrarhynchus appendiculatus, attenuatus, claviger, cysticus, discophorus, elongatus, foveolatus, gracilis, grossus, lingualis, longicollis, macrobothrius, megabothrius, megacephalus, minimuscysticus, minutus, norhuæ, notidanus, papillosus, pleuronectis maximi, scolecinus, solidus, squali, strumosus, tenuicollis, tetrabothrium.

Tetras empetram.

Tetrasiphon hydrocora.

Tetraspilus basilaris.

Tetrastemma assimile, bioculatum, candidum, dubium, flavidum, fuscum, groenlandicum, longicapitatum, lumbricoideum, quadripunctata, rufescens, sipunculus, subpellucidum, varicolor.

Tetrastes bonasia.

Tetrastichus abantidas, abydenus, acesius, achaemenes, adalia, aega, agathocles, agrus, alcithoe, amenon, amynus, anodaphus, anteius, anticlea, anysis, anyta, apama, arathis, archideus, aristaeus, armoeus, arses, articas, asopus, athenais, athyrte, attalus, autonoe, baucis, bermius, beroe, biguttatus, bruchus, bunus, cacus, catus, caudatus, chares, charoba, cleonica, clito, conon, cyrrhus, daimachus, daira, deilochus, deioces, deipyrus, deldon, diaphantus, dotus, dymas, ecus, eleuchia, emesa, endemus, epicharmus, epidius, eratus, euagoras, euedochus, eupolis, eurytus, evonymellae, fannius, faacula, februus, flavifrons, gala, gaus, glycon, granulatus, haemon, hippasus, hippis, hypsistus, ithithia, idothea, ione, isander, lacaena, lachares, lagus, lamius, lelaps, leocrates, leucone, ligus, lycidas, lycippe, lyridice, mandanis, marbis, mazaëus, menius, metra, miser, molo, monesus, murcia, mutilia, mycerinus, myron, myrsus, narcaeus, natras, naucles, neis, nerio, norax, novatus, numeria, nymphis, orithia, orodes, oropus, orsedice, orsillus, otys, oxathres, pampyles, paralus, pawsis, phalis, phuneus, plangon, polybaea, pronomus, prosymma, proto, quercens, rabirius, racilla, rapa, renale, rhacius, rhipheus, rhode, rhoeo, rhesaces, sandace, scadius, silius, simo, sinope, smilis, sotades, suero, suevius, tachos, tenerus, teridae, totis, triarius, tulis, tymber, tyrtoeus, upis, vaccus, vacuna, valens, valerus, vicellius, vincius, voranus, xenares, xenocles, xeuxes, xixuthrus, zaleucus, zenocia, zeuxo, zoilus, zopyrus, zosimus.

Tetrastoma playfairi.

Tetrataxis conica.

Tetratoma cupricollis, *desmaresti*, *dimidiatum*, *obsoleta*, *pallida*, *picta*, *tessellata*,
variegata, *virgo*.

Tetrix (A.) niger, sylvicola.

Tetrix (Orth.) *acuminata*, *arenosa*, *areolata*, *argillacea*, *asmodaeus*, *belphegor*, *belzebuth*, *bilineata*, *bimaculata*, *bimaculatus*, *bipunctatum*, *bivittata*, *carinata*, *cnemodota*, *coronata*, *cucullata*, *depressa*, *dimidiata*, *dorsalis*, *ensifer*, *exclamationis*, *harpago*, *lateralis*, *laticeps*, *lucifer*, *marginata*, *meridionalis*, *mucronata*, *nutans*, *obscura*, *ornata*, *oxycephala*, *panzeri*, *parvipennis*, *polymorpha*, *producta*, *quadrimaculata*, *scabularis*, *scutellatum*, *sordida*, *striata*, *subulata*, *thoracica*, *uncinata*.

Tetroda histeroides.

Tetradon aerostaticus, alboplumbeus, angusticeps, annulatus, argenteus, argyroleura, atratus, batrachoides, bimaculatus, bondarus, capistratus, carduus, caria, cinctus, commersoni, compressus, curvus, cutcutia, dissutidens, facies caeruleata, fasciatus, fluviatilis, geometricus, glaber, gularis, guttifer, hispidus, immaculatus, implutus, insignitus, lagocephalus, laterna, lunaris, maculatus, mauiensis, marmoratus, marmoreus, mathematicus, meleagris, naritus, nigro-punctatus, nigroviridis, ocellatus, pachycephalus, pachygaster, patoca, pennanti, physa, plumeri, pseudopteris, psittacus, punctatus, reticularis, reticulatus, richei, semispinosus, simulans, solandri, spadiceus, stellatus, strigosus, tepa, turgidus, virgatus.

Tetronyx baska.

Tetrophthalmus suturalis.

Tetrops draeusta.

Tetrophthalmus chiloensis.

Tetropus productus.

Tetroras angiova.

Tetrorea ciliipes.

Tetrosomus turritus.

Tetroxia spinifera.

Tettigades chilensis, compacta.

Tettigometra atra, *atrovirens*, *bicolor*, *dorsalis*, *impresso-punctata*, *laeta*, *obliqua*, *niceola*, *pistacina*.

Tettigomyia annulata, lutea, musca. *Vide et* Tettigomyia.

Tettigonia acuminata, adscendens, adorabilis, adspersa, affinis, albicans, algira, argentata, arundinis, atra, aurata, aurentula, australasiae, basalis, basilaris, bicincta, bifasciata, bifida, biguttata, bipustulata, brunnea, candidissima, carinata, castaneae, chlorescens, chrysophthalma, ciliaris, cincta, coagulata, collaris, colorata, comes, concinna, costalis, crenata, cuspidata, diadema, dispar, dorsalis, duodecimpunctata, elegantissima, elegantula, erythrocephala, exaltata, exilis, fabae, farinaria, fasciata, fenestrata, festiva, flavicollis, flavoguttata, fraxini, frontalis, fulgida, geometrica, gigantea, glaucumaculata, grata, guttata, haemorrhoea, harrisi, hexaptera, hieroglyphica, impressa, incarnata, interrupta, intersecta, irrorata, lanio, lateralis, leucocephala, leucophthalma, limbata, lineata, longivittata, lunulata, lurida, macroptera, maculata, mannifera, marginata, marmorata, miniata, mixta, mollipes, muscaria, nigrolineata, nitidula, obliqua, obscura, oblecta, obtusa, occatoria, octolineata, ornata, oxiura, phalaemata, phosphorea, prasina, pubera, pubescens, pulchella, pulcherrima, punctata, purpurata, pusilla, pygmaea, quadrifasciata, quadrimaculata, quadri-notata, quadripunctata, quadriverrucata, quadrivittata, quercus, quinquemaculata, rosae, rubra, rufescens, ruficollis, rubiventris, rutilans, saccata, salicina, sanguinea, sanguinicollis, sanguinolenta, scutellata, sericea, sexnotata, similis, spumaria, striata, strumosa, sulcicollis, sumptuosa, suturalis, thoracica, tomentosa, trans-versa, triangularis, trifasciata, trisignata, tristriata, truncatipennis, truncatula, tympanum, ulmi, umbrosa, undata, undulata, unicolor, urtica, varia, vernicosa, versuta, vespiformis, victima, virens, virescens, viridis, vitis, vitrea, vitripennis, vittata, xanthocephala.

Tettigopsis nudipes, pedo, serrata.

Tettix bipunctatus, bispinosa, meridionalis, nutans, schranki, subulata.

Tettygomyia tabaniformis. *Vide et Tettigomyia.*

Tetyra acaroides, aethiops, affinis, albolineata, alternata, anchorago, annulus, arabs, arcuatus, argus, baro, billardieri, bispinosa, bosci, carbonaria, caudata, cerinthe, chrysorrhoea, cinctipes, cinerea, coccinea, cognata, comes, costata, cribraria, cyanipes, daldorfi, denovani, desfontaini, diana, diophtalma, dispar, dorsalis, druraci, duodecimpunctatus, eques, excellens, fabricii, fimbriata, flavipes, flavolineata, fuliginosa, fulvicornis, furcifera, germari, gibba, globus, grammicus, granulata, helopoides, hispina, hottentottus, humeralis, illustris, imperialis, impressa, inuncta, irroratus, lanata, lapponica, lateralis, liligera, lineata, lineola, litura, lundii, lurida, lyncea, marginata, marmorata, maroccanus, maura, mucorea, multipunctata, neglecta, nigellae, nigra, nigrolineata, nobilis, obliqua, ocellata, orientalis, paedemontanus, pagana, pallipes, patricius, pedicellata, picta, regalis, rustica, scarabaeoides, schangini, schestedii, schoenherri, schousbouci, schulzi, semipunctata, senator, sexpunctatus, signata, silphoides, smidti, stigma, stockerus, stolidia, strigata, subspinoza, tangira, tibialis, trilineata, tuberculata, vahli, violacea, wolffii.

Teuchestes brunneus, fossor, sylvaticus.

Teudopsis agassizi, ampullaris, bollensis, buncii, caumonti, piriformis.

Teuthis australis, chirurgus, concatenata, dorsalis, parva, sumatrensis.

Teutobochus rex.

Textilaria aculeata, americana, areolata, flesus, incrassata, pleuronectes, semipunctata, stichopora. *Vide et Textularia.*

Textilia ammiralis, auratus, bullatus, communis, pyramidatus, rubiginosus.

Textor alecto, aureicapillus, aureiflavus, capitalis, castaneo-fuscus, cucullatus, dinemelli, erythrorhynchus, flavigula, flavoviridis, galbula, larvatus, maliubus, mariquensis, melanocephala, melanotis, rubiginosus, spilonotus, subaureus, vitellina.

Textrix agilis, ferruginea, montana, torpida, vestita.

Textularia abbreviata, aciculata, acuta, agglutinans, anceps, angularis, articulata, aspera, baudouiniana, bronniana, bulloides, candeiana, capreolus, caribaea, carinata, caudata, communis, compressa, concinna, conica, consecta, conulus, cuneiformis, deltoidea, dentata, deperdita, digitata, dilatata, echinata, ehrenbergi, elliptica, elongata, foeda, gibbosa, globulosa, gracilis, gramen, haueri, janiformis, laevigata, laevis, lanceolata, lingula, lobata, marginata, mariae, mayeriana, media, nussdorffensis, oblonga, obsoleta, obtusa, obtusangula, ovata, oviformis, pala, partschi, pectinata, perforata, pignea, plana, praelonga, punctata, punctulata, quadrangularis, rugosa, sagittula, sauleyana, scalpelliformis, spica, spinosa, striata, subangularis, subangulata, subelongata, tricarinata, triquetra, triticum, trochioides, trochus, tuberosa, tumida, turbo, turris. *Vide et Textilaria.*

Thaenionotus torvus.

Thaerodontis cineraceus, flavimarginata, maculata, nigricans, ophis, reticularis, reticulata, stellata.

Thais (G.) fucus, haemastoma, minuta.

Thais (Lep.) apollina, cassandra, cerify, cerisyi, creusa*, honnorati, hypsipyle, medesicaste, meta*, polyxena, rumina.

Thalamia parietalis.

Thalamita admete, annulata, callianassa, chaptali, crenata, crucifera, erythrodactyla, prymna, pulchra, truncata. *Vide et Talamita.*

Thalamocoenia ornata.

Thalamopora cribrosa, siphonoides, vesiculosa.

Thalamospongia cottaldina.

Thalamus polimitus.

Thalanema capitata.

Thalarctos maritimus, polaris.

Thalassa flaviceps, montezumae, pentastigma, prasina, reyi, similaris.

Thalassadroma australis. *Vide et Thalassidroma.*

Thalassarctus maritimus.

Thalassema echiura, edulis, forcipata, neptuni, rupum, scutatus, vulgaris.

Thalasseus anglica, candicans, canescens, cantica, caspia, elegans, pelicanoides, polio-cercus, regius, torresi, trudeaui, velox.

- Thalassianthus* aster.
Thalassides coburgensis.
Thalassidroma bullocki, bulweri, fregatta, fuliginosa, furcata, grallaria, hypoleuca, leachi, leucogaster, lineata, marina, melanogaster, melitensis, nereis, oceanica, pelagica, tropica, wilsoni. *Vide et Thalassadroma*.
Thalassina anomala, davyana, deltura, emerii, grandidactylus, littoralis, mutatoria, scorpioides, scorpionoides, stellata, styrhyncha, subterranea, talpa.
Thalassites (A.) magnirostris, melanotis.
Thalassites (L.) concinna, crassiuscula, listeri.
Thalassobius testaceus.
Thalassochelys caretta.
Thalassoma purpurea.
Thalassorhinus platyrhynchus, vulpecula.
Thalassornis leuconotus.
Thaleops ovata, ovatus.
Thalera aestivaria, bupleuraria, putata, thymiaria.
Thalia leucophthalmus.
Thaliella ornata.
Thalis trilineata.
Thaliura ripheus.
Thallassoetus pelagicus.
Thallepus ornatus.
Thallis compta, ianthina, viiula.
Thalliurus blochi.
Thalpophila (Col.) abbreviata, polita.
Thalpophila (Lep.) prospicua, texta.
Thalurania cyanifrons, eripile, furcatus, glaucopsis, nigrofasciatus, schreibersi, viridipectus, wagleri, watertoni.
Thalydra australis, sericea.
Thamnasteria digitata, gigantea, lamourouxii, magnavilla, microstella, stellulata.
Thamnastrea affinis, cadomensis, dendroidea, micrantha.
Thamniscus dubius.
Thamnobia albiscapulata, albospectularis, atrata, cambayensis, cinnamomeiventris, coryphaea, frontalis, fucata, leucophrys, melaena, paena, pectoralis, ptymatura, rufiventer, scapularis.
Thamnobius (Col.) dregei, eckloni, thoreyi, zeyheri.
Thamnobius (R.) poecilostoma.
Thamnodus melanocephala.
Thamnodynastes punctatissimus.
Thamnolaia albiscapulata, cinnamomeiventris, semirufa.
Thamnomanes caesius, glaucus.
Thamnophilus (A.) affinis, agilis, alapi, albicans, albicollis, albiventer, albonotatus, ambiguus, atricapillus, aurantius, auratus, axillaris, badius, bicolor, brevirostris, caeruleus, canadensis, capistratus, caudacutus, chloropterus, cinnamomeus, cirrhatus, coraya, cristatellus, cristatus, curvirostris, cyanocephalus, doliatus, fasciatus, ferrugineus, fuliginosus, griseus, guianensis, gularis, guttatus, immaculatus, jani, leachi, leucocephalus, leuconotus, lineatus, lividus, longicaudatus, longicaudus, luctuosus, maculatus, major, melanocephus, melanogaster, meleagris, minutus, multistriatus, myotherinus, mystaceus, naevius, niger, nigricans, obscurus, olivaceus, palliatus, pectoralis, pileatus, quixensis, radiatus, ruber, rubicus, rubiginosus, ruficapillus, ruficeps, ruficollis, rufifrons, rufinus, rufiventer, rufus, rutilus, sabini, scalaria, scapularis, schistaceus, severus, stagurus, stellaris, striatus, strictothorax, strigilatus, swainsoni, tchagra, torquatus, undulatus, varius, vigorsi, virescens, viridis.
Thamnophilus (Col.) armicollis, asphaltinus, atramentarius, barbicornis, barbitus, brunnipes, carbonarius, carnifex, cerasi, duplicatus, flavicornis, frontalis, linearis, memnonius, morosus, nitidus, olyra, pallidus, pandura, phlegmaticus, pruni, punctirostris, rhina, rufus, stygius, trifoveolatus, trucidatus, violaceus.
Thamnophis saurita.

Theria (Dipt.) palpalis.

Theria (Lep.) fuscaria, ruficaparia.

Therias sari.

Theridion acuminatum, affine, agreste, albens, albocinctum, albolineatum, alboniaculatum, alveolus, ambiguum, anchorum, anglicanum, angulatum, anticum, aphane, argus, armatum, attritum, backi, benignum, bicolor, bicorne, bituberculatum, blandum, boreale, breve, bucculentum, callens, cancellatum, carolinum, cheliferum, citreum, civicum, comatum, concinnum, cornutum, cristatum, cruciatum, dentatum, denticulatum, dentipalpe, dispar, distinctum, dorsiger, dysderoides, elongatum, erythrocephalus, erythropus, extensum, fictilius, filipes, flavomaculatum, foliaceum, formosum, frondeum, fulvolimulatum, funebre, funerarum, fuscum, globosum, guttatum, incertum, intentum, leoninum, lepidum, leuconotum, levipes, lichenis, liliputanum, lineatum, longimanum, longipalpe, luctuosum, lunatum, lyra, maculatum, mandibulare, marginellum, marmoratum, maxillare, maxillosum, melanurum, minimum, minusculum, modestum, monoceros, morologum, nebulosum, nervosum, nigromarginatum, nigropunctatum, obscurum, ocellatum, onustum, opimum, ornatum, oscitabundum, ovatum, pallipes, parallelum, parvipalpe, paykullianum, pectitum, peritum, pertenu, phaeopus, pictum, pulchellum, pullulum, punctatum, punicum, purpureum, pusillum, pygmaeum, quadriguttatum, quadripunctatum, quadrisignatum, redimitum, reticulatum, riparium, roscidum, roseum, rubicundum, rubripes, rufipes, rufithorax, rufolineatum, rufum, saxatile, serpentinum, sexualbomaculatum, signatum, silvestre, sisiphum, sphaerula, spinipes, studiosum, sublatum, sulcifrons, superbum, terrestre, thoracicum, tibiale, tinctum, transversum, tredecim-guttatum, triangulifer, trigonum, triste, typicum, umbrosus, uncinatum, urticae, varians,

- variatum, variegatum, venenosum, ventrosum, venustum, verecundum, vernale, versutum, vicinum, virgatum, viride, vittatum, vulgare, walkenarium, zonatum.
Theridium aulicum, braccatum, castaneum, coracinum, grossum, irroratum, lunatum, pallidum, redimitum, reticulatum, saxatile, simile, sisyphus, tenellum, tepidarium, triste, varians, venustissimum, verecundum, vittatum.
Therina (Dipt.) femoralis, nigra.
Therina (Lep.) fervidaria.
Therinia breviararia, lactucinaria, onustaria, sambucaria, stricturaria, strigaria.
Therobius rugatus.
Theriodomys jourdani.
Therion amictum, cerinops, circumflexum, enecator, fibulator, flaveolatum, gracilipes, lugubre, ruficorne, tenuicorne, xanthopus.
Theristicus caeruleus, melanopsis.
Theristis acinacidella, cultrella, nemorella, pterella.
Theritas cypria, mavors, venus.
Therius (Col.) fulvipes, luridipennis, rugatus, suturalis.
Thermesia abadirina, acronias, gotenaari, scolopacea.
Thermonectus incisus, irroratus, nimbatus.
Thermonetus incisus, margineguttatus, ornatocollis.
Thermophila (Col.) leucospelota, ranzanii.
Thermophila (Lep.) aecus, angelicae, charon, cytisi, filipendulae, glycirhizae, hypocrepidis, lonicerae, medicaginis, orobi, peucedani, transalpina, trifolii, viciae.
Thermophilus capensis.
Thermospongia sphaerica.
Theron tenuirostre.
Theropithecus gelada.
Theroscopus cingulatus, dromicus, elegans, esenbecki, gravenhorsti, inaequalis, ingrediens, pedestris, subzonatus, trifasciatus.
Thespis aptera, brachyptera, fasciata, guerini, infumata, livida, parva, purpurascens, quinquemaculata, sulcatifrons.
Thestias aenippe, balice, marianne, pirene, venilia.
Thestius archytes, ematheon, gabrielis, hyacinthus, lycabus, pholcus.
Thestor ballus, petalus.
Thetia perspicillata.
Thetidia plusiaria.
Thetis (Inf.) diffluens, tenax.
Thetis (L.) cerina, laevigata, major, minor, parva, sowerbyi, trigona, undulata.
Thetis (Nud.) cornigera, fimbria, leporina, parthenopeia, polyphylla.
Thetys vagina.
Thia (Col.) pusilla.
Thia (Cr.) blainvillei, polita, rostrata.
Thiania pulcherrima, sumptuosa.
Thiara fasciata, hollandri.
Thiarella coronata, diadema, lugubris, millepora, papalis, pontificalis, punctulata.
Thiatyra flexuosa.
Thicolia varians.
Thimalia platyura, poioccephala, subrufa.
Thinobatis ferruginea, rotundicollis, rufipes.
Thinobius (Col.) brevipennis, ciliatus.
Thinocorus gayi, ingae, orbignyianus, rumicivorus, swainsoni.
Thinophilus flavipalpis, maculicornis.
Thinornis frontalis, novae seelandiae, rossi.
Thinotretis africana, bifasciata.
Thiocephala subbrunnea.
Thiodia citrana, sulphurana.
Thiosmus chilensis, mapurito, nasuta, quitensis.
Thirates brunnichiana, mediana, profundana, scopoliana.
Thiridia themisto.

Thisanotia auriferalis, chrysonuchalis, roralis.

Thisbe belise.

Thlasia brunnipennis.

Thliboscelus camellifolia.

Thlipsomyza castanea, compressa, heteroptera, variegata.

Thoa beani, edwardsiana, halecina, lamourouxiana, muricata, patagonica, savignyi, spinosa, tehuelche.

Thoas agavius, androgeus, evander, lysithous, paris.

Thoe erosa.

Tholera cespitis, extrema, furva.

Tholera illiberalis.

Tholodus schmidi.

Tholus funerarius.

Thominx manica, tridens.

Thomisoides crustosa, deformis, fumosa, lanuginosa, minorata, rubripes, terrosa.

Thomisus abbreviatus, albinus, aleatorius, angulatus, annulipes, argentatus, asper, asperatus, atomarius, aureolus, bicolor, bicoloratus, bilineatus, borealis, brevipes, buffoni, bufo, calycinus, cancerides, canceridis, cancroides, capparinus, castaneus, caudatus, celer, cerinus, cespiticolens, cinereus, citreus, citreus georgiensis, claveatus, clercki, conspergatus, cordiformis, corona, cristatus, cruentatus, cuneatus, dauci, delicatulus, delphinus, depressus, desidiosus, devius, diadema, diana, dispar, ditissimus, dorsatus, dubius, duttoni, edwardsi, emarginatus, ericarum, exaratus, exiguus, farinarius, fartus, ferox, flavescens, flavipes, floricolens, foederatus, formosipes, formosus, fucatus, fuliginosus, fuscatus, globosus, graciosus, grapsus, griseus, hermanni, hirsutus, hirtus, histria, horridus, hystrix, incertus, indiligens, iners, infumatus, jejuna, lalandei, lamarcki, lateralis, lemniscatus, lentus, leopardinus, leucosia, levipes, liliputianus, limbatus, litturatus, lucasi, luctans, luctuosus, luteolus, lynceus, maculosus, malacostraceus, marcidus, marginatus, martyni, maugi, morbillosus, nobilis, nodosus, numida, oblongus, obscurus, ochraceus, octomaculatus, onustus, oscitans, pagurus, pallidus, pardus, parvulus, peroni, phrygiatus, pictus, pigrus, pilosus, pini, pinnotheres, plagusius, pratensis, pubescens, purpuratus, quadrilineatus, regia, rhomboicus, robustus, rotundatus, rugatus, rugosus, sabulosus, sanguinolentus, secatus, similis, spectrum, sphericus, sphinx, spinipes, spissus, stelloides, stigmatissatus, sulcatus, tenuis, tigrinus, togatus, transversatus, trematus, triangularis, tricuspidatus, truncatus, trux, tumefactus, turgidus, ulmi, variabilis, varians, venatorius, venulatus, verrucosus, viaticus, villosus, violaceus, virescens, viridis, vulgaris.

Thomomys bottae, rufescens.

Thonius flavipennis, maculatus, pavoninus, unicolor.

Thoosa bulbosa, cactoides.

Thopeutis respersalis.

Thopha chloromera, perlata, saccata, varia.

Thoracantha anchurus, flabellata, furcata, latreillei, nasua, romandi, striata.

Thoracoceras acuminatum, affine, attenuatum, brongniarti, crepitacullum, cuvieri, distans, duplex, gracile, paradoxum, spirale, vaginatum, vestitum.

Thoracon striatus.

Thoracophorus walckenaeri.

Thoracostichus immobilis.

Thorasena pectoralis.

Thoraxophorus corticinum.

Thore trifasciata.

Thorectes desjardini, laevigatus, lineicollis, puncticollis, rotundatus, simplicidens, subgeminalis, subrugosulus.

Thoreyella brasiliensis.

Thorictes dracaena, grandicollis.

Thorictis bicarinata.

Thorictus castaneus, germari, mauritanicus, puncticollis.

Thoron metallicus.

Thous acmon, anthus, mesomelas, senegalensis, tokla, variegatus.

Thovana oblongata.

Thracia (Hem.) javanica, nervosa, sinuosa.

Thracia (L.) alata, alta, brevirostra, brevis, casani, chauviniana, conradi, convexa, corallina, corbuloides, corbuloides, curta, cypris, declivis, depressa, distorta, dubia, elongata, fabula, frearsiana, gibbosa, glabra, gnidia, granulosa, inaequalis, inflata, lata, lens, magnifica, maravignae, montagui, myopsis, nicoleti, oblata, ovalis, ovata, phaseolina, phillipsi, pholadomyoides, pinguis, plicata, praetenuis, pubescens, recurva, reichiei, roemeri, similis, subangulata, subdepressa, subrugosa, sulcata, taurica, tetragona, transversa, trapezoides, triangularis, trigona, trigonalis, truncata, ventricosa, viceliacensis, villosiuscula, vulvaria.

Thracides aepitus, aletes, melius, phidon, salius.

Thrasaetos guianensis, harpyia.

Thrasaetus coronata.

Thraupis archiepiscopus, cana, cyanocephala, cyanoptera, episcopus, glaucolpa, olivascens, ornata, sayaca, seriopetra, striata, vicarius.

Thremmaphilus pagodarum, roseus.

Threnodes atralis, cacuminalis, pollinaris.

Threnoedus rubricollis.

Threpterus maculosus.

Threskiornis aethiopica, melanocephala, strictipennis.

Thrinchus accessorius, baicalensis, campanulatus, limbatus, muricatus, schrenki, serri-cornis, turritus.

Thriothorus fasciato-ventris, guttulatus, leucotis, maculipictus, obsoletus, rosaceus, rufalbus, striatulus. *vide et Thry-*.

Thriothurus americanus, ludovicianus, pinus, rectirostris, torquatus.

Thripobrotus bivittatus.

Thripophaga aurita, striolata.

Thrips aculeata, acuminata, aptera, atrata, bicolor, brachiata, brevicornis, cerealium, conica, corymbiferarum, cynorrhodi, decora, denticornis, discolor, dispar, ericae, fungi, fuscipennis, grossulariae, haemorrhoidalis, leucantheme, leucoptera, livida, longipennis, manicata, myriophylli, nitidula, ochraceus, olivinus, pallens, phalerata, picipes, primulae, rufa, subaptera, ulicis, ulmiflorum, vulgatissima.

Thriptera (Col.) crinita, maille, persica, varvasi, villosa.

Thrisa hamiltoni, mystax, mystus, setirostris. *vide et Thryssa*.

Thrissonotus colei.

Thrisops cephalotes, cephalus, formosus, gracilis, intermedius, mesogaster, micropodius, ovatus, salmoneus, subovatus.

Throsus clavicornis, strictor, dermestoides, elateroides, niger, obtusus, pusillus.

Thryothorus aequinoctialis, albipictus, arundineus, bewicki, carinatus, coraya, genibarbis, gladiator, guttatus, littoralis, longirostris, ludovicianus, luscinius, melanos, modulator, obsoletus, palustris, platensis, polyglottus, rutilans, rutilus, striolatus, venezuelanus. *vide et Thri-*.

Thryphera gymnops.

Thryptocera abdominalis, atra, basilaris, bicolor, ciliata, cinerea, cingulata, erythroceras, exoleta, flavipalpis, fracticornis, frontalis, fulvipes, grisea, immaculata, laticornis, latifrons, leucoptera, magica, microcera, pilipennis, rubrifrons, sorbillans, testacea, zonata.

Thryssa macrognathos, porava. *vide et Thrisa*.

Thuiaria articulata, thuias, zelandica.

Thulea nigra.

Thya maurus, pullata, pygmaea.

Thyamis abdominalis, anchusae, atriceps, atricilla, atricornis, ballotae, brunnea, castanea, collaris, confinis, convexa, dimidiata, dorsalis, femoralis, flavicornis, fuscescens, fuscicollis, hilaris, holosatica, laeta, laevis, lurida, lutescens, melanura, nasturtii, nigricans, nigrocilla, ochroleuca, pallens, parvula, picipes, pratensis, pulex, pusilla, quadripustulata, suturalis, tabida, testacea, thapsi, thoracica, verbasci.

Thyas (Ar.) venusta.

Thyas (Lep.) honesta.

Thyasira flexuosa.

Thyatira (L.) lactea.

Thyatira (Lep.) albicosta, batis, derasa.

Thyellina angusta, prisca.

Thylacinus cynocephalus, harrisi, spelaeus.

Thylacis nasuta, obesula.

Thylacites affinis, albicans, argentatus, argillaceus, argyrellus, assecrulatus, atratus, aurarius, borealis, canus, capillatus, carinula, cataractus, cervinus, chalcogrammus, comatus, coryli, costatus, crenatus, elongatus, faber, festivus, fritillum, fulla, geminatus, glabratus, glaucus, globosus, griseus, hirsutulus, hirtellus, hirtus, inauratus, incanus, juvenicus, lacenas, lactens, lanuginosus, lapidarius, lasius, lateralis, laticollis, licinus, limbatus, lineolatus, maculatus, marmoratus, micans, microps, microsus, muricatus, naus, ningnidus, oblongus, obtusus, oniscus, piliferus, pilosellus, pilosus, planifrons, puber, pulveratus, quadrilineatus, querens, rattus, robiniae, roborosus, rotundicollis, rugosus, sabulosus, scabriculus, serosus, smaragdinus, squameus, squamiger, squamulatus, sub-signatus, subterraneus, sulcirostris, suturalis, tessellatus, trifasciatus, turbatus, umbrinus, variegatus, vicinus, vittatus.

Thylacium aggregatum, sylvani.

Thylacoderes eumolpoides.

Thylacotherium broderipi, bucklandi, ferox, prevosti.

Thylacurus latro.

Thylamys elegans.

Thyllis compressa, crassa, obesa, turgida.

Thylodrias contractus.

Thylogale eugeni.

Thymallus signifer, thymalloides, thymallus, umbrosa, vexillifer, vulgaris.

Thymalus aeliani, americanus, brunnea, ferrugineus, grossus, gymnogaster, gymnothorax, limbatus, lunatus, marginicollis, mertensi, oblongus, ontariensis, pallasi.

Thymara zaida.

Thymele acastus, actaeon, alveolus, aracanthus, bixae, dichroa, dirpha, erechtheus, feisthameli, florestan, gnetus, lugubris, malvae, menoetius, mercatus, odix, oileus, ophia, ophion, orida, pandion, phalos, pittheus, proteus, ramanatek, ratek, sabadius, tages, thrax, thridas, triton.

Thymelicus actaeon, linea, puer, pustula, venula, vibex, virgula, vitellius.

Thynnoides nigripes, rubripes.

Thynnus (Hym.) aethiops, affinis, analis, annulatus, anthracinus, apicalis, ater, australasiae, australis, browni, clitellatus, consobrinus, cornuta, decipiens, depressus, dimidiatus, fasciatus, fervidus, flavilabris, flaviventris, flavoguttatus, frontalis, fulvipes, fumipennis, gracilis, gravidus, grayi, guerini, haematodes, haemorrhoidalis, histrio, humilis, hyalinatus, ichneumoneus, intermedius, interruptus, klugi, labiatus, laetus, lateralis, leachiellus, lepidus, maculipennis, marginalis, mediterraneus, melleus, mystacinus, nigriceps, obscuripennis, obscurus, odyneroides, olivieri, ornatus, pedestris, philanthoides, picipes, pictus, pubescens, pugionatus, pulchellus, purpuripennis, quadricinctus, rubripes, ruficeps, rufipes, rufiventris, scoliaeformis, scutellaris, senilis, shuckardi, sphegeus, tarsatus, tricolor, trifasciatus, triidus, trochanterinus, tuberculi-ventris, variabilis, variegatus, varius, versicolor, vinculatus, vulpinus, westwoodi, zonatus.

Thynnus (P.) affinis, alalonga, apterus, argentivittatus, atlanticus, balteatus, bicarinatus, bilineatus, bolcensis, brachypterus, brasiliensis, brevipennis, coretta, guttatus, leachianus, macropterus, maculatus, maculosus, mediterraneus, obesus, orientalis, pacificus, pelamis, pelamys, propterygius, regalis, rocheanus, sarda, sibi, thuina, thunnina, thynnus, unicolor, vagans, vulgaris.

Thyone (Ech.) fusus, impatiens, portlocki, raphanus.

Thyonidium commune, pellucidum.

Thyreaspis undecim-punctata.

Thyrecephalus jekeli.

Thyreocera affinis, annulicornis, cincta, crinicornis, flavipes, hirticornis, histrio, laticornis, oblongata, spectabilis.

Thyreocoris adpersa, albipennis, atomarius, austriaca, bipustulatus, bufo, cinctus.

circumscripta, cocciformis, coccinelloides, complanata, cribarius, cribrarius, cucullata, deplanatus, duodecimpunctatus, flaviceps, flavipes, globus, grammica, hemisphericus, histeroideus, lineata, maculata, melolonthoides, metallicus, nepalensis, nigrita, nigri-ventris, nitidus, nubilus, pallipes, papua, punctatus, quadratus, scarabaeoides, seminulum, septus, silphoides, sphaerula, stigmatus, transversus, vahli, variegatus, vermiculatus.

Thyreodon cyaneus, marginipennis, morio.

Thyreonotus corsicus, semi-aeneus.

Thyreophora anthropophaga, cynophila, furcata.

Thyreopterus armatus, ater, binotatus, brevicollis, cuspidatus, femoratus, flavosignatus, frontalis, impressus, laticollis, latipennis, limbatus, maculatus, spinosus, subangulatus, subappendiculatus, tetrasemus, undulatus, unicolor.

Thyreopus clypeatus, cribrarius, interruptus, patellatus, pterotus.

Thyretes amazoula, montana.

Thyreus (G.) paradoxus.

Thyreus (Hym.) scutellaris, vexillatus.

Thyreus (Lep.) abbotti, lugubris.

Thyridia aedesia, dero, hippodamia, ilione, psidii, themisto.

Thyridium cupriventre, cyanitarse, flavipenne.

Thyridophila pyrrhopa.

Thyridopteryx ephemeraeformis, nigrescens, plumifera.

Thyris fenestrina, lugubris, maculata, pyralidiformis, sepulchralis, vitrina.

Thyronidium drummondi.

Thyroptera bicolor, tricolor.

Thysia lateralis.

Thysites altivelis, atten*, atun, chilensis, lepidopodea, lepidopoides.

Thysophorus pennicornis, speciosus, spinolae.

Thyrus bogeri.

Thysania agrippina, odora.

Thysanodactylus bilineatus.

Thysanodes jucunda.

Thysanopeltis speciosa.

Thysanopoda australis, tricuspidata.

Thysanopodus elongatus.

Thysanosoma actinioides.

Thysanotus anchomenoides.

Thysanozoon aurantiacum, dicquemaris, diesingi, flavum, fockei, muelleri, panormus, violaceum.

Thysanus ater.

Thysbe pulcherrima.

Thysonotus athemaena, danis.

Tiara (Coel.) papalis, sarsi.

Tiara (G.) attenuata, aurantia, caifra, catenata, corrugata, costellaris, crenata, foraminata, isabella, lineata, lyrata, melongina, millicostata, mucronata, multicostata, muricata, nivea, nodosa, plicaria, regina, rosea, rubra, simplicata, simplicata, sulcata, taeniata, terebralis, virgo, vittata, vulpecula.

Tiaris belli, cruentus, funerea, jacarina, megapogon, omissa, ornata, pusillus, sophiae.

Tiarocera cornuta, rhinoceros.

Tiarodes versicolor.

Tiaropsis diademata.

Tibesia ruficollis.

Tibiana fasciculata, ramosa.

Tibicen annulatus, flaveolus, hyalinatus, orni, vitreus.

Tichodroma alpina, brachyrhynchos, erythroptera, europaea, fusca, macrorhynchos, muraria, phoenicoptera.

Tichogonia africana, bilocularis, brardi, chemnitzii, excisa, polymorpha, virgata, wiegmanni.

Tichonia deplanella, pulverella, tinctella.

Tichornis cenchris.

Tichotripis accessella, cuculipennella, melcagripennella, miscella, nanella, pumilella, testaceella.

Tiedemannia (Pter.; Chiaje et Beneden) cristallina, napolitana, vittata.

Tiedemannia (Pter.; Krohn) creniptera.

Tiga amictus, grantia, ralliesi, rubropygialis, shorei, tridactyla.

Tiger europaea, iltis.

Tigillites danieloi, desfontainei, duforenyi.

Tigridia aceste, dirce, zingha.

Tigris regalis.

Tigrisoma brasiliense, leucolopha, lineata, mexicana, tigrina, undulatum.

Tijuca nigra.

Tilapia sparmanni.

Tilesia (P.) gracilis.

Tilesia (Polyz.) distorta.

Tiliqua aenea, affinis, albolabris, ascensionis, atterima, australis, belli, bibroni, bicolor, bistriatus, buchanani, capensis, carinatus, casuarinae, chinensis, cunninghami, cyanura, duperreyi, elegans, entrecasteaux, erythrocephalus, essingtoni, fasciata, fasciatus, fernandi, gigas, grisea, guichenoti, interrupto-punctata, jamaicensis, kingi, labillardieri, lateralis, lesueuri, leucopsis, maculata, microcephala, microlepis, multicarinatus, naevia, napoleonis, nigrolutea, occidua, ocellata, ornata, pulchra, punctata, quinquelineatus, quinquestriatus, reevesi, richardi, rubriventris, rufescens, rufoguttata, similis, sincoides, sloani, stoddarti, striata, subrufa, taeniolata, tenuis, trilineata, trivittata, tuberculatus, vachelli, vanicorensis, whitei, zelandica.

Tillicera chalybea, javana, mutillaeicolor.

Tilloclerus auriconus.

Tilloidea pubescens, senegalensis, unifasciata.

Tillus abdominalis, acutipennis, aeneas, albofasciatus, antennatus, aterrimus, aulicus, auricomus, azureus, balteatus, bicolor, bifasciellus, bimaculatus, bipunctatus, bosci, carus, cingulatus, collaris, compressicornis, conflagratus, cylindricollis, decorata, distinctus, elegans, fasciatus, fastigiatus, hilaris, hopei, hyalinus, inornatus, lineatocollis, longulus, louveli, marginatus, marmoratus, nigripes, notatus, novem-maculatus, pallidipennis, pectinicornis, peripateticus, personatus, picipennis, pilosus, prolixus, pubescens, pulchellus, quadripunctatus, rubrofasciatus, sanguineicollis, sexmaculatus, sexpunctatus, succinctus, terminatus, thoracicus, transversalis, tricolor, undulatus, unifasciatus, venustus, viduus, virens, zonatus.

Tima bairdi, flavilabris.

Timalia albogularis, caudata, chataraea, chloris, chrysaee, cythronotus, erythroptera, flammiceps, grisea, gularis, horsfieldi, huttoni, hyperythra, hypoleuca, leucotis, lugubris, maculata, malcolmi, mitrata, nigriceps, nigricollis, nipalensis, pectoralis, pelotis, pileata, poecilorhyncha, poliocephala, pyrrhophaea, pyrrhops, rufescens, ruficeps, somervillei, squamata, strialata, striata, thoracica, thoracina, trichorhros, xanthochlora.

Timandra (Col.) armata.

Timandra (Lep.) amatoria, emutaria, exemptaria, imitaria, subroseata, variegata.

Timarcha aeneicornis, aerea, affinis, angulicollis, apricaria, armeniaca, balearica, coriaria, crassipes, endora, femoralis, gallaeciaria, generosa, geniculata, gibba, globata, globosa, hispanica, hummeli, iberica, laevicollis, laevigata, metallica, micaensis, occidentalis, orbiculata, pimeloides, pratensis, punctata, punica, rotundata, rubra, rugosa, sardea, scutellaris, subcyanea, tenebrosa, turbida, ulyssiponensis.

Timetes chiron, coresia, corinna, corita, crethon, eleucha, harmonia, iole, merops, oechalia, orsilochus, psophus, themistocles, thetys, thonis.

Timia (Dipt.) apicalis, basalis, erythrocephala.

Timia (Lep.) cinerea, margarita.

Timixos meruloides.

Timnus vulgaris.

Timoclea (L.) ovata.

Timon ocellatus.

Timoriena triangularis.

Timorus suturalis.

Timpanomium planci.

Tinactor fuscus, *guatemalensis*.

Tinagma dentella, *lithargyrellum*, *metallicella*, *perdicella*, *saltatricella*, *transversella*.

Tinamotis elegans, *occellata*, *pentlandi*.

Tinamus adpersus, *atro-capillus*, *boraquira*, *brevipes*, *canus*, *cinereus*, *cinnamomea*, *kleesi*, *maculosus*, *maior*, *medius*, *minor*, *nanus*, *noctivagus*, *obsoletus*, *parvirostris*, *pileatus*, *rufescens*, *soui*, *strigulosus*, *tao*, *tataupa*, *undulatus*, *vermiculatus*.

Tinea furcata, *leptosomus*, *tinca*, *vulgaris*.

Tineites lithophilus.

Tingis athuis, alata, antica, arcuata, brunnea, capucina, cardui, carinata, cassidea, cervina, ciliata, cinerea, circumdata, clavicornis, collaris, concinna, corticea, costata, crassicornis, cristata, dilatata, echii, eryngii, erythrophthalma, foliacea, gossypii, gracilis, grisea, humuli, hyalina, laeta, lupuli, maculata, marginata, melanocephala, mutica, nigrina, nobilis, oblonga, obscura, oxyacanthae, pallida, parvula, pedicularis, pilicornis, pilosa, plexus, punctata, pusilla, pyri, quadri-maculata, reticulata, rhomboptera, ruficornis, sacchari, sidae, simplex, sinuata, spinifrons, spinosissima, subglobosa, testacea, triangularis, verna, virescens.

Tingra tropicalis.

Tinnunculus alaudarius, cenchris, cenchroides, cinnamominus, columbarius, gracilis, interstinctus, phalaena, punctatus, rupicoloides, rupicolus, sparrerius, sparverius, sparveroides, tinnunculus, vespertinus.

Tinochorus eschscholtzi, orbignyianus, swainsoni.

Tinodes albipes, ciliaris, cognatus, concinnus, fimbriata, flaviceps, flavipes, flavo-maculatus, fuliginosus, funereus, hirtipes, luridus, lutescens, marshamellus, nigripunctatus, opacus, pallescens, phaeops, picicornis, pulchellus, pusillus, pygmaeus, pyrrhocerus, simplex, subaurata, subnebulosa, subochracea, subpunctatus, unipunctata, xanthocera.

Tinoporus baculatus.**Tinopus** longipes.

Tintinnus campanula, cothurnia, denticulatus, inquilinus, pedicellatus, sessilis, subulatus.

Tiphia abnormis, albilabris, atra, bipunctata, brevipennis, capensis, caroliniana, cayennensis, cenoptera, ciliata, cineta, cingulata, erythrocephala, flavipennis, formicula, grossa, ichneumoniformis, inornata, interrupta, marginata, minuta, namea, obscura, punctata, quadripustulatus, ruficornis, rufifrons, serena, tarda, transversa, unicolor.

Tiphis parisiensis, tubifer.**Tiphle** heptagonus, hexagonus.

Tiphys (Cr.) chloropus, decoratus, electus, geminus, latipes, marginepunctatus, novem-maculatus, obscuratus, ornatus, podagricus, sagulatus, trifurcalis, vatrax.

Tiphysa plumbea.

Tipula acetosae, aemula, affinis, agaricina*, albifasciata, albilatus, albimanus, albo-costata, albovittata, alterna, analis, annulata, annulicornis, antennata, antiqua, arctica, armillaris, atomus, aurantiaca, bifasciata, bimaculosa, borealis, brachypteryx, brevicornis, brevirostris, breviterebrata, breviventris, byssina, caesia, castanea, cerea, cervina, cincta, cingulata, clandestina, clara, clavata, collaris, conica, consanguinea, costalis, crassicornis, cunctans, curvicornis, dentata, depressa, diana, dilatata, dispar, dorsimacula, duplex, dux, eburnea, elegans, erioptera, erythrocephala, excisa, fascipennis, fenestrata, ferruginea, festiva, filipes, fimbriata, flavescens, flavicans, flavilinea, flavipalpis, flavipennis, flavirostris, flavo-lineata, frigida, fuliginosa, fulvipennis, furca, fusca, fuscata, fuscipennis, glabricollis, glomerata, goezei, gracilipes, grandis, guttipennis, guttulifera, hellenorum, hortensis, hortulana, humilis, iavana, imperialis, interrupta, inventa, iridicolor, irrorata, juncea, lactipennis, laetabilis, lateralis, latevittata, limbata, limitata, lineata, lineola, longicornis, longimana, longipennis, longipes, longitarsis, lugubris, lunata, lunulicornis, luridirostris, luridiventris, lurido-rostris, lutea, luteipennis, macrocera, maculatipennis, maculipennis, maculosa, marginata, marmorata, marmoripennis, melanoceros, melanomera, mellea, modesta, monochroa, montana, multipunctata, nana, nervosa, nigricornis, nigrithorax, nodicornis, nodulicornis, nodulosa, nova, nubeculosa, nudicornis, oblique-fasciata, obscura, obscuripennis, obsoleta, obsecta, ochracea, oxyacanthae, pabulina, pagana, pallidinevris, paludosa, pectinata, pedata, peliostigma, petiolata, picta, pictipennis, platyura, populea, praepotens, pratorum, protogaea, pruinosa, psylla, puncticornis, pusilla, quadrifaria, quadrimaculata, quadristriata, quadrivittata, ramicornis, recticornis, remota, reposita, resurgens, rostrata, rubi, rubripes, rubriventris, ruina, rufipennis, rufistigmata, rufiventris, salicina, salicis, sannio, scalaena, scalaris, scripta, scurra, selene, selenitica, senex, septemlineata, serricornis, seticornis, signata, simplicicornis, sisymbrii, soror, speculum, spilota, stigma, stigmatella, stigmata, subarmata, subnodicornis, subsultans, subunilineata, suffusa, tenera, tenuicornis, terminalis,

testacea, tetraptera, tiliæ, tricineta, trimaculata, trina, triplex, trivittata, truncorum, umbrina, unca, ungeri, unifasciata, vaginalis tritici, varia, varicornis, varipennis, velutina, venusta, vernalis, vicaria, vittata.

Tipulodes ima, neglecta.

Tiranites gigas.

Tiresias (Col.) serra.

Tiresias (Cr.) insculptus.

Tirus marmoratus.

Tischera innitidella, niveella.

Tischeria angusticollis, complanella, emyella, gaunacella, ricciardella.

Tisiphone (Lep.) acanthæ, cordacæ, hercynæ, pasyphæ, tulbachii, zeline.

Tisiphone (R.) cuprea, oxiana, rhodostoma.

Tisoo siphonalis.

Titaea orsinome.

Titaena alcyonea, columbrina, erichsoni.

Titanio comitalis, normalis.

Titanomys visenoviensis.

Titanus giganteus.

Tithorea bonplandi, humboldti, irene, megara, pavonii, tyro.

Tithyus agamemnon.

Titiza lightfooti, schoenobaena.

Tituboea arabica, contigua, dispar, filitarsis, illigeri, laticollis, macropus, octopunctata, octosignata, olivieri, parviceps, paykulli, sexmaculata, sexpunctata.

Tityra amnis, albescent, albifrons, albitorques, atricapilla, brasiliensis, brevirostris, castanea, cayana, cinerascens, citrina, cristata, cuvieri, eques, erythrogenys, guianensis, habia, inquisitor, jardini, leucogaster, major, marginata, megacephala, minima, mitrata, modesta, nattereri, nigra, pectoralis, personata, pileata, rufa, rufescens, rubicauda, rubiceps, selbyi, semifasciata, splendens, strigata, surinama, tityroides, variegata, versicolor, vieilloti, viridis.

Tityus aethiops, arrogans, bahiensis, carinatus, caspius, caucasicus, clathratus, congener, denticulatus, ducalis, fallax, fatalis, griseus, hottentotta, infamatus, lineatus, longimanus, macrurus, marmoreus, mucronatus, mulatinus, nebulosus, perfidus, serenus, striatus, variegatus, varius.

Tivela tripla, vulgaris.

Tlanoma dentipes.

Tlos muriger.

Tmesidera assimilis, rubricollis, rufipennis, violacea.

Tmesiphorus carinatus, costalis.

Tmesisternus bicinctus, distinctus, jaspideus, lineatus, marmoratus, mirabilis, oblongus, septempunctatus, spinicollis, sulcatus, tessellatus, trivitatus, unipunctata, variegata.

Tmesorrhina amabilis, concolor, iris, similiana.

Tmetoceros abyssinicus.

Tmetothrips pallens, subaptera.

Tmolus basilides, crolus, echion, eurytulus, megacles, sylidus.

Tochites granulifer.

Tockus fasciatus, flavirostris, gingalensis, ginginianus, griseus, limbatus, melanoleucus, nasutus, poecilorhynchus, sulcatus, sulcirostris.

Todarus argo.

Todiramphus chlorocephalus, cinnamomina, collaris, coronata, diops, divinus, forsteni, funebris, lazuli, macleayi, occipitalis, platyrostris, pyrrhopygia, recurvirostris, sacer, sancta, saurophaga, sordidus, vagans, venerata.

Todirostrum auriculare, chrysocrotaphum, cinereicollis, cinereum, diops, ecaudatum, flavifrons, furcatum, granadense, griseum, gulare, maculatum, margaritacei venter, melanocephalum, orbitatum, palpebrosus, platycircus, plumbeiceps, plumbeum, recurvirostrum, rubiceps, speciferum, squamaecristae, sylvia.

Todus brachyurus, cancro, cinereus, crinitus, cyanocephalus, dominicensis, griseus, limbatus, maculatus, marginatus, megacephalus, melanocephalus, multicolor, olivaceus, poliocephalus, portoricensis, rubecula, sylvia, xanthogaster.

- Toelodon** maquinense.
Tolarenta wilkinsoni.
Tolmerus pyraea.
Tolyte orsilloche, riphea, vellea.
Tolypeutes globulus, octodeciminctus, quadricinctus, tricinatus.
Tolyphus granulatus.
Tomares ballus.
Tomarus maimon.
Tomaspis fureata, nigricans.
Tomella (Dipt.) guerini.
Tomella (G.) clavicularis, filosa, lineata, lineolata.
Tometes altipinnis, trilobatus, unilobatus.
Tomicephalus sanguinicollis.
Tomiconod chilensis, poecilophthalmos.
Tomicus affinis, bidens, calligraphus, curvidens, eruditus, flavus, fuscus, gulosus, laricis, micrographus, monographus, pini, piniperda, polygraphus, psilonotus, pubescens, pusillus, thoracicus, truncatus, typographus, villosus.
Tomigerus clausus, cumingi, gibberulus, principalis.
Tomocerus celer, ferruginosa, longicornis, niger, plumbeus, spiricornis.
Tomoderus brevicollis, compressicollis, constrictus, cruciatus, divisus, hirtulus, interruptus, signaticornis, sulcicollis, vinctus.
Tomogaster eydouxii.
Tomogeres boyssii, elliptica, matheroni, ringens, turbinatus, urgonensis.
Tomogerus depressus.
Tomognathus leiodus, mordax.
Tomoligus minimulus.
Tomomyza anthracoides.
Tomopteris onisciformis.
Tomopterus pretiosus, staphylinus.
Tomyris oxiana.
Tonatia bidens.
Tonia atlantica.
Tonicia atrata, castanea, cerasina, elegans, fastigiata, fulva, grayi, laevigata, lineata, lyrata, rubra.
Topaza atra, fimbriata, flabellifera, henrica, mellivora, opaca, pella, pyra, violacea.
Topentis acuminalis, amplialis, gigantalis, labiosalis, lanceolalis, mucranalis, phantasma-talis, phragmitalis, respersalis, succilialis.
Tophoderes fasciculosus, ferrugatus, frenatus, funebris, stigma.
Tor hamiltoni.
Torcula exoletus.
Torgos auricularis.
Toria nipalensis.
Torinia cylindrica.
Tornatella abbreviata, acuta, acutus, affinis, albensis, alligata, auricula, bacca, bifasciata, biplicata, bullaoides, bullata, cabanetiana, cancellata, carnea, cineta, clathrata, coccinata, conica, conspicua, costellata, crenatus, cretacea, curculio, cuspidata, dargelasi, dormoisiana, elegans, elongata, elongatus, fasciata, flammea, fragilis, francii, gigantea, glabra, globosa, globulina, inflata, insculpta, intermedia, labiosa, lacryma, lactea, laevigata, lamarcki, maculosa, marginata, media, miliola, nitidula, noae, nysti, oryza, ovalis, ovulum, papyracea, pedipes, pellucida, pomilia, popei, prisca, pulchella, pulla, punctata, punctato-sulcata, puncto-striata, punctulata, pusilla, pyramidata, retusus, scalaris, semen, semistriata, siebaldi, simulata, solidula, spirata, striatella, striatopunctata, striatus, subglobosus, sulcata, tessellata, truncatula, turricula, turriculata, turrita, venusta, virgata, voluta, woodii.
Tornatellina archimedis, bilamellatus, cernica, clausa, cubensis, cumingiana, ferussaci, globosa, minuta, ovata, petitiana, philippii, reclusiana, trochiformis, trochlearis, turrita.
Tornatilla bacca.

Torneutes bouchanti, cucullus, obscurus, pallidipennis.

Tornitella bullata.

Tornus subcarinata.

profanana, pronubana, proximana, pruneticolana, psorana, pudorana, puellana, pulchellana, pulicana, pullana, pulverana, purpurana, pustulana, pygmaeana, pyrastrana, quadrana, quadrimaculana, quadripunctana, radiana, ramana, ratana, rectifasciana, reticulana, retusana, rheediana, rhombifasciana, ribeana, rigana, rivulana, roeselana, rogana, rolandiana, romaniana, rosana, roseana, roserana, rosetana, rotundana, rubellana, rubiana, rubigana, rubrana, ruficiliana, rutilana, salicetana, sanguinana, sapineana, sauciana, schalleriana, scharfensteiniana, schrankiana, schreibersiana, scitana, scrophulariana, scutulana, sellana, sellaria, semi-albana, senifasciana, semilunana, senecionana, sesquilunana, sexpunctana, siliceana, simpliciana, sineana, smeathmanniana, sociana, sodaliana, sorbiana, sordidana, spadiceana, spartiana, spectrana, spixiana, squamana, stictana, sticticiana, stigmatana, straminea, stramineana, striana, strigana, strobilana, stroemiana, subroseana, subseana, subuncana, sudoriana, sulphurana, sylvana, tergana, tergorana, tessellana, testaceana, testudinana, tetracetrana, textana, tiliana, transitana, trapezana, treitscheana, treitschkeana, triangulana, tricolorana, trifasciana, trimaculana, trinotana, tripsiana, tripunctulana, triquetrana, trochilana, turionana, ulicetana, ulmana, unculana, undatana, unguicana, unicolorana, unifasciana, unipunctana, unipunctata, unitana, ustulana, vappana, variegana, varroniana, venustana, vepretana, verbasceana, vernana, verrucana, vibrana, viduana, vinculana, viridana, vitelliana, vulgana, vulneratana, vulpinana, walbomiana, walckenaerana, weirana, wellensiana, zachana, zaegana, zetteriana, zinkenana, zoegana.

Tortrix (R.) annulata, boa, bottae, brachyura, colubrina, coralinus, eryx, iaculus, maculatus, melanosticta, miliaris, pseudoeryx, punctata, reticulata, rufa, russeli, scytale, xenopeltis.

Tortulosa tortuosus.

Torula alpinata, equestraria.

Torymus abbreviatus, abdominalis, admirabilis, aeneus, affinis, albomaculatus, amethystinus, amoenus, anephelus, annulatus, appropinquans, approximatus, armatus, associatus, ater, auronitens, aurentulus, azureus, bedeguaris, bipunctatus, brachyurus, calcarata, caliginosus, caudatus, chalybaeus, chlorinus, chlorocopes, chrysis, chrysocephalus, cingulatus, collaris, compressus, congener, congruens, contractus, conubernalis, crinicaudis, cultriventris, cupratus, cupreus, cyaneus, cyaninus, cynipidium, dentipes, difficilis, distinctus, dorsalis, dresdensis, druparum, dubius, elegans, erythrothorax, euchlorus, fasciatus, fastuosus, foersteri, fulgens, fulgidus, fuliginosus, fuscipes, galii, globiceps, incertus, kaltenbachii, longicaudis, medius, metallicus, militaris, minor, minutus, modestus, muscarum, nanus, nigricornis, nitidulus, nobilis, noerdlinger, obscuripes, obsoletus, ocreatus, onjunctus, pallidicornis, pallitarsis, parellinus, pavidus, phornis, pictus, propinquus, pubescens, pumilus, punctum, purpurascens, quercinus, regius, rubripes, rufipes, saphirinus, sapphyrinus, speciosus, spilopterus, splendidus, stigma, subterraneus, tarsatus, truncatus, viridis, viridissimus.

Torymus globiceps.

Tosena fasciata.

Tosia aurata, australis, grandis, lunata, reguaris, rubra, semilunata, tubercularis.

Tostegoptera lanceolata.

Totanus acuminatus, aegocephalus, affinis, ater, australis, bartramius, brevipes, calidris, campestris, candidus, chloropus, chloropygius, cinclus, crassirostris, damacensis, ferrugineicollis, ferrugineus, fistulans, flavipes, floredanus, fuliginosus, fuscocapillus, fuscus, gambetta, glareoides, glareola, glottis, glottoides, gregarius, griseopygius, griseus, guttatus, guttifer, himantopus, horsfieldi, hypoleucus, incanus, indicus, javanicus, kuhli, lapponicus, lathamii, leucophaeus, leucophrys, leucopterus, leucurus, limosa, littoralis, longicauda, longipes, macropterus, macularia, maculatus, maritimus, marmoratus, melanoleuca, melanopygius, natans, natator, nigellus, niger, nutans, oceanicus, ochropus, palustris, pedestris, polynesiæ, pugnax, pulverulentus, punctatus, pusillus, rivalis, rufifrons, rufus, sasashew, senicollaris, senipalmatus, silvestris, solitarius, speculiferus, stagnatilis, striatus, sylvestris, tenuirostra, titares, totanus, variegatus, virgatus, vociferus.

Touraco persa.

Touyou americana.

- Toxares** deltiger.
- Toxaster** bertheloti, collegnii, complanatus, couloni, cuneiformis, gibbus, micrasterformis nicaeensis, oblongus, roulini, semistriatus, texanus, verany.
- Toxeres** pistor.
- Toxerites** disjunctus, truncata.
- Toxeuma** ericae, fuscicornis.
- Toxeus** maxillosus.
- Toxeutes** arcuatus, argala, attenuatus, fasciatus, gronovii, tantalus.
- Toxicophis** leucostoma.
- Toxicum** curvicone, geniculatum, nigripes, richesianum.
- Toxocampa** cracca, limosa, ludicra, lusoria, pastinum, rectangularis, viciae.
- Toxocera** limbiventris.
- Toxoceras** aequalicostatus, annularis, astierianus, baugieri, bituberculatus, cornuelianus, cylindricus, duvalianus, elegans, emericianus, garani, gracilis, honnoratianus, joubertianus, moutonianus, nodosus, obliquatus, obliquus, orbigny, plicatilis, rarispina, requienianus, royerianus, tenuis, tuberculatus, varusensis.
- Toxodera** denticulata, tenuipes.
- Toxodon** angustidens, paranensis, platensis.
- Toxolasma** cinerascens, cyclops, flexa, lividus.
- Toxonevra** fasciata.
- Toxophora** aegeriiformis, amphitea, appendiculata, aurea, aurifera, carcelii, cuprea, fusca, iavana, lepidocera, leucopyga, maculata, zilpa.
- Toxophorus** attenuatus, brentioides, disjunctus, fasciatus, gronovii.
- Toxorhina** brevipalpa, congirostris, pulchella.
- Toxorhinus** cultrirostris.
- Toxostoma** (A.) curvirostris, longirostre, rediviva, rufus, vetula.
- Toxostoma** (G.) globularis.
- Toxotes** antiquus, jaculator.
- Toxotrema** complanata, globularis.
- Toxotus** aeculi, atratus, chrysogaster, cinctus, coarctatus, cursor, decoloratus, dentipennis, dentipes, dispar, dives, geniculatus, humeralis, interrogationis, laevis, lateralis, maculosus, meridianus, minutus, mirabilis, noctis, nodicollis, obliquus, persicus, pictus, quadrimaculata, rudibus, rugipennis, schaumii, seductor, sericeus, splendens, taeniatus, tataricus, tomentosus, verneuili, vittatus.
- Trachea** atriplicis, melanospila, piniperda, porphyrea, praecox.
- Trachelacanthus** stschurovskii.
- Trachelia** maculicollis, octolineata, pustulata.
- Tracheliastes** maculatus, polycopus, stellifer.
- Trachelina** anas, anser, olor, stricta.
- Trachelium** (Col.) signatum.
- Trachelium** (Hem.) bicolor, fulvipes.
- Trachelius** ambiguus, anas, anaticula, aninga, cicer, colymbus, cygnus, falx, fasciola, globuliferus, lamella, laticeps, meleagris, ovum, planaria, proteus, strictus, stylatus, teres, trichophorus, tricophorus, utriculus, vorax.
- Trachelizus** adustus, bisulcatus, clavicornis, dorsalis, ferrugineus, notatus, populeus, puncticollis, rufus, scrobicollis, sulcirostris, turgidirostris, uncinatus, vasseleti.
- Trachelobdella** kollari, muelleri.
- Trachelocerca** biceps, olor, sagitta, viridis.
- Trachelochismus** pinnulatus.
- Tracheloeum** laticolle.
- Trachelogerrhon** trachelogerrhos.
- Trachelomonas** areolata, aspera, cucullata, cylindrica, emarginata, granulata, laevis, nigricans, pyrum, volvocina.
- Trachelonetta** acuta.
- Trachelopterus** coriaceus.
- Trachelorachys** fumicolor, pustulatus.
- Trachelotherium** giratta.
- Trachelotis** vigorsi.

- Trachypholis** hispidum.
Trachyphonus cafer.
Trachyphyllia amarantum, geoffroyi.
Trachypteris decastigma.
Trachypterus argenteus, bogmarus, bonellii, costae, cristatus, falx, hiatula, iris, leiopterus, remipes, repandus, rondeleti, spinolae, taenia.
Trachypus gomesi.
Trachys acephala, acuducta, acuminata, aenea, apicata, aurulenta, bali, capensis, cruenta, ephippium, exigua, fasciata, fastigiata, floridensis, gracilis, indica, leonensis, marmorea, minuta, nana, obsoleta, obiotica, ovata, parva, phlyctaenodes, pulchella, pumila, purpurea, pusilla, pusio, pygmaea, quadrinotata, reflexa, rugosa, scrobiculata, senegalensis, socia, speculum, terminans, tessellata, troglodytes.
Trachysaurus peroni, rugosus, typicus.
Trachyscelis aphodioides, flavipes, opatroides, rufus, villosus.
Trachysmia duponcheliana, rigana.
Trachysomus adspersus, cristatus, faunus, fragifer, gibber.
Trachysphyrus imperialis.
Trachytes oranienensis.
Trachyteuthis ensiformis, oblonga.
Trachytherium raulini.
Tragelaphus angasi, decula, eurycerus, hippelaphus, seriphis, strepsiceros, sylvatica.
Tragidion coquus, fulvipenne, lynceum.
Tragium hircinum.
Tragocephala formosa, hamata, nobilis, variegata.
Tragocerus australis, bidentatus, bifasciatus, flavicomus, lepidopterus, spencei, subfasciatus.
Tragomma (G.) acies, albanica, algira, compressa, croatica, gemonensis, verticillus.
Tragopa (A.) satanas.
Tragopa (Hem.) aenea, alacris, albimacula, andreae, bajulus, bipartita, bistriata, chi, cimicoides, coccinella, cyanea, dimidiata, dohrni, ephippium, frontalis, fulvovaria, funerula, globus, humeralis, involuta, marmorea, nitida, obliqua, ovalis, picta, punctatis-ima, sacra, tripartita, vespertilio, xanthocephala.
Tragopan abyssinicus, hastingi, melanocephalus, satyra.
Tragops (M.) bennetti, christi.
Tragops (R.) nasutus, pavoninus, xanthozonius.
Tragopus asper, tuberosus.
Tragos acetabulum, acute-marginatus, acutumargo, astroites, binneyi, capitatum, cepaeiformis, coronalis, deforme, difforme, echinatus, enorme, foraminosum, fungi-forme, globularis, hippocastanum, hybridum, incrustans, involutum, juglans, mamillatus, michelini, milleporatum, moschatellinum, patella, pertusum, peizoides, pisiforme, polymorphum, radiatum, ramosum, reticulatum, rugosum, semicirculare, sphaeroides, spongiosum, stellatum, sulcatum, tuberculatum, tuberosum, tunstallensis, verrucosum.
Tragosoma depsarium.
Tragulus kanchil, memnoides, mimenoides, rufescens.
Tragyderma pilicollis.
Trama radialis, troglodytes.
Tranes sparsus, vigorsi.
Tranus vittatus.
Trapelocera hoernesi, leptodonta, rhabdophora, verneuilli, vesiculosa.
Trapelus aralensis, bibroni, flavimaculatus, hispidus, mutabilis, oegyptius, rudrata, sanguinolenta, savignyi, sinaitus, subhispidus.
Trapezia affinis, coerulea, cymodoce, dentifrons, digitalis, digitatis, ferruginea, flavo-punctata, glaberrima, integra, rufopunctata, tigrina.
Trapezites symmokus.
Trapezium cymodoce, hians, perfectum.
Trapheocorynus anxius, inaequalis.
Travisia forbesi, oestroides.

Trebius caudatus, spinifrons.

Trechocorys adonidium.

Trechona bi-triata, drassiformis, icterica, incana, lycosiformis, zebra.

Trechus abdominalis, alpicola, amaurocephalus, angustatus, angusticollis, antarcticus, apicalis, assimilis, audouini, austriacus, bannaticus, bifasciatus, brasiliensis, californicus, castanopterus, caucasicus, chalybeus, collaris, conjunctus, consputus, convexus, coruscus, croaticus, crux, decorus, discus, dorsalis, elegans, elongatulus, flavicollis, flavipes, flavus, fulvus, fuscipennis, fuscus, glacialis, harpalinus, immunis, incilis, kamtschatkensis, laevipennis, laevis, latebricola, laticollis, latipennis, latus, liopleurus, lithophilus, littoralis, longhii, longicornis, macrocephalus, maculicornis, mariaae, melanocephalus, meridianus, metallescens, micropterus, micros, minutissimus, minutus, montanus, nigriceps, nigricornis, nigrinus, nitidus, nivicola, obtusus, ochreatus, ovatus, ovipennis, pallescens, pallidus, pallipes, paludosus, papalis, partitarius, parvulus, patruelis, pertyi, piceus, pinguis, platypterus, politus, ponticus, procerus, profundostriatus, pulchellus, pusillus, quadricollis, quadrimaculatus, quadristriatus, rivularis, robini, rotundatus, rotundipennis, rubens, ruficollis, ruficornis, rufulus, rupestris, scutellaris, secalis, sericeus, sexstriatus, similis, soledadinus, striatulus, styriacus, subnotatus, suturalis, tibialis, tristis, verbasci.

Tremapterus dregeri.

Trematis cancellata, filosa, hamifera, punctata, scrobiculosa, terminalis.

Trematodes carbonarius, pallasi.

Trematodum ranae, talpae caecae.

Trematopsis willughbei.

Trematosaurus brauni.

Tremeropugus typicus.

Tremesia patelloides.

Tremex columba, fuscicornis, magnus, obsoletus, sericeus, servillei.

Tremocoenia pulchella, subornata, varians.

Tremoctopus quoyanus, violaceus.

Tremospongia sphaerica.

Trennia nigricornis.

Trepang ananas, edulis, impatiens, peruviana.

Trepomonas agilis.

Trepsichrois alea, basilissa, diocletia, eleusina, midamis, mulcibra, thoosa.

Treron abyssinica, apicauda, aromatica, asiatica, australis, bicincta, calva, cantillans, capellei, chlorigaster, crassirostris, eimensis, fulvicollis, jerdoni, korthalsi, magnirostris, malabarica, militaris, nipalensis, olax, oxyura, phaenicoptera, psittacea, purpurea, sti thomae, sieboldi, sphenura, vernans, viridifrons.

Tretaspis bucklandi, caractaci, fimbriatus, gibbifrons, latus, radiatus, scyllarus, seticornis.

Tretosternon punctatum.

Tretus loripes.

Triacanthus anomalus, biaculeatus, brevirostris, strigilifer.

Triacanthus apicalis.

Triacanthus granulatus, pyriformis.

Triacanthus dilatus.

Triacanthus clavicornis.

Triaena (Col.) angustata, depressa, indistincta.

Triaena (Lep.) cuspis, psi, teligera, tridens, tritona.

Triaenodon obesus, smithi.

Triaenophorus nodosus, nodulosus.

Triaenopus baileyanus, emmonsianus.

Triakis scyllium.

Trianisites cliffordi.

Triarthra albicollis, bicolor, cornuta, longiseta, mystacina.

Triarthria albicollis, bicolor, spinipennis.

Triarthron maerkeli.

Triarthrus becki, gibbosus, laciniatus, scaraboides.

Triaatoma gigas.

- Triaulacias** triquetra.
Tribacis nothus, osseticus, regularis.
Tribalus americanus, capensis, minimus, scaphidiformis.
Tribolium castaneum.
Tribolonotus novae-guineae.
Tribon umbratile.
Tribonophora umbratica.
Tribonophorus desmaresti.
Tribonyx dumortieri, ventralis.
Tribostethes castaneus.
Tribrachyocrinus clarki.
Tribranchus anguillaris.
Tribura luteoventris.
Tricalama plicatilis.
Tricaster palmifer.
Triccus cinereus.
Tricelis fasciatus, quadripunctata.
Tricellaria aculeata, ternata, tricythura.
Triceras (Sp.) paradoxus.
Triceros grayi.
Trichas aequinoctialis, bivittatus, brachydactylus, canicapilla, concolor, delafieldi, leucoblephara, luteoviridis, magillivrayi, marilandica, nigro-cristatus, personatus, ruficeps, superciliosus, tephrocotes, trichas, velata.
Trichaster isidis.
Trichastoma affine, porocephala, rostratum.
Trichechus cooki, divergens, durong, hydrotiphecus, longidens, obesus, rostratus, siren.
Trichechus arcticus.
Tricheops ephippiger.
Trichestes pilosicollis.
Trichesthis pilosicollis.
Trichetra isabella, sparshalli.
Trichia (Cr.) dromiaeformis.
Trichia (G.) circinnata, clandestina, filicina.
Trichias philadelphia, rotundicollis, velata.
Trichidius aurantiacus.
Trichina (Dipt.) clavipes, crassipes, elongata, flavipes, fuscipes, rufipes, velutina.
Trichina (Verm.) inflexa, ranae esculentae, reticulata, spiralis.
Trichinus piger, smithi, viridulus.
Trichiopoda lanipes, plumipes.
Trichiosoma laterale, latreillei, lucorum, pratensis, pusillum, salicis, scalesi, sorbi, sylvaticum, tibiale, triangulum, unidentatum.
Trichis maculata, pallida.
Trichites nodosus, undatus.
Trichiura crataegi.
Trichiurus argentatus, armatus, electricus, hamrela, haumela, intermedius, lepturus-japonicus, muticus, savala.
Trichius abbreviatus, abdominalis, aeneus, alutaceus, amoenus, apicalis, araneoides, arthriticus, assimilis, atomarius, barbatus, bifasciatus, bigsbyi, bilateralis, bilobus, bimaculatus, binotatus, bistriatus, bistriga, bivittatus, bombylius, bonplandi, calcarata, campicola, canaliculatus, caneroides, capicola, capucinus, carbonarius, chiragricus, cinereus, clathratus, coriarius, costatus, crassipes, crinita, dahuricus, delta, deltoides, dentatus, denticeps, dentipes, depressus, deustus, discolor, divisus, dorsalis, dubius, eremicola, eremiticus, fasciculatus, fasciolatus, femoratus, flaveolus, fortunatarum, foveatus, fulvipes, fulviventris, fuscipes, fuscus, gagates, gallicus, gonagra, grossipes, hylax, intermedius, interruptus, irroratus, lapeyrousei, latipes, limbatus, lineatus, lynx, maculosus, magnificus, marginella, minutus, monachus, multiguttatus, nanus, obliquus, olens, ovinus, pachyglutus, pachymerus, pallidipennis, parvulus, podagricus, orologatus, pulverulentus, punctigerus, pusillus, quadratus, quadrilineatus, quadri-

maculatus, retusus, ruficaudus, rufipes, rugosus, rupicola, saxicola, scaber, seticollis, setosus, sexguttatus, sexlineatus, sextriatus, spinipes, squamiger, squamosus, stigmaticus, subcostatus, sulcatus, sulcicollis, suturalis, swederi, thoracicus, tibialis, triangulum, tricolor, undulatus, ursula, ursus, variabilis, variegatus, villosus, viridans, viridis, vittata, vittatus, vulpes, zonatus.

Trichixos bres, pyropyga.

Trichobius parasiticus.

Trichocephalus acibularis, affinis, auricularis, cameli, capillaris, castoris, contortus, crenatus, depressusculus, dispar, echinatus, gibbosus, gracilis, lemuris, leporis, milvi, minutus, muris, nodosus, ophisauris, palaeformis, subdepressus, tenuissimus, tetricus, unguiculatus. *l'ide et Tricocephalus.*

Trichocera (Cr.) gibbosa, integra, porcellana.

Trichocera (Dipt.) annulata, barbicornis, binaacula, brumalis*, communis, femorata, fuscata, gracilis, hiemalis, maculata, maculipennis, parva, pini, regelationis, scutellata.

Trichoceras erythrophthalmus.

Trichocerca bilunaris, catellus, forcipata, jobloti, longicauda, longiseta, luna, orbis, pocillum, rattus, tigris, vermicularis.

Trichocoryne striata.

Trichocyclus dunerili.

Trichoda (Inf.) aethiopica, angulata, asiatica, bicaudata, bicornis, bidens, biloba, calva, carnium, chaetophora, comosa, cricetus, cunex, cycloidium, foeta, globulus, granulifera, histrio, jobloti, lichenorum, nasamonum, ovata, paramaecium, pura, pyrum, vestianella, vibrio, vitraea, volutator, vulgaris.

Trichoda (Lep.) neustria, triseta.

Trichodactylus (Ar.) osmia.

Trichodactylus (Cr.) affinis, granarius, punctatus, quadrata.

Trichodectes bovis, canis, caprae, climax, cornutus, crassus, diacanthus, equi, exilis, latus, limbatus, longicornis, melis, ovis, pinguis, retusus, scalaris, similis, sphaerocephalus, subrostratus, vulpis.

Trichoderes pini.

Trichoderma (A.) muraria.

Trichoderma (P.) histrix, scapus.

Trichodes affinis, alvearius, ammos, angustus, apiarius, apivorus, aulicus, australis, axillaris, bizonatus, carceli, cerarius, corallinus, crabroniformis, cyaneus, dabli, douglasianus, fasciculatus, favarius, flavicollis, fulgens, hartwegianus, humeralis, insignis, instabilis, interruptus, lafertei, laminatus, leucopsideus, nobilis, nuthalli, nuttali, obliquatus, ochropus, olivieri, ornatus, punctatus, quadriguttatus, quadripustulatus, sanguineo-signatus, sipylus, subtrifasciatus, syriacus, tricolor, trifasciatus, umbellatarius, umbellatarum, verticalis, viridifasciatus, zebra.

Trichodina acarus, comosa, grandinella, pediculus, stellina, tentacula, vorax.

Trichodiscus sol.

Trichodon stelleri.

Trichodura anceps.

Trichogaster fasciatus, trichopterus.

Trichoglossus aurifrons, australis, capistratus, chlorolepidotus, concinnus, cruentus, cyanogrammus, forsteni, haematodus, haematopus, matoni, multicolor, ornatus, palmarum, porphyrocephalus, porphyrocephalus, pusillus, pyrrhopterus, rubritorquis, swainsoni, taitianus, versicolor.

Trichognatha cincta, marginipennis.

Trichogomphus lunicollis, martabani, milo.

Trichogramma carina, evanescens.

Trichola crataegi.

Tricholepis niveopilosa.

Trichomaplata vittata.

Trichomma enecator, fulvidens.

Trichomonas limacis.

Trichomycterus areolatus, barbatula, gracilis, incae, inermis, maculatus, nigricans, punctulatus, rivulatus.

- Trichomyia** urbana.
Trichomyza fusca.
Trichoneura vulgaris.
Trichoniscus flavescens, nanus, pusillus, riparius, roseus, vividus.
Trichonotus (Col.) scropha.
Trichonotus (P.) setiger.
Trichonyx sulcicollis.
Trichophora nigra.
Trichophorus (A.) barbatus, brachypodioides, cauceps, flaveolus, flavicaudus, flaviventris, gularis, icterinus, indicus, lunatus, poliocephalus, pulverulentus, striolatus, sulphuratus, tephrogenys, virescens, xanthogaster.
Trichophorus (Col.) chevrolati, distinctus, interrogationis, lippus, obliquus, variatus.
Trichophthalmus albimacula, aurora, bivittata, costalis, degener, fulva, funesta, leucophaea, obscura, quadricolor, subaurata.
Trichophya pilicornis.
Trichophyus pilicornis.
Trichoplus laevis.
Trichopoda (Col.) cassidaformis.
Trichopoda (Dipt.) apicalis, ciliata, cilipes, flavicornis, formosa, gradata, haitensis, hirtipes, histrio, inconstans, lanipes, lateralis, luteipennis, melanopus, mexicana, pennipes, pilipes, pyrrhogaster, subulipes, umbra.
Trichopodus (P.) bejeus, chuna, cobra, colisa, lalius, mentum, sota, trichopterus.
Trichoprosopus urvillei.
Trichopselaphus subiridescens.
Trichopsidea oestracea.
Trichoptera canescens, fuliginosa, hirta, ocellaris, palustris, phalaenoides, trifasciata, trisulcata.
Trichopteryx (Col.) abbreviatella, abrupta, alpina, alutacea, angustula, apicalis, aptera, aspera, atomaria, attenuata, bifoveolata, boudieri, brachyptera, brevipennis, canaliculata, cephalotes, chevieri, chevrolati, clavipes, curta, depressa, discoidea, discolor, elongata, evanescens, exarata, excavata, fascicularis, fenestrata, flavicornis, foveolata, fucicola, fusca, fuscipennis, gracilis, grandicollis, gressneri, guerini, inquilina, intermedia, kunzei, laevigata, lata, limbata, littoralis, longicornis, melanaria, microscopica, minima, minuta, minutissima, montandoni, myrmecophila, nana, nitida, oblonga, obscuricornis, parallelogramma, picicornis, picipes, pulchella, pumila, pusilla, pygmaea, quadrioveolata, ratisbonensis, rivularis, rotundatus, rugulosa, saxonica, sericans, similis, spencei, suturalis, testacea, thoracica, titan, transversale, trisulcata, vittata.
Trichopteryx (Lep.) decolorata, hexaptera, lobulata, sexalata, viretata.
Trichopus (Ar.) libratius.
Trichopus (Cr.) mystacinus.
Trichopus (P.) arabicus, goramy, monodactylus, pallasi, satyrus, striatus, trichopterus.
Trichopygus dissimilis, nitens, pumilio, subuliformis.
Trichoscelis (Hem.) stollii.
Trichosoma (Lep.) algiricum, baeticum, biverrucatum, corsicum, loewi, marginale, mauritanicum, parasitum, pierreti.
Trichosoma (P.) hamiltoni, trichonoides.
Trichosoma (Verm.) alaudae, brevicolle, canis vulpis, caprimulzi, carbonis, charadrii, columbae, corvorum, crassicauda, crotalis, crypturi, erinacei, falconum, fringillae, gracilis, hirundinis, inflexum, longicolle, muris decumani, obtusiusculum, obtusum, picorum, plica, putoni, splenacum, turdi, vanelli, vespertilionis.
Trichosomum aerophilum, angustum, contortum, curvicauda, dispar, entomelas, exiguum, exile, ornatum, parasitum, resectum, rigidulum, tomentosum.
Trichosomus (P.) dracaena, trachinoides.
Trichostegia grandis, minor, varia.
Trichostetha albopicta, capensis, fascicularis, natalis, prunipennis, signata, tibialis.
Trichostola fuscipes.
Trichostoma (A.) celebense, umbratile.

- Trichostoma** (Neur.) capillatum, fuscicorne, nigricorne, picicornis, rufescens.
Trichostomum auratum, maculatum, pallipes.
Trichosurus (M.) cooki, viverrinus, xanthopus.
Trichotarsia limbata.
Trichothraupis quadricolor.
Trichoton cayennense.
Trichotria pocillum.
Trichotropis acuminata, atlantica, bicarinatus, borealis, cancellata, conica, costellatus, davidi, inermis, insignis, kroyeri, pusillus, umbilicata, uncarinata.
Trichotropus sowerbiensis.
Trichromia capya, onytes, trigemmis.
Trichura druryi.
Trichuris intestinalis.
Tricla australis, mediterranea, mediterranei, taeniobranchia, tridentata.
Triclaria (A.) cyanogastra.
Triclaria (Ar.) longitarsis.
Tricocephalus acetabularis. *Vide et Trichocephalus*.
Tricoelia variopedata.
Tricolia brongniarti, draparnaudii, guerinii, nicæensis, pullus, punctata, rissoi, rubra.
Tricomonas vaginale. *Vide et Trich-*.
Tricondyla annulicornis, aptera, atrata, chevrolati, conicicollis, coriacea, cyanea, cyanipes, mellyi, pulchripes, punctipennis, vanderlindeni, vicina.
Tricondylia globicollis.
Tricophorus crispiceps, olivaceus, striatus, strigilatus.
Tricorynus zeae.
Trictenotoma acnea, childreni, templetoni.
Tricula montana.
Tricuspidaria elegans, piscium.
Tridacna aegyptiaca, asperella, crenulata, crocea, elongata, gigas, hippopus, maculata, media, mutica, punctulosa, serrifera, squamosa, wolfarti.
Tridacne glabra, imbricata, maxima.
Tridacnodites gigas.
Tridacophyllia aspera, laciniata, lactuca, paeonia, symphylloides.
Tridactylia hirsuta, tiga, undulata.
Tridactylus (Orth.) apicalis, marginatus, paradoxus, thoracicus, tibialis, variegatus.
Tridactylus (R.) decreseensis, nigricollis.
Tridentia fulva, linearis.
Tridonta (G.) plicata.
Tridonta (L.) borealis.
Tridopsis albolabris, appressa, convexa, elevata, fraterna, hirsuta, inflecta, palliata, personata, profunda, thyroideus, tridentata, tridonta.
Tridymus aphidum, xylophagorum.
Trielasmus varians.
Trientoma varvasi.
Triforis biplicatus, conoidalis, plicatus.
Trifurcula immundella, pallidella, pulverosella, squamatella.
Trigla adriatica, anzolatus, aspera, blochi, bracanthus, brandesi, buergeri, burgeri*, capensis, cavillone, corax, corvus, cuculus, fagianus, fasciata, filaris, garrulus, gonotus, grunniens, hamata, hemisticta, hyrax, japonica, laevis, lastoviza, leucoptera, lineata, lucerna, lyra, microlepidota, nilvus, muzodurus, obtusurhynchus, palmipes, papilio, papilionacea, pauciradiata, pentedactyla, peroni, phalaena, pleuracanthica, poeciloptera, polyommata, pygmaea, rodinogaster, sicala, sphinx, spinosa, swainsoni, trachinus, turchellus, vanessa.
Triglochis taurus.
Triglops pingeli.
Triglyphus primus.
Trigon forskaeli, histrix.
Trigona (G.) pellucida.

- Trigona (Hym.)** *amalthaea*, *angustula*, *bilineata*, *compressa*, *elongata*, *favosa*, *fulviventris*, *ligata*, *obignyi*, *pallida*, *ruficrus*.

- Trigonoderus** (Orth.) childreni.
Trigonodon oweni.
Trigonogaster benignus.
Trigonometopus frontalis.
Trigonopeltastes archimedes, delta, deltoides, geometricus, linea, quadrisignatus, triangulum.
Trigonophis iberus.
Trigonophora amethystina, chalconia, commelinae, empyrea, fucula, frugiperda, lucipara, meticulosa, scita.
Trigonophorus (Col.) angulosus, cantori, delesserti, hardwicki, myrtillinus, nepalensis.
Trigonophorus (Hym.) gracilipes, saundersi.
Trigonops rugosus.
Trigonopsis abdominalis.
Trigonopteryx punctata.
Trigonoscelis armeniaca, deplanata, echinata, gemmulata, mirabilis, nodosa, pygmaea, schrenki, seriata.
Trigonosemus elegans, lyra, rusticus.
Trigonosoma (Dipt.) perilampiformis.
Trigonosoma (Hem.) affine, albolineata, apicale, carinata, cerinthe, desfontainei, fischeri, flavolineata, gambiae, inaequalis, nigellae, nigrolineata, pagana, reticulatum, rufum, semipunctata, subfasciatum, variolosa.
Trigonostoma (Col.) discolor.
Trigonostoma (G.) angigyrum, holosericeum, obvolutum.
Trigonostomum mucroem.
Trigonotarsus australis, calandroides.
Trigonotoma australis, bicolor, buqueti, concinna, fulgidicollis, indica, obscura, peteli, planicollis, violacea, viridicollis.
Trigonotreta acutolobata, aequalis-arata, alata, aperturata, cassidea, cristata, furcatula, granulosa, jonesiana, latoplicata, lineata, multiplicatus, oblata, ostiolata, permiana, speciosa, stokesi, testudinaria, undulata, walcotti.
Trigonurus mellyi.
Trilasmis eburnea.
Trilatus blepotis, hasselti, horsfieldi, macellus, meyeri.
Trilobites acicularis, acuminatus, alatus, angustatus, armatus, asellus, attenuatus, bituminosus, bohemicus, bronni, conicophthalmus, cornigerus, decipiens, dentatus, depressus, desideratus, elegans, elliptifrons, eurycephalus, extensus, gracilis, granulata, heteroclytus, hoffi, immarginatus, intercostatus, intermedius, laevis, latus, limbatus, lindaueri, lyra, marginatus, musca, oblongatus, orbitatus, ornatus, oxyrhynchus, paradoxus, platyrhynchus, platyrus, plicatus, problematicus, pustulatus, rugosus, scaber, schroeteri, schulzeri, semilunaris, serratus, sinia, sphaericus, sternbergi, striatus, sulzeri, tentaculatus, ungula, verticalis, vulgatus, zippei.
Triloculina acuminata, affinis, anceps, angularis, angusta, antillarum, austriaca, bicarinata, bicornis, bipartita, boliviana, brongniarti, brongniartiana, carinata, chemnitziana, communis, consobrina, crassa, cretacea, cryptella, cylindrica, decipiens, deformis, dichotoma, dubia, eburnea, echinata, elegans, elongata, fichteliana, flavescens, gibba, glabra, globulus, gracilis, gualtieriana, inflata, inornata, labiosa, laevigata, linneiana, lutea, martiniana, marylandica, maurini, microdon, minuta, muensteri, nitens, nitida, nodulus, oblonga, obotritica, oculina, orbicularis, ovalis, perforata, planicincta, pulchella, quadrilateralis, reticulata, reversa, rosea, rostrata, rotunda, rotundata, rugosa, scapha, schreiberiana, striata, strigilla, suborbicularis, subtriquetra, sypho, tricarinata, tricostrata, trigonula, turgida, unidentata, webbiana.
Trimenodon tapirotherium.
Trimeresurus leptcephalus, viridis.
Trimerina coeruleiventris, madizans, tibialis.
Trimercephalus laevis.
Trimerorhinus rhombeatus.
Trimerus delphinocephalus, jacksoni, platypleurus.
Trimesurus albolabris, carinatus, ceylonensis, colubrinus, erythrurus, formosus, maculatus,

- mucrosquamatus, olivaceus, philippensis, purpureus, strigatus, subannulatus, sumatranus.
- Trimium** brevicorne, brevipenne, caucasicum, leiocephalum.
- Trimorphus** confinis, erro, scapularis.
- Trinaton** pygmaeum.
- Trinectes** scabra.
- Trinella** pacha.
- Trinema** acinus, hyalina.
- Trineura** abdominalis, anceps, annulata, arcuata, atra, bicolor, carbonaria, cariniformis, ciliata, crassicornis, dimidiata, fasciata, femorata, flava, flavicoxa, fuscipes, gymno-phorina, humeralis, incrassata, interrupta, lutea, maculata, minor, mordellaria, notata, obscura, opaca, palpina, palposa, peregrina, pulcra, pumila, pygmaea, ruficornis, rupeus, sordida, stictica, thoracica, urbana, velutina, vulgaris, zonata.
- Tringa** acuminata, albescens, arquatella, atricapilla, auduboni, aurita, australis, bartramia, bewicki, brevipes, brevis, calidris, campestris, canadensis, canutus, cayennensis, chilensis*, chinensis, cinerea, crassirostris, cuclius, curvirostris, damacensis, dominicensis, dorsalis, douglasi, dubia, eloriada, ferruginea, fuscicollis, glottis, guttata, hardwicki, hiaticula, himantopus, indica, leucopyga, limbata, littoralis, longipes, longirostris, macroptera, macrorhynchus, macroura, macularia, maculata, melanotos, meleagris, miles, minuta, minutella, oahuensis, parvirostris, pectoralis, picta, pigmaea, platyrhincha, pygmaea, pyrrhetraea, rubra, rufa, rufescens, rufus, rupestris, rutilans, sakhalini, sanderling, schinzi, semi-palmata, solitaria, subarquata, subruficollis, teminki, temminckii, tenuirostris, totanus, urvillei, variabilis, variegata, wilsoni. *Vide et Trynga.*
- Tringoides** bartramius, hypoleuca, macularia, rufescens.
- Trinodes** hirtus.
- Trinodus** agnostiformis.
- Trinoton** obscurum, squalidum.
- Trinotum** conspurcatum, lituratum, luridum.
- Trinucleus** asaphoides, barrandei, bigsbyi, brevis, bucklandi, caractaci, cataracti, clarki, concentricus, cribrosus, elegantulus, ellipticus, elongatus, fimbriatus, gibbosus, goldfussi, gracilis, granulatus, intermedius, laevis, latus, lloydi, minor, nilssoni, nudus, ornatus, otarion, pougerardi, pragensis, radiatus, scyllarus, senftenbergi, seticornis, spaskii, tessellatus, tuberculatus, wilkensi.
- Triodia** lupulina, sylvina.
- Triodon** macropterus.
- Triodonta** (Col.) alni, aquila, nitidula, noctua, tarsalis, truncata.
- Triodonta** (Inf.) kolpodina.
- Triodontus** nitidulus.
- Triodopsis** lunula.
- Triodus** sessilis.
- Triomphalia** cummingsi, globosa, pulcherrima.
- Trionix** aegyptiacus. *Vide et Trionyx* (R.).
- Trionychus** auriculatus, cribricollis, mucronatus, trituberculatus.
- Trionyx** (Hym.) deltiger.
- Trionyx** (R.) amansi, bakewelli, bartrami, carinatus, circumsulcatus, clifti, coromandelicus, cuvieri, doduni, egyptiacus, euphraticus, ferox, gangeticus, georgianus, georgicus, granosus, henrici, hurum, impressus, incrassatus, indicus, japonicus, javanicus, labiatus, laurillardi, lockardi, manouri, marginatus, miliaris, mortoni, muticus, niloticus, ocellatus, parisiensis, partschi, planus, polyphemus, pustulatus, rivosus, schlotheimi, sinensis, spiniferus, spinosus, stellatus, subplanus, sulcatus, triangulis, tuberculatus.
- Triopa** claviger, fimbriata, lacera, nothus.
- Triopades** eupalemon, orus.
- Triophthalmus** dorsalis.
- Trioplus** cylindricus.
- Triops** cancriformis, palustris.
- Triorches** fluvialis.

- Triorchis** fluvialis.
Triothorus mexicanus.
Trioxites rugosa.
Trioxys minutus.
Triozia abieticola, acutipennis, albiventris, apicalis, cinnabarina, crassinervis, curvatinervis, eupoda, femoralis, flavipennis, forcipata, gahi, haematodes, maura, modesta, munda, nigricornis, pallipes, pinicola, protensa, remota, sanguinosa, urticae, velutina, vitripennis, walkeri.
Tripanurgus leucocephala.
Tripetalocera ferruginea.
Triphaena chardignyi, comes, conseqa, fimbria, hetaera, innuba, interjecta, janthina, linogrisea, materna, orbona, pronuba, prosequa, subsequa.
Triphassa stalactis.
Triphlyctis oblitterata.
Triphora gemmatum.
Triphoris aemulans, affinis, alveolatus, asperrimus, bilix, cancellatus, candidus, carteretensis, castus, clemens, coelebs, collaris, concinnus, concors, corrugatus, dextroversus, elegans, gemmulatus, gigas, granulatus, grayi, hilaris, marmoratus, maxillaris, metcalfei, micans, moniliter, nodiferus, ornatus, pagodus, perversus, plicatus, pyramidalis, roseus, ruber, sculptus, speciosus, suturalis, tristis, verrucosus, vitreus, vittatus, vulpinus.
Triphosa certaria, certata, dubitaria.
Triphosia cervinata, cinereata, dubitata.
Triphylocoenia excavata.
Triphyllus bifasciatus, didesmus, fagi, ferrugineus, fumatus, obscurus, punctatus, renatus, rugosus, suturalis, variabilis.
Triphysa dohrni, tircis.
Triplatoma apicalis, macleayi, picta, sexnotata.
Triplax aenea, atriventris, bicolor, biguttata, bipustulata, brunnipes, capistrata, castanea, catenulata, clavata, collaris, cruentipennis, dentata, elongata, fasciata, festiva, flavicollis, flavicornis, gigantea, goudoti, haematosoma, haemorrhoidalis, melanocephala, melanoptera, menetriesi, nigriceps, nigripennis, omogera, pauxilla, quadriguttata, rubicunda, ruiceps, rubicollis, rubiventris, sanguinipennis, scutellaris, taeniata, thoracica, undata, violacea, vittata, westwoodi.
Triplex abortiva, cornucervi, cornuta, denudata, flavicunda, flexuosa, foliatus, frondosa, pinnata, ramosus, rosaria, rubicunda.
Triplodon rugosum.
Tripneustes parkinsoni, pentagonus, planus, sardicus, subcaeruleus, ventricosus.
Tripos muelleri, olivinus.
Tripsura flavifrons.
Tripsurus auritus.
Triptera astesana, columella, columnella, oryza, rosea.
Tripteronotus hautin.
Tripterus pollexfeni.
Tripterygion capito, fenestratum, forsteri, melaenocephalus, melanurus, nasus, nigripenne, varium.
Triptorhinus orthonyx, paradoxus.
Tripylus australis, cavernosa, excavatus.
Triquetra (Hem.) angustata, bos, fastidiosa, grossa, inermis, nigrocarinata, testacea, tridentata, truncaticornis, ustulata, virescens, virgata.
Triquetra (L.) aequorea, rectilinearis.
Trirachys orientalis.
Trirammatus angustatus, fulgidus.
Tririgma caerulea.
Trisidos tortuosa.
Trisis tortuosa.
Trisopterus fasciatus
Trissodon curtus.

Trissophaes collusaria, felicia.

Tristoma cephalae, coccineum, hamatum, maculatum, molae, papillosum, squali, sturionis, tubiporum.

Tristomum blanchardi, rudolphianum.

Tristychius arcuatus, minor.

Tritaxys australis.

Triticella flava.

Tritocosmia atricilla.

Trito currus amphitridis.

Tritogenius diluvianus, diluvii.

Tritoma *atkinsi*, *angulatum*, *atratum*, *basale*, *basalis*, *bicolor*, *bifasciatum*, *biguttatum*, *brunnea*, *cincta*, *collare*, *dimidiata*, *erythrocephala*, *fasciatum*, *flavipes*, *glabratum*, *humeral*, *limbata*, *livida*, *melanocephalum*, *minutum*, *nigricorne*, *nigripenna*, *piceum*, *pulchrum*, *piligerum*, *pulchrum*, *punctatum*, *quadrigitatum*, *rublabris*, *rubipenne*, *rufum*, *rossica*, *striatum*, *thoracicum*, *undatum*, *unicolor*, *xanthopus*.

Tritomacera aphanoides.

Tritomacrus testaceus.

Tritomegas bicolor, biguttatus.

Triton (G.) abbreviatus, acuminatus, aegrotus, affinis, alatum, amictus, angulatus, angustum, anomalus, antiquatus, anus, aequalis, areolatum, argutus, articulare, atavus, australe, bacillum, bicornutum, bracteatum, buccinoideum, bufonium, canaliculatum, canaliciform, cancellatum, carduus, ceylonensis, chlorostomum, clandestinum, clathratus, clavator, colubrinum, concinnus, constrictus, convolutus, corrugatum, crassidens, crassum, crispus, cutaceum, cynocephalum, decapitatus, decipiens, decaudatus, delafosseii, deshayesi, digitale, distortum, distortus, dolarium, eburneus, egegnus, elegans, elongatus, eucasticus, ensatus, ermani, exaratus, exilis, eximius, expansus, fasciculatus, femorale, ficioides, ficitilis, flandricum, fusiformis, gallinago, gemmatus, gibbosus, gracilis, grandimaeculatus, graniferus, gyrioides, heptagonum, hissingeri, intermedium, iostoma, lacunatum, laevigatum, lampas, lativiricosus, lejeunus, leucostomoides, leucostomum, lignarius, lineatus, lineolatum, lotorium, maculatum, mediterraneus, microphyllus, miocenicum, mississippiensis, monilifer, montinetus, multigraniferum, mundum, nitidulus, nobilis, nodiferum, nodularium, nodulosus, nubecula, obliquatum, obscurus, olearium, olodonta, pagodus, parvulum, parvus, perforatus, personatum, pfeifferianus, pictus, pileare, planicostatum, plicosum, pulchellum, pulchellus, pyramidatum, pyrastra, pyriformis, pyrylum, pyrum, quoyi, ranelloforme, ranelloformis, ranelloides, reticaudatum, reticulatus, reticulosus, retusum, ridens, rudis, sarcostoma, sauliae, scaber, scalariformis, scrobiculatus, subdistortum, subpinosum, succinctum, tarbellianum, tereticauda, tessellatus, testudinarius, thersites, tigrinus, torosus, tortuosum, tortuosus, tranquebaricum, trihneatus, tripus, tritonis, trochlea, truncatus, tuberosum, turbinelloides, turriculatum, turritum, undosum, unilobus, varians, variegatum, ventricosum, verrucosus, verruculosus, vespacium, vestitus, vexillum, viperinum.

Triton (Rept.) apenninicum, aquaticus, bibroni, cristata, dorsalis, exiguus, ingens, lateralis, maculosus, marmoratus, marmoratus, millepunctatus, minimus, nebulosus, niger, noachicus, nycthemerus, ocellatus, opalinus, ophryticus, oregonense, palmata, porreti, porphyriticus, ruber, similis, taeniata, tigrinus, vittatus, vulgaris.

Tritonalia alveolatus, argutus, coronatus, cristatus, defossus, erinaceus, minax, sexdentatus, tuberosus.

Tritonella gesneri.

Tritonia (G.) affinis, arborescens, atrofusca, auriculata, bifida, blainvillea, cervina, clavifera, coronata, costae, cyanobranchiata, decaphylla, elegans, fasciculata, felina, fimbriata, frondosa, gibbosa, glama, hombergi, lacerata, lacunculata, lactea, lineata, minima, papillosa, pennata, peregrina, pinnatifida, plebeia, plumosa, pulchella, pulchra, quadrilatera, quadrilineata, ramosa, reynoldsi, rubra, scyllaeoides, spallanzanii, squamata, tentaculata, tetraquetra, thetydea, varicosa, velata.

Tritonia (Lep.) *acuminata*, eupompe.

Tritonidea *aculeiformis*, *articularis*, *articulata*, *maculosa*, *torulosa*, *undosa*.

Tritonium adpressus, angustum, antiquum, apenninicum, argus, argutus, baeri, bartonensis, behringi, bicinctum, bituberculare, bonaninii, bracteatum, cancellatum, cancellinum, caudatum, caudiseta, chemnitzii, chlorostomum, clathratum, colubrinum, contabulatum, corrugatum, crassum, cruciatum, crumena, cutaceum, declive, decussatum, distortum, doliare, eburneum, femorale, foliatum, foxi, giganteum, granulatum, gunneri, gyrioides, hemastoma, heptagonatus, heptagonum, hisingeri, incarnatum, laevigatum, lampas, leucostoma, luridum, macrodon, macrourum, maculosum, marmoratum, mediterraneum, mitrula, muensteri, multigraniferum, nanum, nodiferum, nodosum, nodularium, nodulus, ochotense, ooides, partschi, pileare, piraster, planicostatum, plumatum, pulchellum, pygmaeum, pyramidatum, pyrum, rana, ranelloides, reticulare, reticulatum, reticulosum, roseum, rotifer, rugosum, rutilum, scabrum, schantaricum, scrobiculatus, semigranulosum, simplex, sitchense, spinosum, striatulum, subspinulosum, sulcatum, tabulatum, tarbellianum, tenerum, tortuosum, tuberculiferum, turriculatum, turritum, undulatum, unifiliosum, varicosum, ventricosum, verrucosum, vespaceum, viperinum, vitreum.

Triturus fuscus, hypoxanthus, lutescens, miniatus, nebulosus, viridescens.

Triungulinus andrenetarium.

Triura cavernicola.

Triurus commersoni, microcephalus.

Trivia (Ar.) humilis, leucostigma, rubiginosa, vetusta.

Trivia (G.) angliae, aperta, avellana, barcinensis, carnea, coccinella, dimidiata, europaea, globulosa, pacifica, pediculus, pustulata, retusa, sphaerulata, testudinella.

Trixa alpina, amsteini, apicalis, caerulea, dorsalis, ferruginea, grisea, imhoffi, lapponica, lateralis, limbata, montana, obscura, oestroidea, scutellata, uncana, variegata.

Trixia schummeli.

Trochalia annulata, depressa, grandis, pyramidalis, subpyramidalis, turbinata.

Trochalonota badia.

Trochalopteron melanura, phaeniceum, rufigulare, setifer, squamatum, subunicolor.

Trochalus bisignatus, carinatus, desjardinsi, dissimilis, fallax, javanus, meridionalis, nilotica, occidentalis, pilula, posticus, rotundatus, rugulosus, senegalensis, sphaeroides.

Trochatella constellata, cretaceum, elegantula, gouldiana, grayana, pulchella.

Trocheta trocheti.

Trochetia subviridis.

Trochia sulcata.

Trochictis beskei, carbonaria.

Trochidon canalifera, labeo, viridis.

Trochilea pileus.

Trochiletes antrinus.

Trochilia sigmoides.

Trochilites acutus, concentricus, conchyliphorus, crenularis, delphinulatus, depressus, ellipticus, globosus, granulosus, granulatus, helicus, infundibuliformis, laevis, limbatus, niloticiformis, nodosus, pentagonatus, politus, priscus, pseudoperspectivus, pseudozyphinus, scheuchzeri, solarius, speciosus, telescopiiformis, umbilicatus.

Trochilium allantiforme, andrenaeforme, apiformis, ashtaroth, astarte, cato, chrysidiforme, crabroniformis, culiciforme, cynipiforme, denudatum, éurytion, formicaeforme, ichneumoniforme, laphriaeforme, marginatum, muscaeforme, myopaeforme, philanthiforme, phorceus, stomoxyforme, tibiale, vespiforme.

Trochilla auriculata, prisca.

Trochilus addae, adela, aeneocauda, aglaiae, alardi, albicollis, albirostris, albiventris, alexandri, alico, allardi, amaryllis, amazilia, amethystinus, amethystocollis, amethystoides, anais, angustipennis, anna, anthophilus, antoniae, apicalis, aquila, asilus*, atala, ater, atratus, atricapillus, atrigaster, audeneti, augusta, augusti, aureliae, aureo-viridis, aurescens, auriculatus, auritus, aurogaster, aurentus, avocetta, azara, azureus, barroti, beryllinus, bilophus, boucieri, brachyrhynchus, bracteatus, brevicauda, brevirostris, buffoni, caeligena, caeruleogaster, caeruleus, caligatus, calliope, calurus, campestris, campylostylus, candidus, caroli, castanurus, castelnaui, caudacutus, ceciliae, cephalus, chalcotis, chalybeicaudus, chalybeus, chilensis, chimborazo,

chionogaster, chlorothorax, chrysobronchos, chrysogaster, chrysurus, cinereicollis, cinereus, cirrochloris, clangula, clarigula, cohuatl, collaris, conradi, conurus, conversii, cora, corallirostris, coruscans, coruscus, cristatellus, cristatus, cuculliger, cupricauda, cupreoventris, cupripennis, curvipennis, cuvieri, cyaneus, cyanifrons, cyanogenys, cyanopectus, cyanopogon, cyanopogos, cyanopterus, cyanotus, cyanurus, cyanus, davidianus, decorus, delalandei, derbianus, derbyi, devillei, dilophus, doubledayi, duponti, edwardi, elegans, eliciae, eliza, emiliae, enicurus, ensipennis, erythronotus, estella, eucharis, eurynome, eurypterus, evelynae, exortis, falcatus, fallax, fannyi, fasciatus, fernandensis, ferruginatus, festivus, flabelliferus, flavescens, flavicaudatus, floresii, francae, fulgens, fulvifrons, fulviventeris, furcifer, fuscicaudatus, fuscus, gayi, geoffroyi, georginae, gibsoni, giganteus, gigas, goudoti, gouldi, gracilis, gramineus, grayi, guerini, guineti, guttatus, gutturalis, guy, hemileucrus, herrani, hippolais*, hirundinaceus, hispidus, histrio, hypoleucus, icterocephalus, ignitus, incertus, inornata, insectivorus, insignitus, intermedius, janthinotus, johannae, josephinae, labrador, lafresnayei, langsdorffi, laticaudus, latipennis, latirostris, lazulinus, lazulus, leadbeateri, leucocrotaphus, leucogaster, leucophrys, leucopleurus, leucotis, ligonicaudus, loddigesi, longirostris, longuemareus, louise, luciani, lucidus, ludovicae, lumachellus, lutetiae, maculata, maculatus, magnificus, major, malaris, mango, maria, mariae, marmoratus, matthewsi, maugaeus, maugaeus, maximus, mazeppa, medius, melanogaster, melanogenys, melanolophus, melanotis, melanotus, mesoleucus, milleri, minor, minullus, mirabilis, mitchelli, mocoa, montana, montanus, mosquera, mystax, naevius, niger, nigricollis, nigrofasciata, nitens, nitidissimus, norrisi, notatus, nuna, obscurus*, ochropygus, opacus, opisthocomus, orbigny, orthura, otero, papantzin, parirostris, pectoralis, petasophorus, phaeton, philippii, phoeopygus, pichincha, pileatus, platycercus, polionotus, popelairei, prasina, pretrei, prevosti, prunelli, pucherani, punctatus, pygmaeus, pyra, quadricolor, recurvirostris, regina, reginae, regis, regulus, riefferi, rivoli, rosae, rubinoides, rubricauda, ruckeri, rufa, ruficaudatus, ruficaudus, ruficeps, ruficollis, rufigaster, rufocaligatus, rufus, sabiniae, sapphirinus, saucerrottei, saul, saulae, schreibersi, scutatus, sephanoides, serrirostris, sibellans, sibillans, smaragdinus, smaragdo-sapphirinus, sophiae, sparganurus, spencei, spicatus, splendidus, squalidus, squamosus, stokei, strophianus, superbus, swainsoni, temminckii, tephrocephalus, thalassinus, topiltzin, tricolor, turneri, tyrianthinus, tzacatl, uropygialis, variegatus, versicolor, verticalis, vesper, victoriae, vieilloti, violicauda, violifer, violifrons, viridigaster, viridigula, viridi-pallens, viridis, vulgaris, wagleri, watertoni, williamii, wilsoni, xicotencal, yarrelli, yucatanensis.

Trochiscus (Ar.) sobrius.

Trochiscus (G.) bidentata, dolopida, limnifera, norrisi, unidentata.

Trochita chinensis, occidentalis, pileus, radians, spiralis.

Trochites saussurei.

Trochius crassus.

Trochlea alba, nitens.

Trochoceras sandbergeri.

Trochocrinites laevis.

Trochocyathus alpinus, armatus, atalayensis, bellardi, bellingheriana, brevis, conulus, cornucopiae, cornutus, costulatus, crassus, cyanomelas, cyclolitoideus, elongatus, gracilis, grandis, harveyanus, impari-partitus, konigi, konincki, latero-cristatus, latero-spinosus, michelini, mitratus, obesus, plicatus, pyramidatus, pyrenaicus, raricostatus, revolutus, simplex, sinuosus, sismondae, subcristatus, sublaevis, subundus, tenuistria, thorenti, undulata, verricostatus, verrucosus, warburtoni.

Trochogonium rotula.

Trochoidea formosum, terrestre.

Trochoideus americanus, amphora, cruciatus, dalmanni, desjardinsi, hopei.

Trocholites ammonius, angustisepta, annulata, antiquissima, bisulcata, cincta, compressa, dunkeri, fasciata, inflata, laevigata, linearis, paradoxa, planorbiformis, pleurosepta, plicata, pygmaea, sagittalis, spinosa, sulcata, valida.

Trochophyllum verneuili.

Trochopora conica.

Trochopus longipes.

Trochosa intricaria, ruficula, trabalis, troglodytes, umbraticola.

Trochoseris distortum.

Trochosmia basochei, boissiana, cernua, complanata, compressa, corniculum, crassa, cuneolus, faujasi, gervillei, irregularis, patula, saltzburgiana, sulcata, tuberosa, uricornis.

Trochotoma acuminata, atinis, carinata, conuloides, depressiuscula, funata, globulus, gradus, rota.

Trochula conica, elegans, scitula.

Trochurus speciosus.

Trochus abanteus, abbreviatus, aborus, abrodiaetus, absyrtus, acanthus, acasta, acinosus, acis, acmon, actaea, acteon, aculeus, acuminatus, acutangulus, acutangulus, acutecarinatus, acutimargo, acutus, adansonii, adelae, argion, aegyptiaca, aequalis, aequilineatus, aeruginosus, aethiis, agathensis, agglutinatus, agilis, aglietti, agrestis, ajax, alabastrium, albandus, albensis, albertinus, albidus, alligatus, alpinus, altavillensis, alternans, altus, alveolatus, amedei, amelianus, amictus, amoenus, amor, anaglypticus, anceps, anceus, andrzejewskii, anglicus, angulatoplicatus, angulatus, angulosus, angustatus, antonii, anus, apiaria, apicina, aquatilis, aratus, araucanus, arcotensis, arenosus, armatus, armillatus, articulatus, arvensis, asius, asperatus, aspersus, asperulus, aster, asteriscus, astierianus, ater, atratus, atropurpureus, attenuatus, attrahans, audebardi, auratus, aurelius, aureus, australis, baccata, badius, balaenarum, baldus, barremensis, basteroti, bathus, baugieri, beaumonti, bellardi, bellona, bellulus, bellus, belus, benetti, benettiae, benzi, berosoides, berosus, biangulatus, bianor, biarmatus, biasoletti, bicaniculatus, bicarinatus, bicariniferus, biceps, binictus, bi-cinguendus, bicingulatus, bicolor, biceratus, bidens, bifasciatus, binodosus, binodularis, bipunctatus, biserratus, bisertus, bi-striatus, bisulcatus, bixa, blainvilliei, borni, borsoni, boscianus, bouci, bourgeisi, branderi, brasiliensis, brauni, breislaki, brevispina, brevispinosus, bromius, brongniarti, bronni, brunneus, brunripes, brutus, buchi, bucklandi, bullatus, buneli, buschi, buvigieri, byronianus, caeruleus, californicus, calix, calliferus, callosus, calyculus, calyptraeformis, campestris, canaliculatus, cancellatus, candei, canis, caperatus, capillaceus, capillosus, capuliformis, carbonarius, carinatus, cariniferus, carneolus, cassianus, castaneus, catenatus, catenularis, catenulatus, caumonti, celinae, cerberi, chemnitzii, chierichinus, chinensis*, chionus, chlorites, chlorostomus, cicatricosus, ciccr, ciliaris, cinctus, cinerascens, cineroides, cinereus, cineroides, cingillato-serratus, cingulatus, circulatus, circumscutatus, cirroides, cirrus, clanguloides, clangulus, clathratus, clelandi, clodianus, coccineus, coeruleus, cognatus, collaris, colligens, colubrinus, columellaris, complanatus, compunctor, concameratus, concava, concavus, conchyliophorus, concinnus, confusus, conicus, coniformis, conoideus, conspersus, constrictus, conuloides, conulus, conus, convexus, cooki, cordieri, cordierianus, cornutus, coronarius, corrugatus, corvus, costellifer, costifer, costulatus, couturi, cranchi, crassus, crebrilibratus, crenatus, crenularis, crenulatus, crinitus, crispulus, crispus, cruciger, cruentus, cubanus, cumingi, cumulans, cunninghami, cupido, cyanescens, cyclochalas, cyclostoma, cyclostomus, cyrnaeus, daedalus, dama, dargelasi, darius, decarinatus, declivis, decoratus, decussatus, dekinii, delia, delicatulus, delphinuloides, denticulatus, dentigerus, deperditus, depictus, depressus, deshayesi, deslongchampsii, detritus, devonicus, diadenatus, dichotomus, dictyotus, digitatus, dilatatus, dimidiatus, diomedes, dirce, discoideus, discrepans, disculus, disjunctus, ditropis, dolarius, dolarius, doris, draparnaudi, drusius, dubius, dujardini, dumerili, dunkeri, duperreyi, duplicatus, eboreus, echinatus, echinulatus, elatior, elatus, electissimus, elegans, elegantulus, elevatus, elisus, ellipticus, elongatus, empedocles, emylius, eolus, epulus, erithreus, erubescens, erythroleucus, erythrophthalmus, eucosmus, eudoxus, euomphalus, euryomphalus, eurytus, exaltatus, excavatus, exiguus, exilis, eximius, extensus, farinesi, fasciatus, fasciolatus, fastigiatus, faxoensis, feneonianus, fenestratus, fermioni, ferrugineus, festivus, fictilis, fidia, filiosus, fimbriatus, fischeri, flagellatus, flammulatus, flavus, formosus, foveolatus, fragarioides, fragilis, fragum, fulguratus, fulvescens, fulvus, funiculatus, funiculosus, fuscus, fuscus, gabrielis, gea, genitzi, gemmatus, gemmosus, gemmulatus, genei, getus, gibberosus, gibsi, giganteus, gigas, girondinus, glaber, glabratus, globulus, glomus, gnydus, gonistomus, gracilis, gradatus, granatelli,

grandineus, grandis, granosus, granulolinearis, granulato-striatus, granulatus, granulatus, gravesi, grossi, gruneri, gualterianus, guerangeri, guildfordiae, gundlachi, gurgites, guttadauri, guttatus, guyotianus, haematragus, haeninghausianus, haimeanus, halesus, handeyanus, haraldus, hausmanni, helenus, heliacus, helicoides, helicinus, helices, helicoides, helirus, helius, hexagonus, hisingerianus, hommairei, honi, horridus, hotessierianus, hugianus, humilis, huoti, huroniensis, hyacinthinus, hylus, hysginus, ignobilis, imbricatus, impervius, incarnatus, incrassatus, indecorus, indistinctus, inflatus, infundibuliformis, infundibulum, infuscatus, insignis, instrictus, interruptus, interstinctus, iriodon, irisodontes, irregularis, japonicus, javanicus, jennyi, jonasi, jucundus, jurensis, jurensisimilis, jussaei, jussieui, kickxi, klippsteini, kochi, kotschyi, kraussi, labadyei, labarum, labiosus, labrosus, lacordairianus, lacteus, laetus, laevigatus, laevis, lamarcki, lamellosus, langrunensis, largillierii, lateumbilicatus, laticostatus, latispina, laugierii, lehmanni, lens, lenticularis, lenticulatus, lepidosus, lepidus, leprosus, lessoni, leucophaeus, leucostigma, leymeriei, ligatus, ligeriensis, ligulatus, limacodes, limacoides, limbatus, linearis, lineatus, lineatus, lineolatus, listeri, lithophorus, littoralis, longispinus, lorieri, lucasianus, lucidus, luciensis, luctuosus, ludwigi, lugubris, luridus, luteus, lyaeus, lyciacus, lycius, lycus, lyneus, lyonsi, macareus, maculatus, magulus, major, majugenus, malouinus, mammillaris, mangialardi, mantelli, marcaisi, margaritaceus, margaritarii, marginatus, marginulatus, marmoratus, marolinus, marrotianus, martini, martinianus, matoni, maugeri, maxillata, maximiliani leuchtenbergensis, maximus, meandatus, mediterraneus, melaleucos, melanoloma, melanostoma, melchersi, melissus, menckeanus, merula, meruloides, mesapus, metis, meyeri, nichaudi, microstomus, miliariformis, miliaris, millegranus, minimum, minimus, minutissimus, minutus, mitchelli, mitra, nitratu, modestus, moestus, monilifer, monilitectus, monoplicus, montacuti, montagui, moreanus, mortoni, morum, mosae, moutonianus, multicinctus, multicolor, multigranus, multitorquatus, muricatus, musulus, mysis, nanus, nassavensis, nasutus, nebulosus, neptuni, nereis, nessigi, neuris, nicoletianus, niger, nilssoni, nissus, nitens, nitidissimus, nitzschii, nobilis, nocturnus, nodosus, noduliferus, normanianus, nubilus, nudus, obconicus, obscurus, obsoletus, obtusatus, obtusus, occidentalis, occultus, ochraceus, octosulcatus, oculus, odontis, oedipus, olfersi, olivaceus, olivieri, omphalum, oncus, onustus, orichalceus, orion, ornatissimus, ornatus, ottois, oxygonus, oxytropis, pageanus, pagodus, pallidus, pallium, paludosus, panamensis, papilla, papillatus, parisiensis, parvulus, patagonicus, patellatus, patholatus, patulus, pellis serpentis, pellucidus, peralveatus, perforatus, peroni, personatus, perspectivunculus, perspectivus, petraeus, pfeitteri, phaseolus, philanthropus, philippii, pica, pictus, pileus, pitevillei, piperinus, pisum, planatus, planorbularis, planorbulus, planulatus, planus, plicato-carinatus, plicato-granulosus, plicatulus, plicatus, plicomphalus, podalicus, podalirius, politus, pollux, polymorphus, polyphyllus, poppelacki, prasinus, preisi, preissianus, princeps, priscus, proclus, prominens, pruninus, pseudoconuloides, pseudohelix, pseudoperspectivus, puber, pulchellus, pulcher, pulcherrimus, pullatus, pumilio, punctatus, punctulatus, puniceus, pupillus, puppeus, purpura, purpurascens, puschi, pusillus, pygmaeus, pyramidalis, pyramidatus, pyrenaeus, quadrangulodulosus, quadratus, quadricarinatus, quadricinctus, quadricingulatus, quadrucostatus, quadrilineatus, quadriseriatus, quadristriatus, quadrisulcatus, quinquecinctus, quinquelineatus, racketti, radians, radiatulus, radiatus, radula, rajah, rarielineatus, rarus, reclusus, rectus, regalis, reichii, renierius, requienianus, reticularis, reticulatus, rhodani, rhodostomus, richardi, rigatus, ringens, robynsi, roemerii, roissyi, rollandianus, roseus, rotellaris, rotellinus, rotelloides, rotularius, rouillieri, rouyanus, rozeti, rubescens, rubiginosus, rubricatus, rubro flammulatus, ruffinii, rufipes, rugatus, rugosus, rugulosus, rupestris, saga, sagittiferus, sagus, salmoneus, sandwichiensis, sanguineus, sannaio, sari, sarmates, sarthinus, sauciatus, saulcyi, saxosus, scabriculus, scacchii, scalaris, schantaricus, schayeri, schreibersianus, schuebleri, scillae, scrutarius, sculptus, sedgwicki, selectus, semicostulatus, semiglobosus, semigranularis, semigranulatus, seminigra, semipunctatus, seriatus, seriopunctatus, serratus, signatus, similis, similus, simplex, sitis, smaragdinus, smithi, solaris, solarium, solidus, sowerbianus, sowerbyi, spadiceus, speciosus, sphaeroidicus, spiniger, spinulosus, spiralis, spiratus, spiritus, splendens, spratti, spurcus, squamiferus,

squamosus, squarrosus, stella, stellaris, stellatus, stenomphalus, striatissimus, striatulus, striatus, strigilatus, striolatus, struveanus, studeri, sturnus, subbisertus, subcalcar, subcanaliferus, subcancellatus, subcarinatus, subcinctus, subconcausus, subcordatus, subcostatus, subcyclostomus, subderussatus, subdentatus, subelatus, subelegans, subexcavatus, subfragilis, subglaber, subgracilis, subhelicinoides, subimbricatus, sublaevis, sublineatus, subnodosus, subnudus, subornatus, subpulcherrimus, subpunctatus, subpyramidalis, subpyramidatus, subreticulatus, subscalaris, subsulcatus, subtricarinatus, subumbilicatus, subverrucosus, subviridis, succinctus, sulcata, sulcatus, suturalis, tabularis, taeniata, taeniatus, tampaensis, tamsi, tankervillei, tantillus, tathami, tectus, tempestivus, tentoriiformis, tentorium, tenuis, tenuispira, terebellus, terrestris, testaceus, testigerus, texturatus, thetis, thiara, thorinus, tiara, tiaratus, tigrinus, timeus, tityrus, tollotianus, tornatus, torosus, torquatus, torulosus, trachallus, tranquebaricus, transversatus, trevelyana, triangulus, tricarinatus, tricariniiferus, tricinatus, tricolor, tricostratus, tridens, trigonostomus, trigonus, trimaculatus, trimonilis, triplex, triqueter, triserialis, tristriatus, triton, triumphans, trochlea, trocheli, tuberculatus, tuberculatus, tuberculatus, tuberosus, tumidulus, tumidus, turbinatus, turbinoides, turgidulus, turricula, turri-formis, turris, turrita, turritus, umbilicatus, umbonatus, unatus, undatus, undosus, undulatus, unguis, uniangulatus, unidens, unidentatus, usocona, ustus, variabilis, varians, variegatus, venonius, venosus, venustus, vernalis, verneuili, verruca, verrucosus, versicolor, vertex, verticosus, vieilloti, villanus, villicus, vinctus, violaceus, virescens, virgineus, virgulatus, viridis, viridulus, vitiligineus, voltzi, voronejensis, voronzoii, vortex, vorticosus, vulgaris, wiseri, yvani, zebra, zebrinus, zelandicus, zinkenii, zonatus, zuccarelli, zukowcensis, zyziphinus.

Trochylus pygmaeus.

Troctes fatidicus, pulsatorius.

Troglodites troglodytes. *Vide et Troglodytes (A.)*.

Troglodyta bonti.

Troglodytes (A.) aedon, albinucha, americana, arada, arundinaceus, attothorax, audax, bewicki, brevirostris, chilensis, coraya, deflexus, domesticus, europaea, fulva, fumigatus, furva, guarayana, guttatus, hiemalis, hornensis, interscapularis, latifasciatus, leucogastra, leucophrys, leucopymnus, longirostris, ludovicianus, maculosa, magelanicus, melanos, mexicanus, murarius, murinus, musculus, nipalensis, nititans, obsoleta, pallida, palustris, paradoxus, parkmani, parvulus, pincpine, platensis, polyglottus, punctatus, rectirostris, rufulus, rutilus, spilurus, stellaris, subhemalayanus, sylvestris, tessellata, vulgaris. *Vide et Troglodites*.

Troglodytes (M.) gorilla, micrurus, niger, savagei.

Trogllops albicans, brevis, capitatus, marginatus, silo, verticalis.

Trogodendron fasciculatus, honestum.

Trogoderma elongata, elongatula, nigra, pallipes, rignuum, ruicornis, subfasciata, tarsale, versicolor, villosa, villosula.

Trogodes rotundicollis.

Trogolus coriziformis.

Trogon aeneus, albicollis, albiventer, ambiguus, antisanus, ardens, assimilis, atricollis, aurantius, auratus, auriceps, capistratum, castaneus, chrysogaster, cinnamomeus, citreolus, collaris, curucui, diardi, domicellus, duvauceli, elegans, erythrocephalus, flagrans, fulgidus, gigas, gloucians, heliothrix, hodgei, kasumbra, lepturus, leucurus, mackloti, malabaricus, massena, melanopterus, melanurus, meridionalis, mexicanus, morgani, narina, neoxenus, oreskios, paradiseus, pavoninus, personata, peruvianus, puella, purpuratus, ramoniana, reinwardti, resplendens, rhodogaster, rosalba, roseigaster, rufus, rutilus, sulphureus, surrucura, temminckii, temnurus, variegatus, xalapensis.

Trogonophis wiegmanni.

Trogontherium werneri.

Trogophloeus affinis, angulatus, argus, bilineatus, brevipennis, caucasicus, corticinus, dilatatus, elongatus, exiguus, ferrugineus, flavipes, foveolatus, fuliginosus, fulvipes, halophilus, incrassatus, inquilinus, mannerheimi, memnonius, morio, niloticus, nitidus, obesus, omalinus, opacus, plagiatus, planus, politus, pumilus, punctatellus,

punctipennis, pusillus, pygmaeus, rosenhaueri, scrobiculatus, segnis, signatus, subtilis, tarsalis, tenellus, troglodytes.

Trogosita affinis, africana, americana, australis, bimaculata, bipustulata, calcar, capensis, castanea, chlorodia, cinnamomea, collaris, corticalis, cyanea, cylindrica, decorata, dendrobia, dilatata, dubia, emortua, femorata, filiformis, ingenicula, koellikeri, limbalis, major, mandibularis, mauritanica, maxillosa, metallica, nana, nigricans, nigripennis, nitidula, opaca, orientalis, ovata, parallela, pini, polita, punctato-lineata, pusillima, pygmaea, quadricornis, quadriguttata, retusa, sepicola, spectabilis, squamosa, taurus, tenebroides, vacca, varia, viridicyanea.

Trogossita angustata, colossus, crenicollis, cylindrica, depressa, depressior, doumersi, ebenina, elongata, festiva, fulgidi-vittata, grandis, longicollis, major, marginata, maxillosa, metellica, mutica, quadridens, splendida, sublaevis, subnigra, variants.

Trogulus africanus, annulipes, asperatus, coreiformis, crassipes, lygaeiformis, melanotarsum, nepaeiformis, niger, rostratum, squalidus, squamatus, templetoni, tingiformis, tricarinatus, violaceus.

Trogus (Col.) lateralis.

Trogus (Hym.) affinis, alboguttatus, atrocaudatus, atropos, caerulator, caeruleator, dissimilator, exesorius, flavatorius, fuscipennis, gravenhorsti, lapidator, luteiventris, lutorius, nubilipennis, obsidianatus, rufescens, vulpinus.

Troides amplumedon, amphrysus, astenous, helena, minos, priamus, remus.

Troilides tros.

Troilius areolatus.

Trombidium aphidis, assimile, assiratum, autumnale, baccarum, barbarum, barbatum, bicolor, bipunctatum, bipustulatum, castaneum, caudatum, celer, cinereum, citrinum, coccineum, cordatum, cordiforme, cornigerum, cornutum, corrugatum, croceum, culcis, cursorium, curtipes, elongatum, erythrellum, expalpe, fasciatum, fasciculatum, filipes, flavum, fuliginosum, glabrum, globulus, grandissimum, hermani, hirsutissimum, hispidum, hortense, ignipes, inflatus, insectorum, lapidum, latirostre, latum, libellulae, longipes, macropus, major, miliare, miniatum, molliculum, motatorius, murorum, muscarum, muscosum, ovale, papillosum, parasiticum, parietinum, pexatum, phalangii, phalangoides, philogeum, planum, porrigens, procerum, pulchellum, puniceum, purpureum, pusillum, pygiacum, pyrrholeucum, quisquiliarum, rhodinum, rhombicum, rimosum, roseum, ruberrimus, rubescens, rupestris, ruriculum, russatum, salicinus, sambuci, sanguineum, scabrum, seminigrum, sericeum, socium, squamatum, squamosus, sylvaticum, telarium, tenuipes, tiliarium, trigonum, trimaculatum, triste, villosum.

Trompe jaculator.

Tropaea luna, selene.

Tropaeum bowerbanki*.

Trophon altum, alveolatum, antiquum, banfi, barvicensis, clathratum, clathratus, consociale, costiferum, crassilabris, elegans, fabricii, fimbriatus, gracile, gracilius, gyratus, imperspicuum, magellanicus, muricatum, muricatus, patagonicus, paululum, scalariforme.

Trophonia barbata*, goodsiri.

Tropicoris rufipes, vernalis.

Tropidaster pectinatus.

Tropideres acerbus, albirostris, albuginosus, asper, balteatus, bisignatus, caliginosus, cinctus, dorsalis, edgreni, ephippium, fascirostris, feralis, luscus, lutatus, musivus, nasutulus, niveirostris, pallidirostris, pudens, securus, sepicola, sparsus, subsignatus, trivialis, undulatus, variegatus.

Tropidia albistylum, dorsalis, fasciata, milesiformis, rufomaculata.

Tropidocyathus lessoni.

Tropidoderus childreni, hopaei, tiphon.

Tropidodryas serra.

Tropidogaster blainvillei.

Tropidogerrhon rudicollis.

Tropidolaemus wagleri.

Tropidolepis aculeatus, aeneus, africanus, belli, fasciatus, formosus, grammicus, horridus,

microlepidotus, pleurostictus, scalaris, scincicauda, spinosus, torquatus, undulatus, variabilis.

Tropidolepisma kingi, major, nitida, striatum.

Tropidolepisma dumerili.

Tropidonotus aestivus, ater, australis, barbarus, bipunctatus, cerasogaster, chrysargus, constrictor, crebrispunctatus, cyanocephalus, dekayi, dimidiatus, dora, elaphis, erythrogaster, fasciatus, gracilis, hybridus, hydrus, hypostictus, junceus, leberis, maierei, melanogaster, moestus, mortuarius, natrix, niger, ordinatus, palustris, persa, picturatus, plumbicolor, poecilostoma, porcatus, quadrivirgatus, quincunciatus, quinque, rhodomelas, rigidus, rufodorsatus, saurita, sauromates, scaber, schistosus, scutatus, sipedon, sirtalis, spilogaster, stolatus, striatulus, subminiatus, surgens, taenia, talantulus, taxispilotes, tessellatus, tigrinus, torquatus, trianguligerus, trivittatus, umbratus, vibakari, viperinus, vittatus.

Tropidopeltis strigiventris.

Tropidophis melanurus, schistosus.

Tropidopholis fitzingeri.

Tropidophora aphistris, articulata, aspera, calcarea, citrina, cuvierianum, flexilabrum, fulvescens, luisabonis, multifasciatum, obsoleta, pulchra, pyrostoma, rugosa, tricarinatum.

Tropidophorus (R.) cocincinensis.

Tropidorhynchus albipennis, argenteiceps, bouroensis, buceroides, chrysotis, cineraceus, citreogularis, corniculatus, cyanotis, diemenensis, inornatus, moluccensis, monachus, sordidus, subcornutus, timoriensis.

Tropidosaura algira, burchelli, capensis, dumerelli, elongatus*, montana, oxycephalus, quinquecarinatus, quinquevirgatus, sanctus, tressianus, venustissimus.

Tropidosaurus elongatus, heros.

Tropidosoma spencei.

Tropidotragops rostrata.

Tropidurus chilensis, cubensis, cyclurus, heterolepis, microlepidotus, microlophus, nattereri, nigromaculatus, nitidus, olivaceus, oxycephalus, schreibersi, torquatus.

Tropinota hirtella, luctuosa, nigrina, reyi, squalida, subfasciata, submaculata.

Tropinotus (Orth.) cinnamomeus, discoideus, obsoletus, serratus.

Tropiorhynchus orientis, podagricus.

Tropiphorus carinatus, cinereus, globatus, mercurialis, micans, ochraceosignatus.

Tropirhinus affaber, novemdecim-punctatus.

Tropis dimidiata, oculifera.

Tropisoma corrugatum, ferrugineum, pallipes.

Tropisternus ebenus, glaber, lateralis, lineatus, mergus, mexicanus, nitens, ovalis, striolatus.

Tropistes nitidipennis.

Tropisurus paradoxus.

Tropopsis biguttatus, marginicollis.

Tropopterus duponcheli, giraudyi, montagnei, nitidus.

Troscus adstrictor, clavicornis.

Trosia dimas, tricolora.

Trothisa haworthana, minuta, paula.

Troticus ovatus.

Trox aeger, aegrotus, aequalis, alternans, alternatus, arenosus, asiaticus, asper, australasiae, bonariensis, brevicollis, bullatus, cadaverinus, canaliculatus, capillaris, carolinus, ciliatus, concinnus, coriarius, corticalis, costatus, cribrum, denticulatus, distinctus, erynaceus, evermanni, eximius, fascicularis, fasciculatus, gemmiferus, globosus, granulatus, griseus, hispidus, lachrymosus, lacordairei, leprosus, lutosus, murinus, oblongus, ordinatus, ovatus, pastillarius, patagonicus, pectinatus, petechialis, pilularius, pinguis, porcatus, punctatus, radula, reticulatus, scabrosus, scutellaris, serrulatus, setosus, silphoides, splendidus, spurius, striatopunctatus, striatulus, striatus, sulcatus, terrestris, trisulcatus, undulatus, unistriatus, varicosus, variolatus.

Truncaria filosa.

Truncatella atotus, aurantia, bilabiata, caribaeensis, clathrus, costata, costulata, cuneata, exilis, nlosa, fusca, guerini, laevizata, minuta, modesta, obesa, porrecta, pulchella, quova, rostrata, scalariformis, scalaris, solida, striatula, subcylindrica, succinea, terebralis, truncata, truncatula, valida, ventricosa, vitiana.

Truncatula nix, repens, subtruncata, truncata.

Truncatulina advena, arabica, ariminen-sis, australe, beaumontiana, boueana, candei, communis, contracta, depressa, di-pars, elongata, infraetiosa, laevigata, laevis, lobata, miqueloneis, ornata, punctata, refulgens, sublaevis, tuberculata, variabilis, verruculata.

Truncilla gratulata, metaplata, perplexa, triqueter, triquetra, truncata.

Truncularia teres.

Trypanea anthi, albiberbis, apicalis, arcuata, bardanae, bastardi, berberidis, bifasciata, castra, cardui, castanipes, cerasi, ceylanica, cirsii, clausa, consanguinea, dorsalis, divanelli, externe testacea, flavibarbis, flavifasciata, fulvipes, fusca, fuscipennis, gracilis, grandis, heteroptera, hirtiventris, incisa, incisuralis, javana, latitarsata, leontodontis, leuca antha, limbata, longipes, longiterebrata, maculata, manillensis, marci, myodes, meriges, onopordi, orientalis, placida, punctata, punctostriata, purpurea, quatuorlineata, reticulata, roberti, rubritarsata, rubibarbis, rufimystacea, rumpes, ruf-sanguinata, senationis, senegalensis, solstitialis, sphaerocephali, sphondylii, spissibarbis, tanaeti, tasmanensis, tibialis, umbellatarum, varipes, vertebrata, vicina, westermanni.

Trypialis denhippi, guianensis, loyca, militaris, superdiaris.

Trutina sodenodea.

Truxalis abbreviatus, acutipennis, adpersa, annulatus, bicolor, bilineatus, brasiliensis, brucei, brunneus, chinensis, cinereus, conspurcatus, coriacea, crenatus, crenulatus, dentatus, dorsalis, eximius, flavipes, fuscus, grandis, grylloides, interruptus, linearis, lineatus, marginellus, miniata, nasutus, nebulosus, notochlorus, obscurus, obsolleta, pellucida, pharaonis, procerca, rhodoptila, rosea, rubripennis, rufescens, sanguineus, scalar, scalaris, serratus, tenuis, testaceus, undatus, unguiculata, unicolor, variabilis, viatica, viridis, viridulus.

Trybliophorus octomaculatus.

Trycheres mediana.

Trychina schueppeli.

Trychopteryx evanescens.

Tryciphona immaculata.

Trygon (P.) aierela, akajei, aldovandi, altavela, aquila, arnak, bennetti, bruceo, cuculus, garrapa, gazdola, grabatus, gymnura, halgani, hastata, hystrix, imbricata, immunis, labellata, kuhli, lymma, lynna, maclura, oblongus, ornatum, osteosticta, paecilurus, pastinaca, purpurea, russelli, sabina, sayi, sephen, strogcylopterus, thalassia, tuberculata, uarnak, variegatus, violacea, vulgaris, walza, zugei.

Trygonobatus altavelus, asperus, campaniformis, commersoni, crassicaudatus, dorsatus, imbricatus, longicaudatus, lymnus, maculatus, microurus, orbicularis, oxydoutus, plumieri, russellianus, sephen, sindrachus, torpedinis, transversus, tuberculatus, vulgaris.

Trygonoptera testacea.

Trygonorhina fasciata.

Trylla spinosa.

Trymbelia eburnea.

Trynga calinella, clareola, guinetta, naevia, tridactyla. *Vide et* Tringa.

Trypana cardui, cognata.

Trypanaeus lipustulatus, protoscideus, thoracicus.

Trypanea berberidis.

Trypanidius andicola.

Trypanophora senubyalina.

Trypanosoma sanguinis.

Trypauchen vagina.

Trypeta abrotani, absinthii, acidusa, acuticornis, adatha, adpersa, aesia, aestiva, aex, aira, alcinoe, alternata, alvea, angustipennis, antica, aprica, arctia, argus, argyro-

cephalus, arnicae, arnicivora, artemisiae, atilia, atmaria, avala, bardanae, basilaris, bidexa, bloti, bullans, caliptera, caloptera, cancellaria, capitata, cardui, cassara, centaureae, cerasi, chalybeiventris, cincta, cinerea, cluana, cognata, colon, cometa, comina, conduens, confusa, conjuncta, connexa, continua, conura, corniculata, cornifera, cornigera, cornuta, cosyra, cribellum, cronica, crux, cuspidata, cutia, cyana, cyanogaster, daphne, debilis, delusor, dentata, dertona, dilacerata, dimidiata, dinia, discoidea, distans, diversa, doclea, donysa, duplicata, electa, elinia, elongatula, eluta, ethalea, eximia, fallax, fasciata, femoralis, flava, flaveolata, flavescens, flavicauda, flavipennis, flexa, florescentiae, formosa, fossata, furcata, fuscicornis, fuscofasciata, gaedi, gagates, gemmata, gnaphalis, grata, guttata, guttato-fasciata, guttularis, heraclei, hyoscyami, hysia, internis-a, irrorata, japonica, lappae, lateralis, laticauda, latipennis, leontodontis, lichtensteini, lineata, longicauda, longipennis, longirostris, luteola, lychnidis, maculata, marginata, megacephala, meigeni, mentharum, mevarna, mexicana, modesta, multifasciata, mutyea, narytia, nebulosa, nigricans, nigricoma, nigrofemorata, obliqua, oborinia, obscura, obscuripennis, obsoleta, ocellata, oeresia, oetopunctata, onopordiuis, pallens, pallida, pardalina, parietina, picta, placida, plantaginis, poenia, pornia, postica, praecox, proboscidea, producta, pugionata, pulchra, pulla, punctata, pupillata, pyrethri, quadrifasciata, quadrum, radiata, ramulosa, rotundiventris, ruralis, sarnia, scutellaris, scutellata, serratae, signata, simplex, socialis, solstitialis, sonchii, sorocula, sparsa, speciosa, sphondylii, stella, stellata, stigma, stigmataspis, striola, stylata, succinea, tanacetii, tenera, terebrans, terminata, tessellata, toxoneura, trimaculata, tritea, truncata, tucia, tussilaginis, urticae, vaga, vespertina, viana, violacea, virens, vittata, voneda, wengeri, wester-manni, wiedemanni, winthemi, zelleri, zoe.

Trypetes guildini, rhinoides.

Tryphaena (A.) amethystinus, amethystoides, duponti.

Tryphera delicata, flvida, fulvipes, lugubris, succincta, tessellum.

Tryphon adpropinquator, alacer, albipes, albitarsorius, albocinctus, albopictus, albopunctus, alpinus, anceps, angustator, apiarius, armillatorius, atriceps, aulicus, aurifluus, axillaris, basalis, bellator, bicolor, bidentatus, bifasciatus, bilineatus, biscalptus, braccatus, brachyacanthus, brevisculus, brunnicans, brunniventris, calcator, calceolatus, caligatus, carbonarius, caudatus, cephalotes, chrysopus, clypeator, clypeatus, collaris, colon, colorator, conspicuus, cothurnatus, cruralis, curtisi, delicatus, dorsalis, elegantulus, elongator, erythrocephalus, erythrocerus, erythropalpus, erythrozonus, excavator, exclamationis, experts, extirpatorius, evolans, facialis, fasciatus, flavescens, flavifrons, flavilabris, flavipes, flavocinctus, flavoguttatus, flavomaculatus, formosus, fornicator, frontator, fulvescens, fulvilabris, fulvipes, gnathoxanthus, haematodes, haemosternus, hamulus, heliophilus, holosericeus, humeralis, humilis, ictericus, immaturus, impressor, impressus, incisus, incurvator, insolens, integrator, intermedius, involutor, iratus, laevis, lateralis, laticeps, leucodactylus, leucostictus, leucostomus, lineola, lineolatus, litturatus, longipes, lucidulus, luteicornis, luteifrons, luteomarginatus, maculatus, maculicollis, marginatorius, marginellus, matricariae, melancholicus, melanocerus, melanoleucus, melanonotus, mergator, mesoleptoides, mesoxanthus, mitigosus, mollis, multicolor, murinus, mutator, mutilatus, naevius, nanus, nasutus, neustriae, niger, nigriceps, nigricollis, nigricornis, nigratarsis, nigrolineatus, nitidus, notatus, obscurus, ochrostomus, opticus, orbitalis, pachysoma, parvulus, pastoralis, petulans, phaeorhaeus, pictus, pilosellus, pimptator, pinguis, praerogator, pratensis, procurator, proditor, propinquus, pruinosus, punctus, pusillus, quadratus, quadrilineatus, quadriscalptus, quinquecinctus, rapinator, reluctator, ridibundus, rubiginosus, rufipes, rufonotatus, rufulus, rufus, rugicollis, rutilator, sanguinicollis, scabriculus, scalaris, scapularis, scotopterus, segmentarius, segmentator, semicaligatus, sexcinctus, sexlitturatus, sexpunctatus, signator, sphaerocephalus, sponsorius, sternoxanthus, subfasciatus, subnitidus, subrufus, subspinosus, succinctus, sylvestris, tarsator, tenuicornis, testaceum, thoracicus, triangulatorius, tricolor, triscalptus, variabilis, varicornis, varitarsus, vellicans, vepretorum, vernalis, virgultorum, vittator, vulneratus, xanthostomus, zoarius, zonatus.

Trypocladius sexdentatus.

Trypodendron dispar, domesticum.

- Trypoderma** abdominalis, americana, buccata, cuniculi, horripilum.
Tryponaeus bimaculatus, volvulus.
Trypopitys serricornis.
Trypoxulon annulare.
Trypoxylon albitarse, atratum, aurifrons, carinatus, clavatus, clavicorum, equestre, figulus, fugax, fuscipenne, fuscipennis, politus, pygmaeus, unicolor.
Trysibius intermedius, olivieri, punctipennis, tenebroides.
Tryxalis tereticornis.
Tuba (G.) alternata, striata, sulcata.
Tuba (Verm.) divisa, infundibulum.
Tubalipora trahens.
Tubaria viridis.
Tubastraea coccinea.
Tubicanthus caelatus, cooki, imbricatus, rugosus, tuber.
Tubicenus rhynchitoides, tubicen.
Tubicinella anulata, balaenae, balaenarum, lamarki, major, maxima, minor, trachealis.
Tubicularia alba, confervicola, najas, quadriloba, thorii.
Tubicularia tuba.
Tubifex gentilianus, gracilis, marinus, rivulorum, serpentinus, simplex, uncinarius.
Tubipora acervalis, anastomosans, catenata, chamissonis, favosa, fimbriata, hemprichi, incrustans, irregularis, lamellosa, minuta, prismatica, radiatus, ramulosa, rubeola, striatula, syringa, testacea.
Tubiporites catenatus, fascicularis, favus, nodosus, radiatus, serpula, stalactiformis, stalactiticus, subulatus, tubulariaeformis, tubulatus.
Tubolana digitata.
Tubulanus defractus, elegans, polymorphus, pusillus, subulata.
Tubularia angulosa, annulata, arbuscula, arderon, botryoides, bullata, calyculata, centrifuga, cirrata, clathrata, clavata, clytioides, cochleaeformis, compressa, cornucopiae, coronata, crisioides, dichotoma, dumortieri, ehrenbergi, fasciculata, fistulosa, fungosa, gigantea, glandulosa, globulifera, hyalina, implexa, lamourouxii, laryme, lucifuga, obtusata, ornata, pilaeformis, pinnata, polyceps, pygmaea, reptans, rugosa, salicornis, simplicissima, solitaria, sphaeroidea, stellifera, tessellata, triquetra, umbellata.
Tubuliclidia spinigera.
Tubulipora agaricia, annularis, arborea, arcuata, brongniarti, clypeiformis, complanata, congesta, cordata, cornigera, cumulus, deflexa, diemeni, echinulata, elegans, fascicularis, fimbria, flabellaris, floriformis, foliacea, foraminulata, fungia, fungicula, grignonensis, hispida, hyalina, indigena, intricaria, irregularis, lobulata, lucernaria, megaera, miocenica, obelia, orbiculus, organisans, palmata, parca, patellata, patina, penicillata, phalangea, primigena, proboscidea, ramulosa, repens, stelliformis, trahens, transversa, truncata, verrucaria, verrucosa.
Tubulites steinheimensis.
Tucca impressus.
Tudicla spirillus.
Tudora similis.
Tugali elegans.
Tugonia incrassata, ornata, tugon.
Tuliparia (G.) nebulosa.
Tunaria opuntia.
Tunga penetrans.
Tupaia ellioti, ferruginea, javanica, tana.
Tupha aurea*, coalita*, conica*, dichotoma*, fluviatilis, hispida, lobata, oculata, palmata, perlaevis, ramosa, rigida, stuposa.
Tuphassa stalactis.
Tuphia lacustris.
Tupinambis albogularis, arenarius, bengalensis, bituminosa, bivittatus, cepedianus, elegans, endrachtensis, exanthematicus, griseus, indicus, lacertinus, maculatus, monitor, nigropunctatus, niloticus, ornatus, stellatus, variegatus.

Turaco persa.

Turacus alboeristatus, erythrophus, giganteus, leucotus, macrorhynchus, persa, porphyreolophus, purpureus.

Turbella appendiculata, assimilis, gibba, hystrix, lanceolatum, lunulata, pisciculus, platura, schmidtiana, selenops, squalus, unipunctatum.

Turbinalia kochi.

Turbinarina alveolaris, crater, cupula, escharoides, microstoma, peltata.

Turbinebella acuminata, agrestis, allioni, amplustre, angularis, angulata, aplustre, ardeola, armata, armigera, attenuata, australiensis, barclayi, basteroti, belcheri, bellardi, bilamellata, brasiliana, brevicaudata, buccinoides, caestus, callosa, cancellata, candelabrum, capitellum, carinifera, carolinae, cassidiformis, castanea, cecillii, ceramica, cerata, chlorostoma, cinerea, cingulata, cingulifera, clavata, coarctata, concentrica, cornigera, crassa, crassicostrata, craticulata, crenulata, crocea, decollata, demissa, dubia, elegans, exanthostoma, fasciata, fastigium, fenestrata, filosa, fusoides, fusus, gemmata, glabra, globulus, gracilis, gravis, heteroclitia, impressa, incarnata, infundibulum, intermedia, iostoma, knorri, labellum, laevigata, lanceolata, lauta, leucozonalis, lineata, lynchi, lyrata, maculata, maculigera, magna, mitis, multi-striata, muralis, muricata, muricina, napus, nassa, nassatula, nodata, ocellata, ovoidea, pacifica, parisiensis, perexilis, philberti, picta, pleurotoma, plicatula, polygona, ponderosa, praetenuis, prisca, prismatica, protracta, pugillaris, pulchella, purpuroides, pyrenaica, pyruliformis, pyruloides, pyrum, racemosa, rapa, recurvirostra, rhinoceros, rigida, rudis, rustica, sanguilua, sanguinea, scabrosa, scillae, semicostata, senticosus, spadicea, spinosa, stokesi, striata, sulcata, taitensis, tectum, teniata, tessellata, 'theresites, triplicata, triserialis, tritonina, tuberculata, tubifera, turrita, umbilicaris, undosa, unifasciata, ustulata, varicosa, variolaris, ventricosa, violacea, wagneri, wilsoni.

Turbinebellus affinis, bulbiformis, corona, flammeus, fusoides, haitensis, imperialis, infundibulum, lignarius, nausicus, polygonus, pyrum, rhinoceros, rigidus, scolymus, spinosus, spirillum, validus, vexillulum.

Turbinia graciosa.

Turbinites alatus, angulatus, approximatus, bicarinatus, centrifugus, cerithius, cingulatus, communis, constrictus, cornu arietis, dubius, laevissimus, muriciformis, obeliscus, obvolutus, socialis, strombiformis, terebratus, torquatus, trochiformis, unguiniformis.

Turbinoidea aculeata, acuminata, alata, alpina, altavillensis, amicorum, angulata, antiquata, appendiculata, arcotensis, arietina, armata, aspera, auricularia, avicula, basochei, bellardii, bellingeriana, berica, bilobata, boissiana, bonellii, borealis, bowerbanki, brevis, bucceros, calcar, calycularis, campanula, canaliculata, capulus, carinata, caryophyllus, castellini, caulifera, celtica, centralis, cernua, clavus, complanata, compressa, concava, conica, conulus, corniculata, corniculum, corniformis, cornucopia, cornucopiae, costata, crassa, crenulata, cretacea, crispa, cuneata, cuneolus, cupula, cyathoides, cyathus, cyclolitoides, cylindrica, cymbula, cynodon, delphinus, dentalina, dentatus, deshayesi, deucalionis, didyma, dispar, dixonii, donatiana, douglasi, dubia, dufrenoyi, duodecimcostata, elaborata, elliptica, eminens, exarata, excavata, expansa, fastigiata, fibrosa, fimbriata, firma, flexuolaris, flexuosa, fredericiana, fungites, galeriformis, geoffroyi, gibberosa, goldfussi, granulata, granulosa, gravesii, haimel, hamosa, helianthoides, hemisphaerica, hippuritiformis, humilis, ibicina, impunctata, inauris, incisa, incrustata, inflata, intermedia, irregularis, italica, japheti, konigi, lamarecki, lineata, lingula, maclurei, magnevilleana, menardiana, michelottii, miliola, milletiana, minor, mitella, mitrata, mixta, muensteri, multiserialis, multisinuosa, multispina, mutica, nana, nassoides, obesa, ornata, paradoxa, patellata, patula, peltata, pharetra, phrygia, pileolus, plana, plicata, praelonga, prestwichi, priapus, punctata, pyramidalis, pyramidata, raricosta, raricostata, reticulata, rubra, rudis, rugulosa, semigranosa, septigera, sinensis, sinuosa, sismondiana, sowerbyi, stokesi, striata, stricta, sulcata, taurinensis, tecta, tenuistria, torsa, trochiformis, turbinata, turgida, undulata, unisulcata, uricornis, versicostata.

Turbinoopsis altica, bina, ochracea, pauciradialis, pluriradialis, rugosa.

Turbo abbreviatus, acastus, achatinus, acicula, acinus, aculeatus, aculeus, acutus, adamsi*, adonis, aedilis, alatus*, albearia, albertinus, albescens, albocinctus, albonaculatus, albospecularis, albutus, alcae, alcyon, alpinus, alsus, alternans, alvearia, amatistinus,

Turboella brevis, calathrisceus, hutchingsiana, punctata, ruflabris, scotica, zelandica.

Turbona reticulata, semicostata.

Turbonilla absoluta, acicula, acuminata, albella, albula, altenburgensis, angusta, antiqua, armillata, bimarginata, clavula, corrugata, costaria, costata, costellata, costulata,

crassa, curvicastrata, cylindrella, decussata, elegans, elegantior, elegantissima, filosa, gracilis, hordeola, humboldti, interrupta, kaupi, lanceolata, miliola, minuta, montagui, muensteri, nitida, nivos, nodulifera, obliqua, ornata, oscitans, otto, pallida, parvula, plicata, plicatula, prisca, producta, pseudo auricula, pupa, pygmaea, reticulata, rufa, spina, spiralis, striata, stronibecki, subulata, tarbelliana, terebralis, turella, varians, vitrea, zwickaviensis.

Turbulina conoidea.

Turdampelis lanioides, rufococcix.

Turdinus macrodactylus, superciliaris.

Turdirostris capistrata, capistratoides, concreta, epilepidota, leucophrys, leucostigma, murina, poliogenys, pyca, pyrrhogenys, umbratilis.

Turdoides leucocephala.

Turdulus micropus.

Turdus aedon, aethiops, amnis, albicapillus, albicollis, albigularis, albiventer, albocinctus, albospectularis, alpinus, amaurochalinus, amaurois, ambiguus, americanus, amoenus, analis, aquaticus, arboreus, ardosiacus, arsinoe, asiaticus, assimilis, atriceps, atricollis, atrigularis, atrocyaneus, atrogularis, atthis, aurantirostris, aureus, aurigaster, aurigularis, aurocapillus, aureus, australasiae, australis, avensis, azureus, badius, bechsteini, betularum, bimaculatus, brachypterus, brachyurus, bresciensis, brevicaudus, cabanisi, canadensis, canorus, carbonarius, cardis, carolinensis, castaneus, cathart, certhiola, ceylonicus, chalybeus, chiguanco, chilensis, chochi, chrycolans, cinclus, cinerascens, cinereus, cinnamomeiventris, clamosus, collaris, coluca, coronatus, crassirostris, cristatellus, cristatus, crotopesus, cyaneus, cyanocephalus, cyanotus, cyanus, cyanurus, daulias, dauma, deflexus, densirostris, diardi, dilutus, dimidiatus, dispar, dissimilis, dubius, eliacus, erythrogaster, erythrophthalmus, erythrurus, eulripes, eunomus, explorator, falklandi, felivor, ferrugineus, figulus, flammeus, flavipes, flavirostris, frivulus, fuliginosus, fumidus, fumigatus, furcater, fuscatus, fuscescens, fuscifrons, gigas, gilvus, glaucinus, grayi, griseiceps, gularis, guttatus, gutturalis, gymnophthalmus, gymnopsis, haemorrhous, harmonicus, hodgsoni, hortensis, humilis, hypopyrrhus, illas, illuminus, importunus, infuscatus, innotatus, inquietus, interpres, jala, janfredi, javanicus, jocosus, juidae, juniperorum, leschenaulti, leucocillus, leucomelas, leucomelus, leucophrys, leucopterus, leucotis, l'herminieri, libonyana, lividus, longirostris, ludovicianus, lunularis, lunulatus, luridus, luzoniensis, macei, maculipennis, madagascariensis, magellanicus, major, major montanus, mandarinus, manila, martini, maxillaris, melaleucus, melanicterus, melanocephalus, melanophrys, melanops, melanotis, melanotus, melinus, melodus, melpomene, micans, micropus, mimus, minimus, minutus, modestus, mollissimus, montanus, motacilla, murinus, muscicola, mustelinus, nanus, naumanni, nigricans, nigricapillus, nigropileus, novaeboracensis, nudigensis, obscurus, occipitalis, ochrotarsus, olivaceofuscus, olivaceus, olivacinus, oreocinoides, oriolus, ornatus, orpheus, pallasi, pallens, pallidus, peguanus, pelios, peroni, perspicax, phaeopygus, philippensis, philomelos, phoenicopterus, picoides, pipiens, poeciopterus, poliocephalus, prasinus, pratensis, psaltes, reclamator, repescens, revocator, rocar, rubiginosus, rubripes, rubrocanus, rubigularis, rufitorques, rufiventer, rufiventris, rufo-palliat, rufovariegatus, rufulus, rufus, rupestris, rupicola, saturninus, scapularis, scirpaceus, scolopaceus, serranus, seyffertitzi, silens, simillimus, smithi, solitarius, sordidulus, sordidus, sorsalus, splendens, splendidus, squameus, strepitans, striatus, striga, strigatus, subpilaris, sueuri, sulphurascens, superciliaris, superciliosus, surinamensis, swainsoni, tempore-griseus, tenebrosus, terat, terrestris, theuca, tibicen, townsendi, tricolor, triurus, unicolor, ustulatus, vanikorensis, varius, vinetorum, virens, viridis, vociferans, volitans, vulpinus, wardi, werneri, whitei, wilsoni, xanthoproctus, xanthopus, xanthopygus.

Turitellus terebratus.

Turnagra crassirostris, macularia, striata.

Turnicigralla macroura.

Turnix africanus, andalusica, atrogularis, castanotus, dussumieri, fasciatus, gibraltarius, hottentottus, javanica, joudera, lepurana, lunatus, maculosus, meiffreni, melanogaster, nigricollis, nigrifrons, ocellata, pugnax, pyrrhothorax, rufus, scintillans, tachydromus, taigour, thoracicus, variegatus, varius, velox.

Turonia variabilis.

Turricula caronis, depressa, elata, elegans, flammea, pumilio, serrulata, thiarella, turricula.

Turritiles acuticostatus, acutus, alpinus, archiacianus, astierianus, babeli, baculoides, beirensis, bergeri, bifrons, bituberculatus, boblayci, brazenensis, carcitianensis, catenatus, costata, costulata, coynarti, desnoyersi, elegans, emericianus, escherianus, essensis, geinitzi, gravesianus, haania, hugardianus, mayorianus, moutonianus, obliqua, ornatus, planorbis, plicatilis, plicatus, polylocus, puzosianus, reussi, robertianus, scheuchzeriana, scheuzeriani, senequierianus, triplicatus, tuberculata, undulata, valdani, varicosa, vibrayeanus.

Turris borealis, cafra, coccinea, corrugata, digitalis, neglecta, papua, paupercula, stigmataria, vulpecula.

Turritella abbreviata, absoluta, acanthophora, acicula, acicularis, acutangula, acuticarinata, acuticostata, acutissima, adansonii, aequalis, affinis, albula, alpina, alternans, alternata, althausi, alticostata, amalthaea, ambigua, ambulaerum, andii, androcides, angulata, annulata, antiqua, archiaci, archimedis, arete-costata, armata, asperula, assimilis, astieriana, ataciana, attenuata, auriscalpis, australis, bacillum, banksi, bauga, biangulata, biarmica, bicarinata, bicornuta, bicingulata, bicolor, biformis, bigemina, bilineata, bimarginata, binodosa, bipertita, biplicata, bipunctata, bistriata, bisulca, bisulcata, bisuturalis, bolina, borsoni, brachyurus, brauniana, brevis, brevicula, brevis, brochii, broderipiana, bruguiera, buchiana, bucklandi, caelatura, canaliculata, cancellata, candida, capensis, capitellum, caribaea, carinata, carinulata, carinifera, carnalliana, cathedralis, cenomanensis, cerea, cerithium, cesticulosa, chilensis, cylindrica, ciugenda, ciugulata, cingulato-lineata, cingulifera, cintrana, clathrata, clathratula, clavata, cochlea, cochleata, colon, columnaris, communis, compressa, computensis, concava, congelata, conica, conoidea, conspersa, constricta, contracta, coquandiana, corbarica, cordieria, cornea, corona, corrugata, costata, costulata, crenulata, crocea, crystallina, cumingi, cylindrica, decemcincta, decheniana, declivis, decollata, decorata, decussata, deperdita, desmarestina, difficilis, disjuncta, doublieri, dufenoyi, dupiniana, duplicatus, duvali, echinata, edita, egyptiaca, eichwaldiana, elegantissima, elongata, elongatum, encrinoides, erosa, eschrichti, exaltata, excavata, eximia, exoleta, extincta, fahrenheitii, fascialis, fasciata, fastigiata, fauci-gnyana, ferruginea, fittoniana, flammulata, flexuosa, fluxionalis, fragilis, fuchsi, fulvocincta, funiculata, funiculosa, fusa, fuscata, fusula, gaytani, geinitzi, gemmata, georgina, germaniae, gigantea, goldfussi, gonostoma, goodalliana, gothica, gracilis, grandaeva, granosa, granulata, granulosa, gregaria, gunni, hagenoviana, hanleyana, hartmanniana, haueri, hehli, hilseana, hookeri, hugardiana, humboldti, humerosa, humilis, hybrida, imbricata, imbricataria, impressa, inaequalis, inaequicincta, incerta, incisa, incrassata, indenta, indigena, indistincta, inscripta, intermedia, interrupta, italica, jaegeri, jazikoviana, kircevia, kircevia, kircevia, knysnaensis, koninckean, krantzi, lactea, laevigata, laevis, laeviuscula, lamarcki, lanceolata, lata, lentiginosa, leopoliensis, leucostoma, ligar, lineata, lineolata, linnaei, lomeli, longissima, longiuscula, maculata, margaritifera, marginalis, marginata, margine-nodosa, marginulata, marmorata, marticensis, megaspira, melanoides, mesal, meta, microscopica, minima, minor, minuta, mississippiensis, monilifera, moniliformis, mortoni, moutoniana, multilineata, multilirata, multistriata, multisulcata, muricata, mutabilis, nana, nautila, nebulosa, neptuni, nerinaea, nexilis, nitidissima, nivea, nodosa, nodosoplicata, nodulosa, noeggerathiana, nuda, oblitterata, obruta, obsoleta, obtusa, octonaria, olivacea, omaliusi, opalina, ornata, pagoda, pailletteana, papillosa, patagonica, patula, paupercula, pelagica, perarmata, percincta, perforata, perlaqueata, petschorae, philippii, philipsi, plana, planispira, plebeia, plicatula, polaris, polita, pondicherriensis, ponti, portlandica, potamoides, prisca, propinqua, proto, provincialis, punctata, punctulata, punctura, pygmaea, pyramidalis, pyrenaica, quadrangulata, quadrangulo-nodosa, quadricarinata, quadricincta, quadrilineata, quadri-plicata, quadri-striata, quadrivittata, quinquecincta, quinqueudentata, quinquelineata, radula, rauliniana, reflexa, renauxiana, renieri, replicata, requieniana, reticulata, reussiana, riepli, rigida, robinea, roissyi, rosea, rotifera, rouyana, rubescens, sabauda, sanguinea, scalarina, scalaroides, scalaris, scalaroidea, scalaroides, schohariensis, semiglabra, semi-striata, septem cincta, sepulta, seriatis-granulata,

serrata, sexcincta, sextineata, similis, simillima, simplex, sinuata, sinuosa, socialis, sowerbyi, spectrum, sphaerula, spinosa, spiralis, spirata, squamosa, staszycii, strangulata, striata, striatula, strigillata, subangulata, subcanaliculata, subcarinata, sublamellosa, subornata, subpunctata, subsimplex, subtruncata, subula, sulcata, sulcifera, supraerectacea, supraplecta, suturale, suturalis, taeniata, tasmanica, tenuicarinata, tenuicostata, tenuis, tenuistriata, terebellata, terebralis, teres, terstriata, tigrina, tornata, torulosa, tricarinata, tricineta, tricingulata, tricostata, trilineata, triplicata, triserialis, tristriata, trisulcata, trochleata, truncata, truncatula, tuberculata, tunstallensis, turbinata, turbinata-conica, turricula, turris, uchauxiana, undulata, unguina, unguina, unguinaria, unguinaria, unica, unicarinata, unifuniculata, uniplicata, unisulcata, urii, varia, variabilis, varicosa, variegata, velata, ventricosa, vermicularis, verneuilliana, vertebroides, vetusta, vibrayana, vindobonensis, virginiana, vitrea, vittulata, walmstedti, zeuschneri.

Turritellites scalatus.

Turritellus terebratus.

Turrites bergeri, costatus, giganteus, obliquus, scheuchzerianus, tuberculatus, varicosus.

Tursio peroni, truncatus.

Turtonia minuta.

Turtur afra, albiventris, auritus, bitorquatus, cambayensis, chalcospilus, chinensis, cinerea, douraca, dussumieri, erythrophrys, humilis, leucoptera, lophotes, lugens, meena, misoria, semitorquatus, senegalensis, simplex, suratensis, tigrinus, vinaceus, vitticollis, vulgaris.

Ty puteorum.

Tychaeus curvidens.

Tyche emarginata, lamellifrons.

Tychius alboguttatus, albus, amoenus, amplicollis, ancora, aratus, aurarius, aurichalceus, auricollis, canescens, carinicollis, centromaculatus, ciliatus, cinerascens, corniculatus, cuprifer, elegans, elongatus, farinosus, flavicollis, fuscolineatus, genistae, haematocephalus, haematopus, hordei, intramarginalis, junceus, lautus, lineatus, meliloti, nervosus, obesus, parvulus, pernix, picirostris, polylineatus, posticus, quinquepunctatus, rufirostris, schneideri, siculus, sorex, sparsutus, squalidus, squamifer, squamulatus, squamosus, stepheni, striatulus, strumarius, sublineatus, suturellus, thoracicus, tibialis, tomentosus, trivialis, venustus.

Tychoptera contaminata, lunata, oleracea.

Tychus castaneus, dichrous, erythropterus, longipalpis, minimus, minor, niger, ruber, sericornis, tuberculatus.

Tydeus albellus, albofasciatus, breviculus, celeripes, croceus, cruciatus, melanchlaenus, ministralis, mutabilis, olivaceus, parabolicus, polymitis, subtilis, velox.

Tylocerus antennatus.

Tylodelphis clavatus*.

Tylodelphys clavata, rhachidis.

Tyloderes chrysops, dejeani, megerlei, spinosus.

Tyloides armadillo, armigerus, camelus, clathratus, clavatus, gayi, globosus, granulatus, granulifer, humeralis, informis, insubidus, lateralis, obesus, paedidus, rubetra, scaber, tuberculosa, uraeus, verrucosus.

Tyloidina citrina, duebeni, punctulata, rafinesquei.

Tylodon hombresi.

Tylognathus barbatulus, chitulus, diocheilus, diplochilus, diplostomus, hirticeps, lamta, nanus, porellus, quadrimaculatus, sandkohl, valenciennesi.

Tyloomus cryptocephalus, gonopterus, guttatus, leonculus, palmicollis, pertusus, pollinosus, rubiginosus, sahlbergi.

Tylonotus bimaculatus.

Tyloramphus cristatellus.

Tylos (Ar.) doliaris.

Tylos (Cr.) armadillo, capensis, granulatus, latreillei.

Tylosaurus cantraine.

Tylosis maculatus, oculatus.

Tylostoma globosum, ovatum, punctatum, torrubiae.

- Tylosurus** guianensis, imperialis.
Tylotarsus cinctipes.
Tylotus chrysops.
Tymetes merops.
Tympanomium planci.
Tympanophora pellucida.
Tympanophorus canaliculatus.
Tympanotos sluviatilis, granulatus.
Tympanuchus cupido.
Tynostoma vittata.
Tynotoma abdominale.
Tyoma erythrorhyncha.
Typanus aegyptius.
Typhaea ferruginea, fumata, spargani, testacea, tomentosa;
Typhaeus vulgaris.
Typhis (Cr.) ferus, monoculoides, ovoides, rapax.
Typhis (G.) acuticosta, alatus, arcuatus, belcheri, coronatus, cumingi, cuniculosus, curvirostratus, fistulosus, gracilis, horridus, muticus, nitens, pinnatus, pungens, quadratus, sowerbyi, tetrapterus, tripterus, tubifer.
Typhlina (R.) lineatus, septemstriatus.
Typhlina (Rot.) canicula, furca, viridis.
Typhlinalis lineatum.
Typhline cuvieri.
Typhlobdella kovatsi.
Typhloblanus coeca.
Typhlobranchus spurius.
Typhlocoris semicircularis.
Typhlocyba adspersa, aurata, aureola, chloroptana, cruenta, discicollis, eximia, fulva, fulveola, hyperici, jucunda, lutea, mollicula; octonotata, parvula, picta, plagiata, pulchella, pullula, pusilla, quadra-signata, quadrinotata, quercus, rosae, rubi, scutellaris, sexmaculata, signatipennis, stachydearum, stellulata, tenerrimi, ulmi, urticae, vittata, wahlbergi, zetterstedti.
Typhlolepta coeca, retusa.
Typhlomorphus cuvieri.
Typhilophis squamosus.
Typhlophone fulva.
Typhloplana coeca, marina, polygastrum, sulphurea, variabilis, viridata, viridatum.
Typhlopona oraniensis.
Typhlopone dahlbomi, fulva, pallipes, shuckardi.
Typhlops albifrons, ascaroides, ater, bilineatus, braminus, brunneus, cinereus, crocotatus, cubae, diardi, eschrichti, fasciatus, filiformis, flavescens, fornasinii, lalandei, leucogaster, leucorrhaeus*, lineatus, lumbricalis, mammillaris, muelleri, multilineatus, nasutus, nigricans, nigro-albus, oxyrhynchos, philippinus, platycephalus, polygrammicus, richardi, rostralis, russeli, schlegeli, septemstriatus, squamosus, tessellatum, undecimstriatus, vermicularis.
Typhlus fragilis, lineatus.
Typhochlaena caesia, seladonia.
Typhonia lugubris.
Typhylops schlegeli.
Typocephalus cruciatus, dimidiatus.
Typocerus abdominalis, badius, distans, fugax, lateralis, lugubris, lunatus, nobilis, sinuatus, zebratus.
Typodus glaber.
Typophorus quinquemaculatus.
Typophyllum erosus.
Typopus abnormis.
Typton spongicola.
Tyranites gigas.

Ulomascus caviventris.

Ulomenes hypocrita.

Ulopa decussata, ericae, ericetorum, lugens, obliqua, oblecta, reticulata, scanica, trivia.

Uloptera planata.

Ulosomus erinaceus, immundus, ptinoides, setosus.

Ulosonia hololeptoides.

Ulricia klugi.

Ultimus gibbosus.

Ulula (A.) acadica, aluco, brachyotus, cinerea, crassirostris, fasciata, galapagoensis, hylophila, laponica, litturata, nebulosa, newarensis, otus, pagodarum, richardsoni, rufipes, stridula, teugnalmi, vulgaris.

Ulula (Neur.) microcephala, vetula.

Ulva defracta.

Umbella (G.) umbellata.

Umbellularia groenlandica, longimana.

Umbla krameri.

Umbonia amazili, ataliba, crassicornis, gladius, indicator, nigrata, orozimbo, pyramidalis, reclinata, signoreti, spinosa, turrita, venosa.

Umbonium excisum, vestiarium.

Umbra crameri, krameri.

Umbraculum chinense.

Umbrella diluviana, disculus, indica, laevigata, lamarekiana, laudunensis, mediterranea, patelloidea.

Umbrina alburnus, arenata, auratus, barbata, broussonneti, canariensis, cirrhata, cirrhosa, coroides, dussumieri, gracilis, kuhli, martinicensis, nebulosa, ophicephala, ronchus, russeli, saxatilis, serratus, vulgaris.

Umbrosina costata, dubitata, rhamnata, undulata, vetulata.

Unca gamma, triplasia.

Uncina posidoniae.

Unciola irrorata.

Uncirostrum brelayi, cyaneum, la fresnayei.

Uncites gryphioides, gryphus.

Undaria agaricites, undata.

Undina (A.) leucocephala.

Undina (P.) kohleri, striolaris.

Ungula convexa, ovata, plana, transversa, triangularis.

Ungulina antiqua, luticola, rangi, suborbicularis, transversa.

Unibranchapertura cinerea, cuchia, immaculata, laevis, lineata.

Unicardium aceste, alycone, aspasia, bernardinum, calliope, callirhoe, calloviense, calypso, cardioides, circulare, corbisoidem, costatum, depressum, despectum, euterpe, excentricum, globosum, hesione, heteroclytium, incertum, inflatum, inornatum, inversum, janthe, laevigatum, latecostatum, lobatum, ranvillianum, rugosum, striolatum, subalpina, sublaeve, subregularis, subtrigonum, uniforme, varicosum.

Unicellaria appendiculata, chelata, cornuta, lafoyi.

Unicornu fossilis.

Unicornus typus.

Unidens tessellatus.

Uniloculina indica.

Unio abacoides, abacus, abbreviatus, abductus, aberti, abruptus, acutissimus, acutus, aduncus, aegypticus*, aeruginosus, aesopus, agrestis, alabamensis, alaeformis, alatus, aldami, aleroni, alpina, altilis, amaeus, ambiguus, amnicus, amygdala, angulatus, angusta, angustatus, anodontina, anodontoides, ansticei, antiquatus, antiquior,

Unionicola humerosa, lactea, lugubris, personata, proxima, symmetrica, unicolor.

Unionium hirudo.

Uniophora globifera.

Uniopsis radiata.

Upeneoides bivittatus, sulphureus, variegatus, vittatus.

Upeneus atherinoides, auriflamma, balteatus, bilineatus, bitaeniatum, bivittatus, chryserydros, cinnabarinus, crassilabris, cyclostomus, cyprinoides, flavolineatus, fraterculus, immaculatus, japonicus, luteus, maculatus, malabaricus, martinicus, mauritanus, pleurostigma, porosus, prayensis, punctatus, russeli, sulphureus, taeniopterus, tragula, vanicolensis, vittatus, vlamingi, waigensis, zeylonicus.

Uperanodon ochrocollare, pictum.

Uperodon marmoratum, ornatum.

Uperoleia marmorata.

Upis angulatus, aries, campiliensis, capensis, cisteloides, crenata, cuprea, cylindrica, depressa, femorata, glabricollis, impressa, impressicollis, italica, lacordairei, lottini, murina, perforata, punctatostriata, punctatus, rotundicollis, saperdoides, schneideri, sinensis, sinuata, spinipes, sulcigera.

Upogebia stellata.

Uppucerthia andraecola, dumetorum, montana, nigrofumosa, rupestris, vulgaris. *Vide et Uppucerthia.*

Uptiotes anceps.

Uppucerthia antarctica, chilensis, dumetaria, phoenicura, ruficauda. *Vide et Uppucerthia.*

Upupa africana, bifasciata, brachyrhynchos, capensis, macrorhynchos, minor, monolophos, nigra, olivacea, palustris, purpurea, speciosa, varia, vulgaris.

Uracantha triangularis.

Uracanthus angustatus, bivittata, marginellus, pallens.

Uracis quadra.

Uraeus branchiostegus, elongatus, gracilis, haje, macrocephalus, macrodus, macrurus, maximus, microchirus, microlepidotus, nuchalis, pachyurus.

Uragis mitu, pauxi, tuberosus, urumutum.

Uragus (A.) sanguinolenta, sibirica.

Uragus (Col.) hamaticollis.

Uraleptus maraldi.

Uramya producta.

Urania boisduvali, empedocles, fernandinae, leilaria, leilus, lunus, orontes, patroclus, prometheus, rhipheus, sloanaria, sloanus.

Uranidea quiescens.

Uraniscodon catenata, hispida, margaritaceus, picta, plica, rhombifer, superciliosa, umbra.

Uranocentrum azureum.

Uranodon butzkopf, rostratus.

Uranophora chalybea.

Uranops angulata.

Uranoscopus affinis, anoplos, asper, be-beck, bicinctus, bufo, cirrhosus, cocius, cognatus, elongatus, filibarbis, forsteri, guttatus, indicus*, inermis, kouripua, laevis, lebecki, macropygius, maculatus, malacopterus, marmoratus, monopterygius, occidentalis, ysgaeum.

Uranteris pelasgia.

Uraptera agasszi.

Urapteryx caudiferaria, crocoptera, equestraria, infuscataria, persica.

Uraster gaveyi, glacialis, hirudo, hispida, obtusus, primaevus, rubens, ruthveni, violacea.

Urastes actiniarum.

Urax tomentosa.

Urbanus dorantes, erosus, icarus, licus, malvae, mys, niveus, phalaenoides, proteus, salius, scurra, thraso, tryxus.

Urceolaria balsamo, bursata, cincta, cirrata, crateriformis, cucullus, cyclopus, discina, fritillina, fuscata, grandinella, hamata, israelitarum, limacina, lunifera, multiformis, nasuta, nigra, nigrina, ocreata, papillaris, polymorpha, rediviva, sacculus, scyphina, sphaeroidea, sputarium, stellina, truncatella, utriculata, valga, varia, versatilis, viridis.

Urda (Col.) pygmaea.

Urda (Cr.) cincta, decorata, elongata, rostrata.

Urellia calcitrapae, parisiensis, radiata.

Uresiphita alpinalis, cruentalis, elutalis, nebulalis, polygonalis, prunalis, rusticalis, squalidalis, sticticalis, villicalis.

Uria aleutica, alle, antiqua, arctica, arra, artica, atrata, brevirostris, brissoni, brunnichi, cana, carbo, cristatella, dubia, francsi, glacialis, groenlandica, intermedia, lacrymans, leucopsis, leucoptera, mandti, meisneri, minor, mystacea, nigra, norwegica, polaris, proteus, pusilla, scapularis, senicula, tetracula, townsendi, unicolor, wumizusume. *Vide et Aria.*

Urichthys lunulatus, quinque-cinctus.

Urinator arcticus, bailloni, glacialis, immer, striatus.

- Uriphaeton** microleptes.
Uroaetus fuscus.
Urobrachya albonotata, axillaris.
Urobrachys flammigerus.
Urocalymma longimana.
Urocentron daudini, palluma. *Vide et Vrocentrum.*
Urocetus ruber.
Urocerus abdominalis, annulatus, caerulescens, camelus, dromedarius, emarginatus, fantoma, feisthameli, fuscicornis, juveneus, lefebvre, magus, nigrita, nitidus, psyllius, spectrum, tabidus.
Urochela quadripunctata.
Urocissa albicapillus, flavirostris, magnirostris, occipitalis, sinepsis.
Urocoptis abbreviata, blainvilliana, coarctata, cylindrus, glandula, petiverana, rosata, soluta, tortuosa, truncatula.
Urocrotalon durissus.
Urocryptus (Hym.) atropurpureus, excavatus.
Urocryptus (M.) bilineatus.
Uroctea quinque-maculata.
Urodera chevrolati, circumcincta, circumducta, crucifera, dolens, familiaris, hamatifera, hoepfneri, inflata, limbalis, parens, perizonata, pilula, quadrinotata, quadriplagiata, quadrisignata, quadriverrucata, quadrivulherata, sobrina, toxogramma, vau.
Urodon albidus, argentatus, canus, concolor, flavescens, lilii, parallelus, pelliceus, pygmaeus, rotundicollis, rufipes, sericeus, suturalis, vermiculatus, vestitus.
Urogallus vulgaris.
Uroglena volvox.
Urolabida tenera.
Urolepis cychreus, maritimus.
Uroleptes (M.) tetradactyla.
Uroleptes (R.) pseudo-eryx.
Uroleptus filum, patens. *Vide et Vroleptus.*
Urolestes melanoleucus.
Uroleuca cayanus, cyanoleuca, cyanopogon, pilcatus.
Urolophus armatus, aurantiacus, cruciata, ephippiatus, torpedinis.
Uromastix acanthurus, azureus, belliana, caeruleus, cyclurus, dispar, fasciatus, hardwicki, horrida, niger, spinipes, undulatus.
Uromastrix richi.
Uromastyx acanthinurus, belli, maculatus, ocellatus, ornatus, revesi, similis.
Uromyia curvicauda, thoracica.
Uronais barbata, decapoda, digitata, furcata, quadricuspidata.
Uronema marina.
Uronemus lobatus.
Uropeltis ceylanicus, philippensis.
Urophora (Dipt.) aenea, algira, basilaris, bivittata, cardui, centaureae, cerasorum, connexa, cuspidata, dejeani, discoidea, femoralis, interrupta, liturata, lychnidis, oblique fasciata, pugionata, quadrifasciata, quadrivittata, quinquemaculata, radiata, reaumuri, rotundiventris, sexmaculata, signata, solstitialis, sonchi, stylata, taeniata.
Urophora (Hem.) hardwicki.
Uroplata antennata, crenata, radula, rubiginosa, vicina.
Uroplates fimbriatus, lineatus.
Uropoda acuminata, cassidea, moneta, navicula, nitida, opaca, orbiculata, vegetans.
Uropsophus durissus, triseriatus.
Uropterygius concolor.
Uropteryx elongatus.
Uropus ulmi.
Urosphen fistularis.
Urosthene australis.
Urostrophus vautieri.
Urostyla grandis.

- Vandeleuria** dumeticola, oleraceus.
- Vandellia** cirrhosa.
- Vandellius** lusitanicus.
- Vanellus** albicapillus, albiceps, apricarius, bicornis, bilobus, bononiensis, borealis, capella, cayancensis, cayenensis, chiliensis, cinctus, collaris, cristatus, cucullatus, dominicensis, fuscus, galinaceus, goensis, grallarius, gregarius, griseus, helveticus, inornatus, keptsuschka, lateralis, leucurus, lobatus, ludovicianus, melanogaster, modestus, novae-hollandiae, ptiloscelis, resplendens, ruiventer, senegalensis, senegalus, squatarola, strigillatus, tricolor, vanellus, varius, ventralis, villotaei, vulgaris.
- Vanessa** aglatonice, algira, albaana, amathea, amelia, amestris, amycla, anacardii, andremiaja, antiopa, aonis, arsinoe, asterie, atalanta, attavina, C album, C argenteum, C aureum, callithea, calybe, cardui, carye, caschmirensis, charonia, chorimene, chrysites, circhesia, clelia, cloantha, coelina, coenia, comma, corinna, cyanomelas, dejeani, delius, demonica, dione, drusus, egea, elymi, emma, enothrea, epaphea, epaphus, epiclelia, erigone, eudoxia, eurocilia, F=album, furcillata, galami, genoveva, gonerilla, goudoti, hedonia, hierta, hippomene, huntera, hunteri, hyglaea, hypopocla, hypselis, ichnusa, idamene, interrogationis, ionia, iphimedia, iphita, itea, J=album, jatrophae, jo, juliana, L=album, laodora, laomedia, larinia, lemonias, lethe, levana, limnoria, lytraea, micalia, milberti, musa, neleus, octavia, oenone, orithya, orthosia, paullus, pelargia, pelagis, pluto, polychloros, polynissa, progne, prorsa, prosopo, pyromelas, pythia, rhadama, sabina, sophia, sophonisba, sophronia, tameamea, tammeamea, tecmessa, terea, triangulum, urticae, V=album, vulcania, xanthomelas, zabulina, zelima.
- Vanga** australis, chirrhocephalus, cinerea, coronata, cruenta, curvirostris, destructor, flaviventris, galericulata, leucocephalus, nigrogularis, striata, xenopirostris.
- Vanicoro** souleytana.
- Vappo** ater.
- Varanus** albogularis, arenarius, argus, belli, bengalensis, bibroni, bilineatus, bivittatus, caspius, chlorostigma, cometodon, cumingi, douarrha, dracaena, elegans, exanthematicus, flavescens, gilli, guttatus, kalabeck, macrodon, nebulosus, niloticus, ocellatus, ornatus, picquoti, platyodon, punctatus, recurvidens, russeli, salvator, scincus, taraguira, terrestris, timoriensis, uncidens, varius, vittatus. *Vide et Uaranus.*
- Varicorhinus** beso, bobree, diplostomus.
- Varigera** abbreviata, carantonensis, escagnollensis, fittoni, guerangeri, ricordeana, rochetiana, toucasiana.

- Variola** longipinna.
Variopalpis humeralis.
Varuna litterata.
Vastres agassizi, arapaima, cuvieri, mapae.
Vatellus grandis, tarsatus.
Vates (Orth.) ashmolanus, cnemidotus, macropterus, orbus.
Vedalia cardinalis, sieboldi.
Vedia erotaria.
Vediantius eristalis.
Velates conoideus, schmidelanus.
Veleva antarctica, atlantica, aurora, caurina, cyanea, emarginata, indica, lata, limbosa, mutica, oblonga, oxythone, pacifica, patellaris, pocillum, pyramidalis, scaphidia, septentrionalis, sinistra, spirans, subemarginata, tentaculata, tropica, velella.
Velernesia richardsoni.
Velia aptera, armata, basalis, bicolor, brasiliensis, collaris, currens, fossularum, nana, nigricans, pulchella, pygmaea, rivulorum, stagnalis.
Velleius concolor, dilatatus, luridipennis.
Vellejus dilatatus.
Velletia lacustris.
Velutella flexilis.
Velutina canaliculata, cancellata, capuloidea, cryptospira, elongata, flexilis, haliotoides, kinderlanina, laevigata, lanigera, mulleri, otis, plicatilis, rupicola, sigaretiformis, spongiosa, striata, stylifera, undata, velutina, virgata, vulgaris, zonata.
Venericardia abbreviata, aculeata, acuticosta, anceps, angusticostata, annulata, ascia, asperula, australis, barrandei, blandingi, brongniarti, carinata, carolinensis, chamaeformis, complanata, concentrica, constanti, cor avium, corbis, crassicostata, crenata, cribraria, decorata, decussata, deltoidea, dubia, dupiniana, elegans, fimbriata, flammea, globosa, goldfussi, granulata, guerangeri, imbricata, intermedia, jouanneti, kickxi, laevicosta, laticosta, laurae, lima, megastrophia, minuta, mitis, multicostata, neo-comiensis, oblonga, orbicularis, parva, pectinata, pectuncularis, perplana, pinnula, planicosta, puerpera, quadrata, quoy, rhomboidea, rotunda, rudista, scalaris, senilis, sillimani, spissa, sportella, squamigera, subrotunda, subvicinalis, sulcata, tankervillei, tenuicosta, tenuicostata, tenuisulcatum, transversa, tridentata, trigona, tuberculata, unidentata, vicinalis, zelandica.
Venericardites costatus.
Venericardium retrostriatum.
Venerupis aradasi, brevis, brocchii, carditoides, cingulatus, corallina, coralliophaga, crenata, decussata, diemenensis, distans, divergens, eremita, exotica, faujasi, galactites, gigantea, globosa, hiantissima, italica, itus, lajonkairei, lamellosa, monstrosa, nucleus, obsoletus, oolithica, parasita, perforans, pernarum, peruviana, petiti, pullastra, reflexa, romana, ruperella, sarniensis, scalaris, striatula, substriata, subvexa, tenuistriata, virginea.
Venilia (A.) albertuli, callonotus, mentalis, miniatus, puniceus, rubiginosa.
Venilia (L.) conradi.
Venilia (Lep.) macularia, maculata, quadrimaculata, sospeta.
Venilia (Nud.) mucronifera.
Ventale agaricinum.
Ventocoris albolineatus, nigellae, pedemontanus.
Ventriculites alcyonoides, alternans, benettiae, bicomplexus, cavatus, choniformis, decurrens, impressus, infundibuliformis, latiplicatus, mammillaris, muricatus, notatus, punctatus, quadrangularis, quadratus, quincuncialis, radiatus, reticulatus, simplex, striatus, tessellatus.
Venulites approximatus, arcarius, ascarinus, borealiformis, callosus, concentricus, crenatus, donacinus, elegans, flexuosaeformis, obliquus, octogonius, orbiculatus, proavius, rugosaeformis, similimus, subaratus, trigonatus, trigonellaris, virginalis.
Venus acutirostris, adpersa, aenea, aequeorea, aethra, affinis, africana, aglaurae, agrestis, albida, allaudiensis, alope, alpaghina, alpina, alternans, alternata, alvarezi, alveata, amabilis, amatheia, amathusia, analoga, angula, angulata, angustifrons, anomala,

robinaldina, roborata, rocellaria, rodlatzi, roissy, rosalina, rostrata, rotundata, royana, rubiensis, rubiginosa, rudis, rufa, rufescens, rugosa, rugosula, rupestris, rustercui, rustica, sarniensis, sassorii, saxatilis, scabra, scalarina, scalaris, scobinellata, scotica, semicancellata, semicostulata, semiradiata, semirugata, semisulcata, senilis, similis, sinuata, sinuosa, solandri, solangensis, solida, spadicea, spinifera, splendeus, spurca, squalida, squamigera, staminea, striatella, striatula, striatulus, strigosa, stutchburyi, stutzeri, subbrongniartina, subconcentrica, subcordata, subcrassa, subdecussata, subdeltoidea, subelegans, subelongata, suberycinoides, subfaba, subgibbosa, subglobosa, subimbricata, subinflexa, sublaevigata, sublaevis, sublaminosa, submersa, subnodulosa, subobliqua, suborbicularis, subovalis, subparallela, subparva, subplana, subpusilla, subpyrenaica, subrhomboidea, subrostrata, subrotunda, subrugosa, substriata, subtransversa, subtrigona, subtruncata, suburgida, succincta, suevica, sulcaria, sulcata, sulcataria, sulcatina, sulcosa, tehuelcha, tellinaeformis, tellinaria, tenella, tenera, tenori, tenuis, tenuistria, tenuistriata, tessellata, testudinalis, tetragona, tetrica, texta, texturata, thaca, thouarsi, tiara, tigrina, toreuma, tortuosa, transversa, trapeziformis, triangularis, triangulus, tricolor, tricuspis, tridacnoides, trigona, trigonalis, trigonula, tristis, truncata, tuberculata, tumida, turgens, turgida, turgidula, umbonaria, umbratilis, undata, undatella, undulosa, unguicularis, unguiculata, uniformis, unionides, variabilis, varicosa, vassiacensis, vectensis, vendoperata, venetiana, ventricosa, vermiculosa, verneuilli, vesta, vetula, vibraveana, violacea, virago, virescens, virginea, viridis, vitaliana, vitrea, vulvina, westendorpi, yatei.

Venusia canbrica.

Verania (Ceph.) sicula.

Verania (Col.) afflicta, comma, crux, discolor, frenata, lineata, strigata, striola, trivittata, umramosa.

Veretillum clavatum, coccineum, cynomerion, cynomorium, juncum, lutéum, mirabile, phalloides, pusillum, quadrangulare, stelliferum, tetragonum.

Verlusia quadrata, rotundiventri, sulcicornis.

Vermetus adansonii, albensis, anguis, angulatus, annulatus, annulus, arenarius, ater, bicarinatus, bognoriensis, brasiliensis, carinatus, cariniferus, centiquadrus, compressus, concava, concinnus, conica, corneus, corrodens, costalis, crystallinus, dentiferus, discus, eburneus, effusus, elegans, giganteus, gigas, glomeratus, grandis, hexagonus, indicus, inopertus, intortus, irregularis, knorri, lumbricalis, margaritaceus, margaritarum, maximus, michaudi, milleti, nodosus, nodus, novae hollandiae, ovata, panamensis, pellucidus, peroni, polygonalis, poritis, quadrangulus, radiatus, reticulatus, roseus, rotula, royanus, rugosus, semisurrectus, siphos, sowerbyi, spiratus, squamosus, striatus, subcancellatus, tenuis, tonganus, triquetrus, tulipa, tumidus, turonensis, turoni, turritella, umbonata, valmondoisi, zelandicus.

Vermicularia afra, arenaria, bognoriensis, calyculata, carinata, compressa, concava, convoluta, glomerata, goerensis, intestinalis, lineolata, milesi, nodus, ovata, retusa, scabra, sowerbyi, umbonata, vermetus.

Vermicularis glomerata.

Vermiculites panderi.

Vermiculum bicarinatum, bicornis, disciforme, globosum, incurvatum, intortum, lacteum, laeve, marginatum, oblongum, perforatum, perlucidum, pervium, plexatum, retortum, simile, squamosum, striatum, subrotundum, urnae, wollastonianum.

Vermileo degeeri.

Vermilia anpullacea, angulata, armata, bicarinata, calyptrata, clavigera, concava, coronata, crassa, cristata, echinata, elongata, emarginata, eruca, flagelliformis, intricata, minuta, multicristata, muraena, obscura, obtorta, planata, plicifera, polytrema, punctata, quadricostata, quinquelineata, rostrata, scabra, septata, serrulata, squamosa, suberenata, supraplana, taeniata, tricuspidata, tricuspis, trilineata, triquetra, vermicularis.

Vermivora bachmani, carbonata, celata, chrysoptera, elegans, nigrescens, peregrina, protonotarius, rubricapilla, solitaria, swainsoni, vermivora.

Verneuillina bronni, spinulosa, tricarinata.

Veronicella krausi, laevis, langsdorfi, limayana, solea.

- Veronicellus** sloani.
- Verruca** strömi.
- Verrucospongia** armata, convoluta, osculifera, sparsum, turbinata.
- Verrulia** carunculata.
- Vertagus** (Col.) bipustulatus, buqueti, lucidulus, schoenherri.
- Vertagus** (G.) areolatus, dimidiatus, duplicatus, granularis, maculatus, recurvicaudatus, strigilatus, subulatus, succinctus, vulgaris.
- Vertebralina** cassis, mucronata, niebulri, striata.
- Vertex** cruciatus, emarginatus, marginatus.
- Verticillipora** abnormis, anastomosans, dubia, grandipetasus.
- Verticillites** abnormis, anastomosans, cretaceus, digitata, goldfussi, grandipetasus, incrassata, truncata.
- Verticillus** algius.
- Verticordia** cardiiformis.
- Vertigo** alpestris, anglica, angustior, anti-vertigo, buettneri, curta, cylindrica, defrancei, dupoteli, edentula, guadalupensis, hamata, heterostrophæ, laevigata, lepidula, lucida, monodon, muscorum, nana, nitida, ovata, ovularis, palustris, pentodon, plicata, pupula, pygmaea, secale, sinuif, septemdentata, sexdentata, unidentata, venetizi, vulgaris.
- Vertumnus** (Cr.) cranchi.
- Vertumnus** (Verm.) thetidicola, thetydicola.
- Vesica** ampulla, naucum.
- Vesicaria** hygrometra, luci, suilla.
- Vesicularia** cuscuta, imbricata, pustulosa, spinosa.
- Vespa** abdominalis, aegyptiaca, africana, albilabris, angulata, apicalis, apiformis, arborea, argentata, attavina, aripennis, aurita, aurlenta, bavarica, bicincta, bimaculata, binotata, borealis, britannica, brunnipes, cajennensis, campanaria, cartaria, cayana, chartaria, chartifex, coerulea, communis, concolor, crassa, crucigera, cuneata, decemmaculata, deusta, diadema, dominica, flavicincta, frontalis, geeri, geniculata, ichneumonidea, incincta, laeta, lignorum, liliacea, lugubris, lunata, lutea, marginata, mauritiaca, melanops, minor, mucronata, mutilata, nilotica, notata, ocreata, ornata, pallens, peltata, picipes, picta, pilosella, puncta, quadrimaculata, quinquelineata, quinquemaculata, sabulosa, scutellaris, spiniventris, squamigera, sumatrae, tessera-zonia, transversa, trilineata, trimaculata, trispinosa, uncinata, velutina, vespiformis, virginea, zonalis.
- Vespertilio** abramus, acetabulosus, adversus, aedilis, aenobarbis, akokomuli, albescent, albolimbatus, alcithoe, alcythoe, alecta, americanus, aperotus, arborea, aristippe, arquatus, arsinoe, auduboni, aripendulus, barbatus, bechsteini, belangeri, blepotis, blossevillei, bonapartei, bonariensis, borbonicus, borealis, brachyotos, brachypterus, brandti, brasiliensis, brevimanus, bursa, calcaratus, californicus, caninus, capaccini, capensis, capucinellus, carnatica, caroli, carolinensis, cavernarum, celaeno, cephalotes, chiloensis, circumdatus, collaris, cornutus, coromandelicus, crassus, crepuscularis, creusa, cyanopterus, cynocephalus, dasycneme, dasykarpos, dasythrix, daubentoni, dingani, discolor, domesticus, dutertrei, emarginatus, epichrysme, erythroductylus, eschscholtzi, ferrugineus, filulatus, formosa, fuliginosa, furia, furinalis, fuscus, georgianus, goudoti, gryphus, guianensis, hardwicki, harpia, hasselti, hesperia, hilarii, hippocrepis, horsfieldi, hottentota, humeralis, hypothrix, imbricatus, incisivus, innoxius, insignis, irretitus, isabellinus, isidori, kamutchaticus, kuhli, labiata, lacteus, lanatus, lanosus, latipennis, leibii, leisleri, lepidus, leucippe, leucogaster, leucomelas, levis, limnophilus, macellus, macrodactylus, macrotarsus, macrotis, malayanus, marginatus, mastivus, maugei, maximiliani, maximus, megalotis, megapodius, melanotus, meyeri, minutellus, minutissimus, minutus, monachus, monticola, muricola, murina, murinus, myosotis, myotis, mystacinus, mystax, naso, nasutus, natalensis, nathusii, nattereri, nigrans, nigrescens, nigricans, nilsoni, noctulina, novae seelandiae, nudus, okeni, oreias, orsinii, osculati, pachypus, pallidiventris, pallidus, palustris, papillosus, parvulus, pellucens, pellucidus, phaiops, pipistrelloides, polythrix, porcinus, praecox, proterus, pygmaeus, pulverulentus, pygmaeus, quixensis, rivalis, ruber, rubra, rueppeli, rufescens, rufo-pictus, salarii, savii, schinzi, semicaudatus, speoris,

spixi, splendidus, subbadia, subflavus, subulatus, suillus, tannensis, temminckii, tenuis, ternatanus, tessellatus, timoriensis, tralatitius, tricolor, tristis, tuberculatus, turcomanus, ursinii, ursinus, ursula, velatus, villosissimus, villosus, virginianus, vispistrellus, volgensis, wiedi. †

Vespertilio sicula.

Vesperugo dingani, kuhli, leisleri, marginatus, nathusii, nilssoni, noctula, pipistrellus, scotinus, subtilis.

Vesperus (Col.) luridus, solieri, strepens, xatarti.

Vesperus (M.) alcythoe, aristippe, discolor, leucippe, nilssoni, savii, serotinus.

Vesta chevrolati, cincticollis, gratiosa.

Vestiaria akarosa, evi, heterorhynchus, hoho, vestiaria.

Vexilla picta.

Vexillaria flabellum.

Vexillum desglandi, halli, labechei.

Vianellia dorsioculata.

Vibex fluviatile, oweni, viviparum.

Vibidia duodecim-guttata.

Vibilia jeangerardi, peroni.

Vibrio acerosus, agrostis, ambiguus, amblyoxus, amblyoxys, bis-octo-notata, diffuens, dongalanus, filaria, fluviatilis, graminis, humana, inflexa, lacustris, lagena, lemula, lumbrici, marinus, ministerialis, ostrearius, prolifer, punctatus, recticauda, subtilis, subula, syncyanus, synxanthus, tremulans, tritici, truncatus, turriker, vegetalis, vulgaris.

Victorina epaphus, steneles, trayja.

Vidalia impressifrons.

Videstrela regia, serena, superciliosa.

Vidua albonotata, ardens, axillaris, chrysonotus, concolor, erythrorhynchus, laticauda, lenocinia, macrocerca, macroura, panayensis, paradisea, phoenicoptera, principalis, regia, rubritorques, serena, sirena, superciliosa, verreauxi.

Vigorsia niger, vasa.

Villiersia scutigera.

Villorita cyprinoides.

Vinago abyssinica, affinis, aromatica, australis, bicincta, calva, cantillans, chlorigaster, curvirostra, giganteus, malabarica, militaris, nudirostris, oxyura, psittacea, sphenura, unicolor, vernans.

Vincularia aculeata, alternans, amphora, angularis, bella, bronni, canalifera, cenomana, circumdata, circumfossa, cretacea, defrancei, dentata, dichotoma, dubia, elegans, fragilis, gracilis, grandis, hexagona, incrustata, interpunctata, labiata, lorieri, macro-pora, marginata, megastoma, microstoma, multangularis, nodulosa, normaniana, oblonga, ovalis, parallela, pentagona, porosa, pustulosa, rariocosta, regularis, rhombifera, rhomboidalis, ringens, spiro-pora, subrhombifera, sulcata, teres.

Vini coccinea, dryas.

Vioa arbestinum, clio, coccinea, dissociata, duvernoyi, duvernoysi, glomerata, nardina, pasithea, typica, typus.

Vipera acantophis, acontia, aegyptia, aegyptiaca, ammodytes, anguiforme, arietans, aspis, atra, atropoides, atropos, atrox, baetaen, berus, brachyura, brasiliana, brasili-niana, buccata, caeruleo-cens, carinata, caudalis, cerastes, cherssea, chloris, clotho, cobia, communis, corallina, cornuta, crotalina, daboia, daboya, dipsas, dubia, echis, elegans, euphratica, flava, fulvia, fuscata, haemachata, haje, halys, holleik, hugyi, ignobilis, inflata, javanica, krait, lactea, lanceolata, latea, leberis, lebetina, lemniscata, linnaea, loberis, lophophris, maculata, maregravi, medica, melanis, melanura, naja, nasicornis, nasua, nexa, nigrita, nivea, ocellata, orientalis, praetextata, prester, psyche, redi, schyta, scythia, semifasciata, severa, spilotes, stolata, striatula, superba, tessellata, tigrina, torva, trigonocephala, trilamina, trimaculata, variegatus, venosa, viridis, vissena, vrens, vulgaris, weigeli.

Vipio algericus, annulipes, bicarinatus, cinctellus, coronatus, denigrator, desertor, dorsimacula, fasciipennis, femoralis, foveifrons, galea, maculatur, melanocephalus, melanosoma, minutor, nigro-notatus, nominator, pectoralis, punctidorsis, scaber,

- scutum, semi-striatus, sex-maculatus, tenui-striatus, tuberculosus, unifasciatus, urinator.
- Viralva** affinis, anglica, aranea, cinerea, indica, leucoparia, leucoptera, nigra, simplex, sinensis, varia.
- Vireo** agilis, altiloquus, bartrami, belli, cristatus, flavifrons, gilvus, gundlachi, longirostris, musicus, nigerrimus, noveboracensis, olivacea, solitarius, versicolor, vigorsi, virens, virescens.
- Vireolanius** melitophrys.
- Vireosylva** bartrami, olivacea.
- Vireosylva** agilis, altiloquus, virescens.
- Virgularia** alpina, australis, christi, finmarchica, incerta, juncea, mirabilis.
- Virgulina** (Inf.) brevicauda, discus, pirenula, pleuronectes.
- Virgulina** (Rh.) punctata, reussi, schreibersiana, squammosa, tegulata.
- Viscaccia** americana.
- Vison** itatsi, lutreola.
- Vitiflora** aurantia, aurita, cinerea, germanica, grisea, hottentotta, leucomela, leucorrhoea, leucura, maculata, massiliensis, oenanthe, pileata, rufa, saltatrix, septentrionalis, stapazina.
- Vitrea** diaphana.
- Vitrella** fragilis.
- Vitrina** abyssinica, ampullacea, angelicae, annularis, aperta, audebardi, baccata, beckiana, bensoni, beryllina, bicolor, birmanica, brevis, caperata, cassida, ceylanica, cornea, crenularis, cumingi, cuvieri, depressa, diaphana, dillwyni, domestica, draparnaldi, elongata, fasciata, fasciolata, flammulata, freycinetti, fumosa, gigas, glacialis, grandis, gruneri, guimarasensis, gutta, habyssinica, hians, lamarki, leytenis, limpida, luzonica, maravignae, marcida, margarita, margaritacea, membranacea, monticola, muelleri, musignani, natalensis, nigra, nitida, obtusa, papillata, pellicula, pellucida, peraffinis, planulata, poeppigi, politissima, praestans, pyrenaica, resiliens, rillyensis, robusta, rueppelliana, rufescens, rufovirens, ruivensis, sigaretina, smaragdulus, sowerbyana, strangei, subglobosa, sulcosa, suturalis, tecta, tenella, teneriffae, verreauxi, virens, viridis, vitrea, zebra.
- Vitrinella** helicoidea, hyalina, interrupta, megastoma, tincta.
- Vitularia** tuberculata.
- Vitulina** vitulina.
- Viverra** abyssinica, albicauda, albus, annulata, antiqua, aterrima, aurata, barbara, bengalensis, binotata, binturong, bizaan, boiei, bondar, canadensis, carcharias, chilensis, civettoides, concolor, cuja, erminea, exilis, fasciata, felina, foina, furo, fusca, galera, genetoides, geoffroyi, gigantea, gracilis, gymnura, hardwicki, indica, leucopus, linsang, macrodactyla, maculata, malaccensis, martes, melanurus, mephitica, molassica, musanga, nigra, pallida, paludina, pardina, penicillata, perdicator, piscator, primaeva, quadricolor, quiqui, rasse, ratel, richardsoni, sarmatica, senegalensis, sibirica, striata, touan, undulata, vulgaris, zibellina, zibethoides.
- Viverricula** indica, rape, rassa.
- Vivia** innominata, nipalensis.
- Vivipara** concinna, extensa, fluviorum, lenta, suboperta.
- Viviparus** ampullariformis, fluviorum, linnaei, vulgaris.
- Vociferator** europaeus, melolontha, ruficollis.
- Volatinia** jacarina, splendens.
- Volema** carica, fuscum, granulatum, lineatum, perversum, rapa, vespertilio, vittatum.
- Voltula** ornata.
- Volucella** minuta, pygmaea.
- Volucella** abdominalis, adjuncta, alchimista, analis, apiaria, ardua, aurata, autumnalis, caesarina, campestris, caucasica, cervina, chalybescens, cornicina, cyanescens, dispar, dorsalis, dryophila, epata, esuriens, fasciata, flavipennis, fusca, fuscipennis, haemorrhoidalis, hirtipes, hochhuthi, inflata, intricaria, lapponum, lata, liquida, longirostris, lugens, lurida, macula, marginata, mediatunda, metallifera, mexicana, mutata, nemorum, obesa, oenea*, oenopota, opalina, pallens, pallida, peleteri, pellucens, picta, plorans, purpurea, pusilla, quadrisquammata, radicum, ranunculi, roralis, scutellata,

scylalaria, spinigera, taurica, testacea, tibialis, trifasciata, tuborum, tympanitis, vana, vaga, vesiculosa, violacea, vulpina, zonaria.

Volucra albella, flava.

Volupia rugosa.

Volupta jugosa.

Volusia nitida.

Voluta abbatiss, abyssicola, acuminata, acuta, affinis, alabastrina, alba, albida, albo-lineata, alta, ambigua, amphora, ampliata, ampullacea, ancilla, ancyloides, anglica, angulata, anguria, angusta, anna, antiqua, aperta, arausiaca, armata, asopis, athleta, aulica, auriscati, aurisleporis, aurismustelae, aurisvirginis, aurisvulpina, aurora, australis, auvertiana, barnesi*, becki, bicorona, bidentata, bifidens, branderi, brasiliana, breviphcata, brisei, brocchii, broderipi, buccinata, buccinea, bulbula, bullaoides, bullata, caelata, caenis, caerulea, calcarata, callosa, calva, camdeo, capitata, carneolata, caroburgensis, carolinensis, cassidea, cassidula, casta, castanea, catenata, chemnitzii, chlorosma, chrysostoma, cincta, cingulata, cithara, citharella, citharina, citrina, clandestina, clathrata, colocynthis, colorata, columellaris, concinna, coniformis, conoidea, conspicua, contracta, cooperi, corona, coronata, corrugata, costaria, costata, costellaris, crassa, crenata, crenifera, crenulata, cruenta, cucurbita, cumingi, cupressina, cyanea, cylleniformis, cymbiola, cymbium, cypraeola, cythara, dama, dargelasi, dealbata, decerta, decorata, defrancei, delessertiana, dentata, denticulata, denudata, depauperata, deperdita, depressa, deshayesiana, detrita, deusta, diadema, digitalina, digitalis, dubia, ducalis, dufrenoyi, eburnea, echinata, elegans, elevata, elongata, erythrostoma, exilis, exoptanda, fasciata, februlis, fenestrata, ferrugata, ferussaci, festiva, fibrata, ficulina, fulginea, fulsa, flum, fissurata, flammea, flammula, flaveola, fluctuata, fluctuosa, fuminea, fluviatilis, fragaria, fulgetrum, fuliginosa, fulminans, fulminata, fulva, furca, fusca, fusiformis, fusus, gamberoonica, gasparinii, geminata, georginae, germari, gibbosa, glauca, globosa, goodalli, gracilis, gracilus, granulata, gravis, grumosa, gualtieri, guerangeri, guildingi, guineaica, guttata, harpa, harpula, haustrium, hebraea, helveta, hercilia, heterochila, hians, hirta, hyalina, ignave, ignea, imperialis, incompacta, incrasa, incrasata, indica, innexa, insculpta, interrupte-lineata, interstincta, japonica, junonia, labrella, labrosa, laevigata, laevis, lahaysi, lamarecki, lamberti, laodamia, lapponica, largilbertiana, larva, lens, lima, lineata, lineolata, luctator, lugubris, luteofasciata, luteola, luteostoma, lycastes, lyra, lyrata, lyriformis, maculata, magellanica, magnifica, magorum, mamilla, mammosa, marginata, marmor, mariorata, megaspira, melo, melongena, micans, microzonias, miletis, miltonis, minima, mitis, mitraeformis, mitrata, mitrella, mitreola, mixta, modesta, multicostrata, multispinia, multistriata, muricata, muricina, muriculata, musicalis, mutabilis, mutata, myotis, nana, nasua, nautica, nebulosa, nemesis, nitidula, nivosia, nobilis, nocturna, nodosa, nodulosa, norrisi, norrissi, notabilis, notata, nucleus, nux, obliquata, obsoleta, ochracea, oliva, olivaria, undulata, oriola, orithia, ornata, oryza, pacifica, pallida, papilio, papularis, papillosa, parkinsoni, parva, pasithea, pattersonia, patula, pelis-serpentis, pellucida, pennata, pepo, perdicina, peruviana, petrosa, pica, picta, pecturata, pinguis, piperata, piscatoria, pisum, plicata, plicatella, plicatula, polyzonalis, ponderosa, poraria, porcina, praetexta, prevosti, prisca, proboscoidalis, protensa, pseudo-ambigua, pseudo-lyra, pulchella, pulchra, punctata, purpuriformis, pusio, pustula, pyramidella, pyramis, pyriformis, pyruloides, quadruplicata, radula, rarispina, rathieri, recticosta, reflexa, regia, renauxiana, requieniana, reticulata, rigida, ringens, rubiginosa, rudis, rufina, rugosa, rutila, samathe, sayana, scabridula, scabriscula, scafa, scalaris, schroeteri, scolyma, scrobiculata, scrofa, semi-granosa, senuplicata, senupunctata, septemcostata, serpentina, sibilla, signifer, simplex, solitaria, sophia, soror, sowerbyi, spinea, spinosa, spinulosa, spiralis, spirata, spoliata, stictica, stigmataria, stragulata, striata, striatula, strigata, strigilata, striolata, strombiformis, suadela, subacuta, subdentata, subfusiformis, subglobosa, submuricata, subnodosa, subpisiformis, subspinosa, subturgidula, sulcata, suspensa, suturalis, swainsoni, taeniata, tarbelliana, tenebrosa, terminata, terna, tessellata, tessulata, textilis, texturata, thiara, thiarella, tigrina, tornatilis, torulus, torva, tribulus, tricorona, trifasciatus, trinchinopolitensis, triplicata, trisulcata, tritia, tuberculata, turbinata, turgidula, turneri, turricula, umbilicaris, undulata, undulosa, unidentatus,

unifascialis, unifasciata, uniplicata, vanuxemi, variabilis, varicosa, variculosa, variolosa, ventricosa, vespertilio, vexillum, vidua, virescens, vittata, vitulina, vulpina, wetherelli, zebra, ziczac, zonata.

Volutella angulata, bullata, divergens, guttata, lineata, nigra, nigricans, oblonga, rubescens, sulcata.

Volutilithes bicorona, cithara, costaria, crenulata, labrella, lyra, musicalis, muticina, pertusa, rarispinia, spinosa.

Volutites anomalus, buccinoides, coniformis, helicius, linearis, marginellus, nitroides, nodosus, spinosus.

Volva patula.

Volvaria acutiuscula, alba, albomaculata, biplicata, bulloides, canaliculata, catenata, concinna, crassa, cretacea, donovani, galba, intermedia, laevis, marginata, miliacea, miliaria, monilis, oryza, pallida, pauciplicata, pellucida, pinea, quadriplicata, regulbiensis, retusa, septemPLICata, sexPLICata, subcylindrica, tenera, tenuis, triticea, truncata, umbilicata.

Volverella astoma.

Volvocivora cana, fimbriatus, lugubris, melanoptera, melaschistos, sykesi.

Volvox aeneus, annulatus, arenarius, asteroides, atomus, aureus, baccatus, bicolor, bipunctatum, bivalvis, bullatus, calamus, coordinatus, crystallinus, cucullatus, ellipticus, ferox, floriferus, flocculosus, fuscus, galeratus, glaucoma, globulatus, globulatus, granulatus, kolpoda, laevigatus, lens, lethacus, lunulatus, mica, nutans, ocellus, papillatus, phiala, pillularius, proteiformis, pulvisculus, radiatus, reticulatus, roseus, saturnius, scintillans, scutiferus, stellatus, tranquillus, triflorus, trilobus, trisectus, uranoides, vitreus, vorticella, zonatus.

Volvulus (Col.) aeneus, indatus.

Volvulus (G.) bidens, muscorum, perversus.

Vomer alesandrinus, browni, longispinus, parvulus, priscus.

Voria latifrons.

Vortex (G.) angigyra, candida, carocolla, cellaria, didonta, holosericea, lapicida, obvolvata, warreni, zonaria.

Vortex (Verm.) capitata, caudata, littoralis, picta, quadrioculata, truncatus, vittata.

Vorticella arabica, arbuscula, bidentata, brevipes, campanula, caniculata, cavolinii, cheroti, chlorostigma, citrina, coalita, cothurnata, cyathus, doliolum, erythrophthalma, hamata, iners, infusionum, intracta, lemifera, limosa, microstoma, monadica, najas, parasitica, pentagona, picta, pigra, pila, plicatula, pulvinata, quadricornis, ramosissima, rotatoria, rotularis, sacculata, senila, sepia, spectabilis, subconica, tetrodon, umbellula, volvox.

Vorticialis ammoniformis, craticulata, crispa, marginata, mediterranea, umbilicata.

Vrocentrum turbo. *Vide et Urocentron.*

Vroleptus hospes, lamella, musculus, piscis. *Vide et Uroleptus.*

Vulpanser rutila, tadorna.

Vulpecula (G.) cafra, cinctella, filosa, plicaria, sanguisuga, vulpecula.

Vulpes alopes, americanus, argentatus, azarae, bengalensis, caama, campestris, cinereo-argentatus, cinereus, corsac, crucigera, decassatus, decussatus, denhami, famelicus, fennicus, ferriatus, flavescens, fuliginosus, fulvipes, fulvus, griseus, hodgsoni, indicus, lagopus, lalandi, magellanica, melanogaster, melanogaster, nepalensis, niloticus, oeningensis, pallidus, thaleb, variegatus, velox, virginianus, vulgaris, xanthura, zaarensis.

Vulsella deperdita, exogyra, falcata, hians, huegeli, lingulaeformis, lingulata, major*, margaritacea, mytilene, nuttalli, ovata, rugosa, spongiarum, turonensis.

Vulsirea ancora, nigro-rubra.

Vultur aegyptius, aegyptius, albicans, albicollis, alimoch, alpinus, ambustus, armatus, atratus, audax, aureus, auriculatus, aurlentus, brasiliensis, castaneus, columbianus, condor, coprotheres, euphorus, fossilis, galericulatus, gallipennis, hierax, hypoleucus, ignobilis, imperialis, leuconota, meleagris, minor, occipitalis, persicus, pileatus, sacra, sinensis, tenuiceps, trencalos, urubu.

Vulvulina capreolus, elegans, gramen, pupa.

Vvella atomus, bodo, minuta. *Vide et Uvella.*

- Wachnja** cantschatica, gracilis, macrocephala.
Wagasocles dispar.
Wagellus glacialis.
Wagneria (Dipt.) gagatea.
Wahlbergia melanura.
Walckenaeria acuminata, cristata, cuspidata, depressa, fuscipes, obtusa.
Walcknaera apicata, atra, bicolor, bifrons, hardii, hiemalis, humilis, nemoralis, parva, picina, pumila, punctata, turgida.
Waldheimia (Br.) australis.
Waldheimia (Hym.) orbignyana.
Walkeria cuscuta, uva. *Vide et Valkeria.*
Wallerites paradoxus.
Waltonia valenciennesi.
Webbina flexuosa, irregularis, rugosa.
Weberia appendiculata.
Websteria crisioides.
Weebongia albiventer.
Weevillum pomi.
Westermannia superba.
Westwoodia ruficeps.
Wiedemannia appendiculata, borealis, compressa, juvenilis, rufiventris.
Willsia stellata.
Wilsonia bonapartei, minuta, mitrata, pusilla.
Winthemia aurulenta, catocalae, ciligera, cinerea, crassicornis, flavescens, meditata, nigripalpis, nobilis, quadripustulata, variegata, viarum, vinulae.
Wodnika striatula.
Wolfella caternaulti.
Wombatus fossor.

- Xaiva** pulchella.
Xanclostomus sirkee, viridirostris.
Xancus maculatus.
Xanemus vibrivides.
Xantharpyia aegyptiaca, simplexicaudata, straminea.
Xanthasia murigera.
Xanthea agaricina.
Xanthia argillacea, aurago, badiago, cerago, citrigo, croceago, echii, erythrago, evidens, ferrago, ferruginea, fimbriago, fulvago, luteago, miniago, ochroleuca, pallego, pulmonarius, puniceago, rubecula, ruina, silago, subflava, sulphurago, vitellina, xerampelina.
Xanthidia delia, desjardinsi, floricola, jocunda, jucunda, lisa, nicippe, puella, pulchella, similax.
Xanthidium claviferum, complex, crassipes, fimbriatum, globosum, malleoferum, palmaforme, palmatum, ramosum, recurvatum, simplex, spinosum, tubifera, vestitum.
Xantho (Cr.) agassizi, asper, crenatus, cultrimanus, dehaani, denticulatus, deplanata, depressus, dia, edwardsi, eudora, florida, gaudichaudi, granulosus, hirsutissimus, hirtipes, hirtissimus, impressus, incisa, intonsus, lamarcki, lamelligera, lividus, octodentatus, orbignyi, parvulus, peroni, peuce, planus, poressa, punctatus, quinque-dentatus, radiatus, reynaudi, rhumphii, rivulosus, rotundiformis, rufopunctatus, scaber, setiger, sexdecimdentatus, spinigera, spinosa, tuberculata, vermiculatus, zonata.
Xantho (Verm.) decapoda, hexapoda.
Xanthocephalus perspicillatus.
Xanthoceros fasciculatus, idoneus.
Xanthochilus oblitteratus.
Xanthochroa carniolica, gracilis.

- Xanthodira** dentata, flavigula.
Xantholeuca croceago.
Xantholinus affinis, aheneus, alternans, amabilis, americanus, anachoreta, analis, angulatus, ater, atratus, attenuatus, aulicus, batychrus, breviventer, brunneipennis, cadaverinus, calidus, canaliculatus, castanopterus, castigatus, cephalus, chalcopterus, chloropterus, collaris, consentaneus, cyanipennis, cyanopterus, decorus, dispilus, divisus, elegans, elongatus, emmesus, episcopalis, erythropterus, fascialis, ferrugineus, festivus, flavipennis, flavocinctus, fulgidus, fulminans, gagatinus, glaber, glabratus, gracilis, haematodes, hamatus, hesperius, hispanicus, humeralis, illucens, illyricus, impressifrons, incertus, insignis, intermedius, laevigatus, laticeps, lentus, lepidotus, limbatus, linearis, longiceps, longiventris, lubricus, lucidus, lynceus, mannerheimi, melanocephalus, meridionalis, minutus, nigriceps, obscurus, obsidianus, occidentalis, ochraceus, palliatus, parvulus, pectoralis, phaenicopterus, pilicornis, procerus, puncticeps, punctulatus, purpuratus, pyropterus, rubricollis, rufescens, ruficollis, rufipennis, rufipes, rufus, rugicephalus, rutilus, sanguinipennis, sanguinolentus, scripticollis, speciosus, styriacus, subimpressus, tener, tricolor, vagepunctus, vagus, volvulus.
Xanthonella lutea.
Xanthopastis dysodea, flavicincta, flavivibica, timais, xanthomista.
Xanthophaea grandis.
Xanthopygia mugimaki. *Vide et Zanthopygia*.
Xanthorhoe galliata, montanata.
Xanthornus abeillei, americanus, analis, aurantia, aurantius, baltimore, bonana, bonariensis, bullocki, californicus, carunculatus, castaneus, caucasicus, cayanensis, chrysater, chrysocarpus, chrysocephalus, chrysopterus, coronatus, dominicensis, flavaxilla, flavus, gasquet, gilvago, guyanensis, icterocephalus, icterus, iugularis, leucopterus, leucoramphus, linnaei, ludovicianus, melancholius, melanocephalus, mesomelas, mexicanus, minor, nidipendulus, nigrogularis, parisorum, pendulinus, phoeniceus, prothemelas, purpurascens, rufigaster, sinensis, spurius, tibialis, varius, viridis, xanthornus.
Xanthosetia amplana, chrysitana, diversana, ferrugana, hamana, inop ana, zoegana.
Xanthoura guatimalensis, luxuosa, peruviana.
Xema atricilla, bonapartei, brunnecephala, caniceps, capistrata, cirrocephala, collaris, franklini, ichthyætum, jamesoni, lambruschinii, leucophthalmum, melanocephala, minuta, pileatum, plumiceps, poiocephala, ridibundus, sabini.
Xenacanthus decheni.
Xenia caerulea, desjardiniana, elongata, esperi, florida, fuscescens, purpurea, umbellata.
Xenillus clypeator.
Xenistum valenciennesi.
Xenocarcinus tuberculatus.
Xenocerus cylindricollis, flagellatus, saperdoides.
Xenochirus saureus.
Xenodermus javanicus.
Xenodon (P.) niger.
Xenodon (R.) aeneus, bicinctus, caeruleus, inornatus, merremi, michahelles, ocellatus, purpurascens, rabdocephalus, rhadocephalus, saurocephalus, scholti, schotti, severus, typhlops, uniporus, versicolor.
Xenodorus janus.
Xenogenys azurea.
Xenomerus ergenna.
Xenomorpha australis, leptiformis.
Xenomyza myops, planiceps.
Xenopeltis concolor*, leucocephala*, unicolor.
Xenophora laevigata, meandrina, tricostata, vulcanica.
Xenophorus caperatus.
Xenophthalmus pinnotheroides.
Xenopipo atronitens.
Xenopirostris lafresnayei.

- Xenops* abeillei, anabatoides, caniveti, dentirostris, fuscus, genibarbis, griseus, nigrocapellus, ruficollaris, rufosuperciliaris, rufus, rutilans, rutilus, westwoodi. *Vide et Xenops.*
- Xenopus* boiei.
- Xenos* pecki, rossi, westwoodi.
- Xenurus* antiquus, cayennensis, gymnurus, intermedius, neglectus, nudicaudis, nudicaudus, squamicaudis, uninctus.
- Xenus* cinerea.
- Xerene* contaminata, hastata, melanaria, plumbata. *Vide et Zerene.*
- Xeroderus* kirbyi.
- Xerophila* (A.) leucopsis.
- Xerophila* (G.) apicina, cespitum, conica, ericetorum, filimargo, gargottae, neglecta, pisana, pyramidata, striata, terveri, thymorum, variabilis.
- Xerophloea* grisea.
- Xerophyllum* servillei.
- Xerosoma* canaliculatum.
- Xerus* rutilans, setosus, trivittatus.
- Xestia* (Col.) elegans, lateralis, spinipennis.
- Xestia* (Lep.) chloropha, ochrojois.
- Xestomyza* chrysanthemi, costalis, culiciformis, lugubris.
- Xestorrhytas* perrini.
- Xiletinus* striatus. *Vide et Xyletinus.*
- Xilocopa* brasilianorum, morio, violacea. *Vide et Xylocopa.*
- Xiphasia* setifer.
- Xiphias* imperator, makaira, rondeleti, velifer.
- Xiphicera* azureipennis, caternaulti, emarginata, erythrogaster, gallinacea, octolineata, pierreti, serripes, tricristata, trilineata, viridicata.
- Xiphichthys* russelli.
- Xiphidia* fasciata.
- Xiphidicera* rufipes.
- Xiphidion* (Cirr.) quadratum.
- Xiphidion* (Or.) dorsalis, fasciatum, fusca, iris, maculatum, oceanicum.
- Xiphidiorhynchus* pectoralis.
- Xiphidium* (Cirr.) angustum, quadratum.
- Xiphidium* (Or.) agile, bilineatum, concolor, dorsale, fasciatum, fuscum, glaberrimum, thoracicum.
- Xiphirhynchus* superciliaris.
- Xiphiurus* capensis.
- Xiphocera* (Dipt.) percheroni, reynaudi.
- Xiphocera* (Or.) auroripennis, australasiae, discoidea, dorsalis, obsoleta, ruricola, serrata.
- Xiphochilus* spurius.
- Xiphodon* gelyense.
- Xiphodontus* antilope.
- Xiphogonium* declive, planicauda, sculptum, sieberianum.
- Xipholena* lamellipennis, pompadora, purpurea.
- Xiphonura* jeffersoniana.
- Xiphopeza* triplex.
- Xiphophorus* bimaculatus, gracilis, helleri.
- Xiphopterus* falcatus.
- Xiphoramphus* microlepis.
- Xiphoramphus* (A.) superciliaris.
- Xiphoramphus* (P.) argenteus, falcatus, falcirostris, hepsetus, humeralis, odoe, pericoptes.
- Xiphorhina* langaha.
- Xiphorhynchus* (A.) falcarius, flavigaster, lafresnayanus, leucogaster, procurvodes, trochilirostris. *Vide et Ziphorhynchus.*
- Xiphorhynchus* (R.) falcirostris, madagascariense.
- Xiphoscelis* hopei, schuckardi.

- Xiphosoma** araramboya, canina, carinata, dorsuale, enydris, hortulana, madagascariense, olivacea, ornatum.
- Xiphostoma** cuvieri, hujeta, lucius, maculatum, ocellatum.
- Xiphosurus** bimaculatus, cristatellus, cuvieri, equestris, principalis, ricordi, velifer.
- Xiphura** (Dipt.) nigrofasciata, villaretiana.
- Xiphydra** basalis, maculata.
- Xiphydria** abdominalis, albicornis, annulata, camelus, dromedarius, emarginatus, longicollis, inclipes, tibialis.
- Xirichthys** lineata, novacula, pentadactyla, psittacus.
- Xolmis** bicolor, coronata, moesta, mystacalis, nengeta, pyrope, variegata, velata, vittigera.
- Xolotrema** clausa, lunula, triodopus.
- Xorides** albitarsus, collaris, cornutus, coronatus, cryptiformis, dentipes, humeralis, indicatorius, longicornis, nitens, praecatorius, rufus, spinipes.
- Xsyletinus** thoracicus.
- Xsylina** freyeri.
- Xya** (Orth.) apicalis, fossor, limbata, marginata, notata, variegata.
- Xyalaspis** laevigatus, rugosus.
- Xyela** coerulea, erichsoni, ferruginea, longula, pusilla.
- Xyleborus** citri.
- Xylena** antyrhyni, cassinia, conformis, conspicillaris, delphinii, exoleta, hepatica, hyperici, lapidia, lateritia, linariae, lithorhiza, lithoxylea, nubeculosa, oculata, opalina, perspicillaris, petriiaca, petrora, pinastri, platyptera, polyodon, pulla, putris, ramosa, rectilinea, rizolitha, rurea, scolopacina, solidaginis, sommeri, spinifera, vetusta. *Vide et Xylina.*
- Xylephilus** nigrinus.
- Xyletinus** ater, bombycinus, cylindricus, discolor, flabellicornis, flavescens, flavipes, formosus, hederæ, laevis, laticollis, murinus, nigripes, ornatus, pallens, pallidus, pectinatus, rufescens, ruicollis, sericeus, serratus, serricornis, subrotundus, testaceus, tibialis, tomentosus, villosus. *Vide et Xiletinus.*
- Xyleutes** cossus, crassa, robiniae, strix, terebra.
- Xylina** antirrhini, australis, borealis, conformis, conspicillaris, erythroxyela, exoleta, grammis, hyperici, icterias, ingenua, ingræa, lambda, lefebvrei, linariae, lithorhiza, lithoxylea, merckii, nux, perspicillaris, petrificata, petrorbiza, pinastri, pinniperda, puta, putris, radiosa, rectilinea, rhizolitha, rurea, sabinae, scriptura, somniculosa, unicolor, yvanti, zinckeni. *Vide et Xylena.*
- Xylinades** acuticornis, atricornis, hopei, lanugicornis, maculipes, nodicornis, pertyi, rugosus, westermanni.
- Xylobius** albovarius, alni, azureus.
- Xylobucco** scolopaceus.
- Xylocampa** lithoriza.
- Xylocharis** costatus, elegantulus, oculatus, richardi.
- Xylocopa** aeneipennis, aestuans, affinis, africana, albiceps, albifrons, amedæi, amethystina, angusti, auripennis, aurulenta, australensis, barbata, brasiliæ, brasiliæ, caerulea, caffra, cajennæ, calens, cantabrita, capensis, caribæa, carolina, chalcoptera, chloroptera, chrysoptera, cirtana, collaris, colona, corniger, cornuta, crassa, cyanescens, dejeani, dimidiata, dissimilis, divisa, fasciata, femorata, fenestrata, ferruginea, fervens, fimbriata, flavicrus, flavilabris, flavithorax, flavosrufa, frontalis, fuscens, helvola, indica, iricolor, iridipennis, lanigera, lateralis, latipes, lativentris, latreillei, leonina, lunata, lunulata, lutea, luteola, macrops, marginata, marginella, mesoxantha, micans, minuta, moerens, muraria, nasalis, nigrita, nitens, nitida, obscura, olivacea, olivieri, orichalcea, peruana, perversa, phalothorax, pubescens, purpurascens, ruficornis, rufitarsis, semi-armenia, senilis, serena, sinuatifrons, splendida, splendidula, superciliosa, taurica, tenuiscapa, teredo, trepida, verticalis, vidua, virescens, virginica, viridigaster, viridipennis, xanthocnemis. *Vide et Xylocopa.*
- Xylocoris** albipennis, ater, bicolor, cursitans, dimidiata, domesticus, ferrugineus, formicetula, obscurellus, oculata, parisiensis, pulchellus, rufipennis.
- Xylodromus** concinnus, deplanatus.

- Xylographus** anthracinus, aubei, bostrichoides, contractus, corpulentus, gibbus, hypocritus, madagascariensis, punctatus, richardi.
- Xylolaemus** fasciculatus.
- Xylomorpha** appendiculata, picea, praemorsa.
- Xylonomus** annulatus, ater, caligatus, ferrugatus, filiformis, gracilicornis, gravenhorsti, irrigator, parvulus, pilicornis, praecatorius, rufipes, scaber.
- Xylonotrogus** laticollis.
- Xylonychus** laetus, nigrescens, piligerus.
- Xylophaga** dorsalis, globosa.
- Xylophagus** americanus, ater, brunneus, canescens, cinctus, compeditus, fasciatus, illucens, latistria, maculatus, marginatus, mengeanus, nigratarsis, nitens, persequus, reflectens, rufipalpis, scutellaris, spiniger, terminalis, triangularis, varius, vittatus.
- Xylophanes** anubus, rajas, draneus, gortys, lycetus.
- Xylophasia** combusta, hepatica, lateritia, polyodon, rectilinea, rurea, sublustris.
- Xylophila** crenata, oblonga, unidentata.
- Xylophilus** alni, bis-bimaculatus, cruentatus, fasciatus, gigas, nigripennis, populneus.
- Xylopoda** fabriciana, nemorana, pariana, pretiosana, scintillulana, vibrana.
- Xylorhiza** fasciata, spumans, venosa.
- Xyloryctes** furcatus, jamaicensis, satyrus, telephus.
- Xylosteus** spinolae.
- Xylota** abiens, aepalius, aethusa, affinis, anthreas, badia, baton, bifasciata, bimaculata, caeruleiventris, chalybea, coarctata, communis, confinis, corbulo, crassipes, dascon, dibaphus, ejuncida, fasciata, femorata, flavifrons, flavitardis, florum, haematodes, haemorrhoidalis, ignava, indica, laphriaeformis, lateralis, latitarsata, lenta, libo, metallica, nemorum, nigripes, oarus, olivacea, pigra, pipiens, plagiata, proxima, purpurea, quadrata, rufipilus, seguis, spectabilis, sylvarum, tarda, triangularis, vagans, valgus, vara, volvulus.
- Xylotaaja** rara.
- Xyloteles** westwoodi.
- Xyloterus** (Col.) domesticus, lineatus, quinquelineatus.
- Xylotinus** flabellicornis.
- Xylotoles** bimaculatus, discordans, gracilis, laetus, lentus, lynceus, parvulus, subpinguis.
- Xylotretus** leucaspis, obscurus, reichei, scrobilatus.
- Xylotribus** heterocerus.
- Xylotrogus** brevicornis, brunneus, parallelipedus.
- Xylotrupes** attilla, dichotomus, gideon, oromedon, phorbanta, pubescens.
- Xyphorhynchus** (A.) maculi-venter, pucherani.
- Xyphorhynchus** (P.) odoe.
- Xyphosia** arvensis, cirsiarum, lappae.
- Xypteris** imperati.
- Xyrichthys** altipinnis, bimaculatus, cultratus, cyanifrons, dea, lectuse, lineatus, macrolepidotus, martinicensis, microlepidotus, pavo, pavoninus, puniceus, taeniurus, torquatus, uniocellatus, vanikolensis, virens, vitta.
- Xysta** (Col.) angulata, grvida, rotundicollis, sulcata.
- Xysta** (Dipt.) cana, cilipes, gagatea, grisea, holosericea, latreillei, striata, striginervis.
- Xyster** fuscus.
- Xysticus** audax, bifasciatus, brevipes, cinereus, confluentus, cuneolus, depressus, fuscus, graecus, grammicus, horticola, lanio, morio, pini, praticola, pulverulentus, robustus, sabulonis, ulmi, viaticus.
- Xystrocera** australasiae, globosa, nigrita, senegalensis, signata, virescens, vittata.
- Xystrolepis** punctata.
- Xystronia** caerulea.
- Xystropus** dejeani, pilosus.
- Xystus** (Col.) sanguinicollis.
- Xystus** (Hym.) apertus, brachypterus, castaneus, cinctus, circumscriptus, cursor, defectus, erythrocephalus, erythrothorax, femoralis, flavicornis, fuscicornis, heterocerus, leunisi, longicornis, longipennis, macrophadnus, melanogaster, minutus, obscuratus, posticus, rufiventris, testaceus, trapezoideus, villosus.

Yarkea leucocephala.

Yetus neptuni.

Yliotis passerini.

Ynca becki, irrorata, sommeri.

Yoldia angularis, arctica, lucida.

Yolinus sufflatus.

Yphantès auricollis, baltimore, bullocki, coztototl, solitaria, spurius.

Yphthima aphnius, arctous, baldus, casse, cleo, hippia, manto, philomela.

Ypomeneuta stramentella.

Yponomeuta acanthella, albistria, ambiguella, aurifuella, bicolorella, bifasciella, caesiella, clementella, cognitella, comptella, crataegella, curtisella, curvella, decemguttella, echiella, evonymella, flavianella, funerella, grandis, haemorrhoidella, irrorella, leucateila, lineella, lithospermella, lutarella, mahalebella, malinellus, mendicella, ocella, ossea, padella, plumbella, prunella, pusiella, quadripunctella, rajella, reticulella, roesella, rorella, sedella, semifusca, sequella, sexpunctella, subfasciella, subocella, tetrapodella.
Vide et Hypomeneuta et Hyponomeuta.

Ypsipetes elutaria, elutata, horridaria, impluviaria, impluviata.

Ypsistoma alpina.

Ypsolopha alpella, antennella, persicella.

Ypsolophus asperellus, atratus, bicostellus, bifasciatus, binotellus, costellus, dentellus, dolosellus, durdhamellus, ermineus, exustellus, falleniellus, fasciellus, fissellus, fissus, flaviciliatus, hamatus, harnatus, hesperidellus, hesperidis, imparellus, insignis, lanceolellus, lenniocellus, lineatellus, lutosus, marginellus, maurellus, mediopectinellus, mucronellus, ochroleucus, palpellus, palustrellus, parenthesesellus, pratensis, pterodactylellus, quinquepunctatus, radiatellus, radiatus, rufimitrellus, schmidicellus, schmidtellus, separatellus, sequellus, taurellus, varians, variellus, vitellus.

Yuhina flavicollis, gularis, nigrimentum, occipitales.

Yunx cayennensis, cirrhatus, exilis, indica, japonica, minutus, pectoralis. *Vide et Iynx et Jynx.*

Zabia longipes.

Zabrus ambiguus, ammophilus, angustatus, aurichalceus, avidus, blaptoides, caucasicus, cheilosporum, cognatus, convexus, crassus, curtoides, curtus, dentipes, distinctus, elongatus, femoratus, flavangulus, fontenayi, gibbosus, gibbus, globosus, graecus, gravis, in-crassatus, inflatus, intermedius, laevigatus, madidus, marginicollis, morio, obesus, orsinii, ovipennis, piger, pinguis, propinquus, puncticollis, robustus, rotundatus, rotundicollis, rufomarginatus, silphioides, silphoides, spinipes, sublaevis, tardus, trinii, vicinus.

Zachaeus mordax.

Zacheus mordax, trinotatus.

Zacholus austriaca, girondicus, laevis, vernalis, zonatus.

Zaida agilis, crataegella, falculae.

Zaira agrestis.

Zaitha bosci, stollii.

Zale horrida.

Zalega furcifrons.

Zalochelidon pelagica.

Zamenis aesculapii, ricciola, viridilavus.

Zammara angulosa, cuncta, erato, intricata, montezuma, plena, praxita, smaragdina, strepens, suffusa, tympanum.

Zancle hansonii.

Zanclodon crenatus, laevis.

Zanclostomus calorenychus, crawfurdi, diardi, elongatus, flavirostris, javanicus, sirkee, sirkii, sumatraus, tristis, viridirostris.

Zanclurus indicus.

Zanclus brevirostris, centrognothus, cornutus.

Zantheumia solstitialis.

- Zanthomyza* phrygia.
Zanthopsis bispinosa, leachi, nodosa, unispinosa.
Zanthopygia chrysophrys, leucophrys. *I'de et Xanthopygia*.
Zaphne egerioidea, hylemyoides.
Zaphrentis clappi.
Zaporina galinella.
Zapornia flammeiceps, minuta, nigrolineata, notata, porzana, pusilla, spilonota, thermophila.
Zaraea fasciata.
Zaretis isidora, polybete.
Zatrephes crocas, dorothea, hermia, ilus, nitida, sanguinolenta.
Zaus spinatus.
Zeaecrinites magnoliaeformis.
Zebrapicus carolinus, elegans, hypopolius, pucherani, superciliaris.
Zebrasoma velifer.
Zebria adamsi.
Zebrina dealbatus, falciolatus, illibatus, radiatus.
Zebronia foederalis, perspicalis, strigialis.
Zegris eupheme, euphene, menestho, pyrothoe.
Zeiraphera argyran, corollana, frutetana, lathyran, licheana, succedana.
Zele albiditarsis, atrator, ephippium, fulvifrons, longicauda, ochraceator, pictoralis, testaceator, thoracicus.
Zelia analis, apicalis, rostrata, strenua, velox.
Zelica (Lep.) malachitica.
Zelima paradoxa, pylades.
Zelleria (Cor.) simplex.
Zelleria (Lep.) fasciapenella, hepariella, insignipennella.
Zelurus ocellatus.
Zelus aegyptius, annulatus, attelaboides, bifidus, bilobus, bispinosus, ciliatus, cinereus, clavipes, coccineus, collaris, coronatus, crassicornis, cruentus, cursitans, diadema, dispar, dorycus, elevatus, elongatus, errans, erythrocephalus, erythropterus, fasciatus, femoratus, festinans, flavicans, fornicatus, heros, ibidus, ichneumoneus, lateralis, lineatus, longimanus, longipes, macilentus, marginalis, means, ochraceus, octospinosus, pedestris, phalangium, plagiatus, praecatorius, punctiger, quadrispinosus, quinquispinosus, recurvatus, rufescens, ruiticornis, serratus, sexdens, sexspinosus, sphegeus, spinosus, taurus, tipuliformis, transversus, triacantharis, vagans, varipes.
Zemba guildingi.
Zemeros allica.
Zemia collaris.
Zemina bivittata, brullei, conjuncta, cupricollis, depressa, hirsuta, humeralis, jucundissima, minor, morosa, olea, orbigny, picta, pudibunda, quadrifasciata, quadrizonata, rouleti, rousseti, rubronotata, vittata.
Zenaida amabilis, aurita, boliviana, galapagoensis, leucoptera, montana, plumbea, souleyetiana.
Zenais fera, sicula, silvestris.
Zenillia ciligera, lepida, libatrix.
Zenithicola australis, obesa.
Zenoa vulnerata.
Zenobia (Cr.) mediterranea, prismatica.
Zenophasia platyryncha.
Zenops affinis, denticostrius. *I'de et Xenops*.
Zenoria linteolata, pilosula, ratzeburgi, revestita, subcostalis.
Zeonia aulestes, chorinaeus, heliconides, lysippus, meliboeus, morissei, octavius, periander, tedeus.
Zephronia castanea, compressa, dorsalis, elongata, gigas, glabrata, hercules, heterostictica, hippocastanum, innominata, insignis, javanica, klugi, kutorgae, lichtensteini, microsticta, ovalis, punctata, punctulata, rotundata, rugulosa, testacea.
Zephyrina pilosa.

- Zephyrus** adonis, agestis, alcon, alexis, alsus, argianus, argiolus, argus, arion, battus, betulae, chrysois, cyclarus, eumedon, garbas, helle, hippothoe, icarius, ilicis, optilete, phleas, pruni, quercus, rubi, virgaurei, W album.
- Zercon** abaculus, boleti, ciliatus, dimidiatus, elegantulus, festivus, fimbriatus, flavidus, obtusus, ovalis, pallens, pavidus, peltatus, similis, spatulatus, triangularis, vacuus.
- Zerena** fasciaria.
- Zerene** adustaria, adustata, alaudaria, albicillaria, albicillata, albidata, anthyale, cesonia, cribrata, dilacerata, erate, fluctuata, grossularia, grossulariata, hyale, integrata, leopardina, maculata, marginata, melanaria, palaeno, pantaria, pantata, phicomone, plumbata, procellaria, procellata, rubiginaria, rubiginata, sinuata, stragulata, taminata, temerata, ulmaria, ulmata. *Vide et Xerene.*
- Zeritis** alphaeus, lara, nerene, protumnus, thero, thyra, thysbe.
- Zerynthia** cerisyi, costovata, demnosia, didymaria, didymata, ferrugaria, fluctuata, honorati, implicata, latentaria, medesicaste, munitata, ogina, olivaria, polyxena, quadri-fasciaria, rumina, salicata, unidentaria, vauaria, viridaria.
- Zerythis** thero, thysbe.
- Zesius** chrysomallus, phaeomallus.
- Zetes** alatus, caespitum, dorsalis, dorsatus, ephippiatus, flavipes, fuscomaculatus, gilvulus, hispidus, laevigatus, latipes, latirostris, longiusculus, lucorum, morticinus, pallidulus, pilosus, rubens, satellitina, semirufus.
- Zethes** insularis.
- Zethus (Cr.)** bellatulus, uniplicatus, verrucosus.
- Zethus (Hym.)** biglumis, cinereus, coeruleopennis, coeruleus, cyanipennis, didymogaster, elongatus, gigas, globicollis, guineensis, labiatus, lugubris, macilentus, pyrifornis, rufinodis, zonalis.
- Zetides** aegistus, eurypylus, pylades, sarpedon.
- Zetobora** cicatricosa, conspersa, conspurcata, emarginata, nimbata, signaticollis.
- Zetterstedtia** cymbiciformis.
- Zeuglodon** brachyspondylus, cetoides, macrospondylus.
- Zeugma** vittata.
- Zeugophora** flavicollis, frontalis, scutellaris, subspinosus.
- Zeugopterus** hirtus.
- Zeus** argentarius, australis, bolcanus, capensis, capillaris, childreni, conchifer, criatus, geometricus, japonicus, lewesiensis, maculatus, nebulosus, niger, opah, platessa, priscus, pungio, regius, regleysianus, rhombeus, roseus, rostratus, scalaris, setapinnis, spinosus, sutor.
- Zeuxia** cinerea.
- Zeuxidia** luxeri.
- Zeuxo (Cr.)** westwoodiana.
- Zeuzera** aesculi, arundinis, minea, octopunctata, putrida, redtenbacheri, viridicans.
- Zia** agilis, melanocephala, paludicola.
- Zibellina** zibellina.
- Zibetha** africana, orientalis.
- Zicca** horrida, massulata.
- Zicrona** illustris.
- Zierliana** ziervogeli.
- Zigaena** mannerheimi.
- Zilla** acalypha, albimacula, calophylla, decora, genistae, montana, reticulata.
- Zingel** asper, sciaenoides.
- Zinneca** flavidorsum.
- Ziphius** cavirostris, longirostris, planirostris, priscus, sechellensis, sowerbiensis.
- Ziphorynchus** bivittatus, procurvis. *Vide et Xiphorhynchus (A.).*
- Ziphotheca** tetradens.
- Zippora** drummondi.
- Ziophorus** freminvillei, fronticornis, laevipennis, longicornis, penicillatus, spinosus.
- Zisius** gladius, velifer.
- Ziziphinus** annulatus, canaliculatus, diaphanus, erythroleucos, punctulatus, selectus, tigris, vulgaris.

- Zizorhis** gigantea.
Zoantha ellisi, sociata, thalassanthos.
Zoanthoa bertheloti.
Zoanthus arenaceus, couchi, digitatus, dubia, lobatus, mamillosus, mertensi, sociata, solandri, tuberculatus.
Zoarces blennoides, umbriatus, gronovii.
Zoarcus labrosus, viviparus.
Zocodum striatum, tuberculatum.
Zodion abdominalis, americanum, carceli, cinerea, conopsoides, fulvifrons, notatum, occidentalis, pedicellatum.
Zoe clavata, taurus.
Zoea clavata, longispina, pattersoni, pelagica.
Zographus aulicus, oculator.
Zomorphus ocellatus.
Zona pictipennis.
Zonargyra virescens.
Zonarites atrata.
Zonarius caecus, discoideus, fasciatus, indicus, militaris, nigrotaeniatus, nigrotibialis, peregrinus, xanthomelas, zebra.
Zonarytes tessellata.
Zonichthys fasciatus, subcarinata.
Zonipus punctatum.
Zonites aetes, acutipennis, albanica, algireus, alliarius, cellarius, chiron, coma, compressa, coreia, croatica, crystallinus, ericetorum, excavata, fuscus, gemmensis, lucidus, nitidulus, nitidus, planospira, purus, pygmaeus, radiatulus, radiatus, rotundatus, rupestris, umbilicatus, verticillus, walkeri.
Zonitis abdominalis, aeneipennis, atra, bifasciata, bilineata, bimaculatus, caucasica, caerulea, concolor, dichroa, fasciata, humeralis, latreillei, lineata, lunata, mandibularis, melanophala, nigra, nigricollis, nigricornis, piezata, polita, pubescens, puncticollis, quadripunctata, rubida, rubripennis, sexmaculata, sibirica, thoracica, tricolor, triozata, vittata.
Zonopora caespitosa, cottaldina, elegans, irregularis, laevigata, pseudo-spiralis, ramosa, rugosa, spiralis, variabilis.
Zonopterus flavitarsis.
Zonotrichia africana, albicollis, atricapilla, aureigula, aurocapilla, canicapilla, chlorura, cinerea, comata, dominicensis, fasciata, galapagoensis, gambeli, graminea, grammaca, guttata, iliaca, lincolni, ludoviciana, matutina, melodia, monticola, mortoni, pallida, palustris, pusilla, querula, savanna, shattucki, socialis, strigiceps, townsendi, undaschenensis.
Zonurus capensis, cataphractus, cordylus, davyi, derbianus, griseus, microlepidotus, novae guineae, polyzonus, vertebralis.
Zonyptilus pennifer.
Zoobotryon arbuscula, pellucidus, verticillatum.
Zoocladium arbusculum, niveum.
Zoocylon levis.
Zoodesmus moniliforme, triplex.
Zoodiocytes erythraeus.
Zoopilus echinatus.
Zoosperma seminale.
Zoospermades tauri.
Zoote caja, flavia.
Zooteca chalybdea, exigua.
Zoothamnia ovifera.
Zoothamnium arbuscula, flavicans, niveum.
Zoothera andromeda, marginata, melanoleuca, monticola.
Zootoca chalybdea, crocea, derbiana, exigua, galloti, guerini, montana, muralis, oxycephala, pyrrogastra, quadrilineata, taeniolata, taurica, vivipara.
Zopherus bremeri, jordanii, laevicollis, nodulosus, variolosus.

- Zophium bimaculatum*, inconspicuum, modestum, piceum, vittigerum.
Zophius rufopictus.
Zophobas bifasciatus, costatus.
Zophobius erotyloides.
Zophodia grossularialis, legatalis, tumidalis.
Zophomyia aenea, buccalis, chalybeata, egeus, microcera, nitida, rubripes, rufipes, scutellaris, tremula.
Zophorus chilensis, mexicanus.
Zophoscomorpha mauritanica.
Zophosis abbreviata, acutus, algeriana, angolensis, angustus, barbara, bicarinata, boei, carinata, complanata, cursor, curta, delalandei, dytiscoides, errans, germari, gibbi-collis, goryi, linnaei, maillei, minutus, muricatus, nitida, nitidula, nodosa, oblonga, ovata, personata, picipes, plana, plicata, punctata, punctulatus, pusillus, pygmaea, quadricostata, reaumuri, reichei, reticulata, rotundata, rugosa, scabriuscula, schoenherri, semi-lineatus, subinflata, submetallica, suborbicularis, sulcatus, testudinarius, vagans.
Zora ocreata, spinimana.
Zorca arborea.
Zoreva fasciata.
Zorilla striata, variegata.
Zosmenus anticus, laportei, maculatus, quadratus, stephensi, variabilis.
Zosmerus capitatus.
Zosterops abyssinica, albogularis, ambigua, borbonica, caerulescens, capensis, chloris, chloronotus, cinerea, citrinella, conspiciata, curvirostris, dorsalis, flava, flaviceps, japonicus, javanica, lateralis, lugubris, luteus, madagascariensis, maderaspatana, maderaspatensis, meyeri, montana, nicobaricus, pallida, palpebrosus, senegalensis, tenuirostris, virens, westernensis.
Zothea meridionalis.
Zozymus aeneus, granulatus, latissimus, pubescens, rugatus, tomentosus.
Zua lubrica, boissii.
Zuphanusa smithiana.
Zuphea sparsicola.
Zuphium americanum, bicolor, bimaculatum, brunneum, caffer, chevrolati, fasciolatus, fleuriasi, fuscum, longiusculum, numidicum, olens, testaceum, unicolor, ustum.
Zura femoralis.
Zurama pulchella.
Zuzara diademi, semipunctata.
Zygaena (Lep.) achillae, aeacus, algira, ampellophaga, angelica, anthillidis, anthyllidis, aspasia, aurentula, balearica, barbara, bitorquata, brizae, buglossi, caschmirensis, cedri, centaureae, charon, cingulata, cloelia, concinna, consobrina, contaminei, coronillae, corsica, cuvieri, cynarae, daturica, dalmatina, doris, dorycini, dystrepta, erebus, erythrus, exulans, falcatae, faustina, favonia, flaveola, fraxini, globularia, haematina, hilaris, hippocrepidis, iberica, iphimedia, ithon, janthina, jaxetis, jucunda, laeta, laetifica, lathyri, lewini, loniceriae, ludicra, lycastus, lyctius, medicaginis, mediterranea, meliloti, minos, montana, namaqua, olivieri, orana, oxytropis, pasiphae, peucedani, phaegaea, pilosellae, pluto, polygalae, pulchella, punctum, rhadamanthus, romeo, rubicundus, sarpedon, scabiosae, scovitzii, staechadis, stentzi, stoichadis, syracusia, syracusii, transalpina, trifolii, uralensis, valentini, vanadis, venilia, viciae, wiedemanni, xanthographa.
Zygaena (P.) blochi, denticulata, dubia, indica, laticeps, latycephala, malleus, mokarran, platycephalus, serrata, subarcuata, tiburo, tudes, vulgaris, zygaena.
Zygena (Lep.) zuleima.
Zygia flavipennis.
Zygnis bipes, chalcidica, decresiensis, pentadactyla, striata, tridactyla.
Zygobates acuminatus, lalandei, rima, rugosus, studeri, woodwardi.
Zygobatis jussieui.
Zygobothrium megacephalum.
Zygocera canosa, pruinosa.

Zygocrinus tetragonus.

Zygocystis cometa*, ephemeræ.

Zygoneura sciarina.

Zygops albicollis, argus, boisduvali, butfo, cinetipes, disjunctus, furfurachis, germari, hieroglyphicus, hinnulus, histrio, jaspideus, ligatus, mexicanus, ochatinus, oculatus, operculatus, parvulus, pistor, pius, planulus, pleuronectes, quercus, rubricollis, sanctus, scenicus, scutulatus, semialbus, signativentris, sobrius, stigma, stigmaticus, strix, submaculatus, temporarius, tridentatus, vinulus, wiedi.

Zygosaurus lucius.

Zygoselmis nebulosa.

Zygothrica dispar.

Zygothyca coluber.

Zyras haworthi.

Zyxomma petiolatum.

OMISSIONS RECEIVED 1931-1933

- acetosae** Phalaena, Gladbach, Namen Schmett. 1783, 154 [*teste* F. G. H.].
- acuminatus** Belemnites, Schuebler in Zieten, Pétrif. Wurt. 1831, 26 [*teste* L. Bairstow].
- angulatus** Belemnites, Keferstein, Nat. Erdkorp. II. 1834, 424 [*err. pro* unguulatus, Schl., *teste* L. B.].
- anguliforme** Belemnites, Keferstein, Nat. Erdkorp. II. 1834, 424 [*err. pro* unguulatus, Schl., *teste* L. B.].
- angusticollis** Belemnites, Coquand, Bull. Soc. géol. France, IX. 1838, 226 [*n. n.*, *teste* L. B.].
- antiquum** Cymatotherium, J. J. Kaup, Akten d. Urwelt, 1841, 11.
- apicicurva** Belemnites, Blainville, N. Bull. Soc. Philom. Paris, 1825, 171 [*n. n.*, *teste* L. B.].
- atropos** Phalaena, Gladbach, Namen Schmett. 1783, 154 [*teste* F. G. H.].
- blainvillii** Belemnites (*sic*), Catullo, Ann. Stor. Nat. I. 1829, 312 [*teste* L. B.].
- bonelli** Nautilus, Catullo, Ann. Stor. Nat. I. 1829, 314 [*teste* L. B.].
- Briolophus** [*pro* Bry→, Ehr.] Weaver, Ann. Mag. Nat. Hist. VII. 1841, 303.
- carinata** Natica, Sow.; *delete* III. 1832, 419 [*n. n.*].
- cassivus** Pleuronectes, Pennant (*ex* Hanmer MS.), Brit. Zool., ed. 5, III. 1812, 325 [*teste* J. R. N.].
- cenomana** Crisina, d'Orbigny, Prodr. II. 1850, 175.
- chenipodiata** Phalaena, Gladbach [*non* L.], Namen Schmett. 1783, 157 [*teste* F. G. H.].
- coniformis** Belemnites, Parkinson, Org. Rem. III. 1811, 127 [*teste* L. B.].
- coniformis** Belemnites, Muenster, Verz. Verst. Bayreuth, 1833, 77 [*n. n.*, *teste* L. B.].
- conulus** Belemnites, Muenster, Verz. Verst. Bayreuth, 1833, 51 [*n. n.*, *teste* L. B.].

- cylindraceus** Belemnites, Schlotheim, Syst. Verz. Petrif. 1832, 29 [*teste* L. B.].
- cylindriiformis** Belemnites, Parkinson, Org. Rem. III. 1811, 127 [*teste* L. B.].
- cynobati** Phal. Geom., Gladbach, Namen Schmett. 1783, 138 [*teste* F. G. H.].
- digitalis** Belemnites, Blainville, N. Bull. Soc. Philom. Paris, 1825, 175 [*n. n.*]; Mém. Bélem. 1827, 88 [*teste* L. B.].
- fischeri** Ceriopora; *lege* Ceriolina.
- fusiformis** Belemnites, Parkinson, Org. Rem. III. 1811, 127 [*teste* L. B.].
- globatus** Belemnites, Schlotheim, Syst. Verz. Petrif. 1832, 29 [*n. n.*, *teste* L. B.].
- goldfusi** Lucina, G. P. Deshayes, Traité élém. Conch. (2) May 1850, 779.
- graminis** Phal. Noct., Gladbach [*non* Hufn.], Namen Schmett. 1783, 149 [*teste* F. G. H.].
- granulosus** Belemnites, Potiez & M., Gal. Moll. I. 1838, 22 [*err. pro* granulatus, Deffr., *teste* L. B.].
- helveticus** Belemnites, Blainville, Mém. Bélem. 1827, 68 [*teste* L. B.].
- impressus** Belemnites, Voltz in Roemer, Verst. nordd. Oolith. 1836, 170 [*teste* L. B.].
- intermedius** Belemnites, Muenster, Verz. Verst. Bayreuth, 1833, 77 [*n. n.*, *teste* L. B.].
- interruptus** Papilio, de Villers in Linn. Ent. II. 1789, 37 [*teste* F. G. H.].
- ioides** Papilio, Ochsenheimer, Schmett. Sachs. 1805, 136 [*teste* F. G. H.].
- jarockii** Ceriopora; *lege* Ceriolina.

- lactucae** Phalaena, Gladbach, Namen Schmett. 1783, 123 [teste F. G. H.].
- lateralis** Belemnites, Phillips, Geol. Yorksh. I., ed. 2, 1835, 95 & 166 [teste L. B.].
- ligeriensis** Crisina, d'Orbigny, Prodr. II. 1850, 265.
- longiscatus** Belemnites, Orbigny, Pal. franç. (Jurass. I.) 1842, 77 [err. *pro* longisulcatus, Voltz; teste L. B.].
- lycaon** [Papilio], Kuehn, Naturf. III. 1774, 21 [teste F. G. H.].
- lysimachi** Sphinx, Gladbach, Namen Schmett. 1783, 182 [teste F. G. H.].
- medium** Dinotherium, Meyer, Palaeol. 1832, 78; Kaup, N. Jahrb. f. Min. 1833, 419.
- meta** Belemnites, Blainville, Mém. Bélem. 1827, 87 [teste L. B.].
- minutus** Lepus, Pallas, Reise Russ. I. 1773, 155 f.n. [err. *pro* pusillus, 1769 teste T. L. C. Musters].
- mirabilis** Plectrodus, Agassiz in Murchison, Silur. Syst. 1830, 606 & 704 [teste E. I. W.].
- mutica** Terebratula, Catullo, Ann. Stor. Nat. I. 1829, 316 [teste L. B.].
- nanus** Belemnites, Muenster, Verz. Verst. Bayreuth, 1833, 51 [n. n., teste L. B.].
- ornithocephalus** Belemnites, F. A. Roemer, Verst. nordd. Oolith. 1836, 169 [teste L. B.].
- orpheus** Papilio, Ochsenheimer, Schmett. Sachs. 1805, 330 [teste L. G. H.].
- osterfieldensis** Belemnites, Blainville, N. Bull. Soc. Philom. Paris, 1825, 174 [n. n., teste L. B.].
- piri** Phal. Geom., Gladbach [non Scop.], Namen Schmett. 1783, 157 [teste F. G. H.].
- pirifolii** Phalaena, Gladbach, Namen Schmett. 1783, 182 [teste F. G. H.].
- pleiopristis** Plectrodus, Agassiz in Murchison, Silur. Syst. 1830, 606 & 704 [teste E. I. W.].
- prismatica** Acamarchis, J. E. Gray in Dieffenbach, Trav. N. Z. II. 1843, 292 [teste S. F. H.].
- quadrangulatus** Belemnites, Schlotheim, Syst. Verz. Petrif. 1832, 29 [n. n., teste L. B.].
- quercus** Phal. Noct., Gladbach [non L.], Namen Schmett. 1783, 152 [teste F. G. H.].
- reticulatus** Belemnites, Schlotheim, Taschenb. Min. VII. 1813, 110 [teste L. B.].
- sagittariae** Phalaena, Gladbach, Namen Schmett. 1783, 123 [teste F. G. H.].
- salicis** Papilio, Kuehn, Kurze Anleit., ed. 2, 1783, 101 [teste F. G. H.].
- semiconcavus** Belemnites, Schlotheim, Syst. Verz. Petrif. 1832, 30 [teste L. B.].
- semistriatus** Belemnites, Muenster, Bemerk. Belem. 1830, 15 [teste L. B.].
- spatula** Belemnites, Blainville, N. Bull. Soc. Philom. Paris, 1825, 175 [n. n.; teste L. B.].
- spiniformis** Crisid., *err. pro* s-formis, Benoit, Farfalletta, I. 1842 (1843), 173.
- studerii** Belemnites, Bronn, Index pal. 1848, 157 [teste L. B.].
- subcanaliculatus** Belemnites, Schuster, N. Jahrb. f. Min. 1835, 142 [teste L. B.].
- subtetragonus** Belemnites, Muenster, Verz. Verst. Bayreuth, 1833, 77 [n. n., teste L. B.].
- subulatus** Belemnites, Schlotheim, Syst. Verz. Petrif. 1832, 30 [n. n., teste L. B.].
- Tenestella** *err. pro* Fenestella, Lonsd.; J. Hall, N. H. New York (Geol. IV.) 1843, 509.
- tetragostoma** Belemnites, Blainville, N. Bull. Soc. Philom. Paris, 1825, 174 [n. n., teste L. B.].
- tiphon** [Papilio], Kuehn, Naturf. III. 1774, 21 [teste F. G. H.].
- tisiphone** Papilio, Ochsenheimer, Schmett. Sachs. 1805, 259 [teste L. G. H.].
- trisulcus** Belemnites, Bayer, Oryct. Norica, 1758, 18 [teste E. v. Bülow-T.].
- uvae ursi** Coccus, Linnaeus, F. Suec., ed. 2, 1761, 260 [teste L. G. H.].
- vergy** Papilio, Ochsenheimer, Schmett. Europa, I. 1808, 292 [teste F. G. H.].
- vitis** Phal. Geom., Gladbach, Namen Schmett. 1783, 152 [teste F. G. H.].
- voltzii** Belemnites, Muenster, Verz. Verst. Bayreuth, 1833, 51 [n. n., teste L. B.].
